1
2 Section 1. The Administrative Code is hereby amended by adding Chapter 12K,
3 consisting of Sections 12K.1 through 12K.7, to read as follows:
4

5 **CHAPTER 12K: PERMANENT SUPPORTIVE HOUSING; DRUG-FREE PERMANENT**
6 **SUPPORTIVE HOUSING**

7 **SEC. 12K.1. FINDINGS.**

8 (a) Permanent Supportive Housing (“PSH”) plays a significant role in San Francisco’s
9 response to homelessness by combining affordable housing assistance with voluntary support services
10 intended to address the myriad needs of chronically homeless people, including families with children,
11 seniors, and persons with chronic disabilities. These support services are intended to build independent
12 living and tenancy skills, and connect people with community-based health care, treatment, and
13 employment services.

14 (b) With few exceptions, San Francisco’s PSH sites currently adhere to the drug-tolerant
15 policies reflected in California’s current implementation of the “Core Components of Housing First,”
16 as set forth in California Welfare and Institutions Code Section 8255. These policies apply to state-
17 funded PSH, and provide that “use of alcohol or drugs in and of itself, without other lease violations, is
18 not a reason for eviction,” and that supportive services must be “informed by a harm-reduction
19 philosophy that recognizes drug and alcohol use and addiction as a part of tenants’ lives.” Some – but
20 not all – of San Francisco’s PSH is state-funded, and subject to the state’s current Housing First
21 mandates. To the extent locally funded PSH in San Francisco adheres to drug-tolerant provisions,
22 however, it does so as a voluntary policy choice subject to revision by the Board of Supervisors.

23 (c) The near universality of drug-tolerant policies in San Francisco’s PSH portfolio fails to
24 serve the needs of many PSH residents seeking to stabilize their lives as they exit homelessness.
25 This is especially true for those residents who are in recovery or seeking to recover from substance use

1 disorders (“SUDs”), but it is similarly true for those supportive housing residents not in recovery who
2 would prefer to avoid the myriad harms and risks associated with living in a residential community
3 where the use of illicit drugs is expressly tolerated.

4 (d) Moreover, many of the externalities that arise from residents’ illicit drug use overburden
5 the City’s public health and public safety resources because of elevated acuity and drug-related
6 behavioral health challenges, diminishing San Franciscans’ confidence in their city government’s
7 response to homelessness overall. According to data from the Office of the Chief Medical Examiner,
8 between June 2024 and July 2025, 26% of overdose deaths occurred in PSH, a higher percentage than
9 in shelters, hospitals, private homes, or on the street. Drug-related behaviors and associated
10 lawlessness lead to public nuisances that routinely rob law-abiding PSH residents and neighbors of the
11 quiet enjoyment of their own residences and neighborhoods. Just one PSH facility alone generated 654
12 police calls for service in a single year — averaging nearly two calls per day. A sample of 15 PSH sites
13 showed 5,872 police calls for service during that same time frame.

14 (e) Drug-Free PSH operates as a residential community free of illicit drug use, avoiding the
15 multitude of negative externalities of illicit drugs that bedevil many Drug-Tolerant PSH sites in San
16 Francisco. As compared to Drug-Tolerant PSH, drug-free housing options would also better support
17 individuals exiting homelessness who are in recovery from addiction or alcoholism as well as those at
18 elevated risks to develop SUDs. The 2025 Homelessness Needs Assessment, published by the Our City,
19 Our Home Oversight Committee in accordance with Business and Tax Regulations Code Section
20 2810(e)(2)(B), reported that 53% of single adults and 28% of families served through HSH’s housing
21 programs had substance use or mental health disorders.

22 (f) As of March 2026, the choices afforded to program participants are insufficiently prioritized
23 in San Francisco’s current operation of PSH. More Drug-Free PSH options would add an important
24 new choice for PSH residents exiting homelessness, and would broaden the City’s array of evidence-
25 based solutions to more effectively address homelessness and substance use disorders that are so

1 visible on City streets. By removing barriers to drug-free options for formerly unhoused persons and
2 honoring the choice of some PSH residents who would prefer to live in a drug-free residential
3 community, the policies advanced in this Chapter 12K would better serve many PSH residents, who
4 include families with children, seniors, and individuals at all stages of recovery from SUDs and at
5 heightened risk of suffering harms associated with illicit drug use.

6
7 **SEC. 12K.2. DEFINITIONS.**

19 “Illicit ~~D~~erug ~~U~~se” means the use of a controlled or regulated substance in a manner that is
20 unlawful under state or federal law, including use without a valid prescription or outside the scope of
