Dear Mr. Young:

I am entering this public comment regarding the application of David Pilpel to be appointed or reappointed to the Sunshine Ordinance Task Force.

Many have spoken up about Mr. Pilpel's disruptive behavior at public meetings that put into question his ability to serve in a professional capacity with integrity on any public board. My experience with Mr. Pilpel goes back many years as I would regularly catch him prowling the halls of the Presidio MUNI division and entering the offices of managers where he would pilfer materials on their desks, copy materials, take materials and go through the files in manager's offices. I would have to remove/extricate him physically from our offices as he was not an employee nor authorized to be in our offices, especially after hours. During more recent times, I have found him walking the halls of City Hall, trying doors and appearing to be trying to gain entry to City offices restricted to employees and officials. Apparently, his habits have not changed. Mr. Pilpel is deliberately disruptive, it seems, and clearly is without integrity! He does NOT respect our professional practices nor does he respect the practices required to run an effective City government. He appears to only seek ways to publically disrupt processes and meetings and projects. It is this lack of integrity that concerns me. My experience is personal over several years that I worked at the Presidio Division and I know that several of those MUNI managers are still working as consultants to the MTA so there is corroboration available. I served my City proudly for 37.5 years and still hold to the professional standards of Ethics, the Brown Act, and the Sunshine Ordinance. Mr. Pilpel does not. Please do NOT appoint him to any public board or commission.

Thank you for the opportunity to present my public comment regarding this essential appointment.

Claire Zvanski  
(retired City & County employee)
