

The New York Times July 21, 2022

>>San Francisco Shines With New Museums, Restaurants and Parks

“.....While undoubtedly challenging, the past two years have had a silver lining: Outdoor dining and drinking cropped up everywhere, from long-established restaurants like Nopa to brand-new spots like ***Casements***, a modern Irish bar in the Mission that opened in January 2020. The bar had originally planned to be a cozy, indoor-only affair, but instead it now serves stellar cocktails on **one of the best patios in the city.....**”

- Our hours of operation were cut by 28 hours
- Since the imposition of the curfew at the January hearing Casements has been operating at a loss

- We are requesting for 9 of those hours to be restored
 - Those 9 hours would be the difference between this small business being profitable and and us operating at a loss.
-

Many patios in the Mission
are open later than 10pm

- 11pm on Sunday thru Thursday
- Midnight on Fridays & Saturdays

- We will not have amplified or live music outside after 10pm
-

THE PARKING LOT

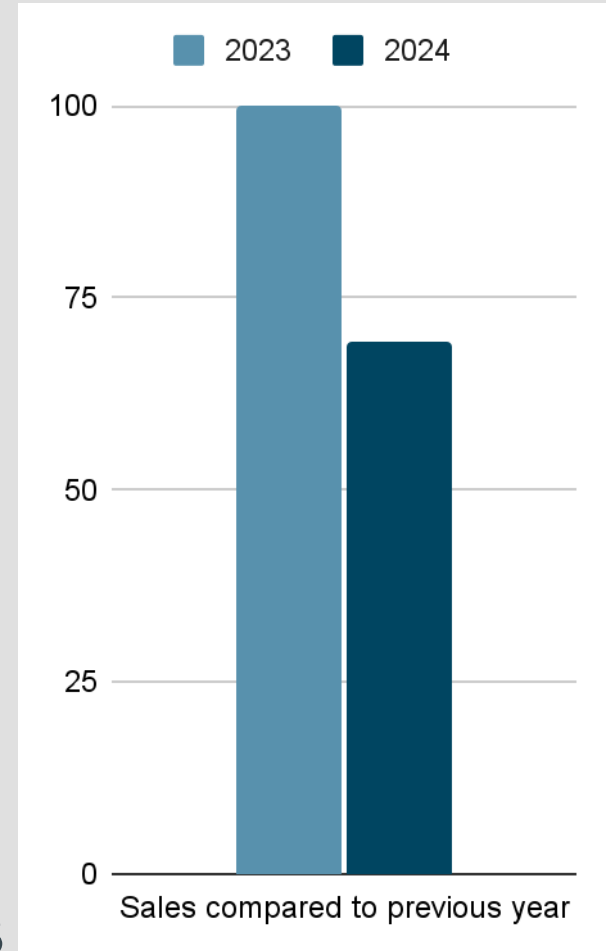

Impact of the Curfew

Post 1/25/24 Planning Commission Hearing

- 30.63% reduction in sales after 10pm.

- 30.63% reduction in sales after 10 pm.
- 66.9% reduction in sales after 10pm on Fridays and Saturdays.
- 18.93% reduction in tips earned by staff
- 17.7% reduction in labor hours
- 16.49% reduction is Sales Tax.

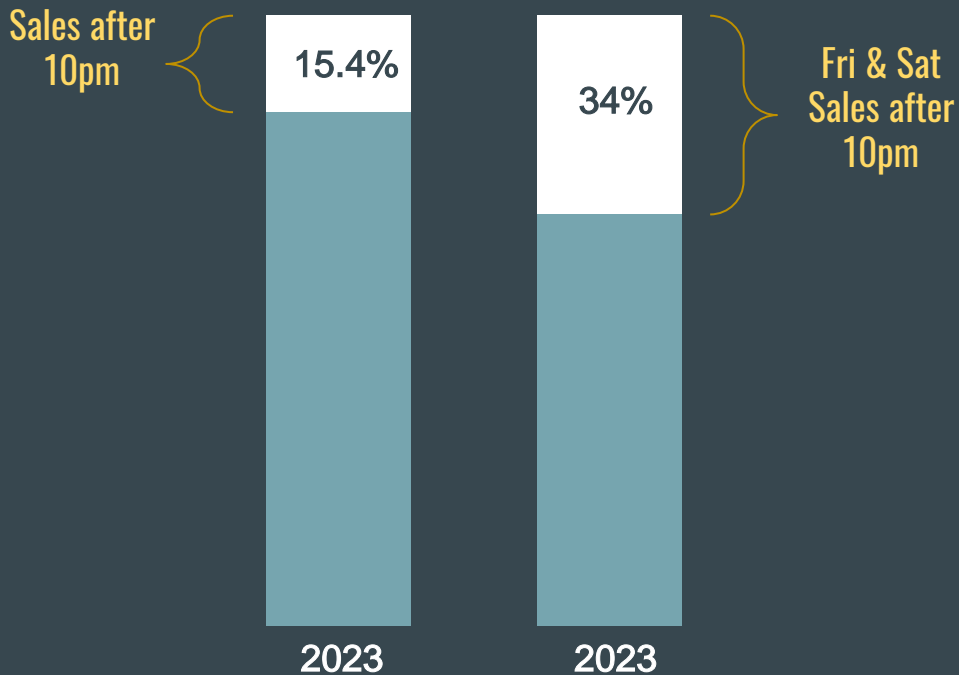

*All figures relate to the same period in 2023

2023

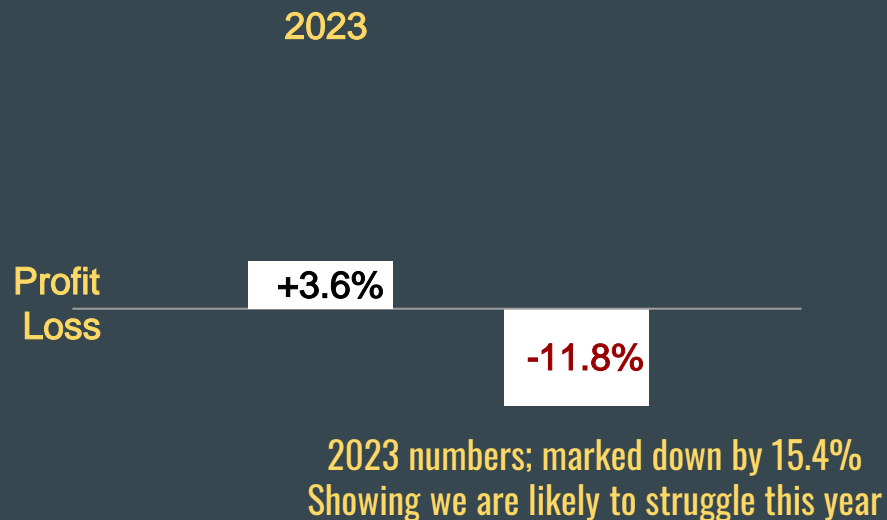

In 2023 15.4% of sales at Casements came after 10 pm.

On Fridays and Saturdays of 2023 that figure was over 34%.

2023

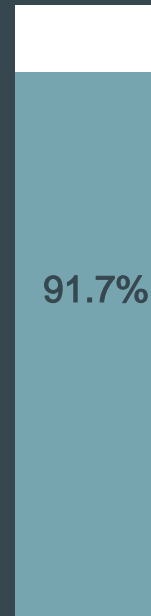

A 15.4% reduction in sales in 2023 would have meant Casements would have lost money, and our future as a business would be uncertain.

2023

91.7% of the sales Casements would potentially lose from a 10 pm patio curfew came in the 9 hours we are requesting to not be eliminated.
