REVISED LEGISLATIVE DIGEST
(Amended in Committee, 06/13/2022)

[Administrative Code - Housing Innovation Program]

Ordinance amending the Administrative Code to create the Housing Innovation Program to develop, finance, and support certain additional housing opportunities for low-income and moderate-income residents, including loans and technical assistance for certain low-income and moderate-income property owners to construct accessory dwelling units or other new units on their property, subject to certain conditions, loans for certain low-income and moderate-income tenants who are at risk of displacement and licensed childcare providers, and grants for organizations to create marketing and educational materials about wealth-building and homeownership for residents who have been historically disadvantaged and to develop creative construction design prototypes for low-income and moderate-income residents.

Existing Law

The City and County of San Francisco (the “City”) provides an array of rental housing and homeownership programs. The Mayor’s Office of Housing and Community Development (“MOHCD”) currently administers certain loan and grant programs for the construction, acquisition, and preservation of affordable housing units, such as homeownership programs that provide income-eligible residents with grants or loans to purchase or rehabilitate single-family homes. There is currently no legal requirement that the City create a program for innovative housing solutions to complement the City’s existing housing programs.

Amendments to Current Law

This ordinance would create a new Housing Innovation Program, administered by MOHCD, to complement the existing housing financing programs currently administered by MOHCD by:

- Providing grants to organizations to create marketing and educational materials about wealth-building and homeownership and to increase participation in the Housing Innovation Program, with the goal of increasing housing preservation and participation in homeownership by current and displaced San Francisco residents who have been historically disadvantaged by government and private actions and at high risk of displacement, and to develop creative construction design prototypes that could be pre-approved for simplified permitting and financing options for low-income and moderate-income residents;

- Providing loans and technical assistance for low-income and moderate-income property owners to construct accessory dwelling units or other new units on their property, with the goal of supporting multi-generational living and/or aging in place; and
 - Such loans and technical assistance would be subject to certain conditions, including but not limited to entering into an agreement subjecting the new units to rent control, requiring owners to waive their ability to displace tenants from the new units in accordance with the Ellis Act, accelerating repayment of the loan if the owner no longer uses the residence or the new units as their primary residence, extending the loan repayment period if the owner enters into an agreement to receive referrals of households with rental subsidies to fill vacancies, and prohibiting assistance for property owners who have violated the Residential Rent Stabilization and Arbitration Ordinance or displaced one or more tenants at their property pursuant to the Ellis Act within the prior 10 years;
- Providing down payment assistance loans to low-income and moderate-income tenants for the acquisition of a residence by licensed childcare providers or certain at-risk tenants.

MOHCD would be authorized to administer the Housing Innovation Program through one or more qualified organizations.

Dear Committee Chair Melgar and Supervisors Preston and Peskin,

I am writing on behalf of the San Francisco Anti Displacement Coalition regarding Housing Innovation Program legislation sponsored by Supervisors Melgar, Mar, and Mandelman scheduled for committee hearing today.

We are pleased to see that the updated legislation addresses many of the concerns we raised in January when it was initially introduced. The new language includes stronger protections against no-fault evictions before, during, and after the loan period, disincentivising use of this program by speculators. It also incentivises the rental of new units to tenants receiving rental subsidies, increasing the likelihood that this program will benefit the low and middle income families and seniors in need of affordable housing options.

We hope that the Housing Innovation Program will be an effective tool in an expanding city toolbox aimed at stabilizing low-income homeowners and renters and supporting housing development that creates the affordable units we so clearly need.

"Setting and driving the early care and education agenda for San Francisco's children and their families"

January 31, 2022

San Francisco Board of Supervisors
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

Re: Housing Innovation Program

Dear Supervisors Melgar, Preston, and Peskin,

As a coalition of San Francisco early care educators, parents, child care resource and referral agencies, and child care stakeholders we write to advocate for essential local, statewide and federal financial support during the COVID-19 pandemic, and during recovery.

Our top priority as San Francisco early care and education (ECE) advocates is to stabilize funding for existing child care educators and programs, as well as provide increased funding for the reduced child to staff ratios, sanitation, and PPE required to continue service to essential workers, vulnerable populations, and reopen to support San Francisco's return to work.

We are writing to support **File 211232 [Administrative Code - Housing Innovation Program]** introduced by Supervisor Melgar and co-sponsored by Supervisor Mar. This program will invest in new ways to support working families who want to stay in San Francisco. Additionally, it provides an incentive for those interested in the early care and education field. Many of the eligible uses of this program would benefit early care educators. Family child care providers who do not own their homes are at high risk of displacement. By offering family child care providers the support to purchase their own homes, they will be provided long-term stability and the ability to run their early care education programs. We would welcome the inclusion of rental security deposits, monthly subsidies, or other mechanisms. We need to expand our tools to keep our essential early care educators housed in San Francisco, both our home-based family providers and center teachers.

We thank you for your consideration and we urge your support.

Thank you,
