

Statement of Retroactivity – Office of Economic and Workforce Development

File No. 240304

Resolution - Accept and Expend Grant - Retroactive - State of California, Employment Development Department - WIOA Program - \$5,655,557

Why retroactive? This Accept & Expend is for budgets being added to existing budgets previously approved in FY2022-23 AAO. Additional funding was awarded on a formula-basis by grantor (EDD) via various grant agreement modifications. We did not receive prior notifications before we received grant agreement modifications, because they were formula-based additions.

Why consolidate legislation? Mainly because all four of these WIOA subgrants were included in consolidated grant agreement and modifications from grantor. Controller's Office confirmed we can proceed with one legislation (see email attached).
