### Job Description: Health Program Coordinator II – (Viva Delgado)

This position will assist with MMP activities such as contacting and coordinating cross jurisdictional data exchange, locating, recruiting and scheduling participants, and data management. She will manage sampled MMP patients who have moved outside of SF and will be the lead contact with other health departments to determine their policies around contacting, interviewing and conducting a medical record abstraction in their area.

# <u>Job Description</u>: Health Program Coordinator I – TBD

The project coordinator (PC) manages the daily operations of Medical Monitoring Project (MMP), and is responsible for the oversight of MMP in SF. They will be the point of contact to the CDC, will coordinate MMP activities including developing, monitoring and overseeing MMP protocols, and will provide administrative and technical support. The PC will facilitate collaboration between HIV surveillance and MMP. They will act as the main contact for San Francisco medical care providers, assisting in gaining access to medical records for abstraction, contact information for participants, and will be able to reassure MMP sites about security and confidentiality by relating it to the core surveillance guidelines.

They will have direct supervision of four MMP research associates, overseeing the recruitment, interviewing, and medical chart abstraction for the project. The PC will assure that the CDC benchmarks are met and quality assurance on interviews and chart abstraction are conducted. The PC will be responsible for the monitory tokens of appreciation distributed to the MMP participants.

The PC will participate in all CDC site visits, PI/PC meetings, MMP all-site conference calls, and weekly check in with the CDC project officer. The PC will also act as the liaison with the MMP community advisory board and provider advisory board, and report findings to community stakeholders
