17	The Mixed Use-General (MUG) District is largely comprised of the low-scale,
18	production, distribution, and repair (PDR) uses mixed with housing and small-scale retail. The
19	MUG is designed to maintain and facilitate the growth and expansion of small-scale light

Existing Law

Planning Code Article 8 establishes a number of general and named Mixed Use Districts. Land use controls, development standards, and density controls for each District are outlined in a Zoning Control Table. Specific uses are defined in Section 890.2 through 890.140. Other sections of the Planning Code that are applicable to Mixed Use Districts are listed in Section 899.

Article 7 establishes a number of general and named Neighborhood Commercial (NC) and Neighborhood Commercial Transit (NCT) Districts, and provides land use controls, development standards, and density controls for each District.

Amendments to Current Law

The primary purpose of this ordinance is to reorganize and update Article 8 of the Planning Code. The ordinance revises the Article 8 zoning control tables to match the format of the zoning control tables in other Articles of the Planning Code, and makes technical and substantive amendments to applicable sections in other Articles to update, correct, clarify, and simplify language. The ordinance also deletes outdated text and revises certain controls in Articles 1, 1.2, 1.7, 2, 3, and 7.

All of the proposed amendments – both technical and substantive – are detailed and explained in the Executive Summary prepared for the Planning Commission hearing by Planning Department staff, which will be transmitted to the Board as part of the legislative package. The amendments and definition changes described in the Executive Summary include specific amendments to principally or conditionally permit Arts Activities, Job Training, Public Facility, Social Service and Philanthropic Facility, General and Nighttime Entertainment, and Bar uses in various Neighborhood Commercial, Mixed Use, and other Districts.

Background Information

In 2013, the Planning Department initiated a Code Reorganization Project. The goal of the Project is to restructure the Planning Code so that it is easier to read, understand, and use. Phase 1, enacted in February 2015, consolidated all definitions that are used universally throughout the Code into Section 102 of the Code. It also reorganized Article 2 by modifying zoning control tables to reduce their length and complexity and to be less confusing to the public. Phase 2 of the Code Reorganization Project, enacted in June 2017, reorganized Article 7, updated the format of the Article 7 zoning control tables to match those in Article 2, and made technical and other amendments to various Code sections. The reorganization of Article 8 by this ordinance is the final phase of the Code Reorganization Project.
