Declaration by Authors of Arguments and / or Rebuttals

THE UNDERSIGNED AUTHOR(S) of this BALLOT ARGUMENT X FOR or AGAINST PROPOSITION B FOR THE ELECTION TO BE HELD IN SAN FRANCISCO ON NOVEMBER 6, 2001 HEREBY STATE THAT SUCH ARGUMENT IS TRUE AND CORRECT TO THE BEST OF HIS/HER/THEIR KNOWLEDGE AND BELIEF. ALL SIGNERS OF THIS ARGUMENT MUST BE REGISTERED TO VOTE IN SAN FRANCISCO

Style Notes B, I, or BI	KEEP TEXT WITHIN THESE VERTICAL LINES	# of words in each line
	PROPONENTS ARGUMENT IN FAVOR OF THE SOLAR BOND	8
	California's energy crisis has once again shown that overdependence on fossil fuels leads to skyrocketing prices, profiteering, and blackouts. San Francisco must develop a more reliable and diverse energy supply.	11 9 9
	Proposition B would provide \$100 million to increase San Francisco's energy supply with clean and dependable new sources of electric generation, much of which could be installed in one to two years.	10 12 9
	Our current dependence on PG&E and out-of-state energy suppliers cost San Francisco city government over \$30 million more than last year. Becoming more self-reliant by investing in proven renewable and clean energy technologies – solar panels and wind turbines – as well as cost effective energy efficiency, San Franciscans will save millions of dollars.	13 10 11 11 9
	Instead of buying electricity, city government will produce more of its own electricity from proven clean and renewable sources, and save money.	12 10
B	Best of all, we can make this change at no cost to the taxpayers. By using revenue bonds instead of general obligation bonds, the city repays the principal and interest on the bonds from revenue saved by the new facilities. This revenue bond will pay for itself through energy savings – No property taxes will be used.	16 12 13 13 2
	Solar energy technology generates electricity without producing pollution, making noise, or creating visual eyesores for neighborhoods. Furthermore, San Francisco will be doing its part to address global warming. Pollution from fossil fuel energy generation is the single largest contributor to climate change.	8 8 11 12 2
	Join the Union of Concerned Scientists, Environmental Defense, Friends of Recreation and Parks, the Mayor, and the Board of Supervisors in supporting this environmentally sound, fiscally responsible measure.	10 12 6
	Be a part of the solution. Vote for the clean energy solar bond.	13
	Vote Yes on Proposition B	5
	Board of Supervisors	3
