4 **initial base budget to guide each City agency in preparation of its proposed two-year**
5 **budget; to provide that these base budgets must include anticipated cost increases in**
6 **agreements with nonprofit organizations to reflect inflation; and to adopt a City policy**
7 **that departments will enter into multi-year grants when the need for a grant program**
8 **will extend beyond a single year.**

9 NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
10 **Additions to Codes** are in *single-underline italics Times New Roman font*.
11 **Deletions to Codes** are in ~~*italics Times New Roman font*~~.
12 **Board amendment additions** are in Arial font.
13 **Board amendment deletions** are in ~~Arial font~~.
14 **Asterisks (* * * *)** indicate the omission of unchanged Code
15 subsections or parts of tables.

16 Be it ordained by the People of the City and County of San Francisco:

17 Section 1. Chapters 3 and 21G of the Administrative Code are hereby amended by
18 revising Section 3.3 and adding Section 21.G14, to read as follows:

19 **SEC. 3.3. BUDGET TIMETABLE.**

20 (a) Each year, the Mayor shall provide instructions to all City agencies regarding the
21 Mayor’s requests for the contents of all agencies’ proposed budget submissions for the
22 subsequent fiscal year(s) (“Budget Instructions”). On the same date the Mayor transmits the
23 Budget Instructions to all other agencies, the Mayor shall transmit those instructions to the
24 Clerk of the Board. To assist City agencies with the formulation of proposed budgets, the Controller
25 shall prepare a base budget for each agency for the subsequent two fiscal years. The base budget shall

1 incorporate such changes in the cost of City services that the Controller determines are necessary for
2 planning purposes, including reflecting the cost of labor agreements and the anticipated changes in the
3 expected cost of City services delivered by nonprofit organizations to reflect annual inflation increases.
4 City agencies, the Mayor, and the Board of Supervisors may modify these base budgets following the
5 processes set forth in this Section 3.3 and Article IX of the Charter.

6 (b) ~~Each year beginning on December 1, 2020, a~~After the agencies receive Budget
7 Instructions from the Mayor each year, there shall be a public meeting, as specified in
8 subsections (b)(1) and (2), concerning each agency's budget priorities, excluding Designated
9 Agencies, at which members of the public may provide input regarding the budget priorities.
10 The purpose of the meeting shall be to allow for public input into the agency's budget for the
11 upcoming fiscal year(s) prior to the agency's preparing and finalizing a proposed budget.
12 Designated Agencies are not required to hold a public meeting under this subsection (b), but
13 each such agency shall provide an alternative method for the public to provide input on its
14 proposed budget priorities, and shall provide a written description of the agency's proposed
15 budget priorities and a format for public input on the agency's website.

16 (1) For agencies subject to the oversight of a commission under the Charter or the
17 Municipal Code, the commission may satisfy this subsection (b) by holding a hearing
18 regarding budget priorities at a regular or special meeting of the commission at least 15 days
19 prior to the commission's final approval of the agency's proposed budget. Meetings held
20 under this subsection (b)(1) are subject to the Brown Act and the Sunshine Ordinance.

21 (2) Agencies that are not subject to the oversight of a commission under the
22 Charter or the Municipal Code shall provide notice of the meeting on the agency's website,
23 and on the Controller's budget web page required by Section 3.4, at least 72 hours in
24 advance. The meeting shall be open to the public. All members of the public attending the
25 meeting shall have the opportunity to provide at least two minutes of oral public comments

1 during the meeting and to provide written comments before, during, or after the meeting.
2 Meetings held under this subsection (b)(2) are not subject to the Brown Act or the Sunshine
3 Ordinance.

4 (3) If the Board of Supervisors or any of its committees holds a hearing regarding
5 an agency's budget priorities during the period set forth in this subsection (b) and presenting
6 the content required by this subsection, the agency shall be deemed to have satisfied the
7 meeting requirement in this subsection.

8 (c) By no later than February 14 each year, there shall be a public meeting, as
9 specified in subsections (c)(1) and (2), concerning each agency's proposed budget. The
10 proposed budget that the agency presents at this meeting shall provide the following
11 information, if applicable to the agency: all agency divisions; budget totals and major changes
12 including new or reduced initiatives and staffing changes; changes in service levels; projected
13 salary savings; and how the agency is meeting budget instruction targets. The purpose of this
14 meeting shall be to allow for public input into the agency's budget for the upcoming fiscal
15 year(s) prior to the agency's submission of a proposed budget to the Controller. For agencies
16 required to hold a public meeting under subsection (b), the meeting required under this
17 subsection (c) shall occur at least 15 days after the public meeting required under subsection
18 (b).

19 (1) For agencies subject to the oversight of a commission under the Charter or the
20 Municipal Code, the commission may satisfy this subsection (c) at a regular or special
21 meeting at which it considers final approval of the agency's proposed budget. Meetings held
22 under this subsection (c)(1) are subject to the Brown Act and Sunshine Ordinance.

23 (2) Agencies that are not subject to the oversight of a commission under the
24 Charter or the Municipal Code shall provide notice of the meeting and a draft of the agency's
25 proposed budget on the agency's website, and on the Controller's budget web page required

1 by Section 3.4, at least 72 hours in advance. The meeting shall be open to the public. All
2 members of the public attending the meeting shall have the opportunity to provide at least two
3 minutes of oral public comments during the meeting and to provide written comments before,
4 during, or after the meeting. Meetings held under this subsection (c)(2) are not subject to the
5 Brown Act or the Sunshine Ordinance.

6 (3) The City Administrator shall hold a separate public meeting under subsection
7 (c)(2) regarding the budget of the Department of Public Works and a separate public meeting
8 under subsection (c)(2) regarding the budget of the Department of Technology. For all other
9 agencies under the direction of the City Administrator, the City Administrator may hold a
10 single public meeting under subsection (c)(2) to receive input on all such agencies or, in the
11 City Administrator's discretion, may hold separate public meetings to receive input on one or
12 more specific agencies.

13 (4) If the Board of Supervisors or any of its committees holds a hearing regarding
14 an agency's proposed budget during the period set forth in this subsection (c) and presenting
15 the content required by this subsection, the agency shall be deemed to have satisfied the
16 meeting requirement in this subsection.

17 * * * *

18
19 **SEC. 21G.14. MULTIPLE YEAR GRANTS.**

20 (a) When the City anticipates that the need for a Grant program will extend beyond a single
21 fiscal year, subject to the budgetary and fiscal provisions of the Charter, it shall be the policy of the
22 City that Granting Agencies shall enter into Grants with terms of multiple years. If the duration of the
23 service is unknown at the time the agreement is executed, Granting Agencies shall enter into Grants
24 that include options to extend the term of the Grant unless infeasible. The Granting Agencies shall
25 promptly inform Grantees of planned renewals or extensions.

1 (b) In negotiation and development of multiple year Grants, Granting Agencies shall consider
2 the cost of inflation in subsequent years of the Grant, as well as other necessary programmatic or
3 operational changes in costs. The Controller shall provide guidance to Granting Agencies regarding
4 cost topics such as inflation, the treatment of blended funding, exceptions to costs that might receive an
5 increase, the treatment of new funding sources, and other concerns that relate to sustainable and
6 appropriate funding structures.

7 (c) Before amendment, renewal, or extension, of a Grant, Granting Agencies and Grantees will
8 negotiate and communicate regarding compensation relating to modified scopes of services.

9 Section 2. Effective Date. This ordinance shall become effective 30 days after
10 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
11 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
12 of Supervisors overrides the Mayor’s veto of the ordinance.

13
14 Section 3. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
15 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
16 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal
17 Code that are explicitly shown in this ordinance as additions, deletions, Board amendment
18 additions, and Board amendment deletions in accordance with the “Note” that appears under
19 the official title of the ordinance.

LEGISLATIVE DIGEST

[Administrative Code - Preparation of the City Budget and City Policy Regarding Multi-Year Grants]

Ordinance amending the Administrative Code to require the Controller to prepare an initial base budget to guide each City agency in preparation of its proposed two-year budget; to provide that these base budgets must include anticipated cost increases in agreements with nonprofit organizations to reflect inflation; and to adopt a City policy that departments will enter into multi-year grants when the need for a grant program will extend beyond a single year.

Existing Law

Chapter 3 of the Administrative Code address the budget process and procedures. Chapter 21G governs the procurement and award of grants. Neither account for cost of living or other service costs relating to inflation in multiple years. The desired term length of grants is not addressed.

Amendments to Current Law

The Controller will now assist departments in two-year base budget development by anticipating cost increases relating to agreements with nonprofit for services in subsequent years. The City policy is now that grant agreement durations will be for multiple years when the anticipated need will exceed a one-year period. Departments issuing grants will consider inflation costs in developing and negotiating the grant plans.

Background Information

Historically many city grants have been issued on a year to year basis, despite the services being reoccurring and the awards made to the same grantees. City contracts are often awarded on a multiple year basis in order to better plan and budget for both parties. The City's Minimum Compensation Ordinance and other inflation related costs affect grants, and neither the City nor the grantees are as prepared as they could be. This legislation assists the departments in receiving more information about expected costs and anticipates better long term planning. To increase stability, grants will be awarded on a multiple year basis, and grantees will be notified of anticipated renewals or extensions earlier, increasing transparency. These changes also align with statewide efforts to extend and stabilize grants terms as well as account for inflation.

Multi-Year Contracting and Cost of Doing Business

Budget & Finance Committee – October 4, 2023
File# 230483

CITY & COUNTY OF SAN FRANCISCO

Office of the Controller
City Performance Unit

Laura Marshall: Laura.Marshall@sfgov.org

Background

The City funds **\$1.7 billion** in services delivered by 600+ nonprofit providers annually.

Many years ago, the Mayor and the Board centralized decisions about how to fund inflation across the array of department funders and nonprofit providers.

The Mayor and Board typically determine a **“Cost of Doing Business” (CODB)** allocation as a percent of General Fund contract costs at the end of the annual budget process.

Background

In May 2022, the Controller's Office made the following recommendation as part of analysis into the impacts of inflation on nonprofit service providers:

To ensure nonprofit contractors have stable, planned funding increases to address inflationary pressures in contracts, including for wages, **the City should transition from an annual CODB allocation to a process where a planned increase is budgeted for each year of multi-year contracts.**

Why Change is Needed

By the time the CODB is approved in the City budget (August), many nonprofits have already planned their own budgets for the fiscal year.

Annual variance in CODB amount makes it difficult to plan ahead. Departments create “flat” multi-year budgets that do not acknowledge known changes to contract costs (such as union-negotiated salary changes).

Departments must re-open contracts each year to adjust budgets to account for the CODB adjustment, which can take several months to implement, and can delay a nonprofit’s ability to invoice for increased costs.

Legislation Overview

Instructs City departments to establish **multi-year agreements** when services are expected to continue for more than one year (current practice in many cases, but not all).

Instructs City departments to account for **expected changes to costs** in subsequent years of these multi-year agreements, including accounting for inflation.

Instructs the Controller to establish a practice of accounting for **inflation related to nonprofit agreements within the City's base budget**.

Benefits of the Proposed Changes

Allows departments, Mayor and Board to make **informed choices about costs and impacts of budget changes** throughout the budget process.

Allows departments and nonprofits to **plan ahead for known changes to program costs**. Enhances negotiation between departments and nonprofits regarding costs and services included in agreements.

Creates **contracting efficiencies**; reduces annual burden of contract modifications related to CODB.

Mirrors how certain other costs are treated in the base budget, e.g., adjustments to Civil Service salaries and benefits.

Thank you!

Any questions?

Subject: Public Comment on Preparation of the City Budget and City Policy Regarding Multi-Year Grants: Benefits of Multi-Year Grants for Nonprofits in San Francisco.

Sponsor: Supervisor Ronen

Public Comment submitted by:

Eviction Defense Collaborative, Lead Partner for the San Francisco Tenant Right to Counsel (Eviction Defense Legal Services) and Core Provider for the SF Emergency Rental Assistance Program (Homelessness Prevention Program). EDC is the only SF ERAP provider processing rental applications for tenants with an eviction case.

Public Comment:

Eviction Defense Collaborative (EDC) thanks you for this opportunity to advocate in support of multi-year contracts for Safety Net Nonprofits in San Francisco. EDC is the Lead Partner for the San Francisco Tenant Right to Counsel Program (TRC) which provides Eviction Defense Legal Services to all SF tenants facing eviction and core provider for the SF Emergency Rental Assistance (SF ERAP) Program, processing all rental assistance applications for tenants facing eviction, who have received a UD.

Listed below are the ways in which multi-year grants support the stability of local safety net nonprofits, and how this in turn benefits the underserved communities they serve.

Benefits of Multi-Year Grants

Multi-year grants can be beneficial for nonprofits for several reasons:

1. **Stability and Planning:** Multi-year grants provide financial stability to nonprofits. They allow organizations to plan and execute long-term projects with confidence, knowing that they have funding for an extended period. This stability is especially crucial for nonprofits that work on complex, multi-year initiatives or implementing large-scale programs, like the City's homelessness and eviction prevention programs such as the SF Emergency Rental Assistance Program (SF ERAP) and SF Tenant Right to Counsel (TRC). Again, EDC is a core provider for SF ERAP and is the Lead Partner for SF TRC.

2. **Reduced or Eliminated Timing lags:** Receiving a new grant contract every year for an ongoing program often leads to gaps in funding, where the old grant period has expired, and due to budgetary delays, the new grant is not available to the nonprofit - often for several months into the new fiscal year. This forces nonprofits to make the impossible choice of going out of pocket to continue services, threatening their financial stability, or scaling back or suspending services, which negatively impacts the communities served.
3. **Reduced Administrative Burden:** With multi-year funding, nonprofits can spend less time applying for grants and more time focusing on their mission. This reduces the administrative burden of constantly seeking new sources of funding, as well as drafting and submitting applications that are often nearly unchanged from prior periods, especially in case of long term projects. This allows staff to concentrate on program delivery and impact assessment.
4. **Program Continuity:** Nonprofits often rely on consistent funding to maintain and expand their programs. Multi-year grants ensure that critical services and initiatives can continue without interruption, benefiting the communities they serve. It also prevents long ramp-up and scale-down periods and improves efficiency of program delivery.
5. **Capacity Building:** Long-term funding can enable nonprofits to invest in capacity building, such as staff training, infrastructure development, and technology upgrades. This helps organizations become more efficient and effective in achieving their goals.
6. **Strategic Planning:** Multi-year grants enable nonprofits to engage in strategic planning. We can set clear objectives and long-term goals, and engage in long term financial planning which are essential for sustainable impact.
 - a. This also makes organizations more attractive to other potential donors who want to see a clear vision and plan, and assists nonprofits to diversify their sources of funding and not be overly reliant on public grants.
 - b. Multi-year contracts allow nonprofits to develop long term strategic staffing plans, which ensures a level of job stability to the dedicated staff at nonprofits across the city who work tirelessly to support, serve and protect the most vulnerable communities in our city.
7. **Relationship Building:** Establishing a multi-year relationship with a funder allows nonprofits to build stronger partnerships and communication channels. This can lead to better collaboration, feedback, and mutual understanding of goals and outcomes.
8. **Risk Mitigation:** Multi-year grants provide a buffer against economic uncertainties or unforeseen challenges. Nonprofits can weather financial crises more effectively when they have committed funding for several years. The huge influx of rental assistance

funding during the pandemic, and the sharp funding cliff that we are experiencing in the current and next fiscal year is a classic example of what multi-year contracts can avoid.

9. **Demonstrating Impact:** Longer grant periods give nonprofits the time to demonstrate the effectiveness and impact of their programs through long term, evidence-based results.

Thank you again for this opportunity to advocate for multi-year contracts for San Francisco nonprofits. Their importance cannot be overstated. They stabilize local agencies who comprise the City's safety net of services for San Francisco's most vulnerable communities at the highest risk of eviction, homelessness, food insecurity, and resulting health issues. Multi-year contracts are a relatively simple solution that would generate significant results by providing nonprofits the ability to plan fiscally, operationally, programmatically and produce a higher ROI on the contracts, thereby providing deeper impact for the communities they serve.

Lack of Records and Transparency in City Funding of Nonprofit Wage Increases

By Karl Kramer, Michael Clancy, Quinn Kellner, Manush Mirzada, Gizelle Jane Rabi, Noah Cane, Domenique Servin, Bethany Amarillas, Estephanie Lua De La Torre

**San Francisco Living Wage Coalition
November, 2022**

Introduction

Our City is facing a pending crisis of the implosion of its social infrastructure. There are nearly 5,000 non-profit workers who are performing public services under City contract. These include desk clerks and janitorial staff at supportive housing, and staff at homeless shelters, after-school and summer programs for youth, senior programs, homeless support, violence prevention and mental health services.

There is a mass exodus of workers from these low-wage positions because they are struggling to make ends meet with rising inflation and an increased cost-of-living. With the skyrocketing cost of gas, many can no longer afford the hours-long super-commute to work in San Francisco.

The Minimum Compensation Ordinance (MCO), which covers city-funded nonprofit workers, IHSS home health care aides and CalWORKs parents in community service jobs, provides a minimum rate increase on July 1 of each year based on the prior year's increase in the Bay Area Consumer Price Index to keep up with inflation. But the wage increase can be deferred unless the City appropriates additional funds to nonprofits and the Controller certifies that such funds are sufficient to pay for the increase.

The Office of the Controller issued a report on May 4 on addressing nonprofit wage pressures among the 600 nonprofit service providers with which the City and County of San Francisco contracts to deliver \$1.2 billion in safety net services.

The reason for the report was that “low wage levels have led to difficulty hiring and high turnover, impacting client services and service provider stability.”

Sources of funding from the City to address wage pressures are for the MCO wage increase and for the Cost-of-Doing-Business (CODB) increase. The CODB applies to other inflationary costs for a nonprofit such as rent, insurance, overhead, and wage increases for those at higher wage rates and the bookkeepers, receptionists and clerical workers who are not funded directly in the city contract.

The Controller's report found that “operational challenges often delay roll-out of CODB funds, which can delay wage increases for staff or reimbursement for nonprofits” and that the “Minimum Compensation Ordinance (MCO) supports the lowest wage workforce but is difficult to implement.”

Our Purpose

The San Francisco Living Wage Coalition attempted to track the MCO and CODB allocations to nonprofit organizations.

The purpose for tracking these allocations is to confirm that the funds reach nonprofit organizations.

After launching a survey, a number of nonprofit organizations noted that they did not, or were unsure, that they received funding for the MCO and/or CODB increases.

We found the implementation of MCO and CODB allocations is uneven across departments; specifically, in the understanding of the process and purpose of MCO and CODB, and the transparency of record-keeping.

The Fiscal Year 2022-2023 will be much more complicated because there is funding in the budget for a 5.25 percent wage increase and a 3 percent CODB.

In a survey that gathered 21 respondents, two organizations reported that they did not receive a 3 percent CODB increase for FY 2021-2022. Four of the organizations responded that they were not sure or did not receive CODB funding for FY2020-2021. Six organizations were not sure or said that they did not receive funding for MCO wage raises in FY 2021-2022.

Background

Amendments to the MCO in 2018 set up a process by the Controller's office to set allocations to departments for the FY 2019-2020.

The allocation set by the Controller's Office included funding for the direct costs of raising wages to the new minimum rate but also for wage increases for other employees already earning above the minimum rate up to \$22.50 per hour, which the Controller's Office calls "wage compaction." After FY 2019-2020, setting allocations to nonprofits became the responsibility of each department.

A Nov. 5, 2019, memo from the Controller says "The Controller's Office administered the FY 19-20 MCO application to support a fair and transparent process. For FY20-21, each funding department will be responsible for adjusting contracts to reflect costs associated with the MCO. The Mayor's Office will adjust FY20-21 base budgets with appropriate General Fund allocations for these expenditures, and it will be each department's responsibility to ensure FY20-21 contracts accommodate the direct and compaction impacts of the MCO."

Problems in Record Keeping and Transparency

The Department of Children, Youth and their Families (CHF), Department of Public Health (DPH), First 5 Commission (CFC), and Human Services Agency (HSA) provided clear records of calculations of the MCO and CODB increases allocated to nonprofits; however, we found other departments were not transparent, did not track relevant information, and did not keep records of allocations for MCO and/or CODB.

Although numerous information requests were sent, we did not receive comprehensive figures on allocations, which would serve as evidence that funding went to nonprofit organizations.

Some departments reported that they did not keep records of the MCO or CODB allocations to nonprofits.

These included the Public Utilities Commission, the Office of City Administrator, the Mayor's Office of Homelessness and Supportive Housing, the Art Commission, the Human Rights Commission, the Adult Probation Department and the Department of Public Works.

The Public Utilities Commission

The Public Utilities Commission Business Services staff wrote in an internal message on December 27 that "we don't have a separate budget for these items so it's impossible to say specially [sic] how much is budgeted." [see appendix 1].

This message exchange only became available through filing a Sunshine Ordinance complaint. The PUC had responded that they had no responsive documents to the request.

Budget director Laura Bush told the Sunshine Ordinance Task Force Complaint Committee on June 21 that there is "no way for us to see detail level how much is budgeted. We don't have a record of specific amounts to nonprofits."

The Office of City Administrator

The Office of City Administrator had only total sums budgeted to nonprofits and threw out the records of figures they used to reach that total.

An email from the Office of City Administrator stated in response to an information request “However, it is important to note when contracts are amended or issued to distribute funds, our finance system will only have the information about the total funds allocated to each contract and would not be able to provide the specific breakdown, such as CODB increase, by contract, as other factors can affect the grant amount received by non-profits by each contract.” [see appendix 2]

In a May 17 meeting of the Sunshine Ordinance Task Force Complaint Committee, Vivian Po, representing the Department, said that “specific MCO and CODB information is information that we do not currently have,” and “we do receive a summary but what we don’t have is a specific breakdown of what increases are for MCO and CODB. We have information as a lump sum for each individually.”

The information is even more opaque since the MCO funding for FY2019-20 is listed as amounts to four programs – Grants for the Arts, Immigrant and Language Services, Labor Standards, and Treasure Island Development Authority. Each program funds different nonprofits.

The Mayor's Office of Homelessness and Supportive Housing

The Mayor's Office of Homelessness and Supportive Housing (HOM) was only able to provide the total budgets for nonprofits for FY 19-20 and FY 20-21.

After sending a spreadsheet that duplicated the calculations by the Controller's Office for MCO increases for FY 19-20, HOM could not provide information on CODB increases for FY 19-20, nor MCO and CODB increases for FY 20-21.

Jeff Hamilton, Compliance Public Relations Officer, explained that once they added up all the component parts that make up a total allocation for a nonprofit, they enter in the total sum and do not keep records of the individual component amounts. Hamilton said they are not able to "reverse engineer" from the total to identify specific funding sources.

Hamilton told the Sunshine Ordinance Task Force Complaint Committee on June 21 that "he sat down with the contract manager and she walked through how they calculated the contracts. In order to provide the figures, she would have to pull data from 69 contracts. They do not have the capacity to pull a report."

In late July, Hamilton provided copies of letters sent to nonprofits that informed them of their CODB increase for FY 21-22 that had ended at the beginning of the month. [see appendix 2b]

The Human Rights Commission

The Human Rights Commission's records combine the MCO and the CODB, and they are not able to separate the figures.

In response to an information request to identify the groups that received funding for MCO increases for FY 19-20 and FY 20-21 and how much, Cathy Mulkey Meyer, Commission Secretary, wrote in an email on March 16 "we don't have existing records that match your request." [see appendix 3]

She told the Sunshine Ordinance Task Force Complaint Committee on June 21 "we sent records that we had. We do not have anything else to say."

The Adult Probation Office

The Adult Probation Department responded to a request for MCO and CODB figures with “There are no Responsive Records for your request.” [see appendix 4]

In an email on January 25, Elisa Baeza, Senior Administrative Analyst, said that “in FY 2020-2021, SFAPD received \$11,897 for MCO, and \$80,189 for CODB. SFAPD does not have a breakdown of where these amounts go by agency.” [see appendix 4]

At a Sunshine Ordinance Task Force Complaint Committee meeting on May 17, Cristel Tullock, chief probation officer for APD, become combative in questioning the motivation of the information request. “Are you complaining that CBOs are not getting funding? On whose behalf are you asking for this information? What are you trying to prove?,” Turlock said.

“What is being requested cannot be aggregated and generated as a report,” Turlock further said. She also laid responsibility for funding allocations on the Controller. “The Controller’s Office manages all of the agencies,” Turlock said.

Confusion Related Problems

There were some departments that did not allocate funding to nonprofits because they were confused about how the MCO is implemented – and which workers are included.

Some did not understand the Controller's directive to include wage raises for those above the minimum rate up to \$22.50 per hour.

These departments included the Sheriff's Office, the Department on the Status of Women and the Art Commission.

The Sheriff's Department

The Sheriff's Office responded that it "has no responsive records because no such records exist. The Minimum Compensation Ordinance ("MCO") applies if an agency pays below the MCO rate. The Sheriff's Office does not pay below the MCO rate, and does not set nor create MCO allocations." [see appendix 6]

There was an ongoing confusion by the Sheriff's Office in their responses that the MCO applied to city employees or civil servants, while it actually applies to non-public-sector employees of city contractors.

The Controller's Office memo "MCO: Summary of FY19-20 Allocations to Nonprofit Suppliers" shows \$9,380 allocated to the Sheriff's Office for Community Works West and \$7,990 for San Francisco Conservation Corps.

The allocation set by the Controller's Office included funding for the direct costs of raising wages to the new minimum rate but also for wage increases for other employees already earning above the minimum rate up to \$22.50 per hour, which the Controller's Office calls "wage compaction." Alison Lambert, Legal Assistant in the Office of the Sheriff, told the Sunshine Ordinance Task Force Complaint Committee on June 21 "we simply do not have all the records."

The Department on the Status of Women

The Department on the Status of Women did not realize that the funding included raises for workers above the minimum rate.

Joseph Macaluso, deputy director at the Department on the Status of Women, wrote “please note that DOSW is not in possession of a record for MCO for FY 20-21 as per your request, noting that all contracts throughout city grants program line items have listed salaries at or above the MCO (as confirmed by DOSW at time of contract drafting as well as an additional manual check performed earlier this year), which negated the need to seek any additional funding and thus any corresponding calculations or amounts. As such, no record exists for MCO amounts for FY20-21.” [see appendix 7]

In response to an information request, the Controller’s Office said that the Department on the Status of Women was allocated \$46,420 in FY 2020-2021 to provide to nonprofits for wage increases [see appendix 8].

The Art Commission

The Art Commission does not keep records of CODB allocations. The Art Commission also displays confusion about the difference between MCO and CODB.

An email from Sally Ma in the Mayor's Office on January 19, 2021, said "ART's allocation of MCO funds from the \$1.5M is \$1,442." [appendix 9a] Jaren Bonillo of the Art Commission asks in a January 29, 2021, email to Kevin Quan "please advise on how best to administer AAACC's COBD [sic] allocation of \$1,442." [appendix 9b]

Because of the Art Commission's lack of understanding that it is their responsibility to calculate allocations to nonprofits, only the African American Art and Culture Complex receives MCO allocations from the Art Commission while other cultural centers go starving, even after Art Commission was advised by the Controller's Office to provide MCO allocations to the other cultural centers.

Molly Barrons, compliance officer for the SF Arts Commission wrote in a January 29, 2021, email "I am wondering how we could make the MCO funds available to all the Cultural Centers? And/or if the controller's office is going to release another application so that all of the Centers could apply now or in the future? It seems a little skewed that only the folks that applied 2 years ago would be eligible." [see appendix 10]

The Art Commission (Cont.)

In response, Laura Marshall of the Controller's Office wrote in a March 1, 2021, email "I want to remind you that the MCO applies to all grantees that meet the parameters of the ordinance, even if they didn't apply for supplemental funding through the application process we conducted in 2019. It will be up to ART to ensure the amount allocated by the Mayor's Office covers all MCO-related cost increases needed across MCO-eligible contracts, even if they didn't apply for supplemental funding in 2019. The amount allocated is a proxy using that application process but does not define what each contractor needs (meaning you may not actually give it all to AAACC if other contractors in your portfolio also have MCO costs). You should look at the contracts to determine whether there are any employees across your portfolio earning \$16.50 and requiring a raise to \$17.05." [see appendix 11]

The Office of Economic and Workforce Development

The Office of Economic and Workforce Development has an opaque process of record keeping that makes it difficult to ascertain whether nonprofits are receiving a funding increase that correlates to the percentage of the MCO or CODB.

“In FY 19-20 and FY 20-21, OEWD annually negotiated with nonprofit providers to ensure they had sufficient funding to comply with the associated cost of doing business. The increases related to the cost of doing business are negotiated through the cost per related to deliverables and outcomes.”
[appendix 12]

Problems with Partial Funding

While in meetings with the Mayor's Budget Office, the Budget Director has stated that their policy is that non-General Fund departments should find alternative sources of funding to provide CODB increases, we found departments such as the PUC and SF Environment did not do this.

There are other departments such as SF Works and the District Attorney's Office that apply the CODB increase only to the General Fund part of a nonprofit's budget, and not the other parts that are grants, federal or state funds that are passed through to the department.

We have not seen a clear directive to departments stating that they should find alternative sources of funding to augment the non-General Fund portions of budgets to nonprofits.

The Department of the Environment

Joseph Salem of SF Environment responded to an information request stating “As for cost-of-doing-business (CODB), the guidance states the following: ‘further, the adopted FY 2020-21 budget included \$12.6 million for a one-time 3% CODB increase for General Fund non-profit contracts. In order to determine your department’s share of that appropriation, please provide our office with your department’s base FY 2020-21 General Fund contract amount by Thursday, January 21st.’ Because of this guidance, we did not provide any information on our General Fund contracts as we had none. Further, we do not have the discretionary budget to cover costs of that nature.” [see appendix 13]

The Department of Public Works

The Department of Public Works (DPW) applied the FY 21-22 CODB increase to General Fund community-based organizations (CBO) agreements only. [see appendix 14]

The Department of Public Works calculated CODB increases for FY 2020-2021 by program, without allocations to specific nonprofits [see appendix 5].

The Human Services Agency and The District Attorney's Office

The Human Services Agency (HSA) did not apply CODB increases to “pass-through funds,” grants from outside the City that are designated for a specific purpose [see appendix 15].

The District Attorney's Office (DAT) does not provide CODB adjustments for Non-General fund sources to CBOs, only to the General Fund portion of annual grants to CBOs. [see appendix 16].

The Department of Building Inspection

The Controller's Office determined an allocation of \$28,660 to the Department of Building Inspection for MCO increases for six nonprofits in FY 2019-20 with the understanding that non-general fund departments were asked to find the money in their own budgets instead of receiving an additional allocation.

The funding was not loaded into the department's budget because they indicated it was not needed [see appendix 17].

The department provided \$4,608 to one organization and the other organizations had to cover the MCO increase with their existing funds [see appendix 18].

The department did not find additional money in its budget, the nonprofits were required to find additional funding in their budgets.

Problems with Multi-Year Contracts

There are departments that do not provide a CODB increase in the first year of a multi-year contract, even if it is with an organization that had the contract the previous year.

DPW did not provide CODB increases to CBOs that had new contracts issued even if they were involved with a program the previous year, nor to CBOs that were not new to DPW but were new to a program [see appendix 19].

The Mayor's Office of Housing and Community Development (MOHCD) only provides a CODB increase in the second year of a contract. MOHCD did a Request For Proposals (RFP) for most of their grants for FY20-21 [see appendix 20], then as part of a racial equity effort, did a RFP for most of their grants again for FY21-22, when those organizations would have been allocated a CODB increase [see appendix 21].

Conclusion

When compared to the allocations to each nonprofit estimated by the Controller's Office for MCO wage increases for FY 2019-2020, on which figures the allocations to departments were based, departments altogether provided figures for allocations to 226 nonprofits, or 77.7 percent of the 295 nonprofits identified by the Controller's Office as needing funding for MCO increases. These reported figures represent 79.5 percent of the \$6.6 million budgeted for MCO increases.

For CODB increases for FY 2019-2020, assuming that all of the nonprofits should have received some increase, departments in total reported increases for 451 nonprofits, or 62.9 percent of the total 717 nonprofits identified by the Controller's Office as contracting with the City. This works out to 93 percent of the \$16.8 million budgeted.

For MCO increases for FY 2020-2021, all departments reported 164 allocations to nonprofits, or 56.2 percent of 295 nonprofits, assuming that those identified by the Controller's Office to need funding in FY 2019-2020 would also need funding in FY 2020-2021. These reported figures accounted for 90 percent of the \$2.125 million budgeted.

For CODB increases for FY 2020-2021, departments reported funding to 403 nonprofits, or 56 percent of the total number of 717 nonprofits, and 12 percent over the allocated budget of \$12.6 million.

For FY 2021-2022, funding for MCO and CODB increases was lumped together. Altogether, departments reported 416 allocations to nonprofits, or 58 percent of the potential number of 717 nonprofits that should have received funding, assuming that all of the nonprofits identified by the Controller's Office should have received an increase. This amounts to 90 percent of the \$19.4 million budgeted.

Due to a lack of transparency in the allocation process by some departments, it is unclear whether funding is being allocated to all eligible nonprofit organizations and whether the amount being budgeted is adequate for providing funds to every nonprofit.

Cc: San Francisco Living Wage <sfivingwage@gmail.com>

Wed, May 25, 2022 at 12:47 PM

Hi Manush,

Thank you for your inquiry. The timeline of fund allocation to nonprofits varies contract by contract, depending on grant cycle and practice of each granting agency. However, it is important to note when contracts are amended or issued to distribute funds, our finance system will only have the information about the total funds allocated to each contract and would not be able to provide the specific breakdown, such as CODB increase, by contract, as other factors can affect the grant amount received by non-profits by each contract.

Thank you very much.

The Office of City Administrator

Cc: HSHSunshine <HSHSunshine@sfgov.org>

Dear Mr. Kramer,

This email is a follow up to our phone conversation of a few weeks ago. As I mentioned in our call, our staff was scheduled to convene to review your request regarding HSH's allocation of the FY2021-22 Cost-of-Doing-Business (CODB) adjustment, intended to cover costs to comply with the City's minimum compensation ordinance. The purpose of this email is to provide you with an update of the responsive documents from HSH.

CODB for FY 2021-22

HSH staff has distributed letters to all non-profit providers who received a CODB funds for FY 2021-22 indicating the net amount of funds allocated to their agreement budgets. You may access these letters via this Box link: <https://dshs.box.com/s/19057jaxa1azt74d4gq3an2iqzk6tc32>

I think you will find these helpful in assessing this year's allocations.

As for MCO figures for this fiscal year, we have provided you what we have and have no additional responsive records. As we have explained in previous communications, HSH and other City departments received additional funding in FY2019 to provide funding to address nonprofit wages for workers earning at or near the MCO level. Since 2019, HSH calculates the impact of the annual increases to the MCO for its grants and contracts to nonprofit providers as part of our proposed budget submitted to the Mayor in February of each year. Depending on the amount of the CODB adjustment provided to HSH, HSH directs its grantees to apply these funds to cover annual increases in the MCO level. **That said, it is the responsibility of each non-profit agency to ensure it is in compliance with the City's MCO ordinance for their workforce and submit grant agreement budgets to HSH that account for these costs.**

FY 2022-23 Budget update

The FY22-23 budget appropriated \$27 million in discretionary General Fund money citywide to

Hi Catherine,

That information is not helpful. Since the MCO amounts seem to be small, maybe you can identify the groups that received MCO increase funding for FY 19-20 and 20-21,, and how much, and then we can assume the remainder is the CODB funding.

Regards,
Karl Kramer

Hi Elisa,

I wonder if there is a misunderstanding. The Controllers Office showed allocations to ADP for MCO increases in past years. Even if there were no funds that ADP allocated to the nonprofits for the MCO increase, the cost-of-doing-business funds are to be allocated to all organizations regardless of whether they have any workers below the MCO rate.

Regards,

Karl Kramer

Re: Sunshine Ordinance Task Force Complaint No. 22034

Dear Sunshine Ordinance Task Force:

The Sheriff's Office responds to Karl Kramer's email dated May 10, 2022, in which Karl Kramer indicated that he is willing to withdraw the complaint if figures for the MCO allocations can be provided as follows:

The Sheriff's Office has no responsive records because no such records exist. The Minimum Compensation Ordinance ("MCO") applies if an agency pays below the MCO rate. The Sheriff's Office does not pay below the MCO rate, and does not set nor create MCO allocations. The Sheriff's Office refers Karl Kramer and the San Francisco Living Wage Coalition to the Mayor's Office and the Office of Labor Standards Enforcement for MCO allocation information.

The Sheriff's Office will send an email to Karl Kramer and Gizelle Rabi that will include a prompt to update their passwords in GovQA so that they will be able to access their original public records request dated December 24, 2021. We also attach to this email a copy of the original Excel spreadsheet that was provided to Karl Kramer on January 20, 2022.

The Sheriff's Office respectfully requests that Karl Kramer withdraw their complaint, given that the Sheriff's Office provided timely responses and records to the San Francisco Living Wage Coalition's public records request.

Please contact me if you have any questions or if there is any further information you may require.

Sincerely,

A handwritten signature in cursive script that reads "Alison Lambert".

Dear Mr. Kramer,

Please find attached the records DOSW has in its possession as to fulfill your request:

- MCO FY1920 [see MCO Allocation Summary Memo]
- CODB FY 19-20 [see _FY 2019-2020 VAW Grant Funding Proposal]
- CODB FY 20-21 -See FY 20-21 Gender Based Violence Grants]

Please note that DOSW is not in possession of a record for MCO for FY 20-21 as per your request, noting that all contracts through our city grants program line items have listed salaries at or above the MCO (as confirmed by DOSW at time of contract drafting as well as an additional manual check performed earlier this year), which negated the need to seek any additional funding and thus any corresponding calculations or amounts. As such, no record exists for MCO amounts for FY20-21.

Please contact me if you have any questions.

External Message

Public

Dear Mr. Kramer,

You are receiving this message because the Controller's Office has identified and released responsive information related to your public information request. We have completed our review for records.

The allocations in FY 2020-2021 were made in the Mayor's proposed budget. These are the amounts for the requested departments and were based on the allocations for the prior fiscal year:

- **Department of Building Inspection: \$28,660 – It is our understanding that non-general fund departments were asked to address this through their budgets vs. receiving an additional allocation.**
- **Office of Economic and Workforce Development: \$136,670**
- **Department of Status of Women: \$46,420**

For Fiscal Year 2019-20, the amount determined for the Department of Building Inspection was \$28,660. This was ultimately not loaded in the Department's budget as they indicated it was not needed. The MCO allocation process and amounts for that year were communicated in this memo: [Minimum Compensation Ordinance: Summary of FY19-20 Allocations to Nonprofit Suppliers](#).

Please also find links below to online tools including SFOpenBook, DataSF and SFController Reports, where the Public has 24/7 access to City budget, financial, supplier and operating data.

Subject: Guidance for MCO and CODB Implementation

Department Finance Officers:

This message is intended to inform the implementation of the Minimum Compensation Ordinance (MCO) and non-profit cost of doing business (CODB) increase for FY 2020-21.

As you know, the Controller led a process with nonprofit partners in 2019 to estimate the cost of raising the minimum compensation level. Using the data and allocation methodology from the Controller's previous process, the Controller estimates the costs of this year's MCO increase below, based on a partial year start in Fiscal Year 2020-21 and a full year in Fiscal Year 2021-22:

Appendix 9b

To: Quan, Kevin (ART) <kevin.r.quan@sfgov.org>
Cc: Lee, Joanne (ART) <joanne.lee1@sfgov.org>; Bonillo, Jaren (ART) <jaren.bonillo@sfgov.org>
Subject: RE: Guidance for MCO and COBD Implementation

Hi Kevin,
I am happy to talk with Laura, could you forward me the current memo, so I can get a better understanding of how this is being administered?
Thanks
Molly

Subject: RE: Guidance for MCO and COBD Implementation

Dear all,
Confirming that currently, the cultural centers are the only grantees with ongoing grants that support operations, with the exception of some of the multi-year add backs. We would need to research more on what organizations have received add-backs since 2018.

Kevin, please advise on how best to administer AAACC's COBD allocation of \$1,442.

Thanks,
Jaren

Subject: RE: Guidance for MCO and CODB Implementation

Hi All,

I am not sure if the more recent memo would answer my question, as I don't have it, but I am wondering how we could make the MCO funds available to all of the Cultural Centers? And/or if the controller's office is going to release another application so that all of the Centers could apply now or in the future? It seems a little skewed that only the folks that applied 2 years ago would be eligible.

Thanks

Molly

From: Marshall, Laura (CON)
To: Barrons, Molly (ART); Pomrenke, Jeffrey (CON)
Subject: RE: Records request re: MCO and CODB Implementation
Date: Monday, March 01, 2021 9:53:48 AM
Attachments: San Francisco Minimum Compensation Ordinance Application.msg

Molly,

Attached is the original email about the application process. I want to remind you that the MCO applies to all grantees that meet the parameters of the ordinance (listed in this attached email), even if they didn't apply for supplemental funding through the application process we conducted in 2019. It will be up to ART to ensure the amount allocated by the Mayor's Office covers all MCO-related cost increases needed across MCO-eligible contracts, even if they didn't apply for supplemental funding in 2019. The amount allocated is a proxy using that application process but does not define what each contractor needs (meaning you may not actually give it all to AAACC if other contractors in your portfolio also have MCO costs). You should look at the contracts to determine whether there are any employees across your portfolio earning \$16.50 and requiring a raise to \$17.05.

Thanks,

Laura Marshall

Hi All,

We have a recurring records request re: the MCO allocation for AAACC. Can you please provide me with the email that was sent to notify nonprofits about the application, per this memo. Thank you for any and all information that you can provide. I think we have 10 days from today.

Thanks

Molly

Hi Karl,

Again, my apologies for taking so long to get back to you on this. In looking into your request, the documents I have show that the San Francisco Conservation Corps was to receive \$3,900 in FY 2020 (I believe the \$2,850 is referring to the line above ours [ECN] on the document you are likely referencing) :

San Francisco Conservation Corps	ENV	\$3,900
----------------------------------	-----	---------

I do not have any record of receiving these funds. For FY 2021, we were asked to provide a cost center for an allotted \$906, which we did. When I did not see the amount in the cost center I provided I assumed we did not receive the funding. In researching this issue I realized that they did, in fact, provide the funding, but they put it in a different, restricted cost center. I will work with the Controller's Office to resolve this.

As for cost-of-doing-business (CODB), the guidance states the following:

"Further, the adopted FY 2020-21 budget included \$12.6 million for a one-time 3% CODB increase for General Fund non-profit contracts. In order to determine your department's share of that appropriation, please provide our office with your department's base FY 2020-21 General Fund contract amount by Thursday, January 21st"

Because of this guidance, we did not provide any information on our General Fund contracts as we had none. Further, we do not have the discretionary budget to cover costs of that nature. If Ashley said that then I'm afraid she is mistaken. The Department of the Environment is a totally unique department within the City. Our funding comes from three sources: Grants, Services of other City Departments (IDS Work Orders), and Solid Waste Impound. Grants and IDS Work Orders are tied dollar-for-dollar to specific deliverables and cannot be used for any other purpose. We do not have the ability to take funds from one area of a grant or work order and apply it to the CODB. It would constitute a breach of our Agreements. Our only other funding source is the Solid Waste Impound Fund and that funding is highly restricted and cannot simply be used for a purpose like this.

While I know we have discussed this previously, I would be happy to speak with you regarding this issue at your earliest convenience.

Thanks,

To: Manush Mirzada <manush.mirzada@sjsu.edu>

Cc: San Francisco Living Wage <sfivingwage@gmail.com>, "HSASunshine, (HSA) (DSS)" <hsasunshine@sfgov.org>

As for our understanding...

The City is providing a 3% **Cost of Doing Business (CODB)** increase to non-profit organizations for the FY 21-22.

The CODB funds will be applied to the following costs contained in the budgets of each Grant Agreement:

- Salaries and associated benefits
- Operational costs excluding direct client assistance dollars, capital equipment, or capital improvement costs funded by the department.
- Indirect costs
- General funds and leveraged state and federal funds.

The CODB will not be applied to pass-through funds, new programs, or add-backs that were made effective during FY 21/22.

Please let me know if this is what you are seeking or clarify further for our understanding.

Thanks.

Manush,

I am not aware of any directive by the Mayor's Office that requires Departments to provide CODB adjustments for Non-General Fund sources to CBO's. The Department only provides CODB adjustments on the General Fund portion for annual grants to CBO's. This methodology is being applied to the 2021-22 FY.

Appendix 17

for records.

The allocations in FY 2020-2021 were made in the Mayor's proposed budget. These are the amounts for the requested departments and were based on the allocations for the prior fiscal year:

- **Department of Building Inspection: \$28,660 – It is our understanding that non-general fund departments were asked to address this through their budgets vs. receiving an additional allocation.**
- **Office of Economic and Workforce Development: \$136,670**
- **Department of Status of Women: \$46,420**

For Fiscal Year 2019-20, the amount determined for the Department of Building Inspection was \$28,660. This was ultimately not loaded in the Department's budget as they indicated it was not needed. The MCO allocation process and amounts for that year were communicated in this memo: *Minimum Compensation Ordinance: Summary of FY19-20 Allocations to Nonprofit Suppliers.*

 External Message 

Requester + Staff

Dear Karl Kramer,

In FY 19-20, the MCO was increased for the Community Youth Center of SF as their budgeted contract required additional funding for the MCO increase. However, the MCO increase for the remaining contracts was covered with existing funds in the nonprofit contracts and did not require additional funding.

In FY 20-21, the MCO increase was covered with the existing funds in the nonprofit contracts and did not require additional funding.

April 18, 2022, 2:01 pm by Ashly Sowell (Staff)

 **External Message** 

Requester + Staff

Hi Patrick, The information that you sent is incomplete. For FY2019-20 MCO Increases, it only lists \$4,608 for Community Youth Center of SF. The Office of the Controller's report on MCO: Summary of FY19-20 allocations to Nonprofit Suppliers includes \$7,530 for Chinatown Community Development Center, \$11,240 for Tenderloin Housing Clinic, \$570 for SF Study Center, \$2,650 for Dolores Street Community Services, and \$1,990 for Chinese Progressive Association. We again request the MCO increases for FY2020-21. Regards, Karl Kramer Campaign Co-director

Subject: RE: CODB Transfer for FY21-22 CBO Contracts

Thanks Anna. Can you help us understand the "new" and if eligible direction? Here's some details regarding two of the DPW programs.

Pit Stop: Pit Stop Program is a continuing program, however all CBO's had new contracts issued 7/1/21. However, 3 of the 4 CBO's involved with the program were involved in FY21 while one CBO is new as of FY22.

- Are the three CBO's who had been involved in FY21 not eligible due to all having new agreements?
- Is the one CBO provider that is new to the program and new agreement in FY22 not eligible?

TL Clean: There was a two CBO's involved.

- The CBO active in FY21, ended services 8/31/21. Is a retroactive 3% CODB applicable? There is no current agreement to apply this.
- The CBO currently providing services, is not new to DPW but is new to the TL Clean Program and starting with new agreement on 11/15/21. Is this provider not eligible due to new agreement?

Thank you,

Devin Macaulay

Dear Mr. Kramer:

Our CFO responds that:

This is mostly correct, except MOHCD RFP'd most CD grants again for the FY21-22 grant year, as part of our racial equity efforts. Almost all of our CD CBOs will be eligible for CODB in FY22-23.

MEMORANDUM

TO: Ben Rosenfield, City Controller, Office of the Controller
Anna Duning, Acting Budget Director, Mayor's Office of Public Policy and Finance
Tom Paulino, Liaison to the Board of Supervisors, Mayor's Office

FROM: Brent Jalipa, Assistant Clerk, Budget and Finance Committee

DATE: May 1, 2023

SUBJECT: PROPOSED ORDINANCE INTRODUCED

The Board of Supervisors' Budget and Finance Committee has received the following proposed Ordinance, introduced by Supervisor Hillary Ronen:

File No. 230483

Ordinance amending the Administrative Code to require the Controller to prepare an initial base budget to guide each City agency in preparation of its proposed two-year budget; to provide that these base budgets must include anticipated cost increases in agreements with nonprofit organizations to reflect inflation; and to adopt a City policy that departments will enter into multi-year grants when the need for a grant program will extend beyond a single year.

If you have any comments or reports to be included with the file, please forward them to me at the Board of Supervisors, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

c: Todd Rydstrom, Office of the Controller
Xang Hang, Mayor's Office of Public Policy and Finance
Andres Power, Mayor's Office

Introduction Form
