RE: File 22064 – Charter amendment regarding retiree supplemental cost of living adjustment and Retirement Board contract with executive director.

Dear Ms. Calvillo,

Should the proposed Charter amendment be approved by the voters, in my opinion, it would have a significant impact on the cost of government. Based on the Retirement System's current actuarial assumptions and policies, the measure would result in expected costs to the City of approximately \$15 million annually for five years, of which \$9 million would be paid from the General Fund.

The current Charter dictates that a portion of the cost of living adjustment (COLA) paid to members of the San Francisco Employee Retirement System (SFERS) that retired before November 1996 are paid only when the pension system is fully funded. The proposed Charter amendment would eliminate this full-funding requirement for these members and their qualified survivors and beneficiaries in future years. In addition, the measure would increase these monthly COLAs, going forward, to account for five prior years when they would have been added to these members base pension payments but for the fully-funded requirement. Any future annual COLA adjustments enabled by the measure would be limited to \$200 per month (or \$2,400 annually) for members whose pensions are less than \$4,167 per month (or \$50,000 annually).

The amendment also allows the Retirement Board to enter into an individual contract with SFERS executive directors hired on or after January 1, 2023. Currently, the Retirement Board must follow terms set out by the Civil Service Commission, the San Francisco Charter and Administrative Code, and the Memorandum of Understanding with the Municipal Executives Association.

Sincerely,

A handwritten signature in cursive script that reads "Janice Levy".
