**MANDATE STATEMENT**

Administrative Code Section 2.1-1 states that the Board of Supervisors shall determine the maximum number of each class of employment in each of the various departments and offices of the City and County, and shall fix rates and schedules of compensation.

**BACKGROUND****Organizational Structure**

The Police Department is organized into three main organizational functions: (1) Office of the Chief of Police, (2) Office of the Chief of Staff, and (3) Operations. The Office of the Chief of Police oversees the entire department and provides the executive level decision making of the agency including employee discipline and policy within the authority of the Chief of Police. The Chief of Staff oversees the (a) Administration Bureau, (b) Risk Management Division, (c) Strategic Communications Division, (d) Policy Development Division, and (e) Policy and Public Affairs. Operations is comprised of four bureaus: (a) Field Operations, (b) Special Operations, (c) Investigations and (d) Airport. Separately, Strategic Management Bureau oversees the (a) Fiscal Division, (b) Technology Division, and (c) Professional Standards Division, which is responsible for reform implementation and sustainability, data analytics, and department-wide audits.

Exhibit 1 below summarizes the programs within each bureau.

Note: Fields with “X” could not be confirmed by the Police Department at the time that this report was published.

The Police Department has two Assistant Chief positions which oversee operations and the administrative functions of the department. The Assistant Chief of Operations oversees 2,608 authorized full-time equivalent positions (FTEs) and the Assistant Chief of Staff oversees 389.50 FTEs. The Strategic Management Bureau has 76 FTEs.

In general, each Bureau under the Assistant Chiefs is overseen by a Deputy Chief. The Strategic Management Bureau is overseen by a 0954 Deputy Director IV, a civilian position, who reports to the Chief of Police. Within each Bureau, divisions are overseen by a Commander, Captain, or a civilian Director.

An organizational chart of the Police Department is included in Appendix A to this report.

## DETAILS OF PROPOSED LEGISLATION

The proposed ordinance would delete one 0395 Assistant Chief position and three 0490 Commander positions and add 7.69 FTE Q004 Police Officer positions, all within the General Fund.

### Command Staffing

Exhibit 2 below summarizes the impact of the proposed deletion of command staff positions. Two Commanders funded by the Airport and the Municipal Transportation Agency are not shown.

#### Exhibit 2: Deletion of Command Staff Positions

Commander Investigations	Yes
Commander Community Engagement	Yes

Source: BLA Analysis of financial data and Police Department Organizational Chart

Based on the current positions authorized in the General Fund, the proposed ordinance would require deleting either the Assistant Chief of Staff or the Assistant Chief of Operations position. According to the Police Department, the Commander that was overseeing the Community Engagement Division is assigned to the Mid City Field Operations Division, created in May 2023 (discussed below).

According to the Police Department, deleting a filled position would result in a demotion for the person currently in that position to a lower-ranked civil service sworn position, which is the rank

of Captain.<sup>1</sup> Demotions of command staff could also impact the least senior Captains by forcing their demotion to Lieutenant. This could result in reassignments for District Station Captains or Captains assigned to other units.

### **Police Officer Staffing**

As noted above, the proposed ordinance would add 7.69 Police Officer FTE to the currently funded 2,064.25 sworn FTE in the General Fund. Based on information provided by the Police Department during our review of the proposed FY 2023-24 – FY 2024-25 budget and final adopted budget for that period, we estimate that the General Fund will have approximately 285 Police Officer vacancies.<sup>2</sup> This figure excludes vacant Police Officer positions that are used to fund temporary staff and academies. Appendix B to this report details the Police Department's General Fund positions in the FY 2023-24 budget.

## **FISCAL IMPACT**

The proposed ordinance changes the authorized positions within the Police Department by deleting four command staff and adding 7.69 FTE Police Officers. The proposed change in staffing would be funded within the Department's approved General Fund budget for salary and fringe benefits.

Deleting command positions and replacing them with Police Officer positions would reduce the City's pension liability over time. Exhibit 3 below shows the difference in pension liability for each person holding a command position relative to someone retiring as a Police Officer.

---

<sup>1</sup> Civil Service Rule 221 states, "layoff of permanent appointees shall be by class in a Department in inverse order of seniority except if a more senior permanent appointee elects to be laid off. In the event of a conflict, the permanent appointee with the greater seniority shall have preference" and the oldest senior member will be demoted to their last civil service position.

<sup>2</sup> The Police Department will use vacant officer positions, budgeted at \$38.2 million, to supplement their overtime budget of \$42.4 million, for a total projected overtime spending of \$78.6 million. The Department may also draw on its vacant civilian positions, the \$10 million account in General City Responsibility set-aside for costs related to host the Asian Pacific Economic Conference, as well as any private monies raised to fund related sworn hiring or overtime.

## POLICY CONSIDERATION

### Historical Command Staff

Since FY 2010-11, the Police Department has undergone several changes to its command staff structure (sworn positions ranked Captain and above), which totaled 36 positions in FY 2010-11 and then increased to 47 positions in FY 2017-18, which remains the current count as of this writing.<sup>3</sup> Exhibit 4 summarizes the changes over that time period.

Source: BLA Records of City Financial Data

Historically, the Police Department has had the Assistant Chief position in various assignments which has changed over the years. As shown above, in FY 2010-11 there were two Deputy Chiefs and three Assistant Chiefs which followed a reorganization plan implemented by the 2008 Police

<sup>3</sup> In addition, in FY 2018-19, the Board of Supervisors approved the creation of a civilian Executive Director position (0954) to oversee the Strategic Management Division created that year.

Executive Research Forum (PERF) report in conjunction with the Controller's Office. The following fiscal year, as part of the strategy to reduce the number of furloughs and/or layoffs experienced during the recession, the Assistant Chief positions were reassigned as two Deputy Chief positions. An additional Deputy Chief was added in FY 2013-14. During FY 2016-17, prior to receiving approval by the Board of Supervisors, the Police Department created five additional command positions, augmenting its command structure with three additional Commanders and two Assistant Chiefs of Police. The Board then approved the creation of these positions in the FY 2017-18 annual appropriation and salary ordinances.

The two Assistant Chiefs of Police positions were added in 2017 to assist the Chief of Police with oversight of the day-to-day operations of the Department as well as to provide greater oversight over the command staff who were assigned to manage the implementation of the recommendations of the 2016 U.S. Department of Justice assessment.<sup>4</sup> The Assistant Chief of Operations oversees the front-line and investigative functions and is focused on implementing public safety strategies in response to community concerns. The Assistant Chief of Staff oversees the internal support functions (personnel, training, policy development) as well as oversight of specific community services including Internal Affairs and the release of police incident and traffic collision reports. According to Catherine McGuire, Executive Director of the Strategic Management Bureau, the budget request for two Assistant Chiefs and three Commander positions in 2017 is consistent with the Department's current use of the positions.

When there were no Assistant Chief positions in the Department, the five Deputy Chiefs all reported directly to the Police Chief. Under the current structure, one Deputy Chief reports to the Assistant Chief of Staff and four Deputy Chiefs report to the Assistant Chief of Operations. According to Department staff, the removal of command staff would increase the number of direct reports to the Chief of Police and/or to the remaining Assistant Chief of Police and dilute the attention that the areas of oversight receive currently.<sup>5</sup>

---

<sup>4</sup> US Department of Justice Collaborative Reform Initiative - [An Assessment of the San Francisco Police Department](#). The Department of Justice (DOJ), Office of Community Oriented Policing Services (COPS Office) completed its collaborative reform assessment of the SFPD in 2016 and the City had committed to supporting the work of fulfilling the 272 recommendations to help the Department improve its policies and practices, build community trust, and implement industry best practices. Two Assistant Chiefs and three Commander positions were added to help create the necessary oversight and management structure to support the collaborative reform work. According to Department staff, the Department has reached substantial compliance on 245 of the 272 DOJ Recommendations. The Department's Executive Director of Strategic Management attributes implementation of the reform efforts to the five of the commanders in the Department as their full-time assignment in the last 3-6 months of Phase 3 of the engagement with the California Department of Justice.

In June 2022, the Board approved the creation of six 1823 Senior Administrative Analyst positions and four 1824 Principal Administrative Analyst positions between FY 2022-23 – FY 2023-24 to assist with the Department's analysis regarding recruit and retention, updating written directives, and obtaining and reporting on community input.

<sup>5</sup> For example, Department staff state that the elimination the Risk Management Office commander would result in reduced oversight over the legal functions, the internal criminal and administrative investigations functions, and Early Intervention efforts to identify and stop risky behavior before an officer hurts themselves or someone else. These

Two of three Commander positions created in 2017 were assigned under the Chief of Staff to oversee the Administration Bureau and Risk Management. The third Commander position was appointed to oversee the Community Engagement Division which had been a Captain (Q80) position.

### **Current Command Staffing**

Historically, Field Operations/Patrol was organizationally divided into two geographic divisions: Metro (eastside Police Districts) and Golden Gate (westside Police Districts). In May 2023, the Department created the Mid City Division as a pilot program, which includes the Mission Police District, Tenderloin Police District, newly formed Drug Market Agency Coordination (DMACC) program, Fugitive Recovery Enforcement Team (FRET), and Healthy Streets Operation Center (HSOC).

The Commander assigned to oversee the Community Engagement Division has been loaned to oversee the Mid City Division and a Captain is now Acting Commander overseeing the Community Engagement Division.

According to the Police Department, all Captain positions are filled except one of three Captain roles assigned to oversee field operations night shifts and one Captain within the Administration Bureau. Of the 31 Captain positions, 14 are filled by Lieutenants in an Acting Captain role.

### **Other Options for Oversight**

As noted above, the span of control for each Assistant Chief varies considerably; the Assistant Chief of Staff oversees 389.50 positions and the Assistant Chief of Operations oversees 2,608 positions. Functions currently overseen by the Assistant Chief of Staff could potentially be transferred to the civilian Executive Director of Strategic Management, who currently oversees 76 positions.

Alternatively, the Board may wish to consider civilianizing certain command staff positions instead of deleting them entirely. For example, replacing the 0395 Assistant Chief of Staff position with an 0954 Deputy Director V position would result in annual salary and benefit savings of \$79,370 and may be a more appropriate classification to oversee the Administration Bureau, Strategic Communications, Risk Management, Policy and Public Affairs, and Labor Relations. Similarly, replacing the 0402 Deputy Chief overseeing the Administration Bureau with a 0954 Deputy Director IV would result in annual salary and benefit savings of \$85,170. Replacing the 0490 Commander positions overseeing Administration and/or Risk Management Divisions with 0953 Deputy Directors would result in \$46,820 in annual salary and benefit savings per position. Such changes would also reduce the City's pension liability since civilian positions are paid less and eligible to receive up to 75 percent of their final compensation rather than 90 percent in the

---

functions have management positions, and with the elimination of the Commander position, they would be reporting directly to the Assistant Chief (if not eliminated) or the Chief (if the Assistant Chief position were eliminated).

**Staffing Study**

In November 2020, voters approved Proposition E, which removed the previously established Police staffing minimum and replaced it with a requirement for a biannual workload-based staffing analysis. The first required study was released in 2022 and was undertaken by the Police Department using analytical methods developed by developed by the City’s Staffing Task Force. The report did not recommend increases in command staffing but did recommend increases in other sworn and civilian staffing. The next Proposition E staffing analysis will be issued in Spring 2024.

**Survey of Other Jurisdictions**

We benchmarked San Francisco’s Police command staffing against publicly available information in other jurisdictions, the results of which are shown in Appendix C to this report. We found that the average ratio of the top three ranks to total sworn staff is 0.5 percent and San Francisco’s is 0.3 percent. When considering the top five ranks compared to total sworn staff, San Francisco’s ratio is 2.0 percent and benchmark average is 2.3 percent, however the survey data is incomplete.

**RECOMMENDATION**

Approval of the proposed ordinance is a policy matter for the Board of Supervisors.

**MANDATE STATEMENT**

Administrative Code Section 2.1-1 states that the Board of Supervisors shall determine the maximum number of each class of employment in each of the various departments and offices of the City and County, and shall fix rates and schedules of compensation.

**BACKGROUND****Organizational Structure**

The Police Department is organized into three main organizational functions: (1) Office of the Chief of Police, (2) Office of the Chief of Staff, and (3) Operations. The Office of the Chief of Police oversees the entire department and provides the executive level decision making of the agency including employee discipline and policy within the authority of the Chief of Police. The Chief of Staff oversees the (a) Administration Bureau, (b) Risk Management Division, (c) Strategic Communications Division, (d) Policy Development Division, and (e) Policy and Public Affairs. Operations is comprised of four bureaus: (a) Field Operations, (b) Special Operations, (c) Investigations and (d) Airport. Separately, Strategic Management Bureau oversees the (a) Fiscal Division, (b) Technology Division, and (c) Professional Standards Division, which is responsible for reform implementation and sustainability, data analytics, and department-wide audits.

Exhibit 1 below summarizes the programs within each bureau.

Note: Fields with "X" could not be confirmed by the Police Department at the time that this report was published.

The Police Department has two Assistant Chief positions which oversee operations and the administrative functions of the department. The Assistant Chief of Operations oversees 2,608 authorized full-time equivalent positions (FTEs) and the Assistant Chief of Staff oversees 389.50 FTEs. The Strategic Management Bureau has 76 FTEs.

In general, each Bureau under the Assistant Chiefs is overseen by a Deputy Chief. The Strategic Management Bureau is overseen by a 0954 Deputy Director IV, a civilian position, who reports to the Chief of Police. Within each Bureau, divisions are overseen by a Commander, Captain, or a civilian Director.

An organizational chart of the Police Department is included in Appendix A to this report.

## DETAILS OF PROPOSED LEGISLATION

The proposed ordinance would delete one 0395 Assistant Chief position and three 0490 Commander positions and add 7.69 FTE Q004 Police Officer positions, all within the General Fund.

### Command Staffing

Exhibit 2 below summarizes the impact of the proposed deletion of command staff positions. Two Commanders funded by the Airport and the Municipal Transportation Agency are not shown.

#### Exhibit 2: Deletion of Command Staff Positions

Commander Investigations	Yes
Commander Community Engagement	Yes

Source: BLA Analysis of financial data and Police Department Organizational Chart

Based on the current positions authorized in the General Fund, the proposed ordinance would require deleting either the Assistant Chief of Staff or the Assistant Chief of Operations position. According to the Police Department, the Commander that was overseeing the Community Engagement Division is assigned to the Mid City Field Operations Division, created in May 2023 (discussed below).

According to the Police Department, deleting a filled position would result in a demotion for the person currently in that position to a lower-ranked civil service sworn position, which is the rank

of Captain.<sup>1</sup> Demotions of command staff could also impact the least senior Captains by forcing their demotion to Lieutenant. This could result in reassignments for District Station Captains or Captains assigned to other units.

### **Police Officer Staffing**

As noted above, the proposed ordinance would add 7.69 Police Officer FTE to the currently funded 2,064.25 sworn FTE in the General Fund. Based on information provided by the Police Department during our review of the proposed FY 2023-24 – FY 2024-25 budget and final adopted budget for that period, we estimate that the General Fund will have approximately 285 Police Officer vacancies.<sup>2</sup> This figure excludes vacant Police Officer positions that are used to fund temporary staff and academies. Appendix B to this report details the Police Department's General Fund positions in the FY 2023-24 budget.

## **FISCAL IMPACT**

The proposed ordinance changes the authorized positions within the Police Department by deleting four command staff and adding 7.69 FTE Police Officers. The proposed change in staffing would be funded within the Department's approved General Fund budget for salary and fringe benefits.

Deleting command positions and replacing them with Police Officer positions would reduce the City's pension liability over time. Exhibit 3 below shows the difference in pension liability for each person holding a command position relative to someone retiring as a Police Officer.

<sup>1</sup> Civil Service Rule 221 states, "layoff of permanent appointees shall be by class in a Department in inverse order of seniority except if a more senior permanent appointee elects to be laid off. In the event of a conflict, the permanent appointee with the greater seniority shall have preference" and the oldest senior member will be demoted to their last civil service position.

<sup>2</sup> The Police Department will use vacant officer positions, budgeted at \$38.2 million, to supplement their overtime budget of \$42.4 million, for a total projected overtime spending of \$78.6 million. The Department may also draw on its vacant civilian positions, the \$10 million account in General City Responsibility set-aside for costs related to host the Asian Pacific Economic Conference, as well as any private monies raised to fund related sworn hiring or overtime.

## POLICY CONSIDERATIONS

### Historical Command Staff

Since FY 2010-11, the Police Department has undergone several changes to its command staff structure (sworn positions ranked Captain and above), which totaled 36 positions in FY 2010-11 and then increased to 47 positions in FY 2017-18, which remains the current count as of this writing.<sup>3</sup> Exhibit 4 summarizes the changes over that time period.

Historically, the Police Department has had the Assistant Chief position in various assignments which has changed over the years. As shown above, in FY 2010-11 there were two Deputy Chiefs and three Assistant Chiefs which followed a reorganization plan implemented by the 2008 Police

<sup>3</sup> In addition, in FY 2018-19, the Board of Supervisors approved the creation of a civilian Executive Director position (0954) to oversee the Strategic Management Division created that year.

Executive Research Forum (PERF) report in conjunction with the Controller's Office. The following fiscal year, as part of the strategy to reduce the number of furloughs and/or layoffs experienced during the recession, the Assistant Chief positions were reassigned as two Deputy Chief positions. An additional Deputy Chief was added in FY 2013-14. During FY 2016-17, prior to receiving approval by the Board of Supervisors, the Police Department created five additional command positions, augmenting its command structure with three additional Commanders and two Assistant Chiefs of Police. The Board then approved the creation of these positions in the FY 2017-18 annual appropriation and salary ordinances.

The two Assistant Chiefs of Police positions were added in 2017 to assist the Chief of Police with oversight of the day-to-day operations of the Department as well as to provide greater oversight over the command staff who were assigned to manage the implementation of the recommendations of the 2016 U.S. Department of Justice assessment.<sup>4</sup> The Assistant Chief of Operations oversees the front-line and investigative functions and is focused on implementing public safety strategies in response to community concerns. The Assistant Chief of Staff oversees the internal support functions (personnel, training, policy development) as well as oversight of specific community services including Internal Affairs and the release of police incident and traffic collision reports. According to Catherine McGuire, Executive Director of the Strategic Management Bureau, the budget request for two Assistant Chiefs and three Commander positions in 2017 is consistent with the Department's current use of the positions.

When there were no Assistant Chief positions in the Department, the five Deputy Chiefs all reported directly to the Police Chief. Under the current structure, one Deputy Chief reports to the Assistant Chief of Staff and four Deputy Chiefs report to the Assistant Chief of Operations. According to Department staff, the removal of command staff would increase the number of direct reports to the Chief of Police and/or to the remaining Assistant Chief of Police and dilute the attention that the areas of oversight receive currently.<sup>5</sup>

<sup>4</sup> US Department of Justice Collaborative Reform Initiative - [An Assessment of the San Francisco Police Department](#). The Department of Justice (DOJ), Office of Community Oriented Policing Services (COPS Office) completed its collaborative reform assessment of the SFPD in 2016 and the City had committed to supporting the work of fulfilling the 272 recommendations to help the Department improve its policies and practices, build community trust, and implement industry best practices. Two Assistant Chiefs and three Commander positions were added to help create the necessary oversight and management structure to support the collaborative reform work. According to Department staff, the Department has reached substantial compliance on 245 of the 272 DOJ Recommendations. The Department's Executive Director of Strategic Management attributes implementation of the reform efforts to the five of the commanders in the Department as their full-time assignment in the last 3-6 months of Phase 3 of the engagement with the California Department of Justice.

In June 2022, the Board approved the creation of six 1823 Senior Administrative Analyst positions and four 1824 Principal Administrative Analyst positions between FY 2022-23 – FY 2023-24 to assist with the Department's analysis regarding recruit and retention, updating written directives, and obtaining and reporting on community input.

<sup>5</sup> For example, Department staff state that the elimination the Risk Management Office commander would result in reduced oversight over the legal functions, the internal criminal and administrative investigations functions, and Early Intervention efforts to identify and stop risky behavior before an officer hurts themselves or someone else. These

Two of three Commander positions created in 2017 were assigned under the Chief of Staff to oversee the Administration Bureau and Risk Management. The third Commander position was appointed to oversee the Community Engagement Division which had been a Captain (Q80) position.

### **Current Command Staffing**

Historically, Field Operations/Patrol was organizationally divided into two geographic divisions: Metro (eastside Police Districts) and Golden Gate (westside Police Districts). In May 2023, the Department created the Mid City Division as a pilot program, which includes the Mission Police District, Tenderloin Police District, newly formed Drug Market Agency Coordination (DMACC) program, Fugitive Recovery Enforcement Team (FRET), and Healthy Streets Operation Center (HSOC).

The Commander assigned to oversee the Community Engagement Division has been loaned to oversee the Mid City Division and a Captain is now Acting Commander overseeing the Community Engagement Division.

According to the Police Department, all Captain positions are filled except one of three Captain roles assigned to oversee field operations night shifts and one Captain within the Administration Bureau. Of the 31 Captain positions, 14 are filled by Lieutenants in an Acting Captain role.

### **Other Options for Oversight**

As noted above, the span of control for each Assistant Chief varies considerably; the Assistant Chief of Staff oversees 389.50 positions and the Assistant Chief of Operations oversees 2,608 positions. Functions currently overseen by the Assistant Chief of Staff could potentially be transferred to the civilian Executive Director of Strategic Management, who currently oversees 76 positions.

Alternatively, the Board may wish to consider civilianizing certain command staff positions instead of deleting them entirely. For example, replacing the 0395 Assistant Chief of Staff position with an 0954 Deputy Director V position would result in annual salary and benefit savings of \$79,370 and may be a more appropriate classification to oversee the Administration Bureau, Strategic Communications, Risk Management, Policy and Public Affairs, and Labor Relations. Similarly, replacing the 0402 Deputy Chief overseeing the Administration Bureau with a 0954 Deputy Director IV would result in annual salary and benefit savings of \$85,170. Replacing the 0490 Commander positions overseeing Administration and/or Risk Management Divisions with 0953 Deputy Directors would result in \$46,820 in annual salary and benefit savings per position. Such changes would also reduce the City's pension liability since civilian positions are paid less and eligible to receive up to 75 percent of their final compensation rather than 90 percent in the

---

functions have management positions, and with the elimination of the Commander position, they would be reporting directly to the Assistant Chief (if not eliminated) or the Chief (if the Assistant Chief position were eliminated).

#### Staffing Study

In November 2020, voters approved Proposition E, which removed the previously established Police staffing minimum and replaced it with a requirement for a biannual workload-based staffing analysis. The first required study was released in 2022 and was undertaken by the Police Department using analytical methods developed by developed by the City's Staffing Task Force. The report did not recommend increases in command staffing but did recommend increases in other sworn and civilian staffing. The next Proposition E staffing analysis will be issued in Spring 2024.

#### Survey of Other Jurisdictions

We benchmarked San Francisco's Police command staffing against publicly available information in other jurisdictions, the results of which are shown in Appendix C to this report. We found that the average ratio of the top three ranks to total sworn staff is 0.5 percent and San Francisco's is 0.3 percent. When considering the top five ranks compared to total sworn staff, San Francisco's ratio is 2.0 percent and benchmark average is 2.3 percent, however the survey data is incomplete.

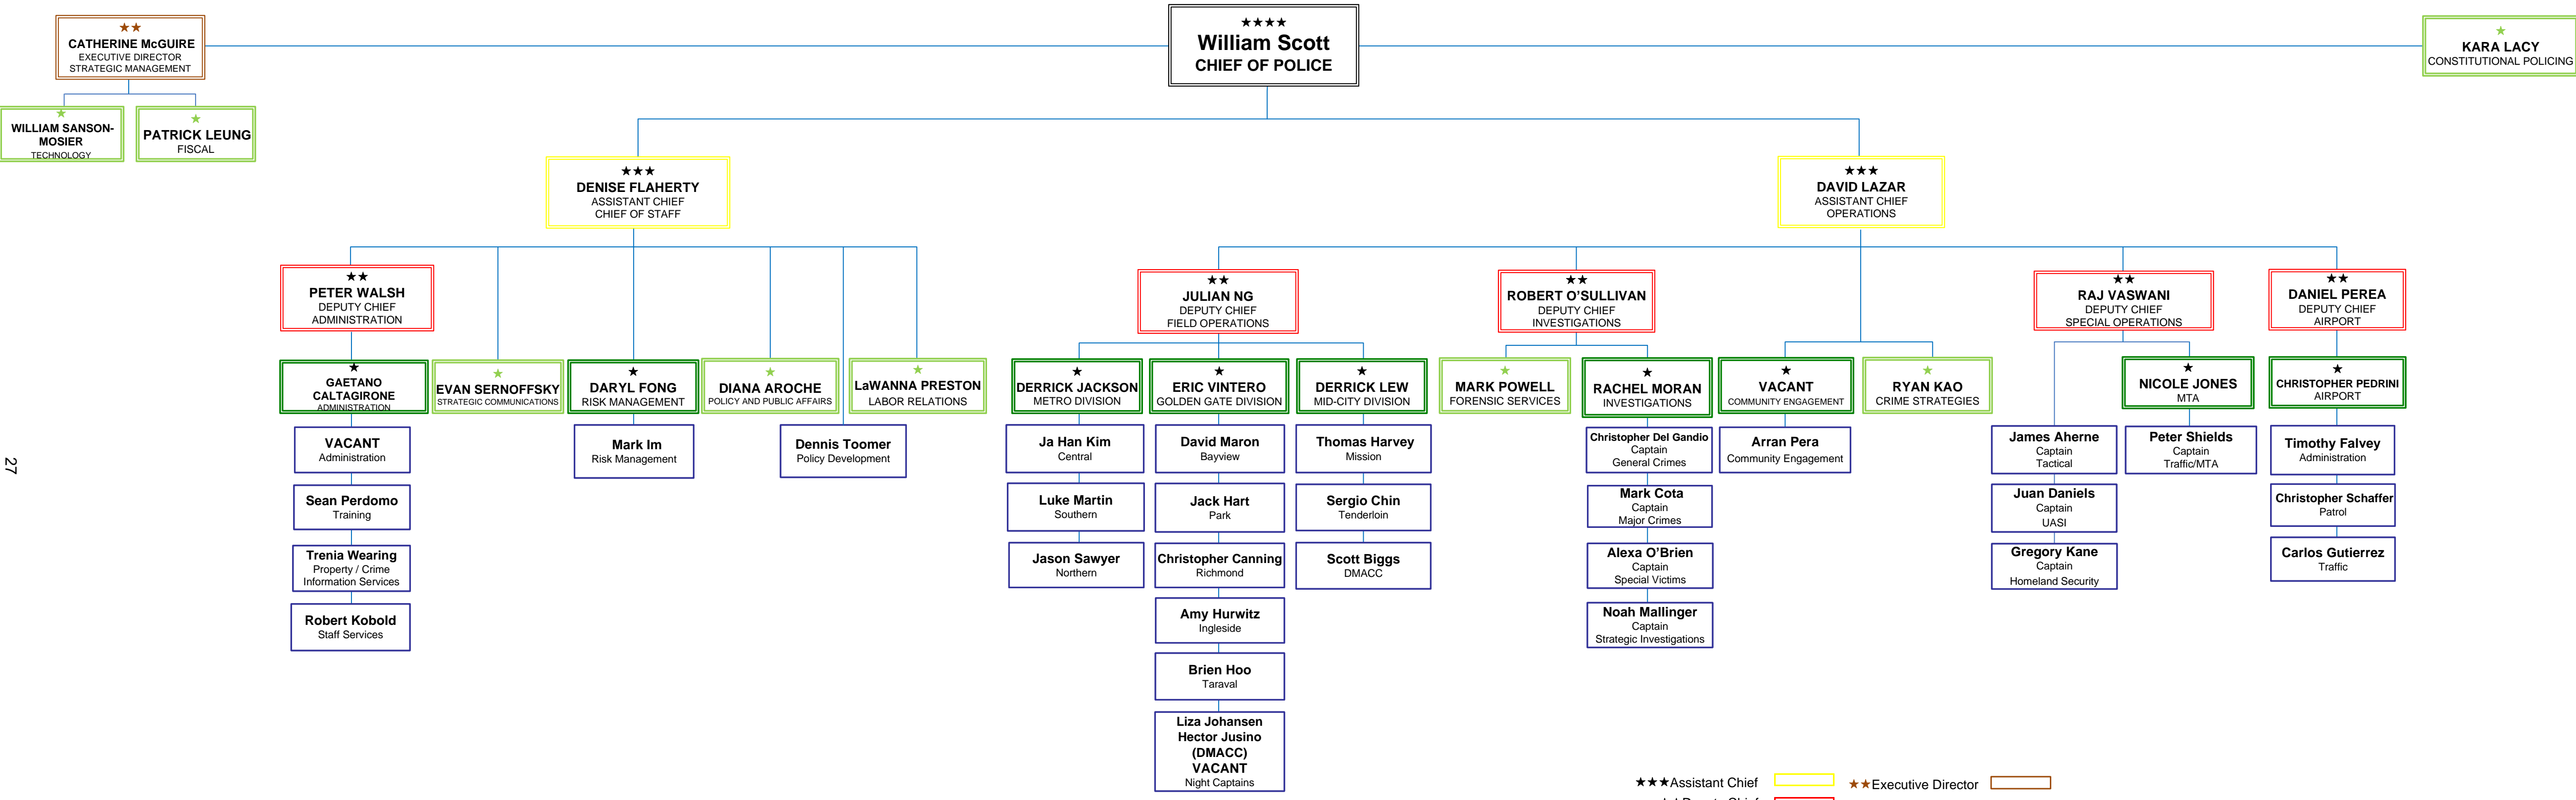

### RECOMMENDATION

Approval of the proposed ordinance is a policy matter for the Board of Supervisors.

**BACKGROUND****Organizational Structure**

The Police Department is organized into three main organizational functions: (1) Office of the Chief of Police, (2) Office of the Chief of Staff, and (3) Operations. The Office of the Chief of Police oversees the entire department and provides the executive level decision making of the agency including employee discipline and policy within the authority of the Chief of Police. The Chief of Staff oversees the (a) Administration Bureau, (b) Risk Management Division, (c) Strategic Communications Division, (d) Policy Development Division, and (e) Policy and Public Affairs. Operations is comprised of four bureaus: (a) Field Operations, (b) Special Operations, (c) Investigations and (d) Airport. Separately, Strategic Management Bureau oversees the (a) Fiscal Division, (b) Technology Division, and (c) Professional Standards Division, which is responsible for reform implementation and sustainability, data analytics, and department-wide audits.

Exhibit 1 below summarizes the programs within each bureau.

Note: Fields with “X” could not be confirmed by the Police Department at the time that this report was published.

The Police Department has two Assistant Chief positions which oversee operations and the administrative functions of the department. The Assistant Chief of Operations oversees 2,608 authorized full-time equivalent positions (FTEs) and the Assistant Chief of Staff oversees 389.50 FTEs. The Strategic Management Bureau has 76 FTEs.

In general, each Bureau under the Assistant Chiefs is overseen by a Deputy Chief. The Strategic Management Bureau is overseen by a 0954 Deputy Director IV, a civilian position, who reports to the Chief of Police. Within each Bureau, divisions are overseen by a Commander, Captain, or a civilian Director.

An organizational chart of the Police Department is included in Appendix A to this report.

**DETAILS OF PROPOSED LEGISLATION**

The proposed ordinance would delete one 0395 Assistant Chief position and three 0490 Commander positions and add 7.69 FTE Q004 Police Officer positions, all within the General Fund.

**Command Staffing**

Exhibit 2 below summarizes the impact of the proposed deletion of command staff positions. Two Commanders funded by the Airport and the Municipal Transportation Agency are not shown.

**Exhibit 2: Deletion of Command Staff Positions**

<b>Position</b>	<b>Filled</b>
Assistant Chief of Staff	Yes
Assistant Chief of Operations	Yes
Commander Administration	Yes
Commander Risk Management	Yes
Commander Metro Division	Yes
Commander Golden Gate Division	Yes
Commander Investigations	Yes
Commander Community Engagement	Yes

Source: BLA Analysis of financial data and Police Department Organizational Chart

Based on the current positions authorized in the General Fund, the proposed ordinance would require deleting either the Assistant Chief of Staff or the Assistant Chief of Operations position. According to the Police Department, the Commander that was overseeing the Community Engagement Division is assigned to the Mid City Field Operations Division, created in May 2023 (discussed below).

According to the Police Department, deleting a filled position would result in a demotion for the person currently in that position to a lower-ranked civil service sworn position, which is the rank

of Captain.<sup>1</sup> Demotions of command staff could also impact the least senior Captains by forcing their demotion to Lieutenant. This could result in reassignments for District Station Captains or Captains assigned to other units.

### **Police Officer Staffing**

As noted above, the proposed ordinance would add 7.69 Police Officer FTE to the currently funded 2,064.25 sworn FTE in the General Fund. Based on information provided by the Police Department during our review of the proposed FY 2023-24 – FY 2024-25 budget and final adopted budget for that period, we estimate that the General Fund will have approximately 285 Police Officer vacancies.<sup>2</sup> This figure excludes vacant Police Officer positions that are used to fund temporary staff and academies. Appendix B to this report details the Police Department's General Fund positions in the FY 2023-24 budget.

## **FISCAL IMPACT**

The proposed ordinance changes the authorized positions within the Police Department by deleting four command staff and adding 7.69 FTE Police Officers. The change in staffing would be funded within the Department's approved General Fund budget for salary and fringe benefits.

## **POLICY CONSIDERATION**

### **Historical Command Staff**

Since FY 2010-11, the Police Department has undergone several changes to its command staff structure (sworn positions ranked Captain and above), which totaled 36 positions in FY 2010-11 and then increased to 47 positions in FY 2017-18, which remains the current count as of this writing.<sup>3</sup> Exhibit 3 summarizes the changes over that time period.

---

<sup>1</sup> Civil Service Rule 221 states, "layoff of permanent appointees shall be by class in a Department in inverse order of seniority except if a more senior permanent appointee elects to be laid off. In the event of a conflict, the permanent appointee with the greater seniority shall have preference" and the oldest senior member will be demoted to their last civil service position.

<sup>2</sup> The Police Department will use vacant officer positions, budgeted at \$38.2 million, to supplement their overtime budget of \$42.4 million, for a total projected overtime spending of \$78.6 million. The Department may also draw on its vacant civilian positions, the \$10 million account in General City Responsibility set-aside for costs related to host the Asian Pacific Economic Conference, as well as any private monies raised to fund related sworn hiring or overtime.

<sup>3</sup> In addition, in FY 2018-19, the Board of Supervisors approved the creation of a civilian Executive Director position (0954) to oversee the Strategic Management Division created that year.

Historically, the Police Department has had the Assistant Chief position in various assignments which has changed over the years. As shown above, in FY 2010-11 there were two Deputy Chiefs and three Assistant Chiefs which followed a reorganization plan implemented by the 2008 Police Executive Research Forum (PERF) report in conjunction with the Controller's Office. The following fiscal year, as part of the strategy to reduce the number of furloughs and/or layoffs experienced during the recession, the Assistant Chief positions were reassigned as two Deputy Chief positions. An additional Deputy Chief was added in FY 2013-14. During FY 2016-17, prior to receiving approval by the Board of Supervisors, the Police Department created five additional command positions, augmenting its command structure with three additional Commanders and two Assistant Chiefs of Police. The Board then approved the creation of these positions in the FY 2017-18 annual appropriation and salary ordinances.

The two Assistant Chiefs of Police positions were added in 2017 to assist the Chief of Police with oversight of the day-to-day operations of the Department as well as to provide greater oversight over the command staff who were assigned to manage the implementation of the recommendations of the 2016 U.S. Department of Justice assessment.<sup>4</sup> The Assistant Chief of Operations oversees the front-line and investigative functions and is focused on implementing public safety strategies in response to community concerns. The Assistant Chief of Staff oversees the internal support functions (personnel, training, policy development) as well as oversight of specific community services including Internal Affairs and the release of police incident and traffic

<sup>4</sup> US Department of Justice Collaborative Reform Initiative - [An Assessment of the San Francisco Police Department](#). The Department of Justice (DOJ), Office of Community Oriented Policing Services (COPS Office) completed its collaborative reform assessment of the SFPD in 2016 and the City had committed to supporting the work of fulfilling the 272 recommendations to help the Department improve its policies and practices, build community trust, and implement industry best practices. Two Assistant Chiefs and three Commander positions were added to help create the necessary oversight and management structure to support the collaborative reform work. According to Department staff, the Department has reached substantial compliance on 245 of the 272 DOJ Recommendations. The Department's Executive Director of Strategic Management attributes implementation of the reform efforts to the five of the commanders in the Department as their full-time assignment in the last 3-6 months of Phase 3 of the engagement with the California Department of Justice.

In June 2022, the Board approved the creation of six 1823 Senior Administrative Analyst positions and four 1824 Principal Administrative Analyst positions between FY 2022-23 – FY 2023-24 to assist with the Department's analysis regarding recruit and retention, updating written directives, and obtaining and reporting on community input.

collision reports. According to Catherine McGuire, Executive Director of the Strategic Management Bureau, the budget request for two Assistant Chiefs and three Commander positions in 2017 is consistent with the Department's current use of the positions.

When there were no Assistant Chief positions in the Department, the five Deputy Chiefs all reported directly to the Police Chief. Under the current structure, one Deputy Chief reports to the Assistant Chief of Staff and four Deputy Chiefs report to the Assistant Chief of Operations. According to Department staff, the removal of command staff would increase the number of direct reports to the Chief of Police and/or to the remaining Assistant Chief of Police and dilute the attention that the areas of oversight receive currently.<sup>5</sup>

Two of three Commander positions created in 2017 were assigned under the Chief of Staff to oversee the Administration Bureau and Risk Management. The third Commander position was appointed to oversee the Community Engagement Division which had been a Captain (Q80) position.

### **Current Command Staffing**

Historically, Field Operations/Patrol was organizationally divided into two geographic divisions: Metro (eastside Police Districts) and Golden Gate (westside Police Districts). In May 2023, the Department created the Mid City Division as a pilot program, which includes the Mission Police District, Tenderloin Police District, newly formed Drug Market Agency Coordination (DMACC) program, Fugitive Recovery Enforcement Team (FRET), and Healthy Streets Operation Center (HSOC).

The Commander assigned to oversee the Community Engagement Division has been loaned to oversee the Mid City Division and a Captain is now Acting Commander overseeing the Community Engagement Division.

According to the Police Department, all Captain positions are filled except one of three Captain roles assigned to oversee field operations night shifts and one Captain within the Administration Bureau. Of the 31 Captain positions, 14 are filled by Lieutenants in an Acting Captain role.

### **Other Options for Oversight**

As noted above, the span of control for each Assistant Chief varies considerably; the Assistant Chief of Staff oversees 389.50 positions and the Assistant Chief of Operations oversees 2,608 positions. Functions currently overseen by the Assistant Chief of Staff could potentially be transferred to the civilian Executive Director of Strategic Management, who currently oversees 76 positions.

---

<sup>5</sup> For example, Department staff state that the elimination the Risk Management Office commander would result in reduced oversight over the legal functions, the internal criminal and administrative investigations functions, and Early Intervention efforts to identify and stop risky behavior before an officer hurts themselves or someone else. These functions have management positions, and with the elimination of the Commander position, they would be reporting directly to the Assistant Chief (if not eliminated) or the Chief (if the Assistant Chief position were eliminated).

**Staffing Study**

In November 2020, voters approved Proposition E, which removed the previously established Police staffing minimum and replaced it with a requirement for a biannual workload-based staffing analysis. The first required study was released in 2022 and was undertaken by the Police Department using analytical methods developed by developed by the City's Staffing Task Force. The report did not recommend increases in command staffing but did recommend increases in other sworn and civilian staffing. The next Proposition E staffing analysis will be issued in Spring 2024.

**Survey of Other Jurisdictions**

We benchmarked San Francisco's Police command staffing against publicly available information in other jurisdictions, the results of which are shown in Appendix C to this report. We found that the average ratio of the top three ranks to total sworn staff is 0.5 percent and San Francisco's is 0.3 percent. However, when considering the top five ranks compared to total sworn staff, San Francisco's ratio of 2.0 percent is higher than the 0.9 percent benchmark average.

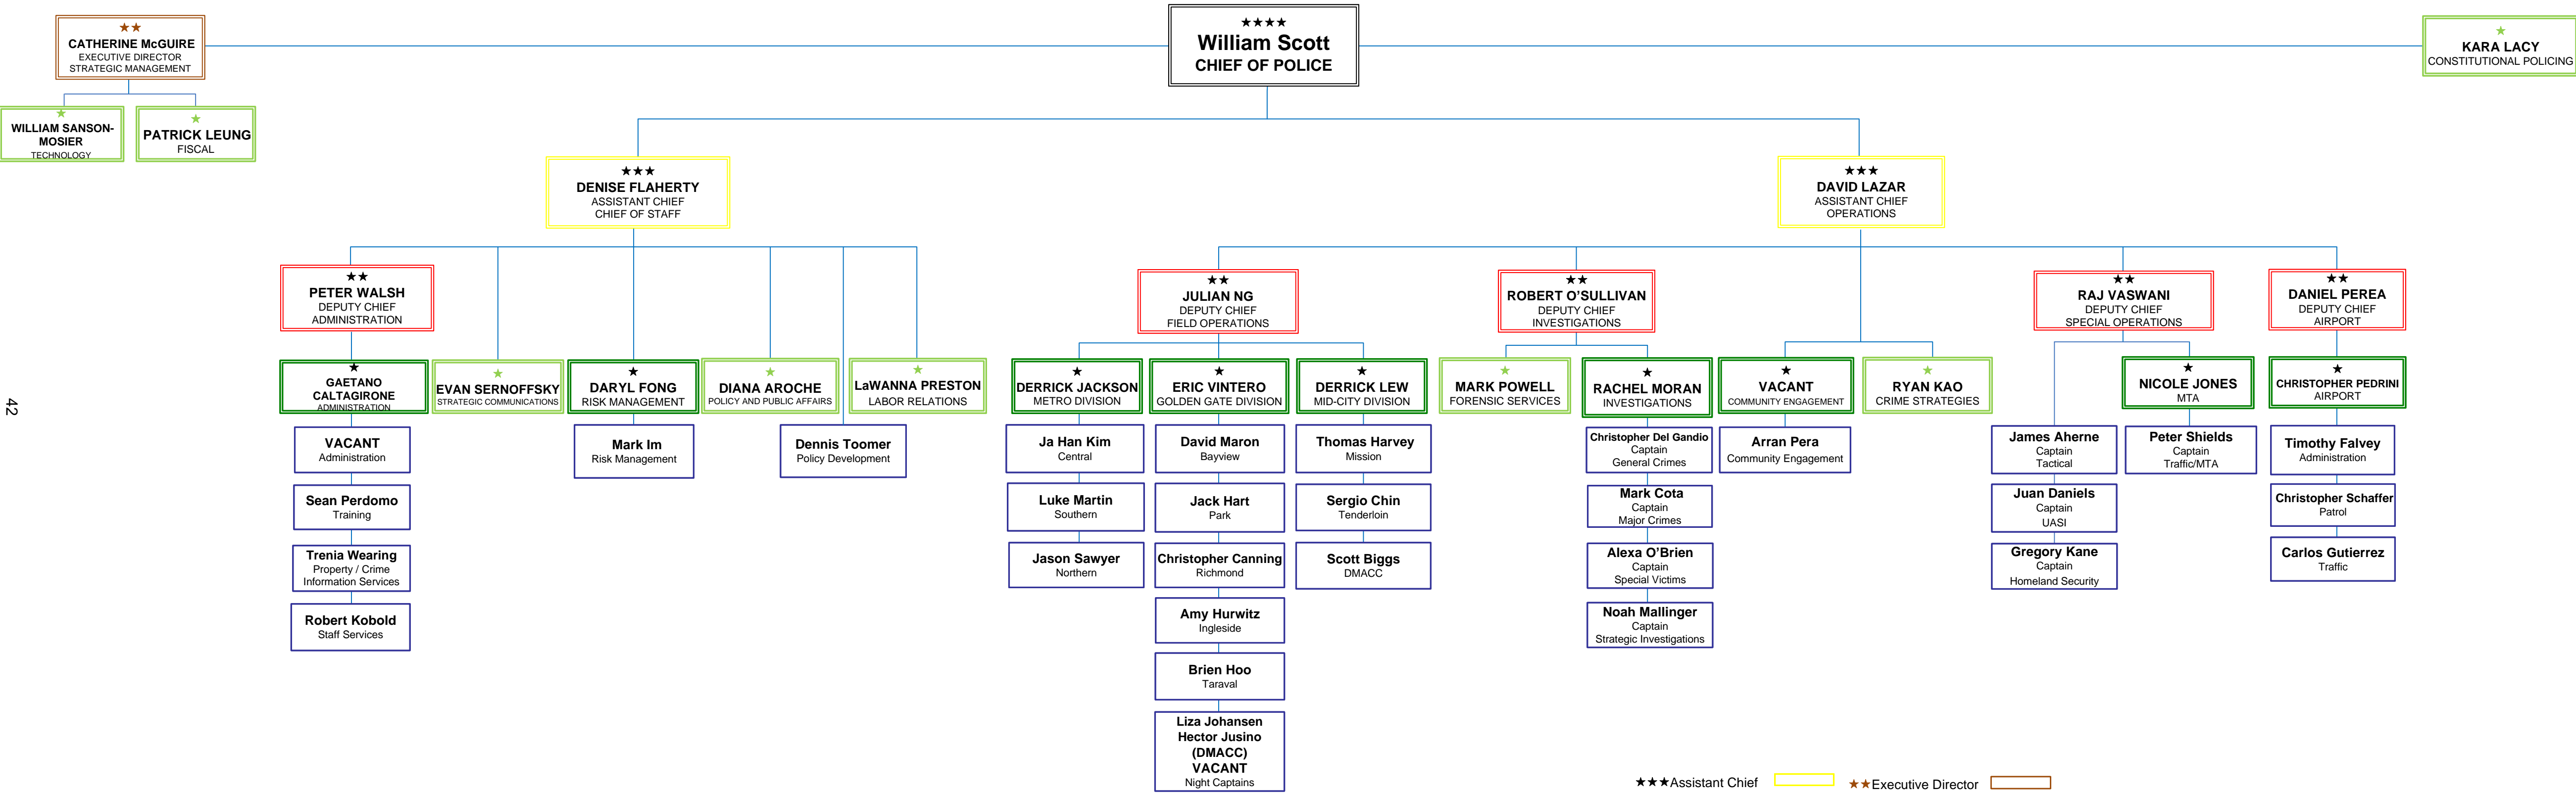

**RECOMMENDATION**

Approval of the proposed ordinance is a policy matter for the Board of Supervisors.

Good Day Supervisors Chan, Mandelman & Safai,

The San Francisco Police Officers' Association has no position on the Amendment Proposal by Supervisor Peskin regarding the elimination of Command Staff positions which are represented by MEA, **UNLESS** it directly affects the members, we represent in the SFPOA. For example if a person from the SFPD Command Staff, is demoted to their last civil service rank of Captain and there are no open spots, which forces the most recent member promoted to the rank of Captain to be demoted to Lieutenant and so on and so forth. This could be from any position on the Command Staff from Assistant Chief, Deputy Chief or Commander.

The current Department General Order 1.01 Organizational Structure needs to be revised to show the current up to date positions that have been increased within the organization. Within the DGO it does not specify the number of Captains the department should have, but it has ranged from the mid-20s to roughly 32 over the past few years. I understand that this is a policy issue to be taken up with the entire Board of Supervisors.

Thank you for your time and consideration in the matter before you.
