Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Dear San Francisco Board of Supervisors Land Use Committee and Clerk of the Committee:

We are submitting the attached letter on behalf of the San Francisco Apartment Association, Small Property Owners of San Francisco, Coalition for Better Housing and the San Francisco Association of Realtors regarding File. No.: 200375 - Administrative Code COVID-19 Tenant Protections, listed as Item 2 on today's Regular Agenda. Thank you for circulating copies to the Board Members and adding our submission to the official record.

Kindly confirm receipt of this submission at your earliest opportunity.

Thank you.

Regards,
Mary

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Sunday, June 7, 2020 5:44:09 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Sunday, June 7, 2020 7:28:26 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Sunday, June 7, 2020 10:42:44 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Sunday, June 7, 2020 10:56:08 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Sunday, June 7, 2020 11:54:35 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 12:07:53 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Monday, June 8, 2020 12:43:52 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 1:38:22 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

STOP!!!

I appreciate the the difficulties the Covid 19 situation presents for my tenants....in addition to me. I am definitely OK with temporary relief on rent and evictions. I would do this voluntarily. However, making this "relief" permanent is not fair, and I hope not legal. The financial burden of this relief should be more broadly distributed: city, state, all SF residents including ALL tenants, business, etc.

While the funding solution built into this proposition may be politically easy, it is neither logical nor "right."

The form letter below details the many reasons why.

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Hello,

I am a native San Franciscan. My parents bought a small mixed use building in SF in the 1960's- 1 residential unit, 1 commercial unit- where they had a business. When I inherited this pre-1900 building. I took out a large loan, updated all major building systems and completed a voluntary earthquake retrofit. I'm a responsible and attentive landlord. I'm in my 70's. Not only do I need the income from this building to pay that mortgage, property taxes, insurance etc., but it is also my retirement income. It's how I support myself. Without rents from my two tenants, I will, in relatively short order, have to sell the building to survive. Please consider the effect this legislation will have on small landlords like me. Please vote no. Thank you for your consideration.

Best regards,

Sue Corey

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 7:17:28 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Monday, June 8, 2020 7:45:30 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 8:20:34 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 8:21:18 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

As a young motivated person. I'm working hard to support myself, and finally get enough down-payment to buy a small condo , but a year ago realized that I can't offer all of those expenses (tax, loan interest , HOA fees) , and I had to rent it out to reduce these burdens and then rent a small place for myself with longer commute . It's hilarious that I bought a place but I couldn't stay . And yet I probably won't get the rental check if this bill is past. I tried so hard to make life better, please don't destroy my life. I'm the person suffering from the pandemic too even though I own a property.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. We want to protest about the proposed bill that extends eviction protections past this fall. We own a small duplex on Bernal Heights (our former home) and we would be financially pinched - majorly - if one or both tenants stopped paying rent for an extended period of time. We depend on that income to maintain the building, pay taxes on it, and supplement our retirement income. Our long term tenants already pay below market rents, so it's not like we're gouging them. Please don't transfer the financial pain from the tenants to two old modest property owners. Thank you.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

(Below is a letter sent to Sup. Preston, the Land Use Committee and related supervisors)

Dear Supervisor Preston -

I am writing as a constituent and property owner in your district to oppose your legislation abrogating my rights without due compensation. I oppose Ordinance #300375.

I only own the bldg I live in - a multi-unit in Hayes Valley, for which I had to scrape and save. While presently my tenant is current with their rent (and I'm thankful for that), I can imagine that scenario changing in a heart beat. I do not see your legislation as being in the long term best interests of those you think you are trying to serve. And its not in the best interests of folks like us. These are tough and trying times. Compromise is essential when necessary, as this is really not the fault of anyone; but this is not compromise! Placing the burden entirely on one party - the property owner (the affected tenants, after all, continue to enjoy their premises - albeit rent-free) - is not fair; particularly when the City continues to take its full cut in taxes, utilities, and fees; and particularly where there is no oversight for cheating from those who will unfairly benefit. City institutions have made food available for those who can't afford it - likewise the City should make rent payments available for that same cohort. The insidious - some call it 'unintended consequences' - nature of this legislation is that it would encourage the mindset of renters, to not think about their future, or to take responsibility for it. Good news for Lotto ticket sellers maybe, but not for short-sighted tenants.

In these partisan times, its unlikely my words will have any effect on you or your team. I merely utter them - much like the protesters for racial justice - to speak truth to seemingly (though not, hopefully) deaf ears. I hope you remain open to working with all parties to find less harmful ways to achieve your aims.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

In addition, the government is mandating small business owners (property owners) to provide funding under covid 19 while these small business are not qualified for any assistance on covid 19 government's loanS or assistant programs. The support related to covid 19 should be an effort of government and this ordinance allows government to pass this responsibility to property owners. It is an unfair ordinate. There are more issues here such as how to enforce there is no fraudulent and what is the penalty for making fraudulent claim. Would city allow forgetting property tax, water, mortgage etc? This ordinate is going to create more issues than what the covid 19 would cause as it triggers other issues. If city want to help tenants, would it be better to give fund to tenants to pay the rent and will not require too much ripple effects created by human not the covid virus. This ordinate will create more damage than the virus itself.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Dear Supervisors,

I urge you to vote against #200375. This is very unfair to all property owners, but particularly small property owners. Many of us, myself included, are retired and rely on our rental income to survive. We still have to pay all our bills. That may become impossible if we cannot collect all of our rental income.

This proposal goes far beyond what the Governor's order allows. It shuts us off from our legal access to courts. This places all the burden of Covid 19 on small mom & pop property owners.

Thank you

David Fix

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor,

I am writing to you to request a No vote on #200375. We are small property owners with an apartment building in District 2 in which all utilities are paid by ownership. We currently have 4 vacancies, out of 15 units, with other tenants thinking of moving out or requesting permanent rent reductions. I still consider this lucky because if tenants stay and don't pay rent for a long time and landlords are permanently prohibited from using the state law eviction processes for unpaid rent due to COVID-19 we will not be able to stay in business. We still have property taxes, insurance, maintenance and utilities to pay. We have stopped any owner distributions. If you remove our legal recourse to recoup unpaid rent then no one will want to buy our property if we have to sell. We are not there yet, but we are very concerned and therefore request your NO VOTE on #200375.

Thank you,

Michele Boyle Turchi

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. Dear Land Use Committee Members – SFBOS

A week later I find no useful modification – or any clarification at all on this ordinance.

We continue to reject this measure in its entirety – no longer will tenants and landlords be able to operate in good faith and harmony as a result of this ridiculous regulation.

The old adage about San Francisco politics [‘There is less to it than meets the eye’] truly applies in the promulgation of this defective ordinance.

Supervisor Preston’s characterization of the measure in the media has been incoherent at best.

Vote NO on #200375.

Very Truly Yours,

Thomas K. Orgain, Sr.

Date: Monday, June 8, 2020 10:38:57 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Subject: No On 200375
Date: Monday, June 8, 2020 10:42:08 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Ms. Major:

I am writing to express my concerns about the impacts of Ordinance 200375 on rental housing in San Francisco.

I maintain one rental property—a single family home in Bernal Heights—and am fortunate to have kept the same wonderful tenants for almost 10 years. Now more than ever, **I depend on income from my tenants.** I am the only caregiver for my elderly mother, who lives with me. The COVID-19 crisis has virtually obliterated my income as a freelance writer over the past few months, and it is impossible to predict when and if my business will bounce back. **Without income from my rental property, I don't know how I will make ends meet.**

My understanding is that Ordinance 200375 would permanently restrict my ability, as a landlord, to recover rent due if my tenants are unable to pay as a result of this pandemic — and Governor Newsom's orders regarding COVID-19 do NOT give the city of San Francisco the legal authority to do so. Although I appreciate the pressure the COVID-19 crisis is placing on my tenants and others, **this ordinance would unfairly place the financial burdens of the pandemic on small property owners like me**—jeopardizing my ability to pay my own mortgage, property taxes, and insurance; to maintain my rental property for the safety and comfort of my tenants; and to cover everyday living expenses for my mother and myself.

I know there are many landlords in the same situation I face. Combined with the closure of the court system, Ordinance 200375 would allow tenants to live rent-free from March 2020 to and potentially beyond September 2020, giving landlords no legal recourse to recoup rent unpaid over the course of 8 months or more. Landlords like me, who have few properties and who rely on rental income, are particularly hard hit when tenants are unable to pay overdue rent.

I ask the Board of Supervisors to vote no on Ordinance 200375. Although passing the ordinance might appear to address the immediate financial hardships tenants may face because of COVID-19, to do so would ignore the long-term negative impacts that would result when small property owners like me are forced to bear the burden: San Francisco and our tenants will not benefit when we are unable to pay our own mortgages, taxes, and daily living expenses or properly maintain our rental properties.

Thank you for considering this urgent request,

Betsy Brown

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Monday, June 8, 2020 11:06:55 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

To the Land Use Committee,

I am a small property owner in San Francisco and am writing to voice my opposition to File No. 200375. While I understand the good intent of this legislation, it will deprive me of the ability to collect past due rent and will be a financial burden affecting my ability to maintain my property.

There has to be a better way to help tenants who are struggling to pay their rent, and I hope the Board of Supervisors can come up with a more fair solution.

Please vote NO!

Thank you,
Isolde Wilson

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Dear Erica Major,

I just wanted to voice my opinion, that I am against it. I have not been able to work since the Covid 19 pandemic started and have had to take an early retirement. I and my husband, who is disabled, are landlords, with 2 rental units on the property where we live, the quintessential mom and pop landlords. Luckily for me, my tenants are still employed and can pay us rent, we are fortunate. I am against this proposal because there are other landlords like us, who are not so lucky. I sympathize with renters who are not getting a paycheck, but that hardship should not have to be carried by the landlords alone.

Sincerely,

Nancy Wiley

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear committee members,
Tenants need to be protected, but so do small property owners. Why doesn't this legislation provide protections to aid both groups?

Passing one-sided legislation creates a divide between lessees and lessors. Without equal protection, small property owners, who rely on rental income to pay for mortgage, property taxes, and insurance, are left with the burden of figuring out how to pay their bills.

There is no legislation that guarantees payment forbearance or forgiveness to small property owners to directly align with eviction protections, and as a result, rent forgiveness to renters.

Everyone deserves access to housing, but forcing small property owners into difficult situations will ultimately have a negative impact on both parties.

Thank you,
-Boris Amchislavsky

Subject: Tenant AGAINST Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Monday, June 8, 2020 11:53:46 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents.

I am a tenant and strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" for the following reasons:

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Second, Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. My landlord is retired and relies heavily on the rental income she has expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. Technically, I could stop paying rent because my job was affected by COVID-19 and she wouldn't be able to evict me.

Third, With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

Fourth, #200375 encourages tenants to make up financial distresses to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed.

Housing providers are not responsible for this pandemic, and they shouldn't be treated as such.

As a tenant, I respectfully and very strongly request that you VOTE NO ON #200375.

Consider the effects on housing providers as well because they "may find themselves in an

ever-deepening financial hole," as the ordinance says.

Thank you.

Sincerely,

A hardworking tenant whose job was impacted by COVID-19 but started a new job in the midst of the pandemic to continue to meet my contractual obligations to my landlord, insurance companies, credit card companies, and others, because using stuff that's going on in the world as an excuse to get out of paying rent is dumb.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Ms. Major,

See my comments below: I'll be on the public comment teleconference today at 1:30 PM.

Thank you for your work. No need to reply but please pass my comments on to the Supervisors,

Very best regards,

Joe Ansel

Monday, June 8, 2020 Land Use Committee Public comment starting at 1:30 PM

Regarding Supervisor Preston's proposed legislation 200375.

I'm Joe Ansel. As a student in the 1960s, I decided that to insure my security I needed to buy a home and I determined to do so.

In the mid-1970s my then girlfriend and I rented a flat north of the Panhandle in San Francisco. (NOPA) At the time we both worked at a small non-profit organization in San Francisco and made embarrassingly little money.

In 1979, having saved a large percentage of my meager pay for a decade I bought the set of flats I was living in as a tenant and lived there as a landlord--renting the flats above and below--for about a decade. I did most all the maintenance and work on our flats myself because we had no "extra" money.

Remember that tenants can become landlords and landlords can become tenants and one can easily be both at the same time. Indeed from 1997 until 2013 I rented an office while renting out our flats. Be fair to both sides and consider the fact that many young tenants now will become property owners later due to inheritance.

About a decade later after buying the SF flats, my girlfriend--who had become my wife—and I bought a house. We had three mortgages at the time-- a large first and a small second on the flats and a large first on the house. Largely because of rent control our flats had never produced a profit and we were in fact subsidizing our tenants with our salaries until we succeeded in paying off the two first mortgages in 2003.

My annual salary barely topped \$30,000 for the first time in 1985. I checked my Social Security report to confirm this.

Without both me and my wife working we and our tenants would not have had a place to live.

If our tenants had not paid their rent while we held the aforementioned mortgages--within a few months we would have lost our San Francisco property to the banks.

MANY landlords are in position similar to tenants. If landlords can't pay ALL the expenses they bear because they receive no rents, they lose the property and if that property is owner occupied the landlord is evicted—often with the tenants. What will the housing landscape look like in SF with more foreclosed and shuttered properties than we already have now?

Some of you will recognize the legal meaning of the term "consideration." Consideration is what one party gives to the other in order to craft a deal. Consideration is "this for that." Accordingly consideration is absolutely fundamental to an agreement; without due and proper consideration exchanged between the parties there can be no deal.

In the case of rental property the consideration the landlord offers is the use of the property and the

consideration the tenant offers is rent.

Tenants aren't properly tenants unless they pay rent. There is no residential tenancy without: 1) the provision of a place to live for the tenant AND 2) a payment of the agreed upon rent to the property owner. Would anyone reasonably propose that a landlord could stop providing a place to live while still demanding rent from a tenant? No! How can the opposite ever be fair?

Supervisor Preston's proposed legislation—200375-- is not "tenant protection" it is breaking the most fundamental aspect of the tenant landlord relationship. It is in fact taking from the landlord and giving to the tenant. It is simple theft—improperly "legally sanctioned"—under the guise of compassion for one party at the expense of the other.

Supervisor Preston's proposed legislation is so one sided that it is likely it will be overturned by the courts making: 1) tenants liable for back rent they didn't think they will have to pay and 2) subjecting the City to myriad and sometimes successful suits from property owners who lost their property in foreclosure or were forced to sell in a down market.

Landlords like us did not cause the housing "crisis" in San Francisco. In fact, rent control itself is responsible for a reduction in residential development and a shrinking of the housing supply. Mr. Paul Krugman a renowned and very liberal economist, argues clearly and firmly against rent control, saying the:

"The analysis of rent control is among the best-understood issues in all of economics, and -- among economists, anyway -- one of the least controversial. In 1992 a poll of the American Economic Association found 93 percent of its members agreeing that "a ceiling on rents reduces the quality and quantity of housing." Almost every freshman-level textbook contains a case study on rent control, using its known adverse side effects to illustrate the principles of supply and demand. Sky-high rents on uncontrolled apartments, because desperate renters have nowhere to go -- and the absence of new apartment construction, despite those high rents, because landlords fear that controls will be extended? Predictable."

<https://www.nytimes.com/2000/06/07/opinion/reckonings-a-rent-affair.html>

Even though rent control is bad policy, it's politically popular and thus many progressive politicians—including the California Democratic party—are in favor of policies which cause more problems than they solve. (I'm a registered Democrat.)

Some but not all of the causes for the housing crisis are:

1. Onerous City permitting requirements and delays,
2. Not in My Back Yard (NIMBY) zonings and community action groups
3. The California Environmental Quality Act's (CEQA) sometimes oppressive requirements and long approval times
4. Limited suitable land
5. Community groups opposed to change or development.
6. Extremely high building costs relative to other cities and
7. Union labor requirements on many projects.
8. The desire of developers to avoid residential development in favor of commercial development because of rent control and the nature of commercial leases and leasing.
9. The almost rabid and unthinking desire of the City of San Francisco to attract businesses before and after the crash of 2008 and the subsequent flood of new mostly well paid residents into the City.
10. The dramatic difference in wealth between some "tech workers" and ordinary people.
11. The desire at the State and local level to encourage sales of property to insure reappraisal of long held properties and the subsequent increase of the tax base.
12. Increased demand for housing in other areas such as the south and east bay.
13. Failure on the State and Federal level to insure adequate wages and health care benefits to the population at large leading to temporary or permanent homelessness.
14. Failure on the State and Federal level to adequately address addition and mental health needs of our society.

Nowhere on this long list are small time landlords like me who provide relatively low cost, quality housing and have worked for a lifetime to do so.

Landlords did not cause the housing crisis, we did not cause the Covid 19 pandemic and we should not be forced to pay to solve the problems of the City and the nation at large.

The only solution lies at the national level. Only the Federal government can print money and only the Federal government, probably acting through the State, can solve the problems caused

by the Covid-19 pandemic.

In targeting landlords you're hurting the innocent and proving yourselves unable to take actions that might actually alleviate the problem.

Finally the banks and huge corporations that "bottom feed" off the foreclosures and forced sales that will be the result of legislation like or akin to 200375 will not be better landlords than we small businesses.

Moreover these banks and corporations will be able to litigate matters in the courts for decades and the City may find itself on the losing end of the judgements and certainly of the process. Everyone except the lawyers and the very, very rich will suffer.

No On 200375

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 12:04:15 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Hello Sir and Madam,

My name is Corazon a Trissel! Only way I could afford to live and afford to pay my mortgage at the same time is to rent out partial parts of my house in SF. Without this rental income I could not afford to continue living in it! I'm 66 yrs old and soon will be retired! If the tenant don't pay their rents, I'll lose my only house! Please don't let this happen! I oppose to say No 200375.

Regards,
Corazon Trissel

Dear Erica:

I am a single woman sole proprietor. I have made my living for the last 15 years managing Airbnb's with 30 night minimums. I have had absolutely no business since March and it continues as no one is flying or traveling so there is no need for housing. I'm at about 25% occupancy for the units I manage and if my guests do not pay rent, I can not pay the mortgage and I will lose the property I have been relying on to help pay my living expenses.

If the government wants to subsidize housing, there is HUD. Or, the government can take my property by Eminent Domain and pay me the fair market value and then give it away for free to whomever they want. I bought my property in 1989 and it was not under rent control at the time and then the Board of Supervisors changed the Rent Control Law to include duplexes. I had to reinvent my rental into a short term rental to stay away from rent control. My retirement plan is all real estate (luckily not all is in SF).

If you want subsidized rent, then you must provide the difference in rent to the Landlord. Home owners do not buy real estate to subsidize someone else's lifestyle. That's what rent control does. Now you want to take away our rent? I have no new business and the owners whose property I manage are hurting, trying to pay the mortgages to their properties while their renters eat like kings and the owners have to beg their mortgage company to defer their payments or worse, come up with huge payments but no income, and they continue to pay the WiFi, TV, Water, Garbage, PGE, landscaping and more.

Please vote NO on #200375

Subject: I am a 77 year old small property owner
Date: Monday, June 8, 2020 12:17:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My late wife was a SF School teacher. I worked as a property manager. We worked our whole lives to raise a family here in the city and to create some security. Instead of elaborate vacations we saved and repaired our property. Now this is all I have and if you take away my income, the rentals I depend on to pay my mortgage, how will I pay my bills and taxes?

Will you waive my taxes to make up for my loss of rents?

This proposal will make it nearly impossible for small property owners to recoup unpaid rent and places the financial burden of COVID-19 on small mom and pop property owners who have fixed mortgages, property taxes, employees, and maintenance expenses.

This proposal, along with the closure of the court system, would allow tenants to live rent free from March 2020 to potentially September and beyond-- and landlords would have no legal recourse to recoup unpaid rent.

The Board of Supervisors cannot and should not prohibit housing providers who have been financially impacted by COVID from using California state law to enforce our rights.

Small owners are particularly hard hit by renters who cannot pay. If even one renter in a 4 unit building can't pay, the owner is also experiencing a financial hardship.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 12:30:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Dear Board Members, Erica Major:

Please vote "NO" on #200375.

Many property owners in the City are Asian. I often wonder if proposals like #200375 are intended to be discriminatory as they seem to target small time Asian landlords like myself, who are elderly with disabilities and worked hard their entire lives, in the face of discrimination. Some tenants alleging inability to pay due to financial burdens caused by COVID-19 continue to earn high salaries. They probably out-earn me. Being a woman of color, there is always the thought of some underlying form of discrimination against me/us. I would like to ask you - if you worked hard your entire life to purchase a small piece of rental property to provide affordable housing, would you want your basic rights taken away from you? Please look at both sides and evaluate a situation fairly. Please read the rest of my message, below. Thank you.

Subject: Re: NO on # 200375

Dear Board of Supervisors, Supervisor Peskin, Supervisor Preston, Supervisor Safai, Erica Major,

My revised statement to present before the Land Use Committee on June 1, 2020 at 1:30 pm:

NO on #200375

I am a District 3 constituent and co-owner of a small mixed-use apartment rental building that also serves as my residence; I live alongside our tenants, with whom we have a genuinely trusting, businesslike relationship. I take pride in maintaining my property in above average condition and treating my tenants with the utmost respect by faithfully carrying out the lease agreement and addressing their inquiries and requests in a timely manner. My building is over 100 years old and requires high level maintenance to keep it in good working order and a habitable condition for my family and my tenants. My building serves as MY HOME and that of my tenants. I have both a legal and moral obligation to be a responsible landlord and property manager for each of my tenants. I will never waiver from this obligation.

- The city does not have legal authority under the Governor's order to permanently restrict a landlord's ability to recover rent due.
- This proposal will make it nearly impossible for small property owners to recoup unpaid rent and places the financial burden of COVID-19 on small mom and pop property owners who have fixed mortgages, property taxes, employees, and maintenance expenses.
- This proposal, along with the closure of the court system, would allow tenants to live rent free from March 2020 to potentially September and beyond-- and landlords would have no legal recourse to recoup unpaid rent.
- The Board of Supervisors cannot and should not prohibit housing providers who have been financially impacted by COVID from using California state law to enforce our rights.
- Mom and pop landlords like myself are particularly hit hard by renters who cannot pay. If even one renter in a 4-unit building cannot pay, the owner also experiences a financial hardship. The impact is made worse if the landlord has long-term tenants paying extremely below-market rent. For example, I have several long-term tenants paying well below market rents based on a 30 year tenancy. Their total combined rent would not cover a major repair job so every dollar that I don't collect impacts my ability to meet both routine and extraordinary monthly expenses. Should there be a major leak in a drain pipe – which would cost thousands of dollars – the cost would exceed the rents collected and I would be operating at a loss. Being a mom and pop landlord has its inherent risks. But, I continue to meet these expenses even if it means paying out of pocket from my meager retirement income. Proposal #200375 only adds to my existing hardship to make ends meet, so, you see, it is not always the tenant who endures financial hardship.
- Many property owners in the City are Asian. I often wonder if proposals like #200375 are intended to be discriminatory as they seem to target small time Asian landlords like myself, who are elderly with disabilities. Some tenants alleging inability to pay due to financial burdens caused by COVID-19 continue to earn high salaries. They probably out-earn me. What are your thoughts on this?
- All I ask is that you put politics and emotions aside and see the situation from BOTH SIDES. Help the good landlords survive and thrive in this City by applying the law fairly so we can meet our expenses and continue to provide fair housing during these challenging times and beyond. Thank you.

Dear Board of Supervisors, Erica Major:

This proposal will make it nearly impossible for small property owners like myself to recoup unpaid rent and places the financial burden of COVID-19 on small mom & pop property owners who have fixed mortgages, property taxes, employees, and high maintenance expenses, particularly with older buildings like mine.

This proposal, along with the closure of the court system, would allow tenants to live rent free from March 2020 to potentially September and beyond-- and landlords would have no legal recourse to recoup unpaid rent.

The Board of Supervisors cannot and should not prohibit housing providers (who have been financially impacted by COVID) from using California state law to enforce our rights.

I worked hard my entire life to make my rental property a success – for both my family and my tenants. Please help the good landlords of the City succeed so we can continue to provide comfortable, clean, safe and well-maintained housing for people. Please work WITH US NOT AGAINST US. That is all we ask but we need your help to make this work. I just feel that the Board is constantly picking on good landlords like myself. I comply with every single ordinance whether it makes sense or not, and now I feel like I'm fighting a losing battle. Please work with us, not against us. Thank you!

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 12:41:09 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. We are home owners in District 4 and rent our house out. As you know, the housing in SF is very high. We would not be able to afford the mortgage if the proposal to **permanently** prohibit landlords from using the state law eviction processes for unpaid rent due to COVID-19 were passed. This proposal does not protect lawful landlords and is our violation of our rights.

Hi,

I am sending this email to oppose 200375. My husband Genaro Vazquez and myself (Rosamaria Vazquez) own a property in the Noe Valley neighborhood in San Francisco, CA.

Given the current COVID-19 situation we understand the need to have flexibility to TEMPORARILY allow tenants to postpone payment of their rent. With that said, we are completely opposed to permanently restricting our ability, as landlord's, to recover rent due.

This proposal will make it nearly impossible for us to recoup any unpaid rent and would allow tenants to live rent free and not given us any legal recourse to recoup any unpaid rent. We will however, continue to have financial responsibilities associated with our unit (mortgage, taxes, maintenance, etc.).

Again, we COMPLETELY OPPOSED 200375. The Board of Supervisors cannot and should not prohibit us from enforcing our rights and thus causing us financial hardship as well.

Regards,

Genaro and Rosamaria Vazquez

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Dear Land Use Committee and Supervisor Stefani:

My 87-year old mother lives in District 2, and also owns 2 residential rental units in a building in District 2. She has dementia and other health issues. This building is her only rental property. The rental income from the building covers her elderly care. She is one of the many small “mom and pop” property owners who will be affected by a permanent restriction to recover rent due during COVID-19. She has fixed mortgage payments, property taxes and insurance and maintenance expenses – these payment obligations do not go away during COVID-19.

This is a difficult time for everyone. We believe the initial temporary rent collection restrictions issued are fair. Short-term extensions made with a specified term also seem reasonable given this unprecedented time. But, a permanent restriction on evictions based on unpaid rent during COVID-19, even after the COVID-19 emergency is done, is highly unfair.

If even one renter is unable to pay and then is allowed to live rent free potentially to September and beyond, my mother would face a financial hardship. Unfortunately, this proposal, if passed, along with the closure of the court system, would make it close to impossible to recoup unpaid rent using the legal system. It would essentially place the financial burden of COVID-19 on my elderly mother, who requires memory and health care. She deserves to be protected under California law, too.

I ask that you please vote against the current proposal or redraft the proposal so that it affords protections for both the tenant and landlord. Small owners, some of whom are elderly and depend on their rental income, are also being financially impacted by COVID-19.

Respectfully Yours,
Cynthia Owatari, on behalf of Miyako Ikeda

Supervisors,

As an employer in the hospitality sector we at Zuni Café are actually aware of the impacts to workers in San Francisco, particularly in the service sector. We would like to see this measure pass with unanimous consent to be sent to the mayor for her signature. Please work with your colleagues to ensure this unanimity. There are can be no constituency in opposition to this measure as the debt remains in place for landlords to collect upon while protecting the basic human needs of tenants, particularly low-income and undocumented tenants in San Francisco.

Thank you for bringing this to the board,

Nate Norris

Hi supervisors and all board member,

My name is Barry Yeung. I am a property owner at 628 Clement Street. Do not pass this law. This law will definitely hurting a small family like us. I have work for a long time to bought this property. If tenants doesn't rent. I will not able to my mortgage too. And this will affecting my whole family too. If we have to pay for mortgage why would they able not to pay it.

Please NO on 200375

Subject: Public comment YES FOR EVICTION PROTECTION ORDINANCE
Date: Monday, June 8, 2020 1:47:21 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Strongly support voting YES for the eviction protection ordinance introduced by Dean Preston. This is San Francisco's chance, once again, to model social responsibility to its citizens. Similar to how we were second city in the nation to give free attorney to eviction defenders.

The rest of the world has out right canceled mortgages and rent. If you vote yes on this measure, San Francisco will be a spark in joining Oakland and Bay Area good leadership for rest of the country to wake up to the impending evictjon crisis and subsequent internal refugee horrorshow. You think we have a homeless crisis now?!

Please vote YES on this measure today.

Sincerely,
Jean Yaste

To Whom it may concern,

RE: I reject permanently prohibiting landlord from using the state law eviction processes for unpaid rent due to COVID-19

This is my reasoning:

1. I The city does not have legal authority under the Govenors's order to permanently restrict a lanords ability to recover rent due.
2. I am a small property owner. If my tenants don't pay me, I can not pay my debt on the building. I have fixed costs as it relates to my mortgage, property taxes, maintenance expense. Additionally, I live off of any positive cash flow that is produced. If you cut off my rent, you cut off my income. This would be trading one problem for another. I'm not a large corporation, Im a small "mom and pop" operating alone, single female.
3. The Care act gave me nothing in the way of monies. I can't apply for un-employment or the care act. I am living in the crack.
4. My building is a three unit building. If just one tenant doesn't pay, I don't receive any income to live.
5. I can't imagine anyone thinks this legislation would be fair to anyone.

Respectfully,

Paula Savage

Dear Erica,

My name is Chloe Stewart and I am a resident of San Francisco (District 8). I am writing to show support for Supervisor Preston's proposal to implement permanent eviction protections for people who have lost income due to Covid-19 and cannot pay rent. I fully support this law and want my support to be added to the record.

Thank you,

Chloe Stewart

Date: Monday, June 8, 2020 1:55:02 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Matt Haney,

I am writing to voice my strong support for Supervisor Preston's Eviction Protection Ordinance, File No. 200375.

Even before COVID-19, renters in San Francisco were struggling to make ends meet. With so many people now out of work, and with no ability to make income in the foreseeable future, I am terrified of what will happen to tenants after the state of emergency expires, and months of back rent become due.

Supervisor Preston's ordinance would stop landlords from evicting tenants who can't pay because of COVID-19 related income loss. It doesn't stop landlords from getting what they may be owed, it just takes eviction off the table. This is the most important step San Francisco can take to stop mass displacement after the state of emergency.

Thanks,
Freddy Martin - SDA Housing Organizer

Date: Monday, June 8, 2020 1:55:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 2:58:26 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 2:59:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

This is YW Tsang from SF. I am asking you not to pass this ordinance.

I understand that some tenants are in financial difficulty under the covid 19 or have been in financial difficulty before the virus crisis. The matter here is these people need help. However, this ordinance is mandating property owners to help them. In fact, helping these tenants should be a responsibility of the public, not putting laws to help the tenants. This ordinance is just passing the responsibility to the property owners. In fact, this should be the city responsibility to assist the tenants. The city can provide programs to help tenants to pay rent but not mandate the property owner to help tenants' financial difficulty.

Please note that property owners are not the evil party in this crisis. They are just a small business owner in form of making property investment and the customer is called tenant and the product is the shelter called home. When people don't have money to get food on table, government provides assistant in form of food stamps or vouches. Government would not put in laws to order the food providers to give away food and services in this process. Why this ordinance would allow the tenants to demand the housing services without fair market compensation to the property owners? It is not a fair ordinance. It is just an ordinance for government to pass their responsibility to property owners. For tenants, as a beneficiary from the outcome, they will favor to the ordinance and the persons who made this proposal.

I strongly against this unfair and buck passing ordinance.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 3:00:17 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Erica,

I am writing to oppose the 200375 legislation. I am one of the many "mom & pop" landlords in Daly City and I made sure my tenant received fair rent.

Instead of passing this bill which can hurt the landlords, a better question to ask would be, "How might we resolve this with a win-win solution?" One of the callers mentioned providing grants to renters. I think that is a brilliant idea. If you pass this legislation, the tenants have a free reign on doing whatever they want to our properties.

Yes, there are landlords who are taking advantage of their tenant, but not all. Similarly, there will be great tenants who will take the noble path of paying the past rent once the pandemic is over, but there will be many who will not. We all have good intentions. Just look at the default student loans.

Please know that the mom & pop landlords are hurting as well. We all have a mortgage and we are doing everything possible to put food on the table and pay the mortgage.

In addition, in order to recoup the lost rent, landlords need to go to court. Going to court is not free and it is time consuming. How many renters will default on it? It is popular and "compassionate" to watch out for tenants but there is no compassion toward the landlords who are barely making it month to month.

Please do not pass this legislation. There has to be a better solution.

Regards,
Philip Koo

Subject: Ordinance to Protect Tenants
Date: Monday, June 8, 2020 3:12:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We all agree that housing is a crisis. As a landlord, I don't want to evict anyone. I am not on the call today because to defend evictions. We all agree we want people to be able to stay in their homes. We disagree on how to help. what people really need is rental assistance. As a preschool teacher, I know that in order to reduce conflict we need to reduce stress. People need stress reduced. This will happen if their rent paid. I heard the gentleman working with housing and rental assistance and the dire needs and said the government needs to help. I respectfully agree. This is the time that the government needs to help. In times of stress we need to reduce the stress and not add to it. Owing people money is not reducing stress. Having consumer debt is not reducing stress. Going to small claims courts is not reducing stress for all of these tenants that are already stressed out. This bill does the opposite of what it portends to do. This adds more stress. People need their rents paid. Rental assistance is what is needed. Tenants will never get out of this debt. Give direct payments to tenants. Tenants should not lose their homes and they should not have their debt build up. I resent the assumption that my main concern is to be made whole and that all I am worried about is money and evicting peopl. It is simply not true. This sort of ordinance promotes divisions and encourages citizens to blame each other. People don't know about me or my family, but it feels there are a lot of assumptions being made about us. This bill has clearly divided us at a time when we need to work together to solve really heavy issues. I disagree with this ordinance as it does not solve the real issue. Offering tenants rental assistance does solve this. What many are not remembering is that maintaining a building, so it is safe, costs money. All of these families need housing, but the housing also needs to be safe. I am a preschool teacher who attends the conferences by our now Surgeon General Nadine Burke Harris on Trauma and toxic stress. If parents know they have consumer debt over their head, they feel stressed out and the children absorb that. This is not helping. People need rental assistance. Please vote no and make an ordinance that offers rental assistance. I agree with the problems and the crisis. I disagree with the solutions. As landlords we are pushing for changes We need more housing. Lucky Penny should be fastracked into housing providing jobs and housing. UCSF Laurel Hill needs to be transformed into new housing as well. That is in the power of the board of supervisors to make sure we have more housing.

I would like to share a quote about community from Peter Block and I suggest his book about community to everyone.

“When we shift from talking about the problems of community to talking about the breakdown of community, something changes. Naming the challenge as the “breakdown of community” opens the way for restoration. Holding on to the view that community is a set of problems to be solved holds us in the grip of retribution. At every level of society, we live in the landscape of retribution. The retributive community is sustained by several aspects of the modern community conversation, which I will expand on throughout the book: the marketing of fear and fault, gravitation toward

more laws and oversight, an obsession with romanticized leadership, marginalizing hope and possibility, and devaluing associational life to the point of invisibility.”

– Peter Block, [Community: The Structure of Belonging](#)

Leadership in SF tends to consistently fall back on retribution and gravitate towards more law and oversight. I see no evidence that these laws and oversight have improved the housing crisis or the affordability crisis. I see a lot of evidence it is making it worse. People see the many risks at providing rental units in this city and they decide it is not worth it. Units are constantly removed from the rental market. Less units means less housing. Less supply with high demand means higher pricing. It is not correct or accurate to hold most landlords responsible for the extremely complex issue of affordability and a housing shortage when it is composed of many complex legislative issues like Prop 13. Instead of leading by trying to decide who is at fault and who we can blame, How can we build community and inspire the city toward a common purpose where more people want to contribute because they feel it can make a difference. The safer we feel, the less we hate. As Brene Brown said, and I summarize, it is hard to hate close up. Let's have some dinners and look at the challenges and the possibilities. Demonizing sides and living with resentment is a miserable way for us to all live and an ineffective way to run a city. Can we work together to find ways to solve our challenges instead of holding groups in the grip of retribution. As a landlord, I fix everything when I am supposed to. I put new carpet in a year early as the tenants wanted it. Many times, we paid for the carpet cleaning out of good faith even though it was not our job. When outside lights go out, we make sure they are fixed immediately so that the young women living upstairs are safe. If I did not need the rental income, why would I be renting out a unit? As the city rightfully rushes in to help small businesses, why are you proposing punishing the small and essential business of landlord?

I hear the musician and she is trying to make ends meet in San Francisco. I hear a tech worker struggling. This issue is a big one. If a city with a 12 billion operating budget cannot offer rental assistance, please help me understand how I am supposed to? We are also small businesses that are essential. People need safe housing with responsive landlords. If the supervisors are sincere in their words to do Everything in their power that involves committing rental assistance. What else are we doing to help besides holding landlords responsible when we also lost jobs. As a family who has worked hard to contribute to this city, we see the need to help vulnerable people. The housing crisis is complicated and has been many years in the making. People need real help. That help needs to come in paying their rent, not in letting their debt compound. As Landlords, we are not denying people are vulnerable and struggling. What I am saying is that this problem is way to big to put on the backs of Landlords. People need houses and safe houses. Let's build more houses. Let's get Lucky penny built. Let's get UCSF laurel village built. What we need is more housing and rental assistance.

We are a community of possibilities, not a community of problems. • Community exists for the sake of belonging and takes its identity from the gifts, generosity, and accountability of its citizens. It is not defined by its fears, its isolation, or its penchant for retribution. • We currently have all the capacity, expertise, programs, leaders, regulations, and wealth required to end unnecessary suffering and create an alternative future.”

– Peter Block, [Community: The Structure of Belonging](#)

“The key to creating or transforming community, then, is to see the power in the small but

important elements of being with others. The shift we seek needs to be embodied in each invitation we make, each relationship we encounter, and each meeting we attend. For at the most operational and practical level, after all the thinking about policy, strategy, mission, and milestones, it gets down to this: How are we going to be when we gather together?"

– Peter Block, [Community: The Structure of Belonging](#)

"Invitation is not only a step-in bringing people together, it is also a fundamental way of being in a community. It manifests the willingness to live in a collaborative way. This means that a future can be created without having to force or sell it or barter for it. When we believe that barter or subtle coercion is necessary, we are operating out of a context of scarcity and self-interest, the core currencies of the economist."

– Peter Block, [Community: The Structure of Belonging](#)

This is not just about one ordinance. This is about how we govern San Francisco and what the future will look like. It is not ok to make contracts null and void in a crisis. Let's invite stakeholders to talk and work together to find solutions instead of imposing yet more ordinances. We see leaders around the world with different styles. While Jacinda Ardern works hard as a calm and loving presence to unite her community and constituents behind a common cause, we can see other leaders like Viktor Orban in Hungary use the Covid crisis as the excuse for a power grab in the name of security. New Zealand looks pretty safe to me. It also looks happier and people are living with less stress and fear. I hope the leaders of SF will decide to govern like Jacinda Ardern and others like her by respecting the rule of law and considering that many landlords too are essential small businesses at a time when people are supposed to be staying home and the homes need to be safe. As a preschool director I know that if I want to reduce conflict, I need to reduce the stress the children feel. This ordinance does not reduce stress. Rental assistance does. The ordinance proposed by Supervisor Preston will add more stress for all sides and result in even more conflict in a time when we are already overwhelmed by conflict.

Instead of reinventing the wheel, let's put out energy into supporting the state level and efforts for rental assistance. Please don't punish landlords for a global pandemic when we too are trying to pay bills and ensure safe housing that is so essential right now.

Thank you.

Subject: Written Support for Administrative Code - COVID-19 Tenant Protections
Date: Monday, June 8, 2020 3:15:56 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello,

I am writing to show my full support for the eviction ban (Ordinance 200375) for the reasons listed below.

Supporting the ban will:

1. Protect both landlords (via the tax transfer) AND tenants (banning evictions), and
2. Reduce the amount of homelessness and subsequently, the effects of the pandemic on our community and the already under-resourced healthcare system.

Housing is a human right and no one should be evicted during a global pandemic. Eviction will likely lead to increase in COVID-19 cases and deaths in the city, as our hospitals are already exhausted. Landlords will get paid whether or not the legislation passes. The legislation is essential for innocent people not to lose their homes.

Please do the ethical choice and protect people who are already suffering from income loss.

Thank you!

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 3:20:03 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 3:34:50 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

One of the callers suggested that Landlords don't even live here. I assure you I LIVE HERE. This sort of an ordinance divides people and encourages assumptions about us as landlords and hostility between groups. We need to unite and find solutions not just for now but long term.

On Mon, Jun 8, 2020 at 3:12 PM Nettie Atkisson <nettieatkisson@gmail.com> wrote:

We all agree that housing is a crisis. As a landlord, I don't want to evict anyone. I am not on the call today because to defend evictions. We all agree we want people to be able to stay in their homes. We disagree on how to help. what people really need is rental assistance. As a preschool teacher, I know that in order to reduce conflict we need to reduce stress. People need stress reduced. This will happen if their rent paid. I heard the gentleman working with housing and rental assistance and the dire needs and said the government needs to help. I respectfully agree. This is the time that the government needs to help. In times of stress we need to reduce the stress and not add to it. Owing people money is not reducing stress. Having consumer debt is not reducing stress. Going to small claims courts is not reducing stress for all of these tenants that are already stressed out. This bill does the opposite of what it portends to do. This adds more stress. People need their rents paid. Rental assistance is what is needed. Tenants will never get out of this debt. Give direct payments to tenants. Tenants should not lose their homes and they should not have their debt build up. I resent the assumption that my main concern is to be made whole and that all I am worried about is money and evicting people. It is simply not true. This sort of ordinance promotes divisions and encourages citizens to blame each other. People don't know about me or my family, but it feels there are a lot of assumptions being made about us. This bill has clearly divided us at a time when we need to work together to solve really heavy issues. I disagree with this ordinance as it does not solve the real issue. Offering tenants rental assistance does solve this. What many are not remembering is that maintaining a building, so it is safe, costs money. All of these families need housing, but the housing also needs to be safe. I am a preschool teacher who attends the conferences by our now Surgeon General Nadine Burke Harris on Trauma and toxic stress. If parents know they have consumer debt over their head, they feel stressed out and the children absorb that. This is not helping. People need rental assistance. Please vote no and make an ordinance that offers rental assistance. I agree with the problems and the crisis. I disagree with the solutions. As landlords we are pushing for changes. We need more housing. Lucky Penny should be fasttracked into housing providing jobs and housing. UCSF Laurel Hill needs to be transformed into new housing as well. That is in the power of the board of supervisors to make sure we have more housing.

I would like to share a quote about community from Peter Block and I suggest his book

about community to everyone.

“When we shift from talking about the problems of community to talking about the breakdown of community, something changes. Naming the challenge as the “breakdown of community” opens the way for restoration. Holding on to the view that community is a set of problems to be solved holds us in the grip of retribution. At every level of society, we live in the landscape of retribution. The retributive community is sustained by several aspects of the modern community conversation, which I will expand on throughout the book: the marketing of fear and fault, gravitation toward more laws and oversight, an obsession with romanticized leadership, marginalizing hope and possibility, and devaluing associational life to the point of invisibility.”
– Peter Block, [Community: The Structure of Belonging](#)

Leadership in SF tends to consistently fall back on retribution and gravitate towards more law and oversight. I see no evidence that these laws and oversight have improved the housing crisis or the affordability crisis. I see a lot of evidence it is making it worse. People see the many risks at providing rental units in this city and they decide it is not worth it. Units are constantly removed from the rental market. Less units means less housing. Less supply with high demand means higher pricing. It is not correct or accurate to hold most landlords responsible for the extremely complex issue of affordability and a housing shortage when it is composed of many complex legislative issues like Prop 13. Instead of leading by trying to decide who is at fault and who we can blame, How can we build community and inspire the city toward a common purpose where more people want to contribute because they feel it can make a difference. The safer we feel, the less we hate. As Brene Brown said, and I summarize, it is hard to hate close up. Let's have some dinners and look at the challenges and the possibilities. Demonizing sides and living with resentment is a miserable way for us to all live and an ineffective way to run a city. Can we work together to find ways to solve our challenges instead of holding groups in the grip of retribution. As a landlord, I fix everything when I am supposed to. I put new carpet in a year early as the tenants wanted it. Many times, we paid for the carpet cleaning out of good faith even though it was not our job. When outside lights go out, we make sure they are fixed immediately so that the young women living upstairs are safe. If I did not need the rental income, why would I be renting out a unit? As the city rightfully rushes in to help small businesses, why are you proposing punishing the small and essential business of landlord?

I hear the musician and she is trying to make ends meet in San Francisco. I hear a tech worker struggling. This issue is a big one. If a city with a 12 billion operating budget cannot offer rental assistance, please help me understand how I am supposed to? We are also small businesses that are essential. People need safe housing with responsive landlords. If the supervisors are sincere in their words to do Everything in their power that involves committing rental assistance. What else are we doing to help besides holding landlords responsible when we also lost jobs. As a family who has worked hard to contribute to this city, we see the need to help vulnerable people. The housing crisis is complicated and has been many years in the making. People need real help. That help needs to come in paying their rent, not in letting their debt compound. As Landlords, we are not denying people are vulnerable and struggling. What I am saying is that this problem is way to big to put on the backs of Landlords. People need houses and safe houses. Let's build more houses. Let's get Lucky penny built. Let's get UCSF laurel village built. What we need is more housing and rental assistance.

We are a community of possibilities, not a community of problems. • Community exists for the

sake of belonging and takes its identity from the gifts, generosity, and accountability of its citizens. It is not defined by its fears, its isolation, or its penchant for retribution. • We currently have all the capacity, expertise, programs, leaders, regulations, and wealth required to end unnecessary suffering and create an alternative future.”

– Peter Block, [Community: The Structure of Belonging](#)

“The key to creating or transforming community, then, is to see the power in the small but important elements of being with others. The shift we seek needs to be embodied in each invitation we make, each relationship we encounter, and each meeting we attend. For at the most operational and practical level, after all the thinking about policy, strategy, mission, and milestones, it gets down to this: How are we going to be when we gather together?”

– Peter Block, [Community: The Structure of Belonging](#)

“Invitation is not only a step-in bringing people together, it is also a fundamental way of being in a community. It manifests the willingness to live in a collaborative way. This means that a future can be created without having to force or sell it or barter for it. When we believe that barter or subtle coercion is necessary, we are operating out of a context of scarcity and self-interest, the core currencies of the economist.”

– Peter Block, [Community: The Structure of Belonging](#)

This is not just about one ordinance. This is about how we govern San Francisco and what the future will look like. It is not ok to make contracts null and void in a crisis. Let’s invite stakeholders to talk and work together to find solutions instead of imposing yet more ordinances. We see leaders around the world with different styles. While Jacinda Ardern works hard as a calm and loving presence to unite her community and constituents behind a common cause, we can see other leaders like Viktor Orban in Hungary use the Covid crisis as the excuse for a power grab in the name of security. New Zealand looks pretty safe to me. It also looks happier and people are living with less stress and fear. I hope the leaders of SF will decide to govern like Jacinda Ardern and others like her by respecting the rule of law and considering that many landlords too are essential small businesses at a time when people are supposed to be staying home and the homes need to be safe. As a preschool director I know that if I want to reduce conflict, I need to reduce the stress the children feel. This ordinance does not reduce stress. Rental assistance does. The ordinance proposed by Supervisor Preston will add more stress for all sides and result in even more conflict in a time when we are already overwhelmed by conflict.

Instead of reinventing the wheel, let’s put out energy into supporting the state level and efforts for rental assistance. Please don’t punish landlords for a global pandemic when we too are trying to pay bills and ensure safe housing that is so essential right now.

Thank you.

Date: Monday, June 8, 2020 3:38:31 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello,

I am writing today in support of San Francisco passing Ordinance 200375 in relation to COVID-19. The unprecedented and unpredictable pandemic has effected millions of lives globally with repercussions regardless of who you are. I myself have been effected as I was furloughed by the job that made me move to San Francisco earlier in the year. Paying rent is practically impossible considering the fact that I have not been working and to this date have still not received any unemployment insurance. Even if I return to work, the possibilities of paying back rent is impractical since there has been no income received. A permanent moritorium needs to be done and passed unequivocally.

Housing is a human right and necessity and with the evidence of the already existing homelessness crisis in this city, a mass wave of new homelessness will devastate and bring the crisis to an unfathomable level, unable to be matched by the city and state's vast fiscal debt. Do the right thing or go down in history as shameful example of what not to do.

Dear Erica Major,

I am a property owner in San Francisco's Mission District in San Francisco. The proposal to permanently prohibit evictions for unpaid rent due to COVID-19 is punitive.

I am a retired person and that financial burden is then placed on me. I am expected to continue to pay for utilities, mortgage, insurance and taxes.

In the end, both property owners AND tenants will suffer if this ordinance is passed.

Therefore, I urge you to oppose this ordinance.

Respectfully,
Nancy Randall

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Many of the callers are using vehement and violent language against landlords as if landlords are their enemy. If no one rented to you, you wouldn't have a place to live. This lack of partnership is as much as the of the problem as the legislation itself.

Many landlords in San Francisco are small mom and pop landlords who struggle to buy property and have regular jobs (despite what many callers say), and do not have deep pockets.

The mortgage lenders are not forgiving mortgages and so many people will be on the street if these properties end up in foreclosure.

Evictions may be off the table with the legislation but foreclosure is not off the table.

Everyone needs to pay for their housing. Property owners pay for their housing and tenants need to pay for their housing. All of us are being affected by COVID-19 not just renters.

Thank you

Small property owner on D10

Date: Monday, June 8, 2020 4:28:08 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

Subject: Oppose - Tenant Protection Ordinance - File No. 200375
Date: Monday, June 8, 2020 4:45:17 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Supervisors,

I'm a small property owner writing in opposition to proposed ordinance - No. 200375. As written, the ordinance permanently and unfairly denies small scale property owners the ability to recover any COVID-19 related rent loss, and simply shifts the full economic burden of this pandemic, for which no one is responsible, to landlords without providing them any support.

These are unprecedented and uncertain times affecting both landlords and tenants. Now is not the time to make permanent legal changes, the long term effects we cannot presently and properly judge. Instead landlords and tenants ought to be given the freedom to work together, on a case by case basis, to find individual solutions to keep people in their homes and get mandatory expenses paid. Responsible landlords and communicative tenants are doing this.

Please reconsider the passage of this ordinance.

Respectfully,
Carolyn Graybeal

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Please submit this as public comment for the Supervisor Preston's proposed ordinance File 200375 that forgives a tenant's obligation to pay rent.

Like many San Franciscans, including many of you on the Board, my family are small property owners who lease rent-controlled apartments to residential tenants with a building in District 2 and one in District 3. We have suffered a considerable blow to our business due to the COVID-19 emergency and are owed back-rent by a significant number of our tenants. We have followed all government rules and have dealt amicably and compassionately with our tenants whose ability to pay rent has been impacted - we have not charged any late fees, filed any non-payment notices nor issued any rent increases to any tenants during this time.

Our own expenses, including utilities, taxes, mortgages and insurance, have not diminished during this time: on the contrary, many of our utility bills have increased substantially due to the large number of tenants now working from home and using our property as their offices - anecdotally and by news reports, their own employers have often seen lower bills as a result of this.

We have seen no relief from you, our San Francisco government, in the form of property tax or business tax forgiveness, from the State or from the Federal government despite the reduction in services provided. We have continued to pay our local Community Benefit Districts to provide services that the City should be providing. We have seen no relief from our insurers or lenders.

As you probably know, leasing rent-controlled property is a low-margin business: even a small reduction in gross income leads to a significant loss of net income which our family depends on for our livelihood. For our local government to be even considering taking away our livelihood with this ill-informed legislation is like a kick in the teeth.

This proposal is counter to State law and right now is a very bad time to be wasting taxpayer money for the City Attorney defending a sure loser in court.

We would urge you to vote down this legislation before it even leaves committee and instead to promote more equitable solutions for rent subsidies at the local and State level, such as SB1410. Supervisor Preston's vague promises about a rent subsidy fund need to be made concrete before passing legislation such as this current 200375 proposal. The pain of this emergency needs to be shared by all without a free ride for

some and arbitrary penalties for others.

Thank you for your consideration.

Andrew Smith.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: No on 200375 - Covid-19 Relief
Date: Monday, June 8, 2020 5:35:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors and the Members of the Land Use Committee,

My name is David Collins and I have been a property owner in San Francisco for over 20 years.

I believe the proposed COVID-19 relief legislation introduced by Supervisor Dean Preston is unfair, unethical, and illegal. To make a private citizen guarantee housing for renters in perpetuity, regardless of global macro events beyond all of our control, is irresponsible and a blatant power grab to accumulate more votes for future elections.

Responsible property owners in San Francisco have experienced tremendous financial exposure to the coronavirus crisis and will be digesting these financial losses throughout 2020 and possibly beyond. Instead of including small property owners in a potential relief scenario, Mr. Preston's legislation ignores and punishes us instead.

Meanwhile, the United States government has bailed out the US stock market and equities are somehow approaching all-time highs. So, these equity investors and the big banks were recapitalized and then doled out all the relief benefits to many of the least deserving and the oligopolists.

No one seems to know the future of COVID-19, how long it will be with us, and the ripple effect that it will most certainly cause in the months and years ahead. The AIDS virus is still with us, and after about 40 years there is still no vaccine.

Mr. Preston does not have a crystal ball and to expect property owners to pay to house renters for months or even years is a misguided, irresponsible, impulsive reaction to a very complex and fast-moving social and economic problem.

The homeless population, its causes and effects need to be addressed at another time as it is too complicated to analyze in a short letter.

In closing, the problem is not at the bottom, supervisors, but at the top. The income and wealth disparity in this country is at the heart of this issue; the oligopolists are getting even richer off the backs of the less fortunate while the middle class continues to shrink. Amazon was just given the keys to the kingdom because of the coronavirus crisis and Jeff Bezos is projected to become the world's first trillionaire. Facebook and Cambridge Analytica stole an election and Mr. Zuckerberg lied to congress without remorse. Are these folks our heroes?

Please stop vilifying property owners in order to consolidate your base. We are your partners in housing, not your adversaries. Please focus your attention on the half a dozen companies in our own backyard and the monopolies they control.

There should be a five dollar tax on every Amazon delivery made in San Francisco and that

money should be used to fund housing programs, education and be invested in leveling the economic and social playing field. Facebook and Google should pay every account holder in San Francisco for their data - that they are monetizing every minute of every day.

The San Francisco Board of Supervisors should lead the way forward for all American cities. This is a unique time in history, and you have a real opportunity to shape the future of all San Franciscans and maybe even influence the political and economic landscape for all Americans.

Mr. Preston and Board Members, please stop trying to hurt small property owners and embrace this unprecedented moment in history as an opportunity to create real and lasting positive change.

Sincerely,

David Collins

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 6:02:42 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Dear supervisor,

I oppose the tenants have right not to pay rent and owners have no recourse to recover rent loss.

I own building in your district. This proposed law is unfair to property owners. Tenants are protected under this law. This law takes advantage of property owners. It's fair if the rent is waived if property taxes, mortgage payments, property insurance, maintenance and repair are waived for property owners.

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. Hello,

I would like to express my concerns with covid-19 protection for tenants. As a homeowner the cost of mortgage, high HOA fees, property tax, utilities and insurance would make it impossible to cover personally without rent payments. Please do not pass a ruling that allows people to live cost free at the expense of others. Tenants will take advantage of the situation, since they can simply decide not to pay. This will also crash the housing market, if folks can't pay the mortgage and no one will buy it with a non-paying tenant there will be tons of foreclosures.

Thank you,
Cerene

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Hello Erica

I just spent 5 hours and 36 minutes

Waiting for my turn to speak at the meeting of supervisors today.....

Only to be told that I was not going to be able to speak, or have a voice on a subject that is my total 100 % income source to live.

I am a 64 year old single female, senior, that has no Family or other form of support.

If I receive no rent on my building (a 3 unit, owner occupied building) I don't have the ability to pay my mortgage, taxes, maintenance or eat.

I don't want to evict anyone but right now with one vacant unit and a 12 year rent controlled unit I am in jeopardy.

Please don't trade one problem for another one.

The local SF government needs to bail out those in need, With checks and balances not cherry picking those in society that you think aren't worthy , (small property owners), and make them carry the entire load. This is un-ethical (not to mention illegal).

Please go back to the drawing board. Your goal has merit, your plan is exceptionally flawed.

Please fix it so we can protect our community, our neighbors and those that are in need here in San Francisco.

Many Thanks

And Respectively,

Paula Savage

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 8:45:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.
