1. Description of Work

A. Scope of Work/Services to be Contracted Out:

These services will be provided by contractors responding to a new RFP to create a Drug Medi-Cal Organized Delivery System (DMC-ODS) pilot, which tests a new paradigm for the organized delivery of health care services for Medicaid eligible individuals with a substance use disorder. Its purpose is to demonstrate how such a system will increase the success of DMC beneficiaries while decreasing other system health care costs. Critical elements include:

--Providing a continuum of care modeled after the American Society of Addiction Medicine (ASAM) Criteria for Substance Use Disorder (SUD) treatment services, which describes specific service levels within Opioid Treatment, Intensive Outpatient, and Residential SUD services;

--Increasing local control and accountability, creating utilization controls, and increasing program oversight and integrity;

--Requiring evidence-based practices and increasing coordination with other systems of care, including primary care and mental health;

--Expanding the SUD treatment workforce by including Licensed Practitioners of Healing Arts; and

--Providing more intensive services for the criminal justice population.

Services will:

--Prioritize services to specific populations, including persons who are Black/African American, homeless, incarcerated or involved with the criminal/juvenile justice systems/Drug Court, adolescents aged 10-18 years old, Transitional Aged Youth (TAY) aged 18-24 years old, Lesbian/Gay/Bisexual/Transgender/Queer/Questioning/Intersex/Ally/Two-Spirit, Pregnant/Parenting women with children, and/or whose primary substance is alcohol.

--Prioritize services in specific geographic areas, including Hayes Valley/Tenderloin/North of Market, South of Market, Bernal Heights/Inner Mission/94110, Bayview Hunter's Point/94124, and Southeast/Visitacion Valley/Sunnydale/94134

--Include patient engagement and peer support, medication assisted treatment, withdrawal management, case management, and recovery services and supports, with appropriate integration of adolescent-specific

considerations, pregnant women and women with dependent children residential treatment requirements, evidence-based practices, DMC-ODS compliant policies and regulations, electronic health records and data systems, evaluation and quality improvement, workforce development and staffing, ancillary treatment and outreach services.

B. Explain why this service is necessary and the consequence of denial:

The State funding that San Francisco receives for Substance Use Disorder treatment is now the result of California's Medi-Cal waiver, which received Federal approval August 2015 and was rolled out to counties in steps throughout 2016. This waiver allows counties to support a much wider range of options to people with low incomes who are on Medi-Cal. Without this funding, San Francisco's funding for SUD treatment would be severely limited and people needing these services would likely be untreated and/or require significant increases in repetitive primary care and mental health treatment, experiencing worsening symptoms, requiring more expensive treatment, and escalating mortality rates.

C. Has this service been provided in the past? If so, how? If the service was provided under a previous PSC, attach copy of the most recently approved PSC.
PSC 48652-16/17

D. Will the contract(s) be renewed?
Yes, as funding is available.

E. If this is a request for a new PSC in excess of five years, or if your request is to extend (modify) an existing PSC by another five years, please explain why:
The Department expects the need for the services to continue.

2. Reason(s) for the Request

A. Display all that apply

Services that require resources that the City lacks (e.g., office space, facilities or equipment with an operator).

Explain the qualifying circumstances:

The City does not have the facilities (including buildings for residential services) or capacity to provide these services, which provide an integral part of the City's system of care for people with substance abuse disorder diagnoses.

B. Reason for the request for modification:

To align the duration with the anticipated contract term.

3. Description of Required Skills/Expertise

All providers must also meet State and City requirements for Drug Medi-Cal certification, harm reduction, cultural and linguistic competency, Americans with Disabilities Act and other access requirements, as well as have the ability to serve priority service populations and geographic service areas.

5. Why Civil Service Employees Cannot Perform the Services to be Contracted Out

- A. Explain why civil service classes are not applicable.
Existing civil service classes are already overburdened with the current maximum level of delivery of local government-based services which can be provided by the City and County. The remainder of the substance use disorder treatment services within the City's system of care must be based in and often is best performed by community based organizations with the experience, focus, and often the trust of and credibility in the community, who are able to operate the flexible, grassroots-oriented programs.
- B. If there is no civil service class that could perform the work, would it be practical and/or feasible to adopt a new civil service class to perform this work? Explain: No, there are existing classifications performing this work, however, the demand for services exceeds the capacity of City facilities to provide them, so the City uses contractors to meet as many of the clients' needs as possible.

No.
- B. Will the contractor train City and County employees and/or is there a transfer of knowledge component that will be included in the contract? If so, please explain what that will entail; if not, explain why not.
