1	[Planning Code	- Electric Vehicle Charging Locations]
2		
3	Ordinance ame	ending the Planning Code to create Electric Vehicle Charging Location
4	and Fleet Char	ging as Automotive Uses, allow conversion of Automotive Service
5	Stations to Ele	ctric Vehicle Charging Locations without Conditional Use authorization
6	and principally	permit conversion of other Automotive Uses to Electric Vehicle
7	Charging Loca	tions, revise zoning control tables to reflect these changes, and require
8	annual reportir	ng by the Planning Department regarding Electric Vehicle Charging
9	Location and F	leet Charging project approvals; affirming the Planning Department's
10	determination	under the California Environmental Quality Act; and making findings of
11	consistency w	ith the General Plan, and the eight priority policies of Planning Code,
12	Section 101.1,	and findings of public necessity, convenience, and welfare under
13	Planning Code	, Section 302.
14 15	NOTE:	Unchanged Code text and uncodified text are in plain Arial font. Additions to Codes are in <u>single-underline italics Times New Roman font</u> . Deletions to Codes are in <u>strikethrough italics Times New Roman font</u> .
16		Board amendment additions are in double-underlined Arial font. Board amendment deletions are in strikethrough Arial font. Asterisks (* * * *) indicate the omission of unchanged Code
17		subsections or parts of tables.
18		
19	Be it orda	ained by the People of the City and County of San Francisco:
20		
21	Section 1	. Findings.
22	(a) Th	ne Planning Department has determined that the actions contemplated in this
23	ordinance comp	oly with the California Environmental Quality Act (California Public Resources
24	Code Sections 2	21000 et seq.). Said determination is on file with the Clerk of the Board of
25		

1	Supervisors in File No and is incorporated herein by reference. The Board affirms this
2	determination.
3	(b) On, the Planning Commission, in Resolution No,
4	adopted findings that the actions contemplated in this ordinance are consistent, on balance,
5	with the City's General Plan and eight priority policies of Planning Code Section 101.1. The
6	Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of
7	the Board of Supervisors in File No, and is incorporated herein by reference.
8	(c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that this
9	ordinance will serve the public necessity, convenience, and welfare for the reasons set forth in
10	Planning Commission Resolution No, and incorporates such reasons by this
11	reference thereto. A copy of said Resolution is on file with the Clerk of the Board of
12	Supervisors in File No, and is incorporated herein by reference.
13	(d) This ordinance is based on the following findings:
14	(1) In 2021, the Intergovernmental Panel on Climate Change issued a report
15	further underscoring the need for urgent action to cut global greenhouse gas emissions
16	(GHGs) in half by 2030 and reach net-zero emissions no later than 2050to prevent the most
17	catastrophic effects of climate change and reduce detrimental impacts to human health and
18	ecosystems.
19	(2) San Francisco, the Bay Area, and the State of California are already
20	suffering the effects of climate change in the form of droughts, air pollution, extreme heat,
21	frequent wildfires, flooding, and other drastic impacts on weather and the environment.
22	(3) To address these urgent challenges, in 2021 Mayor London Breed
23	sponsored legislation to update the City's climate action goals. As a result of Ordinance No.
24	117-21, San Francisco now has climate action goals to reduce emissions 61% below 1990
25	levels by 2030 and reach net-zero emissions by 2040.

1	(4) To achieve net-zero emissions by 2040, the updated climate action goals
2	prioritize the City's Transit First policy and encourage a shift to low-carbon modes of
3	transportation such as taking transit, walking, and biking. All remaining modes of
4	transportation, including private and commercial vehicles, must be electrified to further reduce
5	and eventually eliminate remaining transportation emissions.
6	(5) The City's climate action targets, per Ordinance No. 117-21, include the
7	following transportation and land use goals:
8	(A) By 2030, 80% of trips taken by low-carbon modes such as walking,
9	biking, transit, and shared Electric Vehicles (EVs).
10	(B) By 2030, increase vehicle electrification to at least 25% of all
1	registered private vehicles, and, by 2040, to 100% of all such vehicles.
12	(6) As reported in the latest San Francisco GHG Emissions Inventory, San
13	Francisco's 2019 emissions were 41% below 1990 levels—six years ahead of the previously
14	established goal to reduce emissions 40% by 2025. However, additional efforts must be
15	undertaken to ensure the net-zero commitment is met by 2050.
16	(7) As of 2019, nearly half (47%) of San Francisco's GHG emissions came from
17	the transportation sector, with the vast majority (72%) of those emissions from privately
18	owned cars and trucks. Despite the City's success in reducing overall emissions to date, GHG
19	emissions from the transportation sector have remained relatively stable.
20	(8) In 2019, Mayor Breed released the Electric Vehicle Roadmap ("the
21	Roadmap") to accelerate and advance EV adoption to reduce emissions and associated air
22	pollution health impacts from the transportation sector. To date, EVs represent about 11% of

new light-duty vehicle registrations in San Francisco. The Roadmap sets a 2030 goal of 100%

of new passenger vehicle registrations with no increase in total vehicle registrations per

household and an ambitious goal of 100% emission-free ground transportation by 2040.

23

24

- These goals are aligned with California's targets to increase EV adoption and access to EV charging. In September 2020, Governor Gavin Newsom issued an executive order requiring only zero emission passenger cars to be sold in California by 2035. Additionally, the City's goals are aligned with the Biden Administration's goal that 50% of all new vehicles sold in the United States in 2030 be zero-emission vehicles.
 - (9) The rate of EV adoption is determined in large part by access to charging. The three greatest barriers at this time for drivers to buy EVs are cost of the EVs, lack of charging infrastructure, and the range of EVs, the latter two barriers are interrelated and result in "range anxiety," or the fear that EV owners won't be able to locate a charger or that if they do, someone else will be using it.
 - (10) Range anxiety is also an equity issue. Nearly 70% of San Francisco residents live in multi-unit buildings and most such residents do not have access to off-street parking or home charging. EV charging at home should not be a privilege available only to single-family home residents or those with EV charging available at the workplace. To provide expanded access to EV charging, in June 2021, the California Public Utilities Commission ruled that electrical corporations should prioritize their near-term investments to create charging options to customers without access to home charging.
 - volt), DC fast ("superchargers"), and workplace chargers—are the most efficient and effective solution to meet anticipated demand for EV charging. San Francisco's combination of population density, small size, and resulting high land costs make it the perfect place to install fast-charging plazas that mimic the gas station experience that drivers have come to expect when fueling their vehicles. Fast-charging plazas are integral to San Francisco's developing a comprehensive public charging network. With a robust network of public charging stations, EV owners will be able to access fast charging as needed and close to their homes.

(12) Without this ordinance's amendments of the Planning Code, further air
quality and GHG degradation would occur because the ongoing inconvenience of finding EV
charging stations would result in a low rate of adoption of EVs. Multiple studies have
suggested a correlation between increasing the number of charging stations and higher EV
adoption rates, as summarized in an October 2017 white paper by the International Council
on Clean Transportation (ICCT). In addition, the EV Roadmap identified the expansion of
publicly accessible Level 2 and fast charging infrastructure in San Francisco as a key strategy
to increase EV adoption rates.

- (13) In 2020, the ICCT completed a study on San Francisco's EV charging needs in 2030 and 2040. The ICCT projects that by 2030, more than 170,000 light-duty EVs will be registered in the City. To meet that charging demand, the City must have six times more charging capacity than in 2019. The number of publicly accessible charging stations in San Francisco needs to increase from about 800 in 2019 to 2,000 by 2025, and over 5,000 by 2030, to meet this demand.
- (14) Currently, EV charging is not defined in the Planning Code. As a result, applications to install EV charging projects require an EV service provider (EVSP) and the Planning Department or Commission to work out a permitting pathway, on a case-by-case basis, using Planning Code provisions designed for gas stations and auto service centers. The existing use categories are an imperfect fit for this new use. They impose limitations more appropriate for the facilities they were intended to address—conventional fueling facilities—rather than less-impactful EV charging stations, creating lengthy approval processes and bureaucratic delays that should be avoided for EV charging projects.
- (15) By defining "Electric Vehicle Charging Location" as an "Automotive Use" in the Planning Code and establishing zones in the City in which stand-alone EV charging is permitted, this ordinance will make it easier to convert existing sites with "Automotive Uses" to

1	EV charging plazas or hubs. This will result in a clear approval path for EV charging projects,
2	reducing delays and additional workflow in Planning, and expanding opportunities to deploy
3	publicly accessible EV charging stations within San Francisco. This ordinance will expedite
4	expansion of critical EV charging services, creating new public charging options for San
5	Francisco residents and visitors, thus encouraging the adoption of EVs by a greater share of
6	the population. This in turn will help the City meet its climate action goals to reduce emissions
7	from the transportation sector.
8	
9	Section 2. The Planning Code is hereby amended by revising Sections 102 (including
10	placing new defined terms in alphabetical sequence with existing defined terms), 142, 187.1,
11	202.2, 202.5, 204, 210.1, 210.2, 210.3, 311, 710, 711, and 713, and adding Sections 202.13
12	and 204.6, to read as follows:
13	SEC. 102. DEFINITIONS.
14	* * * *
15	A
16	* * * *
17	Automotive Use. A Commercial Use category that includes Automotive Repair,
18	Ambulance Services, Automobile Sale or Rental, Automotive Service Station, Automotive
19	Wash, Electric Vehicle Charging Location, Fleet Charging, Gas Station, Parcel Delivery Service,
20	Private Parking Garage, Private Parking Lot, Public Parking Garage, Public Parking Lot,
21	Vehicle Storage Garage, Vehicle Storage Lot, and Motor Vehicle Tow Service. All Automotive
22	Uses that have Vehicular Use Areas defined in this Section of the Code shall meet the
23	screening requirements for vehicular use areas in Section 142.
24	

1	Automotive Use, Non-Retail. A subcategory of Automotive Use that includes
2	Ambulance Services, Fleet Charging, Parcel Delivery Service, Private Parking Garage, Private
3	Parking Lot, and Motor Vehicle Tow Service.
4	Automotive Use, Retail. A subcategory of Automotive Use that includes Automotive
5	Repair, Automotive Sale or Rental, Automobile Service Station, Automotive Wash, <i>Electric</i>
6	<u>Vehicle Charging Location</u> , Gas Station, Public Parking Garage, Public Parking Lot, Vehicle
7	Storage Garage, and Vehicle Storage Lot.
8	* * * *
9	E
10	* * * *
11	Electric Vehicle Charging Location. Automotive Use, Retail that provides electricity to
12	<u>electric motor vehicles through more than one or more Electric Vehicle Charging Stations on a retail</u>
13	basis to the general public as a primary use. Electric Vehicle Charging Locations may include up to
14	one-third of the total Electric Vehicle Charging Stations dedicated to Fleet Charging as an
15	accessory use per Section 204.6(a), and may include ancillary services, including but not limited
16	to restrooms, self-service vending, and limited retail amenities primarily for the benefit of customers
17	charging their vehicles.
18	Electric Vehicle Charging Station. An electric vehicle charging space served by an electric
19	vehicle charger or other charging equipment.
20	* * * *
21	F
22	* * * *
23	Fleet Charging. Automotive Use, Non-Retail that provides electricity to electric motor vehicles
24	through one or more Electric Vehicle Charging Stations that are dedicated or reserved for private

1	parties pursuant to contract or other agreement and are not available to the general public. Fleet
2	Charging is not allowed as an accessory use to any other principal use.
3	* * * *
4	SEC. 142. SCREENING AND GREENING OF PARKING AND VEHICULAR USE
5	AREAS.
6	Off-street parking and Vehicular Use Areas adjacent to the public right-of-way shall be
7	screened as provided in this Section 142. Where an existing Automotive Use converts to an Electric
8	Vehicle Charging Location, the requirements of this Section shall not apply.
9	* * * *
10	SEC. 187.1. AUTOMOTIVE SERVICE STATIONS, ELECTRIC VEHICLE CHARGING
11	<u>LOCATIONS,</u> AND GAS STATIONS AS LEGAL NONCONFORMING USES.
12	(a) Continuation as a Nonconforming Use. Notwithstanding any other provision of
13	this Code, an Automotive Service Station or a Gas Station as defined in Section 102 of this
14	Code, located in a Residential district, and having legal nonconforming use status under the
15	provisions of this Code on January 1, 1980, shall be regarded as a legal nonconforming use
16	so long as the station $\underline{either:(1)}$ continues to sell and dispense gasoline and other motor fuels
17	and lubricating fluids directly into motor vehicles, or (2) transitions to an Electric Vehicle Charging
18	<u>Location</u> .
19	* * * *
20	SEC. 202.2. LOCATION AND OPERATING CONDITIONS.
21	* * * *
22	(b) Automotive Uses. The Automotive Uses listed below shall be subject to the
23	corresponding conditions:
24	* * * *

(2) Conditional Use Authorization Required for Establishments that Sell
Beer or Wine with Motor Vehicle Fuel. Any establishment that proposes to retail motor
vehicle fuel and provide retail sale of beer or wine shall require Conditional Use authorization.
The Planning Commission may deny authorization or grant Conditional Use authorization to
an applicant based upon the criteria set forth in Section 303(c) of this Code.
* * *
(D) Definitions. For purposes of Subsection 202.2(b)(1) and (2), the
following definitions shall apply:
(i) "Alcoholic beverages" shall be as defined in California
Business and Professions Code Section 23004;
(ii) "Beer" and "wine" shall be as defined in California Business
and Professions Code Section 23006 and Section 23007, respectively;
(iii) "Motor vehicle fuel" shall mean gasoline, other motor fuels
including electricity at an Electric Vehicle Charging Location, and lubricating oil dispensed directly
into motor vehicles; and
(iv) "Establishment" shall include an arrangement where a lot
containing a business selling motor vehicle fuel provides direct access to another business
selling alcoholic beverages on the same or adjacent lot.
* * * *
(3) Automotive Wash. Cleaning and polishing are required to be conducted
within an enclosed building having no openings, other than fixed windows or exits required by
law located within 50 feet of any R District, and that has an off-street waiting and storage area
outside the building which accommodates at least one-quarter the hourly capacity in vehicles
of the enclosed operations, provided: (1) that incidental noise is reasonably confined to the

premises by adequate soundproofing or other device; and (2) that complete enclosure within a

1	building may be required as a condition of approval, notwithstanding any other provision of
2	this Code; but the foregoing provisions shall not preclude the imposition of any additional
3	conditions pursuant to Section 303 of this Code.
4	(4) Electric Vehicle Charging Location. At Electric Vehicle Charging Locations, the
5	Electric Vehicle Charging Stations, including the charging space for the electric vehicle and all
6	necessary charging equipment and infrastructure, may be located within any setbacks required by the
7	underlying zoning district. Any structures associated with ancillary services, including restrooms or
8	vending machines, must adhere to any underlying zoning setback requirements.
9	(5) Fleet Charging and Electric Vehicle Charging Location Reporting Requirements.
10	Beginning on June 1, 2023, the Planning Department shall submit a report to the Board of Supervisors
11	and the Mayor that includes the number and location of all Electric Vehicle Charging Locations and
12	Fleet Charging locations that have been approved since the ordinance in Board File No.
13	establishing this reporting requirement became effective. The Planning Department's report shall
14	include: the address of each such charging location, number of charging stations at each location,
15	prior use of the property, whether the charging location was principally permitted or conditionally
16	permitted, and what percent of each station is dedicated to Fleet Charging. The Planning Department
17	shall submit this report annually for five years, with the last report to be submitted on June 1, 2027.
18	* * * *
19	SEC. 202.5. CONVERSION OF AUTOMOTIVE SERVICE STATIONS.
20	* * * *
21	(b) Definitions. Whenever used in this Section, unless a different meaning clearly
22	appears from the context:
23	(1) "Automotive Service Station" or "service station" shall mean a retail automotive
24	service use as defined in Section 102 of this Code.
25	

1	(2) "Conversion" shall mean to change the use of a property from a service station
2	use to a different type of use. <u>A change from Automotive Service Station to Electric Vehicle</u>
3	Charging Location is not a change to a different type of use and shall not be a "Conversion" subject to
4	this Section.
5	* * * *
6	SEC. 202.13. CONVERSION OF AUTOMOTIVE USE TO ELECTRIC VEHICLE
7	CHARGING LOCATION.
8	Notwithstanding any other provisions of this Code, any Automotive Use, including Retail or
9	Non-Retail uses, as defined in Section 102, shall be principally permitted to convert to an Electric
10	Vehicle Charging Location, also as defined in Section 102, regardless of the underlying zoning district.
11	Further, such conversion shall not be subject to the notification requirements outlined in Section 311.
12	
13	SEC. 204. ACCESSORY USES, GENERAL.
14	This Section 204 and Sections 204.1 through 204.56, shall regulate Accessory Uses,
15	as defined in Section 102. Any use which does not qualify as an Accessory Use shall be
16	classified as a Principal or Conditional Use, unless it qualifies as a temporary use under
17	Sections 205 through 205.4 of this Code.
18	* * * *
19	SEC. 204.6. FLEET CHARGING NOT PERMITTED AS ACCESSORY USETO
20	ELECTRIC VEHICLE CHARGING LOCATIONS.
21	In all use districts of the City, Fleet Charging is not permitted In order for to be a
22	classified as an Accessory Use to an Electric Vehicle Charging Location, no more than one-third
23	of the Electric Vehicle Charging Stations may be dedicated to Fleet Charging and two-thirds,
24	or more, of the Electric Vehicle Charging Stations shall be available for general public use.

SEC. 311. PERMIT REVIEW PROCEDURES.

(a) **Purpose.** The purpose of this Section 311 is to establish procedures for reviewing building permit applications to determine compatibility of the proposal with the neighborhood and for providing notice to property owners and residents on the site and neighboring the site

- of the proposed project and to interested neighborhood organizations, so that concerns about a project may be identified and resolved during the review of the permit.
- (b) **Applicability.** Except as indicated in this subsection (b), all building permit applications in Residential, NC, NCT, and Eastern Neighborhoods Mixed Use Districts for a change of use; establishment of a Micro Wireless Telecommunications Services Facility; establishment of a Formula Retail Use; demolition, new construction, or alteration of buildings; and the removal of an authorized or unauthorized residential unit, shall be subject to the notification and review procedures required by this Section 311. In addition, with the exception of Grandfathered MCDs converting to Cannabis Retail use pursuant to Section 190(a), all building permit applications that would establish Cannabis Retail or Medical Cannabis Dispensary uses, regardless of zoning district, shall be subject to the notification and review procedures required by this Section 311. Notwithstanding the foregoing or any other requirement of this Section 311, a change of use to a Child Care Facility, as defined in Section 102, shall not be subject to the review requirements of this Section 311. Notwithstanding the foregoing or any other requirement of this Section 311, building permit applications to construct an Accessory Dwelling Unit pursuant to Section 207(c)(6) shall not be subject to the notification or review requirements of this Section 311. Notwithstanding the foregoing or any other requirement of this Section 311, a change of use to a principally permitted use in an NC or NCT District, or in a limited commercial use or a limited corner commercial use, as defined in Sections 186 and 231, respectively, shall not be subject to the review or notice requirements of this Section 311. *Notwithstanding the foregoing or any other* requirement of this Section 311, building permit applications to change any existing Automotive Use to an Electric Vehicle Charging Location shall not be subject to the review or notification requirements of this Section 311.

Section 5. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

Section 6. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the "Note" that appears under the official title of the ordinance. The preceding sentence does not apply to Section 3 of the ordinance, which uses a different methodology for amending the sections of the Municipal Code to which it applies.

APPROVED AS TO FORM: DAVID CHIU, City Attorney <u>/s/ Robb Kapla</u> ROBB KAPLA By: **Deputy City Attorney** n:\legana\as2021\2100505\01613337.docx
