1	[Health Code - Enhanced Ventilation Requirements for Urban Infill Sensitive Use		
2	Developments]		
3	Ordinance amending the Health Code to clarify the City's enhanced ventilation		
4	standards by codifying the requirement that all new buildings and major renovations of		
5	buildings that contain a sensitive use certify that the building's ventilation system is		
6	capable of maintaining positive pressure; limiting applicability of the City's enhanced		
7	ventilation standard to single family homes, effective January 1, 2026, to align with		
8	state law; making findings under the California Health and Safety Code; affirming the		
9	Planning Department's determination under the California Environmental Quality Act;		
10	and directing the Clerk of the Board of Supervisors to forward this Ordinance to the		
11	California Building Standards Commission upon final passage.		
12	NOTE: Unchanged Code text and uncodified text are in plain Arial font.		
13	Additions to Codes are in <u>single-underline italics Times New Roman font</u> .  Deletions to Codes are in <u>strikethrough italics Times New Roman font</u> .		
14	Board amendment additions are in double-underlined Arial font.  Board amendment deletions are in strikethrough Arial font.		
15	<b>Asterisks (* * * *)</b> indicate the omission of unchanged Code subsections or parts of tables.		
16			
17	Be it ordained by the People of the City and County of San Francisco:		
18			
19	Section 1. General Findings.		
20	(a) The Planning Department has determined that the actions contemplated in this		
21	ordinance comply with the California Environmental Quality Act (California Public Resources		
22	Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of		
23	Supervisors in File No. 250806 and is incorporated herein by reference. The Board affirms		
24	this determination.		

(b) On August 20, 2025, the Building Inspection Commission considered this
 ordinance at a duly noticed public hearing pursuant to Charter Section 4.121 and Building
 Code Section 104A.2.11.1.1. A copy of a letter from the Secretary of the Building Inspection
 Commission regarding the Commission's recommendation is on file with the Clerk of the
 Board of Supervisors in File No. 250806.

## Section 2. Findings Regarding Local Conditions.

- (a) California Health and Safety Code Sections 17958.7 and 18941.5 provide that local jurisdictions may enact more restrictive building standards than those contained in the California Building Code, provided that the local jurisdictions make express findings that each change or modification is reasonably necessary because of local climate, geologic, or topographical conditions and that the local jurisdictions file the local amendments and required findings with the California Building Standards Commission before the local changes or modifications can go into effect.
- (b) The Board of Supervisors hereby finds and declares that the following amendments to the San Francisco Health Code and implemented through the Building Code are reasonably necessary because of local climatic, topological, and geological conditions as discussed below.
- (1) The topography of San Francisco leads to development of high density of multi-unit buildings on small lots, and often in close proximity to major roadways, necessitating special provisions for ventilation.
- (2) The City's geography and weather patterns create microclimates, influenced by fog, topography, and urban development, which can exacerbate air pollution and trap pollutants in certain areas, necessitating special provisions for ventilation.

1	(3) Positive pressure in units and habitable spaces protects public health by
2	reducing the infiltration and exposure of air pollution entering indoors through gaps in walls,
3	floors, and windows.
4	(c) Pursuant to the applicable California Health and Safety Code Sections, the
5	Board of Supervisors finds and determines that these local conditions give rise to the need for
6	modification to the ventilation provisions in the Building Code published by the Building
7	Standards Commission. Further, the Board finds and determines that the proposed
8	modifications are reasonably necessary based on these local conditions.
9	
10	Section 3. Article 38 of the Health Code is hereby amended by revising Sections 3804,
11	3807, and 3809, to read as follows:
12	SEC. 3804. DEFINITIONS.
13	For the purposes of this Article 38, the following words shall have the following
14	meanings:
15	"Air Pollutant Exposure Zone" means those areas within the City which, by virtue of
16	their proximity to air pollution emissions sources, including Freeways, have substantially
17	greater concentrations of air pollutants. The Air Pollutant Exposure Zone shall be modeled
18	according to specific risk factors defined in the Rules and Regulations, and will include at a
19	minimum, criteria for maximum allowed excess cancer risks and maximum PM2.5
20	concentrations; these criteria shall be more stringent in Health Vulnerable Locations, as
21	defined below.
22	"Building" means a building that contains a "Sensitive Use" and that is either:
23	(1) a new building; or

(2) a building undergoing a "Major Alteration to Existing Building" as defined by

the San Francisco Green Building Code; or

24

1	(3) a building undergoing a Planning Department permitted change of use.
2	"City" means the City and County of San Francisco.
3	"Department" means the San Francisco Department of Public Health.
4	"Director" means the Director of the San Francisco Department of Public Health or the
5	Director's designee.
6	"Enhanced Ventilation" means a ventilation system capable of achieving the protection
7	from particulate matter (PM2.5) equivalent to that associated with a Minimum Efficiency
8	Reporting Value (MERV) 13 filtration (as defined by American Society of Heating,
9	Refrigerating and Air-Conditioning Engineers (ASHRAE) standard 52.2), and capable of
10	maintaining Positive Pressure in dwelling units and habitable spaces from the external environment.
11	"Freeway" refers to freeways as defined in the San Francisco General Plan,
12	Transportation Element.
13	"Health Vulnerable Locations" means those San Francisco zip codes, census tracts or
14	other defined locations having the highest percentage of health vulnerable residents, based
15	on criteria such as State discharge data from respiratory and cardiovascular related
16	hospitalizations, non-accident mortality, or other criteria as determined by the Director and
17	specified in the Rules and Regulations enacted under this Article.
18	"Positive Pressure" means the maintenance of higher air pressure inside a specific area than
19	the air pressure outside, which reduces the infiltration and exposure of air pollution entering indoors
20	through gaps in walls, floors, and windows.
21	"PM2.5" means solid particles and liquid droplets found in the air, that are less than or
22	equal to 2.5 micrometers (μm) in diameter.
23	"Sensitive Use" means:
24	(1) any building or facility designed for residential use, including but not
25	limited to those defined by City, state or federal law and regulations, excluding Tourist Hotels-

1	except that effective	January 1, 2026, the definition of "sensitive use" under this subsection (1) shall	
2	mean single family residential buildings only;		
3	(2)	any facility serving specific populations, including but not limited to	
4	California Departm	ent of Social Services (CDSS)-licensed Adult Day Care Centers, Adult	
5	Support Centers, 0	Child Care Centers, Family Child Care Homes, Infant Care Centers, School-	
6	Aged Child Care Centers, and Community Treatment Centers;		
7	(3)	any California Department of Education (CDE)-licensed schools;	
8	(4)	any California Department of Public Health (CDPH)-licensed Health Care	
9	Facilities with 24-hour care, except for CDPH-licensed hospitals, which are subject to specific		
10	regulations;		
11	(5)	any California Building Code Section 305-defined occupancies of	
12	Educational Group	E;	
13	(6)	any California Building Code Section 308-defined occupancies of	
14	Institutional Group I; and		
15	(7)	any California Building Code Section 310-defined occupancies of	
16	Residential Group R.		
17	"Site" mea	ans a parcel of land as defined in the San Francisco Building Code.	
18			
19	SEC. 3807.	ENHANCED VENTILATION REQUIREMENT.	
20	(a) Any p	person or entity to whom this Article 38 applies, as defined in Section 3805,	
21	shall submit to the	Director an Enhanced Ventilation Proposal, prepared by, or under the	
22	supervision of, a licensed mechanical engineer or other individual authorized by the California		
23	Business and Professions Code Sections 6700-6799 (Professional Engineers Act) to design		
24	mechanical ventilation systems that meet the requirements of this Article 38 and San		

- Francisco Building Code Section 1203.5. An Enhanced Ventilation Proposal shall include the name, title and license number of the person submitting such proposal.
  - (b) The Enhanced Ventilation Proposal shall explain how the project will achieve the standards mandated by this Article 38 and accompanying the Rules and Regulations as described and updated according to Section 3809, San Francisco Building Code Section 1203.5, and any relevant amendments or revisions thereto. The Enhanced Ventilation Proposal shall include a statement signed by the person who prepared it, in accordance with the requirements of Section 3807(a), certifying that in his or her the person's judgment, the ventilation system proposed will be capable of achieving the protection from particulate matter (PM2.5) equivalent to that associated with MERV 13 filtration (as defined by ASHRAE standard 52.2) and the Positive Pressure requirement for Enhanced Ventilation. Where maintaining Positive Pressure in residential units is infeasible, the person submitting the Proposal shall provide documentation of the infeasibility, and shall certify that the ventilation system proposed will be capable of achieving Positive Pressure in all common areas.

In updates to the Rules and Regulations, the Director may specify additional or alternative protective equivalents as technology and research dictate.

- (c) The Director shall review the Enhanced Ventilation Proposal and may require additional modification or justification prior to the Director's approval. The Director shall issue a letter to the Department of Building Inspection Permit Services Energy/Mechanical Plan Review Section identifying and attaching the letter describing the approved Enhanced Ventilation Proposal.
- (d) Building permit documents submitted to the Department of Building Inspection shall incorporate all designs and details necessary for the construction of the approved Enhanced Ventilation system. The Department of Building Inspection shall review submitted plans to assure compliance with the Director-approved Enhanced Ventilation proposal and

shall not issue permits for the construction, installation, or modification of the Enhanced Ventilation systems unless it is in compliance with the approved proposal.

#### SEC. 3809. VENTILATION STANDARDS; RULES AND REGULATIONS.

(a) Within 90 days after the effective date of Ordinance No. 224-14, amending Article 38,

The Director shall issue Rules and Regulations necessary to effectuate the purposes of this

Article and to protect public health and safety. Any person or entity as defined in Section 3805 shall comply with this Article, the Rules and Regulations, and all applicable local, state, and federal laws.

#### Section 4. Effective Date

This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

Section 5. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the "Note" that appears under the official title of the ordinance.

1	Section 6. Directions to Clerk. Upon enactment of this ordinance, the Clerk of the			
2	Board of Supervisors is hereby directed to transmit this ordinance to the California Building			
3	Standards Commission pursuant to the applicable provisions of State law.

1 Dr. Carlton B. Goodlett Place, Room 244

San Francisco, CA 94102-4694

Dear Ms. Calvillo:

RE: File No. 250806

Ordinance amending the Health Code to clarify the City's enhanced ventilation standards by codifying the requirement that all new buildings and major renovations of buildings that contain a sensitive use certify that the building's ventilation system is capable of maintaining positive pressure; limiting applicability of the City's enhanced ventilation standard to single family homes, effective January 1, 2026, to align with state law; making findings under the California Health and Safety Code; affirming the Planning Department's determination under the California Environmental Quality Act; and directing the Clerk of the Board of Supervisors to forward this Ordinance to the California Building Standards Commission upon final passage.

The Code Advisory Committee met on August 13, 2025 to consider adoption of File No. 250806, which amends the Health Code to clarify the City's enhanced ventilation standards for buildings containing sensitive uses. The committee voted unanimously to recommend the Building Inspection Commission approve File No. 250806 as written.

The Building Inspection Commission met and held a public hearing on August 20, 2025 regarding the proposed amendment to the Health Code contained in Board File No. 250806.

# The Commissioners voted unanimously to **recommend approval of the Ordinance.**

President Alexander-Tut	Yes
Vice-President Meng	Yes
Commissioner Calamuci	Yes

## MEMORANDUM

TO: Patrick O'Riordan, Director, Department of Building Inspection

Sonya Harris, Secretary, Building Inspection Commission

FROM: John Carroll, Assistant Clerk

Land Use and Transportation Committee

DATE: August 7, 2025

SUBJECT: LEGISLATION INTRODUCED

The Board of Supervisors' Land Use and Transportation Committee has received the following legislation, introduced by Mayor Lurie on July 29, 2025:

#### File No. 250806

Ordinance amending the Health Code to clarify the City's enhanced ventilation standards by codifying the requirement that all new buildings and major renovations of buildings that contain a sensitive use certify that the building's ventilation system is capable of maintaining positive pressure; limiting applicability of the City's enhanced ventilation standard to single family homes, effective January 1, 2026, to align with state law; making findings under the California Health and Safety Code; affirming the Planning Department's determination under the California Environmental Quality Act; and directing the Clerk of the Board of Supervisors to forward this Ordinance to the California Building Standards Commission upon final passage.

The proposed ordinance is being transmitted pursuant to Charter, Section D3.750-5, for public hearing and recommendation. It is pending before the Land Use and Transportation Committee and will be scheduled for hearing upon receipt of your response.

Please forward me the Commission's recommendation and reports at the Board of Supervisors, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102 or by email at: <a href="mailto:john.carroll@sfgov.org">john.carroll@sfgov.org</a>.
