Business and/or professional experience:

I have an undergraduate degree in Biology from Harvard University, and worked as a biologist studying salt marsh restoration for SFSU and as a fisheries biologist aboard commercial fishing vessels in the Bering Sea. I worked in Washington D.C. for the Atlantic States Marine Fisheries Commission, and I have a law degree from the University of California, Berkeley, School of Law. I am a member delegate to a community organization representing over 45 neighborhood groups spanning the entire City. I am known to many people and groups across the City and have worked on various issues for people of all ethnicities, races, the elderly and am very concerned about all new ideas as they relate to how the City handles urban forestry issues as they relate to all these categories.

I am a female minority and have worked with people of all backgrounds from all over the City. I have been actively involved in community issues since the late 1990's.

Business and/or professional experience:

I have office skills needed to undertake the new work plan directive from the Department of the Environment which has delegated many of the administrative skills needed to do the job. This requires being organized, timely and having follow-through skills which I believe I have. My interest in science all my life and the fact that I have a green thumb besides other experiences has directed me to this very fitting volunteer position for which I am grateful to have served some time on this past year. I can see further use of the Urban Forestry Council in helping the community resolve issues.

Civic Activities:

As a native San Franciscan, I have engaged in many City issues ranging from cleaning up my neighborhood park to traffic calming projects to City planning issues. I currently am the Chair of the UFC Landmark Tree Committee which requires a lot of leg work. I have also participated in the most recent street tree meeting and how to resolve that. It is hoped that I can continue to be an asset to the community as people have come to me to ask about tree issues. The Urban Forestry Council is a good starting place to resolve issues rather than at the Board of Supervisors.

I strongly support the reappointment of Rose Hillson. She is active in the San Francisco community as evidence by her participation in Jordan Park Improvement Association, VP for Coalition for San Francisco Neighborhoods (over 45 organizations, Japantown Better Neighborhood Plan, Beach Chalet Soccer project opposition, revision to the Recreation and Open Space **Element (ROSE)**).

All San Francisco Commissions need diversity, the Urban Forestry Council needs diversity, please reappoint Rose Hillson.

Subject: 3-21-13 Rules Committee - Item 4 - Urban Forestry Council, seats 6 & 7 - recommend Rose Hillson

Supervisors,

I recommend that you reappoint Rose Hillson to the Urban Forestry Council. Ms. Hillson cares deeply about our urban forest, and she is responsive to the public's concerns. She is very knowledgeable about urban forestry issues, and, in fact, applies her extensive research and analytical skills to any topic in which she is interested. I have often heard her give balanced and informative presentations at meetings of the Coalition for San Francisco Neighborhoods, where her opinion is regarded with great respect. She is an asset to the Urban Forestry Council and to the larger community of San Franciscans who care about our city.

Sincerely,
