To: Land Use and Transportation Committee and full Board of Supervisors:

I'm strongly supporting the landmark designation of this building in that the Mother's Building at the San Francisco Zoo is the only large-scale New Deal era art project created solely by women. Further, it's an unusual story of women's participation with Works Progress Administration projects.

Thank you.

TO: Land Use and Transportation Committee and full Board of Supervisors

I'm strongly supporting the landmark designation of this building as it's mural is the work of women artists.

Dear Supervisors,

I would like to urge you to approve the initiation for Landmark designation of the "Mother's Building" at the San Francisco Zoo. (Item No 2 on the BOS agenda for April 4, 2022). The landmarking would help with the preservation of this important building in the Western part of San Francisco and delight the memories of many San Franciscans who grew up enjoying visits to the ZOO and the "Mother's Building" as well as create new memories for today's and future generations of young San Franciscans.

Thank you for your consideration.

Sincerely,

Inge S. Horton
