1 [Planning Code, Zoning Map - Housing Production]

2

3 **Ordinance amending the Planning Code to encourage housing production by 1)**
4 **exempting, under certain conditions, specified housing projects from the notice and**
5 **review procedures of Section 311 and the Conditional Use requirement of Section 317,**
6 **in areas outside of Priority Equity Geographies, which are identified in the Housing**
7 **Element as areas or neighborhoods with a high density of vulnerable populations; 2)**
8 **removing the Conditional Use requirement for several types of housing projects,**
9 **including housing developments on large lots, projects to build to the allowable height**
10 **limit, projects that build additional units in lower density zoning districts, and senior**
11 **housing projects that seek to obtain double density; 3) amending rear yard, front**
12 **setback, lot frontage, minimum lot size, and residential open space requirements in**
13 **specified districts; 4) allowing additional uses on the ground floor in residential**
14 **buildings, homeless shelters, and group housing in residential districts, and**
15 **administrative review of reasonable accommodations; 5) expanding the eligibility for**
16 **the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and**
17 **density exceptions in residential districts; 6) exempting certain affordable housing**
18 **projects from certain development fees; 7) authorizing the Planning Director to approve**
19 **State Density Bonus projects, subject to delegation from the Planning Commission;**
20 **and 8) making conforming amendments to other sections of the Planning Code;**
21 **amending the Zoning Map to create the Priority Equity Geographies Special Use**
22 **District; affirming the Planning Department's determination under the California**
23 **Environmental Quality Act; and making public necessity, convenience, and welfare**
24 **findings under Planning Code, Section 302, and findings of consistency with the**
25 **General Plan, and the eight priority policies of Planning Code, Section 101.1.**

1 NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
2 **Additions to Codes** are in *single-underline italics Times New Roman font*.
3 **Deletions to Codes** are in ~~*strikethrough italics Times New Roman font*~~.
4 **Board amendment additions** are in double-underlined Arial font.
5 **Board amendment deletions** are in ~~strikethrough Arial font~~.
6 **Asterisks (* * * *)** indicate the omission of unchanged Code
7 subsections or parts of tables.

8 Be it ordained by the People of the City and County of San Francisco:

9 Section 1. Environmental and Land Use Findings.

10 (a) The Planning Department has determined that the actions contemplated in this
11 ordinance comply with the California Environmental Quality Act (California Public Resources
12 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
13 Supervisors in File No. 230446 and is incorporated herein by reference. The Board affirms
14 this determination.

15 (b) On June 29, 2023, the Planning Commission, in Resolution No. 21342, adopted
16 findings that the actions contemplated in this ordinance are consistent, on balance, with the
17 City's General Plan and eight priority policies of Planning Code Section 101.1. The Board
18 adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the
19 Board of Supervisors in File No. 230446, and is incorporated herein by reference.

20 (c) Pursuant to Planning Code Section 302, this Board finds that these Planning Code
21 amendments will serve the public necessity, convenience, and welfare for the reasons set
22 forth in Planning Commission Resolution No. 21342, and the Board adopts such reasons as
23 its own. A copy of said resolution is on file with the Clerk of the Board of Supervisors in File
24 No. 230446 and is incorporated herein by reference.

1 Section 2. General Background and Findings.

2 (a) California faces a severe crisis of housing affordability and availability, prompting
3 the Legislature to declare, in Section 65589.5 of the Government Code, that the state has “a
4 housing supply and affordability crisis of historic proportions. The consequences of failing to
5 effectively and aggressively confront this crisis are hurting millions of Californians, robbing
6 future generations of a chance to call California home, stifling economic opportunities for
7 workers and businesses, worsening poverty and homelessness, and undermining the state’s
8 environmental and climate objectives.”

9 (b) This crisis of housing affordability and availability is particularly severe in San
10 Francisco. It is characterized by dramatic increases in rent and home sale prices over recent
11 years.

12 (c) According to the Planning Department’s 2020 Housing Inventory, the cost of
13 housing in San Francisco has increased dramatically since the Great Recession of 2008-
14 2009, with the median sale price for a two-bedroom house more than tripling from 2011 to
15 2021, from \$493,000 to \$1,580,000. This includes a 9% increase from 2019 to 2020 alone,
16 even in the face of the COVID-19 pandemic. The median rental price for a two-bedroom
17 apartment saw similar although slightly smaller increases, nearly doubling from \$2,570 to
18 \$4,500 per month, from 2011 to 2019, before declining in 2020 due to the pandemic.

19 (d) These housing cost trends come after decades of underproduction of housing in
20 the Bay Area, according to the Planning Department’s 2019 Housing Affordability Strategies
21 Report. The City’s Chief Economist has estimated that approximately 5,000 new market-rate
22 housing units per year would be required to keep housing prices in San Francisco constant
23 with the general rate of inflation.

24 (e) Moreover, San Francisco will be challenged to meet increased Regional Housing
25 Needs Allocation (“RHNA”) goals in this 2023-2031 Housing Element cycle, which total 82,069

1 units over eight years, more than 2.5 times the goal of the previous eight-year cycle. The
2 importance of meeting these goals to address housing needs is self-evident. In addition,
3 under relatively new State laws like Senate Bill 35 (2017), failure to meet the 2023-2031
4 RHNA housing production goals would result in limitations on San Francisco's control and
5 discretion over certain projects.

6 (f) On January 31, 2023, the City adopted the 2022 Update of the Housing Element of
7 the General Plan ("2022 Housing Element"), as required by state law. The 2022 Housing
8 Element is San Francisco's first housing plan that is centered on racial and social equity. It
9 articulates San Francisco's commitment to recognizing housing as a right, increasing housing
10 affordability for low-income households and communities of color, opening small and mid-rise
11 multifamily buildings across all neighborhoods, and connecting housing to neighborhood
12 services like transportation, education, and economic opportunity.

13 (g) The 2022 Housing Element includes goals, objectives, policies and implementing
14 programs that seek to guide development patterns and the allocation of resources to San
15 Francisco neighborhoods. Generally, it intends to shift an increased share of the San
16 Francisco's projected future housing growth to transit corridors and low-density residential
17 districts within "Well-Resourced Neighborhoods" (which are areas identified by the state as
18 neighborhoods that provide strong economic, health, and educational outcomes for its
19 residents), while aiming to prevent the potential displacement and adverse racial and social
20 equity impacts of zoning changes, planning processes, or public and private investments for
21 populations and in areas that may be vulnerable to displacement, such as "Priority Equity
22 Geographies" (identified in the Department of Public Health's Community Health Needs
23 Assessment as Areas of Vulnerability).

24 (h) Among other policies, the 2022 Housing Element commits the City to remove
25 governmental constraints on housing development, maintenance and improvement,

specifically in Well-Resourced Neighborhoods and in areas outside of Priority Equity Geographies, as well as to reduce costs and administrative processes for affordable housing projects, small and multifamily housing, and to simplify and standardize processes and permit procedures. Among many other obligations, the 2022 Housing Element requires that the City remove Conditional Use Authorization requirements for code compliant projects, eliminate hearing requirements, and modify standards and definitions to permit more types of housing across the City, in Well-Resourced Neighborhoods and outside of Priority Equity Geographies. This ordinance advances those goals.

Section 3. The Planning Code is hereby amended by deleting Sections 121.1, 121.3, 132.2, 253, 253.1, 253.2, and 253.3, revising Sections 102, 121, 121.7, 132, 134, 135, 140, 145.1, 202.2, 204.1, 206.3, 206.6, 207, 209.1, 209.2, 209.3, 209.4, 210.3, 305.1, 311, 317, 406, 713, 714, 754, 810, 811, and 812, and adding Section 249.97, to read as follows:

SEC. 102.DEFINITIONS.

* * * *

Dwelling Unit. A Residential Use defined as a room or suite of two or more rooms that is designed for, or is occupied by, one family doing its own cooking therein and having only one kitchen. A Dwelling Unit shall also include “employee housing” when providing accommodations for six or fewer employees, as provided in State Health and Safety Code §17021.5. A housekeeping room as defined in the Housing Code shall be a Dwelling Unit for purposes of this Code. For the purposes of this Code, a Live/Work Unit, as defined in this Section, shall not be considered a Dwelling Unit.

* * * *

1 **Height (of a building or structure).** The vertical distance by which a building or structure
2 rises above a certain point of measurement. See Section 260 of this Code for how height is
3 measured.

4
5 **Historic Building.** *A Historic Building is a building or structure that meets at least one of the following*
6 *criteria:*

- 7 • *It is individually designated as a landmark under Article 10;*
- 8 • *It is listed as a contributor to an historic district listed in Article 10;*
- 9 • *It is a Significant or Contributory Building under Article 11, with a Category I, II, III or IV*
10 *rating;*
- 11 • *It has been listed or has been determined eligible for listing in the California Register of*
12 *Historical Resources; or,*
- 13 • *It has been listed or has been determined eligible for listing in the National Register of Historic*
14 *Places.*

15 * * * *

16 17 **SEC. 121. MINIMUM LOT WIDTH AND AREA.**

18 * * * *

19 (b) **Subdivisions and Lot Splits.** Subdivisions and lot splits shall be governed by the
20 Subdivision Code of the City and County of San Francisco and by the Subdivision Map Act of
21 California. In all such cases the procedures and requirements of said Code and said Act shall
22 be followed, including the requirement for consistency with the General Plan of the City and
23 County of San Francisco. ~~Where the predominant pattern of residential development in the~~
24 ~~immediate vicinity exceeds the minimum standard for lot width or area, or the minimum standards for~~
25 ~~both lot width and area, set forth below in this Section, any new lot created by a subdivision or lot split~~

~~under the Subdivision Code shall conform to the greater established standards, provided that in no case shall the required lot width be more than 33 feet or the required lot area be more than 4,000 square feet.~~

~~* * * *~~

(d) **Minimum Lot Width.** The minimum lot width shall be 20 feet. as follows:

~~(1) In RH-1(D) Districts: 33 feet;~~

~~(2) In all other zoning use districts: 25 feet.~~

(e) **Minimum Lot Area.** The minimum lot area shall be 1,200 sq. ft. as follows:

~~(1) In RH-1(D) Districts: 4,000 square feet;~~

~~(2) In all other zoning use districts: 2,500 square feet; except that the minimum lot area for any lot having its street frontage entirely within 125 feet of the intersection of two streets that intersect at an angle of not more than 135 degrees shall be 1,750 square feet.~~

~~(f) Conditional Uses. Notwithstanding the foregoing requirements of this Section 121 as to lot width, lot area and width of lot frontage, in any zoning use district other than an RH-1(D) District the City Planning Commission may permit one or more lots of lesser width to be created, with each lot containing only a one-family dwelling and having a lot area of not less than 1,500 square feet, according to the procedures and criteria for conditional use approval in Section 303 of this Code.~~

~~SEC. 121.1. DEVELOPMENT OF LARGE LOTS, NEIGHBORHOOD COMMERCIAL DISTRICTS.~~

~~(a) Purpose. In order to promote, protect, and maintain a scale of development that is appropriate to each district and compatible with adjacent buildings, new construction or significant enlargement of existing buildings on lots of the same size or larger than the square footage stated in the table below shall be permitted only as Conditional Uses.~~

<i>District</i>	<i>Lot Size Limits</i>
-----------------	------------------------

1	<i>North Beach</i>	<i>2,500 sq. ft.</i>
2	<i>Pacific Avenue</i>	
3	<i>Polk Street</i>	
4	<i>NC 1, NCT 1</i>	<i>5,000 sq. ft.</i>
5	<i>24th Street Mission</i>	
6	<i>24th Street Noe Valley</i>	
7	<i>Broadway</i>	
8	<i>Castro Street</i>	
9	<i>Cole Valley</i>	
10	<i>Glen Park</i>	
11	<i>Haight Street</i>	
12	<i>Inner Clement Street</i>	
13	<i>Inner Sunset</i>	
14	<i>Irving Street</i>	
15	<i>Judah Street</i>	
16	<i>Lakeside Village</i>	
17	<i>Noriega Street</i>	
18	<i>Outer Clement Street</i>	
19	<i>Sacramento Street</i>	
20	<i>Taraval Street</i>	
21	<i>Union Street</i>	
22		
23		
24		
25		

1	<i>Upper Fillmore Street</i>	
2	<i>West Portal Avenue</i>	
3	<i>NC 2, NCT 2</i>	<i>10,000 sq. ft.</i>
4	<i>NC 3, NCT 3</i>	
5	<i>Bayview</i>	
6	<i>Cortland Avenue</i>	
7	<i>Divisadero Street</i>	
8	<i>Excelsior Outer Mission Street</i>	
9	<i>Fillmore Street</i>	
10	<i>Folsom Street</i>	
11	<i>Geary Boulevard</i>	
12	<i>Hayes Gough</i>	
13	<i>Inner Balboa Street</i>	
14	<i>Inner Taraval Street</i>	
15	<i>Japantown</i>	
16	<i>Lower Haight Street</i>	
17	<i>Lower Polk Street</i>	
18	<i>Mission Bernal</i>	
19	<i>Mission Street</i>	
20	<i>Ocean Avenue</i>	
21	<i>Outer Balboa Street</i>	
22		
23		
24		
25		

1	<i>Regional Commercial District</i>	
2	<i>San Bruno Avenue</i>	
3	<i>SoMa</i>	
4	<i>Upper Market Street</i>	
5	<i>Valencia Street</i>	
6		
7	<i>NC-S</i>	<i>Not Applicable</i>

8 ~~(b) **Design Review Criteria.** In addition to the criteria of Section 303(c) of this Code, the City~~
9 ~~Planning Commission shall consider the extent to which the following criteria are met:~~

10 ~~(1) The mass and facade of the proposed structure are compatible with the existing~~
11 ~~scale of the district.~~

12 ~~(2) The facade of the proposed structure is compatible with design features of adjacent~~
13 ~~facades that contribute to the positive visual quality of the district.~~

14 ~~(3) Where 5,000 or more gross square feet of Non Residential space is proposed, that~~
15 ~~the project provides commercial spaces in a range of sizes, including one or more spaces of 1,000~~
16 ~~gross square feet or smaller, to accommodate a diversity of neighborhood business types and business~~
17 ~~sizes.~~

18
19 **~~SEC. 121.3. DEVELOPMENT OF LARGE LOTS, CHINATOWN MIXED USE~~**
20 **~~DISTRICTS.~~**

21 ~~In order to promote, protect, and maintain a scale of development which is appropriate to each~~
22 ~~Mixed Use District and complementary to adjacent buildings, new construction or enlargement of~~
23 ~~existing buildings on lots larger than the square footage stated in the table below shall be permitted as~~
24 ~~conditional uses subject to the provisions set forth in Section 303.~~

25 -

<i>District</i>	<i>Lot Size Limits</i>
<i>Chinatown Community Business</i>	<i>5,000 sq. ft.</i>
<i>Chinatown Residential/Neighborhood Commercial</i>	
<i>Chinatown Visitor Retail</i>	

In addition to the criteria of Section 303(c), the Planning Commission shall consider the following criteria:

(1) The mass and facade of the proposed structure are compatible with the existing scale of the district.

(2) The facade of the proposed structure is consistent with design features of adjacent facades that contribute to the positive visual quality of the district.

SEC. 121.7. RESTRICTION OF LOT MERGERS IN CERTAIN DISTRICTS AND ON PEDESTRIAN-ORIENTED STREETS.

* * * *

(b) Controls. Merger of lots is regulated as follows:

*(1) **RTO Districts.** In RTO Districts, merger of lots creating a lot greater than 5,000 square feet shall not be permitted except according to the procedures and criteria in subsection (d) below.*

*(2) **NCT, NC, and Mixed-Use Districts.** In those NCT, NC, and Mixed Use Districts listed below, merger of lots resulting in a lot with a single street frontage greater than that stated in the table below on the specified streets or in the specified Districts is prohibited except according to the procedures and criteria in subsections (c) and (d) below.*

1 (32) **WMUO District.** Merger of lots in the WMUO zoning district resulting in a
2 lot with a street frontage between 100 and 200 feet along Townsend Street is permitted so
3 long as a publicly-accessible through-block pedestrian alley at least 20 feet in width and
4 generally conforming to the design standards of Section 270.2(e)(5)-(12) of this Code is
5 provided as a result of such merger.

6 (43) **Mission Street NCT District.** In the Mission Street NCT District, projects
7 that propose lot mergers resulting in street frontages on Mission Street greater than 50 feet
8 shall provide at least one non-residential space of no more than 2,500 square feet on the
9 ground floor fronting Mission Street.

10 (54) **Ocean Avenue NCT District.** In the Ocean Avenue NCT District, projects
11 that propose lot mergers resulting in street frontages greater than 50 feet are permitted to
12 create corner lots only, and shall require a conditional use authorization.

13 * * * *

14
15 **SEC. 132. FRONT SETBACK AREAS IN RTO, RH, AND RM DISTRICTS AND FOR**
16 **REQUIRED SETBACKS FOR PLANNED UNIT DEVELOPMENTS.**

17 The following requirements for minimum front setback areas shall apply to every
18 building in all RH, RTO, and RM Districts, in order to relate the setbacks provided to the
19 existing front setbacks of adjacent buildings. Buildings in RTO Districts which have more than
20 75 feet of street frontage are additionally subject to the Ground Floor Residential Design
21 Guidelines, as adopted and periodically amended by the Planning Commission. Planned Unit
22 Developments or PUDs, as defined in Section 304, shall also provide landscaping in required
23 setbacks in accord with Section 132(g).

24 (a) **Basic Requirement.** Where one or both ~~of the~~ buildings adjacent to the subject
25 property have front setbacks along a Street or Alley, any building or addition constructed,

1 reconstructed, or relocated on the subject property shall be set back no less than the depth of the
2 adjacent building with the shortest front setback, except as provided in subsection (c). ~~the average of~~
3 ~~the two adjacent front setbacks. If only one of the adjacent buildings has a front setback, or if there is~~
4 ~~only one adjacent building, then the required setback for the subject property shall be equal to one-half~~
5 ~~the front setback of such adjacent building.~~ In any case in which the lot constituting the subject
6 property is separated from the lot containing the nearest building by an undeveloped lot or lots
7 for a distance of 50 feet or less parallel to the Street or Alley, such nearest building shall be
8 deemed to be an “adjacent building,” but a building on a lot so separated for a greater
9 distance shall not be deemed to be an “adjacent building.” [Note to publisher: Delete diagram
10 that follows this text].

11 ~~(b) **Alternative Method of Averaging.** If, under the rules stated in subsection (a) above, an~~
12 ~~averaging is required between two adjacent front setbacks, or between one adjacent setback and~~
13 ~~another adjacent building with no setback, the required setback on the subject property may~~
14 ~~alternatively be averaged in an irregular manner within the depth between the setbacks of the two~~
15 ~~adjacent buildings, provided that the area of the resulting setback shall be at least equal to the product~~
16 ~~of the width of the subject property along the Street or Alley times the setback depth required by~~
17 ~~subsections (a) and (c) of this Section 132; and provided further, that all portions of the resulting~~
18 ~~setback area on the subject property shall be directly exposed laterally to the setback area of the~~
19 ~~adjacent building having the greater setback. In any case in which this alternative method of averaging~~
20 ~~has been used for the subject property, the extent of the front setback on the subject property for~~
21 ~~purposes of subsection (c) below relating to subsequent development on an adjacent site shall be~~
22 ~~considered to be as required by subsection (a) above, in the form of a single line parallel to the Street~~
23 ~~or Alley~~ [Note to publisher: Delete diagram that follows this text].

24 ~~(be)~~ **Method of Measurement.** The extent of the front setback of each adjacent
25 building shall be taken as the horizontal distance from the property line along the Street or

Alley to the building wall closest to such property line, excluding all projections from such wall, all decks and garage structures and extensions, and all other obstructions.

(c) Applicability to Special Lot Situations.

* * * *

(d) Maximum Requirements. The maximum required front setback in any of the cases described in this Section 132 shall be ~~15~~ 10 feet from the property line along the Street or Alley, ~~or 15% of the average depth of the lot from such Street or Alley, whichever results in the lesser requirement. Where a lot faces on a Street or Alley less than or equal to 40 feet in width, the maximum required setback shall be ten feet from the property line or 15% of the average depth of the lot from such Street or Alley, whichever results in the lesser requirement.~~ The required setback for lots located within the Bernal Heights Special Use District is set forth in Section 242 of this Code.

* * * *

~~SEC. 132.2. SETBACKS IN THE NORTH OF MARKET RESIDENTIAL SPECIAL USE DISTRICT.~~

~~(a) General.~~ ~~In order to maintain the continuity of a predominant street wall along the street, setbacks of the upper portion of a building which abuts a public sidewalk may be required of buildings located within the boundaries of the North of Market Residential Special Use District, as shown on Sectional Map 1Sub of the Zoning Map, as a condition of approval of conditional use authorization otherwise required by Section 253 of this Code for building in RC Districts which exceed 50 feet in height.~~

~~(b) Procedures.~~ ~~A setback requirement may be imposed in accordance with the provisions set forth below pursuant to the procedures for conditional use authorization set forth in Section 303 of this Code.~~

~~(c) **Setback Requirement.** In order to maintain the continuity of the prevailing streetwall along a street or alley, a setback requirement may be imposed as a condition of approval of an application for conditional use authorization for a building in excess of 50 feet in height, as required by Section 253 of this Code. If the applicant can demonstrate that the prevailing streetwall height on the block on which the proposed project is located, as established by existing cornice lines, is in excess of 50 feet, then the Commission may impose a maximum setback of up to 20 feet applicable to the portion of the building which exceeds the established prevailing streetwall height; provided, however, that if the applicant demonstrates that the prevailing streetwall height is in excess of 68 feet, the maximum setback requirement which may be imposed is 16 feet. If the applicant can demonstrate that a building without a setback would not disrupt the continuity of the prevailing streetwall along the street, then the Planning Commission may grant approval of the conditional use authorization without imposing a setback requirement as a condition thereof.~~

SEC. 134. REAR YARDS IN R, RC, NC, C, SPD, M, MUG, WMUG, MUO, MUR, UMU, RED, AND RED-MX DISTRICTS.

* * * *

(c) Basic Requirements. The basic rear yard requirements shall be as follows for the districts indicated:

(1) In RH, RM-1, RM-2, RTO, RTO-M Zoning Districts, the basic rear yard shall be equal to 30% of the total depth of the lot on which the building is situated, but in no case less than 15 feet.

(2) In all other Zoning Districts not listed in subsection (c)(1), the rear yard shall be equal to 25% of the total depth of the lot on which the building is situated, but in no case less than 15 feet.

(d) Rear Yard Location Requirements.

1 ~~(1) RH-1(D), RH-1, and RH-1(S) Districts. For buildings that submit a development~~
2 ~~application on or after January 15, 2019, the minimum rear yard depth shall be equal to 30% of the~~
3 ~~total depth of the lot on which the building is situated, but in no case less than 15 feet. Exceptions are~~
4 ~~permitted on Corner Lots and through lots abutting properties with buildings fronting both streets, as~~
5 ~~described in subsection (f) below. For buildings that submitted a development application prior to~~
6 ~~January 15, 2019, the minimum rear yard depth shall be determined based on the applicable law on the~~
7 ~~date of submission.~~

8 ~~(2) RM-3, RM-4, RC-3, RC-4, NC Districts other than the Pacific Avenue NC~~
9 ~~District, C, M, MUG, WMUG, MUO, CMUO, MUR, UMU, RED, RED-MX, and SPD Districts.~~
10 ~~Except as specified in this subsection (c), the minimum rear yard depth shall be equal to 25% of the~~
11 ~~total depth of the lot on which the building is situated, but in no case less than 15 feet.~~

12 ~~(A) For buildings containing only SRO Units in the Eastern Neighborhoods~~
13 ~~Mixed Use Districts, the minimum rear yard depth shall be equal to 25% of the total depth of the lot on~~
14 ~~which the building is situated, but the required rear yard of SRO buildings not exceeding a height of 65~~
15 ~~feet shall be reduced in specific situations as described in subsection (c) below.~~

16 ~~(B) To the extent the lot coverage requirements of Section 249.78 apply to a~~
17 ~~project, those requirements shall control, rather than the requirements of this Section 134.~~

18 ~~(C1)~~ **RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RTO, NC-1, NCT-1, Inner Sunset,**
19 **Outer Clement Street, Cole Valley, Haight Street, Lakeside Village, Sacramento Street,**
20 **24th Street-Noe Valley, Pacific Avenue, and West Portal Avenue Districts. Rear yards shall**
21 **be provided at grade level and at each succeeding level or story of the building.**

22 ~~(D2)~~ **NC-2, NCT-2, Ocean Avenue, Inner Balboa Street, Outer Balboa**
23 **Street, Castro Street, Cortland Avenue, Divisadero Street NCT, Excelsior-Outer Mission**
24 **Street, Inner Clement Street, Upper Fillmore Street, Lower Haight Street, Judah Street,**
25 **Noriega Street, North Beach, San Bruno Avenue, Taraval Street, Inner Taraval Street,**

1 **Union Street, Valencia Street, 24th Street-Mission, Glen Park, Regional Commercial**
2 **District and Folsom Street Districts.** Rear yards shall be provided at the second story, and
3 at each succeeding story of the building, and at the First Story if it contains a Dwelling Unit.

4 * * * *

5 **(E3) RC-3, RC-4, NC-3, NCT-3, Bayview, Broadway, Fillmore Street, Geary**
6 **Boulevard, Hayes-Gough, Japantown, SoMa NCT, Mission Bernal, Mission Street, Polk**
7 **Street, Lower Polk Street, Pacific Avenue, C, M, SPD, MUR, MUG, MUO, and UMU**
8 **Districts.** Rear yards shall be provided at the lowest story containing a Dwelling Unit, and at
9 each succeeding level or story of the building. In the Hayes-Gough NCT, lots fronting the east
10 side of Octavia Boulevard between Linden and Market Streets (Central Freeway Parcels L, M,
11 N, R, S, T, U, and V) are not required to provide rear yards at any level of the building,
12 provided that the project fully meets the usable open space requirement for Dwelling Units
13 pursuant to Section 135 of this Code, the exposure requirements of Section 140, and gives
14 adequate architectural consideration to the light and air needs of adjacent buildings given the
15 constraints of the project site.

16 **(F4) Upper Market Street NCT.** Rear yards shall be provided at the grade
17 level, and at each succeeding story of the building. For buildings in the Upper Market Street
18 NCT that do not contain Residential Uses and that do not abut adjacent lots with an existing
19 pattern of rear yards or mid-block open space, the Zoning Administrator may waive or reduce
20 this rear yard requirement pursuant to the procedures of subsection (h).

21 **(G5) RED, RED-MX and WMUG Districts.** Rear yards shall be provided at the
22 ground level for any building containing a Dwelling Unit, and at each succeeding level or story
23 of the building.

24 ~~(3) RH-2, RH-3, RTO, RTO-M, RM-1 and RM-2 Districts, and the Pacific Avenue NC District.~~
25 ~~The minimum rear yard depth shall be equal to 45% of the total depth of the lot on which the building~~

1 ~~is situated, except to the extent that a reduction in this requirement is permitted by subsection (e)~~
2 ~~below. Rear yards shall be provided at grade level and at each succeeding level or story of the~~
3 ~~building. In RH-2, RH-3, RTO, RTO-M, RM-1, and RM-2 Districts, exceptions are permitted on Corner~~
4 ~~Lots and through lots abutting a property with buildings fronting on both streets, as described in~~
5 ~~subsection (f) below.~~ [Note to publisher: delete diagram that follows this text]

6 **(de) Permitted Obstructions.** Only those obstructions specified in Section 136 of this
7 Code shall be permitted in a required rear yard, and no other obstruction shall be constructed,
8 placed, or maintained within any such yard. No motor vehicle, trailer, boat, or other vehicle
9 shall be parked or stored within any such yard, except as specified in Section 136.

10 ~~(e) Reduction of Requirements in RH-2, RH-3, RTO, RTO-M, RM-1,2 and RM-2 Districts.~~
11 ~~The rear yard requirement stated in subsection subsection2 (e)(3) above and as stated in subsection~~
12 ~~subsection2 (c)(2)(A) above for SRO buildings located in the Eastern Neighborhoods Mixed Use~~
13 ~~Districts not exceeding a height of 65 feet, shall be reduced in specific situations as described in this~~
14 ~~subsection (e), based upon conditions on adjacent lots. Except for those SRO buildings referenced~~
15 ~~above in this subsection (e) whose rear yard can be reduced in the circumstances described in~~
16 ~~subsection (e) to a 15-foot minimum, under no circumstances shall the minimum rear yard be thus~~
17 ~~reduced to less than a depth equal to 25% of the total depth of the lot on which the building is situated,~~
18 ~~or to less than 15 feet, whichever is greater.~~

19 **(I) General Rule.** ~~In such districts, the forward edge of the required rear yard shall be~~
20 ~~reduced to a line on the subject lot, parallel to the rear lot line of such lot, which is an average between~~
21 ~~the depths of the rear building walls of the two adjacent buildings. Except for SRO buildings, in any~~
22 ~~case in which a rear yard requirement is thus reduced, the last 10 feet of building depth thus permitted~~
23 ~~on the subject lot shall be limited to a height of 30 feet, measured as prescribed by Section 260 of this~~
24 ~~Code, or to such lesser height as may be established by Section 261 of this Code.~~

1 ~~(2) **Alternative Method of Averaging.** If, under the rule stated in subsection (e)(1)~~
2 ~~above, a reduction in the required rear yard is permitted, the reduction may alternatively be averaged~~
3 ~~in an irregular manner; provided that the area of the resulting reduction shall be no more than the~~
4 ~~product of the width of the subject lot along the line established by subsection (e)(1) above times the~~
5 ~~reduction in depth of rear yard permitted by subsection (e)(1); and provided further that all portions of~~
6 ~~the open area on the part of the lot to which the rear yard reduction applies shall be directly exposed~~
7 ~~laterally to the open area behind the adjacent building having the lesser depth of its rear building wall.~~

8 ~~(3) **Method of Measurement.** For purposes of this subsection (e), an “adjacent~~
9 ~~building” shall mean a building on a lot adjoining the subject lot along a side lot line. In all cases the~~
10 ~~location of the rear building wall of an adjacent building shall be taken as the line of greatest depth of~~
11 ~~any portion of the adjacent building which occupies at least one-half the width between the side lot~~
12 ~~lines of the lot on which such adjacent building is located, and which has a height of at least 20 feet~~
13 ~~above grade, or two Stories, whichever is less, excluding all permitted obstructions listed for rear yards~~
14 ~~in Section 136 of this Code. Where a lot adjoining the subject lot is vacant, or contains no Dwelling or~~
15 ~~Group Housing structure, or is located in an RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RC, RED, RED-~~
16 ~~MX, MUG, WMUG, MUR, UMU, SPD, RSD, SLR, SLI, SSO, NC, C, M, or P District, such adjoining~~
17 ~~lot shall, for purposes of the calculations in this subsection (e), be considered to have an adjacent~~
18 ~~building upon it whose rear building wall is at a depth equal to 75% of the total depth of the subject lot.~~

19 ~~(4) **Applicability to Special Lot Situations.** In the following special lot situations, the~~
20 ~~general rule stated in subsection (e)(1) above shall be applied as provided in this subsection (e)(4), and~~
21 ~~the required rear yard shall be reduced if conditions on the adjacent lot or lots so indicate and if all~~
22 ~~other requirements of this Section 134 are met.~~ [Note to publisher: delete the three diagrams that
23 follow this text]

24 ~~(A) **Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in~~
25 ~~Section 102 of this Code, or a lot at the intersection of a Street and an Alley or two Alleys, the forward~~

1 ~~edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the~~
2 ~~rear building wall of the one adjacent building.~~

3 ~~(B) Lots Abutting Properties with Buildings that Front on Another Street or~~
4 ~~Alley. In the case of any lot that abuts along one of its side lot lines upon a lot with a building that~~
5 ~~fronts on another Street or Alley, the lot on which it so abuts shall be disregarded, and the forward~~
6 ~~edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the~~
7 ~~rear building wall of the one adjacent building fronting on the same Street or Alley. In the case of any~~
8 ~~lot that abuts along both its side lot lines upon lots with buildings that front on another Street or Alley,~~
9 ~~both lots on which it so abuts shall be disregarded, and the minimum rear yard depth for the subject lot~~
10 ~~shall be equal to 25% of the total depth of the subject lot, or 15 feet, whichever is greater. [Note to~~
11 ~~publisher: delete the two diagrams that follow this text]~~

12 (f) **Second Building on Corner Lots and Through Lots** ~~Abutting Properties with~~
13 ~~Buildings Fronting on Both Streets~~ in RH, RTO, RTO-M, RM-1, and RM-2 Districts. Where a
14 lot is a Corner Lot, or is a through lot having both its front and its rear lot line along Streets,
15 Alleys, or a Street and an Alley, ~~and where an adjoining lot contains a residential or other lawful~~
16 ~~structure that fronts at the opposite end of the lot,~~ the subject ~~through~~ lot may ~~also~~ have two
17 buildings ~~according to such established pattern,~~ each fronting at one end of the lot, provided that
18 all the other requirements of this Code are met. In such cases, the rear yard required by this
19 Section 134 for the subject lot shall be located in the central portion of the lot, between the
20 two buildings on such lot, ~~and the depth of the rear wall of each building from the Street or Alley on~~
21 ~~which it fronts shall be established by the average of the depths of the rear building walls of the~~
22 ~~adjacent buildings fronting on that Street or Alley, or where there is only one adjacent building, by the~~
23 ~~depth of that building.~~ In no case shall the total minimum rear yard for the subject lot be thus
24 reduced to less than a depth equal to 30% of the total depth of the subject lot or to less than
25 15 feet, whichever is greater; provided, however, that the Zoning Administrator may reduce

1 the total depth to 20% pursuant to Section 307(l) of this Code if the reduction is for the sole
2 purpose of constructing an Accessory Dwelling Unit under Section 207(c)(4), and provided
3 further that the reduction/waiver is in consideration of the property owner entering into a
4 Regulatory Agreement pursuant to Section 207(c)(4)(H) subjecting the ADU to the San
5 Francisco Rent Stabilization and Arbitration Ordinance. For buildings fronting on a Narrow
6 Street as defined in Section 261.1 of this Code, the additional height limits of Section 261.1
7 shall apply. Furthermore, in all cases in which this subsection (f) is applied, the requirements
8 of Section 132 of this Code for front setback areas shall be applicable along both Street or
9 Alley frontages of the subject through lot.

10 **(g) Reduction of Requirements in C-3 Districts.** In C-3 Districts, an exception to
11 the rear yard requirements of this Section 134 may be allowed, in accordance with the
12 provisions of Section 309, provided that the building location and configuration assure
13 adequate light and air to windows within the residential units and to the usable open space
14 provided.

15 * * * *

16 **(h) Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in Section 102 of
17 this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the
18 required rear yard may be substituted with an open area equal to the basic rear yard requirement
19 outlined in subsection (c) above at the same levels as the required rear yard in an interior corner of the
20 lot, an open area between two or more buildings on the lot, or an inner court, as defined by this Code,
21 provided that the Zoning Administrator determines that all of the criteria described below in this
22 Section 134 are met.

23 (1) Each horizontal dimension of the open area shall be a minimum of 15 feet.

24 (2) The open area shall be wholly or partially contiguous to the existing midblock open
25 space formed by the rear yards of adjacent properties.

1 (3) The open area will provide for the access to light and air to and views from
2 adjacent properties.

3 (4) The proposed new or expanding structure will provide for access to light and air
4 from any existing or new residential uses on the subject property.

5 The provisions of this subsection (h) shall not restrict the discretion of the Zoning Administrator
6 from imposing such additional conditions as the Zoning Administrator deems necessary to further the
7 purposes of this Section 134.

8 ~~(h) **Modification of Requirements in NC Districts.** The rear yard requirements in NC~~
9 ~~Districts may be modified or waived in specific situations as described in this subsection (h).~~

10 ~~(1) **General.** The rear yard requirement in NC Districts may be modified or waived by~~
11 ~~the Zoning Administrator pursuant to the procedures which are applicable to variances, as set forth in~~
12 ~~Sections 306.1 through 306.5 and 308.2, if all of the following criteria are met:~~

13 ~~(A) Residential Uses are included in the new or expanding development and a~~
14 ~~comparable amount of usable open space is provided elsewhere on the lot or within the development~~
15 ~~where it is more accessible to the residents of the development; and~~

16 ~~(B) The proposed new or expanding structure will not significantly impede the~~
17 ~~access of light and air to and views from adjacent properties; and~~

18 ~~(C) The proposed new or expanding structure will not adversely affect the~~
19 ~~interior block open space formed by the rear yards of adjacent properties.~~

20 ~~(2) **Corner Lots and Lots at Alley Intersections.** On a Corner Lot as defined in Section~~
21 ~~102 of this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the~~
22 ~~required rear yard may be substituted with an open area equal to 25% of the lot area which is located~~
23 ~~at the same levels as the required rear yard in an interior corner of the lot, an open area between two~~
24 ~~or more buildings on the lot, or an inner court, as defined by this Code, provided that the Zoning~~
25 ~~Administrator determines that all of the criteria described below in this subsection (h)(2) are met.~~

1 (A) ~~Each horizontal dimension of the open area shall be a minimum of 15 feet.~~

2 (B) ~~The open area shall be wholly or partially contiguous to the existing~~
3 ~~midblock open space formed by the rear yards of adjacent properties.~~

4 (C) ~~The open area will provide for the access to light and air to and views from~~
5 ~~adjacent properties.~~

6 (D) ~~The proposed new or expanding structure will provide for access to light~~
7 ~~and air from any existing or new residential uses on the subject property.~~

8 ~~The provisions of this subsection (h)(2) shall not preclude such additional conditions as are~~
9 ~~deemed necessary by the Zoning Administrator to further the purposes of this Section 134.~~

10 * * * *

11
12 **SEC. 135. USABLE OPEN SPACE FOR DWELLING UNITS AND GROUP**
13 **HOUSING, R, NC, MIXED USE, C, AND M DISTRICTS.**

14 * * * *

15 **(f) Private Usable Open Space: Additional Standards.**

16 (1) **Minimum Dimensions and Minimum Area.** Any space credited as private
17 usable open space shall have a minimum horizontal dimension of three ~~six~~ feet and a
18 minimum area of ~~36~~ 27 square feet if located on a deck, balcony, porch or roof, and shall have
19 a minimum horizontal dimension of 10 feet and a minimum area of 100 square feet if located
20 on open ground, a terrace or the surface of an inner or outer court.

21 (2) **Exposure.** ~~In order to~~ To be credited as private usable open space, an area
22 must be kept open in the following manner:

23 (A) For decks, balconies, porches and roofs, at least 30 percent of the
24 perimeter must be unobstructed except for necessary railings.

1 (B) In addition, the area credited on a deck, balcony, porch or roof must
2 either face a street, face or be within a rear yard, or face or be within some other space which
3 at the level of the private usable open space meets the minimum dimension and area
4 requirements for common usable open space as specified in Paragraph 135(g)(1) below.

5 * * * *

6 (C) Areas within inner and outer courts, as defined by this Code, must
7 either conform to the standards of ~~Subparagraph~~ Subsection (f)(2)(B) above or Subsection (g)(2).
8 ~~be so arranged that the height of the walls and projections above the court on at least three sides (or 75~~
9 ~~percent of the perimeter, whichever is greater) is such that no point on any such wall or projection is~~
10 ~~higher than one foot for each foot that such point is horizontally distant from the opposite side of the~~
11 ~~clear space in the court, regardless of the permitted obstruction referred to in Subsection 135(c) above.~~

12 * * * *

13 (g) **Common Usable Open Space: Additional Standards.**

14 (1) **Minimum Dimensions and Minimum Area.** Any space credited as
15 common usable open space shall be at least 15 feet in every horizontal dimension and shall
16 have a minimum area of 300 square feet.

17 (2) **Use of Inner Courts.** The area of an inner court, as defined by this Code,
18 may be credited as common usable open space, if the enclosed space is not less than 20 feet
19 in every horizontal dimension and 400 square feet in area; ~~and if (regardless of the permitted~~
20 ~~obstructions referred to in Subsection 135(c) above) the height of the walls and projections above the~~
21 ~~court on at least three sides (or 75 percent of the perimeter, whichever is greater) is such that no point~~
22 ~~on any such wall or projection is higher than one foot for each foot that such point is horizontally~~
23 ~~distant from the opposite side of the clear space in the court.~~ Exceptions from these requirements
24 for certain qualifying historic buildings may be permitted, subject to the requirements and
25 procedures of Section 307(h) of this Code.

* * * *

SEC. 140. ALL DWELLING UNITS IN ALL USE DISTRICTS TO FACE ON AN OPEN AREA.

(a) Requirements for Dwelling Units. In each Dwelling Unit in any use district, the required windows (as defined by Section 504 of the San Francisco Housing Code) of at least one room that meets the 120-square-foot minimum superficial floor area requirement of Section 503 of the Housing Code shall face directly onto an open area of one of the following types:

(1) A public street, public alley at least 20 feet in width, side yard at least 25 feet in width, or rear yard meeting the requirements of this Code; provided, that if such windows are on an outer court whose width is less than 25 feet, the depth of such court shall be no greater than its width; or

(2) An open area (whether an inner court or a space between separate buildings on the same lot) which is unobstructed (except for fire escapes not projecting more than necessary for safety and in no case more than four feet six inches, chimneys, and those obstructions permitted in Subsections 136(c)(14), (15), (16), (19), (20) and (29) of this Code) and is no less than 25 feet in every horizontal dimension for the floor at which the Dwelling Unit in question is located ~~and the floor immediately above it, with an increase of five feet in every horizontal dimension at each subsequent floor, except for SRO buildings in the Eastern Neighborhoods Mixed Use Districts, which are not required to increase five feet in every horizontal dimension until the fifth floor of the building.~~

* * * *

1 **SEC. 145.1. STREET FRONTAGES IN NEIGHBORHOOD COMMERCIAL,**
2 **RESIDENTIAL-COMMERCIAL, COMMERCIAL, AND MIXED USE DISTRICTS.**

3 * * * *

4 **(b) Definitions.**

5 * * * *

6 (2) **Active Use.** An "active use" shall mean any principal, conditional, or
7 accessory use that by its nature does not require non-transparent walls facing a public street
8 or involves the storage of goods or vehicles.

9 (A) Residential uses are considered active uses above the ground floor;
10 on the ground floor, residential uses are considered active uses only if more than 50 percent
11 of the linear residential street frontage at the ground level features walk-up dwelling units that
12 provide direct, individual pedestrian access to a public sidewalk, and are consistent with the
13 Ground Floor Residential Design Guidelines, as adopted and periodically amended by the
14 Planning Commission.

15 (B) Spaces accessory to residential uses, such as fitness rooms, ~~or~~
16 community rooms, laundry rooms, lobbies, mail rooms, or bike rooms, are considered active uses
17 only if they meet the intent of this section and ~~have access~~ directly face ~~to~~ the public sidewalk or
18 street.

19 (C) Building lobbies are considered active uses, so long as they do not
20 exceed 40 feet or 25 percent of building frontage, whichever is larger.

21 (D) Public Uses defined in Section 102 are considered active uses
22 except utility installations.

23 * * * *

24
25 **SEC. 202.2. LOCATION AND OPERATING CONDITIONS.**

1 * * * *

2 (f) **Residential Uses.** The Residential Uses listed below shall be subject to the
3 corresponding conditions:

4 (1) **Senior Housing.** ~~In order to~~ qualify as Senior Housing, as defined in
5 Section 102 of this Code, the following definitions shall apply and shall have the same
6 meaning as the definitions in California Civil Code Sections 51.2, 51.3, and 51.4, as amended
7 from time to time. These definitions shall apply as shall all of the other provisions of Civil Code
8 Sections 51.2, 51.3, and 51.4. Any Senior Housing must also be consistent with the Fair
9 Housing Act, 42 U.S.C. §§ 3601-3631 and the Fair Employment and Housing Act, California
10 Government Code Sections 12900-12996.

11 * * * *

12 (D) **Requirements.** ~~In order to~~ qualify as Senior Housing, the proposed
13 project must meet all of the following conditions:

14 * * * *

15 ~~(iv) **Location.** The proposed project must be within a 1/4 of a mile from a~~
16 ~~NC-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including named~~
17 ~~Neighborhood Commercial districts, and must be located in an area with adequate access to services,~~
18 ~~including but not limited to transit, shopping, and medical facilities;~~

19 (iv) **Recording.** The project sponsor must record a Notice of
20 Special Restriction with the Assessor-Recorder that states all of the above restrictions and
21 any other conditions that the Planning Commission or Department places on the property; and

22 (vi) **Covenants, Conditions, and Restrictions.** If the property
23 will be condominiumized, the project sponsor must provide the Planning Department with a
24 copy of the Covenants, Conditions, and Restrictions ("CC&R") that will be filed with the State.

25 * * * *

1
2 **SEC. 204.1. ACCESSORY USES FOR DWELLINGS IN ALL DISTRICTS.**

3 No use shall be permitted as an accessory use to a dwelling unit in any District that
4 involves or requires any of the following:

5 (a) Any construction features or alterations not residential in character;

6 (b) The use of more than one-third of the total floor area of the dwelling unit, except
7 in the case of accessory off-street parking and loading or Neighborhood Agriculture as defined
8 by Section 102;

9 (c) The employment of more than two people who do ~~any person not resident~~ in the
10 dwelling unit, excluding other than a domestic worker servant, gardener, or janitor, ~~or other person~~
11 ~~concerned in the operation or maintenance of the dwelling unit except in the case of a Cottage Food~~
12 ~~Operation, which allows the employment of one employee, not including a family member or household~~
13 ~~members of the Cottage Food Operation;~~

14 * * * *

15
16 **SEC. 206.3. HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO**
17 **PROGRAM.**

18 * * * *

19 **(c) HOME-SF Project Eligibility Requirements.** To receive the development
20 bonuses granted under this Section 206.3, a HOME-SF Project must meet all of the following
21 requirements:

22 (1) Except as limited in application by subsection (f): Provide 30% of units in
23 the HOME-SF Project as HOME-SF Units, as defined herein. The HOME-SF Units shall be
24 restricted for the Life of the Project and shall comply with all of the requirements of the
25 Procedures Manual authorized in Section 415 except as otherwise provided herein. Twelve

1 percent of HOME-SF Units that are Owned Units shall have an average affordable purchase
2 price set at 80% of Area Median Income; 9% shall have an average affordable purchase price
3 set at 105% of Area Median Income; and 9% shall have an average affordable purchase price
4 set at 130% of Area Median Income. Twelve percent of HOME-SF Units that are rental units
5 shall have an average affordable rent set at 55% of Area Median Income; 9% shall have an
6 average affordable rent set at 80% of Area Median Income; and 9% shall have an average
7 affordable rent set at 110% of Area Median Income. All HOME-SF Units must be marketed at
8 a price that is at least 20% less than the current market rate for that unit size and
9 neighborhood, and MOHCD shall reduce the Area Median Income levels set forth herein in
10 order to maintain such pricing. As provided ~~for~~ in subsection (e), the Planning Department and
11 MOHCD shall amend the Procedures Manual to provide policies and procedures for the
12 implementation, including monitoring and enforcement, of the HOME-SF Units;

13 ~~(2) Demonstrate to the satisfaction of the Environmental Review Officer that the~~
14 ~~HOME-SF Project does not:~~

15 ~~(A) cause a substantial adverse change in the significance of an historic~~
16 ~~resource as defined by California Code of Regulations, Title 14, Section 15064.5;~~

17 ~~(B) create new shadow in a manner that substantially affects outdoor recreation~~
18 ~~facilities or other public areas; and~~

19 ~~(C) alter wind in a manner that substantially affects public areas;~~

20 (32) All HOME-SF units shall be no smaller than the minimum unit sizes set
21 forth by the California Tax Credit Allocation Committee as of May 16, 2017. In addition,
22 notwithstanding any other provision of this Code, HOME-SF projects shall provide a minimum
23 dwelling unit mix of (A) at least 40% two and three bedroom units, including at least 10% three
24 bedroom units, or (B) any unit mix which includes some three bedroom or larger units such
25 that 50% of all bedrooms within the HOME-SF Project are provided in units with more than

one bedroom. Larger units should be distributed on all floors, and prioritized in spaces adjacent to open spaces or play yards. Units with two or three bedrooms are encouraged to incorporate family friendly amenities. Family friendly amenities shall include, but are not limited to, bathtubs, dedicated cargo bicycle parking, dedicated stroller storage, open space and yards designed for use by children. HOME-SF Projects are not eligible to modify this requirement under Planning Code Section 328 or any other provision of this Code;

(43) Does not demolish, remove or convert ~~any~~ more than one residential units; and

(54) Includes at the ground floor level active uses, as defined in Section 145.1, at the same square footages as any neighborhood commercial uses demolished or removed, unless the Planning Commission has granted an exception under Section 328.

* * * *

SEC. 206.6. STATE DENSITY BONUS PROGRAM: INDIVIDUALLY REQUESTED.

* * * *

(c) **Development Bonuses.** Any Individually Requested Density Bonus Project shall, at the project sponsor's request, receive any or all of the following:

* * * *

(3) **Request for Concessions and Incentives.** In submitting a request for Concessions or Incentives that are not specified in ~~S~~subsection 206.5(c)(4), an applicant for an Individually Requested Density Bonus Project must provide documentation described in subsection (d) below in its application. Provided that the Planning Commission delegates authority to review and approve applications for Individually Requested Density Bonus projects, ~~t~~The Planning ~~Director~~ Commission shall hold a hearing and shall approve the Concession or Incentive requested unless ~~it~~ the Director makes written findings, based on substantial evidence that:

1 * * * *

2 (e) **Review Procedures.** Except as provided in Section 317 or where a Conditional Use
3 Authorization is required to permit a non-residential use, an application for any Individually Requested
4 Density Bonus project shall not be subject to any other underlying entitlement approvals related to the
5 proposed housing, such as a Conditional Use Authorization or a Large Project Authorization. If an
6 entitlement is otherwise required, Aan application for a Density Bonus, Incentive, Concession, or
7 waiver shall be acted upon concurrently with the application for the required entitlement ~~other~~
8 ~~permits related to the Housing Project.~~

9 (1) Before approving an application for a Density Bonus, Incentive,
10 Concession, or waiver, for any Individually Requested Density Bonus Project, the Planning
11 Commission or Director shall make the following findings as applicable.

12 * * * *

13 (2) If the findings required by subsection (~~ae~~)(1) of this Section cannot be
14 made, the Planning Commission or Director may deny an application for a Concession,
15 Incentive, waiver or modification only if ~~it~~ the Director makes one of the following written
16 findings, supported by substantial evidence:

17 * * * *

18
19 **SEC. 207. DWELLING UNIT DENSITY LIMITS.**

20 * * * *

21 (c) **Exceptions to Dwelling Unit Density Limits.** An exception to the calculations
22 under this Section 207 shall be made in the following circumstances:

23 * * * *

24 (3) **Double Density for Senior Housing in RH, RM, RC, and NC**
25 **Districts.** Senior Housing, as defined in and meeting all the criteria and conditions defined in

Section 102 of this Code, is permitted up to twice the dwelling unit density otherwise permitted for the District.

~~(A) Projects in RC Districts or within one-quarter of a mile from an RC or NC-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including Named Commercial Districts, and located in an area with adequate access to services including but not limited to transit, shopping and medical facilities, shall be principally permitted.~~

~~(B) Projects in RH and RM Districts located more than one-quarter of a mile from an RC or NCD-2 (Small Scale Neighborhood Commercial District) zoned area or higher, including Named Commercial Districts, shall require Conditional Use authorization.~~

* * * *

(8) Residential Density Exception in RH Districts.

(A) Density Exception. Projects located in RH Districts that are not seeking or receiving a density bonus under the provisions of Planning Code Sections 206.5 or 206.6 shall receive an exception from residential density limits in the following amounts for up to four dwelling units per lot, excluding Corner Lots, or up to six dwelling units per lot in Corner Lots, not inclusive of any Accessory Dwelling Units as permitted under this Section 207, provided that the project dwelling units meets the requirements set forth in this subsection (c)(8):

(i) Up to four units per lot, excluding Corner Lots.

(ii) Up to six units for Corner Lots

(iii) Up to one Group Housing Room per 415 sq. ft. of lot area in RH-1, RH-1(D), and RH-1(S) zoning districts.

(B) Eligibility of Historic Resources. To receive the density exception authorized under this subsection (c)(8), a project must demonstrate to the satisfaction of the Environmental Review Officer that it does not cause a substantial adverse change in the

1 significance of an historic resource as defined by California Code of Regulations, Title 14,
2 Section 15064.5, as may be amended from time to time. Permit fees for pre-application
3 Historic Resource Assessments shall be waived for property owners who apply to obtain a
4 density exception under this subsection (c)(8), if they sign an affidavit stating their intent to
5 reside on the property for a period of three years after the issuance of the Certificate of Final
6 Completion and Occupancy for the new dwelling units. Permit fees for Historic Resource
7 Determinations shall not be waived.

8 **(C) Applicable Standards.** ~~Projects utilizing the density exception of this~~
9 ~~subsection (c)(8) and that provide at least four dwelling units shall be subject to a minimum Rear Yard~~
10 ~~requirement of the greater of 30% of lot depth or 15 feet. All other~~ building standards shall apply in
11 accordance with the applicable zoning district as set forth in Section 209.1.

12 **(D) Unit Replacement Requirements.** Projects utilizing the density
13 exception of this subsection (c)(8) shall comply with the requirements of Section 66300(d) of
14 the California Government Code, as may be amended from time to time, including but not
15 limited to requirements to produce at least as many dwelling units as the projects would
16 demolish; to replace all protected units; and to offer existing occupants of any protected units
17 that are lower income households relocation benefits and a right of first refusal for a
18 comparable unit, as those terms are defined therein. In the case of Group Housing, projects
19 utilizing this density exception shall provide at least as many bedrooms as the project would demolish.

20 **(E) Applicability of Rent Ordinance; Regulatory Agreements.** Project
21 sponsors of projects utilizing the density exception of this subsection (c)(8) shall enter into a
22 regulatory agreement with the City, subjecting the new units or Group Housing rooms created
23 pursuant to the exception to the San Francisco Residential Rent Stabilization and Arbitration
24 Ordinance (Chapter 37 of the Administrative Code), as a condition of approval of the density
25 exception ("Regulatory Agreement"). At a minimum, the Regulatory Agreement shall contain

1 the following: (i) a statement that the new units created pursuant to the density exception are
2 not subject to the Costa-Hawkins Rental Housing Act (California Civil Code Sections
3 1954.50 *et seq.*) because, under Section 1954.52(b), the property owner has entered into and
4 agreed to the terms of this agreement with the City in consideration of an exception from
5 residential density limits of up to four dwelling units per lot, or up to six units per lot in Corner
6 Lots, or other direct financial contribution or other form of assistance specified in California
7 Government Code Sections 65915 *et seq.*; (ii) a description of the exception of residential
8 density or other direct financial contribution or form of assistance provided to the property
9 owner; and (iii) a description of the remedies for breach of the agreement and other provisions
10 to ensure implementation and compliance with the agreement. The property owner and the
11 Planning Director (or the Director's designee), on behalf of the City, will execute the
12 Regulatory Agreement, which shall be reviewed and approved by the City Attorney's Office.
13 The Regulatory Agreement shall be executed prior to the City's issuance of the First
14 Construction Document for the project, as defined in Section 107A.13.1 of the San Francisco
15 Building Code. Following execution of the Regulatory Agreement by all parties and approval
16 by the City Attorney, the Regulatory Agreement or a memorandum thereof shall be recorded
17 to the title records in the Office of the Assessor-Recorder against the property and shall be
18 binding on all future owners and successors in interest.

19 **(F) Unit Sizes.** At least one of the dwelling units resulting from the
20 density exception shall have two or more bedrooms or shall have a square footage equal to
21 no less than 1/3 of the floor area of the largest unit on the lot. *This provision does not apply to*
22 *projects where all of the units qualify as Group Housing.*

23 ~~**(G) Eligibility.** To receive the density exception authorized under this~~
24 ~~*subsection (c)(8), property owners must demonstrate that they have owned the lot for which they are*~~
25 ~~*seeking the density exception for a minimum of one year prior to the time of the submittal of their*~~

~~application. For the purposes of establishing eligibility to receive a density exception according to subsection (c)(8)(B), a property owner who has inherited the subject lot, including any inheritance in or through a trust, from a blood, adoptive, or step family relationship, specifically from either (i) a grandparent, parent, sibling, child, or grandchild, or (ii) the spouse or registered domestic partner of such relations, or (iii) the property owner's spouse or registered domestic partner (each an "Eligible Predecessor"), may add an Eligible Predecessor's duration of ownership of the subject lot to the property owner's duration of ownership of the same lot.~~

(HG) Annual Report on Housing Affordability, Racial Equity, and Language Access Goals. To help the City evaluate whether the implementation of this Section 207(c)(8) comports with the City's housing affordability, racial equity, and language access goals, each year the Planning Department, in consultation with other City departments including the Department of Building Inspection, the Rent Board, and the Office of the Assessor-Recorder, shall prepare a report addressing the characteristics and demographics of the applicants to and participants in the program established in said section; the number of units permitted and constructed through this program; the geographic distribution, affordability, and construction costs of those units; and the number of tenants that vacated or were evicted from properties as a result of the permitting or construction of units through this program ("Affordability and Equity Report"). The Affordability and Equity Report shall be included and identified in the annual Housing Inventory Report. The Planning Department shall prepare the report utilizing applicant data that has been provided by program applicants voluntarily and anonymously, and separate from the submittal of an application for a density exception. An applicant's decision to provide or decline to provide the information requested by the Planning Department in order to prepare the report shall have no bearing on the applicant's receipt of a density exception.

4 ~~permitted.~~

5
6 **SEC. 249.97. PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT.**

7 (a) General. A Special Use District entitled the Priority Equity Geographies Special Use
8 District (SUD) is hereby established, the boundaries of which are designated on Sectional Maps SU01,
9 SU02, SU07, SU08, SU09, SU10, SU11, SU12, and SU13, of the Zoning Maps of the City and County
10 of San Francisco.

11 (b) Purpose. The Priority Equity Geographies SUD is comprised of areas or neighborhoods
12 with a higher density of vulnerable populations. The 2022 Update of the Housing Element of the
13 General Plan (2022 Housing Element) identifies several neighborhoods in the City that qualify as
14 Priority Equity Geographies, based on the Department of Public Health's Community Health Needs
15 Assessment. The 2022 Housing Element encourages targeted direct investment in these areas, and
16 identifies them as requiring improved access to well-paid jobs and business ownership; where the City
17 needs to expand permanently affordable housing investment; where zoning changes must be tailored to
18 serve the specific needs of the communities that live there; and where programs that stabilize
19 communities and meet community needs need to be prioritized. The purpose of the Priority Equity
20 Geographies SUD is to help implement the goals and policies outlined in the 2022 Housing Element.

21 (c) Controls. In addition to all other applicable provisions of the Planning Code, the specific
22 controls applicable in the Priority Equity Geographies SUD are set forth in Sections 311 and 317.

**~~SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING A
HEIGHT OF 40 FEET IN RH DISTRICTS, OR MORE THAN 50 FEET IN RM AND RC
DISTRICTS.~~**

~~(a) Notwithstanding any other provision of this Code to the contrary, in any RH, RM, or RC District, established by the use district provisions of Article 2 of this Code, wherever a height limit of more than 40 feet in a RH District, or more than 50 feet in a RM or RC District, is prescribed by the height and bulk district in which the property is located, any building or structure exceeding 40 feet in height in a RH District, or 50 feet in height in a RM or RC District, shall be permitted only upon approval by the Planning Commission according to the procedures for conditional use approval in Section 303 of this Code; provided, however, that a building over 40 feet in height in a RM or RC District with more than 50 feet of street frontage on the front façade is subject to the conditional use requirement.~~

~~(b) Commission Review of Proposals.~~

~~(1) In reviewing any such proposal for a building or structure exceeding 40 feet in height in a RH District, 50 feet in height in a RM or RC District, or 40 feet in a RM or RC District where the street frontage of the building is more than 50 feet the Planning Commission shall consider the expressed purposes of this Code, of the RH, RM, or RC Districts, and of the height and bulk districts, set forth in Sections 101, 209.1, 209.2, 209.3, and 251 hereof, as well as the criteria stated in Section 303(c) of this Code and the objectives, policies and principles of the General Plan, and may permit a height of such building or structure up to but not exceeding the height limit prescribed by the height and bulk district in which the property is located.~~

~~(2) In reviewing a proposal for a building exceeding 50 feet in RM and RC districts, the Planning Commission may require that the permitted bulk and required setbacks of a building be arranged to maintain appropriate scale on and maximize sunlight to narrow streets (rights-of-way 40 feet in width or narrower) and alleys.~~

1
2 **~~SEC. 253.1. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE~~**
3 **~~BROADWAY NEIGHBORHOOD COMMERCIAL DISTRICT.~~**

4 ~~(a) In the 65-A-1 Height and Bulk District, as designated on Sectional Map HT-01 of the~~
5 ~~Zoning Map, any new or expanding building or structure exceeding 40 feet in height shall be permitted~~
6 ~~as a Conditional Use only upon approval by the Planning Commission. The height of the building or~~
7 ~~structure so approved by the Planning Commission shall not exceed 65 feet.~~

8 ~~(b) In authorizing any such proposal for a building or structure exceeding 40 feet in height, the~~
9 ~~City Planning Commission shall find, in addition to the criteria of Section 303(c), that the proposal is~~
10 ~~consistent with the expressed purposes of this Code, of the Broadway Neighborhood Commercial~~
11 ~~District, and of the height and bulk districts, set forth in Sections 101, 714, and 251 of this Code, and~~
12 ~~that the following criteria are met:~~

13 ~~(1) The height of the new or expanding development will be compatible with the~~
14 ~~individual neighborhood character and the height and scale of the adjacent buildings.~~

15 ~~(2) The height and bulk of the new or expanding development will be designed to allow~~
16 ~~maximum sun access to nearby parks, plazas, and major pedestrian corridors.~~

17 ~~(3) The architectural and cultural character and features of existing buildings shall be~~
18 ~~preserved and enhanced. The Historic Preservation Commission or its staff shall review any proposed~~
19 ~~alteration of historic resources and must determine that such alterations comply with the Secretary of~~
20 ~~Interior's Standards for the Treatment of Historic Properties before the City approves any permits to~~
21 ~~alter such buildings. For purposes of this section, "historic resources" shall include Article 10~~
22 ~~Landmarks and buildings located within Article 10 Historic Districts, buildings and districts identified~~
23 ~~in surveys adopted by the City, buildings listed or potentially eligible for individual listing on the~~
24 ~~National or California Registers, and buildings located within listed or potentially eligible National~~
25 ~~Register or California Register historic districts. The Planning Department shall also consult materials~~

1 available through the California Historical Resources Information System (CHRIS) and Inventory to
2 determine eligibility.

3
4 **~~SEC. 253.2. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE VAN~~**
5 **~~NESS SPECIAL USE DISTRICT.~~**

6 ~~(a) **Setbacks.** In the Van Ness Special Use District, as designated on Sectional Map 2SU of the~~
7 ~~Zoning Map, any new construction exceeding 50 feet in height or any alteration that would cause a~~
8 ~~structure to exceed 50 feet in height shall be permitted only as a conditional use upon approval by the~~
9 ~~Planning Commission according to Section 303 of this Code. When acting on any conditional use~~
10 ~~application pursuant to this Section, the City Planning Commission may impose the following~~
11 ~~requirements in addition to any others deemed appropriate:~~

12 ~~(1) **On Van Ness Avenue.** The Planning Commission may require a setback of up to 20~~
13 ~~feet at a height of 50 feet or above for all or portions of a building if it determines that this requirement~~
14 ~~is necessary in order to maintain the continuity of the prevailing street wall height established by the~~
15 ~~existing buildings along Van Ness Avenue within two blocks of the proposed building.~~

16 ~~(2) **On Pine, Sacramento, Clay, Washington and California Streets.** The Planning~~
17 ~~Commission may require a setback of up to 15 feet for all or a portion of a building on any lot abutting~~
18 ~~Pine, Sacramento, Clay, California and Washington Streets which lot is located within the Van Ness~~
19 ~~Special Use District in order to preserve the existing view corridors.~~

20 ~~(3) **On Narrow Streets and Alleys.** The Planning Commission may require that the~~
21 ~~permitted bulk and required setbacks of a building be arranged to maintain appropriate scale on and~~
22 ~~maximize sunlight to narrow streets (rights-of-way 40 feet in width or narrower) and alleys.~~

1 **~~SEC. 253.3. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES ABOVE 26~~**
2 **~~FEET NOT EXCEEDING 40 FEET IN THE NC-S/LAKESHORE PLAZA SPECIAL USE~~**
3 **~~DISTRICT.~~**

4 ~~(a) In the 26-40-X Height and Bulk District, as designated on Sectional Map HT13 of the~~
5 ~~Zoning Map, any new or expanding building or structure exceeding 26 feet in height shall be permitted~~
6 ~~as a Conditional Use only upon approval by the Planning Commission. The height of any building or~~
7 ~~structure so approved by the Planning Commission shall not exceed 40 feet.~~

8 ~~(b) In authorizing any such proposal for a building or structure exceeding 26 feet in height, the~~
9 ~~Planning Commission shall find that, in addition to the criteria of Section 303(c), the proposal is~~
10 ~~consistent with the expressed purposes of this Code, the NC-S District, the Lakeshore Plaza Special~~
11 ~~Use District, and the height and bulk districts as set forth respectively in Sections 101, 713, 780 and~~
12 ~~251 of this Code.~~

13
14 **SEC. 305.1. REQUESTS FOR REASONABLE MODIFICATION – RESIDENTIAL**
15 **USES.**

16 * * * *

17 (d) ~~**Request for Administrative Review Reasonable Modification—No Hearing.**~~ *In an*
18 *effort to* To expedite the processing and resolution of reasonable modification requests, any
19 request under Section 305.1 ~~that is consistent with the criteria in this section~~ may receive
20 administrative review and approval and ~~Requests for modifications that meet the requirements for~~
21 ~~administrative review does~~ not require public notice under Section 306 of this Code.

22 ~~(1) **Parking, Where No Physical Structure Is Proposed.** One parking space may be~~
23 ~~considered for an administrative reasonable modification provided that the parking space is necessary~~
24 ~~to achieve the accommodation and that property does not already include a parking space. Exceptions~~
25 ~~may be considered from rear yard and the front setback requirements if necessary to accommodate the~~

1 ~~parking space. In reviewing an administrative reasonable modification request for parking, the Zoning~~
2 ~~Administrator is authorized to allow the parking space for up to five years, at the end of which period~~
3 ~~the applicant may renew the temporary use for additional five-year periods.~~

4 ~~(2) **Access Ramps.** One or more access ramps, defined in Building Code Section 1114A~~
5 ~~may be considered for an administrative reasonable modification provided that the access ramp is~~
6 ~~designed and constructed to meet the accessibility provisions in either the California Building Code or~~
7 ~~the California Historical Building Code and is easily removable when the ramp(s) are no longer~~
8 ~~needed for the requested modification.~~

9 ~~(3) **Elevators.** One elevator, with dimensions defined in Building Code Section 1124A,~~
10 ~~may be considered for an administrative reasonable modification provided that the elevator structure is~~
11 ~~not visible from the public right of way and is set back a minimum of 10 feet from the property line, and~~
12 ~~that the elevator is necessary to access residential uses of the building and to achieve the~~
13 ~~accommodation requested.~~

14 ~~(4) **Additional Habitable Space.** Additional habitable space may be considered for an~~
15 ~~administrative reasonable modification provided that the additional habitable space does not result in~~
16 ~~the addition of a new dwelling unit or require expansion beyond the permitted building envelope.~~

17 ~~(e) **All Other Requests for Reasonable Modification—Zoning Administrator Review and**~~
18 ~~**Approval.**~~

19 ~~(1) **Standard Variance Procedure—With Hearing.** Requests for reasonable~~
20 ~~modifications that do not fall within subsection (d) shall be considered by the Zoning Administrator,~~
21 ~~who will make the final decision through the existing variance process described in Section 305.~~

22 ~~(2) **Public Notice of a Request for Reasonable Modification.** Notice for reasonable~~
23 ~~modifications that fall with subsection (e)(1) are subject to the notice requirements of Section 333 of~~
24 ~~this Code. If the request for reasonable modification is part of a larger application, then the noticing~~
25 ~~can be combined.~~

1 * * * *

2
3 **SEC. 311. PERMIT REVIEW PROCEDURES.**

4 (a) Purpose. The purpose of this Section 311 is to establish procedures for reviewing
5 building permit applications within the Priority Equity Geographies SUD to determine
6 compatibility of the proposal with the neighborhood and for providing notice to property
7 owners and residents on the site and neighboring the site of the proposed project and to
8 interested neighborhood organizations, so that concerns about a project may be identified and
9 resolved during the review of the permit.

10 (b) Applicability. Within the Priority Equity Geographies SUD~~Except as indicated in this~~
11 ~~subsection (b),~~ all building permit applications in Residential, NC, NCT, and Eastern
12 Neighborhoods Mixed Use Districts for ~~a change of use; establishment of a Micro Wireless~~
13 ~~Telecommunications Services Facility; establishment of a Formula Retail Use;~~ demolition, new
14 construction, or alteration of buildings; ~~and the removal of an authorized or unauthorized~~
15 ~~residential unit,~~ shall be subject to the notification and review procedures required by this
16 Section 311. ~~In addition, with the exception of Grandfathered MCDs converting to Cannabis Retail~~
17 ~~use pursuant to Section 190(a), all building permit applications that would establish Cannabis Retail or~~
18 ~~Medical Cannabis Dispensary uses, regardless of zoning district, shall be subject to the notification~~
19 ~~and review procedures required by this Section 311. Notwithstanding the foregoing or any other~~
20 ~~requirement of this Section 311, a change of use to a Child Care Facility, as defined in Section 102,~~
21 ~~shall not be subject to the review requirements of this Section 311.~~ Notwithstanding the foregoing or
22 any other requirement of this Section 311, building permit applications to construct an
23 Accessory Dwelling Unit pursuant to Section 207(c)(6) shall not be subject to the notification
24 or review requirements of this Section 311. ~~Notwithstanding the foregoing or any other~~
25 ~~requirement of this Section 311, a change of use to a principally permitted use in an NC or NCT~~

~~District, or in a limited commercial use or a limited corner commercial use, as defined in Sections 186 and 231, respectively, shall not be subject to the review or notice requirements of this Section 311. Notwithstanding the foregoing or any other requirement of this Section 311, building permit applications to change any existing Automotive Use to an Electric Vehicle Charging Location shall not be subject to the review or notification requirements of this Section 311.~~

~~(1) Change of Use. Subject to the foregoing provisions of subsection (b), for the purposes of this Section 311, a change of use is defined as follows:~~

~~(A) Residential, NC, and NCT Districts. For all Residential, NC, and NCT Districts, a change of use is defined as a change to, or the addition of, any of the following land uses as defined in Section 102 of this Code: Adult Business, Bar, Cannabis Retail, General Entertainment, Group Housing, Limited Restaurant, Liquor Store, Massage Establishment, Medical Cannabis Dispensary, Nighttime Entertainment, Outdoor Activity Area, Post-Secondary Educational Institution, Private Community Facility, Public Community Facility, Religious Institution, Residential Care Facility, Restaurant, School, Tobacco Paraphernalia Establishment, Trade School, and Wireless Telecommunications Facility. A change of use from a Restaurant to a Limited Restaurant shall not be subject to the provisions of this Section 311. Any accessory massage use in the Ocean Avenue Neighborhood Commercial Transit District shall be subject to the provisions of this Section 311. A change of use to a principally permitted use in an NC or NCT District, or in a limited commercial use or a limited corner commercial use, as defined in Sections 186 and 231, respectively, shall not be subject to the provisions of this Section 311.~~

~~(i) Exception. Notwithstanding subsection 311(b)(1)(A), in the geographic areas identified in subsection 311(b)(1)(A)(ii), building permit applications for a change of use to the following uses shall be excepted from the provisions of subsections 311(d) and 311(e): Bar, General Entertainment, Limited Restaurant, Liquor Store, Massage Establishment, Nighttime~~

~~Entertainment, Outdoor Activity Area, Private Community Facility, Public Community Facility, Restaurant, and Tobacco Paraphernalia Establishment.~~

~~(ii) Subsection 311(b)(1)(A)(i) shall apply to Neighborhood Commercial Districts and Limited Commercial Uses in the following geographic areas:~~

~~Area 1: shall comprise all of that portion of the City and County commencing at the point of the intersection of the shoreline of the Pacific Ocean and a straight-line extension of Lincoln Way, and proceeding easterly along Lincoln Way to 17th Avenue, and proceeding southerly along 17th Avenue to Judah Street, and proceeding westerly along Judah Street to 19th Avenue, and proceeding southerly along 19th Avenue to Sloat Boulevard, and proceeding westerly along Sloat Boulevard, and following a straight-line extension of Sloat Boulevard to the shoreline of the Pacific Ocean and proceeding northerly along said line to the point of commencement.~~

~~Area 2: shall comprise all of that portion of the City and County commencing at the point of the intersection of Junipero Serra Boulevard and Brotherhood Way, and proceeding northerly along the eastern edge of Junipero Serra Boulevard to Garfield Street, and proceeding easterly along Garfield Street to Grafton Avenue, and continuing easterly along Grafton Avenue to Mount Vernon Avenue, and proceeding easterly along Mount Vernon Avenue to Hawth Street, and proceeding northerly along Hawth Street to Geneva Avenue, and proceeding easterly along Geneva Avenue to Interstate 280, and proceeding northerly along Interstate 280 to the straight-line extension of Tingley Street, and proceeding southerly along said line to Tingley Street, and proceeding southerly along Tingley Street to Alemany Boulevard, and proceeding easterly along Alemany Boulevard to Congdon Street, and proceeding southerly along Congdon Street to Silver Avenue, and proceeding easterly along Silver Avenue to Madison Street, and proceeding southerly along Madison Street to Burrows Street, and proceeding westerly along Burrows Street to Prague Street, and proceeding southerly along Prague Street to Persia Avenue, and proceeding westerly along Persia Avenue to Athens Street, and proceeding southerly along Athens Street to Geneva Avenue, and~~

1 ~~proceeding easterly along Geneva Avenue to the intersection of Geneva Avenue and Carter Street, and~~
2 ~~proceeding westerly along the southeastern boundary of Census Tract 0263.02, Block 3005 to the San~~
3 ~~Francisco/San Mateo county border, and proceeding westerly along the San Francisco/San Mateo~~
4 ~~county border to Saint Charles Avenue, and proceeding northerly along Saint Charles Avenue to~~
5 ~~Interstate 280, and proceeding northeasterly along Interstate 280 to a northerly straight line extension~~
6 ~~to Orizaba Avenue, and proceeding northerly along said line to Alemany Boulevard, and proceeding~~
7 ~~westerly along Alemany Boulevard to Brotherhood Way, and proceeding westerly along Brotherhood~~
8 ~~Way to the point of commencement.~~

9 ~~(iii) Exception for the Ocean Avenue Neighborhood Commercial Transit~~
10 ~~District. Notwithstanding subsection 311(b)(1)(A), building permit applications in the Ocean Avenue~~
11 ~~Neighborhood Commercial Transit District for a change of use to the following uses shall be excepted~~
12 ~~from the provisions of subsections 311(d) and 311(e): General Entertainment, Limited Restaurant,~~
13 ~~Nighttime Entertainment, Outdoor Activity Area, Private Community Facility, Public Community~~
14 ~~Facility, Restaurant, and Tobacco Paraphernalia Establishment.~~

15 ~~(B) Eastern Neighborhood Mixed Use Districts. In all Eastern Neighborhood~~
16 ~~Mixed Use Districts a change of use shall be defined as a change in, or addition of, a new land use~~
17 ~~category. A “land use category” shall mean those categories used to organize the individual land uses~~
18 ~~that appear in the use tables, immediately preceding a group of individual land uses, including but not~~
19 ~~limited to the following: Residential Use; Institutional Use; Retail Sales and Service Use; Assembly;~~
20 ~~Recreation, Arts and Entertainment Use; Office Use; Live/Work Units Use; Motor Vehicle Services~~
21 ~~Use; Vehicle Parking Use; Industrial Use; Home and Business Service Use; or Other Use.~~

22 (2) **Alterations.** For the purposes of this Section 311, an alteration shall be
23 defined as an increase to the exterior dimensions of a building except those features listed in
24 Section 136(c)(1) through ~~Section 136(c)(24) and 136(c)(26)~~, regardless of whether the feature is
25 located in a required setback. ~~In addition, an alteration in RH, RM, and RTO Districts shall also~~

1 ~~include the removal of more than 75% of a residential building's existing interior wall framing or the~~
2 ~~removal of more than 75% of the area of the existing framing.~~

3 ~~(3) Micro Wireless Telecommunications Services Facilities. Building permit~~
4 ~~applications for the establishment of a Micro Wireless Telecommunications Services Facility, other~~
5 ~~than a Temporary Wireless Telecommunications Services Facility, shall be subject to the review~~
6 ~~procedures required by this Section. Pursuant to Section 205.2, applications for Temporary Wireless~~
7 ~~Telecommunications Facilities to be operated for commercial purposes for more than 90 days shall~~
8 ~~also be subject to the review procedures required by this Section.~~

9 * * * *

10
11 **SEC. 317. LOSS OF RESIDENTIAL AND UNAUTHORIZED UNITS THROUGH**
12 **DEMOLITION, MERGER, AND CONVERSION.**

13 * * * *

14 **(c) Applicability; Exemptions.**

15
16 (1) Within the Priority Equity Geographies Special Use District, Aany application for
17 a permit that would result in the Removal of one or more Residential Units or Unauthorized
18 Units is required to obtain Conditional Use authorization.

19 (2) Outside the Priority Equity Geographies Special Use District, any application for a
20 permit that would result in the Removal of one or more Residential Units or Unauthorized Units is
21 required to obtain Conditional Use authorization unless it meets all the following criteria:

22 (A) The units to be demolished are not tenant occupied and are without a history
23 of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) within last 5 years;

24 (B) No more than two units that are required to be replaced per subsection (E) of
25 this Section 317 would be removed or demolished;

1 (C) The building proposed for demolition is not an Historic Building as defined
2 in Section 102;

3 (D) The proposed project is adding at least one more unit than would be
4 demolished; and

5 (E) The proposed project complies with the requirements of Section 66300(d) of
6 the California Government Code, as may be amended from time to time, including but not limited to
7 requirements to replace all protected units, and to offer existing occupants of any protected units that
8 are lower income households relocation benefits and a right of first refusal for a comparable unit, as
9 those terms are defined therein.

10 (3) For Unauthorized Units, this Conditional Use authorization will not be
11 required for Removal if the Zoning Administrator has determined in writing that the unit cannot
12 be legalized under any applicable provision of this Code. The application for a replacement
13 building or alteration permit shall also be subject to Conditional Use requirements.

14 (4) The Conditional Use requirement of ~~Subsection~~ (c)(1) and (c)(2) shall
15 apply to (A) any building or site permit issued for Removal of an Unauthorized Unit on or after
16 March 1, 2016, and (B) any permit issued for Removal of an Unauthorized Unit prior to March
17 1, 2016 that has been suspended by the City or in which the applicant's rights have not
18 vested.

19 (5) The Removal of a Residential Unit that has received approval from the
20 Planning Department through administrative approval or the Planning Commission through a
21 Discretionary Review or Conditional Use authorization prior to the effective date of the
22 Conditional Use requirement of Subsection (c)(1) or (c)(2) is not required to apply for an
23 additional approval under this Section 317. Subsection (c)(1).

24 (6) Exemptions for Unauthorized Dwelling Units. The Removal of an
25 Unauthorized Unit does not require a Conditional Use authorization pursuant to Subsection

1 (c)(1) or (c)(2) if the Department of Building Inspection has determined that there is no path for
2 legalization under Section 106A.3.1.3 of the Building Code.

3 (~~75~~) **Exemptions for Single-Family Residential Buildings.** The Demolition of a
4 Single-Family Residential Building that meets the requirements of ~~S~~subsubsection (d)(3) below
5 may be approved by the Department without requiring a Conditional Use authorization
6 pursuant to in subsection (c)(1) or (c)(2).

7 (~~86~~) **Exception for Certain Permits Filed Before February 11, 2020.** An
8 application to demolish a Single-Family Residential Building on a site in a RH-1 or RH-1(D)
9 District that is demonstrably not affordable or financially accessible housing, meaning housing
10 that has a value greater than 80% than the combined land and structure values of single-
11 family homes in San Francisco as determined by a credible appraisal made within six months
12 of the application to demolish, is exempt from the Conditional Use authorization requirement
13 of Subsection ~~s~~ (c)(1) or (c)(2), provided that a complete Development Application was
14 submitted prior to February 11, 2020.

15
16 * * * *

17
18 **SEC. 406. WAIVER, REDUCTION, OR ADJUSTMENT OF DEVELOPMENT**
19 **PROJECT REQUIREMENTS.**

20 * * * *

21 (b) Waiver or Reduction, Based on Housing Affordability.

22 (1) An affordable housing unit shall receive a waiver from the Rincon Hill
23 Community Infrastructure Impact Fee, the Market and Octavia Community Improvements
24 Impact Fee, the Eastern Neighborhoods Infrastructure Impact Fee, the Balboa Park Impact
25 Fee, the Visitacion Valley Community Facilities and Infrastructure Impact Fee, the

1 Transportation Sustainability Fee, the Residential Child Care Impact Fee, the Central South of
2 Market Infrastructure Impact Fee, and the Central South of Market Community Facilities Fee if
3 ~~the affordable housing unit:~~

4 (A) the affordable housing unit is affordable to a household earning up to
5 120% at or below 80% of the Area Median Income (as published by HUD), including units that
6 qualify as replacement Section 8 units under the HOPE SF program;

7 (B) the affordable housing unit will maintain its affordability for a term of no
8 less than 55 years, as evidenced by a restrictive covenant recorded on the property's title;

9 (C) the Project sponsor demonstrates to the Planning Department staff that a
10 governmental agency will be enforcing the term of affordability and reviewing performance and service
11 plans as necessary, and

12 (D) all construction workers employed in the construction of the development
13 that includes the affordable housing unit are paid at least the general prevailing rate of per diem wages
14 for the type of work and geographic location of the development, as determined by the Director of
15 Industrial Relations pursuant to Sections 1773 and 1773.9 of the Labor Code, except that apprentices
16 registered in programs approved by the Chief of the Division of Apprenticeship Standards may be paid
17 at least the applicable apprentice prevailing rate under the terms and conditions of Labor Code Section
18 1777.5.

19 ~~(B) is subsidized, MOHCD, the San Francisco Housing Authority, the~~
20 ~~Department of Homelessness and Supportive Housing, and/or the Office of Community Investment and~~
21 ~~Infrastructure or any future successor agency to those listed herein; and~~

22 ~~(C) is subsidized in a manner which maintains its affordability for a term no~~
23 ~~less than 55 years, whether it is a rental or ownership opportunity. Project sponsors must demonstrate~~
24 ~~to the Planning Department staff that a governmental agency will be enforcing the term of affordability~~
25 ~~and reviewing performance and service plans as necessary.~~

* * * *

(5) This waiver clause shall not be applied to units built as part of a developer's efforts to meet the requirements of the Inclusionary Affordable Housing Program, Sections 415 or 419 of this Code ~~or any units that trigger a Density Bonus under California Government Code Sections 65915-65918.~~

REVISED LEGISLATIVE DIGEST
(SUBSTITUTED 6/27/23)

[Planning Code, Zoning Map - Housing Production]

Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Existing Law

The Planning Code sets forth different zoning districts throughout the City, where different uses are permitted, conditionally permitted, or prohibited, and where various controls (such as height, bulk, setbacks, etc.) apply. It also contains permit application, noticing, and hearing requirements, as well as appeal procedures, as applicable, for different permits and entitlements.

The Zoning Map is a component of the Planning Code, and it contains maps and figures that depict zoning regulations spatially, showing how land can be used in areas of San Francisco called "zoning districts" (also known as "zones" or "use districts").

Amendments to Current Law

This ordinance amends the Planning Code to implement a series of process reforms with the goal to encourage housing production. For instance:

- The ordinance creates a new Priority Equity Geographies Special Use District (SUD) and amends the Zoning Map to map that SUD. Priority Equity Geographies are areas that have been identified in the San Francisco Department of Public Health's Community Health Needs Assessment as Areas of Vulnerability.
- The ordinance exempts housing demolition citywide, but outside of Priority Equity Geographies, from the existing Conditional Use (CU) authorization requirement, if some conditions are met.
- It exempts expansion and new construction projects from neighborhood notice in areas outside of the Priority Equity Geographies SUD.
- It deletes the Planning Code requirement for a CU authorization for large lot developments (usually 10,000 sq. ft. or greater).
- It deletes the CU authorization requirement for projects to exceed a specified height in certain districts, even if the height limit allows for a greater height. By removing the CU requirement, the ordinance allows construction of buildings to the permitted height limit.
- It provides that if the Planning Commission delegates approval authority to the Planning Director, State Density Bonus (SDB) projects can be approved without a Commission hearing, regardless of any other requirements in the Planning Code.
- It allows construction of more units than currently principally permitted in larger lots in residential (RH-1, RH-2, and RH-3) districts, based on the lot area, removing the current CU requirement.
- It deletes the requirement that in order for senior housing projects to take advantage of double density allowances, they must be located within a quarter mile of a mid-sized Neighborhood Commercial District, or obtain a CU authorization.
- It expands development fee waivers to apply to 100% affordable housing projects with units affordable to up to 120% of the Area Medium Income, regardless of the funding source, and to 100% affordable SDB projects.
- It reduces and standardizes rear yard, front setback, lot frontage, and minimum lot size requirements.
- It simplifies residential open space requirements.
- It allows additional uses on the ground floor in residential buildings.
- It makes homeless shelters and group housing permitted in residential districts.
- It expands the eligibility for the Housing Opportunities Mean Equity – San Francisco (HOME – SF) program and density exceptions in residential districts, by removing some of the applicability thresholds for each of these programs.
- It allows for administrative review of reasonable accommodations.

Background Information

The ordinance contains findings explaining its intent to implement some of the goals, objectives, policies and implementing programs of the 2022 Housing Element Update.

Ms. Angela Calvillo, Clerk
Honorable Mayor Breed
Board of Supervisors
City and County of San Francisco
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

Re: Transmittal of Planning Department Case Number 2023-003676PCAMAP
Constraints Reduction Ordinance (AKA Housing Production Ordinance)
Board File No. 230446

Planning Commission Recommendation: **Approval with Modification**

Dear Ms. Calvillo and Mayor Breed,

On June 29, 2023, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, introduced by Mayor Breed that would amend Planning Code to remove several process constraints on housing production in addition to other related amendments. At the hearing the Planning Commission recommended approval with modification.

The Commission's proposed modifications were as follows:

1. For a project to be exempt from Planning Code Section 317 demolition controls, include a criterion that the units must not have had any tenant buyouts within the last five years.
2. Add the following language to Planning Code Section 132, Front Setback Requirements: (de) Maximum Requirements. The maximum required front setback in any of the cases described in this Section 132 shall be ~~15-10~~ feet from the property line along the Street or Alley, *except in the cases where more than 75% of the properties on the subject block face have a setback of 15 feet or greater, and both parcels adjacent to the subject property have a front setback of 15 feet or greater, in which case the maximum front setback shall be 15'.*

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Mayor Breed, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron D. Starr", with a long horizontal flourish extending to the right.

Aaron D. Starr
Manager of Legislative Affairs

Planning Commission Resolution
Planning Department Executive Summary

PLANNING COMMISSION RESOLUTION NO. 21342

HEARING DATE: JUNE 29, 2023

Project Name: Constraints Reduction (aka Housing Production)
Case Number: 2023-003676PCAMAP [Board File No. 230446]
Initiated by: Mayor Breed / Introduced April 18, 2023
Staff Contact: Aaron Starr, Legislative Affairs
aaron.starr@sfgov.org, 628-652-7533

RESOLUTION APPROVING A PROPOSED ORDINANCE THAT WOULD AMEND THE PLANNING CODE TO ENCOURAGE HOUSING PRODUCTION, BY 1) EXEMPTING, UNDER CERTAIN CONDITIONS, SPECIFIED HOUSING PROJECTS FROM THE NOTICE AND REVIEW PROCEDURES OF SECTION 311 AND THE CONDITIONAL USE REQUIREMENT OF SECTION 317, IN AREAS OUTSIDE OF PRIORITY EQUITY GEOGRAPHIES, WHICH ARE IDENTIFIED IN THE HOUSING ELEMENT AS AREAS OR NEIGHBORHOODS WITH A HIGH DENSITY OF VULNERABLE POPULATIONS; 2) REMOVING THE CONDITIONAL USE REQUIREMENT FOR SEVERAL TYPES OF HOUSING PROJECTS, INCLUDING HOUSING DEVELOPMENTS ON LARGE LOTS, PROJECTS TO BUILD TO THE ALLOWABLE HEIGHT LIMIT, PROJECTS THAT BUILD ADDITIONAL UNITS IN LOWER DENSITY ZONING DISTRICTS, AND SENIOR HOUSING PROJECTS THAT SEEK TO OBTAIN DOUBLE DENSITY; 3) AMENDING REAR YARD, FRONT SETBACK, LOT FRONTAGE, MINIMUM LOT SIZE, AND RESIDENTIAL OPEN SPACE REQUIREMENTS IN SPECIFIED DISTRICTS; 4) ALLOWING ADDITIONAL USES ON THE GROUND FLOOR IN RESIDENTIAL BUILDINGS, HOMELESS SHELTERS, AND GROUP HOUSING IN RESIDENTIAL DISTRICTS, AND ADMINISTRATIVE REVIEW OF REASONABLE ACCOMMODATIONS; 5) EXPANDING THE ELIGIBILITY FOR THE HOUSING OPPORTUNITIES MEAN EQUITY - SAN FRANCISCO (HOME - SF) PROGRAM AND DENSITY EXCEPTIONS IN RESIDENTIAL DISTRICTS; 6) EXEMPTING CERTAIN AFFORDABLE HOUSING PROJECTS FROM CERTAIN DEVELOPMENT FEES; 7) AUTHORIZING THE PLANNING DIRECTOR TO APPROVE STATE DENSITY BONUS PROJECTS, SUBJECT TO DELEGATION FROM THE PLANNING COMMISSION; AND 8) MAKING CONFORMING AMENDMENTS TO OTHER SECTIONS OF THE PLANNING CODE; AMENDING THE ZONING MAP TO CREATE THE PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT; AFFIRMING THE PLANNING DEPARTMENT'S DETERMINATION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; AND MAKING PUBLIC NECESSITY, CONVENIENCE, AND WELFARE FINDINGS UNDER PLANNING CODE, SECTION 302, AND FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN, AND THE EIGHT PRIORITY POLICIES OF PLANNING CODE, SECTION 101.1.

WHEREAS, on April 18, 2023 Mayor Breed introduced a proposed Ordinance under Board of Supervisors (hereinafter “Board”) File Number 230446, which would amend the Planning Code to encourage housing production, by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; and

WHEREAS, the Planning Commission (hereinafter “Commission”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on June 29, 2023; and,

WHEREAS, the proposed Ordinance has been determined to be categorically exempt from environmental review under the California Environmental Quality Act Section 15060(c); and

WHEREAS, the Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of Department staff and other interested parties; and

WHEREAS, all pertinent documents may be found in the files of the Department, as the Custodian of Records, at 49 South Van Ness Avenue, Suite 1400, San Francisco; and

WHEREAS, the Commission has reviewed the proposed Ordinance; and

WHEREAS, the Commission finds from the facts presented that the public necessity, convenience, and general welfare require the proposed amendment; and

MOVED, that the Planning Commission hereby **approves with modifications** the proposed ordinance. The Commission’s proposed modifications are as follows:

1. For a project to be exempt from Planning Code Section 317 demolition controls, include a criterion

that the units must not have had any tenant buyouts within the last five years.

2. Add the following language to Planning Code Section 132, Front Setback Requirements:

*(de) **Maximum Requirements.** The maximum required front setback in any of the cases described in this Section 132 shall be ~~15~~-10 feet from the property line along the Street or Alley, except in the cases where more than 75% of the properties on the subject block face have a setback of 15 feet or greater, and both parcels adjacent to the subject property have a front setback of 15 feet or greater, in which case the maximum front setback shall be 15'.*

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Commission supports the goals of this ordinance because it will implement several recently adopted Housing Element Policies and aims to streamline housing production in San Francisco. These changes will aid the City's efforts to build 82,000 units in the next eight years, as mandated by state law. By removing arbitrary processes for height and lot development, the proposed ordinance will not only save time but also bring predictability to the planning process.

The amendments to Section 317 refresh an outdated process based on subjective criteria and establish a standard for the types of housing projects that we want to encourage. The removal of 311 neighborhood notice requirements provides applicants with code-compliant projects greater predictability by reducing processing time and the subjective nature of the DR process. These changes also free up staff time to focus on more impactful housing projects.

The standardization and rationalization of the Planning Code's building standards also help streamline the review process and provide more flexibility to applicants in meeting code requirements. A simplified code also makes it easier for more people to participate in the planning process. Overall, the proposed ordinance will significantly reduce the time required for housing permits to navigate through the planning process.

Importantly, the ordinance also establishes the Priority Equity Geographies Specific Use District (SUD). This SUD maintains existing neighborhood notification and dwelling unit demolition controls. It can also be utilized in the future to implement zoning changes tailored to serve the specific needs of the communities residing in those areas. This approach prioritizes programs that stabilize communities and meet community needs.

General Plan Compliance

The proposed Ordinance is consistent with the following Objectives and Policies of the General Plan:

HOUSING ELEMENT

OBJECTIVE 3.A

BUILD INTERGENERATIONAL WEALTH FOR AMERICAN INDIAN, BLACK, AND OTHER COMMUNITIES OF COLOR.

Policy 16

Improve access to well-paid jobs and business ownership for American Indian, Black and other communities of color, particularly those who live in Priority Equity Geographies, to build the wealth needed to afford and meet their housing needs.

Implementing Program 4.3.7

Change regulations and definitions in the current planning code to improve flexibility on allowing home-based businesses and work from home in residential districts, for example, create an accessory entrepreneurial use that allows up to two employees.

The proposed Ordinance amends the Planning Code to allow up to two employees not residing in the unit for home-based businesses.

OBJECTIVE 1.B

ADVANCE EQUITABLE HOUSING ACCESS.

POLICY 6

Advance equal housing access by eliminating discrimination based on race, ethnicity, immigration status, HIV+ status, gender identity, sexual orientation, disabilities, age, prior incarceration, or mental health and improving housing programs for underserved groups.

OBJECTIVE 4.C

DIVERSIFY HOUSING TYPES FOR ALL CULTURES, FAMILY STRUCTURES, AND ABILITIES.

POLICY 32

Promote and facilitate aging in place for seniors and multi-generational living that supports extended families and communal households.

Implementing Program 6.3.10

Eliminate the requirement for a hearing for any Reasonable Accommodation requests making all requests administrative in nature, and clearly explain the review process for the public to seek a Reasonable Modification by January 31, 2024.

The proposed Ordinance would allow all reasonable accommodation requests to be approved by the Zoning Administrator ministerially.

POLICY 34

Encourage co-housing³⁴ to support ways for households to share space, resources, and responsibilities, especially to reinforce supportive relationships within and across communities and generations.

Implementing Program 7.2.6

Modify the definition of “dwelling unit” to comply with Health and Safety Code 17021.5. Evaluate and amend the definition of “family” to ensure that it provides zoning code occupancy standards specific to unrelated adults and complies with fair housing law. Permit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing. Changes should focus on special needs groups, including those with disabilities, by ensuring that intermediate care facilities or congregate living health facilities, with six or fewer residents are treated no differently than other by-right single-family housing uses as required in Health and Safety Code sections 1267.8, 1566.3, and 1568.08.

The proposed Ordinance amends the definition of a dwelling unit to comply with Health and Safety Code 17021.5

OBJECTIVE 4.B

EXPAND SMALL AND MID-RISE MULTI-FAMILY HOUSING PRODUCTION TO SERVE OUR WORKFORCE, PRIORITIZING MIDDLE-INCOME HOUSEHOLDS.

POLICY 25

Reduce governmental constraints on development in Well-resourced Neighborhoods to enable small and mid-rise multi-family buildings providing improved housing choice and affordability.

POLICY 26

Streamline and simplify permit processes to provide more equitable access to the application process, improve certainty of outcomes, and ensure meeting State- and local-required timelines, especially for 100% affordable housing and shelter projects.

POLICY 28

Affirm compliance in State housing law, requirements, and intent by strengthening data collection, clarifying definitions, and further supporting implementation.

Implementing Program 8.4.5

Eliminate Commission hearings on any code-complying project in the Well-Resourced Neighborhoods subject to the Housing Accountability Act by July 31, 2023 until January 31, 2027.

The proposed Ordinance would remove several hearing requirements for code-complying projects, such as the conditional use requirement to build to the allowable height limit, for large lot developments, for greater density in RH Districts, and to demolish housing when two or more units are being constructed. It would also remove neighborhood notification for code-compiling projects, which often leads to a hearing before the Planning Commission.

Implementing Program 8.4.8

Remove Conditional Use Authorizations or other regulatory barriers for lot mergers and lots or proposed densities that exceed conditional use thresholds on housing applications that net two or more housing units, do not demolish existing rent-controlled units, and meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 to facilitate larger and more efficient housing projects by January 31, 2025.

The proposed Ordinance would remove the conditional use requirements for proposed densities that exceed conditional use thresholds in RH zoning districts.

Implementing Program 8.4.9

Remove Conditional Use Authorization requirement for demolition of single-family or multi-unit buildings that (1) are not tenant occupied and without history of tenant evictions, recent buyouts, no-fault, Ellis, or OMI Evictions; (2) net two or more housing units in the case of projects that construct less than 4 units or that net an increase of at least 50% in the number of existing units for projects that construct 4 or more units, (3) do not demolish existing rent-controlled units, and (4) meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 by January 31, 2025. Continue to apply Conditional Use requirements to demolition of tenant occupied buildings. Review "protected unit" standards in the Housing Crisis Act, and strengthen definitions for local use as necessary, to ensure that properties with a history of no-fault evictions, such as Ellis Act or Owner-Move-Ins, continue to require heightened scrutiny or prohibition of demolition. Planning staff will use the Rent Board's Housing Inventory data and seek input from tenants' organizations.

The proposed Ordinance would remove the conditional use requirement for the demolition of up to two units subject to rent control so long as they are not tenet occupied, the building is not a historic resource, there have been no no-fail evictions, and SB 330 protections are complied with.

Implementing Program 8.4.10

Remove Conditional Use Authorizations where required to achieve greater height for a housing project or replace height and bulk districts that require Conditional Use Authorizations to exceed the base height with one that allows the current maximum height by January 31, 2025.

The proposed Ordinance removes the CU requirement for greater height in RH, RM, RC, Broadway NCD, Van Ness SUD, and Lakeshore Plaza SUD, even if the height map allows for a greater height.

Implementing Program 8.4.11

Reduce the minimum lot size to 1,200 square feet and minimum lot width to 20 feet for proposed projects that net at least one housing unit.

The proposed Ordinance standardizes the lot area and minimum lot width throughout the City to 1,200 sq. ft. and 20' respectively.

Implementing Program 8.4.17

Amend the Planning Code to prohibit Discretionary Review requests for code compliant projects adding at least one net unit, except for projects affecting buildings with units that are tenant occupied, are located in Priority Equity Geographies, or meet the definition of protected units under the Housing Crisis Act of 2019. Remove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.

The proposed Ordinance removes neighborhood notification for projects outside of the Priority Equity Geographies SUD, which reduces the likelihood of a Discretionary Review hearing before the Planning Commission.

Implementing Program 8.4.19

Whenever Planning Code amendments or revisions are proposed, advocate for ensure and promote simpler or an overall reduction of rules that affect housing approvals to reduce the specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

The proposed Ordinance simplifies many code provisions, including rear yard and front setback requirements, to reduce specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

OBJECTIVE 4.A

SUBSTANTIALLY EXPAND THE AMOUNT OF PERMANENTLY AFFORDABLE HOUSING FOR EXTREMELY LOW- TO MODERATE-INCOME HOUSEHOLDS.

OBJECTIVE 4.B

EXPAND SMALL AND MID-RISE MULTI-FAMILY HOUSING PRODUCTION TO SERVE OUR WORKFORCE, PRIORITIZING MIDDLE-INCOME HOUSEHOLDS.

POLICY 28

Affirm compliance in State housing law, requirements, and intent by strengthening data collection, clarifying definitions, and further supporting implementation.

Implementing Program 8.5.2

Remove Commission hearings for program-compliant State Density Bonus projects that do not require additional entitlements in consultation with California Department of Housing and Community Development (HCD).

The ordinance amends the Planning Code to make it possible for the commission to waive their opportunity to hear State Density Bonus projects.

Implementing Program 8.6.1

Expand the impact fee exemption to a broader range of permanently affordable housing projects including those with units affordable up to 120 percent of Area Median Income or projects that rely on philanthropic capital.

The ordinance amends the Planning Code to allow all 100% permanently affordable housing projects with up to 120% AMI to qualify for impact fee exemptions.

Implementing Program 8.6.3

Make shelters, transitional housing, or crisis interventions (such as Safe Sleeping Sites) principally permitted in all zoning districts, regardless of the declaration of a shelter crisis.

The ordinance amends the Planning Code to allow homeless shelters in all areas of the City as of right.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would maintain certain limits on housing demolition to help preserve existing housing, and it would allow for more housing development within the Well-resourced Neighborhoods SUD to enhance and preserve the cultural and economic diversity of our neighborhoods.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance introduced Planning Code changes that will help expand the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have an adverse effect on the City's Landmarks and historic buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

The proposed Ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Planning Code Section 302 Findings.

The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby APPROVES the proposed Ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on June 29, 2023.

Recommendation: Approval

Planning Code Amendment

The proposed Ordinance would amend the Planning Code to encourage housing production, by 1) streamlining construction of housing citywide, but outside of Priority Equity Geographies, as defined; 2) streamlining development of housing on large lots 3) allowing construction of buildings to the allowable height limit; 4) streamlining review of State Density Bonus projects; 5) streamlining construction of additional units in lower density zoning districts; 6) streamlining process for senior housing; 7) exempting certain affordable housing projects from development fees; 8) amending rear yard, front setback, lot frontage and minimum lot size requirements; 9) amending residential open space requirements; 10) allowing additional uses on the ground floor in residential buildings; 11) allowing homeless shelters and group housing in residential districts; 12) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; and 13) allowing administrative review of reasonable accommodations; and amending the Zoning Map to create the Priority Equity Geographies Special Use District.

	The Way It Is	The Way It Would Be
Map Changes		
1	The Housing Element of the General Plan uses maps of High-resourced Areas and Priority Equity Geographies as a basis for several of its goals and policies; however,	An SUD based on the Priority Equity Geographies, excluding areas that overlap with the High-resourced Neighborhoods, would be added to the City's zoning map as a tool to help

	these areas are not map in the planning code or zoning map.	implement the Housing Element's Goals and Policies. (See Exhibit C for the map)
Process		
2	Planning Code Section 317 requires applicants to obtain Conditional Use authorization for the demolition of any housing unit.	<p>Housing demolition outside the Priority Equity Geographies SUD would be exempt from the Conditional Use process if all the following criteria are met:</p> <p>(A) The units to be demolished are not tenant occupied and are without a history of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) (<i>aka No-Fault Evictions</i>) within last 5 years.</p> <p>(B) No more than two units that are required to be replaced per subsection (E) below would be removed or demolished.</p> <p>(C) The building proposed for demolition is not an Historic Building as defined in Section 102;</p> <p>(D) The proposed project is adding at least one more unit than would be demolished; and</p> <p>(E) The project complies with the requirements of Section 66300(d) (<i>aka SB 330, replacement relocation and first right-of-refusal</i>) of the California Government Code, as may be amended from time to time, including but not limited to requirements to replace all protected units, and to offer existing occupants of any protected units that are lower income households relocation benefits and a right of first refusal for a comparable unit, as those terms are defined therein.</p>
3	Conditional Use authorization is required for large lot developments (usually 10,000 sq. ft. or greater but lot size varies) in NC and Chinatown Mixed Use Districts	Conditional Use authorization would no longer be needed for large lot developments in these zoning districts.
4	Conditional Use authorization is required to exceed specified heights in RH, RM, RC, Broadway NCD, Van Ness SUD, and Lakeshore Plaza SUD, even if the height map allows for a greater height.	Conditional Use authorization would no longer be required to exceed a specific height in these districts. The height limit for that lot would control the allowable building height.
5	A hearing before the Planning Commission is required for State Density Bonus Projects, even though the Planning Commission's discretion is incredibly limited when it comes to denying any requested waivers, incentives, or concessions. In addition, if the project is code-complying, the Planning Commission's ability to	State Density Bonus projects would no longer require a hearing before the Planning Commissions regardless of any underlying entitlement (Conditional Use or Large Project Authorizations, for example).

	deny or reduce the density of the project is also incredibly limited by State law.	
6	The Code permits one unit in RH-1 Districts, 2 units in RH-2 Districts, and 3 units in RH-3 Districts. If you have a larger lot, you can build more units based on the lot area, but you must obtain Conditional Use authorization from the Planning Commission to do so.	The Conditional Use requirement to allow more units on larger lots in RH Districts would be removed.
7	For Senior Housing to qualify for double the permitted density, it must be located within ¼ mile of a mid-sized Neighborhood Commercial District (NC-2), RC District or higher density district or obtain Conditional Use authorization.	All senior housing would be eligible for double the density without Conditional Use authorization and regardless of location.
8	The Zoning Administrator may administratively approve a specific list of reasonable accommodations, such as the addition of a ramp, elevator, etc. beyond what the Planning Code would allow.	The Zoning Administrator would be able to approve all reasonable accommodation requests administratively.
9	The Planning Code Section 311 requires the Department to notify neighbors within 150' of new construction or expansion projects in any Residential, NC, NCT, and Eastern Neighborhoods Mixed Use Districts.	New construction or expansion projects located outside of the Priority Equity Geographies SUD would not require neighborhood notice under Planning Code Section 311.
Building and Zoning Standards		
10	The Planning Code requires a 30% rear yard for single-family districts, and a 45%-25% rear yard in RH-2, RH-3, RM-1, and RM-2 Zoning Districts. All other zoning districts have a 25% rear yard requirement.	The rear yard requirement in all RH Districts, RM-1 and RM-2 Districts would be 30%. All other zoning districts would have a required 25% rear yard.
11	The Planning Code requires applicants to average the front setback of the adjoining neighbors but limits the setback to a maximum of 15'.	Applicants would be able to match the shortest front setback of their adjoining neighbors instead of averaging and the maximum front setback would be 10'.
12	The Planning Code establishes a minimum lot frontage of 25' in most districts, and 33' in detached single-family districts (e.g., St. Francis Wood).	The minimum lot frontage would be 20' for all zoning districts.
13	The Planning Code establishes a minimum lot area of 2,500 sq. ft. in most districts, and 4,000 sq. ft. in detached single-family districts.	The minimum lot area would be 1,200 sq. ft for all zoning districts.
14	Only corner lots in Neighborhood Commercial Districts may locate their required rear yard at the inside corner of the lot. This allows someone to build along both the front and side street-facing property lines or "wrap the lot" with a building.	All corner lots would be able to locate their required rear yard at the inside corner of the lot.
15	Through lots (lots with frontage on two streets) are permitted to have a building fronting each street only if	All through lots would be allowed to have buildings fronting each street regardless of

	one of its adjacent lots also has a building fronting each street.	what is on the adjacent lots. The rear yard in this case would be in the middle of the lot.
16	Private open space for decks, balconies, porches, and roofs must be at least 36 sq. ft. and have a minimum horizontal dimension of six feet.	Minimum dimensions for decks, balconies, and porches would be 27 sq. ft. and have a minimum horizontal dimension of three feet.
17	An interior courtyard must provide setbacks at every level (the “inverted ziggurat”) to qualify for exposure and open space requirements.	This ordinance removes the required setbacks (the “inverted ziggurat”) but maintains existing dimensional requirements.
18	Ground floors must have a certain percentage of active uses. For residential buildings an active use includes fitness rooms and community rooms.	The list of what is considered an “active use” in a residential building would be expanded to include laundry, lobby, mail room, and bike room.
19	Homeless Shelters are restricted in our low-density, and industrial neighborhoods.	Homeless shelters would be principally permitted in all zoning districts.
20	Group Housing is prohibited in single-family neighborhoods.	Group Housing would be permitted in single-family neighborhoods via the Four-plex program, which prohibits the use of the State Density Bonus program.
21	To take advantage of the Four-plex Program, the applicant must have owned the property for at least one year.	The one-year ownership requirement would no longer apply.
22	Home-based businesses are prohibited from employing anyone that does not reside in the unit.	Up to two employees for home-based businesses that don’t live in the unit would be allowed.
23	The Codes’ current definition of a Dwelling Unit is not consistent with the State’s Health and Safety Code.	To bring the definitions in line with State law the definition for Dwelling Unit would be amended to include the following “A Dwelling Unit shall also include “employee housing” when providing accommodations for six or fewer employees, as provided in State Health and Safety Code §17021.5”
Expand Affordable Housing Incentives		
24	Only 100% affordable housing projects with units up to 80% AMI that are subsidized by specific city or regional agencies are eligible to receive a fee waiver.	Any 100% affordable housing project, regardless of the funding source, with units up to 120% AMI would be eligible to receive the fee waiver.

25	100% affordable housing projects can receive a fee waiver unless the project is using the State Density Bonus program.	100% affordable State Density Bonus project would be eligible for the fee waiver.
26	The Planning Code prohibits projects from using HOME SF if the project removes any dwelling unit.	This ordinance would allow projects to remove one dwelling unit and still qualify for HOME SF. The three Rs (Relocation, Replacement, and first Right of Refusal) would be required if a dwelling unit is removed.
27	HOME SF includes CEQA impacts in its eligibility criteria.	CEQA impacts would be removed as eligibility criteria; however, CEQA analysis would still occur as would any resulting mitigations.

Background

Housing Element Adoption

San Francisco recently adopted the Housing Element 2022 Update (2022 Update). The 2022 Update is San Francisco's first housing plan that is centered on racial and social equity. It includes policies and programs that express our city's collective vision and values for the future of housing in San Francisco. The 2022 Update articulates San Francisco's commitment to recognizing housing as a right, increasing housing affordability for low-income households and communities of color, opening small and mid-rise multifamily buildings across all neighborhoods, and connecting housing to neighborhood services like transportation, education, and economic opportunity.

The drafting of 2022 Update relied extensively on outreach and engagement to communities historically underrepresented including low-income communities of color and vulnerable groups. Three phases of outreach and engagement, over the course of two years, inform the 2022 Update. For the first time at this scale, the Department funded and supported focus groups led or co-hosted by community-based organizations representing American Indian, Black, Latino, Chinese, Japanese, Filipino, low- and moderate-income households, seniors, people with disabilities, LGBTQ+ and transgender, and homeless advocates. Outreach and engagement also included housing policy experts, advocates, affordable housing developers, labor organizations, architects, and developers.

Housing Element Implementation

If the housing element is the constitution on which future development in San Francisco is based, the Planning Code is how the City implements that vision. There are several efforts underway to implement the Housing Element, this ordinance being one of them. Others include the Department's effort to rezoning areas primarily in the Well-resourced Neighborhoods to meet the goals and policies in the Housing Element. This is necessary for the City to meet our state-mandated goal of constructing 82,00 housing units within the next eight years. That effort is scheduled to be completed by the end of this year or early next year. Supervisor Melgar also introduced an ordinance, which would remove several process requirements for housing development within the Well-

Resourced Neighborhoods. While not directly tied to the Departments housing element implementation efforts, it is taking its cues from the goals and policies set out in the Housing Element¹.

This ordinance is rooted in several policies from the Housing Element that direct the City to remove obstacles hindering housing construction, particularly when such requirements are based on subjective criteria. Many of the implementing programs for these policies come with specified implementation deadlines, typically set for January 31, 2025, although some have earlier dates. For instance, implementing program 8.4.5 calls for the elimination of Commission hearings on code-complying projects in the Well-Resourced Neighborhoods, subject to the Housing Accountability Act, by July 31, 2023. This ordinance plays a pivotal role in advancing the City's commitment to fulfill its obligations under the Housing Element by directly incorporating numerous Housing Element policies and implementation programs.

Issues and Considerations

Process Improvements

Housing Demolition Controls

Section 317 is based on a flawed assumption that preserving all existing housing is going to maintain housing affordability, requiring all demolitions, regardless of units being added, obtain conditional use authorization.

Section 317 is based on a flawed assumption that preserving all existing housing is going to maintain housing affordability, requiring all demolitions, regardless of units being added, to obtain conditional use authorization. There are many reasons to discourage the demolition of existing sound housing. This longstanding policy helps maintain affordable units offered through existing housing stock, it retains embodied energy in existing buildings to minimize resource use, and it preserves the neighborhood's aesthetic character; however, current controls fail to recognize that without some housing demolition, it's not possible to add to the City's housing stock and meet increasing demand for housing. Further, while the aesthetic character of the neighborhood may be maintained, the demographic make-up of the neighborhood, which is also a large part of neighborhood character, significantly changes. With fewer homes available, prices increase, and new renters and buyers tend to be wealthier and eventually what was a middle- or working-class neighborhood becomes an enclave for the wealthy. Further, studies have shown that new housing construction in San Francisco lowers rents and reduces the risk of displacement for nearby residents².

The proposed ordinance attempts to reform Section 317 by exempting projects outside of the Priority Equity Geographies SUD from the Conditional Use requirements. Eligible projects must add density and may not demolish a known historic resource. Additionally, projects may only qualify for the Section 317 exemption if they meet specified anti-displacement requirements, including: there cannot be a history of no-fault evictions, tenant buyouts, or owner move-in evictions in the past 5 years, the project cannot displace existing tenants, and the

¹ For a comparison of the Four-Plex Program, The Family Housing Opportunity SUD, SB 9, and this ordinance, please see Exhibit E.

² Pennington, Kate, Does Building New Housing Cause Displacement?: The Supply and Demand Effects of Construction in San Francisco (June 15, 2021.)

project cannot demolish more than two rent-controlled units. Further, any demolished rent-controlled units must be replaced in the new project. These types of exceptions are designed to encourage the redevelopment of lower density properties, such as single-family homes with an Unauthorized Dwelling Unit. Staff estimates that removing the Conditional Use process from these projects would reduce the average processing time by six to nine months. These significant time savings would also reduce permitting and holding costs for the applicants and make housing less expensive to build.

Large Lot Development

...the criteria used by the Department and Commission to evaluate and approve these applications are purely subjective, creating an arbitrary process for housing approval.

The proposed ordinance removes Conditional Use authorization requirements for large lot development in Neighborhood Commercial, Chinatown, and RH Districts. In the Neighborhood Commercial and Chinatown Districts, the Conditional Use requirement is based on the total area of the lot. So, for example in NC-2 Districts lots greater than 10,000 sq. ft. require Conditional Use hearing to develop that lot. This is true even when those lots already exist. To avoid the Conditional Use hearing and develop the lot as-of-right, the lot would need to be subdivided. Further, the criteria used by the Department and Commission to evaluate and approve these applications are purely subjective, creating an arbitrary process for housing approval.

In the case of RH-zoned lots, the Conditional Use requirement for large lot development is triggered when an applicant seeks to add more units than allowed under the base density. For example, in RH-1 districts, with Conditional Use authorization, projects are allowed to have up to one unit per 3,000 square feet of lot area, with no more than three units per lot. However, the additional units obtained from developing a larger lot result in approximately the same or even lower density compared to what is allowed as-of-right. A typical lot in San Francisco is 2,500 sq. ft.; therefore, the actual density allowed with Conditional Use authorization (1 unit per 3,000 sq. ft.) is less dense than what is permitted on a typical lot as of right (1 unit per 2,500 sq. ft.). While the City sees few Conditional Use authorization requests of this nature, removing it will provide more predictability for applicants and reduce the time it takes to process these applications by approximately six to nine months.

These changes are also consistent with Housing Element Implementation Program 8.4.8:

Remove Conditional Use authorizations or other regulatory barriers for lot mergers and lots or proposed densities that exceed conditional use thresholds on housing applications that net two or more housing units, do not demolish existing rent-controlled units, and meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 to facilitate larger and more efficient housing projects by January 31, 2025.

CU for Height

In RH, RM, RC, Broadway NCD, Van Ness SUD, and Lakeshore Plaza SUD applicants must obtain Conditional Use approval to meet the allowable mapped height. Like the CU requirement for large lot developments, these criteria are also subjective. Further, the Conditional Use process only allows applicants to meet the mapped height limit. Removing the Conditional Use requirement in these districts to meet the allow mapped height will provide more predictability for applicants and reduce the time it takes to process these applications by approximately six to nine months.

State Density Bonus Projects

The public hearing requirement creates an expectation among the public that the Planning Commission holds greater authority over these projects than it does. It also slows down the approval process, adding six to nine months to housing projects that provide affordable units above what is required by our local inclusionary program.

A hearing before the Planning Commission is required for State Density Bonus Projects, even though the Planning Commission's discretion is limited when it comes to denying requested waivers, incentives, or concessions. In addition, if the project is code-complying, the Planning Commission's ability to deny or reduce the density of the project is also incredibly limited by state law. The public hearing requirement creates an expectation among the public that the Planning Commission holds greater authority over these projects than it does. It also slows down the approval process, adding six to nine months to housing projects that provide affordable units above what is required by our local inclusionary program. The proposed ordinance would allow the Planning Director to approve concessions or incentives requested as part of the state density bonus program provided that the Planning Commission delegates authority to the director to do so. This delegation authority would need to be approved under a separate resolution and could be removed or modified by the Planning Commission at any time.

Senior Housing

Providing greater housing choice for seniors will allow them to age in place in familiar surroundings and where they may have existing community.

The proposed ordinance would remove the location requirement for Senior Housing to qualify for double the permitted density. Currently, to receive the density bonus, Senior Housing must be located within an RC District or a district with higher density allowances, or within a ¼ mile of an RC or NC-2 District. If located within an RH or RM Districts, Conditional Use is required to obtain double the density. It's not clear if this was done to ensure that there were sufficient goods and services within walking distance of proposed project or to make sure that denser housing was not placed within smaller scale neighborhoods; however, senior housing should be encouraged wherever housing is permitted in San Francisco. Providing greater housing choice for seniors will allow them to age in place in familiar surroundings and where they may have existing community. While not specifically called out as a policy in the housing element this change is consistent with its general direction.

Reasonable Accommodations

The proposed ordinance aims to make all reasonable accommodation requests ministerial. The Zoning Administrator may administratively approve a specific list of reasonable accommodation, such as the addition of a ramp, elevator, etc., beyond what the Planning Code would allow. Reasonable accommodations are intended to comply with the Americans with Disabilities Act by allowing deviations from the Planning Code to meet the accessibility needs of the occupancy. This proposed change is called for in Housing Element Implementation Program 6.3.10, which states "Eliminate the requirement for a hearing for any Reasonable Accommodation requests making all requests administrative in nature, and clearly explain the review process for the public to seek a Reasonable Modification by January 31, 2024."

Neighborhood Notification

The proposed ordinance would eliminate neighborhood notification (311 Notification) for projects outside the Priority Equity Geographies SUD. This notification requires the Department to inform neighbors within 150 feet of code-complying building expansions or significant internal remodels. The one-month notification period allows neighbors to file a Discretionary Review application, which then triggers a Planning Commission hearing. Removing neighborhood notification will not eliminate the ability for neighbors to file a Discretionary Review application, as there are still ways for the public to be informed about projects in their neighborhood including BBNs (Block Book Notifications) and Building Eye. Additionally, construction notices would still be provided to neighbors though the noticing process for certain building permits. The current neighborhood notification period is one month, but Staff also spends a significant time preparing the notification, and coordinating Discretionary Review hearings if such an appeal is filed. Staff estimates that removing this process would speed up approvals for code-complying additions and new construction permits by three to six months, reducing costs for applicants. It also frees up staff time allowing them to process more applications and focus on impactful housing projects.

Development Standards

The proposed ordinance introduces several changes to the Planning Code development standards aimed at improving compliance and streamlining the Code. These changes encompass the standardization of rear yards, lot width, and lot area. Additionally, it relaxes controls regarding open space requirements, building configuration and siting, and permitted elements within residential units. These modifications collectively contribute to making the Planning Code simpler and easier to navigate. This benefits not only the planners who implement the code, but also reduces specific knowledge needed by applicants and members of the public to increase accessibility. This is consistent with Housing Element Implementation Program 8.4.19:

Whenever Planning Code amendments or revisions are proposed, advocate for ensure and promote simpler or an overall reduction of rules that affect housing approvals to reduce the specific or institutional knowledge needed by City staff, applicants, and members of the public to increase accessibility.

Rear Yard

...essentially the planning code is setting a larger rear yard requirement for multi-unit buildings than single-family homes.

Currently the Planning Code allows a 30% rear yard for single-family homes, and a 25-45% rear yard for multifamily homes in RH and RM Districts. The 45% rear yard in RH-2, -3 and RM-1, and -2 districts can be reduced based on the average of the adjacent neighbors of up to 25% of the lot depth; however, essentially the planning code is setting a larger rear yard requirement for multi-unit buildings than single-family homes. This ordinance seeks to rationalize those controls by requiring a 30% rear yard in all our lower density neighborhoods, and a 25% rear yard in all our higher density neighborhoods. Rationalizing and standardizing the rear yard helps provide consistency for applicants and makes it possible to implement the code more efficiently.

Front Setback

Front setbacks offer numerous benefits for both the public realm and building occupants. They contribute to an aesthetically pleasing streetscape by allowing for landscaping, pedestrian amenities, and a sense of openness. Moreover, they enhance livability by providing a distance between buildings and roads, reducing noise pollution, and improving air circulation. Requiring a front setback to align with the existing neighborhood context also helps establish an appealing street wall; however, imposing a large setback reduces the buildable area on a lot. Currently, the Planning Code does not provide relief from rear yard requirements when a front setback is mandated. Additionally, density bonus programs such as the four-plex program do not exempt front setback requirements when aiming for increased density.

The proposed change seeks to address this issue while still ensuring that new buildings respond to the existing context. It would amend the front setback requirements by allowing applicants to match the shortest adjacent front setback. Furthermore, it amends the controls so that the maximum front setback becomes 10 feet instead of 15 feet. While averaging the two adjacent front setbacks can facilitate a more gradual transition between buildings, this may not apply in cases where the two setbacks differ significantly. For example, if one adjacent property is at the front of the lot and the other is at the rear. Such a setback not only diminishes development potential but also fails to achieve the desired gradual transition through averaging.

Lot Width and Area

The proposed ordinance would reduce the minimum lot width from 25' to 20' and the minimum lot area from 2,500 sq. ft. to 1,200 sq. ft. The proposed minimum lot area is consistent with SB9, which allows lot subdivision in single-family zoning districts so long as the resulting lot is 1,200 sq. ft. The Hosing Element also calls for reducing the minimum lot size to 1,200 sq. ft. and the minimum lot width to 20' when the lot subdivision results in an additional unit. The proposed ordinance does not include such a qualifier; however, it's hard to imagine a situation where a property would be subdivided and not result in an additional unit.

Corner Lots and Through Lots

This approach maximizes land utilization, allowing property owners to make efficient use of available space.

The Planning Code currently permits corner properties in NC Districts to wrap the lot with a building and place the required rear yard on the interior corner of the lot. The proposed change aims to extend this building configuration to most zoning districts, offering numerous benefits. This approach maximizes land utilization, allowing property owners to make efficient use of available space. It also creates a consistent street wall, enhancing the visual appeal and cohesiveness of the streetscape while promoting order and aesthetic harmony. Additionally, it enhances the midblock open space as the rear yard, located in the inner corner of the lot, becomes more connected to the surrounding open space, facilitating increased light and air circulation for adjacent properties.

Similarly, the Planning Code permits buildings on both street-facing lot lines for through lots, but only if there is an established pattern on the street. This pattern is commonly found in many older parts of the city where through lots are prevalent. Allowing this configuration also offers several benefits. Like wrapping the lot, it maximizes land utilization, enabling property owners to efficiently use their available space. Developing housing in the rear yard setback of a typical lot requires a dedicated means of access through the front building; however,

on a through lot, the alleyway or street at the rear provides convenient and direct access to the rear building, reducing conflicts between the front and rear residences.

Open Space

Private balconies provide additional outdoor living space for residents, allowing them to enjoy fresh air, sunlight, and views without leaving their homes. This enhances the quality of life for occupants, providing a private outdoor retreat within a dense urban environment.

The proposed ordinance simplifies compliance with usable open space requirements by making two significant changes. First it rationalizes the open space requirement dimensions for balconies so that the depth and area are consistent with what the Code allows for a front or rear setback permitted obstruction. The Code permits square bay windows and balconies to project within the required front or rear setback or over the public right-of-way. These projections from the façade cannot be more than 3' in depth and no more than 6' wide; however, the Code does not allow a balcony that is less than 6' in depth and 36 sq. ft. in area to count toward the open space requirements. This results in most open space requirements being fulfilled by common open space typically on the roof. While rooftop decks have their benefits, they tend to be a shared resource. Private balconies provide additional outdoor living space for residents, allowing them to enjoy fresh air, sunlight, and views without leaving their homes. This enhances the quality of life for occupants, providing a private outdoor retreat within a dense urban environment. Encouraging balconies like this also can enhance the overall aesthetics of a building, adding visual interest and architectural diversity to the façade. They can contribute to the character of a neighborhood and create a more attractive streetscape.

Figure 2: Example of Single-Point Access Block

Figure 1: Example of a Double-Loaded Corridor

In the coming years, the state may also adopt single-point access building standards and balconies are often provided as a second means of egress in this building typology³. A single point access block refers to a building or structure that features a single designated entry or access point for residents or occupants. This type of construction is common in Europe, typically used on mid-sized apartment buildings of six stories or less. A typical building requires two means of egress resulting in double loaded corridors. The corridor occupies

³ Twu, Alfred. "Housing Architecture in California: The Single Stair Conundrum," San Francisco Chronicle, Opinion, (Accessed June 14, 2023), <https://www.sfchronicle.com/opinion/openforum/article/housing-architecture-california-single-stair-17774317.php>.

valuable space within the building, reducing the available area for unit layouts. As a result, unit configurations are often restricted to linear arrangements along the corridor, limiting options for alternative floor plans or room layouts. Double loaded corridors also prohibit cross ventilation. Single-point access blocks typically result in more livable units with cross ventilation and more varied unit sizes. In-unit balconies can aid in this building typology's feasibility.

Figure 3: Planning Code Diagram for "Inverted Ziggurat" requirement

This provision is one of the most common concessions or variances requested by applicants because it is very difficult to comply with and takes away valuable space that could otherwise be used for additional units. In fact, few, if any, major projects in the past few years have been able to comply with this provision.

The other change that the ordinance makes to the open space requirements is the removal of what is referred to as the inverted ziggurat requirement for inner courts. The inverted ziggurat requires an internal courtyard to be 20' by 20' and provide setbacks at the upper floors based on a 45-degree plane. A similar requirement is used for exposure requirements and is also proposed for deletion. This provision is one of the most common concessions or variances requested by applicants because it is very difficult to comply with and takes away valuable space that could otherwise be used for additional units. In fact, few, if any, major projects in the past few years have been able to comply with this provision. Additionally, the requirement often does not provide the anticipated sun exposure because San Francisco's street grid does not align exactly with cardinal directions.

Ground Floor Uses

With some exceptions provided for garage entrances and mechanical equipment, the first 25' of the ground floor of a residential building must have an active use in Neighborhood Commercial Districts, Commercial Districts, Residential-Commercial Districts, and Mixed-Use Districts. On the ground floor residential uses are considered active only if more than 50 percent of the street frontage features walk-up dwelling units that provide direct, individual pedestrian access to a public sidewalk, and are consistent with the Ground Floor Residential Design Guidelines. Spaces accessory to residential uses, such as fitness or community rooms, are considered active uses only if they have access directly to the public sidewalk or street. The proposed ordinance would amend this accessory use provision to also include laundry, lobby, mail room, and bike room so long as they face the street. This change is intended to provide more flexibility for applicants to meet this requirement.

Other Zoning Changes

The proposed ordinance also proposes amending specific controls and definition in the code. Most of these changes are called for in the Housing Element. The following is a brief explanation of the remaining changes.

Homeless Shelters: The ordinance would make Homeless Shelters permitted in all zoning districts. This amendment is based on Housing Element Implementation Program 8.6.3, which states: “Make shelters, transitional housing, or crisis interventions (such as Safe Sleeping Sites) principally permitted in all zoning districts, regardless of the declaration of a shelter crisis.”

Group Housing: The ordinance would permit Group Housing in RH-1 zoning districts via the four-plex program and remove the conditional use requirement for Group Housing in RH-2 and RH-3 zoning districts. Current Group Housing is principally permitted in all zoning districts where housing is allowed except for RH zoning districts. This amendment is based on the Housing Element Implementation Program 7.2.6 that states in part: “...Permit group housing broadly throughout the city, particularly in zones allowing single-family uses, increase group housing density permitted in these districts, and remove Conditional Use Authorizations or other entitlement barriers to group housing.”

Home Based Businesses: Currently home-based businesses are prohibited from employing anyone that does not reside in the unit unless it's a Cottage Food Operation, which allows up to one employee not a resident in the unit. This ordinance would allow up to two employees for home-based businesses. This change is based on Housing Element Implementation Program 4.3.7 of the Housing element: “Change regulations and definitions in current Planning code to improve flexibility on allowing home-based businesses and work from home in residential districts, for example, create an accessory entrepreneurial use that allows up to two employees.”

Dwelling Unit Definition: The proposed change would add language to the definition of a housing unit to include employee housing when providing accommodation for six or fewer employees. This change is called for in Housing Element Implementation Program 7.2.6: “Modify the definition of “dwelling unit” to comply with Health and Safety Code 17021.5...”

Expand Affordable Housing Incentives

Developing housing, especially affordable housing in San Francisco is very expensive. Waiving fees for all 100% affordable housing projects with maximum AMI of 120%, regardless of where their funding comes from will help further the City's goal of increasing affordable housing production.

The proposed ordinance makes several code changes to make it easier to build affordable housing. These changes include expanding what types of projects can receive a fee waiver, expanding the eligibility for Home SF and removing restrict eligibility requirements. Currently, only projects that are subsidized by MOHCD, the San Francisco Housing Authority, the Department of Homelessness and Supportive Housing, or the Office of Community Investment and Infrastructure are eligible for a fee waiver. This excludes 100% affordable housing projects that are built by non-profit housing developers that do not take money from any of the listed agencies. It also specifies that the top AMI for subsidized units is 80%, further limiting which affordable housing projects qualify for this fee waiver. Developing housing, especially affordable housing in San Francisco is very expensive. Waiving fees for all 100% affordable housing projects with maximum AMI of 120%, regardless of where their

funding comes from will help further the City's goal of increasing affordable housing production. Further this change is specifically called out in Housing Element Implementation Program 8.6.1.

Expand the Impact Fee exemption to a broader range of permanently affordable housing projects including those with units affordable up to 120 percent of Area Median Income or projects that rely on philanthropic capital.

Removing these criteria will not exempt projects from CEQA review but will expedite staff's ability to determine eligibility and eliminate this paradox.

The ordinance also eliminates two eligibility criteria for HOME SF, our local density bonus program. The first set of eligibility criteria pertains to CEQA impacts, including impacts on historic resources, shadow impacts, and wind impacts. The ordinance seeks to remove these criteria as eligibility factors; however, projects would still undergo CEQA review for these impacts. The reason for their removal is that these criteria make it challenging for staff to determine a project's eligibility for HOME SF within the required 30-day period mandated by state law. Wind and shadow analysis, as well as assessing impacts on historic resources, typically take several months as part of the CEQA review process. This creates a chicken and egg situation where we need to determine if a project is eligible before we start processing the proposal, but we need to start processing the proposal before we can determine if it is eligible for the program. Removing these criteria will not exempt projects from CEQA review but will expedite staff's ability to determine eligibility and eliminate this paradox.

Furthermore, the proposed ordinance eliminates the requirement that deems projects ineligible for HOMESF if any housing units are demolished. Instead, one unit could be removed, and the project would still be eligible for HOMESF. While minimizing displacement is crucial during new housing development, displacement cannot be completely avoided if we are going to develop underdeveloped lots. There are instances where neighborhood commercial corridors have small-scale buildings with retail space on the ground floor and a unit above. These buildings present opportunities for redevelopment and could potentially offer more housing under current zoning rules; however, they are currently prohibited from utilizing our local density bonus program, although the State Density Bonus program allows for it. Removing this prohibition and allowing the removal of one unit would be a minor adjustment to the program that would reduce displacement while expanding the number of properties eligible for HOME SF.

General Plan Compliance

The proposed ordinance was drafted specifically to implement several of the Housing Element's Implementation Programs.

Looking at the proposed changes in total, the Department finds that, on balance, the proposed ordinance is consistent with the General Plan. The proposed ordinance was drafted specifically to implement several of the Housing Element's Implementation Programs. Some of these changes are called about above. These include allowing reasonable accommodations, removing CU requirements to achieve greater height, and allowing more projects to qualify for fee waivers are clearly called for in the Housing Element. Regarding other changes, such as those for neighborhood notice and Section 317, the ordinance proposes a more proactive approach than what is called for in the Housing Element.

For example, for Section 311 changes, the Ordinance would eliminate neighborhood notification entirely outside of the Priority Equity Geographies. The Housing element also calls for the elimination of Neighborhood Notice but Housing Element Implementation Program 8.4 states:

Remove neighborhood notification requirements for projects outside of Priority Equity Geographies that are code complying, net at least one housing unit, and only expand the rear or side of an existing building and for all non-discretionary ministerial projects.

The difference between the Mayor's proposal and what the Housing Element outlines is that the Housing Element requires the addition of a unit to avoid Section 311 notification, and vertical additions are not exempt from 311 notification.

For Section 317 Notification, Housing Element Implementation Program 8.4.9 states the following:

Remove Conditional Use Authorization requirement for demolition of single-family or multi-unit buildings that (1) are not tenant occupied and without history of tenant evictions, recent buyouts, no-fault, Ellis, or OMI Evictions; (2) net two or more housing units in the case of projects that construct less than 4 units or that net an increase of at least 50% in the number of existing units for projects that construct 4 or more units, (3) do not demolish existing rent-controlled units, and (4) meet tenant protection, relocation, and replacement standards as recognized in Housing Crisis Act of 2019 by January 31, 2025. Continue to apply Conditional Use requirements to demolition of tenant occupied buildings...

The Mayor's ordinance is in line with this policy as it relaxes the rules for residential demolition. It protects tenants by not exempting tenant-occupied housing or properties where there has been a no-fault eviction from Conditional Use requirements, and it requires the three Rs of AB 330; however, the Mayor's ordinance does allow for the demolition of up to two rent-controlled units and only requires one additional unit for the project to qualify for the exemption. It also makes these changes to Section 317 only outside the priority geographies SUD, whereas the Housing Element appears to call for these changes citywide.

Racial and Social Equity Analysis

The proposed ordinance is a crucial step towards advancing race and social equity in San Francisco. It aligns with the City's Housing Element, which focuses on eliminating exclusionary planning rules that perpetuate racial and social segregation. By removing prohibitions on homeless shelters and group housing in single-family neighborhoods and reducing minimum lot size requirements, the ordinance dismantles barriers that have historically prevented equitable access to housing. This change promotes inclusivity and fosters a more integrated and diverse city.

Moreover, the ordinance contributes to the goal of creating housing opportunities in well-resourced neighborhoods by streamlining the construction process. By eliminating constraints such as conditional use authorization for demolition and neighborhood notification for building additions or new construction, the ordinance expedites housing development and ensures quicker planning approval. This facilitates increased housing supply in historically exclusive areas, enabling more people, especially marginalized communities, to access neighborhoods that were previously inaccessible to them.

Additionally, the proposed ordinance acknowledges the importance of maintaining existing processes for neighborhood notification and demolition within Priority Equity Geographies, while recognizing the need for further evaluation and improvement. It emphasizes the necessity of empowering American Indian, Black, and other communities of color within these neighborhoods, enabling them to play an active role in driving positive change and shaping their communities.

Lastly, the ordinance advances race and social equity by simplifying Planning Code requirements. Complex codes often create barriers that exclude or discourage community participation, as they demand technical expertise or legal knowledge. By simplifying language and streamlining requirements, the ordinance establishes a more accessible framework for residents to engage in the planning process. This inclusivity ensures that a broader range of people can actively contribute to decision-making, leading to more equitable outcomes for all residents.

Implementation

The Department believes that this Ordinance will impact our current implementation procedures by reducing the time it takes to process building permit applications and new housing projects. Staff estimates that removing 311 Notification will speed up the process for additions and new construction permits by three to six months. Removing the Conditional Use process for the identified project types and the hearing requirement for State Density Bonus projects will reduce processing time by six to nine months. The amendments that standardize and rationalize the Planning Code's building standards will also make Planning Code implementation more straightforward and efficient.

Recommendation

The Department recommends that the Commission *approve* the proposed Ordinance and adopt the attached Draft Resolution to that effect.

Basis for Recommendation

The Department supports the goals of this ordinance because it will implement several recently adopted Housing Element Policies and Implementation Programs and it aims to streamline housing production in San Francisco. These changes will aid the City's efforts to build 82,000 units in the next eight years, as mandated by state law. By removing arbitrary processes for height and lot development, the proposed ordinance will not only save time but also bring predictability to the planning process. The amendments to Section 317 refresh an outdated process based on subjective criteria and establish a standard for the types of housing projects that we want to encourage. The removal of 311 neighborhood notice requirements provides applicants with code-compliant projects greater predictability by reducing processing time and the subjective nature of the Discretionary Review process. These changes also free up staff time to focus on more impactful housing projects. The standardization and rationalization of the Planning Code's building standards also help streamline the review process and provide more flexibility to applicants in meeting code requirements. A simplified Planning Code also makes it easier for more people to participate in the planning process. Overall, the proposed ordinance will significantly reduce the time required for housing permits to navigate through the planning process.

Importantly, the ordinance also establishes the Priority Equity Geographies Specific Use District (SUD). This SUD maintains existing neighborhood notification and dwelling unit demolition controls. It can also be utilized in the future to implement zoning changes tailored to serve the specific needs of the communities residing in those areas. This approach prioritizes programs that stabilize communities and meet community needs.

Required Commission Action

The proposed Ordinance is before the Commission so that it may approve it, reject it, or approve it with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Public Comment

As of the date of this report, the Planning Department has not received any public comment in support or opposition to the proposed ordinance; however, the Department has received several inquiries about the proposed ordinance and requests to continue the ordinance from its June 15 hearing date. The item has since been continued to June 29, and this case report is being published two weeks in advance of that date to allow more time for the community to digest its contents. The Department also sent out a one-page fact sheet to our neighborhood groups lists, which is attached as Exhibit D. The Department is also in the process of conducting outreach meetings related to Housing Element implementation. As part of those meetings, Staff will also be highlighting the changes proposed under this ordinance and Supervisor Melgar's proposed Family Housing Opportunity SUD.

HOUSING FOR ALL LEGISLATION: SIMPLIFYING HOUSING APPROVALS

Mayor London Breed and Supervisors Joel Engardio and Matt Dorsey have introduced legislation (File #230446) to allow for faster and more straightforward housing approvals. The legislation will eliminate unnecessary processes, standardize zoning requirements to make them more consistent and predictable, and boost incentives for new affordable housing.

Photo: iStock / Rawpixel

This proposal is part of the Mayor's [Housing for All](#) Plan, which is the City's effort to make San Francisco a more affordable place for people to call home. The plan allows for 82,000 new homes to be built over the next eight years, of which, over half are slated to be affordable. This legislation follows through on commitments made in the City's Housing Element, which was unanimously approved by the Board of Supervisors in January. This legislation is a critical step towards enacting the Housing Element's ambitious housing goals and meeting the City's obligations under state law.

Overview

This legislation focuses on three key areas:

- 1 **Eliminate unnecessary hearings** for projects that comply with existing local or State standards. By eliminating unnecessary process, this legislation will provide greater certainty and reduce approval timelines for code compliant housing projects by **3 to 9 months or more**. It would also save at least **300 hours** of Planning Department staff time per month, which can be re-focused to support the Department's core permitting and long-range planning functions.
 - **Development on large lots.** Eliminate Conditional Use hearings ("CU") for construction on larger parcels, making it easier to build more homes where they are already allowed.
 - **Height.** Eliminate CU hearings for height in districts where hearings are currently required. Importantly, this change would not alter existing height limits but instead would eliminate unnecessary process for projects that comply with those limits.
 - **Accommodation for disabilities.** Eliminate Zoning Administrator hearings for reasonable accommodations under the Americans with Disabilities Act and instead allow administrative review.
 - **Demolitions and Increased Density.** Eliminate CU for projects that add housing units but would demolish existing vacant, non-historic single-family or two unit building that has not had a no-fault eviction in the past 5 years. These CU's would only be eliminated outside of the City's Equity Geographies.
 - **Neighbor-vs-neighbor hearings.** Eliminate mailed notification for code-compliant housing projects to minimize "Discretionary Review Hearings", which currently require the Planning Commission to resolve intra-neighbor disagreements over projects that comply with the City's development standards. Mailed notice – and an appeal opportunity - will still be provided to potentially affected neighbors through the existing building permit process.
 - **State Density Bonus hearings.** Eliminate purposeless hearings for projects using the State Density Bonus given that State law prevents the Planning Commission from denying or modifying a State Density Bonus project.

2 Ease out-dated zoning requirements and geographic restrictions that limit the form and location of new housing.

- **Senior housing.** Eliminate CU for senior housing that is located more than ¼ mile from a Neighborhood Commercial District, expanding opportunities for senior housing citywide.
- **Shelters.** Allow homeless shelters in low-density and industrial neighborhoods, consistent with the City’s current shelter policies and State requirements that shelters be allowed Citywide.
- **Group housing.** Without changing height or bulk limits, allow group housing in single-family zoning districts so long as projects do not use the State Density Bonus.
- **Home-based businesses.** Allow up to two employees at home-based businesses who do not also live in the home. For example, a person running an accountancy or caterer out of their home would be able to employ two outside employees.
- **Open space.** Ease arbitrary square footage requirements for balconies and inner courtyards while preserving basic open space requirements.
- **Ground floor uses.** Specify that the City’s requirement for ground floor “active uses” includes laundry, lobby, mail, and bike rooms, to provide the flexibility to accommodate necessary amenities and reduce residential building construction costs.

3 Expand incentives to enhance the City’s affordable housing supply.

- **Remove restrictions on HOME-SF.** Bolster San Francisco’s local density bonus program by eliminating restrictive eligibility criteria to make the program more competitive with the State Density Bonus program.
- **Impact fees for affordable housing.** Allow a fee waiver for all affordable housing projects that use the State Density Bonus, including workforce housing projects, to encourage more projects and better recognize the importance of affordable housing.

Next Steps

This legislation will be reviewed by the **Planning Commission at a public hearing on June 15, 2023**, where public comment is welcome in-person and via phone and videoconference. Hearing details will be available at sfplanning.org no later than June 9.

Exhibit E

	SB 9		Four-Plex Program	Proposed Family Housing Opportunity SUD		Proposed Constraints Reduction Ordinance
	Lot Split	No Lot Split		Lot Merger Development	Single Lot Development	
Where it applies	RH-1, RH-1(D), & RH-1(S)		ALL RH Districts	All RH-1 Districts within the Family Housing Opportunity SUD	All RH Districts and RM-1 Districts within the Family Housing Opportunity SUD	Exemptions to Section 317 and 311 only apply outside of the Priority Equity Geographies. All other changes are proposed city-wide or specified districts
Allowed Density	2 units on each new lot + ADUs if allowed by local Ordinance	2 units + ADUs	4 units on interior lots/ 6 units on corner lots	A merger of up to three lots and the construction of at least six units but no more than eight units on a two-lot merger or at least nine units but no more than 12 dwelling units on a three-lot merger.	The construction, including the alteration of an existing structure, of at least two and no more than four dwelling units on a single lot, or up to one unit per 1,000 square feet of lot area, whichever is greater (inclusive of any existing dwelling units on the site). Up to one unit may be detached in the rear yard.	N/A, does not amend density.
Group Housing	N/A	N/A	N/A	A Single-Lot project and a Lot-Merger project may also propose the construction of up to one Group Housing bedroom per 415 square feet of lot area or currently permitted under the Planning Code, whichever is greater.		Permits Group Housing as part of the Fourplex program in RH-1 zoning Districts, and removes the CU requirement in RH-2 and RH-3 Districts
Height	Existing Height Limit	Existing Height Limit	Existing Height Limit	Maximum 40' in height and 20' for units in the required rear yard.		N/A, does not change existing height limits
Minimum Lot Size	1,200 sq. ft. for each new lot (2,400 sq. ft. total) and at minimum 40% and 60% of original lot size	No minimum lot size required	Standard Lots Size (2,500 sq. ft.)	N/A	Projects proposing a rear yard unit must be at least 2,400 sf	Changes minimum lot size to 1,200 sq. ft. and lot width to 20' city-wide
Open Space Requirement	Existing Code Requirement	Existing Code Requirement		For Lot Merger projects and Single-Lot projects proposing a rear yard unit: Open space requirements for each unit on the property shall be at least 100 square feet for private, and 133 square feet if common		The ordinance does not alter open space requirements; however, it does amend the minimum dimension requirements for open spaces to enhance compliance feasibility
Owner Occupancy Requirement	Owner must sign a statement of intent to occupy the property 3 years post lot split approval.	No owner occupancy requirement either before or after project submittal.	Applicant must have owned the property for at least one year	Applicant must have owned property for at least one year		Proposes to remove the owner occupancy requirement in the Fourplex program.
Required Rear Yard Setback	Existing Code requires a 4-foot setback; however any Code standard can be waived if they prohibit construction of two, 800 sqft units.		30% for projects providing at least 4 dwelling units, or 15ft (whichever is greater)	30% but not less than 15 feet	30% but not less than 15 feet, 25 feet of separation between buildings when proposing a detached rear yard unit	30% in all RH Districts and in RM-1 and RM-2 Districts. All other zoning districts would be 25%.
Unit Proportionality	For units within the same building, the second unit must be at least 800 sqft		At least one of the dwelling units resulting from the density exception shall have two or more bedrooms or shall have a square footage equal to no less than 1/3 of the floor area of the largest unit on the lot.	None		N/A
Increase Density	Must net at least one new unit.			Requires at least six units for a two-lot merger and at least nine units for a three-lot merger	Must add at least one unit	To be eligible for 317 exemptions, the project must net at least one unit.

Eligibility	1) Has not been tenant occupied for at least 3 years prior to filing the application (could be owner occupied or vacant) 2) Will not demolish a rent-controlled unit, or a unit with an Ellis Act eviction within the last 15 years 3) Is not a Historic Resource under Article 10 or in a Historic District		May not also seek or receive a density bonus under Sec. 206.5 or 206.6	To be eligible for the program: 1) Not combined with the State Density Bonus or HOME-SF programs; 2) Not proposed on a property resulting from a lot-split under Senate Bill 9; 3) Contains at least two dwelling units with two or more bedrooms (not applicable to Group Housing); 4) Does not propose the demolition of a known historic building; 5) Complies with Code and applicable design guidelines and strives for consistency with the Residential Design Guidelines (RDGs); 6) Complies with Senate Bill 330 unit replacement requirements for protected units; 7) The project sponsor needs to have owned the property for one year prior to application submittal; and 8) Includes more dwelling units than are existing on the site at the time of application (Group Housing projects need to provide at least as many bedrooms as the project would demolish). 8) No more than two rent controlled units are demolished and units to be demolished are not tenant occupied and have not had a history of evictions (Admin Code 37.9(a)(8-12) or (14-16))for the past 5 years	To be eligible for 317 exemptions: 1) The units to be demolished are not tenant occupied and are without a history of evictions under Administrative Code Sections 37.9(a)(8)-(12) or 37.9(a)(14)-(16) (aka No-Fault Evictions) within last 5 years. 2) No more than two units that are required to be replaced per subsection (E) below would be removed or demolished. 3) The building proposed for demolition is not an Historic Building as defined in Section 102; 4) The proposed project is adding at least one more unit than would be demolished; and 5) The project complies with the requirements of Section 66300(d) (aka SB 330, replacement relocation and first right-of-refusal) of the California Government Code, as may be amended from time to time, including but not limited to requirements to replace all protected units, and to offer existing occupants of any protected units that are lower income households relocation benefits and a right of first refusal for a comparable unit, as those terms are defined therein.
Rent Control	No	No	Applies to units over base density	Applies to units over base density	N/A
317	No		Yes	No	No, only if the project meets specific criteria and not located within the Priority Equity Geographies
311	No		Yes	No	No, only if the project is outside of the Priority Equity Geographies
Design Guidelines	Objective Design Standards		Residential Design Guidelines	Residential Design Guidelines	Residential Design Guidelines
CEQA Review	No		Yes	Yes	Yes
Condo Conversion	Depends on project		Eligible for condo conversion process if retaining an existing unit(s) and project sponsor resides in one unit for at least 3yrs post construction	Not eligible for condo conversion if there is a history of no-fault eviction.	N/A

June 16, 2023

San Francisco Planning Commission
City and County of San Francisco
49 South Van Ness Avenue
San Francisco, CA 94103

Dear Commissioners:

RE: Constraints Reduction (AKA Housing Production) Ordinance – Letter of Support and Technical Assistance

The California Department of Housing and Community Development (HCD) understands that the Planning Commission will soon hold a public hearing to consider a proposed “Constraints Reduction Ordinance” (Ordinance), as released to the public on June 15, 2023. The purpose of this letter is to express HCD’s support for the Ordinance and provide technical assistance to the City and County of San Francisco (City) in making a decision on this Ordinance.

The Ordinance would amend the Planning Code to remove some constraints to housing production as a step towards implementing the City’s adopted housing element, in compliance with State Housing Element Law.¹ Moreover, the proposed revisions would better align the Planning Code with the goals of State Density Bonus Law² and Affirmatively Furthering Fair Housing (AFFH).³

Background

California’s Statewide Housing Plan calls for the state to act with urgency to address homelessness and housing need.⁴ California needs an additional 2.5 million homes, one million of which must be affordable to lower-income households, over this eight-

¹ Gov. Code, § 65585

² Gov. Code, §§ 65915-65918

³ Gov. Code, § 8899.50

⁴ Department of Housing and Community Development. “A Home for Every Californian: 2022 Statewide Housing Plan Update.” *Statewide Housing Plan*, Mar. 2022, available at <https://statewide-housing-plan-cahcd.hub.arcgis.com/>.

year regional housing needs allocation (RHNA) cycle.⁵ San Francisco's 6th cycle RHNA is 82,069 units.⁶

State Housing Element Law acknowledges that, in order for the private market to adequately address the housing needs and demand of Californians, local governments must adopt plans and regulatory systems that provide opportunities for, and do not unduly constrain, housing development.⁷ HCD is responsible for reviewing the housing elements of all cities and counties in California for compliance with State Housing Element Law.⁸ Once HCD finds an adopted housing element to be in compliance with State Housing Element Law, the jurisdiction must work towards implementing the housing element. If HCD finds that a local jurisdiction has failed to implement a program included in the housing element, HCD may, after informing the local jurisdiction and providing a reasonable time to respond, revoke its finding of compliance until it determines that the jurisdiction has come into compliance.⁹

According to Annual Progress Report data provided by cities and counties, San Francisco has the longest timelines in the state for advancing housing projects to construction. The City also has among the highest housing and construction costs, and HCD's Housing Accountability Unit has received more complaints about San Francisco than any other local jurisdiction in the state. Last year, HCD announced its San Francisco Housing [Policy and Practice Review](#) to assess how the City's processes and political decision-making delay and impede the creation of housing at all income levels – and to provide recommendations to address these barriers. In addition, after providing significant technical assistance to the City, including on the development of robust programs to facilitate housing production at all income levels, on February 1, 2023, HCD found the City's adopted housing element in compliance with State Housing Element Law.

HCD also committed to working with San Francisco to identify and clear roadblocks to construction of all types of housing and has actively engaged with City staff as they have worked towards this goal over the past year through both the Policy and Practice Review and the City's housing element. Approving this ordinance would mark an important first step towards both facilitating the construction of housing and implementing the adopted housing element.

⁹ Gov. Code, § 65585, subd. (i)(1)(A)-(B)

Proposed Ordinance and Housing Element Implementation

HCD's determination that the City's adopted housing element complies with State Housing Element Law was based in substantial part on the City's programmatic commitments to amend the Planning Code in a way that would reduce discretionary and procedural processes, standardize zoning and land use requirements, permit group housing broadly throughout the City, and increase financial feasibility for housing projects. The proposed changes in the Ordinance would fully or partially satisfy some of the housing element's commitments (set forth as Actions) ahead of the timeframes provided in the housing element, including, but not limited to the following:

- Reduce discretionary processes and neighborhood notification requirements for certain code-compliant housing projects (**Action 8.4.17**), including requests for Reasonable Accommodation (**Action 6.3.10**), such as:
 - Allowing all Reasonable Accommodation Requests to be processed without a hearing in front of the Zoning Administrator (Planning Code Section 305.1)
 - Removing neighborhood notification requirements and requests for discretionary review for projects that will demolish, construct, or alter dwelling units outside of the Priority Equity Geographies Special Use District (Planning Code Section 311)
- Remove Conditional Use Authorization (CU) requirements for the following conditions in housing projects (**Actions 8.4.8, 8.4.9, and 8.4.10**):
 - Buildings taller than 40 feet (Planning Code Section 209.1) and 50 feet (Planning Code Sections 132.2 and 209.2)
 - Buildings that previously required CU after a certain height or a setback after a certain height (Planning Code Sections 253-253.3)
 - Residential projects on large lots in all RH zoning districts at densities based on the square footage of the lot (Planning Code Section 209.1)
 - Demolition of residential units meeting certain criteria outside of the Priority Equity Geographies Special Use District (Planning Code Section 317)
- Permit group housing broadly throughout the City and streamlining approvals for group housing projects (**Actions 7.2.6**), including:
 - Modifying the definition of a "dwelling unit" to allow employee housing for up to six employees in alignment with Health and Safety Code section 17021.5 (Planning Code Section 102)
 - Principally permitting group housing in all zoning districts (at one unit per 415 square feet of lot area in all districts other than the RH-1 zoning district, where group housing is allowed subject to the fourplex bonus program controls) (Planning Code Section 209.1)
- Remove Planning Commission hearings for program-compliant State Density Bonus projects (**Action 8.5.2**), including:

- Exempting Individually Requested State Density Bonus projects from other underlying entitlements related to the proposed housing, such as a CU or a Large Project Authorization (Planning Code Section 206.6)
 - Allowing the Planning Director to approve requests for a concession, incentive, waiver, or modification made for an Individually Requested State Density Bonus project (Planning Code Section 206.6)
- Modify the requirements for the HOME-SF program and entitlement process (**Action 7.2.9**), including:
 - Eliminating environmental criteria such as historic resource, shadow, and wind for qualifying HOME-SF projects (Planning Code Section 206.3)
 - Allowing for demolition of up to one unit for HOME-SF projects (Planning Code Section 206.3)
- Standardize and simplify Planning Code requirements for housing developments (**Actions 8.3.3 and 8.4.11**), including:
 - Standardizing the minimum lot size to 1,200 square feet and lot width to 20 feet (Planning Code Section 121)
 - Allowing lot mergers in RTO zoning districts (Planning Code Section 121.7)
 - Ease exposure and open space requirements for inner courts (Planning Code Section 135)
- Increase financial feasibility for affordable housing projects (**Actions 1.3.9 and 8.6.1**), including:
 - Expanding the Impact Fee exemption to a housing project with units affordable up to 120 percent of the Area Median Income (Planning Code Section 406)
 - Allowing 100 percent affordable housing projects utilizing State Density Bonus Law to be eligible for Impact Fee waivers (Planning Code Section 406)

By implementing the above programs, as well as other Planning Code changes put forward in the Ordinance, the City can increase certainty of approval for a wider range of housing projects, thus reducing the risk associated with building housing in San Francisco. The City's adopted housing element acknowledges that this risk translates to higher housing costs, affirming that "regulatory code and permitting processes direct housing to respond to City priorities, and that the overall system can be simplified and more accessible, that community-led strategies support systematic approaches rather than project-by-project decision-making, and that the cumulative effect of complex entitlement and post-entitlement permitting is making the process uncertain and even more expensive."¹⁰ The Ordinance would begin to address various local roadblocks to housing approval and construction.

¹⁰ 2022 Update: San Francisco Housing Element, Page 133, Program 8: *Reducing Constraints on Housing Development, Maintenance, and Improvements*, available at <https://sfhousingelement.org/final-draft-housing-element-2022-update-clean>

A housing element is not a paper exercise – it is an enforceable commitment to the state that a city or county will take specific actions on specific timeframes over an eight-year period. The implementation of actions in the City’s housing element helps ensure compliance with State Housing Element Law, specifically the City’s obligation to “implement program actions included in the housing element....”¹¹ Recommending adoption of this Ordinance would represent an important step towards fulfilling the City’s obligations under State Housing Element Law, and would also further the laudable Goals, Objectives, and Policies around which the City’s housing element is centered.¹²

Conclusion

The State of California is in a housing crisis, and the provision of housing at all income levels is a priority of the highest order. HCD encourages the Planning Commission to recommend adoption of the Ordinance to the Board of Supervisors.

San Francisco’s work does not end here. Additional changes and actions may be necessary for the City to *fully* implement the programs specified in this letter, and further actions will be needed to implement other programs in the City’s housing element. HCD will continue to monitor the City’s progress towards housing element implementation, and to work with the City on addressing findings in the Policy and Practice Review.

HCD appreciates the challenges and various factors the City is considering in these important land use decisions and looks forward to following San Francisco’s progress towards housing element implementation. If you have any questions regarding the content of this letter or would like additional technical assistance regarding housing element implementation, please contact Dori Ganetsos at Dori.Ganetsos@hcd.ca.gov.

Sincerely,

Melinda Coy
Proactive Housing Accountability Chief

DATE: June 9, 2023

SUBJECT: LEGISLATION INTRODUCED

The Board of Supervisors' Land Use and Transportation Committee has received the following proposed legislation, introduced by Mayor Breed on June 6, 2023.

File No. 230446-2

Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Dear Chair Melgar and the Land Use and Transportation Committee,

Please find the attached letter from the Race & Equity in all Planning Coalition (REP-SF) regarding Legislative File #230446, "Planning Code, Zoning Map - Housing Production," which is on the Land Use and Transportation Committee agenda this coming Monday, September 18th.

Respectfully,
Jeantelle Laberinto
on behalf of the Race & Equity in all Planning Coalition

12 September 2023

Chair of the Land Use & Transportation Committee, Supervisor Melgar
Land Use & Transportation Committee Members, Supervisors Peskin and Preston
San Francisco Board of Supervisors

Re: Legislative File #230446, "Planning Code, Zoning Map - Housing Production"

Dear Land Use & Transportation Committee Chair Melgar and Supervisors Peskin and Preston:

The Race & Equity in all Planning Coalition of San Francisco (REP-SF), a coalition of more than 40 organizations citywide whose mission is to build a future with diverse communities, stable, affordable housing and equitable access to resources and opportunities, strongly urges the Land Use & Transportation Committee to make significant amendments to this legislation or reject it in favor of new legislation in order to focus on efforts to implement the Housing Element in a way that affirmatively furthers fair housing.

The Housing Element is a complex set of policies and implementing actions. REP-SF was encouraged when the Board of Supervisors and the State's Department of Housing and Community Development (HCD) approved the Housing Element in January, affirming that 57% of the housing San Francisco builds in the next eight years will be price restricted to be affordable for very-low, low and moderate income households. REP-SF was also encouraged that the approved Housing Element contained dozens of very strong implementing actions to build truly affordable housing, protect tenants and generally stabilize communities that have suffered from displacement for decades, and strengthen the voices of our low-income communities, communities of color, and Cultural Districts for self-determination to direct how our communities grow and develop.

Unfortunately, in the several months since the Board and the State approved the Housing Element, all of the implementing legislation that has been introduced has focused on bringing more market rate housing to San Francisco, and diminishing the amount of affordable housing that will be built. Cumulatively, these ordinances move San Francisco farther away from achieving outcomes for racial and social equity, violate San Francisco's legal obligation to affirmatively further fair housing, and violate [key provisions of the Housing Element \(attached as an addendum to this letter\)](#).

Approaching the current eight year Housing Element cycle with the same failed approach as the last Housing Element cycle will yield the same inequitable results - an overproduction of market

rate housing and under production of affordable housing. Currently, the only tangible effort to support affordable housing is an effort to bring a [\\$300 million bond](#) to San Francisco voters in 2024. Although our affordable housing goals have increased roughly three-fold, this proposed bond would only be half the size of the prior housing bond.

In order to comply with the Housing Element mandates for this new eight-year cycle, along with legal obligations to affirmatively further fair housing, San Francisco must take a different approach than it has taken in the past. REP-SF's [Citywide People's Plan](#) provides clear and concrete direction for how the City can meet its RHNA mandates while affirmatively furthering fair housing.

Many of the actions from REP-SF's Citywide People's Plan have been incorporated by Planning staff into the Housing Element's extensive set of implementing actions, but the "streamlining" or "reducing constraints" legislation that will be heard at the Board's Land Use Committee on September 18 moves our City in entirely the opposite direction with an approach that silences our communities, encourages demolitions and displacement, and provides no resources for affordable housing.

This letter details REP-SF's issues with the failures of this legislation to affirmatively further fair housing. One of those concerns is the potential impact on existing tenants and their increased vulnerability to displacement. This letter does not provide extensive detail about tenant-related concerns, because REP-SF relies on our member and partner, the SF Anti-Displacement Coalition (SFADC) to provide the Board with a detailed analysis of tenant concerns.

The Board of Supervisors can re-focus their efforts on the parts of the Housing Element that will lead to equitable outcomes and affirmatively further fair housing by significantly amending the Mayor's legislation or setting it aside in order to focus on new legislation that commits the City to implementing the Housing Element and affirmatively furthering fair housing.

REP-SF's Road Map for Housing Element Implementation

REP-SF demands that the Mayor's "streamlining" ordinance be amended significantly to incorporate the following equity provisions.

Truly Affordable Housing First

1. Nearly 57% of the housing to be built in the next eight years is supposed to be permanently affordable for very low to moderate income households, and in the past eight-year cycle, San Francisco fell short in its housing production for these income categories by more than 8,000 units. Despite these failings of San Francisco to affirmatively further fair housing by meeting its prior affordable housing production goals, and despite the fact that significantly more than half of the units in this next cycle must be affordable for households that are unable to afford market rate housing, none of the ordinances that have been proposed for Housing Element implementation provide any new policies or funding for affordable housing.

2. This legislation should be amended to contain a budget supplemental to commit significant new funding to affordable housing per Housing Element action 1.1.2: *"Include affordable housing investment needs in annual City budget process and Capital Planning process to identify existing housing funding sources, funding gaps and potential new funding sources, including regular general fund allocations that can be made as part of the budget process and local general obligation bonds or other funding sources that require voter approval."*
3. This legislation should be amended to contain a provision for identifying enough development sites and building acquisitions for San Francisco to meet its RHNA mandate for Very low, Low and Moderate income housing. This should be accompanied by a directive to aggressively purchase and land bank buildings and sites. Please refer to Housing Element action 1.2.2: *"Strategically acquire sites and identify targeted funding for land acquisition and banking for affordable housing throughout the city. This will include lots for consolidation that can accommodate permanently affordable housing of at least 50 to 100 units or more through publicly funded purchases, in balance with investment in affordable housing preservation and production and in strategic coordination with sites owned by religious, nonprofit, and public property owners. Prioritize sites of interest identified in coordination with American Indian, Black, and other communities of color. Consider sites that accommodate fewer than 50 units as additional affordable housing funding, financing, and operating approaches are secured."*
4. This legislation should also be amended to contain new fees charged to developers per Housing Element action 1.4.6: *"Utilize value capture from up-zonings to support large affordable housing developments in need of substantial repair or rehabilitation, to fund rebuilding and financial feasibility of existing affordable units for current residents while creating more affordable homes."*
5. Any additional reductions to the project review process could be considered for development proposals that meet the following criteria:
 - a. In order for any project of five units or more to qualify for streamlining, it must provide at least 57% of its units as below market rate, per the RHNA affordability levels.
 - b. In order for projects of four units or less to qualify for streamlining, these projects must provide two units of permanently affordable housing priced to be affordable for households earning no more than 80% of the neighborhood median income for the neighborhood in which the project is located.
 - c. All State Density Bonus projects and HOME-SF projects must provide at least 57% of their units as below market rate, per the RHNA affordability levels.

Community Voice and Expertise

1. REP-SF supports efforts to reduce the duration of project reviews and uncertainty in the process. REP-SF, however, [demands a process](#) that continues to put the voices and expertise of low income and communities of color out front in the approval process. This legislation in its current form would undermine the ability for low income and communities of color to have a voice in shaping how our communities develop and grow.

- a. REP-SF's demand for "streamlining" and "reducing constraints" to retain meaningful input and participation especially from low-income communities and communities of color is supported by Housing Element implementation action #8.4.21: *"Led by American Indian, Black, other communities of color, and Cultural Districts, explore options to support community engagement as part of ministerial review to simplify and shorten the approval process for housing projects citywide. All considered options must not add subjective constraints to the housing approval process and must reduce project approval timelines."*
- b. Developing new project approval systems that strengthen the ability for Cultural Districts, low income communities and communities of color to direct how our communities grow and develop is supported by Housing Element implementation actions 3.4.2; 4.1.1; 4.1.2; 4.1.4; 4.2.4; 4.2.5; 4.2.6; 4.4.2; 4.5.12; 5.2.4; 5.4.1; 6.1.3; 6.3.2 among others. In its current form, the Mayor's legislation undermines these Housing Element actions.

Mapping

1. This legislation establishes a Priority Equity Geographies (PEG) Special Use District. The boundaries of this PEG-SUD and the applications of new land-use policies and procedures are extremely problematic.
 - a. The PEG map is based on data compiled by the Department of Public Health in 2016. Not only is the data obsolete, DPH did not develop this dataset to be used for land use planning purposes. Additionally, the PEG data and its applicability to land use policy have never been informed by low income or people of color communities.
 - b. The PEG map leaves out many ["areas vulnerable to displacement based on Urban Displacement Project typologies"](#), and also is incompatible with the network of Cultural Districts across the City as it leaves out the Sunset Chinese Cultural District, Castro Cultural District, and portions of the Japantown Cultural District, American Indian Cultural District, Calle 24 Latino Cultural District, and African American Arts and Cultural District.
 - c. This legislation calls for certain types of noticing and project approval processes inside the PEG-SUD and different noticing and project approval processes outside the PEG-SUD. The PEG-SUD does not provide any protections for existing, vulnerable residents, or any new investments for affordable housing opportunities.
 - d. Additionally, other ordinances for Housing Element implementation that reduce impact fees and inclusionary housing requirements for market rate developers directly affect communities within the PEG-SUD by reducing impact fees and reducing affordable housing requirements for market rate developers.
2. REP-SF demands that if the concept of Priority Equity geographies is going to be used as a policy framework for land use changes, the PEG-SUD should be responsive to the following:
 - a. The legislation should be amended to expand the PEG-SUD with input from American Indian, Black and other people of color communities and low income

communities throughout the City. This re-mapping process should also include input from all Cultural Districts.

- b. Public noticing, anti-displacement and other community stabilization policies and procedures should be retained and strengthened within this newly mapped PEG-SUD.
 - c. Impact fees and inclusionary housing requirements should be restored to their current levels within the newly mapped PEG-SUD.
 - d. Significant new investments and resources for affordable housing should be made available for communities within the newly mapped PEG-SUD.
3. REP-SF's Citywide People's Plan calls for a shortened housing project review and approval process **citywide** per Housing Element action #8.4.21 (referenced above), rather than creating the problematic geographical distinction that this legislation proposes. [Attached](#) is a flow chart that summarizes how REP-SF's proposed review and approval process could work.
 4. The Well-Resourced Neighborhoods areas have been designated by the State as priority areas for investment in affordable housing development. San Francisco's Housing Element ignores this equity policy and instead targets the Well-Resourced Neighborhoods for increasing high-priced market-rate housing. In order to align the Housing Element with the State's mandate to affirmatively further fair housing, there must be prioritization of policies and resources for affordable housing in the Well-Resourced Neighborhoods.

REP-SF hopes that the Board of Supervisors will significantly amend this legislation so it affirmatively furthers fair housing and embraces the potential for San Francisco to implement our Housing Element in a way that truly centers equity. If it is not possible to amend this legislation, REP-SF hopes that the Board will reject this legislation and work with low income and people of color communities throughout the City to move forward legislation that implements the Housing Element in a way that prioritizes the Implementing Actions from the Housing Element that the Board approved that do promise to affirmatively further fair housing and center equity.

REP-SF looks forward to working with the Board of Supervisors and the Mayor's office on re-orienting the priorities of Housing Element implementation.

Respectfully submitted,

Jeantelle Laberinto
on behalf of the Race & Equity in all Planning Coalition

Addendum #1:**Housing Element Implementation Actions that Support Equitable Outcomes**

The Housing Element implementation actions listed below are a direct result of advocacy from REP-SF and our member organizations articulating a detailed set of strategies for developing nearly 47,000 new affordable housing units in eight years; and strengthening the voices and self-determination of communities of color and low-income communities to determine how our communities grow and develop.

The "Timeframes" as defined by Planning are as follows:

"Short" = 0 - 2 years; "Medium" = 3 - 5 years; "Long" = 6 - 8 years

Action # & Timeframe	Housing Element Category	Action Text
1.1.2 - Short	Affordable Housing Funding	Include affordable housing investment needs in annual City budget process and Capital Planning process to identify existing housing funding sources, funding gaps and potential new funding sources, including regular general fund allocations that can be made as part of the budget process and local general obligation bonds or other funding sources that require voter approval.
1.1.3 - Short, Ongoing	Affordable Housing Funding	Create a budgeting tool to track housing investments, including permanently affordable housing production, preservation, and housing services; including investments that advance community identified priority actions, per Action 4.1.3; tracking investments that advance racial and social equity, per Action 4.1.1 and achieve targets for investment in Well-resourced Neighborhoods as referenced in Action 1.2.1 and in Priority Equity Geographies.
1.1.11 - Medium	Affordable Housing Funding	Assess the City's capacity to finance a mixed-income and/ or mixed-use, social housing program.
1.1.14 - Short	Affordable Housing Funding	Explore expanding jobs-housing linkage fees to large employer institutional developments (medical and educational) who are currently not subject to jobs-housing linkage fees, in coordination with Action 1.1.12.
1.1.15 - Short	Affordable Housing Funding	Increase staffing at responsible agencies for analysts and community development specialists to implement expanded affordable housing programs in relation to increased funding and targets and to incorporate community strategies into the implementation of the Housing Element.
1.2.2 - Short	Affordable Housing Production	Strategically acquire sites and identify targeted funding for land acquisition and banking for affordable housing throughout the city. This will include lots for consolidation that can accommodate permanently affordable housing of at least 50 to 100 units or more through publicly funded purchases, in balance with investment in affordable housing preservation and production and in strategic coordination with sites owned by religious, nonprofit, and public property owners. Prioritize sites of interest identified in coordination with American Indian, Black,

		and other communities of color. Consider sites that accommodate fewer than 50 units as additional affordable housing funding, financing, and operating approaches are secured.
1.2.3 - Short	Affordable Housing Production	Prioritize land dedication, donation, or purchase of sites as a major strategy for securing affordable housing, including social housing and shared equity cooperatives, through partnerships with religious institutions, other philanthropic or private property owners, and non-profit developers, including ownership models referenced under Action 1.6.1.
1.2.4 - Short	Affordable Housing Production	Regularly track the pipeline of development sites and land banked for affordable housing development funded by OCII, MOHCD, and other relevant agencies, and develop strategies to ensure sufficient sites to accommodate affordable housing production relative to available funding over a rolling 4- to 8-year outlook and to meet the goals to construct housing in Priority Equity Geographies and Well-resourced neighborhoods per Action 1.2.1.
1.2.5 - Short	Affordable Housing Production	Develop a land acquisition process and program that permits inexpensive long-term leases for land developed with high affordability.
1.2.8 - Short	Affordable Housing Production	Prioritize support to neighborhood-based affordable housing developers, particularly those managed by American Indian, Black, and other communities of color. Partner with affordable housing developers to purchase privately owned entitled sites where construction may be stalling.
1.4.6- Short	Affordable Housing Preservation	Utilize value capture from up-zonings to support large affordable housing developments in need of substantial repair or rehabilitation, to fund rebuilding and financial feasibility of existing affordable units for current residents while creating more affordable homes.
1.4.7 - Short	Affordable Housing Preservation	Strengthen monitoring and enforcement of Below Market Rate units to avoid fraud and abuse of units and to unlock more units for those eligible and in need, through active enforcement of existing obligations, expedited leasing of new and turnover units, and completing the build out of the DAHLIA partners database.
1.5.1 - Medium	Deep Affordability and Rent Assistance for Lowest Income Renters	Increase production of housing affordable to extremely low and very low-income households and increase the share of units affordable to these households in affordable housing. This includes identifying and deploying operating subsidies necessary to serve these income groups.
1.5.2 - Short	Deep Affordability and Rent Assistance for Lowest Income Renters	Maximize the use of ongoing tenant-based rental assistance to expand eligibility for extremely and very low-income households who otherwise do not qualify for affordable units.
1.5.3 - Medium	Deep Affordability and Rent Assistance for Lowest Income Renters	Increase housing that is affordable to extremely low and very low-income households in Well-resourced Neighborhoods, as well as in Priority Equity Geographies and Cultural Districts, through City-funded permanently affordable housing projects.

1.5.4 - Short	Deep Affordability and Rent Assistance for Lowest Income Renters	Reduce severe cost burdens and increase stability for extremely low- and very low-income renters through ongoing rental assistance for qualifying vulnerable households, including people harmed by past government discrimination, seniors, people with disabilities, transgender people, and families with children, particularly those living in SROs.
1.5.5 - Short	Deep Affordability and Rent Assistance for Lowest Income Renters	Engage with target communities to determine needs and advocate for expanded tenant and building-based rental assistance programs at the federal and state and local levels to meet the needs of extremely and very low-income households and households with fixed incomes, such as seniors and people with disabilities, as also referenced in Actions 2.1.2, 3.2.1, 1.5.4.
1.7.1 - Short	Eligibility and Access for Affordable Housing	Identify racial, ethnic, and social groups who have been disproportionately underserved by MOHCD's Affordable Rental and Homeownership units and the underlying reasons why those groups are underrepresented in obtaining such housing. Previously identified groups include American Indian, Black, Latinos, and other people of color, transgender and LGBTQ+ people, transitional-aged youth, people with disabilities, senior households, and households currently living in SROs. This study can inform the housing portal and access points cited in Action 1.7.6.
1.7.4 - Short	Eligibility and Access for Affordable Housing	Identify and adopt local strategies and advocate for State legislation to remove barriers to access permanently affordable housing for immigrants or people who lack standard financial documentation such as credit histories, bank accounts, or current leases; and for transgender people whose documentation may need corrections not possible due to immigration status, and/or non-California state laws.
1.7.5 - Short	Eligibility and Access for Affordable Housing	Expand existing culturally responsive housing counseling to applicants of MOHCD Affordable Rental and Homeownership Opportunities through a network of community-based housing counseling agencies, in consultation with Cultural Districts, and as informed by the needs identified under Actions 1.7.1, 1.7.2, and 5.4.9. These programs include financial counseling, market-rate and below market rate rental readiness counseling, and other services that lead to finding and keeping safe and stable housing; expansion of such services should be in coordination with Actions 2.1.4 and 4.1.2.
1.7.7 - Short	Eligibility and Access for Affordable Housing	Identify new strategies to address the unique housing and service needs of specific vulnerable populations to improve housing access and security for each group, using the findings from the City's housing Consolidated Plans and through direct engagement of these populations. Studies should address the needs of veterans, seniors, people with disabilities, transitional-aged youth, transgender and LGBTQ+ populations.
1.7.8 - Short	Eligibility and Access for Affordable Housing	Evaluate increasing neighborhood preference allocation for Below Market Rate units in Priority Equity Geographies to better serve American Indian, Black, and other communities of color, if possible, per the Federal Fair Housing regulations, as informed by Policy 5 and related actions.
1.7.9 - Short	Eligibility and Access for	Create or expand programs to provide housing counseling, financial literacy education, and housing readiness to low-income American Indian, Black and

	Affordable Housing	other people of color households who seek housing choices in Well-resourced Neighborhoods by 2024, and provide incentives and counseling to landlords in Well-resourced Neighborhoods to offer units to low-income households. Consider similar incentives referenced in Action 8.4.16.
1.7.10 - Medium	Eligibility and Access for Affordable Housing	Expand housing for transitional-aged youth in permanently affordable housing, integrated with supportive programs that address their unique needs such as a past criminal record, substance abuse, sexual orientation, gender identity, or other specific needs, as informed by the strategies referenced in Action 8.7.3.
1.7.11 - Short	Eligibility and Access for Affordable Housing	Study and identify programs, geographies, and building types that respond to the needs of recently arrived immigrants to inform permanently affordable housing investments in the neighborhoods in which they initially settle, such as Chinatown, the Tenderloin, the Mission, Cultural Districts, and other gateway neighborhoods.
2.1.1 - Short	Eviction Prevention and Anti-displacement	Fund the Tenant Right-to-Counsel program to match the need for eviction defense.
2.1.2 - Short	Eviction Prevention and Anti-displacement	Provide a priority in the allocation of direct rental assistance to vulnerable populations and in areas vulnerable to displacement. Geographies will be updated based on most up-to-date data and analysis. Assess rental assistance need for these groups and allocate additional funding secured by Action 1.1.1.
2.1.3 - Medium	Eviction Prevention and Anti-displacement	As informed by Action 2.1.4 and in coordination with community liaisons referenced under Action 4.1.2, support and expand community-led navigation services and systems to provide tenants' rights education and support and expand other related programs such as the existing culturally competent Code Enforcement Outreach Program that is offered within the Department of Building Inspection.
2.1.4 - Short	Eviction Prevention and Anti-displacement	Increase funding to expand the services of community-based organizations and providers for financial counseling services listed under Action 1.7.5, as well as tenant and eviction prevention services listed under Program 2, to better serve vulnerable populations, populations in areas vulnerable to displacement, and Cultural Districts. Tenant and eviction protection services include legal services, code enforcement outreach, tenant counseling, mediation, and housing-related financial assistance; expansion of such services should be informed by community priorities referenced under Action 4.1.3. Complete by completion of Rezoning Program or no later than January 31, 2026.
2.1.5 - Short	Eviction Prevention and Anti-displacement	Provide adequate legal services to support eviction prevention including support for rent increase hearings, habitability issues, or tenancy hearings with the Housing Authority.
2.1.6 - Medium	Eviction Prevention and Anti-displacement	Expand on-site case management services that focus on removing barriers to housing stability to support non-profit housing providers in preventing evictions of their tenants.
2.1.7 -	Eviction	Expand housing retention requirements to prevent evictions and support tenants

Short	Prevention and Anti-displacement	of non-profit affordable housing. Allocate additional funding needed to support these functions and staff in non-profit organizations.
2.1.8 - Medium	Eviction Prevention and Anti-displacement	Develop a system to respond to housing transfer requests, especially in affordable and supportive housing, and monitor their potential as a housing retention and eviction prevention strategy.
2.2.1 - Short	Tenant Protections	Implement the digital Rental Housing Inventory to collect data that informs the evaluation of anti displacement programs, including rental rates, rent control status, vacancy, and services provided.
2.2.2 - Short	Tenant Protections	Increase relocation assistance for tenants experiencing either temporary or permanent evictions, including increasing the time period during which relocation compensation is required for temporary evictions from three to six months. Explore options to ensure long-term affordability of low-income tenants who return to their units.
2.2.4 - Short	Tenant Protections	Pursue proactive and affirmative enforcement of eviction protections programs, especially for Owner Move-in and Ellis Act evictions, including annual reporting by owners that is enforced by site inspections and confirmation of owner occupancy, funded through owner fees.
2.2.6 - Medium	Tenant Protections	Advocate for State legislation to reform the Ellis Act (Government Code Chapter 12.75) to stabilize rental housing by, for example, imposing a minimum holding period of five years before the Act can be used to evict tenants.
2.2.7 - Medium	Tenant Protections	Advocate for State legislation to reform the Costa-Hawkins Housing Law to allow cities to better stabilize tenants by, for example, allowing cities to extend rent control to multifamily housing that is at least 25 years old. Assign City staff to lead this task.
2.2.8 - Short	Tenant Protections	Increase fines and enforcement for illegally preventing SRO residents from establishing tenancy by forcing short-term stays.
2.2.9 - Short	Tenant Protections	Collaborate with HCD and the State legislature to clarify expectations and advocate for changes for tenant protections and community anti-displacement based on recent legislation.
2.3.1 - Short	Acquisitions and Rehabilitation for Affordability	Prioritize and expand funding for the purchase of buildings, including those with chronically high residential vacancy, underutilized tourist hotels, and SRO residential hotels, for acquisition and rehabilitation programs that serve extremely low to moderate-income households, including unhoused populations.
2.3.2 - Medium	Acquisitions and Rehabilitation for Affordability	Identify SRO residential hotels in advanced states of disrepair, particularly those owned by nonprofits and/or master-leased by the City as supportive housing, for rehabilitation and repair with public and/or philanthropic assistance. Explore cost-effectiveness of acquisition and demolition of severely deteriorated SROs and rebuilding as Permanent Supportive Housing, if it is cheaper than rehabilitation, allowed by planning code, and meets requirements for tenant relocation during construction and right to return for tenants.

2.3.3 - Short	Acquisitions and Rehabilitation for Affordability	Increase non-profit capacity-building investments, particularly for American Indian, Black, and other community organizations of color, to purchase and operate existing tenant-occupied buildings as permanent affordable housing in Well-resourced Neighborhoods, particularly for populations at risk and in areas vulnerable to displacement, to expand implementation of the Community Opportunity to Purchase Act (COPA).
2.3.4 - Short	Acquisitions and Rehabilitation for Affordability	Evaluate the feasibility of utilizing the Small Sites program to increase shared equity or cooperative ownership opportunities for tenants. This study would also inform expansion of shared equity homeownership models cited in Actions 5.4.6 and 1.6.1.
2.3.5 - Medium	Acquisitions and Rehabilitation for Affordability	Incentivize private owners to sell residential buildings to non-profit affordable housing developers via transfer tax exemptions or other financial measures.
2.4.1 - Short	Preserving Rental Unit Availability	Implement recently voter-approved vacancy tax for residential units that stay empty for over 6 months on owners of properties with at least three residential units. Explore additional legislation to tax other unit types and vacancies, such as units used as secondary or vacation homes.
2.4.2 - Short	Preserving Rental Unit Availability	Explore regulatory paths, including a tax or other regulatory structures, to discourage short term speculative resale of residential units, particularly those which seek to extract value out of evicting tenants, or rapid reselling to more lucrative markets.
2.4.3 - Short, Ongoing	Preserving Rental Unit Availability	Continue to improve compliance, enforcement, and restrictions on intermediate-length occupancy dwelling units. Explore tracking and publishing data on short-term rentals on the Rental Housing Inventory.
2.4.4 - Short	Preserving Rental Unit Availability	Increase fines and enforcement for illegally converting SROs to new uses.
3.4.2 - Medium	Supportive Housing	Increase funding needed to meet the targets set in Action 3.4.1, in balance with funding needed for the other actions to reduce homelessness, including short and long-term rental subsidies, temporary shelter and targeted homelessness prevention.
4.1.1 - Short	Accountability	Develop and align citywide metrics that measure progress towards positive outcomes for American Indian, Black, and other people of color, and other disadvantaged communities resulting from housing policies using methods consistent with the San Francisco Equity Index prepared by the Office of Racial Equity. These metrics will be part of the Monitoring Program in Action 8.1.9 and will include affordable housing placement, displacement mitigation measures, and homeownership rates.
4.1.2 - Short	Accountability	Identify and fund liaisons within key City agencies such as MOHCD and Planning to support the housing needs and priorities of American Indian, Black, and other people of color, and other disadvantaged communities; such liaisons should provide regular check-ins with the community at centralized community spaces and reporting on housing programs and Housing Element implementation

		progress.
4.1.3 - Short	Accountability	Identify priority actions in the Housing Element Implementing Programs that respond to the needs of American Indian, Black, and other people of color, and other disadvantaged communities, through collaboration with Cultural Districts or other racial and social equity-focused community bodies such as the Community Equity Advisory Council or the African American Reparations Committee. Report back to communities on the progress of those priority actions and update prioritization annually.
4.1.4 - Short	Accountability	By January 31, 2023, establish an interagency Housing Element implementation committee. This committee should meet with members of racial and social equity focused bodies as cited in Action 4.1.3, to inform the City's budget and work program on housing equity. The committee would be responsible for creating a Monitoring Program described in Action 8.1.9, developing an affordable housing strategy, reviewing the City's annual affordable housing funding budget, and reporting progress measured in Actions 8.1.9, 4.1.1 and 4.1.3 to the Planning Commission and Mayor's Office and for identifying financial or legal challenges to progress.
4.1.5 - Short	Accountability	Monitor and shape housing investments, including permanently affordable housing production, preservation, and housing services, using the affordable housing funding and investment tracking cited in Action 4.1.1 so that resource allocation is accountable to the community priority actions identified in Action 4.1.3.
4.1.7 - Medium	Accountability	Continue racial and social equity and displacement analysis to target levels of investments that prevent community displacement through increased permanently affordable housing production, equitable access to housing, and other community stabilization strategies for vulnerable populations. This will include a triennial progress report on the displacement of population by income, race, and geography in relation to existing community stabilization programs and production of affordable housing.
4.1.9 - Short	Accountability	Develop and require community accountability measures, including notification and engagement of residents, when building housing on environmentally contaminated sites.
4.2.1 - Short	Community Planning	Develop and implement community outreach and engagement strategies that center racial and social equity and cultural competency to be used by Planning Department staff as well as developers or community groups.
4.2.4 - Medium	Community Planning	Implement the upcoming housing strategies recommended by the African American Reparations Advisory Committee.
4.2.5 - Short	Community Planning	Support the development and implementation of community-led plans in the Tenderloin, the Fillmore, the Mission, Sunset and all Cultural Districts through their CHHESS reports. These community plans, reports, and boards will guide priorities and investments in their neighborhoods.
4.2.6 -	Community	Identify and adopt zoning changes that implement priorities of American Indian,

Medium	Planning	Black, Filipino, Latino(a,e), and other communities of color identified in Cultural Districts or other community-led processes within Priority Equity Geographies.
4.2.11 - Medium, Ongoing	Community Planning	Simplify language used in project notifications and hearing notices with the aim of clearly communicating a project's proposal or the topic of the hearing. Pursuant to the Language Access Ordinance, continue to provide translation services at commission hearings and for hearing agendas and minutes upon request. Aim to translate at least crucial portions of notifications, such as the project descriptions or hearing topics, into languages that comprise 5% or more of the total city population.
4.4.2 - Short	Cultural Districts	Update the Planning Code and Planning Department protocols where necessary to reflect strategies developed in Action 4.2.1, this includes updating Planning Department requirements to require project sponsors to engage with interested Cultural Districts to allow these communities to provide input upon initiation of a project application and to allow the project sponsor adequate time to address the input through dialogue or project revisions.
4.4.4 - Medium	Cultural Districts	Ensure Cultural Districts and their CHHESS reports guide culturally supportive housing developments, affordable housing investments, and neighborhood investments in coordination with Program 5.2.
4.5.1 - Short	Cultural Heritage and Expression	Improve consultation with local Native Ohlone representatives, including the Association of Ramaytush Ohlone representatives, and American Indian residents in policy development and project review regarding tribal and cultural resource identification, treatment, and management while compensating them for their knowledge and efforts. Improvements should include commissioning the development of community-led, culturally relevant guidelines for identifying and protecting tribal and cultural resources and identifying funding sources for cultural resource identification, treatment and management.
4.5.5 - Short	Cultural Heritage and Expression	Designate historically and culturally significant buildings, landscapes, and districts for preservation using the Citywide Cultural Resource Survey, Planning Code Articles 10 and 11, and state and national historic resource registries to ensure appropriate treatment of historic properties that are important to the community, with a focus on those that are important to American Indian, Black, Japanese, Filipino, and other communities directly harmed by discriminatory government actions, and to unlock historic preservation incentives for more potential housing development sites.
4.5.12 - Short	Cultural Heritage and Expression	Consider the effects on housing in balance with the Planning Department's racial and social equity goals for any recommendation of approval, disapproval, or modification of landmark designations or historic district designations, or approval of substantive new review processes or requirements for historic resources.
5.1.6 - Long	Truth-telling and Acknowledging Past Harm	Report on the cumulative impacts to San Francisco's American Indian, Black, and other communities of color resulting from discriminatory practices and government actions as understood from the studies called for in Program 5.1 and Actions 5.1.1 through 5.1.5 to present a holistic view of the harms incurred and redress the harms comprehensively. Provide annual updates on new displacement trends and patterns and expand resources and programs to

		reverse negative trends.
5.2.1 - Short	Cultural Investment and Restitution	In recognition of the dispossession of American Indians of their ancestral lands, identify opportunities to give land back for traditional cultural and ceremonial uses and to invest in spaces for the American Indian community to participate in traditional cultural practices and convene community gatherings.
5.2.2 - Short	Cultural Investment and Restitution	In recognition of the disproportionate loss of Black residents from San Francisco in recent decades resulting in part from a culmination of discriminatory government actions, identify opportunities to donate or dedicate land for use or development by Black-led, community-serving organizations.
5.2.3 - Short	Cultural Investment and Restitution	Fund the development and implementation of community-led strategies in Cultural Districts to retain and grow culturally associated businesses and services that attract residents back to the area.
5.2.4 - Short	Cultural Investment and Restitution	Recognize spaces of cultural importance identified by American Indian, Black, Japanese, Filipino, and other communities directly harmed by discriminatory government actions in community planning and regulatory review for development projects, consult them in decisions affecting those spaces, and direct resources towards their preservation and management.
5.2.5 - Medium	Cultural Investment and Restitution	Fund the development of cultural spaces that serve communities harmed as described under Program 5.2, using potential new funding sources such as the mitigation fund referenced under Action 4.5.4 or community facilities fees.
5.2.6 - Short	Cultural Investment and Restitution	Prioritize businesses and non-profit organizations associated with American Indian, Black, Japanese, Filipino, and other communities directly harmed by discriminatory government actions for grant funding and technical assistance through the Legacy Business Program.
5.3.1 - Medium	Fair Housing Compliance and Enforcement	Evaluate and identify common cases of discrimination and violation of fair housing law and groups who continuously face such discrimination, including transgender and LGBTQ+, or people with disabilities, and implement solutions to strengthen enforcement of fair housing law in those cases.
5.3.2 - Short	Fair Housing Compliance and Enforcement	Amend the City's Fair Chance Ordinance to incorporate best practices to expand housing access for people with criminal records to privately owned units, Housing Choice Voucher units, and other federally funded units.
5.3.3 - Short	Fair Housing Compliance and Enforcement	Create and expand incentives for private landlords to use rental assistance programs (e.g., Housing Choice Vouchers) to rent their units to extremely and very low-income households. Incentives could include covering lease up fees, rent payment during the inspection period, providing tenant support for housing retention, and covering unit damage upon separation, as well as establishing a fund to support these incentives.
5.4.1 - Short	Housing Programs to Redress Harm	Prioritize American Indian residents for housing opportunities to redress the historic dispossession of resources affecting these communities, such as by the Indian Relocation Act, and other government actions that broke the cohesion of this community.

5.4.2 - Medium	Housing Programs to Redress Harm	Establish pilot and permanent programs that offer homeownership opportunities targeted to Black households harmed through redlining or urban renewal or other forms of systemic racism related to housing, including Black individuals and their descendants who hold Certificates of Preference from the urban renewal period, as referenced in Actions 5.4.8 and 5.4.9. Building on the Dream Keeper initiative, such programs should include silent second loans or grants for down payment assistance, as well as other financial assistance to reduce income eligibility as a barrier to access homeownership opportunities.
5.4.4 - Short	Housing Programs to Redress Harm	Target increased investment in the Down Payment Assistance Loan Program to American Indian, Black, Japanese, Filipino, and other communities directly harmed by redlining or urban renewal or by other discriminatory government actions.
5.4.5 - Medium	Housing Programs to Redress Harm	Implement right to return legislation for residents of public housing including opportunities to those previously displaced.
5.4.6 - Medium	Housing Programs to Redress Harm	Pursue expanding and modifying the shared equity homeownership and land trust models to address their effectiveness and scalability, including capacity and expertise of community-based organization to manage and support such projects, to serve communities harmed by past discrimination. Use the findings of the study referenced in Action 2.3.4 to inform expansion of these models.
5.4.7 - Short	Housing Programs to Redress Harm	Create and pilot programs to increase access to Affordable Rental and Homeownership units and other housing services as redress for American Indian, Black, Japanese, Filipino, and other communities directly harmed by past discriminatory government actions including redlining, urban renewal, the Indian Relocation Act, or WWII Japanese incarceration. Programs should be informed by the truth-telling processes described in Program 5.1.
5.4.8 - Short	Housing Programs to Redress Harm	Expand the Certificates of Preference program as required per recent State Law, Assembly Bill 1584 (Health and Safety Code, SEC 13 – 16), to qualify eligible descendants of those displaced by redevelopment projects for priority in renting or buying affordable housing. Conduct comprehensive outreach and engagement to identify the descendants of households who have been displaced. Expanding this program should rely on strategies that ensure such units meet the preferences and needs of eligible households as informed by Action 5.4.9.
5.4.9 - Short	Housing Programs to Redress Harm	Conduct a study to engage with Certificates of Preference holders and their descendants to identify their housing needs, preferences, and income levels and create a tracking system to better monitor who has obtained or declined affordable rental and homeownership opportunities and why.
5.4.10	Housing Programs to Redress Harm	Expand and fund community capacity to implement housing programs and investments for American Indian residents as one strategy to redress the historic dispossession of resources affecting these communities, such as the Indian Relocation Act, and other government actions that broke the cohesion of this community.
6.1.1 -	Families With	Pursue multi-generational living for extended families and communal households

Long	Children	that have space and amenities for children, working-age adults, seniors and persons with disabilities, when building permanently affordable housing or cooperative housing referenced in Action 1.6.1.
6.1.2 - Short	Families With Children	Establish programs to assist extremely low and very low-income families with children to relocate from SROs and overcrowded living conditions to appropriate permanently affordable housing.
6.1.3 - Medium	Families With Children	Encourage family-friendly housing, which could include higher numbers of two- or three- bedroom units, units that are affordable to a wide range of low- to middle-income households, and child-friendly amenities such as playgrounds, on-site childcare, or designated childcare units.
6.1.4 - Ongoing	Families With Children	Continue to require multi-bedroom unit mixes.
6.2.1 - Short	Transgender and LGBTQ+ People	Study and identify programs that respond to the needs of transgender and LGBTQ+ groups, particularly those who are refugees, lack family connections, or previously incarcerated, to incorporate into permanently affordable housing investments that are concentrated in the neighborhoods where they have historically found community, such as the Castro for LGBTQ+ communities or the Tenderloin for transgender people of color, building upon research spearheaded by the Castro LGBTQ Cultural District.
6.2.2 - Medium	Transgender and LGBTQ+ People	Support and fund the implementation of San Francisco's "Ending Trans Homelessness Plan," as well as the ongoing housing placement for the transgender community, in recognition of the severe disparities in housing access and safety experienced by this group.
6.3.1 - Short	Seniors and People with Disabilities and Chronic Illness	Expand the Senior Operating Subsidy (SOS) program to allow extremely and very low-income seniors to be eligible for new senior Below Market Rate rental units.
6.3.2 - Long	Seniors and People with Disabilities and Chronic Illness	Increase permanently affordable senior housing along transit corridors to improve mobility of aging adults and seniors, particularly for extremely and very low-income households including through expansion of Senior Operating Subsidies as referenced in Action 6.3.1.
6.3.3 - Short	Seniors and People with Disabilities and Chronic Illness	Create or support financing programs that support aging in place, including improvements to accessibility through home modifications or building ADUs, and supported by technical assistance programs referenced in Action 8.2.2.
6.3.6 - Short	Seniors and People with Disabilities and Chronic Illness	Strengthen interagency coordination to identify and implement strategies to address the housing needs of seniors and people with disabilities, informed by the Housing Needs Assessments referenced in Action 6.3.7.
6.3.9 - Short	Seniors and People with Disabilities and Chronic Illness	Explore a Disabled Operating Subsidy (DOS) program to allow extremely and very low-income people with disabilities better access to permanently affordable housing units.

7.4.3 - Short	Accessory Dwelling Units (ADUs)	Create an affordable ADU program that provides financial support for professional services and construction of units that serve low-income households.
8.1.10 - Medium	Cost and Fees	By January 2026, the Interagency Housing Element Implementation committee (see Action 4.1.4) will assess if the City has approved the appropriate housing units by income level to meet the RHNA goals. If the City is behind the pro rata affordable housing production goals the Interagency Housing Element Implementation committee should trigger: Increase of additional City funding for affordable housing and pursuit of additional State funding. Increase the land banking strategy to accommodate 50 percent more affordable housing units than the capacity of the sites acquired from 2022 through 2025 The City will implement these actions in consultation with HCD.
8.4.21 - Short	Process and Permit Procedures	Led by American Indian, Black, other communities of color, and Cultural Districts, explore options to support community engagement as part of ministerial review to simplify and shorten the approval process for housing projects citywide. All considered options must not add subjective constraints to the housing approval process and must reduce project approval timelines.
8.6.2 - Short	Support for Affordable Housing and Shelters	Utilize and comply with the state-wide streamlining opportunities to expedite and increase the production of Permanent Supportive Housing. Continue the non discretionary approval of Supportive Housing projects in accordance AB 2162 and of all shelters, including Low Barrier Navigation Centers, in accordance with AB 101.
8.6.4 - Medium	Support for Affordable Housing and Shelters	Remove requirement for General Plan referrals for shelters, 100% affordable housing, permanent supportive housing, and development agreement projects.
8.6.7 - Short	Support for Affordable Housing and Shelters	Strengthen the interagency coordination to streamline the requirements for the associated approvals for publicly funded affordable housing by creating a public inventory of all such approvals, establishing a baseline process and expected duration for each approval, and ensuring clear project management; examples of associated approvals include the PG&E requirements to accommodate Public Utilities Commission (PUC) low-cost electric service, or the multi-agency review of disability access to reduce per-unit construction costs.
8.6.10 - Short	Support for Affordable Housing and Shelters	Streamline plan checks, response to revisions, and field inspection process to support and reduce review time from the Mayor's Office of Disability by 20% for 100% affordable housing projects.
8.6.14 - Medium	Support for Affordable Housing and Shelters	Expand use of third-party consulting peer review of construction documents on publicly subsidized 100% affordable housing projects, in addition to continuing to maintain staff experts on affordable housing project review and assigning them to affordable housing projects.
8.6.16 - Medium	Support for Affordable Housing and	Expand nonprofit project management capacity, especially focused on areas of the city that have not seen much affordable housing development and where there are few or no community based affordable housing developers.

15 Environmental, Environmental Justice & Community Orgs Sign To Strongly *OPPOSE* MELGAR 'Family Housing' & Engardio-Breed 'Constraints Reduction' *(Also see attached in PDF format)*

SPEAK Sunset Parkside Education & Action Committee

July 17, 2023

To: City and County of San Francisco Decision Makers - 1 Dr Carlton B Goodlett Pl, San Francisco, CA 94102

Re: **OPPOSE** Engardio-Breed-Dorsey "Constraints Reduction Ordinance" ("Housing Production") **File #230446** and **OPPOSE** Melgar-Engardio "Family Housing Opportunity Special Use District Ordinance" **File #230026**

Dear San Francisco Decision Makers:

The undersigned environmental, housing, economic justice, community, and climate crisis response organizations write to voice our strong opposition to the Engardio-Breed-Dorsey "Constraints Reduction" and the Melgar-Engardio "Family Housing Opportunity Special Use District" ordinances. They would enact drastic and sweeping exceptions to San Francisco's

environmental and community review of real estate projects and would undermine health, environmental, economic and neighborhood protections. The Engardio-Breed-Dorsey “Constraints Reduction Ordinance” (aka “Housing Production Ordinance”) contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called “affordable” when most of that housing would be for families making \$150,000 to \$190,000 per year! The Melgar-Engardio “Family Housing Opportunity Special Use District Ordinance” unacceptably waives nearly all environmental and community review for housing expansions in its large target project area to allow sweeping height increases, project design exemptions, open space requirement reductions, and condo conversions that will remove badly needed affordable rental housing! Together these ordinances would worsen:

- **The Unaffordable Housing Crisis** - These ordinances promote building new high priced housing that is *not* affordable, and condo conversions that displace rental housing. It is ridiculous that the Engardio-Breed-Dorsey ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year “affordable”. We already have a 50% *oversupply* of housing for those income levels! And the Melgar-Engardio ordinance relies on existing “affordable” standards that are not working and have already allowed gentrification to destroy San Francisco neighborhoods.
- **The Homelessness Crisis** - The gentrification spurred by these ordinances would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.
- **The Vacant Housing Crisis** - San Francisco has at least 40,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!
- **The Environmental Justice & Equity Crisis** - These ordinances would gut environmental and community review protections and would establish “Urban Renewal” style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared “cleaned up”).
- **The Climate Crisis** - These bills are bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing *more* greenhouse gases, not less.

These ordinances would build housing for the wealthy, create more homelessness, and are an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN these unacceptable corporate attacks on San Francisco's environmental, economic, cultural, and community integrity!

Subject: Encouraging Your Support for Ordinance 230446

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing to express my strong support for Ordinance 230446 and to encourage you to vote in favor of its passage. This legislation presents a critical opportunity to remove numerous barriers that have been hindering the construction of new housing in our beloved city of San Francisco. As a Junior project manager working and living in San Francisco I have experience firsthand the ways in which the current planning review process has SEVERLY impacted the timeline of projects. Under this new legislation, projects that were previously held up for 2-5 years could be streamlined and completed through over the counter review in a matter of months. This is an imperative change if

San Francisco is to meet its goal of 82,000 new units in the next 8 years.

As you are aware, San Francisco is facing a severe housing crisis, with an acute shortage of affordable and available homes. This crisis has led to increased homelessness, displacement, and a diminishing sense of community. It is essential that we take swift and decisive action to address this issue, and Ordinance 230446 is a step in the right direction. By streamlining the permitting process and removing unnecessary red tape, this ordinance would pave the way for more efficient and timely development of new housing units. It aims to tackle the bureaucratic hurdles and burdensome regulations that have contributed to delays, higher costs, and limited housing supply. By doing so, we can encourage the construction of more homes, both affordable and market-rate, to meet the diverse needs of our residents.

I kindly request that you carefully consider the impact and potential benefits of Ordinance 230446 and lend your support to its passage. Your vote will not only be a catalyst for positive change but also a testament to your dedication to serving the best interests of our community. I trust in your wisdom and leadership to make the right decision for the future of San Francisco.

Thank you for your time and attention to this matter. I look forward to hearing about your support for Ordinance 230446 and witnessing the positive impact it will have on our city.

Sincerely,

Keegan Clark

Re: Project Name: Constraints Reduction (AKA Housing Production)
Case Number: 2023-003676PCAMAP
Board File No. 230446
By Mayor Breed

Dear San Francisco Board of Supervisors,

AIA San Francisco Public Policy and Advocacy Committee are writing to express our support for the proposed 'Housing for All' ordinance.

We commend the efforts made under the 2022 Housing Element Update, which focuses on racial and social equity, to address San Francisco's housing challenges. With a state-mandated goal of constructing 82,000 housing units within the next eight years, this plan aims to provide diverse housing options that strengthen our communities and improve overall affordability and diversity.

The 'Housing for All' ordinance aligns with several policies outlined in the Housing Element. It specifically targets the removal of obstacles that hinder housing construction, especially based on subjective criteria. The proposed changes include process improvements, development standards modifications, and expanded housing development incentives throughout the city. Implementing these changes will offer diverse housing options for all residents of San Francisco, thereby expanding affordability and opportunity.

Process Improvements:

The ordinance introduces several changes to eliminate costly and time-consuming requirements that impede housing construction and increase costs. We can save valuable time and resources by exempting code-compliant projects from certain processes like Conditional Use permits, the 311 process, and public hearings for projects outside the Priority Equity Geographies SUD. Additionally, allowing "as of right" development for heights and large lot projects, streamlining the approval of State Density Bonus Projects, enabling senior housing development wherever housing is permitted, and providing administrative approval for reasonable accommodations will further facilitate housing construction.

Development Standards:

The proposed ordinance brings about standardization and changes in development standards to foster creativity and high-quality housing. Consolidating rear yard requirements, reducing front setbacks, and adjusting minimum lot widths and areas will allow for greater flexibility in designing housing that meets the higher densities mandated by the Housing Element. Other changes, such as allowing open space in specific locations and reevaluating street-facing ground floor uses, will contribute to a more inclusive and vibrant urban environment.

Expand Affordable Housing Incentives:

The ordinance includes code changes that simplify the process of building affordable housing. Expanding fee waivers for all 100% affordable projects, broadening the eligibility for Home SF, and removing restrictions on eligibility requirements will increase the availability of affordable units to individuals with modest incomes. These measures will help address San Francisco's pressing need for affordable housing options.

We can expand housing options for all San Francisco residents by passing the 'Housing for All' ordinance. The correlation between supply and demand is undeniable, and the lack of adequate housing significantly contributes to the city's high cost of living. Private market-driven housing construction, with limited public subsidies, is the foundation of housing in San Francisco, the state, and the entire country. Streamlining the process and allowing developers to increase density will reduce construction costs per unit, ultimately benefiting renters and homeowners.

Higher density in our neighborhoods will promote stronger communities as it increases the number of individuals actively observing and engaging with their surroundings. Moreover, a denser population in our neighborhood commercial districts will create opportunities for residents to successfully launch and operate small retail businesses, surpassing the impact of mandated ground-floor retail spaces.

Expanding the inventory of housing options in San Francisco will foster greater neighborhood diversity, provide better housing opportunities for vulnerable populations, and contribute to a thriving city culture where everyone can flourish.

We urge the Land Use Committee and the Board of Supervisors to approve the "Housing for All" ordinance. Together, we can create a more inclusive and affordable housing landscape for all residents of San Francisco.

Respectfully submitted,

AIA San Francisco Public Policy and Advocacy Committee

Hi Erica, Please distribute printed paper hard copies of the attached PDF public comment letter to the Land Use & Transportation Committee members, Melgar, Peskin, and Preston, for today's hearing. Please see below, and attached in PDF format with organization logos, for today's Land Use & Transportation Committee: Organization Sign-On, OPPOSE: Melgar "Family Housing" & Engardio "Constraints Reduction" July 10, 2023 To: City and County of San Francisco Decision Makers - 1 Dr Carlton B Goodlett Pl, San Francisco, CA 94102 Re: **OPPOSE** Engardio-Breed-Dorsey "Constraints Reduction Ordinance" ("Housing Production") **File #230446** and **OPPOSE** Melgar-Engardio "Family Housing Opportunity Special Use District Ordinance" **File #230026** Dear San Francisco Decision Makers: The undersigned environmental, housing, economic justice, community, and climate crisis response organizations write to voice our strong opposition to the Engardio-Breed-Dorsey "Constraints Reduction" and the Melgar-Engardio "Family Housing Opportunity Special Use District" ordinances. They would enact drastic and sweeping exceptions to San Francisco's environmental and community review of real estate projects and would undermine health, environmental, economic and neighborhood protections. The Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") contains massive unprecedented waivers of local environmental, community and demolition review that are absolutely unacceptable, all in the name of producing housing called "affordable" when most of that housing would be for families making \$150,000 to \$190,000 per year!

The Melgar-Engardio "Family Housing Opportunity Special Use District Ordinance" unacceptably waives nearly all environmental and community review for housing expansions in its large target project area to allow sweeping height increases, project design exemptions, open space requirement reductions, and condo conversions that will remove badly needed affordable rental housing!

Together these ordinances would worsen:

- **The Unaffordable Housing Crisis** - These ordinances promote building new high priced housing that is *not* affordable, and condo conversions that displace rental housing. It is ridiculous that the Engardio-Breed-Dorsey ordinance calls housing built mostly for families making \$150,000 to \$190,000 dollars per year "affordable". We already have a 50% *oversupply* of housing for those income levels! And the Melgar-Engardio ordinance relies on existing "affordable" standards that are not working and have already allowed gentrification to destroy San Francisco neighborhoods.
-

The Homelessness Crisis - The gentrification spurred by these ordinances would push most rents citywide even higher, driving more middle, working and lower class San Franciscans either out of the city, or onto our streets where they will face unacceptable dangers of declining health, street crime, and underemployment.

-

The Vacant Housing Crisis - San Francisco has at least 40,000 vacant housing units, most of them *far* overpriced. We also have empty office space that can be converted into thousands more apartments. We do not need more housing construction, we need to make our existing housing space affordable!

-

The Environmental Justice & Equity Crisis - These ordinances would gut environmental and community review protections and would establish “Urban Renewal” style redevelopment zones, setting precedents that would allow corporate real estate giants to even more easily build unhealthy housing on toxic and radioactive waste sites like those in Bayview Hunters Point and on Treasure Island (which local, state and federal agencies have falsely declared “cleaned up”).

-

The Climate Crisis - These bills are bad for the environment. Allowing sweeping demolitions and expansions of existing homes and apartments, to replace them with luxury condo and rental towers, will use massive amounts of new cement and other building materials releasing *more* greenhouse gases, not less.

These ordinances would build housing for the wealthy, create more homelessness, and are an environmentally destructive giveaway to rapacious Wall Street and corporate real estate speculators. Please vote DOWN these unacceptable corporate attacks on San Francisco’s environmental, economic, cultural, and community integrity! Supervisors:

re: Opposition to Engardio-Breed-Dorsey "Constraints Reduction Ordinance" # 230446

There is a lot the Engardio-Breed-Dorsey "Constraints Reduction Ordinance" (aka "Housing Production Ordinance") # 230446 does and doesn't do that is concerning to those of us who are familiar with it. Unfortunately, it has not had a lot of covering in the press. Thanks to the sudden appearance of the 50 story renderings of the 2700 Sloat project more people are taking notice and they do not like what they see. People who might have appreciated a little extra density are horrified and disturbed by the sudden third finger in the air at the beach. Please do not pass Ordinance # 230446 at the Land Use Committee.

There are a lot of questions that remain unanswered about how this Ordinance will help produce housing and where the funds will come from.

What we do know:

- Increasing density does not make housing more affordable.
- Cities do not build housing. Developers do and only when they can realize a large profit from doing so.
- This Ordinance allows demolition without notice to neighbors, and gives property owners more incentives to empty their buildings.
- The Ordinance eliminates Conditional-Use hearings and opportunities for neighbors and the Planning Commission to improve the projects.
- There is no guarantee that any of these projects will be affordable or that they will be built any time soon.
- Current economic conditions with declining property values, high labor rates and materials costs are not attracting investors.
- Demolishing buildings creates a huge amount of solid waste and we are running out of room to put it.
- Nothing in this ordinance will build the already entitled units or fill the empty units.
- The most affordable housing is existing housing.

- Very few people are aware of the Ordinance that could have a major effect on their lives.

What we don't know:

- How to protect the affordable housing units we have from demolition.
- How to protect tenants from being evicted.
- How to administer a right to return program.
- How to protect affordable units from Ellis Act evictions or owner buy-outs.
- Where the money will come from to build affordable housing.

Please do not pass Ordinance # [230446](#) at the Land Use Committee.

Sincerely,

Mari Eliza, Concerned SF Citizen, zrants@gmail.com

Dear Supervisors,

Please see the attached communication regarding File No. 230446.

File No. 230446 - Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity

Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Re: Streamlining Legislation
"Constraints Reduction AKA Housing Production Ordinance [BF 230446]
Planning Case Number 2023-003676PCAMAP
Legislative File #230446

Dear President Tanner, Vice President Moore, and Planning Commissioners

Chinatown Community Development Center (CCDC) is a nonprofit community based organization providing affordable housing for low income tenants across San Francisco with decades long experience in community engaged planning in the Chinatown area.

Young Community Developers (YCD) is a Black-led nonprofit that has served the

historically under-resourced Black community in San Francisco's Bayview-Hunters Point for over 50 years.

Tenderloin People's Congress is an all volunteer, grassroots resident advocacy group since 2015.

We write to express our concerns regarding the Planning Department's apparent lack of consideration of the potential adverse social, economic, and equity impacts of the proposed Planning Code and Zoning Map Amendments, particularly in relation to their impacts on the Priority Equity Geographies (PEGs)¹.

We had previously looked forward to the Department's analysis of the Mayor's proposal given the Department's extensive technical and research capacity to provide neighborhood and parcel level assessment of impacts and outcomes. But the Executive Summary offers no such analysis specific to Priority Equity Geographies aside from a map of the outline of the areas. While the Department extensively extolls its previous attention to equity areas in the drafting for the Housing Element, the Executive Summary does not even summarize the extent to which the proposed policy changes impact Priority Equity Geographies. This lack of consideration of the areas of the City where a majority of lower-income communities of color reside is both disappointing and troubling.

Unless that omission is corrected, the absence of specific analyses of impacts on Priority Equity Geographies will make it impossible for this Commission to adopt informed findings or recommendations to address or mitigate the impacts of the proposal.

Based upon our own reading of the legislation, the proposal appears to change multiple policies impacting thousands of residential, commercial, and mixed-use sites in the Priority Equity areas such as the Mission, Chinatown, Tenderloin, SOMA, Bayview, Excelsior, and others. These changes include:

- Development on large lots: Eliminates Conditional Use hearings ("CU") for construction on larger parcels in RH, NC, and Chinatown Mixed-Use Districts (Staff Report, pg. 7).
- Allowable Heights: Eliminates CU hearings for height in districts where hearings are currently required in RH, RM, RC and certain NC Districts (Staff Report, pg. 7).
- State Density Bonus: Eliminates hearings for projects using the State Density Bonus given that State law prevents the Planning Commission from denying or modifying a State Density Bonus project (Staff Report, pg. 8).
- Group Housing: Permits Group Housing in RH-1 zoning districts via the four-plex program and removes the conditional use requirement for Group Housing in RH-2 and RH-3 zoning districts (Staff Report, pg. 13).

Likely unanalysed impacts:

- Without any affordability requirements, these provisions incentivize upscale market-rate developments, taking away the opportunity for much-needed affordable housing projects to be built, particularly in historically low-income neighborhoods within PEGs. CUs are one of the few tools for communities to become aware of and weigh in on potential impacts of developments in their neighborhoods including the loss of

rent-controlled units, community-serving businesses, open spaces, etc.

- Allowing Group Housing by-right negates the years of work that communities within Priority Equity Geographies like Chinatown and Tenderloin have done to discourage Group Housing Projects that incentivize luxury studios and smaller apartments aimed at young professionals and single adults instead of more family-friendly housing, changing the character of low-income, immigrant, and people of color neighborhoods.

With each of these changes, the communities in this city which have been most adversely impacted by gentrification, displacement, and disempowerment will have less opportunity to speak out and have a voice in future market driven development in what remains of their neighborhood.

And while the Executive Summary repeatedly and extensively claims that such market driven development will produce new housing development for everyone, there is not a single chart, paragraph, or data point that is offered that establishes that the housing that will be developed in the Priority Equity Geographies will be affordable to the people who need the housing in those neighborhoods. With limited remaining sites available for new developments in Priority Equity Areas, streamlining of public process makes these limited sites prime targets for market-rate upscale projects. This increased competition from non-affordable projects directly undermines the pressing need for affordable housing in these neighborhoods and risks perpetuating gentrification and further displacement.

Furthermore, while we appreciate the legislation for maintaining residential demolition controls within the PEG-SUD, we believe that the Executive Summary completely lacks discussion or analysis on the impacts that this streamlining legislation will have on incentivizing demolitions of non-residential uses including community-serving retail, restaurants, cultural institutions, banquet halls, and other businesses and services, particularly in mixed-use districts of PEGs. These community-serving commercial establishments are integral to the fabric of these neighborhoods, and it is essential to examine both impacts simultaneously. While housing stability is undoubtedly crucial, access to jobs, local businesses, and community-based services is equally vital for the holistic well-being of low-income communities.

Unfortunately none of the above described foreseeable adverse impacts of the proposal as written were identified or addressed by the Planning Departments' Executive Summary -- the only publicly provided analysis of the proposed legislation. We urge the Commission to delay a decision until we receive a comprehensive analysis of the potential consequences of the proposed amendments on Priority Equity Geographies. This analysis should consider the impacts on both residential and non-residential demolitions, taking into account the unique character and needs of these neighborhoods. Additionally, an assessment of the cumulative effects of the amendments, along with the existing Housing Element Actions, is necessary to comprehend the broader implications of these policy changes.

Furthermore, considering the existence of at least four legislative proposals for Housing Element implementation², we urge the Planning Staff to evaluate the cumulative impacts of all these proposals as per the Housing Element Project EIR, ensuring a comprehensive understanding of their combined effects on the proposed Priority Equity Geographies SUD.

We also want to highlight that we appreciate the legislation for expanding fee waivers to more 100% affordable housing projects, as well as providing greater housing choice for seniors by allowing double density in additional zoning districts but these positive reforms could be considered as stand alone measures or along with land use policies that also recognize other needs in Priority Equity Geographies.

In conclusion, we strongly urge the Planning Commission to continue the hearing of Mayor Breed's streamlining legislation to allow for a re-evaluation of impacts by Planning Staff as well as comprehensive public review and comment. The lack of analysis, community engagement, and clear communication regarding the potential impacts of this legislation necessitates a more robust and transparent process.

Sincerely,

Avi Gandhi

Re: Streamlining Legislation
"Constraints Reduction AKA Housing Production Ordinance [BF 230446]
Planning Case Number 2023-003676PCAMAP
Legislative File #230446

Dear President Tanner, Vice President Moore, and Planning Commissioners

Chinatown Community Development Center (CCDC) is a nonprofit community based organization providing affordable housing for low income tenants across San Francisco with decades long experience in community engaged planning in the Chinatown area.

Young Community Developers (YCD) is a Black-led nonprofit that has served the historically under-resourced Black community in San Francisco's Bayview-Hunters Point for over 50 years.

Tenderloin People's Congress is an all volunteer, grassroots resident advocacy group since 2015.

We write to express our concerns regarding the Planning Department's apparent lack of consideration of the potential adverse social, economic, and equity impacts of the proposed Planning Code and Zoning Map Amendments, particularly in relation to their impacts on the Priority Equity Geographies (PEGs)¹.

We had previously looked forward to the Department's analysis of the Mayor's proposal given the Department's extensive technical and research capacity to provide neighborhood and parcel level assessment of impacts and outcomes. But the Executive Summary offers no such analysis specific to Priority Equity Geographies aside from a map of the outline of the areas. While the

¹ Priority Equity Geographies are areas with a higher density of vulnerable populations as defined by the San Francisco Department of Health, including but not limited to people of color, seniors, youth, people with disabilities, linguistically isolated households, and people living in poverty or unemployed.

Department extensively extolls its previous attention to equity areas in the drafting for the Housing Element, the Executive Summary does not even summarize the extent to which the proposed policy changes impact Priority Equity Geographies. This lack of consideration of the areas of the City where a majority of lower-income communities of color reside is both disappointing and troubling.

Unless that omission is corrected, the absence of specific analyses of impacts on Priority Equity Geographies will make it impossible for this Commission to adopt informed findings or recommendations to address or mitigate the impacts of the proposal.

Subject: FW: Constraints Reduction proposal Board file 230446. Copy of letter to Planning Commission June 28 for all Supervisors
Date: Monday, July 3, 2023 1:14:50 PM

Dear Supervisors,

Please see the below communication regarding File No. 230446.

File No. 230446 - Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity

Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Dear President Tanner and Planning Commissioners,

Re: The Constraints Reduction Act: Planning Code and Zoning Map Amendments

2023-003676PCAMAP

I urge the Commissioners to recommend setting aside this proposed legislation in order to replace it with a more considered, and compliant, Two-Stage process.

As one of four bills (so far) to implement the Housing Element and State laws, this proposal serves as the core. And it is a massive, overstuffed Pandora's box of code and zoning changes, accompanied by an outdated and unexamined map. All of which bypass the stated priorities of the Housing Element and the Board of Supervisors-- for equity and affordable housing.

However, there IS a way to meet state mandates for streamlining and rezoning, while abiding by our own priorities. With the roll-out of previous individual bills we see that the State does not dictate a massive overhaul all at once in the same bill.

Thus, in the interests of city priorities, equity, fairness, common sense, and fulfillment of the city's Number One need, the way forward should be to replace the "Constraints" proposal with two separate pieces of code and zoning implementation legislation.

There is no immediate reason to rush into offering more benefits to expensive market rate housing developers, when San Francisco has a known record of overbuilding it. We've already stockpiled a huge surplus of vacant market rate units. Many developers have said their major projects won't "pencil out" until affluent workers able to pay market rents and prices return.

But there are 46,000 reasons to immediately start to smooth the way for 100 per cent affordable housing developments. That whopping number is the total affordable units San Francisco is required to build by the State-imposed RHNA's.

As currently written, the Constraints Reduction proposal is an unregulated do-it-yourself kit for developers to put together high-rent, high-price condo projects that will only benefit

investors. It is a campaign to put the fox in charge of the henhouse. Meanwhile, there is no money; no plan or commitment for affordable housing in this legislation except a few hazy promises.

High-end market rate housing does not empty our tents; it does not insure stable homes for seniors and others on fixed incomes; it offers no hope for the families of our essential workers. This legislation is based on the bankrupt idea that affordability comes from expanding market rate housing. It is a continuation, on steroids, of the disastrous policies that enabled the rising rents which pushed our people into homelessness and exile.

In this legislation, the Mayor continues to sidetrack affordable housing production into a vague, undefined future... guided by a committee whose only task is to issue a report...in 2024.

Also please consider that “fair housing” is a stated goal in both in the Housing Element and in this legislation. But you won’t find in them an understanding that there can be no fair housing without affordable housing. Affordable housing IS fair housing. And there is no fairness about housing that most San Franciscans can’t afford. What good is greater access to new housing in better-resourced areas, if it’s priced beyond most people’s budgets? There is also no fairness if residents are dispossessed and disenfranchised by excluding their voices in planning projects that upend their lives...and certainly no fairness in removal of demolition restrictions, and inadequate solutions for its impacts.

Proponents of this legislation claim it’s merely a mandatory response to bring San Francisco into compliance with the demands of state law. It’s also alleged that we have no choice but to obey. But there are choices available. For example, someone chose to accelerate the timeline, and chose, in this legislation, that for every change the state requires...the city should go one better. And keep in mind, however, the “Constraints” legislation and the other “implementation” bills do not collectively offer, as the Planning Dept. deceptively implies, a plan where affordability is a choice open to all.

But despite all the mandates, it’s still up to us to choose in what order we do things. So why not begin with implementing incentives only for affordable housing? We really can’t create enough affordable housing unless the city puts it ahead of all other goals and follows up with adequate (read enormous amounts of) money and commitment. That commitment came into question just this week, with the proposal to reduce inclusionary housing requirements in new construction. The Inclusionary program accounted for a third of the affordable units built in the last ten years.

So I recommend putting forth at this time, only a First Stage ordinance for code and zoning changes. Create an Affordable Housing Implementation Act. It would limit streamlining, generous incentives, and zoning exceptions only to those who’ll deliver the 100 per cent housing we need. We must then back this up with enough funds for the affordable developer’s projects, and for landbanking and preservation of existing affordable housing.

To mitigate hardships, add unequivocal support for community notification and input at the very beginning of every project application. Keep CUA. Put teeth in an anti-displacement program by guaranteeing specific expanded protections, including rent control for every replacement unit. Declare hands-off every block in the Priority Equity Geographies, especially in any PEG areas that overlap High Resource Areas. And commit to investing enough money in the PEG areas to assure they will be just as “high-resourced” as the Westside, Pacific

Heights and the northern waterfront. Why should PEG residents have to move from their generational homes in order to enjoy great schools, transit, and infrastructure?

Assistance for market rate developers can be addressed in a Second Stage of code and zoning implementation legislation. After making significant progress toward building those mandated 46,000 affordable units, the city could open up streamlining and incentives for other developers if needed. Who knows...if high-income workers have flooded back into San Francisco by then, as is likely, San Francisco might have already met its RHNA goals for market rate housing. Then, instead of having to destroy its policies of community collaboration, the city could work on improving them.

And finally...just for the record: People should never be diminished or demeaned by labeling their voices as "Constraints." Our voices, along with those of Planning Commissioners, Supervisors and the City of San Francisco itself, must not be denied. All of us have a Constitutional right to participation in the making of rules and the processes that govern our lives.

Thank you for your consideration.

Lorraine Petty, affordable housing and tenant advocate for seniors and people with disabilities.

**Re: Streamlining Legislation Titled "Planning Code, Zoning Map - Housing Production"
Legislative File #230446**

Dear Aaron and Veronica,

The legislation referenced above is on the Planning Commission's advance calendar for June 15, 2023. This is extremely complex, technical legislation that requires extensive review and cross-referencing of multiple sections of the Planning Code.

We are eagerly looking forward to Planning's Staff Report on this item to help our understanding of all the ramifications of this legislation. We are concerned, however, that the Staff Report will not be published until just one week prior to the hearing- because this is unfortunately the pattern that Planning has been following.

The Race & Equity in all Planning Coalition (REP-SF) requests that the Staff Report for this legislation be made available to Planning Commissioners and to the public at least two weeks prior to the Planning Commission hearing on this legislation. This would mean publication of the Staff Report this Thursday, June 1.

If it is not possible for staff to publish their report by or before this Thursday, June 1, REP-SF requests that the hearing be postponed to a date that is at least two weeks after the actual publication date of the Staff Report.

Thank you for your consideration of this request.

Respectfully submitted,

The Race & Equity in all Planning Coalition, San Francisco (REP-SF)

Public Comment Call-In: <https://sfbos.org/remote-meeting-call>

Subject: **File No. 230446.** Ordinance amending the Planning Code to encourage housing production by 1) exempting, under certain conditions, specified housing projects from the notice and review procedures of Section 311 and the Conditional Use requirement of Section 317, in areas outside of Priority Equity Geographies, which are identified in the Housing Element as areas or neighborhoods with a high density of vulnerable populations; 2) removing the Conditional Use requirement for several types of housing projects, including housing developments on large lots, projects to build to the allowable height limit, projects that build additional units in lower density zoning districts, and senior housing projects that seek to obtain double density; 3) amending rear yard, front setback, lot frontage, minimum lot size, and residential open space requirements in specified districts; 4) allowing additional uses on the ground floor in residential buildings, homeless shelters, and group housing in residential districts, and administrative review of reasonable accommodations; 5) expanding the eligibility for the Housing Opportunities Mean Equity - San Francisco (HOME - SF) program and density exceptions in residential districts; 6) exempting certain affordable housing projects from certain

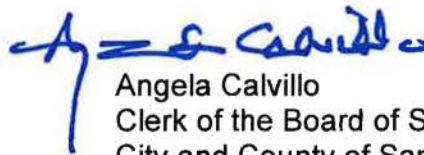

development fees; 7) authorizing the Planning Director to approve State Density Bonus projects, subject to delegation from the Planning

Commission; and 8) making conforming amendments to other sections of the Planning Code; amending the Zoning Map to create the Priority Equity Geographies Special Use District; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins. These comments will be made as part of the official public record in this matter and shall be brought to the attention of the Board of Supervisors. Written comments should be addressed to Angela Calvillo, Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA, 94102 or sent via email (board.of.supervisors@sfgov.org). Information relating to this matter is available with the Office of the Clerk of the Board or the Board of Supervisors' Legislative Research Center (<https://sfbos.org/legislative-research-center-lrc>). Agenda information relating to this matter will be available for public review on Friday, September 15, 2023.

For any questions about this hearing, please contact the Assistant Clerk for the Land Use and Transportation Committee:
