[Urging Expanded Free Access to Property Information Records]

Resolution urging the Assessor-Recorder to eliminate pay-gates and other barriers to public access to all recorded and property information records in the City and County of San Francisco.

WHEREAS, San Francisco, through the Office of the Assessor-Recorder maintains and makes available public records pertaining to all real property in the City and County of San Francisco, and is an important source of public information pertaining to property ownership and other relevant information regarding property in the City and County of San Francisco; and

WHEREAS, Property ownership records serve multiple public purposes, including during emergencies when non-resident property owners need to be contacted, and/or for monitoring the transfer of properties and providing appropriate notice to residential and commercial tenants of changes in ownership, and/or when community members are seeking to contact property owners about persistent blight, and/or when intervention is needed to resolve conflicts between building owners, managers and occupants; and

WHEREAS, Property ownership records also serve a valuable purpose in allowing City officials and members of the public to research the consolidation of property ownership, particularly as private equity firms have become the dominant form of financial backing among the nation's largest owners of multifamily buildings, the top 35 of which,including Blackstone, Greystar, and Lone Star Funds,collectively own roughly a million apartments; and

WHEREAS, Speculation concerning consolidation of property ownership in San Francisco - including the role that absentee property owners and private equity firms play in contributing to approximately 40,000 vacant residential units according to a 2022 Policy

1	Analysis by San Francisco's Budget & Legislative Analyst - has in turn fueled speculation
2	regarding the role of international money-laundering operations in San Francisco's real estate
3	market; and

WHEREAS, As efforts are made to identify assets held by the international billionaire class, particularly in the context of increased pressure to seize or otherwise leverage assets owned by Russian oligarchs during the Russian invasion of sovereign Ukraine, news publications and members of the public have been challenged by pay-gates and other technological barriers to quickly accessing information pertaining to property ownership; and

WHEREAS, California Government Code Section 27366 delegates authority, but does not require, California counties to set fees for copies of official records in an amount necessary to recover the direct and indirect costs of providing the product or service; and

WHEREAS, While California Government Code specifically exempts from online disclosure records including the home address or telephone number of elected or appointed officials, it does not otherwise restrict free and immediate access to recorded property information; and

WHEREAS, Copies of recorded documents, including deeds and liens, can currently be ordered from the Assessor-Recorder's Office online, by drop box, or by mail, at a cost of three dollars per page for pages one through three and 50 cents for each page thereafter, and a certification fee of one dollar per document; and

WHEREAS, Beginning with Fiscal Year 2018-2019, the Assessor-Recorder's Office has been the subject of a major Information Technology initiative to modernize the department's property assessment and tax system, including the design and implementation of a new system to replace the Department's former, obsolete Recorder Information System; and

1	WHEREAS, Building on these recent improvements, the Assessor-Recorder has
2	recently committed to improving upon the Department's public-facing database of public
3	records pertaining to property ownership and other matters of public interest; now, therefore,
4	be it
5	RESOLVED, That the Board of Supervisors urges the Office of the Assessor-Recorder
6	to expand its efforts, along with the Committee on Information Technology, to expeditiously
7	provide immediate and remote digital public access to deeds, liens and other recorded public
8	records, and eliminate costs for viewing said public records to the maximum extent feasible.
