Residents of the four neighborhoods targeted in this project: Bayview, Visitation Valley, Mission and Excelsior have historically underreported crimes as a result of deep-seated distrust and disconnect between the community and the criminal justice system. Moreover, lack of awareness and misinformation about the services available through the SFDA's Victim Services Division prevents and deters victims from seeking help. In an effort to address these issues, we are assigning Victim Services Advocates – from the community – to support community residents in the target areas. The role of the Advocates will be to build partnerships and collaborate with existing services and resources, identify and engage victims and witnesses of crime affected by gang violence, and integrate victim services resources into the community as a vital and important partner.**

Project Narrative

PROBLEM STATEMENT

Demographics and Victim Focus Population

The City and County of San Francisco is the financial and cultural core of a metropolitan area composed of nine Bay Area counties with a combined population that exceeds 7 million people. San Francisco, the only city-county dual jurisdiction government in California, covers approximately 46 square miles and is home to an estimated 863,732 people (U.S. Census Bureau Quickfacts). Although the city enjoys one of the highest average household incomes in California, \$105,000, and highest education levels with more than 69% holding at least an associate's degree, there is unfortunately great disparity in resources in the community. Socio-economic disparities have had profound impact on some neighborhoods for generations. The economic growth from technology, biotech and real estate has positively impacted some, but not all.

In San Francisco, four zip codes have been identified for disparities of income, violence, victimization and crime associated with gang violence. These neighborhoods are in the Eastern and Southern half of the city and include the Bay View (94124), Visitation Valley (94134), Mission (94110), and the Excelsior (94112). These communities are comprised predominately people of color who are also low-income, and meet one of six other criteria: limited English proficiency, zero-vehicle households, seniors aged 75 and up, people with disabilities, single-parent families or cost-burdened renters. These four neighborhoods have the highest number of gang related crimes and violence and those crimes have huge impact on the children, youth, families and elders living there.

Subrecipient: City & County of San
Francisco/SFDA

Subaward #: _____

The San Francisco District Attorney's Office Victim Service Division (SFDA VSD) proposes to build a comprehensive community based victim service model that focuses on engaging victims of gang violence and young men of color involved in gang activity from the four neighborhoods in San Francisco most affected by this type of victimization. The goal of the project is to provide vital services and resources to victims and witnesses of gang violence in order to disrupt the cycle of violence and prevent further victimization or perpetration of violence.

Marginalization Factors, Challenges and Need for Focused Services

Violence is caused by multiple risk factors including poverty, poor housing, illiteracy, substance abuse, mental illness, community disintegration, and witnessing and experiencing violence.

The four neighborhoods identified for this project: the Bayview, Visitation Valley, Mission and Excelsior have long histories of gang violence, violence and victimization. Most families there are impacted by or involved in criminal activity, as a victim and/or offender. The prevalence of gun violence in these neighborhoods has resulted in the community as a whole feeling the impacts of exposure to violence, either as a direct victim or witness (seeing and hearing gunfire), or through the loss of friends and family members, or through the apprehension that people carry with them in their daily lives.

Gang violence can have a profound impact on individuals, families and communities. Youth and adults involved in gang violence are not only at risk to physical harm and death, but also experience high correlations with other high risk behaviors like substance abuse, sexual risk taking, poor physical health and chronic victimization. It is not only the person involved in the gang that suffers these consequences, families are also broken as a result of the violence, incarceration, and fragmented relationships.

Young men of color in gangs are engaging in deadly rivalries, where their status as offender or victim can depend on the luck of a shot. In addition, the close-knit nature of the predominately African American and Latino communities has led to a complex web in which victims and offenders, and their own families, have deep and longstanding connections with each other. Community violence decreases the real and perceived safety of a neighborhood; disrupting social networks by inhibiting social interactions and causing chronic stress among the residents who have to worry about their safety. Children who grow up in violent neighborhoods are particularly vulnerable. Witnessing and experiencing violence disrupts early brain development and has long term impact on physical, emotional and behavioral health including increased risk for victimization, depression, suicide attempts, smoking, obesity, high risk sexual behaviors, truancy, unintended pregnancy, eating disorders and substance abuse. Children who directly and indirectly witness gang violence are also at risk as innocent victims of violence. Additionally, people living in communities inside gang territories experience chronic stress and mental health problems that can lead to chronic disease, according to the Center for Disease Control (CDC).

Statistics and Support of Need

The last twenty years there has been a steep population growth in San Francisco. Due to limited existing and new housing, many of the once affordable, working class neighborhoods now have skyrocketing rents and home values. As young, affluent people move into the city, poor children, families and elders are even further marginalized and displaced. The changing demographics of these neighborhoods have resulted in shifts in offender/victim demographics as well. As African American, Latino and Samoan families have moved into the four neighborhoods targeted in this proposal, and particularly in public housing complexes, there has been an increase in violent

gang crimes, with deadly results. Many families have expressed concern about being targeted for robberies, but may be wary of law enforcement based on experiences with government practices in their countries of origin. An influx of monolingual Latino families has led to additional unmet service needs – and community members who may be reluctant to turn to law enforcement due to immigration status.

SFDA's VSD data for fiscal year 2016 provide a snapshot of services rendered during that year. The Division served nearly 8,500 (charged and uncharged) victims of violent crime, and 1/3 of all crime victims came from 4 zip codes 94110 (9%), 94112 (8%), 94124 (10%) and 94134 (5%). According to the most recent data, 8% of those victims were under the age of 18 and 12% were between the ages of 18-24. Additionally, 30% were Latino, who represent 15% of SF population and 19% were African American, compared who only represents 6% of the SF population. In 2016 there were 58 homicides reported in San Francisco, 40 of which were the result of gun violence. Additionally, in 2016 there were 6,777 reported violent crimes (rape, aggravated assault and sex trafficking) and gun violence rose by 45% from the prior year. In that same year there were 189 gun violence victims and police seized 1,216 firearms in San Francisco. Also, between July 2016 and July 2017, the SFDA Gang Unit 152 felony gang cases presented to the district attorney's office, 80% of which were charged with felonies. When compared to the crime data for the same neighborhoods, it is clear we are not engaging the majority of victims affected by these crimes. This vicious cycle of victimization and crime is a reflection of unidentified/assessed/treated trauma. This requires a targeted, innovative plan to address the challenges and build on the resiliencies.

PLAN

Residents of the four neighborhoods targeted in this proposal: Bayview, Visitation Valley, Mission and Excelsior have historically underreported crimes as a result of deep-seated distrust and disconnect between the community and the criminal justice system. Moreover, lack of awareness and misinformation about the services available through the SFDA's Victim Services Division prevents and deters victims from seeking help. Over the last two years we have consistently heard that community members who do want assistance would feel most comfortable seeking support from an individual with roots in their community and shared life experiences. In response to this information, we hired a victim advocate who was from that community and have received overwhelmingly positive feedback about the growing trust, confidence and engagement with services.

In an effort to address these issues, we are proposing to hire two full-time Victim Services Advocates – from the community – to support community residents in the target areas. The Advocates will be stationed at two of our partner agencies. The first is Child Advocacy Center, located in Eastern Bayview, and where children, families and adults can access a variety of health, mental health and legal resources. Victim Services has a satellite office at this location and the facility is centrally located and easily accessible to Bayview and Visitation Valley residents by public transportation. In addition to providing services at this site, the Bayview/Visitation Valley advocate will provide services at multiple service agency partners (see Operational Agreements) to outreach to victims and community members.

The second site where the Mission/Excelsior advocate will be out stationed is at University of California, San Francisco Zuckerberg General Hospital in the Mission district, the city's only

Trauma One hospital. We will have a satellite office at the facility and it is centrally located and easily accessible to Mission and Excelsior residents by public transportation. At this location we will partner with a comprehensive UCSF Wrap-Around Program targeting victim of gun violence. The Wraparound Project works to reduce injury and criminal recidivism in the most vulnerable victims. It serves as a vital point of entry, providing mentorship and linking clients to essential risk-reduction resources. The hospital based satellite office is key in serving the Mission and Excelsior districts as the Latino gangs prevalent in these two areas are very territorial and a safe, neutral space is needed to engage the highest risk victims/witnesses. In addition to this site, the Mission/Excelsior advocate will provide services at multiple service agency partners (see Operational Agreements) to outreach to victims and community members. Both Advocates will work closely and collaboratively with the San Francisco Public Health Department's Crisis Intervention Team (CIT) (see Operational Agreements). CIT is a 24 hour response to violent victims of crime, including gang violence, throughout the city. The Victim Services Division has a great working relationship with them and coordinates to respond to homicide and pedestrian fatality cases. Under this new program, the Victim Services Division Community Advocates would also respond to gang violence incidents.

The role of the Advocates will be to build partnerships and collaborate with existing services and resources, identify and engage victims and witnesses of crime affected by gang violence, and integrate victim services resources into the community as a vital and important partner. The Advocates will take a holistic approach to serving victims – regardless of whether the incident results in a court case – assisting them in connecting with resources including housing, employment, legal services, health and mental health, and other community based services. crimes that do result in criminal prosecution, the Advocates will support clients through the reporting and court process including court accompaniment, transportation to/from court, relocation, and restitution services. Finally, the Advocates will assist clients in securing victim compensation as appropriate.

These two Advocate positions will differ from current SFDA staffing in several key ways:

a. We will identify individuals with roots in the target communities to fill these positions.

Ideally, the individuals will have grown up in the community, had exposure to the justice system and other City systems, and maintains connections with community members.

b. The Advocates roles will be broader than our centrally located Victim Services staff; they will have a continual community presence, including at community events and stakeholder meetings.

A significant part of the Advocates time, at least initially, will be dedicated to providing accurate, consistent information about SFDA Victim Services throughout the targeted communities.

c. The Advocates will build expertise about a broad range of culturally and linguistically competent services located within in the community, so that they can provide holistic services to clients.

d. And as mentioned above, the Advocates will be a member of the community's crisis response team, working with the SFPD, DPH and community organizations to ensure that SFDA Victim Services are provided to victims in a timely and coordinated way.

The Community Victim Advocate team will be central in helping to build trust in the community, engaging vulnerable victims who don't typically access service, and outreaching to collateral victims of gang violence- particularly children, in an effort to decrease future violence

and victimization. . The Community Advocates also will play a key role in public awareness campaigns around the SFDA's Victim Services Division, gangs violence, victimization and victim assistance.

Measurable Project Goals and Objectives

Our proposed strategies are grounded in four assumptions:

1. Healing victims and witnesses reduces recidivism.
2. Healing victims and witnesses reduces delinquency and criminal behavior.
3. Community based victim services increase engagement with vulnerable victims and increase public safety.
4. Supporting a community-generated public safety project will increase social cohesion and community resiliency.

Goal 1: Improve direct services/access to services for victims and witnesses of gang crimes.

Objective 1: Recruit, hire and train 2 Advocates to be out-stationed in neighborhoods most affected by gang violence.

Objective 2: Serve 400 victims affected by gang violence per year.

Goal 2: Increase neighborhood empowerment, engagement, resiliency and capacity (of both residents and organizations) to prevent and address gang violence victimization.

Objectives 1: Engage with community members, schools and service agencies in order to inform them about services and resources for victims and witness of crime at 10 events per year.

Objectives 2: Outreach at 10 community events, fairs and celebrations per year.

Goal 3: Increase community trust, collaboration and engagement with the criminal justice system and Victim Services Division.

Objective 1: Organize 4 training on victim services, victim compensation and the impact of gang violence on the community for stakeholders and community members per year.

Objective 2: Organize 1 public awareness campaign during the course of the grant period to inform public about accessing mental health services for victim and witness of gang violence.

Alignment with KI grant

The proposed program is aligned with the KI grant purpose of 1) responding to emotional and physical needs of crime victims; 2) helping primary and secondary victims of crime stabilize their lives after victimization, 3) help victims to understand and participate in the criminal justice system, and 4) provide victims with a measure of safety and security. The focus of the project is on serving primary and secondary victims of gang violence, including an emphasis on young men of color involved in gang in order to break the cycle of violence and victimization.

Innovation in Project Design, Impact and Sustainability

In addition to the comprehensive services provided by the Victim Services Division, the Community Advocacy program will allow the Division to expand and extend its reach into the communities most affected by violent gang crimes in the short and long term. We anticipate reaching not only the primary victims of gang violence, but the secondary victims and those causing the gang violence. Our approach to community based advocacy will allow us to build trusting relationships in communities most affected by gang violence, but historically underserved by victim of crime services. Over the course of two years, we will serve approximately 400 primary and secondary victim of crime in this program. Our plan is to integrate this innovative method of community based service into our regular service delivery plan from here forward, as a response to the changing needs and dynamics of victims.

CAPABILITIES

Direct Services

The SFDA's Victim Services Division has a long history of providing direct services to the victims of crime in San Francisco. For the last forty years, the Division has worked to address the needs of violent crime. In 2016, the Division served nearly 8,500 victims, process \$1.6 million in crime victim compensation and presented 350 hours community training. With a staff of 24 Advocates and 7 Claim Specialists, the Division has a deep impact on the health, safety and recovery of crime victims in San Francisco.

Marginalized Victims

For the last three years, the Division has worked very hard to engage the city's most vulnerable victims of crime. Specialized programs for victims of sexual assault, human trafficking, elder abuse and domestic violence are among a few of the innovative strategies to meet the unique needs of vulnerable victims. Additionally, in 2016, the Division developed two new programs for the elder abuse unit including one for homeless elders and dependent adults and one for elder pedestrian fatalities.

Additionally, we have had a successful pilot program in the Bayview providing community based advocacy with promising outcomes and data including significant access to resources for victims and improvement in connection to services. This grant is coming to an end in 2017, and we hope to build on its success with this proposed program.

All staff and volunteers working in these specialized units receives additional training and supervision to accommodate the unique needs of the target population. Specialized training includes: Cultural Humility, Implicit Bias, Trauma Informed Care and Advanced Advocacy.

Our goal with the Community Based Victim Advocacy program is to integrate it into our standard Division service delivery plan and general budget. We plan to continue the program after the KI grant period by leveraging funding for our VW grant and the SFDA general budget. We are committed to reaching and serving the most vulnerable and most affected members of the city.

Administering Grant Programs

Our office has a solid and successful history managing local, state and federal grants. The SFDA Grants Manager is lead representative for the office on programmatic grant responsibilities. This position oversees pre- and post-award grant administration and ensures regulatory compliance and may manage grant-funded programs. 7. PROGRAM DESCRIPTION			
<p>Residents of the four neighborhoods targeted in this proposal: Bayview, Visitation Valley, Mission and Excelsior have historically underreported crimes as a result of deep-seated distrust and disconnect between the community and the criminal justice system. Moreover, lack of awareness and misinformation about the services available through the SFDA's Victim Services Division prevents and deters victims from seeking help. In an effort to address these issues, we are proposing to hire two full-time Victim Services Advocates – from the community – to support community residents in the target areas. The role of the Advocates will be to build partnerships and collaborate with existing services and resources, identify and engage victims and witnesses of crime affected by gang violence, and integrate victim services resources into the community as a vital and important partner.</p>			
8. PROBLEM STATEMENT			
<p>Violence is caused by multiple risk factors including poverty, poor housing, illiteracy, substance abuse, mental illness, community disintegration, and witnessing and experiencing violence. The four neighborhoods identified for this project have long histories of gang violence, violence and victimization. Most families that are impacted by or involved in criminal activity, as a victim and/or offender. The prevalence of gun violence in these neighborhoods has resulted in the community as a whole feeling the impacts of exposure to violence, either as a direct victim or witness, or through the loss of friends and family members, or through the apprehension that people carry with them in their daily lives. This vicious cycle of victimization and crime is a reflection of unidentified/assessed/treated trauma. This requires a targeted, innovative plan to address the challenges and build on the resiliencies.</p>			
9. OBJECTIVES			
<p>Improve direct services/access to services for victims and witnesses of gang crimes.</p> <p>Increase neighborhood empowerment, engagement, resiliency and capacity (of both residents and organizations) to prevent and address gang violence victimization.</p> <p>Increase community trust, collaboration and engagement with the criminal justice system and Victim Services Division.</p>			

10. ACTIVITIES

Dear Budget/Finance Sub-Committee Clerk Linda Wong,

I'm writing you because my iPad won't cc: to a group of people like the Board. So if you could forward this to the three members of the Budget/Finance Sub-Committee I would appreciate it, thank you.

I'm writing in support of the following three items (File No's. 180334, 180343, 180344)
180334- Accept and Expend Grant-California Governor's Office of Emergency Services, Victim/Witness Assistance Program - \$984,876; 180343- Elder Abuse Program -\$700,000; 180344- Innovative Response to Marginalized Victims Program.

All three of these vital to our communities programs help in establishing stability within our neighborhood communities victimized by those who want to harm our seniors, disabled and family populations, living in the Tenderloin and having in the 80's, worked as a community first responder "Block Captain" I have seen and been a victim of the criminal element within our district. My wife (now passed), has been a victim several times of criminals taking advantage of her disabled/senior person, both here in the Tenderloin (Eddy/Jones) & Polk Gultch (1524 Polk-Walgreens sidewalk).

So I understand really well this issue. And it with this knowledge that I fully support this issue and hope both this committee and the full board supports these important issues.

Sincerely,

Marvis J. Phillips
Resident and Community Activist/Block Captain 40+yrs Tenderloin
