

## **LEGISLATIVE DIGEST**

[Planning Code - Citywide Expansion of Allowable Commercial, Restaurant, and Retail Uses]

**Ordinance amending the Planning Code to 1) permit additional commercial, retail, and restaurant uses on the ground floor in certain neighborhood commercial districts (NCDs) and residential districts; 2) principally permit Flexible Retail on the ground floor in NCDs and Chinatown mixed use districts; 3) create Professional Services as a use category that may provide services to the public and businesses and delete Non-Retail Professional Service and Retail Professional Service use subcategories; 4) create regulations for music entertainment venues and non-profit theaters distinct from regulations for Bars; 5) allow Limited Corner Commercial Uses in certain residential districts; 6) conditionally permit Formula Retail and Restaurant uses in certain commercial districts; 7) amend Section 311 to remove neighborhood notice requirements for changes of use in the Eastern Neighborhoods mixed use districts; 8) expand business types that qualify for the Planning Department priority review program; 9) clarify that multiple allowable uses may co-locate on one site; 10) clarify and modify various other use regulations and processes; 11) establish a process to legalize certain unpermitted outdoor activity areas including restaurant patios; 12) permit additional retail and non-retail uses in specified NCDs; and affirming the Planning Department's determination under the California Environmental Quality Act, making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1, and making findings of public necessity, convenience, and welfare pursuant to Planning Code, Section 302.**

### **Existing Law**

The Planning Code regulates various uses as principally permitted, conditionally permitted, or not permitted. In certain commercial districts, some commercial uses either are not permitted or require conditional use authorization (CUA).

Flexible Retail is allowed only in Neighborhood Commercial Districts (NCDs) in two geographic areas.

Professional Services, such as accounting, advertising, and insurance, are regulated either as Retail (generally open to the public) or Non-Retail (primarily serving other businesses).

Uses are regulated either as principal uses or accessory uses (minor or incidental uses associated with the principal use). If multiple uses are proposed at one site, but the additional uses are not minor enough to be deemed "accessory," each use will be evaluated and regulated as a principal use. In this way, multiple uses may be permitted at one site, even though such combined uses are not explicitly authorized in the Planning Code.

The California Department of Alcoholic Beverage Control (ABC) recently created a new license for music venues, called Type 90, that has not yet been incorporated into the Planning Code. ABC license Type 64 allows alcohol sales at non-profit theaters.

A business with a patio must obtain Conditional Use Authorization if it cannot provide documentation that the patio was properly permitted when it was first established.

Planning Code Section 311 requires neighborhood notices for changes of use in several districts, including Eastern Neighborhoods Mixed Use Districts. Proposition H (2020's Save Our Small Businesses Initiative) eliminated this notice requirement for many other districts.

Certain small and mid-sized businesses qualify for expedited processing under the Community Benefit Priority Processing Program (CB3P). Currently, uses that sell alcohol, such as Nighttime Entertainment and Bars, do not qualify for the program.

### Amendments to Current Law

Overall, the amendments in this ordinance would allow more business types on the ground floor in commercial areas and at residential corner commercial buildings. The chart below summarizes these amendments. In addition, this ordinance would explicitly allow multiple principal uses to co-locate at one site, would not require Section 311 neighborhood notice for changes of use in Eastern Neighborhoods Mixed Use Districts, and would include Bars and Nighttime Entertainment uses in the expedited CB3P processing program.
