Auditors' Reports, and Material weakness and significant deficiencies in internal controls

Significant deficiency over financial reporting - ZSFG

Description	Potential Effects	Management Response
2020-001 – Evaluation of Credit Balances	Processes were in place to reconcile negative balances in the Epic electronic health record system, but the adjustments were not reflected in the financial statements in the fiscal year of the underlying transactions.	DPH will review and update its policies and procedures with regards to credit balances to ensure revenues are properly recognized, and financial statements are fairly presented.

Modified opinion and material weakness over compliance for major program - CSA

Description	Potential Effects	Management Response
2020-002 – Period of Performance	Disaster Grants – Public Assistance program (CFDA no. 97.036) Expenditures that were incurred outside of the specified period of performance were claimed for federal reimbursement.	The corrective action includes increased FEMA eligibility training for departments, leveraging information systems, and weekly collaboration meetings between the large departments and the Controller's Office to improve communication about and staff's understanding of the timing of using materials and incurring expenditures.

Unmodified opinions for financial statements and other major programs

FY 2019/20 AUDIT RESULTS

Material weakness in internal controls over financial reporting

Material weakness over financial reporting – SFPUC

Description	Potential Effects	Management Response
2020-001 – Inappropriate Tone at the Top	The matters involving the former GM of SFPUC demonstrated a lack of commitment to integrity and ethical values as set forth in the City's code of conduct.	The Office of the City Attorney and Controller's Office have set forth a series of investigations and audits related to Public Integrity, addressing organizational functions and processes identified in the alleged criminal actions of the individual. SFPUC also has a series of internal assessments related to the investigations, to identify areas requiring further improvements over internal control.
