Subject: Petition to KEEP Sheriff's at SFGH

Good Afternoon,

I hope this email finds you well. Attached it the counter petition to Asmara Gebre's to remove the Sheriffs at San Francisco General Hospital and the list of 2934 signatures of people who signed to keep them. This is the petition fighting to keep the Sheriffs Department at SFGH for the safety of the staff and our patients.

Thank you for your time!

Robert Alvernaz, RN
Emergency Department
San Francisco General Hospital

To Grant Colfax, Susan Ehrlich, Basil Price, Tosan Boyo, Anna Robert, Hali Hammer, Roland Pickens, Jeff Critchfield and all stake holders at San Francisco General Hospital:

In recent news of the petition by Asmara Gebre, and the calls made to the Police Commission meeting July 15, 2020 to remove our San Francisco Sheriff Deputies from San Francisco General Hospital, many of our staff are outraged. Many of us that have been working in the Emergency Department, hospital or clinics for years, we cannot stress enough how heavily rely on our Sheriff Deputies. Like most county hospital and trauma centers, we work in a very violent environment due to our patient populations. Whether it is from patients suffering from a psychiatric crisis, acting out due to a drugs or alcohol, or suffering from a traumatic brain injury, staff constantly have to restrain and sedate at-risk patients who do not respond to verbal de-escalation and other methods (for the safety of the patient and the staff).

In an ideal world, we would not need the Sheriffs Department in the hospital, but we do not live an ideal world. We live in a world where healthcare workers are getting assaulted and abused consistently. As you know, violence against healthcare workers is already occurring at an alarming rate and will increase greatly without our Sheriffs Deputies. The presence of the SFSD on campus and patrolling around the hospital helps to reduce the amount of patients and visitors from escalating against staff.

The San Francisco Sheriffs Department provides multiple services here on campus. They provide escorts through the tunnels to and from Psychiatric Emergency Services and the Emergency Department, they patrol around campus decreasing the amount of car break-ins and vandalizing, escort staff to their vehicles or BART, are able to immediately evaluate a patient who may be at-risk and put them on a 5150, if needed (we would otherwise have to wait for psych to come over to do that because our physicians are not permitted to). They respond to the drive up gunshot and stabbing victims to secure the scene so ER staff can safely pull them out of the car, assist in money counts per policy, staff the ER and ambulance entrance where they have intercepted multiple knives and handguns, handle domestic violence and violent visitor issues, handle filling out police reports in-house and the list goes on.

Having our Sheriffs Department screen patients has protected staff throughout the hospital from weapons being used to harm others. There have been thousands of weapons removed from patients and visitors. **Last year, the Sheriffs removed 3677 weapons at the ER entrance including 4 loaded guns. Since January of this year, 1870 have already been removed at the ER entrance with it being a COVID year with a lower volume of patients and visitors. From July 2019 till June 2020, 76 healthcare workers were assaulted, 2 sexual offenses occurred in the ER, and 15 drive-up gunshot or stabbing victims were intercepted.** When we receive victims of violent crimes, like our gunshot or stabbing victims, the ER has to go on lockdown due to the large gathering of upset

people (family/friends) that respond to the hospital and the Sheriff Deputies are the ones that secure the ER. Without them, we would have so many instances of upset family members breaking through to the patient care areas. This is unfair to the other patients, and to otherwise occupied staff trying to help those patients.

As you can recall, just last year we had a patient going through a psychiatric crisis who was brandishing a gun on campus trying to get into our Psychiatric Emergency Services Department. We are very lucky to have had our SFSF Deputies who could respond within seconds of the notification to them and safely disarm the man without anyone getting injured. If we would have had to call 911 and wait for officers to respond, who knows how many people would have been shot because of the longer response time.

The Emergency Department staff endure physical, verbal, and emotional abuse along with other threats on a daily basis. Recently we had one of our ER nurses thrown to the ground by a patient who then grabbed her hair and bashed her head into the ground. Luckily, we had a Sheriff's Deputy stationed in the highest risk area of the ER that was there to respond immediately, stop the continued assault, and get additional assistance before, what could have been, a potentially more devastating outcome. This particular nurse was assaulted just a week before her wedding. She nor her now husband, who was also a nurse at SFGH have never returned to work after this assault.

In the scenario Gebre mentioned in her petition to remove our deputies, it's clear that she does not know what occurred in the Emergency Department prior to that patient being asked to leave once medically and psychiatrically cleared. The patient was sexually inappropriate in the department and harassing, abusing and threatening to harm staff. Instead, Gebre, and others, came up with their own conclusions and had no idea what had happened prior to the man being escorted out. Nor did they take the time to look for the back story before initiating their dangerous petition.

We hope that San Francisco General Hospital, the City and County of San Francisco, and the Department of Public Health do not attempt to remove or disarm our San Francisco Sheriff's Department from the hospital and clinics where they protect the essential workers caring for our community. The staff have already mentioned that they will strike if this occurs. If staff feel their lives are being placed in more danger by removing the Sheriff's, I foresee us losing staff. I have heard many ER staff say that they would never have taken the job at this hospital if they didn't have Deputies. Our Sheriff Deputies are essential in keeping us safe because our patient population would not respond to a private security guard who has no jurisdiction to do anything other than tell the offender to stop their behavior. We have many staff members who have worked at multiple facilities who confirmed private security is not allowed to do anything in these threatening situations.

Thank you for your time and we hope you will do the right thing and keep your staff in a safer work environment by having the San Francisco Sheriff Department remain on campus and in the Emergency Department!

Subject: FW: Comment for budget and appropriations committee issue 3
Date: Monday, July 27, 2020 10:00:44 AM

For file no. 200532. Thanks.

From: Anna Fiskin <fiskin@gmail.com>
Sent: Wednesday, July 22, 2020 5:02 PM
To: Board of Supervisors, (BOS) <board.of.supervisors@sfgov.org>; Wong, Linda (BOS) <linda.wong@sfgov.org>
Subject: Comment for budget and appropriations committee issue 3

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To whom it may concern.

I am a psychiatrist at Chinatown North Beach Mental Health Services (CTNB) located in district 3. I was unable to comment at budget and appropriations committee meeting but would like to submit my comment on issue 3. I am writing in regards to elimination of the position for our on-site sheriff's deputy Karen Lee at CTNB in response to mayor's budget reduction initiative as of July 1. What was proposed for security is that deputies will stop by our clinic on patrol twice a day, which has not happened so far, or that we can call the police when there's a crisis. This is not a good plan for us, and endangers our safety and safety our clients.

We work with patients with severe mental illness and many of them have had a worsening in their mental health and have been presenting as more volatile than usual. At the same time, due to covid, we only have 3-5 people at the clinic at a time as opposed to the usual 30, making it more difficult for us to respond to crises. For example, in the past month, we have had patients come in and get agitated because they were asked to wear a mask, and were threatening to staff. We also had a patient wait outside the door every day for one of our psychiatrists at the end of her shift and would not respond to redirection. A psychotic man came into our clinic today with a metal rod.

While presence of law enforcement in mental health is appropriately being criticized for unnecessary use of force and using threat of violence as a deterrent, deputy Karen Lee is an excellent and positive example of law enforcement working collaboratively and building relationships with our clients and staff to ensure everyone's safety. As an Asian American woman, she is sought out and respected by our clients, who are predominantly monolingual Asian immigrants. Karen Lee has modeled that law enforcement is not there to be a threat to them, and has created an environment where they can feel safe coming to a community mental health clinic, which can otherwise feel overwhelming or chaotic to them. Her work with our clinic has been an excellent demonstration of a true partnership between mental health and law enforcement. We are concerned that without Karen Lee's presence, if we have an incident at the clinic, when we call for assistance, we will have officers that do not know our patients show up in the midst of crisis. This is likely to escalate the situation, as opposed to deescalate, leading to higher risk of arrest or violence for our patients. I know that the system as a whole is moving away from using sheriff deputies, but the alternatives that we have been given increase risk of violence to patients and to ourselves.

Sincerely,
Anna Fiskin MD

Subject: You already know what makes a neighborhood safe.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is David Ho.

I've lived in SF for 6 years, recently in District 6, currently in District 5.

I'm writing to demand a city budget that incorporates the 37 line-item cuts listed on defundsfpdnow.com, as a first step to defunding, disarming, and disbanding SFPD entirely.

I demand that the resulting \$295 million saved be invested in services that actually prevent crime and improve health and safety for SF residents: stable housing, medical care (such as mental health care and drug treatment), and education.

The work has been done for you. Each line-item has extensive research and justification behind it, pointing to overwhelming evidence showing that:

- SFPD disproportionately harasses, harms, and kills Black and brown people, unhoused people, and LGBTQ people in SF. It's had a decades-long history of extreme anti-Black bias and intransigence to reform [1], that's forced the city to pay tens of millions of dollars from the general fund to settle lawsuits, on top of the police budget, every year.
- SFPD has not been keeping our communities safe. Their clearance rate for larceny theft is just 4%, motor vehicle theft 9%, burglary 16%, and rape 17% [2]. This is not surprising, given the fact that police were designed to catch slaves and break strikes, not to protect people or solve crimes.
- Today, less than 5% of SFPD calls for service are in response to violent crime [3]. Most are for noise/nuisance complaints, public health, traffic/parking, or homelessness. We must immediately shift this work, and the associated funding, onto the existing unarmed civilian services who actually have the relevant training, and who don't carry guns and clubs.

Understand that the work of divesting from the police and prison industrial complex *is* the work of public safety. "Study after study shows that a living wage, access to holistic health services and treatment, educational opportunity, and stable housing are more successful in reducing crime than more police or prisons." [4]

You already, instinctively, know this: People don't commit crime because there are no cops. People commit crime because there are no jobs, no resources, no options.

There are already wealthy residential neighborhoods in SF where a white person can go about their entire daily

routine, walk around block after block, and never see a single cop car, a single foot patrol. There are no visible police for deterrence, and yet the richest, whitest neighborhoods are not hotbeds of violent crime.

Why don't we see this?

You already know the answer.

The status quo, the cops' budget, argues that the most efficient way to ensure public safety is to fund more cops and defund schools. It's what we've been doing year after year.

If the cops' argument was correct, neighborhoods with more cops and worse schools should be safer than neighborhoods with better schools and fewer cops.

Why don't we see this?

You already know the answer.

None of this is surprising. It is naive to think that police keep a community safe. It is a fantasy we only believe because of TV shows and movies. The actual data is clear:

"A 10 percent increase in wages for non-college educated men leads to a 10 to 20 percent reduction in crime rates." [5]

"A one-year increase in average years of schooling reduces murder and assault by almost 30 percent, motor vehicle theft by 20 percent, arson by 13 percent, and burglary and larceny by about 6 percent." [6]

Meanwhile, there is no discernible relationship between rates of incarceration and crime rates [7]. There is no discernible relationship between police funding, or the number of police officers, and crime rates [8].

Again, you already know this on an instinctual level: police and prisons do not make a community safe, because police and prisons do not address the root causes of crime. Paying for a hundred cops will never give a single unhoused person a house, will never treat a single patient's drug addiction, will never give a single poor teenager a path out of poverty.

The only thing that makes a community safe is resources and services: housing, healthcare, jobs, and education. Every dollar that provides for residents' basic needs is more efficient at reducing crime than any dollar going to men with guns and domestic violence issues.

In the safest neighborhoods in SF, there's very little violent crime because people already have their basic needs met, and they're busy leading their own lives.

Even if you're white, you already know that a block with more cops represents a failure of public safety. If you've ever walked through the neighborhoods with the fewest cops on the streets, the rich neighborhoods, you know that public safety is the absence of cops.

And if you're Black or brown? You know that the police represent state-sponsored terror, harassment, and intimidation, with no meaningful accountability or independent oversight.

Understand that the people who are pushing hardest for police and prison abolition want the same things you do: we want to see less crime on our blocks -- we want to walk around safely, the way a white person can walk around safely in a rich neighborhood (without SFPD pointing guns at us 2.4 times per day).

We've seen again and again how the police fundamentally cannot and do not turn unsafe neighborhoods into safe neighborhoods. We want something better. I'm urging you to make the budget decisions that will actually

keep us safe. Defund SFPD, and reinvest in our community.

Thank you,

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello, my name is Aidan, I am a genomics research scientist at the University of California, San Francisco,

I am emailing to reiterate the demands listed by Maisha A Davis (MD, MPH).

We believe now is the time to acknowledge that police violence is a public health emergency.

SFDPH can not call for justice for all if they are unwilling to interrogate the ways that these institutions uphold racism, white supremacy, and toxic patriarchy.

It is time for us to address the Department of Public Health's relationship with the San Francisco Sheriff's Department; their presence in our hospital and community clinics, their impact on the mental and physical health of our most vulnerable patients, and the path to pursuing alternative forms of community accountability for all patients.

We ask that the following actions be taken:

- 1)** Immediately disarm deputies working in the hospitals and clinics.
- 2)** Mandatory de-escalation training and evaluation for competence using these protocols
- 3)** Mandatory and regular mindfulness workshops
- 4)** Offer a reconciliatory process for current and past victims of abuse and assault,
- 5)** Institute the checklist developed previously to document each incident where the Sheriff's Deputies are called to respond
- 6)** Establish an oversight committee which includes patients, providers, and administrators
- 7)** Do not renew the MOU between the Sheriff's Department and City of San Francisco.
- 8)** Replace this system one which hires individuals committed to trauma informed care, deescalation, and community investment.

These demands were taken from the powerful words of Maisha A. Davis, MD MPH, and are reiterated widely by the community.

I would greatly appreciate it if you would please email me back to let me know how these demands will be met.

Thank you,

Aidan

My name is Ana Delgado. I am a nurse-midwife at SFGH and live in District #8, you are my representative Supervisor Mandelman, and Supervisor Ronen you and I have met and spoken about our shared commitment to social justice for our community.

I urge you to remove the funding for Sheriffs from the DPH budget, and invest in programs that provide true health and safety for San Francisco residents.

I have been a midwife in San Francisco since 2002, serving the low income families of San Francisco at St. Luke's Hospital and for the last 13 years at SFGH.

Reproductive justice is a human rights framework that has as one of its central tenants the right of all people to raise their children in safe communities where they can thrive. As is abundantly clear from our own community and around the globe, Black and Brown communities do not feel safe in the presence of law enforcement so WHY would I want these individuals present in the sacred space where we are trying to welcome new lives into the world. Black community members, staff, and patients, who experience the most health inequity, are also disproportionately impacted by the presence of law enforcement. If we want to center Black people let's put our money where our mouth is and come into alignment with our stated San Francisco values. Divest from the SFSD and re-invest in true community safety.

Dear Budget and Appropriations Committee,

While I cannot attend the meeting today, please consider my public comment.

I am writing today to put my full support behind the divestment of sheriffs and police at SFGH and other DPH facilities. I am a white public health worker who was born and raised in San Francisco and spent almost 10 years working in SF community health clinics. While we did not have police or sheriffs at our clinics, we did have to call them when patients reported sexual assaults. In all instances I can remember in which police had to be present, patients and staff felt uncomfortable and it caused more, not less, stress and trauma. Sheriffs and police are not the ways we ensure people are kept safe, especially not in a health care settings. DPH serves communities, like BIPOC, trans and queer people, people on public health insurance, who are more likely to be over-criminalized and have traumatic experiences with police and sheriffs. We need to prioritize and take seriously the experiences of BIPOC hospital staff, patients and community members and remove armed officers from SFDPH. We must proactively rethink ways we actually keep each other safe and healthy, and policing is not part of that.

Best,
Hannah

Dear Supervisors,

My name is Katie Walter. I am a resident of District 10 and an epidemiologist. As a resident and someone who works in health, I see police violence and police presence as a serious public health and human rights issue. San Francisco must do better, we can do better.

Supervisors, I urge you to immediately remove the funding for Sheriffs from the Department of Public Health budget and to instead invest in programs that provide true health and safety for San Francisco residents.

We have all seen how much damage the San Francisco Police Department has done and continues to do every day. There is absolutely no reason that sheriffs should be in our hospitals, no reason we should pay them to be in our hospitals and spaces of healing.

Currently, the SFDPH spends over \$20 million a year on sheriffs, compared to \$100 million on all of primary care. With critical health disparities and true public health crises to address, we can't afford to keep squandering funds on armed officers whose presence harms and traumatizes our patients.

We want the Sheriff's budget in DPH to be cut and for those sheriffs' positions to be eliminated, not just transferred elsewhere. We also want the sheriff's budget overall to be defunded.

I stand in solidarity with the DPH Must Divest coalition in demanding (1) the cancellation of the MOU with the Sheriff's Department, (2) divestment and removal of the sheriffs from DPH and investment in alternative models of community safety, and (3) establish an oversight committee that includes patients, providers, and administrators.

Thank you for your time.

Dear Budget and Appropriations Committee,

My name is LJ Johnson and I am a Behavioral Health Clinician at the San Francisco Department of Public Health. I am writing you to submit public comment on agenda item #3 for the meeting of the Budget and Appropriations Committee on July 15th, 2020.

I urge this committee to remove funding from the SF Sheriffs and reinvest money in programs that will support the health and safety of San Franciscans.

As a mental healthcare provider I have witnessed firsthand the traumatic impacts of police on community members seeking support during crisis. Patients, in particular Black and Brown patients, live in constant fear of violence if they seek help for acute mental health symptoms at ZSFG or other community health sites due to the presence of sheriffs. Their fears are not unfounded- [a 2015 report from the Treatment and Advocacy Center found that a minimum of 1 in 4 fatal police encounters ends the life of an individual with severe mental illness.](#)

I stand in solidarity with the DPH Must Divest coalition in demanding (1) the cancellation of the MOU with the Sheriff's Department, (2) divestment and removal of the sheriffs from DPH and investment in alternative models of community safety, and (3) establish an oversight committee that includes patients, providers, and administrators.

Patients and providers deserve to be safe when seeking treatment in the public healthcare system. I ask that you join us in building a healthy and equitable future for all San Franciscans.

Sincerely,

LJ Johnson MSW

Hello,

My name is Melissa Hernandez. I'm a D7 resident.

I urge you to remove the funding for Sheriffs from the DPH budget, and invest in programs that provide true health and safety for San Francisco residents.

The sheriffs harm patients and health workers at San Francisco General Hospital and in the DPH community clinics. Sheriffs have escalated countless moments of crisis, using excessive force that injures and traumatizes patients.

Response teams skilled in trauma-informed care, de-escalation, and cultural sensitivity can address the vast majority of things sheriffs do in the hospital, and do it better, because they are trained in the appropriate skills and can focus on helping and healing.

I join my community and the DPH Must Divest coalition in demanding that this board vote to defund the Sheriff Department and invest in true community safety. Thank you.

Sincerely,
Melissa G. Hernandez

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To whom it may concern,

I am writing as a resident physician in the UCSF/SFGH Family and Community Medicine Department to **urge you to remove the funding for Sheriffs from the DPH budget and invest in programs that provide true health and safety for San Francisco residents.**

As a resident physician working at SF General Hospital, I am calling for the removal of sheriff's officers on our campus and investment in viable alternatives like crisis response teams that protect safety, deescalate situations, build trust, and respect our values as a community. Furthermore, I support Asmara Gebre, CNM in her calls for these changes to happen **urgently** and transparently. There are negative impacts on our patients and community every day.

Recently, I cared for a patient in the Emergency Department who had just recovered from a seizure in the community, and was in a state of increased anxiety after waking up in the ambulance. When I met them shortly after their arrival to the ED, their anxiety was clearly exacerbated by the widespread presence of armed sheriff's officers. They were shouting, "Please, please let me go home, do not let the police take me, I cannot die here. Don't let them take me, don't let them kill me. I need to go back home to my mom. Alive." They later disclosed to me that they were close to someone who had been killed by police officers. (Name and pronoun removed to protect patient information). I worry about the trauma and compounded vulnerability that our patients experience in the presence of police. We need to create an environment of healing, which does not include police.

I stand in solidarity with Asmara Gebre. Asmara's role in the Family Birth Center is absolutely essential. As the only Black midwife, she provides invaluable perspective and alignment to

address inequities especially for our Black patients. As a trainee, I have learned so much from Asmara about excellent, high-quality patient-centered care. Her ongoing employment at SFGH is vital. She is a thoughtful, comprehensive care provider and educator. The action she is taking now is consistent with our goals of creating a space of healing centered on excellent patient care and equity.

As such, I share my support for immediate action to remove the sheriff's officers from campus. This is the path forward to maintain Asmara Gebre's employment as an essential contributor to our healthcare community, and to make SFGH a place of healing, not of intimidation, vulnerability, and structural violence. Please address this concern with the urgency it deserves.

Sincerely,

Annie Le, MD, MPH

Subject: Public/Comment Testimony Budget and Appropriations Committee Meeting, July 15th, 1:30pm

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear committee,

My name is Dr. Maura Jones. I am a resident physician in the department of Obstetrics & Gynecology at SFGH. I live in District 10.

I urge you to remove the funding for Sheriffs from the DPH budget, and invest in programs that provide true health and safety for San Francisco residents.

As a chief resident, I have witnessed in the past month the harm that the sheriffs cause our patients and their families. I was on overnight when the sheriff was involved in an incident where we simply needed paraphernalia disposed of, that unfortunately led to the arrest of one of our new mothers. While there were no drugs involved or threat to staff at any point by the patient, the sheriffs insisted on arresting this new mother, and subsequently separating her from her baby who was staying in our NICU, causing this family intergenerational trauma. The staff involved, including myself were also deeply traumatized by the presence of the sheriff in this particular situation. There simply is no excuse for this to have happened, and similar situations occur all the time. We could prevent this from happening in the future by removing the sheriffs and investing our funds instead in de-escalation training for our staff.

As a physician of color, I find the presence of the sheriff deeply troubling for numerous reasons. Not only am I forced to relive my own personal trauma from prior history with the police, but I also have to witness my patients do the same. I can see the affects of having the sheriffs present has on both their

mental and physical health. Furthermore it discourages them from seeking care and often perpetuates the advancement of their diseases and later presentations.

I have yet to encounter a situation in my career where I have felt the presence of armed security was necessary.

We are at a critical juncture in our nations history, one where we can decide that Black Lives Matter and acknowledge that ultimately black people are losing their lives both inside and outside of the hospital due police violence but also critical health disparities and true public health crises. We simply can't afford to keep squandering funds on armed officers whose presence harms and traumatizes our patients.

I join my community and the DPH Must Divest coalition in demanding that this board vote to defund the Sheriff Department and invest in true community safety. Thank you.

Maura Jones, MD
OBGYN PGY-3

Hello! I was sorry to miss today's meeting and I want to thank you in advance for considering my comment and adding it to the public record.

I am a licensed clinical social worker who has served pregnant women living with HIV or at risk for HIV infection at San Francisco General Hospital for the past 16 years.

Our birth center was rocked last week by the arrest of a postpartum patient. And it was not the first time. In this case, the Sheriffs department was contacted for help with safe disposal of drug paraphernalia. There was no active public safety issue. In the past, we have seen this outcome (arrest, incarceration) when we contacted the Sheriffs department for help with safety planning, anticipating escalation by a partner, a perpetrator of domestic violence.

In these cases the arrests were the result of a warrant check, conducted by the Sheriffs department as per protocol. The Sheriffs have told us time and again that we should not call on them for help if we do not want "names run". This reinforces what we all know, Sheriffs are not peace keepers they are law enforcement and do not belong in a health care setting.

Thank you.

Becca

Hello all,

My name is Talia Eisenstein, I am a Family and Community Resident Physician at SFGH, and I live in District 9.

I urge you to remove the funding for Sheriffs from the DPH budget, and invest in programs that provide true health and safety for San Francisco residents.

You know the history. Law enforcement in the US has roots in slave patrolling. It's only been in the last 50-60 years that armed police have been in hospitals. We know that to this day, law enforcement violence disproportionately targets Black, Indigenous, and other people of color. We refuse to let these legacies of racism be perpetuated in our hospitals. The presence of law enforcement in healing spaces is especially traumatizing to people who have been terrorized by the police in their communities and experienced police abuse.

Response teams skilled in trauma-informed care, de-escalation, and cultural sensitivity can address the vast majority of things sheriffs do in the hospital, *and do it better*, because they are trained in the appropriate skills and can focus on helping and healing. There are already teams of psychiatric nurses at SFGH that respond in this way and have been able to diffuse situations more successfully than the sheriffs. We must invest in developing and expanding these types of alternatives.

I join my community and the DPH Must Divest coalition in demanding that this board vote to defund the Sheriff Department and invest in true community safety.

Thank you.

Talia Eisenstein, MD

My name is Ryan Nguyen. I work at the Chinatown/North Beach Mental Health Clinic. I want to speak against the elimination of the deputy sheriff position. A part of DPH, our clinic serves severely mentally ill clients by keeping them

healthy and safe. The deputy sheriff has been an instrumental part in reaching that goal. Being a long time community member, her presence has reassured clients when they didn't feel safe. She has also been very effective in diverting and de-escalating situations that could have ended in catastrophe.

During this health crisis when many are sicker and

with unmet needs, potential for chaos and disorder is high. We had clients who were experiencing psychotic symptoms and under the influence of substances presented aggressively with threats and violence toward other clients and staff. The deputy sheriff is needed to set the tone and maintain safety for all.

Subject: DPH must divest, remove SFSD from healthcare

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors-

I was unable to join the hearing today about removing the SFSD deputies from our SFDPH healthcare sites, yet wanted to reach out and strongly urge that SFSD is removed from all healthcare sites promptly.

I am a primary care physician who has worked at SFGH and SFDPH clinics for 29 years and a Professor of Medicine at UCSF; I also do violence prevention work and develop nationally-implemented models of healing-centered and trauma-informed care. Having any law enforcement officers in healthcare settings is not a safe or healing practice, especially for BIPOC patients and staff. I have witnessed multiple different forms of harm caused by SFSD officers at SFGH and other clinics; I have cared for patients who were too frightened to enter clinics or buildings due to SFSD officer presence, thereby unable to access healthcare. I once led a series of large multi-disciplinary meetings to develop a plan to protect a pregnant woman from her previously violent partner during and after the delivery of her baby; this was a complex situation. With the guidance of the pregnant patient and her closest caregivers we developed proactive and trauma-informed safety plans to protect her, her baby, and all of the staff caring for her. SFSD was brought into these meetings to fulfill their stated role in promoting the safety of our patients and staff. They committed to our entire group that they would have un-uniformed officers stand by during and after her delivery in case her partner came on site and behaved in any type of threatening manner. Instead, when this patient was admitted and was in active labor, SFSD officers burst into her hospital room in full uniform with weapons and threatened her with arrest if she wouldn't cooperate with their investigation of her partner for unrelated charges. I am still haunted and enraged by how much danger they placed our patient (and her baby) in during labor by directly threatening her health and safety. Through their actions, they also placed her at increased risk of danger and death threats by her partner—even after we had taught them repeatedly about how best to protect a DV survivor from increased danger. The healthcare staff who tried to protect her and her child from SFSD are still

traumatized by this event, years later. I have witnessed multiple other ways in which SFSD presence has escalated rather than de-escalated situations associated with distressed patients, most often BIPOC or patients suffering from mental illness. As a UCSF faculty mentor to medical students, many of whom are themselves BIPOC and come from communities that have been terrorized by police, I have heard several harrowing stories of assault and trauma perpetrated by SFSD. I have provided support to courageous students who have placed their bodies in front of charging SFSD officers in order to protect a patient (also often BIPOC) from assault. These students are haunted by these events months and years later, especially when they were unable to prevent the assault. And, I would note that, not a single one of these students ever felt endangered by the patients that the SFSD officers attacked. These are just some of the examples I have from my personal experience. And, now, I stand in solidarity with our courageous Certified Nurse Midwife, Asmara Gebre, our only Black midwife at SFGH, who has bravely taken a stand and is on strike until SFDPH and the SF government end the dangerous and traumatic practice of placing law enforcement officers in a place of healing.

During this devastating COVID19 pandemic that is amplifying the intense harm caused by centuries of structural racism to our patients who are Black, Indigenous, POC, unhoused or from other historically marginalized communities, it is unconscionable to spend ~20 million on placing law enforcement officers in places dedicated to healing; their mere presence and, certainly, their violent behavior cause traumatic stress, increased risk of harm, and less safety. These funds need to be removed from the SFSD budget and placed into housing, rent cancellation, food, income, healthcare and mental health services. We are so fortunate to have so many SFDPH/SFGH leadership and staff and community supporters who are dedicated to healing justice and equity; a pilot of a Behavioral Emergency Response Team has already proven extremely promising in preventing as well as de-escalating potentially risky situations. Surely, together, we can develop creative, innovative, and nurturing systems of protecting safety and supporting healing for patients and staff.

Thank you for your immediate attention to this urgent matter of health and safety.

Best wishes,
Leigh Kimberg, MD
