## Message to the Rules Committee

From your constituent      Kevin Wong  
Email                              kevinrwong@mac.com  
I am a resident of              District 7

### **Approve the Surveillance Technology Policy for SFPD!!**

Message to the Rules  
Committee

Dear Supervisors Peskin, Chan and Mandelman:

I call on you to support the Surveillance Technology Policy for the Police Department's use of non-City entity surveillance cameras.

The ordinance, as written, balances our rights and public safety. Business owners can opt-in or not. People who own private cameras must consent.

Any claim that the ordinance grants SFPD broad monitoring of our lives, is false. The ordinance applies to very specific, important circumstances, including SFPD officer misconduct. It is case-specific, and protects First Amendment rights and the limits on how long footage can be retained are reasonable. Officer training is extensive, and Chief Scott, who has continuously sought out appropriate criminal justice reforms, has committed to honoring the ordinance as intended.

Please approve the Surveillance Technology Policy for the Police Department's use of non-City entity surveillance cameras.

Thank you.

**From:** [Sola Morrissey](#)

**Date:** Sunday, July 24, 2022 9:37:56 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am deeply concerned about the proposal to allow the SFPD broad access to cameras around San Francisco. I urge you not to allow blanket surveillance of our city and its residents by atheists police.

SFPD has a track record of abuse and discrimination, from illegally spying on BLM activists to misusing the DNA of sexual assault survivors. Handing them an overwhelming surveillance infrastructure will make us less safe.

SFPD's proposal is deeply unpopular. The people of San Francisco don't want it.

In a citywide poll, conducted by Tulchin Research, on SFPD's proposed policy, 60% of likely voters oppose giving SFPD the power to obtain live real-time access to watch and monitor surveillance cameras at private business, in public streets and spaces, and on people's homes.

As representatives of likely voters, you need not support the proposal. At a minimum, the proposal needs to be seriously amended to prevent harm and protect civil rights.

I understand your influence is limited and your job is not easy. This is important. Thank you for protecting us.

Ms. Sola Morrissey  
94110

To SF Supervisors on the Rules Committee

Supervisors: Peskin, Chan, and Mandelman

**RE: Item # 6**

**Administrative Code - Surveillance Technology Policy for Police Department Use of Non-City Entity Surveillance Cameras**

After listening to the meeting last week of the Rules Committee, I grew more concern about this ordinance.

I thought Chief Scotts response to questions was **NOT ADEQUATE**. There are to many areas of gray in this ordinance that make it very **DANGEROUS!**

This technology is NOT the solution.

We all are aware that implementation / interpretation by SFPD in many other instances has caused great harm to people in our communities and the lack of trust. Look at all the lawsuits that the city has paid out because of SFPD! If this is passed it not only violates the First Amendment but will most likely increase law suits.

The Tenderloin was raised in conversation – but we all know that surveillance will not stop there.

I go through the TL at least once a week for the last five years. Since COVID there are more houseless people and desperate people in the TL as well as other parts of the city.

Maybe if there are real solutions some of the drug use etc would lessen.

**Please DO NOT pass this ordinance!!**

Thank you for your time.

Sincerely,

Adrienne Fong – resident in District 2.  
afong@jps.net

July 14, 2022

Honorable London Breed  
Mayor, San Francisco  
1 Dr Carlton B Goodlett Pl #200  
San Francisco, CA 94102

Dear Mayor Breed,

I am writing on behalf of the members of the California Retailers Association in strong support of your sponsored legislation that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crimes. We view this as another tool in the toolbox for retailers and law enforcement to combat retail theft in San Francisco.

Currently, police are barred from accessing or monitoring, even temporarily, live video that is owned or operated by third parties unless there are "exigent circumstances" -- this is defined as circumstances that involve an imminent danger of serious physical injury or death and if this standard is not met, the police cannot access live video even on a temporary basis. This intentional blinding of law enforcement does not make sense and it does not make retail employees or customers safer. I am concerned that under current law, SFPD is barred from accessing any live video to solve or prevent retail crimes except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as mass looting, gun violence, drug dealing, retail theft, and burglaries - many of the things we have witnessed in the city over the past several years. We encourage the Board of Supervisors to consider your sponsored legislation, that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crimes.

I am aware of the discussions around possible amendments to this legislation to remove the ability to monitor private cameras as part of an active criminal investigations. CRA strongly supports the proposed legislation to move forward, as written, without amendments. The original language provides guardrails and transparency to ensure this information is not used for purposes not outlined in the legislation but will quickly become a valuable tool for retail and law enforcement to work together to protect retail employees and customers who live, work and shop in San Francisco.

Retailers have witness organized crime in San Francisco, whether it's mass looting in Union Square, drug dealing rings in the Tenderloin, retail theft in Chinatown or brazen home burglaries on the Westside -- these are all criminal activities that law enforcement can address more effectively if they have access to information that third parties, such as retailers, can provide to help deter and combat criminal activity.

Retailers support the strong guardrails, included in this legislation, to prevent the misuse of this technology including the right of the owner or operator to refuse any request for access, a mandate for written requests for access that are auditable upon demand, training for command level staff as well as any officer who would have access to video, and explicitly barring using video to target anyone for exercising their First Amendment rights.

In addition, we believe this legislation can also allow video footage to be used as evidence to exonerate individuals who may be wrongly accused and help police and prosecutors ensure that they are holding the correct persons responsible.

San Francisco retail employees and consumers want to be safe when shopping in stores, eating in restaurants or using the unique venues that San Francisco is famous for. The California Retailers Association is ready to collaborate with all individuals looking for solutions to retail theft/ORC and we applaud you for this bold step to protect the diverse communities in San Francisco.

Thank you for your leadership on this issue. I look forward to collaborating with you and members of the Board of Supervisors on innovative ways to combat retail theft so we can protect San Francisco's employees, customers and the communities they live and work in.

If you have any questions or would like to discuss in more detail, please do not hesitate to contact me directly at 916/443-1975.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Rachel Michelin', written in a cursive style.

July 15, 2022

San Francisco Board of Supervisors  
1 Dr. Carlton B. Goodlett Place, Room 244  
San Francisco, CA 94102

RE: MMCBD support for ordinance approving the Surveillance Technology Policy for Police Department use of Non-City entity surveillance cameras

Dear Supervisors:

**Please approve the ordinance approving the Surveillance Technology Policy for Police Department Use of Non-City Entity Surveillance Cameras**

Law enforcement officials must be able to make San Francisco safer with enhanced access to third-party video surveillance cameras; including live monitoring, with safeguards that include: the right of the owner or operator of the cameras to refuse any request for access, a mandate for there to be written requests for access that are auditable upon demand, training for command level staff as well as any officer who would have access to video, and explicit prohibitions against using temporary live video access to target anyone for exercising their First Amendment rights.

The downtown core, including Mid Market, is disproportionately affected by illegal activity from organized crime rings which fuels drug dealing, retail theft, stolen goods resale, other property crimes, assaults, and homicides – all of which are prevalent in our District.

Current legislation supports access to recorded video footage to investigate after-the-fact crime incidents, which is reflected in the historical footage requests our District receives to investigate homicides and violent assaults. However, there is clearly a missed opportunity to investigate the more pernicious organized crime around drug dealing and all aspects of property crime, for which the ability to conduct live monitoring would greatly help. This is especially important in the post-pandemic era when our City streets are under siege by organized crime, and when the growing deficit of law enforcement personnel constrains the ability to investigate and deter organized crime.

Sincerely,  
Mid Market Community Benefit District

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing in support of the Surveillance Technology Policy for Police Department Use of Non-City Entity Surveillance Cameras. This legislation is a critical step towards improving safety for small business owners, employees, and all San Franciscans. It strategically uses technological advances to strengthen City services and provide the necessary tools for SFPD to solve our most violent, harmful, and persistent crimes. I support improving and clarifying local laws governing the use of cameras during situations with serious public safety impacts. Our businesses community has suffered incredible financial loss due to organized retail theft, on top of the pandemic economic conditions, and this legislation provides a desperately needed tool for SFPD to better support our merchant corridors and neighborhoods facing critical public safety challenges. San Francisco businesses have storefronts, employees, and customers here and are deeply invested in creating a safer San Francisco.

Please pass this critical public safety legislation.

Sincerely,

David Engerman

**Subject:** Support for ordinance approving the Surveillance Technology Policy for Police Department use of non-City Private Security Cameras

Dear Supervisors,

Please support the legislation for allowing San Francisco Police Department to access live video footage of private (non-City owned) security cameras to deter and prosecute criminal activity, such as: mass looting, gun violence, drug dealing, and burglaries.

With guardrails in place for protecting First Amendment Rights, and training for officers accessing the cameras, the cameras will allow police to deter and prosecute the organized crimes plaguing our City: be it mass looting in Union Square, drug dealing rings in the Tenderloin, retail theft in Chinatown or brazen home burglaries on the Westside.

Cameras such as those currently available through the Mid Market Community Benefit District, and many other CBDs, are an invaluable tool, available now to help make San Francisco safer.

Residents and prospective tenants at Trinity Place in mid-Market lament the crime and lack of safety in the neighborhood, expressing concern about open air drug dealing. Providing SFPD access to already existing tools to help them do their job is an important step in addressing these concerns and making our streets safer for all members of the community.

Thank you for approving the Surveillance Technology Policy ordinance.

Sincerely,

Shadd Newman

Hi San Francisco BOS,

In 2020, jewelry stores, pharmacies and other stores were ransacked by a mob of people overnight. In the past few years, many active crimes happened in Chinatown and the Westside. People's home got invaded while they are at home sleeping. Live video could have helped the police stop the crimes in action, save lives and property.

Currently, the police are barred from accessing or monitoring even temporarily, live video that is owned or operated by third parties unless there are "exigent circumstances" -- this is defined as circumstances that involve an imminent danger of serious physical injury or death.

If this standard is not met, the police cannot access live video even on a temporary basis. This intentional blinding of law enforcement does not make sense and it does not make us safer.

Please support this legislation.

Dear Members of the Board of Supervisors,

I, Leanna Louie, echo the sentiments of my fellow community activist, Marlene Tran. I am writing on behalf of many of our members and concerned residents to strongly urge you to **support Mayor Breed's legislation to install security cameras** to make our San Francisco a safer city.

During my community work to assist our elderly and non-English speaking victims, many of these crimes were not reported because of language barriers and the lack of surveillance cameras to document the assaults and even homicides.

Mayor Breed's proposal, with the support of many concerned San Franciscans, will help to deter some of these crimes and will allow police to use non-City cameras and camera networks during large scale events with public safety concerns for investigations of active misdemeanor and felony violations. Video footage can be used more effectively to aid law enforcement do their investigative work and bring the perpetrators to justice.

We hope you will seriously consider our pleas **to support Mayor Breed's proposal for security cameras** that will help to increase public safety and harmony to our beautiful City.

Many Blessings,

Leanna C. Louie  
SF Resident since 1979

July 2022

Members of the Rules Committee  
City Hall  
1 Goodlett Dr.  
San Francisco, CA 94102

**Re: Support for Video SFPD Surveillance Ordinance**

Dear Honorable Members of the Rules Committee,

The Union Square Alliance is writing to express our **support** for the Video Surveillance Ordinance before you today. We appreciate the Mayor, Supervisor Peskin, and Police Chief's leadership to thoroughly vet this legislation through our city's vigorous channels, like C.O.I.T. and community process.

It is imperative that our police department have access to the tools they need to keep San Franciscans and visitors to our beautiful city safe; access to available resources under narrow circumstances as prescribed in the legislation is vital.

This ordinance is measured and to be used under "exigent circumstances" -- incidents like the terrifying mass looting incident that took place in Union Square last Thanksgiving. Union Square is home to thousands of service sector jobs. Without a sense of security and safety we lose our city's economic core. Which was the outcome of that incident. Essential employees have been afraid to return to work. Union Square also employs **40% of our city's workforce of color**. It is unfair to our community that our work environment be unsafe, especially when we have the tools available to promote safety.

Our police department is woefully understaffed, and they are in need of surgical tools to better assist them with dealing with organized crime, like the mass looting, brazen home burglaries, and the retail theft impacting Chinatown. There are strong guardrails in place that make me feel confident that this ordinance will serve the community well. Not only will we be able to hold people accountable for their bad actions, but we can also use these tools to deter crime and exonerate the innocent. In addition, we can hold everyone, those committing crimes and our public servants accountable through use of technology.

This is a measured and balance step in the right direction, as we continue to chart the most balanced path to safety for both our bodies and our privacy.

**The Union Square Alliance supports this legislation.**

Thank you,

**Marisa Rodriguez**

My name is Nathan Lemkhin and I've been a San Francisco resident for 39 years. I live in the in Inner Sunset neighborhood. I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime. Law enforcement can address criminal activity more effectively if they can see what is going on. Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. We do not want for law enforcement to get information only after the fact, but rather prevent the crimes based on live information. Without police access to that information, our neighborhoods across the city are more vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, burglaries and hate crime attacks that have plagued our city in recent years. The guardrails against the misuse of that technology are very much in place, such as the right of the owners to refuse access, the prohibition to use the information against those exercising their rights, written requests required to access the information, and training for command staff. The information is also to be used to determine innocence or responsibility for crimes, and to monitor police activity. Have a heart, support the citizens who may become victims, and the public from wrongful accusations while diabling criminals. Do the right thing!

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

**Date:** Monday, July 18, 2022 8:58:01 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

It is imperative that you allow the police to use public cameras for identifying criminals. Especially repeat property crimes and assaults. To actually have the evidence and not be able to use it is a detriment to public safety in San Francisco.

Private cameras are sometimes used as citizens volunteer footage that may aid the police. Public cameras are no different in specific circumstances. Businesses small and large have been plundered and they were already reeling from the results of COVID. Both individuals and businesses are leaving the city for other places that make them feel more protected. Robbing tourists has become a lucrative industry. It is a matter of urgency to protect businesses, visitors, and residents alike. Please allow this valuable tool to be used as an aid to the police and prosecutors in making our city safer and stronger.

Thank you for your help.

My name is Howard Lee and I've been a San Francisco resident for 62 years. I live in the Golden Gate Heights, District 7 neighborhood.

Like all San Franciscans, I am frustrated with all the property theft that is going on, This bill has several benefits. This will give law enforcement another tool to fight all types of crime, including violent ones. This will act as a deterrent for criminals, and a big plus One can monitor the actions of law enforcement and overall actions including officers action during physical altercations

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve the crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

Howard Lee  
2194 14th Ave San Francisco, CA 94116

**Subject:** Support mayor's security video legislation

My name is Nathan Lemkhin and I've been a San Francisco resident for 39 years. I live in the in Inner Sunset neighborhood. I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime. Law enforcement can address criminal activity more effectively if they can see what is going on. Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. We do not want for law enforcement to get information only after the fact, but rather prevent the crimes based on live information. Without police access to that information, our neighborhoods across the city are more vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, burglaries and hate crime attacks that have plagued our city in recent years. The guardrails against the misuse of that technology are very much in place, such as the right of the owners to refuse access, the prohibition to use the information against those exercising their rights, written requests required to access the information, and training for command staff. The information is also to be used to determine innocence or responsibility for crimes, and to monitor police activity. Have a heart, support the citizens who may become victims, and the public from wrongful accusations while diabling criminals. Do the right thing!

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

My name is Carla Kozak and I've been a San Francisco resident for 38 years. I live in the in Golden Gate Heights/Inner Sunset neighborhood. I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime. Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years. Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

San Francisco is a beautiful, wonderful and unique city in so many ways. But it has become an increasingly expensive city to live in, and even worse, a difficult one. I am sure there are many people who, like me, are increasingly protective of our property, our neighborhoods, and ourselves, and who are no longer going to several parts of the city we used to enjoy, because it's just not worth eating at a favorite restaurant or shopping at favorite stores anymore. It is rampant crime that is keeping us away. Please do everything in your power to make SF safer and more livable to all of us who love this city.

Thanks,

Carla Kozak  
Golden Gate Heights  
San Francisco

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is Nina Block and I've been a San Francisco resident for 54 years. I live in the in Richmond District. Please seriously reflect on legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime. Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

According to Stop Crime SF the current law is "a loophole in a 2019 law that banned facial recognition cameras" and the proposed measure "is only for traditional video".

Perhaps Mayor Breed's proposed legislation does not reflect that the SFPD has not submitted any proposals for the use of surveillance technology as they were supposed to do according to the 2019 law. Perhaps there are other issues and potential violations of constitutional rights which the proposed legislation, while responding to current serious issues in our city, do not address. So please try to work on and refine Mayor Breed's legislation to help improve public safety in San Francisco in a critical and collaborative manner.

My name is Devon Johnson and I've been a San Francisco resident for 31 years. I live in the in Cow Hollow neighborhood.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

My name is Michael H. Samson— and I've been a San Francisco resident and first moved here in January, 1972. We've lived in our current home in the Outer Richmond since June, 1986.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco. I am tired of twenty thousand vehicles being broken into every year and all we have to show for it is broken glass. I am appalled to go to a store and seeing merchandise being stolen with not consequences. I miss businesses where I used to purchase things closed because of theft. I am tired of seeing people losing their jobs because their employer had to close down because of crime.

I am afraid to walk down the street in the fear that someone one rob or attack me I am tired of my Asian friends and neighbors being attacked while walking down the street.

I am tired or you doing nothing to help the residents of San Francisco live in peace and safety.

Michael H. Samson

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

San Francisco's reputation is suffering - and that means City revenues are suffering as business conferences, tourists, and employers give up hope on the City government to demonstrate competence in public safety. This is one measure to help show competency and a desire to protect citizens from bullies, assaults, and worse.

City employees are also looking to you to demonstrate you care about the safety of City workers who report knives getting pulled, hot coffee splashed on us, and frequent feelings of fear generated by uncertainty about whether the violent talk coming from people on meth is going to make them the next physically assaulted victim

We cannot continue to show such blind indifference to predators harming San Francisco. DO SOMETHING!!!!

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

Thank you,  
Jamie Whitaker  
Resident

My name is Randolph P. Fleming and I've been a San Francisco resident for 20 years. I live in the in Mission Bay neighborhood.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

My name is Eileen Sullivan. I've been a San Francisco resident for 46 years. I live in the in Central Fillmore neighborhood.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

This is a necessary legislation. Studies have proven that the presence of cameras help to deter the kind of crimes that we have been subjected to.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

Eileen Sullivan

My name is mary petrie and I've been a San Francisco resident for 62 years. I live in the in miraloma as do my children and grandchildren. They are all looking to move to safer areas outside SF - so sad.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

My name is Laura Borowski and I've been a San Francisco resident for 8 years. I live in the Western Addition neighborhood.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as assaults, gun violence, burglaries, looting, and drug dealing that have plagued our city in recent years. I am the victim of an assault that happened in my neighborhood, and my assailant has never been arrested despite multiple police reports because police could not access video footage. We don't feel safe in our city anymore, and don't want to feel forced to leave it because of this.

Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

Thank you,

Laura Borowski

My name is Paul Allen. I live in the Corona Heights neighborhood and have been a city resident for 30 years.

I join Stop Crime SF in asking you to support legislation sponsored by Mayor Breed that would give law enforcement limited, temporary authority to use video footage to help deter, investigate, and solve crime. By any measure, and certainly since I have lived here, petty crime and the perception thereof has increased enormously. It's time we do more to stop it.

Under the current law, the San Francisco Police Department is barred from accessing any live video to solve or prevent crime except if there is imminent danger of serious injury or death. This leaves neighborhoods across the city vulnerable to organized criminal activity, such as the mass looting, gun violence, drug dealing, and burglaries that have plagued our city in recent years.

I am a civil libertarian, but we need more tools to halt the City's slide. Please pass Mayor Breed's legislation to help improve public safety in San Francisco.

Thank you.  
Paul Allen

San Francisco, CA 94102

Re: Broad Business Support of File #220606 Surveillance Technology Policy for Police Department Use of Non-City Entity Surveillance Cameras

Dear Supervisors Peskin, Mandelman, Chan,

On behalf of a broad coalition of San Francisco Businesses, we write in support of file #220606, to allow the San Francisco Police Department (SFPD) to temporarily use non-city owned cameras to respond to the violent and organized criminal activity that continue to make employees feel unsafe at their place of work.

Since 2021, San Francisco has seen an increase in robbery, assault, motor vehicle theft and larceny theft. This data comes from the SFPD Crime Dashboard<sup>1</sup> and is only reflective of crimes that are reported - as many small businesses do not have confidence that reporting retail theft will prevent future crimes, we believe that theft in San Francisco is higher than reported. None of these crimes are victimless. Small Business owners have suffered incredible financial losses, on top of the pandemic economic conditions, and their employees have been physically threatened or injured.

**This legislation is a critical step towards improving safety for small business owners, employees, and all San Franciscans. It strategically uses technological advances to strengthen City services and provide the necessary tools for SFPD to solve our most violent, harmful, and persistent crimes.**

San Francisco businesses have storefronts, employees, and customers here and are deeply invested in creating a safe San Francisco. We support improving and clarifying local laws governing the use of cameras during situations with serious public safety impacts. This legislation provides a desperately needed tool for SFPD to better support our merchant corridors and neighborhoods facing critical public safety challenges.

The organizations listed below urge the swift passage of this critical public safety legislation without further amendments. Thank you for your consideration.
