Great Highway Alternative

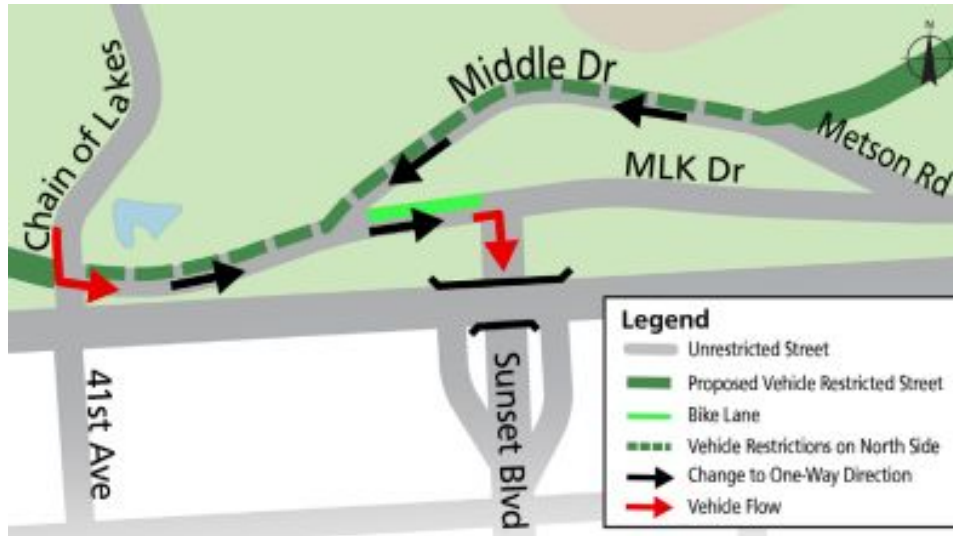

Figure 2 **Concept 2: Promenade/Two-way Roadway**

Concept 2 reduces the vehicle capacity of the Upper Great Highway to two lanes, one in each direction, and using the balance of the right of way for a promenade. This concept was originally introduced in the Ocean Beach Master Plan (2012). For the purposes of traffic safety, Concept 2 would require reconstructing the roadway and removing part of the median between the two sets of lanes to accommodate the following features:

- 12 ft. travel lanes in each direction
- 8 ft. shoulders to allow space for vehicles to pull over in emergencies
- A minimum 2 ft. median buffer between the travel lanes
