Dear Supervisors Stefani, Engardio, Mandelman, and Dorsey, Clerk Carroll, and Mayor Breed,

I am writing to urge you to act and consider the *Urging Responses from City Departments to Inform a Coordinated, Comprehensive and Sustained Plan to Address Drug-Related Harms and Incentivize Recovery - San Francisco Recovers* plan at your upcoming Public Safety and Neighborhood Services Committee meeting, and I urge Mayor Breed to approve it once it gets to her office.

As we all know, drug-related harms have been a persistent issue in San Francisco, and the city needs a comprehensive plan to address this issue. The San Francisco Recovers plan is a comprehensive proposal that addresses the drug-related harms in San Francisco and incentivizes recovery. It also takes a hard look at the coordination and collaboration between city departments to ensure a sustained plan to address this issue. I believe that this plan has the potential to make a real difference in the lives of San Franciscans, and I urge you to act on it.

Please consider the *Urging Responses from City Departments to Inform a Coordinated, Comprehensive and Sustained Plan to Address Drug-Related Harms and Incentivize Recovery - San Francisco Recovers* plan at your upcoming meeting and take the necessary steps to move it forward, and for Mayor Breed to approve it once she gets to sign it.

Thank you for your time and consideration.

Evan Ray
