

FILE NO. 161330

Petitions and Communications received from November 23, 2016, through December 6, 2016, for reference by the President to Committee considering related matters, or to be ordered filed by the Clerk on December 13, 2016.

Personal information that is provided in communications to the Board of Supervisors is subject to disclosure under the California Public Records Act and the San Francisco Sunshine Ordinance. Personal information will not be redacted.

From Office of the Controller, submitting Comprehensive Annual Financial Report, FY2015-2016. Copy: Each Supervisor. (1)

From Department of Homelessness and Supportive Housing, submitting 120 Day Report on City Navigation Centers for the Homeless. Copy: Each Supervisor. (2)

From Commission of Animal Control and Welfare, regarding Partnership Statistics. Copy: Each Supervisor. (3)

From Mayor Lee, regarding Charter, Section 3.100 (18), appointment to the Civil Service Commission. (4)

Francis Xavier "FX" Crowley - term ending June 30, 2019

From Clerk of the Board, reporting that the following individuals submitted a Form 700 Statement: (5)

Jeff Cretan - Legislative Aide - Leaving Office

Carolina Morales - Legislative Aide - Leaving Office

Andres Power - Legislative Aide - Leaving Office

Adam Taylor - Legislative Aide - Leaving Office

From Department of Elections, submitting Statement of the Results, Consolidated General Election - November 8, 2016. Copy: Each Supervisor. (6)

From Department of Transportation, pursuant to Health and Safety Code, Section 25180.7, submitting a report on illegal discharge of hazardous waste. Copy: Each Supervisor. (7)

From West Area California Public Utilities Commission, submitting CPUC Notification regarding Verizon Wireless. Copy: Each Supervisor. (8)

From concerned citizens, regarding choice of communications services providers in multiple occupancy buildings. File No. 161110. 15 letters. Copy: Each Supervisor. (9)

From concerned citizens, regarding limits to short term rental of residential units. File No. 161093. 3 letters. Copy: Each Supervisor. (10)

From Charles Olson, submitting response to Appeal of CEQA Categorical Exemption for a proposed project located at 3516-3526 Folsom Street. File No. 161278. Copy: Each Supervisor. (11)

From Ray Fort, regarding certification of a Conditional Use Authorization for a proposed project located at 203 Cotter Street. File No. 161220. Copy: Each Supervisor. (12)

From New York Immigrant Family Unity Project regarding legal services for people in removal proceedings. File Nos. 161288, 161289. 2 letters. Copy: Each Supervisor. (13)

From concerned citizens, regarding proposed project located 2675 Folsom Street. File Nos. 161146, 161150. 2 letters. Copy: Each Supervisor. (14)

From Swords to Plowshares, regarding proposed Resolution approving the Infrastructure Financing Plan for City and County of San Francisco Infrastructure and Revitalization Financing District No. 1. File No. 161116. Copy: Each Supervisor. (15)

From concerned citizens, regarding proposed Resolutions establishing Infrastructure and Revitalization Financing District No. 1. File Nos. 161035, 161036, 161037, 161038, 161039. 6 letters. Copy: Each Supervisor. (16)

From concerned citizens, regarding proposed Ordinance funding the Community College Fund to support students attending the City College of San Francisco. File No. 161015. 11 letters. Copy: Each Supervisor. (17)

From concerned citizens, regarding Resolution responding to the election of Donald Trump and reaffirming San Francisco's commitment to the values of inclusivity, respect, and dignity. File No. 161235. 6 letters. Copy: Each Supervisor. (18)

From concerned citizens, regarding proposed appointment of John Hamasaki to the Police Commission. 9 letters. Copy: Each Supervisor. (19)

From Kelley Trahan, regarding Resolution urging the SF Municipal Transportation Agency Board of Directors to name Central Subway's Chinatown Station the Central Subway's "Rose Pak Station." File No. 161045. Copy: Each Supervisor. (20)

From Gabrielle Dahms, regarding Beach Chalet soccer fields. Coy: Each Supervisor. (21)

From concerned citizens, regarding "Remove The Sharp Park Golf Course redevelopment from the SNRAMP." 300 letters. Copy: Each Supervisor. (22)

From Alvin Ja, regarding proposed Balboa Park project. Copy: Each Supervisor. (23)

From concerned citizen, regarding funding for San Francisco Proposition E. Copy: Each Supervisor. (24)

From concerned citizen, regarding RFP concession leases at San Francisco International Airport, Terminal 3. Copy: Each Supervisor. (25)

From ACLU, regarding Police Use of Force Policy. Copy: Each Supervisor. (26)

From Glin Lamerson, regarding interaction with police officers. Copy: Each Supervisor. (27)

From Jim Corrigan, regarding parking issues. Copy: Each Supervisor. (28)

From Civil Service Commission, submitting meeting schedule for CY 2017. (29)

From Hoffmann Family, regarding Ordinance prohibiting the City from entering into or extending leases for the extraction of fossil fuel from City-owned land. File No. 160222. Copy: Each Supervisor. (30)

BY 

In accordance with Charter Section 3.105, attached is the City's Comprehensive Annual Financial Report (CAFR) for fiscal year (FY) 2015-16 that ended June 30, 2016. These statements have a considerable amount of information reported in various ways. Below are some key points regarding the City's General Fund position, which is typically the focus of much of our attention.

Key Points

- The City's ending available budget-basis fund balance improved versus the prior year, rising by \$44 million to \$435 million. The majority of this ending balance (\$423 million) has been appropriated or assumed as a source in the City's adopted two-year budget for fiscal years 2016-17 and 2017-18. The balance of \$11.9 million is available for appropriation, either in the current or future fiscal years.
- As discussed in our periodic budget status reports throughout the year, tax revenues grew more during FY 2015-16 than anticipated at the time of budget adoption, largely due to increased property and business tax revenue, partially offset by weakness in sales and parking taxes. Compared with our most recent projections, General Fund revenues grew \$25 million after required reserve deposits, primarily due to strong property and real property transfer tax results. At the department level, final expenditure savings after required reserve deposits was \$26 million, driven predominantly by lower required transfers to support the Department of Public Health.
- The City's economic stabilization reserve position, eroded heavily during the last recession, continues to improve. The combined balance of the Rainy Day Economic Stabilization Reserve and the Budget Stabilization Reserve grew by \$49.3 million to \$253.4 million in FY

1

2015-16, an increase of \$41.9 million from our most recent projections in June. At 5.8% of General Fund revenues, these reserve levels are still below the target of 10%, although higher than the 4.3% of revenues achieved in FY 2007-08, just prior to the last recession. Information on other reserves, including the Budget Savings Incentive Fund and Rainy One One-Time Reserve, are reported on page 61 of the FY 2015-16 Comprehensive Annual Financial Report.

- Other key indicators of the General Fund's financial health show improvement and strength. Total fund balance calculated using Generally Accepted Accounting Principles (GAAP) totaled \$1.4 billion as of June 30th, an improvement of \$284 million versus the prior year. This balance includes restricted, committed, and assigned reserves for capital projects, encumbrances, and other reserves. Ending cash balance in the General Fund grew to \$1.7 billion, an improvement of \$430 million versus the prior year.
- Due to continued volatility in hospital revenue and likely future year revenue losses at the Department of Public Health, the rate risk reserve allowance has been increased by \$12.4 million, to a total of \$108 million. This reserve is to guard against future potential losses of indigent health revenues, realignment funding, and transfer payments as authorized by Section 12.6 of the Annual Appropriation Ordinance.

If you have any questions, please feel free to contact me at (415) 554-7500.

COVER

The new Zuckerberg San Francisco General Hospital and Trauma Center provides inpatient, outpatient, emergency, diagnostic, and psychiatric services for adults and children. It began serving patients in Spring 2016 and is the only Level One trauma center in San Francisco and Northern San Mateo County.

Funded primarily by \$887.4 million of general obligation bonds which were approved by 84 percent of San Francisco voters on November 4, 2008, the hospital project met the Office of Statewide Health Planning and Development (OSHPD) requirements and achieved LEED gold certification. The new facility construction includes a 284 bed acute care facility, Service Building modifications, site utilities relocation and site improvements that are in full compliance with Senate Bill (SB) 1953 and OSHPD standards. The new facility resides within the existing campus and is approximately 453,000 square feet. The building has a total of 9 levels with 2 levels below ground.

The project's mission statement was "Working collaboratively, we commit to design and build the San Francisco General Hospital and Trauma Center within budget, on schedule, and to the highest standards of quality and sustainability for the benefit of the community."

- Controller's Letter of Transmittal
- Certificate of Achievement – Government Finance Officers Association
- City and County of San Francisco Organization Chart
- List of Principal Officials

The financial statements of several enterprise activities and of all component units of government are included in this CAFR. Some component units' financial statements are blended with the City's, such as the San Francisco County Transportation Authority and the San Francisco Finance Corporation. The reason for this is that the primary government is financially accountable for the operations of these agencies. In other instances, namely, for the Treasure Island Development Authority, financial reporting is shown separately. Supplemental combining statements and schedules for non-major governmental funds, internal service funds and fiduciary funds are also presented in the financial section.

The **Statistical Section** includes up to ten years of historical financial data and miscellaneous social and economic information that conforms to GASB standards for reporting statistical information. This section may be of special interest to citizens and prospective investors in our bonds.

SAN FRANCISCO'S ECONOMY:

Overview of Recent Trends

An educated workforce and easy access to transit and financial capital continue to drive business investment in the City. San Francisco's economy has fully recovered losses from the most recent recession, and growth continues to outpace that of the state and national economies. The City's unemployment rate in fiscal year 2015-16 declined to a rate of 3.4%; a drop of 0.6% from the prior fiscal year's rate of 4.0%. In comparison, average unemployment rates for California and the nation for fiscal year 2015-16 stood at 5.7% and 5.0%, respectively. Most importantly, this fall in unemployment rate is due to a strengthening labor market as opposed to people dropping out of the labor force. In fiscal year 2015-16, private nonfarm employment in the San Francisco Metropolitan Division grew 4.4% over the prior fiscal year, compared to 3.0% growth for the state overall.

The resident population also continued to grow, reaching a new historical high of 864,816 in 2015 according to the U.S. Census Bureau. This represents a 1.4% increase versus the prior year, and cumulative growth of 101,800 or 13% over the last decade.

Several local economic indicators have shown marked improvement over the past fiscal year. Housing prices, residential and commercial rents, and hotel room and occupancy rates, have all shown significant growth. Commercial and residential rents and median home prices all increased to new historical highs. The average asking monthly rent for apartments in San Francisco rose to \$3,614 in fiscal year 2015-16, an increase of 4.9%. Monthly per square foot rental rates for commercial space grew to \$70.16 in fiscal year 2015-16, a 6.5% increase versus the prior fiscal year. The average median home price in the fiscal year grew to a new annual high of approximately \$1,133,813 up 10.4% from the previous fiscal year. Average annual hotel occupancy grew to 87.7%, a new historical high, while average room rates grew by 5.7% between FY2014-15 and FY2015-16.

San Francisco's economic recovery has stimulated the demand for new residential and commercial space. A large amount of private construction was completed or underway during the last fiscal year, with 4,703 housing units completed and 6,998 additional units under construction at the end of the fiscal year. Building permits for nearly 4.9 million square feet of construction were issued during the year. Much of this development is shaped by major area planning efforts that the City has completed in recent years, including in the Eastern Neighborhoods, Market-Octavia, and the Transit Center District. The City has also adopted or approved large-scale development projects in Candlestick Point/Hunters Point Shipyard, Treasure Island, and Park Merced.

SAN FRANCISCO GOVERNMENT:

Profile of San Francisco Government

The City and County of San Francisco was established by Charter in 1850, and is the only legal subdivision of the State of California with the governmental powers of both a city and a county. The City's legislative power is exercised through a Board of Supervisors, while its executive power is vested upon a Mayor and other appointed and elected officials. Key public services provided by the City include public safety and

protection, public transportation, water and sewer, parks and recreation, public health, social services and land-use and planning regulation. The heads of most of these departments are appointed by the Mayor and advised by commissions and boards appointed by City elected officials.

Elected officials include the Mayor, Members of the Board of Supervisors, Assessor-Recorder, City Attorney, District Attorney, Public Defender, Sheriff, Superior Court Judges, and Treasurer. Since November 2000, the eleven-member Board of Supervisors has been elected through district elections. The eleven district elections are staggered for five and six seats at a time, and held in even-numbered years. Board members serve four-year terms and vacancies are filled by Mayoral appointment.

San Francisco's Budgetary Process

The budget is adopted at the character level of expenditure within each department, and the department level and fund is the legal level of budgetary control. Note 2(c) to the Basic Financial Statements summarizes the budgetary roles of City officials and the timetable for their various budgetary actions according to the City Charter.

The City has historically adopted annual budgets for all governmental funds and typically adopts project-length budgets for capital projects and certain debt service funds. The voters adopted amendments to the Charter in November 2009 designed to further strengthen the City's long-range financial planning. As a result of these changes, the City for the first time adopted a two-year budget for all funds for the two upcoming fiscal years in July 2012. The Charter requires that the City adopt a "rolling" two-year budget each year unless the Board of Supervisors authorizes a "fixed" two-year budget appropriation for a given fund, in which case authorization occurs every two years. As of fiscal year 2015-16 there were seven departments on a two-year fixed budget.

As further required by these amendments, the Board of Supervisors and Mayor adopt a five-year financial plan every two years. The most recent plan was adopted in March 2015. Additionally, these Charter changes provided a mechanism for the Controller to propose, and the Board to adopt, various binding financial policies, which can only be suspended by a supermajority of the Board. Financial policies have now been adopted under these provisions governing the City's budget reserve practices, the use of non-recurring revenues, and limits on the use of debt paid from the General Fund.

Internal and Budgetary Controls

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The City maintains budgetary controls to ensure that legal provisions of the annual budget are in compliance and expenditures do not exceed budgeted amounts. Controls are exercised by integrating the budgetary accounts in fund ledgers for all budgeted funds. An encumbrance system is also used to account for purchase orders and other contractual commitments. Encumbered balances of appropriations at year-end are carried forward and are not reappropriated in the following year's budget.

Pension and Retiree Health Trust Fund Operations

In FY 2014-15 the City implemented the Governmental Accounting Standards Board (GASB) Statement No. 68 related to financial reporting of pension plans. It requires additional disclosures in the notes and recognition of a net pension liability. While the City has six defined benefit retirement plans, a substantial majority of full-time employees participates in the San Francisco Employees' Retirement System (SFERS).

With this new standard the City uses two different actuarial valuation studies – one for financial reporting purposes as required by Standard No. 68 and the other for funding purposes to determine the City's annual required contributions to the plan. The new method, for financial reporting purposes, is used to calculate the net pension liability that appears on the City's financial statements.

Funding Purposes – The most recent actuarial valuation report for the SFERS pension plan, dated July 1, 2015, estimates the unfunded actuarial accrued liability at \$3.32 billion, an increase of \$207 million from the previous actuarial valuation dated July 1, 2014. For funding purposes, the pension plan's funding ratio increased from 85.3% to 85.6%.

Financial Reporting – As of June 30, 2016, for financial reporting purposes, the City's net pension liability for SFERS is \$2.16 billion, an increase of \$496 million from the previous year. SFERS's fiduciary net position as a percentage of total pension liability, which is comparable to the funding ratio mentioned above decreased from 91.8% to 89.9%.

The City's unfunded retiree health benefit liability has been calculated at \$4.21 billion as of July 1, 2014. In 2009, the City and employees began to pre-fund prospective obligations through contributions of 3% of salary for employees hired on or after January 10, 2009. These contributions are held in an irrevocable trust, the Retiree Health Care Trust Fund. Beginning in fiscal year 2016-17, employees hired before January 10, 2009 will also start contributing to the Trust Fund with an employer match, starting at a combined 0.5% of salary and rising to 2.0% of salary by fiscal year 2019-20. As of June 30, 2016, the Trust Fund had assets of \$114.8 million, an increase of 57% versus the prior year.

General Fund Financial Position Highlights

The City's General Fund financial position continued to post significant improvement during this most recent fiscal year, continuing trends from recent years.

Total GAAP-basis General Fund balance, which includes funds reserved for continuing appropriations and reserves, ended fiscal year 2015-16 at \$1,429 million, up \$284 million from the prior year.

The General Fund's cash position also reflects a strong improvement in fiscal year 2015-16, rising to a new year-end peak of \$1.7 billion, up \$0.43 billion from June 30, 2015.

The General Fund rainy day and budget stabilization reserves grew to \$298.5 million at the end of fiscal years 2015-16, an increase of \$51.3 million compared to prior year.

The majority of fund balance available for appropriation on a budgetary basis totaled \$435.2 million or \$11.9 million more than had been previously projected and appropriated by the Mayor and Board as a source in the adopted two-year budget for fiscal years 2016-17 and 2017-18.

Key Government Initiatives

San Francisco's economy depends on investments in infrastructure and services that benefit City residents, workers, visitors, and businesses. These economic foundations range from housing and commercial development, to transportation infrastructure, investments in health and human services, and the City's quality of life. The City is taking steps to strengthen this infrastructure, to support San Francisco's economic recovery and long-term prosperity. Some important initiatives are described below:

Improving the City's Public Transportation Systems

San Francisco is ideally situated to serve the Bay Area's need to rapidly bring a large numbers of workers into a transit-accessible employment center, and efficiently navigate the dense City on foot, mass transit, taxi or bicycle.

Plans for a multi-modal transit hub located in the City's core – the Transbay Transit Center – are targeted to meet a portion of this regional need. The center is designed to provide expanded bus, commuter train, and ultimately high-speed rail connections into the City from within the region and state, and to provide pedestrian connections to nearby subway, surface rail, and bus services within the City. The former terminal at the site has been demolished with completion of the new center targeted for fiscal year 2017-18. The \$2.3 billion transit center, managed by a financially independent authority, is funded through a host of revenue sources; including federal stimulus funding, land sale proceeds, tax increment, local sales tax, and other revenues generated from planned dense, mixed-use development adjacent to the site. In order to meet cash flow needs of the project, an interim financing in an amount not to exceed \$260 million was approved by both the City and the authority in fiscal year 2015-16. This interim financing will be provided by the City and repaid from future tax revenues generated by development from the district plan area and state-owned parcels within the redevelopment area.

The City is currently constructing the Central Subway project, the second phase of a program designed to create a light-rail line running from Chinatown, under the heart of downtown, and connecting to the most-recent extension of the light-rail system to the Southeast portion of the City. The subway will connect to Bay Area Rapid Transit (BART) and Caltrain, the region's two largest regional commuter rail services. The Central Subway project, with an estimated budget of \$1.6 billion and a targeted completion date of 2018, is estimated to provide approximately 35,000 daily boardings at four stations along the new 1.7-mile line. Once in active service in 2019, the project will reduce travel times and congestion along some of the most congested vehicular and public transit routes in California.

The City is also implementing a street repair and improvement program, funded with a \$248 million general obligation bond, as well as state and local revenue sources. Under this program, over 2,500 blocks are expected to be repaved or preserved, 1,900 curb ramps for disabled access will be constructed, and over 125,000 square feet of public sidewalk will be repaired. In commercial corridors, and along busy routes, the program is enabling the City to build complete streets that enhance pedestrian and bicycle safety and enhance the vibrancy of urban neighborhoods. The program also provides funds to rehabilitate existing traffic signal infrastructure and allow transit signal priority along key transit routes, improving transit efficiency and relieving traffic congestion. During the last two years, the City has repaved or maintained more than 1,700 blocks, built 1,400 curb ramps, repaired 21 street structures, inspected and repaired more than 300,000 square feet of sidewalk.

These improvements to the City's transportation infrastructure will be accelerated given voter approval of a \$500 million general obligation bond in November 2014, the first of four funding measures recommended by a Mayoral taskforce convened during fiscal year 2013-14 to prioritize critical transportation infrastructure projects and recommend funding strategies to meet these needs. Projects planned for the bond include investments designed to improve reliability and travel time on mass transit, improve pedestrian safety, improve accessibility, and address priority deferred maintenance needs.

The City continued to invest in improvements at San Francisco International Airport (SFO) in fiscal year 2015-16 as part of an approved capital plan of \$2.6 billion over the next five years. Completed projects during the fiscal year include runway safety area improvements and a new cargo facility, with work to construct a new air traffic control tower and renovations to Terminal 3 in construction. The plan also includes funds for programming, planning, and construction of the initial phases of the Terminal 1 Renovation Program, which has a projected cost of \$2.2 billion and anticipated phased completion dates through 2023. These projects are necessitated by the continued growth in passenger volumes at SFO, which accounts for 93% of international air travel and 70% of all air travel into the Bay Area.

Completing Critical Infrastructure Upgrades for Water, Power, and Sewer Services

Service reliability and disaster preparedness are also priorities of the City's Public Utilities Commission (PUC), as evidenced in the historic levels of infrastructure investment being deployed and planned in all three enterprises the PUC operates.

As of the end of fiscal year 2015-16, the City was over 91% complete on a \$4.8 billion multi-year capital program to upgrade local and regional water systems, known as the Water System Improvement Program

(WSIP). The WSIP program consists of both local and regional projects spread over seven counties from the Sierra foothills to San Francisco. The WSIP delivers capital improvements that enhance the system's ability to provide reliable, affordable, high-quality drinking water in an environmentally sustainable manner to its 27 wholesale and regional retail customers in Alameda, Santa Clara, San Mateo, and San Francisco counties, collectively serving some 2.6 million people. The program is structured to cost effectively meet water quality requirements, improve seismic and delivery reliability, and meet long-term water supply objectives.

The PUC is also underway with a \$6.9 billion, three-phased 20-year program to upgrade of the City's wastewater infrastructure, the Sewer System Improvement Program (SSIP). The first phase, totaling \$2.7 billion, includes \$1.7 billion in improvements to the Southeast Treatment Plant and funding for sustainable, green infrastructure and urban watershed assessment projects to minimize stormwater impact on the sewer system. The SSIP will upgrade the City's combined sewer system, which was predominantly built out over the past century. Although significant investment occurred in the mid-1970s through the mid-1990s to comply with the Clean Water Act, today many of the existing facilities are in need of upgrade and major improvement to prepare San Francisco for the future.

Hetch Hetchy Water and Power, which includes upcountry water operations and the City's power enterprise, is in the midst of an upcountry rehabilitation program for its aging reservoirs, powerhouses, switchyards, pipelines, tunnels and in-city power assets. Upcountry water and power facilities are being assessed and rehabilitated where needed, including investments in reservoirs, powerhouses, switchyards, and substations, 170 miles of pipelines and tunnels, 160 miles of transmission lines, watershed land, and right-of-way property. Improvements in San Francisco include piloted replacement of old, outdated streetlight fixtures and poles with modern, energy-efficient ones. These new fixtures will have wireless controls, enabling the City to achieve cost-efficiency and higher performance through the ability to monitor and control them remotely. Over the next ten years, \$1.2 billion of critical infrastructure investment is planned.

Expanding Access to Healthcare

Public health and human services are important to the long-term health and well-being of City residents, and to the overall productivity of the City's workforce. The City offers a host of health and safety net services, including operation of two public hospitals, the administration of federal, state, and local entitlement programs, and a vast array of community-based health and human services.

January 2014 marked the beginning of full-scale implementation of the Affordable Care Act (ACA), including the launch of Covered California and the Medi-Cal expansion. In preparation, the City conducted extensive outreach through various agencies, and the Department of Public Health (DPH) created the San Francisco Health Network, consolidating the department's full continuum of direct health care services. The San Francisco Health Network is an integrated health care delivery system that improves the department's ability to provide and manage care for insured patients that select our network, organize the elements of the delivery system, improve system efficiency, and improve the patient experience.

Approximately 140,000 San Franciscans have enrolled in new health insurance options since the launch of the ACA in 2014, including more than 92,000 in Medi-Cal and over 52,000 in Covered California. Paralleling the increased insurance enrollment is a continued reduction in enrollment in Healthy San Francisco, the City's health access program for the uninsured, which declined from nearly 58,000 participants prior to ACA implementation to 14,500 as of June 2016. However, Healthy San Francisco does not account for all uninsured San Franciscans, and the City estimates that 25,000 to 30,000 residents continue to remain without insurance. The residually uninsured include those ineligible for the insurance expansions offered under the ACA and those who are eligible but who, for a variety of reasons, do not enroll. The City will continue to be a key provider of safety net services for these individuals.

Amidst these changes, the City has replaced and modernized the City's two public hospitals. The voters approved an \$887 million general obligation bond measure to fund the replacement of San Francisco General Hospital in November 2008. This replacement project is required given changes to state law governing seismic requirements for hospitals. It replaced the current facility with a new seven-story building, emergency rooms three times the size of the old hospital and more operating rooms on the existing hospital

campus. The hospital is the only trauma center in San Francisco, and also acts as the safety net hospital for our residents. The project was completed in November 2015 and patient move-in and official opening occurred in May. This project follows substantial completion of the reconstruction of the City's skilled nursing facility, Laguna Honda Hospital, in fiscal year 2011-12. On June 7, 2016, a two-thirds majority of voters of the City approved \$350 million in general obligation bonds to fund capital projects to renovate, expand, and seismically enhance fire safety and healthcare facilities, construct a larger and more modern City ambulance center, to repair and modernize neighborhood fire stations, and to build, acquire, and improve facilities to better serve homeless individuals and families.

Modernizing the City's Parks and Libraries

San Francisco voters have approved a number of bond measures to fund capital improvements to the City's parks and libraries during the past decade, including the most recent approval in November 2012 of a \$195 million general obligation bond for improvements to neighborhood parks. Once implemented, the City will have completed substantial renovations of 13 recreation centers, 52 playgrounds, and 9 swimming pools during a ten-year period.

The City substantially completed a comprehensive branch library improvement program in fiscal year 2013-14 that renovated 16 branch libraries, replaced seven branches with new buildings, and constructed a new branch library in Mission Bay. The \$195 million program, funded with a mix of general obligation and lease-revenue bonds, state funds, and other local sources, focused on seismic safety, accessibility, and modernization for current uses.

Delivering Public and Private Waterfront Improvements

The Port of San Francisco, a department of the City, is custodian to seven and one-half miles of maritime industrial and urban waterfront property. The City utilizes public-private partnerships to marshal private sector creativity and financial resources to rehabilitate historic Port assets or develop new facilities for maximum public benefit. Public-private partnerships complement the City's public works project-delivery mechanism, which has been used to deliver many waterfront projects. Development opportunity areas are identified and guided by the Port of San Francisco Waterfront Land Use Plan, which was initially adopted in 1997 and is in a public planning update process expected to conclude with policy recommendations for key waterfront subareas in 2017. Current public-private partnership projects include the rehabilitation of the Pier 70 area which contemplates continued ship repair, historic preservation, new waterfront parks, housing, and up to two million square feet of new commercial and office space and a new mixed-use neighborhood with waterfront parks and a rehabilitated Pier 48 adjacent to AT&T Park.

Improving Public Safety and Earthquake Preparedness

In June 2014, San Francisco voters approved a \$400 million Earthquake Safety and Emergency Response Bond (ESER 2014) to continue vital work done in the ESER program and to pay for repairs and improvements that will allow San Francisco to quickly respond to a major earthquake or disaster. The first phase of the ESER program was approved by voters in June 2010 and since the program began, the City has completed the new Public Safety Building, made improvements to a number of neighborhood firehouses, and upgrades to the emergency firefighting water system.

Other Long-Term Financial Challenges Remain

Notwithstanding the City's strong economic and financial performance during the recent recovery and despite significant initiatives outlined above, several long-term financial challenges and risks remain unresolved.

While significant investments are proposed in the City's adopted ten-year capital plan, identified resources remain below those necessary to maintain and enhance the City's physical infrastructure. As a result, over \$10 billion in capital needs are deferred from the plan's horizon. Over two-thirds of these unfunded needs are for the City's transportation and waterfront infrastructure, where core maintenance investments have lagged for decades. The City will update this plan in fiscal year 2016-17.

The City has taken significant steps to address long-term unfunded liabilities for employee pension and other postemployment benefits, including retiree health obligations, yet significant liabilities remain. The most recent actuarial analyses estimate unfunded actuarial accrued liabilities of \$7.53 billion for these benefits, comprised of \$4.21 billion for retiree health obligations and \$3.32 billion for employee pension benefits. In recent years, the City and voters have adopted significant changes that should mitigate these unfunded liabilities over time, including adoption of lower-cost benefit tiers, increases to employee and employer contribution requirements, and establishment of a trust fund to set-aside funding for future retiree health costs. The financial benefit from these changes will phase in over time, however, leaving ongoing financial challenges for the City in the shorter term.

Lastly, while the City has adopted a number of measures to better position the City's operating budget for future economic downturns, further progress is still needed. Economic stabilization reserves have grown significantly during the last four fiscal years, exceeding pre-recession peaks in the prior year. By the end of the fiscal year, these reserves were funded up to 6.4% of discretionary General Fund revenues, which is below the adopted target of 10%. Further progress towards the targeted level in future fiscal years will allow the City to better weather inevitable negative variances that will be driven by future economic volatility.

OTHER INFORMATION:**Independent Audit**

The City's Charter requires an annual audit of the Controller's records. These records, represented in the basic financial statements included in the CAFR have been audited by the nationally recognized certified public accounting firm, Macias Gini & O'Connell LLP. The various enterprise funds, the Health Service System, the Employees' Retirement System, the San Francisco County Transportation Authority, the San Francisco Finance Corporation, and the Successor Agency to the San Francisco Redevelopment Agency have been separately audited. The Independent Auditor's Report on our current year's financial statements is presented in the Financial Section.

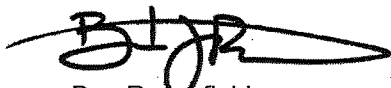

Award for Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2015. This was the 34th consecutive year, beginning with the fiscal year ended June 30, 1982, that the City has achieved this prestigious award. A Certificate of Achievement is valid for a period of one year only. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. The CAFR must satisfy both Generally Accepted Accounting Principles (GAAP) and applicable legal requirements.

Acknowledgements

I would like to express my appreciation to the entire staff of the Controller's Office whose professionalism, dedication, and efficiency are responsible for the preparation of this report. I would also like to thank Macias Gini & O'Connell LLP for their invaluable professional support in the preparation of the CAFR. Finally, I want to thank the Mayor and the Board of Supervisors for their interest and support in planning and conducting the City's financial operations.

Respectfully submitted,

Ben Rosenfield

Independent Auditor's Report

The Honorable Mayor Edwin Lee
The Honorable Members of the Board of Supervisors
City and County of San Francisco, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information and the discretely presented component unit, of the City and County of San Francisco (City), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the San Francisco County Transportation Authority, San Francisco International Airport (major fund), San Francisco Water Enterprise (major fund), Hetch Hetchy Water and Power (major fund), San Francisco Municipal Transportation Agency (major fund), San Francisco Wastewater Enterprise (major fund), and the Health Service System, which collectively represent the following percentages of the assets, net position/fund balances, and revenues/additions of the following opinion units.

Opinion Unit	Assets	Net Position/ Fund Balances	Revenues/ Additions
Governmental activities	1.0%	3.1%	3.5%
Business-type activities	89.9%	91.4%	73.0%
Aggregate remaining fund information	0.8%	0.5%	14.6%

Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information and the discretely presented component unit, of the City as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 2(s) to the basic financial statements, effective July 1, 2015, the City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, and GASB Statement No. 82, *Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73*. Our opinion is not modified with respect to these matters.

Other Matters

Prior-Year Comparative Information

The financial statements include partial and summarized prior-year comparative information. Such information does not include all of the information required or sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended June 30, 2015, from which such partial and summarized information was derived.

We have previously audited the City's 2015 financial statements, and we expressed, based on our audit and the reports of other auditors, unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information in our report dated November 23, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the City's proportionate share of the net pension liability, the schedule of changes in the net pension liability and related ratios, the schedule of employer contributions – pension plans, and the schedules of funding progress and employer contributions – other postemployment healthcare benefits, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining fund financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

San Francisco, California
November 18, 2016

CITY AND COUNTY OF SAN FRANCISCO
Management's Discussion and Analysis (Unaudited)
Year Ended June 30, 2016

This section of the City and County of San Francisco's (the City) Comprehensive Annual Financial Report (CAFR) presents a narrative overview and analysis of the financial activities of the City for the year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information in our transmittal letter. Certain amounts presented as fiscal year 2014-15 summarized comparative financial information in the basic financial statements have been reclassified to conform to the presentation in the fiscal year 2015-16 basic financial statements.

FINANCIAL HIGHLIGHTS

The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the end of the fiscal year by approximately \$8.00 billion (net position). Of this balance, \$8.15 billion represents the City's net investment in capital assets, \$1.75 billion represents restricted net position, and unrestricted net position has a deficit of \$1.90 billion. The City's total net position increased by \$1.44 billion, or 22.0 percent, from the previous fiscal year. Of this amount, total net investment in capital assets, restricted net position and unrestricted net position increased by \$630.7 million or 8.4 percent, \$353.0 million or 25.2 percent and \$457.7 million or 19.4 percent, respectively.

The City's governmental funds reported total revenues of \$5.79 billion, which is a \$444.2 million or 8.3 percent increase over the prior year. Within this, revenues from property taxes, business taxes, sales and use tax, intergovernmental grants, and other revenues grew by approximately \$156.6 million, \$49.0 million, \$27.0 million, \$47.0 million, and \$141.1 million, respectively. At the same time, there was a decline in revenues from real property transfer tax of \$45.5 million and hotel room tax of \$6.6 million. Governmental funds expenditures totaled \$5.07 billion for this period, a \$281.2 million or 5.9 percent increase, reflecting increases in demand for governmental services of \$415.3 million, an increase in debt service of \$54.7 million and a decrease in capital outlay of \$188.8 million.

At the end of the fiscal year, total fund balances for the governmental funds amounted to \$2.84 billion, an increase of \$546.5 million or 23.9 percent from prior year, primarily due to a strong growth in most revenues over a moderate increase of expenditures and other financing uses this year over last year.

The City's total long-term debt, including all bonds, loans, commercial paper and capital leases increased by \$516.7 million during this fiscal year. The City issued a total of \$1.14 billion in bonds, certificates of participation and loans this year. Of this amount, a total of \$321.9 million in general obligation bonds were issued for transportation and road improvement projects, seismic safety loan program, clean and safe neighborhood parks projects, earthquake safety and response projects and road repaving and street safety projects. The City also issued \$123.6 million in refunding certifications of participation and \$150.5 million in certificates of participation for War Memorial Veteran Building Seismic Upgrade and Improvements projects. The San Francisco International Airport issued \$232.1 million in refunding revenue bonds for debt service savings. The Hetch Hetchy Power Enterprise issued \$4.1 million new clean renewable energy bonds to fund certain qualified clean, renewable energy solar generation facilities in the City. The San Francisco Wastewater Enterprise issued \$308.4 million in revenue refunding bonds to fund capital projects and pay off outstanding commercial paper notes. The balance of commercial paper issued to finance and refinance capital projects increased by \$283.9 million in this fiscal year. Of this increase, \$338.9 million represented business-type activities while net decreases of \$55.0 million represented governmental activities.

The City early implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73 Accounting and Financial Reporting for Pensions*. Statement No 82, treats Employer-Paid Member contributions as employee contributions rather than employer contributions. This resulted in a restatement due to change in accounting principle decreasing net position as of July 1, 2015 by \$8.6 million.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: (1) **Government-wide** financial statements, (2) **Fund** financial statements, and (3) **Notes** to the financial statements. This report also contains other **supplementary information** in addition to the basic financial statements themselves. These various elements of the Comprehensive Annual Financial Report are related as shown in the graphic below.

Organization of City and County of San Francisco Comprehensive Annual Financial Report

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

The following table summarizes the major features of the financial statements. The overview section below also describes the structure and contents of each of the statements in more detail.

	Government - wide Statements	Fund Financial Statements		
		Governmental	Proprietary	Fiduciary
Scope	Entire entity (except fiduciary funds)	The day-to-day operating activities of the City for basic governmental services	The day-to-day operating activities of the City for business-type enterprises	Instances in which the City administers resources on behalf of others, such as employee benefits
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus; except agency funds do not have measurement focus
Type of balance information	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, short-term and long-term	Balances of spendable resources	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, short-term and long-term	All resources held in a trustee or agency capacity for others
Type of inflow and outflow information	All inflows and outflows during year, regardless of when cash is received or paid	Near-term inflows and outflows of spendable resources	All inflows and outflows during year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The **statement of net position** presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the City is improving or deteriorating.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

The **statement of activities** presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include public protection, public works, transportation and commerce, human welfare and neighborhood development, community health, culture and recreation, general administration and finance, and general City responsibilities. The business-type activities of the City include an airport, port, transportation system (including parking), water and power operations, an acute care hospital, a long-term care hospital, and sewer operations.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate development authority, the Treasure Island Development Authority (TIDA), for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government. Included within the governmental activities of the government-wide financial statements are the San Francisco County Transportation Authority (Transportation Authority) and San Francisco Finance Corporation. Included within the business-type activities of the government-wide financial statements is the operation of the San Francisco Parking Authority. Although legally separate from the City, these component units are blended with the primary government because of their governance or financial relationships to the City. The City also considers the Successor Agency to the Redevelopment Agency (Successor Agency) as a fiduciary component unit of the City.

Fund Financial Statements

The fund financial statements are designed to report information about groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into the following three categories: **governmental** funds, **proprietary** funds, and **fiduciary** funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements – i.e. most of the City's basic services are reported in governmental funds. These statements, however, focus on (1) how cash and other financial assets can readily be converted to available resources and (2) the balances left at year-end that are available and the constraints for spending. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

The City maintains several individual governmental funds organized according to their type (special revenue, debt service, capital projects and permanent funds). Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts a rolling two-year budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

Proprietary funds. Proprietary funds are generally used to account for services for which the City charges customers – either outside customers, or internal units or departments of the City. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The City maintains the following two types of proprietary funds:

- **Enterprise funds** are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for the operations of the San Francisco International Airport (SFO or Airport), San Francisco Water Enterprise (Water), Hetch Hetchy Water and Power (Hetch Hetchy), San Francisco Municipal Transportation Agency (SFMTA), San Francisco General Hospital (SFGH), San Francisco Wastewater Enterprise (Wastewater), Port of San Francisco (Port), and the Laguna Honda Hospital (LHH), all of which are considered to be major funds of the City.
- **Internal Service funds** are used to report activities that provide supplies and services for certain City programs and activities. The City uses internal service funds to account for its fleet of vehicles, management information and telecommunication services, printing and mail services, and for lease-purchases of equipment by the San Francisco Finance Corporation. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. The City employees' pension and health plans, retirees' health care, the Successor Agency, the external portion of the Treasurer's Office investment pool, and the agency funds are reported under the fiduciary funds. Since the resources of these funds are not available to support the City's own programs, they are not reflected in the government-wide financial statements. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's net pension liability, pension contributions and progress in funding its obligation to provide other postemployment benefits to its employees and the City's schedule of contributions for its employees' other postemployment benefits.

Analysis of Net Position

The City's total net position, which may serve as a useful indicator of the government's financial position, was \$8.00 billion at the end of fiscal year 2015-16, a 22.0 percent increase over the prior year. The City's governmental activities account for \$2.00 billion of this total and \$6.00 billion stem from its business-type activities.

The largest portion of the City's net position is the \$8.15 billion in net investment in capital assets (e.g. land, buildings, and equipment). This reflects a \$630.7 million or 8.4 percent increase over the prior year, and is due to the growth seen in the governmental activities and increases in all business-type activities. Since the City uses capital assets to provide services, these assets are not available for future spending. Further, the resources required to pay the outstanding debt must come from other sources since the capital assets themselves cannot be liquidated to pay that liability.

Another portion of the City's net position is the \$1.75 billion that represents restricted resources that are subject to external limitations regarding their use. The remaining portion of total net position is a deficit of \$1.90 billion, which consists of a \$2.07 billion deficit in governmental activities and \$231.4 million deficit in business-type activities. The governmental activities and business-type activities deficit is largely due to recording net pension liability (see note 9). The governmental activities deficit also included \$406.8 million in long-term bonds liabilities that fund the LHH rebuild project, certain park facilities projects at the Port, improvement projects for reliable emergency water supply for the Water Enterprise, and road paving and street safety in SFMTA (see Note 10(d)).

Analysis of Changes in Net Position

The City's Change in Net Position decreased by \$5.3 million in fiscal year 2015-16, a 0.4 percent decrease from the prior fiscal year, as noted above. The decrease in the change in net position was due to a \$97.8 million increase from business-type activities offset by a \$103.1 million decrease from governmental activities.

The City's governmental activities experienced a \$469.1 million or 8.8 percent growth in total revenues. This included noticeable increases in the following revenues: \$164.2 million in charges for services, \$124.6 million in operating grants and contributions, \$168.5 million in property taxes, \$49.0 million in business taxes and \$29.6 million in sales and use tax. These were offset by decreases of \$23.4 million in capital grants and contribution revenue and \$52.1 million in other local tax revenue. The City's governmental activities expenses reported an increase of \$405.8 million or 10.1 percent this fiscal year. The net transfer to business-type activities increased by \$166.4 million. A discussion of these and other changes is presented in the governmental activities and business-type activities sections that follow.

Expenses and Program Revenues - Governmental Activities

Revenues By Source - Governmental Activities

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

Governmental activities. Governmental activities increased the City's total net position by approximately \$721.8 million. Key factors contributing to this change are discussed below.

Overall, total revenues from governmental activities were \$5.80 billion, a \$469.1 million or 8.8 percent increase over the prior year. For the same period, expenses totaled \$4.41 billion before transfers of \$671.2 million, resulting in a total net position increase of \$721.8 million by June 30, 2016.

Property tax revenues increased by \$168.5 million or 10.3 percent. This growth was due in large part to regular annual tax and escape tax collections associated with higher assessed values of secured real property and unsecured property in San Francisco and also due to increase in supplemental property tax collections for both current year and prior year supplemental assessments. A decrease in real property transfer tax by \$45.5 million made up the majority of the decline in other local taxes of \$52.1 million.

Revenues from business and sales and use taxes totaled approximately \$931.0 million, a growth of \$78.6 million over the prior year. Business taxes grew by \$49.0 million due to an increase in payroll tax revenue resulting from a 5.7 percent increase in employment and a 6.1 percent increase in average weekly wages in San Francisco. Increased business registration fee levels and gross receipts tax collection, due to Proposition E passed in November 2012, also significantly contributed to the growth in business taxes. Sales and use tax increased by \$29.6 million is primarily due to the "triple flip" unwinding, in which 0.25 percent of the 1 percent Bradley Burns allocation was directed to property tax to pay for economic recovery bonds, with the remaining 0.75 percent being allocated to local sales tax. Beginning in January 2016, the entire 1 percent of Bradley Burns revenue has been allocated as sales tax. In addition, there was approximately 1 percent of underlying growth, which was restrained by unexpectedly flat auto sales, a decline in general consumer goods-related revenue, and declines in fuel tax due to both continued low gas prices and changes in jet fuel purchasing to lower-cost states.

Hotel room tax revenues declined by \$6.6 million, or 1.7 percent, due to in prior fiscal year, the City received \$34.0 million in previously unpaid short-term rental tax obligations. Excluding this payment, hotel room tax revenue would have seen growth over the prior year of 7.6 percent. Hotel room tax revenue growth is a function of changes in occupancy, Average Daily Room Rate (ADR), and room supply. Strong demand from all segments of the market (tourist, convention, and business), combined with no additions to inventory, have exerted upward pressure on both occupancy and ADR.

Operating grants and contributions increased \$124.6 million. This was largely due to the increases from state sources, including \$24.8 million for human welfare programs, \$36.8 million for community health program grants, \$49.5 million for public works programs, \$8.9 million for public protection, \$4.9 million for culture and recreation programs and \$1.3 million for general administration and finance programs. These were offset by a slight decrease of \$1.6 million in general city responsibilities programs.

Total charges for services increased \$164.2 million, or 26.8 percent, and other revenues increased \$12.4 million. The increase in total charges for services is driven by increased fee revenues across various departments, partially due to improved economic conditions. The more significant increases are discussed as follows. The City is addressing the need for affordable housing by increasing supply resulting in a \$90 million increase in housing inclusionary fees. An increase in large housing projects in the South of Market District increased SOMA Stabilization impact fees by \$12.5 million. The Department of Building Inspection's permit revenue increased \$12.7 million due to an increase in construction permits and project completion. Fire Department charges for services increased by \$8.2 million due to ambulance billing recoveries, as well as plan check and inspection fees for developers. The Department of Public Works charges for services increased by \$4.3 million largely due to curb reconstruction and assessments, as well as encroachment assessments. The Planning Department's revenues grew by more than \$4.6 million from increased building permits and planning case volume, as well as CPI adjustments to fees. In addition, an increase of \$3.8 million in the citywide unallocated revenue was due to increased cost reimbursement of General Fund, consistent with the budgeted Full Cost Allocation Plan. The increase in other revenues is related to revenue received from the San Francisco Housing Authority much earlier than expected, as the Housing Authority's permanent financing plan was enacted.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

Interest and investment income revenue increased by \$3.3 million, or 16.0 percent, due to increased balances in the City's investment pool, primarily due to an increase in property tax revenues, business and sales tax revenues, and other revenues.

Net transfers from the governmental activities to business-type activities were \$671.2 million, a 33.0 percent or \$166.4 million increase from the prior year. This was mainly due to increased operating subsidies of \$36.7 million from the General Fund to SFMTA and \$85.1 million to SFGH, offset by a decrease of \$18.5 million in General Fund subsidies to LHH. In addition, the Water Enterprise received \$34.2 million in general obligation bond proceeds for the improvement of the Auxiliary Water Supply System, the Port received \$21.7 million for parks and open spaces projects, and SFMTA received \$61.9 million for road improvement and street safety projects.

The increase of total governmental expenses of \$405.8 million, or 10.1 percent, was primarily due to increase in demand for the government's services in almost all functional service by \$453.9 million, which was partly offset by the decrease of expenses in culture and recreation and general administrative and finance functions by \$48.1 million.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

Business-type activities increased the City's net position by \$719.6 million and key factors contributing to this increase are:

- The San Francisco International Airport had an increase in net position at fiscal year-end of \$49.9 million, compared to a \$56.1 million increase in the prior year, a \$6.2 million difference. Operating revenues totaled \$867.0 million for fiscal year 2015-16, an increase of \$51.6 million or 6.3 percent over the prior year and included increases of \$30.8 million, \$2.1 million, \$11.7 million, and \$7.0 million in aviation, concession, parking and transportation, and net sales and services revenues, respectively, reflecting traffic growth at the Airport. For the same period, the Airport's operating expenses increased by \$31.4 million, or 5.2 percent, for a net operating income of \$226.5 million for the period. Net non-operating activities saw a deficit of \$144.5 million versus \$141.8 million deficit in the prior year, a \$2.6 million increase. The increase in both operating and non-operating expenses is due to increases in personnel, depreciation, and other non-operating expenses. Personnel costs increased \$14.4 million due to cost of living adjustments and additional positions. Also, capital contributions decreased by \$21.7 million due to a reduction in federal grants received.
- The City's Water Enterprise, the third largest such entity in California, reported an increase in net position of \$26.2 million at the end of fiscal year 2015-16, compared to an increase of \$97.4 million at the end of the previous year, a \$71.2 million difference. Revenues totaled \$463.2 million, expenses totaled \$470.3 million, and the net increase from capital contributions and transfers was \$33.2 million. Compared to the prior year, total revenues decreased \$24.8 million, which included \$16.1 million in non-operating revenues. The primary reason for the decrease in water service revenues was due to a \$19.3 million wholesale revenue adjustment and a 10.3% decrease in consumption, offset by adopted rate increases of 28.0% for wholesale customers and 12.0% for retail customers. Within expenses, the enterprise reported a total increase of \$28.6 million in fiscal year 2015-16. This included an \$11.3 million increase in depreciation expense from increased capitalized assets, a \$1.3 million increase in general and administrative and other expenses, a \$3.8 million increase in personnel services, \$0.7 million increase in construction and engineering contractual services, \$0.5 million increase in services provided by other departments, and \$0.2 million for building and construction supplies.
- Hetch Hetchy Water and Power ended fiscal year 2015-16 with a net position increase of \$25.7 million, compared to a \$11.1 million increase the prior year, a difference of \$14.6 million. This change consisted of increases in operating income of \$12.4 million, non-operating income of \$3.6 million, and a decrease of transfers from (to) the City of \$1.4 million. This enterprise consists of two segments: Hetchy Water upcountry operations and water system, which reported a \$2.3 million increase in change in net position, and Hetchy Power (also known as the Power Enterprise), which reported a \$23.4 million increase in change in net position. Hetchy Water operating revenues decreased by \$0.1 million while operating expenses decreased by \$2.2 million. In addition, there was a \$0.2 million decrease in water assessment fee revenue from the Water Enterprise in nonoperating revenue. Hetchy Power's total revenues increased by \$17.0 million mostly due to increases in sales of excess power of \$9.3 million, \$4.4 million from City Departments, and an increase of \$3.3 million electricity sales from CleanPowerSF. On the operating expenses side, Hetchy Power reported an increase of \$6.7 million due to increases of \$3.5 million in purchased electricity, \$3.0 million in transmission and distribution power costs, \$2.5 million in project spending, \$1.4 million in services provided by other departments, \$0.8 million in materials and electrical supplies, \$0.4 million in personnel services mainly due to cost of living adjustments and pension costs and \$0.4 million in personnel services mainly due to cost of living adjustments and pension costs and \$0.4 million higher taxes, licenses and permits related to national park service. These increases were offset by decreases of \$2.4 million in contractual services, \$1.8 million in judgments and claims mainly due to prior year one-time settlement of franchise tax fees, and \$1.1 million in depreciation.
- The City's Wastewater Enterprise's net position increased by \$13.9 million, compared to a \$29.3 million increase the prior year, a \$15.4 million change. Operating revenues increased by \$5.8 million due to a \$4.6 million increase in charges for services as a result of an average 5% adopted rate increase, a \$0.4 million increase from other City departments, as well as increased capacity fees and an increase in permit applications. Operating expenses increased by \$5.1 million due to increases of \$3.1 million in Sewer System Improvement Program (SSIP) and repair and replacement project expenses, \$2.7

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

million in personnel services mainly due to cost of living adjustments, health and pension costs, \$2.1 million in pollution remediation obligations, \$1.2 million in higher building and equipment maintenance services, \$0.5 million in depreciation expense, and \$0.4 million in materials and supplies, which were offset by decreases of \$4.9 million in general and administrative expenses mainly due to lower judgment and claims liability based on actuarial estimate. Transfers out increased by \$16.3 million due to a transfer to the General Fund in order to secure jurisdiction of the City owned property adjacent to the Southeast Water Pollution Control Plant. This was offset by a transfer in of \$0.5 million and a net nonoperating expense of \$0.3 million.

- The Port ended fiscal year 2015-16 with a net position increase of \$35.1 million, compared to a \$11.8 million increase in the previous year, a \$23.3 million difference. The Port is responsible for seven and one-half miles of waterfront property and its revenue is derived primarily from property rentals to commercial and industrial enterprises and a diverse mix of maritime operations. In fiscal year 2015-16, operating revenues increased \$4.4 million and included a net increase in property rentals of \$1.8 million and an increase in cruise revenues of \$2.7 million. Operating expenses increased \$3.1 million over the prior year. This was due in part to a \$2.0 million increase in the cost of services from other departments and a net increase of \$1.5 million in personnel and other expenses. The above changes were offset by an increase of \$0.4 million in interest expense.
- The SFMTA had an increase in net position of \$478.3 million for fiscal year 2015-16 before cumulative effect of accounting change, compared to an increase of \$294.7 million in the prior year, a \$183.6 million change. SFMTA's total operating revenues were \$495.3 million, while total operating expenses reached \$1.10 billion. Operating revenues decreased by \$4.3 million compared to the prior year and is mainly due to lower passenger fare revenue of \$8.0 million, a slight decrease in rental income of \$0.8 million, and \$3.6 million in other revenues which consists primarily of taxi medallion revenue. These decreases were offset by an increase of \$7.8 million in parking permit, fines, and penalties, and an increase in charges for services of \$0.3 million. Operating expenses increased by \$88.8 million primarily due to personnel costs. Net nonoperating revenue increased by \$39.8 million mainly due to transit impact developer fees. An increase of capital contributions of \$91.1 million is due to an increase in capital expenditures incurred and billable to grantors mostly related to Central Subway, revenue vehicles procurement, and other large projects. Net transfers in increased by \$145.8 million due to a \$36.7 million increase in transfers from the City's General Fund mainly for operating subsidies and an increase of \$99.7 million in transfers from nonmajor governmental funds and a decrease in transfers out of \$9.4 million. Transfers from nonmajor governmental funds included \$123.8 million for capital activities and street improvement projects. In fiscal year 2015-16, the City elected early implementation of GASB Statement No. 82, resulting in a restatement of SFMTA's 2014-15 results, reducing the beginning net position in the amount of \$8.6 million.
- LHH, the City's skilled nursing care hospital, had an increase in net position of \$21.6 million at the end of fiscal year 2015-16, compared to an increase of \$6.6 million at the end of the previous year, a \$15.0 million difference. The LHH's loss before capital contributions and transfers for the year was \$22.7 million versus a loss of \$61.5 million for the prior year. This change of \$38.8 million was mostly due to a \$48.8 million increase in operating revenues, a \$8.6 million increase in operating expenses, and a \$1.3 million decrease in other non-operating revenues. This was offset by a \$23.9 million decrease in net transfers from the City this fiscal year.
- SFGH, the City's acute care hospital, ended fiscal year 2015-16 with a net position increase of \$77.6 million, compared to a \$123.4 million increase the prior year, a \$45.8 million change. This was due to decreased capital contributions of \$5.0 million compared to prior year's capital contributions of \$57.4 million. However, SFGH incurred an operating loss of \$89.6 million, which was a \$66.0 million increase from the prior year. This was due to a \$21.2 million decrease in operating revenues, largely related to net patient services revenues; and increases in operating expenses mostly due to \$26.2 million in personal services, \$7.2 million in contractual services, and \$10.9 million in depreciation and amortization.

Management's Discussion and Analysis (Unaudited) (Continued)
Year Ended June 30, 2016

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds statements is to provide information on near-term inflows, outflows, and balances of resources available for future spending. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, Capital Project Funds, and the Permanent Fund.

At the end of fiscal year 2015-16, the City governmental funds reported combined fund balances of \$2.84 billion, an increase of \$546.5 million or 23.9 percent over the prior year. Of the total fund balances, \$945.7 million is assigned and \$138.0 million is unassigned. The total of \$1.08 billion or 38.2 percent of the total fund balances constitutes the fund balances that are accessible to meet the City's needs. Within these fund balance classifications, the General Fund had an assigned fund balance of \$879.6 million. The remainder of the governmental fund balances includes \$0.1 million nonspendable for items that are not expected to be converted to cash such as inventories and long-term loans, \$1.56 billion restricted for programs at various levels and \$187.2 million committed for other reserves.

The General Fund is the chief operating fund of the City. As a measure of liquidity, both the sum of assigned and unassigned fund balances and total fund balance can be compared to total fund expenditures. As of the end of the fiscal year, assigned and unassigned fund balances totaled \$1.12 billion while total fund balance reached \$1.43 billion. Combined assigned and unassigned fund balances represent 33.7 percent of total expenditures, while total fund balance represents 43.0 percent of total expenditures. For the year, the General Fund's total revenues exceeded expenditures by \$1.03 billion, before transfers and other items of \$748.4 million, resulting in total fund balance increasing by \$284.0 million. Overall, the significant growth in revenues, particularly in property taxes, business taxes, sales and uses tax and charges for services were offset by an increased rate of expenditure growth due to growing demand for services and personnel costs across City functions and resulted in an increased fund balance this fiscal year.

Proprietary Funds

The City's proprietary fund statements provide the same type of information found in the business-type activities section of the government-wide financial statements but with some additional detail.

At the end of fiscal year 2015-16, the unrestricted net position for the proprietary funds was as follows: Airport: \$36.0 million, Water Enterprise: \$26.5 million, Hetch Hetchy Water and Power: \$141.1 million, Wastewater Enterprise: \$38.0 million, and the Port: \$57.1 million. In addition, SFMTA, San Francisco General Hospital, and Laguna Honda Hospital had deficits in unrestricted net position of \$3.4 million, \$341.4 million, and \$185.5 million, respectively.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

The following table shows actual revenues, expenses and the results of operations for the current fiscal year in the City's proprietary funds (in thousands). This shows that the total net position for these funds increased by approximately \$728.2 million due to the current year financial activities. Reasons for this change are discussed in the previous section on the City's business-type activities.

	Operating Revenues	Operating Expenses	Operating Income (Loss)	Non- Operating Revenues (Expense)	Capital Contributions and Others	Interfund Transfers, Net	Change In Net Position
Airport.....	\$ 866,991	\$ 640,473	\$ 226,518	\$ (144,463)	\$ 10,424	\$ (42,542)	\$ 49,937
Water.....	419,516	314,786	104,730	(111,771)	-	33,244	26,203

Municipal Transportation Agency....	495,296	1,100,234	(604,938)	206,529	357,871	518,795	478,257
General Hospital.....	717,053	806,694	(89,641)	53,520	5,000	108,681	77,560
Wastewater Enterprise.....	261,775	221,553	40,222	(10,309)	-	(16,025)	13,888
Port.....	99,733	86,793	12,940	(3,594)	1,629	24,100	35,075
Laguna Honda Hospital.....	205,267	235,841	(30,574)	7,900	-	44,240	21,566
Total.....	<u>\$ 3,230,367</u>	<u>\$ 3,554,869</u>	<u>\$ (324,502)</u>	<u>\$ 6,571</u>	<u>\$ 374,924</u>	<u>\$ 671,173</u>	<u>\$ 728,166</u>

Fiduciary Funds

The City maintains fiduciary funds for the assets of the San Francisco Employees' Retirement System, Health Service System and Retiree Health Care Trust, and manages the investment of monies held in trust to benefit public service employees. At the end of fiscal year 2015-16, the net position of the Retirement System, Health Service System and Retiree Health Care Trust combined totaled \$20.34 billion, representing a \$244.7 million decrease from the prior year, and 1.2 percent change. The decrease is a result of benefit payments greater than contributions offset by net investment income. The Private-Purpose Trust Fund accounts for the Successor Agency, which had a net deficit of \$377.0 million at year's end. This 11.4 percent, or \$48.4 million, decrease in the net deficit is due to increases in developer payments and the sale of the Jessie Square parking garage. The Investment Trust Fund's net position was \$743.9 million at year's end, and the 37.8 percent increase represents the excess of contributions over distribution to external participants.

General Fund Budgetary Highlights

The City's final budget differs from the original budget in that it contains carry-forward appropriations for various programs and projects, and supplemental appropriations approved during the fiscal year.

During the year, actual revenues and other resources were \$138.2 million higher than the final budget. The City realized \$101.3 million, \$24.6 million, \$17.4 million, \$15.4 million, \$13.6 million, and \$5.1 million more revenue than budgeted in property taxes, business taxes, other resources, charges for services, other grants and subventions, and utility users tax, respectively. These increases were partly offset by reductions of \$28.9 million, \$7.2 million, \$5.4 million, and \$5.0 million, in transfers from other funds, real property transfer tax, health and welfare realignment, and sales and use tax, respectively.

Differences between the final budget and the actual (budgetary basis) expenditures resulted in \$158.5 million in expenditure savings. Major factors include:

- \$85.3 million in savings from the Department of Public Health due to delays in contracting and hiring for vacant positions creating additional salary and fringe benefit savings, and prior year encumbrance closeouts.
- \$36.5 million in savings from the Human Services Agency, due largely to operating savings in salaries and benefits from delays in hiring, contract savings, reductions in aid assistance and aid payments resulting from a mid-year change in budgeting, and lower than expected caseload levels.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

- \$11.8 million savings in contracts and salary and benefits mainly in General Services Administration, Treasurer/Tax Collector, Assessor/Recorder, City Planning, City Attorney, Board of Supervisors, Elections, and other departments in general administration and finance.
- \$10.1 million in salary and benefit savings mainly in Juvenile Probation, Adult Probation, Sheriff, Emergency Communications and other departments in public protection.
- The remaining lower than budgeted expenditures are savings from public works, transportation and commerce, and culture and recreation.

The net effect of substantial revenue increases, savings in expenditures and reduction in reserve deposits was a budgetary fund balance available for subsequent year appropriation of \$435.2 million at the end of fiscal year 2015-16. The City's fiscal year 2016-17 and 2017-18 Adopted Original Budget assumed an available balance of \$363.3 million fully appropriated in fiscal year 2016-17 and fiscal year 2017-18 leaving \$11.9 million available for future appropriations. (See also Note 4 to the Basic Financial Statements for additional budgetary fund balance details).

Capital Assets and Debt Administration

Capital Assets

The City's capital assets for its governmental and business-type activities as of June 30, 2016, increased by \$1.20 billion, 6.1 percent, to \$20.82 billion (net of accumulated depreciation). Capital assets include land, buildings and improvements, machinery and equipment, park facilities, roads, streets, bridges, and intangible assets. Governmental activities contributed \$250.6 million or 21.0 percent to this total increase while \$945.6 million or 79.0 percent was from business-type activities. Details are shown in the table below.

	Governmental Activities		Business-type Activities		Total	
	2016	2015	2016	2015	2016	2015
	Land.....	\$ 334,261	\$ 299,911	\$ 217,441	\$ 217,441	\$ 551,702
Construction in progress.....	456,093	1,245,064	3,120,461	3,104,166	3,576,554	4,349,230
Facilities and improvements....	3,372,183	2,544,116	10,484,335	9,716,578	13,856,518	12,260,694
Machinery and equipment.....	201,333	76,202	1,112,860	926,979	1,314,193	1,003,181
Infrastructure.....	686,365	659,502	701,029	719,240	1,387,394	1,378,742
Intangible asset.....	75,117	49,915	59,691	65,802	134,808	115,717
Total.....	<u>\$ 5,125,352</u>	<u>\$ 4,874,710</u>	<u>\$ 15,695,817</u>	<u>\$ 14,750,206</u>	<u>\$ 20,821,169</u>	<u>\$ 19,624,916</u>

Major capital asset events during the current fiscal year included the following:

- Under governmental activities, net capital assets increased by \$250.6 million or 5.1 percent. The City issued \$713.4 million in Commercial Paper to provide financing for various capital projects, including the purchase of capital equipment for San Francisco General Hospital, the Veterans Building seismic upgrades, and the Moscone Center expansion. Approximately \$1.1 billion in construction in progress work was substantially completed and capitalized as facilities and improvement and infrastructure. The completed projects include capitalization of approximately \$848.0 million for the new San Francisco General Hospital Rebuild Project and approximately \$135.8 million for the seismic upgrade of the Veterans building. The remaining completed projects include public works, intangible assets, and traffic signal projects.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

- The Water Enterprise's net capital assets increased by \$245.2 million or 5.3 percent, reflecting an increase in construction and capital improvement activities. Major additions to construction work in progress included Calaveras Dam Replacement, Regional Groundwater Storage and Recovery, the Harry Tracy Water Treatment Plant Long-Term Improvements, Auxiliary Water Supply System, San Francisco Groundwater Supply, Peninsula Pipeline Seismic Upgrade, Irvington Tunnel Alternatives, and other upgrade and improvement programs. As of June 30, 2016, the Water Enterprise is 90% through construction of its multi-billion dollar, multi-year program to upgrade the Hetch Hetchy Regional and Local Water Systems. The program consists of 35 local projects within San Francisco and 52 regional projects spread over seven different counties from the Sierra foothills to San Francisco. As of June 30, 2016, 34 local projects are completed and the target completion date is December 2016. For regional projects, 36 are completed and the expected completion date is December 2019. The Water System Improvement Program (WSIP) delivers capital improvements that enhance the Water Enterprise's ability to provide reliable, affordable, high quality drinking water to its customers.
- SFMTA's net capital assets increased by \$400.7 million or 14.6% mainly from construction in progress of \$212.7 million for the new Central Subway Project, Central Control, rail replacement, transit lane and street improvement projects. Equipment costs of \$283.1 million was incurred during the fiscal year for the procurement of new light rail vehicles, trolley and motor buses to replace the old fleet, upgrade of communications system, traffic signals, radio replacement, and various information systems development. Building cost totaling \$36.2 million was incurred in fiscal year 2016 for Islais Creek facility improvement, transit operator convenience stations, elevator and escalator modernization, and upgrade of garage facilities in various locations.
- Laguna Honda Hospital's net capital assets decreased by \$15.0 million or 2.8 percent due primarily to depreciation expense being greater than asset additions. Laguna Honda Hospital provides 780 resident beds in three state of the art buildings on Laguna Honda's 62-acre campus. The 500,000 square foot facility received silver certification by the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) program, becoming the first green-certified hospital in California.
- SFGH's net capital assets increased by \$61.0 million or 49.1 percent primarily due to the increases in the acquisition of capital assets for the hospital. As of June 30, 2016, General Obligation Bonds in the amount of \$887.4 million have been sold to fund the hospital rebuild. During the period of July 2015 - June 2016, construction of the new hospital was completed and reached substantial completion on August 18, 2015. Patients were moved into the new hospital on May 21, 2016. The General Obligation Bonds are accounted for as governmental activity and transactions are accounted for in the City's Governmental Capital Projects Funds. Upon completion of the new facility, it was capitalized and recorded under governmental activities.
- The Wastewater Enterprise net capital assets reported an increase of \$126.9 million or 6.6 percent mainly in completed construction activities. These include the Northshore to Channel Force Main, Ocean Side Treatment Plant Improvements, Southeast Treatment Plant Oxygen Generate Plant Replacement, and other capital projects throughout the system. The San Francisco Public Utilities Commission is underway with the initial phase of the Sewer System Improvement Program, a multi-year and multi-billion dollar investment to upgrade the aging sewer system to provide a reliable, sustainable, and seismically safe sewer system. The \$7.0 billion program includes three phases over the span of next 20 years.
- Hetch Hetchy's net of accumulated depreciation and amortization, increased by \$30.9 million or 8.3% to \$404.2 million primarily due to additions of facilities, improvements, machinery, and equipment for Moccasin Facilities Upgrade, Transmission and Distribution System, Lower Cherry Aqueduct, Streetlight Replacement, Server Building projects, and San Joaquin Pipeline Rehabilitation. The Hetchy System Improvement Program is a long-term capital program from 2012 to 2025 and includes projects, varying in scope and complexity, to address necessary work on water transmission, hydroelectric generation and power transmission facilities in Tuolumne, Mariposa, Stanislaus, San Joaquin and Alameda counties, essential to continued delivery of both water and power.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

- The Airport's net capital assets increased \$109.2 million or 2.8 percent primarily due to the capitalization of capital improvement project costs. The Airport has five- and ten-year Capital Plans to build new facilities, improve existing facilities, renovate buildings, repair or replace infrastructure, preserve assets, enhance safety and security, develop systems functionality, and perform needed maintenance. Significant projects in design or under construction in fiscal year 2017 include the Terminal 1 (T1) Redevelopment Program which includes the redevelopment of Boarding Area B, the expansion of the T1 Central Area, and a new baggage handling system, in addition to the Terminal 3 (T3) Redevelopment Program which creates a unified T3 checkpoint and constructs a new secure connector and office block. Other notable ongoing projects include the on-airport hotel, a new consolidated administration campus building, a second long-term parking garage, and a new industrial waste treatment plant.
- The Port's net capital assets decreased by \$13.3 million or 3.0 percent due to capitalization and depreciation of capital improvements in 2015, including the James R. Herman Cruise Terminal at Pier 27. Pier 35 Building and Roof project provided for the upgrade of two elevators and essential water intrusion work (roofing, flashing, window and door weather stripping repairs) in several areas in the Pier 35 bulkhead and the shed building. Pier 49, Wharf J1 Under-Pier Sewer Replacement project's scope included the replacement of all existing under-pier gravity main and branch sewer lines serving six Port tenant restaurants at Pier 49 Wharf J1. The security improvements through the installation and deployment of closed-circuit television (CCTV) and integrated access control/intrusion detection systems at key Port facilities continue in phases, largely based on priority and available funding. The opening of the Bayview Gateway was celebrated with a ribbon-cutting ceremony on September 18, 2015. It is a one-acre passive green open space at the intersection of Cargo Way and Third Street near Pier 90.

At the end of the year, the City's business-type activities had approximately \$1.20 billion in commitments for various capital projects. Of this, Water Enterprise had an estimated \$283.3 million, SFMTA had \$567.2 million, Wastewater had \$190.7 million, Airport had \$75.8 million, Hetch Hetchy had \$63.6 million, Port had \$15.1 million, Laguna Honda Hospital had \$0.7 million and the General Hospital had \$4.2 million. In addition, there was approximately \$88.0 million reserved for encumbrances in capital project funds for the general government projects.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Governmental fund financial statements record capital asset purchases as expenditures.

Additional information about the City's capital assets can be found in Note 7 to the Basic Financial Statements.

Debt Administration

At the end of the June 30, 2016, the City had total long-term and commercial paper debt outstanding of \$14.39 billion. Of this amount, \$2.22 billion is general obligation bonds secured by ad valorem property taxes without limitation as to rate or amount upon all property subject to taxation by the City and \$12.17 billion is revenue bonds, commercial papers, certificates of participation and other debts of the City secured solely by specified revenue sources. As noted previously, the City's total long-term debt including all bonds, loans, commercial paper notes and capital leases increased by \$516.7 million or 3.7 percent during the fiscal year.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

The net increase in debt obligations in the governmental activities was \$152.1 million primarily due to the issuance of \$321.9 million of general obligation bonds to finance 1) the improvements to the City's transportation system, streets and roads; 2) improvements to park, open space and recreational facilities; 3) repairs and seismic improvements to better prepare San Francisco for a major earthquake or natural disaster. The City likewise issued \$150.5 million certificates of participation to refinance commercial paper notes used to finance the renovation and seismic retrofit of the War Memorial Veterans Building. The City refunded \$123.6 million certificates of participation which financed the acquisition of certain office buildings occupied by various City departments for debt service savings.

The business-type activities net debt increase was \$364.6 million primarily due to issuance of \$338.9 million commercial paper notes by the Airport, Water Enterprise, Wastewater Enterprise and the San Francisco General Hospital for interim financing of various projects. The Wastewater Enterprise issued \$308.4 million revenue bonds to finance wastewater capital projects and the Hetch Hetchy Power Enterprise issued \$4.1 million energy bonds to fund certain solar generation facilities at the Marina Middle School and the San Francisco Police Academy. The Airport issued \$232.1 million in revenue refunding bonds for economic gain.

The City's Charter imposes a limit on the amount of general obligation bonds the City can have outstanding at any given time. That limit is three percent of the assessed value of taxable property in the City – estimated at \$194.30 billion in value as of the close of the fiscal year. As of June 30, 2016, the City had \$2.22 billion in authorized, outstanding general obligation bonds, which is equal to approximately 1.10 percent of gross (1.15 percent of net) taxable assessed value of property. As of June 30, 2016, there were an additional \$1.62 billion in bonds that were authorized but unissued. If all of these general obligation bonds were issued and outstanding in full, the total debt burden would be approximately 1.90 percent of gross (1.98 percent of net) taxable assessed value of property.

The City's underlying ratings on general obligation bonds as of June 30, 2016 were:

Moody's Investors Service, Inc.	Aa1
Standard & Poor's	AA+
Fitch Ratings	AA+

During the fiscal year, Moody's Investors Service (Moody's) and Standard & Poor's affirmed the City's ratings of "Aa1" and "AA+", respectively, with Stable Outlook. Fitch Ratings upgraded its rating of "AA" to "AA+", and revised the rating outlook to Stable from Positive on all the City's outstanding general obligation bonds.

The City's enterprise activities carried upgraded underlying debt ratings for the SFMTA of "Aa2" and "AA" from Moody's and Standard & Poor's, respectively. Moody's, Standard and Poor's and Fitch Ratings affirmed their underlying credit ratings of the Airport of "A1", "A+" and "A+" with Stable Rating Outlooks, respectively. The Water Enterprise carried underlying ratings of "Aa3" and "AA-" and the Wastewater Enterprise carried underlying ratings of "Aa3" and "AA" from Moody's and Standard and Poor's respectively of June 30, 2016.

In October 2016, Moody's Investors Service upgraded the City's Lease Revenue Bonds and Certificates of Participation from Aa3 to Aa2 for those secured by "more essential assets", and also upgraded the City's Lease Revenue Refunding bonds from Aa3 to Aa2, including Series 2008-1 and 2008-2, despite the "less essential" nature of the leased assets securing the bonds, because they are a demonstrated, stable non-pledged revenue source that provides strong coverage of debt service payments. Moody's also upgraded the rating on the City's Equipment Leases from A1 to Aa2, because of the strong lease structure where the lease term matches the useful life of the leased assets.

Additional information in the City's long-term debt can be found in Note 8 to the Basic Financial Statements.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2016

Economic factors and future budgets and rates

San Francisco has continued to experience improvement in the economy during the fiscal year. The following economic factors were considered in the preparation of the City's budget for fiscal years 2016-17 and 2017-18. This two-year budget was adopted by the Mayor and the Board of Supervisors. It is a rolling budget for all departments, except for the Airport, PUC enterprises, SFMTA, the Port of San Francisco and Child Support Services, which each have a fixed two-year budget.

- The City's average unemployment for fiscal year 2015-16 was 3.4 percent, a decrease of 0.5 percent from the average unemployment rate in fiscal year 2014-15.
- Housing prices, residential and commercial rent, hotel revenues, and retail sales all continued to show strong growth. The average median home price in fiscal year 2015-16 was \$1.1 million up 10.4 percent from the previous fiscal year. Residential and commercial rents also grew by 4.9 percent and 6.5 percent, respectively, from the prior fiscal year.
- The hotel sector saw continued growth in fiscal year 2015-16 over the prior year. Annual average hotel room occupancy grew to 87.7 percent in fiscal year 2015-16 while average daily room rates grew by 5.7 percent over the prior year.
- The City's taxable sales have also continued to grow, with fiscal year 2015-16 sales tax revenue up 11.2 percent over fiscal year 2014-15.

The Board of Supervisors approved a final two-year budget for fiscal years 2016-17 and 2017-18 in July 2016, which assumes use of prior year fund balance from General Fund of \$172.1 million and \$191.2 million, respectively.

CITY AND COUNTY OF SAN FRANCISCO

**Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position**

June 30, 2016

(In Thousands)

Fund balances – total governmental funds	\$2,835,474
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	5,114,367
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the governmental funds.	(4,710,404)
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred inflows of resources and are recognized as revenues in the period the amounts become available in the governmental funds.	326,310
Interest on long-term debt is not accrued in the funds, but rather is recognized as an expenditure when due.	(11,893)
Deferred outflows and inflows of resources in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	17,046
Net pension liability and pension related deferred outflows and inflows of resources are not due in the current period and therefore are not reported in the governmental funds.	(1,374,202)
Internal service funds are used by management to charge the costs of capital lease financing, fleet management, printing and mailing services, and information systems to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.	<u>(187,635)</u>
Net position of governmental activities	<u>\$2,009,063</u>

CITY AND COUNTY OF SAN FRANCISCO

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in
Fund Balances of Governmental Funds to the Statement of Activities**

Year Ended June 30, 2016

(In Thousands)

Net changes in fund balances - total governmental funds	\$546,531
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation and loss on disposal of capital assets in the current period.	249,229
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This is the amount by which the increase in certain liabilities reported in the statement of net position of the previous year exceeded expenses reported in the statement of activities that do not require the use of current financial resources.	(155,660)
Property taxes are recognized as revenues in the period the amounts become available. This is the current period amount by which the deferred inflows of resources decreased in the governmental funds.	10,141
Other revenues that were unavailable are reported as deferred inflows of resources in the governmental funds. This is the current period amount by which deferred inflows of resources decreased in the governmental funds.	175
Governmental funds report revenues and expenditures primarily pertaining to long-term loan activities, which are not reported in the statement of activities. These activities are reported at the government-wide level in the statement of net position. This is the net expenditures reported in the governmental funds.	5,068
Changes to net pension liability and pension related deferred outflows and inflows of resources do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	282,088
The issuance of long-term debt and capital leases provides current financial resources to governmental funds, while the repayment of the principal of long-term debt and capital leases consume the current financial resources of governmental funds. These transactions, however, have no effect on net position. This is the amount by which bond and other debt proceeds exceeded principal retirement in the current period.	(211,534)
Bond premiums are reported in the governmental funds when the bonds are issued, and are capitalized and amortized in the statement of net position. This is the amount of bond premiums capitalized during the current period.	(32,845)
Interest expense in the statement of activities differs from the amount reported in the governmental funds because of additional accrued and accreted interest; amortization of bond discounts, premiums and refunding losses and gains.	16,063
The activities of internal service funds are reported with governmental activities.	<u>12,593</u>
Change in net position of governmental activities	<u>\$ 721,849</u>

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements

June 30, 2016

(Dollars in Thousands)

(1) THE FINANCIAL REPORTING ENTITY

San Francisco is a city and county chartered by the State of California and as such can exercise the powers as both a city and a county under state law. As required by generally accepted accounting principles, the accompanying financial statements present the City and County of San Francisco (the City or primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operations or financial relationships with the City.

As a government agency, the City is exempt from both federal income taxes and California State franchise taxes.

Blended Component Units

Following is a description of those legally separate component units for which the City is financially accountable that are blended with the primary government because of their individual governance or financial relationships to the City.

San Francisco County Transportation Authority (Transportation Authority) – The voters of the City created the Transportation Authority in 1989 to impose voter-approved sales and use tax of one-half of one percent, for a period not to exceed 20 years, to fund essential traffic and transportation projects. In 2003, the voters approved Proposition K, extending the city-wide one-half of one percent sales tax with a new 30-year plan. A board consisting of the eleven members of the City's Board of Supervisors serving ex officio governs the Transportation Authority. The Transportation Authority is reported in a special revenue fund in the City's basic financial statements. Financial statements for the Transportation Authority can be obtained from their finance and administrative offices at 1455 Market Street, 22nd Floor, San Francisco, CA 94103.

San Francisco City and County Finance Corporation (Finance Corporation) – The Finance Corporation was created in 1990 by a vote of the electorate to allow the City to lease-purchase \$20 million (plus 5% per year growth) of equipment using tax-exempt obligations. Although legally separate from the City, the Finance Corporation is reported as if it were part of the primary government because its sole purpose is to provide lease financing to the City. The Finance Corporation is governed by a three-member board of directors approved by the Mayor and the Board of Supervisors. The Finance Corporation is reported as an internal service fund. Financial statements for the Finance Corporation can be obtained from their administrative offices at City Hall, Room 336, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

San Francisco Parking Authority (The Parking Authority) – The Parking Authority was created in October 1949 to provide services exclusively to the City. In accordance with Proposition D authorized by the City's electorate in November 1988, a City Charter amendment created the Parking and Traffic Commission (PTC). The PTC consists of five commissioners appointed by the Mayor. Upon creation of the PTC, the responsibility to oversee the City's off-street parking operations was transferred from the Parking Authority to the PTC. The staff and fiscal operations of the Parking Authority were also incorporated into the PTC. Beginning on July 1, 2002, the responsibility for overseeing the operations of the PTC became the responsibility of the Municipal Transportation Agency (SFMTA) pursuant to Proposition E, which was passed by the voters in November 1999. Separate financial statements are not prepared for the Parking Authority. Further information about the Parking Authority can be obtained from the SFMTA Chief Financial Officer at 1 South Van Ness Avenue, 8th Floor, San Francisco, CA 94102.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Discretely Presented Component Unit

Treasure Island Development Authority (The TIDA) – The TIDA is a nonprofit public benefit corporation. The TIDA was authorized in accordance with the Treasure Island Conversion Act of 1997. Seven commissioners who are appointed by the Mayor, subject to confirmation by the City's Board of Supervisors, govern the TIDA. The specific purpose of the TIDA is to promote the planning, redevelopment, reconstruction, rehabilitation, reuse, and conversion of the property known as Naval Station Treasure Island for the public interest, convenience, welfare, and common benefit of the inhabitants of the City. The TIDA has adopted as its mission the creation of affordable housing and economic development opportunities on Treasure Island.

The TIDA's governing body is not substantively the same as that of the City and does not provide services entirely or almost entirely to the City. The TIDA is reported in a separate column to emphasize that it is legally separate from the City. The City is financially accountable for the TIDA through the appointment of the TIDA's Board and the ability of the City to approve the TIDA's budget. Disclosures related to the TIDA, where significant, are separately identified throughout these notes. Separate financial statements are not prepared for TIDA. Further information about TIDA can be obtained from their administrative offices at 1 Avenue of the Palms, Suite 241, Treasure Island, San Francisco, CA 94130.

Fiduciary Component Unit

Successor Agency to the Redevelopment Agency of the City and County of San Francisco (Successor Agency) – The Successor Agency was created on February 1, 2012 to serve as a custodian for the assets and to wind down the affairs of the former San Francisco Redevelopment Agency pursuant to California Redevelopment Dissolution Law. The Successor Agency is governed by the Successor Agency Commission, commonly known as the Commission on Community Investment and Infrastructure, and is a separate public entity from the City. The Commission has five members, which serve at the pleasure of the City's Mayor and are subject to confirmation by the Board of Supervisors. The City is financially accountable for the Successor Agency through the appointment of the Commission and a requirement that the Board of Supervisors approve the Successor Agency's annual budget.

The financial statements present the Successor Agency and its component units, entities for which the Successor Agency is considered to be financially accountable. The City and County of San Francisco Redevelopment Financing Authority (Financing Authority) is a joint powers authority formed between the former Agency and the City to facilitate the long-term financing of the former Agency activities. The Financing Authority is included as a blended component unit in the Successor Agency's financial statements because the Financing Authority provides services entirely to the Successor Agency.

Per the Redevelopment Dissolution Law, certain actions of the Successor Agency are also subject to the direction of an Oversight Board. The Oversight Board is comprised of seven-member representatives from local government bodies: four City representatives appointed by the Mayor of the City subject to confirmation by the Board of Supervisors of the City; the Vice Chancellor of the San Francisco Community College District; the Board member of the Bay Area Rapid Transit District; and the Executive Director of Policy and Operations of the San Francisco Unified School District.

In general, the Successor Agency's assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments). In future fiscal years, the Successor Agency will only be allocated revenues in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former Agency until all enforceable obligations of the former Agency have been paid in full and all assets have been liquidated. Based upon the nature of the Successor Agency's custodial role, the Successor Agency is reported in a fiduciary fund (private-purpose trust fund). Complete financial statements can be obtained from the Successor Agency's finance department at 1 South Van Ness Avenue, 5th Floor, San Francisco, CA 94103.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Non-Disclosed Organizations

There are other governmental agencies that provide services within the City. These entities have independent governing boards and the City is not financially accountable for them. The City's basic financial statements, except for certain cash held by the City as an agent, do not reflect operations of the San Francisco Airport Improvement Corporation, San Francisco Health Authority, San Francisco Housing Authority, San Francisco Unified School District and San Francisco Community College District. The City is represented in two regional agencies, the Bay Area Rapid Transit District and the Bay Area Air Quality Management District, both of which are also excluded from the City's reporting entity.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The basic financial statements include certain prior year summarized comparative information. This information is presented only to facilitate financial analysis, and is not at the level of detail required for a presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the City's financial statements for the year ended June 30, 2015, from which the summarized information was derived.

(b) Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency funds, however, report only assets and liabilities and cannot be said to have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

City considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenues are considered to be available if they are generally collected within 60 days of the end of the current fiscal period. It is the City's policy to submit reimbursement and claim requests for federal and state grant revenues within 30 days of the end of the program cycle and payment is generally received within the first or second quarter of the following fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to vacation, sick leave, claims and judgments, are recorded only when payment is due.

Property taxes, other local taxes, grants and subventions, licenses, charges for services, rents and concessions, and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the City receives cash.

During the year ended June 30, 2016, the City adopted a new revenue recognition policy, and changed the availability period from 90 days to 60 days. The new policy more closely reflects the use of current resources to pay liabilities of the current period. The adoption of the new accounting principle resulted in a reduction in revenues by approximately \$23.7 million for the year ended June 30, 2016, and did not have a significant impact on the financial statements as of and for the year ended June 30, 2015.

The City reports the following major governmental fund:

- The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the City except those required to be accounted for in another fund.

The City reports the following major proprietary (enterprise) funds:

- The **San Francisco International Airport Fund** accounts for the activities of the City-owned commercial service airport in the San Francisco Bay Area.
- The **San Francisco Water Enterprise Fund** accounts for the activities of the San Francisco Water Enterprise (Water Enterprise). The Water Enterprise is engaged in the distribution of water to the City and certain suburban areas.
- The **Hetch Hetchy Water and Power Enterprise Fund** accounts for the activities of Hetch Hetchy Water and Power Department (Hetch Hetchy). The department is engaged in the collection and conveyance of approximately 85% of the City's water supply and in the generation and transmission of electricity.
- The **Municipal Transportation Agency Fund** accounts for the activities of the Municipal Transportation Agency (SFMTA). The SFMTA was established by Proposition E, passed by the City's voters in November 1999. The SFMTA includes the San Francisco Municipal Railway (Muni) and the operations of Sustainable Streets, which includes the Parking Authority. Muni was established in 1912 and is responsible for the operations of the City's public transportation system. Sustainable Streets is responsible for proposing and implementing street and traffic changes and oversees the City's off-street parking operations. Sustainable Streets is a separate department of the SFMTA. The parking garages fund accounts for the activities of various non-profit corporations formed by the Parking Authority to provide financial and other assistance to the City to acquire land, construct facilities, and manage various parking facilities.
- The **General Hospital Medical Center Fund** accounts for the activities of the San Francisco General Hospital (SFGH), a City-owned acute care hospital.
- The **San Francisco Wastewater Enterprise Fund** was created after the San Francisco voters approved a proposition in 1976, authorizing the City to issue \$240 million in bonds for the purpose of acquiring, construction, improving, and financing improvements to the City's municipal sewage treatment and disposal system.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

- The **Port of San Francisco Fund** accounts for the operation, development, and maintenance of seven and one-half miles of waterfront property of the Port of San Francisco (Port). This was established in 1969 after the San Francisco voters approved a proposition to accept the transfer of the Harbor of San Francisco from the State of California.
- The **Laguna Honda Hospital Fund** accounts for the activities of Laguna Honda Hospital (LHH), the City-owned skilled nursing facility, which specializes in serving elderly and disabled residents.

Additionally, the City reports the following fund types:

- The **Debt Service Funds** account for the accumulation of property taxes and other revenues for periodic payment of interest and principal on general obligation and certain lease revenue bonds and related authorized costs.
- The **Capital Projects Funds** are used to account for financial resources that are restricted, committed or assigned to expenditures for the acquisition of land or acquisition and construction of major facilities other than those financed in the proprietary fund types.
- The **Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.
- The **Permanent Fund** accounts for resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support specific programs.
- The **Internal Service Funds** account for the financing of goods or services provided by one City department to another City department on a cost-reimbursement basis. Internal Service Funds account for the activities of the equipment maintenance services, centralized printing and mailing services, centralized telecommunications and information services, and lease financing through the Finance Corporation.
- The **Pension, Other Employee and Other Postemployment Benefit Trust Funds** reflect the activities of the Employees' Retirement System (Retirement System), the Health Service System and the Retiree Health Care Trust Fund. The Retirement System accounts for employee contributions, City contributions, and the earnings and profits from investments. It also accounts for the disbursements made for employee retirement benefits, withdrawals, disability and death benefits as well as administrative expenses. The Health Service System accounts for contributions from active and retired employees and surviving spouses, City contributions, and the earnings and profits from investments. It also accounts for the disbursements to various health plans and health care providers for the medical expenses of beneficiaries. The Retiree Health Care Trust Fund currently accounts for other postemployment benefit contributions from the City and the San Francisco Community College District, together with the earnings and profits from investments. No disbursements, other than to defray reasonable expenses of administering the trust, will be made until sufficient funds are set aside to pay for all future retiree health care costs, except in certain limited circumstances.
- The **Investment Trust Fund** accounts for the external portion of the Treasurer's Office investment pool. The funds of the San Francisco Community College District, San Francisco Unified School District, the Trial Courts of the State of California and the Transbay Joint Powers Authority are accounted for within the Investment Trust Fund.
- The **Private-Purpose Trust Fund** accounts for the custodial responsibilities that are assigned to the Successor Agency with the passage of the Redevelopment Dissolution Act.
- The **Agency Funds** account for the resources held by the City in a custodial capacity on behalf of: the State of California and other governmental agencies; employees for payroll deductions; and human welfare, community health, and transportation programs.

The City applies all applicable Governmental Accounting Standards Board (GASB) pronouncements.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

In general, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are charges to other City departments from the General Fund, Water Enterprise and Hetch Hetchy. These charges have not been eliminated because elimination would distort the direct costs and program revenues reported in the statement of activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges for customer services including: water, sewer and power charges, public transportation fees, airline fees and charges, parking fees, hospital patient service fees, commercial and industrial rents, printing services, vehicle maintenance fees, and telecommunication and information system support charges. Operating expenses for enterprise funds and internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

(c) Budgetary Data

The City adopts two-year rolling budgets annually for all governmental funds on a substantially modified accrual basis of accounting except for capital project funds and certificates of participation and other debt service funds, which substantially adopt project length budgets.

The budget of the City is a detailed operating plan, which identifies estimated costs and results in relation to estimated revenues. The budget includes (1) the programs, projects, services, and activities to be provided during the fiscal year, (2) the estimated resources (inflows) available for appropriation, and (3) the estimated charges to appropriations. The budget represents a process through which policy decisions are deliberated, implemented, and controlled. The City Charter prohibits expending funds for which there is no legal appropriation.

The Administrative Code Chapter 3 outlines the City's general budgetary procedures, with Section 3.3 detailing the budget timeline. A summary of the key budgetary steps is summarized as follows:

Original Budget

- (1) Departments and Commissions conduct hearings to obtain public comment on their proposed annual budgets beginning in December and submit their budget proposals to the Controller's Office no later than February 21.
- (2) The Controller's Office consolidates the budget estimates and transmits them to the Mayor's Office no later than the first working day of March. Staff of the Mayor's Office analyze, review and refine the budget estimates before transmitting the Mayor's Proposed Budget to the Board of Supervisors.
- (3) By the first working day of May, the Mayor submits the Proposed Budget for selected departments to the Board of Supervisors. The selected departments are determined by the Controller in consultation with the Board President and the Mayor's Budget Director. Criteria for selecting the departments include (1) that they are not supported by the City's General Fund or (2) that they do not rely on the State's budget submission in May for their revenue sources.
- (4) By the first working day of June, the Mayor submits the complete Proposed Budget to the Board of Supervisors along with a draft of the Annual Appropriation Ordinance prepared by the Controller's Office.
- (5) Within five working days of the Mayor's proposed budget transmission to the Board of Supervisors, the Controller reviews the estimated revenues and assumptions in the Mayor's Proposed Budget and provides an opinion as to their accuracy and reasonableness. The Controller also may make

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

a recommendation regarding prudent reserves given the Mayor's proposed resources and expenditures.

- (6) The designated Committee (usually the Budget Committee) of the Board of Supervisors conducts hearings, hears public comment, and reviews the Mayor's Proposed Budget. The Committee recommends an interim budget reflecting the Mayor's budget transmittal and, by June 30, the Board of Supervisors passes an interim appropriation and salary ordinances.
- (7) Not later than the last working day of July, the Board of Supervisors adopts the budget through passage of the Annual Appropriation Ordinance, the legal authority for enactment of the budget.

Final Budget

The final budgetary data presented in the basic financial statements reflects the following changes to the original budget:

- (1) Certain annual appropriations are budgeted on a project or program basis. If such projects or programs are not completed at the end of the fiscal year, unexpended appropriations, including encumbered funds, are carried forward to the following year. In certain circumstances, other programs and regular annual appropriations may be carried forward after appropriate approval. Annually appropriated funds, not authorized to be carried forward, lapse at the end of the fiscal year. Appropriations carried forward from the prior year are included in the final budgetary data.
- (2) Appropriations may be adjusted during the year with the approval of the Mayor and the Board of Supervisors, e.g. supplemental appropriations. Additionally, the Controller is authorized to make certain transfers of surplus appropriations within a department. Such adjustments are reflected in the final budgetary data.

The Annual Appropriation Ordinance adopts the budget at the character level of expenditure within departments. As described above, the Controller is authorized to make certain transfers of appropriations within departments. Accordingly, the legal level of budgetary control by the Board of Supervisors is the department level.

Budgetary data, as revised, is presented in the basic financial statements for the General Fund. Final budgetary data excludes the amount reserved for encumbrances for appropriate comparison to actual expenditures.

(d) Deposits and Investments

Investment in the Treasurer's Pool

The Treasurer invests on behalf of most funds of the City and external participants in accordance with the City's investment policy and the California State Government Code. The City Treasurer who reports on a monthly basis to the Board of Supervisors manages the Treasurer's pool. In addition, the function of the County Treasury Oversight Committee is to review and monitor the City's investment policy and to monitor compliance with the investment policy and reporting provisions of the law through an annual audit.

The Treasurer's investment pool consists of two components: 1) pooled deposits and investments and 2) dedicated investment funds. The dedicated investment funds represent restricted funds and relate to Successor Agency separately managed funds, bond issues of the Enterprise Funds, and the General Fund's cash reserve requirement. In addition to the Treasurer's investment pool, the City has other funds that are held by trustees. These funds are related to the issuance of bonds and certain loan programs of the City. The investments of the Retirement System and of the Retiree Health Care Trust Fund are held by trustees.

The San Francisco Unified School District (School District), San Francisco Community College District (Community College District), and the City are involuntary participants in the City's investment pool. As of June 30, 2016, involuntary participants accounted for approximately 95.6% of the pool. Voluntary

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

participants accounted for 4.4% of the pool. Further, the School District, Community College District, the Trial Courts of the State of California, and the Transbay Joint Powers Authority are external participants of the City's pool. At June 30, 2016, \$743.9 million was held on behalf of these external participants. The total percentage share of the City's pool that relates to these four external participants is 9.4%. Internal participants accounted for 90.6% of the pool.

Investment Valuation

Investments are carried at fair value, except for certain non-negotiable investments that are reported at cost because they are not transferable and have terms that are not affected by changes in market interest rates, such as collateralized certificates of deposit and public time deposits. The fair value of investments is determined monthly and is based on current market prices. The fair value of participants' position in the pool approximates the value of the pool shares. The method used to determine the value of participants' equity is based on the book value of the participants' percentage participation. In the event that a certain fund overdraws its share of pooled cash, the overdraft is covered by the General Fund and a payable to the General Fund is established in the City's basic financial statements.

Retirement System – Investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Securities that do not have an established market are reported at estimated fair value derived from third-party pricing services. Purchases and sales of investments are recorded on a trade date basis.

The fair values of real estate investments are based on net asset values provided by the investment managers. Private equity investments represent interest in limited partnerships. The fair values of private equity investments are also based on net asset values provided by the general partners. For investments that are not traded on national or international exchanges with closing market prices available data is obtained to corroborate pricing.

The Charter and Retirement Board policies permit the Retirement System to use investments to enter into securities lending transactions – loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future. The collateral may consist of cash or non-cash; non-cash collateral is generally U.S. Treasuries or other U.S. government obligations. The Retirement System's securities custodian is the agent in lending the domestic securities for collateral of 102% and international securities for collateral of 105%. Contracts with the lending agent require them to indemnify the Retirement System if the borrowers fail to return the securities (and if the collateral were inadequate to replace the securities lent) or fail to pay the Retirement System for income distributions by the securities' issuers while the securities are on loan. Non-cash collateral cannot be pledged or sold unless the borrower defaults, and therefore, is not reported in the Retirement System's financial statements.

All securities loans can be terminated on demand by either the Retirement System or the borrower, although the average term of the loans as of June 30, 2016 was 78 days. All cash collateral received was invested in a separately managed account by the lending agent using investment guidelines developed and approved by the Retirement System. As of June 30, 2016, the weighted average maturity of the reinvested cash collateral account was 25 days. The term to maturity of the loaned securities is generally not matched with the term to maturity of the investment of the said collateral. Cash collateral may also be invested separately in term loans, in which case the maturity of the loaned securities matches the term of the loan.

Cash collateral invested in the separate account managed by the lending agent is reported at fair value. Payable to borrowers of securities in the statement of fiduciary net position represents the cash collateral received from borrowers. Additionally, the income and costs of securities lending transactions, such as borrower rebates and fees, are recorded respectively as revenues and expenses in the statement of changes in fiduciary net position.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

San Francisco International Airport – The Airport has entered into certain derivative instruments, which it values at fair value, in accordance with GASB Statement No. 53 – *Accounting and Financial Reporting for Derivative Instruments* and GASB Statement No. 72 – *Fair Value Measurement and Application*. The Airport applies hedge accounting for changes in the fair value of hedging derivative instruments, in accordance with GASB Statement No. 64 – *Derivative Instruments: Application of Hedge Accounting Termination Provisions, an amendment of GASB Statement No. 53*. Under hedge accounting, if the derivatives are determined to be effective hedges, the changes in the fair value of hedging derivative instruments are reported as either deferred inflows or deferred outflows in the statement of net position, otherwise changes in fair value are recorded within the investment revenue classification.

Other funds – Non-pooled investments are also generally carried at fair value. However, money market investments (such as short-term, highly liquid debt instruments including commercial paper, bankers' acceptances, and U.S. Treasury and agency obligations) that have a remaining maturity at the time of purchase of one year or less and participating interest-earning investment contracts (such as negotiable certificates of deposit, repurchase agreements and guaranteed or bank investment contracts) are carried at amortized cost, which approximates fair value. The fair value of non-pooled investments is determined annually and is based on current market prices. The fair value of investments in open-end mutual funds is determined based on the fund's current share price.

Investment Income

Income from pooled investments is allocated at month-end to the individual funds or external participants based on the fund or participant's average daily cash balance in relation to total pooled investments. City management has determined that the investment income related to certain funds should be allocated to the General Fund. On a budget basis, the interest income is recorded in the General Fund. On a generally accepted accounting principles (GAAP) basis, the income is reported in the fund where the related investments reside. A transfer is then recorded to transfer an amount equal to the interest earnings to the General Fund. This is the case for certain other governmental funds, Internal Service, Investment Trust and Agency Funds.

It is the City's policy to charge interest at month-end to those funds that have a negative average daily cash balance. In certain instances, City management has determined that the interest expense related to the fund should be allocated to the General Fund. On a budget basis, the interest expense is recorded in the General Fund. On a GAAP basis, the interest expense is recorded in the fund and then a transfer from the General Fund for an amount equal to the interest expense is made to the fund. This is the case for certain other funds, SFMTA, LHH, SFGH, and the Internal Service Funds.

Income from non-pooled investments is recorded based on the specific investments held by the fund. The interest income is recorded in the fund that earned the interest.

(e) Loans Receivable

The Mayor's Office of Housing (MOH) and the Mayor's Office of Community Development (MOCD) administer several housing and small business subsidy programs and issue loans to qualified applicants. In addition, the Department of Building Inspection manages other receivables from organizations. Management has determined through policy that many of these loans may be forgiven or renegotiated and extended long into the future if certain terms and conditions of the loans are met. At June 30, 2016, it was determined that \$1,122.0 million of the \$1,203.8 million loan portfolio is not expected to be ultimately collected.

For the purposes of the fund financial statements, the governmental funds expenditures relating to long-term loans arising from loan subsidy programs are charged to operations upon funding and the loans are recorded, net of an estimated allowance for potentially uncollectible loans, with an offset to a deferred inflow of resources. For purposes of the government-wide financial statements, long-term loans are not offset by deferred inflows of resources.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

(f) Inventories

Inventories recorded in the proprietary funds primarily consist of construction materials and maintenance supplies, as well as pharmaceutical supplies maintained by the hospitals. Generally, proprietary funds value inventory at cost or average cost and expense supply inventory as it is consumed. This is referred to as the consumption method of inventory accounting. The governmental fund types use the purchase method to account for supply inventories, which are not material. This method records items as expenditures when they are acquired.

(g) Property Held for Resale

Property held for resale includes both residential and commercial property and is recorded as other assets at the lower of estimated cost or estimated conveyance value. Estimated conveyance value is management's estimate of net realizable value of each property parcel based on its current intended use. Property held for sale may, during the period it is held by the City, generate rental income, which is recognized as it becomes due and is considered collectible.

(h) Capital Assets

Capital assets, which include land, facilities and improvements, machinery and equipment, infrastructure assets, and intangible assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary and private-purpose trust funds. Capital assets, except for intangible assets, are defined as assets with an initial individual cost of more than \$5 thousand and have an estimated life that extends beyond a single reporting period or more than a year. Intangible assets have a capitalization threshold of \$100 thousand. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Capital outlay is recorded as expenditures of the General Fund and other governmental funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold is met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds of tax-exempt debt over the same period. Amortization of assets acquired under capital leases is included in depreciation and amortization. Facilities and improvements, infrastructure, machinery and equipment, easements, and intangible assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Facilities and improvements	15 to 175
Infrastructure	15 to 70
Machinery and equipment	2 to 75
Intangible assets	Varies with type

Works of art, historical treasures and zoological animals held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are not capitalized. These items are protected, kept unencumbered, cared for, and preserved by the City. It is the City's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

(i) Accrued Vacation and Sick Leave Pay

Vacation pay, which may be accumulated up to ten weeks depending on an employee's length of service, is payable upon termination. Sick leave may be accumulated up to six months. Unused amounts accumulated prior to December 6, 1978 are vested and payable upon termination of employment by retirement or disability caused by industrial accident or death.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

The City accrues for all salary-related items in the government-wide and proprietary fund financial statements for which they are liable to make a payment directly and incrementally associated with payments made for compensated absences on termination. The City includes its share of social security and Medicare payments made on behalf of the employees in the accrual for vacation and sick leave pay.

(j) Bond Issuance Costs, Premiums, Discounts, and Interest Accretion

In the government-wide financial statements, the proprietary fund type and fiduciary fund type financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, proprietary fund or fiduciary fund statement of net position. Bond issuance costs related to prepaid insurance costs, bond premiums and discounts for San Francisco International Airport, San Francisco Water Enterprise, Hetch Hetchy Water and Power, SFMTA, and San Francisco Wastewater Enterprise are amortized over the life of the bonds using the effective interest method. The remaining bond prepaid insurance costs, bond premiums and discounts are calculated using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts as other financing sources and uses, respectively. Issuance costs including bond insurance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Interest accreted on capital appreciation bonds is reported as accrued interest payable in the government-wide, proprietary fund and fiduciary fund financial statements.

(k) Fund Equity

Governmental Fund Balance

As prescribed by Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, governmental funds report fund balance in one of five classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. The five fund balance classifications are as follows:

- *Nonspendable* – includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The not in spendable form criterion includes items that are not expected to be converted to cash, such as prepaid amounts, as well as certain long-term receivables that would otherwise be classified as unassigned.
- *Restricted* – includes amounts that can only be used for specific purposes due to constraints imposed by external resource providers, by the City's Charter, or by enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.
- *Committed* – includes amounts that can only be used for specific purposes pursuant to an ordinance passed by the Board of Supervisors and signed by the Mayor. Commitments may be changed or lifted only by the City taking the same formal action that imposed the constraint originally.
- *Assigned* – includes amounts that are not classified as nonspendable, restricted, or committed, but are intended to be used by the City for specific purposes. Intent is expressed by legislation or by action of the Board of Supervisors or the City Controller to which legislation has delegated the authority to assign amounts to be used for specific purposes.
- *Unassigned* – is the residual classification for the General Fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. Other governmental funds may only report a negative unassigned balance that was created after classification in one of the other four fund balance categories.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

Encumbrances

The City establishes encumbrances to record the amount of purchase orders, contracts, and other obligations, which have not yet been fulfilled, cancelled, or discharged. Encumbrances outstanding at year-end are recorded as part of restricted or assigned fund balance.

Net Position

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

- *Net Investment In Capital Assets* – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt, including debt related deferred outflows and inflows of resources, that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.
- *Restricted Net Position* – This category represents net position that has external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – This category represents net position of the City, not restricted for any project or other purpose.

(l) Interfund Transfers

Interfund transfers are generally recorded as transfers in (out) except for certain types of transactions that are described below.

- Charges for services are recorded as revenues of the performing fund and expenditures of the requesting fund. Unbilled costs are recognized as an asset of the performing fund and a liability of the requesting fund at the end of the fiscal year.
- Reimbursements for expenditures, initially made by one fund, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the fund that is reimbursed.

(m) Refunding of Debt

In governmental and business-type activities and proprietary and fiduciary funds, losses or gains from advance refundings are recorded as deferred outflows of resources and deferred inflows of resources, respectively, and amortized into expense.

(n) Pollution Remediation Obligations

Pollution remediation obligations are measured at their current value using a cost-accumulation approach, based on the pollution remediation outlays expected to be incurred to settle those obligations. Each obligation or obligating event is measured as the sum of probability-weighted amounts in a range of possible estimated amounts. Some estimates of ranges of possible cash flows may be limited to a few discrete scenarios or a single scenario, such as the amount specified in a contract for pollution remediation services.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

(o) Cash Flows

Statements of cash flows are presented for proprietary fund types. Cash and cash equivalents include all unrestricted and restricted highly liquid investments with original purchase maturities of three months or less. Pooled cash and investments in the City's Treasury represent monies in a cash management pool and such accounts are similar in nature to demand deposits.

(p) Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the SFERS and the California Public Employees' Retirement System ("CalPERS") plans and additions to/deductions from the plans' fiduciary net positions have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Plan member contributions are recognized in the period in which the contributions are due. Investments are reported at fair value.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* (GASB Statement No. 68) requires that the reported results pertain to liability and asset information within certain defined timeframes. Liabilities are based on the results of actuarial calculations performed as of June 30, 2014 and were rolled forward to June 30, 2015. For this report, the following timeframes are used for the City's pension plans:

Valuation Date (VD).....	June 30, 2014 updated to June 30, 2015
Measurement Date (MD).....	June 30, 2015
Measurement Period (MP)...	July 1, 2014 to June 30, 2015

(q) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(r) Reclassifications

Certain amounts, presented as 2014-15 Summarized Comparative Financial Information in the basic financial statements, have been reclassified for comparative purposes, to conform to the presentation in the 2015-16 basic financial statements.

(s) Effects of New Pronouncements

During fiscal year 2016, the City implemented the following accounting standards:

In February 2015, the GASB issued Statement No. 72, *Fair Value Measurement and Application*. Statement No. 72 requires the City to use valuation techniques which are appropriate under the circumstances and are consistent with the market approach, the cost approach or the income approach. Statement No. 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs. Statement No. 72 also contains note disclosure requirements regarding the hierarchy of valuation inputs and valuation techniques that was used for the fair value measurements. Implementation of this statement did not have a significant impact on the City for the year ended June 30, 2016, however, the San Francisco International Airport restated its beginning deferred outflows on derivative instruments and derivative instruments liabilities of fiscal year 2015 by \$1.4 million. This restatement did not affect the City's beginning net position.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

In June 2015, the GASB issued Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68*. This statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement No. 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement No. 68 for pension plans and pensions that are within their respective scopes. The provisions in this statement are effective for the City's fiscal year ending June 30, 2016, except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68, which are effective for the City's fiscal year ending June 30, 2017. Partial implementation of this statement did not have a significant impact on the City for the year ended June 30, 2016.

In June 2015, the GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. GASB Statement No. 76 establishes the hierarchy of GAAP for state and local governments. The new standard is effective for periods beginning after June 15, 2015. Implementation of this statement did not have a significant impact on the City for the year ended June 30, 2016.

In December 2015, the GASB issued Statement No. 79, *Certain External Investment Pools and Pool Participants*. GASB Statement No. 79 establishes accounting and financial reporting standards for qualifying external investment pools that elect to measure all their investments at amortized cost. The new standard is effective for periods beginning after June 15, 2015, except for certain provisions that will be effective for reporting periods beginning after December 15, 2015. Implementation of this statement did not have a significant impact on the City for the year ended June 30, 2016.

In March 2016, the GASB issued Statement No. 82, *Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73*. GASB Statement No. 82 addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. As Statement No. 82 changes the classification of these payments, commonly referred to as Employer-Paid Member Contributions, the City reclassified these payments. While the applicable requirements of this Statement are effective for reporting periods beginning after June 15, 2016, the City has elected early implementation for the year ended June 30, 2016. During the year ended June 30, 2015, the SFMTA made Employer-Paid Member Contributions to satisfy contribution requirements of the Retirement System and collective bargaining agreements. Statement No. 82 requires Employer-Paid Member contributions to be classified as employee contributions rather than classified as employer contributions. In fiscal year 2014-15, such payments were treated as employer contributions by the SFMTA as required by Statement No. 68. Therefore, early implementation of Statement No. 82, which amends Statement No. 68, resulted in a restatement which decreased beginning net position for fiscal year 2015-16 by \$8.6 million.

In addition, the City is currently analyzing its accounting practices to determine the potential impact of the following pronouncements:

In June 2015, the GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* and Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Statement No. 74 revises and establishes new accounting and financial reporting requirements for postemployment benefit plans other than pensions (OPEB). Statement No. 75 revises and establishes new accounting and financial reporting requirements for governments that provide their employees with OPEB and requires additional OPEB disclosures. Statement No. 74 is effective for periods beginning after June 15, 2016 and is effective for the City's fiscal year ending June 30, 2017. Statement No. 75 is effective for periods beginning after June 15, 2017 and is effective for the City's fiscal year ending June 30, 2018.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. Statement No. 77 establishes financial reporting standards for tax abatement agreements entered into by state and local governments. The new standard is effective for periods beginning after December 15, 2015. Application of this statement is effective for the City's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. GASB Statement No. 78 establishes accounting and financial reporting standards for defined benefit pensions provided by state or local governments through a cost-sharing plan that meets the criteria of Statement No. 68 and is not a state or local governmental pension plan. The new standard is effective for periods beginning after December 15, 2015. Application of this statement is effective for the City's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. GASB Statement No. 81 establishes accounting and financial reporting standards for irrevocable split-interest agreements created through trusts in which a donor irrevocably transfers resources to an intermediary. The new standard is effective for periods beginning after December 15, 2016. Application of this statement is effective for the City's fiscal year ending June 30, 2018.

(t) Restricted Assets

Certain proceeds of the City's governmental activities, enterprise and internal service funds bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because the use of the proceeds is limited by applicable bond covenants and resolutions. Restricted assets account for the principal and interest amounts accumulated to pay debt service, unspent bond proceeds, and amounts restricted for future capital projects.

(u) Deferred Outflows and Inflows of Resources

The City records deferred outflows or inflows of resources in its governmental, proprietary, fiduciary, and government-wide financial statements for consumption or acquisition of net position that is applicable to a future reporting period. These financial statement elements are distinct from assets and liabilities.

In governmental fund statements, deferred inflows of resources consist of revenues not collected within the availability period after fiscal year-end. In government-wide financial statements, deferred outflows and inflows of resources are recorded for unamortized losses and gains on refunding of debt, deferred outflows and inflows of resources related to pensions, deferred outflows of resources on derivative instruments, and deferred inflows of resources related to the SFMTA's leaseback transaction.

(3) RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

(a) Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net position

Total fund balances of the City's governmental funds, \$2,835,474, differs from net position of governmental activities, \$2,009,063, reported in the statement of net position. The difference primarily results from the long-term economic focus in the statement of net position versus the current financial resources focus in the governmental funds balance sheets.

	Total Governmental Funds	Long-term Assets, Liabilities ⁽¹⁾	Internal Service Funds ⁽²⁾	Reclassi- fications and Eliminations	Statement of Net Position Totals

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

(1) When capital assets (land, infrastructure, buildings, equipment, and intangible assets) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets, net of accumulated depreciation, among the assets of the City as a whole.

Cost of capital assets	\$ 6,682,703
Accumulated depreciation	<u>(1,568,336)</u>
	<u>\$ 5,114,367</u>

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position.

Accrued vacation and sick leave pay	\$ (147,925)
Accrued workers' compensation.....	(225,961)
Other postemployment benefits obligation	(1,179,468)
Estimated claims payable.....	(160,498)
Unearned revenue and other liabilities.....	(2,022)
Bonds, loans, capital leases, and other payables	<u>(2,994,530)</u>
	<u>\$ (4,710,404)</u>

Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. \$ (11,893)

Deferred outflows (inflows) of resources related to debt refundings in governmental activities are not financial resources, and therefore, are not reported in the governmental funds.

Unamortized loss on refunding of debt.....	\$ 17,282
Unamortized gain on refunding of debt	<u>(236)</u>
	<u>\$ 17,046</u>

Net pension liability is not due and payable in the current period, and accordingly is not reported as a fund liability. Deferred outflows (inflows) of resources related to pensions are not financial resources; and therefore, are not reported in the governmental funds.

Net pension liability.....	\$ (1,331,114)
Deferred outflows of resources related to pensions	378,712
Deferred inflows of resources related to pensions	<u>(421,800)</u>
	<u>\$ (1,374,202)</u>

Because the focus of governmental funds is on the availability of resources, some assets will not be available to pay for current period expenditures and thus are not included in fund balance.

Revenue not collected within 60 days of the end of the current fiscal period	\$ 326,304
Other postemployment benefits assets	<u>6</u>
	<u>\$ 326,310</u>

CITY AND COUNTY OF SAN FRANCISCO

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

(3) Property taxes that were unavailable and are reported as deferred inflows of resources in the governmental funds are recognized as revenues in the statement of activities. \$ 10,141

Other revenues that were unavailable and reported as deferred inflows of resources in the governmental funds are recognized as revenues in the statement of activities. 175
\$ 10,316

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Certain long-term liabilities reported in the prior year statement of net position were paid during the current period resulting in expenditures in the governmental funds. This is the amount by which the increase in long-term liabilities exceeded expenditures in funds that do not require the use of current financial resources. \$ (155,660)

Changes to net pension liability and pension related deferred outflows and inflows of resources do not provide financial resources and, therefore, are not reported as a reduction in expenditures in governmental funds. 282,088

Governmental funds report revenues and expenditures primarily pertaining to long-term loan activities, which are not reported in the statement of activities. These activities are reported at the government-wide level in the statement of net position. This is the net expenditures reported in the governmental funds. 5,068
\$ 131,496

(4) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net position decreases by the amount of depreciation expense charged for the year and the loss on disposal of capital assets.

Capital expenditures.....	\$ 413,493
Depreciation expenses.....	(134,468)
Loss on disposal of capital assets.....	(263)
Write off construction of progress.....	<u>(29,533)</u>
Difference.....	<u>\$ 249,229</u>

(5) Internal service funds are used by management to charge the costs of certain activities, such as capital lease financing, equipment maintenance, printing and mailing services, and telecommunications, to individual funds. The adjustments for internal service funds "close" those funds by charging additional amounts to participating governmental activities to completely cover the internal service funds' costs for the year. \$ 12,593

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

- (6) Bond premiums are a source of funds in the governmental funds when the bonds are issued, but are capitalized in the statement of net position. This is the amount of premiums capitalized during the current period. \$ (32,845)

Repayment of bond principal and the payment to escrow for refunding of debt are reported as expenditures and other financing uses in governmental funds and, thus, have the effect of reducing fund balance because current financial resources have been used. For the City as a whole however, the principal payments and payment to escrow for refunded debt reduce the liabilities in the statement of net position and do not result in expenses in the statement of activities. The City's bonded debt was reduced because principal payments were made to bond holders and payments were made to escrow for refunded debt.

Principal payments made	\$ 252,456
Payments to escrow for refunded debt.....	<u>131,935</u>
	<u>384,391</u>

Bond and loan proceeds and capital leases are reported as other financing sources in governmental funds and thus contribute to the change in fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net position and do not affect the statement of activities. Proceeds were received from:

General obligation bonds.....	(321,875)
Certificates of participation	<u>(274,050)</u>
	<u>(595,925)</u>
	<u>\$ (211,534)</u>

Interest expense in the statement of activities differs from the amount reported in governmental funds because (1) additional accrued and accreted interest was calculated for bonds, notes payable and capital leases, and (2) amortization of bond discounts, premiums and refunding losses and gains are not expended within the fund statements.

Increase in accrued interest	\$ (825)
Loss on refundings on certificates of participation	1,359
Amortization of bond premiums and discounts	19,313
Amortization of bond refunding losses and gains.....	<u>(3,784)</u>
	<u>\$ 16,063</u>

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

(4) BUDGETARY RESULTS RECONCILED TO RESULTS IN ACCORDANCE WITH GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

The budgetary process is based upon accounting for certain transactions on a basis other than generally accepted accounting principles (GAAP). The results of operations are presented in the budget-to-actual comparison statement in accordance with the budgetary process (Budget basis) to provide a meaningful comparison with the budget.

The major differences between the Budget basis "actual" and GAAP basis are timing differences. Timing differences represent transactions that are accounted for in different periods for Budget basis and GAAP basis reporting. Certain revenues accrued on a Budget basis have been deferred for GAAP reporting. These primarily relate to the accounting for property tax revenues under the Teeter Plan (Note 6), revenues not meeting the 60-day availability period and other assets not available for budgetary appropriation.

The fund balance of the General Fund as of June 30, 2016 on a Budget basis is reconciled to the fund balance on a GAAP basis as follows:

Fund Balance - Budget Basis.....	\$ 1,526,830
Unrealized Gains/ (Losses) on Investments.....	343
Cumulative Excess Property Tax Revenues Recognized on a Budget Basis.....	(36,008)
Cumulative Excess Health, Human Services, Franchise and Other Revenues Recognized on a Budget Basis.....	(56,709)
Pre-paid lease revenue.....	(5,816)
Nonspendable Fund Balance (Assets Reserved for Not Available for Appropriation).....	522
	<hr/>
Fund Balance - GAAP basis.....	<u>\$ 1,429,162</u>

General Fund budget basis fund balance as of June 30, 2016 is composed of the following:

Not available for appropriations:

Restricted Fund Balance:

Rainy Day - Economic Stabilization Reserve.....	\$ 74,986
Rainy Day - One Time Spending Account.....	45,120

Committed Fund Balance:

Budget Stabilization Reserve.....	178,434
Recreation and Parks Expenditure Saving Reserve.....	8,736

(b) Investment Policies

Treasurer's Pool

The City's investment policy addresses the Treasurer's safekeeping and custody practices with financial institutions in which the City deposits funds, types of permitted investment instruments, and the percentage of the portfolio which may be invested in certain instruments with longer terms to maturity. The objectives of the policy, in order of priority, are safety, liquidity, and earning a market rate of return on public funds. The City has established a Treasury Oversight Committee (Oversight Committee) as defined in the City Administrative Code section 10.80-3, comprised of various City officials, representatives of agencies with large cash balances, and members of the public, to monitor and review the management of public funds maintained in the investment pool in accordance with Sections 27130 to 27137 of the California Government Code. The Treasurer prepares and submits an investment report to the Mayor, the Board of Supervisors, members of the Oversight Committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost, and fair value.

The investment policy places maturity limits based on the type of security. Investments held by the Treasurer during the year did not include repurchase agreements or reverse repurchase agreements. The table below identifies the investment types that are authorized by the City's investment policy dated May 2016. The table also identifies certain provisions of the City's investment policy that address interest rate risk and concentration of credit risk.

* Represents restriction on which the City's investment policy is more restrictive than the California Government Code.

The Treasurer also holds for safekeeping bequests, trust funds, and lease deposits for other City departments. The bequests and trust funds consist of stocks and debentures. Those instruments are valued at par, cost, or fair value at the time of donation.

Other Funds

Other funds consist primarily of deposits and investments with trustees related to the issuance of bonds and to certain loan programs operated by the City. These funds are invested either in accordance with bond covenants and are pledged for payment of principal, interest, and specified capital improvements or in accordance with grant agreements and may be restricted for the issuance of loans.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Employees' Retirement System

The Retirement System's investments are invested pursuant to investment policy guidelines as established by the Retirement Board. The objective of the policy is to maximize the expected return of the fund at an acceptable level of risk. The Retirement Board has established percentage guidelines for types of investments to ensure the portfolio is diversified.

Investment managers are required to diversify by issue, maturity, sector, coupon, and geography. Investment managers retained by the Retirement System follow specific investment guidelines and are evaluated against specific market benchmarks that represent their investment style. Any exemption from general guidelines requires approval from the Retirement Board. The Retirement System invests in securities with contractual cash flows, such as asset backed securities, commercial mortgage backed securities and collateralized mortgage obligations. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be affected by shifts in the market's perception of the issuers and changes in interest rates.

The investment policy permits investments in domestic and international debt and equity securities; real estate; securities lending; foreign currency contracts, derivative instruments, and private equity investments, which include investments in a variety of commingled partnership vehicles.

The Retirement Board's asset allocation policies for the year ended June 30, 2016 are as follows:

Asset Class	Target Allocation through January 2015	Target Allocation since February 2015
Global Equity	47.0%	40.0%
Fixed Income	25.0%	20.0%
Private Equity	16.0%	18.0%
Real Assets	12.0%	17.0%
Hedge Funds/Absolute Return	0%	5.0%
	<u>100.0%</u>	<u>100.0%</u>

The Retirement System is not directly involved in repurchase or reverse repurchase agreements. However, external investment managers retained by the Retirement System may employ repurchase arrangements if the securities purchased or sold comply with the manager's investment guidelines. The Retirement System monitors the investment activity of its investment managers to ensure compliance with guidelines. In addition, the Retirement System's securities lending cash collateral separately managed account is authorized to use repurchase arrangements. As of June 30, 2016, \$419.0 million (or 48.4% of cash collateral) consisted of such agreements.

Retiree Health Care Trust Fund

The RHCTF's investments outside of the City Treasury are invested pursuant to investment policy guidelines as established by the RHCTF Board. The objective of the policy is to manage fund assets so as to achieve the highest, reasonably prudent real return possible. The investment policy permits the RHCTF to invest in domestic and international equity securities and investment grade bonds. It also allows investments in global equity, U.S. nominal bonds, inflation-linked bonds, global real estate, and commodities, although the RHCTF does not currently hold assets in these classes. The RHCTF Board has established percentage guidelines for types of investments to ensure the portfolio is diversified, as follows:

Asset Class	Target Allocation	Range
Domestic Equity	37.0%	32.0-42.0%
International Equity	37.0%	32.0-42.0%
Investment Grade Bonds	26.0%	21.0-31.0%
	<u>100.0%</u>

(c) Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs (the City does not value any of its investments using Level 3 inputs). The inputs or methodology used for valuing securities are not an indication of risk associated with investing in those securities.

The following is a summary of inputs used in valuing the City's investments as of June 30, 2016:

	Fair Value 6/30/2016	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Investments in City Treasury

U.S. Treasury Notes, U.S. Government Agencies, Corporate Notes, and Negotiable Certificates of Deposit are valued using quoted prices in active markets and classified in Level 1 of the fair value hierarchy.

State and Local agencies, Negotiable Certificates of Deposit, Commercial Paper and Supranationals are valued using a variety of techniques such as matrix pricing, market corroborated pricing inputs such as yield curve, indices, and other market related data and classified in Level 2 of the fair value hierarchy.

Money Market Funds and Public Time Deposits have maturities of one year or less from fiscal year end and are not subject to GASB Statement No. 72.

Investments Outside City Treasury

U.S. Treasury Notes and U.S. Government Agencies are valued using quoted prices in active markets and classified in Level 1 of the fair value hierarchy. Commercial Paper is valued using a variety of techniques such as matrix pricing, market corroborated pricing inputs such as yield curve, indices, and other market related data and are not subject to fair value hierarchy. Money Market Funds are valued at amortized costs and are not subject to fair value hierarchy.

Employees' Retirement System investments

Investments, at Fair Value

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets issued by pricing vendors for these securities. Invested securities lending collateral and debt and equity securities classified in Level 2 of the fair value hierarchy are valued using prices determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Debt securities including short-term instruments are priced based on evaluated prices. Such evaluated prices may be determined by factors which include, but are not limited to, market quotations, yields, maturities, call features, ratings, institutional size trading in similar groups of securities and developments related to specific securities. For equity securities not traded on an active exchange, or if the closing price is not available, corroborated indicative quotes obtained from pricing vendors are generally used. Short-term investments and debt and equity securities classified in Level 3 of the fair value hierarchy are securities whose stated market prices are unobservable by the market place. Many of these securities are priced using uncorroborated indicative quotes, adjusted prices based on inputs from different sources, or evaluated prices using unobservable inputs, such as extrapolated data, proprietary models, and indicative quotes from pricing vendors.

Fair value is defined as the quoted market value on the last trading day of the period. In some cases, a valuation technique may have multiple inputs used to measure fair value, and each input might fall into a different level of the fair value hierarchy. The level in the fair value hierarchy within which a fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the measurement. The prices used in determining the fair value hierarchy are obtained from various pricing sources by the Retirement System's custodian bank.

Investments, at Net Asset Value (NAV)

Equity and Debt Funds

The equity and debt funds are commingled funds that are priced at net asset value by industry vendors and fund families. NAV is the market value of all securities owned by a fund, minus its total liabilities, divided by the number of shares issued and outstanding. The NAV of an open-end fund is its price.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Real Assets, Private Equity, and Opportunistic Fixed Income Investments

The fair value of the Retirement System's investments in real assets, private equity, and opportunistic fixed income investments are based on net asset values provided by the investment managers and general partners (hereinafter collectively referred to as the "General Partners"). Such value generally represents the Retirement System's proportionate share of the net assets of the limited partnerships. The partnership financial statements are audited annually as of December 31 and the net asset value are adjusted by additional contributions to and distributions from the partnership, the Retirement System's share of net earnings and losses, and unrealized gains and losses resulting from changes in fair value, as determined by the General Partners.

The General Partners may use one or more valuation methodologies outlined in FASB ASC 820, *Fair Value Measurement*. For some investments, little market activity may exist. The General Partners' determination of fair value is then based on the best information available in the circumstances and may involve subjective assumptions and estimates, including the General Partners' assessment that market participants would use in valuing the investments. The General Partners may take into consideration a combination of internal and external factors, including but not limit to, appropriate risk adjustments for nonperformance and liquidity. Such fair value estimates involve subjective judgments of unrealized gains and losses.

The values provided by the General Partners may differ significantly from the values that would have been used had a ready market existed for these investments.

Retiree Health Care Trust Fund

Investments, at Net Asset Value (NAV)

At June 30, 2016 the Retiree Health Care Trust Fund had investments in equity and debt commingled funds index funds and the City Treasury Pool. These funds include a S&P 500 Equity Index Fund, an EAFE Equity Index Fund, a U.S. Debt Index Fund and a Money Market Fund. The funds are priced at net asset value (NAV) by industry vendors and fund families. NAV is the market value of all securities owned by a fund, minus its total liabilities, divided by the number of shares issued and outstanding. As of June 30, 2016, there are no redemption restrictions on the commingled index funds.

(d) Investment Risks

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code, the City's investment policy and the Retirement System's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision. The California Government Code requires that a financial institution secure deposits made by state or local governmental units not covered by Federal Deposit Insurance Corporation insurance by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of the type of collateral authorized in California Government Code, Section 53651 (a) through (i) of the City's deposits. The collateral must be held at the pledging bank's trust department or another bank, acting as the pledging bank's agent, in the City's name. As of June 30, 2016, \$2.6 million of the business-type activities bank balances were exposed to custodial credit risk by not being insured or collateralized.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in interest rates. Information about the sensitivity to the fair values of the City's investments to interest rate fluctuations is provided by the following tables, which shows the distribution of the City's investments by maturity. The Retirement System's interest rate risk information is discussed in section (f) of this note.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
 June 30, 2016
 (Dollars in Thousands)

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to pay the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Standard & Poor's rating for each of the investment types are shown in the table above.

Custodial Credit Risk for Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments; however, it is the practice of the City Treasurer that all investments are insured, registered or held by the Treasurer's custodial agent in the City's name. The governmental and business-type activities also have investments with trustees related to the issuance of bonds that are uninsured, unregistered and held by the counterparty's trust departments but not in the City's name. These amounts are included in the investments outside City Treasury shown in the table above.

Concentration of Credit Risk

The City's investment policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code and/or its investment policy. U.S. Treasury and agency securities explicitly guaranteed by the U.S. government are not subject to single issuer limitation.

As of June 30, 2016, the City Treasurer has investments in U.S. Agencies that represent 5% or more of the total Pool in the following:

Federal Farm Credit Bank.....	19.1%
Federal Home Loan Mortgage Corporation	12.6%
Federal Home Loan Bank	11.5%
Federal National Mortgage Association	5.1%

In addition, the following major funds hold investments with trustees that represent 5% or more of the funds' investments outside City Treasury as of June 30, 2016:

Airport:	
Federal National Mortgage Association	29.0%
Federal Home Loan Mortgage Corporation.....	7.8%
Hetch Hetchy:	
Federal Farm Credit Bank	46.8%

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Credit Risk

Fixed income investment managers typically are limited within their portfolios to no more than 5% exposure in any single security, with the exception of United States Treasury and government agency securities. The Retirement System's credit risk policy is embedded in the individual investment manager agreements as prescribed and approved by the Retirement Board.

Investments are classified and rated using the lower of (1) Standard & Poor's (S&P) rating or (2) Moody's Investors Service (Moody's) rating corresponding to the equivalent S&P rating. If only a Moody's rating is available, the rating equivalent to S&P is used for the purpose of this disclosure.

The following table illustrates the Retirement System's exposure to credit risk as of June 30, 2016. Investments issued or explicitly guaranteed by the U.S. government of \$505.3 million as of June 30, 2016 are not considered to have credit risk and are excluded from the table below.

Credit Rating	Fair Value	Fair Value as a Percentage of Total
AAA	\$ 164,327	3.1%
AA	72,743	1.4%
A	247,306	4.7%
BBB	683,951	13.1%
BB	322,941	6.2%
B	294,025	5.6%
CCC	79,658	1.5%
CC	1,956	0.0%
C	4,240	0.1%
D	4,159	0.1%
Not Rated	3,352,732	64.2%
Total	\$ 5,228,038	100.0%

The securities listed as "Not Rated" include short-term investment funds, government mortgage backed securities, and investments that invest primarily in rated securities, such as commingled funds and money market funds, but do not themselves have a specific credit rating. Excluding these securities, the "Not Rated" component of credit would be approximately 12.7% for 2016.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the Retirement System's investment in a single issuer. Guidelines for investment managers typically restrict a position to become no more than 5% (at fair value) of the investment manager's portfolio. Securities issued or guaranteed by the U.S. government or its agencies are exempt from this limit.

As of June 30, 2016, the Retirement System had no investments of a single issuer that equaled or exceeded 5% of total Retirement System's investments or net position.

Custodial Credit Risk

The Retirement System does not have a specific policy addressing custodial credit risk for investments, but investments are generally insured, registered, or held by the Retirement System or its agent in the Retirement System's name. As of June 30, 2016, \$153.6 million of the Retirement System's investments were exposed to custodial credit risk because they were not insured or registered in the name of the Retirement System, and were held by the counterparty's trust department or agent but not in the Retirement System's name.

For fiscal year 2016, cash received as securities lending collateral is invested in a separate account managed by the lending agent using investment guidelines approved by the Retirement System and

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

held by the Retirement System's custodial bank. Securities in this separately managed account are not exposed to custodial credit risk.

Foreign Currency Risk

The Retirement System's exposure to foreign currency risk derives from its positions in foreign currency denominated cash, equity, fixed income, private equity investments, real assets, and swap investments. The Retirement System's investment policy allows international managers to enter into foreign exchange contracts, which are limited to hedging currency exposure existing in the portfolio.

The Retirement System's net exposures to foreign currency risk as of June 30, 2016 are as follows:

Currency	Cash	Equities	Fixed Income	Private Equities	Real Assets	Foreign Currency Contracts	Total
Australian dollar	\$ 1,044	\$ 103,293	\$ -	\$ 10,641	\$ -	\$ 2,650	\$ 117,628

Derivative Instruments

As of June 30, 2016, the derivative instruments held by the Retirement System are considered investments and not hedges for accounting purposes. The gains and losses arising from this activity are recognized as incurred in the statement of changes in fiduciary net position. All investment derivatives discussed below are included within the investment risk schedules, which precede this subsection. Investment derivative instruments are disclosed separately to provide a comprehensive and distinct view of this activity and its impact on the overall investment portfolio.

The fair value of the exchange traded derivative instruments, such as futures, options, rights and warrants are based on quoted market prices. The fair values of forward foreign currency contracts are determined using a pricing service, which uses published foreign exchange rates as the primary source. The fair values of swaps are determined by the Retirement System's investment managers based on quoted market prices of the underlying investment instruments.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The table below presents the notional amounts, the fair value amounts, and the related net appreciation (depreciation) in the fair value of derivative instruments that were outstanding at June 30, 2016:

Derivative Type / Contracts	Notional Amount	Fair Value	Net Appreciation (Depreciation) in Fair Value
Forwards			
Foreign Exchange Contracts	(a)	\$ 14,144	\$ 14,144
Other Contracts	(a)	(114)	(114)
Options			
Foreign Exchange Contracts	\$ 8,426	(64)	4
Swaps			
Credit Contracts	2,300	(18)	12
Interest Rate Contracts	43,514	968	766
Rights/Warrants			
Equity Contracts	23,123 shares	1,857	(6,406)
Total		\$ 16,773	\$ 8,406

(a) The Retirement System's investment managers enter into a wide variety of forward foreign exchange and other contracts, which frequently do not involve the U.S. dollar. As a result, a U.S. dollar-based notional value is not included.

All investment derivatives are reported as investments at fair value in the statement of fiduciary net position. Rights and warrants are reported in equity securities. Foreign exchange contracts are reported in foreign currency contracts, which also include spot contracts that are not derivatives. All other derivative contracts are reported in other debt securities. All changes in fair value are reported as net appreciation (depreciation) in fair value of investments in the statements of changes in fiduciary net position.

Counterparty Credit Risk

The Retirement System is exposed to credit risk on non-exchange traded derivative instruments that are in asset positions. As of June 30, 2016, the fair value of forward currency contracts (including foreign exchange contract options) to purchase and sell international currencies were \$14.9 million and \$0.8 million, respectively. The Retirement System's counterparties to these contracts held credit ratings of A or better on 99.6% of the positions as assigned by one or more of the major credit rating organizations (S&P, Moody's and/or Fitch) while 0.4% were not rated.

Custodial Credit Risk

The custodial credit risk disclosure for exchange traded derivative instruments is made in accordance with the custodial credit risk disclosure requirements of GASB Statement No. 40. At June 30, 2016, all of the Retirement System's investments in derivative instruments are held in the Retirement System's name and are not exposed to custodial credit risk.

Interest Rate Risk

The table below describes the maturity periods of the derivative instruments exposed to interest rate risk at June 30, 2016.

<u>Derivative Type / Contracts</u>	<u>Fair Value</u>	<u>Maturities</u>

Contingent Features

At June 30, 2016, the Retirement System held no positions in derivatives containing contingent features.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Securities Lending

The Retirement System lends U.S. government obligations, domestic and international bonds, and equities to various brokers with a simultaneous agreement to return collateral for the same securities plus a fee in the future. The securities lending agent manages the securities lending program and receives securities and cash as collateral. Cash and non-cash collateral is pledged at 102% and 105% of the fair value of domestic securities and international securities lent, respectively. There are no restrictions on the number of securities that can be lent at one time. However, starting in the year ended June 30, 2009, the Retirement System engaged in a systematic reduction of the value of securities on loan with a target of no more than ten percent (10%) of total fund assets on loan at any time. The term to maturity of the loaned securities is generally not matched with the term to maturity of the investment of the corresponding collateral.

The Retirement System does not have the ability to pledge or sell collateral securities unless a borrower defaults. The securities collateral is not reported on the statement of fiduciary net position. As of June 30, 2016, the Retirement System has no credit risk exposure to borrowers because the amounts the Retirement System owes them exceed the amounts they owe the Retirement System. As with other extensions of credit, the Retirement System may bear the risk of delay in recovery or of rights in the collateral should the borrower of securities fail financially. However, the lending agent indemnifies the Retirement System against all borrower defaults.

As of June 30, 2016, the Retirement System lent \$1.2 billion in securities and received collateral of \$0.9 billion and \$0.4 billion in cash and securities, respectively, from borrowers. The cash collateral is invested in a separately managed account by the lending agent using investment guidelines approved by the Retirement Board. Due to the increase in the fair value of assets held in the separately managed account, the Retirement System's invested cash collateral was valued at \$0.9 billion. The net unrealized gain of \$2.1 million is presented as part of the net appreciation (depreciation) in fair value of investments in the statement of changes in the fiduciary net position in the year in which the unrealized gains or losses occur. The Retirement System is exposed to investment risk including the possible loss of principal value in the separately managed securities lending account due to the fluctuation in the fair value of assets held in the account.

Total	\$ 1,196,354	\$ 863,536	\$ 368,251

The following table presents the segmented time distribution, based upon the expected maturity (in years), for investments within the short term investment pool in which the securities lending cash collateral is invested, as of June 30, 2016.

Investment Type	Fair Value	Maturity Less Than 1 Year
Commercial Paper	\$ 44,260	\$ 44,260
Negotiable Certificates of Deposit	345,116	345,116
Repurchase Agreements	419,000	419,000
Short Term Investment Funds	57,305	57,305
Total	\$ 865,681	\$ 865,681

The Retirement System's exposure to credit risk in its reinvested cash collateral account as of June 30, 2016 is as follows:

Credit Rating	Fair Value	Fair Value as a Percentage of Total
AA	\$ 153,323	17.7%
A	337,078	38.9%
Not Rated *	375,280	43.4%
Total	\$ 865,681	100.0%

* Repurchase agreements of \$270.0 million are not rated by Moody's, but are held by counterparties with S&P ratings of A or AA.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)

(Dollars in Thousands)

Investments in Real Assets Holdings

Real assets investments represent the Retirement System's interests in real assets limited partnerships and separate accounts. The changes in these investments during the year ended June 30, 2016 are summarized as follows:

Investments:	
Beginning of the year	\$ 1,975,926
Capital investments	1,318,111
Equity in net earnings	48,492
Net appreciation in fair value	168,196
Capital distributions	<u>(1,169,225)</u>
End of the year	<u>\$ 2,341,500</u>

The Retirement System has established leverage limits for each investment style based on the risk/return profile of the underlying investments. The leverage limits for core and value-added real estate investments are 40% and 65%, respectively. The leverage limits for high return real estate investments depend on each specific offering. Outstanding mortgages for the Retirement System's real estate investments were \$492.2 million including \$26.7 million in recourse debt at June 30, 2016. The underlying real estate holdings are valued periodically based on appraisals performed by independent appraisers in accordance with Uniform Standards of Professional Appraisal Practice. Such fair value estimates involve subjective judgments of unrealized gains and losses, and the actual market price of the real estate can only be determined by negotiation between independent third parties in a purchase and sale transaction.

(g) Retiree Health Care Trust Fund

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The RHCTF does not have a specific policy to manage interest rate risk.

As of June 30, 2016, the weighted average maturities in years for the RHCTF's fixed income investments were as follows:

Investment Type	Weighted Average Maturity in Years
US Debt Index Fund	7.45
City Investment Pool	1.02
Treasury Money Market Fund	0.15

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment may not fulfill its obligations. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment pool is not rated. Although the RHCTF's fixed income investments in various commingled funds are not rated, the issuers/sponsors of the funds are rated as of June 30, 2016 as follows:

Issuer/Sponsors	Investment Type	S&P	Moody's
Northern Trust Company	Equity Index Funds, Money Market Fund	A+	A2
Blackrock	US Debt Index Fund	AA-	A1

(6) PROPERTY TAXES

The City is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state law. Property taxes are levied on both real and personal property. Liens for secured property taxes attach on January 1st preceding the fiscal year for which taxes are levied. Secured property taxes are levied on the first business day of September and are payable in two equal installments: the first is due on November 1st and delinquent with penalties after December 10th; the second is due February 1st and delinquent with penalties after April 10th. Secured property taxes that are delinquent and unpaid as of June 30th are subject to redemption penalties, costs, and interest when paid. If not paid at the end of five years, the secured property may be sold at public auction and the proceeds used to pay delinquent amounts due. Any excess is remitted, if claimed, to the taxpayer. Unsecured personal property taxes do not represent a lien on real property. Those taxes are levied on January 1st and become delinquent with penalties after August 31st. Supplemental property tax assessments associated with changes in the assessed valuation due to transfer of ownership in property or upon completion of new construction are levied in two equal installments and have variable due dates based on the date the bill is mailed.

Since the passage of California's Proposition 13, beginning with fiscal year 1978-1979, general property taxes are based either on a flat 1% rate applied to the adjusted 1975-1976 value of the property and new construction value added after the 1975-1976 valuation or on a flat 1% rate of the sales price of the property for changes in ownership. Taxable values on properties (exclusive of increases related to sales and construction) can rise or be adjusted at the lesser of 2% per year or the inflation rate as determined by the Board of Equalization's California Consumer Price Index.

The Proposition 13 limitations on general property taxes do not limit taxes levied to pay the interest and redemption charges on any indebtedness approved by the voters prior to June 6, 1978 (the date of passage of Proposition 13). Proposition 13 was amended in 1986 to allow property taxes in excess of the 1% tax rate limit to fund general obligation bond debt service when such bonds are approved by two-thirds of the local voters. In 2000, California voters approved Proposition 39, which set the approval threshold at 55% for school facilities-related bonds. These "override" taxes for the City's debt service amounted to approximately \$241 million for the year ended June 30, 2016.

Taxable valuation for the year ended June 30, 2016 (net of non-reimbursable exemptions, reimbursable exemptions, and tax increment allocations to the Successor Agency) was approximately \$178 billion, an increase of 6.9%. The secured tax rate was \$1.1826 per \$100 of assessed valuation. After adjusting for a State mandated property tax shift to schools, the tax rate is comprised of: about \$0.65 for general government, about \$0.35 for other taxing entities including the San Francisco Unified School District, San Francisco Community College District, the Bay Area Air Quality Management District and the Bay Area Rapid Transit District, and also \$0.1826 for bond debt service. Delinquencies in the current year on secured taxes and unsecured taxes amounted to 0.66% and 5.09%, respectively, of the current year tax levy, for an average delinquency rate of 0.93% of the current year tax levy.

As established by the Teeter Plan, the Controller allocates to the City and other agencies 100% of the secured property taxes billed but not yet collected by the City; in return, as the delinquent property taxes and associated penalties and interest are collected, the City retains such tax amounts in the Agency Fund. To the extent the Agency Fund balances are higher than required; transfers may be made to benefit the City's General Fund on a budgetary basis. The balance of the tax loss reserve as of June 30, 2016 was \$22.9 million, which is included in the Agency Fund for reporting purposes. The City has funded payment of accrued and current delinquencies, together with the required reserve, from interfund borrowing.

Hospitals.....	32,619
Wastewater.....	50,799
Port.....	21,924
Total depreciation expense - business-type activities.....	\$ <u>590,595</u>

Equipment is generally estimated to have useful lives of 2 to 40 years, except for certain equipment of the Water Enterprise that has an estimated useful life of up to 75 years. Facilities and improvements are generally estimated to have useful lives from 15 to 50 years, except for utility type assets of the Water Enterprise, Hetch Hetchy, the Wastewater Enterprise, the SFMTA, and the Port that have estimated useful lives from 51 to 175 years. These long-lived assets include reservoirs, aqueducts, pumping stations of Hetch Hetchy, Cable Car Barn facilities and structures of SFMTA, and pier substructures of the Port, which totaled \$3.7 billion as of June 30, 2016. Hetch Hetchy Water had intangible assets of water rights having estimated useful lives from 51 to 100 years, which totaled \$45.6 million as of June 30, 2016. The Airport had \$6.9 million in intangible assets of permanent easements. In addition, the Water Enterprise had utility type assets with useful lives over 100 years, which totaled \$6.8 million as of June 30, 2016.

In fiscal year 2015-16, the Airport had write-offs and loss on disposal in the amount of \$13.1 million primarily due to disposal. During fiscal year ended June 30, 2016, the Water Enterprise, Hetch Hetchy, and the Wastewater Enterprise expensed \$0.4 million, \$4.9 million, and \$5.5 million, respectively, related to capitalized design and planning costs on certain projects that were discontinued.

During the fiscal year ended June 30, 2016, the City's enterprise funds incurred total interest expense and interest income of approximately \$494.6 million and \$25.8 million, respectively. Of these amounts, interest expense of approximately \$88.2 million was capitalized.

City and County of San Francisco Commercial Paper Program

The City launched its commercial paper (CP) program to pay for project costs in connection with the acquisition, improvement, renovation and construction of real property and the acquisition of capital equipment and vehicles (Resolution No. 85-09). Pursuant to Resolution No. 85-09 approved in March 2009, the Board of Supervisors established a \$150.0 million commercial paper program. Pursuant to Resolution 247-13, the authorization of the commercial paper program was increased to \$250.0 million from \$150.0 million. The City currently has letters of credit supporting the \$250.0 million program.

The CP is an alternative form of short-term (or interim) financing for capital projects that permits the City to pay project costs as project expenditures are incurred. The CP notes are issued and short-term debt is incurred only when needed to pay project costs as they are incurred. The CP has a fixed maturity date from one to 270 days and generally matures in 270 days. The CP notes are supported by two Revolving Credit Agreements (RCA) issued by State Street Bank and Trust Company ("State Street Bank") and U.S. Bank N.A. with a fee of 0.45% and 0.45%, respectively and a Letter of Credit Agreement (LOC) issued by State Street Bank with a fee of 0.50%. The State Street Bank and US Bank N.A. RCAs are scheduled to expire in May 2021 and the State Street Bank LOC is scheduled to expire in February 2019.

In fiscal year 2016, the City retired \$743.6 million and issued \$713.4 million CP to provide interim financing for the acquisition and improvement of various approved capital projects: the purchase of capital equipment for the San Francisco General Hospital and Trauma Center, rebuilding of severely distressed public housing sites while increasing affordable housing and ownership opportunities and improving the quality of life for existing residents and the surrounding communities (HOPE SF), War Memorial Veterans Building seismic retrofit and Moscone Center expansion. As of June 30, 2016, the outstanding principal amount of tax exempt and taxable CP was \$119.9 million and \$11.5 million, respectively. The tax exempt and taxable CP bear interest rates ranging from 0.43% to 0.47% and 0.53%, respectively.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

San Francisco International Airport

In May 1997, the Airport adopted Resolution No. 97-0146, as amended and supplemented (the "Note Resolution"), authorizing the issuance of CP in an aggregate principal amount not to exceed the lesser of \$400.0 million or the stated amount of the letter(s) of credit securing the CP.

The Airport issues CP in series that are subdivided into subseries according to tax status and that are secured by direct-pay LOC. In addition to the applicable LOC, the CP notes are further secured by a pledge of the Net Revenues of the Airport, subject to the prior payment of the Airports' Second Series Revenue Bonds (the Senior Bonds) outstanding from time to time under Resolution No. 91-0210, adopted by the Airport on December 3, 1991, as amended and supplemented (the Senior Bond Resolution).

Net Revenues are generally defined in the Note Resolution as all revenues earned by the Airport from or with respect to its possession, management, supervision, operation and control of the Airport (not including certain amounts specified in the Note Resolution), less Operation and Maintenance Expenses (as defined in the Note Resolution).

The CP notes are special, limited obligations of the Airport, and the payment of the principal of and interest on the CP notes is secured by a pledge of, lien on and security interest in the Net Revenues and amounts in the funds and accounts provided in the Note Resolution, subject to the prior payment of principal of and interest on the Senior Bonds. The CP notes are secured on parity with any other bonds or other obligations from time to time outstanding under the Note Resolution.

During fiscal year 2016, the CP program was supported by two \$100.0 million principal amount direct-pay LOC issued by State Street Bank and Trust Company and Wells Fargo Bank, National Association, with expiration dates of May 2, 2019, and May 31 2019, respectively, and a third LOC issued by Royal Bank of Canada in the principal amount of \$200.0 million with expiration date of May 19, 2017. Each of the LOC supports separate subseries of CP and permits the Airport to issue CP up to a combined maximum principal amount of \$400.0 million as of June 30, 2016.

As of June 30, 2016, there were no obligations other than the CP notes outstanding under the Note Resolution.

During fiscal year 2016, the Airport issued \$280.4 million of new money CP (AMT) and \$22.7 million (Non-AMT) to fund capital improvement projects. The Airport also issued and retired \$1.1 million of new money CP (taxable) during fiscal year 2016 to fund costs related to various bond and note transactions. As of June 30, 2016, the interest rates on taxable, AMT and Non-AMT CP were 0.55%, 0.02% to 0.58%, and 0.05% to 0.52%, respectively.

San Francisco Water Enterprise

The San Francisco Public Utilities Commission and the Board of Supervisors have authorized the issuance of up to \$500.0 million in CP pursuant to the voter-approved 2002 Proposition E. Prior to June 2014, the \$500.0 million CP authorization was comprised of \$250.0 million pursuant to voter-approved 2002 Proposition A, and \$250.0 million pursuant to voter-approved Proposition E. As of June 30, 2016, no CP was outstanding under Proposition A. Amounts outstanding under Proposition E were \$236.0 million at June 30, 2016. CP interest rates ranged from 0.1% to 0.6%. With maturities up to 270 days, the Water Enterprise intends to maintain the program by remarketing the CP upon maturity over the near-to-medium term, at which time outstanding CP will likely be refunded with revenue bonds. This is being done to take advantage of the continued low interest rate environment. If the CP interest rates rise to a level that exceeds these benefits, the Water Enterprise will refinance the CP with long-term, fixed rate debt.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Hetch Hetchy Water and Power

Effective December 2015, under Charter Sections 9.107(6) and 9.107(8), the San Francisco Public Utilities Commission and Board of Supervisors authorized the issuance of up to \$90.0 million in CP for the purpose of reconstruction or replacement of existing generation, transmission and distribution facilities of the Hetch Hetchy Power. Hetch Hetchy Water and Power had no commercial paper outstanding as of June 30, 2016.

San Francisco Wastewater Enterprise

Under the voter-approved 2002 Proposition E, the San Francisco Public Utilities Commission and Board of Supervisors authorized the issuance of up to \$500.0 million in CP for the purpose of reconstructing, expanding, repairing, or improving the Wastewater Enterprise's facilities. The Enterprise had \$61.0 million CP outstanding as June 30, 2016.

San Francisco Municipal Transportation Agency

In June 2013, pursuant to the City Charter Section 8A.102 (b) 13, the SFMTA Board of Directors authorized the issuance of CP notes in an aggregate principal amount not to exceed \$100.0 million. In July 2013, the Board of Supervisors concurred with the issuance. The CP is secured by an irrevocable LOC from the State Street Bank and Trust Company issued on September 10, 2013 for a term of five years and interest rate not to exceed 12% per annum. The LOC will cover the principal as well as the interest accrued on the 270 days prior to the maturity date. The CP program is jointly administered by the Office of Public Finance (OPF) and SFMTA. OPF will be initiating the issuance of CP with the dealers and reporting on the CP program. The CP will be issued from time to time on a revolving basis to pay for Board-approved project costs in the Capital Improvement Program and other related uses. SFMTA will be requesting drawdowns based on cash flow needs and expenditures schedules. No CP notes have been drawn or outstanding as of June 30, 2016.

Long-Term Obligations

The following is a summary of long-term obligations of the City as of June 30, 2016:

GOVERNMENTAL ACTIVITIES

Type Of Obligation and Purpose	Final Maturity Date	Remaining Interest Rates	Amount
GENERAL OBLIGATION BONDS (a):			
Earthquake safety and emergency response.....	2035	2.25% - 5.00%	\$ 469,540
Parks and playgrounds	2035	2.00% - 6.26%	175,050
Road repaving and street safety	2035	2.00% - 5.00%	176,250
San Francisco General Hospital.....	2033	3.25% - 6.26%	573,085
Seismic safety loan program	2035	1.037% - 5.83%*	46,767
Transportation and road improvement	2035	2.75% - 5.00%	47,005
Refunding	2030	4.00% - 5.00%	523,360
General obligation bonds			2,011,057
LEASE REVENUE BONDS:			
San Francisco Finance Corporation (b), (e) & (f).....	2034	0.425% - 5.75% **	196,055
CERTIFICATES OF PARTICIPATION:			
Certificates of participation (c) & (d)	2045	1.096% - 5.00%	589,580
OTHER LONG TERM OBLIGATIONS:			
Loans (d) & (f)	2045	2.00% - 5.74%	28,395
Revolving credit agreement loan - Transportation Authority (c) .	2018	0.62% ***	114,664
Governmental activities total long-term obligations.....			\$ 2,939,751

* Includes the 1992 Seismic Safety Loan Program GOB Series 2015A which bears variable interest rate that resets monthly. The rate for GOB Series 2015A at June 30, 2016 was 1.037%.

** Includes the Moscone Center West Expansion Project Refunding Bonds Series 2008 - 1 & 2, both of which were financed with variable rate bonds that reset weekly. The rate at June 30, 2016 for Series 2008 -1 & 2 averaged to 0.425%.

*** The Revolving credit agreement loan interest rate equals to the sum of 70% of 1-month LIBOR plus 30%.

Debt service payments are made from the following sources:

- (a) Property tax recorded in the Debt Service Fund.
- (b) Lease revenues from participating departments in the General, Special Revenue and Enterprise Funds.
- (c) Sales tax revenues recorded in the Transportation Authority Special Revenue Fund.
- (d) Revenues recorded in the General Fund.
- (e) Hotel taxes and other revenues recorded in the General and Special Revenue Funds.
- (f) User-charge reimbursements from the General, Special Revenue and Enterprise Funds.

Internal Service Funds serve primarily the governmental funds. Accordingly, long-term liabilities for the Internal Service Funds are included in the above amounts.

* Includes Second Series Revenue Bonds Issue 36 A, B & C, 37C and 2010A, which were issued as variable rate bonds in a weekly mode. For the fiscal year ended June 30, 2016, the average interest rates on Issue 36A, 36B, 36C and 37C were 0.12%, 0.11%, 0.12%, & 0.11%, respectively; for Issue 2010A-1, 2010A-2 and 2010A-3 rates were 0.12%, 0.12% and 0.12%, respectively.

Sources of funds to meet debt service requirements are revenues derived from user fees and charges for services recorded in the respective enterprise funds.

Debt Compliance

The City believes it is in compliance with all significant limitations and restrictions contained in the limitations and restrictions in the various bond indentures.

Legal Debt Limit and Legal Debt Margin

As of June 30, 2016, the City's debt limit (3% of valuation subject to taxation) was \$5.83 billion. The total amount of debt applicable to the debt limit was \$2.23 billion. The resulting legal debt margin was \$3.60 billion.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Arbitrage

Under U.S. Treasury Department regulations, all governmental tax-exempt debt issued after August 31, 1986 is subject to arbitrage rebate requirements. The requirements stipulate, in general, that the earnings from the investment of tax-exempt bond proceeds, which exceed related interest expenditures on the bonds, must be remitted to the Federal government on every fifth anniversary of each bond issuance. The City has evaluated each general obligation bond and certificates of participation issued and the Finance Corporation has evaluated each lease revenue bonds. The City and the Finance Corporation do not have rebatable arbitrage liability as of June 30, 2016. Each enterprise fund has performed similar analysis of its debt, which is subject to arbitrage rebate requirements. Any material arbitrage liability related to the debt of the enterprise funds has been recorded as a liability in the respective fund.

San Francisco Sustainable Financing

The City and County of San Francisco Special Tax District No. 2009-1 (San Francisco Sustainable Financing) was formed in accordance with Ordinance 16-10 to implement the "GreenFinanceSF" program to provide financing for renewable energy, energy efficiency and water efficiency improvements on private or public property in the City. The bonded indebtedness issued by the Special District for the improvement area under the program are payable solely from special taxes levied and collected on property in the improvement area and are not considered obligation of the City. Assessments for the repayment of this debt are received in the Tax Collection Agency Fund. Unpaid assessments constitute fixed liens on the leasehold interest on the parcels within the Special District No. 2009-1.

In October 2012, the City issued \$1.4 million Special Tax Bonds Series A for the Area No.1 and in November 2014, the City issued \$1.8 million Special Tax Bonds Series A for the Area No.2 of the Special District. As of June 30, 2016, the amount outstanding on the Area No. 1 and No. 2 bonds was \$1.3 million and \$1.8 million, respectively.

Assessment District

In June 1996, the City issued \$1.0 million of Limited Obligation Improvement Bonds for the Bayshore Hester Assessment District No. 95-1. These bonds were issued pursuant to the Improvement Bond Act of 1915 to finance the construction of a new public right-of-way and are not considered obligation of the City. The bonds mature from September 1998 through September 2026 bearing interest rates ranging from 6.0% to 6.85%. Assessments collected for repayment of this debt are received in the Tax Collection Agency Fund. Unpaid assessments constitute fixed liens on the lots and parcels assessed within the Bayshore-Hester Assessment District and do not constitute a personal indebtedness of the respective owners of such lots and parcels. As of June 30, 2016, the principal amount of bonds outstanding was \$0.6 million.

Mortgage Revenue Bonds

The City, through the Mayor's Office of Housing and Community Development and the former San Francisco Redevelopment Agency has issued various mortgage revenue bonds and community district facility bonds for the financing of multifamily rental housing, below-market rate mortgage for first time homebuyers in order to facilitate affordable housing and the construction and rehabilitation in the City. These obligations have been issued on behalf of various property owners and developers who retain full responsibility for the payment of the debt and are secured by the related mortgage indebtedness and special assessment taxes and are not considered obligations of the City. As of June 30, 2016, the total obligation outstanding was \$711.5 million.

- (1) The specific year for payment of estimated claims payable, accrued vacation and sick leave pay and accrued workers' compensation is not practicable to determine.
- (2) The interest is before federal subsidy for the General Obligation Bonds Series 2010 C and Series 2010 D. The subsidy is approximately \$32.2 million and \$6.6 million, respectively, through the year ending 2030. The payment of subsidy by the IRS in fiscal year 2016 was reduced by 6.8% due to federal sequestration. Future interest subsidy may be reduced as well.
- (3) Includes the Moscone Center Expansion Project Lease Revenue Refunding Bonds Series 2008-1 & 2 which bear interest at a weekly rate. An assumed rate of 0.425%, together with liquidity fee of 0.350% and remarketing fee of 0.0725% were used to project the interest rate payment in this table.
- (4) The San Francisco County Transportation Authority variable interest rate revolving loan expires on June 8, 2018 and has a rate of interest equal to the sum of 70% of 1-month LIBOR plus 0.30%. An assumed rate of 0.62% was used to project the interest rate payment in this table.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

- (5) Debt service for the Airport is per debt service requirement. In the event the letters of credit securing the Airport's outstanding variable rate bonds had to be withdrawn upon to pay such bonds and the amount drawn had to be repaid by the Airport pursuant to the terms of the related agreement with banks providing such letters of credit, the total interest would be \$108.9 million less.
- (6) The interest payment is before federal subsidy. The federal subsidy for the San Francisco Water Enterprise, San Francisco Wastewater and Hetch Hetchy Water and Power were \$472.5 million, \$68.0 million and \$7.3 million through the fiscal year ending 2051, respectively. The payment of subsidy by the IRS in fiscal year 2016 was reduced by 6.8% due to federal sequestration. Future interest subsidy may be reduced as well.

Governmental Activities Long-term Liabilities

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition or improvement of real property and construction of affordable housing. General obligation bonds have been issued for both governmental and business-type activities. The net authorized and unissued governmental activities general obligation bonds for the fiscal year ended June 30, 2016, are as follows:

Governmental Activities - General Obligation Bonds

Authorized and unissued as of June 30, 2015.....	\$ 1,285,100
Increases in authorization this fiscal year:	
Affordable Housing	310,000
Public Health and Safety	350,000
Bonds issued:	
Series 2015B Transportation and Road Improvements.....	(67,005)
Series 2015A Seismic Safety Loan Program	(24,000)
Series 2016A Clean and Safe Neighborhood Parks.....	(8,695)
Series 2016B Clean and Safe Neighborhood Parks.....	(43,220)
Series 2016C Earthquake Safety and Emergency Response	(25,215)
Series 2016D Earthquake Safety and Emergency Response	(109,595)
Series 2016E Road Repaving and Street Safety.....	(44,145)
Net authorized and unissued as of June 30, 2016.....	<u>\$ 1,623,225</u>

The increase in authorized amount of \$310.0 million of Affordable Housing and \$350.0 million of Public Health and Safety General Obligation Bonds was approved by at least two-third votes on Proposition A at an election held on November 3, 2015 and June 7, 2016, respectively. The proceeds of the Affordable Housing bonds will be used to finance the City's various affordable housing programs. The Public Health and Safety bonds will finance the acquisition and improvement of facilities for emergency response and safety, health care and homeless services.

In July 2015, the City issued Transportation and Road Improvement General Obligation Bonds Series 2015B in the amount of \$67.0 million with interest rates ranging from 2.0% to 5.0% and maturity from June 2016 through June 2035. The proceeds of the Series 2015B will be used to finance the improvements to the City's transportation system, streets and roads and to pay certain costs related to the issuance of the Series 2015B.

In August 2015, the City issued Seismic Safety Loan Program General Obligation Bonds Series 2015A in the amount of \$24.0 million to provide funds for loans for the seismic strengthening of privately-owned unreinforced masonry buildings within the City and to pay for the costs of issuance of the Series 2015A bonds. On the date of issuance, the Series 2015A shall be Index Rate Bonds and bear interest at the LIBOR Index Rate; provided that from the date of issuance to but not including the first business day of the next succeeding month, the Series 2015A shall bear interest at the rate as set in the Declaration of Trust. The initial index rate period shall commence on and be effective from the date of

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

issuance of the Series 2015A and shall continue through the end of the initial period. The index rate shall be determined in accordance with the Declaration of Trust. At the option of the City, the interest rate with respect to all (but not less than all) Series 2015A may be (a) on any LIBOR Index Reset Date, converted from an Index Rate to a new Index Rate or (2) converted to a Fixed Rate, in each case in accordance with the Declaration of Trust. The Series 2015A will mature from June 2019 through June 2035.

In February 2016, the City issued Clean and Safe Neighborhood Parks General Obligation Bonds Series 2016A and 2016B in the amount of \$8.7 million and \$43.2 million, respectively. The proceeds of the Series 2016A and 2016B bonds will be used to finance improvements to park, open space and recreational facilities and to pay certain costs related to the issuance of the Series 2016A and 2016B bonds. Interest rates on both series range from 2.0% to 5.0% with principal amortizing from June 2016 through June 2035.

In April 2016, the City issued General Obligation Bonds Earthquake Safety and Emergency Response Series 2016C in the amount of \$25.2 million, Earthquake Safety and Emergency Response Series 2016D in the amount of \$109.6 million and Road Repaving and Street Safety Series 2016E in the amount of \$44.1 million. The Series 2016C, 2016D and 2016E bonds bear rates ranging from 2.25% to 5.0% with principal amortizing from June 2016 through June 2035. The proceeds of the Series 2016C and 2016D bonds will be used to finance improvements to earthquake safety and emergency responsiveness facilities and infrastructure and to pay certain costs related to the issuance of the Series 2016C and 2016D bonds. The proceeds of the Series 2016E bonds will be used to finance the repaving and reconstruction of various roads; the rehabilitation and seismic improvement of street structures; the replacement of sidewalks; the installation and renovation of curb ramps; the redesign of streetscapes to include pedestrian and bicycle safety improvements; and the construction, rehabilitation and renovation of traffic infrastructure within the City and to pay certain costs related to the issuance of the Series 2016E bonds.

The debt service payments on the general obligation bonds are funded through ad valorem taxes on property.

Certificates of Participation

In July 2015, the City issued Certificates of Participation (War Memorial Veterans Building Seismic Upgrade and Improvements) Series 2015A and Series 2015B (the "Series 2015AB") for \$112.1 million and \$22.2 million respectively. The Series 2015AB were sold to provide funds to: 1) finance or refinance the costs of the seismic retrofit, construction, reconstruction, installation, equipping, improvement or rehabilitation of the War Memorial Veterans Building and related property owned by the City and located at 401 Van Ness Avenue, San Francisco; 2) fund capitalized interest payable with respect to the Series 2015AB through September 2015; 3) fund the 2015 Reserve Account of the Reserve Fund established under the Trust Agreement for the Series 2015AB; and 4) to pay costs of the execution and delivery of the Series 2015AB. The Series 2015A bears interest rates ranging from 4.0% to 5.0% with principal amortizing from April 2023 through April 2045. The Series 2015B bears interest rates ranging from 2.0% to 4.0% with principal amortizing from April 2016 through April 2024.

In October 2015, the City issued Refunding Certificates of Participation Series 2015-R1 (City Office Buildings-Multiple Properties Project) (the "Series 2015-R1") for \$123.6 million to prepay a portion of certain outstanding certificates of participation the proceeds of which financed the acquisition of and capital improvements to certain office buildings occupied by various City departments or certain tenants which are qualified as non-profit organizations exempt from Federal income taxes pursuant to Section 501 (c)(3) of the Code ("501(c)(3) Tenants"); fund a debt service reserve for the Series 2015-R1; and pay costs of execution and delivery of the Series 2015-R1. The Series 2015-R1 matures from September 2016 through September 2040 with interest rate ranging from of 4.0% to 5.0%. The refunding resulted in the recognition of deferred accounting loss of \$1.4 million and reduced the City's

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

aggregate debt service payment by \$18.1 million over the next 25 years and obtained net present value savings of \$11.9 million or 9.0% of refunded bond.

In June 2016, the City issued Certificates of Participation, (War Memorial Veterans Building Seismic Upgrade and Improvements) Series 2016A (the "Series 2016A") for \$16.1 million to provide funds to: 1) reimburse the City for certain costs of the seismic retrofit, construction reconstruction, installation, equipping, improvement or rehabilitation of the War Memorial Veterans Building and related property owned by the City and located at 401 Van Ness Avenue, San Francisco; 2) fund the 2016 Reserve Account of the Reserve Fund established under the Trust Agreement for the Series 2016A; and 3) pay costs of the execution and delivery of the Series 2016A. The Series 2016A were issued with interest rates ranging from 1.096% to 3.771% and matures from April 2017 through April 2032.

At June 30, 2016, the City has a total of \$589.6 million of certificates of participation payable by pledged revenues from the base rental payments payable by the City. Total debt service payments remaining on the certificates of participation are \$888.2 million payable through April 1, 2045. For the fiscal year ended June 30, 2016, principal and interest paid by the City totaled \$39.8 million and \$25.3 million, respectively.

Lease Revenue Bonds

The changes in authorized and unissued lease revenue bonds -- governmental activities for the year ended June 30, 2016 were as follows:

Authorized and unissued as of June 30, 2015.....	\$ 164,432
Increase in authorization in this fiscal year:	
Current year annual increase in Finance Corporation's equipment program.....	3,225
Current year maturities in Finance Corporation's equipment program.....	7,725
Net authorized and unissued as of June 30, 2016.....	<u>\$ 175,382</u>

Finance Corporation

The purpose of the Finance Corporation is to provide a means to publicly finance, through lease financings, the acquisition, construction and installation of facilities, equipment and other tangible real and personal property for the City's general governmental purposes.

The Finance Corporation uses lease revenue bonds to finance the purchase or construction of property and equipment, which are in turn leased to the City under the terms of an Indenture and Equipment Lease Agreement. These assets are then recorded in the basic financial statements of the City. Since the sole purpose of the bond proceeds is to provide lease financing to the City, any amount that is not applied towards the acquisition or construction of real and personal property such as unapplied acquisition fund, bond issue costs, fund withheld pursuant to reserve fund requirement, and amount designated for capitalized interest is recorded as unearned revenues in the internal service fund until such time as it is used for its intended purpose. The unearned amounts are eliminated in the governmental activities statement of net position.

The lease revenue bonds are payable by pledged revenues from the base rental payments payable by the City, pursuant to a Master Lease Agreement between the City and the San Francisco Finance Corporation for the use of equipment and facilities acquired, constructed and improved by the Finance Corporation. The total debt service requirement remaining on the lease revenue bonds is \$237.3 million payable through June 2034. For the fiscal year ended June 30, 2016, principal and interest paid by the Corporation in the form of lease payments made by the City totaled \$18.8 million and \$4.7 million, respectively.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Equipment Lease Program - In the June 5, 1990 election, the voters of the City approved Proposition C, which amended the City Charter to allow the City to lease-purchase up to \$20.0 million of equipment through a non-profit corporation using tax-exempt obligations. Beginning July 1, 1991, the Finance Corporation was authorized to issue lease revenue bonds up to \$20.0 million in aggregate principal amount outstanding plus 5% annual adjustment each July 1. As of June 30, 2016, the amount authorized and outstanding was \$67.7 million, and \$6.5 million, respectively.

San Francisco County Transportation Authority Revolving Credit Agreement

In June 2015, the Transportation Authority substituted its \$200.0 million commercial paper notes (Limited Tax Bonds), Series A and B with a \$140.0 million tax-exempt revolving credit agreement (Revolving Credit Agreement). The commercial paper notes provided a source of financing for the Transportation Authority's voter-approved Proposition K Expenditure Plan. The Revolving Credit Agreement expires on June 8, 2018 and has a rate of interest equal to the sum of 70% of 1-month LIBOR plus 0.30%. The interest payments are due the first business day of each month and the outstanding principal payment is required to be paid at the end of the agreement June 8, 2018. The Revolving Credit Agreement is secured by a first lien gross pledge of the Transportation Authority's sales tax. The Transportation Authority paid \$20.0 million of the outstanding balance of \$134.7 million as of July 1, 2015. Annual principal and interest payments were \$20.8 million in FY2015-16 and pledged revenues were \$99.5 million for the year ended June 30, 2016. As of June 30, 2016, \$114.7 million of the Revolving Credit Agreement balance was outstanding, with an interest rate of 0.62%.

Business-Type Activities Long-Term Liabilities

The following provides a brief description of the current year additions to the long-term debt of the business-type activities.

San Francisco International Airport

Second Series Revenue Bonds (Capital Plan Bonds)

Pursuant to resolutions approved in fiscal years 2008, 2012, 2014 and 2016, the Airport has authorized the issuance of up to \$5.0 billion of San Francisco International Airport Second Series Revenue Bonds to finance and refinance the construction, acquisition, equipping, and development of capital projects undertaken by the Airport, including retiring all or a portion of the Airport's outstanding subordinate commercial paper notes (CP) issued for capital projects, funding debt service reserves, and for paying costs of issuance. As of June 30, 2016, \$3.4 billion of the authorized capital plan bonds remained unissued.

In September 2015, the Airport authorized the issuance of an additional \$243.0 million of San Francisco International Airport Second Series Revenue Bonds (Capital Plan Bonds) and \$225.0 million of San Francisco International Airport Hotel Special Facility Revenue Bonds to finance the development and construction of a new Airport-owned hotel and related AirTrain station. The Airport also designated the planned hotel as a "special facility" under the 1991 Master Resolution, which will allow the hotel revenues to be segregated from the Airport's other revenues and used to pay hotel operating expenses and debt service on the Hotel Special Facility Bonds. In order to obtain the lowest cost of financing, the Airport does not plan to sell the Hotel Special Facility Bonds to investors, but will purchase them itself with a portion of the proceeds of the Capital Plan Bonds, which will be sold to investors. The total net proceeds of the two bond issuances are expected to be approximately \$243.0 million, which will be applied to the \$225.0 million construction costs of the hotel and AirTrain station, capitalized interest and other costs of issuance. In December 2015, the City's Board of Supervisors authorized the issuance of such Hotel Special Facility Bonds and Capital Plan Bonds for the hotel and AirTrain station. Airport approval of the bond sale is required before such bonds can be issued.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Second Series Revenue Refunding Bonds

Pursuant to sale resolutions approved between fiscal years 2005 through 2016, the Airport has authorized the issuance of up to \$8.4 billion of San Francisco International Airport Second Series Revenue Refunding Bonds for the purposes of refunding outstanding 1991 Resolution Bonds and outstanding subordinate CP notes, funding debt service reserves, and paying costs of issuance, including any related bond redemption premiums. In February 2016, the Airport issued its Second Series Revenue Refunding Bonds, Series 2016A (Non-AMT/Governmental Purpose), in the principal amount of \$232.1 million to refund \$66.5 million of its Issue 32F, \$155.3 million of its Issue 32G and \$63.1 million of its Issue 34D long-term fixed rate bonds for debt service savings. As of June 30, 2016, net of expired sale authorizations, \$1.2 billion of such refunding bonds remained authorized but unissued.

Variable Rate Demand Bonds

As of June 30, 2016, the Airport had outstanding aggregate principal amount of \$477.9 million of Second Series Variable Rate Revenue Refunding Bonds, consisting of Issue 36A/B/C and Issue 37C, and Series 2010A (collectively, the "Variable Rate Bonds"), with final maturity dates of May 1, 2026 (Issue 36A/B/C), May 1, 2029 (Issue 37C), and May 1, 2030 (Series 2010A). The Variable Rate Bonds are long-term, tax-exempt bonds that currently bear interest at a rate that is adjusted weekly, and that are subject to tender at par at the option of the holder thereof on seven days' notice. Any tendered Variable Rate Bonds are remarketed by the applicable remarketing agent in the secondary market to other investors. The interest rate on the Variable Rate Bonds can be converted to other interest rate modes, including a term rate or fixed rates to maturity, upon appropriate notice by the Airport. The scheduled payment of the principal and purchase price of and interest on the Variable Rate Bonds is secured by separate irrevocable LOC issued to the Senior Trustee for the benefit of the applicable bondholders by the banks identified in the tables below. Amounts drawn under a LOC that are not reimbursed by the Airport constitute "Repayment Obligations" under the 1991 Master Resolution and are accorded the status of other outstanding bonds to the extent provided in the Resolution. The commitment fees for the LOC range between 0.45% and 0.63% per annum. As of June 30, 2016, there were no unreimbursed draws under these facilities.

In June 2016, the Airport closed a new irrevocable LOC issued by Wells Fargo Bank, National Association, supporting the Second Series Variable Rate Revenue Refunding Bonds, Issue 36A. The LOC will expire June 29, 2018. In June 2016, the Airport closed a new irrevocable LOC issued by Bank of America, N.A., supporting the Second Series Variable Rate Revenue Refunding Bonds Series 2010A. The LOC expires June 29, 2020. The LOC securing the Variable Rate Bonds included in long-term debt as of June 30, 2016, are as follows:

Variable rate bonds

	<u>Issue 36A</u>	<u>Issue 36B</u>	<u>Issue 36C</u>	<u>Issue 37C</u>	<u>Series 2010A</u>
Principal Amount	\$ 100,000	\$ 40,620	\$ 36,145	\$ 88,650	\$ 212,475

Interest Rate Swaps

Objective and Terms – In December 2004, the Airport entered into seven forward starting interest rate swaps (the 2004 swaps) with an aggregate notional amount of \$405.0 million, in connection with the anticipated issuance of Second Series Variable Rate Revenue Refunding Bonds, Issue 32A-E in February 2005, and Second Series Variable Rate Revenue Refunding Bonds, Issue 33 in February 2006. The swap structure was intended as a means to increase the Airport's debt service savings when compared with fixed rate refunding bonds at the time of issuance. The expiration date of the 2004 swaps is May 1, 2026.

In July 2007, the Airport entered into four additional forward starting interest rate swaps in connection with the anticipated issuance of its Second Series Variable Rate Revenue Refunding Bonds, Issue 37B/C, in May 2008 (the 2007 swaps), and Second Series Variable Rate Revenue Refunding Bonds, Series 2010A, in February 2010 (the 2010 swaps). The expiration dates of the 2007 and 2010 swaps are May 1, 2029 and 2030, respectively. In the spring of 2008, the Airport refunded several issues of auction rate and variable rate bonds, including Issue 32 and Issue 33. The 2004 swaps associated with these issues then became associated with the Second Series Variable Rate Revenue Refunding Bonds, Issues 36A-D, and Issue 37A. Subsequently, in October 2008 and December 2008, the Airport refunded Issue 37A and Issue 37B, respectively. Concurrently with the refunding of Issue 37A, the three associated swaps with an aggregate notional amount of \$205.1 million were terminated. The swap associated with Issue 37B was not terminated upon the refunding of Issue 37B.

In December 2010, the Airport terminated a swap associated with the Series 2010A-3 Bonds, with a notional amount of \$72.0 million. The Airport paid a termination amount of \$6.7 million to the counterparty, Depfa Bank plc. The payment was funded with taxable CP, which was subsequently retired with Airport operating funds in March 2011. Following the termination of the Depfa swap, the Series 2010A-3 Bonds, which are variable rate, were no longer hedged with an interest rate swap. The swap associated with the Issue 37B Bonds, however, is now associated with the Series 2010A-3 Bonds.

In September 2011, the Airport refunded the Issue 36D Bonds with proceeds of the San Francisco International Airport Second Series Revenue Bonds, Series 2011H and terminated the swap associated with Issue 36D, which had an initial notional amount of \$30.0 million and JP Morgan Chase Bank, N.A. as counterparty. The Airport paid a termination fee of \$4.6 million to the counterparty. Under the 2004 swaps, the Airport receives a monthly variable rate payment from each counterparty equal to 63.50% of USD-LIBOR-BBA plus 0.29%. Under the 2007 and 2010 swaps, the Airport receives 61.85% of USD-LIBOR-BBA plus 0.34%. These payments are intended to approximate the variable interest rates on the bonds originally hedged by the swaps. The Airport makes a monthly fixed rate payment to the counterparties as set forth below which commenced on the date of issuance of the related bonds. The objective of the swaps is to achieve a synthetic fixed rate with respect to the hedged bonds. All of the outstanding interest rate swaps are terminable at their market value at any time solely at the option of the Airport.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
 June 30, 2016
 (Dollars in Thousands)

As of June 30, 2016, the Airport's derivative instruments comprised six interest rate swaps that the Airport entered into to hedge the interest payments on several series of its variable rate Second Series Revenue Bonds. The Airport determined the hedging relationship between the variable rate bonds and the related interest rate swaps to be effective as of June 30, 2016.

#	Current Bonds	Initial Notional Amount	Notional Amount June 30, 2016	Effective Date
1	36AB	\$ 70,000	\$ 70,000	2/10/2005
2	36AB	69,930	69,930	2/10/2005
3	36C	30,000	30,000	2/10/2005
4	2010A (37B)*	79,684	79,684	5/15/2008
5	37C	89,856	88,616	5/15/2008
6	2010A**	143,947	142,383	2/1/2010
	Total	\$ 483,417	\$ 480,613	

* The Issue 37B Bonds that are hedged by this swap agreement were purchased with proceeds of the Series 2008B Notes, which the Airport subsequently refunded, and the Issue 37B Bonds are held in trust. The swap is now indirectly hedging the Series 2010A-3 Bonds for accounting purposes.

** Hedges Series 2010-1 and 2010A-2.

Fair Value

The fair values take into consideration the prevailing interest rate environment and the specific terms and conditions of each swap. All values were estimated using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the swaps to arrive at the so-called "settlement amount", i.e. the approximate amount a party would have to pay or would receive if the swap was terminated.

In addition, pursuant to GASB Statement No. 72, the settlement amounts are then adjusted for the non-performance risk of each party to the swap to arrive at the fair value. For each swap, the non-performance risk was computed as the total cost of the transactions required to hedge the default exposure, i.e., a series of European swaptions, exercisable on each of the future payment exchange dates under the swap that are structured to reverse the remaining future cash flow obligations as of such dates, adjusted by probability of default on each future date. Default probabilities were derived from recovery rate adjusted credit default swap quotes or generic ratings based borrowing curves that fall into Level 2 of the GASB Statement No. 72 fair value hierarchy.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

As of June 30, 2016, the fair value of the Airport's six outstanding swaps, counterparty credit ratings, and fixed rate payable by the Airport are as follows:

#	Current Bonds	Counterparty/guarantor*	Counterparty credit ratings (S&P/Moody's/Fitch)	Fixed Rate Payable by Airport	Fair Value to Airport
1	36AB	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.444%	\$ (8,963)
2	36AB	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.445%	(8,965)
3	36C	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.444%	(3,842)
4	2010A (37B)**	Merrill Lynch Capital Services, Inc./ Merrill Lynch Derivative Products AG	AA-/Aa3/NR*	3.773%	(17,705)
5	37C	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.898%	(20,588)
6	2010A***	Goldman Sachs Bank USA/ Goldman Sachs Group, Inc.	BBB+/A3/A*	3.925%	(36,069)
					\$ (96,132)

* Reflects ratings of the guarantor.

** The issue 37B Bonds that are hedged by this swap agreement were purchased with proceeds of the Series 2008B Notes, which the Airport subsequently refunded, and the Issue 37B are held in trust. The swap is now indirectly hedging the Series 2010A-3 Bonds for accounting purpose

*** Hedges Series 2010A - 1 and 2010A - 2.

Fair Value Hierarchy

	Fair Value Measurement Using	
	Fair Value 6/30/2016	Significant Other Observable Inputs (Level 2)
Interest rate swaps	\$ (96,132)	\$ (96,132)

The impact of the interest rate swaps on the financial statements for the fiscal year ended June 30, 2016 is as follows:

	Deferred outflows on derivative instruments	Derivative instruments
Balance as of June 30, 2015 (as restated)	\$ 65,408	\$ 79,321
Change in fair value to year end	18,206	16,811
Balance as of June 30, 2016	\$ 83,614	\$ 96,132

The fair value of the interest rate swap portfolio is recorded as a liability (since the Airport would owe a termination payment to the counterparty) in the statements of net position. Unless a swap was determined to be an off-market swap at the inception of its hedging relationship, the fair value of the swap is recorded as a deferred outflow asset (if a termination payment would be due to the counterparty) or inflow liability (if a termination payment would be due to the Airport). The off-market portions of the Airport's swaps are recorded as carrying costs with respect to various refunded bond issues. Unlike fair value and deferred inflow/outflow values, the balance of remaining off-market portions are valued on a present value, or fixed yield, to maturity basis. The difference between the deferred outflows and derivative instruments presented in the table above constitutes the unamortized off-market portions of the swaps as of June 30, 2016.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Basis Risk – The Airport has chosen a variable rate index based on a percentage of London Interbank Offered Rate (LIBOR) plus a spread, which historically has closely approximated the variable rates payable on the related bonds. However, the Airport is subject to the risk that a change in the relationship between the LIBOR-based swap rate and the variable bond rates would cause a material mismatch between the two rates. Changes that cause the payments received from the counterparty to be insufficient to make the payments due on the associated bonds result in an increase in the synthetic interest rate on the bonds, while changes that cause the counterparty payments to exceed the payments due on the associated bonds result in a decrease in the synthetic interest rate on the bonds. During the fiscal year ended June 30, 2016, the Airport paid a total of \$2.0 million less in interest on its variable rate bonds than the floating-rate payments it received from the swap counterparties, resulting in a decrease in the effective synthetic interest rates on the associated bonds.

Credit Risk – As of June 30, 2016, the Airport is not exposed to credit risk because the swaps have a negative fair value to the Airport. Should long-term interest rates rise and the fair value of the swaps become positive, the Airport would be exposed to credit risk in the amount of the swaps' fair value. Under the terms of the swaps, counterparties are required to post collateral consisting of specified U.S. Treasury and Agency securities in an amount equal to the market value of a swap that exceeds specified thresholds linked to the counterparty's credit ratings. Any such collateral will be held by a custodial bank.

Counterparty Risk – The Airport is exposed to counterparty risk, which is related to credit and termination risk. While the insolvency or bankruptcy of a counterparty, or its failure to perform would be a default under the applicable swap documents, none of the Airport's swaps would automatically terminate. Rather, the Airport would have the option to terminate the affected swap at its fair value, which may result in a payment to the counterparty. The Airport may also be exposed to counterparty risk in a high interest rate environment in the event a counterparty is unable to perform its obligations on a swap transaction leaving the Airport exposed to the variable rates on the associated debt. In order to diversify the Airport's swap counterparty credit risk and to limit the Airport's credit exposure to any one counterparty, the Airport's swap policy imposes limits on the maximum net termination exposure to any one counterparty. Maximum net termination exposure is calculated as of the date of execution of each swap and is monitored regularly during the term of the swap. The exposure limits vary for collateralized and non-collateralized swaps based upon the credit rating of the counterparty. If any exposure limit is exceeded by a counterparty during the term of a swap, the Airport Director is required to consult with the Airport's swap advisor and bond counsel regarding appropriate actions to take, if any, to mitigate such increased exposure, including, without limitation, transfer or substitution of a swap. As of June 30, 2016, the fair value of the Airport's swaps was negative to the Airport (representing an amount payable by the Airport to each counterparty in the event the relevant swap was terminated).

Termination Risk – All of the interest rate swaps are terminable at their market value at any time at the option of the Airport. The Airport has limited termination risk with respect to the interest rate swaps. That risk would arise primarily from certain credit-related events or events of default on the part of the Airport, the municipal swap insurer, or the counterparty.

The Airport has secured municipal swap insurance for all its regular payments and some termination payments due under all its interest rate swaps, except the swaps associated with the Series 2010A Bonds, from the following insurers:

#	Swap	Swap Insurer	Insurer Credit Ratings June 30, 2016 (S&P/Moody's/Fitch)
1	Issue 36AB	FGIC/National Public Finance Guarantee Corporation	AA-/A3/NR
2	Issue 36AB	FGIC/National Public Finance Guarantee Corporation	AA-/A3/NR
3	Issue 36C	Assured Guaranty Municipal Corp.	AA/A2/NR
4	Series 2010A	None	N/A
5	Issue 37C	Assured Guaranty Municipal Corp.	AA/A2/NR
6	Series 2010A	None	N/A

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

If the Airport is rated between Baa1/BBB+/BBB+ and Baa3/BBB-/BBB- (Moody's/S&P/Fitch), and the applicable bond insurer is rated below A3/A- (Moody's/S&P), the counterparties may terminate the swaps and require the Airport to pay the termination value, if any, unless the Airport chooses to provide suitable replacement credit enhancement, assign the Airport's interest in the swaps to a suitable replacement counterparty, or post collateral to secure the swap termination value. If the Airport is rated below Baa3/BBB-/BBB- (Moody's/S&P/Fitch) or its ratings are withdrawn or suspended, and the applicable bond insurer is rated below A3/A- (Moody's/S&P), the counterparties may terminate the swaps and require the Airport to pay the termination value, if any. With respect to the Series 2010A swaps with no swap insurance, the counterparty termination provisions and the Airport rating thresholds are the same as described above.

Additional Termination Events under the swap documents with respect to the Airport include an insurer payment default under the applicable swap insurance policy, and certain insurer rating downgrades or specified insurer nonpayment defaults combined with a termination event or event of default on the part of the Airport or a ratings downgrade of the Airport below investment grade. Additional Termination Events under the swap documents with respect to a counterparty or its guarantor include a rating downgrade below A3/A1/A1 (Moody's/S&P/Fitch), followed by a failure of the counterparty to assign its rights and obligations under the swap documents to another entity acceptable to the applicable insurer within 15 business days.

Goldman Sachs Group, Inc., which is the guarantor of the Airport's swap counterparty Goldman Sachs Bank USA, was downgraded to BBB+ by S&P during the year ended June 30, 2016.

Merrill Lynch Derivative Products AG, which is the guarantor of the Airport's swap counterparty Merrill Lynch Capital Services, Inc., was upgraded by one or more of the rating agencies during the year ended June 30, 2016.

The downgrade of any swap counterparty increases the risk to the Airport that such counterparty may become bankrupt or insolvent and not perform under the applicable swap. If a counterparty does not perform under its swap, the Airport may be required to continue making its fixed rate payments to the counterparty even though it does not receive a variable rate payment in return. The Airport may elect to terminate a swap with a non-performing counterparty and may be required to pay a substantial termination payment approximately equal to the fair value of such swap, depending on market conditions at the time. As of June 30, 2016, the fair value of each swap was negative to the Airport as shown above.

San Francisco Wastewater Enterprise

In May 2016, the San Francisco Wastewater Enterprise issued tax-exempt revenue bonds 2016 Series A (Green Bonds) in the amount of \$240.6 million with interest rates ranging from 4.0% to 5.0%. Proceeds from the bonds were used for Wastewater capital projects, to pay off \$53.4 million of outstanding commercial paper notes, to fund capitalized interest, and pay the costs of issuing the bonds. The bonds carried ratings of "AA" and "Aa3" from S&P and Moody's, respectively and mature through October 1, 2046. The bonds have a true interest cost of 3.2%. As of June 30, 2016, the principal amount outstanding of the 2016 Series A bonds was \$240.6 million. Also in May 2016, the Wastewater Enterprise issued tax-exempt revenue bonds 2016 Series B in the amount of \$67.8 million with interest rates ranging from 4.0% to 5.0%. Proceeds from the bonds were used for Wastewater capital projects, to pay off \$20.6 million of outstanding commercial paper notes, to fund capitalized interest, and pay the costs of issuing the bonds. The bonds carried ratings of "AA" and "Aa3" from S&P and Moody's, respectively and mature through October 1, 2046. The bonds have a true interest cost of 3.2%. As of June 30, 2016, the principal amount outstanding of the 2016 Series B bonds was \$67.8 million.

Hetch Hetchy Water and Power

In October 2015, Hetch Hetchy Power issued \$4.1 million of taxable 2015 New Clean Renewable Energy Bonds (NCREB). The NCREB were issued to fund certain qualified clean, renewable energy solar generation facilities at the Marina Middle School and the San Francisco Police Academy. The 2015 NCREBs were non-rated and privately-placed with Bank of America Leasing. The NCREB bears interest rate of 4.62%, with net effective interest rate of 1.4% after the federal tax subsidy and matures through fiscal year 2033.

(9) EMPLOYEE BENEFIT PROGRAMS

(a) Retirement Plans

General Information About the Pension Plans – The San Francisco City and County Employees' Retirement System (Retirement System) administers a cost-sharing multiple-employer defined benefit pension plan (SFERS Plan), which covers substantially all of the employees of the City and County of San Francisco, and certain classified and certificated employees of the San Francisco Community College and Unified School Districts, and San Francisco Trial Court employees other than judges. The San Francisco City and County Charter and the Administrative Code are the authority which establishes and amends the benefit provisions and employer obligations of the SFERS Plan. The Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the SFERS Plan. That report may be obtained by writing to the San Francisco City and County Employees' Retirement System, 1145 Market Street, 5th Floor, San Francisco, CA 94103 or by calling (415) 487-7000.

In addition, some City employees are eligible to participate in the Public Employees' Retirement Fund (PERF) of the California Public Employees' Retirement System (CalPERS) Safety Plan, an agent multi-employer pension plan, or the CalPERS Miscellaneous Plan, a cost-sharing multiple-employer pension plan. Some employees of the Transportation Authority, a blended component unit, are eligible to participate in a CalPERS Miscellaneous Plan or a CalPERS PEPRM Miscellaneous Plan, both are cost-sharing multiple-employer pension plans. In addition, some employees of the Successor Agency, a fiduciary component unit, are eligible to participate in a CalPERS Miscellaneous Plan or a CalPERS PEPRM Miscellaneous Plan, both are cost-sharing multiple-employer pension plans. Lastly, some employees of the Treasure Island Development Authority, a discretely presented component unit, are eligible to participate in the CalPERS Miscellaneous cost-sharing multiple-employer pension plan.

CalPERS acts as a common investment and administrative agent for various local and state governmental agencies within the State of California. Benefit provisions and other requirements are established by State statute, employer contract with CalPERS and by City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at www.calpers.ca.gov.

Benefits

SFERS – The SFERS Plan provides service retirement, disability, and death benefits based on specified percentages of defined final average monthly salary and provides annual cost-of-living adjustments (COLA) after retirement. The SFERS Plan also provides pension continuation benefits to qualified survivors. The Retirement System pays benefits according to the category of employment and the type of benefit coverage provided by the City. The four main categories of SFERS Plan members are:

- Miscellaneous Non-Safety Members – staff, operational, supervisory, and all other eligible employees who are not in special membership categories.
- Sheriff's Department and Miscellaneous Safety Members – sheriffs assuming office on and after January 7, 2012, and undersheriffs, deputized personnel of the Sheriff's Department, and miscellaneous safety employees hired on and after January 7, 2012.
- Firefighter Members – firefighters and other employees whose principal duties are in fire prevention and suppression work or who occupy positions designated by law as firefighter member positions.
- Police Members – police officers and other employees whose principal duties are in active law enforcement or who occupy positions designated by law as police member positions.

The membership groups and the related service retirement benefits are summarized as follows:

Miscellaneous Non-Safety Members who became members prior to July 1, 2010 qualify for a service retirement benefit if they are at least 50 years old and have at least 20 years of credited service or if they are at least 60 years old and have at least 10 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest one-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 75% of the member's final compensation.

Miscellaneous Non-Safety Members who became members on or after July 1, 2010 and prior to January 7, 2012 qualify for a service retirement benefit if they are at least 50 years old and have at least 20 years of credited service or if they are at least 60 years old and have at least 10 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest two-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 75% of the member's final compensation.

Miscellaneous Non-Safety Members who became members on or after January 7, 2012 qualify for a service retirement benefit if they are at least 53 years old and have at least 20 years of credited service or if they are at least 60 years old and have at least 10 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest three-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 75% of the member's final compensation.

Sheriff's Department Members and Miscellaneous Safety Members who were hired on or after January 7, 2012 qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest three-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Firefighter Members and Police Members who became members before November 2, 1976 qualify for a service retirement benefit if they are at least 50 years old and have at least 25 years of credited service. The service retirement benefit is calculated using the member's final compensation (monthly salary earnable at the rank or position the member held for at least one year immediately prior to retiring) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Firefighter Members and Police Members who became members on or after November 2, 1976 and prior to July 1, 2010 qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest one-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Firefighter Members and Police Members who became members on or after July 1, 2010 and prior to January 7, 2012 qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest two-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Firefighter Members and Police Members who became members on or after January 7, 2012 qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest three-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

All members are eligible to apply for a disability retirement benefit, regardless of age, when they have 10 or more years of credited service and they sustain an injury or illness that prevents them from performing their duties. Safety members are eligible to apply for an industrial disability retirement benefit from their first day on the job if their disability is caused by an illness or injury that they receive while performing their duties.

All retired members receive a benefit adjustment each July 1, which is the Basic COLA. The majority of adjustments are determined by changes in CPI with increases capped at 2%. Effective July 1, 2012, the SFERS Plan provides for a Supplemental COLA in years when there are sufficient "excess" investment earnings in the SFERS Plan and the SFERS Plan is fully funded on a market value of assets basis. The maximum benefit adjustment is 3.5% including the Basic COLA. For members hired on or after January 7, 2012, Supplemental COLAs will not be permanent adjustments to retirement benefits.

CalPERS – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on a final compensation which is the highest average pay rate and special compensation during any consecutive one-year or three-year period. The cost of living adjustments for the CalPERS plans are applied as specified by the Public Employees' Retirement Law. The California Public Employees' Pension Reform Act (PEPRA), which took effect in January 2013, changes the way CalPERS retirement and health benefits are applied, and places compensation limits on members. As such, members who established CalPERS membership on or after January 1, 2013 are known as "PEPRA" members.

Required employee contribution rates	7.00%	6.25%	7.00%	6.50%
Required employer contribution rates	8.51%	6.24%	22.76%	9.52%

* For the City Miscellaneous Plan, there are no current active employees hired on or after January 1, 2013. For the Treasure Island Miscellaneous Plan, there are no current active employees.

At June 30, 2016, the CalPERS' City Safety Plan had a total of 2,311 members who were covered by these benefits, which includes 944 inactive employees or beneficiaries currently receiving benefits, 329 inactive employees entitled to but not yet receiving benefits, and 1,038 active employees.

Contributions

For the years ended June 30, 2016 and 2015, the City's actuarial determined contributions were as follows:

	2016	2015
SFERS Plan.....	\$ 496,343	\$ 556,511 *
City CalPERS Miscellaneous Plan.....	33	31
City CalPERS Safety Plan.....	23,629	20,718 **
Transportation Authority CalPERS Classic & PEPRA Miscellaneous Plans.....	280	400
Successor Agency CalPERS Classic & PEPRA Miscellaneous Plans.....	828	598
Treasure Island Development Authority CalPERS Miscellaneous Plan.....	2	2
	\$ 521,115	\$ 578,260

* Fiscal Year 2015 SFERS Plan balance was decreased by \$8.6 million as a result of early implementation of GASB Statement No. 82. Specifically, the 'employer pickup' amount which posted as an employer contribution was retroactively adjusted. This amount is now considered an employee contribution consistent with Statement No. 82.

** In Fiscal Year 2015 this amount was based on an estimate. A \$102K adjustment was made to align the estimated employer contribution amount with the actual employer contribution per the June 30, 2015 Agent Multiple-Employer CalPERS report.

SFERS – Contributions are made to the basic SFERS Plan by both the City and the participating employees. Employee contributions are mandatory as required by the Charter. Employee contribution rates for fiscal year 2016 varied from 7.5% to 13.0% as a percentage of gross covered salary. For fiscal year ended June 30, 2016, most employee groups agreed through collective bargaining for employees to contribute the full amount of the employee contributions on a pretax basis. The City is required to contribute at an actuarially determined rate. Based on the July 1, 2014 actuarial report, the required employer contribution rates for fiscal year 2016 were 18.3% to 22.8%.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

CalPERS – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the PERF is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by public employees during the year, with an additional amount to finance any unfunded accrued liability.

Net Pension Liability

The table below shows how the net pension liability (NPL) as of June 30, 2016 is distributed.

Governmental activities.....	\$ 1,355,280
Business-type activities.....	976,938
Fiduciary funds.....	16,563
Component Unit - Treasure Island Development Authority....	24
Total.....	\$ 2,348,805

As of June 30, 2016, the City's NPL is comprised of the following:

	Proportionate Share	Share of Net Pension Liability (Asset)
SFERS Plan.....	93.9032%	\$ 2,156,049
City CalPERS Miscellaneous Plan.....	-0.2033%	(13,956)
City CalPERS Safety Plan.....	N/A	188,837
Transportation Authority CalPERS Classic & PEPRAMiscellaneous Plans...	0.0188%	1,288
Successor Agency CalPERS Classic & PEPRAMiscellaneous Plans.....	0.2413%	16,563
Treasure Island Development Authority CalPERS Miscellaneous Plan.....	0.0004%	24
Total.....		\$ 2,348,805

The City's NPL for each of its cost-sharing plans is measured as a proportionate share of the plans' NPL. The City's NPL of each of its cost-sharing plans is measured as of June 30, 2015, and the total pension liability for each cost-sharing plan used to calculate the NPLs was determined by an actuarial valuation as of June 30, 2014, rolled forward to June 30, 2015, using standard update procedures. The City's proportion of the NPL for the SFERS Plan was based on the City's long-term share of contributions to SFERS relative to the projected contributions of all participating employers, actuarially determined. The City's proportions of the NPL for the CalPERS plans were actuarially determined as of the valuation date.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

The City's proportionate share and NPL of each of its cost-sharing plans as of June 30, 2015 and 2014 were as follows:

	June 30, 2015 (Measurement Date)		June 30, 2014		Change (Decrease)

Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the City recognized pension expense including amortization of deferred outflows/inflows related to pension items as follows:

	Primary Government			Component Unit	Total
	Governmental Activities	Business-type Activities	Fiduciary Funds	Treasure Island Development Authority	
SFERS Plan.....	\$ 56,971	\$ 49,528	\$ -	\$ -	\$ 106,499
City CalPERS Miscellaneous Plan.....	(429)	-	-	-	(429)
City CalPERS Safety Plan.....	13,168	-	-	-	13,168
Transportation Authority CalPERS Classic & PEPR Miscellaneous Plans..	(108)	-	-	-	(108)
Successor Agency CalPERS Classic & PEPR Miscellaneous Plans.....	-	-	1,681	-	1,681
Treasure Island District Authority CalPERS Miscellaneous Plan	-	-	-	7	7
Total pension expense	<u>\$ 69,602</u>	<u>\$ 49,528</u>	<u>\$ 1,681</u>	<u>\$ 7</u>	<u>\$ 120,818</u>

At June 30, 2016, the City's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

	SFERS Plan		CalPERS Miscellaneous Plans		City CalPERS Safety Plan		Total	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date.....	\$ 496,343	\$ -	\$ 1,143	\$ -	\$ 23,629	\$ -	\$ 521,115	\$ -
Change in assumptions.....	162,900	41,307	-	629	-	15,310	162,900	57,246
Difference between expected and actual experience.....	-	148,728	67	-	-	10,912	67	159,640
Change in employer's proportion and differences between the employer's contributions and the employer's proportionate share of contributions.....	3,221	7,698	1,584	12,259	-	-	4,805	19,957
Net differences between projected and actual earnings on plan investments.....	-	510,360	-	316	-	8,585	-	519,261
Total	<u>\$ 662,464</u>	<u>\$ 708,093</u>	<u>\$ 2,794</u>	<u>\$ 13,204</u>	<u>\$ 23,629</u>	<u>\$ 34,807</u>	<u>\$ 688,887</u>	<u>\$ 756,104</u>

At June 30, 2016, the City reported \$521.1 million as deferred outflows of resources related to contributions subsequent to the measurement date, which will be recognized as a reduction to net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ending June 30	Deferred Outflows/ (Inflows) of Resources
2017.....	\$ (246,999)
2018.....	(246,965)
2019.....	(246,049)
2020.....	151,681
Total	<u>\$ (588,332)</u>

CITY AND COUNTY OF SAN FRANCISCO

Actuarial Assumptions

A summary of the actuarial assumptions and methods used to calculate the total pension liability as of June 30, 2015 is provided below, including any assumptions that differ from those used in the July 1, 2014 actuarial valuation.

	<u>SFERS Plan Actuarial Assumptions</u>	<u>CalPERS Miscellaneous and Safety Plans</u>
Valuation date.....	June 30, 2014 updated to June 30, 2015	June 30, 2014 updated to June 30, 2015
Measurement date.....	June 30, 2015	June 30, 2015
Actuarial cost method.....	Entry-age normal cost method	Entry-age normal cost method
Investment rate of return.....	7.50%, net of pension plan investment expenses	7.65%, net of pension plan investment expense, including inflation
Municipal bond yield.....	4.31% as of June 30, 2014 3.85% as of June 30, 2015 Bond Buyer 20-Bond GO Index, July 2, 2014 and July 2, 2015	
Inflation.....	3.33%	2.75%
Projected salary increases.....	3.83% plus merit component based on employee classification and years of service	Varies by Entry Age and Service
Discount rate.....	7.46% as of June 30, 2015	7.65% as of June 30, 2015
Basic COLA.....	Old Miscellaneous and All New Plans..... 2.00% Old Police and Fire: Pre 7/1/75 Retirements..... 3.00% Chapters A8.595 and A8.596.... 4.00% Chapters A8.585 and A8.585.... 5.00%	Contract COLA up to 2.75% until Purchasing Protection Allowance Floor on Purchasing Power applies. 2.75% thereafter.

Mortality rates for SFERS active members were based upon the RP-2000 Employee Tables for Males and Females projected using Scale AA to 2030 for females and to 2005 for males. Mortality rates for SFERS healthy annuitants were based upon the RP-2000 Healthy Annuitant Tables for Males and Females projected using Scale AA to 2020. Refer to SFERS's July 1, 2014 actuarial valuation report for a complete description of all other assumptions, which can be found on the Retirement System website.

The actuarial assumptions used in the SFERS June 30, 2014 valuation were based upon the results of an experience study for the period July 1, 2004 through June 30, 2009.

For CalPERS, the mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. All other actuarial assumptions used in the CalPERS June 30, 2014 valuation were based on the results of an actuarial experience study for the period 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

GASB Statement No. 68 states that the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expense. The CalPERS discount rate was changed from 7.50 percent (net of administrative expense in 2014) to 7.65 percent as of the June 30, 2015 measurement date to correct the adjustment which previously reduced the discount rate for administrative expense.

Discount Rates

SFERS – The beginning and end of year measurements are based on different assumptions and contribution methods that result in different discount rates. The discount rate was 7.58% as of June 30, 2014 and 7.46% as of June 30, 2015.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The discount rate used to measure SFERS's total pension liability as of June 30, 2015 was 7.46%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will continue to be made at the rates specified in the Charter. Employer contributions were assumed to be made in accordance with the contribution policy in effect for July 1, 2014 actuarial valuation. That policy includes contributions equal to the employer portion of the entry age normal costs for members as of the valuation date, a payment for the expected administrative expenses, and an amortization payment on the unfunded actuarial liability. The amortization payment is based on closed periods that vary in length depending on the source. Charter amendments prior to July 1, 2014 are amortized over 20 years. After July 1, 2014, any Charter changes to active member benefits are amortized over 15 years and changes to inactive member benefits, including Supplemental COLAs, are amortized over 5 years. The remaining unfunded actuarial liability not attributable to Charter amendments as of July 1, 2013 is amortized over a 19-year period commencing July 1, 2014. Experience gains and losses and assumption or method changes on or after July 1, 2014 are amortized over 20 years. All amortization schedules are established as a level percentage of payroll so payments increase 3.75% each year. The unfunded actuarial liability is based on an actuarial value of assets that smooths investment gains and losses over five years and a measurement of the actuarial liability that excludes the value of any future Supplemental COLAs.

While the contributions and measure of the actuarial liability in the valuation do not anticipate any Supplemental COLAs, the projected contributions for the determination of the discount rate include the anticipated future amortization payments on future Supplemental COLAs for current members when they are expected to be granted. For a Supplemental COLA to be granted, the market value of assets must exceed the actuarial liability at the beginning of the year and the actual investment earnings during the year must exceed the expected investment earnings on the actuarial value of assets. When a Supplemental COLA is granted, the amount depends on the amount of excess earnings and the basic COLA amount for each membership group. In most cases, the large majority of members receive a 1.50% Supplemental COLA.

Because the probability of a Supplemental COLA depends on the current funded level of the Retirement System, the Retirement System developed an assumption as of June 30, 2015, of the probability and amount of Supplemental COLA for each future year. The table below shows the net assumed Supplemental COLAs for members with a 2.00% basic COLA for sample years.

<u>Year Ending</u> <u>June 30</u>	<u>Assumption</u>
2016	0.000%
2021	0.345%
2026	0.375%
2031	0.375%
2036+	0.375%

The projection of benefit payments to current members for determining the discount rate includes the payment of anticipated future Supplemental COLAs.

Based on these assumptions, the Retirement System's fiduciary net position was projected to be available to make projected future benefit payments for current members until fiscal year end 2076 when only a portion of the projected benefit payments are expected to be made from the projected fiduciary net position. Projected benefit payments are discounted at the long-term expected return on assets of 7.50% to the extent the fiduciary net position is available to make the payments and at the municipal bond rate of 3.85% to the extent they are not available. The single equivalent rate used to determine the total pension liability as of June 30, 2015 is 7.46%.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
 June 30, 2016
 (Dollars in Thousands)

The long-term expected rate of return on pension plan investments was 7.50%. It was set by the Retirement Board after consideration of both expected future returns and historical returns experienced by the by the Retirement System. Expected future returns were determined by using a building-block method in which best-estimate ranges of expected future real rates of return were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Target allocation and best estimates of geometric long-term expected real rates of return (net of pension plan investment expense and inflation) for each major asset class are summarized in the following table.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global equity	40.0%	5.1%
Fixed income	20.0%	1.2%
Private equity	18.0%	7.5%
Real assets	17.0%	4.1%
Hedge Funds/Absolute Return	5.0%	3.5%

CalPERS - The discount rate used to measure each of the CalPERS Miscellaneous Plans and the Safety Plan total pension liability was 7.65 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.65 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB Statement No. 68 section.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	Target Allocation	Real Return Years 1 - 10 ⁽¹⁾	Real Return Years 11+ ⁽²⁾
Global equity	51.0%	5.25%	5.71%
Global fixed income	19.0%	0.99%	2.43%
Inflation sensitive	6.0%	0.45%	3.36%
Private equity	10.0%	6.83%	6.95%
Real estate	10.0%	4.50%	5.13%
Infrastructure and forestland	2.0%	4.50%	5.09%
Liquidity	2.0%	-0.55%	-1.05%

(1) An expected inflation of 2.5% used for this period.

(2) An expected inflation of 3.0% used for this period.

Sensitivity of Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the NPL for each of the City's cost sharing retirement plans, calculated using the discount rate, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate.

Cost-Sharing Pension Plans	1% Decrease Share of NPL	Current Share of NPL	1% Increase Share of NPL
Proportionate Share of Net Pension Liability	@ 6.46%	@ 7.46%	@ 8.46%
SFERS.....	\$ 4,767,771	\$ 2,156,049	\$ (34,278)
	1% Decrease Share of NPL	Current Share of NPL	1% Increase Share of NPL
	@ 6.65%	@ 7.65%	@ 8.65%
City CalPERS Miscellaneous Plan.....	\$ (11,026)	\$ (13,956)	\$ (16,375)
Transportation Authority CalPERS Classic & PEPRA Miscellaneous Plans.....	2,349	1,289	413
Successor Agency CalPERS Classic & PEPRA Miscellaneous Plans.....	31,054	16,563	4,600
Treasure Island District Authority CalPERS Miscellaneous Plans.....	35	24	16

The following presents the NPL, calculated using the discount rate of 7.65% in effect as of the measurement date, as well as what the NPL would be if they were calculated using discount rates that are 1.00% lower (6.65%) or 1.00% higher (8.65%) than the rates used, for the City's agent-multiple employer plan:

Agent Pension Plan	1% Decrease @ 6.65%	Measurement Date @ 7.65%	1% Increase @ 8.65%
City CalPERS Safety Plan - Net Pension Liability.....	\$ 342,724	\$ 188,837	\$ 61,895

Detailed information about the CalPERS Safety Plan's fiduciary net position is available in a separately issued CalPERS financial report, copies may be obtained from the CalPERS website at www.calpers.ca.gov.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Deferred Compensation Plan

The City offers its employees a deferred compensation plan in accordance with Internal Revenue Code (IRC) Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees or other beneficiaries until termination, retirement, death, or unforeseeable emergency.

The City has no administrative involvement and does not perform the investing function. The City has no fiduciary accountability for the plan and, accordingly, the plan assets and related liabilities to plan participants are not included in the basic financial statements.

Health Service System

The Health Service System was established in 1937. Health care benefits of employees, retired employees and surviving spouses are financed by beneficiaries and by the City through the Health Service System. The employers' contribution, which includes the San Francisco Community College District, San Francisco Unified School District and the San Francisco Superior Court, amounted to approximately \$674.6 million in fiscal year 2015-16. The employers' contribution is mandated and determined by Charter provision based on similar contributions made by the ten most populous counties in California and the contribution models negotiated with the unions. Included in this amount is \$193.8 million to provide postemployment health care benefits for 27,126 retired participants, of which \$158.4 million related to City employees. The City's liability for postemployment health care benefits is enumerated below. The City's contribution is paid out of current available resources and funded on a pay-as-you-go basis. The Health Service System issues a publicly available financial report that includes financial statements. That report may be obtained by writing to the San Francisco Health Service System, 1145 Market Street, Suite 300, San Francisco, CA 94103 or from the City's website.

(b) Postemployment Health Care Benefits

City (excluding the Transportation Authority and the Successor Agency)

Plan Description – The City maintains a single-employer, defined benefit other postemployment benefits plan, which provides health care benefits to employees, retired employees, and surviving spouses, through the City's Health Service System outlined above. Health care benefits are provided to members of the Health Service System through three plan choices: City Health Plan, Kaiser, and Blue Shield. The City does not issue a separate report on its other postemployment benefit plan.

The City prefunds its OPEB obligations through the Retiree Health Care Trust Fund (RHCTF), an irrevocable trust fund that allows participating employers to prefund certain postemployment benefits other than pensions for their covered employees. The RHCTF is an agent multiple-employer trust and has two participating employers: the City and the San Francisco Community College District (Community College District). From the most recent actuarial valuation reports as of July 1, 2014, there were 29,001 active members, 25,919 retirees and beneficiaries, and 2,843 vested, terminated members for the City. The Community College District had 1,369 active members and 1,041 eligible retirees.

The RHCTF is administered by the City and is presented as an other post-employment benefit trust fund. It is governed by a Retiree Health Care Board of Administration consisting of five trustees: one selected by the City Controller, one by the City Treasurer, one by the Executive Director of the San Francisco Employees' Retirement System, and two elected by the active and retired members of the City's Health Service System. The RHCTF issues a publicly available financial report consisting of financial statements and required supplementary information for the RHCTF in aggregate. The report may be obtained from City Hall, Room 316, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

Funding Policy – The contribution requirements of plan members and the City are based on a pay-as-you-go basis. For the year ended June 30, 2016, the City paid \$158.4 million for postemployment

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
 June 30, 2016
 (Dollars in Thousands)

healthcare benefits on behalf of its retirees and contributed \$10.5 million to the Retiree Health Care Trust Fund.

Annual OPEB Cost and Net OPEB Obligation – The City’s annual other postemployment benefits (OPEB) expense is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost of each year and any unfunded actuarial liabilities (or funding excess) amortized over thirty years. The ARC was determined based on the July 1, 2014 actuarial valuation.

The net OPEB obligations are reflected in the statements of net position of the governmental activities, business-type activities, and fiduciary funds. The following table shows the components of the City’s annual OPEB cost for the year, the amount contributed to the plan, and changes in the City’s net OPEB obligation:

Annual required contribution	\$ 354,540
Interest on Net OPEB obligation	89,557
Adjustment to annual required contribution	<u>(117,964)</u>
Annual OPEB cost	326,133
Contribution made	<u>(168,855)</u>
Increase in net OPEB obligation	157,278
Net OPEB obligation - beginning of year	<u>1,990,156</u>
Net OPEB obligation - end of year	<u><u>\$ 2,147,434</u></u>

The table below shows how the total net OPEB obligation as of June 30, 2016, is distributed.

Governmental activities	\$ 1,202,986
Business-type activities	878,590
Fiduciary funds	<u>65,858</u>
Net OPEB obligation - end of year	<u><u>\$ 2,147,434</u></u>

Eligible fiduciary funds' employees are City employees and thereby eligible for postemployment health benefits. These obligations are reported as other liabilities in the City's fiduciary funds financial statements.

Three-year trend information is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 353,251	47.2%	\$ 1,793,753
6/30/2015	363,643	46.0%	1,990,155
6/30/2016	326,133	51.8%	2,147,434

Funded Status and Funding Progress – The unfunded actuarial accrued liability is being amortized as a level percentage of expected payroll over an open thirty-year period. As of July 1, 2014, the most recent actuarial valuation date, the funded status of the Retiree Health Care Benefits was 1.1%. The actuarial accrued liability for benefits was \$4.26 billion, and the actuarial value of assets was \$49.0 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$4.21 billion. As of July 1, 2014, the estimated covered payroll (annual payroll of active employees covered by the plan) was \$2.62 billion and the ratio of the UAAL to the covered payroll was 160.8%.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation as of July 1, 2014, the entry age normal cost method was used. Under this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percent of expected salary for each year of employment between entry age (age at hire) and assumed exit (maximum retirement age). Unfunded liabilities are amortized using the level percentage of payroll over a rolling 30-year period. The actuarial assumptions included a 4.50% investment rate of return on investment; 3.25% inflation rate; 3.75% payroll growth; and actual medical premiums from 2014 through 2017 and grading down to an ultimate trend rate beginning in 2032 of 4.50%.

The San Francisco Retiree Health Care Trust Fund (RHCTF) was established in December 2010 by the Retiree Health Trust Fund Board of the City. The RHCTF was established to receive employer and employee contributions prescribed by the Charter for the purpose of pre-funding certain postretirement health benefits. Proposition B requires employees hired on or after January 10, 2009 to contribute 2% of pay and the employer to contribute 1% of pay. Between January 10, 2009 and the establishment of the RHCTF, contributions were set aside and deposited into the RHCTF when it was established. Proposition C also requires all employees hired on or before January 9, 2009 to contribute 0.25% of pay to the RHCTF commencing July 1, 2016, increasing annually by 0.25% to a maximum of 1.0% of pay. The employer is required to contribute an equal amount. The RHCTF is currently invested in short-term fixed income securities.

The Charter amendment passed by voters as Proposition A on November 5, 2013 prohibits withdrawals from the RHCTF until sufficient funds are set-aside to pay for all future retiree health care costs as determined by an actuarial study. Limited withdrawals prior to accumulating sufficient funds will be permitted only if annually budgeted retiree health care costs rise above 10% of payroll expenses, and will be limited to no more than 10% of the RHCTF balance. Proposition A allows for revisions to these funding limitations and requirements only upon the recommendation of the Controller and an external actuary and if approved by the RHCTF Board, two-thirds of the Board of Supervisors, and the Mayor.

San Francisco County Transportation Authority

The Transportation Authority maintains a separate single-employer defined benefit OPEB plan and did not have a net OPEB obligation as of June 30, 2016. The Transportation Authority's most recent actuarial valuation was performed as of June 30, 2015, covering the year ended June 30, 2016. The Transportation Authority's OPEB plan is for retiree healthcare benefits and was 57.3% funded and the unfunded actuarial accrued liability was \$0.9 million. As of June 30, 2015, the estimated covered payroll was \$3.9 million and the ratio of the UAAL was 22.2%. Details of the Transportation Authority's OPEB plan may be found in its financial statements for the year ended June 30, 2016. Financial statements

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
 June 30, 2016
 (Dollars in Thousands)

for the Transportation Authority can be obtained from their finance and administrative offices at 1455 Market Street, 22nd Floor, San Francisco, CA 94103 or the Transportation Authority's website.

For the year ended June 30, 2016, the Transportation Authority's annual OPEB expense of \$200.7 was greater than the ARC. Three-year trend information is as follows:

Fiscal Year Ended	Annual OPEB Cost	Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 138.4	100%	\$ -
6/30/2015	138.4	100%	-
6/30/2016	200.7	103%	(5.8)

Successor Agency

Effective February 1, 2012, upon the operation of law to dissolve the former Agency, the Successor Agency assumed the former Agency's postemployment healthcare plan. The Successor Agency sponsors a single-employer defined benefit plan providing other postemployment benefits (OPEB) to employees who retire directly from the former Agency and/or the Successor Agency. The Successor Agency is a contracting agency under the Public Employees' Medical and Hospital Care Act (PEMHCA) healthcare plan, which is administered by CalPERS. The Successor Agency pays monthly retiree medical benefit contributions to PEMHCA. Premiums in excess of the above Successor Agency contributions are paid by the retirees. Benefits provisions are established and may be amended by the Successor Agency.

The Successor Agency participates in the California Employers' Retiree Benefit Trust (CERBT) Fund. CERBT is administered by CalPERS and is an agent multiple-employer trust. Copies of CalPERS' financial report may be obtained from CalPERS website at www.calpers.ca.gov or from CalPERS at 400 Q Street, Sacramento, California 95811.

Funding Policy – The contribution requirements of the plan members and the Successor Agency are established by and may be amended by the Successor Agency. The Successor Agency intends to fund plan benefits through the CERBT by contributing at least 100% of the annual required contribution.

The annual required contribution (ARC) is an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. During the year ended June 30, 2016, the Successor Agency contributed \$1.2 million to this plan.

Annual Other Postemployment Benefit Cost and Net Obligation – The Successor Agency's annual OPEB cost (expense) is calculated based on the ARC of the employer. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. Annual OPEB Cost (AOC) equals the plan's ARC, adjusted for historical differences between the ARC and amounts actually contributed.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

The following table shows the components of the Successor Agency's annual OPEB cost for the year ended June 30, 2016, and the changes in the net OPEB obligation:

Annual required contribution	\$ 813
Interest on Net OPEB obligation	58
Adjustment to annual required contribution	(75)
Annual OPEB cost	796
Contribution made	(1,199)
Decrease in net OPEB obligation	(403)
Net OPEB obligation - beginning of year	833
Net OPEB obligation - end of year	\$ 430

Three-year trend information is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 912	139%	\$ 867
6/30/2015	918	104%	833
6/30/2016	796	151%	430

Funded Status and Funding Progress – The funded status of the plan of the Successor Agency as of July 1, 2015, the plan's most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 10,998
Actuarial value of plan assets	2,833
Unfunded actuarial accrued liability (UAAL)	\$ 8,165
Funded ratio (actuarial value of plan assets/AAL)	25.8%
Covered payroll (active plan members)	\$ 4,261
UAAL as a percentage of covered payroll	191.6%

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefits costs between the employer and plan members to that point.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The ARC for the year ended June 30, 2016 and the funding status of the plan was determined based on the July 1, 2015 actuarial valuation using the entry age normal actuarial cost method. Actuarial assumptions include (a) investment return and discount rate of 7.0%; (b) medical costs trend increases of 4%; (c) inflation rate of 2.75%; (d) payroll growth of 2.75%; and (e) 2014 CalPERS mortality for miscellaneous employees. The Successor Agency's initial and residual UAAL is being amortized as a level dollar amount over closed 30 years and open 22 years, respectively.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

(b) General Fund Stabilization and Other Reserves

Rainy Day Reserve

The City maintains a "Rainy Day" or economic stabilization reserve under Charter Section 9.113.5, with separate accounts for the benefit of the City (the "City Reserve") and the San Francisco Unified School District (the "School Reserve"). In any year when the City projects that total General Fund revenues for the upcoming budget year are going to be more than 5 percent higher than the General Fund revenues for the current year, the City automatically deposits one-half of the "excess revenues" in the Rainy Day Reserve. Seventy-five percent of the deposit is placed in the City Reserve and twenty-five percent is placed in the School Reserve. The total amount of money in the Rainy Day Reserve may not exceed ten percent of the City's actual total General Fund revenues. The City may spend money from the City Reserve for any lawful governmental purpose, but only in years when the City projects that total General Fund revenues for the upcoming year will be less than the current year's total General Fund revenues, i.e., years when the City expects to take in less money than it had taken in for the current year. In those years, the City may spend up to half the money in the City Reserve, but no more than is necessary to bring the City's total available General Fund revenues up to the level of the current year. The School District may withdraw up to half the money in the School Reserve when it expects to collect less money per student than the previous fiscal year and would have to lay off a significant number of employees. The School District's Board can override those limits and withdraw any amount in the School Reserve by a two-thirds vote. The City does not expect to routinely spend money from the Rainy Day Reserve after evaluating its recent General Fund revenues trends and its most recent update to the Five-Year Financial Plan covering fiscal years 2015-16 through 2019-20.

Budget Stabilization Reserve

The City sets aside as an additional reserve 75 percent of (1) real estate transfer taxes in excess of the average collected over the previous five years, (2) proceeds from the sale of land and capital assets, and (3) ending unassigned General Fund balances. The City will be able to spend those funds in years in which revenues decline or grow by less than two percent, after using the amount legally available from the Rainy Day Reserve. The City, by a resolution of the Board of Supervisors adopted by a two-thirds' vote, may temporarily suspend these provisions following a natural disaster that has caused the Mayor or the Governor to declare an emergency, or for any other purpose. The City does not expect to routinely spend money from the Budget Stabilization Reserve after evaluating its recent General Fund revenues trends and its most recent update to the Five-Year Financial Plan covering fiscal years 2015-16 through 2019-20.

Recreation and Parks Expenditure Savings Reserve

The City maintains a Recreation and Parks Expenditure Savings Reserve under Charter Section 16.107, which sets aside and maintains such an amount, together with any interest earned thereon, in the reserve account, and any amount unspent or uncommitted at the end of the fiscal year shall be carried forward to the next fiscal year and, subject to the budgetary and fiscal limitations of the Charter, shall be appropriated then or thereafter for capital and/or facility maintenance improvements to park and recreation facilities and other one-time expenditures of the Park and Recreation Department.

(c) Encumbrances

At June 30, 2016, encumbrances recorded in the General Fund and nonmajor governmental funds were \$191.0 million and \$259.2 million, respectively.

(d) Restricted Net Position

At June 30, 2016, the government-wide statement of net position reported restricted net position of \$1,331.5 million in governmental activities and \$538.5 million in business-type activities, of which \$15.7 million and \$67.6 million are restricted by enabling legislation in governmental activities and business-type activities, respectively.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The City issued general obligation bonds and certificates of participation for the purpose of rebuilding and improving Laguna Honda Hospital. General obligation bonds were also issued for the purpose of reconstructing and improving waterfront parks and facilities on Port property and for the retrofit and improvement work to ensure a reliable water supply (managed by the Water Enterprise) in an emergency or disaster and for certain street improvements managed by the SFMTA. These capital assets are reported in the City's business-type activities. However, the debt service will be paid with governmental revenues and as such these general obligation bonds and certificates of participation are reported with unrestricted net position in the City's governmental activities. In accordance with GASB guidance, the City reclassified \$406.8 million of unrestricted net position of governmental activities, of which \$290.1 million reduced net investment in capital assets and \$116.7 million reduced net position restricted for capital projects to reflect the total column of the primary government as a whole perspective.

(e) Deficit Fund Balances and Net Position

The Environmental Protection Fund, Human Welfare Fund, and Senior Citizens' Program Fund had deficits of \$0.1 million, \$2.0 million, and \$0.3 million, respectively, as of June 30, 2016. The deficits relate to unavailable revenue in various programs which is expected to be collected beyond 60 days of the end of fiscal year 2016.

The Moscone Convention Center Fund had a \$101.4 million deficit as of June 30, 2016. The deficit is primarily related to the issuance of commercial paper for construction and will be covered by refinancing commercial paper as long term debt.

The Central Shops and Telecommunications and Information Internal Service Funds had deficits in total net position of \$10.8 million and \$6.9 million, respectively, as of June 30, 2016 mainly due to the other postemployment benefits liability accrued per GASB Statement No. 45 and the net pension liability and pension-related deferred inflows per GASB Statement No. 68. The operating deficits are expected to be reduced in future years through anticipated rate increases or reductions in the operating expenses. The rates are reviewed and updated annually.

Prior to February 1, 2012, the California Redevelopment Law provided tax increment financing as a source of revenue to redevelopment agencies to fund redevelopment activities. Once a redevelopment area was adopted, the former Agency could only receive tax increment to the extent that it could show on an annual basis that it has incurred indebtedness that must be repaid with tax increment. Due to the nature of the redevelopment financing, the former Agency liabilities exceeded assets. Therefore, the former Agency historically carried a deficit, which was expected to be reduced as future tax increment revenues were received and used to reduce its outstanding long-term debt. This deficit was transferred to the Successor Agency on February 1, 2012. At June 30, 2016, the Successor Agency has a deficit of \$377.0 million, which will be eliminated with future redevelopment property tax revenues distributed from the Redevelopment Property Tax Trust Fund administered by the City's Controller.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

(11) UNAVAILABLE RESOURCES IN GOVERNMENTAL FUNDS

The deferred inflows of resources balance in governmental funds as of June 30, 2016 consists of the following unavailable resources:

	General Fund	Other Governmental Funds	Total Governmental Funds
Grant and subvention revenues.....	\$ 56,709	\$ 59,021	\$ 115,730
Property Tax.....	53,829	12,986	66,815
Teeter Plan.....	36,008	-	36,008
SB 90.....	8,218	-	8,218
Advances to Successor Agency.....	-	14,602	14,602
Franchise tax.....	3,130	-	3,130
Loans.....	6,473	75,328	81,801
Total.....	\$ 164,367	\$ 161,937	\$ 326,304

California Senate Bill 90 (SB90), was adopted in 1972 and added to the State Constitution in 1979. When the Governor or Legislature mandates a new program or higher level of service upon local agencies and school districts, SB90 requires the State to reimburse local agencies and school districts for the cost of these new programs or higher levels of service. The balance in deferred inflows of resources is the value of reimbursement claims submitted to the State which are subject to audit for unallowable costs.

As described in Note 6, under the Teeter Plan the City is allocated secured property tax revenue which has been billed but not collected. Collections which have not occurred within the availability period are included in deferred inflows of resources in the General Fund.

(12) SAN FRANCISCO COUNTY TRANSPORTATION AUTHORITY

The Transportation Authority was created in 1989 by a vote of the San Francisco electorate. The vote approved Proposition B, which imposed a sales tax of one-half of one percent (0.5%), for a period not to exceed 20 years, to fund essential transportation projects. The types of projects to be funded with the proceeds from the sales tax were set forth in the San Francisco County Transportation Expenditure Plan (Plan), which was approved as part of Proposition B. The Transportation Authority was organized pursuant to Sections 131000 et seq. of the Public Utilities Code. Collection of the voter-approved sales tax began on April 1, 1990. The Transportation Authority administers the following programs:

Sales Tax Program. On November 4, 2003, the San Francisco voters approved Proposition K with a 74.7% affirmative vote, amending the City Business and Tax Code to extend the county-wide one-half of one percent sales tax, and to replace the 1989 Proposition B Plan with a new 30-year Expenditure Plan. The new Expenditure Plan includes investments in four major categories: 1) Transit; 2) Streets and Traffic Safety (including street resurfacing, and bicycle and pedestrian improvements); 3) Paratransit services for seniors and disabled people; and 4) Transportation System Management/Strategic Initiatives (including funds for neighborhood parking management, transportation/land use coordination, and travel demand management efforts). Major capital projects to be funded by the Proposition K Expenditure Plan include: A) development of the Bus Rapid Transit and Muni Metro Network; B) construction of the Muni Central Subway (Third Street Light Rail Project—Phase 2); C) construction of the Caltrain Downtown Extension to a rebuilt Transbay Terminal; and D) South Approach to the Golden Gate Bridge: Doyle Drive Replacement Project (re-envisioned as the Presidio Parkway). Pursuant to the provisions of Division 12.5 of the California Public Utilities Code, the Transportation Authority Board may adopt an updated Expenditure Plan any time after 20 years from the effective date of adoption of the Proposition K Expenditure Plan but no later than the last general election in which the Proposition K Expenditure Plan is in effect. The Sales Tax would continue as long as a new or modified plan is in effect. Under Proposition K legislation, the Transportation Authority

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

directs the use of the Sales Tax and may spend up to \$485.2 million per year and may issue up to \$1.88 billion in bonds secured by the Sales Tax.

Congestion Management Agency Programs. On November 6, 1990, the Transportation Authority was designated under State law as the Congestion Management Agency (CMA) for the City. Responsibilities resulting from this designation include developing a Congestion Management Program, which provides evidence of the integration of land use, transportation programming and air quality goals; preparing a long-range countywide transportation plan to guide the City's future transportation investment decisions; monitoring and measuring traffic congestion levels in the City; measuring the performance of all modes of transportation; and developing a computerized travel demand forecasting model and supporting databases. As the CMA, the Transportation Authority is responsible for establishing the City's priorities for state and federal transportation funds and works with the Metropolitan Transportation Commission to program those funds to San Francisco projects.

Transportation Fund for Clean Air (TFCA) Program. On June 15, 2002, the Transportation Authority was designated to act as the overall program manager for the local guarantee (40%) share of transportation funds available through the TFCA program. Funds from this program, administered by the Bay Area Air Quality Management District come from a \$4 vehicle registration fee on automobiles registered in the Bay Area. Through this program, the Transportation Authority recommends projects that benefit air quality by reducing motor vehicle emissions.

Proposition AA Administrator of County Vehicle Registration Fee Program. On November 2, 2010, San Francisco voters approved Proposition AA with a 59.6% affirmative vote, authorizing the Transportation Authority to collect an additional \$10 annual vehicle registration fee on motor vehicles registered in San Francisco and to use the proceeds to fund transportation projects identified in the Expenditure Plan. Revenue collection began in May 2011. Proposition AA revenues must be used to fund projects from the following three programmatic categories. The percentage allocation of revenues designated for each category over the 30-year Expenditure Plan period is shown in parenthesis for the following category name: 1) Street Repair and Reconstruction (50%); 2) Pedestrian Safety (25%); and 3) Transit Reliability & Mobility Improvements (25%). In December 2012, the Transportation Authority Board approved the first Proposition AA Strategic Plan, including the specific projects that could be funded within the first five years (i.e., Fiscal Years 2012-13 to 2016-17). The Proposition AA program is a pay-as-you-go program.

Treasure Island Mobility Management Authority (TIMMA). The Treasure Island Transportation Management Act of 2008 (AB 981) authorizes the creation or designation of a Treasure Island-specific transportation management agency. On April 1, 2014, the City's Board of Supervisors approved a resolution designating the Transportation Authority as the TIMMA to implement the Treasure Island Transportation Implementation Plan in support of the Treasure Island/Yerba Buena Island Development Project. In September 2014, Governor Brown signed Assembly Bill 141, establishing TIMMA as a legal entity distinct from the Transportation Authority to help firewall the Transportation Authority's other functions. The eleven members of the Transportation Authority Board act as the Board of Commissioners for TIMMA. The Transportation Authority financial statements include TIMMA as a blended special revenue component unit.

Loan Agreement with Treasure Island Development Authority. In July 2008, the Transportation Authority entered into a loan agreement with the Treasure Island Development Authority (TIDA) for the repayment of project management oversight, engineering and environmental costs for the Yerba Buena Island (YBI) Ramps Improvement Project.

(13) DETAILED INFORMATION FOR ENTERPRISE FUNDS

(a) San Francisco International Airport

San Francisco International Airport (the Airport), which is owned and operated by the City, is the principal commercial service airport for the San Francisco Bay Area. A five-member Commission is responsible for the operation and management of the Airport. The Airport is located 14 miles south of downtown San Francisco in an unincorporated area of San Mateo County, between the Bayshore Freeway (U.S. Highway 101) and the San Francisco Bay. According to the 2015 North American Traffic Report from the Airports Council International (ACI), the Airport is the seventh busiest airport in the United States in terms of passengers and sixteenth in terms of cargo. The Airport is also a major origin and destination point and one of the nation's principal gateways for Pacific traffic.

Revenue Pledge – The Airport has pledged all of the Net Revenues (as defined in the bond resolutions) to repay the following obligations, in order of priority, (1) the San Francisco International Airport Second Series Revenue Bonds (Senior Bonds), (2) the Subordinate Commercial Paper Notes and any other obligations (Subordinate Bonds) and amounts due to reimburse drawings under the letters of credit securing the Commercial Paper Notes, (3) remaining amounts due to reimburse drawings under the letters of credit securing the Senior Bonds, and (4) interest rate swap termination payments.

During fiscal year 2016, the original principal amount of the Senior Bonds and Commercial Paper Notes issued, principal and interest remaining due on outstanding Senior Bonds and Commercial Paper Notes, principal and interest paid on such obligations, and applicable Net Revenues are as set forth in the table below. There are no unreimbursed drawings under any letter of credit or interest rate swap termination payments due.

Bonds issued with revenue pledge	\$ 232,075
Bond principal and interest remaining due at end of the fiscal year	6,705,026
Commercial paper issued with subordinate revenue pledge	304,100
Commercial paper principal and interest remaining due at end of the fiscal year ...	343,050
Net revenues	473,086
Bond principal and interest paid in the fiscal year	416,610
Commercial paper principal and interest paid in the fiscal year	3,900

Debt Service Requirement – Under the terms of the 1991 Master Bond Resolution, for a Series of Second Series Revenue Bonds to be secured by the Airport's parity common account (the Issue 1 Reserve Account), the Airport is required to deposit, with the trustee, an amount equal to the maximum debt service accruing in any year during the life of all Second Series Revenue Bonds secured by the Issue 1 Reserve Account or substitute a credit facility meeting those requirements. Alternatively, the Airport may establish a separate reserve account with a different reserve requirement to secure an individual series of bonds. While revenue bonds are outstanding, the Airport may not create liens on its property essential to operations, may not dispose of any property essential to maintaining revenues or operating the Airport, and must maintain specified insurance.

Under the terms of the 1991 Master Bond Resolution, the Airport has covenanted that it will establish and at all times maintain rentals, rates, fees, and charges for the use of the Airport and for services rendered by the Airport so that:

- (a) Net revenues in each fiscal year will be at least sufficient (i) to make all required debt service payments and deposits in such fiscal year with respect to the bonds, any subordinate bonds, and any general obligation bonds issued by the City for the benefit of the Airport and (ii) to make the annual service payment to the City, and
- (b) Net revenues, together with any transfer from the Contingency Account to the Revenue Account (both held by the City Treasurer), in each fiscal year will be at least equal to 125% of aggregate annual debt service with respect to the bonds for such fiscal year.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The methods required by the 1991 Master Bond Resolution for calculating debt service coverage differs from GAAP used to determine amounts reported in the Airport's financial statements.

Passenger Facility Charges – The Airport, as authorized by the Federal Aviation Administration (FAA) pursuant to the Aviation Safety and Capacity Expansion Act of 1990 (the Act), as amended, imposes a Passenger Facility Charge (PFC) of \$4.50 for each enplaning passenger at the Airport. Under the Act, air carriers are responsible for the collection of PFC charges and are required to remit PFC revenues to the Airport in the following month after they are recorded by the air carrier. As of June 30, 2016, the FAA has approved several Airport applications to collect and use passenger facility charges (from PFC #2 to PFC #6) in a total cumulative amount of \$1.7 billion, with a final charge expiration date estimated to be March 1, 2026. The Airport is working with the FAA to change the expiration date for PFC #3 and the charge effective date for PFC #5 from January 1, 2017 to November 1, 2013, because PFC #3 was fully collected earlier than originally anticipated due to increased passenger levels. For the year ended June 30, 2016, the Airport reported approximately \$99.1 million of PFC revenue, which is included in other nonoperating revenues in the accompanying basic financial statements.

Commitments and Contingencies – In addition to the long-term obligations discussed in Note 8, there were \$73.2 million of Special Facilities Lease Revenue Bonds outstanding as of June 30, 2016, which financed improvements to the Airport's aviation fuel storage and delivery system that is leased to SFO Fuel Company LLC (SFO Fuel). SFO Fuel agreed to pay facilities rent to the Airport in an amount equal to debt service payments and required bond reserve account deposits on the bonds. The principal and interest on the bonds will be paid solely from the facilities rent payable by SFO Fuel to the Airport. The Airport assigned its right to receive the facilities rent to the bond trustee to pay and secure the payment of the bonds. Neither the Airport nor the City is obligated in any manner for the repayment of these obligations, and as such, they are not reported in the accompanying financial statements. Rent from Fuel System Lease with SFO Fuel is pledged until the maturity of the SFO Fuel bonds on January 1, 2027, unless additional bonds (including refunding bonds) with a later maturity are issued.

Purchase commitments for construction, material and services as of June 30, 2016 are as follows:

Construction	\$	75,769
Operating		<u>15,810</u>
Total.....	\$	<u>91,579</u>

Transactions with Other Funds – Pursuant to the Lease and Use Agreement between the Airport and most of the airlines operating at the Airport, the Airport makes an annual service payment, to the City's General Fund, equal to 15% of concession revenue (net of certain adjustments), but not less than \$5.0 million per fiscal year, in order to compensate the City for all indirect services provided to the Airport. The annual service payment for the year ended June 30, 2016 was \$42.5 million and was recorded as a transfer. In addition, the Airport compensates the City's General Fund for the cost of certain direct services provided by the City to the Airport, including those provided by the Police Department, the Fire Department, the City Attorney, the City Treasurer, the City Controller, the City Purchasing Agent and other City departments. The cost of direct services paid for by the Airport for the year ended June 30, 2016 was \$140.7 million.

Business Concentrations - In addition to the Lease and Use Agreements with the airlines, the Airport leases facilities to other businesses to operate concessions at the Airport. For the fiscal year ended June 30, 2016, revenues realized from the following Airport tenant exceeded five percent of the Airport's total operating revenues:

United Airlines	23.5%
-----------------------	-------

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

(b) Port of San Francisco

A five-member Port Commission is responsible for the operation, development, and maintenance activities of the Port of San Francisco (Port). In February 1969, the Port was transferred in trust to the City under the terms and conditions of State legislation ("Burton Act") ratified by the electorate of the City. Prior to 1969, the Port was operated by the State of California. The State retains the right to amend, modify or revoke the transfer of lands in trust provided that it assumes all lawful obligations related to such lands.

Pledged Revenues – The Port's revenues, derived primarily from property rentals to commercial and industrial enterprises and from maritime operations, which include cargo, ship repair, fishing, harbor services, cruise and other maritime activities, are held in a separate enterprise fund and appropriated for expenditure pursuant to the budget and fiscal provisions of the City Charter, consistent with trust requirements. Under public trust doctrine, the Burton Act, and the transfer agreement between the City and the State, Port revenues may be spent only for uses and purposes of the public trust.

The Port pledged future net revenues to repay its revenue bonds. Annual principal and interest payments through 2044 are expected to require less than 13% of net pledged revenues as calculated in accordance with the bond indenture. The total principal and interest remaining to be paid on the bonds is \$95.6 million. The principal and interest payments made in 2016 were \$4.2 million and pledged revenues (total net revenues calculated in accordance with the bond indenture) for the year ended June 30, 2016 were \$33.3 million.

The Port has entered into a loan agreement with the California Department of Boating and Waterways for \$3.5 million to finance certain Hyde Street Harbor improvements. The loan is subordinate to all bonds payable by the Port and is secured by gross revenues as defined in the loan agreement. Total principal and interest remaining to be paid on this loan is \$3.0 million. Annual principal and interest payments were \$0.23 million in 2016 and pledged harbor revenues were \$0.14 million for the year ended June 30, 2016.

Commitments and Contingencies – The Port is presently planning various development and capital projects that involve a commitment to expend significant funds. As of June 30, 2016, the Port had purchase commitments for construction-related services, materials and supplies, and other services were \$15.1 million for capital projects and \$2.6 million for general operations.

Under an agreement with the San Francisco Bay Conservation and Development Commission (BCDC), the Port is committed to fund and expend up to \$30.0 million over a 20-year period for pier removal, parks and plazas, and other public access improvements. As of June 30, 2016, \$47.2 million of Port funds have been appropriated and \$46.6 million expended for projects under the agreement. In addition to work directly funded by the Port, the deck and pilings that form the valley between Piers 15 and 17 and a portion on non-historic sheds were removed as part of the construction work completed by The Exploratorium project.

Transactions with Other Funds – The Port receives from, and provides services to, various City departments. In 2016, the \$19.1 million in services provided by other City departments included \$2.9 million of insurance premiums and \$0.5 million in workers' compensation expense.

Pursuant to a memorandum of understanding dated August 31, 2015, a jurisdiction transfer from the Port to the San Francisco Real Estate Division of property commonly known as Daggett Street was completed to facilitate an open space improvement in connection with an adjacent residential development project. In fiscal year 2016 and in connection with all secured approvals, the Port received a transfer fee of \$1,675,000.

General Obligation Bonds for Parks – The San Francisco Clean and Safe Neighborhood Parks Bond general obligation bond issued in 2012 included \$34.5 million and in 2008 \$33.5 million for funding

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

allocated for parks and open space projects on Port property. In February 2016, the Port received \$13.2 million of proceeds from the 2012 bond and \$8.5 million from the 2008 bond for waterfront projects. Certain of these projects are in progress at June 30, 2016.

South Beach Harbor Project Obligations – A portion of the Rincon Point South Beach Redevelopment Project Area is within the Port Area and the former Redevelopment Agency held leasehold interests to certain Port properties. In 2015, the Port and the Office of Community Investment and Infrastructure, Successor Agency to the Redevelopment Agency, completed discussions concerning the transition, termination of Port agreements, and the transfer of operations, assets, and certain associated obligations. The resultant memorandum of agreement has received essential approvals and is in executory status, pending the completion of several closing conditions.

South Beach Harbor revenues are pledged to a 1986 revenue bond issue that pre-dates the Port's 2010 Revenue Bonds. South Beach Harbor project funds, including certain tax increments, are available to pay current debt service. Under BCDC Permit Amendment No. 17 for the South Beach Harbor Project, certain public access and other improvements must be completed by December 31, 2017. Construction estimates prepared by a Port consultant in 2014 indicate that this uncompleted work would cost approximately \$7.9 million, including certain structural repairs, soft costs and recommended contingencies.

Pollution Remediation Obligations – The Port's financial statements include liabilities, established and adjusted periodically, based on new information, in accordance with applicable GAAP, for the estimated costs of compliance with environmental laws and regulations and remediation of known contamination. As future development planning is undertaken, the Port evaluates its overall provisions for environmental liabilities in conjunction with the nature of future activities contemplated for each site and accrues a liability, if necessary. It is, therefore, reasonably possible that in future reporting periods current estimates of environmental liabilities could materially change.

Port lands are subject to environmental risk elements typical of sites with a mix of light industrial activities dominated by transportation, transportation-related and warehousing activities. Due to the historical placement of fill of varying quality, and widespread use of aboveground and underground tanks and pipelines containing and transporting fuel, elevated levels of petroleum hydrocarbons and lead are commonly found on Port properties. Consequently, any significant construction, excavation or other activity that disturbs soil or fill material may encounter hazardous materials and/or generate hazardous waste.

A 65-acre area commonly known as "Pier 70" has been used for over 150 years for iron and steel works, ship building and repair, and other heavy industrial operations. Much of the site was owned and/or occupied by the U.S. Navy or its contractors for at least 60 years. A long history of heavy industrial use has turned this area into a "brownfield" – an underutilized property area where reuse is hindered by actual or suspected contamination. Fifteen acres remain occupied by an on-going ship repair facility. Environmental conditions exist that require investigation and remediation prior to any rehabilitation or development for adaptive reuse. The lack of adequate information about environmental conditions has hindered previous development proposals for Pier 70.

Investigation work completed in 2011 reduced the uncertainty regarding the nature and extent of contamination, potential need for remediation, and costs associated with implementation of a risk management plan. The Regional Water Quality Control Board approved the Risk Management Plan in January 2014. The Risk Management Plan provides institutional controls (e.g. use restrictions, health and safety plans) and engineering controls (e.g. capping contaminated soil) to protect current and future users and prevent adverse impact to the environment. The Risk Management Plan specifies how future development, operation, and maintenance will implement the remedy, by covering existing site soil with buildings, streets, plazas, hardscape or new landscaping, thereby minimizing or eliminating exposure to contaminants in soil.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Previous investigation of the northeast shoreline of Pier 70, in an area for development as the future "Crane Cove Park", found that near-shore sediment is contaminated with metals, petroleum hydrocarbons and polychlorinated biphenyls at concentrations that pose a potential risk to human health or the environment, and will likely require removal or capping of sediment before development of the area for public access and recreation. The accrued cost for pollution remediation at Pier 70, including Crane Cove Park, is estimated at \$11.0 million at June 30, 2016.

Other environmental conditions on Port property include asbestos and lead paint removal and oil contamination. The Port may be required to perform certain clean-up work if it intends to develop or lease such property, or at such time as may be required by the City or State.

A summary of environmental liabilities, included in noncurrent liabilities, at June 30 2016, is as follows:

	Environmental Remediation	Monitoring and Compliance	Total
Environmental liabilities at July 1, 2015	\$ 10,703	\$ 71	\$ 10,774
Current year claims and changes in estimates	266	1	267
Vendor payments	-	(12)	(12)
Environmental liabilities at June 30, 2016	<u>\$ 10,969</u>	<u>\$ 60</u>	<u>\$ 11,029</u>

(c) San Francisco Water Enterprise

The San Francisco Water Enterprise (Water Enterprise) was established in 1930. The Water Enterprise, which consists of a system of reservoirs, storage tanks, water treatment plants, pump stations, and pipelines, is engaged in the collection, transmission and distribution of water to the City and certain suburban areas. In fiscal year 2016, the Water Enterprise sold water, approximately 62,501 million gallons annually, to a total population of approximately 2.6 million people who reside primarily in four Bay Area counties (San Francisco, San Mateo, Santa Clara and Alameda).

The San Francisco Public Utilities Commission (Commission), established in 1932, provides the operational oversight for the Water Enterprise, Hetch Hetchy Water and Power (Hetch Hetchy), and the San Francisco Wastewater Enterprise. Under Proposition E, the City's Charter Amendment approved by the voters in June 2008, the Mayor nominates candidates subject to qualification requirements to the Commission and the Board of Supervisors votes to approve the nominees by a majority (at least six members).

Pledged Revenues – The Water Enterprise has pledged future revenues to repay various bonds. Proceeds from the revenue bonds provided financing for various capital construction projects and to refund previously issued bonds. These bonds are payable solely from revenues of the Water Enterprise and are payable through fiscal year 2051.

The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid during 2016 and applicable revenues for 2016 are as follows:

Bonds issued with revenue pledge	\$ 4,288,095
Bond principal and interest remaining due at end of the fiscal year	7,599,211
Net revenues	229,160*
Bond principal and interest paid in the fiscal year	219,195
Funds available for revenue debt service	391,893

*Net revenues included appropriated available funds.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

During fiscal year 2016, the wholesale revenue requirement, net of adjustments, charged to wholesale customers was \$209.1 million. Such amounts are subject to final review by wholesale customers, along with a trailing wholesale balancing account compliance audit of the wholesale revenue requirement calculation. As of June 30, 2016, the City owed the Wholesale Customers \$21.5 million under the Water Supply Agreement.

Commitments and Contingencies – As of June 30, 2016, the Water Enterprise had outstanding commitments with third parties of \$283.3 million for various capital projects and for materials and supplies.

Environmental Issue – As of June 30, 2016, the total pollution remediation liability was \$3.0 million, consisting of \$1.7 million for the excavation of contaminated soil that contained polycyclic aromatic hydrocarbons from a gun club site in the Lake Merced area, \$1.2 million for the 17th and Folsom site and \$0.1 million for the Pulgas Dechloramination Facility and the Harry Tracy Water Treatment Plant.

Transactions with Other Funds – The Water Enterprise purchases water from Hetch Hetchy Water and electricity from Hetch Hetchy Power at market rates. These amounts, totaling approximately \$36.6 million and \$8.3 million, respectively, for the year ended June 30, 2016, are included in the operating expenses for services provided by other departments in the Water Enterprise's financial statements.

A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, and human resources to the Water Enterprise and charge amounts designed to recover those departments' costs. These charges total approximately \$16.0 million for the year ended June 30, 2016 and have been included in services provided by other departments.

(d) Hetch Hetchy Water and Power Enterprise

San Francisco Hetch Hetchy Water and Power was established as a result of the Raker Act of 1913, which granted water and power resources rights-of-way on the Tuolumne River in Yosemite National Park and Stanislaus National Forest to the City. Hetch Hetchy is a stand-alone enterprise comprised of two funds, Hetch Hetchy Power and Hetch Hetchy Water, a portion of the Water Enterprise's operations, specifically the up-country water supply and transmission service for the latter. Hetch Hetchy accounts for the activities of Hetch Hetchy Water and Power and is engaged in the collection and conveyance of approximately 85% of the City's water supply and in the generation and transmission of electricity from that resource, as well as the City Power services including energy efficiency and renewables. The CleanPowerSF, launched in May 2016, provides green electricity from renewable sources to residential and commercial customers in San Francisco and is reported as part of Hetch Hetchy Power.

Approximately 70% of the electricity generated by Hetch Hetchy Power is used to provide electric service to the City's municipal customers (including the San Francisco Municipal Transportation Agency, Recreation and Parks Department, the Port of San Francisco, the San Francisco International Airport and its tenants, San Francisco General Hospital, street lights, Moscone Convention Center, and the Water and Wastewater Enterprises). The majority of the remaining 30% balance of electricity is sold to other utility districts, such as the Turlock and Modesto Irrigation Districts (the Districts). As a result of the 1913 Raker Act, energy produced above the City's Municipal Load is sold first to the Districts to cover their pumping and municipal load needs and any remaining energy is either sold to other municipalities and/or government agencies (not for resale) or sold into the California Independent System Operator (CAISO). Hetch Hetchy operation is an integrated system of reservoirs, hydroelectric power plants, aqueducts, pipelines, and transmission lines.

Hetch Hetchy also purchases wholesale electric power from various energy providers that are used in conjunction with owned hydro resources to meet the power requirements of its customers. Operations and business decisions can be greatly influenced by market conditions, State and Federal power matters before the California Public Utilities Commission (CPUC), the CAISO, and the Federal Energy

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Regulatory Commission (FERC). Therefore, Hetch Hetchy serves as the City's representative at CPUC, CAISO, and FERC forums and continues to monitor regulatory proceedings.

Segment Information – Hetch Hetchy Power issued debt to finance its improvements. Both the Hetch Hetchy Water fund and the Hetch Hetchy Power fund are reported for in a single enterprise (i.e., Hetch Hetchy Water and Power Enterprise). CleanPowerSF is presented as part of Hetch Hetchy Power. However, investors in the debt rely solely on the revenue generated by the individual activities for repayment. Summary financial information for Hetch Hetchy is presented below:

Pledged Revenues – Hetch Hetchy Power has pledged future power revenues to repay the 2008 Clean Renewable Energy Bonds (CREBs), the 2011 Qualified Energy Conservation Bonds (QECBs), the 2012 New Clean Renewable Energy Bonds (NCREBs), and the 2015 NCREBs. Additionally, Hetch Hetchy Power has pledged future power revenues for 2015 Series AB power revenue bonds. Proceeds from the bonds provided financing for various capital construction and facility energy efficiency projects. The Series 2015 AB power revenue bonds are payable through fiscal year 2046 and are solely payable from net revenues of Hetch Hetchy Power on a senior lien basis to the 2008 CREBs, the 2011 QECBs, the 2012 NCREBs, and the 2015 NCREBs.

The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid, during 2016, and applicable revenues for 2016 are as follows:

Hetch Hetchy Power (excluding CleanPowerSF)	
Bonds issued with revenue pledge	\$ 64,871
Bond principal and interest remaining due at end of the fiscal year	95,688
Net revenues.....	19,070
Bond principal and interest paid in the fiscal year	2,014
Funds available for revenue debt service	33,044

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Commitments and Contingencies – As of June 30, 2016, Hetch Hetchy Water and Power had outstanding commitments with third parties of \$63.6 million for various capital projects and other purchase agreements for materials and services.

Hetch Hetchy Water

To meet certain requirements of the Don Pedro Reservoir operating license, the City entered into an agreement with the Modesto Irrigation District (MID) and Turlock Irrigation District (TID) in which they would be responsible for an increase in water flow releases from the reservoir in exchange for annual payments from the City. Total payments were \$4.7 million in fiscal year 2016. The payments are to be made for the duration of the license, but may be terminated with one year's prior written notice after 2001. The City and the Districts have also agreed to monitor the fisheries, in the lower Tuolumne River, for the duration of the license. A maximum monitoring expense of \$1.4 million is to be shared between the City and the Districts over the term of the license. The City's share of the monitoring costs is 52% and the Districts are responsible for 48% of the costs.

Hetch Hetchy Power

In April 1988, Hetch Hetchy Power entered into two separate long-term power sales agreements (the Agreement) with the two irrigation districts, the MID and TID, which expired June 30, 2015. In April 2015, the Commission and the Board of Supervisors approved the extension of both agreements for one year to June 30, 2016. A second extension agreement has been subsequently approved to continue the current terms and conditions for MID through June 30, 2017. The second extension agreement for TID proposes to remove the district's rights to excess energy from the project and terminate those conditions with the first extension agreement on June 30, 2016. The Commission will continue to comply with the Raker Act by making Hetch Hetchy generated hydropower available at cost to MID and TID for their agricultural pumping and municipal loads as energy from the Hetch Hetchy project is available after meeting the Commission's municipal load obligations.

For fiscal year 2016, energy sales to the Districts totaled 377,981 Megawatt hours (MWh) or \$13.7 million.

In 1987, the City entered into an interconnection agreement with PG&E to provide transmission, distribution, and other support services for the City's use of PG&E's transmission and distribution system to deliver power to the City's customers. The renegotiated agreement in 2007 expired on July 1, 2015. In December 2014, PG&E filed several separate replacement service and facilities agreements with the FERC for its approval. By FERC order, the City is currently taking transmission service on PG&E's transmission system using the CAISO Open-Access Transmission Tariff and is taking distribution service under PG&E's Wholesale Distribution Tariff pursuant to PG&E's replacement agreements, but subject to waiver of certain terms and conditions and subject to refund by PG&E, pending the FERC's final decision. During fiscal year 2016, Hetch Hetchy Power purchased \$4.9 million of transmission, distribution services, and other support services from PG&E under the terms of the replacement agreements and the 1987 Interconnection Agreement.

The Interconnection Agreement with PG&E also contains a contractual provision allowing Hetch Hetchy to bank Hetch Hetchy Power produced in excess of its load obligations, with a maximum of 110,000 MWh. At June 30, 2016, the balance in the bank was zero MWh, or \$0. The banking provisions expired with the expiration of the Interconnection Agreement and have not been replaced; power produced in excess of the City's load obligations is sold to third parties eligible to purchase such power under the Raker Act.

In January 2016, Hetch Hetchy Power entered into an Irrevocable Direct-Pay Letter of Credit with J.P. Morgan Chase in an aggregate amount of \$17.0 million. The Letter of Credit guarantees payment of any termination payment obligations of CleanPowerSF pursuant to the aforementioned Power Purchase Agreements. The Letter of Credit is secured by Hetch Hetchy Power revenue at the 11th lien level under the Hetch Hetchy Power Indenture.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Hetch Hetchy is exposed to risks that could negatively impact its ability to generate net revenues to fund operating and capital investment activities. Hydroelectric generation facilities in the Sierra Nevada are the primary source of electricity for Hetch Hetchy. For this reason, the financial results of Hetch Hetchy are sensitive to variability in watershed hydrology and market prices for energy.

CleanPowerSF

CleanPowerSF launched in May 2016 and entered into contracts with Calpine Energy Services L.P. (Calpine) and Shiloh I Wind Project LLC (Shiloh) to purchase renewable and conventional energy and resource adequacy capacity to meet its retail sales obligations. Both contracts feature 10-year master agreements under which multiple transactions may be executed. CleanPowerSF has executed two multi-year transactions with Calpine (three-year term) and Shiloh (five-year term). The Calpine transaction requires a reserve balance equivalent to two months' worth of estimated payment obligations. At June 30, 2016, total electricity purchased from Calpine and Shiloh was \$1.6 million.

CleanPowerSF entered into contract with Noble Americas in November 2015 for a three-year term, not to exceed \$5.6 million to provide administrative and customer care services related to electricity data management, billing, call center and related services. During fiscal year 2016, amount paid was \$0.024 million and included in Hetchy Power's start-up costs for CleanPowerSF.

Transactions with Other Funds – The Water Enterprise purchases water from Hetch Hetchy Water and power from Hetch Hetchy Power. Included in the operating revenues are the water assessment fees totaling \$36.6 million and purchased electricity for \$8.3 million for the year ended June 30, 2016. In addition, the Wastewater Enterprise purchases power from Hetch Hetchy Power totaling \$9.9 million for the year ended June 30, 2016. Included in 2016 operating revenues are sales of power to departments within the City of \$84.3 million.

A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, and human resources to Hetch Hetchy Water and Power and charge amounts designed to recover those departments' costs. These charges total approximately \$9.5 million for the year ended June 30, 2016 and have been included in services provided by other departments.

(e) San Francisco Municipal Transportation Agency

The San Francisco Municipal Transportation Agency (SFMTA) is governed by the SFMTA Board of Directors who are appointed by the Mayor and Board of Supervisors. The SFMTA financial statements include the entire San Francisco's (the City's) surface transportation network that encompasses pedestrians, bicycling, transit (Muni), traffic and off and on street parking, regulation of the taxi industry, and three nonprofit parking garage corporations operated by separate nonprofit corporations, whose operations are interrelated. All significant inter-entity transactions have been eliminated.

The SFMTA was established by voter approval of the addition of Article VIII A to the Charter of the City (the "Charter") in 1999 (Proposition E). The purpose of the Charter amendment was to consolidate all surface transportation functions within a single City department, and to provide the Transportation System with the resources, independence and focus necessary to improve transit service and the City's transportation system. The voters approved additional Charter amendments: (1) in 2007 (Proposition A), which increased the autonomy of and revenues to the SFMTA; (2) in 2010 (Proposition G), which increased management flexibility related to labor contracts; (3) in 2014 (Proposition A), which approved \$500 million in General Obligation Bonds for transportation and street infrastructure, and (4) in 2014 (Proposition B), which increases General Fund allocation to SFMTA based on the City's population increase.

Muni is one of America's oldest public transit agencies, the largest in the Bay Area and seventh largest system in the United States. It currently carries more than 222 million boardings annually. Operating

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
 June 30, 2016
 (Dollars in Thousands)

historic streetcars, modern light rail vehicles, diesel buses, alternative fuel vehicles, electric trolley coaches, and the world famous cable cars, Muni's fleet is among the most diverse in the world.

The SFMTA's Sustainable Streets initiates and coordinates improvements to City's streets, transit, bicycles, pedestrians, and parking infrastructure. It manages 19 City-owned garages and 19 metered parking lots. In March 2009, the former Taxi Commission was merged with the SFMTA, which then has assumed responsibility for taxi regulation to advance industry reforms.

Three nonprofit corporations provide operational oversight to four parking garages: Japan Center, Sutter-Stockton, Union Square, and Portsmouth. Of these four parking garages, Union Square and Portsmouth are owned by the City's Recreation and Park Department but managed by the SFMTA. The activities of these parking garages are accounted for in SFMTA's parking garage accounts.

Pledged Revenue – In 2007, San Francisco voters approved Proposition A, which authorized the SFMTA to issue revenue bonds and other forms of indebtedness without further voter approval but with approval by the SFMTA Board of Directors and concurrence by the Board of Supervisors. The SFMTA has pledged future revenues to repay various bonds. Proceeds from the revenue bonds provided financing for various capital construction projects and to refund previously issued bonds. These bonds are payable from all SFMTA revenues except for City General Fund allocations and restricted sources and are payable through the fiscal year 2044.

Annual principal and interest payments for fiscal year 2016 were 29.5% of funds available for revenue bond debt service. The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid during 2016 and applicable revenues are as follows:

Bonds issued with revenue pledge	\$ 209,840
Bond principal and interest remaining due at end of the fiscal year	311,365
Net revenues	39,405
Bond principal and interest paid in the fiscal year	16,495
Funds available for revenue debt service	55,900

Operating and Capital Grants and Subsidies – The City's Annual Appropriation Ordinance provides funds to subsidize the operating deficits of SFMTA and Sustainable Streets as determined by the City's budgetary accounting procedures and subject to the appropriation process. The amount of General Fund subsidy to the SFMTA was \$381.3 million in fiscal year 2016. The General Fund subsidy includes a total revenue baseline transfer of \$284.7 million, as required by the City Charter, \$68.9 million from an allocation of the City's parking tax. Proposition B, approved by the voters in November 2014, provides additional City General Funds to address transportation needs tied to the City population growth. In fiscal year 2016, SFMTA received \$27.7 million from this source.

The SFMTA receives capital grants from various federal, state, and local agencies to finance transit-related property and equipment purchases. As of June 30, 2016, the SFMTA had approved capital grants with unused balances amounting to \$906.4 million. Capital grants receivable as of June 30, 2016 totaled \$136.1 million.

The SFMTA also receives operating assistance from various federal, state, and local sources, including Transit Development Act funds, diesel fuel, and sales tax allocations. As of June 30, 2016, the SFMTA had various operating grants receivable of \$30.7 million. In fiscal year 2016, the SFMTA's operating assistance from BART's Americans with Disability Act (ADA) related support of \$1.6 million, and other federal, state, and local grants of \$8.5 million, to fund project expenses that are operating in nature.

Proposition 1B is a ten-year \$20 billion transportation infrastructure bond that was approved by state voters in November 2006. The bond measure was composed of several funding programs including the Public Transportation Modernization, Improvement and Service Enhancement Account program

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

(PTMISEA) and the Transit Security & Safety Account that are funding solely for public transit projects. The SFMTA received cash totaling \$12.6 million in fiscal year 2016 for different projects. Proposition 1B funds do not require matching funds. The original legislation required funds to be obligated within three years of the date awarded. SB87 extended the date to June 30, 2016 for funds awarded between fiscal years 2008 and 2010. The Budget Act of 2013 further extended the date to June 30, 2018. The eligibility requirements for the PTMISEA program include rehabilitation of infrastructure, procurement of equipment and rolling stock, and investment in expansion projects. During fiscal year 2016, \$69.7 million in drawdowns were made from the funds for various eligible projects costs.

Commitments and Contingencies – The SFMTA has outstanding contract commitments of approximately \$567.2 million with third parties, for various capital projects. Grant funding is available for a majority of this amount. The SFMTA also has outstanding commitments of approximately \$53.1 million with third parties for non-capital expenditures. Various local funding sources are used to finance these expenditures. The SFMTA is also committed to numerous capital projects for which it anticipates that federal and state grants will be the primary source of funding.

Leveraged Lease-Leaseback of BREDA Vehicles – Tranches 1 and 2

In April 2002 and in September 2003, following the approval of the Federal Transit Administration, SFMTA Board of Directors, and the City's Board of Supervisors, Muni entered into separate leveraged lease leaseback transactions for over 118 and 21 Breda light rail vehicles (the Tranche 1 and Tranche 2 Equipment, respectively, and collectively, the "Equipment"). Each transaction, also referred to as a "sale in lease out" or "SILO", was structured as a head lease of the Equipment to a special purpose trust and a sublease of the Equipment back from such trust. Under the respective sublease, Muni may exercise an option to purchase the Tranche 1 Equipment on specified dates between November 2026 through January 2030 and Tranche 2 Equipment in January 2030, in each case, following the scheduled sublease expiration dates. During the terms of the subleases, Muni maintains custody of the Equipment and is obligated to insure and maintain the Equipment.

Muni received an aggregate of \$388.2 million and \$72.6 million, respectively in 2002 and 2003, from the equity investors in full prepayment of the head leases. Muni deposited a portion of the prepaid head lease payments into separate escrows that were invested in U.S. agency securities with maturities that correspond to the purchase option dates for the Equipment as specified in each sublease. Muni also deposited a portion of the head lease payments with a debt payment undertaker whose repayment obligations are guaranteed by Assured Guaranty Municipal Corp. (AGM) as successor to Financial Security Assurance (FSA), a bond insurance company, that was rated "AAA" by Standard & Poor's ("S&P") and "Aaa" by Moody's Investor Services ("Moody's") at the time the Tranche 1 and Tranche 2 Equipment transactions were entered into. Although these escrows do not represent a legal defeasance of Muni's obligations under the subleases, management believes that these transactions are structured in such a way that it is not probable that Muni will need to access other monies to make sublease payments. Therefore, the assets and the sublease obligations are not recorded on the financial statements of the SFMTA.

As a result of the cash transactions above, Muni recorded \$35.5 million and \$4.4 million in fiscal year 2002 and 2003 respectively, representing the difference between (a) the amounts received of \$388.2 million and \$72.6 million, and (b) the amounts of \$352.7 million and \$67.5 million paid to the escrows, the debt payment undertaker and for certain transaction expenses. These amounts have been classified as deferred inflows of resources in fiscal year 2016 and will be amortized over the life of each sublease unless the purchase option is executed or sublease is otherwise terminated before its expiration date. The deferred inflows of resources amortized amounts were \$9.4 million and \$2.4 million for the Tranche 1 Equipment and Tranche 2 Equipment in fiscal year 2016.

On March 17, 2014, Muni terminated leveraged lease transactions with respect to 30 items of Tranche 1 Equipment having an initial transaction value of \$99.3 million. On May 24, 2016, Muni terminated leveraged lease transactions with respect to 28 items of Tranche 1 Equipment having an initial transaction value of \$89.6 million and 21 items of Tranche 2 Equipment having an initial transaction

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

value of \$72.6 million. On June 27, 2016, Muni terminated leveraged lease transactions with respect to 31 items of Tranche 1 Equipment having an initial transaction value of \$100.4 million. As of June 30, 2016, one leveraged lease transaction with respect to 29 items of Tranche 1 Equipment having an initial transaction value of \$98.7 million remains outstanding.

(f) Laguna Honda Hospital

General Fund Subsidy - The Laguna Honda Hospital (LHH) is a skilled nursing facility which specializes in serving elderly and disabled residents. The operations of LHH are subsidized by the City's General Fund. It is the City's policy to fund operating deficits of the enterprise on a budgetary basis; however, the amount of operating subsidy provided is limited to the amount budgeted by the City. Any amount not required for the purpose of meeting an enterprise fund deficit shall be transferred back to the General Fund at the end of each fiscal year, unless otherwise approved by the Board of Supervisors. For the year ended June 30, 2016, the subsidy for LHH was \$51.3 million.

Net Patient Service Revenue - Net patient service revenues are recorded at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including a provision for doubtful accounts and estimated retroactive adjustments under reimbursement agreements with federal and state government programs and other third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined. Patient accounts receivable are recorded net of estimated allowances, which include allowances for contractals and bad debt. These allowances are based on current payment rates, including per diems, Diagnosis-Related Group (DRG) reimbursement amounts and payment received as a percentage of gross charges.

Third-Party Payor Agreements - LHH has agreements with third-party payors that provide for reimbursement to LHH at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the hospital's established rate for services and amounts reimbursed by third-party payors. Medicare and Medi-Cal are the major third-party payors with whom such agreements have been established. Laws and regulations governing the Medicare and Medi-Cal programs are complex and subject to interpretation. LHH believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medi-Cal programs.

During the year ended June 30, 2016, LHH's patient receivables and charges for services were as follows:

Patient Receivables, net				
	Medi-Cal	Medicare	Other	Total
Gross Accounts Receivable	\$ 81,015	\$ 5,034	\$ 2,723	\$ 88,772
Less:				
Provision for Contractual Allowances	(53,508)	(3,324)	(1,798)	(58,630)
Total, net	<u>\$ 27,507</u>	<u>\$ 1,710</u>	<u>\$ 925</u>	<u>\$ 30,142</u>

Net Patient Service Revenue				
	Medi-Cal	Medicare	Other	Total
Gross Revenue	\$ 406,764	\$ 24,618	\$ 13,317	\$ 444,699
Less:				
Provision for Contractual Allowances	(212,223)	(16,189)	(12,613)	(241,025)
Total, net	<u>\$ 194,541</u>	<u>\$ 8,429</u>	<u>\$ 704</u>	<u>\$ 203,674</u>

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Because Medi-Cal reimbursement rates are less than LHH's established charges rates, LHH is eligible to receive supplemental federal funding. As of June 30, 2016, LHH recorded \$71.3 million of subvention receivable for matching federal funds to local funds.

Unearned Credits and Other Liabilities - As of June 30, 2016, LHH recorded approximately \$28.3 million in other liabilities for third-party payor settlements payable.

Transactions with Other Funds - A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, human resources, and public protection to LHH and charge amounts designed to recover those departments' costs. These charges total approximately \$10.0 million for the year ended June 30, 2016 and have been included in services provided by other departments.

Commitments and Contingencies - As of June 30, 2016, LHH has entered into various purchase contracts totaling approximately \$0.7 million that are related to the old building remodel phase of the Replacement Project.

(g) San Francisco General Hospital

General Fund Subsidy - San Francisco General Hospital (SFGH) is an acute care hospital. The operations of SFGH are subsidized by the City's General Fund. It is the City's policy to fully fund enterprise operations on a budgetary basis; however, the amount of operating subsidy provided is limited to the amount budgeted by the City. Any amount not required for the purpose of meeting an enterprise fund deficit shall be transferred back to the General Fund at the end of each fiscal year, unless otherwise approved by the Board of Supervisors. For the fiscal year ended June 30, 2016, the subsidy for SFGH was \$240.1 million.

Net Patient Service Revenue - Net patient service revenues are recorded at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including a provision for doubtful accounts and estimated retroactive adjustments under reimbursement agreements with federal and state government programs and other third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Patient accounts receivables are recorded net of estimated allowances, which include allowances for contractually, bad debt, and administrative write-offs. These allowances are based on current payment rates, including per diems, DRG amounts and payment received as a percentage of gross charges.

Third-Party Payor Agreements - SFGH has agreements with third-party payors that provide for reimbursement to SFGH at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between SFGH's established rates and amounts reimbursed by third-party payors. Major third-party payors with whom such agreements have been established are Medicare, Medi-Cal, and the State of California through the Medi-Cal Hospital/Section 1115 Medicaid Waiver and Short-Doyle mental health programs. Laws and regulations governing the Medicare and Medi-Cal programs are complex and subject to interpretation. SFGH believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigation involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medi-Cal programs.

California's Section 1115 Medicaid Waiver (Waiver), titled the "Bridge to Health Care Reform" began in November 2010. The Waiver is intended to help sustain the state's Medicaid Program (known as Medi-Cal), test new innovations to help improve care and reduce costs, and to support the safety net in advance of health reform. Under the Waiver, payments for public hospitals are comprised of: 1) fee-for-service cost-based reimbursements for inpatient hospital services; 2) Disproportionate Share Hospital payments; 3) distribution from a pool of federal funding for uninsured care, known as the Safety Net Care Pool (SNCP); 4) Delivery System Reform Incentive Program (DSRIP); and 5) the Low Income Health Program (LIHP). The non-federal share of these payments will be provided by the public hospitals, primarily through certified public expenditures, whereby the hospital would expend its local funding for services to draw down the federal financial participation. Revenues recognized under the Waiver approximated \$17.8 million for the year ended June 30, 2016. The DSRIP is a pay-for-performance initiative that challenges public hospital systems to meet specific benchmarks related to improving health care access, quality and safety and outcomes.

The Bridge to Health Care Reform waiver expired October 31, 2015. On December 30, 2015, the Centers for Medicare and Medicaid Services (CMS) approved Medi-Cal 2020, a five-year renewal of California's Section 1115 Medicaid Waiver, which provides California public hospitals new federal funding through programs that are designed to shift the focus away from hospital-based and inpatient care, towards outpatient, primary and preventative care. A renewal of California's Medicaid Waiver was a fundamental component to public hospital's ability to continue to successfully implement the Affordable Care Act (ACA) beyond the primary step of coverage expansion.

The Medi-Cal 2020 waiver features four new programs: (1) a pay-for-performance delivery system transformation and alignment program that is considered the successor to the 2010 Bridge to Reform waiver's DSRIP, known as PRIME (Public Hospital Redesign and Incentives in Medi-Cal); (2) Global Payment Program (GPP) for services to the uninsured in designated public hospital systems; (3) Whole Person Care Pilot Program which would be a county-based, voluntary program to target providing more integrated care for high-risk, vulnerable populations; and (4) Dental Transformation Incentive Program, an optional incentive program to increase the frequency and quality of dental care provided to children.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Payments received under Medi-Cal 2020 Waiver's GPP are utilization based and not dependent on Certified Public Expenditures (CPEs). However, GPP claims are subject to State and federal audit and final reconciliation. SFGH has established reserves for the uncertainty of future financial impact of potential audit and reconciliation adjustments. Revenues recognized under Medi-Cal 2020 approximated \$129.5 million for the fiscal year ended June 30, 2016.

The City submitted an application to participate in the Whole Person Care Pilot Program. The State Department of Health Care Services is reviewing all applications and counties will be notified of their decision in early December 2016.

In addition, SFGH was reimbursed by the State, under the Short-Doyle Program, for mental health services provided to qualifying residents based on an established rate per unit of service not to exceed an annual negotiated contract amount. During the fiscal year ended June 30, 2016, reimbursement under the Short-Doyle Program amounted to approximately \$5.4 million and is included in net patient service revenue.

Unearned Credits and Other Liabilities - As of June 30, 2016, SFGH recorded approximately \$340 million in unearned credits and other liabilities, which was comprised of \$299.2 million in unearned credits mainly related to receipts under DSH/Safety Net Care Pool, the LIHP, and AB915 programs, and \$40.8 million in Third Party Settlements payable.

Charity Care - SFGH provides care without charge or at amounts less than its established rates to patients who meet certain criteria under its charity care policy. Charges foregone based on established rates were \$216.3 million and estimated costs and expenses to provide charity care were \$59.8 million in fiscal year 2016.

Other Revenues – SFGH recognized \$52.2 million of realignment funding for the year ended June 30, 2016. With California electing to implement a state-run Medicaid Expansion afforded by the Affordable Care Act, the State anticipates that counties' costs and responsibilities for the health care services for the indigent population will decrease as much of the population becomes eligible for coverage through Medi-Cal or Covered California. Starting July 1, 2013, there is a mechanism that provides for the State to redirect health realignment funds to fund social service programs. The redirected amount will be determined according to a formula that takes into account a county's cost and revenue experience and redirects 80% of the savings realized by the county. The State predetermined an amount of health realignment to be redirected of \$12 million in FY15-16 for the City and withheld those amounts from health realignment remittances to the City. A reconciliation using actual experience will be concluded within two years after June 30, 2015 for FY14-15 and within two years after June 30, 2016 for FY15-16.

Contracts with the University of California San Francisco – The City contracts on a year-to-year basis on behalf of SFGH with the University of California (UC). Under the contract, SFGH serves as a teaching facility for UC professional staff, medical students, residents, and interns who, in return, provide medical and surgical specialty services to SFGH's patients. The total amount for services rendered under the contract for the year ended June 30, 2016, was approximately \$156.9 million.

SFGH Rebuild – In 1994, California passed Senate Bill 1953, mandating that all California acute care hospitals meet new seismic safety standards by 2008 (subsequent legislation has extended the final date to January 1, 2020). In January 2001, the San Francisco Health Commission approved a resolution to support a rebuild effort for the hospitals, and the Department of Public Health conducted a series of planning meetings to review its options. It became evident that rebuilding rather than retrofitting was required, and that rebuilding SFGH presented a unique opportunity for the Department of Public Health to make system-wide as well as structural improvements in its delivery of care for patients.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

In October 2005, the San Francisco Health Commission accepted the Mayor's Blue Ribbon Committee recommendation to rebuild the hospital at its current Potrero Avenue location. A site feasibility study was concluded in September 2006 and showed a compliant hospital can be built on the west lawn without demolishing the historic buildings or other buildings. An institutional master plan, a hazardous materials assessment, a geotechnical analysis and rebuild space program have all been completed in the fiscal year 2007. Schematic design of the new building was completed and the project cost was estimated at \$887.4 million. The majority of the funding would be through issuance of bonds. In November 2008, San Francisco voters approved Proposition A, a ballot measure that authorized the City to issue general obligation bonds for the rebuild of the hospital. \$887.4 million of General Obligation Bonds were issued to fund the hospital rebuild. The new hospital was constructed and reached substantial completion on August 18, 2015. Patients were moved into the new hospital on May 21, 2016.

The General Obligation Bonds are accounted for as a governmental activity and transactions are accounted for in the City's Governmental Capital Projects Funds. The new facility is capitalized and also recorded under governmental activities.

Gift – SFGH received a gift in the amount of \$5.0 million and \$57.4 million, in FY15-16 and FY14-15, respectively, from the San Francisco General Hospital Foundation for the acquisition of furniture, fixtures and equipment (FF&E) for the new hospital. As of June 30, 2016, SFGH has spent \$30.5 million from the gift on acquisition of FF&E as stipulated by the donor and recorded the remaining \$31.9 million as restricted funds.

Commitments and Contingencies – As of June 30, 2016, SFGH has approximately \$4.2 million in commitments for various capital projects.

(h) San Francisco Wastewater Enterprise

The San Francisco Wastewater Enterprise (Wastewater Enterprise) was established in 1977, following the transfer of all sewage-system-related assets and liabilities of the City to the Wastewater Enterprise pursuant to bond resolution, to account for the City's municipal sewage treatment and disposal system.

The Wastewater Enterprise collects, transmits, treats, and discharges sanitary and stormwater flows, generated within the City, for the protection of public health and environmental safety. In addition, the Wastewater Enterprise serves, on a contractual basis, certain municipal customers located outside of the City limits, including the North San Mateo County Sanitation District No. 3, Bayshore Sanitary District, and the City of Brisbane. The Wastewater Enterprise recovers, cost of service, through user fees based on the volume and strength of sanitary flow. The Wastewater Enterprise serves approximately 147,430 residential accounts, which discharge about 15.8 million units of sanitary flow per year (measured in hundreds of cubic feet, or ccf) and approximately 16,151 non-residential accounts, which discharge about 8 million units of sanitary flow per year.

Pledged Revenues – Wastewater Enterprise's revenues, which consist mainly of sewer service charges, are pledged for the payment of principal and interest on various revenue bonds. Proceeds, from the bonds, provided financing for various capital construction projects and to refund previously issued bonds. These bonds are payable solely from net revenues of Wastewater Enterprise and are payable through fiscal year ending 2047.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid during fiscal year 2016, applicable net revenues, and funds available for bond debt service are as follows:

Bonds issued with revenue pledge	\$ 1,072,950
Bond principal and interest remaining due at end of the fiscal year	1,730,167
Net revenues	100,084
Bond principal and interest paid in the fiscal year	60,022
Funds available for revenue debt service	239,931

Commitments and Contingencies – As of June 30, 2016, the Wastewater Enterprise had outstanding commitments, with third parties, for capital projects and for materials and services totaling \$190.7 million.

Pollution Remediation Obligations – As of June 30, 2016, the Wastewater Enterprise recorded \$2.6 million in pollution remediation liability, consisting of \$2 million cleanup cost estimate at the Yosemite Creek site, \$0.6 million at the Southeast and Oceanside Treatment sites, and \$0.01 million for the hazardous materials at the Southeast plant. The pollution remediation obligation reported in the accompanying statements of net position is based on estimated contractual costs.

Transactions with Other Funds –The Wastewater Enterprise purchases power from Hetch Hetchy Power totaling \$9.9 million for the year ended June 30, 2016. A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, and human resources to the Wastewater Enterprise and charge amounts designed to recover those departments' costs. These charges total approximately \$26.2 million for the year ended June 30, 2016 and have been included in services provided by other departments.

(14) SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY AND COUNTY OF SAN FRANCISCO

As discussed in Note 1, the financial statements present the Successor Agency and its component unit, an entity for which the Successor Agency is considered to be financially accountable. The City and County of San Francisco Redevelopment Financing Authority (Financing Authority) is a joint powers authority formed between the former Agency and the City to facilitate the long-term financing of the former Agency's activities. The Financing Authority is included as a blended component unit in the Successor Agency's financial statements because the Financing Authority provides services entirely to the Successor Agency.

Pursuant to the Redevelopment Dissolution Law, funds that would have been distributed to the former Agency as tax increment, hereafter referred to as redevelopment property tax revenues, are deposited into the Successor Agency's Redevelopment Property Tax Trust Fund (Trust Fund) administered by the City's Controller for the benefit of holders of the former Agency's enforceable obligations and the taxing entities that receive pass-through payments. Any remaining funds in the Trust Fund, plus any unencumbered redevelopment cash and funds from asset sales are distributed by the City to the local agencies in the project area unless needed to pay enforceable obligations.

On May 29, 2013, the California Department of Finance (DOF) granted a Finding of Completion for the Successor Agency. Pursuant to Health and Safety Code (HSC) section 34179.7, the DOF verified that the Successor Agency does not owe any amounts to the taxing entities as determined under HSC section 34179.6, subdivisions (d) or (e) and HSC section 34183.5. With a Finding of Completion, the Successor Agency may proceed with (1) placing loan agreements between the former Agency and the City on the Recognized Obligation Payments Schedule (ROPS) as enforceable obligations, provided the Oversight Board makes a finding that the loan was for legitimate redevelopment purposes per HSC, and (2) utilize proceeds derived from bonds issued prior to January 1, 2011, in a manner consistent with the original bond covenants.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

In addition, the receipt of the Finding of Completion allowed the Successor Agency to submit a Long Range Property Management Plan (LRPMP) to the Oversight Board and the DOF for approval. The LRPMP pertains to the disposition and use of real properties held by the Successor Agency. Part 1 of the LRPMP, which addresses the disposition of property located at 706 Mission Street, was approved by the DOF on October 4, 2013. During fiscal year 2016, the property was transferred in accordance with the terms and closing conditions of the 706 Mission Purchase and Sale Agreement. After incorporating feedback from the DOF, the remainder of the LRPMP was approved by the Oversight Board on November 23, 2015, and by the DOF on December 7, 2015.

In September 2015, the State passed Senate Bill 107 (SB 107) which clarifies and updates existing law governing the dissolution of redevelopment agencies. SB 107 includes specific language that allows the Successor Agency to issue bonds or other indebtedness for the purposes of low and moderate income housing and infrastructure in the City by allowing the pledge of revenues available in the Trust Fund that are not otherwise pledged subject to the approval of the Oversight Board. SB 107 also declares that Mission Bay North, Mission Bay South, Hunters Point Shipyard Phase 1, Candlestick Point - Hunters Point Shipyard Phase 2, and Transbay projects are finally and conclusively approved as enforceable obligations.

(a) Capital Assets Held by the Successor Agency

For the year ended June 30, 2016, the summary of changes in capital assets is as follows:

	Balance July 1, 2015	Additions	Deletions	Balance June 30, 2016
Capital assets not being depreciated:				
Land held for lease	\$ 54,769	\$ -	\$ -	\$ 54,769
Construction in progress	633	1,187	-	1,820
Total capital assets not being depreciated	55,402	1,187	-	56,589
Capital assets being depreciated:				
Furniture and equipment - General	8,144	-	-	8,144
Building and improvements	227,843	-	(25,791)	202,052
Total capital assets being depreciated	235,987	-	(25,791)	210,196
Less accumulated depreciation for:				
Furniture and equipment	(8,093)	(11)	-	(8,104)
Building and improvements	(95,200)	(5,532)	7,272	(93,460)
Total accumulated depreciation	(103,293)	(5,543)	7,272	(101,564)
Total capital assets being depreciated, net	132,694	(5,543)	(18,519)	108,632
Total capital assets, net	\$ 188,096	\$ (4,356)	\$ (18,519)	\$ 165,221

During the year ended June 30, 2016, the Successor Agency sold a property with a book value of \$18.5 million to a developer. The purchase price was \$37.5 million, of which \$25.2 million was used to pay off advances from the City, \$8.9 million was used to partially pay off Tax Allocation Bonds Series 2003 B, and \$3.3 million was used to pay off Tax Allocation Bonds Series 2014 A. The gain from the sale of the property was recorded as an other addition in the Statement of Changes in Fiduciary Net Position.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)

 (Dollars in Thousands)

(b) Summary of the Successor Agency's Long-Term Obligations

Entity and Type of Obligation	Final Maturity Date	Remaining Interest Rate	Amount
Hotel tax revenue bonds ^(a)	2025	4.00% - 5.00%	\$ 34,260
Tax allocation revenue bonds ^(b)	2044	0.57% - 9.00%	804,659
South Beach Harbor Variable Rate Refunding bonds ^(c)	2017	3.50%	675
California Department of Boating and Waterways Loan ^(d)	2037	4.50%	6,857
Total long-term bonds and loans			<u>\$ 846,451</u>

Debt service payments are made from the following sources:

- (a) Hotel taxes from the occupancy of guest rooms in the hotels within the City.
- (b) Redevelopment property tax revenues from the Bayview Hunters Point, Western Addition, Rincon Point South Beach, Yerba Buena Center, India Basin, South of Market, Golden Gateway, Mission Bay South, Transbay, and Mission Bay North project areas.
- (c) South Beach Harbor Project cash reserves, redevelopment property tax revenues, and project revenues transferred from the capital projects fund.
- (d) South Beach Harbor Project revenues (subordinated to Refunding Bonds).

Issuance of Successor Agency Bonds – On December 24, 2013, the DOF released its letter approving the issuance of bonds by the Successor Agency. On April 21, 2016, the Successor Agency issued two refunding bonds, Tax Allocation Refunding Bonds Series 2016 A (2016 Series A Bonds) for \$73.9 million and Tax Allocation Refunding Bonds Series 2016 C (2016 Series C Bonds) for \$73.2 million and one new issuance, Mission Bay South Redevelopment Project Series 2016 B (2016 Series B Bonds) for \$45.0 million.

Proceeds from the 2016 Series A Bonds plus original issue premium of \$15.6 million and funds on hand from the refunded bonds of \$17.3 million were used to fully refund 2005 Series D, 2006 Series B, 2009 Series C, and 2011 Series C bonds in the amount of \$12.9 million, \$29.5 million, \$25.3 million, and \$25.7 million, respectively, plus accrued interest and issuance costs. The refunding resulted in net present value savings of \$19.6 million and an accounting loss of \$11.5 million. The 2016 Series A Bonds bear fixed interest rates of 3.00% to 5.00% and reach final maturity on August 1, 2041.

Proceeds from the 2016 Series C Bonds of \$73.2 million plus original issue premium of \$13.9 million and funds on hand from the refunded bonds in the amount of \$11.3 million were used to fully refund 2009 Series D Bonds and 2011 Series D Bonds in the amount of \$45.0 million and \$34.9 million, respectively, plus accrued interest and issuance costs. The refunding resulted in net present value savings of \$15.9 million and an accounting loss of \$17.2 million. The 2016 Series C Bonds bear fixed interest rates of 2.00% to 5.00% and reach final maturity on August 1, 2041.

Proceeds from the 2016 Series B Bonds plus original issue premium of \$8.4 million will be used to finance redevelopment activities of the Successor Agency within or of benefit to the Mission Bay South Redevelopment Project Area. The 2016 Series B Bonds bear fixed interest rate of 2.00% to 5.00% and reach final maturity on August 1, 2043.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Pledged Revenues for Bonds – The Tax Allocation Bonds are equally and ratably secured by the pledge and lien of the redevelopment property tax revenues (i.e., the former tax increment). These revenues have been pledged until the year 2044, the final maturity date of the bonds. The total principal and interest remaining on these bonds is approximately \$1.46 billion. The redevelopment property tax revenues recognized during the year ended June 30, 2016, were \$119.3 million against the total debt service payment of \$97.9 million.

The Hotel Tax Revenue Bonds are secured by the pledge and lien of the hotel tax revenue received by the Successor Agency from the City. These revenues have been pledged until the year 2026, the final maturity of the bonds. The total principal and interest remaining on the Hotel Tax Revenue Bonds is approximately \$43.1 million. The hotel tax revenue recognized during the year ended June 30, 2016 was \$5.0 million which equaled the total debt service payment.

The changes in long-term obligations for the Successor Agency for the year ended June 30, 2016, are as follows:

	July 1, 2015	Additional Obligations, Interest Accretion and Net Increases	Current Maturities, Retirements, and Net Decreases	June 30, 2016
Bonds payable:				
Tax revenue bonds	\$ 889,174	\$ 192,120	\$ (241,700)	\$ 839,594
Less unamortized amounts:				
For issuance premiums	13,558	37,924	(1,701)	49,781
For issuance discounts	(4,365)	-	1,417	(2,948)
Total bonds payable	898,367	230,044	(241,984)	886,427
Accreted interest payable.....	37,501	4,714	-	42,215 ⁽¹⁾
Notes, loans, and other payables.....	7,075	-	(218)	6,857

* Includes payment of accreted interest

Due to/Advances from the Primary Government – In January 2003, the City and the former Agency entered into a Cooperation and Tax Increment Reimbursement Agreement. The City agreed to advance property tax revenues to the former Agency for the debt service payments on the Tax Allocation Revenue Bonds, San Francisco Redevelopment Projects Series 2003 B and C. The former Agency agreed to make reimbursement payments related to the Jessie Square Parking Garage and fully repay the advances by fiscal year 2018. In accordance with HSC Section 34191.4(b)(3), interest shall be accrued quarterly at an annual rate of 3% on the principal balance due to the City. The City and the Successor Agency have accrued interest at the Local Agency Investment Fund (LAIF) rate, which was less than the statutory rate as of June 30, 2015. During the year ended June 30, 2016, the Successor Agency retroactively applied the 3% interest rate and increased the balance by \$2.2 million. Also during the same fiscal year, the City advanced \$0.7 million in property tax revenues to the Successor Agency for debt service payments. Interest in the amount of \$0.6 million was accrued based on the balance due to the City, and the Successor Agency has made payments in the amount of \$26.8 million to the City to fully repay the advances.

During the year ended June 30, 2010, the former Agency borrowed \$16.5 million from the Low and Moderate Income Housing Fund (LMIHF) to make payment of \$28.7 million to the Supplemental Education Revenue Augmentation Funds (SERAF) to meet the State's Proposition 98 obligations to schools. Upon dissolution of the former Agency, the City elected to become the Housing Successor Agency and retained the former Agency's housing assets and functions, rights, powers, duties, and obligations. In accordance with HSC Section 34191.4(b)(3), interest is accrued quarterly at an annual rate of 3% on the principal balance due to the City. For the year ended June 30, 2016, interest in the amount of \$0.4 million was accrued, and the Successor Agency made payments in the amount of \$1.8 million to the City. The outstanding payable balance at June 30, 2016, was \$14.6 million, which was comprised of principal of \$11.8 million and accrued interest of \$2.8 million.

As of June 30, 2016, the Successor Agency also has a payable to the City in the amount of \$2,611 which consists of \$554 for Jessie Square cost reimbursements and \$2,057 for other services provided.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)

(Dollars in Thousands)

(c) Commitments and Contingencies Related to the Successor Agency

Encumbrances - At June 30, 2016, the Successor Agency had outstanding encumbrances totaling approximately \$63.0 million.

Risk Management - The Successor Agency obtained coverage for personal injury, automobile liability, public official errors and omissions and employment practices liability with limits of \$10.0 million per occurrence (\$5.0 million for employment practices liability) and a \$0.03 million deductible per occurrence.

Operating Lease - The Successor Agency has noncancelable operating leases for its office sites and a Master Lease Option Agreement with the San Francisco Port Commission; these are enforceable obligations of the Successor Agency. As of June 30, 2016, the Successor Agency has exercised several of the lease options. The leases require the following minimum annual payments:

<u>Fiscal Years</u>		<u>Fiscal Years</u>	
2017.....	\$ 1,341	2022-2026.....	\$ 4,351
2018.....	870	2027-2031.....	4,351
2019.....	870	2032-2036.....	4,351
2020.....	870	2037-2041.....	4,351
2021.....	870	2042-2046.....	4,351
		2047-2051.....	2,828
		Total.....	\$ 29,404

Rent payments totaling \$1.4 million are included in the Successor Agency's financial statements for the year ended June 30, 2016.

Regarding rental income, the Successor Agency has noncancelable operating leases on various facilities within project areas. The minimum future rental income are as follows:

<u>Fiscal Years</u>		<u>Fiscal Years</u>	
2017.....	\$ 4,506	2027-2031.....	\$ 21,757
2018.....	4,486	2032-2036.....	22,830
2019.....	4,362	2037-2041.....	20,037
2020.....	4,248	2042-2046.....	19,834
2021.....	4,269	2047-2050.....	2,819
2022-2026.....	22,000		
		Total.....	\$ 131,148

For the year ended June 30, 2016, operating lease rental income for noncancelable operating leases was \$11.3 million, of which \$7.1 million represents contingent rental income received. At June 30, 2016, the leased assets had a net book value of \$35.3 million.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

Notes and Mortgages Receivable – During the process of selling land to developers and issuing mortgage revenue bonds, the Successor Agency may defer receipt of land sale proceeds and mortgage revenue bond financing fees from various private developers in exchange for notes receivable, which aids the developers' financing arrangements. The Successor Agency recognizes all revenues and interest on the above-described arrangements when earned, net of any amounts deemed to be uncollectible. During the year ended June 30, 2016, the Successor Agency disbursed \$47.7 million to the developers through this arrangement and recorded an allowance against these receivables. This allowance is recorded as deductions in the financial statements. At June 30, 2016, the gross value of the notes and mortgage receivable was \$110.7 million and the allowance for uncollectible amounts was \$109.0 million.

Conduit Debt - Various community facility district bonds and mortgage revenue bonds have been issued by the former Agency on behalf of various developers and property owners who retain full responsibility for the repayment of the debt. When these obligations are issued, they are secured by the related mortgage indebtedness and special assessment taxes, and, in the opinion of management, are not considered obligations of the Successor Agency or the City and are therefore not included in the financial statements. Debt service payments will be made by developers or property owners. All of the mortgage revenue bonds issued by the former Agency were transferred to the City upon the dissolution of the former Agency. At June 30, 2016, the Successor Agency had outstanding community facility district bonds totaling \$191.4 million.

Transbay Transit Center Agreements - In July 2003, the City, the Transbay Joint Powers Authority (TJPA), and the State of California acting through its Department of Transportation (Caltrans) entered into the Transbay Transit Terminal Cooperative Agreement (Cooperative Agreement) in which Caltrans agreed to transfer approximately 10 acres of State-owned property in and around the then-existing Transbay Terminal to the City and the TJPA to help fund the development of the Transbay Transit Center (TTC). The Cooperative Agreement requires that the TJPA sell certain State-owned parcels and use the revenues from the sales and the net tax increments to finance the TTC.

In 2008, the City and the former Agency entered into a binding agreement with the TJPA that irrevocably pledges all sales proceeds and net tax increments from the State-owned parcels to the TJPA for a period of 45 years (Pledge Agreement). At the same time, the City, the TJPA and the former Agency entered into an Option Agreement which grants options to the former Agency to acquire the State-owned parcels, arrange for development of the parcels, and distribute the net tax increments to the TJPA to use for the TTC. During the year ended June 30, 2016, the Successor Agency received \$1.6 million from a developer and distributed the funds to the TJPA. The payment was recorded as a neighborhood development deduction on the statement of changes in fiduciary net position.

(15) TREASURE ISLAND DEVELOPMENT AUTHORITY

The Treasure Island Development Authority (TIDA) is a nonprofit public benefit corporation. TIDA was authorized in accordance with the Treasure Island Conversion Act of 1997. TIDA is governed by seven members of the TIDA Board of Directors who are appointed by the Mayor, subject to confirmation by the City's Board of Supervisors. The specific purpose of TIDA is to promote the planning, redevelopment, reconstruction, rehabilitation, reuse and conversion of the property known as Naval Station Treasure Island for the public interest, convenience, welfare and common benefit of the inhabitants of the City.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The services provided by TIDA include negotiating the acquisition of former Naval Station Treasure Island with the U.S. Navy and establishing the Treasure Island Development Project; renting Treasure Island facilities leased from the U.S. Navy to generate revenues sufficient to cover operating costs; maintaining Treasure Island facilities owned by the U.S. Navy which are not leased to TIDA or the City; providing facilities for special events, film production and other commercial business uses; leasing approximately 700 existing housing units; and overseeing the U.S. Navy's toxic remediation activities on the former naval base.

In early 2000, TIDA initiated a master developer selection process, culminating in the selection of Treasure Island Community Development, LLC (TICD) in March 2003. TIDA and TICD entered into an Exclusive Negotiating Agreement in 2003, and began work on the Development Plan and Term Sheet for the Redevelopment of Naval Station Treasure Island (Development Plan). The Development Plan represented the culmination of nearly seven years of extensive public discourse about the future of Treasure Island, and was the product of the most extensive public review process for a large development project in the City's history. The Development Plan was endorsed by the TIDA Board and the San Francisco Board of Supervisors in December 2006. In May 2010, the TIDA Board and Board of Supervisors both unanimously endorsed a package of legislation that included an Update to the Development Plan and Term Sheet, terms of an Economic Development Conveyance Memorandum of Agreement (EDC MOA Term Sheet), and a Term Sheet between TIDA and the Treasure Island Homeless Development Initiative (TIHDI). The 2006 endorsement and 2010 update of the Development Plan marked two very important milestones for the project, as they very specifically guided the enormous efforts undertaken since then to make the ambitious development plans for Treasure Island a reality. Together the updated Development Plan, the EDC MOA Term Sheet and the TIHDI Term Sheet formed the comprehensive vision for the future of the former military base and represented a substantial step towards implementation of the project.

In April 2011, the TIDA Board and the Planning Commission certified the environmental impact report for the project and approved various project entitlements, including amendments to the Planning Code, Zoning Maps and General Plan, as well as a Development Agreement, Disposition and Development Agreement and Interagency Cooperation Agreement. These entitlements include detailed plans for land uses, phasing, infrastructure, transportation, sustainability, housing – including affordable housing, jobs and equal opportunity programs, community facilities and project financing. Collectively, the entitlements provide a holistic picture of the future development. In June 2011, the Board of Supervisors unanimously upheld the certification of the project's environmental impact report and approved the project entitlements. These project approvals established the framework and cleared the way for realization of a new environmentally sustainable community on Treasure Island and the thousands of construction and permanent jobs the construction will bring.

On May 29, 2015, the Navy made the first transfer of property to TIDA consisting of 290 acres on Yerba Buena and Treasure Islands and the offshore submerged lands. Existing structures on Yerba Buena were demolished between February and August 2016, and demolition of structures in the first area of development on Treasure Island began in July 2016. The first infrastructure construction projects – new water reservoirs and new roadways, utilities, and related facilities on Yerba Buena Island – have been awarded and will mobilize in November 2016, with vertical construction beginning in 2017, and the first new homes ready for occupancy in 2019. The complete build-out of the project is anticipated to occur over fifteen to twenty years.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

In July 2008, and amended several times over the intervening years, the Transportation Authority entered into a loan agreement with TIDA in the amount of \$11.0 million for the repayment of costs related to the Yerba Buena Island (YBI) Interchange Improvement Project. Under the terms of the agreement, TIDA will repay the Transportation Authority for all project costs incurred by the Transportation Authority and accrued interest, less federal government reimbursements to the Transportation Authority. If the federal grant funds do not become available for some or all of the project costs, or if the federal agency disallows the Transportation Authority's reimbursement claims on some or all of the project costs, then TIDA bears the responsibility to repay the Transportation Authority for all costs incurred on the YBI Interchange Improvement Project for a total loan obligation amount not-to-exceed \$18.8 million. Interest shall accrue on all outstanding unpaid project costs until TIDA and federal agencies fully reimburse the Transportation Authority for all costs related to the project. Interest will be compounded quarterly, at the City Treasurer's Pooled Investment Fund rate or the Transportation Authority's borrowing rate, whichever is applicable, beginning on the date of the Transportation Authority's reimbursement claim to Caltrans until the Transportation Authority costs and all accrued interest has been repaid. The repayment to the Transportation Authority was structured to be paid by TIDA in three installments with the first installment equal to 50% of the current balance being due 30 days after the first close of escrow for transfer of the Naval Station Treasure Island to TIDA from the Navy. The second installment is due on the anniversary of the first installment in an amount of 50% of the then current balance, and a final payment of the remaining balance of the loan is due thereafter. This loan is collateralized by the senior security interest in TIDA's right, title and interest in and to 1) the rents accruing under the Sublease, Development, Marketing and Property Management Agreement between TIDA and The John Stewart Company, related to the subleasing of existing residential units at the Naval Station Treasure Island; and 2) any and all other TIDA revenue, except revenue prohibited by applicable laws from being used for this purpose or is necessary for repayment of the annual amount of TIDA's pre-existing Hetch Hetchy utility obligation under the Memorandum of Understanding (MOU) between TIDA and Hetch Hetchy. Under the Disposition and Development Agreement between TIDA and Treasure Island Community Development, LLC (TICD), the master developer for Treasure Island and Yerba Buena Island, TICD is committed to fulfill TIDA's obligations under the loan agreement between TIDA and the Transportation Authority. On June 26, 2015, TICD made a payment directly to the Transportation Authority on TIDA's behalf in the amount of \$5.4 million. On June 28, 2016, TICD made a payment to TIDA in the amount of \$2.8 million which TIDA, in turn, paid to the Transportation Authority on June 30, 2016.

As of June 30, 2016, TIDA has the following payables to other City departments:

Payable to	Purpose	6/30/2016		Total
		Current	Noncurrent	
SFCTA	YBI Loan Agreement	\$ -	\$ 2,894	\$ 2,894

(16) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

“Due to” and “due from” balances have primarily been recorded when funds overdraw their share of pooled cash or when there are transactions between entities where one or both entities do not participate in the City’s pooled cash or when there are short-term loans between funds. The composition of interfund balances as of June 30, 2016 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Nonmajor Governmental Funds	\$ 4,366
	San Francisco Water Enterprise	230
		<u>4,596</u>
Nonmajor Governmental Funds	General Fund	1,380
	Nonmajor Governmental Funds	3,213
	Internal Service Funds	361
	Municipal Transportation Agency	2,503
	San Francisco Wastewater Enterprise	2
	San Francisco Water Enterprise	7
		<u>7,466</u>
General Hospital Medical Center	General Fund	55
	Nonmajor Governmental Funds	2
		<u>57</u>
San Francisco Water Enterprise	General Fund	141
	Nonmajor Governmental Funds	304
		<u>445</u>
Hetch Hetchy Water and Power Enterprise	General Fund	14
	Nonmajor Governmental Funds	7,220
	Port of San Francisco	65
	General Hospital Medical Center	513
	San Francisco Wastewater Enterprise	1,269
	San Francisco Water Enterprise	549
		<u>9,630</u>
Municipal Transportation Agency	Nonmajor Governmental Funds	16,973
San Francisco Wastewater Enterprise	General Fund	9
	Nonmajor Governmental Funds	19
		<u>28</u>
Total		<u><u>\$ 39,195</u></u>

In addition to routine short-term loans, Hetch Hetchy serves as the City’s agency for energy efficiency projects and maintains the Sustainable Energy Account (SEA) to sponsor and financially support such projects at various City departments. In this role, Hetch Hetchy may secure low-interest financing to supplement funds available in the SEA fund. At June 30, 2016, Hetch Hetchy loaned \$8.4 million to other City funds. Hetch Hetchy is also due \$1.2 million from the Wastewater Enterprise for its share of costs relating to 525 Golden Gate Headquarters project for equipment.

The \$962.3 million General Fund transfer out includes a total of \$672.7 million in operating subsidies to SFMTA, SFGH, and Laguna Honda Hospital (note 13). The transfer of \$289.1 million from the General Fund to the nonmajor governmental funds is to provide support to various City programs such as the Public Library and Children and Families Fund, as well as to provide resources for the payment of debt service. The transfers between the nonmajor governmental funds are to provide support for various City programs and to provide resources for the payment of debt service.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

San Francisco International Airport transferred \$42.5 million to the General Fund, representing a portion of concession revenues (note 13(a)). The General Fund received transfers in of \$110.2 million from SFGH for the Safety Net Care Pool (SNCP) and Delivery System Reform Incentive Program (DSRIP) intergovernmental transfers (IGT), \$1.9 million for interest earned by the SFGH but credited to General Fund (note 13(g)), \$1.9 million for COLA adjustment allocation to various Department of Public Health (DPH) division. SFGH transferred to General Fund \$0.2 million for equipment lease payments, \$0.2 million for primary care center projects and offset by \$1.0 million transfer from General Fund for Healthy San Francisco. The General Fund also received \$18 million from SFGH and \$7 million from Laguna Honda Hospital to fund the DPH project and \$0.1 million for interest earned by the Laguna Honda Hospital funds but credited to General Fund.

SFMTA received \$142.1 million transfers from nonmajor governmental funds, of which \$61.9 million was for capital activities, \$18.3 million was for operating activities, and \$61.9 million to fund various street improvement projects. In turn, the SFMTA transferred \$2.4 million to nonmajor governmental funds to pay for various street improvement projects. On the other hand, the SFMTA transferred \$2.3 million to the General Fund for reimbursement on the 4th Street Bridge project.

The Water Enterprise received \$34.4 million from transfers in, of which included \$34.2 million in general obligation bond proceeds for the Auxiliary Water Supply System Earthquake Safety and Emergency Response project and \$0.2 million from General Fund for the San Francisco War Memorial Veterans Building project.

The Wastewater Enterprise transferred \$16.5 million to the General Fund in order to secure jurisdiction of the City owned property adjacent to the Southeast Water Pollution Control Plant ("Southeast Plant"). On the other hand, the Wastewater Enterprise received \$0.4 million from the Department of Public Works for the Ocean Beach project and community projects.

The Port of San Francisco received \$24.1 million transfer in, of which include a transfer fee of \$1.7 million for a jurisdiction transfer to the San Francisco Real Estate Division of property to facilitate open space improvements in connection with as adjacent residential development project, \$0.7 million for Port's capital project, \$13.2 million and \$8.5 million of proceeds from the 2012 and 2008 San Francisco Clean and Safe Neighborhood Parks Bond, respectively, for waterfront projects.

The \$1.4 million Hetch Hetchy transfers represents \$1.3 million from nonmajor funds for the Lighting and Traffic Safety project, and \$0.1 million from the General Fund for energy efficiency project. In turn, Hetch Hetchy transferred \$0.7 million to the General Fund for Lighting Energy Efficiency projects, Heating, Ventilating and Air Conditioning (HVAC) projects.

The Airport and Port have certain rental agreements with concessionaires, which specify that rental payments are to be based on a percentage of tenant sales, subject to a minimum amount. Concession percentage rents in excess of minimum guarantees for the Airport and Port were approximately \$26.3 million and \$18.7 million, respectively, in fiscal year 2015-16. The Airport also exercised a five-year car rental lease agreement option effective January 1, 2014. Under this agreement the rental car companies will pay 10% of gross revenues or a minimum guaranteed rent whichever is higher; also in

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)

June 30, 2016
(Dollars in Thousands)

accordance with the terms of their concession agreement, the minimum annual guarantee (MAG) for the rental car operators does not apply if the actual enplanements achieved during a one-month period is less than 80% of the actual enplanements of the same reference month in the reference year, and such shortfall continues for three consecutive months. The MAG attributable to the rental car companies was approximately \$43.3 million for fiscal year 2015-16.

Other Commitments

The Retirement System has commitments to contribute capital for real assets and private equity investments in the aggregate amount of approximately \$4.7 billion at June 30, 2016.

In February 2011, the Asian Art Museum Foundation (Foundation) entered into an agreement with JP Morgan Chase Bank to refinance its obligations of \$97.0 million. To facilitate the refinancing, the City entered into an assurance agreement which, in the event of nonpayment by the Foundation, requires the City to seek an appropriation to make debt payments as they become due. Since the City has not legally guaranteed the debt, and the City believes that the likelihood of nonpayment by the Foundation is remote, no amount is recorded in the City's financial statements related to this agreement.

In April 2001, the City, the Alameda-Contra Costa Transit District and the Peninsula Corridor Joint Powers Board executed a Joint Powers Agreement which created and established the Transbay Joint Powers Authority (TJPA). The TJPA has primary jurisdiction with respect to all matters concerning the financing, design, development, construction, and operation of the new Transbay Transit Center, which will replace the former Transbay Terminal in downtown San Francisco with a modern transit hub. In May 2016, the City's Board of Supervisors adopted Resolution 166-16 approving and authorizing the execution and delivery of Tax Exempt and/or Taxable Lease Revenue Commercial Paper Certificates of Participation and Tax Exempt and/or Taxable Direct Placement Revolving Certificates of Participation in a combined aggregate principal of amount not to exceed \$260 million to provide interim financing for the Transbay Transit Center construction project. As of June 30, 2016, the City has not issued the Certificates of Participation related to this resolution.

(18) RISK MANAGEMENT

Risk Retention Program Description

The City is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets; business interruption; errors and omissions; automobile liability and accident claims (primarily for SFMTA); medical malpractice; natural disasters; employee health benefit claim payments for direct provider care (collectively referred to herein as estimated claims payable); and injuries to employees (workers' compensation). With certain exceptions, it is the policy of the City not to purchase commercial insurance for the risks of losses to which it is exposed. Instead, the City believes it is more economical to manage its risks internally and set aside funds as needed for estimated current claim settlements and unfavorable judgments through annual appropriations and supplemental appropriations.

The Airport carries general liability insurance coverage of \$1.0 billion with \$250.0 million in War Perils Liability, subject to a deductible of \$10 per single occurrence and commercial property insurance coverage for full replacement value on all facilities at the Airport owned by the Airport, subject to a deductible of \$500 per single occurrence. The Airport carries public officials liability and employment practices liability coverage of \$5.0 million, subject to a deductible of \$100 per single occurrence for each wrongful act other than employment practices' violations, and \$250 per each occurrence for each employment practices' violation. The Airport also carries insurance for public employee dishonesty, fine arts, electronic data processing equipment, and watercraft liability for Airport fire and rescue vessels and target range liability for the San Francisco Police Department's firearms range located at the Airport. The Airport has no liability insurance coverage for losses due to land movement or seismic activity, war, terrorism and hijacking.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2016

(Dollars in Thousands)

The Port carries the following insurance: 1) marine general liability coverage of \$100.0 million, subject to a deductible of \$100 per occurrence; 2) hull and machinery liability coverage of \$1.1 million, subject to a deductible of \$100 per occurrence; 3) commercial property insurance for losses up to the insured appraised value of Port facilities, subject to a maximum of \$1.0 billion and a deductible of \$750 per occurrence; and 4) public officials and employee liability coverage of \$5.0 million, subject to a deductible of \$75 per occurrence and changes in insurance coverage to reflect current insurer appraisal values and best available policy. The Port also carries insurance coverage for employee dishonesty, auto liability, property damage for certain high value Port vehicles, water pollution, and data processing equipment. Tenants whose operations pose a significant environment risk are also required to post an environmental oversight deposit and an environmental performance deposit.

The SFMTA risk treatment program encompasses both self-insured and insured methods. Insurance purchase is generally coordinated through the City's Risk Management Division, and in some specific cases, directly by the agency. Self-insurance is when the City manages risks internally and administers, adjusts, settles, defends, and pays claims from budgeted resources, i.e., pay-as-you-go. SFMTA's general policy is to first evaluate self-insurance for the risks of loss to which it is exposed. When economically more viable or when required by debt financing covenants, SFMTA purchases insurance as necessary or required.

Risks	Coverage
a. General/Transit Liability	Self-insure
b. Property	Self-insure and purchase insurance
c. Workers' Compensation	Self-insure
d. Employee (transit operators)	Purchase insurance
e. Directors and Officers	Purchase insurance

The SFMTA is self-insured on general liability. Through coordination with the Controller and City Attorney's Office, the SFMTA general liability payments are addressed through pay-as-you-go funding as part of the budgetary process as well as a reserve that is increased each year by approximately \$3.0 million. As of June 30, 2016, the reserve was \$20.1 million. Claim liabilities are actuarially determined anticipated claims and projected timing of disbursement, considering recent claim settlement trends, inflation, and other economic social factors.

The SFMTA purchases property insurance on scheduled facilities, Breda light rail cars, and personal property. Also, insurance is purchased for scheduled City parking garages covering blanket property and business interruptions. Damages to facilities and property outside of the specified schedules are self-insured. SFMTA has purchased group life insurance and a Group Felonious Assault Coverage Insurance on transit operators per a Memorandum of Understanding with the Transport Workers' Union and has purchased insurance to cover errors and omissions of its board members and senior management.

Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years. Expenditures and liabilities for all workers' compensation claims and other estimated claims payable are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claim liabilities does not necessarily result in an exact amount. Claim liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other legal and economic factors. The recorded liabilities have not been discounted.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

Estimated Claims Payable

Numerous lawsuits are pending or threatened against the City. The City's liability as of June 30, 2016 has been actuarially determined and includes an estimate of incurred but not reported losses and allocated loss adjustment expenses.

Changes in the reported estimated claims payable since July 1, 2014, resulted from the following activity:

<u>Fiscal Year</u>	<u>Beginning Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Ending Fiscal Year Liability</u>
2014-2015	\$ 247,059	\$ 87,834	\$ (70,063)	\$ 264,830
2015-2016	264,830	68,815	(56,079)	277,566

Breakdown of the estimated claims payable at June 30, 2016 is follows:

<u>Governmental activities:</u>	
Current portion of estimated claims payables	\$ 53,627
Long-term portion of estimated claims payable	106,871
Total	<u>\$ 160,498</u>
<u>Business-type activities:</u>	
Current portion of estimated claims payables	\$ 52,808
Long-term portion of estimated claims payable	64,260
Total	<u>\$ 117,068</u>

Workers' Compensation

The City self-insures for workers' compensation coverage. The City's liability as of June 30, 2016 has been actuarially determined and includes an estimate of incurred but not reported losses. The total amount estimated to be payable for claims incurred as of June 30, 2016 was \$417.4 million which is reported in the appropriate individual funds in accordance with the City's accounting policies.

Changes in the reported accrued workers' compensation since July 1, 2014, resulted from the following activity:

<u>Fiscal Year</u>	<u>Beginning Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Ending Fiscal Year Liability</u>
2014-2015	\$ 383,876	\$ 94,397	\$ (82,699)	\$ 395,574
2015-2016	395,574	108,760	(86,906)	417,428

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Breakdown of the accrued workers' compensation liability at June 30, 2016 is as follows:

Governmental activities:	
Current portion of accrued workers' compensation liability.....	\$ 39,357
Long-term portion of accrued workers' compensation liability..	188,468
Total	\$ 227,825
Business-type activities:	
Current portion of accrued workers' compensation liability.....	\$ 31,867
Long-term portion of accrued workers' compensation liability..	157,736
Total	\$ 189,603

(19) SUBSEQUENT EVENTS

(a) Long-term Debt Issuance

In July 2016, the City issued a total of \$91.4 million tax-exempt and \$13.0 million taxable commercial paper (CP) with interest rates ranging from 0.44% to 0.45% and 0.58%, respectively and maturity of September 2016. The CP was issued to refund \$99.8 million of maturing CP and obtain \$4.5 million new funding for the Moscone Expansion and affordable housing (HOPE SF) projects. The refinanced CP was issued to provide interim funding for Moscone expansion project, the purchase of capital equipment for the San Francisco General Hospital and Trauma Center, and the rebuilding of distressed public housing sites to increase affordable housing (HOPE SF).

In August 2016, the City refinanced maturing notes by issuing a total of \$31.6 million tax exempt CP with interest rate ranging from 0.43% to 0.47% to mature September and October 2016. The CP was issued to provide interim funding for Moscone expansion project and capital equipment for the San Francisco General Hospital and Trauma Center.

In September 2016, the City issued \$10.0 million tax-exempt CP for the Moscone Expansion project and rolled over a total of \$13.0 million taxable and \$106.1 million tax-exempt maturing CP. The taxable CP bears interest rate of 0.72% and the tax-exempt CP bears interest rates ranging from 0.69% to 0.82%. The CP matures October and November 2016.

In September 2016, the Airport issued its Second Series Revenue Bonds, Series 2016B (AMT) and Series 2016C (Non-AMT), in the aggregate principal amount of \$740.1 million to finance and refinance (through the repayment of subordinate commercial paper notes) a portion of the capital plan. It also issued its Second Series Revenue Refunding Bonds, Series 2016D (Non-AMT/Governmental Purpose) in the amount of \$147.8 million to refund a portion of the Series 2010C, 2011D, and 2011G bonds. The Series 2016BCD bonds are uninsured, long-term, fixed rate bonds. The Series 2016B bonds mature between May 2038 and May 2046 with a coupon of 5%. The Series 2016C Bonds mature in May 2046 with a coupon of 5%. The Series 2016D Bonds mature between 2017 and 2031 with a coupon of 5%. The net proceeds of the Series 2016BC bonds (\$779.2 million) were used to repay the entire outstanding balance of subordinate commercial paper notes (\$343.0 million), and make a deposit into the Airport's construction accounts to fund capital projects at the Airport. As of October 7, 2016, the Airport had no subordinate commercial paper notes outstanding.

In October 2016, the San Francisco Public Utilities Commission issued \$893.8 million of San Francisco Water Revenue Bonds, Series 2016 A and B. The Series 2016 A and B Bonds refunded all or a portion of the following outstanding series of Water Revenue Bonds – 2006 B, 2006 C, 2009 A, 2009 B, 2010 A and 2010 F Bonds. The issuance resulted in approximately \$107.0 million of net present value debt service savings for the Water Enterprise Fund.

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

In October 2016, the City issued \$115.4 million tax-exempt CP to refinance \$113.7 maturing notes for the Moscone Expansion Project, San Francisco General Hospital capital equipment purchase and HOPE SF, and \$1.5 million in new funding for the Moscone Expansion project. The CP bears interest rate ranging from 0.80% to 0.95% will mature in December 2016 and January 2017.

In November 2016, the City issued General Obligation Bonds Series 2016F (Affordable Housing) in the amount of \$75.1 million to finance the construction, development, acquisition, and preservation of housing affordable to low- and middle-income households through programs that will prioritize vulnerable populations such as San Francisco's working families, veterans, seniors, disabled persons; to assist in the acquisition, rehabilitation, and preservation of affordable rental apartment buildings to prevent the eviction of long-term residents; to repair and reconstruct dilapidated public housing; to fund a middle income rental program; and to provide for homeownership down payment assistance opportunities for educators and middle-income households; to pay certain costs related to the issuance of Series 2016F. The bonds mature from June 2017 through June 2036 with interest rates ranging from 2.0% to 3.1%. Debt service payments for the Series 2016F are funded through ad valorem taxes on property.

In November 2016, the City issued \$50.4 million tax-exempt CP to refinance \$32.7 million maturing CP and \$17.4 million in new funding for the Moscone Expansion and HOPE SF projects. The CP bears interest rate of 0.60% and 0.65% and will mature in January 2017.

(b) Elections

On November 8, 2016 the San Francisco voters approved the following propositions that will have a fiscal impact on the City:

Proposition C – An ordinance that authorizes the City to use the remaining \$261.0 million in unissued general obligation bonds approved under the 1992 ordinance to acquire, improve and rehabilitate at-risk multi-unit residential buildings in need of seismic, fire, health and safety upgrades or other major rehabilitation; and convert those buildings to permanent affordable housing.

Proposition E – An ordinance that transfers the responsibility from property owners to the City for maintaining trees and sidewalks damaged by trees. The City would then be liable for injuries and property damage resulting from failure to maintain the trees and to repair sidewalks damaged by trees. The City would pay for maintaining these trees and sidewalks by setting aside \$19.0 million per year from the City's General Fund, adjusted annually based on the City's revenue. Included in this proposition is an early termination clause that at any time before January 1, 2017, the Mayor, after consulting with the Budget Director and the Controller, and after taking into account the City's projected revenues and expenditures in the City's financial plans, may terminate implementation of sections of this charter amendment (Section 16.129 – Street Tree Maintenance).

Proposition I – A charter amendment that creates a Dignity Fund and set aside at least \$38.0 million a year, plus scheduled increases, from the General Fund to provide guaranteed funding for programs and services to seniors and adults with disabilities. This fund will expire on June 30, 2037.

Proposition J – A charter amendment that creates a Homeless Housing and Services Fund, which will provide services to the homeless including housing and navigation centers, programs to prevent homelessness and assistance to transitioning out of homelessness by allocating \$50.0 million per year for 24 years, adjusted annually; and create a Transportation Improvement Fund, which will be used to improve the City's transportation network by allocating \$101.6 million per year for 24 years, adjusted annually. Included in this proposition is an early termination clause that at any time before January 1, 2017, the Mayor, after consulting with the Budget Director and the Controller, and after taking into account the City's projected revenues and expenditures in the City's financial plans, may terminate sections of this charter amendment (Section 16.135 – Transportation Improvement Fund).

CITY AND COUNTY OF SAN FRANCISCO
Notes to Basic Financial Statements (Continued)
June 30, 2016
(Dollars in Thousands)

Proposition V – A City's Business Tax and Regulation Code amendment to impose a one cent per fluid ounce tax on the initial distribution within the City of sugar sweetened beverages beginning January 1, 2018.

Proposition W – An ordinance that increases the transfer tax rate for real property with a sales price of more than \$5.0 million, including leases of 35 years or more. The current tax rate will not change.

(c) Net Pension Liability

Subsequent to the fiscal year ended June 30, 2016, a GASB Statement No. 67/68 report for the San Francisco Employees' Retirement System (SFERS) dated November 2016 was issued by Cheiron, SFERS' actuary, resulting in a significant increase in the City's net pension liability. Based on this new report, the City's net pension liability is approximately \$5.48 billion, which will be reported in the City's financial statements for the fiscal year ending June 30, 2017 in accordance with GASB Statement No. 68. This increase is due to investment losses, the Appeals Court's elimination of the full funding requirement for certain members, and the impact of the revised demographic assumptions and change in discount rate.

(d) Property Transactions

On September 19, 2016, U.S. Department of the Navy transferred to the Treasure Island Development Authority (TIDA) portions of the former Naval Station Treasure Island including Site 27 Parcel (Clipper Cove), consisting of approximately 20.27 acres and Site 21 Parcel and Building 3, consisting of approximately 6.67 acres. This is the second transfer of Navy land to TIDA. The first transfer occurred on May 29, 2015. Both transfers are part of the Economic Development Conveyance Memorandum of Agreement between the United States of America, acting by and through the Department of the Navy and TIDA for the Conveyance of the Naval Station Treasure Island dated July 2, 2014.

Schedules of Funding Progress and Employer Contributions
Other Postemployment Healthcare Benefits
 June 30, 2016
 (Dollars in Thousands)

The schedules of funding progress presented below provide consolidated snapshots of the entity's ability to meet current and future liabilities with plan assets. Of particular interest to most is the funded status ratio. This ratio conveys a plan's level of assets to liabilities, an important indicator to determine the financial health of the OPEB plans. The closer the plan is to a 100% funded status, the better position it will be in to meet all of its future liabilities.

Schedule of Funding Progress – City and County of San Francisco –
Other Postemployment Health Care Benefits

Actuarial Valuation Date	Actuarial Asset Value	Actuarial Accrued Liability (AAL) Entry Age	(Under) funded AAL (UAAL)	Funded Ratio	Covered Payroll	UAAL as a % of Covered Payroll
07/01/10 ⁽¹⁾	\$ -	\$ 4,420,146	\$ (4,420,146)	0.0%	\$ 2,393,930	184.6%

CITY AND COUNTY OF SAN FRANCISCO

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Building Inspection Fund – Accounts for the revenues and expenditures of the Bureau of Building Inspection which provides enforcement and implementation of laws regulating the use, occupancy, location and maintenance of buildings. This fund shall be used by the Department of Building Inspection to defray the costs of the Bureau of Building Inspection in processing and reviewing permits applications and plans, filed inspections, code enforcement and reproduction of documents.

Children and Families Fund – Accounts for property tax revenues, tobacco tax funding from Proposition 10 and interest earnings designated by Charter provision. Monies in this fund are used as specified in the Charter and Proposition 10 to provide services to children less than eighteen years old, and to promote, support and improve the early development of children from the prenatal stage to five years of age.

Community/Neighborhood Development Fund – Accounts for various grants primarily from the Department of Housing and Urban Development including federal grants administered by the former Redevelopment Agency to provide for community development of rundown areas; to promote new housing, child care centers and public recreation areas; to provide a variety of social programs for the underprivileged and provide loans for various community development activities. This fund also includes proceeds from a bond issuance to benefit the Seismic Safety Loan Program which provides loans for seismic strengthening of privately-owned unreinforced masonry buildings in the City.

Community Health Services Fund – Accounts for state and federal grants used to promote public health and mental health programs.

Convention Facilities Fund – Accounts for operating revenues of the convention facilities: Moscone Center, Brooks Hall and Civic Auditorium. In addition to transfers for lease payments of the Moscone Center, this fund provides for operating costs of the various convention facilities and the San Francisco Convention and Visitors Bureau.

Court's Fund – Accounts for a portion of revenues from court filing fees that are specifically dedicated for Courthouse costs.

Culture and Recreation Fund – Accounts for revenues received from a variety of cultural and recreational funds such as Public Arts, Youth Arts and Yacht Harbor with revenues used for certain specified operating costs.

Environmental Protection Fund – Accounts for revenues received from state, federal and other sources for the preservation of the environment, recycling, and reduction of toxic waste from the City's waste stream.

Gasoline Tax Fund – Accounts for the subventions received from state gas taxes under the provision of the Streets and Highways Code and for operating transfers from other funds which are used for the same purposes. State subventions are restricted to uses related to local streets and highways, acquisitions of real property, construction and improvements, and maintenance and repairs.

General Services Fund – Accounts for the activities of several non-grant activities, generally established by administrative action.

Gift and Other Expendable Trusts Fund – Accounts for certain cash gifts which have been accepted by the Board of Supervisors on behalf of the City and the operations of two smaller funds that cannot properly be grouped into the Gift Fund because of their specific terms. Disbursements are made by departments, boards and commissions in accordance with the purposes, if any, specified by the donor. Activities are controlled by project accounting procedures maintained by the Controller.

Golf Fund – Accounts for the revenue and expenditures related to the City's six golf courses.

Human Welfare Fund – Accounts for state and federal grants used to promote education and discourage domestic violence.

Low and Moderate Income Housing Asset Fund – Accounts for the former Redevelopment Agency's affordable housing assets upon its dissolution on January 31, 2012.

CITY AND COUNTY OF SAN FRANCISCO

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS (Continued)

Open Space and Park Fund – Accounts for property tax revenues designated by Charter provision, interest earnings and miscellaneous service charges and gifts. Monies in this fund are used as specified in the Charter for acquisition and development of parks and open space parcels, for renovation of existing parks and recreation facilities, for maintenance of properties acquired and for after-school recreation programs.

Public Library Fund – Accounts for property tax revenues and interest earnings designated by Charter provision. Monies in this fund are to be expended or used exclusively by the library department to provide library services and materials and to operate library facilities.

Public Protection Fund – Accounts for grants received and revenues and expenditures of 21 special revenue funds including fingerprinting, vehicle theft crimes, peace officer training and other activities related to public protection.

Public Works, Transportation and Commerce Fund – Accounts for the revenues and expenditures of 13 special revenue funds including construction inspection, engineering inspection and other activities related to public works projects. In addition, the fund accounts for various grants from federal and state agencies expended for specific purposes, activities or facilities related to transportation and commerce.

Real Property Fund – Accounts for the lease revenue from real property purchased with the proceeds from certificates of participation. The lease revenue is used for operations and to pay for debt service of the certificates of participation. Sales and disposals of real property are also accounted for in this fund.

San Francisco County Transportation Authority Fund – Accounts for the proceeds of a one-half of one percent increase in local sales tax authorized by the voters for mass transit and other traffic and transportation purposes.

Senior Citizens' Program Fund – Accounts for grant revenues from the federal and state government to be used to promote the well-being of San Francisco senior citizens.

War Memorial Fund – Accounts for the costs of maintaining, operating and caring for the War Memorial buildings and grounds.

DEBT SERVICE FUNDS

The Debt Service Funds account for the accumulation of property taxes and other revenues for periodic payment of interest and principal on general obligation and certain lease revenue bonds and related authorized costs.

General Obligation Bond Fund – Accounts for property taxes and other revenues, (including the tobacco settlement revenues in excess of the \$100 million required to fund the Laguna Honda Hospital construction project) for periodic payment of interest and principal of general obligation bonds and related costs. Provisions are made in the general property tax levy for monies sufficient to meet these requirements in accordance with Article XIII of the State Constitution (Proposition 13).

Certificates of Participation (COP) Funds – Accounts for Base Rental payments from the various Special Revenue Funds and General Fund which provide for periodic payments of interest and principal. The COPs are being sold to provide funds to finance the acquisition of existing office buildings and certain improvements thereto, or the construction of City buildings such as the Courthouse, to be leased to the City for use of certain City departments as office space.

Other Bond Funds – Accounts for funds and debt service for the revolving fund loans operated and managed by the Mayor's Office of Community Development to assist with economic development efforts in low income neighborhoods (Facade Improvement Program) and for loans under the U.S. Department of Housing and Urban Development section 108 of the Housing and Community Development Act of 1974 (Fillmore Renaissance Center and Boys and Girls Club Hunters' Point Clubhouse).

CITY AND COUNTY OF SAN FRANCISCO

NONMAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for financial resources that are restricted, committed or assigned to expenditures for the acquisition of land or acquisition and construction of major facilities other than those financed in the proprietary fund types.

City Facilities Improvement Fund – Accounts for bond proceeds, capital lease financing, federal and local funds and transfers from other funds which are designated for various buildings and general improvements. Expenditures for acquisition and construction of public buildings and improvements are made in accordance with bond requirements and appropriation ordinances.

Earthquake Safety Improvement Fund – Accounts for bond proceeds, Federal/State grants and private gifts which are designated for earthquake facilities improvements to various City buildings and facilities. Expenditures for construction are made in accordance with bond requirements and grant regulations.

Fire Protection Systems Improvement Fund – Accounts for bond proceeds which are designated for improvements in fire protection facilities. Expenditures for construction are made in accordance with bond requirements.

Moscone Convention Center Fund – Accounts for proceeds from Moscone Convention Center Lease Revenue Bonds and transfers from the General Fund and Convention Facilities Special Revenue Fund. Expenditures are for construction of the George R. Moscone Convention Center and for related administrative costs.

Public Library Improvement Fund – Accounts for bond proceeds and private gifts which are designated for construction of public library facilities. Expenditures for construction are made in accordance with bond requirements and private funds agreements.

Recreation and Park Projects Fund – Accounts for bond proceeds, Federal and state grants, gifts and transfers from other funds which are designated for various recreation and park additions and development. Expenditures for acquisition and construction of recreation and park facilities are made in accordance with bond requirements and appropriation ordinances.

Street Improvement Fund – Accounts for gas tax subventions, bond fund proceeds and other revenues which are designated for general street improvements. Expenditures for land acquisition and construction of designated improvements are made in accordance with applicable state codes, City charter provisions and bond requirements.

PERMANENT FUND

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Bequest Fund – Accounts for income and disbursements of bequests accepted by the City. Disbursements are made in accordance with terms of the bequests.

CITY AND COUNTY OF SAN FRANCISCO
INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies on a cost reimbursement basis.

Central Shops Fund – Accounts for Central Shops equipment (primarily vehicle) maintenance service charges and the related billings to various departments.

Finance Corporation – Accounts for the lease financing services provided by the Finance Corporation to City departments. On July 1, 2001 the City established the Finance Corporation Internal Service fund because its sole purpose is to provide lease financing to the City. Previously, the activities of the Finance Corporation were reported within governmental funds.

Reproduction Fund – Accounts for printing, design and mail services required by various City departments and agencies.

Telecommunications and Information Fund – Accounts for centralized telecommunications activities in the City's Wide Area Network, radio communication and telephone systems. In addition, it accounts for application support provided to many department-specific and citywide systems, management of the City's Web site, operations of the City's mainframe computers and technology training provided to city the related billings to various departments for specific services performed and operating support from the General Fund.

CITY AND COUNTY OF SAN FRANCISCO

FIDUCIARY FUNDS

Fiduciary Funds include all Trust and Agency Funds which account for assets held by the City as a trustee or as an agent for individuals or other governmental units

Trust Funds

Employees' Retirement System – Accounts for the contributions from employees, City contributions and the earnings and profits from investments of monies. Disbursements are made for retirements, withdrawal, disability, and death benefits of the employees as well as administrative expenses.

Health Service System – Accounts for the contributions from active and retired employees, and surviving spouses, City contributions and the earnings and profits from investment of monies. Disbursements are made for medical expenses and to various health plans of the beneficiaries.

Retiree Health Care Trust - Accounts for the contributions from employees, City contributions and the earnings and profits from investment of monies. Disbursements are to be made for benefits, expenses and other charges properly allocable to the trust fund.

Agency Funds

Agency Funds are custodial in nature and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time.

Assistance Program Fund – Accounts for collections and advances received as an agent under various human welfare and community health programs. Monies are disbursed in accordance with legal requirements and program regulations.

Deposits Fund – Accounts for all deposits under the control of the City departments. Dispositions of the deposits are governed by the terms of the statutes and ordinances establishing the deposit requirement.

Payroll Deduction Fund – Accounts for monies held for payroll charges including federal, state and other payroll related deductions.

State Revenue Collection Fund – Accounts for various fees, fines and penalties collected by City departments for the State of California which are passed through to the State.

Tax Collection Fund – Accounts for monies received for current and delinquent taxes which must be held pending authority for distribution. Included are prepaid taxes, disputed taxes, duplicate payment of taxes, etc. This fund also accounts for monies deposited by third parties pending settlement of litigation and claims. Upon final settlement, monies are disbursed as directed by the courts or by parties to the dispute.

Transit Fund – Accounts for the quarter of one percent sales tax collected by the State Board of Equalization and deposited with the County of origin for local transportation support. The Metropolitan Transportation Commission, the regional agency responsible for administration of these monies, directs their use and distribution.

Other Agency Funds – Accounts for monies held as agent for a variety of purposes.

CITY AND COUNTY OF SAN FRANCISCO

Statistical Section

This section of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue sources, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Notes:

- (1) Effective with the implementation of GASB Statement No. 63, in fiscal year 2013, Net Assets was renamed Net Position.
- (2) In fiscal year 2015, the City adopted the provisions of GASB Statement Nos. 68 and 71. As restatement of all prior periods is not practical, the cumulative effect of applying these statements is reported as a restatement of beginning net position as of July 1, 2014.
- (3) Certain net position reclassifications were made to reflect the primary government as a whole perspective since fiscal year 2009. See Note 10(d) in the Notes to Basic Financial Statements for details.

Notes:

- (1) The City adopted GASB Statement No. 65 in fiscal year 2014 and began reporting the cost of issuance as an expense. Prior fiscal years have not been restated.
- (2) In fiscal year 2015, the City adopted the provisions of GASB Statement Nos.68 and 71. As restatement of all prior periods is not practical, the cumulative effect of applying these statements is reported as a restatement of beginning net position as of July 1, 2014.

Controller, City and County of San Francisco

Notes:

- (1) Assessed value of taxable property represents all property within the City. The maximum tax rate is 1% of the full cash value or \$1/\$100 of the assessed value, excluding the tax rate for debt service.
- (2) Exemptions are summarized as follows:
 - (a) Non-reimbursable exemptions are revenues lost to the City because of provisions of California Constitution, Article XIII(3).
 - (b) Reimbursable exemptions arise from Article XII(25) which reimburses local governments for revenues lost through the homeowners' exemption in Article XIII(3) (k).
 - (c) Tax increments were allocations made to the former San Francisco Redevelopment Agency under authority of California Constitution, Article XVI and Section 33675 of the California Health & Safety Code. Actual allocations are limited under an indebtedness agreement between the City and Redevelopment Agency.
- (3) Based on certified assessed values.
- (4) Based on year end actual assessed values.

Notes:

- (1) Proposition 13 allows each county to levy a maximum tax of \$1 per \$100 of full cash value. Full cash value is equivalent to assessed value pursuant to Statutes of 1978, Senate Bill 1656.
- (2) On June 6, 1978, California voters approved a constitutional amendment to Article XIII A of the California Constitution, commonly known as Proposition 13, that limits the taxing power of California public agencies. Legislation enacted to implement Article XIII A (Statutes of 1978, Chapter 292, as amended) provides that notwithstanding any other law, local agencies may not levy property taxes except to pay debt service on indebtedness approved by voters prior to July 1, 1978 or any bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978 by two-thirds of the voting public.

Estimated total direct and overlapping total debt per capita			\$5.343

Note: Overlapping districts are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping districts that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the City's taxable assessed value that is within the districts boundaries and dividing it by the City's total taxable assessed value.

(4) The pledged-revenue coverage calculations presented in this schedule conform to the requirements of GASB Statement No. 44 and as such differ significantly from those calculated in accordance with the bond indenture.

(5) Gross Revenue consists of charges for services, rental income and other income, investing activities and capacity fees.

(6) In accordance with GASB Statement No. 44, Water Department operating expenses related to the pledged revenues exclude interest.

(7) Interest payment was restated to exclude capitalized interest in FY 2011 through FY 2012. FY2012 through FY2015 also includes "springing" amendments.

(8) Adjustments column included adjustment to investing activities, depreciation and non-cash expenses, changes in working capital and other available funds presented in the published Annual Disclosure Reports.

Municipal Transportation Agency

(9) Prior to FY2013 revenue bonds were issued by the Parking Authority. The Parking Authority leased North Beach, Moscone, and San Francisco Hospital garages to the City. In return, the City pledged to pay off the debt service with a base (lease) rental payment. The gross revenue reflects base rental payments plus revenue from all meters in San Francisco except the meters on Port property. All the related revenue bonds were defeased/paid off in FY2013.

(10) In July 2012, the SFMTA issued its first revenue bonds, Series 2012A and B. Series 2012A refunded the bonds described above in Note (9) plus bonds issued by the City's nonprofit garage corporations. The gross pledged revenues consist of transit fares, parking fines and fees, rental income, investment income plus operating grants from Transportation Development Act (codified as Sections 99200 et seq. of the California Public Utilities Code) (the "TDA"), AB 1107 (codified at Section 29140 et seq. of the Public Utilities Code (the "AB 1107"), and State Transit Assistance.

(11) Prior to FY2013, the operating expense includes only the costs related to parking meter program excluding debt service payments.

(12) Effective FY2013, related to the new bonds as described in Note (10), the operating expense excludes expenses funded by the City's General Fund support paratransit restricted grants. In accordance with GASB Statement No. 44, operating expenses related to the pledged revenues exclude interest, depreciation and non-cash expense.

Notes:

- (1) Measure changed from median time to average time in FY 2008. Values for FY 2006 through FY 2007 reflect median time, FY 2008 through FY 2016 reflects average time.
- (2) Value for FY 2008 is based on a different source for population data than prior fiscal years. FY 2008 and FY 2010 have been restated.
- (3) Values for FY 2006 have been restated to be consistent as annual average for fiscal year from the MTA service standards reports.
- (4) The California Academy of Sciences opened on September 27, 2008.

N/A = Information is not available. Note that in most cases this is due to the fact that the City Survey, which was administered annually until 2005, then biennially afterwards, is the data source.

Re: Department of Homelessness & Supportive Housing 120 Day Report on *City Navigation Centers for the Homeless*

Dear Members of the Board of Supervisors,

On July 1, 2016 Mayor Lee signed the City Navigation Centers for the Homeless ordinance. In accordance with the ordinance the Department of Homelessness and Supportive Housing (HSH) is submitting this letter to update the Board on three required components of the ordinance: equitable entry plan, equitable exit plan and a housing revenue plan.

Equitable Entry & Exit Plans

Equity, transparency and fairness are at the heart of the Department of Homelessness and Supportive Housing's strategic framework and the new Coordinated Entry and Placement system that the department is building. Navigation Centers are one tool in the system and will be utilized in manner consistent with the overarching Coordinated Entry and Placement model we are building for the system as a whole. The purpose of Coordinated Entry and Placement is to ensure that people experiencing homelessness in San Francisco are matched with the most appropriate shelter, service and housing resources possible to meet their unique needs. People with the highest level of need and longest experience of homelessness will be match with the most intensive interventions and people with lower needs will be matched with less intensive interventions.

(2)

Jeff Kositsky
Director

Coordinated Entry and Placement better ensures that resources are distributed in a fair and transparent manner no matter where in the system a person first connects. In order to make Coordinated Entry and Placement successful we will utilize a universal assessment tool by population and the Online Entry and Navigation (ONE) system to track people's progress, identifying service and housing openings and make the most appropriate matches.

Access to and placement from Navigation Centers will be managed by the Coordinated Entry and Placement process once it is fully up and running. We are currently piloting the model for our federally funded supportive housing for veterans and chronically homeless adults and are in the planning process for implementation in the family system. We expect the Coordinated Entry and Placement system for families to launch in July 2017 and plan to have the full system operational by the end of 2018.

Coordinated Entry and Placement is a significant component of the HSH strategic framework. As such, HSH has engaged in a significant community engagement process in partnership with the Local Homeless Coordinating Board, service and housing providers and people experiencing homelessness. Components of the community engagement process included; 600 surveys, 17 focus groups, and 4 provider and community feedback session. Additionally as each component of Coordinated Entry and Placement is implemented there will be a robust community process with stakeholders to help determine the assessment tool and prioritization criteria used by subpopulation.

Until the Coordinated Entry and Placement system is fully operation HSH will utilize Navigation Centers to meet the pressing needs on our streets and as a pathway to housing for people in the first housing priority group under the current Federal pilot projects.

Housing Revenue Plan

Successful housing placements out of Navigation Centers, shelters or directly from the street depend on access to supportive housing. With the current supportive housing stock HSH makes between 400-600 placements annually for single adults (depending on expansion). This is insufficient to provide supportive housing placements to everyone in Navigation Centers, especially as HSH expands Navigation Center capacity.

Given the results of the November 2016 election nationally and locally, HSH's pathways to fund additional supportive housing is still to be determined. San Francisco receives approximately \$32million annually from the US Department of Housing and Urban Development to fund homeless programs and supportive housing. President-Elect Trump has given no indication that affordable housing, supportive housing, or homeless programs will be a priority. HSH will continue to work with our federal partners to advocate for the necessary resources to address homelessness locally, but cannot depend on expanded federal resources.

MAYOR EDWIN M. LEE
City & County of San Francisco

**Department of Homelessness &
Supportive Housing**

Jeff Kositsky
Director

Locally, Propositions J and K would have allocated approximately \$50 million annually to HSH for supportive housing and additional Navigation Centers. Without this revenue source the department is exploring alternative ways to fund the needed Navigation Center capacity, housing placements, and shelter improvements. Given the current funding realities HSH is advocating at the state level for resources needed to address the crisis of homelessness in San Francisco. For opportunities to fund local supportive housing and homeless assistance programs in the City and County of San Francisco and we look to the Board of Supervisors for the resources to meet the needs of people on our streets, and in our shelters and Navigation Centers. We must also look for opportunities to fund needed supportive housing and homeless assistance locally. We want to partner with the Board of Supervisors to find the needed resources to assist the thousands of people who experience homelessness annually connect to housing solutions.

This letter is submitted in conjunction with testimony at the December 1, 2016 meeting of the Public Safety and Neighborhood Services Committee. The testimony given provides an update to the Board of Supervisors on HSH's progress in implementing the legislation.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized loop followed by a horizontal line extending to the right.

Jeff Kositsky
Director
Department of Homelessness & Supportive Housing

**Navigation Centers:
Update on Ordinance No. 117-16**

The Challenge

San Francisco faces a significant challenge of homeless people living in encampments. The 2015 Point-In-Time count estimated that **6,700** people experience homelessness in San Francisco on any given night. **3,500** of those people are unsheltered living on the streets. The Department of Homelessness and Supportive Housing estimates that over the course of a year approximately 14,000 people will utilize homeless services in San Francisco.

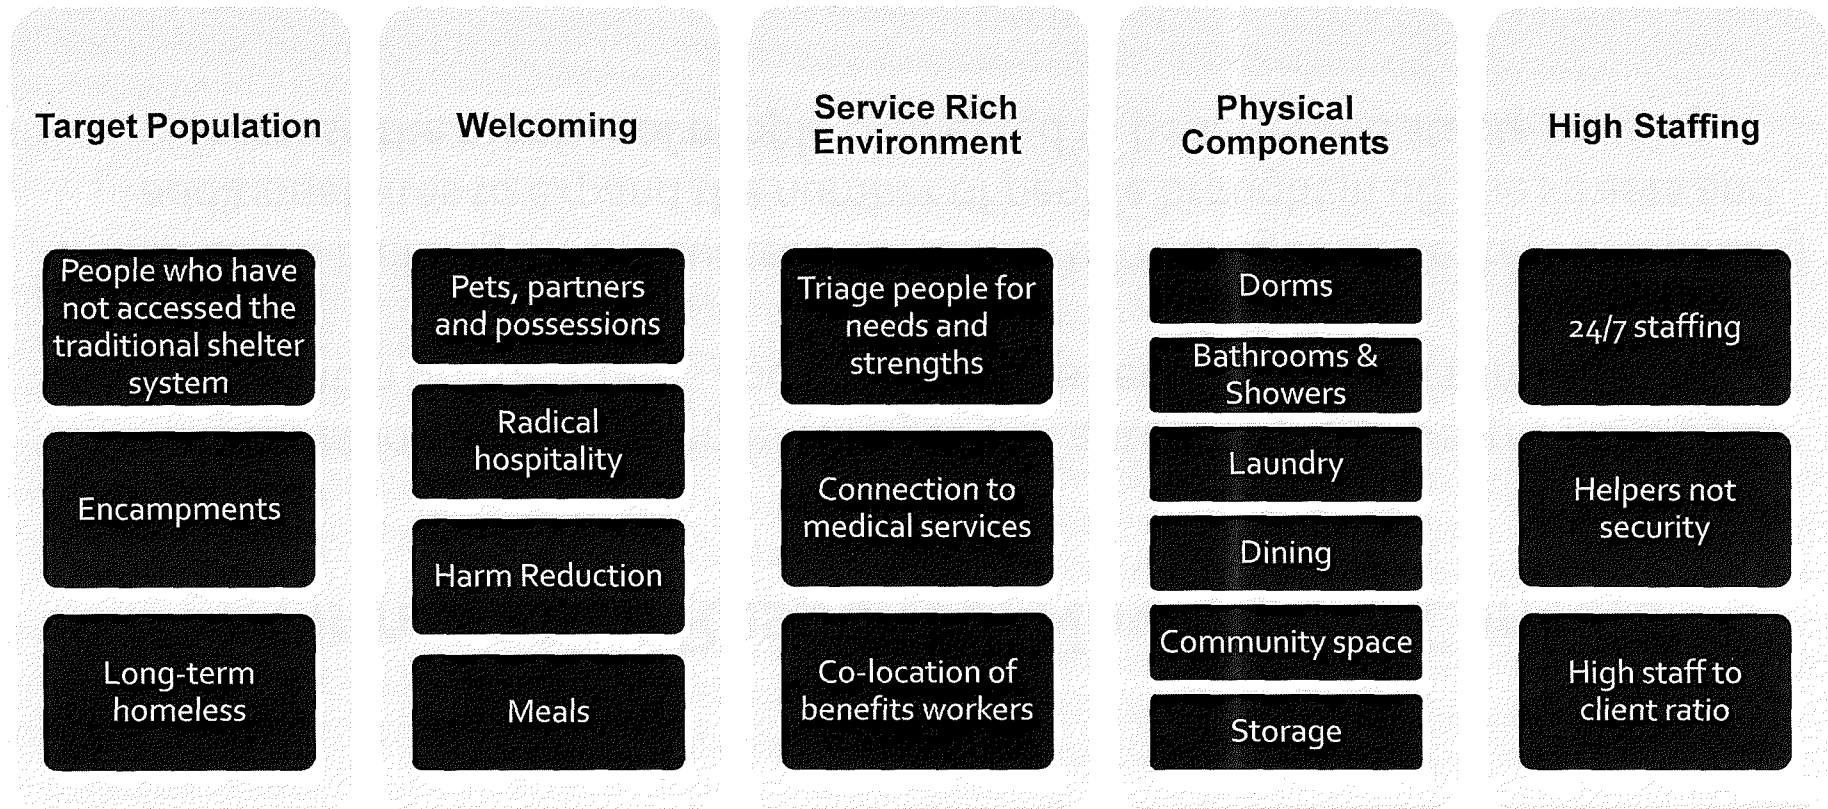

A Innovative Response: Navigation Centers

At the Mission and Civic Center Navigation Centers over 800 people have been brought in off the streets and connected to services, benefits and housing.

The City is building off the success of the first two Navigation Centers by opening additional sites to expand the number of people brought in off the streets and increase the number of people connected to benefits and stable housing.

Navigation Centers: A New Approach to Shelter

Navigation Centers: Update Since the Passage of Legislation

Mission Navigation Center (#1):

- 1950 Mission Street
- Opened March 2015
- Site will remain in use as a Navigation Center until at least summer of 2017
- Managed by Episcopal Community Services & Mission Neighborhood Resource Center
- Capacity = 75 beds
- Referral sources = Encampment Resolution Team & MNRC

Navigation Centers: Update Since the Passage of Legislation

Civic Center Navigation Center (#2)

- 20 12th Street
- Opened June 2016
- Managed by Community Housing Partnership
- Capacity = 93 rooms
- Referral sources = Coordinated Entry, HOT, & Mission Navigation Center

Navigation Centers: Update Since the Passage of Legislation

Central Waterfront Navigation Center (#3)

- To open in February 2017
- 600 25th Street - On Port Property
- Managing nonprofit TBD
- Capacity = 70 beds
- To be built with modular trailers
- 3 years of operations

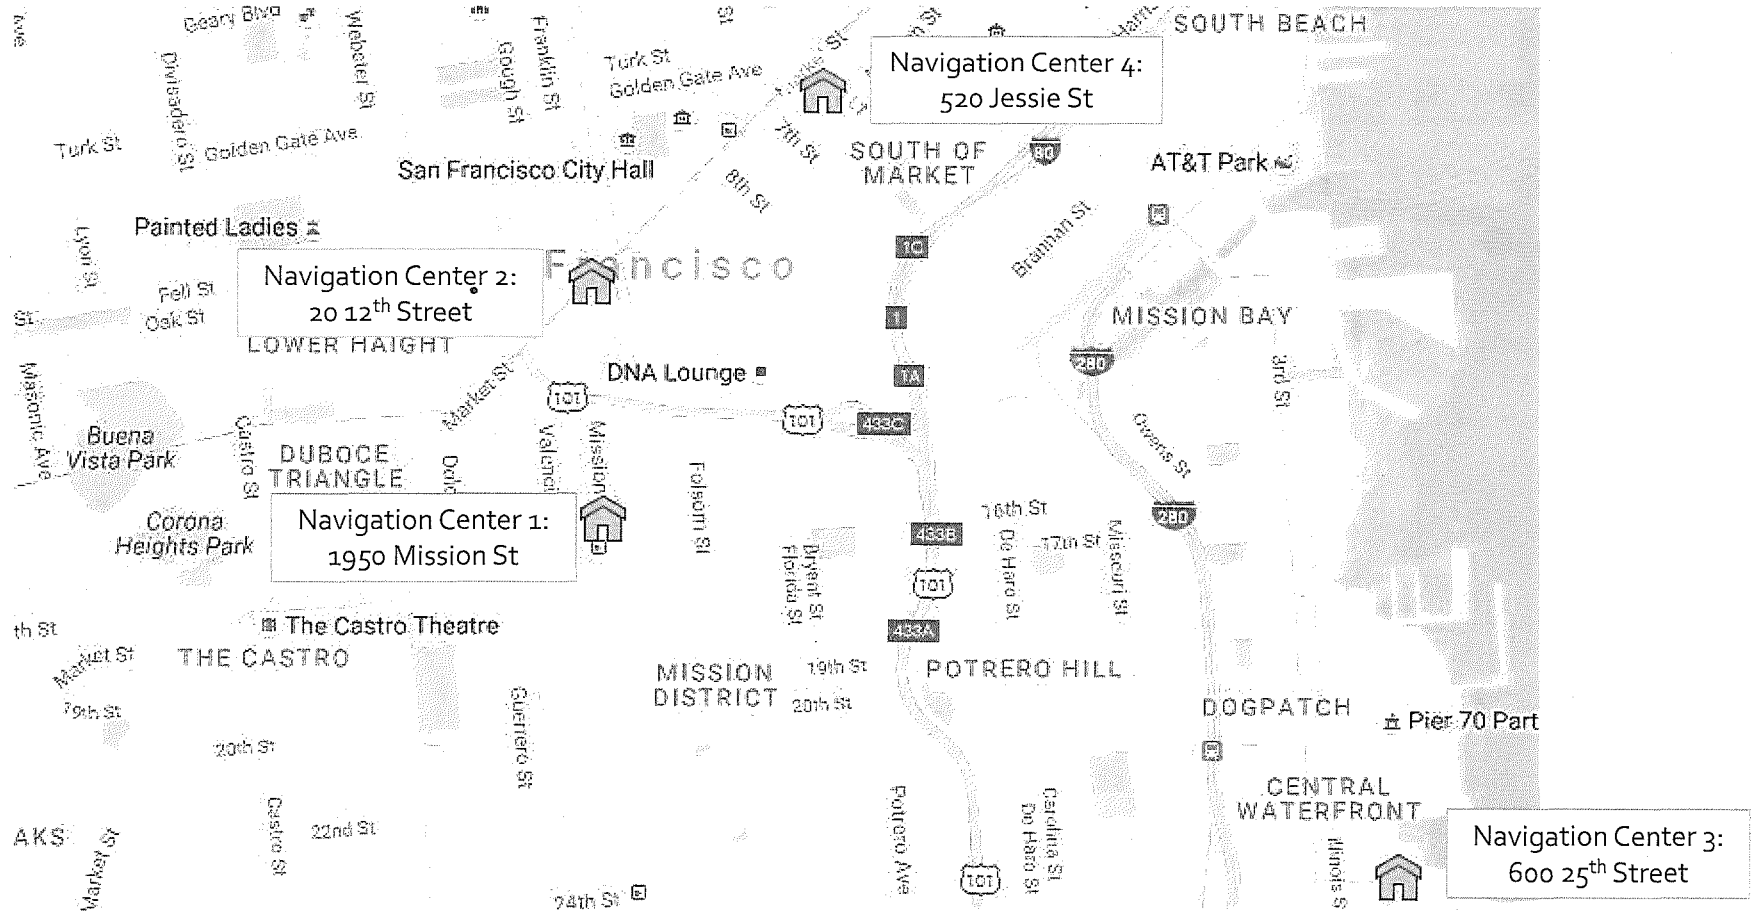

Navigation Centers: Update Since the Passage of Legislation

SOMA Navigation Center (#4)

- To open in 2017
- 520 Jessie Street
- Site and management provided by the Salvation Army
- Capacity = 100+ (exact layout TBD)

Client Outcomes

Client Outcomes

Placements from San Francisco's Navigation Centers:

- The Mission Navigation Center has served 864 individuals since opening in March 2015. 79% of all exits have been to stable destinations, including:
 - 25% of program exits have been to housing in San Francisco
 - 54% of exits have been to Homeward Bound

 - The Civic Center Navigation Center
 - Served 123 unique individuals since opening in July 2016
 - 60% of exits have been to permanent housing in San Francisco.

Navigation Centers Update: Equitable Entry and Exit Plan

Coordinated Entry & Placement is the plan for the fair and transparent distribution of housing, shelter, and navigation center resources across the system.

Navigation Centers are an important part of the larger system and a tool to link people on the streets with shelter and housing.

- Consistent assessment (by population)
 - Use of a system-wide database
 - People are matched with the most appropriate housing and service resources
 - Increases transparency and fairness in the placement process
 - Providers can share data so clients do not need to be re-assessed at every program
 - A client-centric (rather than program-centric) system

Navigation Centers Update: Explore the Feasibility of Alcohol Management Model

HSH staff has studied alcohol management programs

- HSH staff visited 1811 Eastlake, a supportive housing program for chronic public inebriates in Seattle
 - Alcohol management is best provided in a setting where people will be staying for an extended period of time
 - The program model works well in a supportive housing setting but is not suited to a shelter or Navigation Center model
 - Navigation Centers are operated in a harm-reduction model and sobriety is not required for participation or success
 - HSH follows DPH's recommendations around harm-reduction in our navigation centers, shelters and housing
- 

Navigation Centers: Community Outreach Process

With each Navigation Center, HSH has engaged in an extensive community outreach process with residents and businesses in the area.

Community Engagement Strategy:

- Partnership with the local Supervisor
 - Meetings with residents
 - Meetings and engagement with local businesses and associations
 - Site visits to other Navigation Centers
 - Partnerships with other City departments: Public Works, SFPD, and DPH
- 

Navigation Centers: Funding & Housing Revenue Plan

- Navigation Centers began in partnership with philanthropy and we continue to leverage private and corporate donations for Navigation Center expansion
 - HSH has secured operations funding for 3 Navigation Centers
 - Navigation Centers require significant resources and those resources must be allocated through the City's budget process
 - Navigation Center operations = \$2-3million annually per site
- 

Youth Focused Navigation Center

- Opening a Youth Navigation Center is budget dependent
 - HSH is actively seeking a site for a Youth Navigation Center
 - Focusing on districts that do not currently host a Navigation Center and that have a significant homeless youth population
- 

Controller's Office Report: Recommendations for Shelters

Reinvesting in Shelter: Lessons from the Navigation Center (August 2016)

Recommendations

1. Expansion of the Navigation Center's priority access to housing is unsustainable. HSH should establish an equitable citywide housing priority system via coordinated entry, based upon consistent, objective criteria and applied equally to all clients, regardless of location.
2. As resources allow, the City should prioritize investments in shelter improvements based on the tiers below:

Tier	High Priority	Medium Priority	Low Priority
Elements	<ul style="list-style-type: none"> • Housing Priority • Additional Case Management • On-Site HSA Eligibility Workers • Smaller Shelters • Holding Beds / No Curfew 	<ul style="list-style-type: none"> • Sheltered until Housed • Stay with Partner • 24-Hour Operation • Meals on Demand 	<ul style="list-style-type: none"> • Storage for Possessions • Allow Pets • Homeward Bound Beds

Commission of Animal Control and Welfare

RECEIVED
BOARD OF SUPERVISORS
SAN FRANCISCO
2016 DEC -2 PM 2:55
DL

November 25, 2016

Dear Supervisors,

As you probably know, in 1994 the San Francisco Animal Care and Control (SF/ACC) and the San Francisco Society for the Prevention of Cruelty to Animals (SF/SPCA) signed an agreement guaranteeing a home for all healthy San Francisco cats and dogs that entered SF/ACC. At that time, they also agreed to work together towards ending the euthanasia of San Francisco's "treatable" cats and dogs. The Partnership Statistics are generated annually by SF/ACC and the SF/SPCA as a tool to jointly document the intake and outcomes for San Francisco cats and dogs.

After a presentation by SF/ACC and SF/SPCA to the Commission of Animal Control and Welfare about the 2015 Partnership Statistics, we learned that more than one-third of the cats and dogs (2,657) came from outside San Francisco. Importing animals from outside San Francisco has become more common since at least 2007. These animals are transported to San Francisco by the SF/SPCA and put up for adoption. These cats and dogs are also reported in our City's Partnership Statistics and included in San Francisco's Total Live Release Rate. SF/ACC generally does not take animals from outside San Francisco and never includes animals from outside San Francisco in the Partnership Statistics.

We understand that when the Adoption Pact was signed in 1994, it was rare for dogs and cats to be imported into San Francisco. Including animals from outside San Francisco makes it impossible for the public to know the actual save rate for San Francisco animals. It also artificially inflates San Francisco's Total Live Release Rate because many of the dogs and cats transferred into San Francisco are presumed to be healthy and highly adoptable.

The current Partnership Statistics report includes a category to record the intake of cats and dogs from both within and outside San Francisco. However, the categories that reflect outcomes combine animals from both within and outside San Francisco. This makes it impossible to know what happens to San Francisco dogs and cats.

Because of these changes, the Commission recommends that the Partnership Statistics be updated so that the intake and outcomes of San Francisco's shelter dogs and cats are recorded in a way that the public knows what happens to San Francisco animals. Specifically, the Commission recommends that animals from outside San Francisco are excluded in the Partnership Statistics. This would align with current practices by the SF/ACC. An alternative solution would be to add a new calculation for the Total Live Release Rate for only San Francisco animals to the Partnership Statistics.

Knowing the intake, outcomes, and Live Release Rate for San Francisco animals is important for transparency and understanding what happens to shelter animals in our City.

As 2016 comes to a close, we believe that now is the time to address this inconsistency so that FY2016 data may be reported in a way that the public can easily understand. See attached chart for more details.

Angela Calvillo
Clerk of the Board, Board of Supervisors
San Francisco City Hall
1 Carlton B. Goodlett Place
San Francisco, CA 94102

Dear Ms. Calvillo,

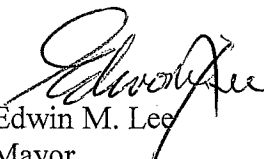

Pursuant to Section 3.100 (18) of the Charter of the City and County of San Francisco, I hereby make the following appointments:

Francis Xavier "FX" Crowley to the Civil Service Commission for a term ending June 30, 2019, to the seat formerly held by Dennis Normandy.

I am confident that Mr. Crowley, an elector of the City and County, will serve our community well. Attached are his qualifications to serve, which will demonstrate how this appointment represents the communities of interest, neighborhoods and diverse populations of the City and County of San Francisco.

Should you have any questions related to this appointment, please contact my Deputy Chief of Staff for Appointments, Francis Tsang, 415-554-6467.

Sincerely,

Edwin M. Lee
Mayor

CANDIDATE FOR SAN FRANCISCO SUPERVISOR, DISTRICT 7 (January—December 2012)
Placed 2nd by 132 votes among field of nine candidates in ranked-choice election.

INTERNATIONAL ALLIANCE OF THEATRICAL STAGE EMPLOYEES (IATSE) LOCAL 16
Business Manager (April 1997– May 2012)

Elected seven consecutive terms to head position of IATSE Local 16. Expanded jurisdictions and grew membership by 114 percent over eight-year period. Strategized, identified and executed actionable goals to promote, broaden and protect Local 16 workforce. Results included:

- Prevailing wage law for all theatrical, motion picture and convention crafts on City of San Francisco-owned, operated and leased properties.
- Training trust, which has become industry model, to provide continuing education and skill development for stage employees in technologically-driven sectors.
- California and San Francisco film incentive legislation to stimulate commercial and motion picture production and expand employment opportunities.

**Statement of the Results
 San Francisco Consolidated General Election
 November 8, 2016**

I, John Arntz, Director of Elections, certify that I have canvassed the ballots cast at the Consolidated General Election held on Tuesday, November 8, 2016, within the City and County of San Francisco, in the manner required by Division 15 of the California Elections Code.

I certify that I began the canvass immediately upon the close of the polls on November 8, 2016, and, as a result of the tabulation of all votes recorded, present a complete record entitled "Statement of the Results of the San Francisco Consolidated General Election – November 8, 2016." I also declare that the number of ballots cast in said election was 414,528, which signifies that 80.71% of San Francisco's 513,573 registered voters voted in this election. This election represents the greatest number of voters to participate in any election in the City's history and the highest number of ballot cards, nearly two million cards, processed by the Department of Elections.

In accordance with California Elections Code section 15400, I certify that the total number of votes cast for each candidate and for and against each measure is shown in this Statement of the Results and the precinct detail of all votes cast appears in the Statement of the Vote, which is posted on the Department of Elections' website at sfelections.org/results/20161108, and is incorporated by reference to this Statement of the Results.

This Statement of the Results includes tables that present summarized totals of votes cast in each contest. The tables are organized in the following manner:

1. Party-Nominated Office
 - President and Vice President of the United States
2. Voter-Nominated Offices
 - United States Senator
 - United States Representative, District 12
 - United States Representative, District 13
 - United States Representative, District 14
 - State Senator, District 11
 - Member of the State Assembly, District 17
 - Member of the State Assembly, District 19

6

3. Nonpartisan Offices
 - Judge of the Superior Court, Office No. 7
 - Member, Board of Education
 - Member, Community College Board
 - Bay Area Rapid Transit (BART) Director, District 7
 - Bay Area Rapid Transit (BART) Director, District 9
4. State Propositions 51–67
5. School Propositions A–B
6. City and County Propositions C–X
7. District Proposition RR
8. Local Offices
 - Member, San Francisco Board of Supervisors, District 1
 - Member, San Francisco Board of Supervisors, District 3
 - Member, San Francisco Board of Supervisors, District 5
 - Member, San Francisco Board of Supervisors, District 7
 - Member, San Francisco Board of Supervisors, District 9
 - Member, San Francisco Board of Supervisors, District 11

Although this Statement of the Results includes the contest for United States Representative, District 13, the boundary that places this district within San Francisco extends across San Francisco Bay and crosses the extreme southwest corner of Alameda Island. Other than this uninhabited corner, the district lies entirely within Alameda County. This is why the table showing results for this contest indicates 0 votes and 0% turnout.

For each results table, the candidate (or candidates, for contests with multiple seats) or ballot measure position with the most votes is preceded by an arrow ("→"). Note that, for contests that were voted on in other counties in addition to San Francisco, the results shown are for San Francisco only; the overall results and outcome may differ.

For this election, voters in even-numbered Supervisorial Districts voted using four-card ballots and voters in odd-numbered Supervisorial Districts voted using five-card ballots; the additional card included the contest for Board of Supervisors in those districts. The ballot contests were listed as follows:

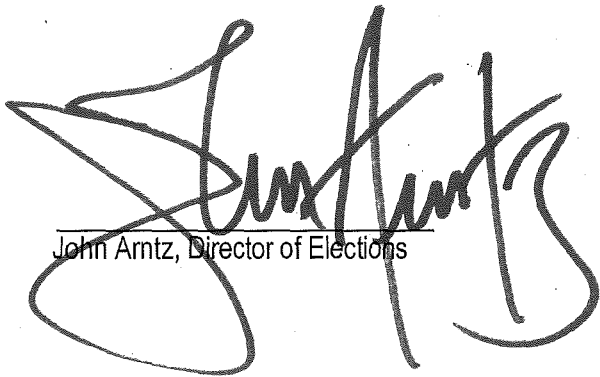

- **Card 1:** party-nominated office of President and Vice President of the United States; voter-nominated offices of United States Senator, United States Representative, State Senator, and Member of the State Assembly; and nonpartisan offices of Judge of the Superior Court, Board of Education, Community College Board, and BART Director (districts 7 and 9)
- **Card 2:** State propositions 51–62
- **Card 3:** State propositions 63–67 on the front; school and City and County propositions A–H on the back
- **Card 4:** City and County propositions I–X; district proposition RR
- **Card 5:** Office of Board of Supervisors (odd-numbered districts only)

Statement of the Results
San Francisco Consolidated General Election
November 8, 2016

The Department of Elections applied a SHA-512 cryptographic function to all results reports associated with this election. Attachment 1 provides information regarding the SHA-512 hash values for all electronic files associated with the final, certified results reports.

Attachments 2-4 provide detailed pass reports for the application of the ranked-choice voting tabulation method for the contest of Board of Supervisors for Districts 1, 7, and 11.

In witness whereof, I hereby affix my hand and seal this 6th day of December, 2016.

John Amtz, Director of Elections

Attachment 1

List of SHA512 hash values for Certified Results Reports
Consolidated General Election, November 8, 2016

19. "Ballot Image," votes cast on each ballot card that included a ranked-choice voting for the Board of Supervisors contests in the odd-numbered Supervisorial Districts.

Hash value:

D0F078A0E05E8B43F31C0DF6C6CCE4F6D62ACCFBAB0C51C0F2C4BADCCF1AA74890BA41B
DCA1CCE78E5F202365FD8FE75B8E3FA389EDBA1243FDDD109948204A0

20. "Master Lookup," provides the key to the data listed in the Ballot Image file.

Hash value:

8DC3F7B87FD77FF17D7BFC20800F5FCD2E50D4D1400A3A758AC5F604A1748372A98CE1527F
431D104AF5357E3F2CF1F8A76921716EF4807834AA65713598C2F0

21. "Precinct Turnout," the total number of votes cast in each precinct, using a text file format.

Hash value:

D4D6E2880BCA6004C2B263498BE20CA0083CC506C519D56C4D7C36F73F2F89D8403D2101C9
C28C066C7589ABD42A6C70328A2E131AF6487D6C8C270B6AEF7A97

22. "Neighborhood Turnout – PDF," lists vote totals according to San Francisco's neighborhoods in a PDF file.

Hash value:

8E8EFE15A70B91D3C88D779DF88BFCA20785E46D633E6B99229E0DCE437328FC863DAD7734
9F60C2945B6BDC50941484FF9CE64F018FD23F7F04ED15E85FA16

23. "Neighborhood Turnout – Excel," the total number of votes cast in each neighborhood in Excel worksheets.

Hash value:

5BADA3DAE8394F4C9117B750769DBC1F3D0EC18AC02E14D2390282FB179835528E536BEADC
1C31FFE953BE716320C76E1C2FD1020817778D69AEA2C3BF34897D

24. "SHA-512.csv," provides a list of all hashed election results files in a comma-separated values format.

Hash value:

3720033313913490E7D078058965E3E1E2DA8EFC9E9DF05C1A557422CEC7F613E1B44B8CF64

Statement of the Results
Consolidated General Election - November 8, 2016

NOTE: The counts for all overvotes (which occur when voters mark more than the allowed number of candidates, or, mark both "yes" and "no" for ballot measures) and undervotes (which occur when voters mark fewer than the allowed number of candidates, or, leave blank the voting targets for both "yes" and "no") are included, although neither overvotes nor undervotes represent valid votes cast and are not added to the tallies determining total votes for a candidate or whether a measure passes.

→ YES	297,640	81.32%	Overvotes	57
NO	68,379	18.68%	Undervotes	44,006

8. LOCAL OFFICES

I certify the results for the following **LOCAL OFFICES**.

For the ranked-choice voting contests for Board of Supervisors, the following tables provide "Round 0" totals for every contest, which represent how voters marked their ballots, before ranked-choice tabulation. Each contest also lists vote totals from "Round 1" which represent the number of first-choice selections after the advancement of second- and third-choice selections when the first-choice selection was not a valid vote. In Round 1, second- and third-choice selections advance whenever preceding choices are blank (undervoted) or contain write-in votes for those who have not qualified as write-in candidates.

Contests in which no candidate received a majority of votes in Round 1 required the elimination of candidates and the transfer of votes to remaining candidates using the ranked-choice voting method. The totals from the final round, in which votes were transferred to the two remaining candidates with the most votes, are indicated to the right of the Round 1 totals. The number of passes required to reach two remaining candidates is noted in parentheses.

Subject: File #161110, "Choice of Communications Services Providers in Multiple Occupancy Buildings"

Hello,

I am a long-term renter in San Francisco. Because of the current Police Code, my options for internet service providers is limited specifically to monopoly telecoms that cannot provide anything more than 1990's-era DSL connections.

This not only limits the utility of internet services in general, but it also makes it very difficult to work from home. Reasonable internet speeds are a good reason for me to not get in my car, drive it across town and park it somewhere. Please consider this when you review this change in the status quo.

Thanks for your time,

Jeff Dion

December 5, 2016

Attention: Clerk of the Board of Supervisors – Angela Calvillo
City Hall
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, CA 94102-4689

Dear Ms. Calvillo,

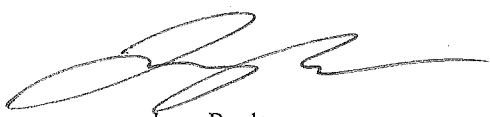

I write today to applaud the efforts of the San Francisco Board of Supervisors to expand access to high-quality broadband services for all residents. For decades, apartment owners and operators in San Francisco and across the nation have led the charge to increase access to high speed, reliable internet and appreciate the power it serves in people's lives. Additionally, I write to express concern over proposed Ordinance 161110, which was introduced on October 18, 2016 by Supervisor Mark Farrell. The ordinance is scheduled for consideration by the full Board on December 6, 2016. While well intentioned, I believe the ordinance could have a chilling effect on innovation and investment in broadband infrastructure and its deployment across San Francisco.

If enacted, Ordinance 161110 would terminate a property owners' ability to control access to their building and allow for unfettered access to the property by any internet service provider that is requested by a resident. In concept, this proposal would seem to allow for increased choice and competition, yet in reality implementation could have the exact opposite effect. First and foremost, the proposed ordinance fails to acknowledge that apartment owners across San Francisco and the country offer choice, when possible, of more than one communications provider to residents. This reflects a realization by apartment owners that high speed internet is a highly-demanded amenity and critical to a property's ultimate desirability. Secondly, the ordinance disincentivizes providers from making critical investments in wiring that facilitates internet service of all kinds in lieu of waiting for the property owner or another provider to install the necessary infrastructure before serving that property. Even further, uncontrolled access to the property, which allows for countless providers at one location, has the potential to limit the economic benefit of serving or investing infrastructure in a property—especially those where expected returns are already lower, such as affordable housing properties or smaller buildings.

Importantly, the reality of apartment operations is that there is only so much space available for necessary communications equipment. Older buildings, and many space constricted urban buildings such as those across San Francisco, are limited in how much wiring and equipment can be housed on site. Facilitating access or space for two or three providers can pose challenges and great cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements will cause an unruly and unmanageable system that ultimately harms both owners and residents. Lastly, the proposed ordinance does not address existing contractual obligations of property owners and service providers. Mandating access to the property by any requesting ISP will wreak legal and operational headaches upon all parties and harm the very consumers this legislation is intended to benefit.

Again, I sincerely applaud the Board for your work on this issue and your attempts to expand high quality broadband to all residents of San Francisco. It is a shared goal that we have in common. I would urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners so that residents of our properties and across San Francisco are able to reap the benefits of the power of unfettered access to high quality broadband.

Sincerely,

Jonas Bordo

Sent: Monday, December 05, 2016 6:58 PM
To: Avalos, John (BOS)
Cc: Board of Supervisors, (BOS); Bradley Johnson
Subject: Greystar: Regarding Ordinance 161110

Sent on behalf of Bradley Johnson:

Dear Supervisor John Avalos,

For more than 20 years, Greystar has set out to enrich the lives of residents in our communities by doing things the right way. We are in support of the Board's effort to expand and improve broadband services to all residents, but feel Ordinance 161110 may not be the right way to do so for all.

Greystar Property Management manages over 400,000 homes globally – The San Francisco Bay Area being a key market with just under 20,000 homes under management. San Francisco is considered a model of innovation for our region and organization. We live in a hotbed for innovation, and in part attribute our success to utilizing that unique feature. With the rapid growth of technology in this area, things are always improving. They are not only improving in the way of being bigger and better, but more cost efficient, secure and accessible as well. Access to these innovations is an absolute necessity in this market.

Ordinance 16110 disincentives communities from making critical investments that facilitates internet service of all kinds. It has the potential to limit the economic benefit of serving or investing infrastructure in a property—especially those where expected returns are already lower, such as affordable housing properties or smaller buildings.

If enacted, Ordinance 161110 would terminate a property owners' ability to control access to their building and allow for unfettered access to the property by any internet service provider that is requested by a resident. In concept, this proposal would seem to allow for increased choice and competition, yet in reality implementation could have the exact opposite effect. First and foremost, the proposed ordinance fails to acknowledge that apartment owners across San Francisco and the country offer choice, when possible, of more than one communications provider to residents. This reflects a realization by apartment owners that high speed internet is a highly-demanded amenity and critical to a property's ultimate desirability.

Importantly, the reality of apartment operations is that there is only so much space available for necessary communications equipment. Older buildings, and many space constricted urban buildings such as those across San Francisco, are limited in how much wiring and equipment can be housed on site. Facilitating access or space for two or three providers can pose challenges and great cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements will cause an unruly and unmanageable system that ultimately harms both owners and residents. Lastly, the proposed ordinance does not address existing contractual obligations of property owners and service providers. Mandating access to the property by any requesting ISP will wreak legal and operational headaches upon all parties and harm the very consumers this legislation is intended to benefit.

Again, we are in support of the Board for your work on this issue and your attempts to expand high quality broadband to all residents of San Francisco. It is a shared goal that we have in common. I would urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners so that residents of our properties and across San Francisco are able to reap the benefits of the power of unfettered access to high quality broadband.

RE: Ordinance 161110

Dear Supervisor Farrell,

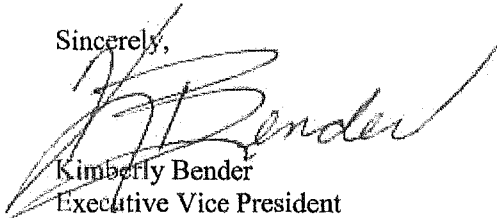

I write today to applaud your efforts, along with those of your colleagues on the San Francisco Board of Supervisors, to expand access to high quality broadband services for all residents. For decades, apartment owners and operators across San Francisco and the nation have led the charge to increase access for residents to high speed, reliable internet and appreciate the powerful tool it serves in people's lives. Additionally, I write to express concern over proposed Ordinance/File 161110, which was introduced on October 18, 2016. While well intentioned, I believe the ordinance could have a chilling effect on innovation and investment in broadband infrastructure and its deployment across San Francisco.

If enacted, Ordinance 161110 as proposed would terminate a property owners' ability to control access to their building and allow for unfettered access to the property by any internet service provider (ISP) that is requested by a resident. In concept, this proposal would seem to allow for increased choice and competition, yet in reality implementation could have the exact opposite effect. First and foremost, the proposed ordinance fails to acknowledge that apartment owners across San Francisco and the country offer choice, when possible, of more than one communications provider to residents. This is a realization by apartment owners that high speed internet is a demanded amenity and critical to a property's ultimate desirability. Secondly, the ordinance disincentives providers from making critical investments in wiring that facilitates internet service of all kinds in lieu of waiting for the property owner or another provider to install the necessary infrastructure before serving that property. Even further, uncontrolled access to the property, which allows for countless providers at one location, has the potential to limit the economic benefit to a provider of serving or investing infrastructure in a property—especially those where expected returns are already lower, such as affordable housing properties or smaller buildings since other providers could immediately thereafter utilize infrastructure installed by an initial provider.

Additionally, the reality of apartment operations is that there is only so much space available for necessary communications equipment. Older buildings, and many space constricted urban buildings such as those across San Francisco, are limited in how much wiring and equipment can be housed on site. Facilitating access or space for two to three providers is challenging enough and comes with great cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements resulting from additional providers will cause an unruly and unmanageable system that ultimately harms both owners and residents. Lastly, the proposed ordinance does not address existing contractual obligations of property owners and service providers that owners will be forced to breach if they must allow access to any requesting ISP. Mandating access to a property by any requesting ISP will wreak legal and operational headaches upon all parties and harm the very consumers this legislation is intended to benefit.

Again, I sincerely applaud you for your work on this issue and your attempts to expand high quality broadband to all residents of San Francisco. It is a shared goal that we have in common. I would urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners so that residents of our properties and across San Francisco are able to reap the benefits of access to high quality broadband.

Supervisor Mark Farrell
SAN FRANCISCO BOARD OF SUPERVISORS
City Hall
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, CA 94102-4689

RE: Ordinance/File 16110

Dear Supervisor Farrell,

Our firm represents Real Estate Owners in San Francisco with both public and private real estate holdings throughout the city. As such, we are very interested in being a part of the planning and deployment of your proposed Ordinance/File 16110 which was introduced on October 18th 2016.

We write to you to respectfully ask for the proposed Ordinance 161110 be delayed for a vote to allow us enough time to review and understand the economic impact report that was done for the City of San Francisco and in the absence of that, to prepare our own. RealtyCom, nor its clients, were alerted to this pending Ordinance until Wednesday before the Thanksgiving holiday, which has not provided enough time for us to begin to evaluate the financial impact for our clients nor to understand the operational aspects of carrying out the mandates of the proposed ordinance.

We agree that this is an important issue and as such would like to be able to make it a success for all, we just need time to better understand how this could work best and to offer our suggestions for its eventual implementation.

Thank you in advance for your consideration,

Anne H. Manfredi
President

Re: Resolution No. 161241 – Interim Zoning Controls on Indoor Agriculture

Honorable Members of the Land Use Committee and of the Board of Supervisors:

We write on behalf of our client, who is a Stakeholder with respect to this proposed resolution by virtue of being the holder, in good standing, of a medical cannabis dispensary permit that already has been issued by the City and County of San Francisco pursuant to Article 33, the Medical Cannabis Act.

As the Supervisors are aware, “cultivation” of medical cannabis did not have official legal status within California prior to the recent (October 2015) passage of the MMRSA. That legal status was further cemented under Proposition 64, the Adult Use of Marijuana Act (AUMA), passed by the voters on November 8, 2016.

Nevertheless, the City and County of San Francisco has had a longstanding practice of allowing holders of medical cannabis dispensary permits to cultivate, subject only to section 3308(f) (no more “than ninety-nine (99) cannabis plants in up to 100 square feet of total garden canopy...” at the dispensary site) and section 3308(h) (“any cultivation of medical cannabis on the premises of a medical cannabis dispensary must be conducted indoors”). Accordingly, it is fair to say that existing permit holders have had an entitlement to also cultivate within the City that arises from their status as a licensed dispensary.

From our reading, it is unclear whether the proposed Resolution No. 161241, as presently worded, is directed only at those who are newcomers to the dispensary permitting process or, alternatively, it is also meant to capture those who already are existing permit holders.

The phrase “proposed indoor Agriculture use”, which is repeated within the draft Resolution, leads one to believe it is the former. Because the issued dispensary permit already

includes a right to cultivate up to ninety-nine plants indoors at the dispensary itself, additional offsite cultivation by the permit holder is more than "proposed use". On the other hand, there is no specific phrasing within the Resolution that unambiguously exempts existing permit holders from the interim controls.

There are only a limited number of existing medical cannabis permit holders within the City and County of San Francisco. Of that class of Stakeholders, many licensees, including our client, have undertaken extraordinary planning efforts to build their dispensaries, working as solid partners with the City, under the firm belief that they would be able to deploy their right to cultivate at an offsite location at a later time. Now, in the view of those existing permit holders, their implied entitlements are being threatened (or at least, being called into question).

Accordingly, the most prudent course of action for the Board of Supervisors at this time would be to add a provision to draft Resolution No. 16241, to make clear that existing Article 33 medical cannabis permit holders in good standing are exempt from the interim zoning controls.

Thank you for the opportunity to submit this comment.

Respectfully,

A handwritten signature in black ink, appearing to read "H. Wykowski", with a long horizontal flourish extending to the right.

Board of Supervisors:

I am writing to submit my written comments on the appeals of Planning Commission ruling on 203 Cotter St, aka Golden Bridges School, aka file 161220.

I attended the planning commission hearing last month and spoke in support of this project, but am unable to attend the Board of Supervisors hearing on December 6th due to work.

I am ashamed at the NIMBYism displayed by my neighbors, especially the New Mission Terrace Improvement Association, of which I am a member. This school is a wonderful project and I support it fully. The school has done wonderful outreach in the neighborhood and has designed a beautiful campus that mitigates much of the environmental impact of building on this land. Golden Bridges school cannot be held responsible for the city's inaction on lower Cayuga's flooding issues. Nor can Golden Bridge school be held responsible for financially supporting Little City Farm, a for-profit business that apparently relies heavily on volunteer labor and free land, its two largest inputs, which does not seem to be a recipe for sustainability.

When I asked neighbors who opposed this if there were any type of project that they could support on this property, they gave me a non-answer of "we can only evaluate each project that comes up." I also asked them if they had made any efforts to purchase the land or convince the city to purchase the land and I got another non-answer. I believe the true answers to my question are 'no' and 'no.' It is clear that they enjoy the vacant land and wish that it never changes. But we live in a vibrant, dynamic city and progressive change must happen. This school is much preferable to anything else that could be built on this land and I urge you to deny the appellants appeals.

RE: CALTEL Support for Proposed Ordinance Re: Choice of Communications Services Providers in Multiple Occupancy Buildings

Dear Supervisor Avalos,

The California Association of Competitive Telecommunications Companies (CALTEL) is writing this letter in strong support of Supervisor Farrell's proposed ordinance that would increase access to competitive options for communications services for tenants of multiple occupancy residential and commercial buildings.

CALTEL is a non-profit trade association working to advance the interests of fair and open competition and customer-focused service in California telecommunications. CALTEL's members are competitive carriers that are certificated by the CPUC to provide voice and broadband services to residential, business and wholesale customers. A number of CALTEL member companies are facilities-based carriers who are investing in fiber deployments in San Francisco in order to provide high-speed Internet service to homes and businesses. For example, CALTEL member Sonic Telecom is deploying an FTTP architecture to serve residential customers in the Richmond district, and other CALTEL members like Level 3, TelePacific and XO deploy building laterals (fiber loops) to serve very large tenants (or multiple tenants) in commercial buildings.

However, these competitive providers often run into resistance from owners and managers of multi-occupancy buildings who deny them the access needed to reach customers that have expressed an interest in receiving these services. Building owners appear to be motivated by a number of factors, ranging from a lack of awareness that competitive alternatives exist to protection of exclusive agreements with incumbent providers. Whatever the cause, under the status quo, competitive providers have little recourse in resolving a building access dispute, resulting in harm to competition and competitive choice.

As an industry association representing competitive providers, CALTEL believes that Supervisor Farrell's proposed ordinance provides a clear, time-bound process that provides fair compensation to building owners, protects the safety of all building occupants, and provides competitive choice to customers of today's critical communications services.

California Association of
Competitive Telecommunications Companies

Communications, Commerce, Community

We therefore respectfully ask that you approve the proposed ordinance.

Sincerely,

/s/Sarah De Young

RESIDENTIAL

December 5, 2016

Dear San Francisco Board of Supervisors,

I write today to applaud the efforts of the San Francisco Board of Supervisors to expand access to high-quality broadband services for all residents. For decades, apartment owners and operators in San Francisco and across the nation have led the charge to increase access to high speed, reliable internet and appreciate the power it serves in people's lives. Additionally, I write to express concern over proposed Ordinance 161110, which was introduced on October 18, 2016 by Supervisor Mark Farrell. The ordinance is scheduled for consideration by the full Board on December 6, 2016. While well intentioned, I believe the ordinance could have a chilling effect on innovation and investment in broadband infrastructure and its deployment across San Francisco.

If enacted, Ordinance 161110 would terminate a property owners' ability to control access to their building and allow for unfettered access to the property by any internet service provider that is requested by a resident. In concept, this proposal would seem to allow for increased choice and competition, yet in reality implementation could have the exact opposite effect. First and foremost, the proposed ordinance fails to acknowledge that apartment owners across San Francisco and the country offer choice, when possible, of more than one communications provider to residents. This reflects a realization by apartment owners that high speed internet is a highly-demanded amenity and critical to a property's ultimate desirability. Secondly, the ordinance disincentivizes providers from making critical investments in wiring that facilitates internet service of all kinds in lieu of waiting for the property owner or another provider to install the necessary infrastructure before serving that property. Even further, uncontrolled access to the property, which allows for countless providers at one location, has the potential to limit the economic benefit of serving or investing infrastructure in a property—especially those where expected returns are already lower, such as affordable housing properties or smaller buildings.

Importantly, the reality of apartment operations is that there is only so much space available for necessary communications equipment. Older buildings, and many space constricted urban buildings such as those across San Francisco, are limited in how much wiring and equipment can be housed on site. Facilitating access or space for two or three providers can pose challenges and great cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements will cause an unruly and unmanageable system that ultimately harms both owners and residents. Lastly, the proposed ordinance does not address existing contractual obligations of property owners and service providers. Mandating access to the property by any requesting ISP will wreak legal and operational headaches upon all parties and harm the very consumers this legislation is intended to benefit.

Again, I sincerely applaud the Board for your work on this issue and your attempts to expand high quality broadband to all residents of San Francisco. It is a shared goal that we have in common. I would urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners so that residents of our properties and across San Francisco are able to reap the benefits of the power of unfettered access to high quality broadband.

Sincerely,

Maria Banks

December 5, 2016

Dear Supervisors,

We write to express concern over proposed Ordinance 161110, which was introduced on October 18, 2016 by Supervisor Mark Farrell. The ordinance is scheduled for consideration by the full Board on December 6, 2016. We believe the ordinance could have a chilling effect on innovation and investment in broadband infrastructure and its deployment across San Francisco.

If enacted, Ordinance 161110 would terminate a property owners' ability to control access to their building and allow for unfettered access to the property by any internet service provider that is requested by a resident. In concept, this proposal would seem to allow for increased choice and competition, yet in reality implementation will have the exact opposite effect. First and foremost, the proposed ordinance fails to acknowledge that it would ELIMINATE the motivation and existence of bulk agreements that provide low-cost, convenient, and ultra-fast access to the Internet and sometimes television services when the owner purchases internet for all of their resident base. These bulk agreements allow residents on fixed-income (seniors) or limited-income (students) to enjoy the benefits of connectivity with-out the high costs offered by other providers. This ordinance would dis-incentives both owners and providers from offering services in this manner and would financial cripple many of your underprivileged constituents. Secondly, the ordinance disincentivizes providers from making critical investments in wiring that facilitates internet service of all kinds in lieu of waiting for the property owner or another provider to install the necessary infrastructure before serving that property. Even further, uncontrolled access to the property, which allows for multiple providers at one location, has the potential to create operational mayhem with multiple technicians fighting for the same wire. Intentional and unintentional outages would be frequent leaving your constituent to suffer the resulting outages.

Importantly, the reality of apartment operations is that there is only so much space available for necessary communications equipment. Older buildings, and many space constricted urban buildings such as those across San Francisco, are limited in how much wiring and equipment can be housed on site. Facilitating access or space for two or three providers can pose challenges and great cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements will cause an unruly and unmanageable system that ultimately harms both owners and residents.

We urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners so that residents of our properties and across San Francisco are able to reap the benefits of the power of unfettered access to high quality broadband.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott P. Casey".

Dear Supervisor Farrell,

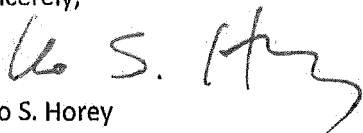

I write today to applaud your efforts, along with those of your colleagues on the San Francisco Board of Supervisors, to expand access to high quality broadband services for all residents. For decades, apartment owners and operators across San Francisco and the nation have led the charge to increase access for residents to high speed, reliable internet and appreciate the powerful tool it serves in people's lives. Additionally, I write to express concern over proposed Ordinance/File 161110, which was introduced on October 18, 2016. While well intentioned, I believe the ordinance could have a chilling effect on innovation and investment in broadband infrastructure and its deployment across San Francisco.

If enacted, Ordinance 161110 as proposed would terminate a property owner's ability to control access to their building and allow for unfettered access to the property by any internet service provider that is requested by a resident. In concept, this proposal would seem to allow for increased choice and competition, yet in reality implementation could have the exact opposite effect. First and foremost, the proposed ordinance fails to acknowledge that apartment owners across San Francisco and the country offer choice, when possible, of more than one communications provider to residents. This is a realization by apartment owners that high speed internet is a demanded amenity and critical to a property's ultimate desirability. Secondly, the ordinance disincentivizes providers from making critical investments in wiring that facilitates internet service of all kinds in lieu of waiting for the property owner or another provider to install the necessary infrastructure before serving that property. Even further, uncontrolled access to the property, which allows for countless providers at one location, has the potential to limit the economic benefit of serving or investing infrastructure in a property—especially those where expected returns are already lower, such as affordable housing properties or smaller buildings.

Additionally, the reality of apartment operations is that there is only so much space available for necessary communications equipment. Older buildings, and many space constricted urban buildings such as those across San Francisco, are limited in how much wiring and equipment that can be housed on site. Facilitating access or space for two to three providers is challenging enough and comes with great cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements will cause an unruly and unmanageable system that ultimately harms both owners and residents. Lastly, the proposed ordinance does not address existing contractual obligations of property owners and service providers. Mandating access to the property by any requesting ISP will wreak legal and operational headaches upon all parties and harm the very consumers this legislation is intended to benefit.

Again, I sincerely applaud you for your work on this issue and your attempts to expand high quality broadband to all residents of San Francisco. It is a shared goal that we have in common. I would urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners so that residents of our properties and across San Francisco are able to reap the benefits of the power of unfettered access to high quality broadband.

Sincerely,

Supervisor Mark Farrell
City Hall
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, CA 94101-4689

Dear Supervisor Farrell,

On behalf of Camden Property Trust, I would like to express concern over proposed Ordinance/File 161110, which was introduced on October 18, 2016. While assumed to be well intentioned, I believe the ordinance could have a substantial impact on innovation and investment in broadband infrastructure and its deployment across San Francisco. Along with other apartment owners and operators Camden has led the charge to increase access for residents to high speed, reliable internet at a reasonable cost.

Camden Property Trust is one of the largest publicly traded multifamily companies in the United State and owns interests in and operates 151 properties containing 52,506 apartment homes. Our portfolio presently includes 12 communities located in Los Angeles/Orange County and San Diego/Inland Empire and we continue to explore opportunities in additional CA markets. We feel the Ordinance would impact the value of the real estate in the San Francisco market and provide little incentives for Camden to pursue acquisition or development in this area.

If enacted, Ordinance 161110 as proposed would terminate a property owners' ability to control access to their building and allow for unrestricted access to the property by any internet service provider that is requested by a resident. The ordinance disincentives providers from upgrading wiring that facilitates internet service in lieu of waiting for the property owner or another provider to install the necessary infrastructure before serving that property. Additionally, uncontrolled access to the property, which allows for countless providers at one location, has the potential to limit the economic benefit of serving or investing infrastructure in a property- especially those where expected returns are already lower, such as affordable housing properties, senior living communities or smaller buildings.

The reality of apartment design is that there is limited space available for necessary communications equipment and there are limitations on how much wiring and equipment that can be housed on site. Facilitating access or space for two to three providers is challenging and comes with significant cost to property owners. Eliminating an owner's right to cap the number of service providers on site and the ensuing increase in space requirements will cause an unmanageable system that would potentially harm owners and residents. Lastly, the proposed ordinance does not address existing contractual obligations of property owners and service providers. Mandating access to the property by any requesting ISP will wreak legal and operational issues for all parties and harm the very consumers this legislation is intended to benefit.

While I commend you for your attempts to expand high quality broadband to San Francisco residents of San Francisco, I would urge you and your colleagues to amend Ordinance 161110 to align it with the realities faced by property owners and residents.

Sincerely,

Subject: SF Resident harmed by Short Term Rental Amendment

Hello Supervisors and Clerk of the Board,

I may sound politically savvy but I actually learned how to contact you, find the File# and contact the Clerk through phone calls I've made today.

I request that you modify the 60 day Short Term Rental limit to allow someone who owns only one property, that being their primary and ONLY residence, which they sleep in, to have more lenient rules. And/or please do not override a veto of the current Amendment, if one comes from the Mayor.

I'm a native San Franciscan. I support rent control and all other Tenant protections. When I was a tenant, I was a member of the San Francisco Tenants Union. **But people like me should not be harmed by laws meant to preserve affordable housing; we are in the same boat!**

I'm disabled, on a small fixed income. The family home (since 1951) was left by my mom whom I cared for, for many years. She recently passed at age 97. Short term rental of my guest room would have been my only way to afford staying in the home I love. I sleep here every night. I need a modest income supplement for medical and living expenses. How can I afford to stay here?

With the new 60 day limit, I will be one more person seeking affordable housing in SF. My needs would not be fair to a permanent housemate, as my medical issues require a friend to stay in the guest room and assist me from time to time.

As I've been going through the grieving process I have slowly been preparing the room for short term rental. **My property has never been listed as a short term rental. My intention was to get it ready, register with the city and follow all laws and regulations.** I'm now told that had I registered by November 14, I would not be affected by the new limit. The room isn't ready yet and that is the only reason I have not yet registered.

Please consider my situation and request.

To the Clerk: please distribute this and add it to any file related to a veto or modification of this Amendment (File # 161093).

Many thanks for all your time.

Sincerely,

-Peter Tempel

Subject: AIRBNB Regulations

To whom this may concern:

I'm a 3rd generation San Franciscan who has been lucky enough to have pooled the resources of my parents, grandmother combined with working as an RN in the city for 30 years to buy a home.

Maintenance on my home, taxes, insurance and a mortgage are sometimes a stretch, but I manage and am profoundly grateful to have bought a home and secured some safety in a city that is becoming increasingly hard to stay and live in due to the rising cost of living.

I've watched thousands of condos build around me in a matter of years, the skyline change so dramatically it is shocking. I've watched helplessly as my friends have migrated out of the city only because they could not afford housing.

The restrictions that limit a homeowner like myself to rent out my home for a finite amount of days is outrageous to me and quite frankly disgusting. How on earth the majority of SF Board of Supervisors can conclude that this limit is lawful and anything but further pressure on a hard working middle class homeowner trying to stay in the city of her origin. What does this restriction achieve?

If I want to travel and pay my mortgage, taxes and insurance by renting my home to a friend or fell traveller while I'm gone why should I not be able to do so?

I can't tell you how sick this makes me. There is no way on earth that imposing restrictions on a single family home owner of one home could possibly be positive and/or solve the housing crisis that this city is faced with.

I am not a rich landlord or developer. I don't benefit by renting out my home on short term in anyway other than allow me to continue staying in San Francisco and keep my house. You would rather my house stay empty except for a limited amount f days? What sense does this make and why?

I'm baffled and quite frankly furious. I'm disgusted in the Board of Supervisors. Who are you trying to help? Apparently not me or any other working class homeowner in San Francisco?

Beyond furious I'm sickened and so sad for this city and its failure to support the hard working middle class people that made it the city it is.

I will implore Mayor Lee to veto this ridiculous proposal, but shame on all of you for your failure to recognize who you are representing and just who is paying the price of your inability to see the short sightedness of your restrictions.

Sincerely disappointed and disgusted,

Lillian Reidy

From: Tracy Hepler <tracy.hep@gmail.com>
Date: Wed, Nov 23, 2016 at 1:44 PM
Subject: Please do not approve 60 day cap on AirBNB oridances
To: <Board.of.Supervisors@sfgov.org>

To the Board of Supervisors,

I'm writing you to request that you do not move forward with the 60 CAP on AIRBNB and other short term housing -- especially in owner occupied and hosted stays. I was just able to purchase my own home this past month and part of what made me comfortable taking on the risk of a costly mortgage and high property taxes is the comfort that I could rent out a room as needed in my home to help supplement the mortgage when needed. My fiance works as a freelancer and so work is not always a constant for him.

I realize that there have been frustrations with AIRBNB as a company and it does seem as if there could be improvements on the relationship and the cooperation and enforcement on their side -- but please understand that installing this cap not only harms their business it harms individual home owners who are looking for opportunities to build security in the country's most expensive city!

I would propose that you focus your efforts more on improving registration and penalizing those who don't than creating financially damaging legislation that does effect the citizens and tax payers of this city. I also want to remind you all that we recently voted against Prop F that called for more restrictions on AirBNB. I would hope that the Board of Supervisors would keep in mind the voice and preference of their constituents. It also feels aggressive for the Board of supervisors to tell property owners what they can or cannot do with their own home so long as we abide by the law.

At the end of the day realize that not every person wants to rent a room full time in their house, but rather having an occasional guest from time to time is a good and positive thing -- not only for the pocket book but for expanding connections and creating empathy and community in our city.

I think your priority should be to continue working with AirBNB to enforce registrations -- 2 years isn't enough time to give up on something. Sorry! You can work harder too ... it doesn't have to only be on AIRBNB etc. I'd also work to explore housing development in the city. People renting out a room in their home, isn't the main what's drying up affordable housing in this city.

I am planning to register my home with the city in two months as a short term renter once I'm eligible on February 15th. I'm hopeful that this legislation will not be the law of the land so that I too can participate in the sharing economy legally and in an equal way than my neighbor who was able to purchase a home before me. I was not able to financially afford a home before this fall. I don't think I should be penalized or stripped of a financial opportunity because of this.

Thank you for your time!

Sincerely,

Tracy Hepler of District 8 and first time home owner

RE: Appeal of CEQA Categorical Exemption Determination
Planning Case No. 2013.1383ENV
Building Permit Application Nos. 2013.12.16.4318 and 2013.12.16.4322
3516-3526 Folsom Street ("Project Site")

Dear President Breed and Honorable Members of the Board of Supervisors:

This firm represents two couples, Fabien Lannoye and Anna Limkin, and James and Patricia Fogarty (collectively, the "Project Sponsors"), who are the owners respectively of two vacant lots zoned for residential use located at 3516 and 3526 Folsom Street, upon which they propose to build two single-family homes and construct the adjacent "paper street" segment of Folsom Street to provide vehicular and pedestrian access to the site (the "Project"). The two lots are located at the Chapman Street terminus of Folsom Street in the Bernal Heights neighborhood. There are four other adjacent vacant lots located on this segment of Folsom Street; the Project Sponsors have no ownership interest in or control over these other lots.

I. History of the Project

Seeking to build modest homes for their families, the Project Sponsors purchased the lots in June 2013 after discussing the feasibility of their development with the Planning Department and other City agencies. Satisfied by the responses from the City, the Project Sponsors proceeded to design two residences that comply with the Planning Code, including the Bernal Heights Special Use District provisions, the General Plan, the City's Residential Design Guidelines, and the East Slope Design Review Guidelines. They worked with the Planning Department on the designs and made modifications in response to Planning Department suggestions. They met five times with the East Slope Design Review Board ("ESDRB") and further modified the project designs in response to the ESDRB's suggestions. They attended two Community Board Mediation sessions, and the Project was scrutinized in three Discretionary Review ("DR") hearings before the Planning Commission.

The Project Sponsors also worked with the Department of Public Works (“DPW”), SF Planning “Better Streets” and the Fire Department on an extension of Folsom Street that could serve the two residences and the adjacent vacant lots, if ever developed in the future.

As a PG&E natural gas transmission pipeline runs along the length of Folsom Street on the south slope of Bernal through the proposed Project Site, the Project Sponsors have been working with PG&E and DPW to ensure that the construction and occupation of the two residences will not cause any safety issues for the neighborhood.

Yet despite this thorough and cautious approach to constructing two single family residences, the Planning Department’s Section 311 Notice resulted in the filing of nineteen DR applications from neighbors (“DR Requestors”). The Planning Commission first reviewed the DR requests on March 31, 2016, at which time the Commission requested additional information from the Project Sponsors regarding the feasibility of constructing the extension of Folsom Street and continued the hearing until May 5, 2016. Following additional consultation between the Project Sponsors and DPW, the Department of Building Inspection (“DBI”), the Fire Department, the Public Utilities Commission, and PG&E, on May 5, 2016, the Planning Commission unanimously approved the Project by not taking DR and approving the Project as proposed and in accordance with Chapter 31 of the San Francisco Administrative Code. In doing so, the Planning Commission found that there were no extraordinary or exceptional circumstances in the case, no modifications to the Project were necessary, and it encouraged the Project Sponsors to work with the Planning Department staff on refining the design of the north facades of the residences.

II. CEQA Challenge

Having failed to stop the Project at the Planning Commission, the DR Requestors then turned their attention to CEQA and challenged the Planning Department’s determination that the Project is categorically exempt under CEQA. Specifically, on March 26, 2014, the Environmental Review Officer (“ERO”) of the Planning Department issued a Certificate of Determination: Exemption from Environmental Review finding that the Project was categorically exempt from CEQA review under Class 3: New Construction or Conversion of Small Structures (CEQA Guidelines Section 15303(a)) (the “2014 Determination”). In the 2014 Determination, the ERO also concluded that the Project Site was not located in a particularly sensitive or hazardous area and that there were no unusual circumstances involved with the proposed Project that suggested a reasonable possibility that it would cause a significant environmental effect.

Prior to the Board of Supervisor’s hearing on the CEQA appeal scheduled for July 19, 2016, the Planning Department determined that the 2014 Determination should be withdrawn and a new Categorical Exemption issued, which it did on July 8, 2016 (the “2016 Determination”). The withdrawal of the 2014 Determination required the Planning Commission to rehear the DR requests, which it did on October 13, 2016, and again the Planning Commission unanimously approved the Project by not taking DR.

The 2016 Determination concluded that the Project qualified for a categorical exemption pursuant to Class 3: New Construction or Conversion of Small Structures (CEQA Guidelines Section 15303). A categorical exemption under Class 3 involves construction and location of a

limited number of new, smaller facilities or structures. Subsection (a) allows the construction of up to three single-family residences in urbanized areas. Subsection (d) allows the construction of water mains, sewage, electrical, gas and other utility extensions, including street improvements, of reasonable length to serve the construction of the small structures. The Planning Department also determined in the 2016 Determination that none of the exceptions to the categorical exemption applies.

Now some of the DR Requestors (the "Appellants") appeal the 2016 Determination based on two arguments: first, that the Project is not eligible for a Class 3 categorical exemption, and second, that one or more exceptions to the categorical exemption exist and preclude reliance on the exemption. Both challenges fail for the reasons stated below.

III. Applicability of the Categorical Exemption

The Project qualifies for an exemption from CEQA review under CEQA Guidelines Section 15303(a) and (d) because the Project only involves the construction of two single-family homes, which falls within the criteria of Subsection (a) which specifically exempts up to three single-family homes in urbanized areas, and Subsection (d) which specifically exempts utility extensions and street improvements to service such construction. Appellants' contend without legal support or substantial evidence that the Project does not qualify for a Class 3 categorical exemption because it should include four additional residences that could be developed on the Folsom Street extension (and therefore exceeds the three residence threshold), and because the Folsom Street extension is not the type of "street improvement" contemplated by subsection (d). Appellants are wrong on both accounts. The Project only involves the construction of two single-family residences on two small lots owned by the Project Sponsors that are zoned for residential use. The Project Sponsors have no ownership or control of the four adjacent lots. In San Francisco, a project is not considered reasonably foreseeable for cumulative impact analysis under CEQA until an application has been filed for environmental review. See San Franciscans for Reasonable Growth v. City & Cty. Of San Francisco (1989), 209 Cal.App.3d 1502, 1526-27. In this case, no applications for development of the other four lots have been filed with the City. There is no question that the Folsom Street extension is a "street improvement" allowed by subsection (d).

Appellants' "piecemealing" argument rings hollow. If the Project Sponsors owned all six underdeveloped lots on the Folsom Street extension and brought forth development applications for two or three lots at a time, that would be piecemealing, but the Project Sponsors do not own or control the other four lots.

Similarly, Appellants' repeated references to the "revised project" find no support in the record. In fact, the footprints of the two residences, the front and rear setbacks, and the proposed driveway locations have remained the same throughout the lengthy project review process. The two residences always covered the width of their lots. The width of the street has been increased by four feet to improve circulation. Design changes implemented by the Project Sponsors have been limited to above-ground refinements to the Project massing and design in response to comments from the Planning Department, the ESDRB and neighbors. And although not required to do so, the Project Sponsors have submitted updated Geotechnical Reports to the Planning Department, in which the geotechnical consultant has confirmed his earlier conclusions about the viability and safety of the construction of the Project's construction.

IV. Exceptions to the Categorical Exemption

While categorical exemptions are subject to certain exceptions under CEQA, the Appellants either distort or ignore the plain language of the CEQA Guidelines and the case law interpreting them or rely on speculation and incorrect facts in an attempt to demonstrate that the exceptions apply. The Appellants have a clear burden under CEQA to demonstrate by substantial evidence that the exceptions apply and that the Project will result in significant environmental impacts. They have failed to do so. Under CEQA, “Argument, speculation, unsubstantiated opinion or narrative, evidence which is clearly erroneous or inaccurate, or evidence of social or economic impacts which do not contribute to or are not caused by physical impacts on the environment does not constitute substantial evidence.” CEQA Guidelines Section 15384(a) (defining “substantial evidence”).

When a lead agency finds that a proposed project is subject to a categorical exemption, it is not required to also determine that none of the exceptions applies. A determination that an activity is categorically exempt constitutes an implied finding that none of the exceptions to the exemptions exists. San Francisco Beautiful v. City and County of San Francisco (2014) 226 Cal.App.4th 1012, 1022. The burden then shifts to the objecting party to produce evidence that one of the exceptions applies. Berkeley Hillside Preservation v. City of Berkeley (2015) 60 Cal.4th 1086, 1105. Although not legally required to do so, in this case, the City’s ERO went further and discussed the inapplicability of any of the exceptions in the 2016 Determination.

Appellants argue without any substantial evidence and without any legal authority, that three exceptions apply and preclude reliance on a Class 3 categorical exemption: sensitive environment; cumulative impacts, and unusual circumstances. Each argument fails for the reasons discussed in detail below.

A. The Project Site Is Not a Particularly Sensitive Environment Under CEQA.

Appellants argue that the Project will cause a significant environmental impact because the Project Site is a particularly sensitive environment resulting from the presence of a PG&E natural gas pipeline adjacent to Folsom Street, steep terrain, and the proximity of the Bernal Heights Community Garden. Not surprisingly, Appellants cite only the language from CEQA Guidelines section 15300.2(a) that favors their argument and ignore the remaining language in the Guideline that demonstrates why it does not apply. The omitted language clarifies that this exception applies only where a “project may impact on an environmental resource of hazardous or critical concern *where designated, precisely mapped, and officially adopted pursuant to law by federal, state or local agencies.*” CEQA Guidelines Section 15300.2(a) (emphasis added). While the Project Site is mapped in an area subject to the Slope Protection Act as discussed in the 2016 Determination, the enacting ordinance created procedures for additional review of slope stability by DBI and established a Structural Advisory Committee for review of permit applications within the area. As noted by the Planning Department in the 2016 Determination, the existing regulatory program and requirements are sufficient to ensure that the Project would not result in a significant impact to slope stability. The Project Site contains no other environmental resource of hazardous or critical concern that has been designated or precisely mapped. None of the justifications for a “sensitive environment” cited by Appellants qualifies for this exception under CEQA. The PG&E natural gas pipeline, steep terrain, and the proximity of the Bernal Heights Community Garden are not environmental resources of hazardous or

critical concern that have been designated, precisely mapped and officially adopted pursuant to law, as requested by Guidelines Section 15300.2(a).

B. The Cumulative Impacts Exception Does Not Apply.

Next, the Appellants argue that the cumulative impacts exception applies because the Project actually will result in the construction of six residences, but they have provided no evidence that six residences would actually be constructed or that, even if they were, any significant environmental impacts would occur or are reasonably foreseeable. The Project involves the construction of two single-family homes on two small lots zoned for residential use. As discussed above, there are four other vacant lots zoned for residential use on the portion of Folsom Street that would be extended in connection with the Project. The Project Sponsors have no ownership or control of these other lots. The rule in San Francisco has long been that a project is not considered reasonably foreseeable for cumulative impact analysis under CEQA until an application has been filed for environmental review. San Franciscans for Reasonable Growth, 209 Cal.App.3d at 1526-27. In this case, no applications for environmental review other than for the Project have been filed with the City.

Even if other applications had been filed, Appellants have provided no substantial evidence that significant cumulative impacts would occur. See Hines v. California Coastal Commission (2010) 186 Cal.App.4th 830, 857 (speculation that significant cumulative impacts will occur simply because other projects may be approved in the same area is insufficient to trigger this exception).

The 2016 Determination evaluated the cumulative effects of shadow and transportation for the Project in addition to potential development on the four adjacent lots and concluded that the Project would not result in a considerable contribution to any cumulative environmental impacts. First, the Project will not result in a considerable contribution to any cumulative shadow impact that could result from the development of the adjacent lots. Even if those lots were to be developed, they would be required to undergo environmental review in accordance with CEQA and would require a shadow analysis. Second, the Project would generate an estimated nine daily vehicle trips. If the adjacent lots were to be developed, an additional 18 daily vehicle trips would result. The combined daily vehicle trips from the Project in combination with the adjacent lots would not result in a substantial number of trips that could adversely affect the local transportation system. Finally, the 2016 Determination notes that any subsequent development would be required to comply with the same regulations as the Project.

It is ironic that Appellants cite as evidence of cumulative impacts that the Project Sponsors might install utilities for six lots when the Project Sponsors offered to do so only to address the concerns of Appellants and other neighbors. During the course of five neighborhood design review meetings and two Community Board mediation sessions, numerous neighbors expressed concerns that their lives could be disrupted in the future when the Folsom Street extension would need to be dug up to install utilities if and when other property owners sought to build residences on the other four vacant lots. To address this concern, the Project Sponsors offered to stub in utilities for the other four lots.

C. The Unusual Circumstances Exception Does Not Apply.

Finally, the Appellants contend that unusual circumstances preclude the reliance on a categorical exemption, again pointing to the presence of the PG&E natural gas pipeline, the steep

terrain and proposed steep street extension, and the proximity of the Bernal Heights Community Garden. In a letter attached as an exhibit to Appellants' earlier appeal, the Sierra Club cites to the risk of strong seismic shaking in the event of an earthquake as evidence of unusual circumstances.

CEQA Guidelines Section 15300.2(c) provides that "a categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances." The California Supreme Court recently addressed this exception in the Berkeley Hillside case, and the Court held that the exception only applies when both unusual circumstances and a significant impact as a result of those unusual circumstances are shown. Berkeley Hillside, 60 Cal.4th at 1104. In doing so, the Court concluded that a potentially significant environmental effect is not itself sufficient to constitute unusual circumstances, but the significant impact on the environment must be due to unusual circumstances. Berkeley Hillside, 60 Cal.4th at 1105.

The Court also held that an agency's determination as to whether or not an impact is due to unusual circumstances is governed by the more deferential "substantial evidence" test, meaning an agency's factual determination on the issue of unusual circumstances will be upheld if there is any credible evidence supporting it, even in the face of conflicting evidence. Berkeley Hillside, 60 Cal.4th at 1112, 1115. Without unusual circumstances, the exemption will stand and no additional CEQA analysis is required. If substantial evidence supports a finding of no unusual circumstances, the exemption should stand even if an impact is possible.

i. **The Presence of a PG&E Pipeline Is Not an Unusual Circumstance**

Appellants allege, without providing any substantial evidence, that the presence of PG&E Transmission Pipeline #109 at the Project Site creates unusual circumstances because it creates a "hazardous area" and "a significant threat to public safety." But this pipeline, which runs from the 280 Freeway to Bernal Heights Boulevard and then throughout several residential neighborhoods in the City's southeastern areas, as well as other pipelines, are common in the City and do not create an unusual circumstance. The issue is thoroughly discussed in the 2016 Determination which constitutes substantial evidence to support the Planning Department's conclusions. There are hundreds of thousands of homes and structures in San Francisco that are located in close proximity to PG&E pipelines, and PG&E has strict protocols for construction activities within ten feet of any of its pipelines. This is demonstrated by evidence in the administrative record, including materials known to but ignored by Appellants, such as PG&E's Q&A's, which are attached hereto as **Exhibit A**.

Not only is the presence of the transmission line not unusual in San Francisco, Appellants have not provided any substantial evidence that the Project would cause a significant environmental impact because of the pipeline. Appellants' repeated speculation that the construction of the Project will result in an explosion that will destroy the neighborhood is simply that—speculation. For example, Appellants' reference to a 1989 statement from an unidentified person at DPW, references to the San Bruno explosion, and the assertion that the pipeline operates at reduced pressure due to concerns about its age and integrity are all unsupported by facts and do not constitute substantial evidence.

Appellants' reliance on statements made by Professor Bea also do not constitute substantial evidence that the pipeline creates an unusual circumstance that would cause a significant environmental impact for several reasons. First, he is obviously responding to a set of

questions or information provided by one of the Project opponents, but those questions and information are not contained in the record. Nonetheless, his conclusion that Pipeline #109 poses identical risks as the San Bruno pipeline is contradicted by substantial evidence in the record which Appellants ignore. In fact, Pipeline #109 was constructed in 1981 (not installed in 1956 like the San Bruno pipeline), has been regularly inspected by PG&E, is four inches smaller in diameter and operates at a much lower pressure specifically to reduce risk. See Exhibit A. It is interesting to note that Professor Bea's safety chart, submitted to the Planning Commission by the DR Requestor, Herb Felsenfeld, as Attachment E-6 in his application, begins to assess risk of pipeline catastrophe with a pipeline pressure of 500 pounds per square inch, which is shown on the attached **Exhibit B**. Indeed, in support of the safety chart, Professor Bea states in his email,

I have attached a graph that helps me explain the important concepts associated with determining if a system is safe or unsafe. The vertical scale is the likelihood of a failure. The horizontal scale is the consequences associated with a failure. The diagonal lines separate the graph into two quadrants: safe and not safe. If the potential consequences associated with a failure are low, then the likelihood of the failure can be high. If the potential consequences are very high, then the probability of failure must be very low.

However, Pipeline #109 falls within Professor Bea's "Safe" quadrant, as it operates at 150 pounds per square inch, which is less than 20% of its specified minimum yield strength.

Similarly, Appellants' argument that the Project site is the only High Consequence Area in San Francisco where a PG&E transmission pipeline is unprotected by asphalt and therefore constitutes unusual circumstances is unconvincing. First, all of the City lies within a High Consequence Area. Second, the fact that Pipeline #109 is uncovered for 125 feet at the Project site is hardly dispositive of unusual circumstances. Obviously, when Pipeline #109 was first installed in multiple San Francisco neighborhoods in 1981 and since then, City streets and asphalt were installed over the pipeline and City streets have been repaired above the pipeline. The work at the Project site will be no different than other work that has occurred over miles of Pipeline #109 over the years without incident. Appellants are unable to establish that the location of Pipeline #109 in proximity to the Project Site is an unusual circumstance and that a significant environmental effect may result from the implementation of the Project.

ii. Traffic Is Not an Unusual Circumstance

Appellants argue without any evidence that the existing homes' driveways and parking will be functionally eliminated and that the proposed new residences will lack functional parking due to the proposed street's nonconformities. DPW and the Project's civil engineer will ensure that this is not the case. The Project Sponsors have offered to work with the two existing neighbors to ensure that the final design of the Folsom Street extension preserves access to their garages and have offered to improve the existing driveways while paying all costs for design, permitting and construction.

Appellants' contention that the Project will cause a substantial impact on community parking and traffic is pure speculation. The Project includes no on street parking on the proposed Folsom Street extension at the request of the City. The suggestion that the two new residences will not have any off-street parking is simply untrue. Each residence will have a two-car garage that will be fully functional. Access to existing driveways and the Project's driveways will be further ensured with the City's Street Design Advocacy Team's recent approval of a 20' street width and a two-foot increase in curb cut lengths to 12 feet. The fact that

the Folsom Street extension will be steep and will not contain on-street parking does not mean that delivery trucks cannot access the new residences or existing residences. There is no evidence whatsoever that the Project will have an undue effect on Bernal Heights Park's limited public parking or on access for those who need a wheel-chair enabled parking spot. In any event, parking shortages are not deemed to be CEQA impacts in San Francisco.

V. Other Issues Raised by Appellants Fail for Lack of Substantial Evidence Or Are Outside the Scope of CEQA and this Appeal.

Appellants have presented no evidence that drainage will be significantly affected by the introduction of the proposed street extension or the Project itself. Rather, installation of new storm water collection systems, including permeable planters along the Folsom Street extension, will improve drainage in the vicinity.

Appellants have presented no evidence that garbage, recycling and compost pick up will create a significant public health hazard. The Project Site is no different from many other sites in San Francisco that are adequately serviced by waste management companies.

Nor is there any evidence to support Appellants' argument that the Project will cast a shadow on the Bernal Heights Community Garden, block light to adjacent properties or create a wall blocking significant public views from Bernal Heights Boulevard. Rather, the evidence that has been submitted is to the contrary: shadow studies submitted to the Planning Department demonstrate that the Project will cast minimal shadows on the Bernal Heights Community Garden, but that shadow would be limited to only certain periods in the winter and summer, and the new shadow would only fall on a portion of the southwestern corner of the Bernal Heights Community Garden in the evening after 5:30pm. Similarly, photomontages showing the effect of the Project on views from the Bernal Heights Community Garden and from Bernal Heights Boulevard demonstrate the Project's de minimus impact on views. Appellants' photo montages are taken from farther down the hill to distort the effect of the new residences on views.

Several issues raised by the Appellants are not germane to CEQA and are irrelevant to the 2016 Determination. These include the steepness of the proposed extension of Folsom Street, the speculation that the proposed street will not be "accepted" by the City but rather will require maintenance by existing fronting homeowners, and compliance with the East Slope Design Guidelines. As to the first issue, the Project Sponsors have consulted with the San Francisco Fire Department to ensure the Project meets the requirements of the San Francisco Fire Code. San Francisco Fire Code 503.1.1 provides that a Fire Official may offer an exception for steep streets if they are shorter than 150 feet, which the proposed street would be, and if the residential units along the street are equipped with approved automatic sprinkler systems. The Project will not pose any hazards to public safety because the Project is within 150 feet of approved fire access roads and will include fire suppression systems in accordance with the San Francisco Fire Code. As to the second issue, whether the City will accept the street as a public street, CEQA does not address economic and social issues. Finally, the Planning Department found that the Project was consistent with the East Slope Design Review Guidelines, and in any event, the allegation does not raise aesthetic or land use issues under CEQA.

In addition, the local chapter of the Sierra Club, in a letter attached to Appellants' earlier letter of appeal, also alleges that reliance on a categorical exemption is inappropriate because the Project Site would be subject to strong ground shaking during a seismic event and that the Project involves mitigation which cannot be used to avoid a significant impact when relying on a

categorical exemption. But of course, the entire Bay Area and much of California is subject to strong ground shaking during a seismic event, and there is nothing unusual about the Project Site compared to the rest of earthquake country. DBI's enforcement of the Building Code, which includes provisions to minimize seismic risk, does not constitute an impermissible mitigation measure.

* * * * *

The California Supreme Court has held repeatedly that "rules regulating the protection of the environment must not be subverted into an instrument for the oppression and delay of social, economic, or recreational development and advancement." Citizens of Goleta Valley v. Board of Supervisors (1990) 52 Cal.3d 553, 576. As Appellants have utterly failed to meet their legal burden to provide substantial evidence demonstrating that an exception exists or that the Project would cause a significant environment impact, thereby precluding the Planning Department's 2016 Determination that the Project qualifies for a categorical exemption, the Project Sponsors respectfully request that the Board reject this appeal and uphold the Planning Department's 2016 Determination. Three and one-half years after the Project Sponsors purchased these two lots and 39 months after they filed for environmental review, it is past time to allow the Project Sponsors to construct these two single-family homes.

Sincerely,

Charles R. Olson

EXHIBIT A
[PG&E's Qs&As]

Q&A's from PG&E:

Background: Lot 13 and Lot 14, Block 5626; 3516 Folsom St.; 3526 Folsom St. Concerned neighbors require explicit information about Pipeline 109. Thus we are sending the following request for information to the developer and to you as a representative of PG&E. As the owner of the above listed lots, in the vicinity of Pipeline #109 in Bernal Heights, we, concerned neighbors, are asking you to provide the following information:

QUESTION(S) 1: Where exactly is pipeline 109?; identify the longitude and latitude coordinates.

RESPONSE(S) 1: Please see attachment "L109_Folsom_Street.pdf" for the location of Line 109 near 3516 and 3526 Folsom Street, San Francisco. PG&E does not provide latitude and longitude of natural gas pipelines to outside parties (other than its regulators) for security reasons. To have PG&E identify the location of the gas lines in your street, please call USA, the Underground Service Alert, at 811.

QUESTION(S) 2: How deeply is #109 buried?

RESPONSE(S) 2: Gas transmission pipelines are typically installed with 36 to 48 inches of cover. However, the depth may vary as cover over the lines may increase or decrease over time due to land leveling and construction. Without digging and exposing the line, it is not possible to determine the exact depth.

QUESTION(S) 3: What is Pipeline #109 composed of?

RESPONSE(S) 3: Line 109 is a steel pipeline. In your neighborhood, this pipeline has a maximum allowable operating pressure (MAOP) of 150 pounds per square inch gage (psig), which is 19.8% of the pipe's specified minimum yield strength (SMYS). This provides a considerable margin of safety, since it would take a pressure of at least 750 psig to cause the steel in the pipe to begin to deform.

QUESTION(S) 4: How old is Pipeline #109?

RESPONSE(S) 4: Line 109 in this area was installed in 1981 and was strength tested at the time of installation.

QUESTION(S) 5: How big in diameter is Pipeline #109? What is the composition of the pipeline?

RESPONSE(S) 5: Line 109 in your vicinity is a 26-inch diameter steel pipeline.

QUESTION(S) 6: How/with what are the pipe seams welded?

RESPONSE(S) 6: Line 109 near 3516 and 3526 Folsom Street is constructed of API 5L-Grade B steel pipe, and has a double submerged arc weld along the longitudinal seam.

QUESTION(S) 7: How much gas runs through Pipeline #109?

RESPONSE(S) 7: Line 109 has a variable flow rate that is dependent on system operations and San Francisco area gas customer consumption. As points of reference, however, Line 109 observed flow rates of 1.55 – 2.375 million standard cubic feet per hour (MMSCFH) through the flow meter at Sullivan Avenue in Daly City on May 27, 2014.

QUESTION(S) 8: When were the last 3 inspections? Would you produce the documentation for these inspections.

RESPONSE(S) 8: PG&E has a comprehensive inspection and monitoring program to ensure the safety of its natural gas transmission pipeline system. PG&E regularly conducts patrols, leak surveys, and cathodic protection (corrosion protection) system inspections for its natural gas pipelines. Any issues identified as a threat to public safety are addressed immediately. PG&E also performs integrity assessments of certain gas transmission pipelines in urban and suburban areas.

Patrols: PG&E patrols its gas transmission pipelines at least quarterly to look for indications of missing pipeline markers, construction activity and other factors that may threaten the pipeline. Line 109 through the neighborhood was last patrolled in May 2014 and everything was found to be normal.

Leak Surveys: PG&E conducts leak surveys at least annually of its natural gas transmission pipelines. Leak surveys are generally conducted by a leak surveyor walking above the pipeline with leak detection instruments. Line 109 was last leak surveyed in April 2014 and no leaks were found.

Cathodic Protection System Inspections: PG&E utilizes an active cathodic protection (CP) system on its gas transmission and steel distribution pipelines to protect them against corrosion. PG&E inspects its CP systems every two months to ensure they are operating correctly. The CP systems on Line 109 in your area were last inspected in May 2014 and were found to be operating correctly.

Integrity Assessments: There are three federally-approved methods to complete a transmission pipeline integrity management baseline assessment: In-Line Inspections (ILI), External Corrosion Direct Assessment (ECDA) and Pressure Testing. An In-Line Inspection involves a tool (commonly known as a “pig”) being inserted into the pipeline to identify any areas of concern such as potential metal loss (corrosion) or geometric abnormalities (dents) in the pipeline. An ECDA involves an indirect, above-ground electrical survey to detect coating defects and the level of cathodic protection. Excavations are performed to do a direct examination of the pipe in areas of concern as required by federal regulations. Pressure testing is a strength test normally conducted using water, which is also referred to as a hydrostatic test.

PG&E performed an ECDA on Line 109 in this area in 2009 and no issues were found. PG&E plans to perform the next ECDA on L-109 in this area in 2015. PG&E also performed an ICDA (Internal Corrosion Direct Assessment) on L-109 near 3516 and 3526 Folsom Street in 2012, and no issues were found.

Unfortunately, PG&E cannot provide the documentation from these inspections because they contain confidential information that PG&E only provides to its regulators.

QUESTION(S) 9: Is this pipeline equivalent in type to the exploded pipeline in San Bruno?

RESPONSE(S) 9: Line 109 near 3516 and 3526 Folsom Street is not equivalent to the pipe in San Bruno that failed. The pipeline in San Bruno that failed was PG&E natural gas transmission pipeline L-132, which had a diameter of 30 inches, was installed in 1956, and had an MAOP of 400 psig. As described in the responses above, L-109 in your area is a 26-inch diameter pipeline, was installed in 1981, and operates at an MAOP of 150 psig.

RE: SDAT Review
Case NO. 2013.1383E
Address: 3500 Folsom Street
Neighborhood: Bernal Heights
Zoning: RH-1 (Residential House One Family)
Area Plan: None
Block/Lot: 5626/013 & 5626/014

1650 Mission St.
Suite 400
San Francisco,
CA 94103-2479

Reception:
415.558.6378

Fax:
415.558.6409

Planning
Information:
415.558.6377

The Street Design Advisory Team (SDAT) provides design review and guidance to private developments working within the City's public right-of-way. SDAT is composed of representatives from the San Francisco Planning Department (SF Planning) Department of Public Works (SF Public Works), and the San Francisco Municipal Transportation Agency (SFMTA).

The 3500 Folsom Street project came to SDAT on February 28, 2014. The project returned to SDAT on June 20, 2016. Below are the SDAT comments from the 2nd SDAT meeting.

The proposed project would construct two single-family homes on unimproved lots in Bernal Heights. The project includes the establishment of a paved road on a current "paper street" extension of Folsom Street. The project would include a new publicly accessible stair path that would connect to Bernal Heights Boulevard/Bernal Hill (along the west side of the Community Garden.

SDAT COMMENTS

1. SDAT supports the revised design. SDAT applauds the project team for addressing and incorporating our comments into the design.
2. Curb Cuts. SDAT recommends that the proposed project's curb cuts be between 10' to 12' wide.

November 24, 2016

Angela Calvillo, Clerk of the Board, City Hall
1 Carlton B. Goodlett Place, Room 244
San Francisco, CA 94102

Board of Supervisors:

I am writing to submit my written comments on the appeals of Planning Commission ruling on 203 Cotter St, aka Golden Bridges School, aka file 161220.

I attended the planning commission hearing last month and spoke in support of this project, but am unable to attend the Board of Supervisors hearing on December 6th due to work.

I am ashamed at the NIMBYism displayed by my neighbors, especially the New Mission Terrace Improvement Association, of which I am a member. This school is a wonderful project and I support it fully. The school has done wonderful outreach in the neighborhood and has designed a beautiful campus that mitigates much of the environmental impact of building on this land. Golden Bridges school cannot be held responsible for the city's inaction on lower Cayuga's flooding issues. Nor can Golden Bridge school be held responsible for financially supporting Little City Farm, a for-profit business that apparently relies heavily on volunteer labor and free land, its two largest inputs, which does not seem to be a recipe for sustainability.

When I asked neighbors who opposed this if there were any type of project that they could support on this property, they gave me a non-answer of "we can only evaluate each project that comes up." I also asked them if they had made any efforts to purchase the land or convince the city to purchase the land and I got another non-answer. I believe the true answers to my question are 'no' and 'no.' It is clear that they enjoy the vacant land and wish that it never changes. But we live in a vibrant, dynamic city and progressive change must happen. This school is much preferable to anything else that could be built on this land and I urge you to deny the appellants appeals.

Attachments: 2016-12-06 - Letter to SF Board of Supervisors from NYIFUP .pdf

Dear San Francisco Board of Supervisors,

Attached to this email you will find a letter from the New York Immigrant Family Unity Project (NYIFUP) coalition in New York City in support of Supervisor Campos's proposal to provide legal services to people in removal proceedings in San Francisco.

Sincerely,

The NYIFUP Coalition

THE NEW YORK IMMIGRANT FAMILY UNITY PROJECT

December 6, 2016

San Francisco Board of Supervisors
1 Dr. Carlton B. Goodlett Place
City Hall, Room 244
San Francisco, CA 94102-4689

via email: Board.of.Supervisors@sfgov.org

All of us, members of the New York Immigrant Family Unity Project (NYIFUP) coalition, congratulate the San Francisco Board of Supervisors for your recent reaffirmation of your commitment to stand up for the rights and welfare of all San Francisco residents. In particular, we applaud your promise that San Francisco will remain a sanctuary city, continuing to protect immigrant communities from unjust deportation.

Last week, the Board of Supervisors demonstrated their commitment to justice by proposing to allocate \$5 million to establish a program to provide legal representation to detained immigrants facing deportation in San Francisco. In New York, we have been able to establish the first public defender system for detained immigrants in the nation—NYIFUP. As a result, New Yorkers no longer face deportation without counsel by their side. We speak from experience when we say that providing lawyers for people who face permanent separation from their families and exile from their communities is the most basic way to help them achieve justice.

Unlike criminal proceedings, in which the right to counsel is a recognized constitutional right, indigent immigrants in deportation proceedings appear in immigration court without the right to any legal representation. Many face permanent exile from their families and deportation to countries where they will face extreme hardship and, in many cases, life-threatening persecution. A significant proportion of NYIFUP clients have a legal right to stay in the United States, but they would be unable to defend their rights without a lawyer. The data from a study we conducted in New York demonstrate that, without counsel, it is virtually impossible for detained immigrants to avoid deportation, even when they have a strong claim for relief.

During the past three years, thanks to our strong partnership with the New York City Council, we have successfully designed and implemented the first-in-the-nation public defense system for indigent non-citizens facing deportation: NYIFUP. Today, NYIFUP provides lawyers to every detained immigrant facing deportation in New York City who cannot afford private counsel. NYIFUP has had a dramatic impact, improving immigrants' chance of success in immigration court by as much as 1000%. As a result,

countless New York families have been spared from the devastation of losing a loved one to deportation. We believe that, in the coming years, NYIFUP and initiatives like the one proposed by Supervisor Campos, will play a more important role in preserving immigrant families than ever before.

The New York City NYIFUP Coalition is hopeful, however, that as the federal government transitions into a new administration that has vowed to deport millions of our community and family members, affected communities and their advocates across the country can come together and stand up for what we believe is fair and just. We have learned many lessons as we implemented NYIFUP in New York City during these years and are ready to provide your office with any support you need that builds on those lessons.

Housing the NYIFUP program in existing public defender offices has been the key to the program's rapid success. NYIFUP's experienced attorneys were able to hit the ground running, rapidly turning NYIFUP into a sustainable program because of existing in-house infrastructure and the ability of public defenders to deal with a high volume of cases involving custody and other complex issues. We strongly believe that the San Francisco Board of Supervisors' plan to build a model of immigration court representation that relies in part on public defenders will ensure similar results in your city.

The New York City Council's goal of universal immigration representation in New York was ambitious from the start. However, providing representation for every indigent detained immigrant in deportation proceedings in New York has not only allowed our program to stay true to this ideal, but has also allowed it to create stronger partnerships with the immigration courts, other stakeholders, and has ignited similar initiatives across the country. Without universal representation, so many of our community members who would have been turned back after a too-brief assessment of the merits of their claims were actually able to fight their cases and prevail in them. Immigration laws are extremely complex, and only by offering an attorney to every person facing deportation can we ensure that all claims are fully assessed.

Universal representation in our immigration courts has both protected the due process rights of our community members and provided significant cost-savings to our city, to the benefit of our local economy. Employers bear the burden of replacing employees who are detained and deported. Children are forced to drop out of school and often become part of the foster care system because a parent is detained or deported. The city bears the costs of decreased economic activity and reduced tax revenue when longtime community members—workers, business owners, customers, mortgage- and lease-payers—are locked up and deported, and denied the opportunity to regularize their immigration status and continue making long-term contributions to the local economy. When households lose breadwinners to deportation, previously stable self-sufficient families become reliant on government safety-net programs.

The benefits of the initiative that Supervisor Campos has put forward will quickly become evident as the program is implemented in San Francisco. Thousands of New Yorkers have benefited from NYIFUP and we are confident that thousands of families will also benefit in San Francisco once universal representation is provided to every detained indigent immigrant facing deportation. Examples of the success of NYIFUP include Daniel, a gay man from Jamaica who was put into deportation proceedings in New York after fleeing his home country due to his sexual orientation. Thanks to the work of a NYIFUP attorney, Daniel was able to remain in this country and was protected from being deported to Jamaica where he faced likely persecution, including possible torture.¹

A study conducted from 2002 to 2014 found that nationally, only 37% of people fighting deportation have legal representation. This due process crisis will likely get worse under the new administration. That makes programs like the one San Francisco has proposed even more urgently necessary than ever. We are grateful that San Francisco has taken steps toward joining New York in providing universal representation for detained immigrants facing deportation and we offer our full support in the implementation of this initiative. Only legal representation will allow community members to successfully fight for the chance to challenge separation from their families and communities and remain in this country.

Sincerely,

NYIFUP Coalition

Board of Supervisors:

My name is Katherine, Peruvian immigrant who came legally to this country. I am writing you to stay my firm conviction in opposition of spending tax money to protect illegal criminal immigrants in our sanctuary city. I makes me sad you are using your platform to draw more division in our nation. I'll make sure people from my community write a letter of discontent for your actions.

I pray for you to abandon your personal political agenda and put first the safety of our city.

Sincerely,
Katherine

Hello,

I was unable to go to the hearing today at 3pm to express my concerns about the possibility of a 40-X height building. I reside on 2637-2639 Folsom st, my mom lives in the top unit and I live in the bottom unit. My home is about two houses away from the warehouse. My concern is once this 40-X height building is up I won't have much sunlight or air in my backyard. I live in the bottom unit and I barely have any sun light coming in to my home. I enjoy the open space around my backyard and enjoy having family gatherings, I feel after this 40-X building is up I won't be able to enjoy my backyard with my family and I'm terrified just thinking how much darker my living space will be. I've lived in this property over 30 years, it saddens me that a building 40-X high would affect me and my family in several ways.

Parking is another concern of mine and my neighbors. I know parking spaces are going to be limited in the building and street parking is going to be a nightmare for us who don't have a garage at home. I'm sure after this building comes up the city will take away street parking and make it white zone only. I was hoping if we can have residential parking on Folsom st and Treat st. Many people come and park on our block cause it's all day parking and they leave there cars and walk to Bart, Mission st, or catch Muni to go to work. I think this is unfair for us who live in this area.

Thank you for hearing my concerns,

Juliana Marquez

Dear Angela Calvillo,

Unfortunately I could not attend the public hearing on Tuesday, Nov. 29, 2016 due to a death in the family. I'm a neighbor around the corner, on 22nd St directly off of Folsom. This development will be great for the neighborhood for three reasons:

- more customers for the businesses at 22nd & Folsom as well as Calle 24
- more children for Cesar Chavez School
- more activity and lights to discourage the vagrants that have setup around the block of 2675 Folsom St & Parque Ninos Unidos.

If anything, I would love to see this development be allowed to go to 5 stories. We are in the middle of a housing crisis and the small impacts of an additional story would be quickly forgotten in this large, vibrant city.

Fraser Harris

RE: **SUPPORT FOR TREASURE ISLAND RESOLUTIONS**
INFRASTRUCTURE AND REVITALIZATION FINANCING DISTRICT NO. 1 (IRFD)
DECEMBER 6, 2016 BOARD MEETING
MATTER NOS. 161035, 161036, 161037, 161038, 161039

Dear President Breed and Supervisors:

Swords to Plowshares currently operates 36 units of housing on Treasure Island and our replacement project is one of two affordable parcels scheduled to be developed during Phase 1 of the redevelopment. We are contacting your office at this time to make certain that you are aware of a time-sensitive funding opportunity that pertains directly to our project and the funding gap on TI. That is our reliance upon funding from the California Veteran Housing and Homeless Prevention Program (VHHP) which is identified as a source for \$10 million for our TI project. As you may be aware, the VHHP program was created following successful efforts by Swords to Plowshares and five colleague organizations through which we convinced both houses in Sacramento to draft and approve legislation that reallocated \$600 million in bonding authority held by the Calif. Dept of Veteran Affairs Home & Farm Loan Program. This became the Veterans Housing & Homeless Prevention Act of 2014, which was approved by an overwhelming majority of California voters during the June 2014 state-wide ballot---thereby creating this program.

CAL Vet, CAL HCD, and CAL HFA wisely worked very quickly to get these funds out, intending to leverage Obama Administration efforts to end veteran homelessness. The first round NOFA was on the street before the end of CY 2014. In the first two rounds (2014 & 2015), approximately \$200 million has been awarded to projects. We are told that the third round of VHHP funding availability will be forthcoming by the end of this calendar year. At this pace of commitment, and cognizant that State agencies will direct 10-15% of the total to their administrative burden, we are extremely concerned that additional delays in moving forward on Treasure Island will result in our being too late to take advantage of this non-recurring source of capital. The availability of these funds has spurred the development of many needed projects statewide, so we anticipate that the funding will become increasingly competitive in all future rounds. To date, no San Francisco project has accessed these funds. Financial modeling for the TI project relies upon this source of funds, so I wanted to make certain that you were aware of this situation as the process unfolds for moving TI affordable housing forward. Should we be too late to take advantage of this source, the funding gap for TI affordable housing will increase by \$10 million.

Please let me know if I can possibly provide any additional information regarding this matter.

Sincerely,

Leon Winston

RE: SUPPORT FOR TREASURE ISLAND RESOLUTIONS
INFRASTRUCTURE & REVITALIZATION FINANCING DISTRICT NO. 1 (IRFD)
DECEMBER 6, 2016 BOARD MEETING, MATTER #161035 through 161039

Dear President Breed and Supervisors:

Community Housing Partnership would like to strongly urge you to support the Infrastructure and Revitalization Financing District No. 1 (IRFD) Resolutions when they come before you on December 6, 2016. CHP houses 110 formerly homeless families on Treasure Island and asks that you take this measure to speed the reconstruction of the island so that we can improve housing conditions for our residents.

The package of IRFD Resolutions is essential for the success of the Treasure Island project, a project that CHP has supported for many years. Now, after more than a decade of planning, the TI project is underway. The passage of the IRFD Resolutions will allow tax increment to begin accruing which will provide critical financial support for the City's TI affordable housing programs and other public amenities that will be provided. Delay of the IRFD will delay new affordable housing and new jobs.

We strongly urge you to support the package of Resolutions, File Nos. 161035, 161036, 161037, 161038, 161039, when they come before you at your December 6, 2016 Board of Supervisors meeting.

Please let me know if you intend to not support the Resolutions so that a member of my staff and the project sponsor can provide you with additional information.

Thank you in advance for your anticipated support. We look forward to our ongoing partnership in the development of affordable housing on Treasure Island.

Sincerely,

DECEMBER 6, 2016 BOARD MEETING
MATTER NOS. 161035, 161036, 161037, 161038, 161039

Dear President Breed and Supervisors:

The San Francisco Building and Construction Trades Council urges you to approve the Treasure Island Infrastructure and Revitalization Financing District No. 1 (IRFD) Resolutions at your meeting of 6 December 2016.

Workers represented by this Council have already begun preparatory abatement, demolition, and utility relocation for the Treasure Island project, and so finally, after long public vetting of it, we have had a first taste of the years of work it represents and can look forward to the pride of bringing to the City a new and vibrant neighborhood with substantial quantities of affordable housing. The IRFD Resolutions are essential for the project's success and will provide critical financial support for its affordable housing programs and other public amenities.

Again, we strongly urge you to approve the package of IRFD Resolutions, File Nos. 161035, 161036, 161037, 161038, 161039, when they come before you 6 December. If you foresee any difficulties in this, we would welcome discussing them with you.

Otherwise, we thank you in advance for your support.

Respectfully yours,

Dear Supervisors:

I am a longtime member of the Treasure Island Yacht Club (current Commodore), as well as my company, Protonet is a commercial tenant, and I am in the process of building another business on the island, partnering with our architectural firm, D1A (also tenants on the island) and we have all actively participated in its redevelopment. My new business is also partnering with Treasure Island Homeless Development Initiative (TIDHI) and Toolworks, to support the social programs specific to current TI tenants. We also have many employees who are residents on TI.

My business partners and I are excited that it is finally getting underway! I am writing to let you know that I, my business partners, and many of my friends on TI are supporting, and would like to urge you to support the package of Resolutions for Treasure Island IRFD financing. Not only is it critical for the construction of the Island's new infrastructure, it is essential to begin the construction of the new affordable housing program on TI. I hope you will support the IRFD Resolutions when they come before the Board of Supervisors on December 6th, 2016.

Thank You!

Kindest Regards,

MeeSun Boice

INFRASTRUCTURE AND REVITALIZATION FINANCING DISTRICT NO. 1 (IRFD)
DECEMBER 6, 2016 BOARD MEETING
MATTER NOS. 161035, 161036, 161037, 161038, 161039

Dear President Breed and Supervisors:

Mercy Housing is writing to strongly urge you to support the Infrastructure and Revitalization Financing District No. 1 (IRFD) Resolutions when they come before you on December 6, 2016.

The package of IRFD Resolutions is essential for the success of the Treasure Island project, a project that we have supported for many years. Now, after more than a decade of planning, the TI project is underway. The passage of the IRFD Resolutions will allow tax increment to begin accruing which will provide critical financial support for the City's TI affordable housing programs and other public amenities that will be provided.

We strongly urge you to support the package of Resolutions, File Nos. 161035, 161036, 161037, 161038, 161039, when they come before you at your December 6, 2016 Board of Supervisors meeting.

Thank you in advance for your anticipated support. We are very exciting to start developing affordable housing units on Treasure Island!

Sincerely,

Barbara Gualco
Director of Housing Development

City Council,

I commend and thank the Board of Supervisors for pledging to make City College FREE for San Franciscans. I urge you to support the next crucial step in this process by voting yes on Supervisor Kim's ordinance to appropriate \$9 million of Real Property Transfer Tax in FY2016-2017 to fund the Community College Fund and make City College of San Francisco tuition-free for all San Francisco residents starting in 2017. This budget appropriation is a critical step to fulfill the wishes of the overwhelming majority of San Francisco voters who supported Proposition W on November 8th. Thank you in advance for your support of this important effort to expand access to higher education for all San Franciscans.

City Council,

Prop W was passed with the promise of free City College. We can find other ways to fund the City's other pressing needs.

I studied journalism at CCSF over 20 years ago, and in 2010, I took Art of MesoAmerica at CCSF for my final three credits to earn my B.S. from USF.

Free City College is vital.

I commend and thank the Board of Supervisors for pledging to make City College FREE for San Franciscans. I urge you to support the next crucial step in this process by voting yes on Supervisor Kim's ordinance to appropriate \$9 million of Real Property Transfer Tax in FY2016-2017 to fund the Community College Fund and make City College of San Francisco tuition-free for all San Francisco residents starting in 2017. Dear Supervisors,
Really? You're actually considering appropriating \$5 million to ensure that undocumented people accused of crimes have legal representation? At a time when the city is facing a multibillion-dollar budget deficit? That's a crazy way to set priorities. To me, homelessness is a problem that needs to be addressed now, and we don't, at this point, have a clue what President-elect Voldemort is going to do or what he can do about Sanctuary Cities. Please don't get your knickers in a knot before you stop to think what your actions might mean for both citizens and the undocumented.

Subject: Thank you regarding the resolution in response to Donald trump

Dear Board of Supervisors,

As a person of color, woman, child of immigrants, Muslim, and resident of San Francisco, I just wanted to send you a HUGE thank you for the resolution passed in response to Donald Trump. The resolution was so touching and it makes me so honored and thankful to live in this great city and to have grown up in the Bay Area.

Since the election of Donald Trump I have questioned and wondered whether my family was lied to when they moved here and were told to pursue the American dream. It has felt like the very ground I stood on was pulled out from beneath me. I never realized people disliked me so much based on my color, faith, or or language they speak in the country my parents come from.

Resolutions like this - and people like you - continue to give me hope and continue to help me reject those notions that I do not belong here. To reject those notions that I am not worthy because I am a woman. To reject those notions that the American dream wasn't dreamt up for people of my skin color.

May the world have more people like you. We very much need it.

Thank you again for your very gracious support, again.

Sarah

Dear Board of Supervisors,

I just read your Resolution. It is a thing of beauty. After I read it I had my husband read it aloud. With everything that has been going on in the last 18 months, and in the recent past, I finally felt hopeful. Thank you so much. We live in North Carolina, so it has all been so defeating. So again, thank you.

With Much Respect and Peace,

Subject: A letter in support

Good morning.

I am writing to just say thank you. In a world where I feel my head is about to explode, where I feel I've been living in an alternate reality since Nov. 8, I just read the resolution your board passed in regards to Trump and the election and felt compelled to write in support.

I've lived a life of privilege. I'm white. I'm not rich. I'm not gay. I'm Catholic. I'm educated. I have health insurance. But I am a woman, and I do believe I have an obligation to help those on the ladder who are below me and my place on the ladder as much as I believe those above me on the ladder have an obligation to help me, and I believe in the inalienable rights of my LGBTQ brothers and sisters, and I believe that Black Lives Matter and shouldn't be ignored or randomly picked off or profiled or oppressed, and I believe in the right to choose whether it's a choice I'd make for myself or not, and I believe in affordable and accessible education for all, and I believe in universal health care.

I believe that anger and hate digs holes and love and kindness move mountains. I believe that we're stronger together and love trumps hate. I believe children deserve a loving family regardless of the make-up of the family unit. And I believe that we will not achieve these things until we have leadership that embraces them as well. I do not believe that we'll have that come January 20.

But I believe the residents of San Francisco do. I applaud each and every one of you. You are to be admired and emulated.

My very best for as happy a 2017 as we can expect.

Members of the Board,

This letter is in reference to the resolution passed in San Francisco in response to the election of Donald Trump.

I recently read the document, "line by line," on-line and want to say thank you. Thank you for your courage, your leadership, your compassion for what is right and just. I look to these kinds of actions you have taken as guidance for how I want to live my life. This statement reflects what I believe to be values worth fighting for.

Although I live in Central Florida, I believe my note reflects the thoughts of many throughout the country.

With sincere appreciation,

Respectfully,

Sharon M. Conway

Subject: Thank you for your Values Resolution

Dear Board Supervisors,

I live in Vancouver, BC, Canada and want to say 'Thank you' for your clear, principled, passionate Resolutions of yesterday. You spoke out and spoke up for what is important – human values of fairness, inclusivity, kindness, safety and help (to name just a few). You also stood by Science (as regards Climate Change) and the financial strength of your state – and who plays an important part in that.

Many many people will agree with you and support your thoughts and action, so you represent them too wherever they are.

The bullies of this world are feeling 'entitled' right now – and you're saying 'No' to them.

Thanks again,

Judy Bremner

Re: Letter in Support of John Hamasaki for Police Commission

Dear Board of Supervisors,

I am writing in support of Mr. John Hamasaki, my respected colleague, to encourage you to approve his application for appointment to the San Francisco Police Commission. I am an attorney and small business owner in Nevada City, California, whose legal practice focuses on criminal defense and policy matters.

Early in my career, I practiced in San Francisco, California, where I had the pleasure of working with Mr. Hamasaki. In 2011, Mr. Hamasaki and I represented different criminal clients in a historic civil rights case, *U.S. v. Collins, et al.* (5:11-cr-00471-DLJ), which involved complex legal issues related to freedom of speech in the electronic age. I was impressed and inspired by Mr. Hamasaki's work, which was central to the incredible outcome secured for our clients, as well as his ability to understand and articulate complex legal issues related to civil rights and criminal law. Given his legal background and experience as a criminal defense attorney in the Bay Area, Mr. Hamasaki is particularly well-equipped to bring insight and positive progress as a member of the San Francisco the Police Commission.

Further, Mr. Hamasaki is well-known for his commitment to diversity, justice, and the Bay Area, where he has lived for over twenty years. As a criminal defense attorney, I am well-aware of the sense of distrust that exists between communities and local law enforcement agencies, particularly amongst minorities and low-income individuals. The appointment of talented individuals such as Mr. Hamasaki, who are committed to addressing these concerns, serves to facilitate trust and communication between law enforcement agencies and the communities they serve. Mr. Hamasaki is particularly suited to serve on the San Francisco Police Commission in

light of his years of demonstrated commitment to the members of the community who are most likely to feel this sense of alienation. For instance, Mr. Hamasaki volunteers for, among other organizations, the National Lawyers Guild and Project Legal Link, providing pro bono representation to low-income residents throughout the Bay Area, as well as those arrested in conjunction with political demonstrations. This work has brought Mr. Hamasaki a valuable understanding of community concerns related to law enforcement and the criminal justice system, and will allow him to bring wisdom and insight to the San Francisco Police Commission.

For all of these reasons, I strongly encourage you to approve the appointment of Mr. John Hamasaki to the San Francisco Police Commission. If I may provide any additional information or insight into Mr. Hamasaki's candidacy, please do not hesitate to contact me.

Sincerely,

/s/ Heather L. Burke

Re: Letter in Support of John Hamasaki for Police Commission

Dear Board of Supervisors,

I am writing in support of Mr. John Hamasaki, my respected colleague, to encourage you to approve his application for appointment to the San Francisco Police Commission. I am an attorney and small business owner in Nevada City, California, whose legal practice focuses on criminal defense and policy matters.

Early in my career, I practiced in San Francisco, California, where I had the pleasure of working with Mr. Hamasaki. In 2011, Mr. Hamasaki and I represented different criminal clients in a historic civil rights case, *U.S. v. Collins, et al.* (5:11-cr-00471-DLJ), which involved complex legal issues related to freedom of speech in the electronic age. I was impressed and inspired by Mr. Hamasaki's work, which was central to the incredible outcome secured for our clients, as well as his ability to understand and articulate complex legal issues related to civil rights and criminal law. Given his legal background and experience as a criminal defense attorney in the Bay Area, Mr. Hamasaki is particularly well-equipped to bring insight and positive progress as a member of the San Francisco the Police Commission.

Further, Mr. Hamasaki is well-known for his commitment to diversity, justice, and the Bay Area, where he has lived for over twenty years. As a criminal defense attorney, I am well-aware of the sense of distrust that exists between communities and local law enforcement agencies, particularly amongst minorities and low-income individuals. The appointment of talented individuals such as Mr. Hamasaki, who are committed to addressing these concerns, serves to facilitate trust and communication between law enforcement agencies and the communities they serve. Mr. Hamasaki is particularly suited to serve on the San Francisco Police Commission in

light of his years of demonstrated commitment to the members of the community who are most likely to feel this sense of alienation. For instance, Mr. Hamasaki volunteers for, among other organizations, the National Lawyers Guild and Project Legal Link, providing pro bono representation to low-income residents throughout the Bay Area, as well as those arrested in conjunction with political demonstrations. This work has brought Mr. Hamasaki a valuable understanding of community concerns related to law enforcement and the criminal justice system, and will allow him to bring wisdom and insight to the San Francisco Police Commission.

For all of these reasons, I strongly encourage you to approve the appointment of Mr. John Hamasaki to the San Francisco Police Commission. If I may provide any additional information or insight into Mr. Hamasaki's candidacy, please do not hesitate to contact me.

Sincerely,

/s/ Heather L. Burke

Subject: San Francisco Police Commission, re: John Hamasaki

Dear Members of the Board of Supervisors,

I am writing in support of my friend and neighbor, John Hamasaki, to be appointed to the San Francisco Police Commission.

I have lived and worked in San Francisco for 29 years after moving here from the Philippines, and I love this City. I have family here and have forged many wonderful friendships over the years. I volunteer with Reading Partners to tutor children at the Bessie Carmichael Elementary School, I firmly believe that people who live in San Francisco should contribute toward making the city a better place.

My main concern is San Francisco is the issue of homelessness. It is so important that we have someone like John who understands the unique challenges of policing and homelessness in San Francisco. Someone who will work together with the police and the community to help find practical solutions to the problems that face the City.

I know John because he is my neighbor in North Beach and I have become very good friends with him and his lovely family over the course of 10 years (maybe more---time flies!). John is always willing to help out, he has a very strong sense of fairness, he volunteers in the community, he has a great passion for helping people and a passion for San Francisco as well. He is also tough and dogged, but certainly has the ability to listen and be balanced in his opinions. He is able to make judgements after he has listened to all sides of an argument and he can do this in a calm and clear manner.

The City needs people like John Hamasaki. He is a hard worker who can be relied upon. He shows up.

As a criminal defense attorney, I would also think that John would be an asset to the Police Commission because of his experience with all sides of criminal issues in his work.

I hope that my letter to you will show my very strong support for John.

Thank you so much for your time,

Sandra Klar

City Hall, Room 244
San Francisco, CA 94102

RE: Police Commission Candidate John Hamasaki, Esq.

Dear Members of the Board of Supervisors,

It is an honor and privilege to send this letter in support of John Hamasaki, candidate for appointment to the San Francisco Police Commission. John is an exceptional attorney who is uniquely qualified to serve on the Police Commission. My name is Laura Furniss, an attorney and principal at Furniss Family Law Group, based in Redwood City, with satellite offices in San Francisco. Until June 2016, I worked in Union Square and spent much of my time in our great city. I am a native Bay Area resident, educated in San Francisco, former prosecutor for the City and County of San Francisco and a friend and ally to many of the amazing officers in the San Francisco Police Department. I have deep ties to San Francisco as my mother was born and raised in San Francisco. My sister and brother attended St. Ignatius College Preparatory and I matriculated at University of San Francisco. I spent seven years at USF, earning a BA and a JD. I called San Francisco home for many years. Now my sister's family lives in San Francisco so I get to wander the city as an Auntie, sharing three-generations strong traditions and city secrets.

As a member of the San Francisco professional community and an active participant in the community at-large, I am keenly aware of the challenges facing our police department. During my time at SFDA, I had the opportunity to meet and work with many of San Francisco's finest and to this day call many officers friends. The department is facing challenges on many fronts due to staffing shortages, cost-of-living, and the increase of property crimes. Morale is low, as is public trust. In addition, with the departure of Chief Suhr and the highly-publicized police-involved shootings, both nationwide and in San Francisco, it is a time of crisis for SFPD. Add to that President-elect Trump's promise of defunding sanctuary cities, we are facing a tenuous time of unprecedented importance. The Commission needs a member like John Hamasaki.

I had the pleasure of meeting and becoming friends with John while studying law at USF. I come from a family with deep law enforcement ties (my late father began his career as an Assistant District Attorney, and my brother is a law enforcement officer) and John, a passionate (then) aspiring criminal defense attorney – we often shared polar-opposite perspectives on criminal law matters. In law school, I knew that a good criminal defense attorney will fight for their client and advocate for them at all costs. After law school, John taught me that a *great* criminal defense attorney will zealously and effectively advocate for their client without compromising integrity, respect or civility.

John stands out from any other attorney I've opposed in criminal law. During my time with SFDA (after having first been a DA in Santa Clara County), I experienced many different types of

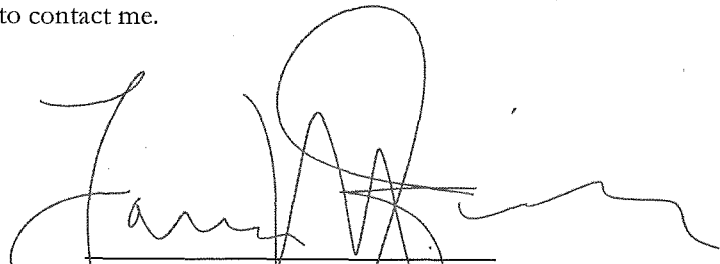

opponents. Most of them were adversarial to the point of being hostile, abrasive, disrespectful and many times dishonest. While it was not every attorney, it seemed to be the culture of the majority of criminal defense attorneys in San Francisco. I had not seen John in a courtroom since we became bar card-carrying attorneys. The first time I saw him, he greeted me with a big smile, made a joke about our law school days and how we were meeting again, on opposites sides of an issue. While we represented different interests, I learned that John the criminal defense attorney was the same man as the law student-John. John was persuasive and strategic while also making cogent and poignant points that often eroded the People's case against his client. During my time at the DA's office, I had a few incredibly challenging cases. Even though John was on a different side, he was always kind, supportive and respectful of the system and those doing their jobs – regardless of whose interest was being represented. When I graduated law school, I would have never expected to endorse, support or recommend a criminal defense attorney for the police commission. Now, I cannot imagine a better candidate to serve San Francisco on the Police Commission.

In addition to working “against” John in criminal court, John and I were members of the same Inn of Court for two years. This exclusive group of attorneys ranging in ages and area of practice was a wonderful space to develop and expand our skills. During one meeting, John and I volunteered to be “attorneys” for the exercise, switching our preferred alignment and having a mock trial on a single issue. John argued the merits of the prosecution's case, advocated for the fictitious officer that was involved and passionately represented the State's interest. I was deeply moved and inspired by John's spontaneous argument before our peers. If I remember correctly, our peers were tied in their “jury vote.” I was and am so proud to call John my friend and colleague. I left criminal law two years prior to this event - seeing John's evolution as an attorney, an advocate and as an expert in criminal law is what inspired me to use John as my “go-to” criminal defense, civil rights and civil harassment attorney. I frequently refer John on a variety of matters to clients, friends and others I care about. My reputation is my currency – 75% of my business comes from personal referrals and reputation. Any time I make a referral, my name is associated with that attorney. My list of referrals is very short and John is at the top of it for anything related to criminal law, civil rights violations or civil harassment.

On top of his professional accomplishments, John is a stellar mock trial coach who is dedicated to his students, his team and his community. John's ability to relate to adults and youth alike make him exceptionally well qualified for the Police Commission. John's impact on our city has been profound and he is only getting started.

In conclusion, I wholeheartedly, enthusiastically and respectfully encourage you to appoint John Hamasaki to the San Francisco Police Commission. John brings knowledge and experience of the criminal justice system combined with integrity, respect and professionalism. I know he will work well with the other commission members, the Board of Supervisors and the SFPD. If you have any further questions about John, please do not hesitate to contact me.

Very truly yours,

Laura M. Furniss, Esq.

Subject: Letter of Support - Police Commission Candidate

Members of the Board of Supervisors:

I am writing in support of John Hamasaki's candidacy for appointment to the San Francisco Police Commission.

My name is Azhar Meyer; I am employed as the Director of Mechanical Engineering at Thimble Bioelectronics, a medical device company here in San Francisco. I currently live in San Francisco, and have lived here for the last 2.5 years. As a resident in the Outer Sunset, the following issues are of great importance to me:

- Increasing trust between the residents of San Francisco and SFPD
- Establishing SFPD as the model police department for which other police departments around the nation look when it comes to transparency, professionalism, and integrity

I have known John for 9 years and I consider him an outstanding member of the San Francisco community. I met John through my brother when they were classmates in law school at the University of San Francisco. He has committed himself to the causes of criminal justice advocacy and reform while maintaining a strong understanding the effects that policies can have upon law enforcement, our communities, and our families. He has a strong respect for our police officers and the highly challenging work they do. I believe that John Hamasaki is the right choice for the San Francisco Police Commission. He is dedicated to progress and reform and will always ask himself what is right for the people of our City.

Sincerely,

Azhar Meyer

December 1, 2016

Dear Members of the Board of Supervisors,

My name is Jennifer Gaspar, I am the director for special projects at the CEELI Institute in Prague, Czech Republic, a continuing education institute for lawyers and judges from around the world. I am writing in enthusiastic support of the appointment of John Hamasaki to the San Francisco Police Commission. I was a resident and active San Francisco community member from 1995-2003. I am a graduate of the Graduate School of Education at the University of San Francisco, and I remain a member (in absentia) of Glide Methodist Church. While my time living in San Francisco was brief, it remains a dream to return to the City and become an active citizen there once more. From 1995-1998, I worked for the California Judicial Council's Child Advocacy Training Program. In 1999, I was hired as the program director for Rebuilding Together * San Francisco, a nonprofit organization dedicated to renovating and improving homes of the city's low income, elderly and disabled residents. This work introduced me to the richness and diversity of the city's communities and community volunteers who demonstrated a deep love for their hometown and fellow residents of all backgrounds. I came to love San Francisco deeply for its diversity and the spirit of its residents. Part of this spirit comes from the continuous care and trust between the San Francisco's government and its citizens. The San Francisco Police Commission plays an integral part in ensuring a trusting and resilient relationship between the City's citizens and the police.

My own personal experience with the importance of trust in systems and faith in police protection comes from the other side of the world. I lived in St. Petersburg, Russia from 2003-2014, where I worked as an adviser to international foundations supporting human rights NGOs in the country. I was married to a Russian human rights lawyer and in 2010 we adopted a daughter who is now a citizen of both Russia and the United States. In 2014, I received deportation notice revoking my residency permit on the grounds that the FSB (formerly known as KGB) deemed me a threat to Russian national security and constitutional order (http://www.nytimes.com/2014/08/06/world/europe/russia-moves-to-deport-wife-of-an-activist.html?_r=0). I spent the next few days packing my suitcases after 11 years of peaceful, law-abiding life in Russia, and knowing with certainty that there were no systems in the country that would protect my rights and keep my family together. I bought a plane ticket took our then 5-year old daughter with me to Prague. During my last few days in Russia, I lodged an appeal of my deportation that, in my absence, was appealed all the way to the Supreme Court of the Russian Federation. In each instance, the courts refused to compel the FSB to provide any evidence supporting their claim of my threat to national security. My case is now in final judgment stage in the European Court for Human Rights in Strasbourg (*Gaspar v. Russia* case # 23038/15). My personal experience in Russia and in advocating for human rights, gives me a particular perspective on what happens when there is no trust between a police and justice system and its people. While my story is a dystopian example of state impunity, secrecy and political intrigue, it can also be understood as a cautionary tale about the fundamental need for constant care and dialogue between police and their community.

I have known John Hamasaki for seventeen years as a friend and as a professional colleague committed to human rights and rule of law. Despite my departure from San Francisco, we have remained in close contact, and I have, with great happiness, witnessed John's advancement through law school, to practicing civil rights defense attorney, active and respected member of the Asian American community of professionals in San Francisco, and a committed champion of justice for those who are often overlooked and neglected by society. His passion for his community and for justice for the most under-served are clear themes of his work and private life.

John would be an outstanding choice for membership in the San Francisco Police Commission. He is welcomed in the City's communities of color, and is known to many as an honest and caring champion for their needs. John's professional qualifications, his hard work and dedication to continuing San Francisco's tradition of being a model city of diversity, integrity and transparency make him an ideal candidate for the Commission.

Please do not hesitate to contact me should you have further questions about my enthusiastic support for John's candidacy and his outstanding credentials for the San Francisco Police Commission.

Sincerely,

Jennifer Gaspar

Board of Supervisors
Board.of.Supervisors@sfgov.org

To the Board of Supervisors:

My name is Lin Chan. I am writing in support of the appointment of John Hamasaki to the San Francisco Police Commission. I live in the Duboce Triangle/Castro neighborhood of San Francisco and have been a resident of San Francisco for four years. I am a Bay Area native, and my husband has lived in San Francisco since the 1980s. I am Chinese American, and my husband is Mexican American.

I am also a Partner at the law firm Lieff Cabraser Heimann & Bernstein LLP, on the Board of Asian Americans Advancing Justice-Asian Law Caucus, and a Co-Chair of the Asian American Bar Association's Women's Committee. As a San Francisco resident and civil rights lawyer, I have a strong interest in the Commission's leadership and the relationship between the San Francisco Police Department and the communities it serves.

I have had the opportunity to get to know Mr. Hamasaki over the past five years through his work with the Asian American Bar Association ("AABA"). He served as Board liaison to AABA's Civil Rights Committee while I co-chaired that committee, and I have observed his commitment to civil rights and his ability to work through the nuances that accompany addressing delicate issues, such as undocumented immigration and the criminal justice system, sex discrimination in the workplace, and representation of transgender clients. He has always been open and available to AABA's constituency despite his busy schedule, and he has actively participated in problem solving when issues have surfaced. Throughout my experiences with him, he has always been able to sustain an even temperament and open mind.

I also think that Mr. Hamasaki will bring valuable professional experience to the Commission. He has ample experience as a public defender and criminal defense attorney. Consequently, he has been intimately involved in many of the issues that the Commission will handle.

As a mother of a young son, I am deeply concerned about maintaining a safe environment for San Francisco's residents and minimizing crime. I am also concerned about the interactions that

Board of Supervisors

November 30, 2016

Page 2

my multi-racial son will have with the police as he grows older. Mr. Hamasaki is a minority with experience in the criminal justice system. He has been active in the Black Lives Matter movement and understands the complicated relationships between the police and the communities they serve. He also maintains a level head when difficult issues arise. Mr. Hamasaki is the right choice to balance both concerns and negotiate solutions to these difficult problems.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lin Chan".

Subject: Letter in support of John Hamasaki - Police Commission

Dear Members of the Board of Supervisors,

My name is Erik Nielson, and I am writing to express my enthusiastic support for John Hamasaki's appointment to the San Francisco Police Commission.

I am a college professor at the University of Richmond in Virginia, where my research focuses on the intersections of African American art, culture, and the law. For the last several years, I have been studying—and drawing attention to—the use of rap music in the criminal justice process across the country. (I am most interested in the ways that prosecutors introduce rap lyrics as evidence of confessions—something that doesn't happen with other musical or fictional forms.) It is through this work that I first met John, who was defending a Bay Area rap artist whose lyrics were used against him in a criminal prosecution.

If you are interested, here's a link to an *LA Times* op-ed I coauthored related to John's case:<http://articles.latimes.com/2014/apr/07/opinion/la-oe-kubrin-and-nielson-rap-prosecution-20140408>

I have worked with a number of attorneys across the U.S., but I have been particularly impressed with John. He is talented, thoughtful, and has a clear passion for social justice. I think he is uniquely suited to the Police Commission because he understands, better than many, the challenges that young people, particularly those of color, face in America's cities. I admit that as an outsider, I am not familiar with the current members of the Commission. But I do know that San Francisco is a highly diverse city with a police department that is facing unique challenges, and I believe that John would work hard to represent the interests of everyone, including those who are often silenced, to support the city's efforts to maintain an effective police force that serves the entire community.

If I can provide any additional information (or praise), please do not hesitate to contact me.

Sincerely,
Erik Nielson

To SFMTA and the SF Board of Supervisors,

Though Rose Pak played a key role in the creation of the new Central Subway, it was through political bribery and corruption. If the Central Subway station is named after her, it shows the passive acceptance of this corruption continues long after her death.

If anything, I suggest you name the Stockton Street a car-free pedestrian walkway after her, since that will be able to come to fruition precisely because she is no longer a political bully.

Sincerely,
Kelley Trahan

Subject: Beach Chalet soccer fields

„Good afternoon,

The City & County of San Francisco owes its citizens keeping development and commercial activity out of our city parks. That includes stopping the cutting down of trees which do not need to be cut down and replacing them with native grasses and brush instead. The City and the Park & Rec program have made unfortunate decisions, anethesized our parks overall by cutting down trees, allowing especially Golden Gate Park to become a traffic thoroughfare - and a dangerous one at that -, developing the Beach Chalet soccer fields with artificial grass and turf that outgases and creates pollution, and by then lighting up those fields for the better portion of every day with far too high wattage that interferes with ecosystems and wildlife and creates light pollution for adjacent neighborhoods. I am aware that some of these lights get turned off a little earlier at times but will say that doing so is no true solution to the problem(s).

Further, the Park & Rec Department, an agency with public funding and as such responsible to the public has not even deigned to answer an e-mail I sent to them in the beginning of 2016, requesting an explanation for the clear cutting of Golden Gate Park. I provided photographic evidence and have plenty more at this point. Golden Gate Park is a shadow of itself. It is no longer an oasis, nor do the Park & Recs' policies appear to understand that we need more green space and trees (not artificial turf) that those who supported these developments would hardly, if at all allow the same on the golf courses they might belong to... Our city's population growth requires that we implement better parks and green space policies instead of destroying what we have. I for one find it distressing to see our natural green spaces destroyed when we could do so much better by our citizens. I encourage our leadership to take a serious look at the greening policies Mexico City is continuing to implement to green their city, fight pollution, and improve both air quality and quality of life.

Best regards,

Dear San Francisco Board of Supervisors,

I urge you to remove the Sharp Park Golf Course redevelopment project, originally known as proposal "A18", from the environmental review for San Francisco's Significant Natural Resource Area Management Plan ("SNRAMP"). If you do not, you must reject the entire SNRAMP environmental review, because the fiscal, environmental, and recreational consequences of the Sharp Park Golf Course redevelopment project are so grave that it will wipe out any and all environmental benefits proposed in all other areas affected by SNRAMP.

TOWARDS AN UNDERSTANDING OF TDM AS APPLIED TO THE RESERVOIR PROJECT AND VICINITY (12/4/2016)

A plain language explanation of TDM is provided here: [Guest Editorial: TDM is a Roadmap for Sustainable Transportation | Streetsblog San Francisco](#)

Guest Editorial: TDM is a Roadmap for Sustainable Transportation | Streetsb...

The TDM strategy to reduce auto usage by shifting people to alternative means of transportation is fine as a general concept.

However, the application of TDM to the specifics of the Balboa Reservoir vicinity has major problems:

1. The Development Parameters barely, if at all, acknowledge the importance of the existing student parking for student access to educational services offered by City College. Although the Parameters talk about the Project's relationship to City College, the Development Parameters fails to acknowledge the primacy of CCSF for the Reservoir vicinity specifically, and for the Bay Area in general. It implicitly assumes that:
 - a) Housing is more important than City College (and although promoted and inaccurately framed as an affordable housing effort, Reservoir housing will in reality be 67% NOT-Affordable [as defined by law] !.....Furthermore, affordability is only required to last as long as the "useful lives of the buildings." What a loophole!);
 - b) Reduction of automobile usage is more important than student access to education at CCSF.
2. The standard for success of the Reservoir Project's TDM will only be measured by "trips generated" from **within the boundaries of the Reservoir Project itself**. Whatever spillover effects that happens outside of the boundaries of the Reservoir Project proper--in Sunnyside, Westwood Park, Ingleside, CCSF, Riordan, Lick Wilmerding-- will not be accounted for by the Project's TDM requirements and measurements.

In other words, if Reservoir residents originate their car trips in the surrounding neighborhoods by parking and driving outside of the PUC Reservoir Project's own boundaries, no trips will have been generated by the Reservoir Project. The spillover impacts of parking and traffic to Ingleside, Westwood Park, Sunnyside, and CCSF will not be considered to be the Reservoir Project's problem. The affected existing neighborhoods and CCSF stakeholders will be expected to make their own adjustments to

accommodate the spillover from the new project: *CCSF stakeholders, Sunnyside/Ingleside/Westwood Park neighbors should just modify their behavior--learn to walk, bike, use public transit.... Sunnyside residents should just ask MTA to institute Residential Permit Parking;..... Affected neighbors can call MTA/ 311 to ticket/tow blocked driveways,..... Whatever the case, it's not the Reservoir Project's problem.....Let the existing stakeholders eat cake!*

3. The City Team hired Nelson-Nygaard to make a TDM presentation to the BR CAC to make a case that TDM would be a solution to the area's parking and transportation problems. However, the TDM presentation was replete with fatuous generalities that failed to address the specific characteristics of the Reservoir vicinity. Other than generalities, the City Team and Nelson-Nygaard has failed to provide evidence and documentation that a TDM "solution" will be able to successfully mitigate the Reservoir Project's adverse effects on City College attendance and enrollment and on the neighborhoods. Fatuous TDM PR and wishful thinking will not be adequate solutions to the Reservoir Project's adverse impact to CCSF student enrollment and attendance.
4. City College's Facilities Master Plan has proposed several parking structures to be built on SFCCD property. Instead of SFCCD carrying the burden of paying to replace lost student parking, the Balboa Reservoir Project needs to take responsibility to fully mitigate its adverse impact on student access to educational services. The Reservoir Project needs to be held financially responsible for paying for replacement parking caused by its eviction of CCSF student parking from the western Reservoir. According CEQA principles, the Reservoir Project has mitigation responsibilities for adverse impacts on the existing setting and on public/educational services.

Good afternoon Mayor Edwin Lee and Honorable members of the San Francisco Board of Supervisors. I can't believe what I just read in our Nextdoor www site. WHAT HAPPENED? I have pretty much did a cut and paste of this article (below), with out distorting the message any further.

I do not understand this voting process. How can this be possible? What is your justification for this? When the tax payers overwhelming voted for this. I realize money is tight but this is not one of the items that I as a tax payer sees to be cut from the budget. Can someone please get back to me on this matter before its too late?

A very unhappy tax payer,

Dennis

24

Article from the Nextdoor:

"Mayor Ed Lee,

I urge you NOT to kill Prop E for Trees. 79% of voters agreed that healthy trees and safe sidewalks are a priority for our City.

Killing Prop E would be contrary to the will of the voters, disastrous for our urban forest, and a betrayal of San Francisco's reputation for environmental leadership. Its small cost is covered by new revenue, and easily fits the City's \$9.5 billion budget.

Please allow Prop E to take effect in keeping with the wishes and expectations of the vast majority of San Franciscans."

Dear board of supervisors,

We as proposer of the latest RFP concessions leases are baffled at how one of the highest gross revenues terminal was awarded to all large corporations, save one local business. As a local bidder, we also feel that we are more qualified than the one local company that won in terms of concept, experience and financials.

We feel the selections that were made did not reflect the true demand of the target market. We hope the commissioner reexamine the process and encourage a fair and equitable bid that SFO has thus far championed. Thank you.

Re: Use of Force Policy (DGO 5.10)

Dear Commissioners:

On behalf of the American Civil Liberties Union of Northern California (“ACLU”), I am writing to express our strong support for the revised Use of Force Policy that the Commission approved unanimously in June, and hopefully will finally adopt in open session at its December 7, 2016 meeting. As a participant stakeholder in the months-long process of drafting this policy, I am frankly appalled by the disinformation campaign that the POA (also a participant stakeholder) has launched against the Commission and against one of the most important provisions of the Policy – namely, the provision prohibiting shooting at moving vehicles.

In its so-called “public service announcement,” the POA distorts the facts and resorts to scare tactics to try and derail a limitation on the use of force that has become a signature reform of the modern policing movement around the country. In so doing, the POA displays its fundamental resistance to the police reform movement that was launched by the Mayor in February and has been adopted by the Commission, the Board of Supervisors, the Department of Justice and the leadership of the SFPD itself. **Therefore, the Commission’s strong statement issued on December 2nd in response to the POA ad was very heartening and encouraging to those who believe that San Francisco must move into the 21st Century when it comes to police policies and practices.**

It is noteworthy that the ban on shooting at moving vehicles was a proposal from the Department itself. It was understood from the outset that this provision was one of the most important - if not the most important - change that was needed to update the outdated 1995 policy, because it directly addressed the problem that has been the driving force for reform of SFPD – i.e., too many unnecessary officer-involved shootings, particularly of African-Americans. 25% of SFPD’s officer-involved shootings from 2000 to the present involved shooting at vehicles. And the critical importance of this policy change was vividly and tragically underscored by the officer-involved killing of Jessica Williams just a month before the new

policy was approved by this Commission. This African-American pregnant woman was shot while backing up her car, perhaps in an attempt to evade the police. The incident was so shocking that it led to the resignation of Chief Suhr.

For this Commission to adopt a revised Use of Force Policy that did not make it crystal clear that the police actions that led to the death of Jessica Williams are prohibited would be to make a mockery of the new policy's underlying principles: "SAFEGUARDING HUMAN LIFE," "DE-ESCALATION", and using "the minimal amount of force necessary." While the POA has paid lip service to these general principles, its ad and its strident insistence that officers must continue to be able to shoot at moving vehicles calls into serious question whether, under its current leadership, the POA will be a partner in reform or continue to be a roadblock - in fact the principal roadblock - to significant change. The Commission's final adoption of this prohibition on shooting at moving vehicles will demonstrate that the principles of "safeguarding human life" and "minimal force" are not just words on paper.

The residents of San Francisco have been given a clear and unambiguous promise by the Mayor, this Police Commission and the Interim Police Chief: to take a Department with outdated and antiquated policies and practices and to transform it into a national model of modern policing. **The POA position on shooting at vehicles is a direct challenge to that promise.** This is not an "only in San Francisco" idea; the ban on shooting at vehicles has been adopted by a number of large metropolitan police departments, the International Association of Chiefs of Police's Model Policy and the Police Executive Research Forum (PERF). Perhaps most significant is the position taken by the Department of Justice's Community Oriented Policing Services (COPS) after months of on-the-ground investigation. COPS specifically called for the "immediate" implementation on the ban on shooting at moving vehicles, and COPS Director Ron Davis stated bluntly that this was a "bad practice."

So to be clear, the POA is calling for this Commission to eliminate a "best practice" and to adopt a "bad practice." It is undoubtedly true as the POA claims that many of the 18,000 police departments in the country still permit their officers to shoot at moving vehicles. But San Francisco will not approach the goal, stated by Interim Chief Chaplin, of "becoming the leading law enforcement agency in the country" by aligning itself with departments that resist change. While the POA ad headlines the terrorist attack in Nice, its centerpiece is an incident that happened in San Francisco where 13 years ago an 18-year-old was shot in his vehicle while he appeared to be trying to escape. This incident had nothing to do with terrorism. **That the POA features (and implicitly justifies) this officer-involved killing shows what is really at stake if the POA has its way - the creation of an exception that will leave the public vulnerable to further Jessica Williams-type tragedies.**

The POA's resistance to such a basic reform of 21st Century Policing, and the Commission's strong stand in support of its prohibition on shooting at moving vehicles, has broader significance in the context of recent events at the national level. In light of the statements of President-elect Trump, and of the past record of his nomination for Attorney General (Jefferson Beauregard Sessions III) who will head the DOJ, there is widespread concern that there will be a federal retreat (if not an assault) on civil rights and civil liberties protections. The

threats cover a broad range of issues, but are particularly acute for vulnerable minority communities. **What is clear already is that California, and San Francisco in particular, have local values and traditions and local laws and policies that can provide protections for people's rights and liberties even if the federal government chooses to reject this role. And just as important as these local laws, public officials in California and in San Francisco are standing up for the core values of this state and this city.**

Mayor Lee has stated that "San Francisco will continue to be a beacon of light, a city dedicated to progress." To make that real, the Mayor has unequivocally stated that San Francisco will remain a sanctuary city, regardless of President-elect Trump's threats to cut off funding. The Board of Supervisors recently adopted a resolution that seeks to protect the rights of our vulnerable residents "no matter the threats made by President-elect Trump." The Supervisors recognized that the movement towards police reform was at risk, and reaffirmed their commitment: "And guided by President Obama's Task Force on 21st Century Policing, we will continue reforming our police department and rebuilding trust between police and communities of color so all citizens feel safe in their neighborhoods."

The adoption of the Use of Force policy, including its ban on shooting at moving vehicles, provides this Commission with a timely opportunity to join these other San Francisco public officials to stand up for San Francisco values and to assure San Franciscans that the model of 21st Century Policing, and the recommendations from COPS, remain as the centerpiece for transformational change of SFPD. By taking this action on Wednesday, the Commission will be demonstrating in a very concrete way that the process of reform of SFPD will move forward, regardless of any retreat from 21st Century Policing on a federal level.

This is not the last time that the threat of terrorism will be raised before this Commission by those seeking to limit civil rights and civil liberties and to expand police powers. While the threat of terrorism is real, and the difficult task of balancing freedom and security is always a challenge, in this instance the Commission must remain steadfast and adopt this critically important protection for our communities.

Sincerely,

Alan L. Schlosser

 BY ON

DEAR MAYOR LEE,

YESTERDAY, NOVEMBER 22, 2016, I HAD THE PLEASURE OF INTERACTING WITH TWO OF YOUR POLICE OFFICERS. I WOULD LIKE TO SHARE HOW THE OFFICERS MADE A NEGATIVE SITUATION MORE PALATABLE. HERE IS MY STORY.

MY WIFE AND I, INCLUDING MY DAUGHTER AND GRANDSON VISITED THE EMBARCADERO AND PIER 39. WE HAD A GREAT DAY VISITING YOUR GREAT CITY. WE WALKED BACK TO THE LOCATION WHERE WE HAD PARKED OUR VEHICLE ALONG THE EMBARCADERO. IT WAS A LONG WALK AS MY WIFE AND I ARE DISABLED. TO MY SURPRISE, OUR VEHICLE WAS MISSING. I LOOKED AT A NEARBY SIGN WHICH READ "NO-PARKING" BETWEEN 3PM-7PM. IT WAS NOW 8 PM. AT THIS POINT I WAS CONVINCED OUR VEHICLE HAD BEEN TOWED. THIS IS WHERE I MET OFFICERS HAYES #1221 AND SIMON #180.

27

I EXPLAINED TO THE OFFICERS WHAT I BELIEVE HAD HAPPENED TO MY 2017 GMC SIERRA. BOTH OFFICERS LISTENED TO MY STORY WITH GENUINE INTEREST AND CARE. THE OFFICERS BEGAN TO MAKE CALLS TO DETERMINE THE LOCATION OF MY TOWED VEHICLE.

AFTER THE OFFICERS LOCATED MY VEHICLE, THEY OFFERED TO HELP ME FURTHER BY TRANSPORTING ME TO THE TOW YARD. AFTER A TOTAL OF ONE HOUR PASSING, I WAS BACK IN MY VEHICLE, ENROUTE TO PICK UP MY WIFE, DAUGHTER AND GRANDSON.

I CANNOT EXPRESS TO YOU MY SINCELEST AND GENUINE THANKS TO THE OFFICERS YOU EMPLOY.

WE LIVE IN AN UNFORTUNATE AGE OF NEGATIVE PUBLICITY AGAINST OUR LAW ENFORCEMENT PERSONNEL. I WANTED TO COUNTER SOME OF THAT NEGATIVE PUBLICITY BY WRITING THIS HAND-WRITTEN LETTER OF THANKS, IF IT WERE NOT FOR THE CARE AND COMPASSION OF THESE OFFICERS, I DON'T KNOW THAT WE WOULD HAVE HAD SUCH A POSITIVE OUTCOME (EVEN THOUGH WE ENDED UP HAVING TO PAY THE TOW COMPANY TO GET MY VEHICLE OUT OF IMPOUND).

THANK YOU ONCE AGAIN,

GRIM LAMERSON

*Special Meeting due to the holidays in January

CHARLEY HARPER | BIRDS

Blue Jay Bathing

Bos-11, opage

Dear San Francisco Board of Supervisors,

I want to thank you for your recent vote to end the leasing of city owned land to the fossil fuel industry.

You are making a brave and important move and I hope many cities

and counties will thank you for leading such an effort and will do the same!

Thank you!
The Hoffmann Family
