This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello everyone. Dennis here, a native SF resident (75+ years) + a home owner. I hope you all are doing well. Its 7.25.2021 @4:46pm.

When it comes up, I vote a **no** for new 20k\$'s trash bins/cans (each). 1. Why can't the current ones be fixed? 2. The new ones look great, but still too costly. 3. How many will be replaced? 4. What will be the monthly cost for the tech wif to notify the (who) that the bin is full. 5. Where are the funds coming from? 6. I encourage you all to revisit this item when it comes up, 7. It need some sound justification.

Several times in the past I have used the 311 system to have these bins emptied and it worked. Food for thought, when these current bins get full, the wind will blow a lot of this trash all over the street/s. And that's one of the reasons why we have so many dirty streets.

I have not seen neither the mock up, details, specs and etc of for this trash bin. I hope it can survive the abuse the current ones.

As always, thanks for letting me send in my comments/opinion here. If anyone has any comments to my rambling email, please chime back. I would like your thoughts to my rambling email ref to the new proposed trash bins.

Finally! Thank you all for all that you do for our community and City. I appreciate it.

All the best
DHsf
