10 Be it ordained by the People of the City and County of San Francisco:

11 Section 1. Background and Findings.

12 (a) In January 2003, the Board of Supervisors adopted Ordinance No. 01-03,
13 approving settlement of a lawsuit against the Williams Energy Companies. As part of the
14 settlement, the City took ownership of four combustion turbines ("the CTs"), which could be
15 developed into small power plants, subject to certain terms and conditions imposed by the
16 State of California, through the California Attorney General, the California Consumer Power
17 and Conservation Financing Authority and the California Department of Water Resources
18 (collectively, the "State Entities") under agreements with the City. Copies of those
19 agreements are on file with the Clerk of the Board in File No. _____ (the "State
20 Agreements"). The State Agreements set forth requirements associated with the transfer of
21 the CTs to the City, and provide funding to reimburse the City for its costs of developing
22 power plants using the CTs. The State Agreements also provide that the City may, in its sole
23 discretion, determine not to proceed with development of such power plants, and set forth a
24 procedure for selling the CTs and allocating the proceeds of sale in such event. If the City
25 decides not to use the CTs, the State may purchase the CTs from the City for \$2.5 million per

1 unit. If the State declines to purchase the CTs from the City, then the City must sell the CTs
2 through a public bidding process. In such case, the City is entitled to retain the first \$2.5
3 million from the sale of a unit plus 5% of any amount in excess of \$2.5 million per unit.

4 (b) In January 2003, the Public Utilities Commission undertook development of two
5 small power plants using the CTs. In Resolution 08-0133, the Public Utilities Commission
6 stated that it no longer supported development of these projects and recommended that the
7 City take any actions necessary to initiate sale of the CTs.

8 (c) While the CTs have been placed under the administrative jurisdiction of the PUC
9 in anticipation of the possible development of the power plant projects, the CTs are not, and
10 will not become, an operational part of the PUC's Power Enterprise unless the City were to
11 proceed with development of the power plant projects.

12 Section 2. Sale of the CTs.

13 The Board of Supervisors authorizes the Public Utilities Commission to work with the
14 City Attorney to exercise the City's rights under the State Agreements and cooperate with the
15 State Entities to achieve the purposes of this ordinance. Because the State Entities control
16 the sale of the CTs under the State Agreements, once the City notifies the State entities that it
17 does not intend to use the CTs, the price, terms and conditions of any sale of the CTs under
18 the State Agreements shall not involve any further approval by the Board of Supervisors.

1 Section 3. Appropriation of Funds.

2 Funds received by the City from the sale of the CTs and that are allocable to the City
3 under the State Agreements shall be deposited in the General Fund to be appropriated
4 through the City's budget process.
