

ANGIE M. SOMMER, SE
ASSOCIATE PRINCIPAL

Over the past 15 years, Angie Sommer has served in the role of engineer of record, project manager, and design engineer for a variety of education projects that include new construction, modernizations, design-build projects, and seismic evaluations. After graduating from the ARCE program at Cal Poly SLO, Angie worked at structural engineering firms in San Luis Obispo and Melbourne, Australia before returning to California and joining ZFA's San Francisco office.

Over the years she has distinguished herself as a skilled project manager who works well with fellow members of the design team, contractors, and clients. She values clear communication, and is detail-oriented in her designs and follow-through on project tasks. In addition to technical knowledge, she understands the importance of client and team relationships, overall project risk, and sound business decisions, all of which enable her to contribute to the overall success of each project.

Angie is extremely involved in her community and professional organizations, working to advance the roles of women in engineering. Professional memberships include: Women in Structural Engineering (WiSE), Structural Engineering Engagement and Equity Committee (SE3), and Commercial Real Estate Women San Francisco (CREW SF).

YEARS OF EXPERIENCE

- 9 years with ZFA
- 15 years total

EDUCATION

- B.S., Architectural Engineering, 2005, California Polytechnic State University, San Luis Obispo

PROFESSIONAL REGISTRATION

- CA Structural Engineer 6013
- CA Civil Engineer 72445
- State of California Department of Emergency Services Disaster Services Worker Safety Assessment Program ID #67185
- DSA Certified Structural Plan Reviewer

PROFESSIONAL MEMBERSHIPS

- NCSEA SE3 Committee 2017-18 Co-Chair
- SEAONC SE3 Committee 2016-17 Co-Chair
- Lead Author of SE3 2016 Survey Report
- CREW SF 2017 Managing Editor of The VIEW Quarterly Publication
- CREW SF Communications Committee 2016 Chair
- WiSE Member
