Section 2. General Background and Findings.

- (a) California faces a severe crisis of housing affordability and availability, prompting the Legislature to declare, in Section 65589.5 of the Government Code, that the state has "a housing supply and affordability crisis of historic proportions. The consequences of failing to effectively and aggressively confront this crisis are hurting millions of Californians, robbing future generations of a chance to call California home, stifling economic opportunities for workers and businesses, worsening poverty and homelessness, and undermining the state's environmental and climate objectives."
- (b) This crisis of housing affordability and availability is particularly severe in San Francisco. It is characterized by dramatic increases in rent and home sale prices over recent years.
- (c) According to the Planning Department's 2020 Housing Inventory, the cost of housing in San Francisco has increased dramatically since the Great Recession of 2008-2009, with the median sale price for a two-bedroom house more than tripling from 2011 to 2021, from \$493,000 to \$1,580,000. This includes a 9% increase from 2019 to 2020 alone, even in the face of the COVID-19 pandemic. The median rental price for a two-bedroom apartment saw similar although slightly smaller increases, nearly doubling from \$2,570 to \$4,500 per month, from 2011 to 2019, before declining in 2020 due to the pandemic.
- (d) These housing cost trends come after decades of underproduction of housing in the Bay Area, according to the Planning Department's 2019 Housing Affordability Strategies Report. The City's Chief Economist has estimated that approximately 5,000 new market-rate housing units per year would be required to keep housing prices in San Francisco constant with the general rate of inflation.
- (e) Moreover, San Francisco will be challenged to meet increased Regional Housing Needs Allocation ("RHNA") goals in this 2023-2031 Housing Element cycle, which total 82,069

- units over eight years, (46,598 of which must be affordable to extremely-low, very-low, low-, and moderate-income households), more than 2.5 times the goal of the previous eight-year cycle. The importance of meeting these goals to address housing needs is self-evident. In addition, under relatively new State laws like Senate Bill 35 (2017), failure to meet the 2023-2031 RHNA housing production goals would result in limitations on San Francisco's control and discretion over certain projects.
- (f) On January 31, 2023, the City adopted the 2022 Update of the Housing Element of the General Plan ("2022 Housing Element"), as required by state law. The 2022 Housing Element is San Francisco's first housing plan that is centered on racial and social equity. It articulates San Francisco's commitment to recognizing housing as a right, increasing housing affordability for low-income households and communities of color, opening small and mid-rise multifamily buildings across all neighborhoods, and connecting housing to neighborhood services like transportation, education, and economic opportunity.
- (g) The 2022 Housing Element includes goals, objectives, policies and implementing programs that seek to guide development patterns and the allocation of resources to San Francisco neighborhoods. Generally, it intends to shift an increased share of the San Francisco's projected future housing growth to transit corridors and low-density residential districts within "Well-Resourced Neighborhoods" (which are areas identified by the state as neighborhoods that provide strong economic, health, and educational outcomes for its residents), while aiming to prevent the potential displacement and adverse racial and social equity impacts of zoning changes, planning processes, or public and private investments for populations and in areas that may be vulnerable to displacement, such as "Priority Equity Geographies" (identified in the Department of Public Health's Community Health Needs Assessment as Areas of Vulnerability).

(h) Among other policies, the 2022 Housing Element commits the City to remove
governmental constraints on housing development, maintenance and improvement,
specifically in Well-Resourced Neighborhoods and in areas outside of Priority Equity
Geographies, as well as to reduce costs and administrative processes for affordable housing
projects, small and multifamily housing, and to simplify and standardize processes and permit
procedures. Among many other obligations, the 2022 Housing Element requires that the City
remove Conditional Use Authorization requirements for code compliant projects, eliminate
hearing requirements, and modify standards and definitions to permit more types of housing
across the City, in Well-Resourced Neighborhoods and outside of Priority Equity
Geographies. This ordinance advances those goals.

Section 3. The Planning Code is hereby amended by deleting Sections 121.1, 121.3, 132.2, 253, 253.1, 253.2, and 253.3, revising Sections 102, 121, 121.7, 132, 134, 135, 140, 145.1, 202.2, 204.1, 206.3, 206.6, 207, 209.1, 209.2, 209.3, 209.4, 210.3, 305.1, 311, 317, 406, 713, 714, 754, 810, 811, and 812, and adding new Sections 121.1 and 121.3, and Section 249.97, to read as follows:

SEC. 132. FRONT SETBACK AREAS IN RTO, RH, AND RM DISTRICTS AND FOR REQUIRED SETBACKS FOR PLANNED UNIT DEVELOPMENTS.

The following requirements for minimum front setback areas shall apply to every building in all RH, RTO, and RM Districts, in order to relate the setbacks provided to the existing front setbacks of adjacent buildings. Buildings in RTO Districts which have more than 75 feet of street frontage are additionally subject to the Ground Floor Residential Design Guidelines, as adopted and periodically amended by the Planning Commission. Planned Unit Developments or PUDs, as defined in Section 304, shall also provide landscaping in required setbacks in accord with Section 132(g).

- (a) **Basic Requirement.** Where one or both of the buildings adjacent to the subject property have front setbacks along a Street or Alley, any building or addition constructed, reconstructed, or relocated on the subject property shall be set back no less than the depth of the adjacent building with the shortest front setback, except as provided in subsection (c). the average of the two adjacent front setbacks. If only one of the adjacent buildings has a front setback, or if there is only one adjacent building, then the required setback for the subject property shall be equal to one half the front setback of such adjacent building. In any case in which the lot constituting the subject property is separated from the lot containing the nearest building by an undeveloped lot or lots for a distance of 50 feet or less parallel to the Street or Alley, such nearest building shall be deemed to be an "adjacent building," but a building on a lot so separated for a greater distance shall not be deemed to be an "adjacent building." [Note to publisher: Delete diagram that follows this text].
- (b) Alternative Method of Averaging. If, under the rules stated in subsection (a) above, an averaging is required between two adjacent front setbacks, or between one adjacent setback and another adjacent building with no setback, the required setback on the subject property may alternatively be averaged in an irregular manner within the depth between the setbacks of the two adjacent buildings, provided that the area of the resulting setback shall be at least equal to the product of the width of the subject property along the Street or Alley times the setback depth required by subsections (a) and (c) of this Section 132; and provided further, that all portions of the resulting setback area on the subject property shall be directly exposed laterally to the setback area of the adjacent building having the greater setback. In any case in which this alternative method of averaging has been used for the subject property, the extent of the front setback on the subject property for purposes of subsection (c) below relating to subsequent development on an adjacent site shall be considered to be as required by subsection (a) above, in the form of a single line parallel to the Street or Alley [Note to publisher: Delete diagram that follows this text].

2	building shall be taken as the horizontal distance from the property line along the Street or
3	Alley to the building wall closest to such property line, excluding all projections from such wall,
4	all decks and garage structures and extensions, and all other obstructions.
5	(<u>c</u> d) Applicability to Special Lot Situations.
6	* * * *
7	(\underline{de}) Maximum Requirements. The maximum required front setback in any of the
8	cases described in this Section 132 shall be 15 10 feet from the property line along the Street
9	or Alley, except in cases where more than 75% of the properties on the subject block face
10	have a setback of 15 feet or greater, and both parcels adjacent to the parcel property have a
11	front setback of 15 feet or greater, in which case the maximum front setback shall be 15 feet.,
12	or 15% of the average depth of the lot from such Street or Alley, whichever results in the lesser
13	requirement. Where a lot faces on a Street or Alley less than or equal to 40 feet in width, the maximum
14	required setback shall be ten feet from the property line or 15% of the average depth of the lot from
15	such Street or Alley, whichever results in the lesser requirement. The required setback for lots
16	located within the Bernal Heights Special Use District is set forth in Section 242 of this Code.

19	SEC. 132.2. SETBACKS IN THE NORTH OF MARKET RESIDENTIAL SPECIAL USE
20	DISTRICT.
21	(a) General. In order to maintain the continuity of a predominant street wall along the street,
22	setbacks of the upper portion of a building which abuts a public sidewalk may be required of buildings

located within the boundaries of the North of Market Residential Special Use District, as shown on

Sectional Map 1SUb of the Zoning Map, as a condition of approval of conditional use authorization

2	height.
3	(b) Procedures. A setback requirement may be imposed in accordance with the provisions set
4	forth below pursuant to the procedures for conditional use authorization set forth in Section 303 of this
5	Code.
6	(c) Setback Requirement. In order to maintain the continuity of the prevailing streetwall along
7	a street or alley, a setback requirement may be imposed as a condition of approval of an application
8	for conditional use authorization for a building in excess of 50 feet in height, as required by Section
9	253 of this Code. If the applicant can demonstrate that the prevailing streetwall height on the block on
10	which the proposed project is located, as established by existing cornice lines, is in excess of 50 feet,
11	then the Commission may impose a maximum setback of up to 20 feet applicable to the portion of the
12	building which exceeds the established prevailing streetwall height; provided, however, that if the
13	applicant demonstrates that the prevailing streetwall height is in excess of 68 feet, the maximum
14	setback requirement which may be imposed is 16 feet. If the applicant can demonstrate that a building
15	without a setback would not disrupt the continuity of the prevailing streetwall along the street, then the
16	Planning Commission may grant approval of the conditional use authorization without imposing a
17	setback requirement as a condition thereof.

19	SEC. 134. REAR YARDS IN R, RC, NC, C, SPD, M, MUG, WMUG, MUO, MUR, UMU
20	RED, AND RED-MX DISTRICTS.
21	* * * *
22	(c) Basic Requirements. The basic rear yard requirements shall be as follows for the
23	districts indicated:
24	
25	

1	(1) In RH, RM-1, RM-2, RTO, RTO-M Zoning Districts, the basic rear yard shall be
2	equal to 30% of the total depth of the lot on which the building is situated, but in no case less than 15
3	<u>feet.</u>
4	(2) In all other Zoning Districts not listed in subsection (c)(1), the rear yard shall be
5	equal to 25% of the total depth of the lot on which the building is situated, but in no case less than 15
6	<u>feet.</u>
7	(d) Rear Yard Location Requirements.
8	(1) RH-1(D), RH-1, and RH-1(S) Districts. For buildings that submit a development
9	application on or after January 15, 2019, the minimum rear yard depth shall be equal to 30% of the
10	total depth of the lot on which the building is situated, but in no case less than 15 feet. Exceptions are
11	permitted on Corner Lots and through lots abutting properties with buildings fronting both streets, as
12	described in subsection (f) below. For buildings that submitted a development application prior to
13	January 15, 2019, the minimum rear yard depth shall be determined based on the applicable law on the
14	date of submission.
15	(2) RM-3, RM-4, RC-3, RC-4, NC Districts other than the Pacific Avenue NC
16	District, C, M, MUG, WMUG, MUO, CMUO, MUR, UMU, RED, RED-MX, and SPD Districts.
17	Except as specified in this subsection (c), the minimum rear yard depth shall be equal to 25% of the
18	total depth of the lot on which the building is situated, but in no case less than 15 feet.
19	(A) For buildings containing only SRO Units in the Eastern Neighborhoods
20	Mixed Use Districts, the minimum rear yard depth shall be equal to 25% of the total depth of the lot on
21	which the building is situated, but the required rear yard of SRO buildings not exceeding a height of 65
22	feet shall be reduced in specific situations as described in subsection (e) below.
23	(B) To the extent the lot coverage requirements of Section 249.78 apply to a
24	project, those requirements shall control, rather than the requirements of this Section 134.
25	

1	(C1) RH- $1(D)$, RH - 1 , RH - $1(S)$, RM- 3 , RM - 4 , RTO , NC-1, NCT-1, Inner Sunset,
2	Outer Clement Street, Cole Valley, Haight Street, Lakeside Village, Sacramento Street,
3	24th Street-Noe Valley, Pacific Avenue, and West Portal Avenue Districts. Rear yards shall
4	be provided at grade level and at each succeeding level or story of the building.

6	Street, Castro Street, Cortland Avenue, Divisadero Street NCT, Excelsior-Outer Mission

8	Noriega Street, North Beach, San Bruno Avenue, Taraval Street, Inner Taraval Street,
9	Union Street, Valencia Street, 24th Street-Mission, Glen Park, Regional Commercial
10	District and Folsom Street Districts. Rear yards shall be provided at the second story, and
11	at each succeeding story of the building, and at the First Story if it contains a Dwelling Unit.
12	* * * *
13	($\underline{\mathcal{E}}$) RC-3, RC-4, NC-3, NCT-3, Bayview, Broadway, Fillmore Street, Geary
14	Boulevard, Hayes-Gough, Japantown, SoMa NCT, Mission Bernal, Mission Street, Polk
15	Street, Lower Polk Street, Pacific Avenue, C, M, SPD, MUR, MUG, MUO, and UMU
16	Districts. Rear yards shall be provided at the lowest story containing a Dwelling Unit, and at
17	each succeeding level or story of the building. In the Hayes-Gough NCT, lots fronting the east
18	side of Octavia Boulevard between Linden and Market Streets (Central Freeway Parcels L, M,
19	N, R, S, T, U, and V) are not required to provide rear yards at any level of the building,
20	provided that the project fully meets the usable open space requirement for Dwelling Units
21	pursuant to Section 135 of this Code, the exposure requirements of Section 140, and gives
22	adequate architectural consideration to the light and air needs of adjacent buildings given the
23	constraints of the project site.
24	(F4) Upper Market Street NCT. Rear yards shall be provided at the grade

level, and at each succeeding story of the building. For buildings in the Upper Market Street

1	NCT that do not contain Residential Uses and that do not abut adjacent lots with an existing
2	pattern of rear yards or mid-block open space, the Zoning Administrator may waive or reduce
3	this rear vard requirement pursuant to the procedures of subsection (h).

- (G5) **RED, RED-MX and WMUG Districts.** Rear yards shall be provided at the ground level for any building containing a Dwelling Unit, and at each succeeding level or story of the building.
- (3) RH-2, RH-3, RTO, RTO-M, RM-1 and RM-2 Districts, and the Pacific Avenue NC District. The minimum rear yard depth shall be equal to 45% of the total depth of the lot on which the building is situated, except to the extent that a reduction in this requirement is permitted by subsection (e) below. Rear yards shall be provided at grade level and at each succeeding level or story of the building. In RH-2, RH-3, RTO, RTO-M, RM-1, and RM-2 Districts, exceptions are permitted on Corner Lots and through lots abutting a property with buildings fronting on both streets, as described in subsection (f) below. [Note to publisher: delete diagram that follows this text]
- ($d\underline{e}$) **Permitted Obstructions.** Only those obstructions specified in Section 136 of this Code shall be permitted in a required rear yard, and no other obstruction shall be constructed, placed, or maintained within any such yard. No motor vehicle, trailer, boat, or other vehicle shall be parked or stored within any such yard, except as specified in Section 136.
- (e) Reduction of Requirements in RH-2, RH-3, RTO, RTO-M, RM-1,,2 and RM-2 Districts. The rear yard requirement stated in subsection subsection2 (c)(3) above and as stated in subsection subsection2 (c)(2)(A) above for SRO buildings located in the Eastern Neighborhoods Mixed Use Districts not exceeding a height of 65 feet, shall be reduced in specific situations as described in this subsection (e), based upon conditions on adjacent lots. Except for those SRO buildings referenced above in this subsection (e) whose rear yard can be reduced in the circumstances described in subsection (e) to a 15-foot minimum, under no circumstances shall the minimum rear yard be thus

reduced to less than a depth equal to 25% of the total depth of the lot on which the building is situated,
reduced to tess than a depth equal to 25% of the total depth of the tot on which the building is shutted,
or to less than 15 feet, whichever is greater.

- (1) General Rule. In such districts, the forward edge of the required rear yard shall be reduced to a line on the subject lot, parallel to the rear lot line of such lot, which is an average between the depths of the rear building walls of the two adjacent buildings. Except for SRO buildings, in any case in which a rear yard requirement is thus reduced, the last 10 feet of building depth thus permitted on the subject lot shall be limited to a height of 30 feet, measured as prescribed by Section 260 of this Code, or to such lesser height as may be established by Section 261 of this Code.
- (2) Alternative Method of Averaging. If, under the rule stated in subsection (e)(1) above, a reduction in the required rear yard is permitted, the reduction may alternatively be averaged in an irregular manner; provided that the area of the resulting reduction shall be no more than the product of the width of the subject lot along the line established by subsection (e)(1) above times the reduction in depth of rear yard permitted by subsection (e)(1); and provided further that all portions of the open area on the part of the lot to which the rear yard reduction applies shall be directly exposed laterally to the open area behind the adjacent building having the lesser depth of its rear building wall.
- (3) Method of Measurement. For purposes of this subsection (e), an "adjacent building" shall mean a building on a lot adjoining the subject lot along a side lot line. In all cases the location of the rear building wall of an adjacent building shall be taken as the line of greatest depth of any portion of the adjacent building which occupies at least one-half the width between the side lot lines of the lot on which such adjacent building is located, and which has a height of at least 20 feet above grade, or two Stories, whichever is less, excluding all permitted obstructions listed for rear yards in Section 136 of this Code. Where a lot adjoining the subject lot is vacant, or contains no Dwelling or Group Housing structure, or is located in an RH-1(D), RH-1, RH-1(S), RM-3, RM-4, RC, RED, RED-MX, MUG, WMUG, MUR, UMU, SPD, RSD, SLR, SLI, SSO, NC, C, M, or P District, such adjoining

1	lot shall, for purposes of the calculations in this subsection (e), be considered to have an adjacent
2	building upon it whose rear building wall is at a depth equal to 75% of the total depth of the subject lot.
3	(4) Applicability to Special Lot Situations. In the following special lot situations, the
4	general rule stated in subsection (e)(1) above shall be applied as provided in this subsection (e)(4), and
5	the required rear yard shall be reduced if conditions on the adjacent lot or lots so indicate and if all
6	other requirements of this Section 134 are met. [Note to publisher: delete the three diagrams that
7	follow this text]
8	(A) Corner Lots and Lots at Alley Intersections. On a Corner Lot as defined in
9	Section 102 of this Code, or a lot at the intersection of a Street and an Alley or two Alleys, the forward
10	edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the
11	rear building wall of the one adjacent building.
12	(B) Lots Abutting Properties with Buildings that Front on Another Street or
13	Alley. In the case of any lot that abuts along one of its side lot lines upon a lot with a building that
14	fronts on another Street or Alley, the lot on which it so abuts shall be disregarded, and the forward
15	edge of the required rear yard shall be reduced to a line on the subject lot which is at the depth of the
16	rear building wall of the one adjacent building fronting on the same Street or Alley. In the case of any
17	lot that abuts along both its side lot lines upon lots with buildings that front on another Street or Alley,
18	both lots on which it so abuts shall be disregarded, and the minimum rear yard depth for the subject lot
19	shall be equal to 25% of the total depth of the subject lot, or 15 feet, whichever is greater. [Note to
20	publisher: delete the two diagrams that follow this text]
21	(f) Second Building on Corner Lots and Through Lots Abutting Properties with
22	Buildings Fronting on Both Streets in RH, RTO, RTO-M, RM-1, and RM-2 Districts. Where a
23	lot is a Corner Lot, or is a through lot having both its front and its rear lot line along Streets,

Alleys, or a Street and an Alley, and where an adjoining lot contains a residential or other lawful

structure that fronts at the opposite end of the lot, the subject through lot may also have two

24

buildings according to such established pattern, each fronting at one end of the lot, provided that
all the other requirements of this Code are met. In such cases, the rear yard required by this
Section 134 for the subject lot shall be located in the central portion of the lot, between the
two buildings on such lot., and the depth of the rear wall of each building from the Street or Alley or
which it fronts shall be established by the average of the depths of the rear building walls of the
adjacent buildings fronting on that Street or Alley, or where there is only one adjacent building, by the
depth of that building. In no case shall the total minimum rear yard for the subject lot be thus
reduced to less than a depth equal to 30% of the total depth of the subject lot or to less than
15 feet, whichever is greater; provided, however, that the Zoning Administrator may reduce
the total depth to 20% pursuant to Section 307(I) of this Code if the reduction is for the sole
purpose of constructing an Accessory Dwelling Unit under Section 207(c)(4), and provided
further that the reduction/waiver is in consideration of the property owner entering into a
Regulatory Agreement pursuant to Section 207(c)(4)(H) subjecting the ADU to the San
Francisco Rent Stabilization and Arbitration Ordinance. For buildings fronting on a Narrow
Street as defined in Section 261.1 of this Code, the additional height limits of Section 261.1
shall apply. Furthermore, in all cases in which this subsection (f) is applied, the requirements
of Section 132 of this Code for front setback areas shall be applicable along both Street or
Alley frontages of the subject through lot.

(g) Reduction of Requirements in C-3 Districts. In C-3 Districts, an exception to the rear yard requirements of this Section 134 may be allowed, in accordance with the provisions of Section 309, provided that the building location and configuration assure adequate light and air to windows within the residential units and to the usable open space provided.

1	(h) Corner Lots and Lots at Alley Intersections. On a Corner Lot as defined in Section 102 of
2	this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the
3	required rear yard may be substituted with an open area equal to the basic rear yard requirement
4	outlined in subsection (c) above at the same levels as the required rear yard in an interior corner of the
5	lot, an open area between two or more buildings on the lot, or an inner court, as defined by this Code,
6	provided that the Zoning Administrator determines that all of the criteria described below in this
7	Section 134 are met.
8	(1) Each horizontal dimension of the open area shall be a minimum of 15 feet.
9	(2) The open area shall be wholly or partially contiguous to the existing midblock open
10	space formed by the rear yards of adjacent properties.
11	(3) The open area will provide for the access to light and air to and views from
12	adjacent properties.
13	(4) The proposed new or expanding structure will provide for access to light and air
14	from any existing or new residential uses on the subject property.
15	The provisions of this subsection (h) shall not restrict the discretion of the Zoning Administrator
16	from imposing such additional conditions as the Zoning Administrator deems necessary to further the
17	purposes of this Section 134.
18	(h) Modification of Requirements in NC Districts. The rear yard requirements in NC
19	Districts may be modified or waived in specific situations as described in this subsection (h).
20	(1) General. The rear yard requirement in NC Districts may be modified or waived by
21	the Zoning Administrator pursuant to the procedures which are applicable to variances, as set forth in
22	Sections 306.1 through 306.5 and 308.2, if all of the following criteria are met:
23	(A) Residential Uses are included in the new or expanding development and a
24	comparable amount of usable open space is provided elsewhere on the lot or within the development
25	where it is more accessible to the residents of the development; and

1	(B) The proposed new or expanding structure will not significantly impede the
2	access of light and air to and views from adjacent properties; and
3	(C) The proposed new or expanding structure will not adversely affect the
4	interior block open space formed by the rear yards of adjacent properties.
5	(2) Corner Lots and Lots at Alley Intersections. On a Corner Lot as defined in Section
6	102 of this Code, or on a lot at the intersection of a Street and an Alley of at least 25 feet in width, the
7	required rear yard may be substituted with an open area equal to 25% of the lot area which is located
8	at the same levels as the required rear yard in an interior corner of the lot, an open area between two
9	or more buildings on the lot, or an inner court, as defined by this Code, provided that the Zoning
10	Administrator determines that all of the criteria described below in this subsection (h)(2) are met.
1	(A) Each horizontal dimension of the open area shall be a minimum of 15 feet.
12	(B) The open area shall be wholly or partially contiguous to the existing
13	midblock open space formed by the rear yards of adjacent properties.
14	(C) The open area will provide for the access to light and air to and views from
15	adjacent properties.
16	(D) The proposed new or expanding structure will provide for access to light
17	and air from any existing or new residential uses on the subject property.
18	The provisions of this subsection $(h)(2)$ shall not preclude such additional conditions as are
19	deemed necessary by the Zoning Administrator to further the purposes of this Section 134.

5	on open ground, a terrace or the surface of an inner or outer court.
6	(2) Exposure. In order 1To be credited as private usable open space, an area
7	must be kept open in the following manner:
8	(A) For decks, balconies, porches and roofs, at least 30 percent of the
9	perimeter must be unobstructed except for necessary railings.
10	(B) In addition, the area credited on a deck, balcony, porch or roof must

(2) **Use of Inner Courts.** The area of an inner court, as defined by this Code, may be credited as common usable open space, if the enclosed space is not less than 20 feet in every horizontal dimension and 400 square feet in area; and if (regardless of the permitted obstructions referred to in Subsection 135(c) above) the height of the walls and projections above the court on at least three sides (or 75 percent of the perimeter, whichever is greater) is such that no point on any such wall or projection is higher than one foot for each foot that such point is horizontally distant from the opposite side of the clear space in the court. Exceptions from these requirements for certain qualifying historic buildings may be permitted, subject to the requirements and procedures of Section 307(h) of this Code.

In each Dwelling Unit in any use district, the required windows (as defined by Section 504 of the San Francisco Housing Code) of at least one room that meets the 120-square-foot minimum superficial floor area requirement of Section 503 of the Housing Code shall face directly onto an open area of one of the following types:
- (1) A public street, public alley at least 20 feet in width, side yard at least 25 feet in width, or rear yard meeting the requirements of this Code; provided, that if such windows are on an outer court whose width is less than 25 feet, the depth of such court shall be no greater than its width; or

20	(A) Residential uses are considered active uses above the ground floor

Government Code Section 8698.4(a)(1) shall be P, principally permitted and may be permanent.
Otherwise, Homeless Shelter uses are permitted only with Conditional Use authorization and only if
each such use (a) would operate for no more than four years, and (b) would be owned or leased by,
operated by, and/or under the management or day to day control of the City and County of San
Francisco. If such a use is to be located within a building or structure, the building or structure must be
either (a) preexisting, having been completed and previously occupied by a use other than a Homeless

shelter crisis, construction of a permanent structure or building to be used as a Homeless Shelter is not
permitted.

SEC. 249.97. PRIORITY EQUITY GEOGRAPHIES SPECIAL USE DISTRICT.

- (a) General. A Special Use District entitled the Priority Equity Geographies Special Use

 District (SUD) is hereby established, the boundaries of which are designated on Sectional Maps SU01,

 SU02, SU07, SU08, SU09, SU10, SU11, SU12, and SU13, of the Zoning Maps of the City and County

 of San Francisco.
- (b) Purpose. The Priority Equity Geographies SUD is comprised of areas or neighborhoods with a higher density of vulnerable populations. The 2022 Update of the Housing Element of the General Plan (2022 Housing Element) identifies several neighborhoods in the City that qualify as Priority Equity Geographies, based on the Department of Public Health's Community Health Needs

1	Assessment. The 2022 Housing Element encourages targeted direct investment in these areas, and
2	identifies them as requiring improved access to well-paid jobs and business ownership; where the City
3	needs to expand permanently affordable housing investment; where zoning changes must be tailored to
4	serve the specific needs of the communities that live there; and where programs that stabilize
5	communities and meet community needs need to be prioritized. The purpose of the Priority Equity
6	Geographies SUD is to help implement the goals and policies outlined in the 2022 Housing Element.
7	(c) Controls. In addition to all other applicable provisions of the Planning Code, the specific
8	controls applicable in the Priority Equity Geographies SUD are set forth in Sections 311 and 317.

10	SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING A
11	HEIGHT OF 40 FEET IN RH DISTRICTS, OR MORE THAN 50 FEET IN RM AND RC
12	DISTRICTS.
13	(a) Notwithstanding any other provision of this Code to the contrary, in any RH, RM, or RC
14	District, established by the use district provisions of Article 2 of this Code, wherever a height limit of
15	more than 40 feet in a RH District, or more than 50 feet in a RM or RC District, is prescribed by the
16	height and bulk district in which the property is located, any building or structure exceeding 40 feet in
17	height in a RH District, or 50 feet in height in a RM or RC District, shall be permitted only upon
18	approval by the Planning Commission according to the procedures for conditional use approval in
19	Section 303 of this Code; provided, however, that a building over 40 feet in height in a RM or RC
20	District with more than 50 feet of street frontage on the front façade is subject to the conditional use
21	requirement.
22	(b) Commission Review of Proposals.
23	(1) In reviewing any such proposal for a building or structure exceeding 40 feet in
24	height in a RH District, 50 feet in height in a RM or RC District, or 40 feet in a RM or RC District
25	where the street frontage of the building is more than 50 feet the Planning Commission shall consider

1	the expressed purposes of this Code, of the RH, RM, or RC Districts, and of the height and bulk
2	districts, set forth in Sections 101, 209.1, 209.2, 209.3, and 251 hereof, as well as the criteria stated in
3	Section 303(c) of this Code and the objectives, policies and principles of the General Plan, and may
4	permit a height of such building or structure up to but not exceeding the height limit prescribed by the
5	height and bulk district in which the property is located.
6	(2) In reviewing a proposal for a building exceeding 50 feet in RM and RC districts, the
7	Planning Commission may require that the permitted bulk and required setbacks of a building be
8	arranged to maintain appropriate scale on and maximize sunlight to narrow streets (rights-of-way 40
9	feet in width or narrower) and alleys.
10	
11	SEC. 253.1. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES IN THE
12	BROADWAY NEIGHBORHOOD COMMERCIAL DISTRICT.
13	(a) In the 65-A-1 Height and Bulk District, as designated on Sectional Map HT-01 of the
14	Zoning Map, any new or expanding building or structure exceeding 40 feet in height shall be permitted
15	as a Conditional Use only upon approval by the Planning Commission. The height of the building or
16	structure so approved by the Planning Commission shall not exceed 65 feet.
17	(b) In authorizing any such proposal for a building or structure exceeding 40 feet in height, the
18	City Planning Commission shall find, in addition to the criteria of Section 303(c), that the proposal is
19	consistent with the expressed purposes of this Code, of the Broadway Neighborhood Commercial
20	District, and of the height and bulk districts, set forth in Sections 101, 714, and 251 of this Code, and
21	that the following criteria are met:
22	(1) The height of the new or expanding development will be compatible with the
23	individual neighborhood character and the height and scale of the adjacent buildings.
24	(2) The height and bulk of the new or expanding development will be designed to allow

maximum sun access to nearby parks, plazas, and major pedestrian corridors.

(3) The architectural and cultural character and features of existing buildings shall be preserved and enhanced. The Historic Preservation Commission or its staff shall review any proposed alteration of historic resources and must determine that such alterations comply with the Secretary of Interior's Standards for the Treatment of Historic Properties before the City approves any permits to alter such buildings.
