**Subject:** Support for Police Funding Budget Supplemental  
**Date:** Wednesday, February 22, 2023 1:18:14 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I am an owner and resident at 633 Capp Street, San Francisco. I am writing in support of the police funding budget supplemental in order for the police to continue providing services at the level they are currently. After continuously raising the issues about sex work, criminal activity, automobile speeding, loud and obnoxious behaviors occurring at all hours of the day; the police and city finally responded and have added barriers to reduce traffic on our street and I have finally experienced a good night's sleep in as long as I can remember. Currently I feel far more safe and protected by the city and the police and fear should this supplemental funding get denied, me and my wonderful Capp Street neighbors will suffer the same fate we have endured for several years without respite.

Sincerely,  
Avninder Anand

Dear board of supervisors,

My name is Anton Ritzu. I've been living in the Mission for the last 20 years. I'm in support of the police supplemental request and want you to vote in favor. The mission is going through a revival and it needs your support.

Thank you,

Anton Ritzu (635A Capp St)

San Francisco, CA 94122

Dear Supervisors,

We appreciate the opportunity to share our support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

Ensuring San Francisco has clean and safe streets is a top priority as the City begins to regain its momentum and change the narrative that it's an unsafe place to live, visit, and work. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The city cannot afford to lose officers if it wants to properly curtail drug dealing and illegal use of narcotics, and reduce gun violence, homicides, and violent crimes. Sworn staffing levels have fallen precipitously in the last three years and San Francisco is now 331 officers lower than in 2019 and 541 officers below the staffing analysis recommended level.

As the number of officer's declines, the need for overtime increases to provide the same level of service. However, expanded overtime has reaped immediate benefits, including the ability to respond to over 34,000 additional calls for service.

Importantly, this supplemental also will help continue to support SFPD Community Ambassadors. These retired officers are essential to continue to provide foot beat patrol in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

Nany Fullmore  
General Manager, The Clancy Hotel  
299 2<sup>nd</sup> Street, San Francisco, CA 94105

March 7, 2023  
Budget and Finance Committee  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

**As a Union Square homeowner**, I am writing to show my support for Mayor London Breed's \$27 million supplemental fund for invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a **Union Square stakeholder**, I want to show my gratitude for support to date. The recovery of our City is dependent on safety. A fully staffed SFPD will play an important role protecting not only our citizens but also being vital to the health of our economy. We are a critical component of the City's greater economy and rely on our police department to keep all San Franciscans, workers, and tourists safe.

**As a long-standing homeowner in Union Square**, I can validate first-hand the importance of the police presence to provide not only a sense of safety but actual safety as we go to and come back to our homes. Friends are no longer reluctant to meet us in Union Square because of their concerns about safety. It is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental budget will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

Importantly, this supplemental budget will help continue staffing SFPD Community Ambassadors. Due to the unprecedented shortages within the police force, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to pass this supplemental budget so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco. Please help us feel safe in our own neighborhood.

Sincerely,

**Date:** Thursday, March 9, 2023 11:28:58 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

**Subject:** Stop SFPD Giveaways!  
**Date:** Thursday, March 9, 2023 7:45:11 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Aditya Bhumbala and I live/work in District 5. I'm an organizer with DSA SF.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Jesse Stout and I live and work in District 6.

Many San Francisco residents and city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government. It is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

In 2022, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved SFPD's massive \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

SFPD already spends A LOT per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

The recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

San Francisco is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting

police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

Americans already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets.

Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

We ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

Board of Supervisors, please reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Jesse Stout  
District 6 resident

## Message to the Board of Supervisors

From your constituent      L Wong  
  
Email                              renonv87@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

Budget Clerk Brent Jalipa,

My name is Atakan and I live/work in District 7

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is Paul Aguilar and I live in District 9. I am also the chair of the HIV caucus of the Harvey Mountain Democratic LGBTQ Club, a board member of Marty's Place Affordable Housing Corporation, and a person who has been living with HIV and AIDS for the last 35 years.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

I myself have been fighting for funds for long-term survivors to access much needed mental health services in the wake of having survived the worst years of the AIDS pandemic. additionally with the almost 11, 000 folks over the age of 50 who are living with HIV housing and security and food insecurity are number one and number two on their list of needs. How can the city justify this kind of expense when people are going hungry?

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. ## Message to the Board of Supervisors

From your constituent      Justin Truong  
  
Email                              justintruong56@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Budget Clerk Brent Jalipa,

My name is Simone Manganelli and I am a longtime resident and homeowner of District 8.

I am tired of sending this email, week after week, month after month, year after year. Stop giving cops money. Don't give them any more money, and cut their existing money.

Cops don't need more money. Cops should be fired. Cops ROUTINELY lie, murder, and kill San Franciscans. They still use many times the use of force against Black people that they do against white people, even though the Mayor and Police Chief are Black and supposedly care about these disparities. (Spoiler alert: they don't.)

Of major cities, San Francisco is by far the city that devotes more money per capita to cops, who sit around and do nothing, and intentionally try to get the DA booted from office.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets.

Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is Matt and I live/work in District 4.

I am disappointed to see the news that the mayor and many supervisors are planning to increase police funding in San Francisco. I believe we should be reallocating a meaningful amount of money from policing to more positive forms of support for people who need support.

The SFPD is already funded highly per capita and we have high police staffing per capita; however, SFPD is taking longer to respond to calls and has stopped enforcing traffic laws. I do not believe we should reward the SFPD with more money while they are operating as poorly as they are.

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent Elizabeth Clark

Email [swimeclark@gmail.com](mailto:swimeclark@gmail.com)

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Budget Clerk Brent Jalipa,

My name is Terri and I work in District 5,

Money needs to flow toward teachers, sanitation workers, firefighters, bus drivers, nurses, therapists, and other essential workers, not to the overly bloated police budget.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city.

Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Edna and I live/work in District 4. I organize with the Democratic Socialists of America (DSA) San Francisco chapter.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

I have spent the last 3 years really committing to local organizing in San Francisco, in particular around homelessness, and what I have witnessed time and time again is austerity and massive lacks of capacity for every single issue that affects people living and working in San Francisco. A constant lack of resources allocated, while a massive resource pool exists in the police budget. It does not take much investigation to see the result of prioritizing the police budget at the expense of ALL other budgets in the City. It is shameful to see this dynamic play out in San Francisco, similarly to how it plays out with outrageous military spending on the federal level. One thing I read and hear time and time again out of City departments is that SF is considered an example for homelessness policy. If true, that is terrifying. HSH's own recent reporting has provided detailed accounts of the costs it would take to meaningfully decrease and curb ongoing homelessness, and there is no sufficient funding allocated to this effort, yet PLENTY of money to increase the violent SFPD. This rings true in so many key areas of SF's functioning. IT IS UNACCEPTABLE.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

## Message to the Board of Supervisors

From your constituent      Sharon Shea

Email      jersey415@aol.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

**Subject:** Support for ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney  
**Date:** Wednesday, March 8, 2023 1:52:22 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

**Subject:** SUPPORT -budget supplemental to fund police overtime and public safety ambassadors  
**Date:** Wednesday, March 8, 2023 12:31:49 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Budget and Finance Committee Members: Supervisors Connie Chan, Rafael Mandelman, and Asha Safai-

I am writing on behalf of the Chancellor Hotel on Union Square to express our support for Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year.

The recovery of our city is dependent on safety and a fully staffed SFPD which encourages our residents, workers and visitors to come to Union Square and spend money. We cannot recover until people want to be in Union Square and spend their money. Whether it is office staff, shoppers, locals, workers or tourists, they won't go where they don't feel safe, and we will not recover without all of them contributing to our economy.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

Wes Tyler, CHA

**Date:** Wednesday, March 8, 2023 11:47:41 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

March 8, 2023  
Budget and Finance Committee  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing to show my support for supporting Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a **Union Square stakeholder**, I want to show my gratitude for support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy, and rely our police department to keep all San Franciscans, workers, and tourists safe.

I feel that it is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

Importantly, this supplemental will also help continue staffing SFPD Community Ambassadors. Due to these unprecedented shortages, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

Shirley Howard-Johnson

San Francisco District 6 Supervisor Matt Dorsey, a former communications director for the SFPD, said in a text message to Axios that the proposed raises will make law enforcement jobs in San Francisco more attractive during a time when "police recruitment is more competitive than I've seen it at any time in my career."

- It will be hard to solve the city's public safety issues "if we don't solve our police understaffing crisis first," he said.

I'm with Matt on this one.

General email Board Of Suervisors,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

Enough is enough! Porch pirates stealing our packages in broad daylight in Lower Pacific Heights. Homeless people sleeping on our steps. Gunshots in the middle of the night. Cars running every stop sign in our residential neighborhood. and not even slowing down for a "San Francisco stop" anymore. And when you call the police, you're told it's not a priority.

This has to stop. The most important thing that city and county government can and must provide is public safety. By every objective measure you are failing miserably.

You need to get your priorities straight and put the needs of the 800,000 people still living in San Francisco ahead of the 12,000 on whom you're spending over \$1 billion a year across all city departments.

Thank you.

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

**Date:** Tuesday, March 7, 2023 4:56:59 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

Tami Epstein

**Subject:** Supervisor Connie Chan must schedule a hearing on this funding right now  
**Date:** Tuesday, March 7, 2023 4:45:50 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi Board of,

Our movement has been asking City Hall to close open-air drug markets. We have made [progress](#), but **urgent action is needed right now.**

Last week, we mobilized residents like you to pressure Supervisor Connie Chan to schedule a vital hearing on **Mayor Breed's Police Funding Budget Supplemental**, which would allocate \$27 million to the SF Police Department to ensure that they can maintain their current staffing level. **Supervisor Chan failed to schedule the hearing.**

What does this mean for our city? Immediately, there will be a **hiring freeze** affecting 25 neighborhood ambassadors and dozens of police aides. **Ongoing delays will result in further reductions to police officer and ambassador**

**presence on our streets.** This is a threat to lives and livelihoods in San Francisco, and is completely unacceptable at a time when public safety and ending the drug crisis are top priorities for residents. Supervisor Chan is creating instability in our city when we have called for public safety.

**Tell Supervisor Connie Chan that she must schedule the hearing for March 15. Use the link below to send an email directly to her office.**

City Hall Digest

Understanding who your elected officials are, what they stand for, and whether they are producing the results they promised is a vital tenet of a functioning democracy. But keeping up with the twists and turns in City Hall can be time-consuming and complex. We started TogetherSF Action to help everyone better understand how their government works (or doesn't). Every week, we're keeping an eye on what our elected officials are up to, breaking it down into bite-sized pieces, and serving it up on our blog. On the menu this week:

- City Makes It More Likely That Safe Consumption Sites Will Operate Under Nonprofit Contracts
  - Local Elected Officials Support State Bill to Expand Eligibility for Conservatorship
  - Drug Users Face Numerous Hurdles to Recovery—Street Conditions Shouldn't Be One
-

## Upcoming Events

## What SF is Broken (And How to Fix It)

San Francisco is broken, and it's not just a headline—rising crime, an out-of-control drug crisis, and tanking schools affects us all personally. We need the tools and background to hold our elected officials accountable to the success of San Francisco, and a commitment from them to champion solutions.

Join us Wednesday, March 22 as we give an overview of the key problems (and solutions!) our policy experts plan to target for reform. We'll have subject matter experts explain how San Francisco got here and what we can do together to demand action and change.

**RSVP »**

## St. Patrick's Day Parade

Feeling festive? On Saturday, March 11, San Francisco will be hosting its annual St. Patrick's Day parade. The parade will begin at 11:30am and start at 2nd and Market Street and end at Civic Center Plaza. The event will feature local Irish dance companies and bands along with other festivities.

[Learn More »](#)

TogetherSF Action is a nonprofit organization with a mission to empower San Franciscans to demand efficacy from local government and hold their leaders accountable to results.

We identify inefficacy in San Francisco's government and arm residents with the information and tools they need to elect results-oriented leaders. Based in San Francisco's Mission District, our team comes from a variety of industries and backgrounds, yet we all unite around a common love for San Francisco and passion for impact.

General email Board Of Suervisors,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department. The citizens of San Francisco are experiencing reduced services and higher crime. Your obligation is first and foremost to insure public safety.

I am advised that if the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable. And it is dangerous. We feel unsafe in our neighborhood, and we need to know that if we reach out to the police there will be an effective and timely response.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

General email Board Of Suervisors,

Dear Supervisors,

I was born and raised in The City and I've watched crime increase 100 times over what is used to be. You need to give the SFPD whenever they need to combat the ongoing surge of increased crime and criminals that threatened the honest and peaceful citizens of San Francisco. I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

Dear Board of Supervisors,

I am a native San Franciscan and while that doesn't make me any different than any other resident it does however give me context and perspective. As most of you know, San Francisco is no longer the city it once was due to what is playing out on our streets. Somehow Public Safety has now become a political debate. How on earth is Public Safety something to debate about?

I watched London Breeds press conference today in the Tenderloin, the neighborhood affected most by drugs and crime, call for the support of the Police Supplemental. I find it shocking that so far there are only 4 names of support on this bill. You have to wonder why you get the nickname of "Board of Stupidvisors", deservedly so. Too much virtue signaling, too much progressive ideology in your thinking and actions. As the Mayor states, we desperately need to turn the current state of drug dealing, crime etc..around and in order to do that the Police Supplemental needs to pass. Put your biases aside, do the right thing and vote in support. Maybe just maybe you'll regain the title of "Board of Supervisors". Wouldn't that be nice?

SF residents are screaming for change and this is a good start. I hope you all have the chance to listen to this press conference and listen to people's stories; do your job!

Maura Healy  
SF Resident

**Date:** Tuesday, March 7, 2023 12:45:17 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

Email: [board.of.supervisors@sfgov.org](mailto:board.of.supervisors@sfgov.org)  
Cc: [mayorlondonbreed@sfgov.org](mailto:mayorlondonbreed@sfgov.org)

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing to show my support for supporting Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a **Union Square stakeholder**, I want to show my gratitude for support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy, and rely on our police department to keep all San Franciscans, workers, and tourists safe.

I feel that it is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

Importantly, this supplemental will also help continue staffing SFPD Community Ambassadors. Due to these unprecedented shortages, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

James Sangiacomo

Clerk Angela Calvillo,

Dear Supervisors,

PLEASE SUPPORT THIS. whether or not you think this is a great idea - we do not have the choice to avoid this proposal. Sf is short handed in dealing with the Drug Crisis on our streets and we need an all in approach, including closing the open air drug markets & having a police presence on our sidewalks.

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

Email: [board.of.supervisors@sfgov.org](mailto:board.of.supervisors@sfgov.org)

Cc: [mayorlondonbreed@sfgov.org](mailto:mayorlondonbreed@sfgov.org)

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing on behalf of Grosvenor, owner of 180 Post Street, 185 Post Street, 251 Post Street, and 240 Stockton Street, to show my support for supporting Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a Union Square stakeholder, I want to show my gratitude for support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play a significant role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy and rely on our police department to keep all San Franciscans, workers, and tourists safe.

It is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

Importantly, this supplemental will also help continue staffing SFPD Community Ambassadors. Due to these unprecedented shortages, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing on behalf of Neiman Marcus San Francisco, to show my support for supporting Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a **Union Square stakeholder**, I want to show my gratitude for support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy and rely on our police department to keep all San Franciscans, workers, and tourists safe.

Neiman Marcus has proudly served the local community from the building at the corner of Stockton and Geary for more than 40 years. As a cornerstone of Union Square, more than 350 residents are employed in the store and make a significant contribution to the city with the business tax we can generate. The ongoing safety is our primary concern for employees, clients, and visitors alike.

I feel that it is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

After the looting that took place in my building in December 2021, that destroyed the image of safety in our neighborhood, it was the swift response by Mayor Breed, Chief of Police, Bill

Scott, and the local police force in dramatically increasing police presence that gave our shoppers, visitors, and employees the confidence to come back to the Square. Maintaining this presence is of the utmost importance.

Importantly, this supplemental will also help continue staffing SFPD Community Ambassadors.

Due to these unprecedented shortages, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

Mark Sullivan

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

General email Board Of Suervisors,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

**Subject:** It's time to end open-air drug markets, homeless criminals blocking sidewalks and bike lanes, and bike and car break-ins  
**Date:** Monday, March 6, 2023 9:56:11 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I'm a San Francisco resident who sees a failure by the Mayor and Board of Supervisors to address the fentanyl-fueled drug epidemic that is devastating our city. You must make ending open-air drug markets the number one priority of this year's budget cycle.

The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. I'm demanding that you take action along the following lines:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city.

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen, even if it sometimes means compelling treatment, in order to give users the chance to live healthy lives.

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open air drug sales and use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,

Herbert

The Portola

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

General email Board Of Suervisors,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

## Message to the Board of Supervisors

From your constituent      anne massocca  
  
Email                              amassocc@sbcglobal.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

It's no surprise that drugs and increased crime go hand-in-hand. We should make a concerted effort to stop turning our heads from illegal drug use as if it were acceptable public behavior!

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

**Date:** Tuesday, March 7, 2023 6:19:30 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe. Please protect public safety and protect SF livelihoods.

Thank you.

**Date:** Monday, March 6, 2023 11:43:46 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

General email Board Of Suervisors,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

General email Board Of Suervisors,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

**Date:** Monday, March 6, 2023 9:21:18 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

General email Board Of Suervisors,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

General email Board Of Suervisors,

Dear Supervisors,

Public Safety is the #1 priority on the minds of San Franciscans, the #1 thing needed to get S.F. to rebound and as such it should be treated as the #1 priority on the minds on our leaders on the board of supervisors. I support the Budget Supplemental for the San Francisco Police Department in full.

Working in Real Estate in the Bay Area, I see the numbers and hear the reasons why investors are avoiding investing in our City: safety, and crime are top concerns. As a SF resident they are my top concerns. Please expedite all matters that concern safety, especially the Budget Supplemental measures to ensure our police department has the resources they need to ensure the safety and well-being of our City. If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

This city has become a cesspool, and a very dangerous one at that. Defend the police is the most irresponsible and ignorant policy one could force on a city. This needs to stop immediately. How about we honor the men and women who put their lives on the line to protect people in this city, rather than drag them through the mud for preposterous progandized rhetoric which only serves to hurt everyone.

Thank you.

**Date:** Monday, March 6, 2023 8:15:44 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

General email Board Of Suervisors,

Dear Supervisors,

Do this!!!! I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

**Date:** Monday, March 6, 2023 8:01:58 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

General email Board Of Suervisors,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

General email Board Of Suervisors,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

General email Board Of Suervisors,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

Please authorize the additional funds to help improve the safety of San Franciscans.

Thank you,  
Victoria F  
District 11

General email Board Of Suervisors,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

General email Board Of Suervisors,

Dear Supervisors, especially Supervisor Connie Chan:

I wholeheartedly support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

And, if Supervisor Connie Chan holds this up, she and her supporting colleagues will be at the top of the list for accountability for the abyss of problems that will follow such folly. All anti-police ideology MUST be taken off the table, and the security of ALL San Franciscans (and visitors) be put in TOP PRIORITY. Ms. Chan: do NOT meddle with our safety and well-being by refusing to include the \$27 million in SFPD supplemental funding. Imposing a faulty belief system/anti-police ideology that is FAILING us will be a political mistake of epic proportions.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

Supervisor Chan,

I am writing to urge you to support Mayor London Breed's Police Staffing Budget Supplemental today. This funding will ensure that the SF Police Department can maintain its current staffing level. It is critical to our public safety and to ending the drug crisis in our city. Every day you delay increases the risk to our families and seniors. Every day that you delay destroys the fabric and quality of life in the Richmond and throughout our City.

Sincerely,  
Herbert

**Subject:** City Hall Must Vote to Pass Mayor Breed's Police Funding Budget Supplemental  
**Date:** Monday, March 6, 2023 11:48:18 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Matt Dorsey, London Breed and SF BOS!

I'm a San Francisco resident who believes ending open-air dealing and use of drugs must be City Hall's top priority in 2023. It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

Thank you to Mayor Breed for introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman for co-sponsoring it. I am writing to ask you to vote yes to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city.

I understand that you may be facing political pressure to vote against "funding the police." I urge you to consider how reduced levels of police staffing affect your district and the city as a whole, and to place real solutions ahead of ideology.

--

Best regards,  
Alexey Kudinkin.

**Subject:** Supplemental Police Funding  
**Date:** Monday, March 6, 2023 11:41:24 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

March 6, 2023

Dear Board President Peskin and Honored Members of the Board of the Supervisors,

**I support the budget supplemental for the police** introduced by Mayor London Breed to ensure the San Francisco Police Department has the funding to continue to meet current levels of service that we desperately need.

The \$27 million budget supplemental will help fund overtime and extended work hours by our police officers, and coverage of public safety ambassadors to serve our neighborhoods through the end of this fiscal year which ends in June.

It is of utmost importance to me that the SFPD continues that level of service to keep us safe by having the ability to investigate and curtail blazon open drug dealings and illegal use of narcotics that are seen by children and families on our streets every day. We also need our police officers to help us reduce gun violence, homicides, and violent crimes.

By supporting the police funding supplemental, SFPD Community Ambassadors, civilian retired sworn members will also be able to continue to provide foot beat patrol presence in places like Chinatown, Sunset, West Portal, Union Square, Fillmore, Castro and Fisherman's Wharf.

**Importantly, I am opposed to any police hiring freeze.** The SFPD that already faces an unprecedented shortage of officers, 541 below the staffing analysis recommended level. We cannot afford any pause on this funding because it will exacerbate all the challenges we face.

The bottom line is we need more police officers in order to meet our basic needs in San Francisco. And the staffing shortages must be backfilled with this funding so that Mayor Breed's priority initiatives like San Francisco's tourism deployments, Tenderloin operations, and violence reduction work which I wholeheartedly support will continue to serve residents and visitors.

As the level of Anti Asian hate continues, we need more officers on duty to help to protect our Asian citizens against the blatant racist attacks, some with deadly outcomes.

If our City is going to make any meaningful comeback, the safety and cleanliness of our

City are the top priorities. I believe we are all in agreement with this. Now is not the time to oppose each other. Let us act as one, united City on this.

I hope you will join me in supporting this urgent and critical funding without further delays and amendments. Thank you for your consideration.

Sincerely yours,

Betty Louie, Advisor

## Message to the Board of Supervisors

From your constituent      Robert Chan  
  
Email                              RobertYChan@aol.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

**Subject:** I support the supplemental police budget  
**Date:** Monday, March 6, 2023 11:17:12 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

Dear Supervisors,

As your constituent, I am writing to you to urge you to IMMEDIATELY approve the \$27 million supplemental to get criminals off of San Francisco streets and to save our City from the criminality and lawlessness destroying our lives. Please use bait cars, bicycles, and undercover drug agents to arrest any criminal, especially homeless criminal migrants, who sells drugs (i.e., murders) on our streets, vandalizes public or private property, litters or pollutes our streets, violates sit-lie and public camping laws, breaks into or steals cars, or steals bicycles. Please do something to save us.

Sincerely,  
Herbert  
the Portola District

**Date:** Monday, March 6, 2023 8:01:18 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear [Elected Official's Name Here],

I'm a San Francisco resident who believes ending open-air drug dealing and use in 2023 must be City Hall's top priority. It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

Thank you to Mayor Breed for introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman for co-sponsoring it. I am writing to ask you to vote yes to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city.

I understand that you may be facing political pressure to vote against "funding the police." I urge you to consider how reduced levels of police staffing affect your district and the city as a whole, and to place real solutions ahead of ideology.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of  
Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you,  
Kira Gaber

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

## Message to the Board of Supervisors

From your constituent      Irene Whetstone  
  
Email                              imwhetstone@yahoo.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors Dear Supervisors,

As an emergency measure, I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. It should never have come to this.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

This band-aid is symptomatic of a far, far greater problem. Runaway spending, pointless commissions, armies of sinecures, and inept managers have managed to make fourteen billion dollars look like peanuts. It's shameful we're even talking about digging up a few million to keep our remaining

experienced police officers from quitting.

Thank you.

## Message to the Board of Supervisors

From your constituent      Billy Brandreth

Email      wrb100@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.  
Wendy Herzenberg

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

On Mar 1, 2023, at 2:41 PM, Courtney Klinge <[cklinge@yahoo.com](mailto:cklinge@yahoo.com)> wrote:

Dear Supervisor Peskin,  
I'm an over twenty-five years San Francisco resident who believes ending open-air drug dealing and use in 2023 must be City Hall's top priority. It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

Thank you to Mayor Breed for introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman for co-sponsoring it. I am writing to ask you to vote yes to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city.

I understand that you may be facing political pressure to vote against "funding the police." I urge you to consider how reduced levels of police staffing affect your district and the city as a whole, and to place real solutions ahead of ideology.

Best,

Dear Ms. Chan,

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

**Subject:** City Hall Must Vote to Pass Mayor Breed's Police Funding Budget Supplemental  
**Date:** Saturday, March 4, 2023 12:09:08 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Mandelman and Mayor Breed,

I'm a San Francisco resident who believes ending open-air drug dealing and use in 2023 must be City Hall's top priority. It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

Thank you to Mayor Breed for introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman for co-sponsoring it. I am writing to ask you to vote yes to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city.

I understand that you may be facing political pressure to vote against "funding the police." I urge you to consider how reduced levels of police staffing affect your district and the city as a whole, and to place real solutions ahead of ideology.

Brian Key  
72 Prosper St  
District 8

Michelle McCune  
SF Resident

PS - I am an SF resident who really wants to put down roots and buy a home in SF. However, if the lawlessness that I see every day just walking down the street continues, I will be forced to move and buy in a safer town in the Bay Area that actually cares about me. I love SF. I love the people. I love the spirit. But I'm not going to pay very high taxes to live in a place where I am afraid to leave my house. You were elected to "do something". People's safety is their upmost priority. Nothing else will matter if you don't get that under control!

Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

**Subject:** City Hall Must Vote to Pass Mayor Breed's Police Funding Budget Supplemental  
**Date:** Friday, March 3, 2023 3:27:43 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Safaí,

I'm a San Francisco resident who believes ending open-air drug dealing and use in 2023 must be one of City Hall's top priorities. It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

Thank you to Mayor Breed for introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman for co-sponsoring it. I am writing to ask you to vote yes to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city.

I understand that you may be facing political pressure to vote against "funding the police." I urge you to consider how reduced levels of police staffing affect your district and the city as a whole, and to place real solutions ahead of ideology.

Sincerely,

## Message to the Board of Supervisors

From your constituent      Melissa N.  
  
Email                              msnave23@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

**Subject:** City Hall Must Vote to Pass Mayor Breed's Police Funding Budget Supplemental  
**Date:** Thursday, March 2, 2023 7:42:19 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Mandelman,

I'm a life-long San Francisco resident who is certain that ending open-air drug dealing (and use) in 2023 must be City Hall's top priority. Not housing, not slow streets, and definitely *nothing* that has anything to do with identity politics! It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

It's about time Mayor Breed came to her senses by introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman (you!) for co-sponsoring it. I am writing to ask you to vote yes (which I presume you will) to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city. I also highly encourage you to lead a civic, city-wide campaign to show appreciation and support for the very hard job that police have — they have been far too maligned, as well as their work defunded, and this has been a big part of the issue of the shortage of law enforcement.

I understand that you may be facing political pressure to vote against "funding the police." Don't listen to the squawking people who think no police is the way; they are seriously misguided by dangerous, pie-in-the-sky, ideological notions. I urge you to consider how reduced levels of police staffing affect your district (which happens to be mine) and the city as a whole (especially the crime ridden districts, like D6!) and to place real solutions ahead of ideology; it's the ONLY way.

Rock on!

C. Worcester

**Subject:** San Francisco Mayor London Breed: Tell Sister City Seoul, South Korea, you oppose the torture and consumption of dogs and cats.  
**Date:** Thursday, March 2, 2023 3:04:58 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Mayor London Breed and the San Francisco Board of Supervisors members:

It is nothing short of heart breaking! Imagine what it must be like to live such a cruel and painful existence, all at the hands of human beings who claim to be civilized. It is shameful and grotesque what we allow to occur as a society. It is critically urgent that the torture and suffering of these defenseless animals come to an end.

As mayor and representatives of San Francisco, we ask you to reconsider your “friendship” with Seoul, a city that permits dogs and cats to be brutally tortured for food.

While graphic, these undercover videos depicting South Korea’s dog meat industry are important to watch:

Part 1 of 2: [https://youtu.be/\\_ZVQigGb4RQ](https://youtu.be/_ZVQigGb4RQ)

Part 2 of 2: <https://vimeo.com/754160791>

<https://koreandogs.org/jtbc-news-electric-tortured-in-cages/>

Touted as a so-called cosmopolitan city, Seoul [consumes the most dog meat of any city in South Korea](#). There are countless dog farms and dog slaughterhouses in the vicinity of Seoul. Korean web searches of Seoul turn up hundreds of [dog meat restaurants](#) and so-called “[Health Centers](#)” that commonly serve soup made of dog meat as phony elixirs (also known as dog soju).

Dogs suffer their entire lives in filthy, feces-encrusted wire cages in dire misery only to be slaughtered in the most horrific of ways—tortured by electrocution, hammer strikes to their head, hanging, being beaten to death, having their throats slit, being burned alive with a blowtorch or thrown into a vat of boiling water while still alive. In many places in Seoul, dogs are killed in full view of other caged dogs who tremble with terror. In addition, beloved pets are often stolen and sold to these slaughterhouses, where they meet the same horrific fate. Puppies who die of disease are tossed away like trash, often left in front of cages to rot while their mothers watch and cry out in despair.

Mayor Christopher Chung of Palisades Park, NJ, knew that no relationship or economic incentive was worth complicity in torturing humankind’s most loyal companion. As reported in [the Korea Times](#), he recently rejected a visit from exchange students from the friendship city Incheon Ganghwa County due to their dog meat trade. In California, [the Los Angeles City Council](#) unanimously passed a

resolution supporting legislation or administrative action that would request the governments of South Korea, China, Vietnam, Indonesia, and Cambodia ban the sale of dog meat and enforce their animal protection laws.

On behalf of companion animal-loving Americans and people worldwide, we ask that you follow these bold leads by not remaining silent in the face of such abhorrent cruelty. Please urge Seoul Mayor Oh Se-Hoon to shut down all Seoul-supplying dog farms, slaughterhouses, markets, dog meat restaurants, and truckers transporting dogs to their inevitable fates. An online petition calling for your support in ending such horrors perpetrated in Seoul is in progress: <https://chnng.it/5Ty85rRc>.

Thank you for your serious consideration. We eagerly await your reply.

Sincerely,

James Sorrells

1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Dear Supervisors,

We appreciate the opportunity to share our support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

Ensuring San Francisco has clean and safe streets is a top priority as the City begins to regain its momentum and change the narrative that it's an unsafe place to live, visit, and work. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The City cannot afford to lose officers if it wants to properly curtail drug dealing and illegal use of narcotics, and reduce gun violence, homicides, and violent crimes. Sworn staffing levels have fallen precipitously in the last three years and San Francisco is now 331 officers lower than in 2019 and 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases in order to provide the

same level of service. However, expanded overtime has reaped immediate benefits, including the ability to respond to over 34,000 additional calls for service.

Importantly, this supplemental also will help continue to support SFPD Community Ambassadors. These retired officers are essential to continue to provide foot beat patrol in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue on its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,  
Terry

**Date:** Thursday, March 2, 2023 12:09:16 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Ronen,

I'm a San Francisco resident who believes ending open-air drug dealing and use in 2023 must be City Hall's top priority. It is unconscionable to allow the deadly drug trade, which takes the lives of an average of two San Franciscans per day, to continue unabated on our streets.

Thank you to Mayor Breed for introducing a Police Budget Supplemental, and Supervisors Stefani, Dorsey, Engardio and Mandelman for co-sponsoring it. I am writing to ask you to vote yes to this supplemental, and also to the Community Safety Ambassadors program as these are both vital components to our city's public safety approach. The police supplemental would ensure the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this, our police department will lose current police shifts and be unable to address the open air drug markets in our city.

I understand that you may be facing political pressure to vote against "funding the police." I urge you to consider how reduced levels of police staffing affect your district and the city as a whole, and to place real solutions ahead of ideology.

I ask you to please take the needs of low income and working class residents of your district, such as myself, into consideration. We're the ones who are forced to shoulder the burden of criminal activities and drug-induced violence in our neighborhood.

Thank you in advance!

Gitanjali Denley  
55 Woodward Street

**Subject:** URGENT: I support the supplemental police budget - do not reduce  
**Date:** Thursday, March 2, 2023 8:54:55 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Chan,

I am very disturbed by the proposal to even consider a reduction of budget for our law enforcement in San Francisco. The amount that the city spends per resident is over \$18,000 per resident, which is higher than the FEDERAL average of the Federal Government per US Citizen. Yet with this spending level, SF streets have large amounts of homeless, drugs are rampant and pockets of the city remain quite dirty and unsafe. As someone whose car has been broken into, and who has been accosted by homeless individuals, I do not see how reducing law enforcement funding makes sense. Clearly the allocation and use of funds per resident is not proportional/makes sense. A safe city = the ability for first responders and officers to be available and willing and ready to respond to incidents. Cut from a non-essential service. Plenty of non-essential programs in SF can be reduced and essential (safety, transit, etc.) programs should continue to remain funded. I am spreading the news about this egregious proposed cut so that the outrage can be amplified. The SF DA was recently recalled for a reason. People are tired of ineffective policies, growth in crime and unsafe places in SF. The people will vote and remove those who are not in line with supporting safe, effective and practical solutions. Do not cut. Vote YES.

I'm a resident of District 2. We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

San Francisco Board of Supervisors  
San Francisco City Hall  
1 Dr. Carlton B Goodlett Pl #244  
San Francisco, CA 94102

**RE:UC Law San Francisco's Support of Police Budget Supplemental**

Dear San Francisco Board of Supervisors:

I write on behalf of UC Law San Francisco (formerly UC Hastings Law) to support the \$27 million police budget supplemental. UC Law San Francisco was founded in 1878 and has been a part of the City of San Francisco since that time and housed in the Tenderloin and Civic Center neighborhoods since the early 1950s. The success of the Tenderloin means the success of UC Law San Francisco as well as the success of San Francisco as a whole. These resources are critical to the safety and livability of the Tenderloin neighborhood. As a result, I support Mayor Breed's proposal to supplement the San Francisco Police Department ("SFPD") budget.

The police are essential to mitigate our most pressing issues such as open-air drug dealing, violent crime, theft, and human trafficking. Critically, this funding would support SFPD Tenderloin Station's ability to sustain and expand its efforts to eliminate drug dealing in our community and, in particular, the scourge of fentanyl in this historic neighborhood. SFPD needs to recruit, train, and retain more police officers who embody San Francisco's inclusive values to meet these critical needs, and this supplemental funding will prevent any mandated service cuts and a new hiring freeze.

I request that the Board of Supervisors approve the \$27 million budget supplemental to fund police operations so the San Francisco Police Department can better serve our communities and respond to the City's ongoing public safety needs. On behalf of our organization, I appreciate your consideration.

Sincerely,

David L. Faigman

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Email                              maryjungsf@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

Email [abecassis@gmail.com](mailto:abecassis@gmail.com)

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

## Message to the Board of Supervisors

From your constituent      Daniella Coker

Email      [dfcoker@gmail.com](mailto:dfcoker@gmail.com)

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

## Message to the Board of Supervisors

From your constituent      Mari Murayama

Email      [mdmurayama@gmail.com](mailto:mdmurayama@gmail.com)

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of  
Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Mari Murayama  
District 1

Message to the Board of Supervisors Dear Supervisors,

As an emergency measure, I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. It should never have come to this.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

This band-aid is symptomatic of a far, far greater problem. Runaway spending, pointless commissions, armies of sinecures, and inept managers have managed to make fourteen billion dollars look like peanuts. It's shameful we're even talking about digging up a few million to keep our remaining experienced police officers from quitting.

Thank you.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Dear Honorable Supervisors,

I am writing to request that you approve the items for funding to support the continuation of the Tenderloin/Mid-Market Community Based Safety Program in partnership with the Mid-Market Foundation and Urban Alchemy.

I work at the San Francisco Federal Building located on 90 7<sup>th</sup> St. Since Urban Alchemy have been in the area, I feel a lot safer. With increase in the drug dealing and crime I think Urban Alchemy is a great help to SFPD to cleaning up the area.

The Community-Based Safety Program has dramatically improved the safety, cleanliness and general livability of some of the city's most challenged blocks. But there is still a lot of work to do and it is critical that we continue to build upon these services. Not approving these requests would be a massive decrease in coverage, negatively impacting the neighborhood and creating a backwards spiral for the quality of life that is already challenging for residents, businesses, youth, seniors, small businesses and theaters. The open-air drug markets would expand exponentially impacting already struggling small businesses and the safety of the neighborhood's employees and residents. It will also mean the loss of more than 87 full time employee positions.

I respectfully request that you support the requests before you to continue this important program.

Sincerely,

Kimberly Pierre (She, Her,)

**Subject:** This D6 Resident Asks You to STOP SFPD Giveaways!  
**Date:** Friday, March 10, 2023 12:09:35 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Serena and I live in District 6.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing. It is nauseating to see this come up when we don't even have a functioning payroll system for SFUSD teachers, MUNI is looking at cutting service, and supportive services like the Tenderloin Center are closing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend. SFPD doesn't have a budget problem, they have an accountability problem. It is astonishing that we put so much money into an organization that consistently does not provide positive results. Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer-to-resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime. My partner and I have been dealing with a violent person who has moved onto our street, who attacked someone with a chain one night. SFPD did not respond that night, or to other calls about this person. At this point, it feels useless to even contact SFPD.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. CCSF students had to attempt to learn in rooms as cold as 42 degrees on the CCSF campus this winter. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability, which has worsened conditions on the streets. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%. I refuse to believe that millions more dollars going into SFPD's coffers would do more to serve and protect San Francisco residents and visitors than if it were slated to fund our schools, healthcare, supportive housing, and city infrastructure.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, I ask every San Francisco resident, and in particular the Mayor and Supervisors that we rely on to represent us: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

**Subject:** Please oppose SFPD budget increase  
**Date:** Friday, March 10, 2023 12:39:15 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Supervisor Melgar,

My name is Enia Titova and I live in your district.

I'm writing to you with a request that you vote to oppose the request to increase the SFPD budget.

Last week, I called into the committee meeting re the City's complete failure on its VisionZero mission. And what I heard appalled me: Commander Walsh spent his entire time blaming his officers' lack of enforcement on anything and everything: body cams, the length of time it takes to perform administrative tasks associated with writing a citation, completely made up statistics. Everything but take accountability for the fact that SFPD officers have given up on enforcing the law in this city.

And now they want more money?!

Why?! Have they shown any progress towards accomplishing the goals of public safety each time their budget is increased?

There's absolutely no accountability in our police department. Why would officers bother to do their jobs when all they hear is their leadership blaming the lack of their success on understaffing. What rank and file officers hear is: regardless of what I do, I will not lose my job. So why bother doing it?

So to ask us, the tax payers of San Francisco, to increase their budget once again, when other vital city services are going unfunded in a way that has all but killed civil life and social safety nets in this city is outrageous.

When we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

I ask you to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

**Subject:** IN SUPPORT OF \$27 MILLION POLICE BUDGET SUPPLEMENTAL  
**Date:** Friday, March 10, 2023 4:22:21 PM  
**Attachments:** [TLCBD LOS 27 Million Supplemental.pdf](#)

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors:

As the Executive Director for the [Tenderloin Community Benefit District](#) (TLCBD), I am writing to support the \$27 million police budget supplemental to fund operations through the end of the fiscal year. The San Francisco Police Department is a valued partner to the TLCBD and the broader Tenderloin community which we serve, and we support Mayor Breed's request to maintain adequate funding levels to provide no less than the same level of service in the Tenderloin and our neighboring communities. The success of the Tenderloin means the success of San Francisco as a whole – as a city, we must ensure that the resources our community receive reflect the prioritization our community deserves. We request that the majority of this funding is dedicated to addressing the crisis of fentanyl dealing in the Tenderloin, particularly expanding operations at night so Tenderloin residents can sleep.

The TLCBD is a non-profit organization established by a diverse group of Tenderloin residents and property owners who share a common mission to uplift and improve the conditions of the neighborhood through the power of grassroots organizing and citywide collaboration. For nearly two decades, the TLCBD has served our culturally rich, family-dense, and vibrant community and now conducts critical neighborhood services such as street cleaning, park stewardship, and safe passage programs to walk children to and from their local schools. Our mission involves making the Tenderloin a special and welcoming place, ensuring that the unique fabric of our beloved community is woven with neighborhood pride, economic opportunity, and a commitment to empowering those who live and work in the Tenderloin.

As one of the most important fixtures to maintaining a safe and healthy environment in the Tenderloin, the police are integral partners in mitigating our neighborhood's most pressing issues, such as open-air drug dealing, violent crime, theft, human trafficking, and vandalism. Specifically, this funding would support SFPD Tenderloin Station's ability to sustain and expand on its recent efforts to eliminate fentanyl drug dealing in our community. SFPD's capacity to serve the Tenderloin depends on its department being well-equipped and properly staffed. Community consensus says we need to recruit, train, and retain more police officers who embody San Francisco's inclusive values, and this

supplemental funding will prevent any mandated service cuts and a new hiring freeze.

By approving the \$27 million budget supplemental to fund police operations, the Board of Supervisors can not only help prevent the detrimental impacts that could come due to an understaffed police department but also meet an increased need for law enforcement in the Tenderloin and operations for tourism development and sustain the impactful community ambassadors program citywide.

For these reasons and more, we respectfully ask that the Board of Supervisors approve the \$27 million budget supplemental to fund police operations as soon as possible so the San Francisco Police Department can better serve our communities and respond to the fentanyl crisis in the Tenderloin.

On behalf of our organization, I appreciate your consideration.

Thank you,

Kate Robinson | Executive Director

**Subject:** Support community instead of over-policing us  
**Date:** Friday, March 10, 2023 6:08:51 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Selby Wynn Schwartz and I live in District 3. I've lived in San Francisco for many years, and like many people in my Lower Nob Hill neighborhood, I am very concerned about safety and well-being in my community.

When I say "health and well-being," I mean: protected bicycle lanes EVERYWHERE! better public health care! free public transportation! proper mental health resources! enough affordable housing! a strong post-incarceration support system to help people get jobs and help them begin to give back to their communities! no more hand-outs and tax breaks for massive tech corporations! lots of community ambassadors helping people find housing and substance-abuse programs! plentiful funding for public art and the artists who make it possible! an end to San Francisco's shameful history of police violence against people of color and low-income communities!

What I DON'T mean by "health and well-being" is \$713 million--or more--for the SFPD. We already have scores of police officers hanging around Union Square, protecting luxury handbags, which is a waste of money. We already have a terrible record of officers harassing and using violence on communities of color. What we need are more teachers, more bus drivers, more community ambassadors, more social workers, more nurses, and more public services for ALL of us. I stand with DSA in asking: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Sincerely,  
Selby Wynn Schwartz

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Jason Levine and I live and work in District 2.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend. SFPD does not have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability.

Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend. SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Hi I'm Scott, a District 9 resident.

Please reject the proposed SFPD budget supplemental, and instead give the money to Muni to restore transit service.

I used to ride the 12-Folsom bus regularly, now I can't rely on it because service cuts have made it so infrequent due to Muni operator shortages.

SPFD has an accountability problem, not a funding problem. Its own report says so, for example, that traffic cops in some stations wrote ZERO tickets in December for safety-critical "focus on the five" violations ([https://url.avanan.click/v2/\\_https://www.sanfranciscopolice.org/stay-safe/crime-data/traffic-violation-reports...XXaZonMnZHyQhOnE6zbz1TVtNmGRmTawNGf3k5ODU0W9MY0MY0TW5OWYyNmVklZToZjkZJUeVnZmZg3OTjYwV0YmVjZGRhYjNkNjUxNmVklZjY3c3YwM4YzIjZG9yNTFhZDM1NG04Y2Y5MDcwNjtwNzZrZp0IQj](https://url.avanan.click/v2/_https://www.sanfranciscopolice.org/stay-safe/crime-data/traffic-violation-reports...XXaZonMnZHyQhOnE6zbz1TVtNmGRmTawNGf3k5ODU0W9MY0MY0TW5OWYyNmVklZToZjkZJUeVnZmZg3OTjYwV0YmVjZGRhYjNkNjUxNmVklZjY3c3YwM4YzIjZG9yNTFhZDM1NG04Y2Y5MDcwNjtwNzZrZp0IQj)). Why would we give more money to a department that isn't doing its job the way that it has?

In fact, in 2022, the police contract was just amended to include longevity bonuses, pay raises, and sign-on bonuses. Transit operators got none of these concessions, nor did other city workers like teachers, street cleaners, firefighters or nurses. So the police already just got rewarded for not doing their jobs. Why do that again?

I also agree with the points made in all the form letters you are receiving against the SFPD giveaway, but I wanted to make it snappy and emphasize Muni because, as a transit rider, this is so frustrating. Muni has scaled back and delayed planned service restorations several times. It faces a \$215 million deficit as federal pandemic funding runs out, and its board of directors has been forced to consider the possibility of cutting service by 25%.

Please reject these proposed SFPD giveaways, and reinvest the money into essential public services that will rebuild SF -- like Muni.

## Message to the Board of Supervisors

From your constituent      K. R. Schwartz

Email      [kielygomes@yahoo.com](mailto:kielygomes@yahoo.com)

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Budget Clerk Brent Jalipa,

My name is John Grogg and I've lived in District 3 for five years now. The proposed SFPD budget increase is unacceptable.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. ## Message to the Board of Supervisors

From your constituent      Seema Gokhale  
  
Email                              seema.v.gokhale@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is William Van Der Laar and I live in District 8.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. ### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I VERY STRONGLY support the Mayor's Budget Supplemental for SFPD!!

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Nick Kline and I live and work in District 1.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's contract to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend. SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

Dumping millions into SFPD does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets.

Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Email                              mj357@comcast.net

**I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of  
Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD. It is also clear that San Francisco needs financial assistance from Governor Newsom and the Federal Government to build new mental health facilities in the State which were removed by Governor Reagan. In addition, we cannot wait 5-10 years for the SFPD to hire new police officers and need State and Federal recruitment efforts and provide housing to police so they can live and work in San Francisco. This can be done and we will mobilize our taxpayers in SF to make this happen.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

THIS SHOULD BE NON NEGOTIABLE. My friend's son was robbed at gunpoint last week. Two men each had guns on his stomach while they robbed him. He was walking back from the train to his son. 15 year old. Now he can't stop thinking about it.

The damage you are doing by NOT voting to help is unacceptable.

YOU ARE MAKING SF MORE UNSAFE with your ineffective policies. At a minimum, we need our SFPD to be funded for more overtime. It's not the long term solution, but we need this NOW. We need to hire more SFPD to the regular police force.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and

this is unacceptable.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent      Michael Cerchiai  
  
Email                              mcerchiai@me.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of  
Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I am writing to urge you to fully fund the San Francisco Police Department (SFPD) by supporting Mayor Breed's proposed budget supplemental of \$27 million. As you may already know, the funding will allow SFPD to maintain overtime police hours, continue neighborhood patrols, and disrupt drug dealing in the Tenderloin.

It is my understanding that Budget and Finance Committee Chair, Connie Chan, has been stalling on this matter. I implore you to do everything in your power to ensure that this proposal is heard and passed during the upcoming hearing on March 15th. The consequences of not passing this proposal by the end of March are dire, as SFPD will have to cut 10-15% of police hours, which is unacceptable.

As a responsible and urgent measure to keep San Franciscans safe, it is imperative that SFPD receives the funding needed to address the current shortage of officers. Increasing SFPD officer overtime is a short-term remedy that is necessary for maintaining current levels of service.

I urge you to take swift action and fully support Mayor Breed's proposal for the SFPD Budget Supplemental. Please do not hesitate to contact me if you need any further information.

Thank you for your attention to this matter.

Sincerely

---

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

It is unfortunate that we don't have more police offers and have to rely on overtime. Increasing overtime is as a short term remedy to our current shortage of SFPD officers. But it absolutely has to be done (and urgently) to keep San Franciscans safe.

(The next phase will be attracting more police officers to San Francisco. San Francisco is getting ever more scary and I'm sure more people are buying guns for home defense; but it's not a good route to have to go.)

Thank you.

**Date:** Sunday, March 12, 2023 8:35:28 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Jabez and I live in District 3.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into state workers who actually make the world a better place— teachers, transit workers, trauma-conscious compassionate crisis response.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Elliya and I live in District 8 and work in District 9.

I was devastated to hear about the planned significant budget increases for SFPD. It's 2023 and we all know that policing is a fundamentally racist institution that is not serving the needs of non-white San Franciscans. In particular, we know that SFPD has a worse track record on race issues than other police departments around the state. It shocks me to think that we are making moves to become an even more exclusionary city, given how great the disparities already are between wealthy & poor, white and POC, housed & unhoused, etc in the city today.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds — and is frankly insulting to the public. We do not need more police officers or more incentives for police officers. We need better social

services that reduce the causes of many needless police calls (e.g. housing more people). All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. ---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors,

**Approve the Mayor's \$27 million budget supplemental to fund police overtime, public safety ambassadors and additional staffing at the District Attorney's Office to focus on drug dealing.**

Efforts to combat illegal activity affecting residents, business owners, visitors, CBD field crews (and all front-line street workers both public and private) need more support from law enforcement!

Community Ambassadors and the City's Healthy Streets Operations Center (HSOC) are not sufficient (nor are they authorized) to address illegal activity.

The Mid Market area is highly complex and requires extra policing. It is the heart of the downtown core surrounded by Civic Center, the Tenderloin, SoMa and Union Square. With its convenient access to freeways, regional transit lines, residential density and visitor foot traffic – criminals want to do business here.

Mid Market is home to thousands of residents. Many live in newly constructed residential buildings; others live in the District's 30+ single room occupancy hotels, or in numerous other affordable housing units. What's more, there are 27 social services agencies within our District alone (**see attached map**) treating at-risk individuals; many of whom are battling drug addiction amidst our City's Fentanyl crisis. Currently, these individuals step out their door onto streets filled with drug dealers, open-air drug use and other predatory behaviors only law enforcement can address.

The business community, which has worked tirelessly to survive the pandemic, suffers rampant retail theft and a loss of customers and employees due to unsafe conditions inside and outside their place of business. Retail theft also fuels illegal street vending. The selling of stolen goods generates cash that supports drug sales. Only authorized law enforcement may address these issues.

We must put an end to unsafe conditions in Mid Market by all means possible. Just combating the selling of illicit drugs in the area would stem the flow of many of the problems Mid Market and surrounding areas face. With efforts like the Mayor's proposed \$27M additional funding for more SFPD resources and staffing to prosecute drug crimes, we can start to imagine a much brighter and better future.

Please protect our organization's investment in public safety personnel and the City's

investment in Community Ambassador programs by also supporting funding for the essential law enforcement resources to back these services up and restore safe and civil streets in Mid Market.

Sincerely,  
Mid Market Community Benefit District

## Message to the Board of Supervisors

From your constituent      Sem Lederman

Email      llederman@hotmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

14, March 2023

Dear Supervisor Chan,

We are writing today from the Executive Board of the SF Council of District Merchants Associations on behalf of the members of the SFCDMA. We urge you and your committee to forward item 230158 (SFPD Budget Supplemental) to the full SF Board of Supervisors with a recommendation. SFCDMA has, for 75 years, advocated for small businesses in San Francisco's diverse and vibrant commercial corridors. Unfortunately, worsening quality of life issues, violence and crime are having a serious negative impact on the ability of our members to conduct business profitably and safely. We feel it is our duty to speak out in favor of this immediate action that will help address our concerns.

The \$27 million budget supplemental will provide urgently needed funding for officer overtime and an expansion of the SFPD public safety ambassador program. As SFPD staffing issues have worsened, we have seen increasingly slower response times to calls for service; leaving merchants and their employees vulnerable to theft, violence and the trauma of seeing the needs of addicts and unhoused individuals go un-addressed. At the same time, our members report promising results from the fledgling SFPD ambassador program. It is our understanding that the ambassador program cannot be expanded to neighborhoods like the Mission District, which is suffering terribly, without funding provided by the budget supplemental. The impact of brazen shoplifting, graffiti, abject homelessness, serious mental illness, open-air drug dealing and drug use on our neighborhood commercial corridors cannot be overstated.

We recognize that SFPD is not and shouldn't be, the only City agency charged with addressing these critical issues. However, the fact remains that when our members call 911 in an emergency, SFPD is usually the first agency dispatched and we are not being served adequately. We are not in favor of expanding SFPD's budget interminably; We expect and demand results. Efforts to bolster recruitment and contribute to stronger community relations must be successful to meet our long-term needs. In the meantime, we have urgent concerns that require immediate action.

We sincerely hope that you and your committee will demonstrate your concern for our members' safety and livelihoods by recommending the budget supplemental to the full BOS.

Respectfully,

SFCDMA Executive Board

Masood Samereie, President (Castro District Merchants Association)

Maryo Mogannam, President Emeritus (West Portal Merchants Association)

Janet Tarlov, Vice-president (Glen Park Merchants Association)

Mike Zwiefelhofer, Treasurer (North Beach Merchants Association)

Tracey Sylvester, Secretary (Mission Merchants Association)

Morgan Mapes, Secretary (Clement Street Merchants Association)

Budget Clerk Brent Jalipa,

My name is Jason and I live in District 1.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Shae and I live in District 2.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

What does this say about our values when the Police Officer's Association and SFPD are given priority and political weight over our teachers, public health workers, and public transportation?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Thank you,  
Shae Watson  
District 2

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Debra Taube. I work in SF.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of  
Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

About a week ago, my 15 year old son was held at gunpoint and robbed in our neighborhood, Midtown Terrace. Thankfully he is OK and the police responded promptly. However, it is critical to protect the people of SF and continue to have police presence. These criminals already believe they are untouchable given how the city has handled crime and prosecutions over the past couple of years and they are starting to push the boundaries. I am concerned for the safety of my family and friends if we cut this funding. DO NOT make this critical mistake!

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.  
-Kristin Vines

Budget Clerk Brent Jalipa,

My name is Sam Sullivan and I live/work in District Six.

At a time when the wealth divide in our city is growing larger and more and more San Franciscans are being left behind, huge budget increases to the SFPD are not the way forward, particularly before budget negotiations even begin.

I ask you to give increased funding to community services, particularly around healthcare and housing, rather than our already wealthy police department.

Sincere thanks,  
Sam Sullivan

Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many

others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

We already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets.

Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Respectfully,

## Message to the Board of Supervisors

From your constituent      Tom Sparks  
  
Email                              [jf@nospam.minions.com](mailto:jf@nospam.minions.com)

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors

Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

You can not divert any more money from SFPD, it harms people from every community.

Thank you.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Emily and I live in District 5 in near Civic Center.

At a time when many San Francisco residents and workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend an outsized proportion of our budget on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's contract to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the city voluntarily opening up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. The Mayor and Board of Supervisors approved a massive \$713 million budget for the SFPD in 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced into part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical

treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. We live in an atomized society where the richest people hoard all the wealth while the working class fight each other for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's basic needs are not met, they have no other choice but to break the rules of a society that denies them food, water, housing, etc. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Sayuri Falconer and I live/work in District 3.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

I personally have been on food stamps while living in San Francisco this past year and a half and thanks to public programs like CalFresh I have survived long enough to acquire the skills I need to get a full time job and become self sufficient, which means more of my tax dollars disappointingly going to police instead of young people like me who moved here for the opportunity to make a difference despite the cost of living.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. The Honorable Connie Chan  
Chair, Budget and Appropriations Committee  
1 Dr. Carlton B. Goodlett Place,  
City Hall, Room 244  
San Francisco, Ca. 94102-4689

**Re: San Francisco Police Department Budget Supplemental**

Dear Supervisor Chan,

I write to you on behalf of the Building Owners and Managers Association (BOMA) San Francisco in support of the supplemental funding for police overtime.

As we tackle the critically important task of downtown revitalization, public safety concerns are one of the top challenges that our city must overcome. Our members and their tenants routinely site not feeling safe as a major detractor for returning to the office or enjoying downtown amenities after the workday. Furthermore, perspective tenants also indicate that ongoing public safety and cleanliness challenges have led them to ultimately seek office space in other cities besides San Francisco.

Providing adequate funding so that SFPD may meet necessary service levels not only benefits downtown, but also helps our city retain residents that fuel our economy citywide. This funding for overtime is a critical component in meeting this service goal, particularly given the department's ongoing recruitment and staffing challenges. We must meet this moment and address public safety concerns, both for the betterment of our downtown and every neighborhood in San Francisco. Thank you for your consideration of this request.

Sincerely,

John R. Bryant  
CEO, BOMA San Francisco

Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

March 14, 2023

Honorable Aaron Peskin  
President, San Francisco Board of Supervisors  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Dear Supervisor Peskin,

On behalf of the Bay Area Council, representing over 300 major employers across the San Francisco Bay Area, I am writing in support of Mayor London Breed's \$27 million budget supplemental request to fund San Francisco Police Department (SFPD) overtime and public safety ambassadors through the end of the fiscal year.

Public safety is the core of a functioning and productive society and vital for attracting and retaining a competitive workforce. Concerns about crime, safety and cleanliness in San Francisco have soared in recent years, pushing residents, employees, and other visitors away from city centers, decimating transit ridership, and threatening the city's economic recovery. For the first time in decades, recent surveys of voters and the business community reveal that crime and safety have become the two top concerns in the Bay Area. Restoring confidence in the safety of our downtown business districts, neighborhoods, transit systems and other public spaces is critical.

Sworn staffing levels have fallen precipitously in the last three years and San Francisco now has 331 fewer officers than in 2019 and 541 fewer officers than a city staffing analysis recommends. As the number of officers declines, the need for overtime increases in order to provide the same level of service. This supplemental will guarantee the necessary funding to continue to meet current levels of service and will furthermore prevent a hiring freeze.

This supplemental request will also support SFPD Community Ambassadors. These officers are essential to continue to provide foot beat patrol in areas across the city like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

We strongly urge you to adopt this budget supplemental. Thank you for your consideration. Should there be any questions or need for more information, please contact Laura Hill, Bay Area Council Policy Director, at [Lhill@bayareacouncil.org](mailto:Lhill@bayareacouncil.org).

Sincerely,

A handwritten signature in black ink, appearing to read "L. Hill", with a stylized flourish at the end.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Lauren Woomer and I live in District 8. I am writing today to oppose giving SFPD another budget increase and encourage instead spending that money on other services that help San Franciscans who need it most.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. And Supervisor Matt Dorsey still calls for increased signing bonuses for new officers, which would just continue this unfair and unjustified use of public funds.

The Mayor and Board of Supervisors also approved a massive \$713 million SFPD budget for 2023, which it is on track to overspend. Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. And still Mayor London Breed introduced an ordinance seeking an additional \$27.6 million for SFPD's budget for this fiscal year (2023), which would bring this year's budget to a total of \$740.6 million. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators

being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Massive inequality like that seen in San Francisco creates the conditions of desperation that lead to crime. When a person's needs for food, water, housing, healthcare, transportation, education, are not met, they will resort to other means of meeting their needs in order to survive. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. In fact, our criminal punishment system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into services for the most vulnerable San Franciscans.

**Subject:** Public Comment in Opposition to File #230158  
**Date:** Wednesday, March 15, 2023 10:38:01 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors,

My name is Norma Palacios with the Drug Policy Alliance, and I am writing to express my organization's opposition to appropriating \$27,640,247 of General Fund General Reserves to the San Francisco Police Department.

Communities across San Francisco are still being impacted by the overdose crisis and although the overdose rate in 2022 is much lower as compared to 2021, the infiltration of fentanyl into the drug supply has made the overdose crisis more lethal and dangerous.

Given the disproportionate impact of this public crisis on our communities of color, it's critical that San Francisco prioritizes investment towards evidenced based strategies, such as making naloxone widely available and ensuring that every community, Black, brown and indigenous know how to use it and access this life saving medication. San Francisco has demonstrated openness to supporting the operation of overdose prevention programs, now it's the time to fund the infrastructure that could make these programs possible in the near future.

For decades, our response to drug use has been to fund enforcement first approaches and this has only contributed to the loss of preventable life of our neighbors, family members and friends. Everyone deserves to feel safe in their own communities and the reality is that the safest places around the world don't have more police. Instead, they invest in research-backed solutions, like crisis response programs operated independently from police and led by people with lived experience.

A comprehensive public safety plan must look at the root causes that has led to the destabilization of our communities, open air markets and open-air drug use did not happen overnight, these conditions are the result of massive community disinvestment.

Taking funds away from the resources that communities in San Francisco need like permanent supportive housing, linkages to voluntary treatment, and meaningful employment to pay for police budget mismanagement is unacceptable.

The overtime should be paid for with the existing police budget, not taken from funds that could be used to address critical needs to confront the overdose crisis.

On behalf of the Drug Policy Alliance, I urge you to reject agenda item #2 and fund life affirming services.

Thank you for considering our position.

Norma Palacios

Budget Clerk Brent Jalipa,

My name is Nik Evasco and I live/work in District 1.

3 years after commitments from city leaders to reduce and defund our violent police force I can't believe we are considering giving them more money.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. Morning Committee members of the Budget and Appropriations Committee of the Board of Supervisors ,

We at Central City SRO Collaborative safety committee and La voz latina program supports this item , we have seen over the past few weeks that the SFPD has been effective in removal of the open-air drug market that has plagued some of the streets of Tenderloin for the last few years . We work with SRO and apartments tenants on habitability issues , we hear repeatedly how the open-air drug dealing has cost enormous safety concerns and violence in the street of Tenderloin and how it has impacted the residents , worker, and business owners. We hear all the time how residents feel trapped in their own home because they are afraid to go out of their home because of the street conditions . The recent work done by SFPD regarding curtailing open air drug dealing has given small hope that Tenderloin can be safe again but to have sustainability we need this effort to continue . Tenderloin residents , business owners and workers deserve to be safe in their neighborhood .

Please see attached petitions collected by the residents of the neighborhood in support to this item #2 in today's agenda March 15<sup>th</sup>, 2023. Thanks, and we urge you all support this item .

**Subject:** Petition in support of the \$27 Million Budget Supplemental for Police overtime and DA office

Morning Committee members of the Budget and Appropriations Committee of the Board of Supervisors ,

We at Central City SRO Collaborative safety committee and La voz latina program supports this item , we have seen over the past few weeks that the SFPD has been effective in removal of the open-air drug market that has plagued some of the streets of Tenderloin for the last few years . We work with SRO and apartments tenants on habitability issues , we hear repeatedly how the open-air drug dealing has cost enormous safety concerns and violence in the street of Tenderloin and how it has impacted the residents , worker, and business owners. We hear all the time how residents feel trapped in their own home because they are afraid to go out of their home because of the street conditions . The recent work done by SFPD regarding curtailing open air drug dealing has given small

hope that Tenderloin can be safe again but to have sustainability we need this effort to continue .  
Tenderloin residents , business owners and workers deserve to be safe in their neighborhood .

Please see attached petitions collected by the residents of the neighborhood in support to this item  
#2 in today's agenda March 15<sup>th</sup>, 2023. Thanks, and we urge you all support this item .

# Petition

As a resident and/or employee in the Tenderloin, I submit my signature on this petition to request your support for the mayor's \$27.6 million budget supplement that will help fund Operation Disruption, the campaign to eliminate open-air drug dealing in our community.

We ask for your support in voting for this budget supplement.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Brian and I live in District 2.

With an impending budget deficit and already historic amounts of money spent on SFPD I'm asking the board of supervisors to vote no on supplemental funds for SFPD overtime.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## **Re: OPPOSITION to Approving \$27MM Supplemental for SFPD**

### **Dear Budget and Appropriations Committee Members:**

Today, you will vote on whether to take \$27MM from the general fund to pay San Francisco Police Department (SFPD) officers for overtime they claimed they have already worked. The SFPD has justified its request by consistently pointing to “severe staffing shortages.” This self-assessment is based on experts SFPD pays to say it needs more officers but has been rightfully challenged by experts not paid by the SFPD.<sup>1</sup> The public, this Committee—and indeed the entire Board of Supervisors—should be skeptical of devoting more resources to a Department that is paid more but works fewer hours,<sup>2</sup> receives generous annual pay raises, and last year received a \$50MM budget increase last fiscal year.

For 100 years, the San Francisco Public Defender’s Office has provided dedicated and passionate legal representation to people who are charged with a crime and unable to afford an attorney. Our mission is to protect and defend the rights of our clients and community through effective, vigorous, compassionate, and creative legal advocacy. The Integrity Unit exists to fight police misconduct and police overreach that has long been directed to Public Defender clients and communities of color.

Instead of investing more precious public resources in SFPD—a department that has a long history of overpolicing and using excessive force on people of color,<sup>3</sup> has received a 31/100 from the Police Scorecard Project,<sup>4</sup> has cost San Franciscans tens of millions of dollars in lawsuit settlements,<sup>5</sup> continues to racially profile people of color,<sup>6</sup> and deploys officers who

<sup>4</sup> <https://policescorecard.org/ca/police-department/san-francisco>

<sup>5</sup> <https://sfstandard.com/criminal-justice/key-takeaways-on-the-high-cost-of-bad-cops-in-sf/>

<sup>6</sup> <https://www.ktvu.com/news/attorney-alleges-13-year-old-black-student-was-racially-profiled-unlawfully-detained-by-police>; <https://www.ktvu.com/news/three-black-men-accuse-sfpd-of-racial-profiling-while-shopping-at-union-square>.

lie under oath<sup>7</sup>— rather than wasting taxpayer dollars on unnecessary police overtime that doesn't even treat the symptoms, this Committee should invest in evidenced-based solutions that address the underlying causes of crime: a lack of housing, jobs, infrastructure, and healthcare. This Committee is well positioned to properly interrogate the need for additional funding, a role that is made even more crucial because this Department seeks regularly to avoid public oversight<sup>8</sup> and outside scrutiny.<sup>9</sup>

Accordingly, I request that this Committee not approve the additional funds and instead require that SFPD use savings from unfilled positions and unused academy classes to fill this gap considering SFPD's claimed challenges in recruiting new members.

Respectfully,

**Subject:** Stop Funding Cops  
**Date:** Wednesday, March 15, 2023 10:06:23 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

My name is Robin and I'm a high schooler who lives in the Bay Area. The last thing we need during a pandemic is more funding towards cops. Please invest into our communities instead. Crime comes from poverty. I am fortunate enough to go to a well funded school and not face housing/food insecurity. However, I know other at risk teens who've stolen things and peddled drugs to support their families. Most of these teens are people of color, LGBTQ+, or disabled. If San Francisco claims to support Black Lives Matter, why would the city grow policing when it's institutionally racist? Why is homelessness such a rampant issue in SF? How can funneling more money to police fix this city?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Robin

Hard copy will not follow.

Dear Supervisors:

I write to you to express my full support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

As a top priority for our City to regain its position as a worldwide premier destination, San Francisco needs to have clean and safe streets for travelers, workers and residents alike. The Mayor's budget supplemental will ensure the City's police to have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The City cannot afford to lose any more officers, and we are at a breaking point when it comes to staffing the San Francisco Police Department. Sworn staffing levels have fallen tremendously and the department is more than 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases in order to provide critical public safety functions. By failing to fund police overtime, calls for service will not be met along with our basic public safety needs as well.

San Francisco Board of Supervisors  
Re: Mayor Breed's \$27M Budget Supplemental to Fund Police  
March 15, 2023  
Page 2 of 2

Additionally, I also write to express my full support for SFPD Community Ambassadors. These retired officers are doing an incredible job enhancing public safety in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

I urge you to strongly consider passing this budget supplemental so that San Francisco can continue to recover and continue supporting a safe and healthy San Francisco.

Thank you for your time and attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Jon S. Handlery", written in a cursive style.

RE: San Francisco Police Department Supplemental Budget

Dear Budget and Appropriations Committee,

As a direct recipient of overtime policing, we appreciate the opportunity to share our support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

Ensuring San Francisco has clean and safe streets is a top priority as the City begins to regain its momentum and change the challenging narrative that San Francisco is an unsafe place to live, visit, and work. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

Union Square is the heart of the City and our economic core; in order to bring it back to life, post pandemic, we need to ensure our police department has the resources needed to create a safe environment. The downtown area, that includes Union Square, currently makes up 75% of the City's GDP, contains 40% of the City's jobs, has the highest concentration of employment for people of color, and has a 30% vacancy rate. Union Square must bring tourism and conventions back to keep the businesses and hotels afloat. Without the police presence, we are in trouble. Our community has shown their commitment and support to SFPD with their own letters of support that you have received. You have received letters from our hotels, retailers, restaurants, and stakeholders, who are all pivotal industries to our economic fabric. We must continue to fund this supplemental budget to continue supporting our economic recovery.

The City cannot afford to lose officers if it wants to properly curtail crime and negative street activity plaguing our city and leading the negative narrative. Sworn staffing levels have fallen precipitously in the last three years and San Francisco is now 331 officers lower than in 2019 and 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases to provide the same level of service. However, expanded overtime has reaped immediate benefits, including the ability to respond to over 34,000 additional calls for service.

Also important, this supplemental helps continue to support SFPD Community Ambassadors. These retired officers are essential to continue to provide foot beat patrol in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, Fillmore, and more. They are trained in community policing, understand the nuance of the communities they serve, and provide an invaluable service at this crucial moment in time, when policing is in crisis.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

A handwritten signature in black ink, appearing to read "Marisa Rodriguez", with a stylized, flowing script.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors,

**Approve the Mayor's \$27 million budget supplemental to fund police overtime, public safety ambassadors and additional staffing at the District Attorney's Office to focus on drug dealing.**

Efforts to combat illegal activity affecting residents, business owners, visitors, CBD field crews (and all front-line street workers both public and private) need more support from law enforcement!

Community Ambassadors and the City's Healthy Streets Operations Center (HSOC) are not sufficient (nor are they authorized) to address illegal activity.

The Mid Market area is highly complex and requires extra policing. It is the heart of the downtown core surrounded by Civic Center, the Tenderloin, SoMa and Union Square. With its convenient access to freeways, regional transit lines, residential density and visitor foot traffic – criminals want to do business here.

Mid Market is home to thousands of residents. Many live in newly constructed residential buildings; others live in the District's 30+ single room occupancy hotels, or in numerous other affordable housing units. What's more, there are 27 social services agencies within our District alone (**see attached map**) treating at-risk individuals; many of whom are battling drug addiction amidst our City's Fentanyl crisis. Currently, these individuals step out their door onto streets filled with drug dealers, open-air drug use and other predatory behaviors only law enforcement can address.

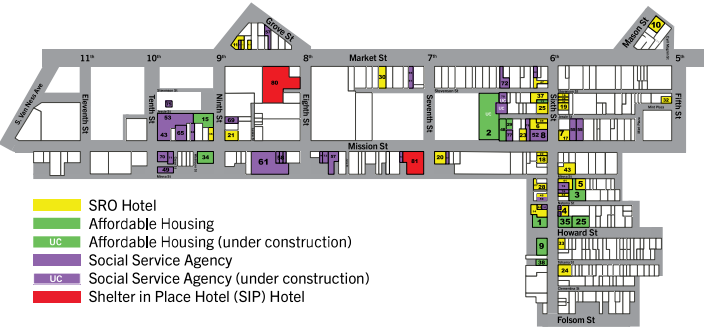

The business community, which has worked tirelessly to survive the pandemic, suffers rampant retail theft and a loss of customers and employees due to unsafe conditions inside and outside their place of business. Retail theft also fuels illegal street vending. The selling of stolen goods generates cash that supports drug sales. Only authorized law enforcement may address these issues.

We must put an end to unsafe conditions in Mid Market by all means possible. Just combating the selling of illicit drugs in the area would stem the flow of many of the problems Mid Market and surrounding areas face. With efforts like the Mayor's proposed \$27M additional funding for more SFPD resources and staffing to prosecute drug crimes, we can start to imagine a much brighter and better future.

Please protect our organization's investment in public safety personnel and the City's

investment in Community Ambassador programs by also supporting funding for the essential law enforcement resources to back these services up and restore safe and civil streets in Mid Market.

Sincerely,  
Mid Market Community Benefit District

San Francisco, CA 94102  
[board.of.supervisors@sfgov.org](mailto:board.of.supervisors@sfgov.org)

Dear Supervisors:

Please support the current \$27M budget supplemental request to fund more public safety resources.

Community stakeholders and stewards of the public realm (both public and private) such as CCCBD, are in desperate need of more support from authorized law enforcement personnel and the District Attorney's Office to improve public safety – including the safety of our privately-funded field crews.

Streetscape maintenance crews, paramedics, crisis outreach teams, and community ambassador programs such as ours, can not do their job without support from authorized law enforcement personnel. Currently, high levels of drug sales, open-air drug use and organized illegal street vending present numerous challenges and unsafe working conditions for non-law enforcement personnel.

As the seat of City, County, State and Federal government offices in San Francisco, Civic Center is a destination and a resource for all San Franciscans and the greater Bay Area region. Civic Center is also one of the City's top tourist destinations. It is essential we have the public safety resources necessary to support such a large and diverse constituency,

Support for our constituency also includes all front-line, first responders and essential workers in Civic Center. Authorized law enforcement personnel and the enforcement of laws are essential for stemming illegal activity and ensuring we are a safe and healthy district and an asset for downtown.

We thank you for doing everything in your power to strengthen and protect our investment in public safety resources, as well as the City's; and for working to rebuild the City's law enforcement capacity for the district and the City as a whole.

Sincerely,

The Civic Center Community Benefit District

**Subject:** Approve the Mayor's \$27 million budget supplemental to fund police overtime  
**Date:** Sunday, March 12, 2023 8:04:22 PM  
**Attachments:** [MM SFPD Supplemental.pdf](#)

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

**Approve the Mayor's \$27 million budget supplemental to fund police overtime, public safety ambassadors and additional staffing at the District Attorney's Office to focus on drug dealing.**

Efforts to combat illegal activity affecting residents, business owners, visitors, CBD field crews (and all front-line street workers both public and private) need more support from law enforcement!

Community Ambassadors and the City's Healthy Streets Operations Center (HSOC) are not sufficient (nor are they authorized) to address illegal activity.

The Mid Market area is highly complex and requires extra policing. It is the heart of the downtown core surrounded by Civic Center, the Tenderloin, SoMa and Union Square. With its convenient access to freeways, regional transit lines, residential density and visitor foot traffic – criminals want to do business here.

Mid Market is home to thousands of residents. Many live in newly constructed residential buildings; others live in the District's 41 single room occupancy hotels, or in numerous other affordable housing units. What's more, there are 27 social services agencies within our District alone (see attached map) treating at-risk individuals; many of whom are battling drug addiction amidst our City's Fentanyl crisis. Currently, these individuals step out their door onto streets filled with drug dealers, open-air drug use and other predatory behaviors only law enforcement can address.

The business community, which has worked tirelessly to survive the pandemic, suffers rampant retail theft and a loss of customers and employees due to unsafe conditions inside and outside their place of business. Retail theft also fuels illegal street vending. The selling of stolen goods generates cash that supports drug sales. Only authorized law enforcement may address these issues.

We must put an end to unsafe conditions in Mid Market by all means possible. Just combating the selling of illicit drugs in the area would stem the flow of many of the problems Mid Market and surrounding areas face. With efforts like the Mayor's proposed \$27M additional funding for more SFPD resources and staffing to prosecute drug crimes, we can start to imagine a much brighter and better future.

Please protect our organization's investment in public safety personnel and the City's investment in Community Ambassador programs by also supporting funding for the essential law enforcement resources to back these services up and restore safe and civil streets in Mid Market.

Sincerely,  
Mid Market Community Benefit District

Mid Market Community Benefit District is a privately-funded  
501c3 not-for-profit organization that works in tandem with  
City agencies to enhance the Mid Market public realm.

San Francisco Board of Supervisors  
1 Dr. Carlton B. Goodlett Place, City Hall, Room 244  
San Francisco, Ca. 94102-4689  
Board.of.Supervisors@sfgov.org

Dear San Francisco Board of Supervisors,

**Approve the Mayor's \$27 million budget supplemental to fund police overtime, public safety ambassadors and additional staffing at the District Attorney's Office to focus on drug dealing.**

Efforts to combat illegal activity affecting residents, business owners, visitors, CBD field crews (and all front-line street workers both public and private) need more support from law enforcement!

Community Ambassadors and the City's Healthy Streets Operations Center (HSOC) are not sufficient (nor are they authorized) to address illegal activity.

The Mid Market area is highly complex and requires extra policing. It is the heart of the downtown core surrounded by Civic Center, the Tenderloin, SoMa and Union Square. With its convenient access to freeways, regional transit lines, residential density and visitor foot traffic – criminals want to do business here.

Mid Market is home to thousands of residents. Many live in newly constructed residential buildings; others live in the District's 41 single room occupancy hotels, or in numerous other affordable housing units. What's more, there are 27 social services agencies within our District alone (see attached map) treating at-risk individuals; many of whom are battling drug addiction amidst our City's Fentanyl crisis. Currently, these individuals step out their door onto streets filled with drug dealers, open-air drug use and other predatory behaviors only law enforcement can address.

The business community, which has worked tirelessly to survive the pandemic, suffers rampant retail theft and a loss of customers and employees due to unsafe conditions inside and outside their place of business. Retail theft also fuels illegal street vending. The selling of stolen goods generates cash that supports drug sales. Only authorized law enforcement may address these issues.

We must put an end to unsafe conditions in Mid Market by all means possible. Just combating the selling of illicit drugs in the area would stem the flow of many of the problems Mid Market and surrounding areas face. With efforts like the Mayor's proposed \$27M additional funding for more SFPD resources and staffing to prosecute drug crimes, we can start to imagine a much brighter and better future.

Please protect our organization's investment in public safety personnel and the City's investment in Community Ambassador programs by also supporting funding for the essential law enforcement resources to back these services up and restore safe and civil streets in Mid Market.

Sincerely,  
Mid Market Community Benefit District

Board of Supervisors

C/O Angela Calvillo, Clerk of the Board

City Hall, 1 Dr. Carlton B. Goodlett Place

Suite #244

SF, CA 94102

Board of Supervisors,

The Lower Nob Hill Neighborhood Association (LNHNA) is in full support of the Resolution put forth by Supervisor Aaron Peskin which urges the Recreation and Parks Department and its Commission to immediately adopt flexible criteria for its acquisition of potential open space and green recreation, parklet and pocket park sites in Lower Nob Hill. This Resolution calls for *prioritizing smaller parcels* of 2,000 sq. ft. to 5,000 sq. ft. in order to create open space, green recreation, parklet and pocket park sites which we so desperately need in our corner of San Francisco.

Lower Nob Hill is literally a concrete jungle in many respects with very little “green space” available to create any parks moreover parks greater than 5,000 square feet. This particular resolution, which directly addresses prioritizing smaller parcels (2,000 to 5,000 sq. feet), is integral to the much needed “greening” of our community. Our neighborhood is a close-packed district of residential buildings with a height of three to seven stories high. For blockfront after blockfront the apartments and hotels march along at nearly even cornice lines, breasting similar bay windows and fire escapes above the sidewalk steps and storefronts. It is on the National Register of Historic Places as an Apartment & Hotel District. But alas....it has no parks because it is a concrete jungle. Our residents need places to relax, breathe in fresh air, take the children to play, enjoy peace and quiet. Currently we have very little if any.

Lower Nob Hill includes the Post and Geary Street Corridors which both serve as the gateways, both in and out, of Union Square. While cars bustle by in and out, pedestrians likewise walk this gateway as they stroll from Van Ness to Powell. The addition of green spaces and parklets along the way would provide opportunities for pedestrians and strollers alike to stop, rest, take in the views, enjoy the beauty of our Historic and Unique corner of our City on their way into downtown. Everyone wins!

The Lower Nob Hill Neighborhood Alliance strongly supports this resolution and will stand ready to support whatever it takes to bring small parcels of green space into our beloved community.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Board of Supervisors:

As the Executive Director for the [Tenderloin Community Benefit District](#) (TLCBD), I am writing to support the \$27 million police budget supplemental to fund operations through the end of the fiscal year. The San Francisco Police Department is a valued partner to the TLCBD and the broader Tenderloin community which we serve, and we support Mayor Breed's request to maintain adequate funding levels to provide no less than the same level of service in the Tenderloin and our neighboring communities. The success of the Tenderloin means the success of San Francisco as a whole – as a city, we must ensure that the resources our community receive reflect the prioritization our community deserves. We request that the majority of this funding is dedicated to addressing the crisis of fentanyl dealing in the Tenderloin, particularly expanding operations at night so Tenderloin residents can sleep.

The TLCBD is a non-profit organization established by a diverse group of Tenderloin residents and property owners who share a common mission to uplift and improve the conditions of the neighborhood through the power of grassroots organizing and citywide collaboration. For nearly two decades, the TLCBD has served our culturally rich, family-dense, and vibrant community and now conducts critical neighborhood services such as street cleaning, park stewardship, and safe passage programs to walk children to and from their local schools. Our mission involves making the Tenderloin a special and welcoming place, ensuring that the unique fabric of our beloved community is woven with neighborhood pride, economic opportunity, and a commitment to empowering those who live and work in the Tenderloin.

As one of the most important fixtures to maintaining a safe and healthy environment in the Tenderloin, the police are integral partners in mitigating our neighborhood's most pressing issues, such as open-air drug dealing, violent crime, theft, human trafficking, and vandalism. Specifically, this funding would support SFPD Tenderloin Station's ability to sustain and expand on its recent efforts to eliminate fentanyl drug dealing in our community. SFPD's capacity to serve the Tenderloin depends on its department being well-equipped and properly staffed. Community consensus says we need to recruit, train, and retain more police officers who embody San Francisco's inclusive values, and this

supplemental funding will prevent any mandated service cuts and a new hiring freeze.

By approving the \$27 million budget supplemental to fund police operations, the Board of Supervisors can not only help prevent the detrimental impacts that could come due to an understaffed police department but also meet an increased need for law enforcement in the Tenderloin and operations for tourism development and sustain the impactful community ambassadors program citywide.

For these reasons and more, we respectfully ask that the Board of Supervisors approve the \$27 million budget supplemental to fund police operations as soon as possible so the San Francisco Police Department can better serve our communities and respond to the fentanyl crisis in the Tenderloin.

On behalf of our organization, I appreciate your consideration.

Thank you,

Kate Robinson | Executive Director

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing ***on behalf of Trinity Management Services*** to reinforce my support for Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a **Union Square stakeholder**, I want to show my gratitude for all support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy and rely on our police department to keep all San Franciscans, workers, and tourists safe.

***Our company owns and manages several prominent buildings in the Union Square area, including: 201 Post Street, 233 Post Street, 111 Maiden Lane, 105 Grant and 140 Geary Street. Some of our retail tenants include: Cartier; Fendi; Hermes; Van Cleef and Arpels; Valentino and Bottega Veneta. With 8 – 10 floors of offices in most of our properties, the role that SFPD plays in the day-to-day lives of our tenants, their staff, the office personnel, and the shoppers/visitors is enormous.***

I feel that it is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

1145 Market Street, 12<sup>th</sup> Floor,  
San Francisco, CA 94103  
Office: (415) 864-1111, Fax: (415) 864-5188  
[TrinitySF.com](http://TrinitySF.com)

*An active, fully staffed and engaged police department is crucial for the revitalization of our Union Square community. Shoppers, store-staff, office workers, tourists, visitors, and the general public at large, need to feel safe when in Union Square. What used to be a vibrant destination shopping and business area, became blighted during the pandemic. Further, the "riots" hit us very hard, with storefronts being smashed, trucks driving through storefronts, their occupants attempting to steal (we had this happen at two of our buildings!) ... we have gone through a nightmarish few years! Theft, security officers being thrown to the floor by thugs and thieves, storefront windows being smashed (in fact one of our tenants had the same pane of glass in their storefront broken 3 times, at \$20k a pop!*

*It's difficult to encourage office staff to return to the workplace for many reasons, including their safety, then when leases come due for expiration and/or renewal ... tenants are downsizing, or even worse, walking away. Yes, the media hasn't helped during these difficult times, by broadcasting our woes, but we can come back strong, we will come back strong, we are coming back strong.*

*The police presence in Union Square of late has been fabulous, we need to keep this up and improve where possible. It is so encouraging to see the officers present, active and engaged. We NEED this, we need your support. If we slide again, the general public will suffer, the property owners will suffer and the City ultimately will suffer with decreased revenues from property taxes, sales taxes and businesses falling by the wayside.*

Importantly, this supplemental will also help continue staffing SFPD Community Ambassadors. Due to these unprecedented shortages, these retired officers are essential to continue providing foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

Paul Wallace  
Commercial Property Manager

**Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai**

Dear Budget and Finance Committee:

I am writing on behalf of the Union Square Alliance and Union Square Foundation to ask your support for Mayor Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a Union Square stakeholder, **I want to show my gratitude for support to date.** The recovery of San Francisco is dependent on safety; and a **fully staffed San Francisco Police Department** will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy and rely on our police department to keep all San Franciscans, workers, and tourists safe. This funding is crucial for our police department to accomplish this.

I am a resident of District 5, and work on a daily basis in the Financial District. I am also on the Board of Directors of the Union Square Foundation and have previously served on the Board of Directors of the Union Square BID/Alliance and the Yerba Buena CBD. My job takes me to a wide variety of locations throughout San Francisco. As I travel through the city each day, it is apparent that we need police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

As a citizen and worker in San Francisco, this supplemental budget request is important to both myself, and the company I work for. After living here since 1999, I now find that I am sometimes fearful of walking down the street in my own neighborhood, which coincidentally is only 1/2 block from one of our police stations. In years past, I greeted everyone who I walked by, waved, and asked people if they needed assistance to cross the street....but now it seems that more and more I keep my head down, don't make eye contact, and don't engage others in my neighborhood. Why? I am fearful that I may put myself in danger by engaging others on the street. For someone like me who has lived as a compassionate person; feeling this way really brings on apathy. I wonder how many other citizens of San Francisco feel the same way. I wonder if visitors, convention attendees, tourists, and workers feel the same way.

This supplemental will also help continue staffing SFPD Community Ambassadors. Due to the unprecedented shortage of police officers, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square, which I have considered as the jewel of the city since I first became a citizen of San Francisco.

**I ask you** to strongly consider **passing** this budget supplemental so San Francisco can continue on its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Thank you for your Leadership,

Spencer Sechler

President Aaron Peskin and Board of Supervisors  
City of San Francisco  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Dear Members of the Board of Supervisors,

On behalf of the Mid-Market Business Association we urge you to support Mayor Breed's request for a \$27 million budget supplemental to fund police overtime through the end of the fiscal year. The supplement will help ensure that the police department can retain the current below bare minimum level of staffing required to prevent drug dealing and crime from increasing. Without this supplemental funding, the police department will lose current police shifts and be unable to address the rampant open air drug markets in the city.

The Mid-Market neighborhood has suffered greatly from the open-air drug dealing occurring on virtually every block. Small business and residents in the neighborhood have been negatively impacted. Mid-Market is currently suffering a 40% vacancy rate of street level retail. We are working with the private sector businesses, property owners, arts and cultural organizations to change the experience along Market Street. But, all of the investment and energy will be for naught if the open-air drug dealing does not end. We believe this cannot happen without the assistance of SFPD.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue on its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

Ivy Yee-Sakamoto

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

Clerk Angela Calvillo,

Dear Supervisors, especially Supervisor Connie Chan:

I wholeheartedly support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

And, if Supervisor Connie Chan holds this up, she and her supporting colleagues will be at the top of the list for accountability for the abyss of problems that will follow such folly. All anti-police ideology MUST be taken off the table, and the security of ALL San Franciscans (and visitors) be put in TOP PRIORITY. Ms. Chan: do NOT meddle with our safety and well-being by refusing to include the \$27 million in SFPD supplemental funding. Imposing a faulty belief system/anti-police ideology that is FAILING us will be a political mistake of epic proportions.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you,

Alexander Castro

This city has become a cesspool, and a very dangerous one at that. Defend the police is the most irresponsible and ignorant policy one could force on a city. This needs to stop immediately. How about we honor the men and women who put their lives on the line to protect people in this city, rather than drag them through the mud for preposterous progandized rhetoric which only serves to hurt everyone.

Thank you.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023. This is a tiny amount to help make a dent in an intolerable situation.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

Clerk Angela Calvillo,

Dear Supervisors,

Public Safety is the #1 priority on the minds of San Franciscans, the #1 thing needed to get S.F. to rebound and as such it should be treated as the #1 priority on the minds of our leaders on the board of supervisors. I support the Budget Supplemental for the San Francisco Police Department in full.

Working in Real Estate in the Bay Area, I see the numbers and hear the reasons why investors are avoiding investing in our City: safety, and crime are top concerns. As a SF resident they are my top concerns. Please expedite all matters that concern safety, especially the Budget Supplemental measures to ensure our police department has the resources they need to ensure the safety and well-being of our City. If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe. Please protect public safety and protect SF livelihoods.

Thank you.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Supervisors,

I support Supervisors Mandelman and Engardio's ordinance appropriating \$199,286 for three new positions in the Office of the District Attorney to address open-air drug dealing in Fiscal Year (FY) 2022-2023.

Long-awaited cooperation between our Mayor, District Attorney, and the Police Chief has resulted in significant progress in arresting drug dealers that prey on our most vulnerable San Franciscans.

Arraignments for felony narcotic sales have nearly doubled for the second half of 2022 compared to the second half of 2021.

Our District Attorney's Office requires this small amount of additional funding to prosecute this nearly doubling of cases and we strongly urge the Board of Supervisors to authorize these additional funds.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

March 15, 2023  
Budget and Finance Committee  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Email: Cc: Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing to show my support for Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a Union Square stakeholder, I want to show my gratitude for support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy, and rely our police department to keep all San Franciscans, workers, and tourists safe.

I live (D3)and work (D5)in the City.

I feel that it is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

Having safe streets is really important for visitors and for groups planning meetings in SF. I am the General Manager at the Hilton/Parc 55 and the reputation of San Francisco is suffering domestically and globally due to perceptions about the safeness of our city.

I

This supplemental will also help continue staffing SFPD Community Ambassadors. Due to these unprecedented shortages, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

**Terry Lewis** | Complex General Manager

**Date:** Thursday, March 9, 2023 7:45:08 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Aditya Bhumbra and I live/work in District 5. I'm an organizer with DSA SF.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Bianca and I live in District 11.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Jesse Stout and I live and work in District 6.

Many San Francisco residents and city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government. It is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

In 2022, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved SFPD's massive \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

SFPD already spends A LOT per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

The recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

San Francisco is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting

police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent      L Wong  
Email                              renonv87@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Atakan and I live/work in District 7

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Simone Manganelli and I am a longtime resident and homeowner of District 8.

I am tired of sending this email, week after week, month after month, year after year. Stop giving cops money. Don't give them any more money, and cut their existing money.

Cops don't need more money. Cops should be fired. Cops ROUTINELY lie, murder, and kill San Franciscans. They still use many times the use of force against Black people that they do against white people, even though the Mayor and Police Chief are Black and supposedly care about these disparities. (Spoiler alert: they don't.)

Of major cities, San Francisco is by far the city that devotes more money per capita to cops, who sit around and do nothing, and intentionally try to get the DA booted from office.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Stephen Woods and I live in District 4. My wife is a teacher in the SFUSD, and over the last year has had to deal with missed paychecks, chaos and staff shortages. Just this week we found out the district made an error with taxes! So all this is going on and in the district and nobody seems to care or want to fix it. What I'm hearing from our city leaders is just that we need to make "hard choices" about school funding. So against this backdrop I was pretty horrified to hear that the Mayor was calling for yet more funding increased for SFPD! And for starting salaries that are HIGHER than the highest salary paid to teachers in SFUSD! The following comes from a form letter, but I support it, and I would expect the city to not increase SFPD pay.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding

to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration. All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Matt and I live/work in District 4.

I am disappointed to see the news that the mayor and many supervisors are planning to increase police funding in San Francisco. I believe we should be reallocating a meaningful amount of money from policing to more positive forms of support for people who need support.

The SFPD is already funded highly per capita and we have high police staffing per capita; however, SFPD is taking longer to respond to calls and has stopped enforcing traffic laws. I do not believe we should reward the SFPD with more money while they are operating as poorly as they are.

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent      Elizabeth Clark

Email      swimeclark@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

**From:** [Brian Adler](#)  
**To:** [Calvillo, Angela \(BOS\)](#)  
**Subject:** Support for the Budget Supplemental for the San Francisco Police Department  
**Date:** Friday, March 10, 2023 9:48:05 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Dear Supervisors,

I support the Budget Supplemental for the San Francisco Police Department.

If the Budget Supplemental does not pass by the end of March, SFPD will have to immediately cut police hours and patrols in our neighborhoods. Hiring of new police officers will be halted, at a time when SF has 340 fewer police than it did in 2019. This is unacceptable.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours. This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short-term remedy for our current shortage of SFPD officers is urgently needed to keep San Franciscans safe.

Thank you.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Edna and I live/work in District 4. I organize with the Democratic Socialists of America (DSA) San Francisco chapter.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

I have spent the last 3 years really committing to local organizing in San Francisco, in particular around homelessness, and what I have witnessed time and time again is austerity and massive lacks of capacity for every single issue that affects people living and working in San Francisco. A constant lack of resources allocated, while a massive resource pool exists in the police budget. It does not take much investigation to see the result of prioritizing the police budget at the expense of ALL other budgets in the City. It is shameful to see this dynamic play out in San Francisco, similarly to how it plays out with outrageous military spending on the federal level. One thing I read and hear time and time again out of City departments is that SF is considered an example for homelessness policy. If true, that is terrifying. HSH's own recent reporting has provided detailed accounts of the costs it would take to meaningfully decrease and curb ongoing homelessness, and there is no sufficient funding allocated to this effort, yet PLENTY of money to increase the violent SFPD. This rings true in so many key areas of SF's functioning. IT IS UNACCEPTABLE.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Mark Hogan and I live in District 4 and own a business in District 10.

It seems like every time I read the news in San Francisco, I'm reminded that our transit agencies are facing a "Fiscal Cliff" and there are going to be "hard decisions" ahead... yet now I see that the SFPD is going to get yet another handout outside the budget process.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does

nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent      Jason Morrison  
  
Email                              jason.p.morrison@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

**Subject:** This D6 Resident Asks You to STOP SFPD Giveaways!  
**Date:** Friday, March 10, 2023 12:09:36 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Serena and I live in District 6.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing. It is nauseating to see this come up when we don't even have a functioning payroll system for SFUSD teachers, MUNI is looking at cutting service, and supportive services like the Tenderloin Center are closing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend. SFPD doesn't have a budget problem, they have an accountability problem. It is astonishing that we put so much money into an organization that consistently does not provide positive results. Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer-to-resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime. My partner and I have been dealing with a violent person who has moved onto our street, who attacked someone with a chain one night. SFPD did not respond that night, or to other calls about this person. At this point, it feels useless to even contact SFPD.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. CCSF students had to attempt to learn in rooms as cold as 42 degrees on the CCSF campus this winter. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability, which has worsened conditions on the streets. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%. I refuse to believe that millions more dollars going into SFPD's coffers would do more to serve and protect San Francisco residents and visitors than if it were slated to fund our schools, healthcare, supportive housing, and city infrastructure.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, I ask every San Francisco resident, and in particular the Mayor and Supervisors that we rely on to represent us: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Supervisor Melgar,

My name is Enia Titova and I live in your district.

I'm writing to you with a request that you vote to oppose the request to increase the SFPD budget.

Last week, I called into the committee meeting re the City's complete failure on its VisionZero mission. And what I heard appalled me: Commander Walsh spent his entire time blaming his officers' lack of enforcement on anything and everything: body cams, the length of time it takes to perform administrative tasks associated with writing a citation, completely made up statistics. Everything but take accountability for the fact that SFPD officers have given up on enforcing the law in this city.

And now they want more money?!

Why?! Have they shown any progress towards accomplishing the goals of public safety each time their budget is increased?

There's absolutely no accountability in our police department. Why would officers bother to do their jobs when all they hear is their leadership blaming the lack of their success on understaffing. What rank and file officers hear is: regardless of what I do, I will not lose my job. So why bother doing it?

So to ask us, the tax payers of San Francisco, to increase their budget once again, when other vital city services are going unfunded in a way that has all but killed civil life and social safety nets in this city is outrageous.

When we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

I ask you to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Selby Wynn Schwartz and I live in District 3. I've lived in San Francisco for many years, and like many people in my Lower Nob Hill neighborhood, I am very concerned about safety and well-being in my community.

When I say "health and well-being," I mean: protected bicycle lanes EVERYWHERE! better public health care! free public transportation! proper mental health resources! enough affordable housing! a strong post-incarceration support system to help people get jobs and help them begin to give back to their communities! no more hand-outs and tax breaks for massive tech corporations! lots of community ambassadors helping people find housing and substance-abuse programs! plentiful funding for public art and the artists who make it possible! an end to San Francisco's shameful history of police violence against people of color and low-income communities!

What I DON'T mean by "health and well-being" is \$713 million--or more--for the SFPD. We already have scores of police officers hanging around Union Square, protecting luxury handbags, which is a waste of money. We already have a terrible record of officers harassing and using violence on communities of color. What we need are more teachers, more bus drivers, more community ambassadors, more social workers, more nurses, and more public services for ALL of us. I stand with DSA in asking: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Sincerely,  
Selby Wynn Schwartz

Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

**Date:** Friday, March 10, 2023 7:21:53 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Hi I'm Scott, a District 9 resident.

Please reject the proposed SFPD budget supplemental, and instead give the money to Muni to restore transit service.

I used to ride the 12-Folsom bus regularly, now I can't rely on it because service cuts have made it so infrequent due to Muni operator shortages.

In contrast, there is NOT a shortage of police officers in San Francisco. That is fiction. The SF Chronicle recently reported that we have more police officers per capita than any other big city in the state, and cited crime researchers who did not support the idea that hiring more police would improve public safety. ([https://url.avanan.click/v2/\\_\\_\\_\\_https://www.sfchronicle.com/crime/article/Is-the-San-Francisco-Police-Department-actually-17079550.php\\_\\_\\_\\_YXAzOnNmZHQyOmE6bzo4ZGQ2YTlkzMjgxMzZlOTQyMzFIMzkyYzIxZDFkNGlzMjQ2OjcxZjM6YjRlMjdiYTQyMzg2YjMyNjk0ZGE1ZmFkNjRmODk2NjYwN2F0ThMTI5MmFmFiYzUzYThhN2VhNTVMTAzNGQ1ZjpoOIQ](https://url.avanan.click/v2/____https://www.sfchronicle.com/crime/article/Is-the-San-Francisco-Police-Department-actually-17079550.php____YXAzOnNmZHQyOmE6bzo4ZGQ2YTlkzMjgxMzZlOTQyMzFIMzkyYzIxZDFkNGlzMjQ2OjcxZjM6YjRlMjdiYTQyMzg2YjMyNjk0ZGE1ZmFkNjRmODk2NjYwN2F0ThMTI5MmFmFiYzUzYThhN2VhNTVMTAzNGQ1ZjpoOIQ))

SFPD has an accountability problem, not a funding problem. Its own reports show, for example, that traffic cops in some stations wrote ZERO tickets in December for safety-critical "focus on the five" violations ([https://url.avanan.click/v2/\\_\\_\\_\\_https://www.sanfranciscopolice.org/stay-safe/crime-data/traffic-violation-reports\\_\\_\\_\\_YXAzOnNmZHQyOmE6bzo4ZGQ2YTlkzMjgxMzZlOTQyMzFIMzkyYzIxZDFkNGlzMjQ2OjA4YWl6M2RkY2NkYmZkZTZhODQ4NmMzYTQxNmJmN2M1NGFkZGMxZmZlYzQ3ZTA1NDYxM2QxY2MzMzQzMTE4NTFjYTE2YjpoOIQ](https://url.avanan.click/v2/____https://www.sanfranciscopolice.org/stay-safe/crime-data/traffic-violation-reports____YXAzOnNmZHQyOmE6bzo4ZGQ2YTlkzMjgxMzZlOTQyMzFIMzkyYzIxZDFkNGlzMjQ2OjA4YWl6M2RkY2NkYmZkZTZhODQ4NmMzYTQxNmJmN2M1NGFkZGMxZmZlYzQ3ZTA1NDYxM2QxY2MzMzQzMTE4NTFjYTE2YjpoOIQ)). Why would we give more money to a department that isn't doing its job with what it has?

In fact, in 2022, the police contract was just amended to include longevity bonuses, pay raises, and sign-on bonuses. Transit operators got none of these concessions, nor did other city workers like teachers, street cleaners, firefighters or nurses. So the police already just got rewarded for not doing their jobs. Why do that again?

I also agree with the points made in all the form letters you are receiving against the SFPD giveaway, but I wanted to make it snappy and emphasize Muni because, as a transit rider, this is so frustrating. Muni has scaled back and delayed planned service restorations several times. It faces a \$215 million deficit as federal pandemic funding runs out, and its board of directors has been forced to consider the possibility of cutting service by 25%.

Please reject these proposed SFPD giveaways, and reinvest the money into essential public services that will rebuild SF -- like Muni.

## Message to the Board of Supervisors

From your constituent      K. R. Schwartz

Email      kielygomes@yahoo.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

**Subject:** Stop SFPD Giveaways!  
**Date:** Friday, March 10, 2023 9:03:18 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is John Grogg and I've lived in District 3 for five years now. The proposed SFPD budget increase is unacceptable.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Email                              debbiesymanovich@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I VERY STRONGLY support the Mayor's Budget Supplemental for SFPD!!

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent      Meina Young

Email      meinayoung1@gmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

I'm a long-time SF resident, living down the street from the Police Academy. (They are awful neighbors. I'd like the elementary school back.)

I'm tired of the sob story that SFPOA and SFPD chiefs keep telling us about their needs. They aren't doing the basics of their jobs. They intentionally underperformed so as to facilitate the political removal of the D.A.

San Francisco needs to be better than these political shenanigans.

I suffered three garage break-ins. I gave an hour of footage, including faces of perpetrators to the Burglary Unit. They did nothing. I located some of my stolen items, with matching serial numbers, on a website. I had to verbally browbeat the Burglary Unit to recover these items, which they did by calling the listing person and asking them to turn them in. No arrest was made and no investigation occurred. I have suffered a high loss, well over the felony limit, and they did nothing. According to the webhost where the video was posted for them to download, they didn't bother.

Do not cave in and give SFPD a blank check as they're asking for! I'd like to see reform of SFPOA and removal of any chiefs that were complicit in the scheme to underperform for political reasons. I've had enough of SF being made an example of on right-wing news because of the collaboration of these right-wing police leaders.<sup>3</sup>

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Lea and I live in District 6.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD. It is also clear that San Francisco needs financial assistance from Governor Newsom and the Federal Government to build new mental health facilities in the State which were removed by Governor Reagan. In addition, we cannot wait 5-10 years for the SFPD to hire new police officers and need State and Federal recruitment efforts and provide housing to police so they can live and work in San Francisco. This can be done and we will mobilize our taxpayers in SF to make this happen.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

THIS SHOULD BE NON NEGOTIABLE. My friend's son was robbed at gunpoint last week. Two men each had guns on his stomach while they robbed him. He was walking back from the train to his son. 15 year old. Now he can't stop thinking about it.

The damage you are doing by NOT voting to help is unacceptable.

YOU ARE MAKING SF MORE UNSAFE with your ineffective policies. At a minimum, we need our SFPD to be funded for more overtime. It's not the long term solution, but we need this NOW. We need to hire more SFPD to the regular police force.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I am writing to urge you to fully fund the San Francisco Police Department (SFPD) by supporting Mayor Breed's proposed budget supplemental of \$27 million. As you may already know, the funding will allow SFPD to maintain overtime police hours, continue neighborhood patrols, and disrupt drug dealing in the Tenderloin.

It is my understanding that Budget and Finance Committee Chair, Connie Chan, has been stalling on this matter. I implore you to do everything in your power to ensure that this proposal is heard and passed during the upcoming hearing on March 15th. The consequences of not passing this proposal by the end of March are dire, as SFPD will have to cut 10-15% of police hours, which is unacceptable.

As a responsible and urgent measure to keep San Franciscans safe, it is imperative that SFPD receives the funding needed to address the current shortage of officers. Increasing SFPD officer overtime is a short-term remedy that is necessary for maintaining current levels of service.

I urge you to take swift action and fully support Mayor Breed's proposal for the SFPD Budget Supplemental. Please do not hesitate to contact me if you need any further information.

Thank you for your attention to this matter.

Sincerely

---

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Andrew and I live/work in District 9. I am a DSA member and a laid off tech worker.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Andrew Dai

## Message to the Board of Supervisors

From your constituent      Mabel Ng  
Email                              mcfng@hotmail.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

---

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

It is unfortunate that we don't have more police offers and have to rely on overtime. Increasing overtime is as a short term remedy to our current shortage of SFPD officers. But it absolutely has to be done (and urgently) to keep San Franciscans safe.

(The next phase will be attracting more police officers to San Francisco. San Francisco is getting ever more scary and I'm sure more people are buying guns for home defense; but it's not a good route to have to go.)

Thank you.

**Date:** Sunday, March 12, 2023 8:35:27 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Jabez and I live in District 3.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into state workers who actually make the world a better place— teachers, transit workers, trauma-conscious compassionate crisis response.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Elliya and I live in District 8 and work in District 9.

I was devastated to hear about the planned significant budget increases for SFPD. It's 2023 and we all know that policing is a fundamentally racist institution that is not serving the needs of non-white San Franciscans. In particular, we know that SFPD has a worse track record on race issues than other police departments around the state. It shocks me to think that we are making moves to become an even more exclusionary city, given how great the disparities already are between wealthy & poor, white and POC, housed & unhoused, etc in the city today.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds — and is frankly insulting to the public. We do not need more police officers or more incentives for police officers. We need better social services that reduce the causes of many needless police calls (e.g. housing more people).

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. ## Message to the Board of Supervisors

From your constituent      Robin McMillan  
  
Email                              rkmcmillan@viselect.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Cheryl Meeker and I live/work in District 5.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of  
Supervisors

Dear Supervisors,

I support the Mayor's Budget 2\$27m Supplemental for SFPD.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you. G Young

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Dear Supervisors,

I am writing you to express my full support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

San Francisco needs to have clean and safe streets as a top priority for our City to regain its position as a premier worldwide destination for travelers, workers, and residents alike. The Mayor's supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The City cannot afford to lose any more officers, and we are at a breaking point when it comes to staffing at the San Francisco Police Department. Sworn staffing levels have fallen tremendously and the department is more than 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases in order to provide for critical public safety functions. By failing to fund police overtime, calls for service will not be met and our basic public safety needs will not be met.

Additionally, we also write to express our full support for SFPD Community Ambassadors. These retired officers are doing an incredible job enhancing public safety in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue to recover and so that we can support a safe and healthy San Francisco.

Sincerely,

**Stefan Muhle**

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

## Message to the Board of Supervisors

From your constituent      Marshall Terpstra  
Email                              mjterps@yahoo.com

### **I support the Mayor's Budget Supplemental for SFPD.**

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Hi,

I want to register my support for the Mayor's \$27M additional funding for the police department.

We must ensure that we make every effort for San Francisco to have clean and safe streets. This is a basic requirement for any community and my employees and customers tell me all the time that this is their number one issue with San Francisco.

Our economic core needs this support from our police and the police need our financial support.

Sincerely,

Steve Sarver

Hi,

My name is Sarah Bacon and I am the owner of Nourish Cafe, with locations in the Inner Richmond and Nob Hill neighborhoods.

I am writing today in support of Mayor Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

This additional funding will ensure the police will be able to continue to meet current levels of service, and it will prevent mandated service cuts in addition to a hiring freeze.

This is essential for our industry's continuing recovery efforts. We must ensure that San Francisco has clean and safe streets, which includes police patrols, police responses to small businesses, and general safety on our streets. I ask you to support this supplemental funding.

Thank you,

Sarah Bacon  
Nourish Cafe

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

About a week ago, my 15 year old son was held at gunpoint and robbed in our neighborhood, Midtown Terrace. Thankfully he is OK and the police responded promptly. However, it is critical to protect the people of SF and continue to have police presence. These criminals already believe they are untouchable given how the city has handled crime and prosecutions over the past couple of years and they are starting to push the boundaries. I am concerned for the safety of my family and friends if we cut this funding. DO NOT make this critical mistake!

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.  
-Kristin Vines

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Sam Sullivan and I live/work in District Six.

At a time when the wealth divide in our city is growing larger and more and more San Franciscans are being left behind, huge budget increases to the SFPD are not the way forward, particularly before budget negotiations even begin.

I ask you to give increased funding to community services, particularly around healthcare and housing, rather than our already wealthy police department.

Sincere thanks,  
Sam Sullivan  
District Six

1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Dear Supervisors,

We appreciate the opportunity to share our support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

Ensuring San Francisco has clean and safe streets is a top priority as the City begins to regain its momentum and change the narrative that it's an unsafe place to live, visit, and work. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The City cannot afford to lose officers if it wants to properly curtail drug dealing and illegal use of narcotics, and reduce gun violence, homicides, and violent crimes. Sworn staffing levels have fallen precipitously in the last three years and San Francisco is now 331 officers lower than in 2019 and 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases in order to provide the same level of service. However, expanded overtime has reaped immediate benefits, including the ability to respond to over 34,000 additional calls for service.

Importantly, this supplemental also will help continue to support SFPD Community Ambassadors. These retired officers are essential to continue to provide foot beat patrol in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset,

and Fillmore.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue on its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,  
Kristen McCaffery

**Subject:** Stop Pouring Money into SFPD !  
**Date:** Tuesday, March 14, 2023 6:29:35 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Olivia and at a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police

officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets.

Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

We must pay our police officers and keep the police academy open. Passing the supplemental police funding bill is absolutely essential. Without this funding, the Police Academy will not be able to train new officers until next fiscal year, the department will lose even more qualified officers, and calls for help will go unanswered since officers won't be able to work overtime.

Supervisor Chan, police officers are working overtime to keep us safe. Not voting to approve their overtime flies in the face of what the majority of regular San Franciscans demand from City Hall. Do not fail the vast majority of San Franciscans who want police to do their jobs.

Supervisor Chan, please introduce the supplemental funding measure at Budget Committee and vote YES.

Thank you.

Message to the Board of Supervisors      Dear Supervisors,

I support the Mayor's Budget Supplemental for SFPD.

The SFPD Budget Supplemental will provide \$27 million of immediate funding to the SF Police Department to maintain overtime police hours.

This allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable.

Increasing SFPD officer overtime as a short term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

You can not divert any more money from SFPD, it harms people from every community.

Thank you.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Austin and I grew up in District 3 and 6, and work in District 6.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Sayuri Falconer and I live/work in District 3.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

I personally have been on food stamps while living in San Francisco this past year and a half and thanks to public programs like CalFresh I have survived long enough to acquire the skills I need to get a full time job and become self sufficient, which means more of my tax dollars disappointingly going to police instead of young people like me who moved here for the opportunity to make a difference despite the cost of living.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Dear Supervisors,

As a 30-year resident of San Francisco and merchant in the Tenderloin over the past 12 years, I appreciate the opportunity to share my support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

Ensuring San Francisco has clean and safe streets is a top priority as the City begins to regain its momentum and change the narrative that it's an unsafe place to live, visit, and work. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The City cannot afford to lose officers if it wants to properly curtail drug dealing and illegal use of narcotics, and reduce gun violence, homicides, and violent crimes. Sworn staffing levels have fallen precipitously in the last three years and San Francisco is now 331 officers lower than in 2019 and 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases in order to provide the same level of service. However, expanded overtime has reaped immediate benefits, including the ability to respond to over 34,000 additional calls for service.

Importantly, this supplemental also will help continue to support SFPD Community Ambassadors. These retired officers are essential to continue to provide foot beat patrol in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

I urge you to strongly consider passing this budget supplemental so San Francisco can continue on its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Lea and I live in District 6.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Lauren Woomer and I live in District 8. I am writing today to oppose giving SFPD another budget increase and encourage instead spending that money on other services that help San Franciscans who need it most.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration. And Supervisor Matt Dorsey still calls for increased signing bonuses for new officers, which would just continue this unfair and unjustified use of public funds.

The Mayor and Board of Supervisors also approved a massive \$713 million SFPD budget for 2023, which it is on track to overspend. Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. And still Mayor London Breed introduced an ordinance seeking an additional \$27.6 million for SFPD's budget for this fiscal year (2023), which would bring this year's budget to a total of \$740.6 million. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators

being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Massive inequality like that seen in San Francisco creates the conditions of desperation that lead to crime. When a person's needs for food, water, housing, healthcare, transportation, education, are not met, they will resort to other means of meeting their needs in order to survive. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. In fact, our criminal punishment system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into services for the most vulnerable San Franciscans.

March 15, 2023

Board President Aaron Peskin, Honorable Connie Chan,  
Honorable Catherine Stefani, Honorable Shamann Walton  
Honorable Joel Engardio, Honorable Dean Preston  
Honorable Matt Dorsey, Honorable Myrna Melgar, Honorable Rafael Mandelman, Honorable Hillary Ronen  
Honorable Ahsha Safai

We are the owners/operators of **The Grove - Yerba Buena** and **Empire Pizza**, both located on Mission Street between 3rd and New Montgomery. (Is that a “downtown interest”?) By “owners”, we mean it’s all our own money invested and at risk, not venture capital or private equity.

We also have lived 5 blocks away for 19 years.

Here are some numbers for our businesses that we blame on this City’s lack of police in general and foot officers specifically.

. **\$80k/year we pay in private security guard costs.** Because very, very rarely are beat cops on the block - even though within 2 blocks are Moad, SFmoma, Contemporary Jewish Museum, Yerba Buena Gardens, W Hotel, St Regis, Hyatt, and local retailers. Our security is not to protect merchandise, not to protect cash - rather, to protect customers and staff. So we can stay in business.

We are 2 neighborhood restaurants, not Tiffany! How can you leave us and others like us in this mess?

. **\$1.8mm sales have 100% of what would be been profits for our investment and work are instead applied to security.**

. **60,000 meals: the number we need to serve to get the 1.8mm sales to pay security.**

Why?

Because within just 2 months we experienced, On Restaurant Premises, we had 2 young customers robbed at gunpoint for an iPhone, 1 older customer punched out by a passerby he

had never seen in his life, multiple employees scared to come to work because lunatic was threatening them with large shards of broken glass. And much more.

Not to mention the incidents that are very rarely reported in police stats but happen weekly: junkies shooting up on the sidewalk, customers and passersby being screamed at by lunatics in an intimidating manner, certain people with their pants down defecating, litter thrown at guests and passersby.

Our security stops an average of 4 - 8 potentially dangerous incidents every day.

**Every thriving city needs to get two basic things right: It has to be safe for people and safe for commerce.**

Downtown and much of Soma is safe for neither.

City government's leaders have failed us, our guests and staff and neighbors on the most basic of essential.

**Please, please, please pass this ESSENTIAL bill for \$27 million budget supplemental.**

If it doesn't get MUCH better we can decide that for safety and sanity we have had enough and our restaurants would again look as they did in December 2020:

Kenneth and Anna Zankel

Kenneth and Anna Zankel  
Owners

**The Grove**  
Yerba Buena

**Empire Pizza**

Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Alison Brokke.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000

annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

**Subject:** \$27 million SFPD supplement  
**Date:** Wednesday, March 15, 2023 5:50:03 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Honorable Budget and Appropriations Committee,

Today, I listened for a couple hours to your hearing. Unfortunately, I was not able to wait for more hours to make my views known. In the future, I would appreciate if the Supervisor's time had some time limits to allow the public our 1 minute remarks. Otherwise, it seems like you do not care about our opinions.

Nevertheless, here is my statement regarding the \$27 million SFPD supplement.

My name is Richard Girling and I've been a resident of SF for 48 years and I currently live in District 9.

While most San Franciscans have to live within their means, evidently the SFPD does not. As a former SFUSD teacher, we were always told there just wasn't the money to hire enough staff. Overtime was never an issue, as teachers get none.

I completely disagree with Mayor Breed's budget request for an additional \$27 million to the SFPD to its over \$700 million allocation at the same time all other departments are asked to cut costs.

The SFPD needs to take a hard look at how they use staff and resources. One example, anyone who is politically active in SF can easily see is that at any demonstration, police are a huge contingent, often being paid overtime, regardless of the potential for problems. Certainly fewer officers can be deployed for these duties.

I am certain there are plenty of other measures that can be taken for the

police department to use their budget more efficiently as illustrated by Supervisor Walton and the BLA rather than adding a supplement of \$27 million.

Sincerely,  
Rick Girling  
182 Banks St

March 15, 2023

Budget and Finance Committee  
1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Supervisors: Connie Chan, Rafael Mandelman, and Asha Safai

Dear Budget and Finance Committee:

I am writing, representing Saks Fifth Avenue, to show my support for supporting Mayor London Breed's \$27 million budget supplemental to fund invaluable police overtime and public safety ambassadors through the end of the fiscal year. In addition, as a Union Square stakeholder, I want to show my gratitude for support to date. The recovery of our city is dependent on safety and a fully staffed SFPD will play an important role protecting not only our citizens but also vital to the health of our economy. We are a critical component of the City's greater economy, and rely on our police department to keep all San Franciscans, workers, and tourists safe.

Running a major anchor luxury business in Union Square that employs over 200 people that either live in the city or commute in from all over the Bay Area to work in Union Square, I feel that it is important to have police officers out on the street engaging in community policing and addressing crime. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service through this fiscal year.

Before the SFPD presence in Union Square, we had several major mob style grab and runs. Customers and associates alike have commented how unsafe they felt coming into the square. One of our associates who is no more than 100 lbs got hit across the street as she was walking to work. I have personally witnessed a group of men jump out of a car to steal out of a parked car right in front of our business in broad daylight. We had a client that got everything stolen out of her vehicle another time. We had clients ask for a generic shopping bag so they do not get unnecessary attention. There are too many stories to share. But since the increase in staffing of the SFPD throughout Union Square, there has been a positive change and everyone from clients to employees have given us feedback on how they feel so much safer. Importantly, this supplemental will also help continue staffing SFPD Community Ambassadors. Due to these unprecedented shortages, these retired officers are essential to continue to provide foot beat patrol in critical areas across the City, such as Union Square.

We urge you to strongly consider passing this supplemental budget so San Francisco can continue its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Sincerely,

Anna Chung

Honorable Ahsha Safai

1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94122

Dear Supervisors,

As a 25-year resident of San Francisco and merchant in the Tenderloin over the past 16 years, I appreciate the opportunity to share my support of Mayor London Breed's \$27 million budget supplemental to fund police overtime and public safety ambassadors through the end of the fiscal year.

Ensuring San Francisco has clean and safe streets is a top priority as the City begins to regain its momentum and change the narrative that it's an unsafe place to live, visit, and work. We applaud the City's focus on this issue over the past year, and this supplemental will ensure the police have the funding necessary to continue to meet current levels of service. Most importantly, this will prevent mandated service cuts in addition to a hiring freeze.

The City cannot afford to lose officers if it wants to properly curtail drug dealing and illegal use of narcotics, and reduce gun violence, homicides, and violent crimes. Sworn staffing levels have fallen precipitously in the last three years and San Francisco is now 331 officers lower than in 2019 and 541 officers below the staffing analysis recommended level.

As the number of officers declines, the need for overtime increases in order to provide the same level of service. However, expanded overtime has reaped immediate benefits, including the ability to respond to over 34,000 additional calls for service.

Importantly, this supplemental also will help continue to support SFPD Community Ambassadors. These retired officers are essential to continue to provide foot beat patrol in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

I urge you to strongly consider passing this budget supplemental so San Francisco can continue on its path to recovery and ensure we are doing all we can to support a safe and healthy San Francisco.

Thank You!

**Subject:** Stop Funding Cops  
**Date:** Wednesday, March 15, 2023 10:06:45 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

My name is Robin and I'm a high schooler who lives in the Bay Area. The last thing we need during a pandemic is more funding towards cops. Please invest into our communities instead. Crime comes from poverty. I am fortunate enough to go to a well funded school and not face housing/food insecurity. However, I know other at risk teens who've stolen things and peddled drugs to support their families. Most of these teens are people of color, LGBTQ+, or disabled. If San Francisco claims to support Black Lives Matter, why would the city grow policing when it's institutionally racist? Why is homelessness such a rampant issue in SF? How can funneling more money to police fix this city?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Robin

Robin Ruan  
robinruan79@gmail.com

Sunnyvale, California 94086

Additionally, we also write to express our full support for SFPD Community Ambassadors. These retired officers are doing an incredible job enhancing public safety in areas across the City like Union Square, the Castro, Fisherman's Wharf, West Portal, Sunset, and Fillmore.

We urge you to strongly consider passing this budget supplemental so San Francisco can continue to recover and so that we can support a safe and healthy San Francisco.

Sincerely,

### **I Support the Mayor's Budget Supplemental for SFPD!**

Message to the Board of  
Supervisors

Dear Supervisors,

Please support the Mayor's Budget Supplemental for SFPD when it comes before the full Board on March 21.

The SFPD Budget Supplemental will provide much-needed immediate funding to the SF Police Department to maintain overtime police hours. While it would be better to have a fully-staffed SFPD, we must deal with the reality that understaffing requires overtime work in order to have any semblance of public safety.

The Supplemental allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable. A basic function of government is ensuring public safety.

Increasing SFPD officer overtime as a short-term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

### **I Support the Mayor's Budget Supplemental for SFPD!**

Message to the Board of  
Supervisors

Dear Supervisors,

Please support the Mayor's Budget Supplemental for SFPD when it comes before the full Board on March 21.

The SFPD Budget Supplemental will provide much-needed immediate funding to the SF Police Department to maintain overtime police hours. While it would be better to have a fully-staffed SFPD, we must deal with the reality that understaffing requires overtime work in order to have any semblance of public safety.

The Supplemental allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable. A basic function of government is ensuring public safety.

Increasing SFPD officer overtime as a short-term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

**From:** [Diane Wilson](#)

The SFPD Budget Supplemental will provide much-needed immediate funding to the SF Police Department to maintain overtime police hours. While it would be better to have a fully-staffed SFPD, we must deal with the reality that understaffing requires overtime work in order to have any semblance of public safety.

The Supplemental allows SFPD to continue to staff its efforts to continue to meet current levels of service, disrupt drug dealing in the Tenderloin and continue neighborhood patrols.

If it does not pass by the end of March, SFPD will have to immediately cut 10-15% of police hours and this is unacceptable. A basic function of government is ensuring public safety.

Increasing SFPD officer overtime as a short-term remedy to our current shortage of SFPD officers is a responsible and urgently needed measure to keep San Franciscans safe.

Thank you.

Alan Burradell

Budget Clerk Brent Jalipa,

My name is [name] and I live/work in District [number]. [If applicable, mention your organization/affiliation here].

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is A.D. and I live in District 5. I've been applying for full time work for over a year and have been struggling to make ends meet. I was denied food stamps because I made too much one time, as I'm an independent contractor and my income fluctuates month to month. All of what little income I'm able to scrounge up with contract work and odd jobs goes to groceries, rent, and bills, and my quality of life is 0 because I can't afford to go anywhere or even afford essentials. Because of my situation, I'm suffering from anxiety, depression, and suicidal thoughts.

Accepting the proposed SFPD giveaways would be the same as killing struggling San Franciscans like me. Because we are literally starving and getting kicked out onto the streets.

Reinvest the money into THE PEOPLE. Giving this money to cops just shows you don't care about the people you're supposed to be helping.

A.D.  
District 5

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

2020 was a transformative year for this country, especially considering the largest protest movement in this country coming out against police brutality over that summer, following the death of George Floyd. We must live up to that moment and create the change that will hold police more accountable and create a society devoid of police brutality, which means NOT increasing the police budget in response to concerns safety and security. We can do better.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years. Meanwhile, the SFPD is taking longer and longer to respond to calls, including serious calls about violent crime.

Supervisor Matt Dorsey's recent call for increased signing bonuses for new officers continues this unfair and unjustified use of public funds. Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding to include longevity bonuses, pay raises, and sign-on bonuses. The SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, etc. were denied such consideration.

All of this paints a clear picture: this is a blatant display of SFPD exceptionalism which does nothing to solve the root causes of San Francisco's tattered social fabric.

The city is in crisis. Crucial functions that boost the city's wellness continue to be severely

underfunded. Even well-tenured teachers in San Francisco typically make less than \$80,000 annually, putting them below the poverty line and below the earnings of a starting police officer. City College of San Francisco is similarly facing a budget crisis, with many educators being laid off and many others being forced to part time roles as classes are canceled. Many public health workers were supposed to be hired to support linkages to housing and medical treatment in the Tenderloin, but plans have repeatedly fallen through with little accountability. Muni faces a \$215 million deficit as federal pandemic funding runs out, and could potentially cut service by 25%.

As a country, we already know that our community's safety is dependent not on increased policing, but funding of our social pillars, such as health, education, and safer streets. Under capitalism, we live in an atomized society where the capitalists hoard all the wealth while the working class fights for scraps. This inequality creates the conditions of desperation that lead to crime. When a person's needs: food, water, housing, healthcare, transportation, education, are not met, they have every right (even a duty) to break the rules of a society that denies them to all. Punishment of individuals does nothing to end the conditions that lead to crime, nor is it intended to. Police exist to protect property and maintain a hierarchical order through the threat of violence. Our criminal "justice" system regularly breaks families apart, puts them in debt due to fees and penalties, and reinforces desperate situations that lead to more crime. Restorative justice is transformative when we look to build better people instead of punishing them. The solution: solidarity and socialism. Creating a society where we work together to meet our collective needs will always be more effective than an order rooted in violence.

In the face of this injustice, we ask every San Francisco resident: when we give the Police Officer's Association and SFPD priority and political weight over our teachers, public health workers, and public transportation, what does this say about our values?

We call upon the Board of Supervisors to reject these proposed SFPD giveaways, and reinvest the money into repairing our torn and tattered social fabric.

Budget Clerk Brent Jalipa,

My name is Beatrix and I live in District 5.

At a time when many working class residents and San Francisco city workers are facing potential eviction, hunger, a lack of jobs offering living wages, and countless other crises that could be addressed by local government, it is unsurprising but disappointing to see the mayor and many supervisors fighting to spend more money on policing.

Just last year, the Board of Supervisors approved an amendment to the Police Officers Association's memorandum of understanding (i.e., contract) to include longevity bonuses, pay raises, and sign-on bonuses. In addition to the fact that the city voluntarily opened up the SFPD contract for negotiation, the SFPD was the only agency that received all three of these concessions from the city. Teachers, sanitation workers, firefighters, bus drivers, and other essential workers were denied such consideration.

The Mayor and Board of Supervisors also approved a massive SFPD's \$713 million budget for 2023, which it is on track to overspend.

SFPD doesn't have a budget problem, they have an accountability problem.

Compared to similar jurisdictions around the country, SFPD already spends more per capita on policing, and has a higher police officer to resident ratio than similar cities. This latest move continues an ongoing trend of increased police spending, despite data from the SF police department itself showing that crime has decreased compared to previous years.
