Dear Ms. Wong: I hope this message finds you well and healthy.  
I am patiently waiting for item 19 to arise in today's BOS meeting of Wednesday December 9, 2020.  
In the event that time expires, I am sending my comments to you via this email.

My name is Ana Elisa Fuentes. I am a San Francisco Shelter in Place hotel resident at the Whitcomb.

I am grateful to be here. I follow science and want to live.

I am writing in support of the HOUSING FIRST, NO EVICTIONS legislation.  
I support the legislation to keep the shelter-in-place hotels open for homeless people and to ensure that those who exit receive permanent and affordable housing.  
I implore you, and, the Budget and Finance Committee to **VOTE YES** on this ordinance. **Please save lives, make housing affordable.**

About myself, I am a Paralegal Studies student at SFSU-CEL. This is my last week of classes.

I have two more exams to write and one more oral presentation to give, before I successfully complete this Fall term. **I have more term to go before I complete my Paralegal Certification.** One more term to go before I can give back to the City of San Francisco with my Paralegal skills.

I am here to say that being homeless and studying law, are not incompatible.

**With the city's support, I've made it work.**  
**There are success stories in our homeless community.**

And I know that there are other homeless beings just like me making it work.  
Rebuilding our lives, doing what we can.

**I am asking you to access your humanity**  
**Please invest in our dignity and our future.**

I am asking you to **PLEASE VOTE YES** on the **HOUSING FIRST, NO EVICTIONS** legislation coupled with an augmented plan to provide affordable, safe housing.  
Thank you for reading my email.

Sincerely,  
Ana Elisa Fuentes

Linda Wong,

#### INTRODUCTIONS

Hello, my name is Xander, I am a queer transitional age youth experiencing homelessness. I have been a client of Larking Street Youth Services since 2016. I currently reside at The Abigail, Site 1 due to the economic impact of the COVID-19 pandemic. I have been a resident there since July 2020.

#### 30-DAY EXTENSION

I want to thank the Board of Supervisors for the 30-day extension given to the "shelter-in-place" hotels. This extension protects a vulnerable population from a housing relapse during the holiday seasons and current "stay-at-home" order issued by Mayor Breeds effective December 6th, 2020.

#### SERVICES PROVIDED

The Abigail, Site 1, provides not only temporary housing during a global pandemic, but provides additional resources for their residents. The residents have access to their own private room with a functional bathroom, 3 meals a day, harm reduction kits, cleaning supplies, fresh masks, case management, and an on-site team that provides services for the physical and mental health of the residents. Site 1 is inclusive for people with disability accommodations, partners/spouses, and those with pets/services animals.

#### CENTRAL TALKING POINT

I want to remind the Board of Supervisors on the commitment that no resident exits a "shelter-in-place" hotel into homelessness. But with Coordinated Entry over max-capacity, youth services understaffed, and the critical economic impact of the COVID-19 pandemic, I propose these questions?

- Does the Board of Supervisors have a comprehensive exit plan for the residents of the

"shelter-in-place" hotels?

- Does this plan take into consideration long waiting lists into long term housing?
- Does this plan take into consideration the financial impact a "stay-at-home" order has on housing sustainability?
- Will this sudden change in housing status effect vulnerable residents struggling with disability, mental health, substance use, or any aspect of their identities that put them at more risk of homelessness?
- What steps will the city take to protect it's at-risk/homeless population from further displacement during these big shifts of housing stability?

Thank you for taking the time to listen to my thoughts and concerns related to the "shelter-in-place" hotels of San Francisco.

I am grateful for the services provided, and look forward to hearing what The Board of Supervisors have in plan during this current "stay-at-home" order.

Alexandra Briere

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a pastor at Calvary Presbyterian Church in Pacific Heights and a resident of the Western Addition, I am extremely concerned over the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21 AT THE HEIGHT OF THE PANDEMIC, AT THE HOLIDAYS and AS THE RAINY SEASON APPROACHES. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

I know this is tough.

London Breed et al. ,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a community member and Licensed Clinical Social Worker working with the city's homeless individuals, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. Board of Supervisors,

Dear Mayor Breed,

As a medical student at UCSF, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

We are in the midst of the largest COVID surge yet, without a predicted date for the end of the surge, and leaving people without shelter right now is medically unconscionable.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. Board of Supervisors,

Dear Mayor Breed,

First, I want to thank you for your incredible leadership through this pandemic. The vast majority of your decisions during this time have led us to incredible outcomes when compared to other major cities. I do not envy your position and know there are many opportunities to upset people with each one you make. Thank you, thank you, thank you for all you and your team has done.

That said, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people. These SIP hotels have saved an incredibly vulnerable population from being subject to the worst of this pandemic and countless preventable deaths.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I implore you to please notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents

and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a community member and social worker, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. SIP hotels have literally saved my clients' lives and shutting them down during a major uptick in COVID would be completely disastrous.

Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

I hope you and your family are well and healthy.

Unfortunately right now many of our community members are not; they are struggling with long term homelessness, disability, behavioral health challenges, poverty and the very real possibility of becoming sick and dying of COVID 19.

As the OPEIU Local 29 Union Representative who works to support many of the nonprofit workers in the SIP hotels, I know the devastating effect the closures will have on our Union Members and their families. Closures in the next few months will mean layoffs.

The nonprofit workers in the SIP hotels strive to comfort, help and keep safe the hotel guests, while they struggle to keep a roof over their own heads and feed their families. A layoff during the pandemic and economic downturn could mean becoming homeless themselves.

It is imperative to maintain the hotels through the winter, and for as long as the Federal funding is maintained.

Thank you,

Jane Bosio

Board of Supervisors,

Dear Mayor Breed,

As a core member of Senior Disability Action, and as the first non-canonically professed Lay Promoter for Justice, Peace and Care of Creation for the Province of the Holy Name of Jesus, (the Western Dominican Province), I am horrified by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21.

Our Judeo-Christian tradition teaches that each person, without exception, is created in the image and likeness of God. Therefore, each person is worthy to be treated with dignity as a Child of God.

As imitators of the Creator, we are supposed to promote and give life and goodness to everyone.

Even though the City announced that it will likely delay closing the Shelter in place (SIP) hotels, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

This policy fails to treat people in SIP hotels with worth and dignity as Children of God.

Housing officials have admitted that there are not enough available housing units to place people who are in SIP hotels.

Closing the hotels is absolutely the wrong thing to do.

We will be judged by how we treat the least of our brothers and sisters. And our brothers and sisters who are labeled less than we are because they are poor, old, with a handicap, or, with any other disability, cry out to us to treat them justly. As the prophet Micah 6:8, declares, "You have been told, O mortal, what is good, and what the Lord requires of you: only to do justice and to love goodness, and to walk humbly with your God."

Can you be humble enough to confess that you aren't treating the least of our brothers and sisters as you would Jesus Christ? Can you love with a merciful heart to act justly, and treat our brothers and sisters who live in SIP hotels as you would treat Jesus Christ, your grandmother, or, your mother? Christ dwells in the poor and outcast. And throughout the Holy Bible, God has a preferential option for the poor. Can you imitate God, and Jesus Christ, who

also had a preferential option for the poor?

The Holy Spirit is calling on you to "act justly," towards all, especially the most vulnerable who are forced to live in SIP hotels.

What is your response to Almighty God?

In justice, I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Don't let the Lord criticize you of being lukewarm and want to spit you out.

Be just. Do good. Avoid evil.

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a community member and researcher in infectious disease, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

How can you keep playing with people's safety while the virus surges and you are asking housed residents to stay home and away from others? Public health is meant to protect everyone. Taking away the health and safety that comes with housing says loud and clear that the public health policies of the city do not include everyone.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be at higher risk to contract and potentially die from COVID-19. Nine months into the pandemic, it is known how to keep people safe. We also know people who are infected can suffer from health problems long after infection. Evicting people from their hotel rooms with no comparable plan to keep them safe for the duration of the pandemic will lead to illness and possibly death that is preventable.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Failure to keep our most vulnerable residents safe at this point in the pandemic signals, at best, a lack of will, and at worst, indifference. Indifference towards vulnerable people getting

sick during this pandemic has contributed to needless loss in this country. You can make the decision to do the right thing and protect the most vulnerable San Franciscans.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

Please do what you can to prevent the closure of the shelter in place hotel rooms for homeless folks. There are noticeably fewer homeless folks camping out on the street near our house these days. I'm assuming that's because more people are being sheltered. And what a good first step that is!

Please do what you can to keep folks off the street!

Especially now, during these Covid times, it seems important to shelter our most vulnerable people.

Board of Supervisors,

Dear Mayor Breed,

With COVID rates skyrocketing in SF I think we can all agree that what we need now is leadership that is committed to curbing the spread of this deadly virus, not worsening it. So contemplating this moment to end measures that were put in place to help with the crisis is sheer lunacy! We approved a record quantity of funds for the city in the recent election, because we wanted our leadership to have the resources to run this city properly. Step up and do that, don't be the mayor that let SF go from the place everyone in the country envied for our low rates of transmission back to the hotspot we were originally slated to become, and are fast threatening to due to the city's refusal to acknowledge that essential workers and homeless residents' vulnerabilities hurt all of us in the long run.

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

Legislative Aides ,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Hi Linda,

Beow is an additional comment submitted by Commissioner Listana, District 6:

- "#30RightNow

Hello Board of Supervisors, my name is Gabrielle Listana, and I live in San Francisco.

I am here to support the legislation to set the rents at no more than 30% of income in all permanent supportive housing sites, and to make funding available to implement this by the 2021-22 budget cycle. Many of these rent burdened units do not have their own bathrooms or food preparation areas, so it makes it more expensive and stressful to live at these sites. About 1/3 of supportive housing tenants are rent burdened, yet about 3/5 of all notices of eviction for non-payment last year were generated against rent burdened tenants. 30% is not some radical idea, it is a long-standing federal standard. We can afford this if we make cuts to our bloated law enforcement budget. The city spends \$8.6 million to police public housing tenants, why not take money away from killing and maiming black and brown people, and put money towards helping Black and brown people pay their rent. Many of the tenants who are affected by these rent burdens are Black, seniors, and disabled folks. Failure to vote yes is racism, ageism, and ableism, no matter the intent. Again, I am asking the Budget and Finance committee to vote YES on the legislation to get rents down to 30% of income for all permanent supportive housing tenants. Thank you!  
Best, Gabrielle Listana"

Best,  
Itzel

**Commissioner Arana, District 9**

“Good afternoon Board of Supervisors,

My name is Ariana Arana and I am a 17 year old youth who resides in the Mission District of San Francisco. I currently serve on the San Francisco Youth Commission as the district 9 representative. In my capacity as a youth commissioner I urge you to support the legislation to set the rents at no more than 30% of income in all permanent supportive housing sites, and to make funding available to implement this by the 2021-22 budget cycle.

Especially with the current pandemic we are experiencing it has become increasingly harder for tenants to be able to pay rent and attend to all of their other needs. No one should be having to choose which basic necessities they have to sacrifice for a month. Reducing rent to no more than 30% of folk’s income gives them the extra money they need for things like paying off bills or purchasing groceries. As a youth growing up in the mission I have seen first hand how difficult keeping up with rent can be. It is time we start taking concrete steps to prevent housing insecurity and to support folks going through it.

Thank you for your time”

**Commissioner Versace, Mayoral Appointee:**

“Good Afternoon Supervisors,

My name is Rocky Versace, and I am a Mayoral Appointee to the SF Youth Commission representing youth citywide. I’ve written this public comment to express my dismay at the recent suggested SIP hotel closures. This proposal is targeting thousands of San Francisco’s most underprivileged and at-risk citizens in one of the most dangerous times in our history. It continues San Francisco’s legacy of eviction, racism and gentrification which must be pushed back. I am urging the Board of Supervisors to postpone the closures indefinitely until a solution of permanent public housing is found. We CANNOT, as representatives of the people, endanger THOUSANDS of our own citizens and leave them with no place to go during our most dangerous hour.”

**Commissioner Ginsburg, Mayoral Appointee:**

“Hello Budget and Finance Committee,

My name is Sarah Ginsburg, I’m a senior at Lowell High School and a second-year appointee to the San Francisco Youth Commission.

On November 30th, the Youth Commission unanimously voted to support the #30rightnow campaign and its proposed legislation to limit rents at 30% of income in all permanent supportive housing sites and make funding available to implement this proposal by the 2021-22 budget cycle. I am writing to strongly urge the Budget and Finance Committee to support this ordinance, as well.

Limiting rents to 30% of income for affordable housing units is not a radical movement. This is a long established federal standard designed to ensure that low-income tenants can meet their basic needs. Groceries, housing, and healthcare should be reasonable requests. When many tenants are living without these necessities, 7.5 million dollars per year, the amount needed to lower these rents down to 30 percent of income, is a small investment.

Amidst the COVID pandemic, this proposal is as important as ever. In a newly digital world, WIFI and technology are now a necessity and can be unaffordable on top of high rent. Also, trying to shelter-in-place and remain safe while sharing bathrooms and common spaces can be a significant challenge, especially when tenants are not given the safe, supportive, and truly affordable housing they were promised.

Again, I am asking the Budget and Finance committee to vote YES on the legislation to get rents down to 30% of income for all permanent supportive housing tenants. Thank you for your time.”

I fully support Supervisor Haney's legislation to mandate the SIP hotels remain open and continue to house people until DSHS identifies real housing options for each and every hotel "guest" being served.

Furthermore, I would like to **offer an amendment that every SIP hotel guest has access to the existing Shelter Grievance Process that in the past covered every person in a shelter placement.** Under the current CCC system hotel guests do not have adequate due process rights when evicted/denied services. There is no independent oversight, no hearing. Due process is negated.

Your consideration to my request is appreciated.

Terry Bohrer, Chair, Shelter Grievance Advisory Committee

Board of Supervisors,

Dear Mayor Breed, SF City and DPH Leaders,

As a community member and medical student, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Board of Supervisors,

Dear Mayor Breed,

Stop the SIP hotel closures now! You must provide safety for all people in San Francisco, not just the corporate executives and old families. Unhoused and homeless communities need shelter in the midst of winter and the COVID pandemic. SIP Hotels are vital even if they are temporary, because we eventually need permanent housing solutions with supportive services to go along with them for all unhoused and homeless people as well as low-income households at the verge of homelessness. Please implement a compassionate plan to end homelessness in San Francisco instead of continuing the bullshit moves of trying to move people into invisible places as if hiding the issue is the same as solving it.

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

Of Supervisors,

#### INTRODUCTIONS

Hello, my name is Xander, I am a queer transitional age youth experiencing homelessness. I have been a client of Larking Street Youth Services since 2016. I currently reside at The Abigail, Site 1 due to the economic impact of the COVID-19 pandemic. I have been a resident there since July 2020.

#### 30-DAY EXTENSION

I want to thank the Board of Supervisors for the 30-day extension given to the "shelter-in-place" hotels. This extension protects a vulnerable population from a housing relapse during the holiday seasons and current "stay-at-home" order issued by Mayor Breeds effective December 6th, 2020.

#### SERVICES PROVIDED

The Abigail, Site 1, provides not only temporary housing during a global pandemic, but provides additional resources for their residents. The residents have access to their own private room with a functional bathroom, 3 meals a day, harm reduction kits, cleaning supplies, fresh masks, case management, and an on-site team that provides services for the physical and mental health of the residents. Site 1 is inclusive for people with disability accommodations, partners/spouses, and those with pets/services animals.

#### CENTRAL TALKING POINT

I want to remind the Board of Supervisors on the commitment that no resident exits a "shelter-in-place" hotel into homelessness. But with Coordinated Entry over max-capacity, youth services understaffed, and the critical economic impact of the COVID-19 pandemic, I propose these questions?

- Does the Board of Supervisors have a comprehensive exit plan for the residents of the

"shelter-in-place" hotels?

- Does this plan take into consideration long waiting lists into long term housing?
- Does this plan take into consideration the financial impact a "stay-at-home" order has on housing sustainability?
- Will this sudden change in housing status effect vulnerable residents struggling with disability, mental health, substance use, or any aspect of their identities that put them at more risk of homelessness?
- What steps will the city take to protect it's at-risk/homeless population from further displacement during these big shifts of housing stability?

Thank you for taking the time to listen to my thoughts and concerns related to the "shelter-in-place" hotels of San Francisco.

I am grateful for the services provided, and look forward to hearing what The Board of Supervisors have in plan during this current "stay-at-home" order.

Board of Supervisors,

Dear Mayor Breed,

As a community member and a healthcare worker who has served residents at two shelter-in-place hotels, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21.

Working alongside other healthcare providers, we have seen the impact safe and stable housing can make

Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, or the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

Board of Supervisors,

Dear Mayor Breed,

I am deeply saddened by the houseless crisis, as I am sure you are as well. This sadness has not been lessened by the COVID-19 crisis and I'm really terrified for how many people we might lose over the next few months. I see streets flooded with homeless people in distress and pain every day for whom COVID might be their smallest concern. Please do everything in your power to stop closing the Shelter in Place (SIP) hotels on December 21. Please do everything in your power to house these people in permanent and safe housing, they have suffered enough, they deserve to be treated far better. I feel powerless as a citizen facing this growing humanitarian crisis, but will work as hard as I can to do my part, if you will do yours. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

Board of Supervisors,

Dear Mayor Breed,

With persistence and dedication, a more affordable plan is possible to better meet the needs of all San Francisco homeless people, including those currently in Shelter in Place (SIP) hotels.

In an unprecedented economic crisis, creativity and hands-on management of sites and services are crucial, to reduce costs and foster safety and physical and mental health.

It is also imperative that no one currently in a hotel room, mostly families, seniors, and disabled, be sent to the street for any length of time.

Reinstate the shelter grievance policy for all and create enough shelter so people do not have to do one night stays or sleep on the street.

Eviction, waiting all day for one night stays, sleeping in chairs, and camping destabilize people's lives, health, and safety, and interfere indefinitely with their ability to work and pursue help for other urgent needs. At worst they are a death sentence or serious endangerment.

Please keep working on housing. But please also consider creating shelters and managed campgrounds to inspire pride and foster health, safety, and stability.

Safe sleeping sites can be made more secure and cleaner; and can provide warm, dry gear, charging stations, showers, laundry, nurses, social workers, and a daily meal. Tight management of allowable conduct and routines, and attention to appearance and deep cleaning, go a long way.

I understand the push for permanent housing, and there are some beautiful City projects. But please also consider less expensive buildings and event sites for shelter space to stretch the City's dollar. Saving money but paying attention to the details of people's needs and what is really happening on the ground, means more people are better served and fewer left out.

Please think in terms of possibility and making use of all the stunning creativity and skill in our area. And create systems that are beautiful and functional.

In a time when so many are without security and certainty, the real shame is when people receive no shelter and services, or unsafe, unhealthy, unnecessarily harmful facilities and

services.

Thank you very much.

Board of Supervisors,

Dear Mayor Breed,

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

City staff claim that people will not be evicted without a plan. However, housing officials have admitted that there are not enough available housing units to meet the need. Simply putting someone on the list, or even giving a referral that may or may not lead to stable housing, is not acceptable.

The majority of SIP hotel residents are seniors and people with disabilities, and a disproportionate number, approximately 40%, are African-American. Threatening closure is an act of ageism, ableism, and racism, whether or not that is the intention. These communities are at the greatest risk of serious illness and death from COVID-19. If individuals are forced back to homeless shelters, Safe Sleeping Sites, the street, they will be likely to contract and potentially die from COVID.

We are facing winter, holidays, and a pandemic surge. Closing the hotels is absolutely the wrong thing to do.

I demand that you notify residents and staff that you are immediately calling off hotel closure and removing closure dates until people have safe, stable, permanent affordable housing, with services. I also call on you to set up a listening session with SIP hotel residents and bring people directly affected into the decision-making process about the hotels.

Thank you.

Dear Members of the SF Board of Supervisors,

In all my 72 years as a SF resident, I have never witnessed such growing disparity in income levels than today. It is estimated that the majority of our unhoused have been priced out of their homes and now find themselves homeless.

Research has found that the health impacts of being unhoused is significant; chronic illness, stress, trauma and mental illness.

Early on, our City did well to address COVID by holding firm to shelter in place. The construction of an alternative care center in the Presidio is an excellent COVID precautionary action. But I need to ask: if the City is taking this measure to prevent a surge in cases, then why are you dismantling something that has been working to protect everyone's health like housing the homeless in hotels in an ongoing pandemic?

In 2018, the UN Special Rapporteur on the Right to Adequate Housing found that conditions of our unhoused encampments rivaled those found in Mumbai and Delhi.

Thank you for your efforts to support the unhoused, I urge you to continue to work with the Coalition on Homelessness and house all our homeless/unhoused in the hotels. The COVID surge is no joke, all our lives are at stake.

I unfortunately am unable to attend today's meeting, I am confident each of you will do the right thing to protect our vulnerable residents and the whole City.

Pam Tau Lee, Richmond District, San Francisco

Board of Supervisors,

Dear Mayor Breed,

I am a 65 year old disabled homeless woman. I am fortunate enough to have a place to shelter. If I didn't, I would be a tenant in a SIP hotel.

But you want to put us on the street to freeze and die.

I work. I pay taxes. And I donate to political campaigns. I will support the candidate who supports me

As a community member, I am outraged by the City's plans to begin closing the Shelter in Place (SIP) hotels on December 21. Even though it was announced that they will likely delay, no new date has been given to hotel residents, nor have they been notified where they will be moved to, and all of us fear it will be the streets.

In the middle of an affordable housing crisis and now facing the worst surge in COVID-19 cases we've seen, it is dangerous, irresponsible, and unconscionable to plan to close hotels without housing people.

December 14, 2020

Board of Supervisors  
City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244  
San Francisco, CA 94102-4689

**Subject: Haney's Emergency Ordinance to keep Shelter-in-Place (SIP) Hotels Open - SUPPORT**

Dear Supervisors,

I am writing on behalf of St. Anthony Foundation to respectfully request that you support Supervisor Haney's Emergency Ordinance (File: 201328) to keep SIP Hotel units open, to utilize for placements of unhoused San Franciscans, all for the purpose of finding housing exits for the thousands without a house.

Through the program, approximately 2,359 unhoused San Franciscans have been able to gain safety, stability, access to food, water, sanitation, and hygiene, while also being provided important services and resources. Some residents shared that these hotels provided them their first opportunity to shower in years and saved their lives. Some of these residents are even being transitioned into permanent supportive housing and other forms of long-term support.

The residents of these hotels are San Franciscans and:

- 47% are COVID vulnerable and have high medical needs
- 38% are Black or African American (% of known data)
- feature 166 individuals in 60 families

While only 36% of the SIP Hotels unanimously legislated for were ultimately secured, these hotel rooms helped San Francisco avert a cataclysmic public health crisis by providing safety and stability from the streets, but also by protecting thousands from COVID-19. The outbreak at MSC-South, where over hundred residents and staff tested positive for the virus solemnly reminded us all of the need to act swiftly in securing hotel rooms. Subsequent outbreaks in Seattle, San Diego, San Jose, and other municipalities across the country continue to show the danger of congregate shelters and the crucial role hotels played in San Francisco's COVID-19 response.

The Department of Homelessness and Supportive Housing (HSH) new plan begins to navigate people through the City's homelessness response system and transition over 2,200 people to permanent supportive housing and

other forms of robust housing subsidies. Such an effort is a massive undertaking comparable to efforts in Houston, Texas and few other locations. Such an effort may be possible with the appropriate spending of Prop C (2018) money on securing units, moving people into these units, and ensuring consistent funding to Rapid Rehousing and other similar subsidies. In the meantime, it makes fiscal sense to use SIP Hotels that were secured while FEMA continues to reimburse them. Haney's legislation allows us to fill units emptied by HSH with some of the +7,000 unhoused who continue to seek refuge in their cars, tents, and on the street.

A pandemic should never have been needed to remind us that no person should spend their life without a home. A pandemic should never have been needed for us to act. But a pandemic did occur. The question now is will we act and will we house people? We must seize this moment and all available resources in our effort to respond to the homelessness crisis in San Francisco. The scale of this problem may be daunting to some, but this legislation offers us something to aspire to- to believe in- and ultimately something we must all fight to enact.

Sincerely,

Nils Behnke, CEO
