First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I own a 25% share in a small to mid-size building. As a disabled Senior the income is my main source of income. Should non-paying tenants be allowed to remain in their apartments, the modest income I receive would be seriously reduced, leaving me unable to cover my rent, food, medicine and incidentals. Yes, I am and have been a renter for many years. Should I be unable to cover my rent I would not expect to remain in my home and would make sure to have a plan to payback my landlord.

Many landlords are like me, owners of small to mid-size rentals who follow the rules and regulations imposed by the city, keep their buildings up to date and work hard to provide their tenants a nice home. Most of us use a significant portion of our income to do so. Allowing tenants to remain indefinitely rent-free will result in a city of slums as there won't be the capital to maintain the buildings.

Please vote NO on 200375.

Sincerely,

Gail Neer

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 9:00:54 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Dear SF Board of Supervisors,

As I was unable to voice my opinion at the 6/8/20 hearing, I would like to express it through this message. I am a tenant, yet even I oppose this ordinance.

I have lived for four years (and counting) under the same homeowners, and as I got to know them, I understand the situation they are going through and sympathize with them. They are a couple who is getting on age: one had recently retired and one due to her age and gender could not get a job again. Collecting rent is their only source of income to pay for daily necessities that all human beings, property owners included, need. In addition, this is their only source of income to pay for the house in which they reside and in which one of the rooms is rented out to me. Homeowners are not greedy, money-grubbing monsters that some tenants make out to be. These tenants do not realize they only have to pay a fraction of what homeowners must pay for home insurance, mortgage, land tax, and other bills and fees tied to the property each and every month. If the tenants do not pay, then how will property owners like this couple pay for the house? When that happens, both the property owners and the tenants won't be able to stay in the house any longer. So, in the end, tenants will still be evicted; it was just a matter of time. If you really care about the tenants in the long run, you would not pass this ordinance. Tenants may not see this, but you should be able to see farther into the future and consider the position of the other half of your constituents (the property owners) instead merely pleasing the tenants in the short term.

Pandemics are nothing new, so are layoffs, but most people think those things will not happen to them or affect them in any way, until they do. Tenants should know this. So why aren't they saving up money when they did have their jobs? Just as it is homeowners' responsibility to provide a livable space for tenants, it is the tenants' responsibility to pay for this service the homeowners provided. I am fortunate to still have a job, and despite my low salary, I have been able to save up quite a sizable amount of money in case I do lose my job, because that is what a responsible, sensible person does. If I could do it, other tenants in my salary range or working one or two more jobs than me should be able to save up for situations like this. The government is not putting responsibility on the tenants, but on the homeowners who didn't cause the pandemic or lay off the tenants in the first place. If anything, it is extraordinary times like these when the government should be stepping up to help all its voters, homeowners and tenants alike, and taking the responsibility, not the homeowners, because this pandemic

affects homeowners as well. The government by and for the people should be taking the responsibility to solve the financial problems of all its citizens, homeowners and tenants alike, not forcing the homeowners to take the responsibility in its place.

Thank you.

Sincerely,

A tenant who sees homeowners as fellow human beings and is grateful for their service.

Hello!

My name is Shelly de Vries and my mother owns a home in Diamond Heights.

She is currently at an assisted living facility. The rent from her home helps to pay her room rent at the facility. I have just received a letter announcing an increase in her rent there by 3.5% effective August 1, 2020.

My understanding is that this ordinance would permanently make it illegal for a landlord to evict residents for failure to pay rent because of the pandemic. My mother would not be able to stay at this facility and have the help she needs without the rent from her home. If my mother leaves the facility she would need to live in her house again but we would be in a Catch 22 situation. Instead of two families having places to live, one will be displaced. And that would most likely be the owner of the home, my mother. This makes no financial sense at all: it would result in a *homeless* homeowner! Please explain how that is a good idea. I can't imagine that my mother is the only one in this kind of situation, either.

Must all landlords be grouped together? I think my mother owning a single family home should not be in the same group as owners of large apartment buildings with multiple units. Now, logically, one should consider each instance based on the actual situation. Realizing that would be difficult, I suggest that maybe the ordinance should be more carefully considered and written before enacting it.

I would encourage more thought to be given in this matter before the Board of Supervisors proposes something permanent.

Sincerely,

Shelly de Vries

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

I think the ordinance #200375 is unreasonable and encourages tenants who don't want to pay their rent. Now many businesses are reopened. They should back to work, and should pay back their rent in a planned manner.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Hi:

We oppose Ordinance #: 200375

My family owns a building on Lower Nob Hill. This building provides a major source of our income.

We can NOT afford to have tenants live rent free whilst we are obligated to pay our mortgage, property taxes, maintenance and repairs as well as utility fees for power, sewer, water & garbage.

Their mothers may have carried them for nine months, but we can't..... supporting non-paying tenants will drive us into bankruptcy.

- The city does not have legal authority under the Governor's order to permanently restrict a landlord's ability to recover rent due.
- This proposal will make it nearly impossible for small property owners to recoup unpaid rent and places the financial burden of COVID-19 on small mom and pop property owners who have fixed mortgages, property taxes, employees, and maintenance expenses.
- This proposal, along with the closure of the court system, would allow tenants to live rent free from March 2020 to potentially September and beyond-- and landlords would have no legal recourse to recoup unpaid rent.

The Board of Supervisors cannot and should not prohibit housing providers who have been financially impacted by COVID from using California state law to enforce our rights.

Small owners are particularly hard hit by renters who cannot pay. If even one renter in a 40 unit building can't pay, the owner is also experiencing a financial hardship.

Sincerely,

Suze Peters

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 6:31:40 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 7:07:50 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Dear SF Board of Supervisors,

As I was unable to voice my opinion at the 6/8/20 hearing, I would like to express it through this message. I am a tenant, yet even I oppose this ordinance.

I have lived for four years (and counting) under the same homeowners, and as I got to know them, I understand the situation they are going through and sympathize with them. They are a couple who is getting on age: one had recently retired and one due to her age and gender could not get a job again. Collecting rent is their only source of income to pay for daily necessities that all human beings, property owners included, need. In addition, this is their only source of income to pay for the house in which they reside and in which one of the rooms is rented out to me. Homeowners are not greedy, money-grubbing monsters that some tenants make out to be. These tenants do not realize they only have to pay a fraction of what homeowners must pay for home insurance, mortgage, land tax, and other bills and fees tied to the property each and every month. If the tenants do not pay, then how will property owners like this couple pay for the house? When that happens, both the property owners and the tenants won't be able to stay in the house any longer. So, in the end, tenants will still be evicted; it was just a matter of time. If you really care about the tenants in the long run, you would not pass this ordinance. Tenants may not see this, but you should be able to see farther into the future and consider the position of the other half of your constituents (the property owners) instead merely pleasing the tenants in the short term.

Pandemics are nothing new, so are layoffs, but most people think those things will not happen to them or affect them in any way, until they do. Tenants should know this. So why aren't they saving up money when they did have their jobs? Just as it is homeowners' responsibility to provide a livable space for tenants, it is the tenants' responsibility to pay for this service the homeowners provided. I am fortunate to still have a job, and despite my low salary, I have been able to save up quite a sizable amount of money in case I do lose my job, because that is what a responsible, sensible person does. If I could do it, other tenants in my salary range or working one or two more jobs than me should be able to save up for situations like this. The government is not putting responsibility on the tenants, but on the homeowners who didn't cause the pandemic or lay off the tenants in the first place. If anything, it is extraordinary times like these when the government should be stepping up to help all its voters, homeowners and tenants alike, and taking the responsibility, not the homeowners, because this pandemic

affects homeowners as well. The government by and for the people should be taking the responsibility to solve the financial problems of all its citizens, homeowners and tenants alike, not forcing the homeowners to take the responsibility in its place.

Thank you.

Sincerely,

A tenant who sees homeowners as fellow human beings and is grateful for their service.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 9:37:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

I think the ordinance #200375 is unreasonable and encourages tenants who don't want to pay their rent. Now many businesses are reopened. They should back to work, and should pay back their rent in a planned manner.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Dear Board of Supervisors,

Please vote to protect people suffering economically because of the coronavirus pandemic. Step up to protect the people depending on you to stop them from being evicted or drowning in debt. Please treat your fellow citizens as you would treat your friends and lend a helping hand. This is a really important step that would prove that you care.

Thanks,

Date: Friday, June 5, 2020 10:44:28 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc.

In contrast some of these expenses have sky-rocketed due to higher water/ electricity usage since people are working or at home most of the time, now. The wear and tear due to regular usage has increased manifold especially for older buildings which has already increased the costs for homeowners to maintain their properties. So without any respite from the government or the impact of any ordinance, the landlords have already seen their expenses increase by 20-30%.

This ordinance potentially wipes out all rent paid in COVID-19 times by tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions,

nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket. In events that tenants decide to walk-out on properties without paying rent after the moratorium is over, it leaves landlords absolutely no ability to recover the rent, without hiring an attorney or taking help from the courts. Costs associated with such recovery efforts will immediately wash out any recovery amounts. In many cases, many landlords even don't know the names of their tenants, so efforts to recover are slim to none. This legislation is a significant event that will decimate their financial well-being.

The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

Meina Young

SF voter and

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Friday, June 5, 2020 11:58:55 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Friday, June 5, 2020 1:21:21 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Friday, June 5, 2020 3:28:35 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Friday, June 5, 2020 3:28:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To Mayor Breed, the San Francisco Board of Supervisors, and San Francisco Elected Officers

My name is Annee, and I am a resident of San Francisco. This past week, our nation has been gripped by protests calling for rapid and meaningful change with regard to police behavior, an end to racism and anti-Blackness, and immediate reform in how black people are treated in America. Our city has been at the forefront of much of this action. Accordingly, it has come to my attention that the budget for 2021 is being decided as these protests continue.

SFPD has been a waste of our resources. Last year, the SFPD budget was \$611,701,869, the majority of which comes from the San Francisco general fund. While we've been spending extraordinary amounts on policing, we have not seen improvements to safety, homelessness, mental health, or affordability in our city. Instead, we see wasteful and harmful actions of our police.

I call on you to slash the SFPD budget and instead use those extraordinary resources towards solving homelessness, which is felt most by our Black neighbors and veterans. We implore you to give every member of our community experiencing homelessness a place to call home and the treatment they need.

We can be a beacon for other cities to follow if only we have the courage to change.

Sincerely,
Annee Belanger

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Friday, June 5, 2020 3:42:15 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Friday, June 5, 2020 4:26:57 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Date: Friday, June 5, 2020 5:49:55 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Friday, June 5, 2020 6:17:03 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of

this year; many of us are small “mom and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Friday, June 5, 2020 9:10:30 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Friday, June 5, 2020 9:56:27 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Date: Saturday, June 6, 2020 12:07:22 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. Subject: Proposed Covid-19 Tenant Protection Ordinance - File #200375
Date: Saturday, June 6, 2020 8:27:53 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear City Leaders,

I am writing to you today to voice my concerns and opposition to the proposed ordinance. Homelessness is a problem in San Francisco and everyone agrees on that but shifting that burden on private property owners will only hurt the cause. Eliminating a property owner's right to bring an Unlawful Detainer against a resident will only empower the few that want to take advantage of the situation by not paying their rent at all. Requiring owners to a 6 month repayment program for their residents insures everyone fairness.

I have 3 Caucasian tenants now who have not shown me any evidence they cannot pay their rent due to Covid-19 and have not paid their rent since April. During the 3 months I have respectfully asked for proof of their dilemma and a proposed payment plan. They have all rejected my requests or given curt responses. In this particular case they have made it clear I can take no action against them even though they are acting in bad faith.

I continue to pay my property taxes, mortgage, PG & E, resident manager, maintenance man and rent board fees all needed to service the building. I as a private owner am providing free housing which I cannot afford. We all need to share in this problem and shifting that burden on property owners places an unfair financial burden on those property owners. This government problem cannot be placed on private individuals. Housing is essential and so is food and gas. I cannot walk out of a grocery store or a gas station with free groceries or gas because of my inability to pay. A resident shouldn't be allowed to do the same.

Please reconsider your proposal so it is fair for all parties.

Thank you.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

Subject: NO on Ordinance #200375 - Permanent COVID-19 Eviction Ban
Date: Saturday, June 6, 2020 9:15:03 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Dear Supervisors,

Covid19 and the prolong and wide spread shutdowns have caused extreme financial hardship to tenants and property owners alike.

Many properties owners are small mom-and-pop shop who work and count on rental income to supplement their income so that they can afford to pay mortgage, property tax, insurance, utilities and maintenance costs, plus their basic expenses. Many are retired seniors who count on rental income to supplement their fixed income just to get by.

We urge you to oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections".

The litmus test is: if this ordinance is so good, will you apply to your properties or properties owned by the City or by Non-Profits?

Ordinance #200375 is unconstitutional. "Life, liberty and the pursuit of happiness" means the enjoyment of material property one worked hard for. And "congress shall make no law to infringe on one's Property Rights."

Ordinance #200375 forces courts to interfere with existing private contracts in violation of the Constitution.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. We have already seen many Property owners exiting rental market due to the draconian renters protection laws.

Many owners are retired and/or barely getting by each month: they have expenses that are not going away or being reduced, such as mortgages, property tax, insurance, maintenance costs. This ordinance potentially wipes out all rent for tenants at the expense of San Francisco housing providers, who are experiencing hardship, too -- many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper under water. Many seniors have spent their entire lives working and saving for their property and could now find themselves in financial

ruin for not being able to collect rent for most of 2020. This loss will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads shall they fail to pay for mortgage and taxes.

Ordinance #200375 encourages tenants without financial distress to stop paying rent just to take advantage of the situation. "People are not angel" wrote James Madison -- that is why we have limited government and check-and-balance. With multiple government orders in place to stop evictions, nothing can happen to the tenants -- even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady and likely increased in expenses will cause more foreclosures and bankruptcies to property owners.

The City should take responsibility and follow Los Angeles' lead with their \$100M rentes relief fund for those who can't afford to pay rent during COVID-19. Housing providers are not responsible for this pandemic. We are sympathetic, but we are also negatively affected. Many of us barely hang on. We are not all wealthy. We don't have deep pocket that can afford us not to have any rental income for most of this year. We are small "mom and pops" providers who can't carry this added financial burden during Covid.

Hence, I urge that you VOTE NO ON #200375. Please consider the effects on us as well -- we are all people.

And should you pass it, we urge that you make no exemptions for properties owned by the city or non- profits.

Thank you!

Sincerely,
Terry chong

Date: Saturday, June 6, 2020 9:45:16 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

https://docs.google.com/spreadsheets/d/1y2iT0PSwJRD__hyZxI2YntkSFILgTTL9_-8_R6tz0Gc/edit#gid=0

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom

and pops” providers who are unable to carry this financial burden. The City should take responsibility for this and follow Los Angeles’ lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. As a member of the Asian-American community as well as your constituent, please consider the effects on us as well. The ordinance mentions that “tenants may find themselves in an ever-deepening financial hole.” What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Saturday, June 6, 2020 11:20:36 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Saturday, June 6, 2020 1:47:26 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Viet Nguyen

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Date: Saturday, June 6, 2020 3:28:15 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.
Stephen Lee
Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Saturday, June 6, 2020 4:23:08 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.
