FILE NO. 250991

RESOLUTION NO.

[Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools]

**Resolution urging the San Francisco Police Department (SFPD) to develop and implement a comprehensive enforcement and intervention plan to address drug use or suspected drug activity especially within 250 feet of parks, playgrounds, schools, and youth centers including issuing citations, conducting assessments, and removing individuals for processing or detoxification services.**

WHEREAS, The City and County of San Francisco has a responsibility to protect the health, safety, and welfare of all residents - especially children, families, and vulnerable populations who frequent parks, playgrounds, and schools; and

WHEREAS, The ongoing public health crisis involving the open use and trafficking of illicit drugs in public spaces has raised significant concern among residents, educators, parents, and community leaders; and

WHEREAS, San Francisco Police Department officers are dedicated to keeping San Francisco residents and visitors safe; and

WHEREAS, San Francisco residents and visitors regularly express frustration and confusion about which City service to contact in response to illegal or unsafe activity in their neighborhoods, often receiving conflicting or inconsistent guidance about whether to call 3-1-1, San Francisco Police Department's non-emergency number, or 9-1-1, particularly in situations involving public drug use, open-air dealing, or other ongoing street-level offenses; and

WHEREAS, This lack of clarity undermines residents' confidence in the City's public safety response, delays timely reporting, and places both community members and

1 emergency dispatchers in difficult positions when they are forced to guess which number to  
2 call in situations that are urgent but not always life-threatening; and

3 WHEREAS, Parks, playgrounds, schools, and youth centers are essential public  
4 spaces that provide opportunities for recreation, education, and healthy development, and  
5 must be protected as safe and drug-free zones; and

6 WHEREAS, Numerous incidents of drug use and drug-related activity have been  
7 reported near playgrounds and schools, in some cases resulting in life-threatening situations  
8 involving children; and

9 WHEREAS, Exposure to drug use or paraphernalia poses serious risks to the physical  
10 and emotional health of children and undermines the safety and integrity of surrounding  
11 neighborhoods; and

12 WHEREAS, Repeated drug activity in close proximity to these sensitive community  
13 sites threatens public safety and the livability of neighborhoods throughout San Francisco;  
14 and

15 WHEREAS, A coordinated public safety and public health response is necessary to  
16 ensure that drug activity near parks, playgrounds, and schools is addressed promptly and  
17 appropriately, balancing the need for enforcement with compassion and access to treatment;  
18 and

19 WHEREAS, The City and County of San Francisco and the Board of Supervisors  
20 support police officers enforcing the laws of the City and County of San Francisco and the  
21 State of California regarding the sale and public consumption of illicit drugs; now, therefore,  
22 be it

23 RESOLVED, That the Board of Supervisors of the City and County of San Francisco  
24 urges the San Francisco Police Department, the Department of Emergency Management, and  
25 the Department of Public Health to develop and implement a comprehensive plan to respond

1 to drug use, visible narcotics activity, or suspected drug trafficking occurring within 250 feet of  
2 any park, playground, or school, which shall include but not be limited to: Issuing citations to  
3 individuals engaged in unlawful drug activity in these areas, conducting on-site assessments  
4 to evaluate individuals' health and needs and removing individuals from the vicinity for  
5 processing and prioritizing intervention by referring and connecting individuals engaged in  
6 unlawful drug activity to crisis stabilization, detoxification or treatment services, as  
7 appropriate; and, be it

8 FURTHER RESOLVED, That the Board of Supervisors of the City and County of San  
9 Francisco urges the SFPD to adopt technology tools, pursuant to our city's technology  
10 policies, including but not limited to: Chapter 19B, and 22J to reduce the time and increase  
11 the accuracy of citation writing and incident reporting in all forms; and, be it

12 FURTHER RESOLVED, That this comprehensive plan be in pursuit of an immediate  
13 future where San Francisco's sidewalks and public spaces are free of the sale and use of illicit  
14 drugs; and, be it

15 FURTHER RESOLVED, That this Resolution does not change existing laws or criminal  
16 justice policies, but reaffirms the City's duty to ensure the safety of public spaces and to  
17 provide coordinated interventions for individuals struggling with substance use; and, be it

18 FURTHER RESOLVED, That the Board of Supervisors requests the San Francisco  
19 Police Department to report back within 60 days of the passage of this Resolution with a  
20 detailed plan for implementation, including timelines, resource needs, coordination with health  
21 and emergency departments, and any anticipated challenges; and, be it

22 FURTHER RESOLVED, that the Clerk of the Board of Supervisors shall transmit  
23 copies of this resolution to the San Francisco Police Department, the Department of  
24 Emergency Management, and the Department of Public Health for their review, collaboration,  
25 and immediate consideration.

## YOUTH COMMISSION MEMORANDUM

**TO: BOS Public Safety and Neighborhood Services Committee**

**CC:** Monique C. Crayton, Assistant Clerk  
Angela Calvillo, Clerk of the Board  
Alisa Somera, Legislative Deputy Director

**FROM:** 2025-2026 Youth Commission

**DATE:** Monday, October 27, 2025

**RE:** SUBJECT: YOUTH COMMISSION LEGISLATION REFERRED 10/20/25

---

At its in-person meeting on Monday, October 20, 2025 the Youth Commission discussed BOS File No. 950991:

1. The Youth Commission recognizes the importance of prioritizing public safety in areas near parks, playgrounds, and schools.
2. The Youth Commission affirms that parks, playgrounds, and schools are outlets of public spaces that families and youth rely on.
3. The Youth Commission acknowledges several concerns regarding the implementation of the proposed resolution, particularly regarding the role of the SFPD, potential over-policing, and the impact on youth.
4. The Youth Commission put together the following questions and considerations for the hearing on the proposed resolution:
  - How will the SFPD decide which parks, playgrounds, or schools to prioritize, and what criteria will be used?
  - How are officers being trained to engage with youth, especially those experiencing substance use challenges?
  - Could increased police presence push drug activity into other neighborhoods, and what measures will prevent this displacement?
  - Are there alternative programs, such as 311 or mental health-focused interventions, that could complement or replace law enforcement involvement?

- How can the plan include long-term sustainability and avoid being a temporary solution?
  - How will the SFPD collaborate with the Youth Commission to ensure youth-centered approaches are incorporated in plan development?
  - What preventative measures will be taken to restrict youth access to drugs near public spaces?
  - How will the plan balance public safety with avoiding disproportionate impacts on certain neighborhoods?
  - How will the City and SFPD conduct outreach to ensure youth and families are informed about the new policy and resources available?
5. The Youth Commission notes support from the community, with 23 letters submitted in favor of the legislation, and urges the SFPD to submit new standards and collaborate closely with youth-focused organizations during plan development.

Please do not hesitate to contact Youth Commissioners or Youth Commission staff (415) 554-6446 with any questions. Thank you.

# Protecting Parks, Playgrounds & Schools

**CITY & COUNTY OF SAN FRANCISCO**

Police Department  
Field Operations Bureau

November 13, 2025

# Safety with Respect

2

\*Schools = all SFUSD sites, private schools and CCSF campuses

# The Issue on the Ground

- Drug use and paraphernalia near schools and parks create safety and sanitation hazards for children, families, and staff.
- Calls for service typically fall under H&S §§ 11350, 11377, 11550, and 11364, representing simple possession or use.
- Sales-related offenses (H&S §§ 11351-11352, 11378 and 11379) are a small fraction of total incidents citywide. Enhanced penalties apply for sales within school zones under state law.
- Operationally, these calls often compete with higher-priority incidents.
- RPD Park Rangers may issue infractions and cite for violations of the Park Code only.

## **Calls for Service: Narcotics and Suspicious Persons Within 250 Feet of Parks, Playgrounds and Schools**

**Grand Total: 48,729 Calls for Service**

## Incidents Occurring Within 250 Feet of Parks, Playgrounds and Schools

Grand Total: 2,967 Incidents

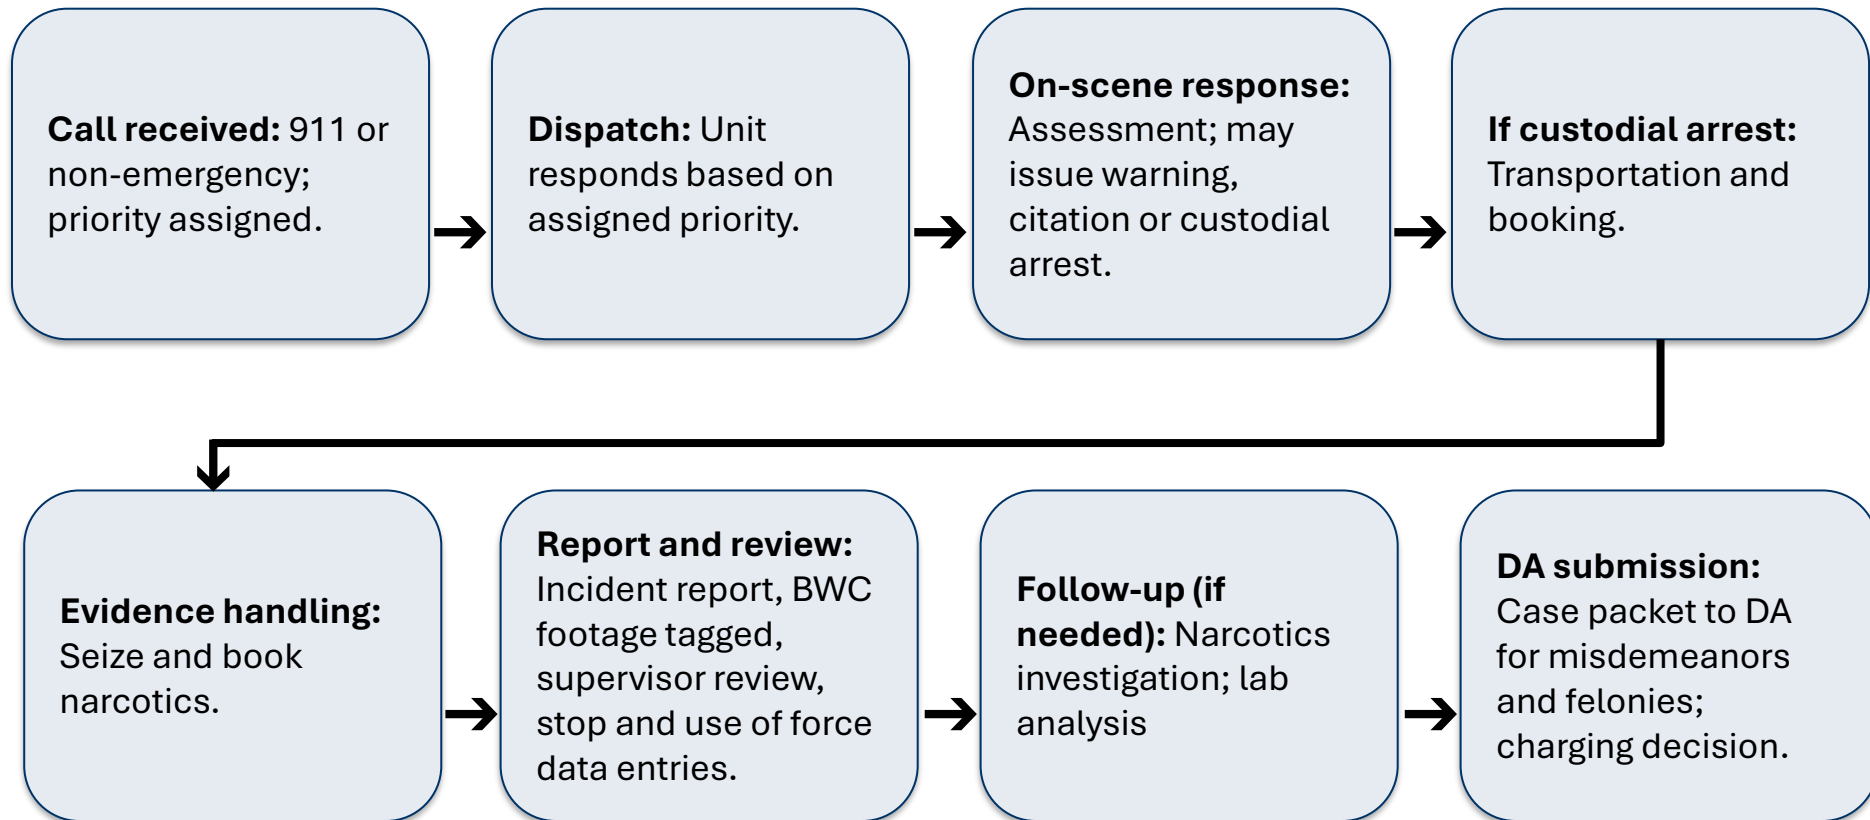

## Arrests Occurring Within 250 Feet of Parks, Playgrounds and Schools

January 2024 – September 2025

Grand Total: 2,883 Arrests

# How a Call for Service Proceeds

# Operational Barriers

- Most drug-related cases are misdemeanors; custodial arrest limited to continuing offense or felony.
- Each call requires significant administrative time for reports, evidence, BWC uploads, required data entries, transport to jail and medical triage.
- Some incidents appear dangerous but do not meet arrest thresholds; officers must manage that distinction.
- Citywide call volume remains high, and DEM assigns call priority.
- Citations often lead to no-shows and bench warrants, repeating the cycle.

# DMACC: Concentrated Enforcement and Interagency Coordination

- The Drug Market Agency Coordination Center (DMACC) unites SFPD, SFSO, DA, DPH, DEM and community partners to address open-air drug markets in the Tenderloin and SoMa.
- DMACC conducts targeted, resource-intensive operations focused on specific hot spots.

Cumulative User and Dealer Arrests (2023 - 2025 YTD)

Cumulative Fentanyl Seized (grams)

# Department Perspective

- Our goal is safety for students, families, and neighbors.
- SFPD responds and enforces within existing law; each case involves multiple steps.
- Concerns around schools and parks are recognized and taken seriously by command staff.
- Progress depends on continued cooperation with schools, City departments, and community partners.

Thank You.

Any Questions?

SAN FRANCISCO  
POLICE DEPARTMENT

Subject      Issue Citations for Public Illicit Drug Use  
Message:      Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies,

but instead directs the City to use the legal tools already available - to issue citations, conduct on-site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Subject      Issue Citations for Public Illicit Drug Use

Message:      Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies,

but instead directs the City to use the legal tools already available - to issue citations, conduct on-site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Subject                            Issue Citations for Public Illicit Drug Use

Message:                         Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies,

but instead directs the City to use the legal tools already available - to issue citations, conduct on-site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

Subject      Issue Citations for Public Illicit Drug Use

Message:      Dear Supervisors, Commissioners, Ms. Heather Renschler and Chief Daniel Hahn:

San Francisco can't agree on much, but we can agree that we have a drug crisis. That acknowledgment alone is progress. But now, we must match it with action.

Nearly 30% of our members identified open-air drug markets and overdoses as the top public safety issue the next Chief of Police must address. The mandate is clear: we need a top-down approach to eliminate drugs from our streets, starting with enforcement of existing laws.

Supervisor Sherrill's resolution, which urges the San Francisco Police Department to develop and implement a comprehensive plan to respond to drug use, visible narcotics activity, or suspected drug trafficking within 250 feet of any park, playground, or school, is a necessary and urgent step.

We urge you to vote yes on the "Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools Resolution".

This resolution protects our most vulnerable residents: children. It reaffirms the City's duty to ensure that parks, playgrounds, and schools remain safe, drug-free spaces. Importantly, the resolution does not create new laws or criminal justice policies,

but instead directs the City to use the legal tools already available - to issue citations, conduct on-site health assessments, and when appropriate, remove individuals for detoxification or treatment services.

If San Franciscans no longer want drug laws enforced, then the proper process is to change those laws. But until then, it is the City's obligation to enforce them. The lack of enforcement has eroded public trust and put children and families at risk in spaces that should be sanctuaries.

We now have a new beginning and a fresh opportunity to create a culture of support for the police to carry out the will of the people by enforcing the laws San Franciscans have collectively agreed to live under. This is an all-hands-on-deck moment. We need alignment among our elected officials and the recruitment services tasked with selecting the next Chief of Police, so that the City's leadership is united in carrying out the will of the people.

We call on the Board of Supervisors, the Police Commission, and the recruitment agency tasked with finding San Francisco's next Chief of Police to stand together in support of this resolution. The people of San Francisco have spoken clearly: we want safe parks, safe playgrounds, and safe schools. This is not a moment for hesitation or division - it is an opportunity for leadership and alignment. By adopting this resolution and ensuring the next Chief is empowered to enforce existing laws, our City's leaders can send a powerful message: San Francisco is committed to protecting its most vulnerable residents and restoring public confidence in our shared public spaces.

Thank you.

---

## MEMORANDUM

TO: Budget and Legislative Analyst

FROM: Monique Crayton, Assistant Clerk, Public Safety and Neighborhood Services Committee, Board of Supervisors

DATE: Monday, November 17, 2025

SUBJECT: LEGISLATION AMENDED - FISCAL IMPACT DETERMINATION

---

The Board of Supervisors' Public Safety and Neighborhood Services Committee (a nonfiscal committee) amended the following legislation on Thursday, November 13, 2025. Pursuant to Administrative Code, Section 2.6-3, the new version is being forwarded to you since it was initially determined not to have fiscal impact, but the amendments made were substantive and another review for a fiscal impact determination is required.

**File No. 250991 (Ver 2)**

***Prioritize Public Safety Response to Drug Activity Near Parks, Playgrounds, and Schools***

If the new version is determined to have fiscal impact, the legislation will need to be referred to a fiscal committee before it can be referred to the full Board for approval.

Please send your determination or contact with me any questions at (415) 554-7750 or email: [monique.crayton@sfgov.org](mailto:monique.crayton@sfgov.org).
