SEC. 209.1. RH (RESIDENTIAL, HOUSE) DISTRICTS.

* * * *

RH-2 Districts: Two-Family. These Districts are devoted to one-family and two-family houses, with the latter commonly consisting of two large flats, one occupied by the owner and the other available for rental. SEC. 209.4. RTO (RESIDENTIAL TRANSIT ORIENTED) DISTRICTS.

These Districts are intended to recognize, protect, conserve, and enhance areas characterized by a mixture of houses and apartment buildings, covering a range of densities and building forms. RTO and RTO-M (Residential Transit Oriented, Mission) Districts are composed of multi-family moderate-density areas, primarily areas formerly designated RM and RH-3, and are well served within short walking distance, generally less than one-quarter mile, of transit and neighborhood commercial areas. Transit available on nearby streets is frequent and/or provides multiple lines serving different parts of the City or region. Limited small-scale neighborhood-oriented retail and services is common and permitted throughout the neighborhood on Corner Lots only to provide goods and services to residents within walking distance, but the districts are otherwise residential. Only retail compatible with housing, generally those permitted in NC-1 Districts, is permitted and auto-oriented uses are

not permitted. Hours of operation are restricted and off-street parking is not permitted for these very locally-oriented uses.

7 interference with nearby streets and properties. These uses are permitted only on the ground
8 floor of corner buildings, and their intensity and operating hours are limited to ensure

SEC. 714. BROADWAY NEIGHBORHOOD COMMERCIAL DISTRICT.

* * * *

The Broadway District controls are designed to encourage development that is compatible with the existing moderate building scale and mixed-use character, and maintain the district's balance of entertainment uses, restaurants, and small-scale retail stores. New buildings exceeding 40 feet in height will be carefully reviewed and rear yards at residential

levels are protected. Most commercial uses in new buildings are permitted at the first two stories. Neighborhood-serving businesses are strongly encouraged. In order to protect the livability of the area, limitations apply to new fast-food restaurants and adult entertainment uses at the first and second stories, as well as late-night activity. Financial services are allowed on the ground story subject to certain limitations. Nonretail offices are ~~limited~~*prohibited* in order to prevent encroachment of the adjoining downtown office uses. Due to the high traffic volume on Broadway, most automobile and drive-up uses are prohibited in order to prevent further traffic congestion. Parking garages are permitted if their ingress and egress do not disrupt the traffic flow on Broadway.

SEC. 719. HAIGHT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

* * * *

The Haight Street District controls are designed to protect the existing building scale and promote new mixed-use development which is in character with adjacent buildings. The building standards regulate large-lot and use development and protect rear yards above the ground story and at residential levels. To promote the prevailing mixed-use character, most commercial uses are directed primarily to the ground story with some upper-story restrictions in new buildings. In order to maintain the balanced mix and variety of neighborhood-serving commercial uses and regulate the more intensive commercial uses which can generate congestion and nuisance problems, special controls ~~limit~~*prohibit* additional drinking uses and tourist hotels. Prohibitions of most automobile and drive-up uses protect the district's continuous retail frontage.

SEC. 724. SACRAMENTO STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

* * * *

The Sacramento Street District controls are designed to promote adequate growth opportunities for development that is compatible with the surrounding low-density residential neighborhood. The building standards monitor large-scale development and protect rear yards at the grade level and above. Most new commercial development is permitted at the first story; general retail uses are permitted at the second story only if such use would not involve conversion of any existing housing units. Special controls are designed to protect existing neighborhood-serving ground-story retail uses. ~~New Health Service uses, whether~~

~~Principal or Accessory, require a Conditional Use authorization on the ground story and are permitted above the ground story.~~ Limits on financial service uses are intended to minimize the environmental impacts generated by the growth of such uses. The daytime orientation of the district is encouraged by requiring conditional use authorization for ~~prohibiting~~ bars and restricting late-night commercial activity. New hotels and parking facilities are limited in scale and operation to minimize disruption to the neighborhood. Most new automobile and drive-up uses are prohibited to promote continuous retail frontage.

SEC. 725. UNION STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

* * * *

The Union Street District controls are designed to provide sufficient growth opportunities for commercial development that is in keeping with the existing scale and character, promote continuous retail frontage, and protect adjacent residential livability. Small-scale buildings and neighborhood-serving uses are promoted, and rear yards above the ground story and at all residential levels are protected. Most commercial development is permitted at the first two stories of new buildings, while retail service uses are monitored at the third story and above. Controls are necessary to preserve the remaining convenience businesses and to reduce the cumulative impacts which the growth of certain uses have on neighborhood residents. Such controls require Conditional Use authorization for ~~prohibit~~

additional drinking establishments and limit additional entertainment, and financial service uses. Most automobile and drive-up uses are prohibited in order to maintain continuous retail frontage and minimize further traffic congestion.

SEC. 729. WEST PORTAL AVENUE NEIGHBORHOOD COMMERCIAL DISTRICT.

* * * *

Special controls on commercial uses are designed to protect the existing mix of ground-story retail uses and prevent further intensification and congestion in the district. ~~No new financial services are permitted.~~ Because the district and surrounding neighborhoods are well served by the existing number of eating and drinking establishments, new bars are discouraged: any proposed new establishment should be carefully reviewed to ensure that it is neighborhood-serving and family-oriented, and will not generate traffic, parking, or litter problems. Medical, business or professional services are permitted at the first two stories, but additional ground-story locations are to be closely monitored to ensure that the current balance between retail and office uses is maintained. Existing service stations are encouraged to continue operating, but changes in their size, operation, or location are subject to review. Other automotive uses are prohibited. The neighborhood-oriented, retail character of the district is further protected by prohibiting hotels and limiting nonretail uses. The daytime orientation of the district is maintained by prohibition of late-night commercial operating hours.

SEC. 762. VALENCIA STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

* * * *

The Valencia Street District has a pattern of large lots and businesses, as well as a sizable number of upper-story residential units. Controls are designed to permit moderate-scale

buildings and uses, protecting rear yards above the ground story and at residential levels. New neighborhood-serving commercial development is encouraged mainly at the ground story. While offices and general retail sales uses may locate at the second story of new buildings under certain circumstances, most commercial uses are prohibited above the second story. Continuous retail frontage is promoted by prohibiting drive-up facilities and some automobile uses, and limiting new nonretail commercial uses. Parking is not required, and any new parking is required to be set back or below ground. Active, pedestrian-oriented ground floor uses are required.

SEC. 763. 24TH STREET – MISSION NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

* * * *

The 24th Street – Mission Neighborhood Commercial Transit District controls are designed to provide potential for new development consistent with the existing scale and character. Small-scale buildings and neighborhood-serving uses are encouraged, and rear yard corridors above the ground story and at residential levels are protected. Most commercial uses are encouraged at the ground story, while service uses are permitted with some limitations at the second story. Special controls are necessary to preserve the unique mix of convenience and specialty commercial uses. In order to maintain convenience stores and protect adjacent livability, new bars are ~~limited~~*prohibited*, and limitations apply to the development and operation of ground-story restaurants and entertainment uses. Continuous retail frontage along 24th Street is maintained and encouraged by prohibiting most automobile and drive-up uses, banning curb cuts, and requiring active, pedestrian-oriented ground floor uses. Parking is not required, and any new parking required to be set back or below ground.
