SEC. 831 840. MUG – MIXED USE-GENERAL DISTRICT.

The Mixed Use-General (MUG) District is largely comprised of the low-scale, production, distribution, and repair (PDR) uses mixed with housing and small-scale retail. The MUG is designed to maintain and facilitate the growth and expansion of small-scale light manufacturing, wholesale distribution, arts production and performance/exhibition activities, general commercial and neighborhood-serving retail and personal service activities while protecting existing housing and encouraging the development of housing at a scale and density compatible with the existing neighborhood.

Housing is encouraged over ground floor commercial and PDR uses. New residential or mixed use developments are encouraged to provide as much mixed-income family housing as possible. Existing group housing and dwelling units would be protected from demolition or conversion to nonresidential use by requiring conditional use review. Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this Code.

1 *Nighttime entertainment, movie theaters, Adult Business entertainment and heavy*
 2 manufacturing uses are not permitted. Office is restricted to the upper floors of multiple story
 3 buildings.

REVISED LEGISLATIVE DIGEST

Existing Law

Planning Code Article 8 establishes a number of general and named Mixed Use Districts. Land use controls, development standards, and density controls for each District are outlined in a Zoning Control Table. Specific uses are defined in Section 890.2 through 890.140. Other sections of the Planning Code that are applicable to Mixed Use Districts are listed in Section 899.

Article 7 establishes a number of general and named Neighborhood Commercial (NC) and Neighborhood Commercial Transit (NCT) Districts, and provides land use controls, development standards, and density controls for each District.

Amendments to Current Law

The primary purpose of this ordinance is to reorganize and update Article 8 of the Planning Code. The ordinance revises the Article 8 zoning control tables to match the format of the zoning control tables in other Articles of the Planning Code, and makes technical and substantive amendments to applicable sections in other Articles to update, correct, clarify, and simplify language. The ordinance also deletes outdated text and revises certain controls in Articles 1, 1.2, 1.7, 2, 3, and 7.

All of the proposed amendments – both technical and substantive – are detailed and explained in the Executive Summary prepared for the Planning Commission hearing by Planning Department staff, which will be transmitted to the Board as part of the legislative package. The amendments and definition changes described in the Executive Summary include specific amendments to principally or conditionally permit Arts Activities, Job Training, Public Facility, Social Service and Philanthropic Facility, General and Nighttime Entertainment, and Bar uses in various Neighborhood Commercial, Mixed Use, and other Districts.

Background Information

In 2013, the Planning Department initiated a Code Reorganization Project. The goal of the Project is to restructure the Planning Code so that it is easier to read, understand, and use. Phase 1, enacted in February 2015, consolidated all definitions that are used universally throughout the Code into Section 102 of the Code. It also reorganized Article 2 by modifying zoning control tables to reduce their length and complexity and to be less confusing to the public. Phase 2 of the Code Reorganization Project, enacted in June 2017, reorganized Article 7, updated the format of the Article 7 zoning control tables to match those in Article 2, and made technical and other amendments to various Code sections. The reorganization of Article 8 by this ordinance is the final phase of the Code Reorganization Project.

This ordinance reflects amendments recommended by the Planning Commission and made by the Land Use and Transportation Committee of the Board of Supervisors on February 13, 2023.

RE: BOS File No. 220340 – Planning Code – Neighborhood Commercial and Mixed Use Zoning Districts - SUPPORT

Dear Ms. Calvillo,

On December 12, 2022 the Small Business Commission (the Commission) heard BOS File No. 220340 – Planning Code – Neighborhood Commercial and Mixed Use Zoning Districts. Madison Tam, Legislative Aide to Supervisor Dorsey, and Aaron Starr, Principal Planner, Legislative Affairs, San Francisco Planning Department, presented the legislation.

Ms. Tam explained the context for this proposal, noting that in addition to simplifying zoning tables and code language, it extends major components of Proposition H (which was passed by voters in 2020) to Eastern Neighborhoods Zoning Districts. These components include removing the 311 notification (neighborhood notification) requirement for principally permitted uses in Eastern, Western, and Central SoMa Area Plan, and making changes of use in the Eastern SoMa Area Plan eligible for the 30-day permit process. As a result of Proposition H, these streamlining measures are currently in place in Neighborhood Commercial Districts, but have not yet been extended to the Eastern Neighborhoods Zoning Districts.

Ms. Tam reviewed the community outreach that Supervisor Dorsey conducted to engage community groups including, but not limited to, SOMA Pilipinas, the Leather and LGBTQ Cultural District, SOMA Youth and Families, and members of the nighttime and entertainment industry. The Commission commended Supervisor Dorsey for his thorough outreach efforts. Mr. Starr reviewed the history of the code reorganization project which has been underway since 2014, emphasizing the need for standardized zoning tables and terms to ensure the City's Planning Code is readable and understandable.

The Commission discussed their support, and the importance, of Proposition H as a tool to support small businesses and fill commercial vacancies. In the past, the Commission has advocated for expedited permit processing and greater flexibility for business uses throughout the City. This legislation furthers those goals, and as such, the Commission unanimously voted to support this legislation.

The Commission commends Supervisor Dorsey and his staff for their willingness to support small businesses as they recover from the COVID-19 pandemic. Thank you for considering the Commission's recommendations. Please feel free to contact me should you have any questions.

Sincerely,

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Commission recommends this ordinance because it supports allowing more Intentional Uses in the Eastern Neighborhoods Districts to help the City's non-profit organizations thrive and serve more communities. Further it also expands where Arts Activities can locate. This not only benefits surrounding communities, but it also makes it easier for those organizations to find space that is suitable and affordable. Further, allowing more flexibility for historic resources helps ensure their continued use and preservation.

The Commission also finds that the City should investigate Planning Code changes like these to support Legacy Businesses.

The proposed ordinance appropriately relaxes Nighttime Entertainment Controls within the Central SoMa Plan Area.

OBJECTIVE 6.2

MINIMIZE GREENHOUSE GAS EMISSIONS

Policy 6.2.5
Minimize transportation-based greenhouse gas emissions.

The proposed ordinance would limit new parking facilities within the Central SoMa Plan Area, helping to reduce car trips and associated greenhouse gas emissions.

COMMERCE AND INDUSTRY ELEMENT

MAINTAIN AND ENHANCE A SOUND AND DIVERSE ECONOMIC BASE AND FISCAL STRUCTURE FOR THE CITY.

Policy 2.1

The proposed Ordinance allows new commercial activity in the Eastern Neighborhood Districts.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would help existing neighborhood businesses by providing them additional opportunities to increase revenue and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would not have a negative effect on housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance would not have an adverse effect on the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have an adverse effect on the City's Landmarks and historic buildings but will allow more uses in historic buildings so that they can be adaptively reused aiding in their preservation.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

The proposed Ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Recommendation: Approval with Modifications

Planning Code Amendment

Ordinance amending the Planning Code to update and reorganize the Eastern Neighborhoods Mixed Use Zoning District’s tables and use definitions in Section 102 consistent with the Code Reorganization Project, in addition to the several substantive amendments. Below are the changes in the ordinance that impact historic resources. For a more complete overview of all the changes in the ordinance, please see Exhibit D.

The Way It Is	The Way It Would Be
Changes That Impact Historic Resources	
Historic Buildings in Residential Enclave Districts (RED and RED-MX). Retail Sales and Service Uses and Office Uses are permitted in historic buildings in RED and RED-MX Districts with conditional use authorization.	In addition to the uses allowed with conditional use authorization, Arts Activities, Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School uses would be principally permitted in historic buildings.

Background

The proposed ordinance seeks to make several changes, most of which do not directly impact historic resources; however, the ordinance does expand the list of uses that are allowed in historic buildings in RED and RED-MX. This mainly impacts RED districts, since uses in that district are more tightly controlled than in the RED-MX district. Many of the uses covered under this amendment are already permitted in RED-MX. Other than Arts Activities, the uses being added are all Institutional Uses. Retail Sales and Office Uses are already allowed with Conditional Use authorization in historic resources under this existing code provision. For a complete overview of the proposed changes in the ordinance, please see Exhibit D.

Planning Commission Action

The Planning heard this item on November 17, 2022 and unanimously recommended approval with the following modifications:

1. Rather than amending the FAR ratios in the South Park, RED and RED-MX, exempt housing, Childcare Facilities and Residential Care Facilities from FAR limits in those zoning districts.
2. Remove the language referencing adequate lighting and the Planning Department's lighting guidelines from the definition of Walk-Up Facility.
 - *Such facilities shall provide waste receptacles, and be kept free of litter, ~~and provide adequate lighting for the facility,~~ provided that such lighting shall comply with Planning Department guidelines.*
3. Remove the proposed changes that relax Nighttime Entertainment controls in various zoning districts. Instead, amend the ordinance so that Nighttime Entertainment is principally permitted for properties fronting Folsom Street between 7th Street and Division Street and properties fronting 11th Street between Howard Street and Division Street, unless those properties are zoned RED or RED-MX. In addition, provide an exception for properties that meet those criteria to the buffer that prohibits Nighttime Entertainment within 200' of RED and RED-MX Districts.
4. Encourage the Entertainment Commission to evaluate how best to mitigate impacts in RED and RED-MX districts from noise and other quality of life impacts related to Nighttime Entertainment uses that are located within 200' of those districts.
5. After the Planning Commission's consideration, allow amendments to the ordinance that maintain existing Planning Code controls.

Proposed Code Language

The full text of the proposed code language that impacts historic resources is as follows (underline and strikethroughs represent additions and deletions respectively):

(2) **RED and RED-MX Districts.** This subsection (b)(2) applies only to buildings in RED and RED-MX Districts that are a designated landmark building per Article 10 of the Planning Code, buildings designated as Category I-IV pursuant to Article 11 of this Code and located within the Extended Preservation District, or a building listed in

or determined individually eligible for the National Register of Historic Places or the California Register of Historical Resources by the State Office of Historic Preservation.

(A) Arts Activities, Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School uses are principally permitted, and Retail Sales and Services uses and Office Uses, as defined in ~~Planning Code~~ Sections ~~890.104 and~~ 890.70, ~~respectively~~, are permitted only with Conditional Use authorization, pursuant to Planning Code Section 303, provided that:

(i) The project does not contain any Adult Business or Nighttime Entertainment use.

(ii) Prior to the issuance of any necessary permits, the Zoning Administrator, with the advice of the Historic Preservation Commission, determines that allowing the use will enhance the feasibility of preserving the building.

(B) The Historic Preservation Commission shall review the proposed project for compliance with the Secretary of the Interior's Standards, (36 C.F.R. § 67.7 (2001)) and any applicable provisions of the Planning Code.

Issues and Considerations

Residential Enclave Districts

Residential Enclave Districts (RED) encompass many of the clusters of low-scale, medium density, predominantly residential neighborhoods located along the narrow side streets of the South of Market area. Within these predominantly residential enclaves lie several vacant parcels, parking lots and other properties in open storage use. These properties are undeveloped or underdeveloped and are viewed as opportunity sites for new, moderate-income, in-fill housing.

The zoning controls for this district are tailored to the design needs and neighborhood characteristics of these enclaves and are intended to encourage and facilitate the development of attractive, compatible, and economically feasible in-fill housing while providing adequate residential amenities to the site and neighborhood.

Dwelling units are permitted as a principal use. Nonresidential uses, except art related activities, are not permitted, except for certain uses in historic buildings. Existing commercial activities in nonresidential structures may continue as nonconforming uses subject to the termination requirements of Sections [185](#) and [186](#).

Residential Enclave- Mixed Districts

Residential Enclave-Mixed Districts (RED-MX) encompass some of the clusters of low-scale, medium density, predominantly residential neighborhoods located along the narrow side streets of the Western SoMa area. Many parcels in these residential enclaves are underdeveloped and represent opportunities for new residential and low-intensity commercial uses.

While residential uses are encouraged throughout these districts, group housing is limited, and student housing and single-room-occupancy units are prohibited. Small-scale retail, restaurants, arts activities, and other commercial uses are principally permitted to create the potential for more active, mixed-use alleys. Some automobile-related and production, distribution, and repair uses are also permitted with limitations. Existing

commercial activities in nonresidential structures may continue as nonconforming uses subject to the termination requirements of [Article 1.7](#).

Arts Activities

Arts Activities is an entertainment use, and allows a variety of uses related to the arts, such as performance, exhibition (except exhibition of films), rehearsal, production, post-production, and some schools of any of the following: dance; music; dramatic art; film; video; graphic art; painting; drawing; sculpture; etc.

Prior to the Code Reorganization Project (see exhibit D), Arts Activities was only permitted in a few zoning districts. Since then, the Planning Commission and the Board of Supervisors have consistently supported and passed ordinances that allow this use in more districts. The proposed change continues this pattern by allowing it in historic buildings in the RED and RED-MX Districts. Arts groups tend to have a harder time finding spaces to lease; therefore, allowing the use in more districts increases the odds of an arts organization finding an appropriate space at a rent they can afford. Further, allowing more flexibility for historic resources helps ensure their continued use and preservation. Arts Activities is currently permitted in the RED and RED-MX Districts, but both come with restrictions. In the RED District, the theater use covered under Arts Activities is not allowed, while in the RED MX the use is subject to size limits. This provision will allow Arts Activities in these districting within historic buildings without those restrictions.

Institutional Uses

Institutional use is a Use Category that includes Child Care Facility, Community Facility, Private Community Facility, Hospital, Job Training, Medical Cannabis Dispensary, Religious Institution, Residential Care Facility, Social Service or Philanthropic Facility, Post-Secondary Educational Institution, Public Facility, School, and Trade School; however, only Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School would be permitted as of right in historic buildings within the RED and RED-MX Districts. These uses are generally considered to be less impactful, and beneficial uses to have in residential areas. Allowing them to adaptively reuse historic buildings in the RED and RED-MX districts would benefit not only the preservation of the historic resource but also the surrounding community.

General Plan Compliance

(This analysis covers the entire ordinance)

The proposed ordinance complies with the Eastern SoMa Plan in that it encourages smaller retail spaces in the Eastern SoMa Plan area. It liberalizes Institutional uses in the Eastern SoMa Plan area as well, which is consistent with the Plan's policies to encourage the creation of family supportive services, workforce development training, and the addition of new social and cultural facilities. It also further restricts new parking facilities which is consistent with the Eastern SoMa Plan Policy of discouraging new surface parking lots

The proposed Ordinance is consistent Western SoMa Plan in that it maintains the distinctions between residential and non-residential areas. By reinforcing the Entertainment Commission role in regulating nighttime entertainment operators, the ordinance will help ensure that noise ordinance requirements are met.

The proposed ordinance is consistent with the Central SoMa Plan in that it allows nightlife venues in appropriate commercial and mix-use zoning districts. By further restricting public parking lots and garages, the ordinance is consistent with the policy to reduce vehicle miles traveled and minimize greenhouse gases.

Racial and Social Equity Analysis

(This analysis covers the entire ordinance)

The proposed would further racial and social equity in multiple ways. First the ordinance expands where non-profit, social service providers, and arts activities can locate within the Eastern Neighborhoods, helping to preserve and enhance the area's long standing Pilipino and LGBTQ social service and community serving organizations.

The ordinance's effort to limit new public parking lots and garages will also help advance equity as well. The subject area is disproportionate impacted by automobile pollution from nearby freeways. The area has also long prioritized automobile thru-traffic with its wide one-directional streets. As a result, the area includes several of the City's High Injury Network streets, and some of MTA's Communities of Concerns¹. Limiting parking, while not a panacea for these concerns, is consistent with improving safety and lessening automobile pollution in the area because limits new parking facilities. The more parking available, the more like it is that people will drive to the area. Much more must be done to address years of environmental racism that has impacted much of the Eastern and Southeastern portions of San Francisco, but enacting policies that lead to reduced traffic moves the City in the right direction.

Many of the long-standing businesses in the Eastern Neighborhoods provide goods and services at accessible prices to the adjacent, lower-income residents. These businesses were also found to frequently hire from the adjacent neighborhood, serving a source of employment for the neighborhood's youth and lower skilled workers. The proposed ordinance will allow these businesses to find additional ways to increase revenue and attract new customers by allowing them to obtain Limited Live Performance Permits, principally permitting outdoor activity areas consistent with Proposition H, and by allowing catering as an Accessory use in Restaurants. Further, the proposed ordinance requires smaller retail spaces in developments over 10,000 sq. ft. The additional use size limits will help encourage new smaller retail spaces. These, by nature of their size, are typically offered at lower lease rates and provide newer entrepreneurs an opportunity at a brick-and-mortar location. In combination, these amendments help further equity and complement goals in the neighborhood's Cultural District, the neighborhood Area Plan and the Department's historical context statement for the area.

Relaxing nighttime entertainment uses would also help advance the goals of the Leather Cultural District to grow nightlife businesses back to their 1980 levels. Their mission statement is to "To augment and make sustainable housing, healthcare, commerce, community development, cultural resources, and physical spaces." Nighttime entertainment spaces are key as cultural resources and a physical space for this community. The Leather community has explicitly said that they want their voice to be heard in zoning decisions, and this ordinance does that².

Implementation

The proposed changes outlined in this case report will not impact the Department's implementation procedures.

Recommendation

The Department recommends that the Commission *approve* the proposed Ordinance and adopt the attached Draft Resolution to that effect.

Basis for Recommendation

The Department is recommending approval of this ordinance because it supports allowing more Intentional Uses in the Eastern Neighborhoods Districts to help the City's non-profit organizations thrive and serve more communities. Further it also expands where Arts Activities can locate. This not only benefits surrounding communities, but it also makes it easier for those organizations to find space that is suitable and affordable. Further, allowing more flexibility for historic resources helps ensure their continued use and preservation.

Required Commission Action

The proposed Ordinance is before the Commission so that it may recommend approval, disapproval, or approval with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Public Comment

There was no public comment regarding the issues discussed under this case report; however, there were concerns expressed about the expansion of Nighttime Entertainment and General Entertainment prior to and during the Planning Commission hearing. For an overview of those concerns, please see Exhibit D.

Planning Commission Recommendation: **Approval with Modification**

Dear Ms. Calvillo and Supervisor Dorsey,

On November 17, 2022, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, introduced by Supervisor Dorsey that would amend the Eastern Neighborhoods Mixed Use Zoning Districts to conform with the Code Reorganization Project, and other substantive amendments. At the hearing, the Planning Commission recommended **approval with modification**.

The Commission's proposed modifications were as follows:

1. Rather than amending the FAR ratios in the South Park, RED and RED-MX, exempt housing, Childcare Facilities and Residential Care Facilities from FAR limits in those zoning districts.
2. Remove the language referencing adequate lighting and the Planning Department's lighting guidelines from the definition of Walk-Up Facility. • *Such facilities shall provide waste receptacles, and be kept free of litter, and provide adequate lighting for the facility, provided that such lighting shall comply with Planning Department guidelines.*
3. Remove the proposed changes that relax Nighttime Entertainment controls in various zoning districts. Instead, amend the ordinance so that Nighttime Entertainment is principally permitted for properties

fronting Folsom Street between 7th Street and Division Street and properties fronting 11th Street between Howard Street and Division Street, unless those properties are zoned RED or RED-MX. In addition, provide an exception for properties that meet those criteria to the buffer that prohibits Nighttime Entertainment within 200' of RED and RED-MX Districts.

4. Encourage the Entertainment Commission to evaluate how best to mitigate impacts in RED and RED-MX districts from noise and other quality of life impacts related to Nighttime Entertainment uses that are located within 200' of those districts.
5. After the Planning Commission's consideration, allow amendments to the ordinance that maintain existing Planning Code controls.

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Planning Commission supports the goals of this ordinance, which are to loosen the restrictions on Nighttime Entertainment use to help this much needed industry thrive post pandemic; permit more intuitional uses in the Eastern Neighborhoods Districts to help our non-profit organizations thrive and serve more communities; make consistent accessory use controls so that all businesses can take advantage of opportunities to expand and strengthen their business plans; and to limit new parking facilities in the Eastern Neighborhood's to help the city reach its carbon reduction goals, mode share shift goals, and Vision Zero goals. However, the Commission is concerned about how some of these changes could impact the surrounding residential neighborhoods, and how some of these provisions would be implemented and has proposed amendments to the ordinance to address those concerns.

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby APPROVES WITH MODIFICATIONS the proposed Ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on November 17, 2022.

Planning Code Amendment

Ordinance amending the Planning Code to update and reorganize the Eastern Neighborhoods Mixed Use Zoning District’s tables and use definitions in Section 102 consistent with the Code Reorganization Project, in addition to the following substantive amendments:

The Way It Is	The Way It Will Be
Accessory Uses	
Production and Wholesaling as an Accessory Uses. In NC districts, production, wholesaling, and processing of goods may occupy more than one-third of a retail space. In RC, C, DTR, and Eastern Neighborhood Mixed-Use districts, accessory production and wholesaling are limited to one-third of the total space.	Accessory production, wholesaling, and processing of goods would be able to occupy more than one-third of a retail space in RC, C, DTR, and Eastern Neighborhoods Mixed Use districts, so long as an active retail use is in the space.
Limited Live Performance Permits. LLPs are prohibited in the MUG, MUR, and RED-MX zoning districts	LLPs would be permitted in these zoning districts

Catering in C, M, and PDR Districts. Catering may currently operate as an Accessory Use in a Limited Restaurant, but not in a Restaurant	Catering in these districts would be allowed as an Accessory Use for both Limited Restaurants and Restaurants.
Ground-floor Uses	
Mix of ground-floor commercial use sizes. Except in the Central SoMa SUD, there are no size requirements for storefront spaces in Eastern Neighborhoods Mixed Use Districts.	Projects that provide more than 10,000 Square feet of ground-floor commercial space would be required to provide commercial spaces in a range of sizes, including some spaces of 1,000 square feet or smaller.
Entertainment, Arts, and Recreation Uses	
Arts Activities in the SoMa NCT. Arts Activities are not permitted.	Arts Activities would be principally permitted on all floors in this zoning district.
Arts Activities in the Eastern Neighborhood Mixed Use Districts (ENMUD). Except for RED, RED-MX and South Park District, Arts Activities is not permitted in the ENMUDs.	Arts activities will be principally permitted in all ENMUDs, except in RED Districts where this use will require conditional use authorization. In addition, in the RED, RED-MX, and South Park District, the live theater aspect of this use will not be permitted, which is an existing control.
Good Neighbor Policies for Entertainment Uses. Nighttime Entertainment and General Entertainment uses citywide must comply with the Entertainment Commission’s good neighbor policies. A separate set of good neighbor policies exist for Nighttime Entertainment uses in Eastern Neighborhoods Mixed-Use districts.	The Planning Code would be amended to require compliance with the Entertainment Commission’s good neighbor policies. The good neighbor policies specific to Eastern Neighborhoods Mixed Use districts would be deleted from the Planning Code.
Location restrictions for Nighttime Entertainment and Animal Services in the Western SoMa Special Use District. Nighttime Entertainment Uses and Animal Services Uses are prohibited within 200 feet of any Residential Enclave District (RED and RED-MX).	The location restrictions for Nighttime Entertainment and Animal Services in the Western SoMa SUD would be deleted. Controls for the various zoning districts would still govern the location of such uses.
Nighttime and General Entertainment in the Regional Commercial District. Nighttime Entertainment is not permitted, and General Entertainment requires conditional use authorization.	Nighttime and General Entertainment would be principally permitted on the first and second floors in this district, and not permitted on the third floor and above.

General Entertainment in WMUG. General Entertainment requires CU approval	General Entertainment would be principally permitted
Eating and Drinking Uses	
Second-floor Bar uses in the Folsom NCT and Regional Commercial Districts. Bar uses are not permitted on the second floor in the Folsom NCT and Regional Commercial Districts.	Bars would be principally permitted on second floors in these districts.
Institutional Uses	
Job Training, Private Community Facility, and Public Facility in the SoMa NCT District. These uses are conditionally permitted on the first and second floors	Job Training, Private Community Facility uses would be principally permitted on the first and second floors. Job Training would be conditionally permitted on the third floor and above. Public Facility uses would be principally permitted on all floors.
Historic Buildings in Residential Enclave Districts (RED and RED-MX). Retail Sales and Service Uses and Office Uses are permitted in historic buildings in RED and RED-MX Districts with conditional use authorization.	In addition to the uses allowed with conditional use authorization, Arts Activities, Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School uses would be principally permitted in historic buildings.

Proposition H Alignment	
311 Notification in Eastern, Western, and Central SoMa Plan Area. 30-day Permit Review in Eastern SoMa Plan Area. Changes of use in the Eastern SoMa Area Plan are not eligible for the 30-day permit process instituted by Proposition H	Changes of use in the Eastern SoMa Area Plan would be eligible for the 30-day permit process created by Proposition H.

Large-scale Urban Agriculture in Eastern Neighborhoods Mixed Use districts. Large-	Large-scale urban agriculture would be principally permitted in these districts.

scale Urban Agriculture is conditionally permitted or not permitted.	
Basic Floor-Area Ratio in SPD, RED, and RED-MX districts. The maximum Floor-Area Ratio (including housing) is 1.8 in SPD Districts, and 1.0 in RED and RED-MX Districts.	Maximum Floor-Area Ratio (including housing) in RED, RED-MX, and SPD districts shall be contingent on permitted building height, as in other Eastern Neighborhoods Mixed Use Districts.
Reactivation of Limited Commercial Uses. Limited commercial uses in RH, RM, RTO, and RED Districts that have been discontinued or abandoned may be reactivated with conditional use authorization.	Rather than requiring conditional use authorization for LCU reactivation, the Zoning Administrator would be able to reactive LCUs using the same criteria.
Walk-up Facilities Definition. Walk-up Facilities are defined as “A Use Characteristic defined as a structure designed for provision of pedestrian-oriented services when located on an exterior building wall, including window service, self-service operations, and automated bank teller machines (ATMs).”	The following language would be added to the Walk-facilities definition: <u>Such facilities shall provide waste receptacles, be kept free of litter, and provide adequate lighting for the facility, provided that such lighting shall comply with Planning Department guidelines.</u>

Background

Code Reorganization Project

Initiated in 2013, the Code Reorganization Project seeks to restructure the Planning Code so that it’s easier to read, understand, and use. Phase 1 of the Planning Code Reorganization project focused on Article 2 and consolidated definitions into Planning Code Section 102. Phase 2 focused on Article 7 of the Planning Code, and Phase 3.1 focused solely on Chinatown Mixed Use Districts. This phase will focus on the Eastern Neighborhood Mixed Use Districts.

Phase 1 of the Code Reorganization program consolidated all use definitions into Planning Code Section 102. It also reorganized Article 2, which includes Residential (RH, RM, and RC), Downtown (C-3), and Industrial (PDR, and M) zoning districts, by creating Zoning Control Tables like the ones already used in our Neighborhood Commercial Districts. The major benefit to Zoning Control Tables is that they allow users to obtain building standards and use controls for a zoning district in one easy to use chart. Phases 2 and 3.1 brought NC Districts and Chinatown Districts into conformity with the new use definitions and zoning control table format. The Planning Commission approved Phase 1 in October of 2014, Phase 2 in February of 2017, and Phase 3.1 May 9, 2021.

The next and -hopefully final- phase with focus on the Downtown Residential Districts, at which point all zoning district will use one standard set of use definitions and one standardized zoning control table format.

How Did We Get Here?

The Planning Code maintained the same basic structure until 1986 when the Neighborhood Commercial District controls were added to the Code in Article 7. Prior to that, all development standards and general definitions were in Article 1 and use definitions and use controls were in Article 2. For its time, Article 7 was a dramatically new way of organizing the Planning Code and thinking about land use, primarily because it used vertical controls to regulate uses; however, because of the structural differences between Articles 2 and 7, and the desire to more closely regulate retail and service uses, Article 7 was given its own set of use definitions.

When Article 8 was added to the Code, it followed the same format as Article 7 along with adding its own list of use definitions. As a result, at the start of the Code Reorganization Process there were four different sections of the Planning Code that contained use definitions. Today we have two sets of definitions: one for R, C, M, PDR, and NC Districts in Section 102, one for MUDs in Article 8. At the end of this process, there will only be one set of definitions in the Planning Code (Section 102) and one standard format for zoning control tables.

Prop H

Proposition H was passed by voters in November of 2020 and relaxed several planning code provisions for the City's Neighborhood Commercial Districts. Two of those provisions were 1) the removal of the 311 Notification (aka neighborhood notification) for principally permitted uses and 2) allowing outdoor activity areas as of right in the rear yard under certain circumstances.

311 Notification was a more onerous requirement in the NC Districts because it required notification for a change from one use to the other, while 311 notifications in the Eastern Neighborhoods Districts are only required if the use category is changes. For example, in the NC Districts a change from a clothing store to a restaurant would require 311 Notification, while in the EN District that would not require 311 Notification because both the clothing store and the restaurant are under the Retail Use Category. In the EN Districts, if a space went from an Intentional Use to a Restaurant that would require 311 Notification because the Use Category has changed. The proposed ordinance would remove the 311 Notification for principally permitted uses in the EN Zoning Districts consistent with what Proposition H did for the City's NC Districts.

Prop H also allowed outdoor activities as of right if certain conditions are met. Prior to Prop H, Outdoor Activity Areas (outdoor seating) was allowed as of right if the area was located at the front of the building, but typically required CU approval if the area was in the rear yard. Proposition H allowed outdoor activity areas as of right in the rear yard if the following criteria were met:

- a) The Outdoor Activity Area is located on the ground level;
- b) The Outdoor Activity Area is in operation only between 9:00 a.m. and 10:00 p.m.;
- c) The Outdoor Activity Area is not operated in association with a Bar use;
- d) Where associated with a Limited Restaurant or Restaurant Use, the Outdoor Activity Area includes only seated, not standing, areas for patrons; and
- e) Alcohol is dispensed to patrons only inside the premises or through wait staff services at the patron's outdoor seat in the Outdoor Activity Area.

The proposed ordinance would extend these same controls to the Eastern Neighborhoods Zoning Districts.

Issues and Considerations

Accessory Uses

Because of the legacy of changes that led to the Code Reorganization Project, the Planning Code also has three different set of accessory use controls, one set in Article 2 one set in Article 7 and one in Article 8. The proposed ordinance would increase consistency between these three definitions by allowing wholesale manufacturing as an accessory use in retail businesses regardless of how much floor area it takes up. This accessory use provision is intended to allow small makers to create and sell their own products on site. This change was added to Article 7's Accessory Use controls as part of the Restaurant Rationalization Ordinance, passed in 2011. It's unclear how many businesses have taken advantage of this change as Accessory Uses don't require a change of use permit, but the Planning Department has not received any complaints or been made aware of any land use conflicts as a result. The advantage to standardizing this language is that any retail use, regardless of where it is located in the City, could take advantage of the same accessory use controls.

The ordinance would also allow Restaurants in all commercial zoning districts to take advantage of the Accessory Catering provision allowed in the City's Neighborhood Commercial Districts. Currently in the Eastern Neighborhoods Districts and in the C, PDR, and RC districts, Catering is allowed as an Accessory Use only for Limited Restaurants; however, in the NC Districts, a Catering Use is allowed in both Restaurants and Limited Restaurants. Catering in NC Districts is limited to food and beverage catering if the Catering Use does not operate more than 75% of the total time within the businesses Hours of Operation on any given day; and the Catering Use does not distribute or deliver individual meals to customers directly from the subject lot, either by its own means, or through a third-party delivery service. The proposed ordinance would expand this provision to all commercial zoning districts in the City.

Entertainment, Arts, and Recreation Uses

Good Neighbor Policies for Entertainment Uses

As the agency that regulates land use, it's difficult for the Planning Department to respond to quality-of-life concerns resulting from Nighttime Entertainment operators. It is also difficult, if not sometimes impossible, to revoke the land use approvals for problematic operators; however, the Entertainment Commission directly regulates these operators through a Place of Entertainment Permit. Like the State's Alcoholic Beverage Control division ensures bar operators abide by state liquor laws, and the City's Office of Cannabis ensures that Cannabis Retail operators are operating according to local regulations, so too does the Entertainment Commission ensure that Nighttime Entertainment operators are abiding by local regulations. The Entertainment Commission has its own set of Good Neighbor Policies that it enforces. It also can address issues related to problematic operators, and if a resolution can't be found the Commission can ultimately revoke the Place of Entertainment permits. The Good Neighbor Policies in the Planning Code were added before we had the Entertainment Commission. Now that the City has a more effective means to address quality of life issues related to Nighttime Entertainment, it makes sense to remove the Planning Code's good neighbor policies.

General Entertainment

General Entertainment is a catch-all definition for various types of entertainment uses including uses from billiard parlors to bowling alleys. By itself, General Entertainment does not permit the sale of alcohol. For a

bowling alley to serve alcohol it would also need to seek land use approval for a Bar; therefore, General Entertainment is somewhat of a low-impact land use. In the past few years, we have seen a small new bowling alley, a new mini-golf course, and even a renewed interests in video game arcades; however, the trend isn't widespread, and most neighborhoods lack these types of uses. This ordinance relaxes the controls for General Entertainment through the Eastern Neighborhood Mixed Use Districts. In doing so it will allow more flexibility for existing businesses to add other revenue generating activities to their business, and also make it easier for new entrepreneurs to open businesses in San Francisco.

Nighttime Entertainment Uses

Like General Entertainment, Nighttime Entertainment also requires a separate land use approval for a Bar to sell alcohol. What distinguishes Nighttime Entertainment from General Entertainment is the ability to serve alcohol during a performance. The distinction helps differentiate between uses like a theatrical play, where alcohol may be served but only before the performance or during intermission, and a night club, where alcohol is always available. Given this distinction, and the sound amplification that is often associated with Nighttime Entertainment uses, this is a more intensive and therefore regulated land use; however, current controls are so prohibitive that in areas of the City known for nightlife, new Nighttime Entertainment uses are often prohibited. In fact, there are few areas of the City where new Nighttime Entertainment Uses can be established, let alone open as-of-right.

Restrictions on new or expanded Nighttime Entertainment options in San Francisco is detrimental to the City's social and economic well-being. Nightlife provides spaces for neighbors and visitors alike to socialize and engage in artistic and cultural expression. The City's diverse nightlife offerings attract people to the City and its many neighborhood businesses. Live entertainment is a key piece of San Francisco's nightlife offerings and a cornerstone of our city's cultural identity. According to the Controller's Office's 2012 nightlife visitor survey, 31% of visitors from outside of the City who traveled to San Francisco at night did so to visit music venues and nightclubs, frequenting other local businesses during their trips.

Nightlife activity has also been devastated by the COVID-19 pandemic. Prior to the pandemic, the City's 3,800 nightlife businesses employed over 64,000 people and generated an estimated \$7 billion in annual economic impact. While San Francisco continues to make progress in its economic recovery, the COVID-19 pandemic has had a devastating effect on our restaurants, bars, performing arts spaces, and music venues. Employment in the San Francisco metro area's leisure and hospitality sector in April 2022 remains down over 23% compared to February 2020. According to research cited by the National Independent Venue Association, the live music industry experienced an estimated \$9 billion loss in ticket sales nationwide in 2020, without even counting revenues that would have been generated by food or beverage sales at venues.

While entertainment venues have been hit especially hard by the pandemic, they are critical to San Francisco's standing as a world class arts and culture destination. They also play an important role in the local economy. Live music attracts tourists and locals alike, adding vibrancy to neighborhoods and drawing patrons to our restaurants, bars, and hotels. Expanding opportunities for entertainment venues South of Market will enhance the recovery of the downtown economic core and attract local workers and tourists to support downtown businesses. Reducing barriers for live entertainment in SoMa also aligns with the work of the Leather & LGBTQ Cultural District to revitalize and sustain nightlife and entertainment within the district.

Institutional Uses

The proposed ordinance relaxes the controls on several Institutional uses in various Eastern Neighborhood Mixed Use Districts. In general, these uses -Job Training, Community Facility, Public Facility, and Social Service and Philanthropic Facility- are all uses that we want to encourage in San Francisco. They are also considered to be low-impact land uses, and typically don't out compete other uses on the amount of rent they can afford to pay. In fact, they are likely to have a hard time finding suitable spaces they can afford, so making them more permissible in more neighborhoods increases the likelihood that the uses can find locations that they can afford.

Automotive Uses

San Francisco's Transit First Policy has been in place for decades, but the work to deprioritize the private automobile has been slow. Our streets are still dominated by cars, while our efforts to reach Vision Zero have floundered, especially during the pandemic. Traffic Deaths in San Francisco have been on the rise in the past few years. Since Vision Zero was adopted, the City saw an all-time low of 20 deaths in 2017, but by 2020 the number of deaths had climbed to 30. As of June 2022, 15 people have died on our streets due to traffic related violence, putting us on pace to meet or exceed the grim milestone set in 2020¹.

San Francisco is also struggling to reduce its carbon emission related to transportation. The City has been able to reduce its carbon emissions by an impressive 41% from 1990 levels; however, most of this reduction came from emission related to buildings. Our emissions from transportation have only been reduced by 16% from 1990 levels, and currently make up a total of 47% of our total carbon footprint². Climate change continues to intensify and disproportionately impact the most vulnerable segments of our population. San Francisco must continue to advance policies that disincentives driving and convert our existing auto infrastructure to carbon free alternatives.

Programs like Shared Spaces that remove automotive space for people centered spaces, Automotive Uses/Housing Density ordinance that encourages the conversion of auto-oriented uses to housing, and the recently passed EV Legislation that allows for the as-of-right conversion of existing automotive uses to carbon free fueling stations are all moving the City in a positive direction. This ordinance will also help in that regard by further restricting where new parking facilities can locate in the Eastern Neighborhoods.

Eastern Neighborhood's Residential Districts

The Western SoMa plan called for the creation of the Residential Enclave Districts with policy 1.1.3 (Protect existing and newly designated residential clusters with Residential Enclave District zoning controls.). There are two such districts, the RED and the RED-MX. REDs encompass many of the clusters of low-scale, medium density, predominantly residential neighborhoods located along the narrow side streets of the South of Market area. The zoning controls for this district are tailored to the design needs and neighborhood characteristics of these enclaves. They are intended to encourage and facilitate the development of attractive, compatible, and economically feasible in-fill housing while providing adequate residential amenities to the site and neighborhood. Dwelling units are permitted as a principal use. Nonresidential uses, except art related activities, are not permitted, except for certain uses in historic buildings and some institutional uses.

² <https://sfenvironment.org/carbonfootprint>

Red-MX Districts are like RED Districts in that they encompass some of the clusters of low-scale, medium density, predominantly residential neighborhoods located along the narrow side streets of the Western SoMa area. Both Districts also include several vacant parcels, parking lots and other properties in open storage use, which are viewed as opportunity sites for new, moderate-income, in-fill housing. RED-MX differs from RED in that it allows some small-scale retail, restaurants, arts activities, and other commercial uses to create the potential for more active, mixed-use alleys.

These districts are treated more gingerly than other districts in the Eastern Neighborhood's by what types of uses are allowed in the district (mostly residential), and by a 200' buffer around them that prohibits new Nighttime Entertainment Uses and Animal Service Uses. Unfortunately, this 200' buffer all but prohibits new nighttime entertainment uses in the neighborhoods that this ordinance seeks to allow them in (see map below). While the buffer is intended to help protect these neighborhoods it is also significantly limiting the ability to expand night life uses in the area. To address this, this ordinance also seeks to remove the 200' buffer prohibiting Nighttime Entertainment Uses and Animal Services.

Figure 1: 200' Buffer Around RED and RED-MX

General Plan Compliance

The proposed ordinance complies with the Eastern SoMa Plan in that it encourages smaller retail spaces in the Eastern SoMa Plan area. It liberalizes Institutional uses in the Eastern SoMa Plan area as well, which is consistent with the Plan's policies to encourage the creation of family supportive services, workforce development training, and the addition of new social and cultural facilities. It also further restricts new parking facilities which is consistent with the Eastern SoMa Plan Policy of discouraging new surface parking lots

The proposed Ordinance is consistent Western SoMa Plan in that it maintains the distinctions between residential and non-residential areas. By reinforcing the Entertainment Commission role in regulating nighttime entertainment operators, the ordinance will help ensure that noise ordinance requirements are met.

The proposed ordinance is consistent with the Central SoMa Plan in that it allows nightlife venues in appropriate commercial and mix-use zoning districts. By further restricting public parking lots and garages, the ordinance is consistent with the policy to reduce vehicle miles traveled and minimize greenhouse gases.

Racial and Social Equity Analysis

The proposed would further racial and social equity in multiple ways. First the ordinance expands where non-profit, social service providers, and arts activities can locate within the Eastern Neighborhoods, helping to

preserve and enhance the area's long standing Pilipino and LGBTQ social service and community serving organizations.

The ordinance's effort to limit new public parking lots and garages will also help advance equity as well. The subject area is disproportionate impacted by automobile pollution from nearby freeways. The area has also long prioritized automobile thru-traffic with its wide one-directional streets. As a result, the area includes several of the City's High Injury Network streets, and some of MTA's Communities of Concerns³. Limiting parking, while not a panacea for these concerns, is consistent with improving safety and lessening automobile pollution in the area because limits new parking facilities. The more parking available, the more like it is that people will drive to the area. Much more must be done to address years of environmental racism that has impacted much of the Eastern and Southeastern portions of San Francisco, but enacting policies that lead to reduced traffic moves the City in the right direction.

Many of the long-standing businesses in the Eastern Neighborhoods provide goods and services at accessible prices to the adjacent, lower-income residents. These businesses were also found to frequently hire from the adjacent neighborhood, serving a source of employment for the neighborhood's youth and lower skilled workers. The proposed ordinance will allow these businesses to find additional ways to increase revenue and attract new customers by allowing them to obtain Limited Live Performance Permits, principally permitting outdoor activity areas consistent with Proposition H, and by allowing catering as an Accessory use in Restaurants. Further, the proposed ordinance requires smaller retail spaces in developments over 10,000 sq. ft. The additional use size limits will help encourage new smaller retail spaces. These, by nature of their size, are typically offered at lower lease rates and provide newer entrepreneurs an opportunity at a brick-and-mortar location. In combination, these amendments help further equity and complement goals in the neighborhood's Cultural District, the neighborhood Area Plan and the Department's historical context statement for the area.

Relaxing nighttime entertainment uses would also help advance the goals of the Leather Cultural District to grow nightlife businesses back to their 1980 levels. Their mission statement is to "To augment and make sustainable housing, healthcare, commerce, community development, cultural resources, and physical spaces." Nighttime entertainment spaces are key as cultural resources and a physical space for this community. The Leather community has explicitly said that they want their voice to be heard in zoning decisions, and this ordinance does that⁴.

Implementation

The Department is excited that the last large piece of the Code Reorganization will take effect with the passage of this ordinance. The Code reorganization project has helped the Planning Department to better implement and interpret the code by creating one set of universal use definitions, and a standardize and easy to use zoning control table format; however, having a class of zoning district outside of this structure has caused confusion not only for the public but also for staff. Finishing the code reorganization project will help clear up much of this confusion and make implementation easier.

The Department is concerned about how we would enforce and implement the proposed lighting regulations added to the Walk-up Facilities definition, which we address in the recommendations below.

Recommendation

The Department recommends that the Commission *approve with modifications* the proposed Ordinance and adopt the attached Draft Resolution to that effect. The Department's proposed recommendations are as follows:

1. Rather than amending the FAR ratios in the South Park, RED and RED-MX, exempt housing, Childcare Facilities and Residential Care Facilities from FAR limits in those zoning districts.
2. Remove the language referencing adequate lighting and the Planning Department's lighting guidelines from the definition of Walk-Up Facility.
 - ~~Such facilities shall provide waste receptacles, and be kept free of litter, and provide adequate lighting for the facility, provided that such lighting shall comply with Planning Department guidelines.~~
3. Prior to removing the 200' buffer from RED and RED-MX Districts, have the Entertainment Commission evaluate how best to protect these zoning districts from noise and other quality of life impacts related to Nighttime Entertainment.
4. After the Planning Commission's consideration, allow amendments to the ordinance that maintain existing Planning Code controls.

Basis for Recommendation

The Department is recommending approval of this ordinance because it supports its goals to loosen the restrictions on Nighttime Entertainment use to help this much needed industry thrive post pandemic; permit more intuitional uses in the Eastern Neighborhoods Districts to help our non-profit organizations thrive and serve more communities; make consistent accessory use controls so that all businesses can take advantage of opportunities to expand and strengthen their business plans; and to limit new parking facilities in the Eastern Neighborhood's to help the city reach its carbon reduction goals, mode share shift goals, and Vision Zero goals. However, the Department is concerned about how some of these changes could impact the surrounding residential neighborhoods, and we also have concerns over how some of these provisions would be implemented.

Recommendation 1: Rather than amending the FAR ratios in the South Park, RED and RED-MX, exempt housing, Childcare Facilities and Residential Care Facilities from FAR limits in those zoning districts.

Our understanding is that the intention behind amending the FAR limits is to remove an arbitrary limit placed on housing, and to encourage uses like Child Care Facilities and Residential Care Facilities in these districts. While we think this is a worthwhile goal, changing the FAR ratios would also encourage other uses that are permitted in these districts, such as retail uses, office uses, and wholesale sales. RED and RED-MX districts are primarily

intended to protect and encourage residential uses while South Park seeks to maintain a balance of uses and preserve family sized housing units. The existing FAR limits seem to address these goals and removing them could undermine the purpose of the zoning districts. Housing, Childcare Facilities and Residential Care Facilities would still be subject to existing height and bulk limits.

Recommendation 2: Remove the language referencing adequate lighting and the Planning Department's lighting guidelines from the definition of Walk-Up Facility.

The Planning Department does not have lighting guidelines, and it is not something we have the expertise to regulate or monitor. Adding this to the Planning Code will create false expectations by the public that the Planning Department is the responsible agency for regulating lighting in the City. Currently, lighting is installed through an electrical permit, and the Department of Building Inspection responds to lighting concerns. We believe that any new regulations intended to address adequate lighting should be handled by the department with the best expertise.

Recommendation 3: Prior to removing the 200' buffer from RED and RED-MX Districts, have the Entertainment Commission evaluate how best to protect existing residents from noise and other quality of life impacts related to Nighttime Entertainment.

The intention behind the 200' buffer is to help protect the residential uses in the RED and RED-MX districts; however, practically the buffer all but negates many of the reforms made to Nighttime Entertainment controls in this ordinance (see map below). In fact, even a buffer of 25' would negate many of the changes made by this ordinance. In general, we prefer to not have buffers and allow the underlying zoning to dictate the land use controls for that property; however, the proximity to other districts and compactness of the RED and RED-MX Districts make it difficult to separate conflicting land uses from these areas without a buffer. The Department believes that a 200' buffer would not be necessary for Nighttime Entertainment uses if the City can develop effective mitigation measures for these uses; therefore, before this buffer is removed, we recommend at the Entertainment Commission study the issue to come up with a set of criteria, requirements, or mitigations for Nighttime Entertainment uses locate within 200' of these districts.

Recommendation 4: After the Planning Commission's consideration, allow amendments to the ordinance that maintain existing Planning Code controls.

This is a standard recommendation that we add to all code reorganization ordinances. While non-substantive changes can always be made after the Planning Commission opines on an ordinance, adding this recommendation makes it clear that the Planning Commission's intention is to only allow the proposed change outlined in the case report. Converting existing code to the new format can often result in unintended changes, the recommendation helps ensure that does not happen.

Required Commission Action

The proposed Ordinance is before the Commission so that it may recommend approval, disapproval, or approval with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Public Comment

The Department attended several meetings with the Sponsor's office, representatives of SoMa Pilipinas, and the Leather District. In general, SoMa Pilipinas had concerns over allowing Groups Housing in the RED District and allowing SROs in the UMU District. The case report erroneously said that Groups Housing would be permitted in the RED District. This was not in the introduced ordinance but could have been included in a previous draft. The ordinance did include a change that would have allow SROs in the UMU district, which was a drafting error. The case report has been revised to remove the reference to Groups Housing changes in the RED, and the ordinance has been revised to maintain the current controls for Group Housing in the UMU.

SoMa Pilipinas also wanted to make changes to the SoMa Youth and Family Zone, which this ordinance does not amend. SoMa Pilipinas' proposed changes to the Youth and Family Zone would be substantial. Adding them to this ordinance would further complicate and already complicated ordinance. Planning Staff recommended that they work the Supervisor's office to draft a separate ordinance for those changes so that the Supervisor could conduct community outreach, and so that Planning Staff could properly analyze the proposed changes.

Neighborhood Commercial and Mixed-Use Zoning

Board file 220340
Case # ~~2022~~2902PCA

Aaron Starr
February 13, 2023

Code Reorganization Project

- Started in 2014 (11/20/2014)
- Standardize and consolidate all use definitions into one section of the code
- Standardize all zoning control tables
- Article 2, 7, and Chinatown Districts are complete.
- This ordinance will bring all Eastern Neighborhood MUDs under the new format.
- DTR Districts come next and will complete the project.

Accessory Use Changes

- Amend Article 8 and Article 2 Accessory use controls to align with Article 7 Accessory Use Controls
- Allow accessory production, wholesaling, and processing of goods to occupy more than one-third of a retail space
- Allow Limited Live Performance Permits in MUG, MUR and RED-MX zoning districts
- Allow Restaurants to have an accessory catering use

Ground Floor Control Changes

- In the Eastern Neighborhood MUDs, Requires Projects with more than 10,000 sq. ft. of ground-floor commercial space to provide commercial spaces in a range of sizes.

Entertainment Arts and Recreation Use Changes

- Allow Arts Activities in the SoMa NCT, and the Eastern Neighborhoods MUDs.
- Removes the Planning Code's Good Neighbor Policies for Nighttime Entertainment from the Code
- Principally Permit Nighttime Entertainment and General Entertainment with on properties fronting Folsom Street between 7th Street and Division Street and properties fronting 11th Street between Howard Street and Division Street

Eating and Drinking Use Changes

- Principally permit Bar uses on the second floor in the Folsom NCT and Regional Commercial Districts.

Institutional Use Changes

- Liberalize the controls for Job Training, Community Facilities, Public Facilities, Social Service and Philanthropic Facilities, and Religious Facilities in the Eastern Neighborhoods MUDs and SoMa NCT District
- Principally permitted Arts Activities, Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School uses in historic buildings in the RED and RED-MX districts
- Remove the hours of operation controls for MCDs in the SALI District

Automobile Use Changes

- Require Automobile Sale or Rental uses to be in enclosed buildings in MUG, MUO, and MUR Districts
- Prohibit Public parking lots in the WMUO and SALI Districts
- Prohibit Public Parking Lots and Garages and require CU Authorization for Private Parking Garages in the RED-MX District

Residential Changes

- Remove a provision that allowed SRO buildings to have smaller rear-yard requirements than other residential buildings.

Prop H Alignment

- Removes 311 notification for principally permitted uses in the Eastern Neighborhood MUDs
- Allow for the same 30-day permit review timeline in the Eastern Neighborhood MUDs as the NC Districts
- Principally permit Outdoor Activity Areas so long as they adhere to the restrictions adopted by prop H.

Other Changes

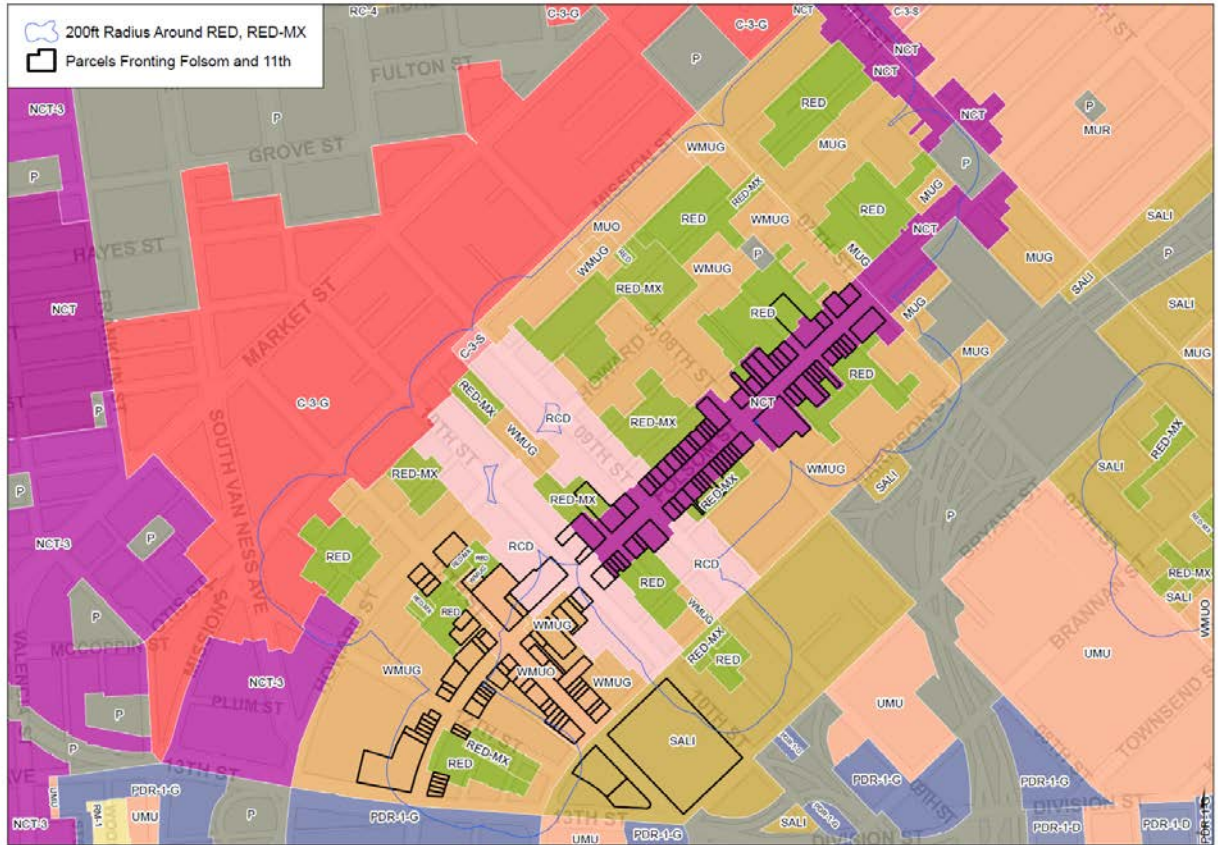

- Principally permit Large Scale Urban Ag in the Eastern Neighborhood MUDs
- In SPD, RED, and RED-MX, exempt Residential Car Facilities and Child Care Facilities from FAR.
- Reactivation of LCUs would no longer need a CU hearing but could be reactivated by the ZA instead

Commission's Recommendation

Approval with Modifications

1. Rather than amending the FAR ratios in the South Park, RED and RED-MX, exempt housing, Childcare Facilities and Residential Care Facilities from FAR limits in those zoning districts.
2. Remove the language referencing adequate lighting and the Planning Department's lighting guidelines from the definition of Walk-Up Facility.
3. Remove the proposed changes that relax Nighttime Entertainment controls in various zoning districts. Instead, amend the ordinance so that Nighttime Entertainment is principally permitted for properties fronting Folsom Street between 7th Street and Division Street and properties fronting 11th Street between Howard Street and Division Street, unless those properties are zoned RED or RED-MX. In addition, provide an exception for properties that meet those criteria to the buffer that prohibits Nighttime Entertainment within 200' of RED and RED-MX Districts.
4. Encourage the Entertainment Commission to evaluate how best to mitigate impacts in RED and RED-MX districts from noise and other quality of life impacts related to Nighttime Entertainment uses that are located within 200' of those districts.

Proposed Amendment
