TJPA Street Vacation - Highlights

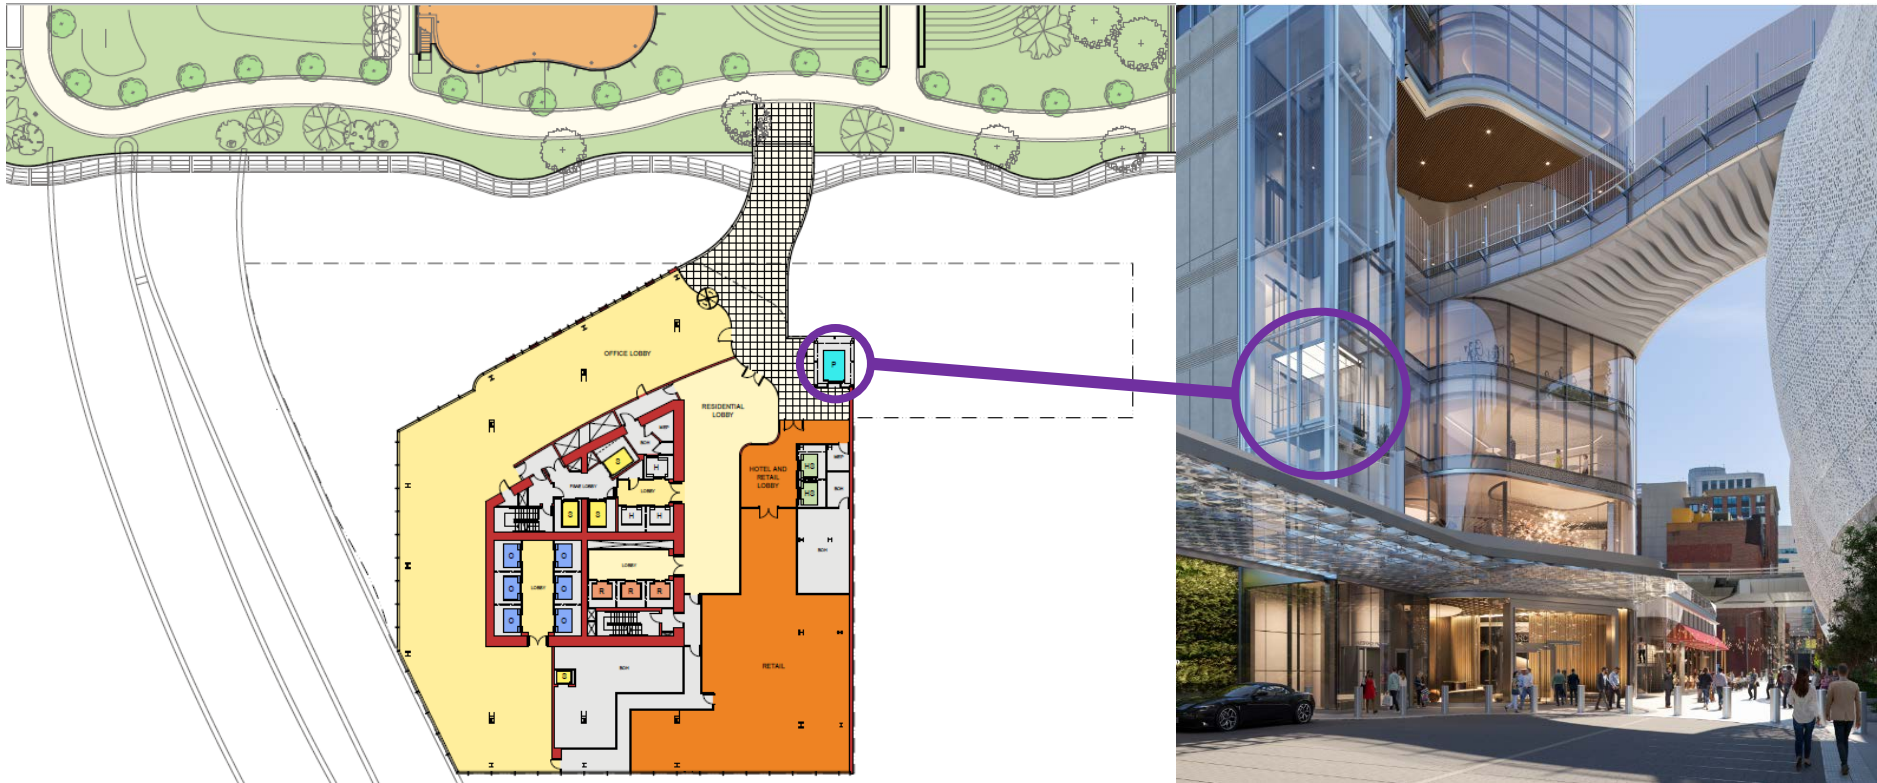

NORTH ELEVATION

WEST ELEVATION

- The TJPA is the property owner and applicant for this Summary Street Vacation
- The purpose of this Ordinance is to vacate a portion of the airspace above Natoma Street to allow for the construction and maintenance of an elevated, publicly accessible pedestrian bridge connecting the Parcel F Project to the Transit Center rooftop park

TJPA Street Vacation - Highlights

- The Transit Center District Plan indicates that the street vacation for a pedestrian bridge would provide significant public benefit
- This pedestrian bridge would facilitate public park access from Natoma Street via Parcel F's public elevator (circled in purple in the image)
- This completes a long standing plan for the Transit Center

Thank You
