Section 1. Land Use and Environmental Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 250100 and is incorporated herein by reference. The Board affirms this determination.

(b) On April 3, 2025, the Planning Commission, in Resolution No. 21718, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the

1 City's General Plan and eight priority policies of Planning Code Section 101.1. The Board
2 adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the
3 Board of Supervisors in File No. 250100, and is incorporated herein by reference.

4 (c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that the
5 actions contemplated in this ordinance will serve the public necessity, convenience, and
6 welfare for the reasons set forth in Planning Commission Resolution No. 21718, and adopts
7 such reasons by this reference thereto. A copy of said Resolution is on file with the Clerk of
8 the Board of Supervisors in File No. 250100, and is incorporated herein by reference.

9
10 Section 2. Background and General Findings.

11 (a) 3250 19th Avenue is located in the RH-1(D) (Residential-House, One Family-
12 Detached) District. Measuring approximately 235,000 square feet, the lot is atypically large
13 for the RH-1(D) District, where lots typically average 2,500 square feet and are occupied by
14 small, residential structures. The subject property has been developed as an educational
15 campus and has operated as a school for over 72 years. The site fronts 19th Avenue, which
16 is a segment of California Highway 1, as well as Junipero Serra Boulevard, a busy local
17 thoroughfare.

18 (b) The current signage requirements for the RH-1(D) District impose limits on the
19 number and size of signs per parcel. While these controls are appropriate for typically sized
20 parcels in the District, these limits do not provide sufficient signage opportunities for a large,
21 undivided parcel that is surrounded by critical traffic arterials. This ordinance addresses the
22 problem by establishing the 3250 19th Avenue Special Sign District ("3250 19th Avenue
23 SSD"), which ties the number and size of signs to the length of the relevant street frontage at
24 the site. The 3250 19th Avenue SSD is in keeping with other special sign districts recently
25 enacted by the City, including the Stonestown SSD (Planning Code Section 608.10), which

1 provides additional signage opportunities for a large, undivided parcel that fronts the opposite
2 side of 19th Avenue.

3 (c) The 3250 19th Avenue SSD furthers the purposes of Planning Code Sections 101
4 and 601, including:

5 (1) promoting the aesthetic and environmental values of San Francisco by
6 providing for signs that serve as effective means of communication while preserving the City's
7 attractiveness as a place to live, work, visit, and shop;

8 (2) ensuring that signs are designed and proportioned in relation to the
9 structures to which they are attached, adjacent structures, and the streets on which they are
10 located;

11 (3) reducing hazards to motorists, bicyclists, and pedestrians caused by visual
12 distractions and obstructions; and

13 (4) protecting the distinctive appearance of San Francisco produced by its
14 unique geography, topography, neighborhoods, street patterns, skyline, and architectural
15 features.

16
17 Section 3. Article 6 of the Planning Code is hereby amended by revising Section 607.1
18 and adding Section 608.18, to read as follows:

19
20 **SEC. 607.1. NEIGHBORHOOD COMMERCIAL AND RESIDENTIAL-COMMERCIAL**

22 * * * *

23 (h) **Special Sign Districts.** Additional controls apply to certain Neighborhood
24 Commercial and Residential-Commercial Districts that are designated as Special Sign
25 Districts. Special Sign Districts are described within Sections 608.1 through 608.~~17~~18 of this

Code and their designations, locations, and boundaries are provided on Sectional Map SSD of the Zoning Map of the City and County of San Francisco.

SEC. 608.18. 3250 19TH AVENUE SPECIAL SIGN DISTRICT.

(a) Establishment of Special Sign District. *The 3250 19th Avenue Special Sign District (“3250 19th Avenue SSD” or “SSD”), consisting of Assessor’s Parcel Block No. 7231, Lot 003, as shown on Sectional Map SS01 of the Zoning Map of the City and County of San Francisco, is hereby established for the purposes and subject to the controls set forth in this Section 608.18.*

(b) Purpose. *The purpose of the 3250 19th Avenue SSD is to modify the sign controls that would otherwise apply within the SSD to allow for appropriate signage opportunities for this large, undivided lot and the structures that occupy the lot.*

(c) Controls. *Signs within the 3250 19th Avenue SSD shall be controlled by all applicable provisions in the Planning Code, except to the extent they conflict with this Section 608.18. In the event of a conflict between other provisions of the Planning Code and this Section 608.18, this Section shall control. Unless otherwise indicated in this Section 608.18, the controls within the SSD shall apply to signs for all principally permitted or conditionally permitted uses of the subject property.*

(1) Freestanding Signs *are permitted to be placed within a required front setback area or within a legislated setback line, provided that the Sign is located at least three feet from the street property line. No Sign shall project beyond a street property line.*

(2) The total number of permitted Signs *shall not exceed one Sign for each 130 linear feet of street frontage of the lot. Nothing in the foregoing sentence shall limit the placement of such Signs on the applicable street frontage.*

(3) Signs may be Indirectly Illuminated or Nonilluminated.

(34) All Signs shall satisfy the following requirements, as applicable:

1 (A) The Height of any Wall Sign shall not exceed 50 feet or the height of the wall
2 to which it is affixed, whichever is less; and

3 (B) The Area of any Wall Sign shall not exceed one square foot per three linear
4 feet of street frontage or 140 square feet, whichever is less; and

5 (C) The Area of any Freestanding Sign shall not exceed one square foot per
6 seven linear feet of street frontage or 60 square feet, whichever is less.

7 (45) In calculating the limits in subsection (c)(34) of this Section 608.18, the relevant
8 street frontage shall be the street from which the Sign is visible. Further, two street frontages cannot be
9 combined to install larger Signs or a greater number of Signs on a single street frontage.

10 (56) Nothing in this Section 608.18 shall limit the applicability of Planning Code
11 Sections 608.6 and 609.6 within the SSD.

13 Section 4. Zoning Map Amendment. Pursuant to Sections 106 and 302(c) of the
14 Planning Code, Sectional Map SS01 of the Zoning Map of the City and County of San
15 Francisco is hereby amended, as follows:

REVISED LEGISLATIVE DIGEST
(Amended in Committee – April 21, 2025)

[Planning Code, Zoning Map - 3250 19th Avenue Special Sign District]

Ordinance amending the Planning Code and Zoning Map to establish the 3250 19th Avenue Special Sign District, encompassing the real property consisting of Assessor's Parcel Block No. 7231, Lot No. 003, to provide signage opportunities commensurate with the size of the parcel; affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1; and making findings of public necessity, convenience, and welfare under Planning Code, Section 302.

Existing Law

Article 6 of the Planning Code contains sign controls that are generally applicable to various zoning districts—including controls for Residential Districts. (See Planning Code Section 606.) In the RH-1(D) ("Residential-House, One-Family, Detached") District, Planning Code Section 606 authorizes a maximum of one sign per lot and places limits on where that sign can be placed and the total area of the sign.

Article 6 also contains various Special Sign Districts which provide for additional sign controls for specific parcels or areas of the City.

Amendments to Current Law

This ordinance amends the Planning Code and Zoning Map to create the 3250 19th Avenue Special Sign District ("SSD"), encompassing the real property consisting of Assessor's Parcel Block No. 7231, Lot No. 003, which is zoned RH-1(D). The SSD allows for increased signage opportunities commensurate with the large size of the parcel, specifically providing that:

- Freestanding Signs can be placed within a required front setback area or within a legislated setback line, provided that the Sign is located at least three feet from the street property line;
- the total number of permitted Signs shall not exceed one Sign for each 130 linear feet of street frontage of the lot;
- the Height of any Wall Sign shall not exceed 50 feet or the height of the wall to which it is affixed, whichever is less;

- the Area of any Wall Sign shall not exceed one square foot per three linear feet of street frontage or 140 square feet, whichever is less; and
- the Area of any Freestanding Sign shall not exceed one square foot per seven linear feet of street frontage or 60 square feet, whichever is less.

In calculating the various signage limits within the SSD, the ordinance provides that the relevant street frontage shall be the street from which the Sign is visible. This means that two street frontages cannot be combined to install larger Signs or a greater number of Signs on a single street frontage.

Background Information

The ordinance contains findings that describe the unusually large size of the parcel relative to typical parcels in the RH-1 District. The current signage controls are not adequate for a large, undivided parcel that is surrounded by critical traffic arterials. The controls in the SSD further the purposes of signage regulation in the Planning Code by ensuring that signs are designed and proportioned in relation to the structures to which they are attached, adjacent structures, and the streets on which they are located and by protecting the distinctive appearance of San Francisco produced by its unique geography, topography, neighborhoods, street patterns, skyline, and architectural features.

This legislative digest reflects amendments made at the Land Use and Transportation Committee on April 21, 2025. Those amendments clarified the illumination requirements for the SSD.

Planning Commission Recommendation: Approval with Modification

Dear Ms. Calvillo and Supervisor Melgar,

On April 3, 2025, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, introduced by Supervisor Melgar. The proposed Ordinance would amend the Planning Code and Zoning Map to establish the 3250 19th Avenue Special Sign District to provide signage opportunities commensurate with the size of the parcel. The Commission's proposed modifications were as follows:

1. Modify the Ordinance to specify permitted Signs may be indirectly illuminated.

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Supervisor, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. If you have any questions or require further information please do not hesitate to contact me.

Planning Code Amendment

The proposed Ordinance would amend the Planning Code and Zoning Map to establish the 3250 19th Avenue Special Sign District, encompassing the real property consisting of Assessor's Parcel Block No. 7231, Lot No. 003, to provide signage opportunities commensurate with the size of the parcel.

Wall Sign: Area shall not exceed one square foot per three linear feet of street frontage or 140 square feet, whichever is less. Freestanding Sign: Area shall not exceed one square foot per seven linear feet of street frontage or 60 square feet, whichever is less.

Freestanding Signs are permitted to be placed within a required front setback area or within a legislated setback line, provided that the Sign is located at least three feet from the street property line.

Background

The subject property is approximately 5.4 acres and is developed as an educational campus, including a four-story academic building, fine arts building, and athletic facilities. Mercy High School – a Catholic, all-girls, college preparatory school – opened on the site in 1952, and operated there continuously until decreased enrollment and related financial difficulties forced its closure in 2020. The property was subsequently sold to the Chinese American International School (CAIS), a Mandarin immersion school founded in 1981. CAIS has operated at various locations in San Francisco prior to finding a more permanent home on the 19th Avenue campus. Following renovations, CAIS began operating at 3250 19th Avenue in Fall 2024, serving students in preschool through Eighth Grade.

During the renovation phase, CAIS approached the Department with a proposal to update the campus signage. However, the existing controls for signs within Residential Districts proved too restrictive to meet the needs of the school. They were encouraged to reach out to the District Supervisor's office for support. Planning has collaborated closely with the Supervisor's office and City Attorney's Office in developing contextually appropriate sign controls as part of the newly proposed Special Sign District (SSD).

Issues and Considerations

Regulating Signs

The sign controls exist to safeguard and enhance property values in residential, commercial, and industrial areas, and protect and enhance the distinctive appearance of San Francisco. To accomplish this, a permit is required for any sign unless it is specifically exempted from the regulations. The Planning Code regulates the types and combinations of signage that are allowed based on a site's zoning district and historic status of the building. The Planning Code also regulates the size, placement, height, and illumination of signs.

The sign controls for Residential and Residential Enclave Districts contained within Planning Code Section 606 impose the strictest limits on the various sign characteristics regulated by the Planning Code, reflecting the predominately low-scale, residential development pattern in these districts. The specific controls for

Residential Districts can be found in “The Way It Is” section of this report. Generally, signage in these districts is limited to Nameplates and Identifying Signs. An Identifying Sign serves to tell the name, address, and the permitted use of a location. A Nameplate Sign is a flat Sign affixed to the wall of a building and contains the name or profession of the people occupying the building.

An example of Identifying and Nameplate Signs

The Planning Code also regulates the illumination of permitted signs. Although illuminated signs can attract wanted attention to a business, they can also negatively affect neighboring tenants and residents if not illuminated appropriately. Within Residential Districts, signs may either be non-illuminated or indirectly illuminated. An indirectly illuminated sign is a sign illuminated with a light directed primarily toward the sign and shielded that no direct rays from the light are visible elsewhere than on the property where the sign is located.

Example of an Indirectly Illuminated Sign

3250 19th Avenue: Unique Location and Configuration

The parcel at 3250 19th Avenue is located within an RH-1(D) (Residential-House, One Family Detached) Zoning District. While the existing sign controls for Residential Districts are largely appropriate for these districts, they assume a typical development type found in San Francisco, a single building closely fronting one or two streets.

By contrast, the subject property is approximately 235,000 square feet in area, nearly 10 times the size of a standard city lot. The parcel extends the full width of the block, with primary street frontage on 19th Avenue and secondary street frontage along Junipero Serra Boulevard. Under the proposed SSD, the number and area of permitted signs would be based on the length of street frontage, with the calculation based on the frontage of the street from which the sign is visible.

Pedestrian and vehicular access to the site is located off of 19th Avenue. Additional flexibility in the size and location of signage, as proposed in this legislation, would allow updated signage to provide a safe entry marker to the campus, with high visual awareness. Additionally, the property is located across 19th Avenue from the Stonestown Galleria, a large commercial shopping center that includes numerous large, directly illuminated business signs.

The property is developed with a four-story academic building, a fine arts center featuring a 455-seat theater, and a multipurpose athletic facility. The former Mercy High School included several signs visible from the 19th Avenue frontage, including (1) an engraved wall sign above the primary entrance of the academic building, (2) a painted wall sign on the fine arts building, and (3) a freestanding monument sign.

Although signs that pre-date existing sign controls are generally permitted to remain as non-conforming signs, any new signage is subject to the limitations in the Planning Code. Per Planning Code Section 602, a change of copy on a sign “shall in itself constitute a new Sign...if the new copy concerns a different person, firm, group, organization, place, commodity, product, service, business, profession, enterprise or industry.” Therefore, even if CAIS sought to almost exactly replicate the former signage on the site, they would be unable to do so since the number, size, and location of the Signs conflict with the Residential district sign controls.

Special Sign Districts

Special Sign Districts (SSDs) act as an overlay that allow more flexibility or add additional restrictions on signs for a specific area. All the SSDs have a different set of rules based on the goals of the SSD. The proposed

SSD in this legislation allows for more flexibility for this site. The 3250 19th Avenue SSD is in keeping with other Special Sign Districts recently enacted by the City, including the Stonestown SSD (Planning Code Section 608.10), which provides additional signage opportunities for a large, undivided parcel that fronts the opposite side of 19th Avenue.

The subject property was developed as an educational campus and has operated as a school for over 70 years. The SSD would allow CAIS to implement a sign program generally commensurate with the former Mercy High's signage.

General Plan Compliance

The proposed Ordinance supports the Commerce and Industry Element's objective of maintaining a sound and diverse economic base for the city. Specifically, the proposed Ordinance aligns with Policy 2.1 to retain existing commercial and attract new businesses. Although not a commercial venture, CAIS provides employment opportunities for workers in the area. The continuation of the historical use of the property as an educational institution also advances Policy 2.3 of the Commerce and Industry Element, which seeks to maintain a favorable social and cultural climate in the city in order to enhance its attractiveness as a firm location. The proposed Ordinance also aligns with the Urban Design Element. Policy 4.6 seeks to emphasize the importance of local centers for shopping, government services and congregation of people. The 3250 19th Avenue campus is located along a busy portion of 19th Avenue, which is a segment of California Highway 1. The proposed Ordinance would allow the campus to reinforce the address of the school, better integrate with recent entry site upgrades, and create a distinct entry to the campus.

Racial and Social Equity Analysis

The proposed amendments only affect one property and therefore cannot be directly tied to a negative or positive impact in advancing the City's racial and social equity.

Implementation

The Department has determined that this ordinance will not affect our current implementation procedures.

Recommendation

The Department recommends that the Commission ***adopt a recommendation for approval with modifications*** of the proposed Ordinance and adopt the attached Draft Resolution to that effect. The Department's proposed recommendations are as follows:

1. Modify the Ordinance to specify permitted Signs may be indirectly illuminated.

Basis for Recommendation

The Department supports the goals of this Ordinance because it will allow for the continuation of the site as an educational institution and community asset. The area encompassed by the SSD was developed as an educational campus and operated as a school for over 70 years. The proposed Ordinance would provide

appropriate opportunities to adapt the campus signage to visually communicate the new ownership and operation as the Chinese American International School, while preserving the City's attractiveness as a place to live, work, visit, and shop.

Recommendation 1: 1. Modify the Ordinance to specify permitted Signs may be indirectly illuminated.

The draft Ordinance does not address sign illumination. To avoid ambiguity and provide the flexibility intended by the Ordinance, staff recommend updating the language to allow permitted signage in the SSD to be indirectly illuminated.

Required Commission Action

The proposed Ordinance is before the Commission so that it may adopt a recommendation of approval, disapproval, or approval with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c)(2) and 15378 because they do not result in a physical change in the environment.

Public Comment

As of the date of this report, the Planning Department has not received any public comment regarding the proposed Ordinance.
