[Administrative Code - E-Bike Incentive Fund]

Ordinance amending the Administrative Code to establish the E-Bike Incentive Fund to support implementation of an electric bicycle (or “e-bike”) incentive program administered by the Department of the Environment.

NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
Additions to Codes are in single-underline italics Times New Roman font.
Deletions to Codes are in ~~strikethrough italics Times New Roman font~~.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in ~~strikethrough Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Article XIII of Chapter 10 of the Administrative Code is hereby amended by adding Section 10.100-66, to read as follows:

SEC. 10.100-66. E-BIKE INCENTIVE FUND.

(a) Establishment of Fund. The E-Bike Incentive Fund (“Fund”) is hereby established as a category eight fund to support an electric bicycle (“e-bike”) incentive program aimed at promoting sustainable transportation, reducing traffic congestion, improving air quality, and supporting equity in transportation access across San Francisco.

(b) Sources of Funds. The Fund shall receive monies appropriated, donated, or granted for the purposes of supporting the e-bike incentive program.

(c) Use and Administration of Fund.

(1) Responsible Agency. The Department of the Environment (“Department”) shall administer the Fund. The Department may, in its discretion, adopt rules, regulations, and/or guidelines for the distribution of monies in the Fund, consistent with the criteria set forth in subsection (c)(2).

1 (2) Allowable Uses of Fund. Subject to the budgetary and fiscal provisions of the
2 Charter, monies in the Fund may only be expended for the following purposes:

3 (A) Providing financial incentives and/or point-of-sale rebates to City
4 residents for the purchase and/or maintenance of e-bikes that meet the definition of Safety-Certified
5 Powered Mobility Devices in Section 325 of the Fire Code, as it may be amended from time to time,
6 and related bike safety and/or security accessories, subject to the following restrictions:

7 (i) The Department shall make best efforts to ensure that 40% or
8 more of funds disbursed over a fiscal year are disbursed to people who either are low-income, reside in
9 City neighborhoods that are disproportionately burdened by pollution, or reside in City neighborhoods
10 that are disproportionately lacking in public transportation. Individuals that meet these criteria
11 include but are not limited to individuals from neighborhoods that are 1) identified on the California
12 Air Resources Board's Priority Populations Map as being a disadvantaged community and/or low-
13 income community; and/or 2) identified on the San Francisco County Transportation Authority's
14 Equity Priority Communities Map as an Equity Priority Community.

15 (ii) Financial incentives and/or rebates shall only be available for
16 purchases or services from retailers located within the City, except for adaptive e-bikes, for which
17 purchases or services outside the City may qualify for incentives and/or rebates, in the Department's
18 discretion.

19 (iii) The Department shall prioritize distribution of funds to
20 individuals with greater financial need.

21 (B) Outreach and educational programs to promote the proper use of e-bikes,
22 including education on safe charging and disposal.

23 (C) Data collection, evaluation, and reporting on the impact and
24 effectiveness of the e-bike incentive program and/or feedback from participants to inform other City
25 policies, programs, and/or infrastructure projects.

1 (D) Administrative (e.g., labor and overhead) and contracting costs incurred
2 by the Department or other City departments associated with the management and implementation of
3 the e-bike incentive program, associated outreach and education programs, and associated data
4 collection, evaluation, and reporting.

5 (d) Outreach and Coordination. The Department shall conduct outreach with the goal of
6 ensuring equitable access to e-bike incentives. The Department shall conduct outreach aimed at
7 reaching individuals who either are low-income, reside in City neighborhoods that are
8 disproportionately burdened by pollution, or reside in City neighborhoods that are disproportionately
9 lacking in public transportation, as described in subsection (c)(2)(A)(i). The Department shall conduct
10 this outreach in coordination with the Mayor's Office on Disability, community-based organizations,
11 bike retailers, and/or other community partners.

12 (e) Reporting. The Department shall maintain a record of Fund revenues and expenditures.
13 The Department shall provide reports to the Board of Supervisors on the program's operations on the
14 following schedule: the first report shall cover the e-bike incentive program's first fiscal year of
15 operation, and shall be submitted no later than October 31 following the first fiscal year throughout
16 which the Department has operated an e-bike incentive program continuously; the second report shall
17 be due no later than October 31 of year following submission of the first report, and shall cover the
18 operation of the program during the fiscal year preceding the report submission; and subsequent
19 reports shall be submitted as requested by the Board of Supervisors.

20
21 Section 2. Effective Date. This ordinance shall become effective 30 days after
22 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
23 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
24 of Supervisors overrides the Mayor's veto of the ordinance.

1 Section 3. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
2 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
3 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal
4 Code that are explicitly shown in this ordinance as additions, deletions, Board amendment
5 additions, and Board amendment deletions in accordance with the “Note” that appears under
6 the official title of the ordinance.

LEGISLATIVE DIGEST

[Administrative Code - E-Bike Incentive Fund]

Ordinance amending the Administrative Code to establish the E-Bike Incentive Fund to support implementation of an electric bicycle (or “e-bike”) incentive program administered by the Department of the Environment.

Amendments to Current Law

This ordinance would create a category eight fund, administered by the Department of the Environment (“Department), to support an e-bike incentive program. Monies in the fund could be used to provide incentives and/or rebates to City residents for the purchase and/or maintenance of e-bikes and related safety and security accessories from City retailers, and for outreach and education, data collection, evaluation and reporting, and administration of the program.

The Department would be directed to prioritize distribution of any monies in the fund to individuals from neighborhoods that are disproportionately burdened by pollution and/or disproportionately lacking in public transportation, and individuals with greater financial need.

The Department would be required to report to the Board on the operation of an e-bike incentive program by October 31 following the end of the first fiscal year during which the Department operated such a program continuously throughout the fiscal year, to report a second time by October 31 of the following year, and to provide further reports as requested by the Board.

The Board of Supervisors,

I am writing to urge you to fund the E-Bike Incentive Program, which will help more families, workers, and other people shift trips from cars to bikes, increasing safety, affordability, and equity, while reducing car traffic, demand for car parking, noise, air pollution, climate emissions, roadway construction and maintenance costs, and roadway crashes, fatalities, and injuries. Please work with the advocates behind the original program proposal to secure funding for the program from City, SFCTA, MTC, state, federal, and other funding sources (e.g. philanthropic foundations, wealthy individuals).

The e-bike incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — will reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the original program proposal and related grassroots campaign at https://url.lavanan.click/v2/r01/_https://eBikeSF.org____YXAzOnNmZHQyOmE6bzpjMmQxZTdKODQzN2lxYzU0ODUwYjE5OTdmZjYzZTUwZTc0OmFkY2E6MmNiOGVlODVlOGQzNzg5ODZmNGJlMDM4OGMyZmUwZjFjZTNmOGYxYTl4M2YwZDI0ZmRhMDEyZjA3MzUwYTcwMTp0IQI6TG.

In order for this program to be created and have its full potential impact, we need you to secure funding for the program. Will you commit to doing everything in your power to secure as much funding as possible as soon as possible?

Thank you.

The Board of Supervisors,

I've been riding an e-bike for about 13 years, ever since I had to start hauling my son down and, more importantly, up Potrero Hill to get him to preschool and back. I'd already been bike commuting for decades before that, but the e-bike changed my life. It wasn't only hauling my son, now I could pop out for burritos or go for a quick joy ride, leaving the house didn't require an all-day commitment. And I no longer dreaded the last 4 blocks of my journey coming home from work each day.

Coming home up the hill on my very first ride with the new bike I yelled to my husband, "Everybody in San Francisco should have one of these!" San Francisco is the perfect place for e-bikes. And e-bikes are the perfect answer to all the problems associated with car culture: congestion, crashes, pollution, and noise, among many others. There are more and more e-bikes on the streets, but still too many are held back from the life-changing potential of an e-bike due to the upfront cost.

I am writing to urge you to fund the E-Bike Incentive Program, which will help more families, workers, and other people shift trips from cars to bikes, increasing safety, affordability, and equity, while reducing car traffic, demand for car parking, noise, air pollution, climate emissions, roadway construction and maintenance costs, and roadway crashes, fatalities, and injuries. Please work with the advocates behind the original program proposal to secure funding for the program from City, SFCTA, MTC, state, federal, and other funding sources (e.g. philanthropic foundations, wealthy individuals).

The e-bike incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — will reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the original program proposal and related grassroots campaign at https://url.avanan.click/v2/r01/____https://eBikeSF.org____YXAzOnNmZHQyOmE6bzozOTRlOGVhNGY5YzAyZTk4YjM1NTNhYTlk3YmQyODA2YTc3OjcyMWM6NTgzZDI0MTZlN2M1MTZlZmVudhODgzODA0MDQ3N2l3NzZlM1MwI2MzBmNmVjMjE5NGE5ZDhkZmY3ZjBhNGNlODp0OjQ6TGg.

In order for this program to be created and have its full potential impact, we need you to secure funding for the program. Will you commit to doing everything in your power to secure as much funding as possible as soon as possible?

Thank you.

The Board of Supervisors,

I'm writing to ask for your support—and if I might say, a hearty endorsement—of the e-bike purchase and lease incentive program proposed by those good folks at eBikeSF.org. This fine program is designed to help families, workers, and everyday folks swap their car trips for bike rides, all while making our roads safer, cleaner, and more affordable. Now, I reckon that's a bargain any sensible person would jump at.

By backing this initiative, you'll be doing more than just trimming down traffic and freeing up parking. You'll be cutting the costs of all that roadwork, quieting the streets, cleaning up the air, and most importantly, keeping people safer from the hazards of car travel. And that's just the start—you'll also be sparking more business for local shops, creating healthier communities, and turning once-grim stretches of asphalt into spaces where we can plant trees, build parks, and, who knows, maybe even make room for a new playground or two.

The e-bike program takes inspiration from success stories in Denver, Austin, and Atlanta, where similar efforts have lightened the load on families and workers wanting to trade four wheels for two. What's more, this proposal gives a little extra boost to folks who could use it most—the low-income families who might need a hand making that shift. Helping more people afford e-bikes means fewer cars clogging up the streets and more savings for the city—something we all know is mighty helpful when budgets are tight.

If you want the full details of the program (and I recommend you do), take a gander at eBikeSF.org. The program is ready to roll, but we need you to lend your voice, your vote, and your influence to make it happen. With your backing, we can secure funding from the city, SFCTA, MTC, and even state and federal sources, and get the wheels turning as soon as 2024.

So, I ask you directly: Will you stand behind this program and do all within your power to see it through? I reckon it's a winning idea, one that will make our city better for everyone.

Thank you kindly for your time and consideration.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/t01/___https://eBikeSF.org___YXAzOnNmZHQyOmE6bzpYBjNjZMjhN2E2ZnliwZjg5ZmFmMTZhOTU3ZDgyNDc3OmFIN2Q6ZTl3NDI2MDMzNTUwZjIzNGE0MzFmE3MTI1Njc1MWESYTU3ZDhjZjVhYzg2YmVlYjMOZTk0NDkxYW1lZmE3ZTp0OUI6TGg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposal to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

Thank you.

The Board of Supervisors,

It's important to support the e-bike purchase program. Not everyone can afford these bikes. They help get people out of their cars and engaged in San Francisco. Biking is good for people's health and wellbeing while reducing carbon output. It's a win win! launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

Thank you.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at [eBikeSF.org](#), which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/i01/____https://eBikeSF.org____.YXAzOnNmZHQyOmE6bzoxMDIYzczZmZmMjImYzFmNWZyYmNhODc1NzltNDQ2Mzo3OmUzZGQ6OWJhNWFiNjYyY2E4YmE5M2JhZWZjZjdlMGExNDNkZjdmMDZlODAyOGQ1ZDM1NmMNGhwN2UwY2M3ZjZpOUIQ6Tg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at [eBikeSF.org](#), which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The Board of Supervisors,

As an existing avid user of e-bikes, I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org. This program would help more families, workers, and other people shift trips to bikes, providing huge direct benefits to the city for a minimal cost. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

I personally have experienced large, tangible benefits to owning an e-bike. After the birth of our first child, e-bike ownership has allowed us increased freedom of mobility around the city without needing to own and maintain a second car. Cars provide many mobility benefits, but they can be a huge drag on household resources. In the 2024 Your Driving Costs study, AAA says average ownership costs for a new vehicle driven 15,000 miles annually is \$12,297 a year, or \$1,024 a month. This figure doesn't even include parking, which for many renters in the city, is another huge cost.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off of, effective programs in Denver, Colorado; Austin, Texas; and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. The potential return on investment is huge. By helping more people purchase or lease e-bikes, you will decrease car traffic, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries; simultaneously, you will increase economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/r01/____https://eBikeSF.org____YXAzOnNmZi+QyOmE6bz5Yj0NDg1ZDNkYmNmMjQ0ZjU1YTlwYTJjODFmTRJkMto3OjdlMjE6OWFjNmIwNzk0OGVmOGQyOTI3N2MzYzlkYTEzNmY1NDYzYWwQODY1ODZlMTRkYzU1ODgzYjUwODBlNzEwYTBlYj00IQ6TG.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality.

Thank you.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/t01/____https://eBikeSF.org____YXAzOnNmZHQyOmE6bzozNTJkMzU2OGI3YjhZDAzOTYzE5OTcwOTg1MWJlMzo3OjlyNzc6NmE4M2ZhMGVhZTE5YzMxN2FhMzZlNGI5MjRlYTY0NjQwYWEzOGU3MzBiNjM3OWE5ZmYxYmU5ZDYyNDkzYWZhMDp0OjQ6TG.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Date: Friday, September 27, 2024 7:10:55 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/t01/____https://eBikeSF.org____YXAzOnNmZHQyOmE6bzoyYTYzNTg1ZjRmYjJZTgwMzdNGU2ZDQzYzZmODhmMjc0J05NzE6MDA2N2MwNWIsNTE0NjJhYzIzYmE1NTE3MWMyZlY2MwQ0NjYyQ1M2NjMDg1MDY1ODImZWJhZjN2RmZlU3MDg2NjpoOIQ6Tg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposal to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

Thank you.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.lavanan.click/v2/r01/____https://eBikeSF.org____YXAzOnNmZHQyOmE6bzozMzYyNjYmMWJpODkwZjI1ZTdhZWQwZWJhMGZnMWVZMzo3OjZlMGQ6MDZlMTcwODBiODZkZGRjMmIxZjhzZTMjNTUyYmNlMDcyOTVhOTg2ODl0ZTFhNTdkMDFiOTkxOTMwZWYyYWM5Ngp0OQI6TG

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposal to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

E bikes for all!
Thank you.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.lavanan.click/v2/r0t/____https://eBikeSF.org____YXAzOnNmZHqYOmE6bzphNTU2MDcxNGlzMWUwY2MyZj9kZDYyNTg0Y2UwMzU3Nj03QjlmOWQ6OTQ1YWQzNDM2ZDM1OGQzYTY3NDhMTJlNjNhNjBjNDRmNzc5NTlY2U2MzYwMTRhZDEwYmJlNGMwYTc5YzIYz0OIQ6TG.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposal to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

Thank you.

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/r01/____https://eBikeSF.org____YXAzOnNmZHQyOmE6bzoXNzRiYzNhMWU5NTRkNTRjMzk4NjYxZThkYjZmNjUwZj03OmlyNDE6YWVjMmlyZjEwNDFkNWU4MGM5ODEzNzU3N2NjYmNhOWZmNmNkZTM1ZmVjYWY1NTYzZTMyNTE4ZTlU4YmU2OTI2Yj00IQ6Tg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2t01/___https://eBikeSF.org____YXAzOnNmZHQyOmE6bzplYjY3ZmNjNmU3Y2JjMzhZDFMjA5OWU1Y2t3NTdkMDc3OjE5ODg6NmhwZTg2OTdMTc4NWZlYjFIZDU4M2Q3YTJlMzczMGI1OWY5YTJlOTM5ZDRmZmQ5YTM5ODNlZDZmYmRmODp0OIQ6Tg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposal to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

Thank you.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.lavanan.click/v2/r01/____https://eBikeSF.org____YXAzOnNmZHQyQmE6bzo1Y2M0ZGljNWU0MGUzN2U0ZDdkNGlyY2JlNDQ5Y2ZlMzo3QjlxOWQ6N2NmYjY5MDEyYWE1ODczMmI3NzcwNjJkOGNhOGMwMTc4ODI0MGFmMjEyMDNnOWUjYjZlZmM0Y2FjYjRmOTVjMTp0OIQ6TGg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/r01/____https://eBikeSF.org____.YXAzOnNmZHZyOmE6bz05NzlwY2UyODAAOTg4M2E3NzU2YzY1MDcxZWJmZmU5Mj03OmYxMDU6M2Q2MjA0YTBrOGMxYzZmOGJkNzkzMWM2MzNkZlUxYTQzOGJhZWYwQWY1MWZlZmYyNWUzZjNlZDUxYTl2MWM2NTp0IQ6Tg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. I live at 875 Waller next to Buena Vista Park and to get home requires about 150 feet in elevation gain in 2 blocks, it's too steep to bike up without an electric bike or great physical fitness.

The proposed e-bike purchase incentive program – inspired by a modeled off, effective program in Denver, Colorado, Austin, Texas, and Atlanta, Georgia – would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectivity, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and State, something that is especially needed and beneficial given the budget deficit and crisis.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

Thank you.

The Board of Supervisors,

I am writing to urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which would help more families, workers, and other people shift trips to bikes, increasing safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposed program to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other eligible funding sources.

The proposed e-bike purchase/lease incentive program — inspired by, and modeled off, effective programs in Denver, Colorado, Austin, Texas, and Atlanta, Georgia — would reduce the financial burden for families, workers, and other people who want to use bikes for transportation, with a larger incentive for low-income individuals and families who qualify. By helping more people purchase or lease e-bikes, you will decrease car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries while increasing economic activity, revenue for local businesses, community connectedness, public health, and public land available for trees, seating, parks, playgrounds, housing, and other more effective land uses. Due to the cost-saving effect of increased bike ridership and bike infrastructure, the e-bike incentive program may well net cost savings for the City, County, and state, something that is especially needed and beneficial given the budget deficit and crisis.

You can find more information about the proposed program and related grassroots campaign at https://url.avanan.click/v2/t01/____https://eBikeSF.org____YXAzOnNmZhQyOmE6bzpZmQwZDM2ZjY1MDg4NmExYzg5NWVmZTlYyNDY3ODMzMTo3OjE2N2M6MDJhMDBiODVlMzZmOWNhZGZyODMsYTE4YTNmZDE3NDNlNTNmZTdkMTgxZDEzMTYzMzBjODE4ZjAyOWQwZDU1MDp0OIQ6Tg.

In order for this proposed program to become a reality, we need you to publicly voice your support for the program, secure funding for the program, and legislate the program. Will you commit to doing everything in your power to make this program a reality?

I urge you to support and approve the e-bike purchase/lease incentive program detailed by advocates at eBikeSF.org, which will help more families, workers, and other people shift trips to bikes, increase safety, affordability, and equity, and reduce car traffic, demand for parking, costs related to roadway construction/maintenance, noise, air pollution, climate emissions, and road fatalities/injuries. Please publicly support the proposed program and work with the advocates behind the proposal to create, approve, and launch the program as soon as possible, ideally within 2024 with funding from the City, SFCTA, MTC, state, federal government, and/or other funding sources.

Thank you.

Introduction Form

(by a Member of the Board of Supervisors or the Mayor)

I hereby submit the following item for introduction (select only one):

- ☒ 1. For reference to Committee (Ordinance, Resolution, Motion or Charter Amendment)
- ☐ 2. Request for next printed agenda (For Adoption Without Committee Reference)
(Routine, non-controversial and/or commendatory matters only)
- ☐ 3. Request for Hearing on a subject matter at Committee
- ☐ 4. Request for Letter beginning with "Supervisor inquires..."
- ☐ 5. City Attorney Request
- ☐ 6. Call File No. from Committee.
- ☐ 7. Budget and Legislative Analyst Request (attached written Motion)
- ☐ 8. Substitute Legislation File No.
- ☐ 9. Reactivate File No.
- ☐ 10. Topic submitted for Mayoral Appearance before the Board on

The proposed legislation should be forwarded to the following (please check all appropriate boxes):

- ☐ Small Business Commission ☐ Youth Commission ☐ Ethics Commission
- ☐ Planning Commission ☐ Building Inspection Commission ☐ Human Resources Department

General Plan Referral sent to the Planning Department (proposed legislation subject to Charter 4.105 & Admin 2A.53):

- ☐ Yes ☐ No

(Note: For Imperative Agenda items (a Resolution not on the printed agenda), use the Imperative Agenda Form.)

[Administrative Code - E-Bike Incentive Fund]

Ordinance amending the Administrative Code to establish the E-Bike Incentive Fund to support implementation of an electric bicycle (or “e-bike”) incentive program administered by the Department of the Environment.

NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
Additions to Codes are in single-underline italics Times New Roman font.
Deletions to Codes are in ~~strikethrough italics Times New Roman font~~.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in ~~strikethrough Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Article XIII of Chapter 10 of the Administrative Code is hereby amended by adding Section 10.100-66, to read as follows:

SEC. 10.100-66. E-BIKE INCENTIVE FUND.

(a) Establishment of Fund. The E-Bike Incentive Fund (“Fund”) is hereby established as a category eight fund to support an electric bicycle (“e-bike”) incentive program aimed at promoting sustainable transportation, reducing traffic congestion, improving air quality, and supporting equity in transportation access across San Francisco.

(b) Sources of Funds. The Fund shall receive monies appropriated, donated, or granted for the purposes of supporting the e-bike incentive program.

(c) Use and Administration of Fund.

(1) Responsible Agency. The Department of the Environment (“Department”) shall administer the Fund. The Department may, in its discretion, adopt rules, regulations, and/or guidelines for the distribution of monies in the Fund, consistent with the criteria set forth in subsection (c)(2).

1 (2) Allowable Uses of Fund. Subject to the budgetary and fiscal provisions of the
2 Charter, monies in the Fund may only be expended for the following purposes:

3 (A) Providing financial incentives and/or point-of-sale rebates to City
4 residents for the purchase and/or maintenance of e-bikes that meet the definition of Safety-Certified
5 Powered Mobility Devices in Section 325 of the Fire Code, as it may be amended from time to time,
6 and related bike safety and/or security accessories, subject to the following restrictions:

7 (i) The Department shall make best efforts to ensure that 40% or
8 more of funds disbursed over a fiscal year are disbursed to people who either are low-income, reside in
9 City neighborhoods that are disproportionately burdened by pollution, or reside in City neighborhoods
10 that are disproportionately lacking in public transportation. Individuals that meet these criteria
11 include but are not limited to individuals from neighborhoods that are 1) identified on the California
12 Air Resources Board's Priority Populations Map as being a disadvantaged community and/or low-
13 income community; and/or 2) identified on the San Francisco County Transportation Authority's
14 Equity Priority Communities Map as an Equity Priority Community.

15 (ii) Financial incentives and/or rebates shall only be available for
16 purchases or services from retailers located within the City, except for adaptive e-bikes, for which
17 purchases or services outside the City may qualify for incentives and/or rebates, in the Department's
18 discretion.

19 (iii) The Department shall prioritize distribution of funds to
20 individuals with greater financial need.

21 (B) Outreach and educational programs to promote the proper use of e-bikes,
22 including education on safe charging and disposal.

23 (C) Data collection, evaluation, and reporting on the impact and
24 effectiveness of the e-bike incentive program and/or feedback from participants to inform other City
25 policies, programs, and/or infrastructure projects.

1 (D) Administrative (e.g., labor and overhead) and contracting costs incurred
2 by the Department or other City departments associated with the management and implementation of
3 the e-bike incentive program, associated outreach and education programs, and associated data
4 collection, evaluation, and reporting.

5 (d) Outreach and Coordination. The Department shall conduct outreach with the goal of
6 ensuring equitable access to e-bike incentives. The Department shall conduct outreach aimed at
7 reaching individuals who either are low-income, reside in City neighborhoods that are
8 disproportionately burdened by pollution, or reside in City neighborhoods that are disproportionately
9 lacking in public transportation, as described in subsection (c)(2)(A)(i). The Department shall conduct
10 this outreach in coordination with the Mayor's Office on Disability, community-based organizations,
11 bike retailers, and/or other community partners.

12 (e) Reporting. The Department shall maintain a record of Fund revenues and expenditures.
13 The Department shall provide reports to the Board of Supervisors on the program's operations on the
14 following schedule: the first report shall cover the e-bike incentive program's first fiscal year of
15 operation, and shall be submitted no later than October 31 following the first fiscal year throughout
16 which the Department has operated an e-bike incentive program continuously; the second report shall
17 be due no later than October 31 of year following submission of the first report, and shall cover the
18 operation of the program during the fiscal year preceding the report submission; and subsequent
19 reports shall be submitted as requested by the Board of Supervisors.

20
21 Section 2. Effective Date. This ordinance shall become effective 30 days after
22 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
23 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
24 of Supervisors overrides the Mayor's veto of the ordinance.
25

1 Section 3. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
2 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
3 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal
4 Code that are explicitly shown in this ordinance as additions, deletions, Board amendment
5 additions, and Board amendment deletions in accordance with the “Note” that appears under
6 the official title of the ordinance.

7
8 APPROVED AS TO FORM:
9 DAVID CHIU, City Attorney
