11

# SEC. 206.1. PURPOSE AND FINDINGS.

12 (a) The purpose of the Affordable Housing Bonus Programs is to facilitate the 13 development and construction of affordable housing in San Francisco. Affordable housing is 14 of paramount statewide concern, and the Legislature has declared that local and state governments have a responsibility to use the powers vested in them to facilitate the 15 16 improvement and development of housing to make adequate provision for the housing needs 17 of all economic segments of the community, especially families. The Legislature has found 18 that local governments must encourage the development of a variety of types of housing for 19 all income levels, including multifamily rental housing and assist in the development of 20 adequate housing to meet the needs of low- and moderate-income households.

(b) Affordable housing is an especially paramount concern in San Francisco. San
Francisco has one of the highest housing costs in the nation, but San Francisco's economy
and culture rely on a diverse workforce at all income levels. It is the policy of the City to
enable these workers to afford housing in San Francisco and ensure that they pay a
reasonably proportionate share of their incomes to live in adequate housing and to not have to

commute ever-increasing distances to their jobs. The Association of Bay Area Governments
 determined that San Francisco's share of the Regional Housing Need for January 2015 to
 June 2022 was the provision of 28,870 new housing units, with 6,234 (or 21.6%) as very low,
 4,639 (or 16.1%) as low, and 5,460 (or 18.9%) as moderate income units.

5 (c) The Board of Supervisors, and the voters in San Francisco, have long 6 recognized the need for the production of affordable housing. The voters, in some cases, and 7 the Board in others, have adopted measures to address this need, such as *the* mandatory 8 Inclusionary Affordable Housing Ordinance in Planning Code Section 415; the San Francisco 9 Housing Trust Fund, adopted in 2012, which established a fund to create, support and rehabilitate affordable housing, and set aside \$20 million in its first year, with increasing 10 11 allocations to reach \$50 million a year for affordable housing; the adoption of Proposition K in 12 November 2014, which established as City policy that the City, by 2020, will help construct or 13 rehabilitate at least 30,000 homes, with more than 50% of the housing affordable for middleincome households, and at least 33% as affordable for low- and moderate income 14 15 households; and the multiple programs that rely on Federal, State and local funding sources 16 as identified in the Mayor's Office of Housing and Community Development Comprehensive 17 Plan. These programs enable the City to work towards the voter-mandated affordable housing 18 goals.

(d) Historically, in the United States and San Francisco, affordable housing requires
high levels of public subsidy, including public investment and reliance on public dollars. Costs
to subsidize an affordable housing unit vary greatly depending on a number of factors, such
as household income of the residents, the type of housing, and the cost *to acquireof* land
acquisition. Currently, MOHCD estimates that the level of subsidy for an affordable housing
unit is approximately \$350,000 per unit. Given this high cost per unit, San Francisco can only

25

meet its affordable housing goals through a combination of increased public dollars dedicated
to affordable housing and other tools that do not rely on public money.

(e) Development incentives are a long standing zoning tool that enables cities to
encourage private development projects to provide public benefits including affordable
housing. By offering increased development potential, a project sponsor can offset the
expenses necessary to provide additional public benefits. In 1979, the State of California
adopted the Density Bonus Law, Government Code section 65915 et seq. which requires that
density bonuses and other concessions and incentives be offered to projects that provide a
minimum amount of on-site affordable housing.

In recognition of the City's affordable housing goals, including the need to 10 (f) produce more affordable housing without the need for public subsidies, the Planning 11 12 Department contracted with David Baker Architects and Seifel Consulting to determine a 13 menu of zoning modifications and development bonuses that could offset a private 14 developer's costs of providing various levels of additional on-site affordable housing. These 15 experts analyzed various parcels in San Francisco, to determine the conditions in which a 16 zoning accommodation would be necessary to achieve additional density. The analysis 17 modeled various zoning districts and lot size configurations, consistent with current market 18 conditions and the City's stated policy goals, including to achieve a mix of unit types, including 19 larger units that can accommodate larger households. These reports are on file in Board of 20 Supervisors File No. 160687.

(g) Based on these reports, the Planning Department developed four programs to
 provide options by which developers can include additional affordable units on-site through
 increased density and other zoning or design modifications. These programs are the HOME SF Program, the 100 Percent Affordable Housing Bonus Program, the Analyzed State Density
 Bonus Program and the Individually Requested Bonus Program. *The HOME-SF Program can*

#### 1 <u>also be used by developers who agree to subject the units to the San Francisco Rent Stabilization and</u>

2 Arbitration Ordinance (Chapter 37 of the Administrative Code) ("the Rent Ordinance").

3 (h) The goal of the HOME-SF Program is to increase affordable housing production, especially housing affordable to middle income households. Housing for middle income 4 5 households in San Francisco is necessary to stabilize San Francisco's households and 6 families, ensure income and household diversity in the long term population of San Francisco, 7 and reduce transportation impacts of middle income households working in San Francisco. 8 Middle income households do not traditionally benefit from public subsidies. *The goal of the* 9 HOME-SF Program is also to increase the number of units in San Francisco that will be subject to rent 10 control under San Francisco's Rent Ordinance. The City adopted its Rent Ordinance in 1979, and the 11 Rent Ordinance has been critical in safeguarding tenants from excessive rent increases and evictions 12 without just cause. Rent control serves as an important policy tool to stabilize communities and 13 prevent displacement. (i) The 100 Percent Affordable Housing Bonus Program provides additional 14

- incentives for developers of 100% affordable housing projects, thereby reducing the overallcost of such developments on a per unit basis.
- 17 (i) The Affordable Housing Bonus Program also establishes a clear local process for 18 all projects seeking the density bonuses guaranteed through the State Density Bonus Law. The State Analyzed Program provides an expedited process for projects that comply with a 19 20 pre-determined menu of incentives, concessions and waivers of development standards that 21 the Department has determined can appropriately respond to neighborhood context without causing adverse impacts on public health and safety, and provide affordable units through the 22 23 City's already-established Inclusionary Housing Program. Projects requesting density or concessions, incentives and waivers outside of the City's preferred menu may seek a density 24 bonus consistent with State law in the Individually Requested Density Bonus Program. 25

1 (k) San Francisco's small business community is an integral part of San Francisco's 2 neighborhood commercial corridors, local economy, and rich culture. San Francisco is 3 committed to maintaining small businesses in its neighborhoods. For this reason, the HOME-4 SF Program acknowledges the need for general assistance and support for any business that 5 might be impacted. Developments using the Affordable Housing Bonus Program will generally 6 produce additional commercial spaces which may enhance existing commercial corridors. The 7 Office of Economic and Workforce Development (OEWD), in coordination with the Office of 8 Small Business, currently coordinate on referrals to and deployment of a range of services to 9 small businesses including but not limited to: small business consulting, lease negotiation 10 assistance, small business loans, ADA Certified Access Specialists (CASp) inspection 11 services, legacy business registry, facade improvement assistance, commercial corridor 12 management, grants and assessments, relocation and broker services for production, 13 distribution and repair (PDR) businesses, business permit assistance, and coordination with 14 city agencies.

# SEC. 206.3. HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO PROGRAM.

18 (a) **Purpose**. This Section 206.3 sets forth the HOME-SF Program. The HOME-SF Program or "HOME-SF" provides benefits to project sponsors of housing projects that *either* 19 20 (1) set aside residential units onsite at below market rate rent or sales price in an amount 21 higher than the amount required by the Inclusionary Housing Ordinance, or (2) agree to subject 22 all units in the project, except for units required by the Inclusionary Housing Ordinance, to the San 23 Francisco Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code). The purpose of HOME-SF is to expand the number of below market rate units produced in San 24 Francisco and provide housing opportunities to a wider range of incomes than traditional 25

1 affordable housing programs, such as the City's Inclusionary Affordable Housing Program,

- 2 Planning Code Sections 415 et seq., which typically provide housing only for very low, low or
- 3 moderate income households, *and to expand the number of units in San Francisco that are subject*

4 <u>to rent control</u>. For projects that elect to provide additional on-site below market rate units, <u>The</u>

- 5 *purpose of* HOME-SF also *is to* provide<u>s</u> an alternative method of complying with the on-site
- 6 inclusionary option set forth in Section 415.6. HOME-SF allows market-rate projects to match
- 7 the City's *shared* Proposition K (November 2014) housing goals that 50% of new housing
- 8 constructed or rehabilitated in the City by 2020 be within the reach of working middle class
- 9 San Franciscans, and *that* at least 33% *be* affordable for low and moderate income

10 households, and the Housing Element of the General Plan's finding that rent control has been critical

- 11 *to protecting low- and moderate-income residents from being at risk of eviction and displacement.*
- 12 (b) Applicability. A HOME-SF Project under this Section 206.3 shall be
  13 a project that:
- (1) contains three or more residential units, as defined in Section 102, not
  including any Group Housing as defined in Section 102, efficiency dwelling units with reduced
  square footage defined in Section 318, and Density Bonus Units permitted through this
  Section 206.3, or any other density bonus;
- 18 (2) is located in any zoning district that: (A) is not designated as an RH-1 or RH-2 Zoning District; and (B) establishes a maximum dwelling unit density through a ratio of 19 20 number of units to lot area, including RH-3, RM, RC, C-2, Neighborhood Commercial, Named 21 Neighborhood Commercial, and SoMa Mixed Use Districts; but only if the SoMa Mixed Use District has a density measured by a maximum number of dwelling units per square foot of lot 22 23 area; (C) is not in the North of Market Residential Special Use District, Planning Code Section 24 249.5, until the Affordable Housing Incentive Study is completed at which time the Board will review whether the North of Market Residential Special Use District should continue to be 25

1 excluded from this Program. The Study will explore opportunities to support and encourage 2 the provision of housing at the low, moderate, and middle income range in neighborhoods 3 where density controls have been eliminated. The goal of this analysis is to incentivize increased affordable housing production levels at deeper and wider ranges of AMI and larger 4 5 unit sizes in these areas through 100% affordable housing development as well as below 6 market rate units within market rate developments; (D) is not located within the boundaries of 7 the Northeastern Waterfront Area Plan south of the centerline of Broadway; and (E) is not 8 located on property under the jurisdiction of the Port of San Francisco;

9 (3) is not seeking and receiving a density or development bonus under the
10 provisions of California Government Code Sections 65915 et seq., Planning Code Section
207, Section 124(f), Section 202.2(f), 304, or any other State or local program that provides
12 development bonuses;

(4) includes at least 135% of the Base Density as calculated under Planning
Code Section 206.5;

(5) consists of new construction, and excluding any project that includes an
addition to an existing structure;

(6) complies with the on-site Inclusionary Affordable Housing option set forth in
 Planning Code Section 415.6<u>.; provided however, that</u> <u>If the project elects to provide HOME-SF</u>

19 <u>Units as set forth in subsection (c)(1)(A), the project shall comply with the on-site Inclusionary</u>

20 Affordable Housing option set forth in Planning Code Section 415.6, provided however, that the

21 percentage of affordable units and the required affordable sales price or affordable rents set

forth in Section 415.6(a) shall be as provided in *this* Section 206.3(c)(1)(A), or Section 206.3(f),

23 <u>as applicable</u>;

(7) if any retail use is demolished or removed, does not include a Formula
 Retail use, as defined in Section 303.1, unless the retail use demolished or removed was also

a Formula Retail Use, or was one of the following uses: Gas Stations, Private or Public
Parking Lots, Financial Services, Fringe Financial Services, Self Storage, Motel, Automobile
Sales or Rental, Automotive Wash, Mortuaries, Adult Business, Massage Establishment,
Medical Cannabis Dispensary, and Tobacco Paraphernalia Establishment, as those uses are
defined in Planning Code Section 102;

- 6 (8) if located north of the centerline of Post Street and east of the centerline of
  7 Van Ness Avenue, all otherwise eligible HOME-SF Projects shall only be permitted on:
- 8

(A) lots containing no existing buildings; or

9 (B) lots equal to or greater than 12,500 square feet where existing
10 buildings are developed to less than 20% of the lot's principally permitted buildable gross floor
11 area as determined by height limits, rear yard requirements, and required setbacks; and
12 (9) if the City enacts an ordinance directing the Planning Department to study

the creation of a possible area plan wholly or partially located in Supervisorial District 9,
 HOME-SF Projects shall not be permitted in any area in Supervisorial District 9 listed in the
 ordinance until such time as the City enacts the area plan.

(f) **Temporary provisions**. To facilitate the construction of HOME-SF projects *that* 4 5 elect to include HOME SF Units under subsection (c)(1)(A), and based on information from the 6 inclusionary housing study prepared for the Divisadero and Fillmore Neighborhood 7 Commercial Transit District, in Board of Supervisors File No. 151258, and the Office of the 8 Controller's Inclusionary Housing Working Group final report (February 2016), the HOME-SF 9 program shall include development incentives as specified in this subsection (f) based on the 10 amount and level of affordability provided in this subsection (f). in Section 415 except as otherwise provided in this Section 206.3. All HOME-SF Units must
 be marketed at a price that is at least 20% less than the current market rate for that unit size
 and neighborhood, and MOHCD shall reduce the Area Median Income levels set forth in this

25 Section 206.3 in order to maintain such pricing. As provided for in subsection (e), the Planning

1	Department and MOHCD shall amend the Procedures Manual to provide policies and
2	procedures for the implementation, including monitoring and enforcement, of the HOME-SF
3	Units;

# LEGISLATIVE DIGEST

#### [Planning, Administrative Codes - HOME-SF]

Ordinance amending the Planning Code to allow projects under Housing Opportunities Mean Equity (HOME-SF) to agree to subject new dwelling units to the rent increase limitations of the Rent Ordinance; affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and making findings of public necessity, convenience, and welfare under Planning Code, Section 302.

#### Existing Law

Home Ownership Means Equity – San Francisco (HOME-SF) is one of the density bonus programs in Planning Code Section 206, and allows density bonuses and zoning code modifications for projects that agree to provide inclusionary housing at levels above that required by the Inclusionary Housing Ordinance in Planning Code section 415. Currently under HOME-SF, projects must provide between 20% and 30% of units as on-site affordable units, and in exchange receive form-based density and up to two stories of additional height, as well as modifications to Planning Code requirements such as rear yard, open space, parking and loading.

Generally, under the Costa-Hawkins Rental Housing Act, California Civil Code section 1954.50 *et seq.*, landlords may set the initial and subsequent rental rate upon the vacancy of a rental unit for units constructed after 1995. San Francisco's implementation of Costa-Hawkins is set forth in Administrative Code Section 37, the San Francisco Rent Stabilization and Arbitration Ordinance (the Rent Ordinance). There are exceptions to Costa-Hawkins, including when an owner has agreed by contract with a public entity in consideration for "forms of assistance specified in [the State Density Bonus Law]." Under that exception, in exchange for density bonuses, waivers, and concessions and incentives, a developer can agree to subject newly constructed units to rent control.

#### Amendments to Current Law

This ordinance would expand the HOME-SF program to project sponsors who agree to subject the residential units in the development to rent control under the Rent Ordinance. Instead of providing additional on-site affordable units, projects would comply with the inclusionary housing ordinance, and subject the remaining units to rent control.
