Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Saturday, June 6, 2020 4:48:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Saturday, June 6, 2020 6:32:10 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Saturday, June 6, 2020 6:49:03 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Date: Saturday, June 6, 2020 10:10:27 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

Date: Saturday, June 6, 2020 10:53:58 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Sunday, June 7, 2020 7:29:45 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Sunday, June 7, 2020 9:55:30 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

Date: Sunday, June 7, 2020 12:21:58 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Sunday, June 7, 2020 2:15:05 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Sunday, June 7, 2020 9:32:20 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Sunday, June 7, 2020 10:34:04 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

TO: Board of Supervisors members

I would like to follow up on my previous comments with the following:

- One of the geological hazards listed is dam or reservoir failure. Since Sunset Reservoir is on the side of a hill, it's technically classified as a dam. Although north basin has been seismically retrofitted, south basin hasn't.
- One of the combustion-related hazards is large urban fire. The dedicated non-potable water Emergency Firefighting Water System hasn't been expanded to the Westside.

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Sunday, June 7, 2020 10:57:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Sunday, June 7, 2020 11:54:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 12:08:03 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this
