Certain subsidy programs may also serve children 0 through 12 years of age. Early Learning Scholarship enhanced reimbursement rates are offered to qualified providers who achieve Tier 3 on the QRIS, subject to fund availability.

IV. Communications and Messaging

Grantee will work with closely with OECE to ensure messaging alignment with respect to Grantee's communications with ECE programs, community and government agencies, stakeholders, parents, and other members of the public.

V. Description of Services

Grantee will provide the following <u>Early Care and Education Subsidy Administration</u> services:

- **Case Management:** Grantee will work across its internal departments to provide integrated case management services for target population and other subsidy eligible families to help them achieve their goals.
- **Fiscal Leveraging:** Grantee will balance family choice and fiscal leveraging. Grantee will counsel families on all applicable subsidized care options, emphasizing the importance of quality and at certification/recertification meetings, Grantee will screen families for state/federal subsidies to maximize the use of those funds to support families, whenever possible.
- **Continuity of Care** is a key component of the Office of Early Care & Education's design of programs and policies that support families' and children's consistent engagement in quality early learning experiences. If a family loses a state or federal subsidy, Grantee will work with OECE and its other Integrated Services Grantee to ensure the child is considered for an ELS-Bridge subsidy. Families will be served by the same Subsidy Specialist to ensure seamless services. Grantee will assist in tracking the reasons families lose subsidy eligibility, with increased attention on those who fall out of eligibility at recertification.
- Streamlining Services: Grantee will continue to streamline all aspects of subsidy system administration and service delivery, with a focus on improving the experience for families and child care providers.

Need and eligibility

The process of determining need and eligibility in the ELS program will be mainly carried out by the Integrated Services Agencies' Family Specialists and/or Homeless Case Management Contractor (currently Compass Family Services). The Wu Yee Family Specialist position will share professional characteristics and core training with the Specialists in the Wu Yee R&R program in order to ensure a seamless approach across the elements. The Family Specialists will work directly with families to evaluate their eligibility for services. This process begins with an intake interview and needs assessment, using the same Initial Family Engagement approach included in R&R, Head Start and the FRC. The Initial Family Engagement tool will be adopted and added on to for the needs of ELS eligibility determination and administration, with an eye to maintaining the principles of the Head Start Parent, Family and Community Engagement Framework in the family approach.

The intake interview and assessment will focus on determining if families are eligible for ELS and are in the current target population. The intake process, whether enrolling new families or during re-certification, will also be used as a point to ensure leveraging of federal and state funding sources. To ensure the maximization of state and federal funds, Family Specialists will determine family eligibility using CalWIN Light and other data systems to support the family in applying for such programs. These federal or state programs will include CalWORKs, Head Start/Early Head Start and Title 5. Specialists will continue to support families through the application process, ensuring continuity of care.

In addition, family eligibility will be re-determined by the Specialists according to OECE's programmatic standards. Through work with the CalWORKs subsidy administrator (currently Children's Council of San Francisco) which uses the CC3 database, Wu Yee will work collaboratively to on an appropriate database interface for the transfer families across programs, addressing need and eligibility.

The Family Specialist will counsel and assist families in locating child care services, provide appropriate and timely support services to families and offer education on community resources. As part of this counseling and support to the target population families, the Specialist will ensure that families are supported in selecting a qualified provider, whether center-based or family child care, per the OECE provider qualification process. The Specialists will be focused on working with and enrolling families from the new San Francisco waitlist.

Engage with families and providers

The Family Specialists work individually with families to assist them in making child care arrangements, including supporting them when needed to remain in continuous care from birth to five years of age. In order to ensure quality child care counseling services. provided to families, Family Specialists will continue to participate in extensive crosstraining to enhance their knowledge of the Family Child Care Quality Network and the quality frame driving the ELS. Specialists will educate parents with consumer information regarding the criteria required of providers to become part of such programs. Family Specialists maintain a caseload of families who are accessing ELS, therefore families have a consistent, reliable relationship to support their child care needs. Additionally, through this relationship, Family Specialists will engage in other support activities to encourage parent-child relationship and engagement with early care and education programming. An example of such activities will be through regular emails sent to families (weekly or semi-monthly) with opportunities available in their community such as playgroups, workshops, parent or community events and articles on child development. These opportunities will support parent education and knowledge of child development, as well as increase parent knowledge and utilization of resources in their community. To ensure ongoing and open communication as part of family engagement and continual program improvement, Wu Yee will create informal and formal opportunities for feedback including a survey form for families to complete, possibly semiannually. This tool will support tracking of the family status, variables such as improvement of family life quality and family activities involving ECE; resources families need in other systems (housing, food, workforce and educational resources) and parental feedback on the program.

The ELS Specialists will use a parallel approach to engaging with providers, in order to facilitate a relationship-based approach that has long term benefits to the providers and the ELS system. Wu Yee will work with OECE to maintain accurate information on providers who are authorized as qualified ELS providers, as a result of the NOFA selection process. Provider engagement will also involve building the capacity of providers to use the Cocoa system and why utilizing the database is beneficial. In

particular, with the ELS program new to all involved, training and support for providers should include supporting them in understanding the policies and procedures associated with this local subsidy approach. Provider requirements will be supported by utilizing the database, freeing up providers to focus more on quality of services. For instance, providers will be able to implement electronic sign in/out methods through Cocoa, which supports adhering to enrollment tracking and payment verification. Provider training will involve necessary supports for integrating these electronic functions in to their program operations. In order to support the administration of ELS funding to families who are homeless and with children with special needs, Wu Yee will need to apply community collaboration skills to partnering with the organizations that carry the contracts to deliver case management and the care to this population. These families receive wrap around supports tailored to their individual situation and their primary relationship is with the staff at these contractors, including Compass and Support for Families. Wu Yee's established partnership with these agencies to fully support families will be used to enhance ELS. For efficiencies in the administration of funding to support their child care, Wu Yee will partner with these providers in the same manner as all providers. Important information about services, enrollment and tracking, as well as the funding needs will come from partners with the homeless case management partners.

In partnership with OECE, Wu Yee will ensure that all providers and families who are receiving local subsidies are aware they are supported by City funds, from OECE, administered by Wu Yee. The branding of materials with the OECE logo is an important step in supporting this understanding. Wu Yee plans to include the OECE logo on checks, receipts, envelopes, family notifications and child care certificates. Wu Yee will create and disseminate information sheets offering detail on the ELS program, with input and final approval by OECE. The language used on these information sheets will be implemented across all family and provider information vehicles, such as websites, apps, training materials and organizational brochures and forms.

Enrollments and payments

Specialists, in partnership with ELS supervisor and manager, are responsible for ensuring data on enrollments is complete and used in tracking and projecting of ELS utilization. Accurate enrollment information is important to the processing of provider payments as well as understanding the utilization needs of the ELS funding stream. Wu Yee will apply current enrollment tracking and projection methods to the full administration of ELS funding; these methods, including understanding family needs, communicating frequently with families and providers regarding needs, openings and eligibility, have resulted in consistently high utilization rates. Projections build on processing enrollment information and comparing it with monthly attendance data. Providers will be paid based on enrollments but attendance information is important to understanding the actual utilization of program slots and how this compares to enrollment projections. Family Specialists will continue to work with families and providers to ensure enrollment is utilizing at least 97% of ELS voucher funding.

All ELS staff at Wu Yee will be involved in providing customer service to providers related to eligibility and payments. Regarding payments, staff will be responsible for the

7 of 16

calculation of payments, transparency in the calculation process and ELS policies, and administration of the funding through checks to providers.

In February 2016, Wu Yee launched the Care Portal, an online repository available through the subsidy database, automating access to and the return of completed attendance sheets, payment calculation, as well as explanations of payments, articulating the source of monthly funding that is proprietary to the agency. In Wu Yee's current subsidy administration, the tracking and check cutting system has been built to delineate each type and source of funding, both within the actual database and on the provider's payment check.

Other Services

- a. As instructed by OECE, Grantee will execute, amend, and terminate Early Learning Scholarship funding agreements.
- b. Ensure there are signed confidentiality agreements for all of its staff and members of collaborating agencies' staff that have access to sensitive and protected information of families.
- c. In the event of a declared emergency, staff may be engaged as part of the city's response to the disaster/declared emergency. Grantee agrees to ensure staff receive city Emergency Response training, to be planned and delivered in coordination with the HSA Emergency Response Coordinator.
- d. Monitor child care subsidy eligibility, authorization, and utilization as prescribed by CDE policies and procedures. Monitor compliance internally utilizing state procedures for compliance monitoring in order to maintain grant performance within state error rate level.

Child Care Resource and Referral

Wu Yee is a California Department of Education funded Resource and Referral program in San Francisco. With funding from the Office of Early Care and Education (OECE) Wu Yee will develop in partnership with OECE and the other citywide Child Care Resource and Referral Agency, Children's Council of San Francisco, coordinated strategies to deliver R&R services through an integrated citywide system that is responsive to providers and families pertaining to the integrated services grant. OECE recognizes Wu Yee's unique organizational culture, agency vision and strategic plan when delivering on this partnership. Wu Yee's R&R service delivery will include consumer education, quality and training, family and provider advocacy, and improved access to child care. By implementing the agency wide family engagement approach, comprehensive family assessment can take place. Therefore, a family that initially reaches out to inquire about child care is walked through a series of sensitive and culturally appropriate questions to identify what other supports they can benefit from, and for what other assistance programs they qualify. Providers also turn to Wu Yee when needing support around child care specific issues, support in addressing needs and gaps, and problem-solving in a team approach to ensure children are receiving the best care possible.

The level of comprehensive services and follow-up families receive is based on the complexity of needs that are initially identified in the family assessment process. Children in the target populations are provided with even more comprehensive counseling and enhanced referral services, and are followed for a specific time period in order to ensure that the coordinated resources and services they are provided with are meeting all identified needs.

Family engagement occurs through various channels, including direct outreach, marketing strategies, and community-wide events. Effective outreach consists of broader community events that are accessible to both participants and community members. Various sites across the city will be used as locations for events intentionally geared toward the target population, including health and family resource fairs for specific target populations. Wu Yee currently offers office hours at agencies serving high need families. This model of community centered hubs will continue to enhance targeted outreach into high need zip codes.

Intake and referral

All families accessing support from Wu Yee complete an initial needs assessment intake that staff use to identify appropriate programs and services to link families with all available resources, including child care, housing, employment assistance, and public benefits. Intake staff engage in a relationship-based discussion with families. This discussion identifies goals, strengths, and needs; all this information is then used to move a family to where their long-term service relationship will be. This discussion also allows staff to determine if families are eligible for multiple early learning programs such as EHS/HS, home visiting, or state funded programs. This system also allows for an expedited process, where families receive the most appropriate resources in the most efficient manner.

Wu Yee will use a relationship-based approach when working with providers who are also in need of information and support. Provider inquiries are tracked just as families are to ensure efficacy and appropriateness of support and information provided. Wu Yee also recognizes capacity building among front-line professionals outside of its own organization is imperative to improve the quality of intake and referral in the community. Therefore, partnering with the other R& R to deliver co-location services housed at the County HSA building will be implemented to best support families in receiving appropriate services, by increasing the capacity of County employees to best process clients through training opportunities and technical assistance. In addition, through the community hub model, Wu Yee will have R&R services physically available in different locations throughout the city supporting the level of quality that families receive when it comes to intake and referral. Wu Yee will strive to build the capacity of numerous community professionals to function like its own R&R staff through professional training and capacity building opportunities for providers and service partners, including EHS/HS staff, Title 5 providers, and possibly WIC staff.

Early Learning SF (ELSF) Grantee will support families' application to and use of Early Learning SF to secure subsidized child care.

Wu Yee Children's Services OECE Integrated Services 17-22

- Grantee will assist families in developing a profile and articulating preferences for care. Grantee will monitor activity within the system, and as families are matched with possible programs, follow-up with families via email, text or phone calls, as appropriate, to support family exploration of options and progress toward enrollment in subsidized child care.
- New target population families assigned to the Grantee will have their ELSF application reviewed and be contacted for any additional information needed in accordance with ELSF Implementation Guidelines.
- When a target population family is first matched through ELSF, the R&R will conduct one follow-up to check in on referral and enrollment process in accordance with the ELSF Implementation Guidelines.
- Grantee will support data integrity by, for example, updating family applications, inactivating applications, and merging duplicates. All family applications assigned to Grantee will be updated at least quarterly. Grantee will also update individual family profiles outside of scheduled process as staff become aware of new information.
- Grantee will work collaboratively with the other R&R agency and OECE to resolve R&R data compatibility or quality issues. The grantee agrees to identify a uniform, mutually agreed upon definition and citywide approach to collecting vacancy data for providers who receive ELS funding. With resources to fund the technology-related costs for this uniform approach, the grantee agrees to implement the mutually agreed upon approach with flexibility for each R&R to maintain their unique culture that is responsive to providers and families.
- Until R&R data sharing between the two R&Rs is achieved, Grantee will run a weekly vacancy report in ELSF that identifies vacancies reported and enter that information as appropriate into NDS R&R database.

Consumer Education

One of the main components of R&R is strong consumer education. Wu Yee will move towards a consumer engagement model which aligns with federal goals in providing families required information on child care services, health and safety, assistance programs, developmental screenings, and quality ratings for providers. This is achieved through a two-way, mutually-respectful process that consists of outreach and awareness, consumer education, co-learning, and sharing of information.

The first step in consumer engagement is to partner with families in learning about child care options and quality factors. Wu Yee staff initiates this process by identifying existing resource and support systems, providing consultation on local early care and education programs, informing parents of subsidized care, assisting families with creating family profiles on the new San Francisco subsidy waitlist, and providing other resources and financial supports. Once referrals for child care are generated, staff will include the names of caregivers and contact information, and quality indicators for

accreditation, group size, staff to child ratio, health and safety, and family involvement. Wu Yee will work with OECE and Children's Council of San Francisco to identify a uniform, mutually agreed upon definition and citywide approach to collecting "realtime" vacancy data. OECE will resource the technology-related costs for this standard uniform approach while allowing both R&R's to maintain their identity as individual service organizations and as state contractors. The focus of the effort will be on a shared R&R system across the two R&R organizations, with agreed upon provider data and data fields shared into a cloud based system for all licensed providers in San Francisco. Wu Yee will obtain consent from providers to share their data with the other R&R and with OECE. Each agency retains all privacy rights related to data and data fields unique to their agency outside the Integrated Services scope of work. Wu Yee clearly states to families that these are only referrals, and not recommendations. Families have access to information regarding procedures for licensing/ monitoring childcare providers and background checks. Wu Yee also makes provider-specific information, including the results of monitoring reports, available to families both in print and electronically.

Wu Yee recognizes that different modalities need to be in place for families to access accurate and up-to-date child care information. Families can access resource and referral information either in-person, on line, or by phone. Wu Yee also houses a database, where providers can provide contact information on their center, current rates, current vacancies, and other pertinent information. An additional aspect of consumer engagement also includes supporting parents in determining eligibility for child care payment assistance, scholarships, and subsidies.

Materials and services used for consumer engagement must be culturally and linguistically appropriate. Materials will be translated into Chinese and Spanish. In addition, Resource and Referral Specialists communicate and engage with parents in their first language, and workshops are also conducted in parents' home language to ensure true understanding of the information shared.

Provider training

Outside of the Integrated Services grant and scope of work, Wu Yee also offers various quality improvement programs to support child care providers, and help those who seek to become providers, in addition to supporting programs to reach Tier 3 in their quality rating. Wu Yee implements the Child Care Provider Training program which offers professional and business development support for family child care providers in San Francisco. This program provides training, technical assistance, one-on-one coaching, consultation, and financial support. These resources are offered across the spectrum of provider needs, including those participants who are seeking to start a new program, providers that are looking to expand current programs, and for programs that seek ongoing quality improvement. Support offered also includes assisting participants in applying for initial licensure to operate a family child care business, and supporting current providers operating a licensed facility with retaining or expanding their businesses and applying for subsidy.

The community hub approach that will be implemented as part of Wu Yee's integrated services allows for a coordination of services in terms of training and technical assistance. Based on the federal goals outlined, providers should have access to trainings that prepare child care staff to work with different age groups, English learners, and children with disabilities. In addition, child care providers will have access to technical assistance to best support quality improvements. This includes a professional development plan, created in partnership with provider support staff. To the extent possible professional development is customized based on multiple sources of evaluative data and conducted in small group cohorts with initialized follow up from content coaches and consultants for fidelity of practice.
