# **Valencia Curbside Protected Bikeway Project**

Board of Supervisors CEQA Appeal

January 28, 2025

# Setting and Issues

- Valencia is a popular bike route
- Part of high injury network
- Uncomfortable and challenging ride a bike
- Blockages, double parking, dooring, side swipes, cut offs

# A Shared Vision for Valencia

Three project goals:

- Improve safety for all who travel on Valencia
- Preserve economic vitality of Valencia
- Ensure safe movement and access of goods and people

# Center-Running Bikeway

- Provide dedicated, separated bikeway
- Reduce crash factors for bikes
- Keep all parklets curbside
- Retain high percentage of parking and loading spaces

# Working with the Valencia Community

- 100+ door-to-door merchant meetings
- Block by block merchant meetings
- Weekly meetings with Valencia Corridor Merchants Association (VCMA)
- Meetings with all 26 parklet owners
- Regular meetings with neighborhood, pedestrian, and cyclist advocacy groups
- Walking tours with merchants
- Demonstrations of new design options
- Public open houses
- Mailers, monthly emails, email responses

# Side-Running Design

- Considers safety, evaluation, community feedback, design constraints
- We've considered every inch of the project corridor
- Optimized space for parking, loading, parklets, cyclists, pedestrians
