

LEGISLATIVE DIGEST

[Planning Code - Landmark Designation - Power House]

Ordinance amending the Planning Code to designate the Power House located at 1526 Masonic Avenue, Assessor's Parcel Block No. 2616, Lot No. 039, on the east side of Masonic Avenue between Java Street and Upper Terrace, as a landmark consistent with the standards set forth in Article 10 of the Planning Code; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Existing Law

Under Article 10, Section 1004 of the Planning Code, the Board of Supervisors may, by ordinance, designate an individual structure that has special character or special historical, architectural or aesthetic interest or value as a City landmark. Unless prohibited by state law, once a structure has been named a landmark, any construction, alteration, removal or demolition for which a City permit is required necessitates a Certificate of Appropriateness from the Historic Preservation Commission. (Planning Code § 1006; Charter of the City and County of San Francisco, § 4.135.) Thus, landmark designation generally affords a high degree of protection to historic and architectural structures of merit in the City. There are currently more than 300 individual landmarks in the City under Article 10, in addition to structures and districts in the downtown area that are protected under Article 11. (See App. A to Article 10.)

Amendments to Current Law

This ordinance amends the Planning Code to add a new historic landmark to the list of individual landmarks under Article 10: the Power House, located at 1526 Masonic Avenue, Assessor's Parcel Block No. 2616, Lot No. 039. The ordinance finds that the Power House is eligible for local designation as one of San Francisco's few residential properties designed by Architect of Merit Bernard Maybeck. The home was constructed in 1910 for U.S. Attorney Mr. E.B. Power and his family, who had camped on the site after the 1906 Great Earthquake and Fires and were impressed by the views. At the time Maybeck was a relatively unknown architect, but only five years later designed the Palace of Fine Arts, which he is well known for, and became recognized as one of California's most prominent architects. The home is an early and exemplary example of Maybeck's work, and retains sufficient integrity.

As required by Section 1004, the ordinance lists the particular features that shall be preserved, or replaced in-kind, as determined necessary.

Background Information

On May 20, 2026, after holding a public hearing on the proposed designation and having considered the specialized analyses reviewed by Planning Department staff and the Landmark Designation Fact Sheet, the Historic Preservation Commission voted to recommend landmark designation of the Power House to the Board of Supervisors.
