### PROJECT DESCRIPTION

The Mayor’s Office of Housing and Community Development is proposing to purchase the property at 700-730 Stanyan Street and construct a 100% affordable housing project on the site. The site is currently occupied by a restaurant, and will be delivered vacant at the close of sale according to the purchase and sale agreement with the current owner. The Mayor’s Office of Housing and Community Development intends to construct up to 186 units of affordable housing, in a building of up to seven stories, on the site.

### ENVIRONMENTAL REVIEW

Pursuant to CEQA guidelines Sections 15378 and 15060 (c) (2) and Chapter 31 of the Administrative Code, the acquisition of this property is not considered a project under the California Environmental Quality Act. Any proposed physical project will require environmental review.

**PROPOSITION M FINDINGS – PLANNING CODE SECTION 101.1**

Planning Code Section 101.1 establishes Eight Priority Policies and requires review of discretionary approvals and permits for consistency with said policies. The Project, demolition and replacement of the Chinese Recreation Center, is found to be consistent with the Eight Priority Policies as set forth in Planning Code Section 101.1 for the following reasons:

**Eight Priority Policies Findings**

The subject project is found to be consistent with the Eight Priority Policies of Planning Code Section 101.1 in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced.

*The current use on the site, a formula retail fast food restaurant, will cease. It is not yet known whether the project MOHCD intends to construct will include retail spaces on the ground floor, which could provide future opportunities for neighborhood-serving retail uses and employment.*

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

*The site contains no existing housing. The construction of a 100% affordable housing project on the site is likely to enhance the cultural and economic diversity of the neighborhood.*

## GENERAL PLAN REFERRAL

3. That the City's supply of affordable housing be preserved and enhanced.

*The project proposed on this site would enhance the City's supply of affordable housing by constructing up to 186 new units of permanently affordable housing.*

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

*The Project would not result in commuter traffic impeding MUNI's transit service, overburdening the streets or altering current neighborhood parking.*

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for residential employment and ownership in these sectors be enhanced.

*The Project would not adversely affect the City's economic base or future opportunities for employment and/or ownership. The future affordable housing project on the site will increase opportunities for residential employment in our industrial and service sectors by offering permanently affordable housing units for low-income households and families.*

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

*The Project would not adversely affect achieving the greatest possible preparedness against injury and loss of life in an earthquake. The affordable housing project to be constructed on the site would be required to meet all applicable building code seismic standards.*

7. That landmarks and historic buildings be preserved.

*This Project would not adversely affect any landmarks or buildings of historic significance.*

8. That our parks and open space and their access to sunlight and vistas be protected from development.

*The acquisition of the site would not adversely affect any parks or open space. The affordable housing project to be constructed on the site would undergo review to ensure it doesn't create a negative impact to sunlight and vistas to our parks and open space.*

**RECOMMENDATION:**

**Finding the acquisition of 700-730 Stanyan Street, on balance, in-conformity with the General Plan**
