Re: In-kind award from Bay Area Young Survivors for renovated seating area with memorial elements at the intersection of Arguello and Conservatory Dr.

Dear San Francisco Recreation and Park Department,

Bay Area Young Survivors (BAYS) is pleased to provide up to \$500,000 in cash and in-kind grant funding for the design and construction of a renovated seating area with memorial elements at the intersection of Arguello and Conservatory Dr. in Golden Gate Park. Our initial project estimate is \$330,000 including \$35,000 for project management services provided by the Recreation and Park Department. In the case of unforeseen cost inflation, we are prepared to donate up to \$500,000 in cash and in-kind grant funding to ensure project completion.

Founded in San Francisco in 2007, BAYS is a support community for young people diagnosed with breast cancer. Inspired by our members with incurable metastatic disease, we sought a small place in Golden Gate Park to emulate the AIDS Memorial Grove, beautify for all, and honor our lost members. We are excited to be able to revitalize a small portion of our treasured San Francisco Parks as a passive social amenity for anyone to relax, enjoy nature, gather, meditate, celebrate, mourn, or heal.

Sincerely,

Monica Andrews
President
Bay Area Young Survivors
