CITY AND COUNTY OF SAN FRANCISCO
DEPARTMENT OF ELECTIONS John Arntz, Director

Honorable Members of the Board of Supervisors
City and County of San Francisco
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, California 94102

Statement of the Results
Consolidated General Election – November 8, 2022

I, John Arntz, Director of Elections, certify that I have canvassed the ballots cast at the Consolidated General Election held on Tuesday, November 8, 2022, in the City and County of San Francisco, in the manner required by Division 15 of the California Elections Code.

I certify that I began the canvass immediately upon the close of the polls on November 8, 2022, and, as a result of the tabulation of all votes recorded, present a complete record entitled "Statement of the Results of the San Francisco Consolidated General Election – November 8, 2022." I also declare that the number of ballots cast in said election was 310,071; therefore, 62.32% of San Francisco's 497,561 registered voters voted in this election.

In accordance with California Elections Code section 15400, I certify that the total number of votes cast for each candidate and for and against each measure is shown in this Statement of the Results and the precinct detail of all votes cast appears in the Statement of the Vote, which is posted on the Department of Elections' website at ***sfelections.org/results*** and is incorporated by reference into this Statement of the Results.

14. **O:** "Additional Parcel Tax for City College."

This Statement of the Results omits the contests for U.S. Representative, Districts 2 and 12, and contests for State Assembly, Districts 12 and 18, since no San Francisco voters live in these districts; therefore, these contests are not included in the attached results tables. The boundary that places U.S. Representative District 2 and State Assembly District 12 within San Francisco extends from the City to a small part of Angel Island. The boundary that places U.S. Representative District 12 and State Assembly District 18 within San Francisco extends to the extreme southwest corner of Alameda Island. Other than these uninhabited Census blocks on the islands attributed to San Francisco, the districts lie entirely within Marin and Alameda Counties, respectively.

For each results table, the candidate or ballot measure position that received the most votes is preceded by an arrow (→). For contests with boundaries that include other counties in addition to San Francisco, the results shown are from San Francisco only; the overall results and outcome may differ.

For this election, all voters used five-card ballots, with the content on each card as follows:

Card 1: Voter-nominated offices of Governor, Lieutenant Governor, Secretary of State, State Controller, State Treasurer, Attorney General, State Insurance Commissioner, Board of Equalization, United States Senator (Full Term), and United States Senator (Partial Term), United States Representative, Member of the State Assembly; nonpartisan offices for Chief Justice of the State Supreme Court, and three contests for Associate Justice of the State Supreme Court.

Card 2: Nonpartisan offices of Presiding Justices for the Court of Appeal, Associate Justices for the State Court of Appeal, Board of Education, Bay Area Rapid Transit Director, Community College Board (Full Term), and Community College Board (Partial Term).

Card 3: City and County offices of the Assessor-Recorder, District Attorney, and Public Defender.

Card 4: State Propositions 1, 26 – 31, and City and County propositions A – C.

Card 5: City and County propositions D – O.

Voting System and Election Transparency
The City's voting system allows for increased election transparency through the posting of images of voted ballots, equipment transaction logs, and other election reports, all of which are posted with the final election results on the Department's website, *sfelections.org.*

Voted ballot images. The City's voting system captures images of each voted ballot cast in an election. This creates a visual history of how ballots were marked. After each election, the Department posts the ballot images on its website, allowing members of the public to view each voted ballot cast in the City. Prior to posting the ballot images, the Department reviews the images and redacts identifying information that voters may have placed on ballot cards.

AuditMark. In addition to the voting system capturing images of voted ballot cards, the system also adds an explanation at the bottom of each ballot image indicating how the voting equipment interpreted and tallied each vote mark. These explanations, or AuditMarks, provide the public with information on how the voting system operates in relation to the recording and reporting of every vote cast in this election. This means that for every oval with a mark inside the voting target, even for partial marks, the voting system adds an explanation to the images of voted ballots of how the system understood and registered the markings within each oval.

Ballot Audit and Review. The Department posts an application that allows the public to sort the ballot images according to precinct, contest, and district. The City is the first jurisdiction in the country to utilize this application, known as "Ballot Audit and Review."

Cast Vote Record. The Department posted a "Cast Vote Record" that lists each vote recorded on each ballot card. The data provided in the Cast Vote Record is captured from the ballots as the ballots are scanned by the voting equipment and before vote tabulation occurs, allowing members of the public to tabulate votes from specific precincts, districts, etc. and compare against the official election results.

SHA-512 Cryptographic Hash Algorithm
The Department of Elections applied a SHA-512 cryptographic function to reports associated with this election to establish the integrity of the results in a verifiable manner. Attachment 2 provides information regarding the SHA-512 hash values for all electronic files associated with the final, certified results reports.

Attachments
Attachment 1 provides a table that lists the votes cast in each contest, and for and against each State and City Proposition.

Attachment 2 is the list of SHA-512 hashes associated with each final election results report and machine audit logs.

Attachment 3 is the report from the manual tallies that the Department conducted on randomly selected polling place, vote-by-mail, and provisional ballots to confirm that the voting equipment operated properly, and accurately counted and reported election results.

In witness whereof, I hereby affix my hand and seal this 1st day of December, 2022.

John Arntz, Director of Elections

NOTE: This Statement of the Results includes counts for all overvotes (which occur when voters mark more than the allowed number of candidates, or, mark both "yes" and "no" for ballot measures) and undervotes (which occur when voters mark fewer than the allowed number of candidates, or, leave blank the voting targets for both "yes" and "no") are included. However, neither overvotes nor undervotes represent valid votes and are not added to the tallies determining whether a candidate was elected or whether a measure was approved.

D. CITY AND COUNTY OFFICES

I certify the results for the following **CITY AND COUNTY OFFICES:**

For contests with more than one candidate, the following tables provide "Round 0" totals which represent how voters marked their ballots before the application of the ranked-choice voting method. Each multi-candidate contest also lists vote totals from "Round 1," which represents the number of first-choice selections after the advancement of later selections that occurs when voters leave the first-choice selection blank or include names of people who are not official, qualified write-in candidates.

For those contests in which no candidate received a majority of votes in Round 0 (District Attorney and Member, Board of Supervisors, District 6), and which required the elimination of candidates and the transfer of votes to remaining candidates, the ranked-choice voting method was applied. For these contests, the totals from the final round — reflecting the totals after all votes from eliminated candidates were transfered to the two remaining candidates with the most votes — are indicated to the right of the Round 1 totals. The number of passes required to reach the final round in which two candidates remain is noted in parentheses.

Results of 1% Post-Election Manual Tallies

Pursuant to state elections law, the San Francisco Department of Elections (Department) is required to conduct a manual tally of all ballots cast in 1% of San Francisco's polling places and 1% of the vote-by-mail ballots cast, and may also manually tally 1% of provisional ballots cast, as part of the Official Canvass of the election. The Department compares the results of the manual tallies to the results reports generated by the voting equipment used to tabulate ballot cards. The purpose of the manual tallies is to verify the accuracy of the voting equipment used in the election. Upon completion of the 1% manual tallies, the Department prepares a report on the results of the manual tallies and includes the report in the certification of the Official Canvass for the election.

The following is a report on the results of the manual tallies of 1% of the polling places, vote-by-mail (VBM), and provisional ballots (PV) cast in the November 8, 2022, Consolidated General Election.

Random Selection of Precincts
On November 18, 2022, the Department conducted a random selection of precincts and batches to identify the ballots to include in the manual tallies in accordance with California Elections Code section 15360.

Five days prior to selecting the precincts and batches for the manual tallies, the Department issued a press release and posted a public notice on its website, *sfelections.org*, and outside its office, announcing the date, time, and place of the random selection of precincts and batches. Additionally, the Department webcast the random selection process and posted a recording of the random selection of ballots on its website.

For the November 8 election, the Department was required to conduct a manual tally of ballots cast in a minimum of five precincts, to represent 1% of San Francisco's 501 polling places included in the election, then 23 batches of VBM ballots to represent 1% of 2,245 batches of VBM ballots cast, and, finally, one PV batch to represent 1% of the 77 batches of PV ballots. State elections law also requires a manual tally of votes cast to be conducted on all contests present in the election.

The random selection was divided into three categories. The first category was for selecting five precincts for ballots cast at the polling places. The second category was for selecting 23 batches (or boxes) of VBM ballots. The third category was for selecting one batch (or box) for the Provisional (PV) ballots.

Using three 10-sided dice, the Department randomly selected the precincts and using four 10-sided dice, randomly selected the VBM batches to be tallied in full. For the random selection of one batch of PV ballots, the Department used two 10-sided dice.

After randomly selecting five precincts of polling place ballots to manually tally all contests appearing on these cards, the Department randomly selected two additional precincts which included contests for Board of Supervisors, Districts 2 and 6, respectively, that did not appear on the ballots from the initial five precincts that were selected. The additional precincts selected were 9202 (for District 2) and 7625 (for District 6). For these precincts, the Department manually tallied only these specific contests. For the PV ballots, the Department also selected an additional four batches to again include certain contests not covered in the initial batches selected. The list of precincts and batches, and contests that were tallied is provided in Part I at the end of this report).

Conducting the 1% Manual Tallies

The 1% manual tallies began on Saturday, November 19, 2022, and were completed on Monday, November 21. The manual tallies were conducted in the Department's warehouse located at Pier 31 on The Embarcadero. The manual tallies were open to public observation both in person and via live streaming on the Department's website at *sfelections.org/live*.

Department personnel worked in four, four-person teams to manually tally votes on polling place ballots, vote-by-mail, and provisional ballots. Each team was assigned one precinct or one batch to count at a time. After all the votes for a contest had been counted, a supervisor verified whether the manual tallies matched the results issued from the voting system. If all the vote counts matched, the team proceeded to the next contest until all the contests on the card had been tallied. If there were any discrepancies between a manual tally and the results reports from the voting system, the Department sought to resolve the basis for the discrepancies and documented the resolutions using Manual Tally Incident forms.

Results of the 1% Manual Tallies

In accordance with the Post-Election Manual Tally Emergency Regulations, a "variance" means any difference between a manual tally and a machine tally, including, but not limited to, differences due to machine malfunction, operator error, or voter error in marking a ballot. Upon completion of the manual tallies associated with ballots cast in San Francisco for the November 8, 2022, Consolidated General Election, the Department found no variances between the manual tallies and the results reports generated by the voting system. The results of the 1% manual tallies confirm that the voting equipment used in the November 8th Election accurately tabulated and reported votes cast for contests appearing on the official ballot.
