# A4

## GHG ACCOUNTING METHODOLOGY

Most of the global average warming over the past 50 years is extremely likely due to increases in greenhouse gas (GHG) emissions from sources originating from human activity according to the Intergovernmental Panel on Climate Change (IPCC).

This global average warming causes changes to physical and biological systems that are detrimental to our environment and economic stability. In response to these findings, many jurisdictions have developed GHG emission reduction goals. For example, California passed the 2006 Assembly Bill 32, Global Warming Solutions Act (AB 32) and San Francisco developed the 2004 Climate Action Plan for San Francisco. In alliance with these GHG emission reduction goals, Mission Rock intends to minimize its future GHG emissions through reduction strategies.

To determine the most effective GHG emission reduction strategies for the Mission Rock development,

Auditor developed a tool that evaluates GHG emissions from energy, waste, water, and transportation sources. The purpose of the tool is to 1) define a methodology for accounting and reporting GHG emissions associated with the Mission Rock development, 2) estimate an equivalent CO<sub>2</sub> (CO<sub>2</sub>e) baseline based on the proposed masterplan, and 3) compare potential GHG emission reduction strategies to the CO<sub>2</sub>e baseline. This tool will be used during development of the Sustainability Strategy to make informed design decisions, track projected GHG emission performance, and demonstrate potential GHG emission reductions on the Mission Rock site.

## METHODOLOGY

Atelier Ten have defined a methodology for accounting and reporting GHG emissions specifically associated with the Mission Rock development. This provides an equivalent CO<sub>2</sub> (CO<sub>2</sub>e) baseline, which is the concentration of CO<sub>2</sub> that would cause the same effect as a different greenhouse gas. The applied methodology is based on an independent and internationally vetted GHG accounting and reporting protocol to ensure accuracy and transparency. Atelier Ten evaluated ten different GHG accounting and reporting protocols. From this evaluation, Atelier Ten determined that the ICLEI U.S. Community Protocol (Community Protocol) was the best protocol to use to assess the Mission Rock development because it provides guidance on quantifying GHG emissions on a community-wide scope. Unlike the other protocols that assess individual organizations or single projects, the Community Protocol accounts for GHG emissions associated with the sources and activities of an entire community.

To develop the methodology, Atelier Ten adapted the Community Protocol to fit the scope of the Mission Rock development. Atelier Ten did not include the other sectors (agricultural livestock, materials, and consumption-based activities) in the methodology because these sectors are outside the scope of the Mission Rock development or have significant industry-based data gaps. Therefore, the methodology estimates the GHG emissions from the built environment (energy), water, waste, and transportation.

## BOUNDARY

Each sector has a different boundary around the Mission Rock site for which associated GHG emissions are included in the CO<sub>2</sub>e baseline. For example, the boundary of the built environment is limited to the residential and commercial buildings within the Mission Rock site boundary. The water boundary includes surface water and groundwater supply sources outside of the site boundary. The waste boundary includes landfills and recycling centers within 50 miles of the Mission Rock site. The transportation boundary includes San Francisco, San Mateo, Santa Clara, Alameda, Contra Costa, Solano, Napa, Sonoma, and Marin counties.

## EXCLUSIONS

The results from the assessment presented here exclude carbon emissions associated with the proposed Anchor Brewery development (although a preliminary assessment has been completed). The brewery will naturally increase annual carbon emissions across all four performance areas (adding additional uses generally increases greenhouse gas emissions). However, the brewery also has the unique potential to reduce to not only carbon emissions associated with its own operations but also opportunities to reduce carbon emissions across the Mission Rock site. These opportunities have not yet been fully explored by the project team. Once further developed, these proposals are expected to be included in a future update of the Sustainability Strategy.

## COMPARISON ASSUMPTIONS & NOTES

- ▶ The energy baseline is linked to ASHRAE 90.1 code compliant EUIs for the San Francisco climate.
- ▶ It is expected that all development at Mission Rock will need to follow LEED version 4 (effective 2015) requirements. As LEED certification is a San Francisco requirement for new development, this sets a code-compliant base case of at least 5% energy improvement over ASHRAE 90.1-2010.
- ▶ The emission factors for electricity and gas were provided by Pacific Gas & Electric, as also used by the project team in the assessment of the central plant. Alternative emissions factors may be supplemented when more is known of the proposed energy supply to the development.
- ▶ The water baseline is based on national average performance by using the LEED baseline assumptions for water use.
- ▶ GHG Emissions associated with water are a result of conveyance and treatment.
- ▶ The baseline estimated waste GHG emissions estimate is based on current diversion rates and disposal methods in San Francisco. The proposed case includes the expected additional achieved diversion.
- ▶ The transportation baseline has been established by the Transport Demand Management Plan and data supplied by Adavant Consulting. This is based on the current transportation mode breakdown for the Mission Rock location. The proposed case shows the expected decrease in vehicle miles traveled based on strategies implemented in the TDM plan and the Sustainability Strategy, which are expected to increase use of alternate modes of travel within and to/from the Mission Rock neighborhood.

- ▶ Carbon emissions may change as a result of defining carbon emission factors associated with the proposed central plant, depending on the design of the plant and energy sources.
- ▶ Carbon results could also easily change as a result of purchasing lower carbon electricity.
- ▶ Grid emissions factors are amended on an annual basis to represent the changing energy supply sources across the US.

#### ENERGY

The built environment includes the residential and commercial buildings as well as the supporting infrastructure in the Mission Rock development. GHG emissions from the buildings, occupant activities, and operational processes are included in the CO<sub>2</sub>e baseline. The CO<sub>2</sub>e baseline includes GHG emissions associated with the following energy end-uses:

##### Electricity:

- ▶ Hvac
- ▶ Lighting
- ▶ Plug loads/miscellaneous

##### Gas:

- ▶ Domestic water heating
- ▶ Hydronic/space heating
- ▶ Kitchen
- ▶ Central utility plant (CUP)

GHG emissions associated with the built environment and related energy use were calculated by applying a variety of EUI factors for energy end-uses to aggregated anticipated land use distribution and multiplying by energy use emission factors.

The EUI for the national baseline was estimated using the ENERGY STAR Portfolio Manager U.S. National Median Reference and Energy Information Administration Residential Energy Consumption Survey. Emissions factors for the U.S. baseline were based on the national averages provided by the Environmental Protection Agency's Emissions & Generation Resource Integrated Database (eGRID).

The anticipate EUI for the San Francisco Baseline was calculated based on a Title 24, 2016 code compliant building for the respective program types.

Electricity emission factors from Pacific Gas and Electric (PG&E) annual emissions data was used to calculate the GHG emissions associated with the San Francisco baseline built environment. However, this emission factor can vary each year based upon available energy sources (coal, nuclear, hydro, wind, and solar).

Natural gas emission factors are also provided by PG&E. The natural gas emission factor does not vary annually because it accounts only for the combustion of the gas, not the extraction and delivery of the gas.

Tables 1 and 2 show a summary of the CO<sub>2</sub>e baseline assumptions for the built environment/energy sector.

#### WATER

Water consumption by Mission Rock's residents and businesses will have a relatively small GHG implications because the source of water, distances and topography associated with conveyance, and treatment processes are favorable. Wastewater treatment also creates process, stationary, and fugitive GHG emissions. The CO<sub>2</sub>e estimate includes GHG emissions associated with the following water processes:

Supply and conveyance

Treatment to potable standards

Municipal distribution

End-use pumping

Wastewater collection

Conventional aerobic treatment

These processes emit the majority of GHGs associated with water use by Mission Rock's residents and businesses. However, fugitive GHG emissions from wastewater generation and treatment process are included.

Emissions associated with water consumption and wastewater treatment were calculated by applying a variety of energy use intensity factors to selective processes within each system, and multiplying these values by a representative population and per capita water use figure. These values were drawn from the Community Protocol, Appendix F. Table 3 in the Appendix details the assumptions made in characterizing water and wastewater emission profiles.

## TRANSPORTATION

Transportation is one of the largest potential sources of GHG emissions in the Mission Rock development. Combustion of fuel in vehicle engines produces various GHG emissions. Electric vehicles also produce indirect emissions from electricity generation. GHG emissions associated with the movement of people and goods by public transportation and vehicles are estimated in the CO<sub>2</sub>e baseline.

**Vehicles:** Emissions associated with transportation are based on the number of vehicles, vehicle type, distance travelled, and emission factors per vehicle type. On-road vehicle statistics are based upon San Francisco averages interpolated for a site weighted percentage, by applying a population diversity factor. This data comes from the EMFAC database software developed by the California Department of Transportation and California Air Resources Board.

EMFAC database provides aggregated vehicle statistics specific to each county in California including vehicle type miles travelled (vmt), vehicle type distribution/population/age/fuel, vehicle type emissions/vehicle/miles, and number of trips. This data is used to determine the estimated number of miles travelled, ignitions, and minutes idling for each vehicle type and class. Emission factors for ignitions, running, and idling are then multiplied by their respective vehicle type miles, ignitions, and idling time to calculate the associated GHG emissions. These were aggregated to create a typical vehicle for San Francisco.

For the Mission Rock site, the number of vehicle miles traveled (VMT) that can be attributed to the site were calculated for a baseline case without any strategies to reduce car reliance. The VMT multiplied by the emissions per mile determined the total GHG emissions due to transportation. Once the transportation strategies had been identified for the site, the estimated reduction in VMT was calculated with the corresponding reduction in GHG emissions.

## WASTE

GHG emissions result from the management and natural decay of solid waste. Management of solid waste results in emissions from the combustion of fossil and/or biological fuel in equipment used to transport and process the waste and from the combustion of the solid waste in incinerators and waste-to-energy technologies. The CO<sub>2</sub>e baseline includes emissions from the solid waste generated by the residents and businesses in Mission Rock (regardless of where it is disposed of) and emission from the solid waste disposed of inside the Mission Rock boundary.

San Francisco has aggressive waste disposal policies and high diversion rates (80% commercial / 50% residential), which results in relatively low solid waste levels. GHG emissions associated with the collection, transportation, and landfill disposal are included in the CO<sub>2</sub>e baseline. Inputs include a per capita waste generation value, collection and transportation emissions factors, efficiency factors to account for various processes involved in the degradation of solid waste, and a mixed stream factor.

Atelier Ten assumed solid waste was sent to the Altamont Landfill, which is within 50 miles of the Mission Rock site. Reliable data on waste stream characterization (ie % paper, % biodegradable, % fabrics, etc.) of the Mission Rock waste stream is not available; therefore, Atelier Ten assumed a representative mixed solid waste stream, with a single emission factor.

Table 5 in the Appendix lists the assumptions made in calculating CO<sub>2</sub>e emissions associated with waste generation and disposal for Mission Rock.

| EMISSION FACTOR ASSUMPTIONS      |                                   |   |
|----------------------------------|-----------------------------------|---|

TABLE 4: Waste Emission Assumptions

---

## A5: WATER

The Mission Rock development identified zero water waste, where no potable water is used for non-potable demands, as the primary water goal. This goal minimizes the impact of the development on water systems by aggressively reducing the overall water demand and producing on-site recycled water to meet the site's non-potable demand.

Recycled water distribution piping serving each building is required by the city and is assumed in all of the cases.

Rainwater was excluded from the calculations because the seasonal availability means that it would not be possible to meet the zero water waste goal throughout the summer without huge storage capacity.

### REUSE OPTIONS CONSIDERED

Various reuse options were evaluated, including decentralized graywater treatment and reuse, centralized graywater or blackwater treatment and distribution using a variety of buildings as potential sources, and an option to team with adjacent developers to engage a third party recycled water provider. On-site centralized graywater treatment with collection from a limited number of residential buildings was determined to be the most cost effective strategy to meet the zero water waste goal.

The site water demands for irrigation and flushing were calculated to determine the anticipated demand for water. The availability of non-potable water was determined for each option and compared against the non-potable demand to determine if the zero water waste goal could be met.

A detailed description of each of the primary water reuse options that was considered is included below and in Figure A5.1.

#### CODE MINIMUM DECENTRALIZED TREATMENT

The current version of San Francisco's Mandatory Use of Alternate Water Supplies In New Construction Ordinance No. 109-15 as amended in May 2015 requires water reuse in new buildings larger than 250,000 ft<sup>2</sup>. Currently this only applies to five buildings in the Mission Rock development: A, B, C, F, and G. Future versions of the ordinance may extend this requirement to all buildings.

To minimally meet the code, graywater reuse systems would be required within five buildings, but the remaining buildings on site wouldn't have recycled water, so the option falls short of the zero water waste goal.

#### 1. Code Minimum Centralized Treatment

A centralized graywater treatment system that only collects graywater from the buildings that are required by code to have reuse systems places no additional burden on other buildings in the development. Graywater collection piping would be required in five buildings and the street.

This case, summarized as Option 1 in Figure A5.1 uses a centralized treatment that distributes recycled water to all buildings on site and provides sufficient water to meet the zero water waste goal, however collecting water from office buildings is inefficient because they do not produce much graywater and due to spatial

FIGURE A5.1: Recycled Water Options

constraints under certain streets it was not possible to provide the pipes to bring graywater form all of these buildings to a central location.

**2A. Code Required Residential Collection**

Limiting water collection to residential buildings A and F because they produce substantially more graywater than commercial buildings is more cost and material efficient than case 1, but does not meet the zero water waste goal.

**2B. Optimized Residential Collection**

To reach the zero water waste goal, including building K in addition to A and F ensures that enough graywater producing buildings are connected to the collection and treatment system. This case was selected for the Mission Rock development because it includes the smallest infrastructure investment while easily meeting the zero water waste goal. The infrastructure requirements in the streets for this scenario are feasible.

**3. Blackwater Collection**

Blackwater could be withdrawn directly from sewer so no additional collection piping in buildings or the street would be required in a blackwater treatment case. Water quality testing requirements, and cost are substantially more than a graywater treatment system. A blackwater treatment system also requires a larger footprint in the central plant for equipment and water storage. This option could easily meet the zero water waste goal, but has additional operational and infrastructure requirements that make it less desirable than a graywater option.

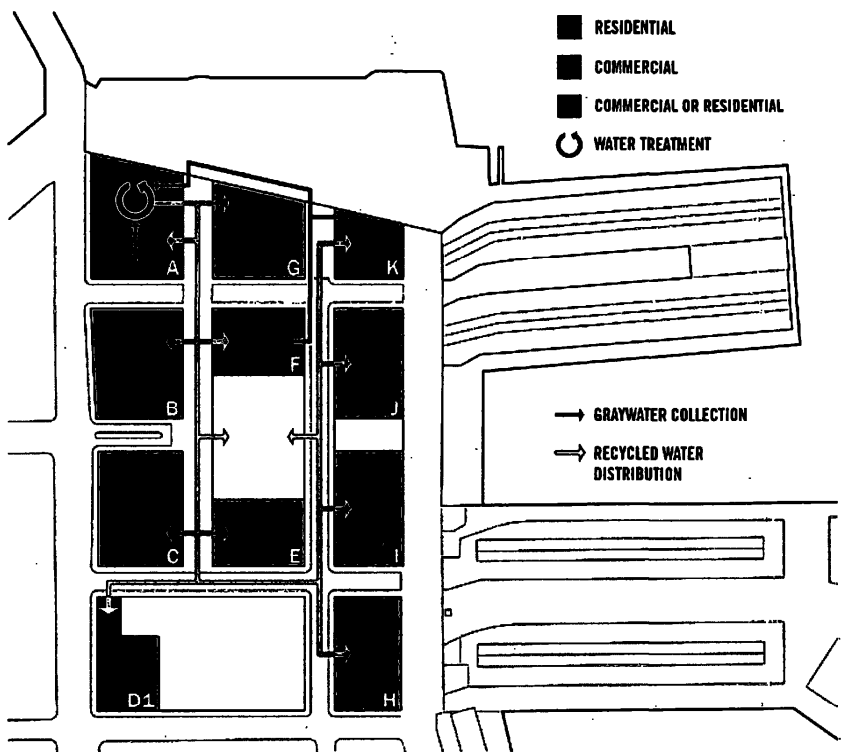

FIGURE AS.2: Graywater collection and recycled water distribution infrastructure

#### 4. Recycled Water Supplied by 3rd Party

A third party supplying recycled water to the site would require the smallest infrastructure investment on site, but due to the operational timeline, is not a viable option for the Mission Rock project. The SFPUC and third party operators have proposed municipal neighborhood scale recycled water supply systems, but these supplies will not be available.

#### WATER REUSE OPTION PROPOSED

The optimized graywater collection from residential buildings meets all of the project requirements while limiting infrastructure investment. Figure A5.3 shows the anticipated collection and distribution layout. Calculation summary tables are included at the end of this section.

#### Phasing

Because two residential buildings with graywater collection, A and K, are included in Phase I, there should be a sufficiency supply of treated graywater to meet all flushing and irrigation demands on site until Building F is built in Phase III.

#### Infrastructure

The central energy plant is currently planned in Building A and will include sufficient space for a graywater treatment and storage system.

Graywater collection from residential buildings is required in buildings A, F, and K. Because of space limitations in the streets, it is anticipated that the collection piping will be routed along the inside of China Basin Park.

#### SITE INFORMATION

| PARCEL | USE         | TOTAL GFA<br>[FT <sup>2</sup> ] | Area/Person<br>[sf/person] | Occupants |
|--------|-------------|---------------------------------|----------------------------|-----------|

FIGURE A5.3: Collection and distribution layout

Recycled water distribution piping is required by the city and will serve all of the buildings and park in Mission Rock development. Mission Rock is working with the SFPUC to confirm who will own and maintain these pipe and ensure that they can be charged with recycled water from the central treatment system.

#### BAY SOURCE COOLING

Bay source cooling is currently anticipated for the project, saving more than 40 million gallons of water a year by eliminating the need for cooling towers and their associated water consumption.

If the bay source cooling is not viable for the project due to regulatory obstacles, cooling towers will be instated in the project to meet the cooling demand. If this is the case the water demand of the cooling towers should be met with non-potable sources. Graywater resources from all buildings on site are insufficient to meet the 40 million gallon anticipated demand. Blackwater harvesting and treatment from both buildings and the brewery wastewater would begin to meet this demand. If cooling towers are introduced to the project, the approach to water conservation and reuse will have to be reassessed.

# A5: ENERGY

The Mission Rock development is focused on reducing the GHG emissions associated with energy consumption. A variety of approaches were analyzed to define the most effective structure for meeting the district's energy requirements. These approaches included Title 24 exceedance, a energy use intensity (EUI) target, and a percentage better than ASHRAE 90.1-2010. Ultimately, a requirement for 100% renewable energy was selected for the Mission Rock development because it eliminates GHG emissions associated with energy consumption on site and encourages efficiency at the building scale.

## CONSIDERED APPROACHES

### Title 24 Exceedance

Tying the energy performance to Title 24 through a fixed percentage better than code was considered as a method to enforce increased building efficiency. Because of uncertainty in projecting energy code requirements and challenges in demonstrating compliance with current Title 24 modelling software this was not considered an effective approach. The Title 24 energy model also uses a different energy metric and a standardized operational schedule and climate file, so modeled energy performance may differ considerably from actual operational energy consumption.

### EUI Target

A ramping EUI target for each of the different building types was also considered. However, understanding how an EUI target would track with code was not feasible because California has not indicated its path to meeting its 2030 Net Zero Energy goals. As a result, establishing an EUI target which continues to be aggressive but achievable relative to code is challenging. An EUI target may substantially over or underestimate code, either becoming meaningless because it is too easy to comply with or excessively difficult, placing a burden on developers.

Also, an EUI target does not accurately reflect differences in operation schedule and occupancy type that might occur within each building type. An office building with late night occupants and lots of equipment would have the same target as an office building that sticks to a strict regular office hours schedule with few computers, even though it would consume substantially more energy, potentially causing unequal burden on different developers.

### ASHRAE 90.1 Exceedance

A percentage improvement over ASHRAE 90.1-2010 baseline was also considered as a method for enforcing energy efficiency because it accommodates different occupancies is the industry recognized standard used for LEED compliance. The primary concern is that it does not track with changing energy code in California and will not remain aggressive enough throughout the Mission Rock timeline.

### PROPOSED APPROACH

In the end, the team arrived at an approach with that calls for 100% renewable energy to eliminate GHG emissions associated with energy consumption. The program requires developers to purchase off-site renewable energy to offset all of the energy consumption at the building scale. This structure provides incentive for vertical developers to build more efficient buildings by associating up front cost with operational energy cost. Developers can determine the most cost effective path to meeting this requirement through a balance of energy efficiency and renewable investment. A minimum level of building performance is guaranteed by Title 24 energy code, and given the progressive nature of this code, will remain at the cusp of viable energy efficiency.

### Off-site Renewable Energy

While on-site renewable would be preferred, there is not enough space on site to meet energy demand with on-site renewable energy generation. Figure A5.6 shows the potential for on-site renewable energy including solar panels installed on the roof and a proportional share of Pier 48 and adjacent Pier 50. Even with all of these sources, a typical building will only be able to meet less than half its annual energy demand with on-site renewable sources. Off-site solar panels installed at a remote site can provide sufficient renewable energy to serve the project. Additionally, solar potential is greater in locations outside of the Bay Area.

Investing directly in new renewable energy generation capacity is central to ensuring the Mission Rock development receives its power from renewable sources. Renewable energy credits (RECS) are not an acceptable source of off-site renewable energy offsets because they cannot be proven to result in direct investment in new renewable sources and so do not meet the additionality requirement for the Mission Rock development. Similarly, the existing renewable energy component of the electric grid is existing and cannot be counted towards the renewable energy requirement on the Mission Rock site.

FIGURE A5.6: On-Site Renewable Potential

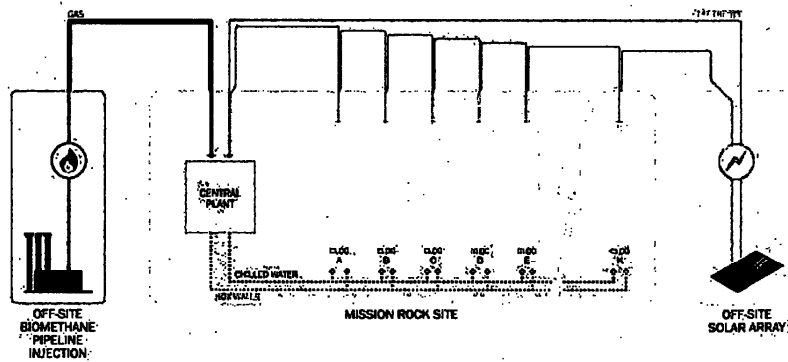

FIGURE AS.7: Off-site Electricity and Biomethane Renewable Energy Offset

FIGURE AS.8: Off Site All Electricity Renewable Energy Offset

The anticipated energy demand determined as part of the energy modelling conducted for LEED certification will be used to determine the required renewable energy investment. The energy model will be reviewed by the Green Business Certification Institute (GBCI) and part of LEED certification, placing the technical verification of the energy performance on an impartial third party. The anticipated annual energy use of the building will determine the amount of off-site renewable energy that needs to be purchased. On-site renewable energy can contribute to compliance, but off-site renewable energy will be required to reach 100%.

While vertical developers will primarily control the core and shell of the building, savings in tenant areas of the building can be enforced (and thus reduce the renewable energy requirement) through lease agreements or other legal structures.

There are a variety of factors that have to be clarified to ensure that a program like this will be possible on the Mission Rock site including utility provider, metering requirements, rate structure, how gas consumption at the central plant and individual buildings will be accommodated, and cost of the program.

#### UTILITY PROVIDER

The exact utility program or metering structure to allow off-site renewable power will be determined as the development progresses. The electricity utility serving the site will either be PG&E or SFPUC Power. Each has different implications for off-site renewable energy.

Precedents for purchasing off-site renewable energy in this manner exist, but Mission Rock will still be providing an innovative and progressive solution to renewably sourcing energy for the development. The goal of 100% renewable energy is an commitment informed by utility limitations, energy markets, and environmental impact.

#### Pacific Gas & Electric

For PG&E there are a couple of rate structures that may allow offsite renewable energy to server the site.

**Direct access:** This program allows large customers to purchase energy directly. PG&E still provides administration and delivery for the energy, but the customer can negotiate energy purchases directly from the generation source of their choice. Aggregating all of the service points on the Mission Rock site may make this approach viable. The PG&E direct access program is currently at the maximum annual load cap, although the cap may be expanded or the program changed when the Mission Rock buildings open for occupancy. Direct access is also typically only for commercial accounts, not residential. The expansion of the direct access program is currently being considered by the State Assembly.

**Regional Solar Choice:** In this program, solar developers build solar farms and negotiates to sell power directly to customers. PG&E is still responsible for billing, administration, metering and transmission. This program is best managed at the building scale, where individual vertical developers engage with solar developers to provide offsite renewable energy for the whole building. The Regional Solar Choice program currently has a 2019 closing date, but the program cap may be expanded and the timeline extended once reviewed by the CPUC. Any renewable energy that falls under this program does not count towards the renewable portfolio standard required in California, which requires 33% renewable energy by 2020 and 50% by 2030. The regional solar program limits system size to 3 MW, which should substantially exceed individual building demand.

Because of the size and regulatory environment of PG&E, the Mission Rock project would probably have to fit into an existing rate structure:

#### San Francisco Public Utilities Commission

The SFPUC may be the electricity utility provider on the Mission Rock site as the property is owned by the Port of San Francisco. SFPUC serves city properties in San Francisco, but is expanding service to non-city customers, including the Pier 70 development. SFPUC power is generated entirely by Hetch Hetchy hydro power. If the Mission Rock development connects to this power source, the power consumed on site could be considered 100% carbon free, but California does not consider power from large scale hydro projects

to be renewable to count towards the renewable portfolio standard. Also this power would not meet the additionality requirement established by the Mission Rock project because the generation infrastructure is existing and the project would not be investing in new renewable generation sources meant solely to serve the project.

If SFPUC is power provider on site, there may be more flexibility to create a program that meets the goals for the site, while meeting metering and regulatory requirements. Arranging this program would require meeting with the SFPUC to determine the both the metering requirements and generation source. This may be easiest to manage at horizontal developer scale, to simplify negotiations. A structure similar to PG&E's Direct Access program or a program where SFPUC operates the generation source, but the Mission Rock development pays for the infrastructure, could work.

If none of these options with either utility meet Mission Rock's requirements, a pure financial transaction "contract for differences" might be a viable alternative. Mission Rock would enter into an agreement with a solar developer to build and operate a renewable energy generation source. The solar developer would then sell this power directly to the utility at wholesale prices. This revenue would then be used to offset the cost of power purchased on the Mission Rock site. A program like this would essentially work as a virtual net metering arrangement at the utility scale. This acts as a hedge against the cost of power increasing.

#### CENTRAL PLANT OFFSETS

The central plant will also need to offset its energy consumption with a renewable source. The electricity required to operate the chillers and other equipment can be offset the same as the rest of the electricity on site, while the approach to offsetting gas consumption may require a different approach.

##### Biomethane Pipeline Injection

Biomethane produced from biomass, dairy manure, or other low impact sources can be injected into the grid to offset traditional gas production and consumption. This gas can be purchased remotely by customers to offset gas consumption on a project site. This method of gas offset is very similar to the structure proposed for renewable electricity offsets on the Mission Rock site. There are multiple companies injecting biomethane into the natural gas grid in California. Biomethane grid injection is the preferred energy approach as it is a direct investment in gas. This approach is summarized in Figure A5.7.

##### On-site Biomethane Production

Wastewater, rich in nutrients, from the Anchor Brewery on site can be used to produce biomethane for use in the central plant. The amount of energy produced by this system is difficult to predict without further information from Anchor, but it would probably be insufficient to meet the entire demand of the central plant and the remaining offset would have to be met through other approaches. Furthermore, Anchor may already be planning to install a system to treat their wastewater and produce energy, which would make

this source of biomethane unavailable to the Mission Rock central plant.

##### Electricity Offsets

The natural gas consumption in the central plant and individual buildings can be offset with renewable energy, where the renewable production is equal to the gas consumption of the central plant. A framework for translating gas consumption to electricity is defined in the DOE definition of Net Zero buildings in "A Common Definition for Zero Energy Buildings" which permits the use of renewable energy to offset non-renewable fuel consumption. This approach to gas consumption offsets is summarized in Figure A5.8.

This approach would require the roofspace of Pier 48, the parking garage in Parcel D, or equivalent renewable energy output off-site.

**Sustainability Strategy Implementation Checklist**

| Sustainability Strategy  | Requirement Summary*  | Implementation Responsibility              | Compliance Timing   | Compliance Enforcement Process  |
|--|---|--|---|---|
| <b>ADAPTABILITY &amp; RESILIENCE</b>   |   |  |   |   |
| Site Elevation Meets 2100 projection for sea level rise                          |   |  |   |   |
| Sea Level Rise Protection  | All building finished floors to be elevated to 104 ft. (MBD) or 15.3 ft. (NAVD88).  | Master Developer                           | Phase Application   | Port to confirm finish grade for all parcels are elevated to at least 104 feet at a point along the property line during review of Basis of Design with each Phase Application.   |
| Storm Surge Protection   | Saline-tolerant native or climate appropriate plant species shall be included in the maintenance and management strategy of the storm water gardens adjacent to the Bay to increase resilience of treatment gardens in the case of inundation in a Bay flood event.   | 1. Master Developer<br>2. Master Developer | 1. Review of Parks and Open Space Operations and Maintenance Plan<br>2. Schematic Design Review of China Basin Park | 1. Port to confirm specification of saline-tolerant native or climate appropriate plant species in stormwater gardens during review of Operations and Management Plan for China Basin Park.<br>2. Port to confirm specification of saline-tolerant native or climate appropriate plant species in stormwater gardens during review for Schematic Design Application completeness for China Basin Park.  |
| Passive Survivability  | Pursue a central energy plant (CEP) and a centralized graywater treatment plant to increase likelihood that heating, cooling and non-potable water could be provided during times when City supplies become unavailable. [subject to confirmation of feasibility]     | Master Developer                           | Phase 1 Application   | Port to confirm Phase 1 Application includes a feasibility study for the central energy plant and/or central greywater treatment plant. If the feasibility study indicates that the central water treatment plant and/or central energy plant are feasible, the study shall include a detailed description of the proposed facility(ies). If the feasibility study indicates that the central water treatment plant and/or central energy plant are not feasible, the study shall include a narrative describing why the facility(ies) are considered infeasible. |
| <b>WATER</b>   |   |  |   |   |
| Zero Water Waste: Meet 100% Of Non-Potable Water Demand With Non-Potable Sources |   |  |   |   |
| Water Efficiency Standards   | Vertical developer must install or implement a tenant lease agreement that requires tenant to install domestic water efficient fixtures that meet or exceed the following performance requirements. All eligible fixtures must be Water Sense or ENERGY STAR labeled. | Vertical Developer                         | Parcel Lease  | Port to confirm provision for tenant lease agreements in Parcel Lease that requires tenant to install domestic water efficient fixtures that meet or exceed water efficiency standards in Sustainability Strategy.  |
| Central Water Treatment  | Pursue a central water treatment plant that has sufficient capacity to treat, store, and distribute recycled water to all buildings and vegetated open space on site. [subject to confirmation of feasibility]  | Master Developer                           | Phase 1 Application   | Port to confirm Phase 1 Application includes a feasibility study for the central water treatment plant. If the feasibility study indicates that the central water treatment plant is feasible, the study shall include a detailed description of the proposed facility. If the feasibility study indicates that the central water treatment plant is not feasible, the study shall include a narrative describing why the facility is considered infeasible.  |

\*Refer to the Mission Rock Sustainability Strategy for a complete description of each Requirement.

|                             |   |   |   |   |
|-----------------------------|---|---|---|---|
| Recycled Water Distribution | All building, vegetated open space, and streetscapes must connect non-potable demands to the recycled water distribution system. This includes toilets, urinals, and irrigation at minimum.   | 1. Master Developer<br>2. Vertical Developer                        | 1. Schematic Design Review of Park Parcels<br>2. **DDA EXHIBIT B9**  
**REQUIRED SUBMITTALS FOR SOP COMPLIANCE REQUEST**

## **DDA EXHIBIT B9**

### **REQUIRED SUBMITTALS FOR DEVELOPER REQUEST FOR A DETERMINATION OF SOP COMPLIANCE**

The following items must be submitted to the Port as part of the Request for a Determination of SOP Compliance.

If Public Works has not issued a Determination of Completion for any Phase Improvement, the following are required:

- ☐ Append copies of any Determinations of Completion for the Phase Improvement(s) previously issued by Public Works, if applicable.
- ☐ Complete all work described in the permit including instructional bulletins (IBs) and notice of correction report (NCRs):
- ☐ Complete corrective work described in "field observation reports".
- ☐ Complete as-built record drawings as required per Section 12.4 of the DDA.
- ☐ Confirm infrastructure built within the limits of easements and no additional rights are needed.
- ☐ Obtain sign-off from the Engineer of Record
- ☐ Obtain sign-off from the Landscape Architect of Record.
- ☐ Obtain sign-off from third party utility companies.
- ☐ Provide evidence of Port permit completion, including punch list.
- ☐ Prepare a binder with the following:
  - o Evidence of any SFPW Americans with Disabilities Act sign-off, if applicable;
  - o For improvements for which the PIA contemplates bonding, dedication, completeness, and acceptance to be determined by the Port, bonds for 10% of the estimated cost of completion for a one year period.
  - o Conditional assignment of warranties to the agency accepting the Phase Improvement(s)
  - o Evidence of a recorded Notice of Completion by the Developer
  - o Evidence that the Notice of Completion has been given to all direct contractors and claimants per California Civil Code section 8190
  - o Preliminary Title Report
  - o Offer of Dedication for Improvements for Port-owned improvements
  - o Offer of Dedication for Improvements for publicly-owned improvements, if not covered under previous offers.
  - o Offer of Dedication for Public Easements (if not already obtained)
  - o Provision of appropriate rights granted to Port for safe access for pedestrians and vehicles to Port facilities via Developer's improvements in unaccepted streets.

**ASSIGNMENT AND ASSUMPTION AGREEMENT  
(Mission Rock Project)**

This **ASSIGNMENT AND ASSUMPTION AGREEMENT** (this "**Agreement**") (the "**Effective Date**") between **SEAWALL LOT 337 ASSOCIATES, LLC**, a Delaware limited liability company ("**Developer**"), and \_\_\_\_\_, a \_\_\_\_\_ ("**Transferee**"), is effective as of the date on which it is fully executed by Developer and Transferee.

**1. Background.**

a. DDA. Developer has entered into a Disposition and Development Agreement dated as of \_\_\_\_\_, 2018 (the "**DDA**"), with the City and County of San Francisco (the "**City**"), acting through the San Francisco Port Commission (the "**Port**"), which is recorded in the official records administered by the Recorder of the City and County of San Francisco (the "**Official Records**") as Document No. \_\_\_\_\_. The DDA governs Developer's and the Port's respective rights and obligations with respect to Developer's master development of Port property commonly known as Seawall Lot 337 (the "**Mission Rock Project**") and is incorporated into this Agreement by reference. Unless otherwise defined in this Agreement, all initially capitalized defined terms used but not defined in this Agreement have the meanings ascribed to them in the Appendix attached to the DDA, and all standard provisions and rules of interpretation in Appendix Part A apply to this Agreement.

b. DA. Developer has entered into a Development Agreement dated as of \_\_\_\_\_, 2018 (the "**DA**"), with the City, acting through the Planning Commission, vesting certain entitlements for the Project in Developer and imposing specified Impact Fees and Exactions on development of the Mission Rock Project. The DA is recorded in the Official Records as Document No. \_\_\_\_\_ and is incorporated into this Agreement by reference.

c. Transferred Area. Developer has agreed to Transfer to Transferee as of the Effective Date certain rights and obligations of Developer under the DDA and DA applicable to *[insert Phase or area being assigned]* (the “**Transferred Area**”), and Transferee is willing to accept those rights and to assume those obligations, on the terms and conditions of this Agreement. The land covered in the Transferred Area is the portion of the Mission Rock Project described in **Exhibit A**. This Agreement establishes the scope of rights and obligations that Developer is assigning to Transferee and of the rights and obligations that Transferee is assuming under the DDA, the DA, and other Transaction Documents to implement the Mission Rock Project.

d. Permitted Transfer. The Transfer to which this Agreement pertains satisfies the requirements of *DDA § 6.6 (Assignment and Assumption Agreement)*. This Agreement is also a DA Assignment as to Transferee and the Transferred Area and satisfies the requirements of *DA § 11.1 (DA Successors’ Rights)*. *[Insert information relevant to transfer, e.g., Transfer to an Unrelated Transferee; Affiliate, conditions to transfer required, applicability and satisfaction of Net Worth and Experience Requirement, and facts supporting the satisfaction of the conditions.]*

2. **Assignment by Developer.** Developer hereby assigns to Transferee as of the Effective Date each and all of the rights (collectively, the “**Transferred Rights**”) and future obligations (collectively, the “**Transferred Obligations**”) of Developer described in this Section 2 to the extent applicable to the Transferred Area, excluding the “**Excluded Obligations**” specified in **clause (ii) of Subparagraph 2(a)** and the “**Excluded Rights**” specified in **clause (ii) of Subparagraph 2(b)**. *[add if applicable to an approved Phase: subject to all applicable conditions of the Port’s Phase Approval].*

a. Transferred and Excluded Obligations.

i. Except as specified in **clause (ii) below**, the Transferred Obligations include *[Tailor as appropriate]*:

1. all obligations to indemnify and release the City Parties;
2. the obligation to comply with all pertinent Project Requirements and Regulatory Requirements
3. the Developer Construction Obligations for all Horizontal Improvements and associated Developer Mitigation Measures for the Transferred Area;
4. the Developer Reimbursement Obligation to the extent arising from the Transferred Obligations and the Transferred Area;
5. the obligation to provide Loss-Security and Phase Security for the Transferred Obligations *[modify if obligation will continue to be met by means of assignor Developer’s Loss Security and Phase Security]*;

6. obligations under the Transportation Exhibit to the extent arising from the Transferred Obligations and the Transferred Area;

7. obligations under the Workforce Development Plan to the extent arising from the Transferred Obligations and the Transferred Area; and

8. the obligations under the Housing Plan with respect to *[list each Residential Parcel and Flex/residential Parcel in the Transferred Area]*.

ii. The Excluded Obligations are *[Tailor as appropriate]*:

1. the Developer Construction Obligations for the following Associated Public Benefits: *[list]*;

2. the following obligations under the Transportation Exhibit: *[list]*;

3. the following obligations under the Workforce Development Plan: *[list]*;

4. the following obligations under the Housing Plan with respect to: *[list]*; and

5. *[list any other Developer obligations that will not be assigned to the Transferee including any claims or obligations that have accrued prior to the effective date of the transfer as to which Port is not releasing Developer or for which Developer is retaining responsibility]*.

b. Transferred and Excluded Rights. *[Tailor as appropriate]*

i. Except as specified in **clause (ii) below**, the Transferred Rights include:

1. all Vested Elements relating to the Transferred Rights;

2. the right to reimbursement of Horizontal Development Costs and Alternative Return Costs in accordance with the Financing Plan;

3. the right to request changes to the *[Phase Approval]* *[Phasing Plan]* *[Outside Dates]* under *DDA § 3.7 (Changes to Phase)*; and

4. the right to request changes to Developer Construction Obligations, including changes to the Schedule of Performance, under *DDA § 3.8 (Changes to Project)*.

ii. Excluded Rights are:

1. *[list]*

c. Developer's Retained Rights and Obligations. Developer is retaining all Excluded Obligations in **clause (ii) of Subparagraph 2.a** (Transferred and Excluded Obligations) and Excluded Rights in **clause (ii) of Subparagraph 2.b** (Transferred and Excluded Obligations). Transferee agrees to grant Developer access to the land in the Transferred Area that Developer reasonably requires to perform the Excluded Obligations or to exercise the Excluded Rights pursuant to that certain *[insert name of access agreement/sublease]* between Transferee and Developer, dated \_\_\_\_\_, 20XX. *[If not already included in any Port consent document, include as an attachment to this Agreement any release by the Port of Developer, including pursuant to Section 6.6(b) (Release) of the DDA and Section 11.2 (Effect of Transfer or Assignment) of the DA.]*

**3. Assumption By Transferee.** Transferee hereby expressly assumes as of the Effective Date all of the Transferred Rights and the Transferred Obligations and agrees to be bound by and perform, as a direct obligation of Transferee to the Port and the City, as applicable, all of the Transferred Obligations.

**4. Representations, Acknowledgments, and Waivers.**

a. By Transferee as to Transferred Area. Transferee acknowledges as follows with respect to the Transferred Rights and Transferred Obligations for the Transferred Area.

i. Transferee had the opportunity to consult with counsel of its own choice before agreeing to assume the Transferred Rights and Transferred Obligations, including all conditions and restrictions in the Vested Elements.

ii. Transferee covenants not to challenge the enforceability of any provision of the Transaction Documents.

iii. Transferee expressly acknowledges that it is aware of and consents to the City's enforcement of its remedies if Transferee fails to comply with obligations that it has assumed under the Housing Plan. Transferee covenants not to challenge and expressly waives any right to challenge its Transferred Obligations under the Housing Plan as unenforceable under the Costa-Hawkins Act. Developer acknowledges that the City would not have entered into the DA, and the Port would not have entered into the DDA, without Developer's agreement and waiver regarding the Costa-Hawkins Act. Transferee agrees to include language in substantially the following form in any further Assignment and Assumption Agreement with respect to the Transferred Areas and consents to its inclusion in all Vertical DDAs and in recorded restrictions for any Development Parcel in the Transferred Area on which residential use is permitted.

The DA and the DDA, which includes the Housing Plan, provide regulatory concessions and significant public investment to the Mission Rock Project that directly reduce development costs at the Mission Rock Project. The regulatory concessions and public investment include a direct financial contribution of net tax increment and other forms of public assistance specified in California Government Code section 65915. These public contributions result in identifiable,

financially sufficient, and actual cost reductions for the benefit of Developer, Transferee, and Vertical Developers under California Government Code section 65915. In consideration of the City's direct financial contribution and other forms of public assistance, the parties understand and agree that the Costa-Hawkins Act does not apply to any Inclusionary Unit developed under the Housing Plan for the Mission Rock Project.

**b. By Transferee as to Developer.** Transferee acknowledges as follows.

i. Developer retains the Excluded Rights and the Excluded Obligations in the Transferred Area and the obligation to complete Phase Improvements for all property in the Mission Rock Project outside of the Transferred Area, including Phase Improvements that may adjoin the Transferred Area.

ii. Due to Developer's retained obligations, including its obligation to complete Horizontal Improvements for portions of the Mission Rock Project adjacent to the Transferred Area, Transferee assumes all risk of Developer's failure to perform its retained obligations and waives and releases the Port and the City from any Losses relating to or arising from Developer's failure to perform its obligations.

iii. Transferee agrees to provide information timely and in the manner reasonably required by Developer to permit Developer to meet its obligations under *FP art. 9 (Project Administration)* to submit Developer Quarterly Reports, Phase Audits, and the Final Audit.

iv. [Transferee agrees to look solely to Developer for reimbursement of Transferee's Horizontal Development Costs to which Transferee may be entitled for the Transferred Area.]

**c. By Developer as to Transferee.** Developer expressly assumes the risk of Transferee's failure to perform any of the Transferred Obligations and waives and releases the Port and the City from any Losses relating to or arising from Transferee's failure to perform the Transferred Obligations.

**d. Developer's Representations and Warranties.** Developer represents and warrants to Transferee as follows, as of the Effective Date.

i. The Transaction Documents are in full force and effect and have not been modified except as follows: [*Specify any amendments*].

ii. To the actual knowledge of the person signing on behalf of Developer, no circumstance exists that with notice or passage of time, or both, would be an Event of Default or Material Breach by Developer, the City, or the Port under the Transaction Documents, [*except as follows* \_\_\_\_\_].

iii. To the actual knowledge of the person signing on behalf of Developer, there are no set-offs or defenses against the enforcement of any right or remedy, or any

duty or obligation, of the Port, the City, or Developer under the Transaction Documents, [except as follows \_\_\_\_\_].

iv. Developer has obtained all consents to this Agreement that are required under any agreement to which it is a party or by which it is bound. Other than the consents so obtained, no consent to this Agreement is required under any agreement to which Developer is a party or by which it is bound.

v. Developer's execution, delivery, and performance of this Agreement will not contravene any legal requirements applicable to Developer or conflict with, breach, or contravene any agreement binding on Developer.

e. Transferee's Representations and Warranties. Transferee represents and warrants to Developer as of the Effective Date:

i. Transferee has obtained all consents to this Agreement that are required under any agreement to which it is a party or by which it is bound, and no other consent is required under any agreement to which Transferee is a party or by which it is bound.

ii. Transferee's execution, delivery, and performance of this Agreement will not contravene any legal requirements applicable to Transferee or conflict with, breach, or contravene any agreement binding on Transferee.

## 5. General Provisions.

a. Attorney's Fees. This provision applies only to disputes between Developer and Transferee. Any dispute between Transferee and the Port will be subject to applicable provisions in the DDA, and any dispute between Transferee and the City will be subject to applicable provisions in the DA. Should Developer or Transferee institute any action or proceeding in court or other dispute resolution mechanism to enforce any provision of this Agreement or for damages by reason of an alleged breach of this Agreement, the prevailing party will be entitled to receive from the losing party costs and expenses incurred by the prevailing party, including expert witness fees, document copying expenses, exhibit preparation costs, carrier expenses, postage and communication expenses, and reasonable attorneys' fees and Attorneys' fees under this clause include attorneys' fees on any appeal.

b. Notices. Any notice or other communication required or permitted to be given under this Agreement by any party to any other party will be in writing and will be sufficiently given or delivered if dispatched by hand, by registered or certified mail, postage prepaid, or overnight delivery, addressed as follows:

Developer: \_\_\_\_\_

With copies to:

Transferee:

With copies to:

c. Effective Date of Notice. Any mailing address or facsimile number may be changed at any time by giving notice of in the manner provided above at least 10 days before the effective date of the change. All notices under this Agreement will be deemed given, received, made, or communicated on the date personal receipt actually occurs or, if mailed, on the delivery date or attempted delivery date shown on the return receipt. No party may give official or binding notice by facsimile or electronic mail, although courtesy copies of notices may be given by facsimile or electronic mail. The effective time of a notice will not be affected by the receipt, prior to receipt of the original, of a facsimile copy of the notice.

d. Successors and Assigns. This Agreement will be binding upon and inure to the benefit of each of the parties and their respective successors and assigns. Developer may assign its rights or obligations under this Agreement to any permitted transferee of any of its rights or obligations under the DDA and the DA, subject to and in accordance with their terms.Counterparts. This Agreement may be executed in multiple counterparts, each of which will be deemed to be an original. Counterparts may be delivered by facsimile, electronic mail, or other similar means of transmission.

f. Captions. Any captions to, or headings of, the articles, sections, or subsections of this Agreement are solely for the convenience of the parties, are not a part of this Agreement, and will not be used to interpret or determine the validity of this Agreement or any of its provisions.

g. Amendment to Agreement. The terms of this Agreement may not be modified or amended except by an instrument in writing executed by each of the parties.

h. Waiver. The waiver or failure to enforce any provision of this Agreement will not operate as a waiver of any future breach of the same or any other provision of this Agreement.

i. Applicable Law. This Agreement will be governed by and construed in accordance with the laws of the State of California.

j. Counsel. Each party acknowledges that: (i) it was represented by counsel in connection with this Agreement; (ii) it executed this Agreement with the advice of counsel; and (iii) this Agreement is the result of negotiations between the parties and the advice and assistance of their respective counsel.

k. Severability. The invalidation of any provision of this Agreement, or of its application to any person, by judgment or court order will not affect any other provision of this Agreement or its application to any other person or circumstance, and the remaining portions of this Agreement will continue in full force and effect, except to the extent that enforcement of this Agreement is invalidated would be unreasonable or grossly inequitable under all the circumstances or would frustrate a fundamental purpose of this Agreement.

l. Entire Agreement. This Agreement contains all of the representations and warranties and the entire agreement between the parties with respect to the subject matter of this Agreement. Any prior correspondence, memoranda, agreements, warranties, or representations between the parties relating to this Agreement are incorporated into and superseded by this Agreement. Nothing in this Agreement changes or supersedes any provision of the DDA or the DA. No prior drafts of this Agreement or changes from those drafts to the executed version of this Agreement may be introduced as evidence in any litigation or other dispute resolution proceeding, and no court or other body will consider those drafts in interpreting this Agreement.

m. Recordation. The parties will record this Agreement in the Official Records with respect to the Transferred Area.

## FINANCING PLAN

This **FINANCING PLAN** implements and is attached as *DDA Exh C1* to and incorporated into the Disposition and Development Agreement (the "**DDA**") between the City and County of San Francisco (including its agencies and departments, the "**City**"), acting by and through the San Francisco Port Commission (the "**Port**" or the "**Port Commission**"), and Seawall Lot 337 Associates, LLC ("**Developer**") (each, a "**Party**").

The attached **Appendix** is an integral part of this Financing Plan. Refer to the **Appendix** for standard provisions and rules of interpretation (*App Part A*) and a glossary of defined terms (*App Part B*).

### 1. FINANCING OVERVIEW

#### 1.1. Financing Plan Term.

(a) Effective Date. This Financing Plan is a part of the DDA and becomes effective on the Reference Date.

(b) Termination Date. Because certain financial obligations and rights will continue after the Horizontal Improvements are finally complete, the Parties have agreed that this Financing Plan, the Acquisition Agreement in the form of **FP Exhibit A**, and the Participation Agreement in **FP Exhibit E** will have independent termination dates as follows.

(i) Except for the Participation Agreement, this Financing Plan will terminate after both of the following have occurred.

(1) The Port has accepted the Final Audit.

(2) Developer has been paid any amounts due under **clause (ii)** or **clause (iii)** of **Subsection 2.5(c)** (Developer Return) and **Subsection 3.3(c)** (After Final Completion).

(ii) The Acquisition Agreement will terminate when all Payment Requests have been satisfied or all Project Payment Sources have been exhausted.

(iii) The Participation Agreement will terminate after the final distribution of Annual Participation Revenue is made.

1.2. **Funding Goals**. This Financing Plan establishes the contractual framework for financing horizontal development of the Project in accordance with the DDA and achieving the following Funding Goals.

- Construct Horizontal Improvements at the Project Site, coordinating to the extent practicable with vertical development to minimize carrying costs of horizontal development.
- Use Public Financing Sources from the Project Site to leverage other sources, reduce Project risk by enhancing the Port's ability to satisfy the Project Payment Obligation, and increase Port participation in capital events and other benefits to the Parties, Vertical Developers, and the public.
- Provide Developer with Developer Return on its use of Developer Capital for Horizontal Development Costs.
- Provide the Port with Fair Market Value for Development Parcels at SWL 337 in compliance with SB 815.
- Repay the Port's investment in infrastructure with interest in compliance with AB 2797.

- Use Project-generated Impact Fees to help Vertical Developers meet the affordable housing goals for the Project in the Housing Plan.
- Use tax-exempt debt to the extent reasonably feasible, consistent with this Financing Plan and Governing Law and Policy.
- Protect the Parties' investments in Horizontal Improvements by providing a funding source for Ongoing Maintenance Costs.
- Provide a mechanism for San Francisco to adapt to rising sea levels and protect its land, residents, and businesses by financing Shoreline Protection Facilities and other Port capital needs after full Project build-out.
- Implement sound and prudent municipal fiscal policies that protect the City General Fund, the Port Harbor Fund, and the City's and the Port's respective financial standings and fiduciary obligations, while operating within the constraints of this Financing Plan and Governing Law and Policy.

### **1.3. Financing Districts.**

(a) IFD Project Area I. As part of the Project Approvals, the Board of Supervisors established Project Area I and Sub-Project Areas I-1 through I-13 of the IFD and approved Appendix I to the IFD Financing Plan for the IFD, as described in more detail in **Article 6** (Tax Increment).

(b) Mission Rock CFD. The Port has agreed to seek legislation to form the Mission Rock CFD over the Project Site on terms described in more detail in **Article 4** (Mello-Roos Taxes).

### **1.4. Summary Proforma.**

(a) Contents. The Summary Proforma (**FP Schedule 1**) contains the following key projections and estimates for each Phase and for the Project as a whole:

- (i) Entitlement Sum as of May 31, 2018;
- (ii) Developer's line item estimates of Entitlement Costs, Site Preparation costs, and other Horizontal Development Costs by category and Phase;
- (iii) application of Developer Capital and each other anticipated source, including Public Financing Sources, DRP Advances, and Port Capital Advances, if any, to Horizontal Development Costs by category;
- (iv) accrual of Developer Return;
- (v) accrual of Interest on DRP Advances and Port Return;
- (vi) Fair Market Value and Parcel DRP of each Option Parcel;
- (vii) development costs for Vertical Improvements, including the Parcel D2 Garage;
- (viii) projected levy and allocation of Mello-Roos Taxes;
- (ix) projected growth and allocation of Tax Increment; and
- (x) bonding capacity by Phase.

(b) Assumptions. The Proforma incorporates certain assumptions that provide the basis for this Financing Plan. Key assumptions include the following.

(i) Development Parcels will be developed as entitled for parking, residential, and commercial-office uses at densities described in the Land Use Plan and Design Controls.

(ii) The Entitlement Sum will be paid by early Project Payment Sources expected to consist of a combination of Early Mello-Roos Bonds and DRP Advances from Prepaid Leases for the Lead Parcels.

(iii) The Port will convey each Option Parcel by a Parcel Lease in the form of *DDA Exh D2* under procedures described in *DDA art. 7 (Parcel Leases)*.

(iv) Developer will exercise its Option for all Option Parcels through Vertical Developer Affiliates, which will pay ground rent on terms described in the DDA and Parcel Leases.

(v) The Port will convey all four Phase 1 Option Parcels by Prepaid Leases.

(vi) Subject to **Subsection 5.3(b)** (Meet and Confer), the City will issue Mello-Roos Bonds on behalf of the Mission Rock CFD for each Phase.

(vii) Available Project Payment Sources will be used as specified in this Financing Plan to pay the Parties' Capital Costs.

(viii) The Port will use Services Special Taxes to meet the Ongoing Maintenance Costs of Maintained Facilities.

(c) **Future Events.** Both Parties acknowledge that the Proforma is attached to demonstrate the Parties' projections and assumptions for illustrative purposes only and agree that future events that do not conform to Proforma assumptions will not:

(i) provide either Party with a unilateral right to amend or terminate this Financing Plan or any Financing Document;

(ii) excuse a Party's performance of any obligation that is due; or

(iii) authorize a Party to take any other action that is not specified in the Transaction Documents.

**1.5. Project Sources.** This Financing Plan describes the Parties' agreement as to the Project Payment Sources expected to pay Developer's Capital Costs. Project Payment Sources are expected, but not guaranteed, to be sufficient in the aggregate to satisfy the Project Payment Obligation in full. The Parties' underlying agreements on sources and uses are described briefly below.

**(a) Mello-Roos Bond Proceeds.**

(i) Mello-Roos Bonds issued under **Article 5** (Mello-Roos Bonds) will be the Port's preferred public financing mechanism for a significant portion of Capital Costs.

(ii) Governing Law and Policy will prevail over any conflict with this Financing Plan or any other part of the DDA relating to Mello-Roos Bond Proceeds except to the extent that the Board of Supervisors waives any provision of the CFD Goals.

**(b) DRP Advances and Port Capital Advances.**

(i) DRP Advances will be a significant Project Payment Source.

(ii) Subject to limitations in this Financing Plan and in the Phase Budget process under *DDA § 3.5 (Phase Budget Review and Approval)*, the Port

will have the right to use budgeted Port Capital Advances to satisfy any outstanding Developer Balance or to pay Developer pass-throughs.

**(c) Developer Capital.**

**(i)** Developer will use Developer Capital as necessary to pay for Horizontal Development Costs.

**(ii)** Developer will own all Horizontal Improvements until the Acquiring Agencies acquire them in accordance with the DDA, the ICA, this Financing Plan, the Acquisition Agreement, and applicable laws. Payments to Developer under this Financing Plan and the Acquisition Agreement are expected, but not guaranteed, to pay fully Developer's Capital Costs.

**(d) Mello-Roos Taxes.**

**(i)** Mello-Roos Taxes from the Mission Rock CFD will be a Project Payment Source as described in **Article 4** (Mello-Roos Taxes).

**(ii)** Governing Law and Policy will prevail over any conflict with this Financing Plan or any other part of the DDA relating to Mello-Roos Taxes except to the extent that the Board of Supervisors waives any provision of the CFD Goals.

**(e) Tax Increment.**

**(i)** Allocated Tax Increment from Project Area I will be a Project Payment Source as described in **Article 6** (Tax Increment).

**(ii)** Governing Law and Policy will prevail over any conflict with this Financing Plan or the DDA relating to Tax Increment.

**(f) Net Transfer Proceeds.** Under *VDDA § 19.1 (Before Close of Escrow)*, Net Transfer Proceeds will be deposited into the DRP Fund for use as a Project Payment Source.

**(g) Port FY Budget.** The Port Commission's approval of a Phase Budget or any amendment to a Phase Budget will obligate the Port to submit a Port FY Budget consistent with the approved Phase Budget for the next and each succeeding City Fiscal Year during which the Parties expect to use Public Financing Sources, DRP Advances, or Port Capital Advances to satisfy any part of the Project Payment Obligation.

**1.6. Other Sources.**

**(a) Cooperation.** The City, the Port, and Developer will cooperate to identify other sources and incentives that might be available for Horizontal Improvements and Vertical Improvements at the Project Site, such as incentives for historic rehabilitation, brownfield remediation, transit-oriented development, and sustainable development.

**(b) Conditions to Other Sources.** A Party may object to using any source that is not identified in this Financing Plan as a Project Payment Source for Capital Costs if the funds are subject to conditions that the Party reasonably believes would have a material negative impact on the Funding Goals, the Phasing Plan, or the time or cost to implement horizontal or vertical development.

**1.7. Limitation on Sources.** Developer acknowledges that none of the following is a Project Payment Source under this Financing Plan:

**(a) City General Fund;**

**(b) Port Harbor Fund** other than: (i) Port Capital or other Port assets that the Port commits to use in its sole discretion; and (ii) Development Rights Payments;

- (c) Mello-Roos Taxes from outside of the Mission Rock CFD; or
- (d) Tax Increment from outside of Project Area I.

**1.8. Developer Participation.**

(a) Additional Return. As an incentive for Developer to implement the Project and maintain ongoing operations in a manner that will maximize revenues to the Port, the Port will pay Developer the Developer Participation, consisting of a share of the Participation Revenue from the Project as set forth in the Participation Agreement attached as **FP Exhibit D**. The Port's obligations under the Participation Agreement will survive the termination of this Financing Plan as specified in **clause (iii)** of **Subsection 1.1(b)** (Termination Date).

(b) Separate Agreement by Request. At the request of either Party, the Parties will enter into a separate Participation Agreement containing the provisions of **FP Exhibit D**. The fully executed separate Participation Agreement will supersede and extinguish **FP Exhibit D**.

**1.9. Due Diligence Related to Public Financing.** The Parties agree as follows.

(a) Compliance with Law. Before spending any Public Financing Sources, the Port and the City will consult with the City's bond counsel to confirm that the costs to be paid are authorized under Governing Law and Policy. The Parties acknowledge the following with respect to costs included in the definition of Soft Costs.

(i) Some of those costs may not be eligible for tax-exempt financing under the Tax Code.

(ii) Some of those costs may not be eligible for payment by or reimbursement from Public Financing Sources.

(b) Record-Keeping. Consistent with **Article 9** (Project Administration), each Party will keep appropriately detailed records of the application of DRP Advances, Developer Capital, and Port Capital Advances under this Financing Plan to assist with bond counsel's review. Among other things, the records will describe Improvements and other costs to be financed, dates of original expenditures, and dates on which Improvements are placed in service.

**1.10. Master Marketing Fee Account.** Although the Port has no proprietary interest in the Master Marketing Fees that Developer will collect from all Vertical Developers, the Parties have agreed that each Vertical Developer will deposit its initial payment of Master Marketing Fees into Escrow. The fees will be disbursed from Escrow to a segregated account to be held by the Special Fund Trustee. In turn, the Special Fund Trustee will disburse fees to Developer in accordance with and subject to conditions in each Vertical Developer's Vertical DDA.

**2. FLOW OF FUNDS**

**2.1. Port Payments.** References in any Transaction Document to Port payments or disbursements to be applied to reimburse Developer Capital and Port Capital spent on Horizontal Development Costs will mean any of the following funds of the Port, the Mission Rock CFD, or the IFD.

(a) Port Capital Advances are Port revenues from sources other than the Project that the Port loans to the Mission Rock CFD, which the Port may disburse on its own account.

(b) DRP Advances are prepaid ground rent under Parcel Leases that the Port loans to the Mission Rock CFD, which the Escrow Agents will disburse from Escrow or the Special Fund Trustee will disburse from the DRP Fund.

(c) Mello-Roos Taxes are Facilities Special Taxes that the Special Fund Trustee will disburse from the Special Tax Fund.

(d) Allocated Tax Increment is the portion of ad valorem property taxes, including possessory interest taxes, allocated to the IFD, which the Special Fund Trustee will disburse from the Tax Increment Fund.

(e) Mello-Roos Bond Proceeds (or proceeds of other Bonds) are the net proceeds available for an Indenture Trustee to disburse from the Mello-Roos Improvement Fund under an Indenture.

**2.2. Payment Requests and Requisitions.** The Project Payment Obligation will be subject to *DDA § 11.8 (Effects of Termination on Project Payment Sources)* whenever applicable.

(a) Project Payment Obligation. The Project Payment Obligation consists of the Port's obligation under the DDA to pay the following:

- (i) the Entitlement Sum; and
- (ii) other Capital Costs owing to Developer or the Port.

(b) Payment Requests. The Port will pay the Acquisition Prices of Phase Improvements in accordance with Approved Payment Requests that Developer will submit under the Acquisition Agreement.

(i) As specified in more detail in *AA art. 4 (Payment Requests)*, Developer will prepare each Payment Request in the form of *AA Exh C*, number each successive Payment Request in ascending order, attach supporting documents, and submit the Payment Request package to the Chief Harbor Engineer, who will distribute copies to Other Acquiring Agencies for review to the extent necessary under the ICA and to any Port construction consultant engaged for this purpose.

(ii) After the Chief Harbor Engineer, in consultation with any Port construction consultant, determines that a Payment Request is complete, he will arrange for each applicable Acquiring Agency to inspect and approve the Phase Improvements covered by the Payment Request. Under *AA § 4.2 (Processing Payment Requests)*, the Port Finance Director will annotate and sign each Approved Payment Request to authorize the use of Project Payment Sources eligible to pay the Acquisition Price of Horizontal Improvements (or their Components) listed in the Approved Payment Request with accrued Developer Return in accordance with this Financing Plan.

(c) Entitlement Sum Statement and Requisitions.

(i) The Port will treat Developer's approved Entitlement Sum Statement under **Section 2.4 (Entitlement Costs)** as Requisition No. 1, which the Port will use to direct the Payment Agents to pay the Entitlement Sum.

(ii) Developer will request payment for certain other Capital Costs by Requisitions in the form of **FP Exhibit E**. On the Reference Date, the Parties agree that Developer will use Requisitions to request payment of the following:

- (1) any Developer Market Rate Return accruing on the Entitlement Sum under **clause (ii) of Subsection 3.4(b) (Lead Parcel Conveyances)**;

(2) Affordable Housing Shortfall if funded by Developer under **Subsection 2.8(f)** (Affordable Housing Shortfall) with Alternative Return;

(3) Affordable Housing Subsidy if funded by Developer under **Subsection 2.8(g)** (Affordable Housing Fund Delays) with Alternative Return, payable from the Affordable Housing Fund in accordance with **Subsection 2.9(b)** (Reimbursements from Affordable Housing Fund);

(4) Developer Marketing Fees with Developer Market Rate Return;

(5) Minimum Phase Return to the extent applicable;

(6) Minimum Developer Return to the extent applicable;

(7) other Horizontal Development Costs that are not included in Acquisition Prices, with the rate of Developer Return applicable under this Financing Plan.

(iii) Developer will number each successive Requisition in ascending order, attach supporting documents, and submit the Requisition package to the Port Finance Director. The Port Finance Director will review Requisitions for completeness and give notice to Developer of her approval or disapproval.

**(d) Assigned Numbers of Approved Payments.**

(i) The Port Finance Director will number each Approved Payment for each Phase chronologically by the date of approval. The Entitlement Cost Statement will be Approved Payment No. 1, and each successive Approved Payment, whether in the form of a Payment Request or a Requisition, will be numbered in ascending order by Phase, e.g., Phase 1, Approved Payment No. 1.

(ii) As Project Payment Sources become available, the Port Finance Director will provide a signed copy of each Approved Payment to each applicable Payment Agent with directions for disbursement of funds to pay Approved Payments in accordance with this Section.

(iii) **Subsection 2.5(f)** (Priorities for Payment), **Subsection 2.5(g)** (Pro Rata Payment), and **Section 2.9** (Alternative Return), will apply to all Approved Payments.

(c) **Discretion Regarding Procedures.** Each Party will retain discretion to suggest, accept, or reject changes in procedures regarding review, approval, and disbursements consistent with this Financing Plan. To the extent that any suggested change affects procedures in the ICA, each affected Acquiring Agency must also approve the change before the Parties may begin to implement the changes. This Subsection does not permit the Parties to make substantive changes to Developer's or the Port's reimbursement rights or payment obligations under this Financing Plan.

(f) **Repayment of Port Capital.** When Developer submits a Payment Request under **Subsection 2.2(b)** (Payment Requests) or a Requisition under **Subsection 2.2(c)** (Entitlement Sum Statement and Requisitions), the Port Finance Director will determine if a Port Balance exists and, if so, direct the applicable Payment Agent to disburse available Project Payment Sources in accordance with this Financing Plan.

**2.3. Payment Process.**

(a) **DRP Disbursements.** Whenever an Approved Payment authorizes the Escrow Agent or the Special Fund Trustee to make a DRP Advance, the CFD Agent will provide confirmation to the Port of the actual application of funds for the Port's entry on the allonge to the Promissory Note in the form of **FP Exhibit B**. The Port will record the

application of the DRP Advance to each category of Capital Costs on the allonge to the Promissory Note.

(b) Disbursements from Special Fund Trust Account. The Port, in its proprietary capacity and as CFD Agent and IFD Agent, will enter into a Special Fund Administration Agreement with the Special Fund Trustee for the administration of segregated accounts described in **Article 3** (Development Rights Payments), **Article 4** (Mello-Roos Taxes), and **Article 6** (Tax Increment). **FP Schedule 3** lists the anticipated accounts and subaccounts in the Special Fund Trust Account, without prejudice to the Port's right to add additional accounts to facilitate implementation of this Financing Plan. The agreement will provide for the Special Fund Trustee to accept, hold, and disburse funds as directed in Approved Payments and to record all account activities.

(c) Disbursement of Bond Proceeds. Each Indenture will provide for the Indenture Trustee to make disbursements of Bond proceeds in accordance with Approved Payments and to record all activities the Indenture Trustee takes with respect to the funds.

(d) Calculation of Interest. Any interest rate or rate of return to be applied to a Horizontal Development Cost, an Alternative Return Cost, or other cost under this Financing Plan will accrue daily on the basis of a 365-day year, compounded quarterly, on the outstanding balance of the pertinent cost.

#### **2.4. Entitlement Costs.**

(a) Preliminary Entitlement Cost Statement.

(i) Before the Reference Date, Developer funded Entitlement Costs with Developer Capital. Developer Market Rate Return on Developer's Entitlement Costs began to accrue on the later of January 1, 2012, or the date on which Developer incurred the costs. Developer's Preliminary Entitlement Cost Statement is attached as **FP Schedule 2**, showing Developer's line item breakdown of Entitlement Costs.

(ii) Developer has agreed to provide its final Entitlement Cost Statement for the Port's review and approval, reflecting the Entitlement Sum within 90 days after receiving the Port's statements for costs payable to the Port under the ENA. The Port will be obligated to pay the amount of the Entitlement Sum reflected in the approved Entitlement Cost Statement under this Section, subject to **Subsection 2.4(b)** (Project Payment Sources for Entitlement Sum).

(b) Project Payment Sources for Entitlement Sum.

(i) After the Entitlement Sum is finally determined, the Port will instruct the applicable Payment Agent to disburse Project Payment Sources to Developer as they become available to pay the Entitlement Sum.

(ii) The Parties expect the Entitlement Sum to be paid in full by the Port's DRP Advances of Parcel DRPs under Prepaid Leases for the Lead Parcels as described in **Section 3.4** (Lead Parcels).

#### **2.5. Horizontal Development.**

(a) Phase Budget. Under *DDA § 3.3 (Phase Budget)* and *DDA § 3.5 (Phase Budget Review Process)*, each Phase Budget and each modification of a Phase Budget will specify the Parties' collective best estimates, as updated, of:

(i) the Horizontal Development Costs of Phase Improvements, which will be refined by information in Phase Quarterly Reports and Acquisition Price Updates;

(ii) the amounts and anticipated timing of DRP Advances, Developer Capital, Port Capital Advances, and Public Financing Sources to be used to pay Capital Costs for the Phase; and

(iii) any unpaid Developer Balance or Port Balance to be carried over from any Prior Phase.

(b) Developer Capital.

(i) Developer will account for its use of Developer Capital in each Phase Quarterly Report, which will update Developer's Capital Costs and provide prior notice to the Port when Developer expects Horizontal Development Costs to reach or exceed the Phase Budget for any Current Phase.

(ii) Developer must record its use of Developer Capital for Horizontal Development Costs on the Developer Capital Schedule by Phase, which must be updated and attached to each Phase Quarterly Report. The Developer Capital Schedule must include sufficient detail about expenditures, including a description of and the date of each expenditure and the date on which the related Horizontal Improvement is placed in service, for the City, the Port Finance Director, and bond counsel to determine the appropriate Project Payment Source to apply to each expenditure. Developer must record promptly on the Developer Capital Schedule the date and amount of each payment from a Project Payment Source applied to the Developer Balance.

(iii) Each Developer Quarterly Report will state the Peak Developer Equity for the Phase as of the end of the reporting quarter.

(iv) The Parties are allocating Capital Costs between those eligible for reimbursement from Public Financing Sources and those that must be paid from other sources. Developer acknowledges that the City's bond counsel will make the final determination as to eligibility for Public Financing Sources.

(c) Developer Return. The Port will pay Developer the Developer Market Rate Return, consisting of Minimum Phase Return for finally completing Phase Improvements for any Phase and Minimum Developer Return for finally completing all Horizontal Improvements. The following procedures will apply in determining whether and how much Developer will receive. These amounts will be determined without regard to the costs of Deferred Infrastructure built by Vertical Developers that Developer does not fund.

(i) Developer will estimate in each Phase Quarterly Report when its use of Developer Capital will reach Peak Developer Equity and its projected amount. The Parties will use these estimates to determine whether to adjust the Phase Budget for projected Minimum Phase Return.

(ii) The Phase Audit will state the total Developer Return paid to Developer through the end of the reporting period. If the Phase Audit indicates that Developer received less than 1.5 times Peak Developer Equity for the Phase, which amount constitutes the Minimum Phase Return, the Port will pay the difference, without additional accrual of Developer Return, from Project Payment Sources as they become available.

(iii) The Final Audit will state the total Developer Return that Developer received through the end of the reporting period for the final Phase of the Project. If the Final Audit indicates that the Developer Return paid to Developer is less than the Minimum Developer Return, and Developer finally completed all Phases of horizontal development, the Port will pay the difference, without additional accrual of Developer Return, from Project Payment Sources as they become available.

**(d) Designation of Project Payment Sources.**

**(i)** As described in **Section 2.2** (Payment Requests and Requisitions), Developer will submit Payment Requests and Requisitions to the Port from time to time. The Port Director will authorize the Payment Agents to disburse funds in accordance with this Subsection.

**(ii)** As any Project Payment Source becomes available, the Port Finance Director will identify the unpaid Approved Payments for eligible uses of the available funds under Governing Law and Policy. The Port Finance Director will review and annotate each Approved Payment, if not already specified, to indicate:

- (1)** Project Payment Sources previously applied;
- (2)** costs that are subject to restrictions or limitations under this Financing Plan or Governing Law and Policy;
- (3)** Developer Return and Port Return accrued to the date of calculation by reference to the most recent Phase Quarterly Report and, if applicable, Port Quarterly Report, with separate calculations for Allowed Return and Additional Return, with daily accrual rates to be added when disbursements are actually made;
- (4)** order of priority under **Subsection 2.5(f)** (Priorities for Payment);
- (5)** amounts eligible for payment from any tax-exempt Bond Proceeds; and
- (6)** amounts eligible for payment from any other Public Financing Sources.

**(iii)** Whenever she is asked to approve disbursements that include any category of Developer Return, the Port Finance Director will be entitled to receive information about the related costs that she reasonably believes is necessary to ensure that the disbursement is paid with the appropriate Project Payment Sources.

**(iv)** The Port Finance Director will direct disbursements by signing, dating, and delivering copies of the signed Approved Payments to the applicable Payment Agents, with copies to Developer, the CFD Agent, and the IFD Agent as applicable.

**(v)** Contemporaneously with each disbursement under this Financing Plan, the Parties will make corresponding entries on the Developer Capital Schedule, the Port Capital Schedule, and the allonge, as applicable.

**(e) Approved Payments.**

**(i)** Approved Payments that the Port Finance Director delivers to any Payment Agent will authorize the Payment Agent to make payments when additional funds that it holds for disbursement in accordance with this Financing Plan become available. Each Payment Agent will document payments in accordance with the record-keeping requirements of the applicable Escrow Instructions, Special Fund Administration Agreement, or Bond Indenture.

**(ii)** The Port will provide instructions for Project Payment Sources to be disbursed as funds become available in accordance with the approved Phase Budget and the priorities specified in **Subsection 2.5(f)** (Priorities for Payment) unless:

- (1) the Parties agree otherwise by a countersigned writing;
  - (2) *DDA § 11.8 (Effects of Termination on Project Payment Sources)* applies due to termination of the DDA in part or in its entirety following a Material Breach by Developer; or
  - (3) the Approved Payment is for Horizontal Development Costs ineligible under Governing Law and Policy when Public Financing Sources are the only funds available.
- (f) **Priorities for Payment.** Subject to **Subsection 2.5(e)** (Approved Payments), disbursements will be made for Approved Payments according to the priorities specified below. This Subsection does not apply to **Subsection 2.9(b)** (Reimbursements from Affordable Housing Fund) or **Subsection 2.9(c)** (Alternative Return Rent Credits).
- (i) The Entitlement Sum will have the highest priority for payment. No other Capital Costs will be paid until the Entitlement Sum is fully paid.
  - (ii) Next, Approved Payments will have priority designated by the Port Director's numbering, subject to the following adjustments.
    - (1) Payment of the portion of any Approved Payment that consists of Additional Return will be deferred whenever the only available Project Payment Sources are subject to the Interest Cost Limitation. The applicable interest rate for the Interest Cost Limitation, determined as of the Reference Date, is 4.48%.
    - (2) Payments of Additional Return under Approved Payments will have priority for the use of pay-as-you-go Development Special Taxes, Office Special Taxes, Zone 1 Shoreline Special Taxes, and Mello-Roos-only Bond Proceeds when available.
    - (3) Whenever an Approved Payment is partially paid due to the application of the Interest Cost Limitation to available Project Payment Sources or other limitations of this Financing Plan, the entire unpaid balance will bear interest at the applicable rates of Developer Return, Port Return, or both until fully paid.
    - (4) If more than one Approved Payment includes Additional Return, and Additional Return will be paid from eligible Project Payment Sources in the order of priority assigned to the Approved Payment, subject to **Subsection 2.5(g)** (Pro Rata Payment), if applicable, in the following order of priority:
      - (A) the Additional Return portion of Developer Market Rate Return and Port Market Rate Return;
      - (B) the Additional Return portion of Alternative Developer Return and Alternative Port Return; and
      - (C) the Additional Return portion of Reduced Return.
  - (iii) Costs that may be reimbursed by the same Project Payment Source will be paid according to the relative priorities of the Approved Payments absent any other priority or limitation specified in this Financing Plan.
  - (iv) A limit in the Phase Budget on the amount of Project Payment Sources generated by the Current Phase that will be applied to Capital Costs of any Prior Phase will supersede **clause (ii)** of this Subsection when the limit is reached.

(v) Before a Port Capital Advance under **Section 7.5 (Port Election)** is afforded treatment under **Subsection 2.5(g) (Pro Rata Payment)**, any pre-existing Developer Balance must be paid in full by Project Payment Sources.

*Example:* The Port commits to make a Port Capital Advance of \$10 million when the Port Balance is zero and the Developer Balance is \$30 million. When the Port makes the Port Capital Advance, it is applied to reduce the pre-existing Developer Balance to \$20 million. After the Port Capital Advance, Developer spends an additional \$10 million, and \$50 million in Mello-Roos-only Bond Proceeds become available. The Bond Proceeds would be applied in the following order:

(1) The pre-existing Developer Balance of \$20 million, plus Developer Return to the date of payment would be paid in full.

(2) The remaining Bond Proceeds will be applied to the Port Balance (\$10 million Port Capital Advance plus Port Return) and the Developer Balance (the later Developer expenditure of \$10 million plus Developer Return) by pro rata payments as described in **Subsection 2.5(g) (Pro Rata Payment)**.

(vi) Any other priority specifically described in this Financing Plan or the DDA will be given effect. For example, if the Port elects not to defer any unreimbursed portion of a Port Capital Advance remaining after Phase 1 Project Payment Sources are exhausted, the Port will be entitled to priority as specified in **Subsection 2.9(g) (Port Advances for Phase 1 Overage)**.

(vii) Only after the Project Payment Obligation is satisfied in full will the Mission Rock CFD (and the IFD, subject to the Interest Cost Limitation, and to the extent payable under the pledge of Tax Increment to Special Debt Service) make payments on the Promissory Note as described in **Subsection 7.2(b) (Promissory Note)**.

(viii) Unless the Parties agree otherwise, Project Payment Sources generated in a Current Phase will not be used to pay Capital Costs of any Later Phase until the Port has approved the Phase Audit for the Current Phase.

(g) **Pro Rata Payment.** This Subsection applies whenever the Project Payment Obligation includes a Developer Balance and a Port Balance, subject to **Subsection 2.5(f) (Priorities for Payment)** and **Subsection 2.9(g) (Port Advances for Phase 1 Overage)**. After the application of **clause (v) of Subsection 2.5(f) (Priorities for Payment)**, categories of the Project Payment Obligation will be paid to the Port and Developer pro rata in the following order, with a separate pro rata calculation, when applicable, for each category:

(i) any Additional Return owing to Developer and the Port, to the extent eligible Project Payment Sources are available;

(ii) any Allowed Return owing to Developer and the Port, from any available source; and

(iii) the unpaid balance of Developer Capital and Port Capital, subject to **Subsection 7.2(c) (Limitations on Repayment Sources)** and **Subsection 7.4(c) (Limitations on Repayment Sources)**.

## **2.6. Deferred Infrastructure.**

(a) **Contractual Obligation.** Consistent with each Phase Approval, the Port will enter into Vertical DDAs obligating Vertical Developers of Development Parcels

identified in the Phase Approval to construct Deferred Infrastructure in coordination with vertical development.

**(b) Treatment of Costs.**

**(i)** The Appraisal Instructions will specify a preliminary budget, including contingency, based on third-party estimates for the Vertical Developer's costs to construct the Deferred Infrastructure. The amount of the preliminary budget will be deemed to be a DRP Advance, which the Port will record on the allonge to the Promissory Note as a disbursement made on the Closing Date of the Development Parcel.

**(ii)** The Vertical Developer will be required to provide evidence of its actual cost to build the Deferred Infrastructure to the Port. The Port will revise the amount of the deemed DRP Advance on the allonge to the Promissory Note accordingly.

**(c) Alternative Treatment of Costs.** Through the Phase Budget process, Developer may propose to repay any Vertical Developer obligated to construct Deferred Infrastructure in the Current Phase. If the Port accepts Developer's proposal, Developer's reimbursement payments to the Vertical Developer will be Horizontal Development Costs. In that case, the Port Commission's approval of the Phase Budget will include its decision to accept or reject Developer's proposal. If any Vertical Developer will construct and be reimbursed for Deferred Infrastructure, its Vertical DDA will be modified to provide for either Developer or the Port to make the reimbursement payments.

**2.7. Phase 1 Cost Containment.**

**(a) Notice.** Developer will provide notice to the Port promptly after Developer becomes aware that a Phase 1 Overage is likely to occur. Developer also will provide updated cost information in its next Phase Quarterly Report.

**(b) Negotiation Period.** Subject to extension by agreement, the Parties will meet and confer for the 30-day period beginning on the day after Developer delivers the notice. The purpose of the negotiations will be to:

**(i)** identify steps consistent with obligations under the Transaction Documents that could be taken to reduce the potential Phase 1 Overage and stay within the budgeted amounts; and

**(ii)** if necessary, discuss whether and when to initiate plans to revise the Phase Budget to pay for the Phase 1 Overage.

**(c) Port Election.** If the Parties are unable to identify measures to eliminate the Phase 1 Overage or to agree on measures that could be taken, the Port in its sole discretion may elect one of the following alternatives to fund the Phase 1 Overage on 60 days' prior notice to Developer, subject to Port Commission approval of a revised Phase Budget if necessary.

**(i)** The Port may elect to fund the Phase 1 Overage by a Port Capital Advance, which will bear Alternative Return.

**(ii)** The Port may elect to require that Developer fund the Phase 1 Overage with Developer Capital. Up to \$10 million of Developer Capital used for the Phase 1 Overage will bear Alternative Return. Developer Capital above \$10 million used to pay the Phase 1 Overage will bear Developer Market Rate Return.

(iii) The Port may elect to fund part of the Phase I Overage and require Developer to fund the balance, subject to the limitations of clause (ii) of this Subsection.

**2.8. Jobs/Housing Equivalency Fee.**

(a) Minimum JHEF. As indicated in DA § 5.4(b)(ii) (*Jobs/Housing Equivalency Fee*), each Phase Submittal will include Developer's estimate of the Jobs/Housing Equivalency Fee payable for each Development Parcel. Each approved Phase Budget will specify the Minimum JHEF to be paid for each Development Parcel in the Phase. Under the applicable Vertical DDA for each Development Parcel, the Vertical Developer will be required to pay the greater of:

- (i) the Minimum JHEF established in the Phase Budget; and
- (ii) the amount of the Jobs/Housing Equivalency Fee that would otherwise be due for each use area specified in a Vertical Developer's construction permit.

(b) Calculation of Minimum JHEF. The Parties have agreed to the following procedures to establish the Minimum JHEF payable for those parcels, even if the use of the designated parcels later changes. The amount of the Minimum JHEF will be subject to adjustment under DA § 5.4(b)(ii) (*Jobs/Housing Equivalency Fee*).

(i) The Minimum JHEF for each Development Parcel will be based on:

- (1) the projected square footage of each use in Vertical Improvements assumed in the Summary Proforma attached to the Financing Plan on the Reference Date; and
- (2) the anticipated principal use of the parcel on the Reference Date, as reflected in DDA § 1.5 (*Land Use Table*).

(ii) For parcels anticipated to be developed for commercial-office use in the Land Use Table, the Minimum JHEF is based on the assumed square footage of office use in the Summary Proforma. For parcels anticipated to be developed for residential use in the Land Use Table, the Minimum JHEF is based on the assumed square footage of nonresidential use in the Summary Proforma.

(iii) For Flex Parcels, the Minimum JHEF is shown in the alternative, based on assumed square footage of residential, office, or other uses. For example, the Minimum JHEF for a Flex Parcel if it is not developed as a Residential Project will be established by the assumed amount of office square footage.

(iv) For any Commercial Parcel anticipated to be developed with a hotel use, the Minimum JHEF will be based on the Jobs/Housing Equivalency Fees for office use.

(v) In its proposed Phase Budget, Developer may propose that the Minimum JHEF for a Development Parcel be reduced to the extent another Development Parcel in the same Phase will generate Jobs/Housing Equivalency Fees greater than those projected in the Summary Proforma. In no event will the Port approve any Phase Budget proposal if the sum of Jobs/Housing Equivalency Fees would be less than the sum projected for the Phase in the Summary Proforma.

(c) Deposit of Jobs/Housing Equivalency Fees. In the Development Agreement, the City has agreed that Vertical Developers of Commercial Parcels at the

Project Site will pay Jobs/Housing Equivalency Fees to the Port. The Port will deposit these funds into an Affordable Housing Fund held by the Special Fund Trustee.

(d) Affordable Housing Subsidy. Each Phase Submittal will:

(i) specify the number of Inclusionary Units at each AMI Percentage to be provided in each Residential Project in the Phase;

(ii) include a proposal attempting to balance the Affordable Housing Subsidy allocated to each Residential Project with projected Jobs/Housing Equivalency Fees generated by commercial/retail development in the Project.

(e) Affordable Housing Overage. If Jobs/Housing Equivalency Fees collected in a Phase result in an Affordable Housing Overage, the Special Fund Trustee will retain the Affordable Housing Overage in the Affordable Housing Fund. The Port will direct the disbursement of the Affordable Housing Overage in a Later Phase to fund an Affordable Housing Subsidy or to make reimbursements under **Subsection 2.9(b)** (Reimbursements from Affordable Housing Fund).

(f) Affordable Housing Shortfall. If the Phase Budget projects an Affordable Housing Shortfall, Developer will propose one or a combination of the following options with respect to the Affordable Housing Shortfall.

(i) Any portion of the Affordable Housing Shortfall may be unfunded. The unfunded portion of the Affordable Housing Shortfall would be treated as a DRP Advance.

(ii) Developer at its sole election may fund the Affordable Housing Shortfall with Developer Capital as an Alternative Return Cost, subject to **Subsection 2.9(b)** (Reimbursement from Affordable Housing Fund).

(iii) The Port at its sole election may fund the Affordable Housing Shortfall by a Port Capital Advance as an Alternative Return Cost, subject to **Subsection 2.9(b)** (Reimbursement from Affordable Housing Fund).

(g) Affordable Housing Fund Delays. If Jobs/Housing Equivalency Fees collected in a Current Phase are not available in the Affordable Housing Fund when the Affordable Housing Subsidy is payable to a Vertical Developer under its Vertical DDA, the Port may elect to make a Port Capital Advance or require Developer to advance Developer Capital to fund the Affordable Housing Subsidy, in either case as an Alternative Return Cost.

(h) Effect of TAY Units. As specified in *DDA § 7.4(e) (Appraisal Instructions)*, deeper affordability of TAY Units in a Residential Project will be disregarded for the purpose of any appraisal of the applicable Development Parcel.

## **2.9. Alternative Return.**

(a) Record-Keeping. Each Party will record each Alternative Return Cost as a separate line item in its respective Capital Schedule.

(b) Reimbursement from Affordable Housing Fund. If not previously reimbursed from DRP Advances, any Affordable Housing Shortfall or Affordable Housing Subsidy funded as an Alternative Return Cost will be reimbursed with priority from Jobs/Housing Equivalency Fees later deposited into the Affordable Housing Fund. Public Financing Sources are not available for this purpose.

(c) Alternative Return Rent Credits. The Master Lease Tenant will be entitled to Alternative Return Rent Credits. The amount of the first year's Alternative Return Rent Credit will be calculated by amortizing the Alternative Return Balance for Phase 1

and Alternative Return over the then remaining term of the Master Lease. The Alternative Return Rent Credit will be recalculated after any year in which either:

- (i) Project Payment Sources are applied to reduce the Alternative Return Balance; or
  - (ii) Developer incurs additional Alternative Return Costs.
- (d) Treatment of Rent Credits. When Alternative Return Rent Credits are applied to reduce Base Rent under the Master Lease:
- (i) the Developer Balance will be reduced simultaneously by the same amount; and
  - (ii) the Port will be deemed to have made a Port Capital Advance in the same amount, which will be added to the Port Balance subject to **Subsection 2.9(g)** (Port Advances for Phase 1 Overage).
- (e) Termination of DDA. If the DDA terminates before the Alternative Return Balance is satisfied, the Alternative Return Rent Credits will continue to abate Rent over the remaining term of the Master Lease.
- (f) Master Lease Termination or Expiration. If the Port wishes to terminate the Master Lease before Developer's Alternative Return Balance is satisfied, the Port will be required to pay off the unamortized balance of the Alternative Return Rent Credits as a condition of termination under *ML § 2.2 (Port's Early Termination Right)*. At the expiration of the Master Lease, any remaining Alternative Return Balance will be deemed satisfied.
- (g) Port Advances for Phase 1 Overage. The Port will not be reimbursed for Port Capital Advances used to pay Developer's Alternative Return Balance for a Phase 1 Overage with Project Payment Sources generated in Phase 1 until the Developer Balance for Phase 1 is paid. To the extent not recovered from Phase 1 Project Payment Sources, the Port may elect to be paid from Phase 2 Project Payment Sources, with first priority, or to defer any portion of the unpaid balance to Phase 3.

## **2.10. Special Facility Designation.**

- (a) Port Revenue Bonds. The Port previously issued Port Revenue Bonds secured by a pledge of Port revenues under the Port Master Indenture. As defined in the Port Master Indenture, pledged Port revenues specifically exclude revenues pledged to repay financing for public facilities that have been designated by the Port as "Special Facilities."
- (b) Designation and Effect. The Port hereby designates the Project Site as a Special Facility and declares Port revenues from and with respect to the Project Site, including Development Rights Payments, to be Special Facility Revenue pledged to pay Special Facility Revenue Bonds. As a result, the Port revenues from and with respect to the Project Site are not "Revenue" subject to and as defined in the Port Master Indenture.
- (c) Condition to Issuance of Bonds Payable from Allocated Tax Increment. Before issuing any Mello-Roos Bonds that are payable from Allocated Tax Increment or Tax Increment Bonds, the Port will file with the trustee for the Port Revenue Bonds the certificate, opinion, and report required by the Port Master Indenture.

### **3. DEVELOPMENT RIGHTS PAYMENTS**

#### **3.1. Use of DRP Advances.**

(a) Horizontal Development Cost Reimbursement. The Port will apply DRP Advances, using Parcel DRPs as funds become available, to pay the Developer Balance and any Port Balance as specified in this Financing Plan.

**3.2. Amount of Parcel DRPs.** The amount of the Parcel DRP for a specific Development Parcel will be determined by the following steps for inclusion in the Phase Budget in accordance with *DDA art. 3 (Phase Approval)*.

(a) Remaining Developer Costs. Developer will provide updated estimates of:

- (i) the outstanding Developer Balance on the Closing Deadline; and
- (ii) estimated additional Capital Costs required to complete the Phase Improvements.

(b) Port Costs and Public Financing Sources. The Port will:

- (i) provide estimates of any outstanding Port Balance on the Closing Deadline; and
- (ii) confirm Public Financing Sources available for the remaining Capital Costs of Phase Improvements.

(c) Calculation. Under *DDA § 3.1 (Presubmittal Activities)*, the Parties will discuss Developer's estimates of the minimum amount of Parcel DRPs to be included in each Phase Budget, which will be the amount of the projected funding gap remaining after making the following assumptions.

- (i) Developer will spend Developer Capital on Phase Improvements on projected spending dates occurring before the Closing Deadline to the extent that Public Financing Sources or DRP Advances are not used to pay Developer pass-throughs.
- (ii) If the Port committed to do so in the Phase Budget, the Port will make one or more Port Capital Advances to pay for a portion of Phase Improvements on projected spending dates occurring before the Closing Deadline.
- (iii) The balance of Public Financing Sources will be applied as specified in the Phase Budget.
- (iv) Estimated Parcel DRPs for any remaining Option Parcels will be applied as specified in the Phase Budget.

(d) Adjustments. The Parties will use Phase Quarterly Reports as the basis to confer on whether the Parcel DRP estimates should be revised based on new information and projections.

**3.3. Uses for DRP Fund.** The funds in the DRP Fund will be disbursed as follows.

(a) Application to Project Payment Obligation. If funds in the DRP Fund are available at any time when the Project Payment Obligation is satisfied on an interim basis, the Parties will discuss which of the following options best suits the circumstances.

- (i) The Port could direct the Special Fund Trustee to disburse a DRP Advance to the Mission Rock CFD to pay Developer pass-throughs as they are due.

(ii) The Parties could agree to direct the Special Fund Trustee to hold the funds to pay Developer pass-throughs for any Later Phases.

(iii) The Parties could agree to direct the Special Fund Trustee to hold the funds until needed to pay Developer the Developer Balance or anticipated Minimum Phase Return arising in any Later Phases.

(b) Application to Additional Return. Periodically, but no less frequently than at the inception of each Phase after Phase I, the Parties will review the Horizontal Development Costs that Developer has incurred, Developer Return accrued, and the application of DRP Advances and other Project Payment Sources to meet the Project Payment Obligation and reconcile them to the Phase Budget and the latest Phase Quarterly Report to the extent practicable. Based on these figures, the Parties will agree whether to retain funds in the DRP Fund to pay Additional Return until Developer has completed, and the Port has accepted, the Final Audit for the Project.

(c) After Final Completion. All funds remaining in the DRP Fund after the Port has issued the final SOP Compliance Determination for the Project will be disbursed in the following order of priority:

(i) to Developer until Developer has been paid the greater of Developer Return and Minimum Developer Return under **Subsection 2.5(c)** (Developer Return); then

(ii) to pay Capital Costs in accordance with **Subsection 2.5(f)** (Priorities for Payment); and

(iii) to pay down or create additional reserves for any existing or anticipated Bonds for Horizontal Improvements.

(d) After Final True-Up. After all disbursements required under **Subsection 3.3(c)** (After Final Completion) have been made, any amounts remaining in the DRP Fund will be transferred to the Port Harbor Fund.

**3.4. Lead Parcels.** Developer will designate the Lead Parcels in its Phase Submittal for Phase I in accordance with this Section.

(a) Option Exercise Deadline. Subject to *DDA § 7.2 (Phase I Put)*, Developer will exercise its Option for the Lead Parcels no later than the date when all of the following have occurred:

(i) Developer obtains a Phase Approval for Phase I;

(ii) Public Works has approved the Phase Tentative Map; and

(iii) Developer has entered into a Public Improvement Agreement with Public Works for Phase I Horizontal Improvements.

(b) Lead Parcel Conveyances. Each designated Vertical Developer Affiliate will enter into a Vertical DDA that specifies the terms of its Prepaid Leases for its respective Lead Parcel and provides for the Vertical Developer to pay the Parcel DRP in cash or by Credit Bid at its election. The Port in turn will make DRP Advances to be applied first to the unpaid balance of the Entitlement Sum, then:

(i) if fully paid, any remainder will be disbursed into the DRP Fund;

or

(ii) if not fully paid, Developer Market Rate Return will begin to accrue on the unpaid balance of the Entitlement Sum on the date the Prepaid Leases Close if they Close simultaneously, or otherwise on the date the last Prepaid Lease Closes.

(c) Expiration or Early Termination of DDA. If the DDA terminates before the Entitlement Sum is fully satisfied, the following will apply.

(i) The Master Lease will remain in effect subject to the Alternative Return Rent Credit and **clause (ii)** of this Subsection.

(ii) The Port will have the right to terminate the Master Lease under *ML § 2.2 (Port's Early Termination Right)* by paying Developer the unpaid balance of the Entitlement Sum and the unamortized balance of the Alternative Return Rent Credit.

(iii) If not paid by the expiration of the DDA, any remaining balance of the Entitlement Sum will be deemed satisfied.

### **3.5. Right to Credit Bid.**

(a) Exercise of Right. Under DDA art. 7 (Parcel Leases), Developer, through its Vertical Developer Affiliates, has the right to tender a Credit Bid instead of cash for some or all of a Parcel DRP. This Section will apply to any Credit Bid of a Parcel DRP. **FP Schedule 4** provides examples of the application of funds according to the priorities in this Section, assuming the Port conveys an Option Parcel to a Vertical Developer Affiliate by Prepaid Lease at Fair Market Value.

(i) If no Port Balance will be outstanding on the Credit Bid Determination Date, the amount that a Vertical Developer Affiliate may Credit Bid for the Port's conveyance of the Option Parcel will be determined under **Subsection 3.5(b)** (Parcel DRP Higher than Developer Balance) or **Subsection 3.5(c)** (Parcel DRP Less than Developer Balance), as appropriate.

(ii) If both a Developer Balance and a Port Balance will be outstanding on the Credit Bid Determination Date, the amount that a Vertical Developer Affiliate may Credit Bid for the Port's conveyance of the Option Parcel will be determined under **Subsection 3.5(d)** (Balances Owed to Both Parties).

(iii) A Vertical Developer Affiliate's exercise of this right will not affect its obligation to pay Escrow Closing Costs in cash to Close Escrow on the Parcel Lease.

(iv) The Vertical Developer Affiliate's Credit Bid will be deemed to have been delivered into Escrow and paid to the Port at the Close of Escrow. The Port will instruct, or be deemed to instruct, the Escrow Agent to disburse the Credit Bid and any required funds as described in **Subsection 3.5(b)** (Parcel DRP Higher than Developer Balance) or **Subsection 3.5(d)** (Balances Owed to Both Parties), as applicable.

(v) The Port will record the application of the Credit Bid to Developer's Capital Costs on the allonge to the Promissory Note. Developer will make corresponding entries on the Developer Capital Schedule.

(b) Parcel DRP Higher than Developer Balance. When the Project Payment Obligation consists solely of a Developer Balance that is less than the Parcel DRP of the Option Parcel, the Vertical Developer Affiliate's Credit Bid will be limited to the amount required to pay off the Developer Balance in full. The Vertical Developer Affiliate will be required to pay the difference between the Parcel DRP and the Developer Balance in cash to be disbursed from Escrow, as applicable, to the Special Fund Trustee for deposit into the DRP Fund or to the Port as Annual Ground Rent, or a combination of both.

(c) Parcel DRP Less than Developer Balance. When the Project Payment Obligation consists solely of a Developer Balance that exceeds the Parcel DRP of the Option Parcel, the Vertical Developer Affiliate may Credit Bid the amount of the Parcel

DRP. The Credit Bid will be applied to the Developer Balance in accordance with **Subsection 2.5(f)** (Priorities for Payment). The unpaid Developer Balance will continue to accrue the applicable rates of Developer Return until paid.

(d) **Balances Owed to Both Parties.** When the Project Payment Obligation includes both a Developer Balance and a Port Balance, the Vertical Developer Affiliate's Credit Bid will be limited to the amount to be applied to the Developer Balance in accordance with **Subsection 2.5(f)** (Priorities for Payment) and **Subsection 2.5(g)** (Pro Rata Payment). The Vertical Developer Affiliate will be required to pay the amount to be applied to the Port Balance under **Subsection 2.5(g)** (Pro Rata Payment) in cash for disbursement from Escrow to the Port.

### **3.6. Treatment of Third-Party Payments.**

(a) **No Credit Bids.** Unrelated Vertical Developers will not be allowed to Credit Bid.

(b) **Escrow.** Each Unrelated Vertical Developer must deposit into Escrow the Parcel DRP and Escrow Closing Costs in accordance with its Vertical DDA. The escrow instructions will direct the Escrow Agent to obtain demands for the Developer Balance and the Port Balance as of the Closing Deadline with daily accrual rates of Developer Return and Port Return, subject to verification.

(c) **Disbursements.** The Port will direct the Escrow Agent to pay the Escrow Closing Costs, then to disburse the Parcel DRP from the Escrow Account at the Close of Escrow in accordance with **Subsection 2.5(f)** (Priorities for Payment) and **Subsection 2.5(g)** (Pro Rata Payment). Any remaining balance of the Parcel DRP will be disbursed to the Special Fund Trustee for deposit in the DRP Fund.

**3.7. Recapture.** Under certain circumstances set forth in *VDDA § 19.1 (Before Close of Escrow)* and *PL Exh D* the Port will be entitled to 100% of a Vertical Developer's Net Proceeds if it sells its interest in an Option Parcel to a third party before the Port issues the first building permit for Vertical Improvements on the parcel. Funds will be disbursed from Escrow and deposited into the DRP Fund for uses specified in this Financing Plan.

**3.8. Reporting.** Developer's Phase Quarterly Reports must reflect the flow of all funds into and from Escrow for each Port conveyance of an Option Parcel. For each Option Parcel, payments to the Port must show how much of the Parcel DRP any Vertical Developer paid by Credit Bid or in cash, or both, and the Port's corresponding disbursements of the Credit Bid or cash at the Close of Escrow. Developer's next Phase Quarterly Report must include an updated Developer Capital Schedule reflecting the reduction of the Developer Balance on the Closing Date and the cumulative return on Developer Capital through the end of the quarter.

## **4. MELLO-ROOS TAXES**

### **4.1. Purpose.**

(a) **CFD Goals.** Developer acknowledges that the CFD Goals will prevail in the event of any inconsistency with this Financing Plan, unless the Board of Supervisors in its sole discretion approves a waiver of the CFD Goals.

(b) **Authorized Actions.** Subject to Governing Law and Policy, the Mission Rock CFD will be authorized to:

(i) incur indebtedness to repay Port Advances as described in **Article 7** (Port Advances), subject to a separate authorized bonded indebtedness limit for the Mission Rock CFD;

(ii) finance Capital Costs with Development Special Taxes, Office Special Taxes, and Zone 1 Shoreline Special Taxes;

(iii) issue Mello-Roos Bonds secured by any combination of Special Taxes listed in **clause (ii)** of this Subsection through the City at the Port's request in accordance with **Article 5** (Mello-Roos Bonds);

(iv) enter into Pledge Agreements under which the IFD will provide Pledged Tax Increment to secure Mello-Roos Bonds;

(v) use Zone 2 Special Taxes to pay directly for, issue Bonds, or pledge as security for Bonds to finance Shoreline Adaption Studies, Shoreline Protection Facilities and, subject to Port Commission (for facilities on Port land) and Board of Supervisors approval, for other uses permitted under the RMA;

(vi) after the Project Payment Obligation is satisfied:

(1) repay the Port for DRP Advances using Facilities Special Taxes and Mello-Roos Bond Proceeds; and

(2) use Facilities Special Taxes to pay directly for, issue Bonds, or pledge as security for Bonds issued to finance Shoreline Protection Facilities on or to protect Port land through the City at the Port's request; and

(vii) use Services Special Taxes to pay the Ongoing Maintenance Costs of Maintained Facilities.

(c) **Special Tax Levy on Leasehold Interests.** Under the CFD Law and this Financing Plan, Mello-Roos Taxes levied on the leasehold interests in Development Parcels in the Mission Rock CFD will be payable by the Tenants under the Parcel Leases. The City, the Port, and Developer agree that the Port's rights to terminate these leasehold interests for any reason may be limited by the Parcel Leases, the Master Lease, and applicable Indentures to preserve the City's rights to collect the Mello-Roos Taxes.

**4.2. City Implementation.** By Board of Supervisors Resolution Nos. 42-18 and 45-18, the City approved the DDA and authorized the Treasurer-Tax Collector and the Controller to enter into the Tax Allocation MOU with the Port. These approvals anticipate the following actions with respect to the Mission Rock CFD.

(a) **CFD Formation.** At the request of the Port, the City will form the Mission Rock CFD with Special Tax rates as generally described in **FP Exhibit C** and other terms as required by this Financing Plan or otherwise agreed by the Parties. The Mission Rock CFD will consist of a Facilities CFD and a Services CFD.

(b) **RMA.** The RMA will establish the rates at which the Mission Rock CFD may levy Mello-Roos Taxes on each Taxable Parcel in the Mission Rock CFD. Under the RMA, the Mission Rock CFD will levy Mello-Roos Taxes at different rates for Residential Projects and Commercial Projects, generally consistent with the outline in **FP Exhibit C**.

(c) **Agreement to Allocate Special Taxes.** Through the Tax Allocation MOU, City has agreed to allocate to the Mission Rock CFD the Mello-Roos Taxes levied in the Mission Rock CFD in accordance with the RMA and this Financing Plan.

(d) **Appointment of Port as Agent.** The City will appoint the Port as CFD Agent to take all authorized actions on behalf of the Mission Rock CFD, including:

(i) directing the Special Fund Trustee to disburse Mello-Roos Taxes for the purposes specified in the CFD Formation Proceedings;

(ii) determining in collaboration with the Office of Public Finance whether, in what amounts, and the terms by which the City will issue Bonds on behalf of the Mission Rock CFD;

(iii) directing the Indenture Trustees' disbursement of Mello-Roos Bond Proceeds;

(iv) incurring and repaying indebtedness to the Port for its Advances; and

(v) preparing on behalf of the Mission Rock CFD an annual CFD Report to the Board of Supervisors reporting on the amount of funds collected and expended and the status of the Project in compliance with section 53411 of the California Government Code.

(e) Tax Allocation MOU. The Board of Supervisors authorized the Controller and the Treasurer-Tax Collector to enter into the Tax Allocation MOU with the Port under Charter section B7.320 in furtherance of the Financing Documents. For the Mission Rock CFD, the Board of Supervisors authorized the following actions.

(i) The Treasurer-Tax Collector will levy and collect in a segregated fund Mello-Roos Taxes from the Mission Rock CFD as directed by the Port as CFD Agent, consistent with the Financing Documents.

(ii) The Controller will disburse Mello-Roos Taxes from the Mission Rock CFD to the Special Fund Trustee as directed by the Port as CFD Agent, consistent with the Financing Documents.

(iii) The Port will consult with the Public Finance Division of the Controller's Office on timing, amounts, and other matters relating to Mello-Roos Bonds, and the Port, the Treasurer-Tax Collector, and the Controller will cooperate to implement the objectives of the Financing Documents.

**4.3. Special Fund for Special Taxes.** Under section 53410 of the California Government Code, Mello-Roos Taxes must be deposited into a designated account. In compliance with CFD Law, the Port will establish the Special Tax Fund with the Special Fund Trustee with authorization to establish the segregated accounts listed in **FP Schedule 3** and any additional segregated accounts necessary or convenient for the administration of Project Payment Sources, after consultation with the Port.

(a) Facilities Account. The Facilities Account will hold: (i) Development Special Taxes, which may be levied on all Taxable Parcels; (ii) Office Special Taxes, which may be levied on all Taxable Parcels developed for office or hotel use; and (iii) Zone 1 Shoreline Special Taxes, which may be levied on all Taxable Parcels in Zone 1. Funds in this account will be disbursed to pay the Parties for Capital Costs, to make current Developer pass-through payments, and for any other purpose allowed under this Financing Plan.

(b) Services Account. The Services Account will hold Services Special Taxes levied on all Taxable Parcels and will be used to pay Ongoing Maintenance Costs of Maintained Facilities.

(c) Shoreline Account. The Shoreline Account will hold Zone 2 Shoreline Special Taxes and other Facilities Special Taxes that will fund Shoreline Adaptation Studies and, after the Shoreline Protection Project is approved, Shoreline Protection Facilities.

(d) Remainder Account. The Remainder Account will be established to hold any funds remaining in the Facilities Account after each Principal Payment Date. Until the Project Payment Obligation and any obligation to pay Minimum Developer Return are satisfied, the Special Fund Trustee will be instructed to disburse these funds only for Horizontal Development Costs, debt service on any outstanding Mello-Roos Bonds,

priority and any other CFD Administrative Costs, and to replenish any reserves specified in the applicable Indenture.

**4.4. Notice of Contract to Maintain Levy of CFD Financing.** Under section 3 of article XIIC of the California Constitution, under certain circumstances, voters may vote to reduce or repeal the levy of special taxes in a CFD. Section 9 of article I of the California Constitution, however, prohibits the passage of a law resulting in an impairment of contract.

(a) Notice. This Section provides notice of the following:

(i) The DDA, including this Financing Plan, is a contract between the Port and Developer.

(ii) Financing Capital Costs, Ongoing Maintenance Costs, the Shoreline Protection Facilities, and the CFD Administrative Costs through the application of Mello-Roos Taxes and Mello-Roos Bonds secured by Mello-Roos Taxes is an essential part of the consideration for the DDA.

(iii) Any reduction in the City's ability to levy and collect Mello-Roos Taxes on behalf of the Mission Rock CFD for purposes specified in this Financing Plan would materially impair Developer's and the Port's contractual obligations under the DDA.

(iv) Developer is relying on the use of Mello-Roos Taxes and Mello-Roos Bond Proceeds to pay for Shoreline Protection Facilities and Ongoing Maintenance.

(b) Intent to Maintain Contract. To further preserve the contractual obligations under the DDA, the Port agrees that:

(i) until all Mello-Roos Bonds have been repaid in full or defeased before maturity for any reason other than a refunding and the Port has satisfied the Project Payment Obligation, the Port will not initiate or conduct proceedings under CFD Law to reduce the Mello-Roos Tax rates except by agreement with Developer or if legally compelled to do so (e.g., by a final order of a court of competent jurisdiction); and

(ii) if the voters adopt an initiative ordinance under section 3 of article XIIC of the California Constitution that purports to reduce, repeal, or otherwise alter the Mello-Roos Tax rates before all Mello-Roos Bonds have been repaid in full or defeased before maturity for any reason other than a refunding and the Port has satisfied the Project Payment Obligation, the City and the Port will meet and confer with Developer to consider commencing and pursuing reasonable legal action to preserve the Port's ability to comply with its obligations under the DDA and this Financing Plan.

**4.5. RMA Generally.**

(a) Cooperation. Developer and the Port will cooperate to develop an RMA that is generally consistent with the outline in **FP Exhibit C** and sets Maximum Special Tax Rates and the method of levying and collecting Mello-Roos Taxes. Each category of Mello-Roos Taxes (Development Special Taxes, Zone 1 and Zone 2 Shoreline Special Taxes, Office Special Taxes, and Services Special Taxes) will be separately calculated and collected against the applicable Taxable Parcels.

(b) Administrative Costs. The Parties will determine the amount of the Priority CFD Administrative Costs through the CFD formation Proceedings, based on:

(i) actual administration costs of other CFDs in San Francisco;

(ii) the CFD's complexity and size; and

(iii) estimated costs of administrative services to be provided by Port and City staff and consultants.

(c) Annual Levy. Each City Fiscal Year, the CFD Administrator will determine what development has occurred in the prior City Fiscal Year, the amount of Tax Increment that is available in the Tax Increment Fund, the Mello-Roos Bonds Debt Service Requirement, and the anticipated CFD Administrative Costs for the City Fiscal Year to determine the applicable Special Tax Requirement for each category of Mello-Roos Taxes.

(d) Changes in Special Taxes Due to Changes in Land Use or Phasing. The RMA may include a provision that will prevent Maximum Special Tax Rates for a Taxable Parcel from declining as a result of a proposed land use or phasing change that would interfere with the Mission Rock CFD's ability to pay debt service on Mello-Roos Bonds and meet debt-service coverage requirements.

(e) Reduction of Special Tax Rates. The RMA will provide for the administrative reduction of Mello-Roos Taxes before the first series of Mello-Roos Bonds secured by Development Special Taxes is issued if the anticipated average Annual Allocated Tax Increment from Taxable Parcels in the Mission Rock CFD would be less than 90% of the amount projected at formation of the Mission Rock CFD. The Port, the City, and Developer will take the steps necessary to lower the rates for Development Special Taxes in the RMA to yield an average amount equivalent to the anticipated average Annual Allocated Tax Increment from the Taxable Parcels.

(f) Delinquencies. The RMA will limit the levy of Facilities Special Taxes on any Taxable Parcel due to the delinquencies in the payment of Facilities Special Taxes on any other Taxable Parcels in the Mission Rock CFD to 10% of the applicable Maximum Special Tax Rate.

(g) Annual Increases. The RMA will specify that the Maximum Special Tax Rates for each category of Mello-Roos Taxes levied to finance capital costs will increase 2% annually.

(h) Material Changes to CFD Law. If CFD Law materially changes to make Mello-Roos Taxes unavailable or severely impair the uses authorized by the Financing Documents, the Port and Developer in consultation with the City will negotiate in good faith to establish a substitute financing program equivalent in nature and function as allowed under then-current Governing Law and Policy.

#### **4.6. Services Special Taxes.**

(a) Authorized Costs. The RMA will authorize the City to levy Services Special Taxes annually in the amounts needed to provide a perpetual pay-as-you-go source to fund Ongoing Maintenance Costs.

(b) Annual Increases. The RMA will specify the maximum rates for Services Special Taxes and the rate of annual increases.

(c) No Prepayment. Taxpayers will not be allowed to prepay Services Special Taxes.

(d) Other Sources for Ongoing Maintenance Costs.

(i) Although the City and the Port will acquire all Horizontal Improvements from Developer under this Financing Plan, the Maintained Facilities are important to the ongoing success and identity of the Project. To protect its investment, Developer has agreed to establish through the Master CC&Rs a supporting framework if needed or desired to replace or supplement the Services Special Tax, which may include assessments through a property owners

association as generally described in *DDA Exh C4*, to assist in funding Ongoing Maintenance Costs if necessary.

(ii) In addition, the Port may establish maintenance obligations among consenting adjacent landowners who benefit from adjacency of Maintained Facilities, to contribute their equitable shares toward Ongoing Maintenance Costs.

(e) Covenants. Developer agrees to obtain Port approval of and establish maintenance covenants to be recorded in the Official Records before the Port conveys any Taxable Parcel or any parcel that will contain Taxable Parcels. The maintenance covenants will specify that the City, including the Port, is an intended beneficiary and obligate every owner of a Taxable Parcel to pay an amount equivalent to Services Special Taxes that would have been levied if the Mission Rock CFD or its taxing powers are ever eliminated or reduced for any reason, including any vote of the qualified electors in the Mission Rock CFD. Maintenance covenants will run with the land and be binding on successor owners in perpetuity.

#### **4.7. Shoreline Account.**

(a) Zone 1. Zone 1 Shoreline Special Taxes will be:

- (i) a Project Payment Source for Phase 1 Improvements;
- (ii) pledged to secure and pay debt service on Mello-Roos Bonds for Phase 1 Improvements; and
- (iii) used for all purposes authorized for Zone 2 Shoreline Special Taxes after the Project Payment Obligation for Phase 1 is satisfied.

(b) Zone 2. Zone 2 Shoreline Special Taxes will be:

- (i) a source to fund Shoreline Adaption Studies; and
- (ii) after appropriate environmental review, Shoreline Protection Facilities.

(c) Creation of Account.

(i) The CFD Formation Proceedings will authorize the Mission Rock CFD to levy Shoreline Special Taxes for authorized purposes.

(ii) The Special Fund Administration Agreement will authorize the Special Fund Trustee to disburse Shoreline Special Taxes for Shoreline Adaption Studies and Shoreline Protection Facilities.

(d) Shoreline Protection Facilities. The Mission Rock CFD will be authorized to continue to levy Shoreline Special Taxes to fund the Shoreline Protection Project subject to the following conditions.

(i) Environmental review of the Shoreline Protection Project is complete, and the City has approved the Shoreline Protection Project to protect persons and property in San Francisco from the potential effects of climate change and sea-level rise.

(ii) If applicable, the Port Commission and the Board of Supervisors have approved the Port Capital Plan incorporating the construction of Shoreline Protection Facilities.

#### **4.8. Shortfall Provisions.**

(a) Developer Waiver and Covenant. Developer agrees as follows, should it enter into a Parcel Lease for a Taxable Parcel in Project Area I.

(i) Developer may initiate a Reassessment to reduce the Baseline Assessed Value of its leased Taxable Parcel, but may not initiate a Reassessment of the Subsequent Assessed Value of that Taxable Parcel until the IFD Termination Date.

(ii) Developer covenants that should it initiate a Reassessment on its leased Taxable Parcel in violation of **clause (i)** of this Subsection, Developer and the Port will take the following measures to avoid shortfalls.

(1) Developer will pay the Port the Assessment Shortfall within 20 days after the Port delivers its payment demand. Amounts not paid when due will bear interest at the rate of 10%, compounded annually, until paid.

(2) The obligation to pay the Assessment Shortfall will begin in the City Fiscal Year following the Reassessment and continue until the earlier to occur of the following dates: (A) the applicable IFD Termination Date; and (B) when the Assessment Shortfall is reduced to zero.

(b) Vertical Developer Waiver and Covenant. The Parties have agreed on forms of a Vertical DDA and Parcel Lease for Vertical Developers that include the following provisions.

(i) A Vertical Developer may initiate a Reassessment to reduce the Baseline Assessed Value of a Taxable Parcel in Project Area I, but may not initiate a Reassessment of the Subsequent Assessed Value of a Taxable Parcel until the IFD Termination Date.

(ii) -- A Vertical Developer covenant that, should the Vertical Developer initiate a Reassessment on a Taxable Parcel in Project Area I in violation of **clause (i)** of this Subsection, the Vertical Developer and the Port will take the following measures to avoid shortfalls.

(1) The Vertical Developer will pay the Port the Assessment Shortfall within 20 days after the Port delivers its payment demand. Amounts not paid when due will bear interest at the rate of 10%, compounded annually, until paid.

(2) The obligation to pay the Assessment Shortfall will begin in the City Fiscal Year following the Reassessment and continue until the earlier to occur of the following dates: (A) the applicable IFD Termination Date; and (B) when the Assessment Shortfall is reduced to zero.

(c) Tax Exemption. Developer and the Port do not intend for this Section to affect the tax-exempt status of any Bonds. Should the Tax Code change, or the Internal Revenue Service or a court of competent jurisdiction issue a ruling that might cause any tax-exempt Bonds to be deemed taxable due to the requirements under this Section, the Port will release the obligations under this Section and it will be deemed severed from this Financing Plan under *App ¶ A.4.3 (Severability)*.

(d) Mutual Expectations as to Shortfall Measures. Neither Developer nor the Port expects the Port to make demand for payment under this Section. In light of the Parties' mutual expectations, Developer has agreed to the waiver in **Subsection 4.8(a)** (Developer Waiver and Covenant) and to include waiver and covenant language in documents with Vertical Developers as described in **Subsection 4.8(b)** (Vertical Developer Waiver and Covenant).

(e) No Negotiation. Developer understands that the Port would not be willing to enter into this Financing Plan without this Section.

**4.9. Conforming Amendments to Transaction Documents.** Before introducing the CFD Formation Proceedings, the Port and Developer in consultation with the City will negotiate amendments to the DDA, Financing Plan, and Master Lease to the extent necessary to address an orderly foreclosure process for the CFD. If the revisions would be Material Modifications to those Transaction Documents, the Port and Developer will seek Port Commission and Board of Supervisors approvals of the amendments in or concurrently with the CFD Formation Proceedings.

## **5. MELLO-ROOS BONDS**

**5.1. Legal Limitations.** The following limitations and priorities will apply to the use of Mello-Roos Bond Proceeds.

(a) Fair Market Price. To comply with CFD Law section 53313.51, the Acquisition Agreement for the Horizontal Improvements specifies a fair market price or method to determine a fair market price for each capital facility or discrete portion or phase of a capital facility to be acquired, including "an amount reflecting the interim cost of financing cash payments that must be made during the construction of the project."

(b) Interest Cost Limitation. Any Mello-Roos Bonds secured by a pledge of Tax Increment will be subject to the Interest Cost Limitation.

### **5.2. Use of Proceeds.**

(a) Priorities before Project Payment Obligation is satisfied. Until the satisfaction of the Project Payment Obligation if earlier, Mello-Roos Bond Proceeds will be available for purposes described in **Subsection 4.1(b)** (Authorized Actions) only after the following are fully funded:

- (i) required reserves and costs of issuance; and
- (ii) capitalized interest.

(b) Priorities after Pay-Off. After the Project Payment Obligation and any obligation to pay amounts due under **clause (ii)** or **clause (iii)** of **Subsection 2.5(c)** (Developer Return) are satisfied, the Port may use Mello-Roos Bond Proceeds for any eligible use consistent with applicable Indentures and the CFD Formation Proceedings that the Port Commission and the Board of Supervisors approve, each in its sole discretion.

(c) Financing Temporarily Excused. The City will not be obligated to issue any Mello-Roos Bonds under this Financing Plan at any time during which:

- (i) Developer or any Affiliate is in default in the payment of any ad valorem tax or Mello-Roos Taxes levied on any Taxable Parcel in Project Area I or the Mission Rock CFD;
- (ii) the Port has declared Developer to be in Material Breach, or Developer has not cured a Prospective Breach for which the Port has given notice under the DDA;
- (iii) Developer or any Vertical Developer Affiliate fails to cooperate reasonably with the Port or the City as necessary to place developed Taxable Parcels on the assessment rolls, levy special taxes, or issue Bonds;
- (iv) in the judgment of the Port or the City, as applicable, and based on the Funding Goals and advice of Port or City staff and consultants, market conditions, or conditions affecting the Project Site (such as tax delinquencies, assessment appeals, damage or destruction of improvements, or litigation) make it fiscally imprudent or infeasible to issue Bonds; or

(v) the underwriter exercises any right to cancel its obligation to purchase Mello-Roos Bonds during the occurrence and continuation of events specified in its bond purchase agreement with the City.

**5.3. Issuance.**

(a) Financing Assumptions. The Port will ask the City to issue Mello-Roos Bonds secured by Mello-Roos Taxes at the times and in the amounts assumed in the applicable Phase Budget, unless the Port, in consultation with the Office of Public Finance, determines that land value and the financing needs for the Phase do not warrant debt issuance or would not comply with the CFD Goals. This Financing Plan is based on certain assumptions regarding Mello-Roos Bonds for the Project, summarized below.

(i) Except as provided in **Subsection 5.5(a)** (Intent to Issue Early Bonds), all Mello-Roos Bonds issued to finance Horizontal Development Costs will be secured by a pledge of Development Special Taxes, Office Special Taxes, Zone 1 Shoreline Special Taxes, or any combination of those Facilities Special Taxes, from Taxable Parcels according to rates and priorities to be established in the RMA.

(ii) Most Mello-Roos Bonds issued to finance Horizontal Development Costs are expected to be secured by an additional pledge of the Allocated Tax Increment. Proceeds of any Bonds secured by Allocated Tax Increment will be subject to the Interest Cost Limitation.

(iii) Except for Zone 1 Shoreline Special Taxes pledged as a Project Payment Source, Shoreline Special Taxes will not be pledged or used to finance Horizontal Improvements.

(iv) Mello-Roos-only Bonds secured by Development Special Taxes or Office Special Taxes, or both, will be issued to finance Additional Return.

(b) Meet and Confer.

(i) Developer will have the right to request through the Port that the City issue Mello-Roos Bonds to finance Horizontal Development Costs at times or in amounts different from those in the Phase Budget. The City and the Port will retain discretion to elect not to issue Bonds on the specific terms requested.

(ii) Port and City staff and consultants will meet and confer with Developer to discuss each proposed Bond issue before the Port requests that the City sell Mello-Roos Bonds, but the Port and the City in consultation with the Port's financing consultants will retain discretion to determine reasonable and appropriate issuance dates, principal amounts, and primary financing terms in light of the purpose of the applicable Phase Budget, the City's CFD Goals, and the Port IFD Guidelines if applicable.

(c) Consistency with CFD Goals. All Mello-Roos Bonds issued under this Financing Plan will be consistent with the applicable Indenture and the CFD Goals, unless the Board of Supervisors authorizes otherwise.

(d) Credit Enhancement.

(i) If the bond underwriter requires or recommends security to enhance the marketability of any Bonds or provide better terms, the Parties will cooperate to identify forms of security that would provide the greatest financial benefit to the Project. Examples of additional security include designating a portion of Mello-Roos Bond Proceeds to fund capitalized interest, a letter of credit in the amount of a specified period of debt service, and a guaranty.

(ii) Neither Party will be required to provide credit enhancement, but a Party choosing to do so will be entitled to reimbursement of associated costs, such as issuance and annual fees, as Soft Costs.

(e) Tax-Exempt or Taxable. Developer and the Port agree to cooperate to maximize the tax-exempt treatment of any Mello-Roos Bonds that the City issues to finance Capital Costs, subject to the following.

(i) After consultation with Developer, the Port and the City, each in its sole discretion, will determine whether Bonds should be taxable or tax-exempt. Bond tax counsel for the Port or the City, or both, will evaluate each proposed use of tax-exempt debt for the possibility of meeting the private use test (such as management agreements that do not comply with IRS safe harbors, etc.), the private payment test, and the private loan test under the Tax Code.

(ii) Bond tax counsel for a planned Bond issuance will determine the extent to which planned uses of Bond proceeds will qualify for tax-exempt treatment under the Tax Code. To provide information necessary for bond tax counsel to issue an unqualified tax opinion for tax-exempt Bonds, Developer will identify the Horizontal Improvements that Developer wishes to fund with tax-exempt Bond proceeds.

(iii) Developer will indemnify the City against the impacts of an adverse IRS ruling caused by any misrepresentation by Developer of its planned uses for tax-exempt Bond proceeds.

#### **5.4. Bond Indenture.**

(a) Covenant to Foreclose. The Port will cause the City to covenant with Mello-Roos Bond bondholders to foreclose any lien of delinquent Mello-Roos Taxes consistent with the general practice for community facilities districts in California and otherwise as determined by the City in consultation with its underwriter or financial advisor for the Mello-Roos Bonds and other consultants.

(b) Reserve Fund Earnings. The Indenture for each issue of Mello-Roos Bonds will provide that earnings on any reserve fund that are not then needed to replenish the reserve fund to the reserve requirement will be transferred to: (i) the Mello-Roos Improvement Fund for allowed uses until it is closed in accordance with the Indenture; then (ii) the debt service fund held by the Indenture Trustee under the Indenture.

(c) Continuing Disclosure. Developer agrees to execute a continuing disclosure agreement in the form reasonably requested by an underwriter of Mello-Roos Bonds or any other Port or City financing consultant. Developer must comply with all obligations under any continuing disclosure agreement that it executes in connection with the offering and sale of any Mello-Roos Bonds.

(d) No Recourse to General Fund or Harbor Fund. Under no circumstances will any bondholder of Mello-Roos Bonds issued under this Financing Plan have recourse to either the City General Fund or the Port Harbor Fund.

#### **5.5. Mello-Roos Bonds for Phases.**

(a) Intent to Issue Early Bonds.

(i) The Port will seek Board of Supervisors approval for the City to issue Early Mello-Roos Bonds in each Phase in which issuance of Early Mello-Roos Bonds is included in the approved Phase Budget, subject to **Subsection 5.3(a)** (Financing Assumptions). The Port will request that the City issue Early Mello-Roos Bonds as soon as feasible after each applicable Phase Approval Date.

(ii) The Port will size the Early Mello-Roos Bonds by Facilities Special Tax rates applicable to Taxable Parcels in the area to be taxed, value-to-lien limitations, and underwriter requirements. Although the Port intends to request that the City issue Early Mello-Roos Bonds, the Port reserves the right to refrain from requesting issuance during the pendency of any of the circumstances described in **Subsection 5.2(c)** (Financing Temporarily Excused).

(b) Security. Except for Mello-Roos-only Bonds, Mello-Roos Bonds will be secured by all Development Special Taxes, Office Special Taxes, Zone 1 Shoreline Special Taxes, and Pledged Tax Increment.

(c) Developer's Agreement.

(i) By entering into the DDA, including this Financing Plan, Developer:

(1) acknowledges that the Port has the right to request that the City issue Early Mello-Roos Bonds in accordance with an approved Phase Budget; and

(2) agrees that its failure to pay any Facilities Special Taxes levied on a Taxable Parcel before the Port leases the parcel to a Vertical Developer will be a Prospective Breach under the DDA and, subject to notice and cure rights, under the Master Lease.

(ii) In consideration of this agreement, the Port agrees that Developer's Mello-Roos Tax payments made to service Early Mello-Roos Bonds under this Section will be treated as Soft Costs. The Parties acknowledge that, under the Tax Code in effect on the Reference Date, reimbursement of these costs may not be made with tax-exempt Bond Proceeds.

## **6. TAX INCREMENT**

**6.1. City Implementation.** By Ordinance No. 34-18, Board of Supervisors Resolution Nos. 42-18 and 45-18, and the Tax Allocation MOU, the City took the following actions with respect to the IFD.

(a) Agreement to Allocate Tax Increment. The City agreed to allocate to the IFD the Annual Allocated Tax Increment for use in Project Area I in accordance with each Port FY Budget, Appendix I, and this Financing Plan.

(b) Appointment of Port as Agent. The City appointed the Port as the IFD Agent and as the CFD Agent with the authority to act on behalf of the IFD to implement this Financing Plan, including:

(i) disbursing Allocated Tax Increment as provided in Appendix I;

(ii) determining in collaboration with the Office of Public Finance whether and in what amounts the IFD will issue Bonds for use in Project Area I;

(iii) directing the Indenture Trustees' disbursement of Bond proceeds;

(iv) executing and delivering an agreement pledging Allocated Tax Increment as first-priority security for Special Debt Service on any Mello-Roos Bonds to be issued for Horizontal Development Costs and to the Mission Rock CFD's indebtedness to the Port under the Promissory Note;

(v) repaying indebtedness on the Promissory Note after the Project Payment Obligation is finally satisfied;

and (vi) undertaking any other obligations to implement the Funding Goals;

(vii) preparing on behalf of the IFD an annual Statement of Indebtedness in compliance with section 53395.8(i)(2) of the IFD Law reporting on the IFD's revenues and debts, listing the following debts:

- (1) the obligation to apply any Allocated Tax Increment from Project Area I as provided in Appendix I;
- (2) payment obligations under the Promissory Note;
- (3) any pledge of Tax Increment to secure Special Debt Service on Mello-Roos Bonds;
- (4) any Bonds issued by the IFD; and
- (5) any other obligations the IFD undertakes to implement the Funding Goals.

(c) Tax Allocation MOU. The Board of Supervisors authorized the Controller and the Treasurer-Tax Collector to enter into the Tax Allocation MOU with the Port under Charter section B7.320 in furtherance of the Financing Documents with respect to the IFD. More specifically, the Board of Supervisors authorized the following actions.

(i) The Treasurer-Tax Collector will levy ad valorem taxes in Project Area I and collect Allocated Tax Increment in a segregated fund as directed by the Port as IFD Agent to the extent consistent with the Financing Documents and the approved Port FY Budget.

(ii) The Controller will disburse Allocated Tax Increment from Project Area I to the IFD for use in Project Area I as directed by the Port as IFD Agent to the extent consistent with the Financing Documents and the approved Port FY Budget.

(iii) The Treasurer-Tax Collector and the Controller will cooperate otherwise with the Port to ensure that the objectives of the Financing Documents will be fulfilled.

## **6.2. Allocated Tax Increment.**

(a) Special Fund for Tax Increment. Section 53396(b) of the IFD Law requires tax increment to be allocated to and paid into a special fund of the district. In compliance with this requirement, the Port has established the Tax Increment Fund, with the segregated accounts listed in **FP Schedule 4**, within the Special Fund Trust Account.

(b) Waterfront Set-Aside. Under section 53395.8(g)(3)(C)(ii) of the IFD Law, the IFD may spend the Waterfront Set-Aside "solely on shoreline restoration, removal of bay fill, or waterfront public access to or environmental remediation of the San Francisco waterfront." Appendix I authorizes the IFD to use Allocated Tax Increment from all of the Sub-Project Areas in Project Area I to meet the Waterfront Set-Aside requirement under IFD Law across Project Area I rather than in each Sub-Project Area. Both Parties acknowledge that the IFD Law will prevail over any conflicting provision in this Financing Plan or Appendix I.

(c) IFD Administrative Costs. Appendix I authorizes the IFD to fund IFD Administrative Costs from Annual Allocated Tax Increment.

(d) IFD Financing Plan. Allocated Tax Increment from Project Area I will be used in the priority listed below:

(i) to pay Special Debt Service on Mello-Roos Bonds as described in **Section 6.6 (Tax Increment Credit)**.

(ii) to pay IFD Administrative Costs;

(iii) to pledge as security for and pay debt service on Tax Allocation Bonds;

(iv) to pay the Project Payment Obligation, including Developer pass-throughs, subject to the Interest Cost Limitation; and

(v) after the Project Payment Obligation is satisfied, to pay off the Promissory Note subject to the Interest Cost Limitation and for any other purpose authorized by Appendix I, the IFD Law, the Port Commission, and the Board of Supervisors.

(e) **Horizontal Development Costs.** The following will apply until the Project Payment Obligation and any obligation to pay Minimum Developer Return are satisfied.

(i) Until the City or the IFD issues Bonds secured by Tax Increment, the Allocated Tax Increment will be available, subject to the Interest Cost Limitation, on a pay-as-you-go basis for the purposes and in the priority described in **Subsection 6.2(d)** (IFD Financing Plan).

(ii) After the City or the IFD issues Bonds secured by Tax Increment, the IFD may use the Allocated Tax Increment on a pay-as-you-go basis for the purpose described in **clause (iv)** of **Subsection 6.2(d)** (IFD Financing Plan) only to the extent that the Allocated Tax Increment exceeds debt service obligations.

### **6.3. IFD Project Area.**

(a) **Base Year.** Under IFD Law, the base year for Project Area I will be the City Fiscal Year in which the assessed value of taxable property in the Project Area was last equalized prior to the effective date of Ordinance No. 34-18 (2017-2018).

(b) **Tax Increment Limit.** Subject to the Tax Increment Limit, Appendix I authorizes the allocation of Tax Increment from each Sub-Project Area to the IFD, in general, for 45 years from the date the IFD actually receives \$100,000 of Allocated Tax Increment from the pertinent Sub-Project Area.

(c) **Pledge of Tax Increment.**

(i) Appendix I allocates Tax Increment to the IFD for the purposes specified in this Financing Plan. The Board of Supervisors authorized the IFD to incur debt and to pledge and use Tax Increment as provided in Appendix I and this Financing Plan by Ordinance No. 34-18.

(ii) As described in **Article 7 (Port Advances)**, the Port intends to meet the Project Payment Obligation under this Financing Plan in part by making DRP Advances to the Mission Rock CFD, and may elect to make Port Capital Advances for the same purpose. Under IFD Law, "debt" includes the Developer Balance and the Port Balance.

(iii) The Tax Increment Limit does not limit the amount of debt that the Port, the Mission Rock CFD, or the IFD will undertake under this Financing Plan, although the IFD Formation Proceedings established bonded indebtedness limits for each Sub-Project Area. The Port represents and warrants that it has not, in its capacity as IFD Agent, made any pledges of Tax Increment from Project Area I to any other debt as defined under IFD Law.

(d) Acquisition Prices. In accordance with IFD Law section 53395.8(g)(12), the Acquisition Agreement for the Acquiring Agencies' purchases of Horizontal Improvements specifies a price or method to determine a price for each public facility or discrete portion or phase of a facility, including the interim cost of financing construction. Developer Return will accrue on the initial acquisition prices specified in *AA Exh B*, as revised under *AA § 1.3 (Acquisition Price Updates)* to reflect actual costs as they become known. Payments under the Acquisition Agreement using the Allocated Tax Increment or the proceeds of Bonds secured by the Allocated Tax Increment will be subject to the Interest Cost Limitation.

(e) Increment Carryover. As long as Developer is not in Material Breach of the DDA, the Allocated Tax Increment remaining after payment of all costs and debt incurred for Horizontal Development Costs in any Current Phase will be available for use in Later Phases, subject to the 5-year limit on Tax Increment accrual under IFD Law section 53395.2 and other provisions of Governing Law and Policy.

**6.4. Validation.** Developer is aware that the IFD has filed a judicial validation action relating to the formation of Project Area I and actions authorized under Appendix I and this Financing Plan and agrees that attorneys' fees arising from the validation action will be Port Costs or City Costs that are reimbursable under **Section 9.2 (Port Accounting and Budget)**.

**6.5. Tax Allocation Bonds.** Appendix I authorizes the IFD to issue Tax Allocation Bonds in compliance with Governing Law and Policy, subject to the same Project-based constraints, limitations, and procedures applicable to Mello-Roos Bonds under this Financing Plan. Should the Parties later agree to use Tax Allocation Bonds to finance Horizontal Improvements, any reference in this Financing Plan to Bonds will also mean the proceeds of any Tax Allocation Bonds that the City issues for the stated purposes.

**6.6. Tax Increment Credit.** The procedures in this Section will apply only to Development Special Taxes. Available Tax Increment will not be used to reduce the Office Special Taxes or the Shoreline Special Taxes on any Taxable Parcel in the Mission Rock CFD.

(a) Step 1. By May 30 in each City Fiscal Year, the Treasurer-Tax Collector will prepare a Payment Report that specifies the Parcel Increment Amount for each Assessed Parcel and deliver the report to the CFD Administrator.

(b) Step 2. At the beginning of the next City Fiscal Year, the CFD Administrator will:

(i) inform the Treasurer-Tax Collector of the Potential Development Special Tax Levy on each Assessed Parcel according to the RMA; and

(ii) prepare an Assessed Parcel Credit Report to the Treasurer-Tax Collector that calculates the Development Special Tax Credit under this Section for each Current Parcel.

(c) Step 3 Alternative 1. If the Available Tax Increment is equal to or greater than the Potential Development Special Tax Levy on each Current Parcel as shown in the Assessed Parcel Credit Report, the following will apply to the current City Fiscal Year.

(i) The Controller will direct the transfer of the amount of Available Tax Increment equal to the Potential Development Special Tax Levy on all Current Parcels to the applicable Mello-Roos Bond debt service account in the amounts directed by the CFD Administrator and the balance to the Project Account of the Tax Increment Fund.

(ii) The CFD Administrator will not levy any Development Special Taxes on the Current Parcels.

(iii) The CFD Administrator will levy the Potential Development Special Tax Levy on every Taxable Parcel other than the Current Parcels according to the RMA.

(d) Step 3 Alternative 2. If the Available Tax Increment is less than the Potential Development Special Tax Levy on each Current Parcel as shown in the Assessed Parcel Credit Report, the following will apply in the current City Fiscal Year.

(i) The Controller will direct the transfer of all Available Tax Increment to the applicable Mello-Roos Bond debt service account as directed by the CFD Administrator.

(ii) Because Available Tax Increment is not sufficient to offset the Potential Development Special Tax Levy on each Current Parcel, the CFD Administrator will:

(1) apply the specific Parcel Increment Amount to the Current Parcel that generated it; and

(2) apply any remaining Available Tax Increment to each Current Parcel, based on the formula below, determining both the numerator and denominator after application of amounts under paragraph 1).

$$\frac{\text{(Potential Development Special Tax Levy for the Current Parcel)}}{\text{(Potential Development Special Tax Levy for all Current Parcels)}}$$

(iii) The CFD Administrator will levy Development Special Taxes on each Current Parcel in the amount equal to its Potential Development Special Tax Levy less the amount allocated under clause (ii) of this Subsection.

(iv) The CFD Administrator will levy the Potential Development Special Tax Levy on every Taxable Parcel other than the Current Parcels.

## **7. PORT ADVANCES**

### **7.1. Port Revenues.**

(a) Allowed Uses of Port Revenues. Under the Burton Act, SB 815, and Charter section B6.406, the Port's Development Rights Payment are public trust revenues that must be deposited into the Port Harbor Fund. Once deposited into the Port Harbor Fund, the Port may spend those revenues subject to any priorities established under any indenture or other debt instrument secured by those funds, for:

(i) uses specified in section 3 and section 5 of the Burton Act;

(ii) uses specified in Charter appendix B;

(iii) uses specified in SB 815, AB 2797, and any other state legislation authorizing Port expenditures; and

(iv) other uses consistent with the public trust.

(b) Trust Consistency. The Port Commission has determined that the Port's use and handling of Development Rights Payments as specified in this Financing Plan is authorized under SB 815 and the Charter and is otherwise consistent with the public trust and the Burton Act.

(c) Fair Market Value. State Lands has approved the DDA procedures for determining the Fair Market Value of the Development Parcels, the form of the Parcel Lease, and the Port's use of DRP Advances to pay for Horizontal Development Costs of Horizontal Improvements, all in accordance with AB 2797.

## **7.2.   DRP Advances.**

(a)   Parcel DRPs. The Port will use Parcel DRPs paid to the Port under *DDA art. 7 (Parcel Leases)* to make **DRP Advances** to the Mission Rock CFD as specified in **Article 3** (Development Rights Payments).

(b)   Promissory Note.

(i)   Before the Port makes the first **DRP Advance** by application of cash or a Credit Bid to the Project Payment Obligation, the CFD Agent will sign a Promissory Note in the form of **FP Exhibit B** and deliver it to the Port.

(ii)   Within one business day after receiving each **DRP Advance**, the CFD Agent will provide to the Port the following information with respect to the application of funds:

(1)   the Phase to which each entry applies;

(2)   amounts applied to pay the Developer Balance, accounting separately for amounts applied to the Entitlement Sum, Developer Capital spent after the Reference Date, and Developer Return accrued after the Reference Date, with detail on Allowed Developer Return and Additional Developer Return; and

(3)   amounts applied to pay any Port Balance, accounting separately for amounts applied to Port Capital Advances and Port Return, with detail on Allowed Return and Additional Return.

(iii)   The Port will enter on the allonge all specified information regarding the **DRP Advance**.

(iv)   Interest will begin to accrue on the principal balance of the Promissory Note from the date of each **DRP Advance** until paid, at the rates specified in **FP Exhibit B**.

(v)   Contemporaneously with each payment that the Mission Rock CFD or the IFD makes to the Port to apply to the Promissory Note, the Port will enter on the allonge the application of the funds. The Port will apply payments first to accrued interest, then to principal in chronological order of each **DRP Advance**.

(c)   Limitations on Repayment Sources. Under Governing Law and Policy, Additional Return accruing under the Promissory Note and any portion of a **DRP Advance** that is used to pay a Horizontal Development Cost that is not eligible for reimbursement from a Public Financing Source will not be eligible for repayment from the same Public Financing Source. For example, if a **DRP Advance** is used to pay Developer Marketing Costs and related Developer Return, neither Tax Increment nor the proceeds of Bonds secured by Tax Increment may be used to pay the Developer Marketing Costs or the related Additional Developer Return.

## **7.3.   Lead Parcel Proceeds.**

(a)   Equal to Entitlement Sum. If the aggregate Fair Market Value of the Lead Parcels is equal to the Entitlement Sum on the date the pertinent Prepaid Leases Close, the Port's obligation to pay the Entitlement Sum to Developer will be satisfied in full by the Port's delivery of the Prepaid Leases for the Lead Parcels.

(b)   More than Entitlement Sum.

(i)   If the aggregate Fair Market Value of the Lead Parcels is more than the Entitlement Sum when the Prepaid Leases Close, the Port's obligation to

pay the Entitlement Sum to Developer will be satisfied in full by the Port's delivery of the Prepaid Leases for the Lead Parcels.

(ii) The Vertical Developer Affiliates will be required to pay any overage into Escrow in cash as a lump sum to be disbursed to the Special Fund Trustee for deposit in the DRP Fund.

(c) Less than Entitlement Sum. If the aggregate Fair Market Value of the Lead Parcels is less than the Entitlement Sum, Developer Return will begin to accrue on the unpaid balance on the date the Prepaid Leases Close if they Close simultaneously, or otherwise on the date the last Prepaid Lease Closes.

**7.4. Port Capital Advances.** At its sole election in the Phase Budget process under the DDA, the Port will have the right to invest Port Capital for purposes consistent with this Financing Plan. Each Port Capital Advance will be treated as specified in this Article, subject to the following limitations to allow for a coordinated plan of finance and associated capital formation activities by Developer.

(a) Staff Recommendation for Phase Budget. During its review of a Phase Budget, Port staff may agree to recommend that the Port Commission commit to use Port Capital to fund Phase Improvements. The Parties will meet and confer before the Phase Budget is approved to agree on the timing and amount of any proposed Port Capital Advances.

(b) Other Port Capital Advances. The Port may propose to invest Port Capital at other times. Except in connection with **Section 2.7** (Phase I Cost Containment) or **Section 2.8** (Jobs/Housing Equivalency Fee), a Port proposal to make additional Port Capital Advances will be subject to Developer's prior consent in Developer's sole discretion.

(c) Limitations on Repayment Sources. Under Governing Law and Policy, Additional Return accruing on a Port Capital Advance and any portion of the Advance that is used to pay a Horizontal Development Cost that is not eligible for reimbursement from a Public Financing Source will not be eligible for repayment from the same Public Financing Source. For example, if a Port Capital Advance is used to reimburse Developer for its payment of possessory interest taxes for the Current Use Value of the Master Lease and related Developer Return, neither Tax Increment nor the proceeds of Bonds secured by Tax Increment may be used to pay the reimbursement of possessory interest taxes or accrued Additional Return.

**7.5. Port Election.** At its sole election in the Phase Budget process under the DDA, the Port will have the right to use any source that is less costly than Developer Capital for purposes consistent with this Financing Plan.

## **8. ACQUISITION OF HORIZONTAL IMPROVEMENTS**

**8.1. Commercially Reasonable Costs.** The Parties have determined that this Section and the terms of the Acquisition Agreement satisfy Government Code section 53314.9.

(a) Deemed Reasonable Costs. Under this Financing Plan, Horizontal Development Costs that Developer incurs will be deemed commercially reasonable if incurred under contracts meeting the criteria specified in *DDA § 13.4 (Contracting Procedures)*.

(b) PIT Threshold.

(i) Prior to the Reference Date, the tenant under the lease known as Port Lease No. L-14980 operated the Master Lease Premises for Special Events and parking and was subject to possessory interest taxes for the possessory

interests created by such lease. The Parties have agreed that the amount by which possessory interest taxes levied during the term of the Master Lease on the possessory interest(s) created by that lease exceed the PIT Threshold will be treated as a Soft Cost, determined for each City Fiscal Year. The PIT Threshold shall be calculated for each year by the following formula:

(1) The Parties will determine the amount of possessory interest taxes attributable to the possessory interests created by Port Lease No. L-14980 for City Fiscal Year 2017-2018, exclusive of possessory interest taxes attributable to Pier 48, by reference to the tax bill issued by the Treasurer-Tax Collector.

(2) The amount determined in clause (1) above will be considered the baseline amount of the possessory interest taxes for the entire Master Lease Premises. The Parties will also determine the number of parking spaces available in the Master Lease Premises in City Fiscal Year 2017-2018, and shall divide the baseline amount calculated in clause (1) by the number of parking spaces to determine a baseline amount per parking space.

(3) For each year during the term of the Master Lease, the PIT Threshold will be determined by (y) escalating the baseline amount for the Master Lease Premises determined in clause (1) above by 2% per City Fiscal Year and (z) adjusting the result in proportion to the number of parking spaces available in the then current Master Lease Premises in the current year as compared to the number of parking spaces available in City Fiscal Year 2017-2018. Changes in the number of parking spaces resulting from changes in the Master Lease Premises occurring during the course of the year will be reflected in proportion to the number of days in the year such spaces were available.

(ii) The Parties acknowledge that possessory interest taxes included in Horizontal Development Costs may not be reimbursable from Public Financing Sources.

**8.2. Ownership of Horizontal Improvements.** Developer will own each Horizontal Improvement until its Acquisition Price has been paid by Project Payment Sources, and the Horizontal Improvement has been delivered to and accepted by the applicable Acquiring Agency.

**8.3. Progress Payments.** Under the Acquisition Agreement, the Port will make progress payments from time to time using Project Payment Sources as each source becomes available.

**8.4. Payment Conditions.** Developer acknowledges that it must satisfy all conditions to payment in the Acquisition Agreement before the Port will be obligated to approve a Payment Request.

**8.5. Reimbursements for Horizontal Development Costs.** Developer and the Port acknowledge the following.

(a) Expenditures in Reliance of Reimbursement and Return. Developer's use of Developer Capital before Development Rights Payments and Public Financing Sources are available is not a gift or a waiver of Developer's right to reimbursement for Horizontal Development Costs and to receive Developer Return.

(b) Payments in Installments. Developer will be reimbursed for Horizontal Development Costs and receive Developer Return in installments as Project Payment Sources become available in accordance with this Financing Plan and the Acquisition

Agreement, and Developer Return will accrue on any unpaid balance until the Port satisfies Developer Balance or Project Payment Sources are exhausted.

(c) Limited Project Revenue. Both Parties wish to use Public Financing Sources to the greatest extent and as early as feasible for Horizontal Development Costs. Developer acknowledges that the Port's sources to pay Additional Return will be limited to Project Payment Sources that are not subject to the Interest Cost Limitation.

## **9. PROJECT ADMINISTRATION**

### **9.1. Developer Accounting.**

(a) Phase Accounts. Developer agrees to establish and maintain separate Phase Accounts for each Phase in form reasonably approved by the Port to track Developer's Horizontal Development Costs for Phase Improvements as they are incurred, the accrual of Developer Return on its unreimbursed Horizontal Development Costs, and the application of Project Payment Sources to accrued Developer Return and unreimbursed Horizontal Development Costs. For each Phase Account, accrual of Allowed Return and of Additional Return will be calculated separately.

(b) Phase Quarterly Reports. Developer will prepare and deliver to the Port a Phase Quarterly Report in a form reasonably acceptable to the Port until the Project Payment Obligation has been fully satisfied. Phase Quarterly Reports must include the following information, reported separately for each Phase for which Developer has obtained a Phase Approval and in the aggregate for the Project as a whole:

- (i) if applicable, a statement of Horizontal Development Costs previously incurred by Developer but not yet reimbursed;
- (ii) updated estimates of additional Horizontal Development Costs for Phase Improvements and actual Horizontal Development Costs incurred as specified in *DDA § 13.6(b) (Estimated Costs)*;
- (iii) accrued paid and unpaid Developer Return by category of return;
- (iv) if applicable, adjustments to the prior Phase Quarterly Report;
- (v) application of Project Payment Sources that Developer has received during the reporting period, accounting separately for each source;
- (vi) new development expected to occur or that is in progress, the assessed value of which is expected to be included on the secured real property tax roll in the City Fiscal Year before the next Phase Quarterly Report will be due;
- (vii) any Parcel Leases that Developer expects to Close Escrow, if the assessed value is expected to be included on the secured real property tax roll for a City Fiscal Year before the next Phase Quarterly Report will be due;
- (viii) Cumulative IRR;
- (ix) Horizontal Development Costs incurred in the Phase and in the aggregate for the Project;
- (x) projected or, if known, actual Peak Developer Equity;
- (xi) the amount of Developer Return paid in the Phase and in the aggregate by category of return; and
- (xii) Port Costs and City Costs billed, paid, and unpaid.

(c) Effect of Termination.

(i) Subject to **clause (ii)** of this Subsection, Developer's obligation to provide Phase Quarterly Reports will terminate as to any Terminated Phase after Developer has provided to the Port the Phase Quarterly Report covering the reporting period ending on the applicable Termination Date.

(ii) Unless the Terminated Phase was terminated on account of a default by the Port, Developer will be obligated to provide a Phase Audit under **Subsection 9.3(a)** (Phase Audit) for any Terminated Phase covering the Phase up to the Termination Date and to cooperate with any successor master developer to the extent necessary for the successor to complete any Phase Audit required under **Subsection 9.3(a)** (Phase Audit) and Final Audit required under **Subsection 9.3(b)** (Final Audit).

**9.2. Port Accounting and Budget.**

(a) Port FY Budget Preparation.

(i) The Port and Developer will meet and confer to create a Port FY Budget of projected Port Costs, City Costs, and Public Financing Sources for the period ending June 30 of the 2018-2019 City Fiscal Year and each City Fiscal Year until the Port has satisfied all of its payment obligations to Developer under this Financing Plan. By May 1 of each year during the DDA Term, the Port and Developer will meet and confer on a Port FY Budget for the next City Fiscal Year.

(ii) To aid the Port in preparing its Port FY Budget, Developer will provide its estimates of Horizontal Development Costs for all Horizontal Improvements that it expects to build in the next City Fiscal Year by quarter. By March 1 of each City Fiscal Year, the Port will advise Developer of Port Capital Advances that the Port intends to include in its proposed budget as a Project Payment Source, subject to the City's annual budget approval process.

(b) Contents of Port FY Budget.

(i) The Port will prepare preliminary estimates of Port Costs and request estimates of City Costs from each other City Agency, including those to be provided by Public Works under *ICA § 3.6 (Cost Recovery)*. The preliminary budget will provide quarterly estimates of projected Public Financing Sources, Port Costs, and City Costs for allocated Port and City staff by department and category and include estimated fees payable to third-party professionals that the Port and other City Agencies have engaged or expect to engage. The Port will update its preliminary budget through an iterative process and discussions with Developer as the Port obtains more information.

(ii) In each Port FY Budget, the Port will include the projected amount of Available Tax Increment and, if necessary, propose additional Project Payment Sources in accordance with the Phase Budget for any Current Phase to:

(1) offset the Potential Development Special Tax Levy of each Current Parcel under **Section 6.6** (Tax Increment Credit);

(2) pay debt service and other costs associated with any Mello-Roos Bonds or Tax Allocation Bonds for which Allocated Tax Increment was pledged;

(3) pay for projected Capital Costs; and

(4) satisfy the portion of the Project Payment Obligation and obligations under **clause (ii)** and **clause (iii)** of **Subsection 2.5(c)** (Developer Return) to be paid with Allocated Tax Increment.

(iii) Through this process, while also taking into account the approved Phase Budget and the Port's obligations and discretion regarding Bond issuances, the Port and Developer will agree on the Port FY Budget and agree on the amount that the Port will retain from Public Financing Sources to offset Port Costs and City Costs and an estimate of the remaining amount that Developer will be required to pay.

(c) City and State Authority. Developer acknowledges that the Port FY Budget and budget supplements are subject to review and approval by the Port Commission and the Board of Supervisors, each in its sole discretion. Developer also acknowledges that the Port FY Budget is subject to Applicable Port Laws.

(d) Reporting.

(i) Within 90 days after the end of each quarter during the DDA Term, the Port Director will deliver to Developer a Port Quarterly Report that lists the Port's use of DRP Advances and Port Capital Advances for Horizontal Development Costs, Port Costs, Other City Costs, and Project Payment Sources for the previous quarter and in comparison to the Port FY Budget. Each Port Quarterly Report will include copies of third-party statements and be binding on Developer in the absence of error that Developer demonstrates within six months after receipt.

(ii) The Port will provide additional information and supporting documentation about Port Costs at Developer's reasonable request. The Port and Developer agree to cooperate to develop a reporting format that satisfies Developer's reasonable informational needs without divulging any privileged or confidential information of the Port, the City, or their respective Agents.

(iii) Within six months after the Project Payment Obligation is satisfied, the Port will prepare a Final Port Report providing cumulative, detailed information about the Port's Capital Costs. The Final Port Report will be subject to Developer's rights under **Subsection 9.4(b)** (Developer Audit).

(e) Reimbursement. Developer will pay the Port the sum of unreimbursed Port Costs and City Costs within 60 days after receipt of each Port Quarterly Report. The Parties will meet and confer in good faith to resolve any disputes regarding a Port Quarterly Report. In addition to the other remedies provided in this DDA, the Port has the right to terminate or suspend any work under this DDA if Developer fails to pay the amount due, until the Port is paid in full.

(f) Unreimbursed Port Costs. To the extent that Developer does not pay or reimburse the Port for any Port Costs when due under **Subsection 9.2(e)** (Reimbursement), the Port may elect to recover the unpaid sum from any available Project Payment Sources (to the extent permitted), plus the Port's costs of collection or to issue a notice of Prospective Breach to Developer under *DDA § 18.1 (Notices)*.

**9.3. Audit Obligations.**

(a) Phase Audit.

(i) In reference to each Phase, except as to any portion for which this DDA has been terminated or unless otherwise approved by the Port Director, Developer will submit to the Port a Phase Audit prepared by a CPA that updates all financial matters included in previously submitted Phase Quarterly Reports

through the Phase Audit Date and prepared according to a commercially reasonable scope of review approved by the Port. The cost of a Phase Audit will be a Soft Cost.

(ii) Subject to **clause (iii)** of this Subsection, the Phase Audit Date for each Phase will be six months after the later of the date that the Port has:

(1) conveyed the last Option Parcel to be conveyed in the Phase; or

(2) issued SOP Compliance Certificates for all Phase Improvements.

(iii) The Phase Audit Date for any Terminated Phase will be six months after the Termination Date.

(iv) The Port will have six months to review and accept each Phase Audit without prejudice to its rights under **Subsection 9.4(a)** (Port Audit).

(b) **Final Audit.** The Final Audit Date for the Horizontal Improvements will be six months after the Port has satisfied the Project Payment Obligation, subject to **Subsection 9.3(c)** (Final True-Up). Developer will submit to the Port the Final Audit prepared by a CPA, except as to any terminated Phase, which updates all of the matters included in all Phase Audits through the Final Audit Date, prepared according to a commercially reasonable scope of review approved by the Port. The Port will have six months to review the Final Audit and will provide notice to Developer when the Port's review is complete, without prejudice to its rights under **Subsection 9.4(a)** (Port Audit).

(c) **Final True-Up.** Developer's delivery of Phase Audits and of the Final Audit will be without prejudice to its right to payment under **clause (ii)** or **clause (iii)** of **Subsection 2.5(c)** (Developer Return).

#### **9.4. Audit Rights.**

(a) **Port Audit.** The Port will have the right to conduct a Port Audit of matters covered by each Phase Audit and of the Final Audit. The Port will provide notice to Developer no more than four years after accepting the Phase Audit or Final Audit that the Port intends to review.

(i) The Port will bear its own audit costs unless a Port Audit reveals that Developer's Horizontal Development Costs for any category, including accrued Developer Return, are overstated by 5% or more from those stated in the Phase Audit or Final Audit under review. In that case, the costs of the Port Audit will be reimbursable Port Costs under the DDA.

(ii) The Parties may agree to submit disputes over whether any of Developer's Horizontal Development Costs for any category are overstated by 5% or more to nonbinding arbitration under *DDA § 9.3 (General Arbitration Procedures)*.

(b) **Developer Audit.** Developer will have the right to conduct a Developer Audit of the Port's Horizontal Development Costs as reported in the Final Port Report. Developer will provide notice of its intent to conduct a Developer Audit to the Port no more than four years after receiving the Final Port Report.

(i) Developer will bear its own audit costs unless a Developer Audit reveals that the Port's Horizontal Development Costs for any category are overstated by 5% or more from those stated in the Final Port Report. In that case, the Port will pay the costs of the Developer Audit.

(ii) The Parties may agree to submit disputes over whether any of the Port's Horizontal Development Costs for any category are overstated by 5% or more to nonbinding arbitration under *DDA § 9.3 (General Arbitration Procedures)*.

(c) Audit Rights for Participation Agreement. Each Party will have the right to audit at its sole cost the other Party's records regarding the Participation Agreement.

#### **9.5. Books and Records.**

(a) Developer's Books and Records. Developer will keep in its San Francisco office, for each Phase for the longer of four years after the applicable Phase Closing Date and the date on which any Port Audit is final or any litigation or dispute resolution proceeding relating to Developer's Books and Records or any Port Audit is finally concluded, Books and Records of all:

- (i) Horizontal Improvements;
- (ii) Developer Capital spent on Horizontal Development Costs of Horizontal Improvements;
- (iii) application of Project Payment Sources and any other sources to pay Developer's Capital Costs, organized by Phases; and
- (iv) Phase Accounts, Phase Quarterly Reports, Phase Audits, and the Final Audit.

(b) Port Books and Records. The Port will provide Developer the following documents promptly after they are released.

(i) Until the Final Audit Date, the Port will provide copies to Developer of the Port's annual audited financial statements, Statement of Indebtedness for Appendix I, and reports to the Controller for the RMA as soon as practicable following their public filing or release.

(ii) The Port will provide Developer with copies of each annual report to State Lands accounting for the Port's receipt and uses of lease revenues from Seawall Lot 337 as soon as practicable following its public filing or release.

(c) Format and Availability. The chief financial officers of each Party will meet to discuss and agree on formats for all Books and Records to be kept and provided under this Financing Plan, to the extent not dictated by Governing Law and Policy. After reasonable notice, a Party will make its Books and Records available to the other Party during regular business hours.

#### **9.6. Consultants.**

(a) Port Consultants. The Port, following consultation with Developer, will select any consultants that the Port deems reasonably necessary to form the CFD and Project Area I; prepare Appendix I and the RMA; issue Bonds; and otherwise implement this Financing Plan. The Port currently anticipates engaging special tax consultants, tax increment fiscal consultants, appraisers, financial advisors, bond underwriters, absorption consultants, bond counsel, bond trustees, escrow agents, and escrow verification agents, without prejudice to its right to engage other consultants as the need arises. Under this Financing Plan, any of the Port's reasonable out-of-pocket costs for financing consultants that are not reimbursed as CFD Administrative Costs or IFD Administrative Costs will be Port Costs.

(b) Developer Consultants. Developer may engage its own consultants to advise it on matters related to this DDA or any Bonds, and its reasonable out-of-pocket costs that are not reimbursed from Public Financing Sources will be Soft Costs.

**9.7. Payment of Costs.** The following procedures will apply to any demand from one Party to the other Party for other payments required under the DDA, including the defense, compromise, and resolution of an action, except as otherwise provided. This Section does not apply to Payment Requests under the Acquisition Agreement.

(a) Demand. The Party seeking payment will deliver its demand for payment to the other Party together with proof of payment. The Party obligated to pay will have the right to engage a CPA to review the other Party's claimed costs, and the Party seeking payment will cooperate in providing information necessary for the review. The Party conducting the review will bear its own costs unless the review reveals that the other Party's costs are overstated by 5% or more, in which case, the amount of the reimbursement will be reduced by the amount of the review costs.

(b) Time for Payment. Except as otherwise provided in any Transaction Document, or during any period of review or arbitration, payment demands are payable within 30 days after their receipt.

Developer and the Port have executed this Financing Plan as of the last date written below.

## APPENDIX

## ACQUISITION AND REIMBURSEMENT AGREEMENT

This **ACQUISITION AND REIMBURSEMENT AGREEMENT** (this "**Acquisition Agreement**"), dated as of the Reference Date, is between the **CITY AND COUNTY OF SAN FRANCISCO** (the "**City**"), acting by and through the **PORT COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO** (the "**Port**"), and **SEAWALL LOT 337 ASSOCIATES, LLC**, a Delaware limited liability company ("**Developer**"). Developer and the Port are each a "**Party**" to this Acquisition Agreement.

Standard provisions and rules of interpretation in Part A of the attached Appendix to Transaction Documents (the "**Appendix**") apply to this Acquisition Agreement. Terms used but not defined in this Acquisition Agreement are defined in Part B of the Appendix.

### RECITALS

A. The Port and Developer have entered into the DDA, which includes the Financing Plan. The DDA obligates Developer to construct Horizontal Improvements at or serving the Project Site. **AA Exhibit A** (Horizontal Improvements) lists the Horizontal Improvements for the Project. The Port will meet its Project Payment Obligation under the Financing Plan, in part, by reimbursing Developer for the Horizontal Development Costs of Horizontal Improvements. The Port's Approved Payment Requests will direct one or more Payment Agents to reimburse Developer with Developer Return accrued to the date of payment on behalf of the Acquiring Agency. Each payment under this Acquisition Agreement will represent a portion of the Acquisition Price of an eligible Horizontal Improvement or Component.

B. The Port and the City have entered into the Tax Allocation MOU under which the City agrees to take actions necessary to make the Public Financing Sources available for the Acquisition Prices of Horizontal Improvements as described in the Financing Plan. In addition to the Public Financing Sources, the Port will satisfy the Project Payment Obligation with: (1) **DRP Advances**; (2) at its election, **Port Capital Advances**; and (3) other sources described in *FP § 1.6 (Other Sources)*.

C. This Acquisition Agreement describes the procedures by which, at Developer's request, the Port will:

1. inspect on its own behalf, or cause authorized representatives of Other Acquiring Agencies to inspect, the Horizontal Improvements listed in **AA Exhibit A** (Horizontal Improvements), as amended under this Acquisition Agreement;
2. review and amend the phasing and Components of Horizontal Improvements, as set forth in **AA Exhibit B** (Cost Estimates of Components by Phase), as amended under this Acquisition Agreement; and
3. authorize the payment to Developer of the Acquisition Prices of Horizontal Improvements or Components as Project Payment Sources become available to the Port in accordance with the Financing Plan.

### AGREEMENT

#### 1. PURPOSE AND INTENT.

##### 1.1. Implementation.

(a) Purpose. This Acquisition Agreement: (i) implements and is subject to all limitations of the DDA and the Financing Plan; (ii) will become effective on the date this Acquisition Agreement is fully executed and delivered; and (iii) describes the procedures by which Horizontal Improvements are authorized for payment under the Financing Plan. The estimated Horizontal Development Costs of the Horizontal Improvements by Component and Phase are set forth in **AA Exhibit B** (Cost Estimates of Components by Phase).

(b) Acquisition Prices. Acquisition Prices will include Developer Return accrued up

to the date of payment. Developer will specify the actual Horizontal Development Costs of the portion of the Horizontal Improvement or Component for which payment is sought and provide the amount of Developer Return accrued up to a specified date and the daily rate at which Developer Return will continue to accrue until paid. Through its entries on the worksheet attached to each Payment Request, the Port will specify:

(i) the additional amount of Developer Return that has accrued between the date calculated for insertion into Developer's Payment Request and the date calculated for insertion into the attached Port worksheet on the Approved Payment; and

(ii) the daily rate at which Developer Return will accrue until a Payment Agent disburses funds in accordance with the Approved Payment.

(c) Relationship to Other Documents. Procedures in this Acquisition Agreement:

(i) are intended to complement and implement procedures in *DDA art. 3 (Phase Approval)*, *DDA art. 12 (Improvement Plans)*, *DDA art. 14 (Horizontal Development)*, *ICA art. 4 (Review Procedures for Improvement Plans, Inspections and Acceptance)*, and the Financing Plan; and

(ii) will never override requirements or conflicting provisions in any other Transaction Document.

## **1.2. Horizontal Improvements List.**

(a) Construction Phasing. The Parties intend **AA Exhibit A** (Horizontal Improvements) to document all Horizontal Improvements for which Developer could incur Horizontal Development Costs.

(b) Exclusive List. Under this Acquisition Agreement and *DDA art. 3 (Phase Approval)*, Developer will submit revisions to **AA Exhibit A** (Horizontal Improvements) from time to time to reflect changes in the scope of Horizontal Improvements for the Project that the Port has approved under *DDA § 3.7 (Changes to Phase)* or *DDA § 3.8 (Changes to Project)* as appropriate. Unless the changes are Material Modifications, the proposed changes will not require approval by the Board of Supervisors. The Port will not be required to use any Project Payment Source to pay the Acquisition Price of any Horizontal Improvement that is not listed in **AA Exhibit A** (Horizontal Improvements), as revised and approved. **AA Exhibit A** (Horizontal Improvements) does not limit the financing of other Developer costs eligible for reimbursement under the DDA and the Financing Plan.

## **1.3. Horizontal Development Costs.**

(a) Horizontal Development Cost Estimates. **AA Exhibit B** (Cost Estimates of Components by Phase) lists Developer's preliminary estimates of the Horizontal Development Costs of the Horizontal Improvements by Components and Phase for planning and informational purposes only. Actual Horizontal Development Costs to be paid will be reflected in the Phase Budget approved under *DDA art. 3 (Phase Approval)*, as amended under *DDA § 3.5(h) (Phase Budget Updates and Revisions)*, *DDA § 13.6 (Documentation of Costs)*, or otherwise by the Parties' agreement. In accordance with *DDA § 3.5(i)(iv) (Effect of Phase Budget Approval)*, the Phase Budget, including all allowances, contingencies, and approved amendments, will establish the upper limit of Horizontal Development Costs eligible for reimbursement.

(b) Exclusive List. The Parties intend **AA Exhibit B** (Cost Estimates of Components by Phase) to be a list of all Components of the Horizontal Improvements and their estimated Horizontal Development Costs. **AA Exhibit B** (Cost Estimates of Components by Phase) will not be complete at execution of this Acquisition Agreement, but Developer will provide a description of Components and Acquisition Cost Updates through information provided under *DDA § 3.4(h) (Phase Budget Updates and Revisions)* and *DDA § 13.6 (Documentation of Costs)*. Each Acquisition Cost Update will supersede the prior version.

#### **1.4. Project Payment Sources.**

(a) Limitations. The Port will not be obligated to pay Developer any amounts due under the Financing Plan except from Project Payment Sources. The Port and Developer acknowledge that:

(i) Public Financing Sources may be applied to the Acquisition Price of a Horizontal Improvement approved by a Payment Request only to the extent that the Acquisition Price is eligible for payment under Governing Law and Policy, including the Interest Cost Limitation, even if the costs were included in **AA Exhibit A** (Horizontal Improvements), **AA Exhibit B** (Cost Estimates of Components by Phase), and Acquisition Cost Updates;

(ii) limitations on the use of Public Financing Sources for the payment of the Acquisition Price of a Horizontal Improvement or Component do not limit the Port's application of other Project Payment Sources for the payment of the Acquisition Price of a Horizontal Improvement or Component; and

(iii) Developer will make commercially reasonable efforts to provide the Port timely with updated Horizontal Development Cost information so that the Port is able to budget for the availability of Project Payment Sources to pay the Acquisition Prices of Horizontal Improvements and Components in **AA Exhibit B** (Cost Estimates of Components by Phase) and Acquisition Cost Updates.

(b) Escrow Bonds. Developer acknowledges that if the Port and Developer agree to issue escrow bonds for the Project, and Bond Proceeds are deposited in an escrow fund, escrowed amounts will become Project Payment Sources: (i) only after satisfaction of all escrow requirements and release from the escrow fund; and (ii) in the amounts specified in the applicable Indenture. The Port agrees to take all reasonable actions necessary to cause the release of funds from an escrow fund after all conditions for their release have been satisfied.

(c) No Payment Guarantee. The Port makes no warranty, express or implied, that Project Payment Sources will be sufficient to pay the Acquisition Price of the Horizontal Improvements.

#### **1.5. Deposits of Project Payment Sources.**

(a) Bond Proceeds. The proceeds of any Mello-Roos Bonds and Tax Allocation Bonds will be deposited, held, invested, reinvested, and disbursed as provided in the respective Indentures, all in a manner consistent with the Financing Plan. The portion of Bond Proceeds that is used to fund reserves for debt service, to capitalize interest on the Bonds, and to pay costs of issuance and administration will not be available to make payments to Developer.

(b) Tax Revenues. Project Tax Revenues will be deposited in accounts within the Special Fund Trust Account subject to a Special Fund Administration Agreement and held and disbursed as specified in the Financing Plan.

(c) Parcel DRPs. Parcel DRPs will be deposited into Escrow Accounts established in accordance with the Vertical DDAs between the Port and Vertical Developers or the DRP Fund and disbursed in accordance with escrow instructions at the Close of Escrow for each Parcel Lease or as otherwise specified in the Financing Plan.

(d) Investment Policy. Developer acknowledges that Port, in its proprietary capacity and as CFD Agent and IFD Agent, will direct the investment of Project Payment Sources in accordance with the Port's and the City's investment policies, all applicable laws, and any applicable Indentures. The Port will have no responsibility to Developer with respect to any investment of Project Payment Sources before their use under this Acquisition Agreement, including any loss of all or a portion of the principal invested or any penalty for liquidation of an investment so long as the investments were made in accordance with all applicable laws and

any applicable Indenture, even if a loss diminishes the amount of available Project Payment Sources.

## **2. CONSTRUCTION OF HORIZONTAL IMPROVEMENTS.**

**2.1. Obligation to Construct.** The obligation to construct and fund construction of the Horizontal Improvements is governed solely by the DDA. This Acquisition Agreement does not obligate Developer to construct or pay for any Horizontal Improvement.

**2.2. Relationship to Public Works Contracting.** This Acquisition Agreement provides for the Port's acquisition of Horizontal Improvements from time to time from Project Payment Sources and is not intended to be a public works contract. In that regard, the Port and Developer agree to all of the following statements.

(a) Local Concern. Developer's construction of Horizontal Improvements and Components is of local, not statewide, concern.

(b) Private Work. Neither the California Public Contract Code nor the City's public works requirements apply to Developer's construction of the Horizontal Improvements.

(c) Private Contracts. Developer will award all contracts for the construction of the Horizontal Improvements.

(d) No Advantage. Requiring Developer to comply with the Public Contract Code and the City's public works requirements would be incongruous and would not produce an advantage to the City, the Port, or the Project.

(e) Compliance with DDA. Developer agrees that DDA § 13.4 (*Contracting Procedures*) will apply to all contracts for construction of the Horizontal Improvements, including Deferred Infrastructure under DDA § 14.5 (*Deferred Infrastructure*).

(f) Consultation with Port. Developer agrees to conduct construction progress meetings in accordance with DDA § 13.7 (*Progress Meetings*).

(g) Third-Party Work. Construction of the Horizontal Improvements may be performed by Developer, by contractors employed by Developer, or by a third-party (including a Vertical Developer or contractor) that constructs the Horizontal Improvements on behalf of Developer.

## **2.3. Independent Contractor.**

(a) No Obligation to Contractors. In performing under the DDA, Developer is an independent contractor and not the agent or employee of the Port, the City, the CFD, or the IFD. Except as otherwise provided in this Acquisition Agreement or in the Financing Plan, none of the Port, the City, the CFD, or the IFD has any obligation to make payments to any contractor, subcontractor, agent, consultant, employee, or supplier of Developer.

(b) Port Determination. The Port has determined that it would obtain no advantage by directly undertaking the construction of the Horizontal Improvements, and that the DDA requires that the Horizontal Improvements be constructed by Developer as if they had been constructed under the direction and supervision, or under the authority, of the applicable Acquiring Party.

## **3. ACQUISITION OF HORIZONTAL IMPROVEMENTS.**

**3.1. Purchase and Sale.** Developer agrees to sell Horizontal Improvements at their Acquisition Prices to the Acquiring Parties, and the Port agrees to use Project Payment Sources to pay Developer the Acquisition Prices of Horizontal Improvements as Project Payment Sources become available as described in the Financing Plan.

### **3.2. Component Financing.**

(a) Horizontal Improvements Valued at \$1 Million or Less. Section 53313.51(a) of the CFD Law and section 53395.8(g)(12)(A) of the IFD Law authorize the use of Public Financing Sources to purchase a Component of a Horizontal Improvement with an estimated Horizontal Development Cost of \$1 million or less so long as the Component is capable of serviceable use. Subject to the availability of Project Payment Sources, the Port agrees to pay to Developer in accordance with these provisions before Developer has completed the Horizontal Improvement of which the Component is a part, unless it is the final Component of the Horizontal Improvement.

(b) Horizontal Improvements Valued Over \$1 Million. If the estimated Horizontal Development Cost of a Horizontal Improvement is over \$1 million, section 53313.51(b) of the CFD Law and section 53395.8(g)(12)(B) of the IFD Law authorize the purchase of Components of that Horizontal Improvement *whether or not* the Components are capable of serviceable use. Subject to the availability of Project Payment Sources, the Port agrees to pay to Developer the Acquisition Prices of Components in accordance with these provisions before Developer has completed the Horizontal Improvement of which the Component is a part, unless it is the final Component of the Horizontal Improvement.

(c) Progress Payments. The CFD Law and the IFD Law authorize progress payments for Horizontal Improvements. **AA Exhibit B** (Cost Estimates of Components by Phase) will list the Components of Horizontal Improvements. When Project Payment Sources are available, the Port will make progress payments for either:

(i) Components that are segments of a Horizontal Improvement (e.g., a segment of a water line); or

(ii) incremental completion of a Component (e.g., percent completion of earthwork).

(d) Payment of Costs. Both Soft Costs and Hard Costs may be paid as part of the Acquisition Price of any Component to the extent consistent with the allocation of costs under **Subsection 4.1(d)** (Cost Allocation). Developer may also request progress payments for Soft Costs and Hard Costs as allocated during construction of the Horizontal Improvements listed in **AA Exhibit A** (Horizontal Improvements).

(e) Acceptance Not A Condition. A Component does not have to be accepted by the Acquiring Party as a condition precedent to the payment of its Acquisition Price.

**3.3. Defective or Nonconforming Work.** This Section will apply if an Acquiring Party finds any of the work done or materials furnished for a Horizontal Improvement or Component to be defective or nonconforming to approved Improvement Plans and applicable laws. If the finding is made before the Port has paid the entire Acquisition Price for the Horizontal Improvement to Developer, the Port may withhold the payment until the defect or nonconformity is corrected to the Acquiring Party's satisfaction. If the finding is made after the Port has paid the Acquisition Price to Developer, then the DDA will govern the Port's rights and remedies.

## **4. PAYMENT REQUESTS.**

### **4.1. Initiating Payment.**

(a) Delivery to Chief Harbor Engineer. To initiate the process for authorizing payment, Developer must deliver to the Chief Harbor Engineer a Payment Request in the form of **AA Exhibit C** (Form of Payment Request) that contains all relevant information in an organized manner.

(b) Completeness Determination. The Chief Harbor Engineer will have 10 days after Developer delivers a Payment Request to review it for completeness. During the 10-day

period, the Chief Harbor Engineer will have the right to request additional information and documentation reasonably necessary to complete the review, and will have an additional 10 days after Developer delivers the requested information or documentation to make a completeness determination.

(c) Required Attachments. Required attachments to each Payment Request include:

- (i) an inspection report signed by the authorized representative of each applicable Acquiring Agency validating that the Horizontal Improvement or Component for which payment is requested complies with Project Requirements and Regulatory Requirements;
- (ii) acceptable forms of proof of payment for the Horizontal Development Costs to be reimbursed;
- (iii) other documents specified in **AA Exhibit C** (Form of Payment Request) to the extent applicable;
- (iv) a completed copy of **AA Exhibit C1** (Components Covered by Payment Request) specifying each contractor, subcontractor, materialman, and other person with whom Developer or its contractor has entered into contracts with respect to any Component included in the Payment Request;
- (v) the contract amount for each contract; and
- (vi) signed and acknowledged lien releases and waivers (in the required statutory forms) from all contractors, subcontractors, materialmen, consultants, and other persons that Developer retained in connection with the Component, in each instance unconditionally or conditionally waiving all lien and stop notice rights with respect to the pending payment.

(d) Cost Allocation. Developer will provide its Cost Allocation Proposal for the categories of Horizontal Development Costs listed below. Developer's Cost Allocation Proposal in a Payment Request will be presumed to be reasonable for purposes of this Acquisition Agreement unless the Chief Harbor Engineer notifies Developer of the Port's good-faith reasonable objection to the Cost Allocation Proposal within 10 days after Developer delivers the Payment Request to the Port.

(i) Soft Costs that apply to more than one Horizontal Improvement or Component, such as design fees and inspection and review fees, will be allocated to the related Hard Costs.

(ii) Whenever Hard Costs and Soft Costs apply to both Horizontal Improvements and Vertical Improvements (e.g., trunk utility infrastructure up to the lateral demarcation of a Development Parcel and connections from the building to the trunk infrastructure) will be allocated between Horizontal Development Costs eligible for reimbursement and vertical development costs that are ineligible.

(iii) If not previously stated in **AA Exhibit B** or an Acquisition Cost Update for Horizontal Improvements to be purchased in Components, Developer must provide the amount of the Acquisition Price allocated to each Component or use a reasonable, objective method to allocate among Components.

(e) Final Payment. The final Payment Request for a Horizontal Improvement also must include:

- (i) a copy of the Chief Harbor Engineer's SOP Compliance Determination for the Horizontal Improvement under *DDA § 14.6 (SOP Compliance)*;
- (ii) Developer's signed assignment of warranties and guaranties for the

Horizontal Improvement, in a form acceptable to the Acquiring Party;

(iii) as-built drawings and an executed assignment of the Improvement Plans, to the extent reasonably obtainable; and

(iv) an executed assignment of reimbursements, if any, from third parties payable with respect to the Horizontal Improvements, such as utility or other reimbursements, which the Port will tender to the Special Fund Trustee for deposit into the DRP Fund, unless the Parties agree to apply the funds to the Payment Request.

#### **4.2. Processing Payment Requests.**

(a) Port Review of Payment Request.

(i) The Chief Harbor Engineer will have 30 days after the Payment Request is complete to:

(1) determine whether it meets all applicable conditions of **Section 4.1** (Initiating Payment); and

(2) provide notice of his determination to Developer under **Subsection 4.2(b)** (Notice to Developer).

(ii) During the 30-day period, the Chief Harbor Engineer will have the right to request additional information and documentation reasonably necessary to complete the review. In that case, the Chief Harbor Engineer will have an additional 15 days to provide notice of his determination after Developer delivers the requested information or documentation.

(b) Notice to Developer.

(i) If the Chief Harbor Engineer approves the Payment Request, he will deliver a countersigned copy of the Payment Request to Developer simultaneously with delivery of the original under **Subsection 4.3(a)** (Port Finance Director).

(ii) If the Chief Harbor Engineer does not approve the Payment Request, he must specify in writing the reasons for his disapproval. If the Payment Request is disapproved, Developer may revise and resubmit it for approval, and the Chief Harbor Engineer will review it within the amount of time that is reasonable in light of the materiality of the reasons for the disapproval, not to exceed the greater of 10 days and the remaining number of days in the 30-day period under **Subsection 4.2(a)** (Port Review of Payment Request).

(c) Deemed Approval. If the Chief Harbor Engineer fails to notify Developer within the 30-day period under **Subsection 4.2(a)** (Port Review of Payment Request) that a Payment Request is approved or disapproved, and the failure continues after the expiration of the electronic notice period under *App ¶ 2.2(c) (No Deemed Approval or Consent Without Notice)*, the Payment Request will be deemed approved.

#### **4.3. Processing Payments.**

(a) Port Finance Director.

(i) Within five days after approving a Payment Request, the Chief Harbor Engineer must forward the original signed Approved Payment Request to the Port Finance Director. If the Chief Harbor Engineer has not forwarded the Approved Payment Request within that period, or the Payment Request is deemed approved under **Subsection 4.2(c)** (Deemed Approval), Developer will have the right to deliver directly to the Port Finance Director a Deemed Approved Payment Request, consisting of the Payment Request, together with proof of its delivery and later electronic notice to the Chief Harbor Engineer under **Subsection 4.2(c)** (Deemed Approval), with a copy to

the Chief Harbor Engineer.

(ii) In addition to the Horizontal Development Costs in a Payment Request, the Port Finance Director will authorize payment of Developer Return, Alternative Return, or Reduced Return, as applicable, by annotating the Payment Request with a preliminary calculation and the amount to be added for each day between the date of her calculation and the date the funds are disbursed.

(b) Disbursements. As Project Payment Sources become available, the Port Finance Director will direct disbursements by delivering a copy of a signed and annotated Approved Payment Request, which will serve as the Port's payment instructions, to each applicable Payment Agent, with copies to Developer, the CFD Agent, and the IFD Agent if applicable for their files. The Payment Agents will be directed to apply Project Payment Sources to pay the Acquisition Prices of the Horizontal Improvements and their Components, subject to: (i) any limitations under Governing Law and Policy; and (ii) any priorities established in the Financing Plan.

#### **4.4. Priority of Payment Requests.**

(a) Numbering and Priority.

(i) For identification purposes only, Developer must number each Payment Request by Phase, numbered in the order in which it is submitted to the Port. The Port Finance Director will number each Payment Request approved under this Acquisition Agreement and Requisition approved under the Financing Plan by Phase and date of approval.

(ii) Approved Payments will be paid in accordance with the priorities specified in *FP § 2.5(f) (Priorities for Payment)*.

(b) Phase-Specific. Each Payment Request must be limited to Horizontal Development Costs that Developer incurred in a single Phase.

(c) Public Financing. The Port and Developer acknowledge that Public Financing Sources may be applied to a Payment Request only to the extent that the Horizontal Development Costs are eligible for payment under Governing Law and Policy, including the Interest Cost Limitation.

(d) No Deadline to Pay. The Port will honor Payment Requests:

(i) in any number of installments as Project Payment Sources become available; and

(ii) until fully paid, subject only to limitations on the amount of Project Payment Sources available for the Project.

(e) All Undisputed Amounts Paid. Except as provided under the DDA with respect to a Material Breach, the Port agrees not to withhold payment on any undisputed portion of a Payment Request.

**4.5. Vesting**. Developer's right to payment under a Payment Request will vest when it is approved or deemed approved under **Section 4.2** (Processing Payment Requests). If Project Payment Sources are not available to pay the full amount of a Payment Request when approved, then the Port will direct payment to the extent Project Payment Sources are available and notify Developer of the amount of the remaining unpaid portion. Developer will have a vested right to the payment of the unsatisfied portion of the Payment Request as Project Payment Sources later become available.

**5. MISCELLANEOUS.**

**5.1. Communications and Notices.**

(a) Manner of Certain Communications. The following communications may be made in any written form for which receipt may be confirmed, including facsimile, electronic mail, and certified first class mail, return receipt requested:

(i) updates to **AA Exhibit A** (Horizontal Improvements) or **AA Exhibit B** (Cost Estimates of Components by Phase);

(ii) requests for information or clarification regarding a Payment Request;  
and

(iii) any Port notice regarding a Payment Request.

(b) Effective Date. Communications covered by this Subsection will be effective upon receipt, or, if delivered after 5 p.m. on a weekday or on a weekend or holiday, the next business day.

(c) Additional Information. In connection with processing any request under this Acquisition Agreement (including Payment Requests), the Port agrees that any additional information request by the Chief Harbor Engineer to Developer must be submitted as soon as practicable following the submission of the original materials, but in any event prior to applicable deadlines required by this Acquisition Agreement. The Chief Harbor Engineer will use good faith efforts to make each additional information request comprehensive and thorough to minimize the number of requests delivered, and Developer will use good faith efforts to provide a thorough, organized, and complete response to each request. Developer is authorized to communicate directly with the Port to facilitate any additional information request, to facilitate the prompt resolution of any technical issues, and to minimize the amount of time it takes to resolve outstanding issues.

(d) Submittals. Developer must submit proposed Payment Requests to the Port for review and processing by certified first class mail - return receipt requested, personal delivery, or receipted overnight delivery. Payment Requests must be clearly marked: "Payment Request No. \_\_\_\_\_; Mission Rock; Attn: Chief Harbor Engineer" or, for deemed approval, "Port Finance Director." App ¶ A.5.3 (Effective Date) will apply to Developer's delivery of all Payment Requests. Developer will also comply with App ¶ 2.2(c) (No Deemed Approval or Consent Without Notice) before it will be deemed approved. Copies of communications covered by this Subsection must be delivered in the same manner as the original.

(e) Notices. All other notices must be given in the manner specified in App ¶ A.5 (Notices) to the addresses for notice provided below, or as changed in accordance with App ¶ A.5 (Notices).

**5.2. Amendment.** The Parties may amend this Acquisition Agreement from time to time by a signed writing. Changes to the form of the Payment Request as needed to make adjustments to clarify and expedite the payment process under this Acquisition Agreement, **AA Exhibit A** (Horizontal Improvements), and **AA Exhibit B** (Cost Estimates of Components by Phase) are ministerial in nature and will not require this Acquisition Agreement to be amended.

**5.3. Parties in Interest.** Nothing in this Acquisition Agreement, expressed or implied, is intended to or will be construed to confer upon or to give to any person other than the Port and Developer any rights, remedies, or claims under or by reason of this Acquisition Agreement or any covenants, conditions, or stipulations of this Acquisition Agreement; and all covenants, conditions, promises, and agreements in this Acquisition Agreement contained by or on behalf of the Port or Developer will be for the sole and exclusive benefit of the Port and Developer.

**AA EXHIBIT C**

**Form of Payment Request**

PAYMENT REQUEST NO. \_\_\_\_\_

PHASE: \_\_\_\_\_

PRINCIPAL AMOUNT REQUESTED: \$\_\_\_\_\_ for actual costs of Horizontal Improvements.

To the Chief Harbor Engineer and the Port:

1. I am authorized to execute this Payment Request on behalf of Developer.
2. The costs for which payment is requested:
  - (a) have not been inflated in any respect;
  - (b) have not been previously paid;
  - (c) are not the subject of any previously submitted Payment Requests; and
  - (d) have been calculated in conformance with the DDA, including the Financing Plan, and the Acquisition Agreement.

3. This Payment Request applies to:

☐ a progress payment for a portion of the following Component or Horizontal Improvement \_\_\_\_\_; or

☐ the following Component or Horizontal Improvement \_\_\_\_\_.

☐ The Acquiring Party has inspected the Improvements for which payment is requested and determined that they have been constructed in accordance with the DDA. The Horizontal Development Costs for which payment is requested are not the subject of dispute with any contractor, subcontractor, materialman, or other person who supplied goods or labor, as evidenced by the attached lien releases.

☐ The Chief Harbor Engineer has inspected the Improvements for which payment is requested and determined that they have been constructed in accordance with the DDA. The costs for which payment is requested are not the subject of dispute with any contractor, subcontractor, materialman, or other person who supplied goods or labor, as evidenced by the attached lien releases.

4. Developer is in compliance with the DDA and the Acquisition Agreement.

5. Developer is not:

(a) delinquent in the payment of ad valorem real property taxes, possessory interest taxes, Mello-Roos Taxes, or special assessments levied on the Project Site; or

(b) in Material Breach of the DDA.

6. This Payment Request seeks approval of the following amounts:

☐ Reimbursement of Developer costs in the amount of \$\_\_\_\_\_, plus:

☐ Developer Market Rate Return, consisting of

\$\_\_\_\_\_ of Allowed Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and

\$\_\_\_\_\_ of Additional Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day; or

☐ Alternative Developer Return accrued to date, consisting of

\$\_\_\_\_\_ of Allowed Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and

\$\_\_\_\_\_ of Additional Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day; or

☐ Reduced Return accrued to date, consisting of

\$\_\_\_\_\_ of Allowed Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and

\$\_\_\_\_\_ of Additional Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day.

7. Please instruct the Payment Agents to disburse funds to

☐ Developer's deposit account at the following financial institution by wire, according to the following instructions:

[Insert wiring instructions.]

☐ Each third party listed below at the specified address and in the specified amounts:

| Name | Amount (\$) | Address |
|------|-------------|---------|
|      |             |         |
|      |             |         |
|      |             |         |

By signing below, I certify that the above representations and warranties and all information provided in this Payment Request, including attachments and exhibits, are true and correct to the best of my knowledge based on reasonable investigation and inquiry.

| Project Payment Sources  | Authorized Uses   | Amount to be disbursed (\$) for HDCs | Accrued Developer Return |
|--|---|--------------------------------------|--------------------------|
| DRP Advance - Credit Bid <sup>1</sup>                              | o All Project Capital Costs   |                                      |                          |
| DRP Advance - Cash <sup>1</sup>                                    | o All Project Capital Costs   |                                      |                          |
| Port Capital Advance <sup>2</sup>                                  | o Developer's Capital Costs   |                                      |                          |
| Pay-as-you-go Facilities Special Taxes                             | o All Project Capital Costs   |                                      |                          |
| Bonds secured by Facilities Special Taxes and Special Debt Service | o Specified Project Capital Costs subject to the Interest Cost Limitation |                                      |                          |
| Bonds secured by Facilities Special Taxes only                     | o Specified Project Capital Costs   |                                      |                          |
| Pay-as-you-go Project Area I Allocated Tax Increment               | o Specified Project Capital Costs subject to the Interest Cost Limitation |                                      |                          |
| Tax Allocation Bonds   | o Specified Project Capital Costs subject to the Interest Cost Limitation |                                      |                          |
| Subtotals  |   |                                      |                          |
| Totals   |   |                                      |                          |

1. Developer costs reimbursed by DRP Advances will be recorded on the Allonge to the Promissory Note, together with specific amounts applied to Allowed Developer Return and Additional Developer Return. Public Financing Sources used to make Promissory Note payments may only be used for eligible uses. For example, pay-as-you-go Tax Increment and Bond Proceeds secured by Tax Increment may not be used to pay any portion of amounts applied to Additional Developer Return, as recorded on the allonge, or to Additional Port Return payable under the Promissory Note. Pay-as-you-go Facilities Special Taxes and proceeds of Mello-Roos-only Bonds may be used for any purpose authorized under the SF Special Tax Law.
2. Developer costs reimbursed by Port Capital Advances will be recorded on the Port Capital Schedule, together with specific amounts applied to Allowed Developer Return and Additional Developer Return. Public Financing Sources used repay Port Capital Advances may only be used for eligible uses. For example, pay-as-you-go Tax Increment and Bond Proceeds secured by Tax Increment may not be used to pay any portion of amounts applied to Additional Developer Return, as recorded on the allonge, or to Additional Port Return accrued on Port Capital Advances. Pay-as-you-go Facilities Special Taxes and proceeds of Mello-Roos-only Bonds may be used for any purpose authorized under the SF Special Tax Law.

Payment Agents are authorized to disburse Project Payment Sources consistent with the authorized uses and amounts specified above, with:

- ☐ Developer Market Rate Return accrued up to the date specified above, consisting of \$\_\_\_\_\_ of Allowed Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and \$\_\_\_\_\_ of Additional Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day; or
- ☐ Alternative Developer Return accrued up to the date specified above, consisting of \$\_\_\_\_\_ of Allowed Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and \$\_\_\_\_\_ of Additional Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day; or
- ☐ Reduced Return accrued up to the date specified above, consisting of \$\_\_\_\_\_ of Allowed Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and \$\_\_\_\_\_ of Additional Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day.

**FP EXHIBIT B**

**Form of Promissory Note**

## **FP EXHIBIT B**

### **Form of Promissory Note**

By executing and delivering this **PROMISSORY NOTE** (this "**Note**"), **CITY AND COUNTY OF SAN FRANCISCO SPECIAL TAX DISTRICT XXXX** (the "**CFD**"), acting through the Port Commission of San Francisco, its duly appointed agent (the "**CFD Agent**"), promises to pay to the **CITY AND COUNTY OF SAN FRANCISCO** (the "**City**"), acting by and through the **PORT COMMISSION OF SAN FRANCISCO** (the "**Port**"), the principal amount of each **DRP Advance** (each, an "**Advance**") that the Port makes from time to time to the **CFD** in accordance with the **Financing Plan** (the "**Financing Plan**") to the **Disposition and Development Agreement** between the Port and Seawall Lot 337 Associates, LLC ("**Developer**"), dated as of XXXX (the "**DDA**").

Initially capitalized and other terms are defined in the Appendix to the **DDA**, which contains definitions, rules of interpretation, and standard provisions applicable to all Transaction Documents and this Note.

1. Within one business day after receiving each **Advance** from the Port, the **CFD Agent** will identify the **Payment Request** or **Requisition** to which the **Advance** applies and confirm to the Port in writing that the **CFD** applied the funds as specified in the **Approved Payment** or provide an explanation for any variance from the **Approved Payment**. Variances in the application of funds will be allowed only to the extent consistent with the **Financing Plan**, such as the availability of additional **Mello-Roos Taxes** between the date the **Approved Payment** is approved and the date of the **Advance**. The Port will enter the information that the **CFD Agent** provides on the allonge to this Note.

In each case, the **CFD Agent** must provide the following information to the Port:

- (a) Phase to which each **Advance** applies;
  - (b) amounts applied to pay the **Developer Balance**, accounting separately for amounts applied to the **Entitlement Costs**, **Developer Capital** spent after the **Reference Date**, accrual of each category of **Developer Return**, accounting separately for **Allowed Return** and **Additional Return**; and
  - (c) amounts applied to pay the **Port Balance**, accounting separately for amounts applied to the Port's **Horizontal Development Costs** and accrual of each category of **Port Return**, accounting separately for **Allowed Return** and **Additional Return**.
2. The **CFD** promises to pay interest on the unpaid principal amount of each **Advance** applied to:
  - (a) **Horizontal Development Costs** and the portion of **Port Return** that is **Allowed Return** from the date made until the principal amount is paid in full, at an annual rate of 4.48% percent, compounded quarterly until paid; and
  - (b) the portion of **Port Return** that is **Additional Return** from the date made until the principal amount is paid in full, at an annual rate of 10 percent, compounded quarterly until paid.
3. No payments will be due under this Note until the Port has fully satisfied the **Project Payment Obligation**. After that has occurred, the **CFD Agent** will instruct the **Special Fund Trustee** or the **Indenture Trustee**, as applicable, to begin to make payments of

principal and interest to the Port from available Public Financing Sources in the priorities established under the Financing Plan.

4. Each payment under this Note will be due 10 business days after the Controller disburses Mello-Roos Special Taxes and Allocated Tax Increment to the Special Fund Trustee in a City Fiscal Year. Until the principal balance and accrued interest have been paid in full, additional payments will be due annually, without presentment or demand.
5. Each payment under this Note from Mello-Roos Bond Proceeds will be payable as directed under the applicable Indenture.
6. Unless the Port directs otherwise, the CFD Agent must instruct that each payment to the Port be made by wire as follows:

[Insert wiring instructions.]

The Port will make entries on the allonge to reflect the date and application of each CFD payment.

7. The CFD may prepay the principal balance and accrued interest without penalty. Late payments will bear interest at the default rate of 10% until paid.

**FP EXHIBIT C**

**RMA Outline**

**EXHIBIT C  
to Financing Plan**

**RMA Outline**

**A. Facilities Special Taxes**

**1. Development Special Tax**

The Development Special Tax will be applicable to all taxable parcels. The rates set forth below are intended to yield annual taxes approximately equal to the estimated Allocated Tax Increment from each parcel at completion. After the completed building is enrolled on the ad valorem tax rolls, the Allocated Tax Increment from each building (i.e., 65% of ad valorem taxes paid) will be credited against the Development Special Tax.

The Development Special Tax rate for developed property will be as follows, escalated at 2% per year from 2017:

|                                       |  |
|---------------------------------------|--|
| Office                                | \$4.01 / gross square foot (gsf)         |
| Market Rate Residential <sup>1</sup>  | \$6.54 / net rentable square foot (nrsf) |
| Inclusionary Residential <sup>1</sup> |  |
| 45% AMI                               | \$1.14 per nrsf                          |
| 55% AMI                               | \$1.34 per nrsf                          |
| 90% AMI                               | \$2.21 per nrsf                          |
| 120% AMI                              | \$2.99 per nrsf                          |
| 150% AMI                              | \$3.75 per nrsf                          |
| Parking Structure                     | TBD                                      |

The Development Special Tax will not be applied to up to XX square feet of ground floor retail or PDR space.

**2. Office Property Special Tax**

Special Tax B will be applicable only to taxable parcels with office space and will not be subject to any Allocated Tax Increment credit on account of ad valorem property taxes. The initial Special Tax B rate for developed property will be \$1.55 per gsf of office space, and will escalate at 2% per year from 2017.

The Office Property Special Tax will not be applied to ground floor retail or PDR space.

<sup>1</sup> Each residential building will include some inclusionary units. For each residential building, the special taxes will be calculated based on the nrsf rates for the market rate units and each category of inclusionary units.

3. Shoreline Special Tax

The Shoreline Special Tax will be applicable to all taxable parcels and will not be subject to any Allocated Tax Increment credit on account of ad valorem property taxes. The Shoreline Special Tax rates for developed property will be as follows, escalated at 2% per year from 2017:

|                                       |                 |
|---------------------------------------|-----------------|
| Office                                | \$0.62 per gsf  |
| Market Rate Residential <sup>1</sup>  | \$1.01 per nrsf |
| Inclusionary Residential <sup>1</sup> |                 |
| 45% AMI                               | \$0.18 per nrsf |
| 55% AMI                               | \$0.21 per nrsf |
| 90% AMI                               | \$0.34 per nrsf |

| 150% AMI                              | \$0.58 per nrsf |

The Shoreline Special Tax will not be applied to up to XX square feet of ground floor retail or PDR space.

B. Services Special Tax

The Services Special Tax will be applied against each taxable parcel. The Services Special Tax rates for developed property will be as follows, escalated at the lesser of (i) the change in CPI and (ii) TBD% per year beginning in FY 2017-2018

|                                       |               |
|---------------------------------------|---------------|
| Office                                | \$1.35 / gsf  |
| Market Rate Residential <sup>1</sup>  | \$1.11 / nrsf |
| Inclusionary Residential <sup>1</sup> |               |
| 45% AMI                               | \$0.19 / nrsf |
| 55% AMI                               | \$0.23 / nrsf |
| 90% AMI                               | \$0.37 / nrsf |
| 120% AMI                              | \$0.51 / nrsf |
| 150% AMI                              | \$0.63 / nrsf |

The Services Special Tax will not be applied to up to XX square feet of ground floor residential or PDR uses.

**FP EXHIBIT D**

**Participation Agreement**

## FP EXHIBIT D

### Participation Agreement

Developer Participation will be calculated and payable as described below.

1. **Developer Participation.** Developer will be entitled to Developer Participation in Participation Revenue during the Participation Period, calculated as follows.
  - (a) 45% of the amount by which Participation Revenue exceeds the Participation Threshold in each of years 1 through 25 of the Participation Period;
  - (b) 35% of the amount by which Participation Revenue exceeds the Participation Threshold in each of years 26 through 50 of the Participation Period; and
  - (c) 25% of the amount by which Participation Revenue exceeds the Participation Threshold in each of years 51 through the end of the Participation Period.
2. **Payment.** Within 120 days after the end of each City Fiscal Year during the Participation Period, the Port will:
  - (a) provide Developer with a copy of the Port's annual report to State Lands on receipt and uses of lease revenues from SWL 337 as required under SB 815; and
  - (b) pay to Developer any Developer Participation due for the prior City Fiscal Year.
3. **Port Books and Records.** Port books and records available to Developer under *FP § 9.5(b) (Port Books and Records)* will continue to be available under this Participation Agreement.
4. **Audit Rights.** Each Party will have audit rights as described in *FP § 9.4(c) (Audit Rights for Participation Agreement)* with respect to matters covered by this Participation Agreement.

**FP EXHIBIT E**

**Form of Requisition**

2

**FP EXHIBIT E**  
**Form of Requisition**

REQUISITION NO. \_\_\_\_\_

AMOUNT REQUESTED: \$ \_\_\_\_\_

To the Port Finance Director:

1. I am authorized to execute this Requisition on behalf of Developer.
2. Proof of payment of the amount requested is attached.
3. Developer is in compliance with the DDA and the Acquisition Agreement.
4. Neither Developer nor any Transferee Affiliate is:

(a) delinquent in the payment of ad valorem real possessory interest taxes, Mello-Roos Special Taxes, or special assessments levied in the Project Site; or

(b) in Material Breach of the DDA.

5. This Payment Request seeks approval of the following amounts:

☐ Reimbursement of Horizontal Development Costs paid by Developer Capital in the amount of \$ \_\_\_\_\_, plus:

☐ Developer Market Rate Return, consisting of

\$ \_\_\_\_\_ of Allowed Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$ \_\_\_\_\_ per day and

\$ \_\_\_\_\_ of Additional Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$ \_\_\_\_\_ per day; or

☐ Alternative Developer Return accrued to date, consisting of

\$ \_\_\_\_\_ of Allowed Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$ \_\_\_\_\_ per day and

\$ \_\_\_\_\_ of Additional Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$ \_\_\_\_\_ per day; or

☐ Reduced Return accrued to date, consisting of

\$ \_\_\_\_\_ of Allowed Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$ \_\_\_\_\_ per day and

\$ \_\_\_\_\_ of Additional Return accrued to date, plus amounts accrued up to the date on which payment is made at the rate of \$ \_\_\_\_\_ per da

6. When this Requisition is approved, payments are to be made as follows:

☐ To Developer, the amount of \$ \_\_\_\_\_ to its deposit account at the following financial institution by wire, according to the following instructions:

[Insert wiring instructions.]

☐ Developer pass-throughs in the following amounts to any third party listed below at the specified address:

| Name | Amount (\$) | Address |
|------|-------------|---------|
|      |             |         |

| Name | Amount (\$) | Address |
|------|-------------|---------|
|      |             |         |

By signing below, I certify that the above representations and warranties and all information provided in this Requisition, including attachments and exhibits, are true and correct to the best of my knowledge based on reasonable investigation and inquiry.

1. Developer costs reimbursed by DRP Advances will be recorded on the Allonge to the Promissory Note, together with specific amounts applied to Allowed Developer Return and Additional Developer Return. Public Financing Sources used to make Promissory Note payments may only be used for eligible uses. For example, pay-as-you-go Tax Increment and Bond Proceeds secured by Tax Increment may not be used to pay any portion of amounts applied to Additional Developer Return, as recorded on the allonge, or to Additional Port Return payable under the Promissory Note. Pay-as-you-go Facilities Special Taxes and proceeds of Mello-Roos-only Bonds may be used for any purpose authorized under the SF Special Tax Law.
2. Developer costs reimbursed by Port Capital Advances will be recorded on the Port Capital Schedule, together with specific amounts applied to Allowed Developer Return and Additional Developer Return. Public Financing Sources used repay Port Capital Advances may only be used for eligible uses. For example, pay-as-you-go Tax Increment and Bond Proceeds secured by Tax Increment may not be used to pay any portion of amounts applied to Additional Developer Return, as recorded on the allonge, or to Additional Port Return accrued on Port Capital Advances. Pay-as-you-go Facilities Special Taxes and proceeds of Mello-Roos-only Bonds may be used for any purpose authorized under the SF Special Tax Law.

Payment Agents are authorized to disburse Project Payment Sources consistent with the authorized uses and amounts specified above, with:

- ☐ Developer Market Rate Return accrued up to the date specified above, consisting of \$\_\_\_\_\_ of Allowed Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and \$\_\_\_\_\_ of Additional Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day; or
- ☐ Alternative Developer Return accrued up to the date specified above, consisting of \$\_\_\_\_\_ of Allowed Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and \$\_\_\_\_\_ of Additional Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day; or
- ☐ Reduced Return accrued up to the date specified above, consisting of \$\_\_\_\_\_ of Allowed Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day and \$\_\_\_\_\_ of Additional Return, plus amounts accrued up to the date on which payment is made at the rate of \$\_\_\_\_\_ per day.

### Notes:

\*\*\* All numbers are preliminary estimates and subject to further change. \*\*\*

(a) Numerical estimates are expressed in nominal terms unless otherwise denoted. The horizontal infrastructure development phasing is estimated and subject to change.

(b) Includes the eligible cost of carry on an annual basis.

(c) All bond proceeds are net of issuance costs and interest reserve. The Port of San Francisco has the right but not the obligation to invest up to \$10 million toward horizontal infrastructure costs.

(d) CFD Mello Roos Bonds on completed buildings is secured by a twenty five basis points CFD special tax for the office parcels plus ten basis points applied to phase I parcels for shoreline improvements.

(e) Peak equity reflects the estimated maximum outstanding balance of master developer equity capital funded for a given phase (used for multiple return calculations).

(f) Existing SWL 337 Lot Ground Rent Allocation includes Lot A and Shed A. Base rent is estimated according to the horizontal development schedule.

(g) Pier 48 base rent will be determined in the future according to projected revenue and capital improvements.

(h) CFD Special Tax represents twenty five basis points applied to the office parcels.

(i) Shoreline Improvement Special tax is equal to ten basis points applied to all parcels in Phase I (Parcels A, B, G & K).

**APPDENDIX I TO IFD FINANCING PLAN  
FOR IFD PROJECT AREA I SUB-PROJECT AREAS**

## Appendix I

### **Project Area I Comprised of Sub-Project Areas I-1, I-2, I-3, I-4, I-5, I-6, I-7, I-8, I-9, I-10, I-11, I-12, and I-13 (Mission Rock – Port of San Francisco)**

*This Appendix supplements and amends the main body of the Infrastructure Financing Plan (the "IFP") for City and County of San Francisco Infrastructure Financing District No. 2 (Port of San Francisco) (the "IFD") as it relates to Project Area I ("Project Area I"), which is comprised of Sub-Project Areas I-1, I-2, I-3, I-4, I-5, I-6, I-7, I-8, I-9, I-10, I-11, I-12, and I-13 (each a "Sub-Project Area" and collectively, the "Sub-Project Areas"). This Appendix constitutes the Infrastructure Financing Plan for Sub-Project Areas in accordance with the provisions of Section 53395.8(g) of Chapter 2.8 of Part 1 of Division 2 of Title 5 of the California Government Code, commencing with Section 53395 of the California Government Code (the "IFD Law"). In the event of any inconsistency between the main body of the IFP and this Appendix, the provisions of this Appendix shall govern with respect to the Sub-Project Areas.*

**Background:** The City, acting by and through the Port Commission (the "Port"), and Seawall Lot 337 Associates, LLC ("Developer") anticipate entering into a Disposition and Development Agreement (the "DDA"), including a Financing Plan, which will govern the disposition and development of the Seawall 337 and Pier 48 and provide for the financing of certain capital facilities and public services related to the proposed project. The Project, known as "Mission Rock" (the "Project") is anticipated to be comprised of the following components:

- Over 8 acres of parks and open space;
- 1,327 rental residential apartments, of which 40% will be affordable to households earning less than 150% of the Area Median Income;
- 1.7 million square feet of office, retail, and production space; and
- Approximately one million square feet of structured parking.

The cost of public parks, plazas, utilities, open space, and streets to serve the Project is anticipated to total approximately \$191 million in current 2017 dollars. It is currently expected that these public improvements will be built by the Mission Rock developer and then transferred to public ownership. Tax increment revenues to be allocated to the IFD from the Sub-Project Areas will be used to acquire and construct the public improvements, and will also fund additional public improvements within the boundaries of the IFD.

The Project is anticipated to be constructed in Phases, as follows:

- Phase 1 – Sub-Project Area 1 (Block A), Sub-Project Area 2 Block B), Sub-Project Area 7 (Block G), Sub-Project Area 11 (Block K)
- Phase 2 – Sub-Project Area 3 (Block C), Sub-Project Area 4 (Block D)

- **Phase 3** – Sub-Project Area 5 (Block E), Sub-Project Area 6 (Block F), Sub-Project Area 13 (Mission Rock Square)
- **Phase 4** – Sub-Project Area 8 (Block H), Sub-Project Area 9 (Block I), Sub-Project Area 10 (Block J), Sub-Project Area 12 (Pier 48)

**Port as agent of the IFD with respect to the Sub-Project Areas:** The Board of Supervisors has appointed the City, acting by and through Port, as the agent of the IFD to implement this Appendix.

**Boundaries and legal descriptions of Sub-Project Areas:** The boundaries of the Sub-Project Areas are described in the maps attached to this Appendix as Attachment 1. The legal descriptions of the Sub-Project Areas are also attached to this Appendix as Attachment 1. The Sub-Project Areas do not initially correspond to the boundaries of assessor parcels. Tax increment will not be allocated to the IFD from a Sub-Project Area until assessor parcels for the development parcels within the Sub-Project Areas have been created.

**Waterfront District:** Each of the Sub-Project Areas is a "waterfront district," as defined in Section 53395.8(c)(17) of the IFD Law. This Appendix includes an infrastructure financing plan for the Sub-Project Areas in accordance with the requirements of Section 53395.8(g)(3).

Other initially-capitalized terms used, but not defined in this Appendix, have the meanings ascribed to them in the IFD Law or the IFP.

**Future Amendments of this Infrastructure Financing Plan.** The Board of Supervisors reserves the right, and nothing in this Appendix or the IFP limits the ability of the Board of Supervisors, to update or amend this Infrastructure Financing Plan in accordance with and subject to applicable law. In addition, and in furtherance of the foregoing, the Board reserves the right to amend this Appendix and the IFP by ordinance, and without any public hearing or vote of the registered voters or landowners in the Sub-Project Areas or other proceedings, for the following purposes:

- a. to extend the effective date of this Appendix and the period for allocation of tax increment from the Sub-Project Areas to the IFD, if the IFD Law is amended to allow a longer period;
- b. to allocate to the IFD from the Sub-Project Areas any portion of the ad valorem property tax revenue that has not been allocated to the IFD prior to the date of the amendment of this Appendix, if the IFD Law is amended to permit such an allocation;
- c. to increase the maximum amount of bonded indebtedness and other debt for the Sub-Project Areas based on the increased period of tax increment allocation described in the preceding clause (a) or the increased allocation of tax increment described in the preceding clause (b);

- d. to adopt any alternative amendment or annexation procedure with respect to the Sub-Project Areas that is permitted by an amendment to the IFD Law; and
- e. to amend the list of Facilities as long as the Board finds that the resulting Facilities are permitted by the IFD Law, will serve the development in the Sub-Project Areas and are of communitywide significance.

#### **A. Base Year; Commencement of Tax Increment Allocation**

The "**Base Year**" for each of the Sub-Project Areas is the fiscal year in which the assessed value of taxable property in such Sub-Project Area was last equalized prior to the effective date of the ordinance adopted to create the Sub-Project Areas or a subsequent fiscal year. The Base Year for each Sub-Project Area is FY 2017-2018.

Tax increment may begin to be allocated to the IFD from each Sub-Project Area beginning in the fiscal year following the Base Year, provided that no tax increment will be allocated to the IFD from a Sub-Project Area until (i) assessor parcels for the development parcels within the Sub-Project Area have been created and (ii) the amount of increment available to be allocated from the Sub-Project Area in the fiscal year is equal to at least \$100,000.

#### **B. Allocation of Tax Increment**

1. The annual allocation of tax increment generated in each of the Sub-Project Areas to the IFD for purposes of Section 53396(b) of the IFD Law will be the amount appropriated in each fiscal year by the Board of Supervisors for deposit in the respective special fund established for each Sub-Project Area.
2. The Board of Supervisors will appropriate 100 percent of the "Allocated Tax Increment" (as defined below) for allocation to the IFD until the IFD repays all debt (as defined in the IFD Law) from Allocated Tax Increment to fund the capital facilities authorized by Section 53395.8(d) and listed in Exhibit I-1 of this Appendix (the "**Facilities**"). The financing of the Facilities satisfies the "waterfront set-aside" requirement set forth in Section 53395.8(g)(3)(C)(ii) of the IFD Law.
3. In order for the Facilities to be developed concurrently with the Project, and because there will be some lag time between the construction of the Facilities and availability of Allocated Tax Increment, multiple sources of funding will be needed to pay for the Facilities, and such sources, to the extent repaid by the IFD with Allocated Tax Increment from the Sub-Project Areas, will constitute secured debt of the Sub-Project Areas.

- Funds ("**Developer Capital**") to be advanced by the Developer;
- Funds to be advanced by the Port as either direct Port capital or advances of land proceeds;
- Proceeds from bonds that would be issued by the IFD and/or a Community Facilities District ("**CFD**") that would be established by the City to include all or a portion of the property in the Sub-Project Areas.

In addition, the Port, as the agency of the IFD, may use Allocated Tax Increment to pay directly for Facilities costs. The financial obligation of the IFD to fund Facilities costs with Allocated Tax Increment from each of the Sub-Project Areas is a debt of each of the Sub-Project Areas and will be reflected in the annual Statement of Indebtedness required by the IFD Law.

4. Notwithstanding the foregoing, the allocation made by the Board of Supervisors in this Appendix shall be the following:
  - (A) The Board of Supervisors hereby irrevocably allocates all of the "City Share of Tax Increment" (as defined below) from the Sub-Project Areas to the IFD to the extent that the City Share of Tax Increment is necessary to repay bonds, notes or related agreements or to meet contractual obligations that the IFD or the Port is obligated to satisfy with Allocated Tax Increment (including the DDA), in each case to the extent such bonds, notes, agreements or obligations have been approved by the Board of Supervisors.
  - (B) The Board of Supervisors retains the discretion to make annual appropriations for the allocation of City Share of Tax Increment from the Sub-Project Areas to the IFD to pay for debt that is not described in the preceding clause (A), including the financial obligation to fund Facilities costs from annual deposits of Allocated Tax Increment.
5. For purposes of this Appendix, the following capitalized terms are defined as follows:
 

"**Gross Tax Increment**" is, for each of the Sub-Project Areas, 100% of the revenue produced by the application of the 1% ad valorem tax rate to the Incremental Assessed Property Value of property within each Sub-Project Area;

"**Incremental Assessed Property Value**" is, in any year, for each Sub-Project Area, the difference between the assessed value of the property within such Sub-Project Area for that fiscal year and the assessed value of the property within such Sub-Project Area in the Base Year, to the extent that the difference is a positive number;

"**City Share of Tax Increment**" is 64.588206% of Gross Tax Increment.

**"Allocated Tax Increment"** is, for each of the Sub-Project Areas, the City Share of Tax Increment.

**"CFD"** is a Mello-Roos community facilities district formed over the Project.

**C. Maximum Portion of Tax Increment Revenue of San Francisco and Affected Taxing Agencies to be Committed to the Sub-Project Areas**

100% of the City Share of Tax Increment shall be allocated to the IFD from each of the Sub-Project Areas.

None of the incremental tax revenue of the local educational agencies in the boundaries of the Sub-Project Areas will be allocated to the IFD.

**D. Projection of Tax Increment Revenue to the Sub-Project Areas**

The financing section for a Sub Project Area must include a projection of the amount of tax increment expected to be allocated to the IFD from the Sub-Project Area assuming an allocation period for such Sub-Project Area of 45 fiscal years after the fiscal year in which the City projects that the IFD will have received \$100,000 of tax increment from such Sub-Project Area under the IFD Law.

The projection of Allocated Tax Increment from the Sub-Project Areas to be allocated to the IFD is attached in the following Riders:

| <b>Sub-Project Area</b> | <b>Rider</b> |
|-------------------------|--------------|
| Sub-Project Area I-1    | #1           |
| Sub-Project Area I-2    | #2           |
| Sub-Project Area I-3    | #3           |
| Sub-Project Area I-4    | #4           |
| Sub-Project Area I-5    | #5           |
| Sub-Project Area I-6    | #6           |
| Sub-Project Area I-7    | #7           |
| Sub-Project Area I-8    | #8           |
| Sub-Project Area I-9    | #9           |
| Sub-Project Area I-10   | #10          |
| Sub-Project Area I-11   | #11          |
| Sub-Project Area I-12   | #12          |
| Sub-Project Area I-13   | #13          |

**E. Tax Increment Limit**

The financing section must include a limit on the total number of dollars of tax increment that may be allocated to the IFD pursuant to the IFP, subject to amendment of the IFP.

The initial tax increment limit for each Sub-Project Area is listed below. The total limit on the property tax increment that can be allocated to the IFD from the Sub-Project Areas over their 45-year terms is \$3.85 billion. These limits reflect projected total property tax increment plus a contingency factor of approximately 200 percent to account for variables such as higher assessed values of taxable property due to resales. And, the limit for Sub-Project Area 13 reflects the assumption that subterranean parking is built on the Mission Square block.

| Sub-Project Area      | Tax Increment Limit |
|-----------------------|---------------------|
| Sub-Project Area I-1  | \$370,000,000       |
| Sub-Project Area I-2  | \$236,000,000       |
| Sub-Project Area I-3  | \$384,000,000       |
| Sub-Project Area I-4  | \$829,000,000       |
| Sub-Project Area I-5  | \$170,000,000       |
| Sub-Project Area I-6  | \$411,000,000       |
| Sub-Project Area I-7  | \$266,000,000       |
| Sub-Project Area I-8  | \$182,000,000       |
| Sub-Project Area I-9  | \$280,000,000       |
| Sub-Project Area I-10 | \$204,000,000       |
| Sub-Project Area I-11 | \$130,000,000       |
| Sub-Project Area I-12 | \$240,000,000       |
| Sub-Project Area I-13 | \$143,000,000       |

#### F. 20% Waterfront Set-Aside Requirement for Waterfront Districts

Pursuant to Section 53395.8(g)(3)(C)(ii) of the IFD Law, 20% of the Allocated Tax Increment received by the IFD as a whole ("**Set-Aside**") must be set aside to be expended solely on shoreline restoration, removal of bay fill, or waterfront public access to or environmental remediation of the San Francisco waterfront ("**Authorized Set-Aside Uses**"). The IFD Law allows the Set-Aside Requirement to apply on a Project Area wide basis (entire Project Area I) rather than on a Sub-Project Area basis.

On a cumulative basis, it is estimated that approximately 37.5% of the aggregate Allocated Tax Increment to the IFD from the Sub-Project Areas will be used for Authorized Set-Aside Uses.

#### G. Time Limits

The financing section must include the following time limits for each Sub-Project Area:

1. A date on which the effectiveness of the infrastructure financing plan and all tax increment allocations to the Sub-Project Area will end, not to exceed 45 years from the date the IFD actually received \$100,000 in incremental tax revenues from the Sub-Project Area under the IFD Law;

2. A time limit on the IFD's authority to repay indebtedness with incremental tax revenues received in the Sub-Project Area under the IFD Law, not to exceed 45 years from the date the IFD actually received \$100,000 in incremental tax revenues from the Sub-Project Area under the IFD Law;

For Sub-Project Areas I-1 through I-12, the following are the applicable time limits:

- Date on which the effectiveness of the infrastructure financing plan with respect to the Sub-Project Area and all tax increment allocations to the Sub-Project Area will end: ***for each Sub-Project Area, the final day of the 45<sup>th</sup> fiscal year after the fiscal year in which the IFD actually receives \$100,000 of Allocated Tax Increment from such Sub-Project Area under the IFD Law.***
- Date after which the IFD may no longer repay indebtedness with incremental tax revenues received under the IFD Law from the Sub-Project Area: ***for each Sub-Project Area, the final day of the 45<sup>th</sup> fiscal year after the fiscal year in which the IFD actually receives \$100,000 of Allocated Tax Increment from such Sub-Project Area under the IFD Law.***

Sub-Project Area I-13 (Mission Square) is anticipated to be developed with tax-exempt public facilities. Therefore, it is not anticipated to generate tax increment. However, the Developer may elect to build up to 700 subterranean spaces at Mission Square. Given this potential but not anticipated scenario, the applicable time limits for Sub-project Area I-13 are as follows:

- Date on which the effectiveness of the infrastructure financing plan with respect to Sub-Project Area I-13 and all tax increment allocations to Sub-Project Area I-13 will end: ***the final day of the 45<sup>th</sup> fiscal year after the fiscal year in which the IFD actually receives \$100,000 of Allocated Tax Increment from Sub-Project Area I-13 under the IFD Law or June 30, 2073, whichever occurs first.***
- Date after which the IFD may no longer repay indebtedness with incremental tax revenues received under the IFD Law from Sub-Project Area I-13: ***the final day of the 45<sup>th</sup> fiscal year after the fiscal year in which the IFD actually receives \$100,000 of Allocated Tax Increment from Sub-Project Area I-13 under the IFD Law or June 30, 2073, whichever occurs first.***

#### H. Description of Public Facilities

The IFD Law requires an infrastructure financing plan to contain the following information with respect to each of the Sub-Project Areas:

1. Public facilities to be provided by the private sector.

In accordance with the terms of the DDA, the Developer and/or private vertical developers are obligated to provide the Project's public facilities identified in Exhibit I-1, excluding the Seawall and Port-wide sea level rise facilities to be built by the Port. The facilities will be partially initially funded by Developer capital, which will be repaid by IFD tax increment and CFD special taxes and/or bond proceeds supported by IFD tax increment and/or CFD special taxes.

2. Public facilities to be provided by governmental entities without assistance under the IFD Law.

In addition to issuing bonds that may be payable from CFD special taxes and Allocated Tax Increment (as described in this Appendix), the Port intends to levy two or more special taxes and/or issue bonds secured by such special taxes on some or all of the Project through the CFD to fund improvements that will not be funded by the IFD ("CFD-only Financing").

3. Public facilities to be financed with assistance from the Sub-Project Areas.

The Facilities that will be funded with Allocated Tax Increment from the Sub-Project Areas are listed in Exhibit I-1.

| <b>Exhibit I-1</b>   |                      |                                 |
|--|----------------------|---------------------------------|
| <b>Facilities to be Funded by IFD</b>                                      | <b>Target Timing</b> | <b>Estimated Cost (2017,\$)</b> |
| Entitlement Phase Costs related to Facilities                              | 2012 – 2018          | \$25,000,000                    |
| <b>Location: Phase 1 - Sub-Project Areas I-1, I-2, I-7, I-11</b>           |                      |                                 |
| Demo, Grading & Compaction, Building Pads, Piles                           | 2018-2025            | \$6,070,000                     |
| Streets, Streetscape and Stone Columns                                     | 2021-2025            | \$31,380,000                    |
| Parks and Open Space   | 2021-2025            | \$14,010,000                    |
| Soft Costs and Contingency related to Facilities                           | 2018-2025            | \$29,740,000                    |
| <b>Subtotal – Phase 1</b>  | <b>2018-2025</b>     | <b>\$81,200,000</b>             |
| <b>Location: Phase 2 – Sub-Project Areas I-3, and I-4</b>                  |                      |                                 |
| Demo, Grading & Compaction, Building Pads, Piles                           | 2019-2025            | \$8,160,000                     |
| Streets, Streetscape and Stone Columns                                     | 2021-2025            | \$17,060,000                    |
| Parks and Open Space   | 2021-2025            | \$0                             |
| Soft Costs and Contingency   | 2019-2025            | \$14,580,000                    |
| <b>Subtotal – Phase 2</b>  | <b>2019-2025</b>     | <b>\$39,800,000</b>             |
| <b>Location: Phase 3 - Sub-Project Areas I-5, I-6, and I-13</b>            |                      |                                 |
| Demo, Grading & Compaction, Building Pads, Piles                           | 2019-2026            | \$640,000                       |
| Streets, Streetscape and Stone Columns                                     | 2022-2026            | \$5,700,000                     |
| Parks and Open Space   | 2022-2026            | \$7,260,000                     |
| Soft Costs and Contingency related to Facilities                           | 2019-2026            | \$8,070,000                     |
| <b>Subtotal – Phase 3</b>  | <b>2019-2026</b>     | <b>\$21,670,000</b>             |
| <b>Location: Phase 4 – Sub-Project Areas I-8, I-9, I-10, and I-12</b>      |                      |                                 |
| Demo, Grading & Compaction, Building Pads, Piles                           | 2023-2029            | \$460,000                       |
| Streets, Streetscape and Stone Columns                                     | 2025-2029            | \$10,840,000                    |
| Parks and Open Space   | 2025-2029            | \$3,200,000                     |
| Soft Costs and Contingency related to Facilities                           | 2023-2029            | \$8,820,000                     |
| <b>Subtotal – Phase 4</b>  | <b>2023-2029</b>     | <b>\$23,320,000</b>             |
| <b>Estimated Cost Facilities</b>   | <b>N/A</b>           | <b>\$190,990,000</b>            |
| <b>Location: Historic Rehabilitation, Seawall, Sea Level Rise Portwide</b> |                      |                                 |
| Pier 48 Sub- & Super-structure   | 2025-2029            | \$90,400,000                    |
| Seawall & Sea Level Rise, Port-wide  | Throughout IFD Term  | Not available                   |

Pursuant to Attachment 2: "Guidelines for Establishment and Use of an Infrastructure Financing District (IFD) with Project Areas on Land under the Jurisdiction of the San Francisco Port Commission", which were adopted by the Board of Supervisors pursuant to Resolution No. 123-13 on April 23, 2013, excess tax increment not required to fund horizontal improvements in the Project Areas will be allocated to either (a) the City's General Fund, (b) funding improvements to the City's seawall, or (c) protecting the City against sea level rise, as allowed by State law. Accordingly, the Port plans to allocate any excess tax increment not required to fund the Phase 1-Phase 4 horizontal improvements listed in Exhibit I-1 to protecting the City against sea level rise.

4. Public facilities to be provided jointly by the private sector and governmental entities

There are no public facilities that will be jointly provided by the private and governmental entities.

**I. Projected Sources of Financing for the Public Facilities**

The financing section must include the projected sources of financing for the Facilities, including debt to be repaid with Allocated Tax Increment, projected revenues from future leases, sales, or other transfers of any interest in land within the Sub-Project Areas and any other legally available sources of funds.

The financing plan is presented in Exhibit I-2. As shown, it is anticipated that the Facilities will be financed with a combination of Allocated Tax Increment from the Sub-Project Areas, used on a pay-go basis, CFD and/or IFD bond proceeds, capital to be advanced by the Developer (to be repaid by the IFD with Allocated Tax Increment from the Sub-Project Areas and/or CFD revenues), and advances of land proceeds (to be repaid by the IFD with Allocated Tax Increment and/or CFD revenues from the Sub-Project Areas). At this time, it is contemplated that CFD and/or IFD bonds will be issued. In the case of CFD bonds, Allocated Tax Increment may be used to pay debt service. In the case of IFD bonds, Allocated Tax Increment will be used to pay debt service. The type of bond to be issued will be determined based on market conditions approaching the time of issuance.

The Port intends to levy a "shoreline special tax" on all development in the Project to finance shoreline improvements. All of the Shoreline Special Taxes from Phase 1 are anticipated to be used to protect the Project site from sea level rise. Shoreline special taxes from subsequent phases will be used within the Port-wide IFD, including the Project site. Additionally, it is anticipated that the Port will advance capital to finance facilities (to be repaid by the IFD with Allocated Tax Increment and/or CFD revenues from the Sub-Project Areas). The Financing Plan allows Port advances in the form pre-paid ground lease revenue or other discretionary Port sources. Current project modeling only contemplates Port advances in the form of pre-paid ground lease revenue.

The amounts shown in Exhibit I-2 include the City Share of Tax Increment that will be allocated to the IFD from the Sub-Project Areas to pay for Facilities on a pay-go basis pursuant to Government Code Section 53395.2. A cash flow projection of annual sources and uses of funds is provided in Attachment 3. As described elsewhere in this Appendix, for each Sub-Project Area, the obligation of the IFD to use Allocated Tax Increment from each Sub-Project Area to pay for the Facilities under this Appendix constitutes a debt (as defined in the IFD Law) and shall be payable from Allocated Tax Increment from the applicable Sub-Project Area through the period ending on the final day of the 45<sup>th</sup> fiscal year after the fiscal

year in which the IFD actually receives \$100,000 of Allocated Tax Increment from the applicable Sub-Project Area.

| <b>Exhibit I-2</b>   |                           |                      |
|--|---------------------------|----------------------|
| <b>Anticipated Sources and Uses of Funds Excluding Bond Debt Service</b> |                           |                      |
|  | <b>Dollars (millions)</b> |                      |
| <b>Anticipated Sources and Uses</b>                                      | <b>2017</b>               | <b>Nominal Total</b> |
| <b>Project Sources</b>   |                           |                      |
| Horizontal Sponsor Capital Contribution                                  | \$193.3                   | \$217.6              |
| Port's Advance of Land Proceeds  | \$63.1                    | \$67.0               |

| CFD Pay Go   | \$84.0                    | \$257.2              |
| <b>Tax Increment</b>   |                           |                      |
| Net IFD Bond Proceeds  | \$109.3                   | \$143.2              |
| IFD Pay Go   | \$186.7                   | \$563.7              |
| <b>Total Sources</b>   | <b>\$697.6</b>            | <b>\$1,322.4</b>     |
| <b>Project Uses</b>  |                           |                      |
| Entitlement Costs  | \$25.0                    | \$25.0               |
| Hard and Soft IFD Facility Costs   | \$203.3                   | \$300.6              |
| Preferred Return to Horizontal Sponsor                                   | \$88.3                    | \$111.4              |
| Reimbursement of Horizontal Sponsor Capital                              | \$180.0                   | \$217.6              |
| Repayment of Port's Advance of Land Proceeds                             | \$71.9                    | \$171.1              |
| Seawall & Sea Level Rise, Port-Wide Improvements                         | \$129.2                   | \$496.7              |
| <b>Total Uses</b>  | <b>\$697.6</b>            | <b>\$1,322.4</b>     |

*\*All Numbers are in millions of dollars*

This Appendix does not project the anticipated costs of administering the IFD, but the Port, as agent of the IFD, expects to pay the costs of administering the IFD with Allocated Tax Increment from the Sub-Project Areas.

#### **J. Accounting Procedures**

The IFD will maintain accounting procedures for each of the Sub-Project Areas in accordance, and otherwise comply, with Section 6306 of Public Resources Code for the term of this Appendix.

#### **K. Cost and Revenue Analysis**

The financing section must include an analysis of: (a) the costs to the City's General Fund for providing facilities and services to the Sub-Project Areas while they are being developed and

after they are developed and (b) the taxes, fees, charges, and other revenues expected to be received by the City's General Fund as a result of expected development in Project Area I.

1. Costs to the City's General Fund for providing facilities and services to the Sub-Project Areas, while they are being developed and after they are developed.

Estimates of costs to the City's General Fund for providing facilities and services to the Sub-Project Areas, while they are being developed and after they are developed are detailed in Attachment 4: "Assessment of Fiscal Impacts to the City and County of San Francisco – Mission Rock – Port of San Francisco (Project Area I of Infrastructure Financing District No. 2)" and summarized in the following Exhibit I-3. As shown, upon build-out the annual cost to the City's General Fund to provide services to the thirteen Sub-Project Areas is estimated to be approximately \$6.4 million (2017\$). Service costs during the construction period are estimated to range from \$2.6 million to \$6.3 million (2017\$). General Fund costs are comprised of marginal costs to the following departments: police, fire, community health, human welfare, recreation, general administration, and finance. The cost of maintaining and operating the Project's parks, plazas, open spaces, and public right of way will not be funded by the General Fund. These costs will be funded by a CFD services tax and/or other exactions on property owners.

| Exhibit I-3: Annual Cost to City's General Fund |   |  |                            |
|---|---|--|----------------------------|
| General Fund Expenditures                       | Low-Year Operating Costs during Construction FY 2021/22 | High-Year Operating Costs during Construction FY 2025/26 | Stabilized Year FY 2028/29 |
|   | \$2017 millions   | \$2017 millions  | \$2017 millions            |
| <b>Total</b>                                    | <b>\$2.6</b>  | <b>\$6.3</b>   | <b>\$6.4</b>               |

2. Taxes, fees, charges and other revenues expected to be received by the City's General Fund as a result of expected development in the Sub-Project Areas.

Taxes, fees, charges and other revenues expected to be received by the City's General Fund as a result of expected development in the Sub-Project Areas are detailed in Attachment 4 and summarized in the following Exhibit I-4. As shown, upon stabilization, the Project is anticipated to generate annually \$12.1 million (2017\$) of new revenue to the City's General Fund.

Under current City policies, approximately 20% of aggregate discretionary revenues (ADR) are transferred from the General Fund to the San Francisco Municipal Transportation Agency (SFMTA), Library Preservation and Children's Services Funds.

As shown in Exhibit I-5, it is estimated that the Project will annually generate a net fiscal surplus to City's General Fund of \$5.7 million per year (2017\$), before ADR transfers

and \$3.1 million after ADR transfers. The Project is anticipated to generate an annual fiscal surplus during each and every year, from construction through the anticipated termination of the IFD in FY 2072/73.

LEGAL DESCRIPTION

"INFRASTRUCTURE FINANCING DISTRICT I"

ALL THAT REAL PROPERTY SITUATED IN THE CITY AND COUNTY OF SAN FRANCISCO,  
STATE OF CALIFORNIA, DESCRIBED AS FOLLOWS:

PARCEL I-1

COMMENCING AT THE POINT OF INTERSECTION OF THE FORMER WESTERLY LINE OF  
THIRD STREET (100.00 FEET WIDE) WITH THE FORMER SOUTHWESTERLY LINE OF  
FOURTH STREET (102.50 FEET WIDE), AS SAID STREET LINES ARE SHOWN ON THAT  
CERTAIN MAP ENTITLED "AMENDED RECORD OF SURVEY MAP OF MISSION BAY"  
RECORDED JUNE 3, 1999, IN BOOK "Z" OF MAPS AT PAGES 74-94 INCLUSIVE, IN  
THE OFFICE OF THE RECORDER OF THE CITY AND COUNTY OF SAN FRANCISCO;  
THENCE ALONG THE PROLONGATION OF SAID LINE OF THIRD STREET N03°10'56"W  
88.38 FEET; THENCE N86°49'04"E 88.50 FEET TO AN ANGLE POINT IN THE  
CURRENT EASTERLY LINE OF THIRD STREET (88.50 FEET WIDE); THENCE ALONG  
SAID EASTERLY LINE OF THIRD STREET N03°10'56"W 828.57 FEET TO THE TRUE  
POINT OF BEGINNING; THENCE N03°10'56"W 418.30 FEET; THENCE N60°29'05"E  
30.88 FEET; THENCE N30°57'35"W 8.34 FEET TO THE BEGINNING OF A NON-  
TANGENT CURVE CONCAVE TO THE SOUTHEAST WHOSE RADIUS POINT BEARS  
S41°05'18"E 69.10 FEET; THENCE NORTHEASTERLY ALONG SAID CURVE TO THE  
RIGHT THROUGH A CENTRAL ANGLE OF 43°44'43", AN ARC LENGTH OF 52.75 FEET;  
THENCE N86°53'23"E 559.17 FEET TO THE BEGINNING OF A NON-TANGENT CURVE  
CONCAVE TO THE SOUTHWEST WHOSE RADIUS POINT BEARS S18°03'44"E 94.45 FEET;  
THENCE EASTERLY AND SOUTHEASTERLY ALONG SAID CURVE TO THE RIGHT THROUGH A  
CENTRAL ANGLE OF 70°31'42", AN ARC LENGTH OF 116.26 FEET; THENCE  
S08°44'08"E 121.53 FEET; THENCE N88°56'13"E 46.81 FEET; THENCE  
S02°57'20"E 79.53 FEET; THENCE S82°56'35"W 88.72 FEET; THENCE S03°10'56"E  
80.38 FEET; THENCE N80°39'10"W 501.20 FEET; THENCE S03°10'56"E 235.05  
FEET; THENCE S86°49'04"W 251.10 FEET TO THE TRUE POINT OF BEGINNING.

CONTAINING 242,260 SQ. FT. MORE OR LESS.

PARCEL I-2

BEGINNING AT THE SOUTHWEST CORNER OF PARCEL I-1, AS SAID PARCEL IS  
DESCRIBED HEREINABOVE, SAID POINT OF BEGINNING BEING ON THE EASTERLY LINE  
OF THIRD STREET (88.50 FEET WIDE); THENCE N86°49'04"E 215.10 FEET; THENCE  
S03°10'56"E 291.31 FEET; THENCE S86°49'04"W 215.10 FEET TO SAID EASTERLY  
LINE OF THIRD STREET; THENCE ALONG SAID EASTERLY LINE, N03°10'56"W 291.31  
FEET TO THE POINT OF BEGINNING.

CONTAINING 62,662 SQ. FT. MORE OR LESS..

PARCEL I-3

BEGINNING AT THE SOUTHWEST CORNER OF PARCEL I-2, AS SAID PARCEL IS DESCRIBED HEREINABOVE, SAID POINT OF BEGINNING BEING ON THE EASTERLY LINE OF THIRD STREET (88.50 FEET WIDE); THENCE N86°49'04"E 215.10 FEET; THENCE S03°10'56"E 298.70 FEET; THENCE S86°49'04"W 215.10 FEET TO SAID EASTERLY LINE OF THIRD STREET; THENCE ALONG SAID EASTERLY LINE, N03°10'56"W 298.70 FEET TO THE POINT OF BEGINNING.

CONTAINING 64,250 SQ. FT. MORE OR LESS.

PARCEL I-4

BEGINNING AT THE SOUTHWEST CORNER OF PARCEL I-3, AS SAID PARCEL IS DESCRIBED HEREINABOVE, SAID POINT OF BEGINNING BEING ON THE EASTERLY LINE OF THIRD STREET (88.50 FEET WIDE); THENCE N86°49'04"E 461.12 FEET; THENCE S03°10'56"E 261.92 FEET TO THE FUTURE NORTHERLY LINE OF MISSION ROCK STREET (65.25 FEET WIDE); THENCE ALONG SAID NORTHERLY LINE S86°49'04"W 448.62 FEET TO THE EASTERLY LINE OF THIRD STREET; THENCE ALONG SAID EASTERLY LINE, N03°10'56"W 23.36 FEET TO AN ANGLE POINT THEREIN; THENCE ALONG SAID EASTERLY LINE OF THIRD STREET S86°49'04"W 12.50 FEET TO AN ANGLE POINT THEREIN; THENCE ALONG SAID EASTERLY LINE OF THIRD STREET (88.50 FEET WIDE) N03°10'56"W 238.56 FEET TO THE POINT OF BEGINNING.

CONTAINING 120,483 SQ. FT. MORE OR LESS.

PARCEL I-5

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-4, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE S86°49'04"W 246.02 FEET; THENCE N03°10'56"W 165.00 FEET; THENCE N86°49'04"E 246.02 FEET; THENCE S03°10'56"E 165.00 FEET TO THE POINT OF BEGINNING.

CONTAINING 40,593 SQ. FT. MORE OR LESS.

PARCEL I-6

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-2, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE N86°49'04"E 246.02 FEET; THENCE S03°10'56"E 165.00 FEET; THENCE S86°49'04"W 246.02 FEET; THENCE N03°10'56"W 165.00 FEET TO THE POINT OF BEGINNING.

CONTAINING 40,593 SQ. FT. MORE OR LESS.

PARCEL I-7

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-2, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE N03°10'56"W 235.05 FEET; THENCE S80°39'10"E 252.02 FEET; THENCE S03°10'56"E 180.38 FEET; THENCE S86°49'04"W 246.02 FEET TO THE POINT OF BEGINNING.

CONTAINING 51,100 SQ. FT. MORE OR LESS.

PARCEL I-8

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-4, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE N86°49'04"E 240.25 FEET; THENCE S03°10'56"E 261.92 FEET TO THE EASTERLY PROLONGATION OF THE FUTURE NORTHERLY LINE OF MISSION ROCK STREET (65.25 FEET WIDE); THENCE ALONG SAID PROLONGATION AND ALONG SAID NORTHERLY LINE S86°49'04"W 240.25 FEET; THENCE N03°10'56"W 261.92 FEET TO THE POINT OF BEGINNING.

CONTAINING 62,927 SQ. FT. MORE OR LESS.

PARCEL I-9

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-4, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE N03°10'56"W 298.70 FEET; THENCE N86°49'04"E 206.25 FEET; THENCE S03°10'56"E 107.77 FEET; THENCE N86°49'04"E 34.00 FEET; THENCE S03°10'56"E 190.93 FEET; THENCE S86°49'04"W 240.25 FEET TO THE POINT OF BEGINNING.

CONTAINING 68,099 SQ. FT. MORE OR LESS.

PARCEL I-10

BEGINNING AT THE NORTHWEST CORNER OF PARCEL I-10, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE N03°10'56"W 291.31 FEET; THENCE N86°49'04"E 206.25 FEET; THENCE S03°10'56"E 166.36 FEET; THENCE N82°56'35"E 124.58 FEET; THENCE S03°05'29"E 241.14 FEET; THENCE S86°49'04"W 123.91 FEET; THENCE N03°10'56"W 107.77 FEET; THENCE S86°49'04"W 206.25 FEET TO THE POINT OF BEGINNING.

CONTAINING 89,487 SQ. FT. MORE OR LESS.

PARCEL I-11

BEGINNING AT THE NORTHWEST CORNER OF PARCEL I-11, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE N03°10'56"W 180.38 FEET; THENCE S80°39'10"E 211.28 FEET; THENCE S03°10'56"E 134.54 FEET; THENCE S86°49'04"W 206.25 FEET TO THE POINT OF BEGINNING.

CONTAINING 32,476 SQ. FT. MORE OR LESS.

PARCEL I-12

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-12, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE S03°10'56"E 300.90 FEET; THENCE N82°56'35"E 760.95 FEET; THENCE N07°00'11"W 351.44 FEET TO THE BEGINNING OF A NON-TANGENT CURVE CONCAVE TO THE SOUTHWEST WHOSE RADIUS POINT BEARS N88°40'56"W 18.66 FEET; THENCE NORTHWESTERLY ALONG SAID CURVE TO THE LEFT THROUGH A CENTRAL ANGLE OF 64°51'25", AN ARC LENGTH OF 21.12 FEET; THENCE S82°56'35"W 691.00 FEET; THENCE S03°10'56"E 80.38 FEET; THENCE N80°39'10"W 37.90 FEET TO THE POINT OF BEGINNING.

CONTAINING 273,958 SQ. FT. MORE OR LESS.

S-9229  
11-03-17

PARCEL I-13

BEGINNING AT THE NORTHEAST CORNER OF PARCEL I-5, AS SAID PARCEL IS DESCRIBED HEREINABOVE; THENCE S86°49'04"W 246.02 FEET; THENCE N03°10'56"W 260.01 FEET; THENCE N86°49'04"E 246.02 FEET; THENCE S03°10'56"E 260.01 FEET TO THE POINT OF BEGINNING.

CONTAINING 63,967 SQ. FT. MORE OR LESS.

1 [Adoption of Guidelines for the Establishment and Use of an Infrastructure Financing District  
2 on Port Land]

3 **Resolution adopting Guidelines for the Establishment and Use of an Infrastructure**  
4 **Financing District with Project Areas on Land Under the Jurisdiction of the San**  
5 **Francisco Port Commission.**

6  
7 WHEREAS, Government Code Sections 53395-53398.47 (IFD Law) authorizes certain  
8 public agencies, including the City and County of San Francisco, to establish infrastructure  
9 financing districts (IFDs) to finance the planning, design, acquisition, construction, and  
10 improvement of public facilities meeting the requirements of IFD Law; and

11 WHEREAS, IFDs are formed to facilitate the design, acquisition, construction, and  
12 improvement of necessary public facilities and provide an alternative means of financing when  
13 local resources are insufficient; and

14 WHEREAS, Government Code Sections 53395.8 and 53395.81 authorize the  
15 establishment of IFDs on land under the jurisdiction of the Port Commission of San Francisco  
16 (Port) to finance additional public facilities to improve the San Francisco waterfront and further  
17 authorizes the establishment of project areas within an IFD for the same purposes; and

18 WHEREAS, By Board Resolution No. 110-12, adopted on March 27, 2012; and Board  
19 Resolution No. 227-12, adopted on June 12, 2012, the Board stated its intention to form a  
20 single IFD consisting of all Port land (waterfront district) with project areas corresponding to  
21 Port development projects within the waterfront district; and

22 WHEREAS, By Board Resolution No. 66-11, adopted on February 8, 2011, the Board  
23 adopted "Guidelines for the Establishment and Use of Infrastructure Financing Districts in the

24 ///

1 City and County of San Francisco," which do not apply to land owned or managed by the Port;  
2 and

3 WHEREAS, A draft document entitled "Guidelines for the Establishment and Use of an  
4 Infrastructure Financing District with Project Areas on Land under the Jurisdiction of the San  
5 Francisco Port Commission" (Port Guidelines) setting forth proposed policy criteria and  
6 guidelines for the waterfront district is on file with the Clerk of the Board of Supervisors in File  
7 No. <sup>130264</sup>, which is hereby declared to be a part of this Resolution as if set forth fully herein;  
8 now, therefore, be it

9 RESOLVED, That the Board of Supervisors finds that the Port Guidelines will ensure  
10 that a rational and efficient process is established for the formation the waterfront district and  
11 project areas within it, and adopts the Port Guidelines; and, be it

12 FURTHER RESOLVED, That this Resolution and the Port Guidelines will be effective  
13 on the date the Board of Supervisors adopts this Resolution.

|   |                                       |
|---|---------------------------------------|
| <b>Item 6</b><br><b>File 13-0264</b>  | <b>Department:</b><br><b>The Port</b> |
| <b>EXECUTIVE SUMMARY</b>  |                                       |
| <p style="text-align: center;"><b>Legislative Objectives</b></p>  |                                       |
| <ul style="list-style-type: none"> <li>The proposed resolution would adopt "Guidelines for the Establishment and Use of an Infrastructure Financing District (IFD) with Project Areas on Land under the Jurisdiction of the San Francisco Port Commission". The Port IFD Guidelines establish the threshold criteria that must be met in order to establish a Port IFD and the strategic criteria that should be considered by the Board of Supervisors but are not required to establish the Port IFD.</li> </ul>  |                                       |
| <p style="text-align: center;"><b>Key Points</b></p>  |                                       |
| <ul style="list-style-type: none"> <li>State law authorizes the establishment of a Port IFD to finance public improvement projects along the San Francisco waterfront. The Port IFD may finance the same types of improvement projects that are financed by non-Port IFDs (open space, parks, and street improvements), as well as projects specific to the Port, including removal of bay fill, storm water management facilities, shoreline restoration, and maritime facility improvements. Increased property tax revenues resulting from certain Port development projects (tax increment) may be redirected from the General Fund to the Port IFD in order to finance public improvements, subject to Board of Supervisors approval.</li> <li>The Board of Supervisors previously approved a resolution of intention (1) to establish the Port IFD consisting of eight project areas; and (2) directing the Port Executive Director to prepare a financing plan, subject to Board of Supervisors' approval. The Port intends to submit a Port IFD financing plan for proposed development on Piers 30-32 and Seawall Lot 330 to the Board of Supervisors in late 2014.</li> <li>The Budget and Legislative Analyst recommends amendments to the proposed Port IFD guidelines, including to Threshold Criteria 6, 7, and 8, to clarify the intent of the threshold criteria, as noted in the recommendations below.</li> </ul> |                                       |
| <p style="text-align: center;"><b>Fiscal Impact</b></p>   |                                       |
| <ul style="list-style-type: none"> <li>Threshold Criteria 5 requires that financing plans for each of the Port IFD project areas demonstrate a net economic benefit, while the City's IFD Guidelines. Previously approved by the Board of Supervisors require that the IFD demonstrate a net fiscal benefit to the General Fund. The City's IFD Guidelines acknowledge that the Port's use of IFD law differs from the City. However, in order to fully disclose the fiscal impact of the Port IFD on the City's General Fund, the proposed Port IFD Guidelines should be amended to require that project area financing plans project the net fiscal impact to the City's General Fund, as well as the net economic benefits.</li> </ul>   |                                       |
| <p style="text-align: center;"><b>Policy Considerations</b></p>   |                                       |
| <ul style="list-style-type: none"> <li>Property taxes are apportioned to the Educational Revenue Augmentation Fund (ERAF), the City's General Fund, and other taxing entities. Under State law, in five of the Port IFD project areas, the ERAF portion of tax increment may be redirected to the Port IFD in an amount proportional to the General Fund portion of tax increment that is redirected to the Port IFD. Threshold Criteria 6 maximizes redirection of the ERAF portion of tax increment to the Port IFD in order to maximize the Port's ability to finance public improvements. Redirecting the ERAF's share of tax increment could potentially result in a State General Fund cost to backfill those monies intended for education.</li> <li>The proposed Port IFD Guidelines will guide future Board of Supervisors' decisions on allocation of City and ERAF tax increment. Therefore, approval of the proposed resolution is a policy decision for the Board of Supervisors.</li> </ul>   |                                       |

### Recommendations

1. Amend the proposed resolution to request the Port to amend:
  - (a) The Port IFD Guidelines to specify that the threshold criteria must be met in order to establish a Port IFD or project area, and the strategic criteria should be considered by the Board of Supervisors but are not required to establish a Port IFD;
  - (b) Threshold Criteria 5 to require that the project area financing plan projects the net fiscal impact to the City's General Fund, as well as the net economic benefits, over the term of the Port IFD;
  - (c) Threshold Criteria 6 and 7 to specify that the share of tax increment allocated to the City and ERAF is the tax rate established annually by the State for the ERAF and by the Board of Supervisors for the City pursuant to the California Revenue and Taxation Code; and
  - (d) Threshold Criteria 8 to specify that ERAF's excess share of tax increment may not be re-allocated to the City's General Fund or to improvements in the City's seawall and other measures to protect against sea level rise.
2. Approval of the proposed resolution, as amended, is a policy decision for the Board of Supervisors.

## MANDATE STATEMENT AND BACKGROUND

### Mandate Statement

California Government Code Section 53395 et seq., which became law in 1990, authorizes cities and counties to establish Infrastructure Financing Districts (IFD), subject to approval by the city council or county board of supervisors, to finance "public capital facilities of communitywide significance." The definition of such public facilities includes parks, other open space, and street improvements. In addition, Section 53395.8 authorizes the establishment of an IFD by the Port of San Francisco (Port IFD) to finance additional improvement projects along the San Francisco waterfront, such as structural repairs and improvements to piers, seawalls, and wharves as well as historic rehabilitation of and seismic and life-safety improvements to existing buildings. The establishment of a Port IFD is subject to approval by the Board of Supervisors.

### Background

#### State Law Authorizes the Establishment of Infrastructure Financing Districts

In order to provide alternative financing mechanisms for local jurisdictions to fund public works and services, State law<sup>1</sup> authorizes cities and counties to establish IFDs within individual city or county boundaries to finance the:

- Purchase, construction, expansion, improvement, seismic retrofit or rehabilitation of any real or other tangible property with an estimated life of 15 years or longer, including parks, other open space, and street improvements;
- Planning and design work directly related to the purchase, construction, expansion, improvement, seismic retrofit or rehabilitation of that property;
- Reimbursement to a developer of a project located entirely within the boundaries of an IFD for any permit expenses incurred and to offset additional expenses incurred by the developer in constructing affordable housing units;

<sup>1</sup> California Government Code Section 53395 et seq.

- Costs incurred by a county in connection with the division of taxes collected.

An IFD, once established with specific boundaries, obtains revenue in the same manner as former redevelopment districts. Assessed values on properties located within the IFD, and the property taxes derived from those values, are fixed at a baseline value. Increases in assessed value above the baseline and the associated increase in property tax, known as tax increment, may then be used to pay for the new public facilities that the IFD was established to pay for.

The City's Guidelines for IFDs, "Guidelines for the Establishment and Use of Infrastructure Financing Districts in the City and County of San Francisco" were adopted by the Board of Supervisors on February 8, 2011 (Resolution No. 66-11). The City's Guidelines do not apply to an IFD on land owned or managed by the Port. The City currently has one established IFD, located in Rincon Hill, which is subject to the adopted guidelines, and was approved by the Board of Supervisors on February 15, 2011 (Ordinance No. 19-11).

### **State Law Authorizes the Establishment of an Infrastructure Financing District on Port Property**

State law<sup>2</sup> authorizes the establishment of a Port IFD to finance additional improvement projects along the San Francisco waterfront. The additional improvement projects include removal of bay fill, storm water management facilities, shoreline restoration, maritime facility improvements, historic rehabilitation, and other improvement projects not included in non-Port IFDs.

A Port IFD may be divided into individual project areas, subject to Board of Supervisors approval. The State laws described in this report would apply to each Port project area that the Board of Supervisors approves.<sup>3</sup> On March 27, 2012, the Board of Supervisors approved a resolution of intention to establish a Port IFD (Resolution No. 110-12), with seven project areas. On June 12, 2012, the Board of Supervisors amended the resolution of intention to include Seawall Lot 351 as the eighth project area in the Port IFD (Resolution No. 227-12). The eight project areas for the Port IFD in the amended resolution of intention are:

1. Seawall Lot 330 (Project Area A)
2. Piers 30-32 (Project Area B)
3. Pier 28 (Project Area C)
4. Pier 26 (Project Area D)
5. Seawall Lot 351 (Project Area E)
6. Pier 48 (Project Area F)
7. Pier 70 (Project Area G)
8. Rincon Point-South Point (Project Area H)

The resolution of intention allows the Port to establish additional project areas in compliance with State law, as noted below.

The previously approved resolution of intention directs the Port Executive Director to prepare a financing plan, which is subject to approval of the Board of Supervisors. According to Mr. Brad

<sup>2</sup> California Government Code Section 53395.8

<sup>3</sup> California Government Code Section 53395.8(g)

Benson, Port Special Projects Manager, the Port intends to submit a Port IFD financing plan associated with the proposed multi-purpose venue on Piers 30-32 and the companion mixed use development on Seawall Lot 330 to the Board of Supervisors in late 2014, after the City has completed environmental review of the proposed project.

According to State law<sup>4</sup>, the portion of the tax increment allocated to local educational agencies, San Francisco Unified School District, San Francisco Community College District, and the San Francisco County Office of Education, may not be allocated to the Port IFD. The tax increment from other recipients of City property taxes, including the Bay Area Air Quality Management District and Bay Area Rapid Transit District, may be allocated to the Port IFD if a resolution approving the financing plan is adopted by that recipient and sent to the Board of Supervisors.<sup>5</sup>

Except for specified circumstances, State law<sup>6</sup> mandates that any tax increment allocated to the Port IFD must be used within the Port IFD's boundaries. In addition, a minimum of 20 percent of the tax increment allocated to the Port IFD must be set aside to be expended exclusively on shoreline restoration, removal of bay fill, or waterfront public access to or environmental remediation of the San Francisco waterfront.

#### **Educational Revenue Augmentation Fund Tax Increment Allocated to Port IFD in Specific Project Areas**

According to State law<sup>7</sup>, the Port may use tax increment generated by the five project areas noted below, which would otherwise be allocated to the Educational Revenue Augmentation Fund<sup>8</sup>'s (ERAF), subject to specific limitations. Two of the five project areas – Seawall Lot 330 and Pier 70 – were included in the resolution of intention, previously approved by the Board of Supervisors, while three of the five project areas – Piers 19, 23, and 29 – may be proposed by the Port for inclusion in the Port IFD at a future date. According to Ms. Joanne Sakai, Deputy City Attorney, the Board of Supervisors may opt to not allocate ERAF's share of tax increment generated by any of the five project areas to the Port IFD on a case-by-case basis when considering whether to approve the proposed Port IFD financing plan.

<sup>4</sup> California Government Code Section 53395.8.g.3.c.i

<sup>5</sup> California Government Code Section 53395.8.g.5.

<sup>6</sup> California Government Code Section 53395.8.g.3.c.ii

<sup>7</sup> On September 29, 2012, Assembly Bill (AB) 2259 was passed.

<sup>8</sup> The Educational Revenue Augmentation Fund redirects one-fifth of total statewide property tax revenue from cities, counties and special districts to school and community college districts. The redirected property tax revenue is deposited into a countywide fund for schools and community colleges (ERAF). The property tax revenue is distributed to the county's non-basic aid schools and community colleges (i.e., school and community college districts that receive more than the minimum amount of state aid required by the State constitution). In 2004, the State approved a complex financing mechanism, known as the triple flip, in which one-quarter cent of the local sales tax is used to repay the Proposition 57 deficit financing bond; property taxes are redirected from ERAF to cities and counties to offset revenue losses from the one-quarter cent sales tax; and State aid offsets losses to school and community college districts from the redirected ERAF funds.

### Pier 70 Project Area

A Pier 70 project area may not be formed prior to January 1, 2014. According to Mr. Benson, the Port intends to submit a financing plan for the Pier 70 project area for Board of Supervisors consideration after it completes environmental review of the proposed Pier 70 mixed use development, likely in 2015 or 2016. The Port may allocate ERAF's share of tax increment from the Pier 70 project area to the Port IFD to fund public improvements at Pier 70. Under State law, the amount of ERAF's share of tax increment allocated to the Port IFD is proportional to the City's share of tax increment allocated to the Port IFD.<sup>9</sup>

The Port may issue debt, secured by the ERAF share of tax increment from the Pier 70 project area for up to 20 fiscal years from the first Pier 70 debt issuance. Once any ERAF-secured debt issued within the Pier 70 project area has been paid, ERAF's share of tax increment will be paid into ERAF. Beginning in the 21<sup>st</sup> fiscal year, ERAF's share of tax increment may only be used to meet debt service obligations for previously issued debt secured by ERAF's allocation of tax increment. ERAF's share of tax increment exceeding debt service obligations must be paid into ERAF.

### Seawall Lot 330 and Piers 19, 23, and 29 Project Areas

ERAF's share of tax increment from Seawall Lot 330 and Piers 19, 23, and 29 may only be allocated to fund (a) construction of the Port's Cruise Terminal at Pier 27, (b) planning and design work directly related to construction of the Port's Cruise Terminal at Pier 27, (c) future installations of shoreside power facilities on Port maritime facilities, and (d) planning, design, acquisition, and construction of improvements to publicly-owned waterfront lands held by trustee agencies, such as the National Park Service, California State Parks, and City and County of San Francisco Departments to be used as a public spectator viewing site for America's Cup related events.

ERAF's share of tax increment allocated to Seawall Lot 330 and Piers 19, 23, and 29 project areas must be equal to the percentage of the City's share of tax increment allocated to these project areas and cannot exceed \$1,000,000 annually. The Port must set aside a minimum of 20 percent of ERAF's share of tax increment allocated to these project areas to pay for planning, design, acquisition, and construction of improvements to waterfront lands owned by Federal, State, or local trustee agencies, such as the National Park Service or the California State Parks.<sup>10</sup>

Any improvements made with ERAF's share of tax increment for the above purposes are not required to be located within the individual project areas from which ERAF's share of tax increment is allocated. To enable allocation of ERAF's share of tax increment from all of the eligible project areas noted above, the Board of Supervisors would have to approve an amendment the previously approved resolution of intention to form the Port IFD to authorize Piers 19, 23 and 29 as Port IFD project areas.

<sup>9</sup> For example, for every \$1.00 in Property Taxes (not including Property Taxes designated to pay General Obligation bonds), \$0.25 is allocated to ERAF, \$0.65 is allocated to the City's General Fund, and \$0.10 is allocated to the other taxing entities (SFUSD, Community College District, BART, and Bay Area Air Quality Management District). If the Board of Supervisors were to approve 50% of the City's General Fund share of tax increment (or \$0.325 of \$0.65), then the ERA share of tax increment is 50% (or \$0.125 of \$0.25).

<sup>10</sup> State law sets aside 20 percent from ERAF's tax increment in lieu of the minimum of 20 percent of the tax increment allocated to the Port IFD required to be set aside to be expended exclusively on shoreline restoration, removal of bay fill, or waterfront public access to or environmental remediation of the San Francisco waterfront.

Maps of the Port IFD, with specific project area boundaries defined, are provided in the Attachment to this report.

## DETAILS OF PROPOSED LEGISLATION

The proposed resolution would adopt "Guidelines for the Establishment and Use of an Infrastructure Financing District with Project Areas on Land under the Jurisdiction of the San Francisco Port Commission" (Port IFD Guidelines). The City's Capital Planning Committee recommended approval of the Port IFD Guidelines on January 2, 2013.

The Port IFD Guidelines identify 10 threshold criteria and four strategic criteria. According to Mr. Benson, the threshold criteria must be met in order to establish a Port IFD and the strategic criteria should be considered by the Board of Supervisors but are not required for the establishment of a Port IFD. Because neither the proposed Port IFD Guidelines nor the proposed resolution define the purpose of the threshold criteria and strategic criteria, the proposed Port IFD Guidelines should be amended to specify that (1) the threshold criteria must be met in order to establish a Port IFD, and (2) the strategic criteria should be considered by the Board of Supervisors but are not required for the establishment of a Port IFD, comparable to language in the City's Guidelines.

The Port IFD Guidelines are summarized below.

### Threshold Criteria of the Port IFD Guidelines

1. Any Port IFD initially established is subject to Board of Supervisors approval and must:
  - Consist exclusively of Port property;
  - Meet the threshold criteria proposed in the Port IFD Guidelines;
  - Be accompanied by a project area-specific financing plan that meets State law requirements.
2. Potential property annexations to the Port IFD of non-Port property adjacent to Port property are subject to Board of Supervisors approval and will be evaluated individually to determine whether to annex the non-Port property. If annexation is approved, the percentage of the tax increment generated by the non-Port property not used to finance Port public facilities should be subject to the City's IFD Guidelines.
3. No tax increment will be allocated to the Port IFD without completion of environmental review and recommendation for approval by the City's Capital Planning Committee.
4. Public facilities financed by tax increment in project areas and any adjacent property annexations approved by the Board of Supervisors must be consistent with:
  - State law regarding IFDs;
  - The Port's Waterfront Land Use Plan;
  - Any restrictions on Port land use pursuant to the Burton Act;
  - The Port's 10-Year Capital Plan.
5. The Port must demonstrate that the project area will result in a net economic benefit to the City in the project area-specific financing plan by including:

- Total revenue that the General Fund is projected to receive;
  - Total number of jobs and other economic development benefits the project is expected to produce.
6. When an allocation of ERAF's share of tax increment, identified in the Port IFD Guidelines as \$0.25 per \$1.00 in tax increment, is authorized under State law, the City, subject to Board of Supervisors approval, should maximize such contributions to those project areas by allocating the maximum amount of City tax increment to those areas, identified in the Guidelines as \$0.65 per \$1.00 in tax increment. As previously noted, ERAF's share of tax increment is authorized for allocation within the Seawall Lot 330, Pier 19, Pier 23, Pier 29, and Pier 70 project areas.
  7. Tax increment amounts based on project area-specific financing plans for project areas are subject to approval by the Board of Supervisors and should be sufficient to enable the Port to:
    - Obtain fair market rent for Port leases after build-out of the project area;
    - Enable proposed development projects to attract equity;
    - Fund debt service and debt service coverage for any bonds issued in public facilities financed by tax increment in Port IFD project areas;
    - Fund the Port's administrative costs and authorized public facilities with available revenue on a pay-as-you-go<sup>11</sup> basis.
  8. Excess tax increment not required to fund public facilities in project areas will be allocated to either (a) the City's General Fund, (b) funding improvements to the City's seawall, or (c) protecting the City against sea level rise, as allowed by State law, contingent upon Board of Supervisors approval.
  9. The Port will include pay-as-you-go tax increment revenue allocated to the project area in the Port's Capital Budget if the Port issues revenue bonds to be repaid by tax increment revenue generated in one or more Port project areas in order to provide debt service coverage for Port revenue bonds as a source of funding.
  10. The Port is required to identify sources of funding to construct, operate and maintain public facilities by project area tax increment in the project area-specific financing plan.

#### **Strategic Criteria of the Port IFD Guidelines**

The four strategic criteria for the Board of Supervisors to consider, when approving the Port IFD, provide guidance in the appropriate use of Port IFD financing and in the selection of projects within the Port IFD. These strategic criteria are:

- Port IFD financing should be used for public facilities serving Port land where other Port monies are insufficient;
- Port IFD financing should be used to leverage non-City resources, such as any additional regional, State, or Federal funds that may be available;
- The Port should continue utilizing the "best-practices" citizen participation procedures<sup>12</sup> to help establish priorities for public facilities serving Port land;

<sup>11</sup> Pay-as-you-go is a method of financing expenditures with funds that are currently available rather than borrowed.

- The Port, the Mayor's Budget Office and the Controller should collaborate to conduct periodic nexus studies every ten years, at minimum, to examine whether the cost of basic municipal services, such as services provided by the Fire and Police Departments, are covered by the sum of the portion of property taxes the City receives from Port land, hotel, sales, payroll or gross receipts taxes, and any other taxes the City receives from Port land, and any other revenues that the City receives from Port land.

## FISCAL ANALYSIS

While there is no direct fiscal impact of the proposed resolution to adopt the Port's Guidelines for Establishment and Use of an Infrastructure Financial District with Project Areas on Land under the Jurisdiction of the Port Commission, there are criteria within the Port IFD Guidelines that may have fiscal impacts to the Port and the City.

### Threshold Criteria 5 Requires Net Economic, Not Fiscal, Benefit to the City

Threshold Criteria 5 requires that the project area financing plan demonstrate a net economic benefit to the City that, over the term of the project area, includes the (a) total estimated amount of revenue to the City's General Fund; and (b) number of jobs and other economic development benefits. In contrast, the City's IFD Guidelines require that the IFD provide a net fiscal benefit over the 30-year term of the IFD, "guaranteeing that there is at least some gain to the General Fund in all circumstances". In addition, State law<sup>12</sup> requires only an analysis of costs and revenues to the City.

Threshold Criteria 5 states that the project area financing plan should be similar to findings of fiscal responsibility and feasibility reports prepared in accordance with Administrative Code Chapter 29. Administrative Code Chapter 29 requires more detailed evaluation of fiscal benefits to the City than required by the proposed Port IFD Guidelines, including direct and indirect financial benefits to the City, project construction costs, available funding to pay project costs, ongoing maintenance and operating costs, and debt service costs.

The City's IFD Guidelines acknowledge that the Port's use of IFD law differs from the City in that the Port intends to build infrastructure to attract private investment to create jobs, small business, waterfront visitors and other growth, and therefore would not necessarily be "predicated on up-zonings"<sup>14</sup> that result in net fiscal benefits to the General Fund". However, in order to fully disclose the fiscal impact of the Port IFD on the City's General Fund, the Budget and Legislative Analyst recommends that the proposed Port IFD Guidelines be amended to require that the project area financing plan project the net fiscal impact to the City's General Fund, as well as the net economic benefits, over the term of the Port IFD.

<sup>12</sup> Best practices citizen participation procedures include regular publicly-noticed meetings of waterfront advisory committees to support ongoing communication with neighborhood and waterfront stakeholders as well as community planning processes for major waterfront open space, maritime, and development project opportunities and needs.

<sup>13</sup> California Government Code Section 53395.8.g.3.c.vii

<sup>14</sup> "Up-zonings" are increases in height, bulk or density, allowing increased development.

### **Threshold Criteria 6 and 7 Refer to Specific Tax Increment Percentages Which are Subject to Change**

Threshold Criteria 6 and 7 refer to specific property tax rate allocations, as they are currently allocated. The City's property tax allocation is referred to in specific numeric terms as \$0.65 per \$1.00 in tax increment and ERAF's Property Tax allocation is referred to as \$0.25 per \$1.00 in tax increment. However, future State law may change these property tax allocations. In addition, these property tax allocations are subject to approval by the State for ERAF and by Board of Supervisors for the City on an annual basis. Therefore, the Budget and Legislative Analyst recommends that Threshold Criteria 6 and 7 specify that the share of tax increment allocated to the City and ERAF is the tax rate established annually by the State for ERAF and by the Board of Supervisors for the City pursuant to the California Revenue and Taxation Code.

### **Threshold Criteria 8 Does Not Specify ERAF's Excess Share of Tax Increment May Not be Re-Allocated to the City's General Fund**

Threshold Criteria 8 states that excess tax increment not required to fund project area-specific public facilities should be allocated to the General Fund or to improvements in the City's seawall and other measures to protect against sea level rise. However, Threshold Criteria 8 does not specify that ERAF's excess share of tax increment may not be diverted in the manner outlined by Threshold Criteria 8. State law contains specific restrictions for how ERAF's share of tax increment may be used, as described in the Background Section of this report. Therefore, the Budget and Legislative Analyst recommends that Threshold Criteria 8 should specify that ERAF tax increment may not be re-allocated to the City's General Fund or to improvements in the City's seawall and other measures to protect against sea level rise.

## **POLICY CONSIDERATIONS**

### **State Law Allows ERAF Tax Increment Intended to Fund Local Education to be used to Fund Construction of the Pier 27 Cruise Terminal and Development at Pier 70**

As previously noted, ERAF's share of tax increment may be allocated to five project areas within the Port IFD and used for limited purposes. Threshold Criteria 6 specifies that the City should maximize ERAF contributions in designated project areas by allocating the maximum City contribution to those same project areas.<sup>15</sup> The rationale for maximizing ERAF contributions is to maximize the Port's ability to pay for development of public infrastructure along the Port, such as the Cruise Terminal at Pier 27. Such allocations are subject to Board of Supervisors approval for each individual project area.

According to the Senate Appropriation Committee's fiscal summary of the State law, diverting ERAF's share of tax increment could potentially result in a State General Fund cost to backfill those monies intended for education. However, the potential State General Fund cost is unknown because the economic activity that would be generated absent a Port IFD is unclear.

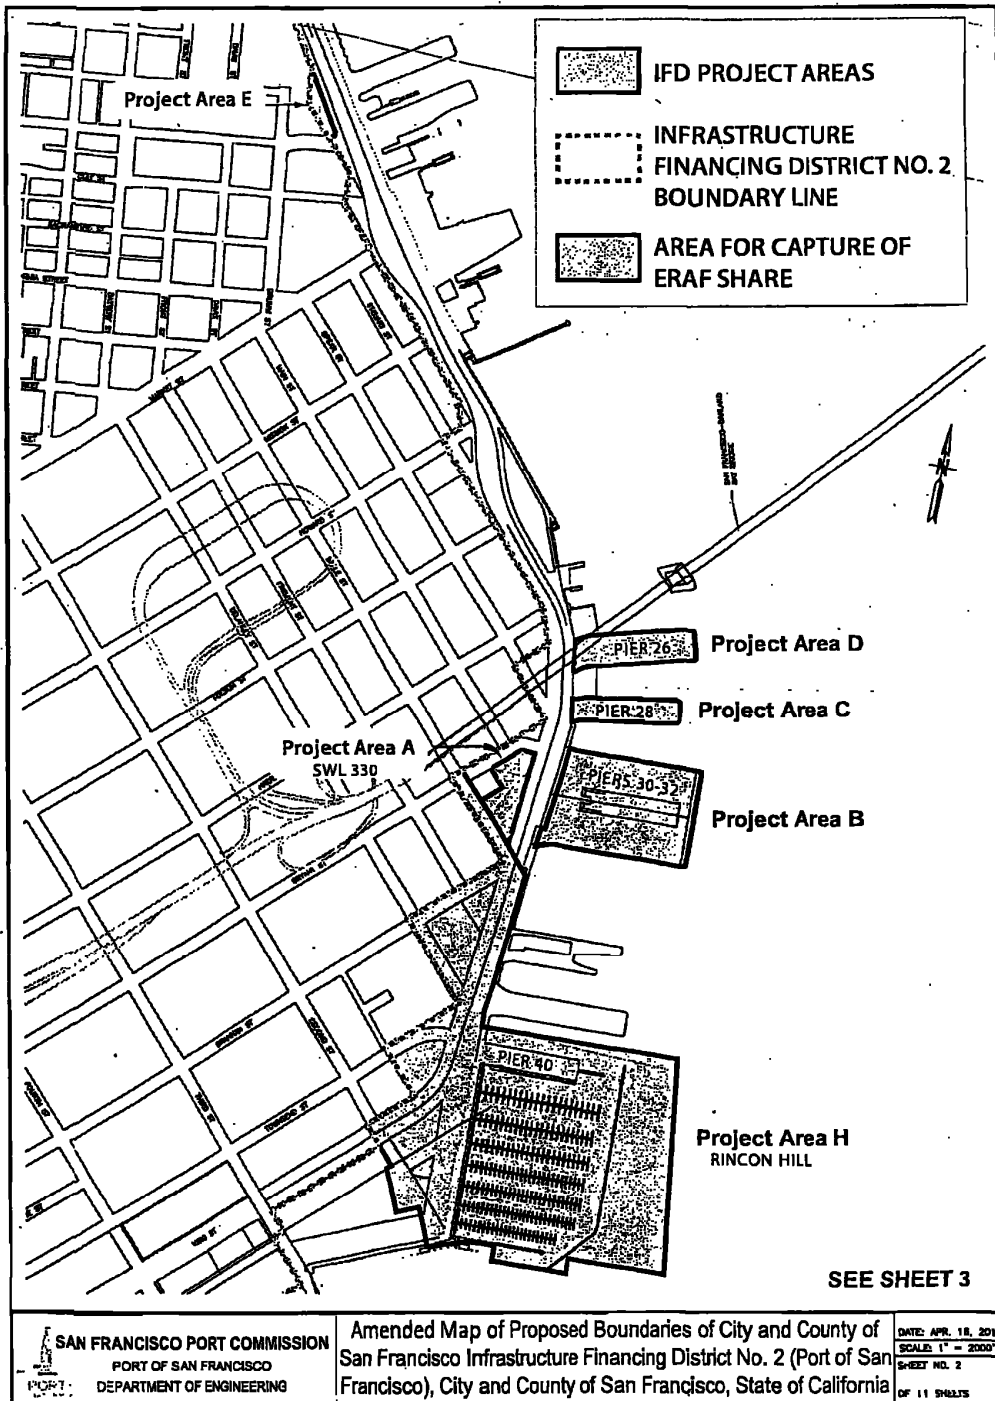

<sup>15</sup> ERAF's share of tax increment is allocated in proportion to the percentage of City tax increment allocated to the designated project areas.

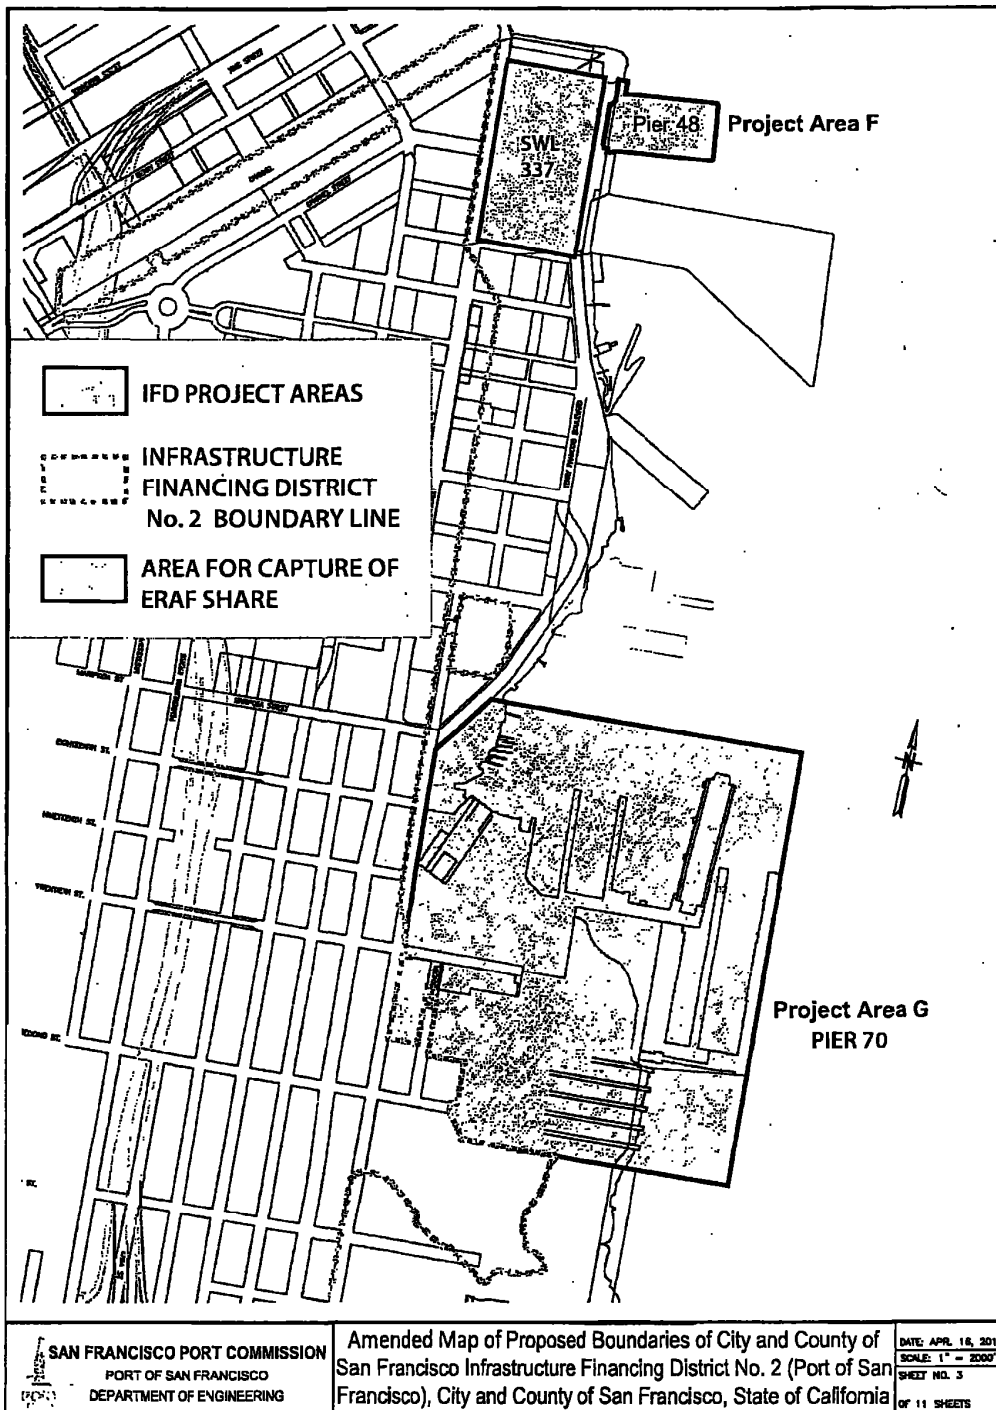

**Approval of the Proposed Resolution is a Policy Decision for the Board of Supervisors**

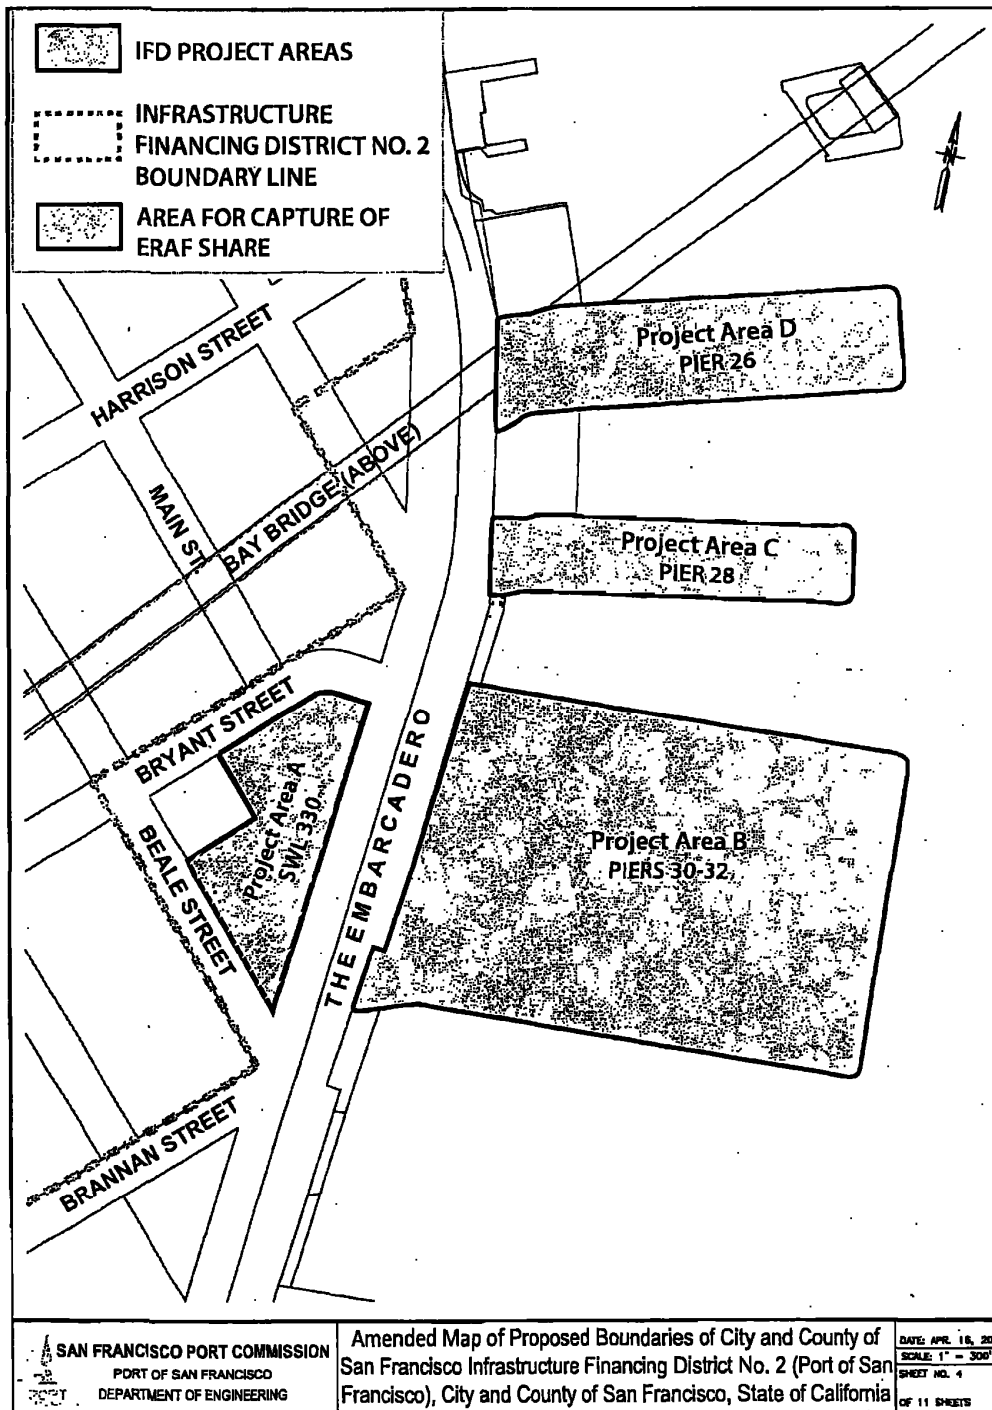

The proposed Port IFD Guidelines will guide future Board of Supervisors' decisions on allocation of City and ERAF tax increment. Therefore, approval of the proposed resolution is a policy decision for the Board of Supervisors.

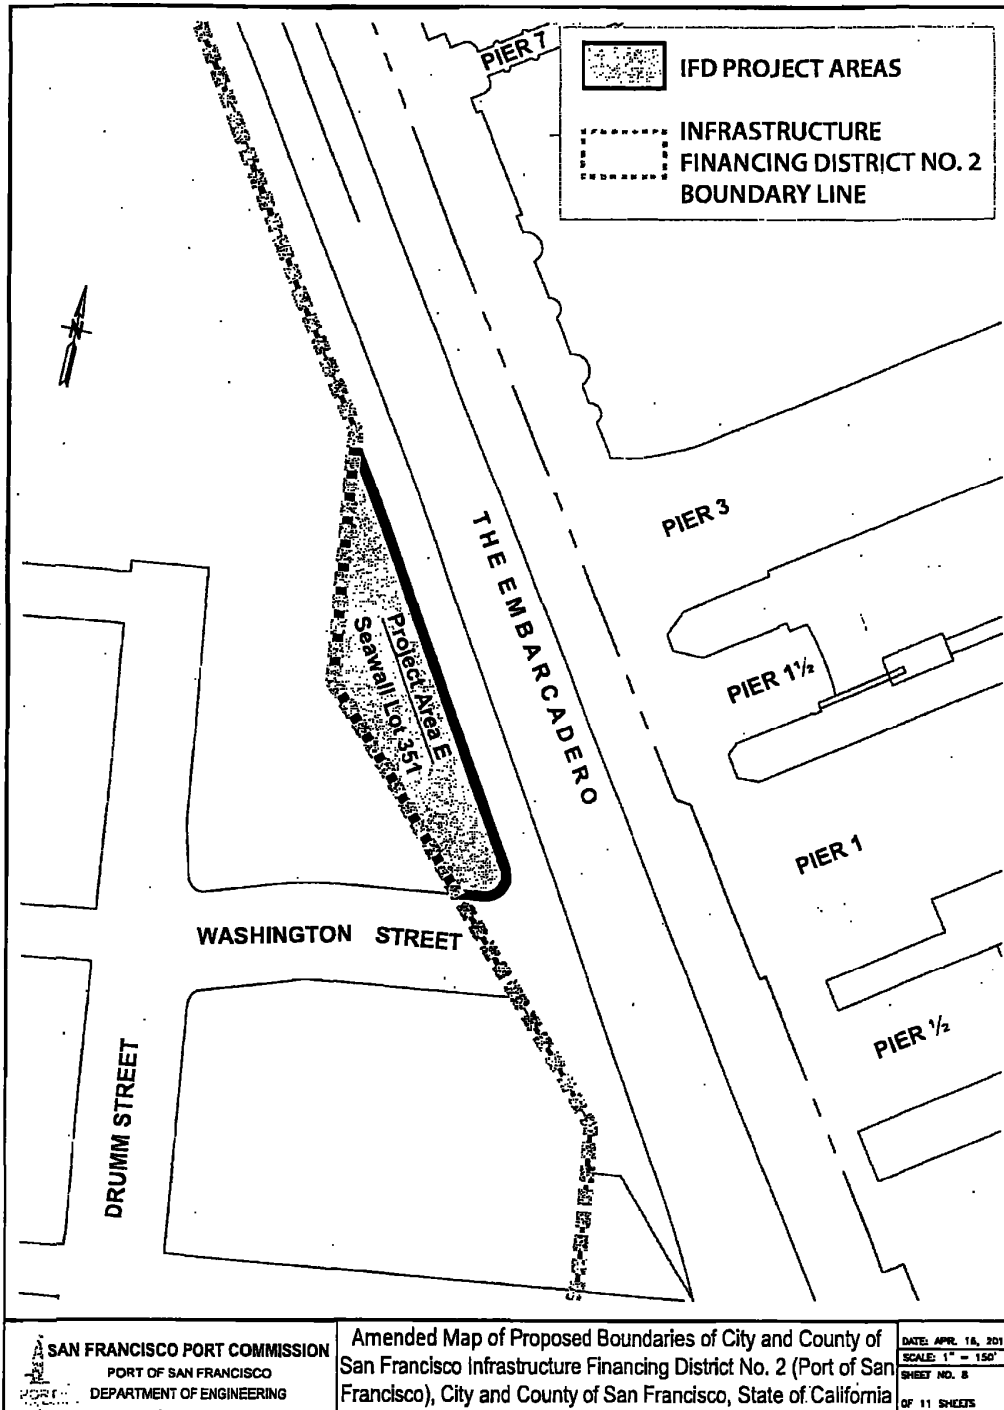

**RECOMMENDATIONS**

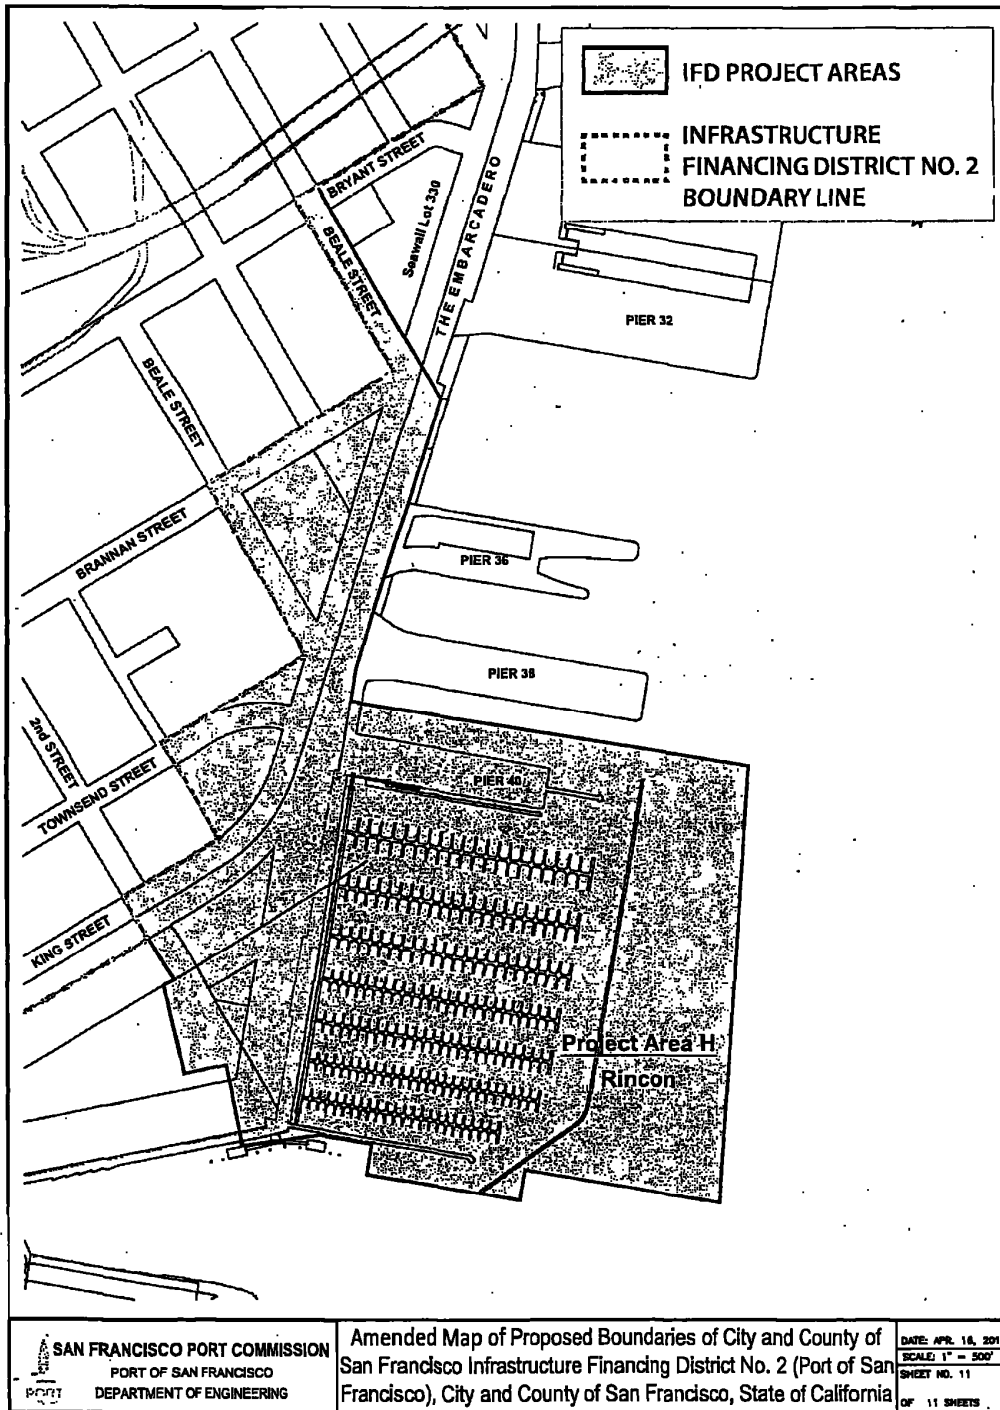

1. Amend the proposed resolution to request the Port to amend:
  - (a) The Port IFD Guidelines to specify that the threshold criteria must be met in order to establish a Port IFD or project area, and the strategic criteria should be considered by the Board of Supervisors but are not required to establish a Port IFD;
  - (b) Threshold Criteria 5 to require that the project area financing plan projects the net fiscal impact to the City's General Fund, as well as the net economic benefits, over the term of the Port IFD;
  - (c) Threshold Criteria 6 and 7 to specify that the share of tax increment allocated to the City and ERAF is the tax rate established annually by the State for the ERAF and by the Board of Supervisors for the City pursuant to the California Revenue and Taxation Code; and
  - (d) Threshold Criteria 8 to specify that ERAF's excess share of tax increment may not be re-allocated to the City's General Fund or to improvements in the City's seawall and other measures to protect against sea level rise.
2. Approval of the proposed resolution, as amended, is a policy decision for the Board of Supervisors.

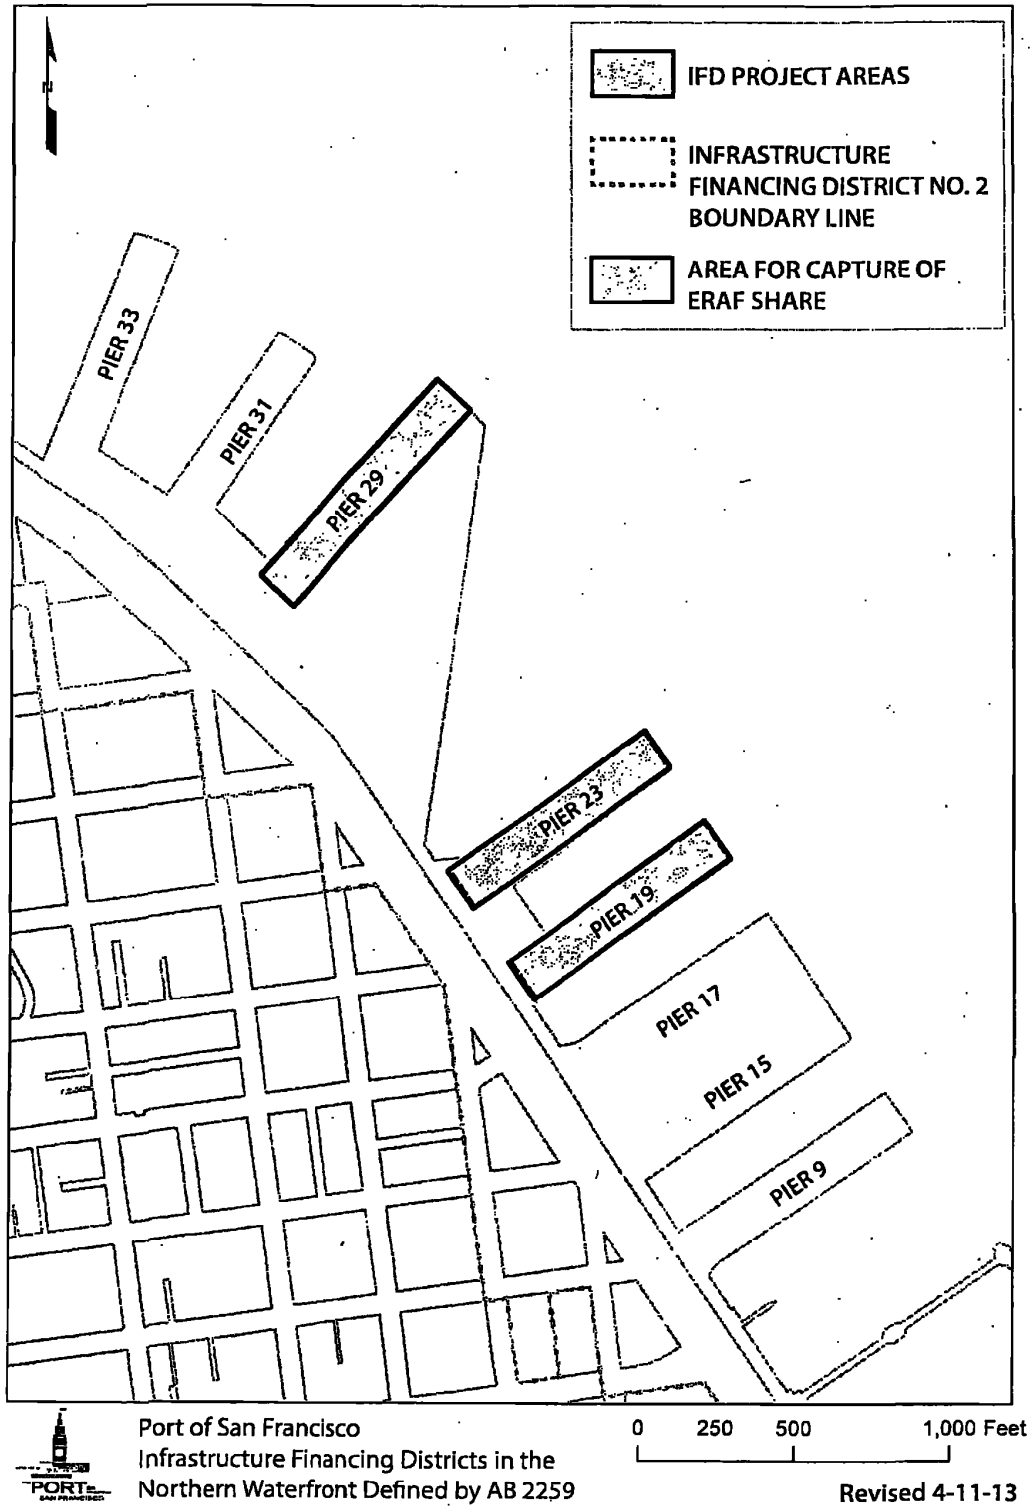

**Draft Guidelines for the Establishment and Use of an  
Infrastructure Financing District with Project Areas on  
Land under the Jurisdiction of the San Francisco Port Commission  
(Revised 4/16/13 per Budget Analyst's recommendations)**

Formatted: Font: Not Bold

Formatted: Font: Not Bold

**Threshold Criteria:** *The following Threshold Criteria must be met to establish an infrastructure financing district (IFD) or project area on Port land.*

1. **At formation, limit waterfront districts and project areas to Port land.** Consistent with California Infrastructure Financing District (IFD) law (Gov. Code §§ 53395-53398.47) (IFD law), the City may form an IFD consisting only of land under the jurisdiction of the San Francisco Port Commission (Port) without an election (waterfront district). The formation of a waterfront district consisting of all Port land with project areas corresponding to Port development projects within the waterfront district<sup>1</sup> will be subject to the criteria in these *Guidelines for Establishment and Use of Infrastructure Financing Districts and Project Areas on Land under the Jurisdiction of the San Francisco Port Commission* (Port Guidelines). The City will consider allocating property tax increment from a project area to the waterfront district when the Port submits a project area-specific infrastructure financing plan that specifies: (a) the public facilities to be financed by tax increment<sup>2</sup> generated in the project area; (b) the projected cost of the proposed public facilities; (c) the projected amount of tax increment that will be generated over the term of the project area; (d) the amount of tax increment that is proposed to be allocated to the IFD to finance public facilities; and (e) any other matters required under IFD law.
2. **Consider requests to annex non-Port land to a project area on a case-by-case basis.** If an owner of non-Port land adjacent to a project area petitions to add the adjacent property to the project area in accordance with the IFD law, the City will consider on a case-by-case basis: (a) whether to annex the non-Port property to the project area to assist in financing public facilities; and (b) the extent to which tax increment generated by the non-Port land but not used for Port public facilities should be subject to the *Guidelines for the Establishment and Use of Infrastructure Financing Districts in the City and County of San Francisco* (City Guidelines).<sup>3</sup>
3. **Require completion of environmental review and the affirmative recommendation of the Capital Planning Committee before approving any infrastructure financing plan that allocates tax increment from a project area.** The City may form the Port-wide waterfront district without allocating tax increment to the waterfront district. The City will

<sup>1</sup> In accordance with Board of Supervisors intent as stated in Board Resolution No. 110-12, adopted on March 27, 2012, and Board Resolution No. 227-12, adopted on June 12, 2012. These Port Guidelines will apply even if the Board later decides to create multiple IFDs on Port land, rather than a single waterfront district.

<sup>2</sup> IFD law generally authorizes certain classes of public facilities to be financed through IFDs. The Legislature has broadened the types of authorized public facilities for waterfront districts to include: (1) remediation of hazardous materials in, on, under, or around any real or tangible property; (2) seismic and life-safety improvements to existing buildings; (3) rehabilitation, restoration, and preservation of structures, buildings, or other facilities having special historical, architectural, or aesthetic interest or value and that are listed on the National Register of Historic Places, are eligible for listing on the National Register of Historic Places individually or because of their location within an eligible registered historic district, or are listed on a state or local register of historic landmarks; (4) structural repairs and improvements to piers, seawalls, and wharves, and installation of piles; (5) removal of bay fill; (6) stormwater management facilities, other utility infrastructure, or public open-space improvements; (7) shoreline restoration; (8) other repairs and improvements to maritime facilities; (9) planning and design work that is directly related to any public facilities authorized to be financed by a waterfront district; (10) reimbursement payments made to the California Infrastructure and Economic Development Bank in accordance with IFD law; (11) improvements, which may be publicly owned, to protect against potential sea level rise; (12) Port maritime facilities at Pier 27; (13) shoreside power installations at Port maritime facilities; and (14) improvements to publicly-owned waterfront lands used as public spectator viewing sites for America's Cup activities in San Francisco. Gov. Code §§ 53395.3, 53395.8(d), and 53395.81(c)(1).

<sup>3</sup> Adopted on February 8, 2011, by the Board of Supervisors Resolution No. 66-11. The City Guidelines do not apply to IFDs on land owned or managed by the Port.

not approve an infrastructure financing plan that would allocate property tax increment to the waterfront district from any project area, however, until the following have occurred: (a) the City has completed environmental review of the proposed development project associated with the project area and any proposed public facilities to be financed with property tax increment from the project area; and (b) the Capital Planning Committee has recommended approval of the related infrastructure financing plan.

4. **Public facilities financed by tax increment must be consistent with applicable laws, policies, and the Port's capital plan.** Project areas in the waterfront district must finance public facilities that are consistent with: (a) IFD law; (b) the Port's Waterfront Land Use Plan; (c) any restrictions imposed by the public trust for commerce, navigation, and fisheries, the Burton Act (stats. 1968, ch. 1333), or other applicable statute; and (d) the Port's 10-Year Capital Plan, all as in effect on the date the City approves any project area infrastructure financing plan.
5. **The Port must demonstrate the net fiscal impact of the proposed project area on the City's General Fund and show that the project area will result in a net economic benefit to the City, including the Port.** The Port must include in the infrastructure financing plan for each project area: (a) the total amount of revenue that the City's General Fund is projected to receive and the projected costs to the City's General Fund over the term of the project area; and (b) the number of jobs and other economic development benefits that the project assisted by the waterfront district is projected to produce over the term of the project area. The projections in the infrastructure financing plan should be similar to those prepared to demonstrate that certain projects are fiscally feasible and responsible in accordance with Administrative Code Chapter 29 and include projections of direct and indirect financial benefits to the City, construction costs, available funding to pay project costs, ongoing operating and maintenance costs, and debt service.
6. **Where applicable, maximize State contributions to project areas through matching City contributions.** IFD law authorizes the allocation of the State's share of property tax increment to certain Port project areas in proportion to the City's allocation of tax increment to the Port project area to assist in financing specified Port public facilities, such as historic preservation at Pier 70 and the Port's new James R. Herman Cruise Terminal at Pier 27. When an allocation of the State's share of property tax increment to a Port project area is authorized under IFD law, the City will allocate to the waterfront district the amount of tax increment from the project area that will maximize the amount of the State's tax increment that is available to fund authorized public facilities. In accordance with the California Revenue and Taxation Code, the Board of Supervisors annually approves the share of City property tax dollars allocated to the City (\$0.646 in FY 2012-2013), and the State annually approves the State's share of City property tax dollars (\$0.253 in FY 2012-2013). To maximize State contributions to project areas through matching City contributions in project areas where the City's use of the State's share is authorized, the City would budget up to \$0.90 per the sum of all of the City's share of property tax dollars from the project area plus all of the State's share of property tax dollars from the project area (i.e., the sum of \$0.65 of tax increment allocated by the City to the waterfront district from the project area and the State's share of tax increment), until the earlier to occur of: (a) full financing of the authorized public facilities by tax increment; or (b) the allocation to the waterfront district of the full amount of tax increment from the project area authorized under the approved infrastructure financing plan.
7. **Determine the amount of tax increment to be allocated to the waterfront district from a project area in relation to project economics.** The City will consider approving infrastructure financing plans for Port project areas that provide for allocations of tax increment of up to \$0.65 per up to the sum of property tax dollars allocated to the City from

Formatted: Font: Not Bold

the project area in accordance with tax rates established annually by the Board of Supervisors for the City, or, where permitted by IFD law, the sum of the City's share of property tax dollars from the project area \$0.65 of tax increment so that, in combination with plus State's share of property tax dollars from the project area as established annually by the State's share of tax increment, the total allocated is up to \$0.90 per property tax dollar, to fund authorized public facilities necessary for each proposed development project. Each infrastructure financing plan must include projections of the amount of tax increment that will be needed to fund necessary public facilities. The allocation should be sufficient to enable the Port to: (a) obtain fair market rent for Port ground leases after build-out of the project area; and (b) enable proposed development projects to attract private equity. No tax increment will be used to pay a developer's return on equity or other internal profit metric in excess of limits imposed by applicable state and federal law; the IFD law currently measures permissible developer return by reference to a published bond index and both the State Mello-Ross Community Facilities Act and federal tax law require a return that is consistent with industry standards. The Board of Supervisors in its discretion may allocate additional tax increment to other public facilities serving the waterfront district that require funding.

An approved infrastructure financing plan will state the City's agreement that, for any debt secured by tax increment allocated to the waterfront district from a project area to finance authorized public facilities, the City will disburse tax increment to the waterfront district from the project area in amounts sufficient to fund: (a) debt service and debt service coverage for bonds issued under IFD law (IFD Bonds), bonds issued under the Mello-Ross Community Facilities Act of 1982<sup>4</sup> (CFD Bonds), and other forms of indebtedness that the Port is authorized to issue to fund public facilities authorized to be financed in the infrastructure financing plan to the extent not funded by special tax levies; and (b) costs of administration and authorized public facilities on a pay-as-you-go basis.

8. Use excess tax increment for citywide purposes. Any portion of the City's share of Tax increment that the City allocated to the waterfront district from the project area but that is not required to fund eligible project-specific public facilities will be re-allocated to the City's General Fund or to improvements to the City's seawall and other measures to protect the City against sea level rise or other foreseeable risks to the City's waterfront. Under IFD law, any portion of the State's share of tax increment not needed to fund eligible public facilities reverts to the State and may not be re-allocated for citywide purposes.
9. **Port Capital Budget.** If the Port issues Port revenue bonds (instead of CFD Bonds or IFD Bonds) to be repaid by tax increment revenue generated in one or more Port project areas, to further the purposes Port Commission Resolution No. 12-22 adopting the Port's Policy for Funding Capital Budget Expenditures, the Port will include annually in its Capital Budget any tax increment revenue allocated to the waterfront district from the project area to provide debt service coverage on any Port revenue bond debt payable from tax increment.
10. **Require each project area infrastructure financing plan to identify sources of funding to construct, operate, and maintain public facilities financed by project area tax increment.** Tax increment will be allocated to the waterfront district from a project area under a project area infrastructure financing plan only if the Port has identified anticipated sources of funding to construct, operate, and maintain any public facilities to be financed with project area tax increment. Examples of acceptable sources for operation and maintenance are: (a) private financing mechanisms, such as a homeowners association assessment; (b) a supplemental special tax levied by a community facilities district formed

<sup>4</sup> Gov. Code §§ 553311-53368.3 (Mello-Ross Act).

under the Mello-Roos Act or assessments levied by a community benefits district; and (c) the Port's maintenance budget or other allocation of the Port Harbor Fund.

Strategic Criteria: are to be considered by the Board of Supervisors, but are not required to establish a Port IFD or project area.

Formatted: Keep with next, Keep lines together

Formatted: Font: Not Bold, No underline

- **Use Port IFD financing for public facilities serving Port land where other Port moneys are insufficient.** Port IFD financing should be used to finance public facilities serving Port land when the Port does not otherwise have sufficient funds.
- **Use Port IFD financing to leverage non-City resources.** Port IFD financing should be used to leverage additional regional, state, and federal funds. For example, IFD funds may prove instrumental in securing matching federal or state dollars for transportation projects.
- **Continue the Port's "best-practices" citizen participation procedures to help establish priorities for public facilities serving Port land.** Continue to use the Port's "best-practices" citizen participation procedures to: (a) establish community and municipal priorities for construction of infrastructure serving Port land; and (b) ensure that infrastructure financing plans for Port project areas provide financing to help the Port and the City meet those priorities.
- **The Port, the Mayor's Budget Office, and the Controller should collaborate to conduct periodic nexus studies.** No less than every ten years, the Port, the Mayor's Budget Office, and the Controller should collaborate on a nexus study. The nexus analysis will examine whether the cost of basic municipal services provided to Port property, such as services provided by the Fire and Police Departments, is covered by the sum of: (a) the portion of property taxes the City receives from Port land that is not allocated to the waterfront district; (b) hotel, sales, payroll or gross receipts, and any other taxes the City receives from Port land; and (c) any other revenues that the City receives from Port land.

**Draft**  
**Guidelines for the Establishment and Use of an**  
**Infrastructure Financing District with Project Areas on**  
**Land under the Jurisdiction of the San Francisco Port Commission**

**Threshold Criteria:**

1. **At formation, limit waterfront districts and project areas to Port land.** Consistent with California Infrastructure Financing District (IFD) law (Gov. Code §§ 53395-53398.47), the City may form an IFD consisting only of land under the jurisdiction of the San Francisco Port Commission (Port) without an election (waterfront district). The formation of a waterfront district consisting of all Port land with project areas corresponding to Port development projects within the waterfront district<sup>1</sup> will be subject to the criteria in these *Guidelines for Establishment and Use of Infrastructure Financing Districts and Project Areas on Land under the Jurisdiction of the San Francisco Port Commission* (Port Guidelines). The City will consider allocating property tax increment from a project area to the waterfront district when the Port submits a project area-specific infrastructure financing plan that specifies: (a) the public facilities to be financed by tax increment<sup>2</sup> generated in the project area; (b) the projected cost of the proposed public facilities; (c) the projected amount of tax increment that will be generated over the term of the project area; (d) the amount of tax increment that is proposed to be allocated to the IFD to finance public facilities; and (e) any other matters required under IFD law.
2. **Consider requests to annex non-Port land to a project area on a case-by-case basis.** If an owner of non-Port land adjacent to a project area petitions to add the adjacent property to the project area in accordance with the IFD law, the City will consider on a case-by-case basis: (a) whether to annex the non-Port property to the project area to assist in financing public facilities; and (b) the extent to which tax increment generated by the non-Port land but not used for Port public facilities should be subject to the *Guidelines for the Establishment and Use of Infrastructure Financing Districts in the City and County of San Francisco* (City Guidelines).<sup>3</sup>
3. **Require completion of environmental review and the affirmative recommendation of the Capital Planning Committee before approving any infrastructure financing plan that allocates tax increment from a project area.** The City may form the Port-wide waterfront district without allocating tax increment to the waterfront district. The City will not approve an infrastructure financing plan that would allocate property tax increment to the

<sup>1</sup> In accordance with Board of Supervisors intent as stated in Board Resolution No. 110-12, adopted on March 27, 2012, and Board Resolution No. 227-12, adopted on June 12, 2012. These Port Guidelines will apply even if the Board later decides to create multiple IFDs on Port land, rather than a single waterfront district.

<sup>2</sup> IFD law generally authorizes certain classes of public facilities to be financed through IFDs. The Legislature has broadened the types of authorized public facilities for waterfront districts to include: (1) remediation of hazardous materials in, on, under, or around any real or tangible property; (2) seismic and life-safety improvements to existing buildings; (3) rehabilitation, restoration, and preservation of structures, buildings, or other facilities having special historical, architectural, or aesthetic interest or value and that are listed on the National Register of Historic Places, are eligible for listing on the National Register of Historic Places individually or because of their location within an eligible registered historic district, or are listed on a state or local register of historic landmarks; (4) structural repairs and improvements to piers, seawalls, and wharves, and installation of piles; (5) removal of bay fill; (6) stormwater management facilities, other utility infrastructure, or public open-space improvements; (7) shoreline restoration; (8) other repairs and improvements to maritime facilities; (9) planning and design work that is directly related to any public facilities authorized to be financed by a waterfront district; (10) reimbursement payments made to the California Infrastructure and Economic Development Bank in accordance with IFD law; (11) improvements, which may be publicly owned, to protect against potential sea level rise; (12) Port maritime facilities at Pier 27; (13) shoreside power installations at Port maritime facilities; and (14) improvements to publicly-owned waterfront lands used as public spectator viewing sites for America's Cup activities in San Francisco. Gov. Code §§ 53395.3, 53395.8(d), and 53395.81(c)(1).

<sup>3</sup> Adopted on February 8, 2011, by the Board of Supervisors Resolution No. 66-11. The City Guidelines do not apply to IFDs on land owned or managed by the Port.

waterfront district from any project area, however, until the following have occurred: (a) the City has completed environmental review of the proposed development project associated with the project area and any proposed public facilities to be financed with property tax increment from the project area; and (b) the Capital Planning Committee has recommended approval of the related infrastructure financing plan.

4. **Public facilities financed by tax increment must be consistent with applicable laws, policies, and the Port's capital plan.** Project areas in the waterfront district must finance public facilities that are consistent with: (a) IFD law; (b) the Port's Waterfront Land Use Plan; (c) any restrictions imposed by the public trust for commerce, navigation, and fisheries, the Burton Act (stats. 1968, ch. 1333), or other applicable statute; and (d) the Port's 10-Year Capital Plan, all as in effect on the date the City approves any project area infrastructure financing plan.
5. **The Port must demonstrate that the project area will result in a net economic benefit to the City, including the Port.** The Port must include in the infrastructure financing plan for each project area: (a) the total amount of revenue that the City's General Fund is projected to receive over the term of the project area; and (b) the number of jobs and other economic development benefits that the project assisted by the waterfront district is projected to produce over the term of the project area. The projections in the infrastructure financing plan should be similar to those prepared to demonstrate that certain projects are fiscally feasible and responsible in accordance with Administrative Code Chapter 29.
6. **Where applicable, maximize State contributions to project areas through matching City contributions.** IFD law authorizes the allocation of the State's share of property tax increment to certain Port project areas in proportion to the City's allocation of tax increment to the Port project area to assist in financing specified Port public facilities, such as historic preservation at Pier 70 and the Port's new James R. Herman Cruise Terminal at Pier 27. When an allocation of the State's share of property tax increment to a Port project area is authorized under IFD law, the City will allocate to the waterfront district the amount of tax increment from the project area that will maximize the amount of the State's tax increment that is available to fund authorized public facilities. To do so, the City would budget up to \$0.90 per property tax dollar (i.e., the sum of \$0.65 of tax increment allocated by the City to the waterfront district from the project area and the State's share of tax increment), until the earlier to occur of: (a) full financing of the authorized public facilities by tax increment; or (b) the allocation to the waterfront district of the full amount of tax increment from the project area authorized under the approved infrastructure financing plan.
7. **Determine the amount of tax increment to be allocated to the waterfront district from a project area in relation to project economics.** The City will consider approving infrastructure financing plans for Port project areas that provide for allocations of tax increment of up to \$0.65 per property tax dollar, or, where permitted by IFD law, \$0.65 of tax increment so that, in combination with State's share of tax increment, the total allocated is up to \$0.90 per property tax dollar, to fund authorized public facilities necessary for each proposed development project. Each infrastructure financing plan must include projections of the amount of tax increment that will be needed to fund necessary public facilities. The allocation should be sufficient to enable the Port to: (a) obtain fair market rent for Port ground leases after build-out of the project area; and (b) enable proposed development projects to attract private equity. No tax increment will be used to pay a developer's return on equity or other internal profit metric in excess of limits imposed by applicable state and federal law; the IFD law currently measures permissible developer return by reference to a published bond index and both the State Mello-Roos Community Facilities Act and federal tax law require a return that is consistent with industry standards. The Board of Supervisors

in its discretion may allocate additional tax increment to other public facilities serving the waterfront district that require funding.

An approved infrastructure financing plan will state the City's agreement that, for any debt secured by tax increment allocated to the waterfront district from a project area to finance authorized public facilities, the City will disburse tax increment to the waterfront district from the project area in amounts sufficient to fund: (a) debt service and debt service coverage for bonds issued under IFD law (IFD Bonds), bonds issued under the Mello-Ross Community Facilities Act of 1982<sup>4</sup> (CFD Bonds), and other forms of indebtedness that the Port is authorized to issue to fund public facilities authorized to be financed in the infrastructure financing plan to the extent not funded by special tax levies; and (b) costs of administration and authorized public facilities on a pay-as-you-go basis.

8. **Use excess tax increment for citywide purposes.** Tax increment not required to fund eligible project-specific public facilities will be allocated to the City's General Fund or to improvements to the City's seawall and other measures to protect the City against sea level rise or other foreseeable risks to the City's waterfront.
9. **Port Capital Budget.** If the Port issues Port revenue bonds (instead of CFD Bonds or IFD Bonds) to be repaid by tax increment revenue generated in one or more Port project areas, to further the purposes Port Commission Resolution No. 12-22 adopting the Port's Policy for Funding Capital Budget Expenditures, the Port will include annually in its Capital Budget any tax increment revenue allocated to the waterfront district from the project area to provide debt service coverage on any Port revenue bond debt payable from tax increment.
10. **Require each project area infrastructure financing plan to identify sources of funding to construct, operate, and maintain public facilities financed by project area tax increment.** Tax increment will be allocated to the waterfront district from a project area under a project area infrastructure financing plan only if the Port has identified anticipated sources of funding to construct, operate, and maintain any public facilities to be financed with project area tax increment. Examples of acceptable sources for operation and maintenance are: (a) private financing mechanisms, such as a homeowners association assessment; (b) a supplemental special tax levied by a community facilities district formed under the Mello-Ross Act or assessments levied by a community benefits district; and (c) the Port's maintenance budget or other allocation of the Port Harbor Fund.

#### **Strategic Criteria**

- **Use Port IFD financing for public facilities serving Port land where other Port moneys are insufficient.** Port IFD financing should be used to finance public facilities serving Port land when the Port does not otherwise have sufficient funds.
- **Use Port IFD financing to leverage non-City resources.** Port IFD financing should be used to leverage additional regional, state, and federal funds. For example, IFD funds may prove instrumental in securing matching federal or state dollars for transportation projects.
- **Continue the Port's "best-practices" citizen participation procedures to help establish priorities for public facilities serving Port land.** Continue to use the Port's "best-practices" citizen participation procedures to: (a) establish community and municipal priorities for construction of infrastructure serving Port land; and (b) ensure that

---

<sup>4</sup> Gov. Code §§ 553311-53368.3 (Mello-Ross Act).

infrastructure financing plans for Port project areas provide financing to help the Port and the City meet those priorities.

- **The Port, the Mayor's Budget Office, and the Controller should collaborate to conduct periodic nexus studies.** No less than every ten years, the Port, the Mayor's Budget Office, and the Controller should collaborate on a nexus study. The nexus analysis will examine whether the cost of basic municipal services provided to Port property, such as services provided by the Fire and Police Departments, is covered by the sum of: (a) the portion of property taxes the City receives from Port land that is not allocated to the waterfront district; (b) hotel, sales, payroll or gross receipts, and any other taxes the City receives from Port land; and (c) any other revenues that the City receives from Port land.

# **CITY POLICY FOR PORT IFD**

## **BOARD OF SUPERVISORS BUDGET COMMITTEE**

791

## INFRASTRUCTURE FINANCING DISTRICTS

- A city or county may form an Infrastructure Financing District (technically a separate political subdivision) to finance public improvements like new **streets, utility infrastructure and parks.**
- The method of financing – *tax increment* – is similar to redevelopment, where growth in property taxes may be captured for periods of up to 45 years, except that in most cases, **only local property tax may be captured.**
- Tax increment may be used to pay for infrastructure via the sale of bonds, or on a pay-as-you go basis.
- Port IFDs are structured to provide different types of public benefits than redevelopment, which focused on affordable housing. By state law, **20% of the Port IFD tax increment must be spent on parks, Bay access and fill removal and environmental remediation.**

# PORT 10 YEAR CAPITAL PLAN

## IFD LEGISLATIVE EFFORTS

- **SB 1085 (2005)** – Authorized the Board of Supervisors to form Infrastructure Financing Districts along Port of San Francisco property
- **AB 1199 (2010)** – Pier 70 State Share of Tax Increment
- **AB 664 & AB 2259 (2012)** – 34<sup>th</sup> America's Cup IFD State Share of Tax Increment

# PROPOSED PORT IFD POLICY

## Nexus Analysis

- Charter and the Burton Act established Port Harbor Fund
- 2004 and 2008 nexus analysis (taxes and revenues from Port vs. cost of City services)
- Taxes generated from Port property are sufficient to pay for City services on leased property and the workorder budget supports services on unleased property.
- **Principle:** General Fund should not subsidize City services for unleased Port property, and the Harbor Fund should not pay for City services on leased property.

---

## **PORTWIDE IFD**

- **Waterfront project areas for each project**
- **Eligible uses:**
  - Piers, docks, wharves & aprons
  - Installation of piles
  - Seismic upgrades
  - Utility infrastructure
  - Streets and sidewalks
  - Parks and Bay access
  - Fill removal
  - Environmental remediation
  - Historic rehabilitation
  - Seawall and sea level rise
  - Port maritime facilities

## **PROPOSED PORT IFD POLICY**

1. **Port land.** Districts formed on Port property.
2. **Annexing Non-Port Land.** Case-by-case policy decision about applying existing City IFD Guidelines.
3. **CEQA.** Conduct CEQA prior to adopting an Infrastructure Financing Plan.
4. **Priority of Improvements.** Consistent with: IFD law, Waterfront Plan, public trust and Capital Plan.
5. **Economic Benefit and General Fund Impact.** Results in total net revenue to General Fund, jobs and other economic development benefits.
6. **State and City matching contributions.** Maximize use of local increment to leverage the maximum available State share.

## **PROPOSED PORT IFD POLICY**

- 7. Amount of increment allocated.** Up to **\$0.65 per property tax dollar**, or, where permitted by State law, **up to \$0.90 per property tax dollar**, until the costs of required infrastructure are fully paid or reimbursed. No increment will be used to pay a developer's return, except as permitted by law.
- 8. Excess increment.** To the City's General Fund or to improvements to the City's seawall or to address sea level rise.
- 9. Port Annual Capital Program.** If the Port issues revenue bonds, debt service coverage to Port Capital Program.
- 10. Funding for Infrastructure Maintenance.** Identify source to maintain improvements.

## **PORT IFD FORMATION**

- Resolution 110-12 – “City and County of San Francisco Infrastructure Financing District No. 2 (Port of San Francisco)”
- City staff will develop an Infrastructure Finance Plan (“IFP”) which will include a separate “IFP appendix” for each project
- Port, DPW, SFPUC review of horizontal infrastructure proposals and third-party cost estimates
- Mechanisms to ensure a fair infrastructure price (e.g., GMP contracts)
- CPC recommendation to full BOS regarding each IFP appendix

## **STRATEGIC CRITERIA & NEXUS**

1. Use IFDs where other Port moneys are insufficient.
2. Use IFDs strategically to leverage non-City resources.
3. Continue the “best-practices” citizen participation procedures used to help City agencies prioritize implementation.

Conduct periodic nexus analysis every ten years to review net economic benefits to City. What are the costs of City services to the proposed development vs. general taxes (net of tax increment)?

# MAJOR WATERFRONT PROJECTS<sup>1</sup>

- **SWL 337 & Pier 48**

3.6 million sf of mixed use development, est. all-in cost of \$1.47 billion  
\$341 million in tax increment captured to service debt (12.5% of total generated over 75 year term)

- **Pier 70 Waterfront Site<sup>2</sup>**

> 3.5 million sf of mixed use development, est. all-in cost of \$1.76 billion

- **Piers 30-32 and SWL 330**

~2 million sf of mixed use development, est. cost of \$875-975 million

**Notes:**

- 1 Figures for all development projects (sf of development, cost estimates and financial projections are conceptual, pre-entitlement projections).
- 2 The Port proposes to form a broader infrastructure financing district project area over all of Pier 70 (69 acres). The Waterfront Site is 25 acres.

# **SWL 337 FISCAL IMPACT**

**BASED ON CHAPTER 29 FISCAL FEASIBILITY REPORT  
PROJECTION IS SUBJECT TO REFINEMENT**

- Net Fiscal Benefit to CCSF
  - \$13 million tax and dedicated revenue
  - \$2.5 million Police, Fire and DPW costs
  - = \$10.5 million annual fiscal benefit
- While SFMTA is projected to receive \$1.7 million of this amount, the full costs of SFMTA service to the site will be further analyzed during CEQA and SFMTA's related planning studies
- After IFD pays for eligible infrastructure costs, the project will generate \$8 million annually (in 2013 dollars) which the Board may allocate to the City's seawall or for General Fund purposes.

## SWL 337 & PIER 48: COSTS FOR PARKS, STREETS, HISTORIC REHAB, UTILITIES AND SITE WORK

| PHASE        | COMPONENT        | UNINFLATED COSTS     | INFLATED COSTS<br>(3%) | START<br>YEAR |
|--------------|------------------|----------------------|------------------------|---------------|
| Entitlements | Entitlements     | \$20,000,000         | \$20,000,000           | 2012          |
| Phase 1      | Parcels A, B & C | \$18,390,613         | \$21,523,162           | 2017          |
| Phase 1a     | Parcel D Garage  | \$5,216,622          | \$6,164,578            | 2017          |
| Phase 2      | Parcels G & K    | \$31,832,900         | \$38,227,462           | 2018          |
| Phase 3      | Parcels E & F    | \$17,362,012         | \$21,364,776           | 2019          |
| Phase 4      | Parcels H, I & J | \$14,687,489         | \$18,441,259           | 2020          |
| <b>Total</b> |                  | <b>\$107,489,636</b> | <b>\$125,721,237</b>   |               |

### Notes:

- Costs presented in 2012 USD.
- Phase 4 also includes projected costs for Pier 48 of \$22,050,000 (\$28,428,311 inflated), paid through tenant-funded capital improvements and project IFD proceeds.
- Total = hard costs + 10% contingency + 25% soft costs.

803

# Pier 70 Waterfront Site

## Total Infrastructure & Site Conditions Costs

| Type of Infrastructure | Est. Cost            |
|------------------------|----------------------|
| Entitlements           | \$21,000,000         |
| Roads and Utilities    | \$38,856,000         |
| Site Preparation       | \$27,837,000         |
| Seacant Wall           | \$23,413,000         |
| Open Space             | \$28,894,000         |
| Site Remediation       | \$11,452,000         |
| Off-site Improvements  | \$26,894,000         |
| <b>Total</b>           | <b>\$178,346,000</b> |

### Notes:

- Costs presented in 2012 USD.
- Does not include approximately \$90 million in historic building rehab work, net costs of which (after federal historic tax credits and building revenues) will be eligible for IFD reimbursement.

# WARRIORS: FISCAL FEASIBILITY & COSTS

## 1. Direct & indirect economic benefits of the project

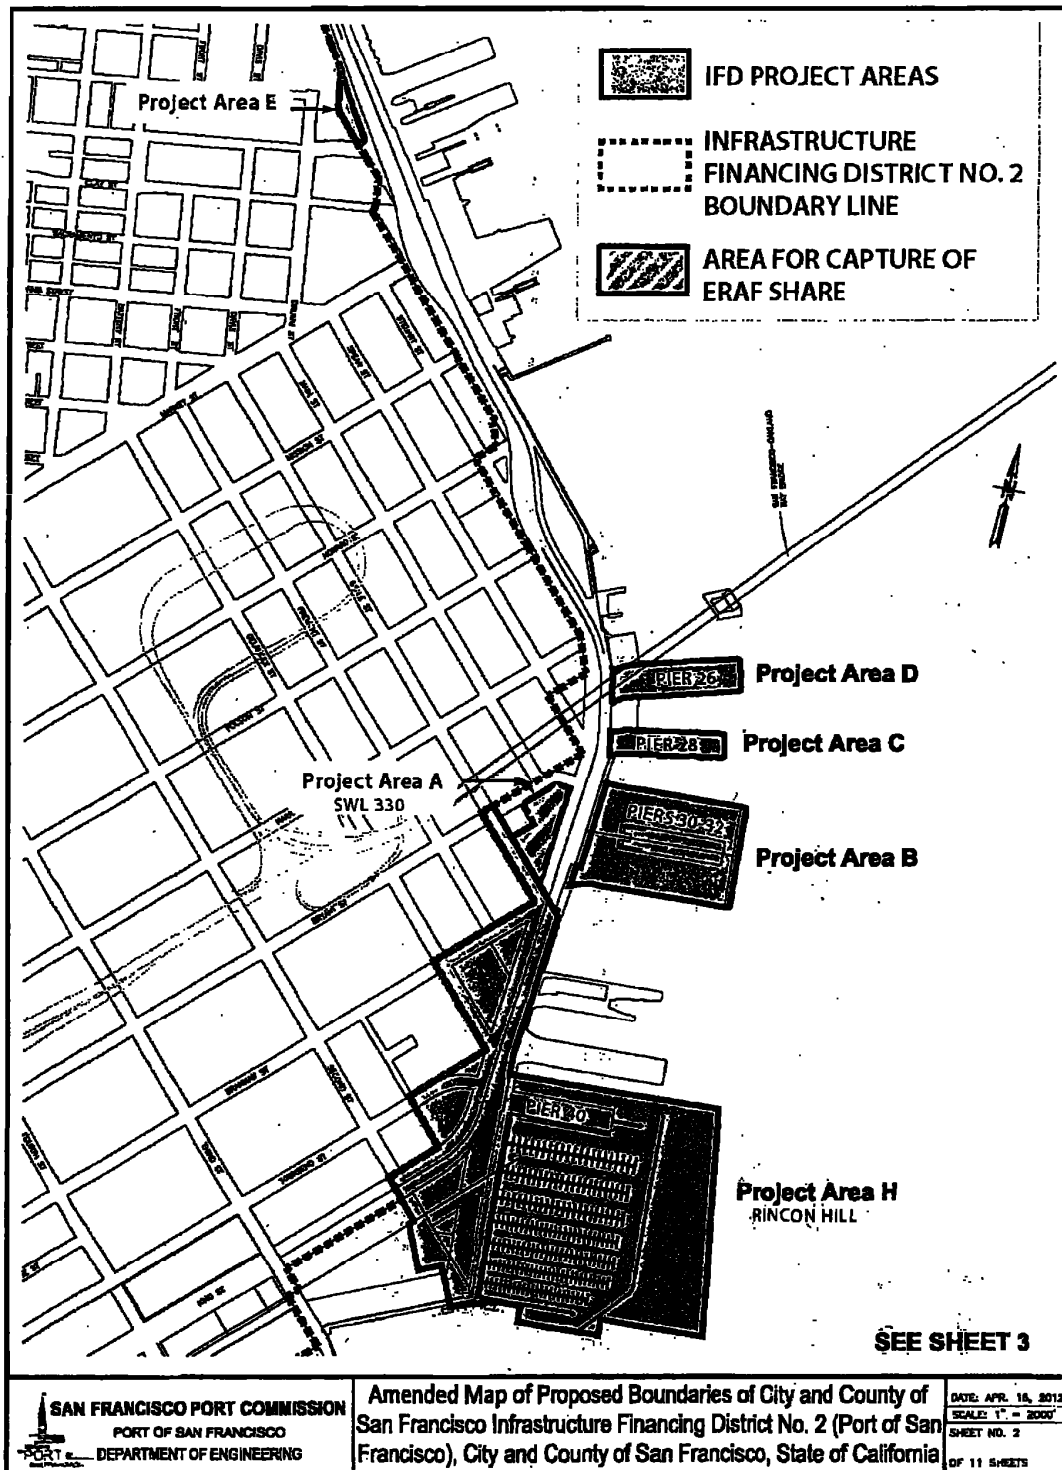

- City Revenue: \$19.4M (inc. tax increment)/ \$53.8M (one-time)
- Visitor Spending: \$60M/year
- Jobs: 2,623 (construction) / 1,757 (permanent)

## 2. Construction costs: \$875-975M (hard & soft costs)

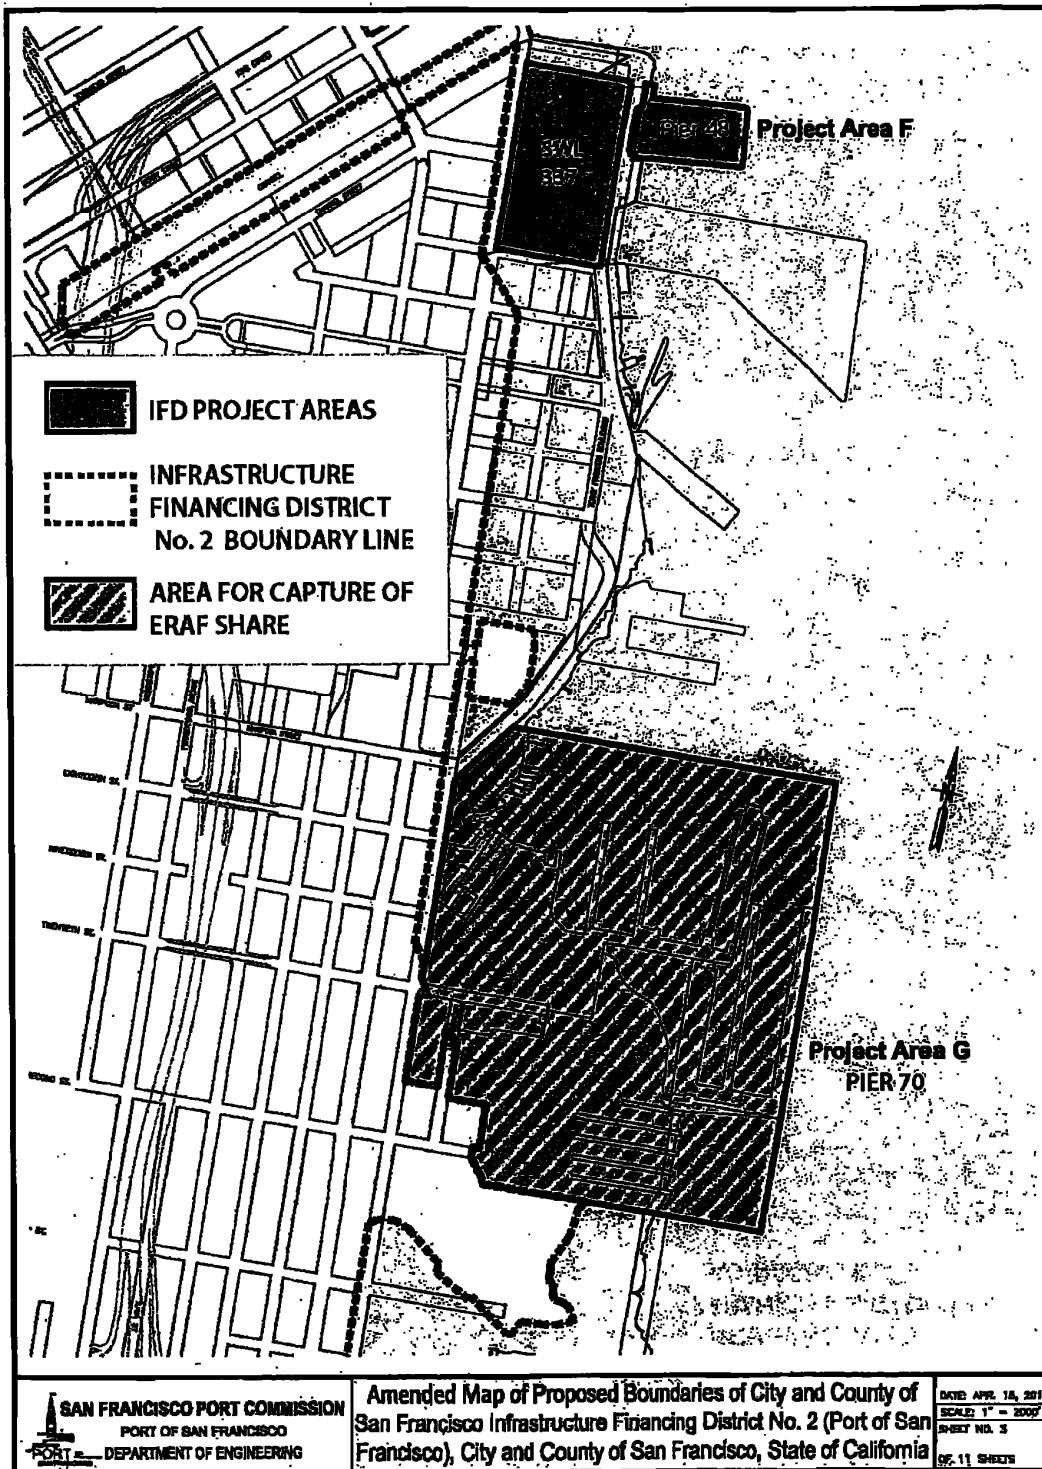

- City will reimburse Warriors for agreed improvements to Piers 30-32 capped at \$120 M
- Reimbursement from 3 sources: Piers 30-32 Rent Credits, Sale Price of SWL 330, IFD

## **I. EXECUTIVE SUMMARY**

The fiscal impact analysis presented in this report has been prepared to meet the requirements of Section 53395.8 (g) (3) (C) (vii) of the California Government Code relating to the formation of Project Area I and the addition of Sub-Project Areas I-1 through I-13 to the City and County of San Francisco Infrastructure Financing District No. 2. The boundaries of Project Area I encompass the boundaries of the proposed Mission Rock Project ("the Project"). For purposes of this analysis, the term "District" means the aggregate sum of Sub-Project Area I-1 through I-13. The analysis addresses the following:

"The costs to San Francisco for providing facilities and services to the District while the District is being developed and after the district is developed, and of the taxes, fees, charges, and other revenues expected to be received by San Francisco as a result of expected development in the district."

The Project is anticipated to be comprised of the following components<sup>1</sup>:

- Over 8 acres of parks and open space;
- 1,327 rental residential apartments, of which 40% will be affordable to households earning less than 150% of the Area Median Income<sup>2</sup>,
- 248,931 square feet of retail;
- 1.7 million square feet of office, retail, and production space; and
- 983,876 square feet of structured parking.

Completion and full occupancy of the Project is anticipated by FY 2026/27. Upon buildout, the Project's service population is projected to reach 2,999 residents and 5,084 employees.

The analysis reflects the anticipated development program and phasing schedule provided by project sponsors in October 2017, as well as current fiscal information derived from the City and County of San Francisco (CCSF) FY 2017/18 Budget and Appropriation Ordinance.

Each Sub-Project area will receive tax increment for 45 years from the date that the such Sub-Project Area receives \$100,000 in incremental tax revenues under the IFD Law. This fiscal analysis evaluates the impacts of the entire Project from FY 2018/19 through FY 2072/73 which is the projected termination date of the last Sub-Project Area.

---

<sup>1</sup> The development program analyzed in this fiscal analysis represents the Developer's current estimates. The actual program may differ from this projection.

<sup>2</sup> The distribution of affordable residential units is as follows:

|                          |                            |
|--------------------------|----------------------------|
| • Market Rate units: 801 | • 90% AMI units: 50        |
| • 45% AMI units: 27      | • 120% AMI units: 228; and |
| • 55% AMI units: 131     | • 150% AMI units: 90       |

The analysis evaluates the cumulative and annual fiscal impacts to the CCSF General Fund. In accordance with the terms of the draft Disposition and Development Agreement between the Port and Seawall Lot 337 Associates, LLC ("Developer"), this analysis assumes that:

- 100% of the City's share of tax increment (64.59% of every dollar of gross tax increment) will be allocated from the General Fund to the IFD to fund eligible facilities; and
- The maintenance of all of the Project's public facilities, including the parks, open space, plazas, and public right of way, will be funded by a Community Facility District (CFD) and/or other exaction on property owners. Maintenance will not be funded by the CCSF General Fund.

### Net Fiscal impacts to the General Fund

The Project is anticipated to generate a surplus to the City's General Fund during each and every year, from construction through the anticipated termination of the IFD in FY 2072/73. The cumulative surplus to the City's General Fund from FY 2017/18 through FY 2072/73 will total approximately \$750.9 million in nominal dollars or \$288.6 million in current (2017) dollars. Net of transfers from the General Fund pursuant to the City Charter and policies, the cumulative surplus to the General Fund is estimated to total \$402.3 million in nominal dollars or \$156.9 million in current (2017) dollars.

Upon stabilization in FY 2028/29, the Project is estimated to generate an annual surplus of \$8.0 million in nominal dollars or \$5.7 million in current (2017) dollars. After accounting for City Charter and policy transfers, the annual surplus upon stabilization is estimated at \$4.3 million in nominal dollars or \$3.1 million in current (2017) dollars. The Project is anticipated to generate an annual General Fund surplus throughout the study period.

\* Includes annual recurring and construction-related revenues

## II. INTRODUCTION

The fiscal impact analysis presented in this report has been prepared to meet the requirements of Section 53395.8 (g) (3) (C) (vii) of the California Government Code relating to the formation of Project Area I and the addition of Sub-Project Areas I-1 through I-13 to the City and County of San Francisco Infrastructure Financing District No. 2. The boundaries of Project Area I encompass the boundaries of the proposed Mission Rock Project ("the Project"). For purposes of this analysis, the term "District" means the aggregate sum of Sub-Project Area I-1 through I-13. The analysis addresses the following:

"The costs to San Francisco for providing facilities and services to the District while the District is being developed and after the district is developed, and of the taxes, fees, charges, and other revenues expected to be received by San Francisco as a result of expected development in the district."

### A. Project Description

The Project consists of the development of a mixed use community on SWL 337 and Pier 48 to be undertaken by Seawall Lot 337 Associates, LLC as the Master Developer and additional developers to construct vertical improvements. The Project will also contain over eight (8) acres of Community Facilities District- maintained parks and open space, among other community amenities. Full occupancy of the Project is anticipated by FY 2026/27. Exhibit 2 summarizes the anticipated development program<sup>3</sup>.

| Exhibit 2 – Development Program |               |            |           |       |  |
|---------------------------------|---------------|------------|-----------|-------|--|

| Production                      |               |            | 202,500   | Sq Ft |  |
| Total Excluding Parking         |               |            | 1,682,522 | Sq Ft |  |
| Parking                         |               |            | 983,876   | Sq Ft |  |
| Total Including Parking         |               |            | 2,666,398 | Sq Ft |  |

### B. Service Population

In accordance with the Project's Draft EIR, the Project's population is projected to reach 2,999 residents and 5,084 employees (Exhibit 3), with an average household size of 2.35 (Appendix

<sup>3</sup> The development program analyzed in this fiscal analysis represents the Developer's current estimates. The actual program may differ from this projection.

Table C2). For purposes of this analysis, the service population is equivalent to the sum of the resident and the half of the employee population (day and evening population).

### C. Approach and Key Assumptions

The subject analysis evaluates the marginal impacts of the Project on the CCSF General Fund. The time horizon of the analysis extends from FY 2017/18 through FY 2072/73, which encompasses the full construction period and the anticipated duration of the IFD.

The fiscal impacts are presented net of General Fund tax increment to be diverted to the IFD. The analysis reflects the diversion of 100% of the General Fund's 64.59% share of gross property tax increment.

Pursuant to the City's charter and adopted policies, this analysis measures General Fund revenues before and after transfers to the San Francisco Municipal Transportation Agency (MTA) Fund, Children's Services Fund and Library Preservation Fund. The baseline revenue transfers reflected in the analysis are as follows:

- MTA Fund – 9.19% of General Fund Aggregate Discretionary Revenue (ADR)
- Library Preservation Fund – 2.29% of ADR
- Children's Services Fund – 8.76% of ADR

Projections contained in the subject analysis reflect the Developer's anticipated development and absorption schedule. Projected revenues and costs are based on a combination of Project-specific information and average per capita factors derived from the City's budget. Project-specific information includes anticipated development costs, the estimated value of improved

land to be transferred to vertical builders, estimated gross receipts, estimated rental rates for completed buildings and parking, and the number of additional police and fire staff that will be required to meet the Project's residents and employees (which have been determined by the Project's Draft EIR). Projected utility user revenues, licenses, permits and franchise fees, community health expenditures, human welfare, culture and recreation, and general administration and finance department expenses are based on current per capita revenues/expenses applied to the Project's projected population and employment (as shown on Exhibit 3). Given that public facility maintenance costs will be funded by property owners, the Project will not generate any costs to the City's public works department.

With the exception of property-based revenues, revenue and service cost factors are assumed to increase at an annual rate of 3% per year. Assessed property values reflect the sum of the estimated value of land to be conveyed to vertical builders and estimated development costs of vertical improvements. For purposes of this analysis, assessed values are conservatively assumed to increase at the Proposition 13 statutory rate of 2% per year.

Annual projections contained in the attached tables are presented in nominal (inflated) dollars, unless otherwise noted. Current (2017) dollar figures are calculated based on a 3% per year discount rate and are included in summary tables for comparison purposes.

### III. FISCAL IMPACTS

#### A. Summary of Net Fiscal Impacts to the General Fund

Exhibits 4 and 5 and Table A1 (attached) present the revenue and service cost impacts of the Project to the CCSF General Fund after the diversion of tax increment to each Sub-Project Area.

The Project is anticipated to generate a cumulative surplus to the City's General Fund of \$288.6 million (2017\$) before General Fund transfers or \$156.9 million after transfers (2017\$). Upon stabilization in FY 2028/29, the annual surplus is estimated to total \$5.7 million before General Fund transfers or \$3.1 million after transfers. The Project is expected to generate an annual surplus to the General Fund during each and every year of the projection, from construction through the termination of the IFD.

| Exhibit 4 – Summary of General Fund Fiscal Impacts |                                       |                |                               |              |

Exhibit 5 – Cumulative General Fund Impacts After Transfers (\$2017 millions)

## B. General Fund Revenues

Exhibits 6 through 8 and Tables A1 and A2 (attached) summarize the sources of General Fund revenues to be generated by the Project. Detailed assumptions are provided on Table A2 through A10, and Appendix B and C.

### 1. Recurring Revenues

Cumulative recurring General Fund revenues are estimated to total \$598.8 million (2017\$). Upon stabilization, the Project is estimated to generate approximately \$12.1 million in annual General Fund revenues (2017\$). Gross Receipts tax revenues are expected to be the leading category accounting for 57% of all General Fund revenue to be generated by the Project, followed by property taxes in lieu of motor vehicle license fee revenues at 16%, and sales and use tax revenues at 13%.

| Exhibit 6 – Recurring General Fund Revenues, Before Transfers |                                       |                  |                               |               |             |

**Exhibit 7 – Recurring Revenues by Source in Stabilized Year FY 2027/28**

**2. One-Time Construction Revenues**

In addition to recurring revenues, the Project will generate one-time, construction-related revenues totaling \$11.3 million (2017\$) through buildout (Exhibit 8). Sales and Use tax revenues account for 31% of revenues, and Gross receipts tax account for 69% of the total revenue.

| Exhibit 8 – Construction-Related Revenues, Before Transfers |                         |               |             |
|---|-------------------------|---------------|-------------|
| General Fund Revenues<br>(Construction-Related)             | Cumulative              |               | % Share     |

| Sales and Use Tax   | \$3.4                   | \$4.0         | 31%         |
| Gross Receipts Tax  | <u>\$7.8</u>            | <u>\$9.0</u>  | <u>69%</u>  |
| Total Construction Revenues                                 | <b>\$11.3</b>           | <b>\$12.9</b> | <b>100%</b> |

**3. Property Tax In-Lieu of Motor Vehicle License Fees (VLF) Revenues**

Pursuant to SB 1096, the City receives subvention revenues from the State in the form of an allocation of property tax revenues to replace a large portion of the motor vehicle license fee revenues that were distributed proportionate to population prior to the adoption of the legislation in 2004. These subvention payments are based on the growth in assessed value relative to the Citywide assessed value as of 2004/05. Under the State's formula, the City receives \$1.07 per \$1,000 of growth in assessed property values. Revenue from the Project is based on the Project's contribution to growth in assessed values (Tables A1, A2, and A3).

#### **4. Sales and Use Tax Revenues**

The CCSF General Fund receives 1% of taxable sales. Recurring sales tax revenues will be generated from on-site retail sales and through spending by Project residents and employees within the City. Construction-related sales tax revenues comprise business-to-business sales generated from the purchase of construction materials. Specific sales tax assumptions by source are summarized below:

- *Retailer-generated:* Taxable sales to be generated by on-site retailers have been estimated based on an average taxable sales productivity of \$400 per rentable square foot, with 75% of retail space being taxable. Retail employees are estimated to spend \$47 per week on taxable merchandise. Off-site sales have been reduced by 10% to avoid double-counting of on-site employee expenditures (Tables A4, A4.1, and A4.2).
- *Office-generated:* Office tenants are estimated to generate taxable sales averaging \$25 per rentable square foot. Office employees are estimated to generate taxable sales of \$72 per week. Off-site sales have been reduced by 10% to avoid double-counting of on-site employee expenditures (Tables A4, A4.1, and A4.2).
- *Resident-generated:* Taxable sales to be generated by new residents have been estimated based on the level of household income required to support the anticipated apartment rental rates and consumer expenditure data published by the Bureau of Labor Statistics and California Department of Housing and Community Development (Tables C3, A4, and A4.1).
- *Construction-generated:* Use tax revenues to be generated by construction contractors are estimated based on development costs provided by the Developer and typical relationships between "hard" and "soft" development costs and material and labor costs. The revenue estimate reflects the assumption that San Francisco is designated as the point of sale by the general and sub-contractors for 50% of materials purchased for the construction of the Project (Tables B3.3, A4, A4.2).

#### **5. Gross Receipts Tax Revenues**

Per the San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax, the tax rate varies by business type and by the amount of gross receipts generated. Businesses generating less than \$1 million each year in gross receipts are exempt from the tax.

Average retail, office and production gross receipts are based on industry standard productivity levels. Rental and leasing gross receipts are based on the Developer's estimates of rental income. Tax rates have been estimated for the Project's businesses by estimating a range of industry categories. The assumed types and numbers of businesses are provided in Table B1 (Tables B1, and A5). Gross receipts tax revenues have also been calculated for construction activities, based on the development budget for horizontal infrastructure costs, vertical development costs and softs costs. (Table A5.1)

## **6. Business Registration Fee Revenues**

Per the San Francisco Business and Tax Regulations Code, Article 12: Business Registration, the business registration fee is charged by tier based on the level of gross receipts generated. Average gross receipts for office, retail and hotel businesses used to determine applicable fee rates are consistent with gross receipts tax estimating assumptions (Tables A6, and B1).

## **7. Net New General Fund Parking Tax Revenues**

The City and County of San Francisco imposes a 25% tax on rental income derived from parking for non-residential uses. In accordance with the City's policies, 20% of parking tax proceeds is allocated to the General Fund and 80% is transferred for specified uses. For purposes of this analysis, parking tax revenues have been calculated net of revenues that are currently generated from the site. Future parking revenues are based on the Developer's projection.

## **8. Utility Users Tax Revenues**

The City and County of San Francisco imposes a 7.5% tax on charges for certain utilities services. These include non-residential electricity, natural gas, steam, and water services, and both residential and non-residential telephone and cellular telephone services. For purposes of this analysis, the utility users tax has been estimated based on CCSF budget factors for FY 2017/18. The budget factors have been calculated on a per employee or per persons served basis for electricity, natural gas, steam, and water taxes, and on a per service population basis for telephone services (Tables A8).

## **9. Access Line Tax Revenues**

Access line taxes are levied against residential and commercial users. For purposes of this analysis, the access tax is estimated based on CCSF budget factors for FY 2017/18. The budget factors have been calculated on a per service population basis. Based on the City's 2017/18 budget, access line tax revenues total approximately \$41.25 per resident/employee (Tables A8).

## **10. Licenses, Permits and Franchise Fees and Fines, Forfeitures and Penalties**

Licenses, permits, and franchise fees, and fines, forfeitures, and penalties are estimated based on CCSF budget factors for FY 2017/18. The budget factors have been calculated on a per service population basis. Based on the City's 2017/18 budget, Licenses, Permits and Franchise Fees revenues total approximately \$25.59 per resident/employee; Fines and Forfeitures revenues are \$3.91 per resident/employee (Table A8).

### C. General Fund Expenses

Exhibits 9 and 10, Tables A1 and A9 provide information on the expense impacts of the Project on the CCSF General Fund after the expected diversion of tax increment to the sub-project areas of the IFD.

Cumulative General Fund expenses are estimated to total \$321.5 million (2017\$). The Project is estimated to generate approximately \$6.4 million in General Fund expenditures in stabilized year FY 2028/29 (2017\$). Exhibit 10 illustrates the distribution of recurring General Fund expenditures in the stabilized year. Police Services are expected to be the leading expense category, accounting for 48% of the cost to the General Fund, followed by Fire Protection at 22%, and Community Health at 10%.

| <b>Exhibit 9 – General Fund Expenditures</b>           |   |                  |                                       |                  |                    |

| Other Public Protection                                | \$24.3  | \$65.3           | \$0.5                                 | \$0.7            | 8%                 |
| Community Health                                       | \$31.0  | \$83.2           | \$0.6                                 | \$0.9            | 10%                |
| Human Welfare and Neigh. Dev.                          | \$19.3  | \$51.8           | \$0.4                                 | \$0.5            | 6%                 |
| Culture and Recreation                                 | \$8.6   | \$23.1           | \$0.2                                 | \$0.2            | 3%                 |
| <b>Total</b>   | <b>\$321.5</b>                                | <b>\$862.6</b>   | <b>\$6.4</b>                          | <b>\$8.8</b>     | <b>100%</b>        |

**Exhibit 10 – Expenditures by Source in Stabilized Year FY 2027/28**

### **1. Police Department Expenditures**

In accordance with the Draft EIR, police department expenditures are based on a service level of 2.01 sworn officers per 1,000 residents and employees.. The Project's on-site population and employment is anticipated to require 16 officers upon buildout. The average cost per officer is assumed to be \$189,000 based on the "Pier 70 Fiscal and Economic Analysis Update", August 31, 2017. (Tables A10).

### **2. Fire Department Expenditures**

In accordance with the Draft EIR, fire department expenditures are based on a service level of 0.96 fire department personnel per 1,000 residents and employees. The Project's on-site population and employment is anticipated to require 8 officers upon buildout. The average cost per new personnel is \$178,329 based on the "Pier 70 Fiscal and Economic Analysis Update", August 31, 2017. (Tables A10).

### **3. Public Works**

Per the City's agreement with the Developer, the maintenance costs of all of the Project's public facilities will be funded through a privately funded CFD. Therefore, the Project will not generate any additional cost to the City's General Fund.

#### **4. Community Health**

Community health department expenses have been estimated based on the CCSF budget. Cost estimates reflect a cost of \$202.62 per resident. (Table A9).

#### **5. Human Welfare and Neigh. Dev.**

Human welfare and neighborhood development department expenses have been estimated based on the CCSF budget. Cost estimates reflect a cost of \$128.03 per resident. (Table A9).

#### **6. Other Public Protection**

Other Public Protection expenses have been estimated based on the CCSF budget. Cost estimates reflect a cost of \$87.30 per person served. (Table A9).

#### **7. General Administration and Finance**

General Administration and Finance department expenses have been estimated based on the CCSF budget. Cost estimates reflect a cost of \$50.18 per person served. (Table A9).

#### **8. Culture and Recreation**

Culture and Recreation department expenses have been estimated based on the CCSF budget. Cost estimates reflect a cost of \$57.17 per resident (Table A9). A service CFD will be established to fund the ongoing maintenance costs of the projects public parks, and open space.

#### **D. Summary of General Fund Revenues Transfers to Other Funds**

Under current City policies, approximately 20% of aggregate discretionary revenues (ADR) are transferred from the General Fund to the San Francisco Municipal Transportation Agency (SFMTA), Library Preservation and Children's Services Funds, as detailed on Exhibit 11.

| Exhibit 11 – General Fund Set-Asides |             |        |
|--------------------------------------|-------------|--------|
| Fund                                 | Set-Aside % |        |
| MTA*                                 | 9.19%       | of ADR |
| Library Preservation                 | 2.29%       | of ADR |
| Children's Services                  | 8.76%       | of ADR |

\* Baseline transfer only. ADR = Aggregate General Fund Discretionary Revenues

The cumulative transfer over the aggregate life of the IFD is anticipated to total \$131.7 million (2017\$) through FY2072/73 (Exhibit 12). The annual transfer upon stabilization of the Project in FY 2028/29 is anticipated to be \$2.6 million (2017\$).

\* Numbers may be slightly different because of rounded numbers.

### 1. SFMTA Revenues

Transfers to the SFMTA Fund over the life of the IFD are anticipated to total \$56.1 million (2017\$). (Table A1, and A2).

### 2. Library Preservation Fund

Transfers to the Library Preservation Fund are anticipated to total \$13.9 million (2017\$). (Table A1, and A2).

### 3. Children's Services Fund Revenues

Transfers to the Children's Services Fund are anticipated to total \$53.4 million (2017\$). (Table A1, and A2)

### 4. Licenses, Permits, Fines, Franchise Fees

It is our understanding that licenses, permits, fines and franchise fee revenues are transferred from the General Fund to be used for specific purposes. The Project is anticipated to generate a total of \$8.2 million (2017\$). (Table A1, and A2).

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax; non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[1] NMA assumptions.

[2] Based on taxable food and goods and services spending for urban workers as reported in the ICSC report, "Office Worker Retail Spending in a Digital Age" (2012). Retail worker spending based on Table B2-B, assumes retail workers earning \$75,000 to \$105,000 will spend similarly to office workers earning in the same range. Office worker spending based on average for urban office workers.

[1] RMA assumptions.

[2] Based on taxable food and goods and services spending for urban workers as reported in the ICSC report, "Office-Worker Retail Spending in a Digital Age" (2012). Retail worker spending based on Table B1.6; assumes retail workers earning \$25,000 to \$30,000 will spend similarly to office workers earning in the same range. Office worker spending based on average for urban office workers.

[1] KMA assumptions.

[2] Based on taxable food and goods and services spending for urban workers as reported in the ICRC report, "Office Worker Retail Spending in a Digital Age" (2012). Retail worker spending based on Table B0-4 - assumes retail workers earning \$71,000 to \$35,000 will spend similarly to office workers earning in the same range. Office worker spending based on average for urban office workers.

[1] RMA assumptions.

[2] Mixed use taxable land use growth and services spending for urban workers as reported in the CSC report, "Office-Worker Retail Spending - a Digital Age" [10]. Retail worker spending based on Table B3.4, assumes retail workers earning \$25,000 to \$35,000 will spend similarly to other workers earning in the same range. Office worker spending based on average for urban office workers.

[1] The assumptions are from LRA.

[2] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance: Retail, Wholesale, and Services Rate for \$2.5 to \$25 M.

[3] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance: Financial, Insurance, Professional, Scientific Rate for \$2.5 to \$25 M.

[4] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance: Real Estate, Rental, Leasing Services Rate for \$5 to \$25 M, and over \$25 M.

[5] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance: Financial, Insurance, Professional, Scientific Rate for over \$25 M.

[6] NAMA's assumption: 4.76 employees per 1,000 SF (office), 1 employee per 1,000 SF (production).

[7] Smaller tenants and small tenants are excluded since their gross receipts do not exceed \$1,000,000 per business. The sales per business of smaller tenants =  $4000 \times 1.5005F = \$1,000,000$ ; the sales per business of small tenants =  $4000 \times 1.5005F = \$600,000$ .

[8] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance: Manufacturing, Transportation and Warehousing Rate for \$2.5 M to \$25 M.

[1] The assumptions are from GPS.

[2] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Retail, Wholesale, and Services Rate for \$2.5 to \$25 M.

[3] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Financial, Insurance, Professional, Scientific Rate for \$2.5 to \$25 M.

[4] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Real Estate, Rental, Leasing Services Rate for \$5 to \$25 M, and over \$25 M.

[5] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Financial, Insurance, Professional, Scientific Rate for over \$25 M.

[6] KMA's assumption: 4.76 employees per 1,000 SF (office), 1 employee per 1,000 SF (production).

[7] Smaller tenants and small tenants are excluded since their gross receipts do not exceed \$1,000,000 per business. The sales per business of small tenants =  $5400 \times 2.5005\% = \$1,000,000$ ; the sales per business of small tenants =  $5400 \times 1.5005\% = \$600,000$ .

[8] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Manufacturing, Transportation and Warehousing Rate for \$2.5 M to \$25 M.

[1] The assumptions are from GPS.

[2] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Retail, Wholesale, and Services Rate for \$2.5 to \$25 M.

[3] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Financial, Insurance, Professional, Scientific Rate for \$2.5 to \$25 M.

[4] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Rental, Leasing Services Rate for \$5 to \$25 M, and over \$25 M.

[5] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Financial, Insurance, Professional, Scientific Rate for over \$25 M.

[6] KMA's assumption: 4.76 employees per 1,000 SF (office), 1 employee per 1,000 SF (production).

[7] Smaller tenants and small tenants are excluded since their gross receipts do not exceed \$1,000,000 per business. The sales per business of smaller tenants = \$400 \* 2,500SF = \$1,000,000; the sales per business of small tenants = \$400 \* 1,500SF = \$600,000.

[8] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Manufacturing, Transportation and Warehousing Rate for \$2.5 M to \$25 M.

[1] The assumptions are from SPS.

[2] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Retail, Wholesale, and Services Rate for \$2.5 to \$25 M.

[3] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Financial, Insurance, Professional, Scientific Rate for \$2.5 to \$25 M.

[4] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Real Estate, Rental, Leasing Services Rate for \$5 to \$25 M, and over \$25 M.

[5] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Financial, Insurance, Professional, Scientific Rate for over \$25 M.

[6] KMA's assumption: 4.76 employees per 1,000 SF (office), 1 employee per 1,000 SF (production).

[7] Smaller tenants and small tenants are excluded since their gross receipts do not exceed \$1,000,000 per business. The sales per business of smaller tenants = \$400 \* 2,500SF = \$1,000,000; the sales per business of small tenants = \$400 \* 1,500SF = \$600,000.

[8] San Francisco Business and Tax Regulations Code, Article 12-A-1: Gross Receipts Tax Ordinance, Manufacturing, Transportation and Warehousing Rate for \$2.5 M to \$25 M.

| Total Gross Receipts Tax                      |                         | \$117,166                                     | \$55,314     | \$270,739    | \$2,787,652   | \$125,326    | \$3,094,177   | \$1,247,266   | \$913,269    | \$347,423    | \$0     | \$0 |

[1] Horizontal costs aggregated per year, based on the horizontal infrastructure budget presented for Mission Rock - Seawall Lot 337 & Pier 48.

[2] Development Area by Land Use by Year presented in Table B3.3, multiplied by hard cost factors presented in Table B3.2

[3] Development Area by Land Use by Year presented in Table B3.3, multiplied by soft cost factors presented in Table B3.2

[4] San Francisco Business and Tax Regulations Code, Article 12-A-1: SEC. 953.5. GROSS RECEIPTS TAX APPLICABLE TO CONSTRUCTION; To calculate the gross receipts on horizontal infrastructure development, costs for respective years were considered as 1 business activity. Similarly, gross receipts on vertical hard and soft development were calculated based on the assumption that costs for respective years and respective land uses make up 1 business activity.

[1] Parking for 3000 spaces will be provided in Parcel D1 and D2. Projections based on developer showing revenue per space at \$6,753.

[2] Calculated on the basis on an annual revenue of \$6,753 per spot (\$2017), and inflating at 3% per year.

[3] FY 2017 current combined parking spaces in Pier 48 and SWL is 2806, excluding the 423 spaces for the Glants. As development begins, number of parking spaces reduces.

[4] Revenue projection based on the assumption that from Phase 1, revenue per space would be as per the developer's projection of \$6,753, except for FY 2017-18.

[5] The percentages are based on the Pier 30-82 Fiscal Feasibility Analysis report by EPS.

[6] As per the developer proforma, current revenue generated from the site is \$8,016,222. This is deducted from total revenue parking revenue generated to calculate the net parking revenue.

[7] As per the developer proforma, parking revenues from residential units upon buildout, in current dollars is \$3,057,600. Pro rata share of this revenue (based on residential absorption) is deducted while calculating the additional parking revenue from development that is taxable, as residential parking revenue is not subject to parking tax.

[1] Parking for 3000 spaces will be provided in Parcel D1 and D2. Projections based on developer showing revenue per space at \$6,753.

[2] Calculated on the basis of an annual revenue of \$6,753 per spot (\$2017), and inflating at 3% per year.

[3] FY 2017 current combined parking spaces in Plaz 48 and DWL is 2806, excluding the 423 spaces for the Giants. As development begins, number of parking spaces reduces.

[4] Revenue projection based on the assumption that from Phase 1, revenue per space would be as per the developer's projection of \$6,753, except for FY 2017-18.

[5] The percentages are based on the Per 30-32 Fiscal Feasibility Analysis report by EPS.

[6] As per the developer proforma, current revenue generated from the site is \$8,016,222. This is deducted from total revenue parking revenue generated to calculate the net parking revenue.

[7] As per the developer proforma, parking revenues from residential units upon buildout, in current dollars is \$9,057,600. Pro-rate share of this revenue (based on residential absorption) is deducted while calculating the additional parking revenue from development that is taxable, as residential parking revenue is not subject to parking tax.

[1] Parking for 3000 spaces will be provided in Parcel D1 and D2. Projections based on developer's revenue per space at \$6,753.

[2] Calculated on the basis of an annual revenue of \$6,753 per spot (\$2017), and inflating at 3% per year.

[3] FY 2017 current combined parking spaces in Pier 48 and SWL is 2806, excluding the 423 spaces for the Glants. As development begins, number of parking spaces reduces.

[4] Revenue projection based on the assumption that from Phase 1, revenue per space would be as per the developer's projection of \$6,753, except for FY 2017-18.

[5] The percentages are based on the Pier 30-32 Fiscal Feasibility Analysis report by UPS.

[6] As per the developer's proforma, current revenue generated from the site is \$8,016,222. This is deducted from total revenue parking revenue generated to calculate the net parking revenue.

[7] As per the developer's proforma, parking revenues from residential units upon buildout, in current dollars is \$3,057,800. Prorata share of this revenue (based on residential absorption) is deducted while calculating the additional parking revenue from development that is taxable, as residential parking revenue is not subject to parking tax.

[1] Parking for 3000 spaces will be provided in Parcel D1 and D2. Projections based on developer showing revenue per space at \$6,753.

[2] Calculated on the basis of an annual revenue of \$6,753 per spot (\$2017), and inflating at 3% per year.

[3] FY 2017 current combined parking spaces in Pier 48 and SWL is 2606, excluding the 423 spaces for the Giants. As development begins, number of parking spaces reduces.

[4] Revenue projection based on the assumption that from Phase 1, revenue per space would be as per the developer's projection of \$6,753, except for FY 2017-18.

[5] The percentages are based on the Pier 30-32 Fiscal Feasibility Analysis report by EPS.

[6] As per the developer proforma, current revenue generated from the site is \$8,016,222. This is deducted from total revenue parking revenue generated to calculate the net parking revenue.

[7] As per the developer proforma, parking revenues from residential units upon buildout, in current dollars is \$3,057,600. Pro-rata share of this revenue (based on residential absorption) is deducted while calculating the additional parking revenue from development that is taxable, as residential parking revenue is not subject to parking tax.

[1] Per San Francisco Business and Tax Regulations Code Article 10. Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[2] City and County of San Francisco, Proposed Budget, FY 2017-18.

[3] The City's proposed budget (FY2017-18) only offers the number of Utility Users Tax, the sum of Water Users Tax, Gas Electric Steam Users Tax and Telephone Users Tax. KMA assumes that the proportions of these three taxes stay same as the proportions in the City's budget in FY 2010-11.

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes, residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[2] City and County of San Francisco, Proposed Budget, FY 2017-18.

[3] The City's proposed budget (FY2017-18) only offers the number of Utility Users Tax, the sum of Water Users Tax, Gas Electric Steam Users Tax and Telephone Users Tax. KMA assumes that the proportions of these three taxes stay same as the proportions in the City's budget in FY 2010-11.

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.

[2] City and County of San Francisco, Proposed Budget, FY 2017-18.

[3] The City's proposed budget (FY2017-18) only offers the number of Utility Users Tax, the sum of Water Users Tax, Gas Electric Steam Users Tax and Telephone Users Tax. KMA assumes that the proportions of these three taxes stay same as the proportions in the City's budget in FY 2010-11.

[1] Per San Francisco Business and Tax Regulations Code Article 10: Utility Users Tax, non-residential users pay telephone, water, gas, electric, and steam users utility taxes; residential and non-residential users pay cellular telephone and access line taxes. It has been assumed for purposes of these estimates that most residential users use cellular rather than land-line telephone service.  
[2] City and County of San Francisco, Proposed Budget, FY 2017-18.  
[3] The City's proposed budget (FY2017-18) only offers the number of Utility Users Tax, the sum of Water Users Tax, Gas Electric Steam Users Tax and Telephone Users Tax. KMA assumes that the proportions of these three taxes stay same as the proportions in the City's budget in FY 2010-11.

[1] As Per Seawall Lot 337 and Pier 48 EIR (Aug 26, 2017), service ratio is 2.01 officers per 1000 residents. The EIR calculates the total required officers based on total residents (including induced residents), while this analysis calculates it based on the sum of on-site residents and employees.

[2] Based on Pier 70 Fiscal and Economic Analysis Update, August 31, 2017

[3] As Per Seawall Lot 337 and Pier 48 EIR (Aug 26, 2017), the ratio of fire personnel to (Residents + Employee) is 0.96.

[1] As Per Seawall Lot 337 and Pier 48 EIR (Aug 26, 2017), service ratio is 2.01 officers per 1000 residents. The EIR calculates the total required officers based on total residents (including induced residents), while this analysis calculates it based on the sum of on-site residents and employees.

[2] Based on Pier 70 Fiscal and Economic Analysis Update, August 31, 2017.

[3] As Per Seawall Lot 337 and Pier 48 EIR (Aug 26, 2017), the ratio of fire personnel to (Residents + Employee) is 0.96.

[1] As Per Seawall Lot 337 and Pier 48 EIR (Aug 26, 2017), service ratio is 2.01 officers per 1000 residents. The EIR calculates the total required officers based on total residents (including induced residents), while this analysis calculates it based on the sum of on-site residents and employees.

[2] Based on Pier 70 Fiscal and Economic Analysis Update, August 31, 2017

[3] As Per Seawall Lot 337 and Pier 48 EIR (Aug 26, 2017), the ratio of fire personnel to (Residents + Employee) is 0.96.

**DDA EXHIBIT C3**  
**[INTENTIONALLY OMITTED]**

**DDA EXHIBIT C4**  
**OUTLINE OF MASTER CONDITIONS, COVENANTS, AND RESTRICTIONS**

#### **DDA Exhibit C4**

#### **Outline of Master Conditions, Covenants, and Restrictions**

This exhibit summarizes the planned approach to the Master CC&Rs and Master Association for the Mission Rock Mixed-Use Project (the "Project"). The descriptions contained herein are subject to further revisions or additions due to changes in the Project, Regulatory Requirements, and Lender requirements. The Master CC&Rs will be submitted to the Port by the Developer with or prior to the Phase Submittal for Phase 1 and are subject to approval by the Port in accordance with DDA art. 3 (Phase Approval).

#### **Overview:**

The Project will be a master planned development of:

- (i) the Development Parcels, which may be subdivided into two parcels consisting of a parcel containing the building and the air space above the building (the "Air Space Parcel") and a remainder parcel containing the land;
- (ii) China Basin Park, Mission Rock Square, Channel Wharf, Channel Lane, and Channel Street (collectively the "Public Spaces");
- (iii) the Public ROWs; and
- (iv) subject to DDA § 2.6 (Mission Rock Square Garage), an additional Development Parcel may be added to accommodate the Mission Rock Square Garage in an air parcel below Mission Rock Square.

The Project will be subject to Master CC&Rs, which will describe the Master Association. Developer anticipates that the Master Association will maintain and operate the Public Spaces and maintain certain other publicly-owned Improvements in the Project under a management agreement with the Port. Additional responsibilities will include managing the operations within the Public Spaces and overseeing compliance with the various operation and maintenance plans for the Project, which may include commercial use restrictions and architectural controls as described below. The costs to fund the foregoing duties will be funded by assessments levied by the Master Association or Services Special Taxes levied by a Community Facilities District (the "CFD"), or both.

The development plan for Pier 48 has not been finally determined and is subject to the Parties joint efforts as described in DDA Section 7.10. Pier 48 will either be (i) a member of the Master Association and subject to the Master CC&Rs (and the Master CC&Rs will provide flexibility for the development of Pier 48 as contemplated in DDA Section 7.10), or (ii) subject to a separate agreement with the Master Association as described below under Additional Agreements. Notwithstanding the foregoing, Pier 48 will not be subject to cost sharing obligations or Assessments until it is redeveloped.

**Master Association Documents:** The Master Association documents will consist of the Master CC&Rs, articles of incorporation, and bylaws.

**Master CC&Rs:** The Master CC&Rs will describe the ownership interests, easements, use restrictions, maintenance and operations requirements, association membership and voting rights, budget and reporting requirements, assessment allocation and collection, architectural controls, insurance requirements (including, if appropriate, naming governmental agencies as additional insureds), damage and destruction provisions, mortgagee protection provisions, and amendment requirements. The Master CC&Rs will be executed by the Master Declarant described below, and the Port as the landowner will consent to the Master CC&Rs. The Master CC&Rs will benefit and bind the leasehold interest in each parcel subject to the Master CC&Rs, including the ownership interest in the improvements on the land, for the applicable term of each Parcel Lease.

**Phasing:** Construction of the buildings and other Improvements in the Project will be in phases. Generally portions of the Project will become subject to the Master CC&Rs in a phasing schedule that corresponds to the Phases under the DDA.

**Master Association:** The Master Association will be an incorporated California nonprofit mutual benefit corporation governed by a board of directors. The Master Declarant will be entitled to appoint a majority of the board members for an extended period of time to the extent authorized by applicable law.

**Master Declarant:** Seawall Lot 337 Associates, LLC, or its assignee, will be the Master Declarant and will have initial control over the Master Association. The Master Declarant will have Class C voting rights enabling it to appoint a majority of the Board of Directors for an extended period of time to the extent authorized by applicable law.

**Membership:** As described in the Master CC&Rs section above, a Development Parcel subject to the Master CC&Rs binds the owners of the Improvements on the Development Parcels for the terms of their Parcel Leases. Under the Master CC&Rs, the Tenant under each Parcel Lease is a member of the Master Association with the right to exercise the voting rights allocated to that parcel and the duty to pay the assessments that the Master Association levies against the parcel. The Port as a ground lessor of a Development Parcel will not be a member and will not have any voting rights or assessment obligations. It is anticipated that the Master Association will not own any real property at the Project.

**Easements:** Developer anticipates obtaining access and utility easements from applicable City Agencies. In addition, easements will be granted to the Master Association over the parcels for access by agents of the Master Association to perform its maintenance duties under the Master CC&Rs.

**Additional Agreements:** If any parcel owner in the Project is not a member of the Master Association and not subject to the Master CC&Rs, and the parcel benefits from any areas or improvements maintained by the Master Association, a separate agreement may be recorded granting the parcel owner access and use rights and obligating the parcel owner to pay an allocable share of the management, maintenance and insurance costs.

**Commercial and Retail Use Restrictions:** The Master CC&Rs may contain use restrictions for the commercial uses within the Project and use restrictions for the ground floor retail within the Project, including restrictions that prohibit certain types of uses and impose limits on the type and amount of certain authorized uses, consistent with the Port's public trust duties as owner of the land. If set forth in the Master CC&Rs, the Master Association will have the power and duty to enforce the restrictions.

**Environmental Covenant:** The Master CC&Rs shall provide that the use and maintenance of the areas of the Project that are subject to the Environmental Covenants shall be in compliance with the restrictions and terms of the Environmental Covenants and any later amendments, in accordance with applicable laws.

**BCDC Permit Monitoring and Reporting Requirements:** The Master CC&Rs shall provide that the Master Association is responsible for complying with the periodic monitoring and reporting requirements under BCDC Permit No. 2017.004.00, (the "BCDC Permit") as set forth in Special Conditions II.B.9.b (Monitoring and Reporting) and II.C.1 (Five-Year Monitoring Report). The Master Association will not generally be responsible for the capital costs of adaptation measures determined to be required under Special Conditions II.C.2 (Sea Level Rise Adaptation Planning and Implementation), subject to further definition in the CC&Rs.

**Maintenance and Management:** The Master CC&Rs will contain, at a minimum: (i) maintenance standards, including standards that require maintenance to comply with all applicable laws; and (ii) information related to operation and maintenance requirements for the Project, including but not limited to the Transportation Demand Management Plan, Sustainability Strategy, BCDC Permit, and the Stormwater Management Plan required under the ICA (the "Maintenance Standards"). Implementation of

these Maintenance Standards may include the hiring of a Sustainability Coordinator and Transportation Demand Coordinator. The Port will incorporate, but will not be limited to, the Maintenance Standards if the Master Association enters into a management agreement with the Port for public facilities in the Project.

**Parcel Maintenance:** Each parcel owner will be responsible for maintaining the landscaping and improvements on the owner's parcel. If an owner fails to perform the maintenance, the Master Association, in accordance with the provisions set forth in the Master CC&Rs may elect to perform the maintenance and levy a reimbursement assessment against that parcel as authorized by the Master CC&Rs.

**Master Association Maintenance Obligations:** Unless maintained by the CFD, a utility company or the parcel owner, it is anticipated that the Master Association's maintenance obligations will include the following:

- Public Spaces
- Public access areas on the Pier 48 aprons, other than substructure, after rehabilitation
- Public ROWs, exclusive of utilities and City standard attached structures, such as Christy Boxes and grates. The Master Association's maintenance obligation for Public ROWs includes, but is not limited to:
  - Street surface and substructure, including piles
  - Non-standard Sidewalk Corners (non-standard corner curb returns, sidewalk area at corners between extensions of the adjacent property lines, sidewalk bulb-outs at corners within extensions of property lines)
  - Non-standard roadway treatment (raised intersections; raised crosswalks, pavers, or other non-standard materials in roadway)
  - Sidewalk pedestrian thoroughway
  - Sidewalk furnishing/landscape zone (sidewalk streetscape/street furniture zone including pavers, landscape, irrigation, intermediate curbs and midblock bulb outs)
  - Shared public ways - non-standard roadway paving treatments (streets with non-standard paving, including unit pavers in the roadway or decorative paving; non-standard detectable warning pavement; flush curbs; valley gutters)
  - Shared public way street lighting (roadway and pedestrian lighting, including poles, fixtures, conduits and pull-boxes)
  - Streetlife zone planting (trees and other landscaping planted within the sidewalk landscape zone, fronting private property)
  - Driveways (driveway sidewalk aprons including the curb (curb cut) along width of driveway)
  - Benches or seating within the public right-of-way
  - Custom trash and recycling receptacles
  - Various types of bollards at flush curb conditions or fire access terminus

- SFMTA approved non-standard bike racks
- Non-standard roadway signage for wayfinding, interpretive, art, etc.
- Non-standard street lights, roadway lighting and pedestrian lighting, including poles, luminaires, pull-boxes and conduit
- Standard and non-standard green stormwater infrastructure

**Public Spaces Operations:** The Master Association will manage the operations in the Public Spaces in accordance with the Parks Plan approved by the Port in accordance with DDA § 12.5(a) (Approval of Parks Plan).

**Indemnification:** The Master Association will be required to indemnify the Port and other appropriate City Parties for the Master Association's acts and omissions in connection with the maintenance and management of public facilities.

**District Wide Utilities:** The Master CC&Rs may obligate each building parcel to use certain district wide utilities if and when developed, which may include, but may not be limited to, on-site greywater (and possibly blackwater) treatment facilities, on-site solar electrical generation and central energy facilities for chilled and hot water. The Master CC&Rs may obligate each parcel owner to enter into an off-site power purchase agreement for renewable energy.

**Assessments:** The Master Association will have the power to levy and collect assessments in order to fund its management, maintenance, operation, indemnification obligations, and insurance duties under the Master CC&Rs (to the extent these funds are not covered by the CFD). To the extent costs for claims related to indemnification obligations exceed the Master Association's budget, annual assessments will be levied in the next year. Three types of assessments may be levied: regular, special and reimbursement assessments. In levying or collecting assessments, the Master Association shall comply with any accounting, reporting, reserve requirements, and collection procedures required under either the Commercial and Industrial Common Interest Development Act or the Davis-Stirling Common Interest Development Act, as applicable. A detailed budget will be prepared. As the Project will be constructed in phases, separate, individual phased budgets plus a final "built-out" budget may be prepared depending upon when each Development Parcel becomes subject to the Master Association's assessments. Assessments shall be allocated in accordance with voting rights described below. If certain duties performed by the Master Association benefit some but not all of the Development Parcels, costs will be allocated only to the benefitted Development Parcels via cost centers.

**Voting:** Voting rights will be allocated based on residential unit count and a designated number of votes allocated to commercial spaces based on square footage.

**Architectural Controls:** An architectural committee will be formed and Development Parcel owners will be required to comply with the architectural committee provisions, consistent with the Design Controls for any material exterior modifications or additions to a Development Parcel.

**Mortgagee Protection Provisions:** The Master CC&Rs will contain standard mortgagee protection provisions, including the provisions required by secondary mortgage market lenders such as Fannie Mae, Freddie Mac and FHA.

## FORM VERTICAL DISPOSITION AND DEVELOPMENT AGREEMENT

(Mission Rock – DESCRIBE PARCEL)

THIS VERTICAL DISPOSITION AND DEVELOPMENT AGREEMENT (this “Agreement”) dated for reference purposes only as of \_\_\_\_\_, 20\_\_\_\_, is by and between the CITY AND COUNTY OF SAN FRANCISCO, a municipal corporation (“City”), operating by and through the San Francisco Port Commission (“Port”), \_\_\_\_\_, and a \_\_\_\_\_ (“Vertical Developer”). All Exhibits and Schedules attached hereto are hereby incorporated by reference into this Agreement and will be construed as a single instrument and referred to herein as this “Agreement.” Initially capitalized terms in this Agreement are defined in *Article 22*.

THIS AGREEMENT IS MADE WITH REFERENCE TO THE FOLLOWING FACTS AND CIRCUMSTANCES:

A. Port owns certain real property located in the City and County of San Francisco consisting of approximately \_\_\_\_\_ square feet of unimproved land, as more particularly described on *Exhibit A* attached hereto (as may be refined and adjusted in accordance with the terms of this Agreement, the “Property”). The Property is located within the area known as Seawall Lot 337, located south of Mission Creek/China Basin Channel in the Mission Bay neighborhood (the “Project Site”), as more particularly described in that certain Disposition and Development Agreement dated \_\_\_\_\_, 2018, by and between SWL 337 Associates, LLC, a Delaware limited liability company (“Horizontal Developer”), and Port (as the same may be amended, supplemented, modified and/or assigned from time to time, the “Horizontal DDA”) and that certain Master Lease No. L-[XXX] dated [\_\_\_\_], 2018, by and between Horizontal Developer and Port (as the same may be amended, supplemented, modified and/or assigned from time to time, the “Master Lease”). The boundaries of the Property may be refined and adjusted with the advancement of the Project Site’s development as set forth in *Section 3.1(d)*.

B. Under the Horizontal DDA and the Master Lease, Port has agreed to convey by ground lease those certain Development Parcels (as defined in the Horizontal DDA) in accordance with the terms thereof. The Property is a Development Parcel under the Horizontal DDA, within Phase [XX] of development thereunder.

C. Planning Code Section 249.80 (the Mission Rock Special Use District) (as amended from time to time, the “SUD”) establishes the basic land use standards for vertical development within the Project Site and sets forth the process and requirements for review and approval of design and construction documents related to vertical development. As authorized under the SUD, Port and the Planning Commission approved the Mission Rock Design Controls dated [\_\_\_\_], 2018], as amended from time to time (the “Design Controls”), that set forth design standards and design guidelines that will apply to all vertical development within the Project Site.

D. On \_\_\_\_\_, 201\_, the Port approved a Phase [XX] Submittal (the “Phase Submittal”) that sets forth the approved development program for the development of Phase [XX], as described therein and consistent with the Horizontal DDA, including, among other things, (i) Horizontal Developer’s obligations with respect to the construction of certain Horizontal Improvements, (ii) the development plan for Phase [XX], including any affordable housing and park and open space requirements, and (iii) certain other associated public benefits to be provided in Phase [XX].

E. Include additional Recitals that describe the parcel disposition process as provided under the Horizontal DDA, and any other relevant facts and circumstances leading up to execution of this VDDA

F. Vertical Developer desires to ground lease the Property from the Port, and Port desires to ground lease the Property to Vertical Developer, on the terms and conditions set forth herein.

G. Vertical Developer proposes to construct the project generally described in the Scope of Development attached hereto as *Exhibit B-1* (as the same may be modified from time to time in accordance with the terms hereof, the "Vertical Project") and within the time period set forth in the Development Schedule attached hereto as *Exhibit B-2*, all under the terms of this Agreement. The term "Vertical Project" includes any Deferred Infrastructure for the Property. In connection with the Vertical Project, Vertical Developer is obligated to provide certain public benefits, as more particularly set forth herein, including [insert as appropriate]: [providing Inclusionary Units]; [on-site child-care facilities]; [assuming the obligation to construct Deferred Infrastructure obligations] [other obligations]] and to comply with all applicable requirements of the Workforce Development Plan, the Mitigation Monitoring and Reporting Program and the Special Provisions.

H. The parties now desire to enter into this Agreement to set forth the terms and conditions upon which Port will deliver a leasehold estate in the Property to Vertical Developer and Vertical Developer will develop the Vertical Project, all as more specifically set forth in this Agreement.

ACCORDINGLY, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Port and Vertical Developer hereby agree as follows:

#### AGREEMENT

##### 1. CONVEYANCE OF PROPERTY.

Subject to the terms, covenants and conditions set forth herein, Port agrees to ground lease on the terms substantially in the form set forth in the lease attached hereto as *Exhibit C*, subject to mutually agreed upon modifications ("Parcel Lease"), to Vertical Developer, and Vertical Developer agrees to ground lease on the terms set forth in the Parcel Lease] from Port, Port's interest in the Property.

##### 2. ACQUISITION PRICE.

2.1. **Acquisition Price.** The consideration due Port from Vertical Developer under the terms of the Parcel Lease on the Closing Date] is \_\_\_\_\_ and \_\_\_\_/100 Dollars (\$) \_\_\_\_\_) (the "Acquisition Price"). [Credit Bids: Vertical Developer's payment of the Acquisition Price (including the Deposit) under this *Section 2.2* will be made by Credit Bid in accordance with Article 3 of the Financing Plan attached to the Horizontal DDA and applied when due ("Credit Bid"), and all refunds will be applied by a reversal of the Credit Bid.

2.2. **Payment of Acquisition Price; Deposit.** Vertical Developer will pay Port the Acquisition Price as follows:

(a) **Deposit.** Vertical Developer will make an earnest money deposit in an amount equal to ten percent (10%) of the Acquisition Price (such amount, and all interest thereon, is hereinafter referred to as the "Deposit") within the time period set forth in *Section 2.2(c)*.

(b) Before expiration of the Contingency Period, the Deposit will be refundable to Vertical Developer only if this Agreement is terminated in accordance with *Section 6.2*. After expiration of the Contingency Period, the Deposit is non-refundable to Vertical Developer except as set forth in *Sections 6.3(b), 8.1, 10.2* or *Section 10.4(a)*. The Deposit will be credited against the Acquisition Price upon the mutual execution and delivery of the Parcel Lease and the other closing documents described in *Section 7.3* and otherwise as contemplated hereunder (the "Closing").

(c) **for non-Credit Bid deals only:** Within one (1) business day after the date of this Agreement, Vertical Developer will deliver the Deposit into escrow with **[insert name of Title Company selected by Vertical Developer and reasonably acceptable to Port]** (the "Title Company" or "Escrow Agent"). The Deposit will be held in an interest-bearing account, and all interest thereon will be deemed a part of the Deposit. The Deposit will be applied to the Acquisition Price payable to Port upon Closing.]

**for Credit Bid deals only:** The Deposit will be applied by Credit Bid on the date of this Agreement. Accordingly, Vertical Developer will not deposit any actual funds into escrow to satisfy the Deposit requirement. The Acquisition Price less the Deposit will be applied by Credit Bid at Closing. Any refund of the Deposit to Vertical Developer will be effected by a reversal of the Deposit amount in accordance with the Financing Plan.]

(d) **Independent Consideration.** Notwithstanding any provision of this Agreement to the contrary, upon any early termination of this Agreement where Vertical Developer is entitled to a refund of the Deposit, the Escrow Agent will deduct from the Deposit the sum of One Thousand Dollars (\$1,000) (the "Independent Contract Consideration") and deliver such Independent Contract Consideration to Port, which amount the parties bargained for and agree to as consideration for Vertical Developer's right to inspect the Property and to enter into the Parcel Lease for the Property pursuant to this Agreement and for Port's execution, delivery and performance of this Agreement. The Independent Contract Consideration is in addition to and independent of any other consideration or payment provided in this Agreement, is nonrefundable, and is fully earned and will be retained by Port notwithstanding any other provision of this Agreement.

### 3. CONDITIONS OF TITLE.

#### 3.1. *Permitted Encumbrances.*

(a) **Permitted Exceptions.** At Closing, Port will convey interest in and to the Property to Vertical Developer by means of the Parcel Lease, subject to the following: (i) Permitted Port Title Exceptions (as defined below); (ii) all items of which Vertical Developer had actual notice or knowledge of as of the expiration of Contingency Period (subject to the provisions of **Section 6.3** with respect to a Port Title Defect); (iii) this Agreement and the Memorandum; (iv) the Master Association; (v) CFD and Assessment Matters; (vi) Development Easements, if any; (vii) the Parcel Lease; and (viii) the Restrictive Covenants (collectively, "Permitted Encumbrances"). **[Note: Add others as necessary/appropriate]** and otherwise free and clear of (1) rights of possession by others and (2) liens, encumbrances, covenants, assessments, easements, leases, licenses or other use agreements, and taxes.

(b) **Permitted Port Title Exceptions.** For purposes of this Agreement, the following will constitute "Permitted Port Title Exceptions":

- (i) Each matter affecting title to the Property disclosed by the Title Commitment and Survey, and not otherwise objected to by Vertical Developer prior to the expiration of the Contingency Period under **Section 6.1** or within the time periods required under **Section 6.3(b)** hereof;
- (ii) the lien of ad valorem real estate taxes, special taxes and assessments not yet delinquent as of the date of Closing, subject to proration as herein provided;
- (iii) Laws, including but not limited to building and zoning laws, ordinances and regulations, now or hereafter in effect relating to the Property;
- (iv) the customary printed exceptions and exclusions contained in title insurance policies;
- (v) matters caused by or on behalf of Vertical Developer or its Agents;
- (vi) Development Easements;

- CC&Rs;
- (vii) Matters approved by Vertical Developer prior to Closing;
  - (viii) The Mission Rock Master Association Documents—including any
  - (ix) The Restrictive Covenants; and
  - (x) The CFD and Assessment Matters.

(c) **Horizontal Documents.** The Property forms a part of the Project Site and until the Closing, is subject to the Horizontal DDA, the Master Lease, and other documents contemplated in such agreements (collectively, the “Horizontal Documents”). The Horizontal Documents require the Horizontal Developer to construct and complete the Horizontal Improvements and other improvements (other than the Deferred Infrastructure in some cases) on the Project Site, including the Property, within a certain period that includes the period after the Effective Date. The Horizontal Improvements and other improvements may be necessary for the successful construction and operation of the Vertical Project. Accordingly, Vertical Developer agrees and acknowledges that:

- (i) Horizontal Developer or its assigns may be performing material physical changes to the Property during the period prior to Closing in connection with the construction of the Horizontal Improvements (other than the Deferred Infrastructure in some cases);
- (ii) Port and Horizontal Developer may amend or modify the Horizontal Documents without Vertical Developer’s prior consent;
- (iii) Subject to *Section 3.4*, prior to Closing, Port may record or cause to be recorded, Development Easements on the Property to advance the development of the Horizontal Improvements;
- (iv) Subject to *Section 3.1(d)*, the legal description of the Property may be adjusted prior to Closing to exclude any portion thereof that is or is intended to become a right-of-way as the development of the Project Site advances; provided, however, that any physical changes to the Property after expiration of the Contingency Period that would materially and adversely impact development of the Vertical Project require Vertical Developer’s prior consent, which consent may be withheld in its reasonable discretion. Vertical Developer further agrees and acknowledges that because Port is not performing any of the Horizontal Improvements, including any that may affect Vertical Developer’s ability to commence and complete construction of the Vertical Project, Vertical Developer will work with the Horizontal Developer to agree on any schedule of performance for the completion of any portion of the Horizontal Improvements and other improvements that may impact Vertical Developer’s ability to commence and complete construction of the Vertical Project and Vertical Developer’s releases and waivers against or for the benefit of the City Parties, as described in *Section 4.4*, include any Claims related to the Horizontal Improvements.

(d) **Modifications to Legal Description of Property.** Vertical Developer acknowledges and agrees that minor modifications to the boundaries of the Property may be required to accommodate existing and proposed rights-of-way as development of the Project Site advances. Accordingly, prior to Closing, Port may request that Vertical Developer consent to any such minor modification, such consent not to be unreasonably withheld, conditioned or delayed so long as the modification (i) will not materially and adversely affect Vertical Developer’s intended development (including costs and schedule), use or operation of the Property or the Vertical Project, as reasonable determined by Vertical Developer, and such intended development, use or operation is consistent with the SUD and Design Controls; and (ii) is consistent with the SUD, Design Controls or Phase Submittal (if submitted) in all material respects. *Section 12.12* (Post Closing Boundary Adjustments) addresses boundary adjustments after Closing.

**3.2. Restrictive Covenants.** Vertical Developer acknowledges and agrees that Port would not Deliver the Property unless Vertical Developer agreed, among other things, to comply with (a) the obligation to construct the Vertical Project in accordance with the terms of this Agreement, (b) the obligation to construct the Deferred Infrastructure in accordance with the terms of this Agreement and the VCA, (c) the CFD and Assessment Matters further described in *Section 3.3*, and (d) those certain restrictive covenants attached hereto as *Exhibit D* pertaining to Vertical Developer's use and operation of the Property (the "Restrictive Covenant"). **[Note: Include if applicable.]**

**3.3. Acknowledgements and Covenants Regarding Community Facilities Districts and Assessment Matters.**

(a) **Section 53341.5 Acknowledgment.** Prior to Closing, Vertical Developer will deliver to Port an acknowledgment (the "Notice of Special Tax") in the form attached hereto as *Exhibit E* confirming that Vertical Developer has been advised of the terms and conditions of the CFD, including that the Property is subject to the CFD Assessments.

(b) **Facilities and Maintenance CFD.** Vertical Developer will comply with all of the covenants and acknowledgements set forth in *Exhibit F* attached hereto (CFD and Assessment Matters), which covenants and acknowledgements will be recorded against title to the Property and survive Closing ("CFD and Assessment Matters").

**3.4. Reservation of Easements.**

(a) **Development Easements - Before Closing.** Before Closing, without limiting *Section 3.1(d)*, in order to facilitate the development of the Horizontal Improvements, Port has the right, subject to the limitations set forth below, to grant, convey or dedicate easements, and similar rights on and over the Property to utility companies, local water and sewer districts, the City, and other entities that provide utility or similar service to the Property or properties located adjacent thereto (the types of easements and similar rights described in the foregoing are, collectively, referred to herein as "Development Easements"); provided, however, before Port records, grants, conveys or dedicates any Development Easements hereunder, (i) if prior to the expiration of the Contingency Period, Port will furnish Vertical Developer with a copy of the proposed Development Easements for Vertical Developer's review, and (ii) if after the expiration of the Contingency Period, Port will furnish Vertical Developer with a copy of the proposed Development Easements for Vertical Developer's review and approval which approval will not be unreasonably withheld, conditioned or delayed so long as the proposed Development Easements (A) will not materially and adversely affect Vertical Developer's intended development, use or operation of the Property or the Vertical Project as reasonably determined by Vertical Developer and such intended development, use or operation is consistent with the SUD and Design Controls, (B) are consistent with the SUD, Design Controls or Phase Submittal in all material respects, and (C) are in form and substance reasonably acceptable to Vertical Developer. Vertical Developer will approve or disapprove any proposed Development Easement that requires Vertical Developer's prior approval within twenty (20) days following its receipt thereof; if Vertical Developer fails to approve or disapprove the applicable Development Easement within such twenty (20) day period, Port may submit to Vertical Developer a second written request for approval. If Vertical Developer fails to approve or disapprove the applicable proposed Development Easement within ten (10) days after Port's second written request for approval, Vertical Developer will be deemed to have approved the proposed applicable Development Easements.

(b) **Master Association and Transportation Demand Management Plan.** Without limiting the generality of the foregoing provisions of this *Section 3.4*, Vertical Developer acknowledges that the Property is included (or effective as of the Closing Date, will be included) within Mission Rock Master Association (the "Master Association") and Vertical Developer is obligated, among other things, to comply with the Transportation Demand Management Plan for the Project Site. Vertical Developer further acknowledges that the Property

is or, prior to or concurrently on the Closing Date, [if applicable] or subsequent to Closing,] will be subject to the covenants, conditions and restrictions contained in the [for commercial parcels: Master Commercial Declaration] [for residential parcels: Master Residential Declaration] by the recording of a supplemental declaration, and Vertical Developer is or will be obligated to participate in the Master Association, and that Vertical Developer will be responsible for all assessments that may be owing with respect to the Property following the Closing with respect to the Master Association.

**3.5. Vertical Developer's Responsibility for Title Insurance.** Vertical Developer understands and agrees that the right, title and interest in the Property will not exceed that vested in Port, and Port is under no obligation to furnish any policy of title insurance in connection with this transaction. Vertical Developer recognizes that any fences or other physical monument of the Property's boundary lines may not correspond to the legal description of the Property. Port will not be responsible for any discrepancies in the parcel area or location of the property lines or any other matters which an accurate survey or inspection might reveal. It is Vertical Developer's sole responsibility to obtain a survey from an independent surveyor and a policy of title insurance from a title company, if desired.

Vertical Developer will cause to be delivered to Port at Closing, a title insurance policy with coverage in the amount of the fair market value of the Port's fee interest in the Property as determined pursuant to the appraisal process set forth in the Horizontal DDA or as Port has reasonably determined through the Public Offering process set forth in the Horizontal DDA, insuring Port's fee interest in the Property subject to the Parcel Lease and the other Permitted Encumbrances which are applicable to the fee. Port's title insurance policy will be at Vertical Developer's sole cost.

#### **4. INDEPENDENT INVESTIGATION; "AS IS" CONDITION; RELEASE OF PORT; PORT COVENANTS.**

**4.1. Vertical Developer's Independent Investigation.** Vertical Developer represents and warrants to Port that as of the expiration of the Contingency Period described in **Section 6.1**, Vertical Developer will have performed a diligent and thorough inspection and investigation of each and every aspect of the Property, either independently or through agents of Vertical Developer's choosing, including, without limitation, the following matters (collectively, the "Property Conditions"):

- (a) All matters relating to title including, without limitation, the existence, quality, nature and adequacy of Port's interest in the Property and the existence of physically open and legally sufficient access to the Property.
- (b) The zoning and other legal status of the Property, including, without limitation, the Property's compliance with or applicability of all Laws and private or public covenants, conditions and restrictions, and all governmental and other legal requirements such as taxes, assessments, use permit requirements, environmental permits and building and fire codes.
- (c) The quality, nature, adequacy and physical condition in, on, around, under, and pertaining the Property, including all other physical and functional aspects in, on, around, under, and pertaining to the Property.
- (d) The quality, nature, adequacy, and physical, geological and environmental condition in, on, around, under, and pertaining to the Property (including soils and any groundwater), and the presence or absence of any Hazardous Materials in, on, under or about the Property or any other real property in the vicinity of the Property.
- (e) The suitability in, on, around, under, and pertaining to the Property for the Vertical Project.
- (f) The economics and development potential, if any, of the Property.

(g) All other matters of material significance affecting in, on, around, under, and pertaining to the Property, including its development and use contemplated under this Agreement.

**4.2. Property Disclosures.** California law requires owners to disclose to buyers or lessees the presence or potential presence of certain Hazardous Materials. Accordingly, Vertical Developer is hereby advised that occupation of the Property may lead to exposure to Hazardous Materials such as, but not limited to, any gasoline, diesel and other vehicle fluids, vehicle exhaust, office maintenance fluids, tobacco smoke, methane and building materials containing chemicals, such as formaldehyde. Further, there are Hazardous Materials located on the Property, which are described in *Schedule 4.2*, copies of which have been delivered to or made available to Vertical Developer. By execution of this Agreement, Vertical Developer acknowledges that the notices and warnings set forth above satisfy the requirements of California Health and Safety Code Section 25359.7 and related statutes.

Vertical Developer acknowledges that Port has disclosed the matters relating to the Property referred to in *Schedule 4.2* attached hereto. Nothing contained in such schedule will limit any of the provisions of this Article or relieve Vertical Developer of its obligations to conduct a diligent inquiry hereunder, nor will any such matters limit any of the provisions of *Section 4.3* or *Section 4.4*.

**4.3. "As Is With All Faults"; Disclaimer of Representations and Warranties.** VERTICAL DEVELOPER SPECIFICALLY ACKNOWLEDGES AND AGREES THAT IT IS LEASING PURSUANT TO THE TERMS OF THE PARCEL LEASE THE PROPERTY ON AN "AS IS WITH ALL FAULTS" BASIS. VERTICAL DEVELOPER IS RELYING SOLELY ON ITS INDEPENDENT INVESTIGATION OF THE PROPERTY. VERTICAL DEVELOPER SPECIFICALLY ACKNOWLEDGES AND AGREES THAT NEITHER THE CITY, INCLUDING ITS PORT, NOR ANY OF THE OTHER CITY PARTIES, HAS MADE, AND THERE IS HEREBY DISCLAIMED, ANY REPRESENTATIONS OR WARRANTIES OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, AS TO ANY MATTERS CONCERNING THE PROPERTY, THE SUITABILITY OR FITNESS OF THE PROPERTY OR THE APPURTENANCES TO THE PROPERTY FOR THE VERTICAL PROJECT OR THE VERTICAL DEVELOPER'S INTENDED USES OR OPERATION OF THE PROPERTY, TITLE MATTERS, OR ANY OF THE PROPERTY CONDITIONS, THE LEGAL, PHYSICAL, GEOLOGICAL, ENVIRONMENTAL OR OTHER CONDITIONS OF THE PROPERTY, THE PROPERTY'S COMPLIANCE WITH LAWS, INCLUDING ALL BUILDING, PLANNING, ZONING AND OTHER REGULATIONS RELATING TO THE PROPERTY, THE VERTICAL PROJECT, OR ANY MATTER AFFECTING THE USE, VALUE, OR OCCUPANCY IN THE PROJECT, OR ANY OTHER MATTER WHATSOEVER PERTAINING TO THE PROPERTY OR THE PROPOSED VERTICAL PROJECT.

**4.4. Release of City and Port.** As part of its agreement to accept the Property in its "As Is With All Faults" condition, Vertical Developer, on behalf of itself and its successors and assigns, waives or will be deemed to waive, any right to recover from, and forever releases, acquits, and discharges, the California State Lands Commission, City, including, but not limited to, all of its boards, commissions, departments, agencies and other subdivisions, including, without limitation, Port, and all of their respective officers, employees, agents, contractors and representatives, and their respective heirs, successors, legal representatives and assigns (collectively, the "City Parties"), from any and all demands, claims, legal or administrative proceedings, losses, liabilities, damages, penalties, fines, liens, judgments, costs or expenses whatsoever (including, without limitation, attorneys' fees and costs), whether direct or indirect, known or unknown, foreseen or unforeseen (collectively, "Claims"), that Vertical Developer may now have or that may arise on account of or in any way be connected with (i) the suitability of the Property for the development of the Vertical Project or Vertical Developer's and its Agents and customer's past, present and future use of the Property, (ii) title matters, or any of the

property conditions, the legal, physical, geological or environmental condition of the Property (including soil and groundwater conditions), including, without limitation, any Hazardous Material in, on, under, above or about the Property, (iii) any Laws applicable thereto, including, without limitation, Environmental Laws, (iv) damages by death of or injury to any Person, or to property of any kind whatsoever and to whomever belonging, (v) construction impacts from the Horizontal Improvements, delay in completion of or failure to complete the Horizontal Improvements, defects in the Horizontal Improvements, and any other matter related to Horizontal Improvements, (vi) the creation of separate legal parcel(s) constituting the Property pursuant to the Final Map, and (vi) goodwill, or business opportunities arising at any time and from any cause in, on, around, under, and pertaining to the Property or the Vertical Project, including all Claims arising from the joint, concurrent, active or passive negligence of any of City Parties, but excluding any intentionally harmful acts committed solely by Port or City.

Vertical Developer expressly acknowledges and agrees that the amount payable or expended by Vertical Developer hereunder does not take into account any potential liability of the City Parties for any consequential, incidental or punitive damages. Port would not be willing to enter into this Agreement in the absence of a complete waiver of liability for consequential, incidental or punitive damages due to the acts or omissions of the City Parties, and Vertical Developer expressly assumes the risk with respect thereto. Accordingly, without limiting any Indemnification obligations of Vertical Developer or other waivers contained in this Agreement and as a material part of the consideration of this Agreement, Vertical Developer fully RELEASES, WAIVES AND DISCHARGES forever any and all claims, demands, rights, and causes of action against the City Parties for consequential, incidental and punitive damages (including, without limitation, lost profits) and covenants not to sue for such damages, the City Parties arising out of this Agreement or the uses authorized hereunder, including, any interference with uses conducted by Vertical Developer pursuant to this Agreement regardless of the cause, and whether or not due to the negligence of the City Parties.

Further, the City Parties will not, under any circumstance, be responsible or liable to Vertical Developer for, and Vertical Developer hereby releases the City Parties from, any Claims that may arise on account of or in any way be connected with the failure to create separate legal parcel(s) constituting the Property pursuant to the Final Map or complete any Horizontal Improvements (as defined in the Horizontal DDA) on or near the Property, or at any location within the Project Site, and Vertical Developer, its successors and assigns, assume the risk that any such Horizontal Improvements will not be completed, separate legal parcel(s) constituting the Property pursuant to the Final Map will not be created or other items relating to the Vertical Project that are the responsibility of Horizontal Developer will not be performed.

Vertical Developer understands and expressly accepts and assumes the risk that any facts concerning the Claims released, waived, and discharged in this Agreement include known and unknown claims, disclosed and undisclosed, and anticipated and unanticipated claims pertaining to the subject matter of the releases, waivers, and discharges, and might be found later to be other than or different from the facts now believed to be true, and agrees that the releases, waivers, and discharges in this Agreement will remain effective. Accordingly, with respect to the Claims released, waived, and discharged in this Agreement, Vertical Developer expressly waives the benefits of Section 1542 of the California Civil Code, which provides as follows:

**A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN TO HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR.**

**BY PLACING ITS INITIALS BELOW, VERTICAL DEVELOPER SPECIFICALLY ACKNOWLEDGES AND CONFIRMS THE VALIDITY OF THE RELEASES, WAIVERS, AND DISCHARGES MADE ABOVE AND THE FACT THAT VERTICAL DEVELOPER**

WAS REPRESENTED BY COUNSEL WHO EXPLAINED, AT THE TIME THIS AGREEMENT WAS MADE, THE CONSEQUENCES OF THE ABOVE RELEASES, WAIVERS AND DISCHARGES.

INITIALS: VERTICAL DEVELOPER: \_\_\_\_\_

**4.5. Survival.** The provisions of this *Article 4* will survive the expiration or earlier termination of this Agreement.

**5. PRE-CLOSING COVENANTS.**

**5.1. Access to Property Prior to Closing.** Vertical Developer acknowledges that the Property is currently leased to Horizontal Developer pursuant to the Master Lease. Accordingly, in connection with any entry onto the Property for the purposes of performing non-invasive investigations and tests necessary to carry out the terms of this Agreement or performing visual surveys and inspections by Vertical Developer or its Agents prior to Closing, Vertical Developer will enter into a license with Horizontal Developer in the form of license attached hereto as *Exhibit G* (the "License"). The Port will cause Horizontal Developer to execute the License and deliver same to Vertical Developer within five (5) business days after Vertical Developer's request. If Port has not obtained Horizontal Developer's signature and returned the License to Vertical Developer within such 5-business day period, then the 60-day Contingency Period set forth in *Section 6.1(a)* will be extended by one day for each day of delay beyond the 5-business day period. If Vertical Developer desires to perform invasive testing or other due diligence on the Property, then at Vertical Developer's request, Port will promptly seek Horizontal Developer's consent to commercially reasonable modifications to the License to account for the additional risks associated with such activities, including increased insurance coverage amounts or additional insurance coverage and broader indemnity and release provisions. [Note: if, at the time this VDDA is being prepared, Horizontal Developer no longer has any interest in the Property (e.g., due to a termination of the Master Lease), then revise this section to state that Vertical Developer and Port will enter into the Port's form of License Agreement and attach Port's form as Exhibit G.]

**5.2. Regulatory Approvals for Vertical Project.** From and after the expiration of the Contingency Period and prior to Closing, Vertical Developer will have the right, but not the obligation, at its sole cost and expense, to pursue Regulatory Approvals (other than the Final Map for Phase [XX]), which is the Horizontal Developer's obligation to pursue pursuant to the Horizontal DDA) for the Vertical Project including, without limitation, schematic design approval under the SUD; provided, however, Vertical Developer will not cause or permit the issuance of any such Regulatory Approval prior to Closing if the same would be binding upon Port. Port, at no cost to Port, will cooperate reasonably with Vertical Developer in its efforts to process such Regulatory Approvals in accordance with the terms of *Section 12.9(b)*. [Note: Include for Commercial Projects: Port and Vertical Developer acknowledge and agree that if Port receives a "City Delay Notice" under the Horizontal DDA, then the dates and deadlines in this Agreement that are affected by the City Delay Notice will be automatically extended as provided in the [Horizontal DDA Exhibit A4] provisions.]

**5.3. Horizontal Developer Estoppel.** Port will use commercially reasonable efforts to cause Horizontal Developer to deposit into escrow the documents described in *Section 6.5(a)(v)* and in accordance with such Section.

**6. CONDITIONS PRECEDENT TO CLOSING OF ACQUISITION.**

**6.1. Contingency Period.**

**(a) Generally.** Vertical Developer will have until 5:00 p.m. San Francisco Time on [insert date that is sixty (60) days after the Effective Date of Agreement] to inspect and review the Property and to elect to proceed with the Delivery of the Property on and subject to the terms of this Agreement (such period being referred to herein as the "Contingency Period").

If Vertical Developer elects to proceed with the purchase of the Property, then Vertical Developer will, before the expiration of the Contingency Period, notify Port and Escrow Agent in writing that Vertical Developer has approved all such matters ("Acceptance Notice"). If Vertical Developer elects not to proceed with the purchase of the Property, then Vertical Developer must, before the expiration of the Contingency Period, deliver notice to Port that it is exercising its right to terminate this Agreement in accordance with **Section 6.2** (the "Termination Notice"). If before the end of the Contingency Period Vertical Developer fails to give Port a Termination Notice or an Acceptance Notice, then Vertical Developer will be deemed to have elected to proceed to Closing.

(b) **Objectable Matters.** If Vertical Developer objects to any aspect of the Property within the Contingency Period, then Vertical Developer may (but will not be obligated to) deliver to Port written notice explaining the aspects of the Property that are objectionable to Vertical Developer ("Objection Notice"). Port has no obligation to remove or remedy any of the items listed in the Objection Notice objectionable to Vertical Developer ("Objectable Items"). Port has ten (10) days after receipt of the Objection Notice to notify Vertical Developer whether Port will remove or remedy the Objectable Items; provided, however, if less than ten (10) days remain before the Contingency Period expires when Port receives the Objection Notice, then Port may, at its sole discretion, extend the Contingency Period by the number of days necessary for Port to have ten (10) days to respond to the Objection Notice. If Port so extends the Contingency Period, then Vertical Developer may terminate this Agreement at any time prior to the date that is one (1) business day after the expiration of such ten (10) day period if and only if Port does not agree in writing, prior to the expiration of such ten (10) day period, to remove or remedy all of the Objectable Items to Vertical Developer's satisfaction prior to Closing.

(c) **Port Election to Remove or Remedy Objectable Matter.** If Port elects to remedy or remove the Objectable Items and requires additional time beyond the then-scheduled Closing Date to remove or remedy any of the items, the Closing Date will be delayed for so long as Port diligently pursues such removal or remedy, not to exceed thirty (30) days unless otherwise agreed by the Parties. If and when Port elects not to remove or remedy the Objectable Item and so notifies Vertical Developer in writing, which Port may do at any time including following an initial election to pursue remedial or corrective actions, then Vertical Developer may elect to either (i) proceed to Closing in accordance with the terms of this Agreement, in which event, Vertical Developer will be deemed to have waived any objections to the Objectable Items Port will not remove or remedy, or (ii) terminate this Agreement in accordance with **Section 6.2**, in each case by delivering written notice thereof to Port not later than three (3) business days after the date Port notifies Vertical Developer in writing that Port has elected not to remove or remedy the Objectable Item. If Vertical Developer fails to notify Port of its election within such three (3) business day period, Vertical Developer will be deemed to have elected to proceed to Closing. If Vertical Developer elects, or is deemed to have elected, to proceed to Closing, then the Closing Date will be extended to the date that is seven (7) business days after the date on which Vertical Developer has made, or deemed to have made, the election to proceed to Closing.

**6.2. Vertical Developer's Right to Terminate; Return of Deposit.** If Vertical Developer elects to terminate this Agreement in accordance with **Section 6.1(a)**, **Section 6.1(c)**, **Section 6.3**, **Section 8.1**, **Section 10.2**, or **Section 10.4(a)** (collectively, "VD Terminable Sections"), then [for non-Credit Bid deals: the Deposit will be returned promptly to Vertical Developer upon notice thereof to Escrow Agent] [for Credit Bid deals: the Deposit Credit Bid entry will be reversed and thereafter,] Vertical Developer's obligations, and Port's rights, with respect to the Deposit will cease, Vertical Developer will have no further remedies against Port and, except for any provisions of this Agreement which expressly state that they will survive the termination of this Agreement, this Agreement will be terminated and canceled in all respects and neither Vertical Developer nor Port will have any further rights or obligations hereunder. If

Vertical Developer does not duly terminate this Agreement in accordance with and within the time periods set forth in the applicable VD Terminable Sections, or if Vertical Developer waives its right to terminate this Agreement, then (i) this Agreement will remain in full force and effect and Vertical Developer will have no further right to terminate this Agreement under the applicable VD Terminable Sections, and (ii) Vertical Developer will be deemed to have waived any liability of Port and any right to refuse to consummate the Closing by reason of any condition known to Vertical Developer as of the last day of the Contingency Period, or if applicable, one (1) business day following Port's delivery of written notice to Vertical Developer that Port will not remove or remedy the Objectionable Item.

**6.3. Title Review Following Contingency Period Expiration.**

(a) If at the time scheduled for Closing any (i) possession by others, (ii) rights of possession other than those of Vertical Developer, or (iii) lien, encumbrance, covenant, assessment, easement, lease, tax or other matter which is not a Permitted Port Title Exception, encumbers the Property and would materially and adversely affect the development of the Property ("Port Title Defect"), Port will have up to thirty (30) days from the date scheduled for Closing to remove the Port Title Defect. The Closing will be extended to the earlier of seven (7) business days after the date on which the Port Title Defect is removed or the expiration of the thirty (30) day period. If the Port Title Defect can be removed by bonding and Port has not so bonded within the thirty (30) day period, Vertical Developer may, but will not be obligated to, cause a bond to be issued. If Vertical Developer causes a bond to be issued in accordance with this *Section 6.3(a)*, Port will reimburse Vertical Developer for the cost of such bond within thirty (30) days of demand or, at Port's option, credit such amount against the Acquisition Price payable to Port under this Agreement.

(b) If at the Closing Date, a Port Title Defect still exists, Vertical Developer may by written notice to Port either (i) terminate this Agreement and ~~for non-Credit Bid deals:~~ receive a return of the Deposit] ~~for Credit Bid deals:~~ the Credit Bid will be reversed] or (ii) accept Delivery of the Property. If Vertical Developer accepts Delivery of the Property subject to a Port Title Defect, the Port Title Defect will be deemed waived. If Vertical Developer does not accept Delivery of the Property and fails to terminate this Agreement within seven (7) days after the Closing Date, or any extension as provided above, Port may terminate this Agreement upon three (3) days written notice to Vertical Developer. If the Agreement is terminated under this Section, then the terms of *Section 6.2* will apply.

**6.4. Port's Conditions Precedent.**

(a) **Port's Conditions Precedent.** The following are conditions precedent to Port's obligation to consummate the Closing and thereby Deliver the Property to Vertical Developer:

(i) Vertical Developer will have performed in all material respects all obligations under this Agreement required to be performed on its part before Closing, no uncured Acquisition Event of Default will exist on Vertical Developer's part under this Agreement and all of Vertical Developer's representations and warranties made in *Section 21.3* will have been true and correct when made and will be true and correct as of Closing. At Closing, Vertical Developer will deliver to Port a certificate to confirm the accuracy of such representations and warranties, substantially in the form attached hereto as *Exhibit H*;

(ii) Vertical Developer will have deposited into Escrow, the security deposit and all other sums, including any bonds, required to be paid to Port on or prior to the effective date of the Parcel Lease pursuant to the terms thereof and all other sums necessary to consummate the Closing pursuant to the terms of this Agreement;

(iii) ~~for Credit Bid deals:~~ Vertical Developer will have notified Port that it consents to the balance of the Acquisition Price being Credit Bid at Closing;

(iv) Vertical Developer will have deposited into Escrow each of the documents described in **Section 7.3(b)**, each duly executed and acknowledged by Vertical Developer;

(v) Vertical Developer will have obtained all insurance required under the Parcel Lease and will have deposited evidence thereof into Escrow;

(vi) Vertical Developer will have satisfied the submittal requirements that Vertical Developer (or Vertical Developer's contractor) is then required to make, if any, before Closing relating to Vertical Developer's obligations to comply with the Workforce Development Plan;

(vii) Vertical Developer and Port will have executed mutual irrevocable instructions to the Escrow Agent, all in accordance with **Article 7**;

(viii) Vertical Developer will have executed and delivered to Port a certification of compliance with San Francisco Administrative Code Chapters 12B and 12C on the "Chapter 12B Declaration: Nondiscrimination in Contracts and Benefits" form (Form HRC-12B-101), together with supporting documentation, and will have secured approval of the form by the City's Human Rights Commission;

(ix) Vertical Developer has deposited into Escrow such evidence of authority to enter into the Parcel Lease this Agreement and any other Transaction Documents, as Port and the Title Company may reasonably require (including certificates of good standing, board resolutions and certificates of incumbency);

(x) Vertical Developer will have delivered into escrow, a reaffirmation that all the representations and warranties made in **Section 21.3** by Vertical Developer are and remain true and correct as of the Closing Date;

(xi) ~~Add as applicable. Vertical Developer will have complied with the requirements of the Housing Plan as it pertains to the Property to the extent required at Closing;~~

(xii) The Property constitutes one or more separate legal parcels as set forth on the Final Map;

(xiii) Horizontal Developer will have deposited into Escrow duly executed and acknowledged counterparts of the DDA and Master Lease Partial Release in the form attached hereto as **Exhibit J** ("DDA and Master Lease Partial Release") and a duly executed Horizontal Developer Estoppel in the form attached hereto as **Exhibit K**; and

(xiv) The Title Company is irrevocably committed to issue to Port upon payment by Vertical Developer, the title insurance policy required by **Section 3.5** to be delivered to Port as of the Closing Date.

(b) **Satisfaction of Port's Conditions.** The conditions precedent set forth in **Section 6.4(a)** are intended solely for the benefit of Port. If any such condition precedent is not satisfied on or before the Closing Date, Port's Executive Director, or, if the Executive Director determines that waiver of the condition precedent materially affects the rights, obligations, or expectations of Port, the Port Commission by resolution, will have the right in its sole discretion either to waive in writing the condition precedent in question and proceed with Closing, or, in the alternative, to terminate this Agreement. If Vertical Developer is using reasonably diligent efforts to meet or satisfy the conditions precedent to Closing, the then-scheduled Closing Date will be extended for a reasonable period or periods of time specified by Vertical Developer, but such periods in the aggregate will not exceed thirty (30) days (unless otherwise extended by mutual agreement of the Parties) to allow such conditions precedent to be satisfied, subject to Port's further right to terminate this Agreement by the Closing Date (as extended) if all such conditions precedent have not been satisfied.

**6.5. Vertical Developer's Conditions to Closing.**

(a) **Vertical Developer Conditions Precedent.** The following are conditions precedent to Vertical Developer's obligation to consummate the Closing and accept the Property from Port under this Agreement:

(i) Port will have performed in all material respects all obligations under this Agreement required to be performed on its part before Closing and, no uncured Acquisition Event of Default will exist on Port's part under this Agreement;

(ii) The Title Company is irrevocably committed to issue to Vertical Developer, upon payment of the premium by Vertical Developer, a title insurance policy satisfactory to Vertical Developer, insuring Vertical Developer's interest in the Property subject to Permitted Encumbrances;

(iii) Port will have deposited into escrow each of the documents described in *Section 7.3(a)*, each duly executed and acknowledged by Port;

(iv) The Property constitutes one or more separate legal parcels as set forth on the Final Map;

(v) Horizontal Developer will have deposited into escrow (A) two (2) duly executed and acknowledged counterparts of each of the Development Agreement Assignment and Assumption Agreement in the form attached hereto as *Exhibit L* ("DA Assignment and Assumption Agreement"), DDA and Master Lease Partial Release, and (B) the Horizontal Developer Estoppel signed no earlier than fifteen (15) days prior to the Closing Date, by an authorized signatory of Horizontal Developer, without any material modification thereto. Vertical Developer will not be obligated to accept the Horizontal Developer Estoppel to the extent it contains any material modifications from the form attached hereto as reasonably determined by Vertical Developer;

(vi) If required by Title Company to issue the title insurance policies required by *Section 3.5*, Horizontal Developer and Port will have deposited into escrow a ground lessee's affidavit or owner's affidavit, as applicable, and, if required by Title Company to issue the title insurance policies required by *Section 3.5*, Horizontal Developer will have delivered to Title Company a mechanic's lien indemnity in form and substance reasonably satisfactory to Horizontal Developer and Title Company.

(b) **Satisfaction of Vertical Developer's Conditions Precedent.** The conditions precedent set forth in *Section 6.5(a)* are intended solely for the benefit of Vertical Developer. If any such condition precedent is not satisfied on or before the Closing Date, Vertical Developer will have the right in its sole discretion to waive in writing the condition precedent in question and proceed with Closing and acceptance of the Property under this Agreement. If Port is using reasonably diligent efforts to meet the conditions precedent, the then-scheduled Closing Date may be extended, at Vertical Developer's sole option (except with regard to the condition precedent of creating separate legal parcel(s) constituting the Property pursuant to the Final Map which is dealt with in *Section 7.2(b)*), for a reasonable period or periods of time specified by Vertical Developer, but such periods in the aggregate will not exceed thirty (30) days (unless otherwise extended by mutual agreement of the Parties), to allow such conditions precedent to be satisfied, subject to Vertical Developer's further right to terminate this Agreement by the Closing Date (as extended). Notwithstanding the foregoing, if either Party does not elect to proceed with the Closing because the Final Map Condition Precedent will not be satisfied as of the then-scheduled Closing Date, then Port may extend the then-scheduled Closing Date in accordance with *Section 7.2(b)*.

**6.6. Taxes and Assessments.**

(a) **Ad Valorem Taxes and Assessments Before and After Closing.** For any period before Closing, Vertical Developer is responsible for the payment of any ad valorem

taxes (including possessory interest and special taxes) assessed by reason of this Agreement. Ad valorem taxes and assessments levied, assessed, or imposed for any period from and after Closing, including possessory interest and special taxes, are the sole responsibility of Vertical Developer.

(b) **Possessory Interest Taxes.** Vertical Developer recognizes and understands that this Agreement may create a possessory interest subject to property taxation and that Vertical Developer may be subject to the payment of property taxes levied on such interest. San Francisco Administrative Code Sections 23.38 and 23.39 (or any successor statute) require that the City report certain information relating to this Agreement, and any renewals of this Agreement, to the Assessor-Recorder within sixty (60) days after any such transaction, and that Vertical Developer report certain information relating to any assignment under this Agreement to the Assessor-Recorder within sixty (60) days after such assignment transaction. Vertical Developer agrees to provide such information as may be requested to comply with this requirement.

(c) **Right to Contest.** Subject to *Section 3.3* and the matters described therein, Vertical Developer has the right to contest the amount, validity or applicability, in whole or in part, of any ad valorem, possessory interest or other taxes and assessments levied on Vertical Developer or the Property by reason of this Agreement (collectively, "Taxes and Assessments") by appropriate proceedings conducted in good faith and with due diligence, at no cost to Port, provided that, prior to commencement of such contest, Vertical Developer notifies Port of such contest. Vertical Developer must notify Port of the final determination of such contest within fifteen (15) days after such determination. Subject to *Section 3.3*, nothing in this Agreement requires Vertical Developer to pay any Taxes and Assessments so long as Vertical Developer contests the validity, applicability or amount of such Taxes and Assessments in good faith, and so long as it does not allow the portion of the Property affected by such Taxes and Assessments to be forfeited to the entity levying such Taxes and Assessments as a result of its nonpayment. If any Law requires, as a condition to such contest, that the disputed amount be paid under protest, or that a bond or similar security be provided, Vertical Developer must comply with such condition as a condition to its right to contest. Vertical Developer is responsible for the payment of any interest, penalties or other charges that may accrue as a result of any contest, and Vertical Developer must provide a statutory lien release bond or other security reasonably satisfactory to Port in any instance where Port's interest in the Property may be subjected to such lien or claim. Vertical Developer is not required to pay any Taxes and Assessments being so contested during the pendency of any such proceedings unless payment is required by the court or agency conducting such proceedings. Port, at its own expense and at its sole option, may elect to join in any such proceeding whether or not any Law requires that such proceedings be brought by or in the name of Port or any owner of the Property. Port will not be subjected to any liability for the payment of any fines or penalties, and except as provided in the preceding sentence, costs, expenses or fees, including attorneys' fees and costs, in connection with any such proceeding.

(d) **Survival.** This *Section 6.6* will survive the expiration or earlier termination of this Agreement.

## **7. ESCROW AND CLOSING.**

**7.1. Escrow.** Vertical Developer and Port will deposit an executed counterpart of this Agreement with the Title Company. Port and Vertical Developer will deposit escrow instructions as appropriate to enable the Escrow Agent to comply with the terms of this Agreement. In addition, Port will deposit supplementary escrow instruction instructing Escrow Agent to apply all funds received by it in accordance with the requirements of the Financing Plan. In the event of any conflict between the provisions of this Agreement and any escrow instructions or supplementary escrow instructions, the terms of this Agreement or the Financing Plan, as applicable, will control.

**7.2. Closing.**

(a) **Closing Date.** Subject to extension of the Closing Date pursuant to the express provisions of this Agreement or otherwise by mutual agreement of the Parties, the Closing hereunder will be held, and delivery of all items to be made at the Closing under the terms of this Agreement, will be made at the offices of the Title Company on the date that is ninety (90) days after the expiration of the Contingency Period before 3:00 p.m. San Francisco time or such earlier date and time as Vertical Developer and Port may mutually agree upon in writing (the "Closing Date").

(b) **Extension of Closing Date for Final Map.**

(i) **Language regarding waiver of Final Map Condition Precedent may be subject to revision when VDDA is prepared.** If one or more separate legal parcels constituting the Property, as set forth on the Final Map, has/have not been created on or before the then-scheduled Closing Date or Port determines that such separate parcel(s) will not be created in time for Closing to occur on such Closing Date (as the Closing Date may be extended pursuant to this *Section 7.2(b)*), then either (i) Vertical Developer and Port may elect in writing to jointly waive the Final Map Condition Precedent and proceed with Closing and Vertical Developer's acceptance of the Property under this Agreement, or (ii) if a Party does not elect to waive such condition precedent, then subject to *Section 7.2(b)(ii)*, Port will have the right to extend the Closing Date by up to an additional ninety (90) days, which right may continue to be exercised by Port in its sole discretion until the Final Map is obtained. Port will provide Vertical Developer at least ten (10) days prior notice before the then-scheduled Closing Date of each of the Port's elections to extend this Agreement.

(ii) If separate legal parcel(s) constituting the Property pursuant to the Final Map have not been created on or before the date that is two (2) years after the originally scheduled Closing Date, then Vertical Developer will have the right to terminate this Agreement, effective upon written notice to Port, which notice Vertical Developer may give at any time after the expiration of such 2-year deadline and prior to the creation of separate legal parcel(s) constituting the Property pursuant to the Final Map. If Vertical Developer so terminates this Agreement, then, in accordance with *Section 6.2*, **[for non-Credit Bid deals: the Deposit will be returned promptly to Vertical Developer upon notice thereof to Escrow Agent] [for Credit Bid deals: the Deposit Credit Bid entry will be reversed]** and thereafter, each Party's rights and obligations with respect to the Deposit will cease. Vertical Developer will have no further remedies against Port and, except for any provisions of this Agreement which expressly state that they will survive the termination of this Agreement, this Agreement will be terminated and canceled in all respects and neither Vertical Developer nor Port will have any further rights or obligations hereunder.

(iii) Vertical Developer acknowledges and agrees that (i) Horizontal Developer is responsible for creating separate legal parcel(s) constituting the Property pursuant to the Final Map, (ii) that creating separate legal parcel(s) constituting the Property pursuant to the Final Map is a condition precedent to Closing only ("Final Map Condition Precedent"), and not a breach of or default by Port under this Agreement, and (iii) Vertical Developer waives and releases Port from all Claims related to the Final Map Condition Precedent not being satisfied as of the then scheduled Closing Date or before termination of this Agreement. Vertical Developer also acknowledges and agrees that, should Port and Vertical Developer elect to waive the Final Map Condition Precedent and proceed to the Closing, then (a) development of the Vertical Project may be subject to additional restrictions, or conditions, which may, among other things, limit development on the Property or delay issuance of a certificate of occupancy for the Vertical Project absent approval of the Final Map or alternative compliance with the Subdivision Code, and other applicable City Regulations, (b) Horizontal Developer's obligation to complete Horizontal Improvements (as defined in the Horizontal DDA) is conditioned under the Horizontal DDA on the recordation of a Final Map and related requirements, and Vertical

Developer, its successors and assigns, assume the risk that any such Horizontal Improvements will not be completed, and (c) Horizontal Developer has indicated that it will not enter into a VCA prior to approval of the Final Map.

**7.3. Deposit of Documents.**

(a) **By Port.** At or before the Closing, Port will deposit into escrow the following items:

(i) four (4) duly executed and acknowledged counterparts of the Parcel Lease and two (2) duly executed and acknowledged counterparts of the Memorandum of Lease (in the form attached to the Parcel Lease) (the "Memorandum of Lease");

(ii) two (2) duly executed and acknowledged counterpart originals of the DDA and Master Lease Partial Release signed by Port;

(iii) two (2) duly executed and acknowledged counterparts signed by Port of a memorandum of this Agreement in the form of *Exhibit M* attached hereto (the "Memorandum of VDDA");

(iv) a duly executed estoppel certificate in the form attached hereto as *Exhibit N*, in which the Port certifies to Vertical Developer that to its actual knowledge, there is no Horizontal Developer Event of Default or Prospective Breach or Prospective Default (as to which the Port has given Horizontal Developer a notice of such Prospective Breach or Prospective Default) under the Horizontal DDA other than as set forth in such estoppel certificate ("Port Estoppel"), which Port Estoppel will be dated and signed by Port no earlier than fifteen (15) days prior to the Closing Date;

(v) a duly executed Horizontal Developer Estoppel;

(vi) a duly executed owner's title affidavit in form reasonably satisfactory to Port and Title Company; and

(vii) evidence of authority to consummate the transactions contemplated by this Agreement, as the Title Company may reasonably require (including, if applicable, Port Commission and Board of Supervisors' resolutions).

(b) **By Vertical Developer.** At or before the Closing, Vertical Developer will deposit into escrow the following items:

(i) four (4) duly executed by Vertical Developer and acknowledged counterparts of the Parcel Lease and two (2) duly executed by Vertical Developer and acknowledged counterparts of the Memorandum of Lease;

(ii) two (2) duly executed and acknowledged counterparts of the Memorandum of VDDA;

(iii) the funds necessary to consummate Closing for Credit Bid deals (other than the Acquisition Price which is to be Credit Bid in accordance with the terms of this Agreement));

(iv) two (2) duly executed counterparts by Vertical Developer of the Restrictive Covenant;

(v) two (2) duly executed originals by Horizontal Developer and Vertical Developer of the DA Assignment and Assumption Agreement;

(vi) two (2) duly executed originals by Vertical Developer of the Agreement to Comply with CFD and Assessment Matters;

(vii) two (2) duly executed originals by Vertical Developer of the Notice of Special Tax; and

(viii) evidence of authority to consummate the transactions contemplated by this Agreement, as Port and the Title Company may reasonably require (including certificates of good standing, board resolutions and certificates of incumbency).

(c) **Further Assurances.** Port and Vertical Developer will each deposit such other instruments as are reasonably required by the Escrow Agent or otherwise required to close the escrow and consummate the purchase of the Property in accordance with the terms hereof.

**7.4. Steps to Close Escrow.** Port and Vertical Developer will instruct the Escrow Agent to consummate the escrow as provided herein. Upon Closing, the Escrow Agent will record in the Official Records, in the following order and no other order: (1) the DDA Release, (2) the DDA and Master Lease Partial Release, (3) the Memorandum of VDDA, (4) the Memorandum of Lease, (5) the Agreement to Comply with CFD and Assessment Matters, and (6) any other documents reasonably required to be recorded under the terms of Regulatory Approvals. Upon Closing, Escrow Agent will deliver a settlement statement to Port and Vertical Developer ~~[for non-Credit Bid deals]~~ and deliver to Port all funds received by Escrow Agent on account of the Acquisition Price. Port will instruct the Escrow Agent to disburse the net proceeds of the Acquisition Price to the Project Payment Obligation as defined in the Financing Plan in accordance with Article 2 (Flow of Funds) of the Financing Plan]. ~~[for Credit Bid deals]~~ If the Acquisition Price will be paid ~~[Note: Potentially add only where all Developer Balance and Return paid in full]~~ in whole or in part by Credit Bid, such amount will be credited in accordance with the Financing Plan]. In addition, the Title Company will issue title policies to Vertical Developer and Port as required under *Section 3.5*.

**7.5. Waiver of Pre-Delivery Conditions.** Unless the Parties otherwise expressly agree at the time of Closing, all pre-Delivery conditions of the Parties will, upon Escrow, be deemed waived by the Party benefited by such condition.

**7.6. Merger.** Upon Closing, the terms set forth in *Articles 1* through *10*, inclusive, of this Agreement will be deemed to have merged with the Ground Lease and will be of no further force or effect, except to the extent such term expressly survives Closing pursuant to the terms thereof. For the avoidance of doubt, the terms of *Articles 11* through *22*, inclusive, of this Agreement will survive Closing.

## **8. RISK OF LOSS PRIOR TO CLOSING.**

**8.1. Loss.** Prior to the Closing Date, Port will give Vertical Developer notice of the occurrence of damage or destruction of, or the commencement of condemnation proceedings affecting, any portion of the Property. In the event that all or any portion of the Property is condemned, or destroyed or damaged by fire or other casualty prior to the Closing, then Vertical Developer may, at its option to be exercised within ten (10) days of Port's notice of the occurrence of the damage or destruction or the commencement of condemnation proceedings, either terminate this Agreement or consummate the Delivery of the Property for the full Acquisition Price as required by the terms hereof. If Vertical Developer elects to terminate this Agreement or fails to give Port notice within such ten (10)-day period that Vertical Developer will proceed with the purchase, then this Agreement will terminate at the end of such ten (10)-day period and the terms of *Section 6.2* will apply.

**8.2. Insurance Proceeds and Awards.** Vertical Developer acknowledges that until immediately prior to Closing, the Property will be leased by Port to Horizontal Developer pursuant to the terms and condition of the Master Lease.

(a) **Insurance Proceeds.** Pursuant to the Horizontal Documents, Horizontal Developer is obligated to insure the Property until immediately prior to the Closing. Accordingly, Horizontal Developer may receive insurance proceeds arising from damage or destruction of the Property. If Vertical Developer desires to have any portion of such insurance proceeds available for Vertical Developer's use if it consummates the Delivery of the Property for the full Acquisition Price after damage or destruction of the Property, then Vertical

Developer and Horizontal Developer must include the terms of any transfer of insurance proceeds arising from damage or destruction of the Property received by Horizontal Developer to Vertical Developer in the VCA. Port will not be obligated to purchase any third party commercial liability insurance or property insurance with regard to the Property and in no event, will Port be obligated to transfer to Vertical Developer any insurance proceeds Port may receive or credit against or reduce the Acquisition Price as a result of damage or destruction of the Property.

(b) **Condemnation Awards.** If Vertical Developer elects to consummate the Delivery of the Property for the full Acquisition Price after condemnation of a portion of the Property, Vertical Developer must negotiate with Horizontal Developer for the transfer to Vertical Developer of condemnation award proceeds Horizontal Developer may receive from the partial condemnation of the Property. Port will not be transferring to Vertical Developer or crediting against the Acquisition Price, any condemnation award proceeds.

## **9. CLOSING EXPENSES.**

9.1. **Expenses.** Vertical Developer will pay all fees, charges, costs and other amounts necessary for the opening and closing of Escrow (collectively, the "Closing Costs"), including (i) real property transfer taxes applicable to the Delivery of the Property, (ii) personal property transfer taxes, (iii) the cost of any title reports, surveys, inspections and premiums for all title insurance policies obtained by Vertical Developer, Port, and if applicable, any lender, (iv) escrow fees and recording charges, and (v) any other costs and charges of the escrow for the transaction contemplated hereby. Vertical Developer will pay the Closing Costs on or before the Closing Date. If the Title Company requires, Vertical Developer will pay into Escrow any such fees, costs, charges or other amounts required for closing Escrow under this Agreement.

9.2. **Brokers.** The parties represent and warrant to each other that no broker or finder was instrumental in arranging or bringing about this transaction [for non-affiliate deals only]: other than [ ] ("Broker") and that there are no other claims or rights for brokerage commissions or finder's fees in connection with the transactions contemplated by this Agreement. If any person [for non-affiliate deals only]: other than Broker] brings a claim for a commission or finder's fee based on any contact, dealings, or communication with either Party, then such Party will defend the other Party from such claim, and will Indemnify the City Parties or Vertical Developer and its officers, employees, directors, owners, heirs, successors, legal representatives and assigns ("Vertical Developer Parties"), as applicable, from, and hold the City Parties or Vertical Developer Parties, as applicable, against, any and all costs, damages, claims, liabilities, or expenses (including, without limitation, reasonable attorneys' fees and disbursements) that the City Parties or Vertical Developer Parties, as applicable, incur in defending against the claim. The provisions of this Section will survive the Closing, or, if the Delivery of the Property is not consummated for any reason, any termination of this Agreement.

## **10. ACQUISITION DEFAULTS, REMEDIES AND LIQUIDATED DAMAGES.**

10.1. **Acquisition Event of Default.** For purposes hereof, an "Acquisition Event of Default" means:

(a) Vertical Developer fails to pay when due, any amount required to be paid under this Agreement with respect to the acquisition and disposition of the Property (but not with respect to any development of the Property), and such failure continues for a period of five (5) business days following Vertical Developer's receipt of notice thereof from Port;

(b) Vertical Developer causes or permits the occurrence of a Transfer not permitted under this Agreement;

(c) All conditions to Closing in the applicable Party's favor have been satisfied or waived, and such Party fails to consummate the Closing by the Closing Date in violation of this Agreement;

(d) On or before the Closing Date, Vertical Developer files a petition for relief, or an order for relief is entered against Vertical Developer, in any case under applicable bankruptcy or insolvency law, or any comparable law that is now or hereafter may be in effect, whether for liquidation or reorganization, which proceedings if filed against Vertical Developer are not dismissed or stayed within one hundred eighty (180) days;

(e) On or before the Closing Date, a writ of execution is levied on this Agreement which is not released within one hundred twenty (120) days, or a receiver, trustee or custodian is appointed to take custody of all or any material part of the property of Vertical Developer, which appointment is not dismissed within one hundred twenty (120) days;

(f) On or before the Closing Date, Vertical Developer makes a general assignment for the benefit of its creditors; or

(g) The applicable Party violates any covenant set forth in *Sections 1* through and including *Section 9* of this Agreement, or fails to perform any other obligation to be performed by the party under *Sections 1* through and including *Section 9* of this Agreement at the time such performance is due, and such violation or failure continues without cure for more than fifteen (15) days after written notice from the other party specifying the nature of such violation or failure, or, if such cure cannot reasonably be completed within such fifteen (15) day period, if such party does not within such fifteen (15) day period commence such cure, or having so commenced, does not prosecute such cure with diligence and dispatch to completion within a reasonable time thereafter.

**10.2. Failure to Close.** Subject to *Section 10.3*, if, due to an Acquisition Event of Default, Closing cannot occur on the date agreed to by the Parties, the non-defaulting Party may terminate this Agreement by written notice and demand the return of its money, papers or documents deposited in Escrow (including, in the case of Vertical Developer, the return of the Deposit); provided, however, the defaulting Party will have ten (10) days after delivery of such termination notice to perform any acts required of it to permit Closing. If neither Party has performed fully to enable Closing by the time established therefor, then either Party may instruct the Title Company to return all documents and funds deposited with it to the applicable Parties in ten (10) days, unless within such ten (10) day period, both Parties perform fully all their obligations to enable Closing, in which case, the Title Company will proceed to Closing without regard to such delay.

**10.3. Default by Vertical Developer; Liquidated Damages.** IF THE DELIVERY OF THE PROPERTY IS NOT CONSUMMATED DUE TO AN ACQUISITION EVENT OF DEFAULT BY THE VERTICAL DEVELOPER HEREUNDER, PORT WILL BE ENTITLED, AS ITS SOLE AND EXCLUSIVE REMEDY, TO TERMINATE THIS AGREEMENT AND FOR NON CREDIT BID DEALS ONLY: RETAIN THE DEPOSIT FOR CREDIT BID DEALS ONLY: MAINTAIN THE CREDIT BID OF THE DEPOSIT (IN OTHER WORDS, NOT REVERSE THE CREDIT BID DEPOSIT)] AS LIQUIDATED DAMAGES.

THE PARTIES HAVE AGREED THAT PORT'S ACTUAL DAMAGES, IN THE EVENT OF A FAILURE TO CONSUMMATE THE DELIVERY OF THE PROPERTY AS SPECIFIED IN THE PRECEDING SENTENCE, WOULD BE EXTREMELY DIFFICULT OR IMPRACTICABLE TO DETERMINE. AFTER NEGOTIATION, THE PARTIES HAVE AGREED THAT, CONSIDERING ALL THE CIRCUMSTANCES EXISTING ON THE DATE OF THIS AGREEMENT, THE AMOUNT OF THE DEPOSIT IS A REASONABLE ESTIMATE OF THE DAMAGES THAT PORT WOULD INCUR IN SUCH AN EVENT. BY PLACING THEIR RESPECTIVE INITIALS BELOW, EACH PARTY SPECIFICALLY CONFIRMS THE ACCURACY OF THE STATEMENTS MADE ABOVE AND THE FACT THAT EACH PARTY WAS REPRESENTED BY COUNSEL WHO EXPLAINED, AT THE TIME THIS AGREEMENT WAS MADE, THE CONSEQUENCES OF THIS LIQUIDATED DAMAGES PROVISION.

INITIALS:    PORT: \_\_\_\_\_ VERTICAL DEVELOPER: \_\_\_\_\_

**10.4. Port Default; Vertical Developer's Remedies.** Upon the occurrence of an Acquisition Event of Default by Port and provided there is no Acquisition Event of Default by Vertical Developer, Vertical Developer has the exclusive remedies set forth below following the expiration of applicable cure periods:

(a) **Termination.** Vertical Developer may terminate this Agreement upon ten (10) days' written notice to Port, in which event ~~[for non-Credit Bid deals: Vertical Developer will receive a return of the Deposit]~~ **[for Credit Bid Deals: the Credit Bid will be reversed]** and the Parties will have no further rights and obligations hereunder except for the obligations that expressly survive termination of this Agreement; or

(b) **Specific Performance.** Vertical Developer may institute an action for specific performance. Port acknowledges that an Acquisition Event of Default by Port under **Section 10.4** in the absence of an Acquisition Event of Default by Vertical Developer, will be conclusively deemed to be a breach of an agreement to transfer real property that cannot be adequately relieved by pecuniary compensation as set forth in California Civil Code § 3387; or

(c) **Damages.** Port will not be liable to Vertical Developer for any monetary damages whether caused by any Acquisition Event of Default by Port and in no event will Port be liable for any actual, consequential, incidental or punitive damages; provided, however, if Port is required under the terms of this Agreement to return the Deposit to Vertical Developer and Port fails to return the Deposit in Port's possession as required under this Agreement, then Vertical Developer may institute a cause of action for monetary damages equal to the amount of Deposit that has not been returned by Port; or

(d) **No Other Remedies.** Other than the remedies set forth in **Sections 10.4(a), 10.4(b), and 10.4(c)**, Vertical Developer is not entitled to any other remedies permitted by law or at equity.

#### **11. COMPLIANCE WITH LAWS.**

Vertical Developer will comply with, at no cost to Port, (i) all applicable Laws (taking into account any variances or other deviations properly approved and applicable to the Vertical Project), (ii) the Mission Rock Soil Management Plan, (iii) the applicable provisions of the Mitigation Monitoring and Reporting Program, (iv) the Transportation Demand Management Plan, (v) the Parcel Lease, and **[Note: add other requirements imposed in connection with Project Approvals, if any]**. The foregoing sentence will not be deemed to limit Port's ability to act in its legislative or regulatory capacity, including the exercise of its police powers. Vertical Developer acknowledges that the description of the Vertical Project attached hereto does not limit Vertical Developer's responsibility to obtain Regulatory Approvals for the Vertical Project, nor does the Vertical Project limit Port's responsibility in the issuance of any such Regulatory Approvals to comply with applicable Laws. It is understood and agreed that Vertical Developer's obligation to comply with Laws includes the obligation to make, at no cost to Port, all additions to, modifications of, and installations on the Property that may be required by any Laws relating to or affecting the Property.

#### **12. DEVELOPMENT OF VERTICAL PROJECT AND RELATED INFRASTRUCTURE.**

##### **12.1. Project Requirements.**

(a) **Project Requirements.** The Vertical Project will be designed, reviewed, constructed and completed in accordance with (i) the Scope of Development, (ii) Development Schedule, (iii) **Articles 11** (Compliance with Laws and Regulatory Approvals) through and including **Article 22** (Definitions) of this Agreement (including the terms of any exhibits referenced therein), (iv) the FOG Ordinance and the inclusion of automatic grease removal devices on all kitchen sinks in any café, restaurant or other food establishment on the Site, (v) the applicable provisions of the Mitigation Monitoring and Reporting Program; (vi) Associated

Public Benefits, and (vii) the Workforce Development Plan (sometimes collectively referred to as the "Project Requirements"). Vertical Developer hereby consents to, and waives any rights it may have now or in the future to challenge the legal validity of, the conditions, requirements, policies, or programs required by the Horizontal DDA, this Agreement and the Project Requirements, including, without limitation, any Claim that they constitute an abuse of police power, violate substantive due process, deny equal protection of the laws, effect a taking of property without payment of just compensation, or impose an unlawful tax. **[Note: This Section and/or other sections may be revised to conform deferred infrastructure requirements and access to DDA.]**

**(b) Required Commencement and Completion Dates for the Vertical Project.**

**(i) *Period to Commence and Complete.*** Vertical Developer must Commence Construction of the Vertical Project on or before the date that is thirty-six (36) months after the Closing Date (the "Construction Commencement Date"), and Complete construction on or before the date that is seventy-two (72) months after the Closing Date, which dates may be extended as hereinafter provided (the "Construction Completion Date").

**(ii) *Extension Options.*** Vertical Developer may extend each of the Construction Commencement Date and the Construction Completion Date in increments of up to three (3) months (each an "Extension Option") (not to exceed forty-eight(48) months in the aggregate) by paying the extension fee set forth in *Schedule 12.1* (each an "Extension Fee"). **[NOTE: Each Extension Option to increase by \$5,000 every 5 years after 2017]**

**(iii) *Extension Notice.*** If Vertical Developer desires to extend either or both of the Construction Commencement Date and the Construction Completion Date, then Vertical Developer will give Port notice of Vertical Developer's exercise of the extension right no later than ten (10) business days prior to the otherwise applicable Construction Commencement Date or the Construction Completion Date, and as the same may have been extended pursuant to this *Section 12.1(b)* ("Extension Notice"). Vertical Developer will specify in the Extension Notice the length of the extension (which will not exceed three (3) months and will not exceed the 48-month aggregate limit on 3-month extensions). Within five (5) business days after delivery of the Extension Notice, Vertical Developer will deliver the Extension Fee by good funds to Port. For the purposes of clarification, any extension of the Construction Commencement Date pursuant to *Section 12.1(b)(ii)* does not automatically extend the Construction Completion Date. Vertical Developer may separately elect to extend and pay for any extension of the Construction Completion Date.

**(iv) *Force Majeure; Regulatory Force Majeure.***

**(1)** Vertical Developer may extend each of the Construction Commencement Date and the Construction Completion Date as a result of Force Majeure or Regulatory Force Majeure so long as (i) any such extensions do not exceed, in the aggregate, twenty-four (24) months, and (ii) Port reasonably agrees that a Force Majeure or Regulatory Force Majeure event has occurred.

**(2)** In addition, with respect to a Regulatory Force Majeure event, in order to extend the Construction Commencement Date or the Construction Completion Date, as applicable, as a result of a Regulatory Force Majeure event, Vertical Developer must make payment to Port in the amount of \$15,000 **[Note: Amount will increase by \$3,000 for each Phase after Phase I]**, for any period of delay of up to three (3) months. For the purposes of illustration only, if Vertical Developer anticipates that a Regulatory Force Majeure delay will last three months, then it will pay \$15,000 **[Note: Amount will increase by \$3,000 for each Phase after Phase I]**, if the delay is anticipated to last six months, then it will pay [\$30,000] **[Note: change amount accordingly]**, and so on, subject to the 24-month limit.

(3) Vertical Developer will give notice to Port ("FM Extension Notice") of any extension due to Force Majeure or Regulatory Force Majeure as soon as reasonably practical following Vertical Developer's actual notice of the Force Majeure or Regulatory Force Majeure event or the delay caused by the Force Majeure or Regulatory Force Majeure event, which notice will describe the event and any actual or reasonably anticipated delay as a result thereof.

(4) If the Port disagrees with Vertical Developer's assertion of the occurrence of a Force Majeure or Regulatory Force Majeure event, then:

(A) Port will give Vertical Developer notice of such disagreement and the reason therefor within 30 days after Vertical Developer's notice

(B) within 15 days after such notice, Vertical Developer and Port will meet and confer in an effort to resolve the disagreement; and

(C) until the earlier of the date on which the disagreement is resolved or the event and delays caused thereby cease (but subject to the aggregate 24-month limit and, in the case of a Regulatory Force Majeure event, payment of the fee, as set forth herein above), the event will be deemed to be a Force Majeure or Regulatory Force Majeure.

(5) If it is determined that Port was correct that the event in question was not a Force Majeure or Regulatory Force Majeure event, then such event will no longer be deemed a Force Majeure or Regulatory Force Majeure event as of the date immediately following such determination; provided, however, if the event in question was an asserted Regulatory Force Majeure event, the amount of the fee payable under *Section 12.1(b)(iv)(2)* will be tripled and Vertical Developer will pay to Port within thirty (30) days after the determination, the balance of such tripled fee. For the purposes of illustration only, if during Phase I, it is determined the Port was correct that the event in question was not a Force Majeure or Regulatory Force Majeure event, then the fee would be \$45,000 for each three (3)—month period of delay due to Regulatory Force Majeure, and Vertical Developer would be obligated to pay the \$30,000 balance (i.e., \$45,000 minus the \$15,000 payment the Vertical Developer is already paying under *Section 12.1(b)(iv)(2)*).

(6) If no determination is reached between the Parties within the time period set forth in this *Section 12.1(b)(iv)* as to whether the event in question was a Force Majeure or Regulatory Force Majeure event, then the amount of the fee payable under *Section 12.1(b)(iv)(2)* will be doubled and Vertical Developer will pay to Port within thirty (30) days after the determination the balance of such doubled fee for each three-month period of delay until the earlier of the cessation of the delay or exhaustion of the 24-month aggregate limit on Force Majeure and Regulatory Force Majeure delay.

(v) Acceptance Delay. Vertical Developer may extend the Construction Completion Date as a result of an Acceptance Delay without payment of any Extension Fee so long as the Acceptance Delay extensions do not exceed, in the aggregate, forty-eight (48) months. Vertical Developer will give notice to Port of any extension of the Construction Completion Date due to an Acceptance Delay as soon as reasonably practical following Vertical Developer's knowledge of the Acceptance Delay, which notice will describe the Acceptance Delay and any actual or reasonably anticipated delay as a result thereof. "Acceptance Delay" means a delay in the applicable City Agency's Acceptance of any of the Horizontal Improvements or Deferred Infrastructure that is Utility Infrastructure or a Public ROW following issuance (or deemed issuance) of a SOP Compliance Determination with respect such Horizontal Improvements or Deferred Infrastructure where such delay is the sole reason for Vertical Developer's inability to obtain a final certificate of occupancy for the Vertical Project.

(vi) Port Remedies. Port will have the remedies set forth in *Schedule 15.3* if Vertical Developer fails to Commence or Complete Construction of the Vertical Project within the time frame set forth in this *Section 12.1(b)*, as such time frames may have been

extended pursuant to this **Section 12.1(b)** or any other applicable provisions of this Agreement. Vertical Developer's obligation to pay the Liquidated Amount described in **Schedule 15.3** will survive the expiration or termination of this Agreement.

**12.2. Mitigation Monitoring and Reporting Program.** In order to mitigate the significant environmental impacts of the development contemplated hereby, the construction and subsequent operation of all or any part of the Vertical Project will be in accordance with all applicable Environmental Laws and the applicable provisions of the Mitigation Monitoring and Reporting Program attached hereto as **Exhibit O**. Vertical Developer will incorporate the Mitigation Monitoring and Reporting Program into any contract or subcontract.

**12.3. Amendment of Development Requirements.** Vertical Developer will not seek any amendment to the Design Controls under Section 249.80(c) of the SUD or to the SUD under Section 302 of the Planning Code without obtaining the prior written consent of Port (and, for any proposed amendment that may impact Horizontal Developer, the Horizontal Developer, which consent may be given or withheld in accordance with the VCA), which consent may be given or withheld in Port's sole discretion. In its application to Port or the City for a Regulatory Approval under the SUD or applicable building codes, Vertical Developer will expressly identify in writing any elements of its proposed construction that requires an amendment to the Vertical Development Requirements, and state the reason for the proposed amendment. No amendment to the Vertical Development Requirements will be effective with respect to such items if an amendment was not clearly sought by Vertical Developer in writing and such amendment was not approved by the Port in its proprietary capacity.

**12.4. Construction of Infrastructure.**

(a) Vertical Developer will be solely responsible for developing all improvements within the Property, including, without limitation, private right of ways, pedestrian walkways, infrastructure, and landscaping and hardscaping in any open space and common areas located within the Property. Vertical Developer will also be required to construct the Deferred Infrastructure identified on **Schedule 12.4-1** attached hereto.

(b) Horizontal Developer (or its successors or assigns with respect to the obligation to construct Horizontal Improvements in accordance with the Infrastructure Plan (attached to the **Horizontal DDA** as **Exhibit B3**) will cause to be constructed Horizontal Improvements serving the Property, including streets and utilities necessary to serve the Property adjacent to (but not within) the Property, in accordance with the terms of the Horizontal DDA and as between Vertical Developer and Horizontal Developer, in accordance with the VCA. If Vertical Developer requires access to any real property outside of the Property that is under the control of Port in connection with the construction of the Deferred Infrastructure, Vertical Developer and Port will use good faith efforts to negotiate and execute a License as may be adjusted between the Parties to account for the additional risks associated with such activities, including increased insurance coverage amounts or additional insurance coverage and broader indemnity and release provisions, and any additional provisions required by Law (or mandated by the Port Commission pursuant to a policy adopted by the Port Commission in a public meeting) to be included in real property licenses. The VCA will address, among other things, the Horizontal Developer's and Vertical Developer's rights and obligations with respect to any need of Vertical Developer to have access to any real property outside of the Property that is under the control of Horizontal Developer.

**12.5. Construction Standards.** All construction must be performed by duly licensed and bonded contractors or mechanics and will be accomplished expeditiously, diligently and in accordance with good construction and engineering practices and applicable Laws.

**12.6. Reports and Information for Assessor-Recorder.** During periods of construction, Vertical Developer will provide certain information to the appropriate party, all in accordance with **[Section 5.4]** (Information Requested by the Assessor-Recorder) of the Parcel Lease.

**12.7. *Costs of Vertical Project Sole Responsibility of Vertical Developer.*** Port has no responsibility for any costs of the Vertical Project and Vertical Developer will pay (or cause to be paid) all such costs.

**12.8. *Construction Rights of Access.*** During any period of construction of the Vertical Project, Port and its Agents will have the right to enter areas in which construction is being performed, on reasonable prior written notice during customary construction hours, subject to the rights of tenants and subtenants, and any safety procedures or precautions required by Vertical Developer and/or its contractors, to inspect the progress of the work; provided, however, that Port and its Agents will conduct their activities in such a way to minimize interference with Vertical Developer and its operations to the extent feasible. Nothing in this Agreement, however, will be interpreted to impose an obligation upon Port to conduct such inspections or any liability in connection therewith.

**12.9. *Regulatory Approvals.***

(a) **Port Acting as Owner of Property.** Vertical Developer understands and agrees that Port is entering into this Agreement in its proprietary capacity as the holder of fee title to the Property and not as a Regulatory Agency with certain police powers. Vertical Developer agrees and acknowledges that Port has made no representation or warranty that the necessary Regulatory Approvals to allow for the development of the Vertical Project can be obtained. Vertical Developer agrees and acknowledges that although Port is an agency of the City, Port staff and executives have no authority or influence over officials or Regulatory Agencies responsible for the issuance of any Regulatory Approvals, including Port and/or City officials acting in a regulatory capacity. Accordingly, there is no guarantee, nor a presumption, that any of the Regulatory Approvals required for the approval or development of the Vertical Project will be issued by the appropriate Regulatory Agency, and Vertical Developer understands and agrees that neither entry by Port into this Agreement nor any approvals given by Port under this Agreement will be deemed to imply that Vertical Developer will obtain any required approvals from Regulatory Agencies which have jurisdiction over the Vertical Project and/or the Property, including Port itself in its regulatory capacity. Port's status as an agency of the City in no way limits the obligation of Vertical Developer, at Vertical Developer's own cost and initiative, to obtain Regulatory Approvals from Regulatory Agencies that have jurisdiction over the Vertical Project. By entering into this Agreement, Port is in no way modifying or limiting Vertical Developer's obligations to cause the Property to be developed, restored, used and occupied in accordance with all Laws. Vertical Developer further agrees and acknowledges that any time limitations on Port review or approval within this Agreement applies only to Port in its proprietary capacity, not in its regulatory capacity. Without limiting the foregoing, Vertical Developer understands and agrees that Port staff have no obligation to advocate, promote or lobby any Regulatory Agency and/or any local, regional, state or federal official for any Regulatory Approval, for approval of the Vertical Project or other matters related to this Agreement, and any such advocacy, promotion or lobbying will be done by Vertical Developer at Vertical Developer's sole cost and expense. Vertical Developer hereby waives any Claims against the City Parties, and fully releases and discharges the City Parties to the fullest extent permitted by Law, from any liability relating to the failure of Port, the City or any Regulatory Agency from issuing any required Regulatory Approval or from issuing any approval of the Vertical Project.

(b) **Regulatory Approval; Conditions.**

(i) Vertical Developer understands that construction of the Vertical Project, including the Deferred Infrastructure, and Vertical Developer's contemplated uses and activities on the Property, may require Regulatory Approvals from Regulatory Agencies, which may include the City, Port, the RWQCB, SFPUC, SFPW, SFDPH, BAAQMD, Cal OSHA and other Regulatory Agencies. Vertical Developer is solely responsible for obtaining any such Regulatory Approvals, as further provided in this Section.

(ii) Port, at no cost to Port, will cooperate reasonably with Vertical Developer in its efforts to obtain such Regulatory Approvals, including submitting letters of authorization for submittal of applications consistent with all applicable Laws and the further terms and conditions of this Agreement, including, without limitation, being a co-permittee with respect to any such Regulatory Approvals. However, if Port is required to be a co-permittee under any such permit, then Port will not be subject to any conditions and/or restrictions under such permit that could (1) encumber, restrict or adversely change the use of any Port property other than the Property, unless in each instance Port has previously approved, in Port's sole and absolute discretion, such conditions or restrictions and Vertical Developer has assumed all obligations and liabilities related to such conditions and/or restrictions; or (2) restrict or change the use of the Property in a manner not otherwise permitted under this Agreement or subject Port to unreimbursed costs or fees, unless in each instance Port has previously approved, in Port's reasonable discretion, such conditions and/or restrictions and Vertical Developer has assumed all obligations and liabilities related to such conditions and/or restrictions (including the assumption of any unreimbursed costs or fees Port may be subject to as a result of such Regulatory Approval).

(iii) Port will provide Vertical Developer with its approval or disapproval thereof in writing to Vertical Developer within ten (10) business days after receipt of Vertical Developer's written request, or if Port's Executive Director reasonably determines that Port Commission or Board of Supervisors action is required under applicable Laws, at the first Port and subsequent Board hearings after receipt of Vertical Developer's written request subject to notice requirements and reasonable staff preparation time, not to exceed forty-five (45) days for Port Commission action alone and seventy-five (75) days if both Port Commission and Board action is required, provided such period may be extended to account for any recess or cancellation of board or commission meetings. Port will join in any application by Vertical Developer for any required Regulatory Approval and execute such permit where required, provided that Port has no obligation to join in any such application or sign the permit if Port does not approve the conditions or restrictions imposed by the Regulatory Agency under such permit as set forth above.

(iv) Vertical Developer will bear all costs associated with (1) applying for and obtaining any necessary Regulatory Approval (other than the Final Map for Phase [XX], which is the Horizontal Developer's obligation to obtain under the Horizontal DDA), and (2) complying with any and all conditions or restrictions imposed by Regulatory Agencies as part of any Regulatory Approval, including the economic costs of any development concessions, waivers, or other impositions, and whether such conditions or restrictions are on-site or require off-site improvements, removal, or other measures. Vertical Developer in its sole discretion has the right to appeal or contest any condition in any manner permitted by Law imposed by any such Regulatory Approval; provided, however, that if Port is a co-permittee, then Vertical Developer will have first obtained Port's consent, not to be unreasonably withheld, prior to commencing any such appeal or contest. Vertical Developer will provide Port with prior notice of any such appeal or contest and keep Port informed of such proceedings. Vertical Developer will pay or discharge any fines, penalties or corrective actions imposed as a result of the failure of Vertical Developer to comply with the terms and conditions of any Regulatory Approval. No Port approval will limit Vertical Developer's obligation to pay all the costs of complying with any conditions or restrictions. Vertical Developer will take reasonable steps to cooperate with Port in connection with Port's efforts to obtain approvals from Regulatory Agencies related to development of Mission Rock that are not necessary for or related to development of the Property.

(v) Without limiting any other Indemnification provisions of this Agreement or the Parcel Lease, Vertical Developer will indemnify the City Parties from and against any and all Losses which may arise in connection with Vertical Developer's failure to obtain or seek to obtain in good faith, or to comply with the terms and conditions of any

Regulatory Approval which will be necessary to develop and construct the Property in accordance with the Scope of Development, except to the extent that such Losses arise solely from the negligence or willful acts or omissions of Port acting in its proprietary capacity.

(c) **Certain City Regulatory Approvals.** Horizontal Developer and the City have entered into the Development Agreement, which will govern certain land use matters under the Planning Code, including Impact Fees and Exactions. The Port and other City Agencies, with Horizontal Developer's consent, have entered into the ICA specifying certain procedures and standards that will apply when Horizontal Developer seeks Regulatory Approvals for the Horizontal Improvements from other City Agencies. A copy of the Development Agreement has either been made available to Vertical Developer for its review at Port's offices or has been provided to Vertical Developer.

(d) **Compliance.** Vertical Developer is solely responsible for ensuring that the design and construction of the Vertical Project, including without limitation the Deferred Infrastructure (if assigned to and assumed by Vertical Developer in the VCA) will comply with all Vertical Development Requirements and applicable Laws at no cost to the Port.

(e) **Noncompliance.** Vertical Developer must pay any fines and penalties and perform any corrective actions imposed for noncompliance with any applicable Laws and Indemnify the Port against any liability arising from such noncompliance, even if the Port is a co-permittee. Vertical Developer will not be entitled to reimbursement from public financing sources for any fines, penalties, and costs of corrective actions related to its construction of Deferred Infrastructure.

#### ***12.10. Conditions to Commencement of Construction of the Vertical Project.***

(a) **Conditions Precedent.** Unless expressly waived by Port, Vertical Developer must satisfy all of the following conditions before Commencement of Construction of the Vertical Project:

(i) **Certification.** Vertical Developer will have delivered to Port a statement certified by its officer as true, correct and complete that (1) it has obtained all Regulatory Approvals required to commence construction of the Vertical Project; (2) it has entered into the VCA; (3) it has closed a loan with a lender or has binding commitments from its capital partners, for sufficient financing to commence and complete the Vertical Project; (4) it has paid the City all Impact Fees and Exactions that are required to be paid prior to commencement of construction of the Vertical Project; and (5) it has deposited the Master Marketing Fee into the Master Marketing Fee Account in accordance with ***Section 12.14***; provided, however, without limiting any Horizontal Developer rights under ***Section 12.15***, Vertical Developer's failure to pay, or to certify that it has paid, the Master Marketing Fee will not be a Vertical Developer Default or a condition precedent to Port issuing any Regulatory Approval for the Vertical Project.

(ii) **Insurance.** Vertical Developer has in place all insurance required during construction of the Vertical Project under the terms of the Parcel Lease and has provided Port evidence thereof.

(iii) **Good Standing.** There will be no uncured Vertical Developer Default by Vertical Developer under this Agreement or uncured Event of Default under the Parcel Lease.

(iv) **Security.** If any surety bond, sub-guard insurance (or other insurance product), guaranty, or other security is obtained by or for the benefit of Vertical Developer with respect to the payment of any funds or performance obligations associated with the Vertical Project, Vertical Developer will cause to have (1) Port named as a co-obligee to any bond, and (2) Port named as an additional insured or third-party beneficiary with respect to any sub-guard or other insurance product; provided, however, Port's rights under such Bond,

insurance product or guaranty will (x) remain subordinate to the rights of any mortgagee and (y) not be exercised by Port before a Vertical Developer Default.

(v) **Construction Documents.** The construction documents for the Vertical Project must conform to the Scope of Development. By way of example, the Vertical Project must contain the number of floors and residential units described in the Scope of Development.

(vi) Vertical Developer will have satisfied the submittal requirements that Vertical Developer (or Vertical Developer's contractor) is required to make relating to Vertical Developer's obligations to comply with the Workforce Development Plan.

(vii) Vertical Developer will have executed and delivered to Port a certification of compliance with San Francisco Administrative Code Chapters 12B and 12C on the "Chapter 12B Declaration: Nondiscrimination in Contracts and Benefits" form (Form HRC-12B-101), together with supporting documentation, and will have secured approval of the form by the City's Human Rights Commission.

(b) **Conditions for Benefit of the Port.** The conditions in *Section 12.10(a)* (Conditions Precedent) are solely for the benefit of Port. Only Port may waive any of those conditions, and only to the extent waivable under Law.

(c) **Effect of Failure of Condition.** Vertical Developer's failure to satisfy any condition described in *Section 12.10(a)* (Conditions Precedent) will not alone relieve either Party of any obligations that previously arose under this Agreement.

(d) **Commencement Estoppel.** Vertical Developer has the right, but not the obligation, to request an estoppel certificate from Port, at no cost to Port, for the benefit of Vertical Developer and any mortgagee or other lender, stating that Vertical Developer has satisfied the conditions set forth in *Section 12.10*. Any such request will include a certification by Vertical Developer that (i) satisfies the requirements of *Section 12.10(a)(i)* and (ii) that to its actual knowledge, Port is not in default under this Agreement or the Parcel Lease. Port will respond to such request and provide such estoppel certificate within thirty (30) days after the date of Vertical Developer's request.

**12.11. Safety Matters.** Vertical Developer will undertake commercially reasonable measures in accordance with good construction practices to minimize the risk of injury or disruption or damage to adjoining or nearby property, or the risk of injury to members of the public, caused by or resulting from the performance of its development of the Vertical Project. Vertical Developer will erect appropriate construction barricades to enclose the areas of such construction and maintain them until construction has been substantially completed, to the extent reasonably necessary to minimize the risk of hazardous construction conditions.

**12.12. Post-Closing Boundary Adjustments.** The Parties acknowledge that, as development of the Project Site advances, the description of each parcel of real property may require further refinements, which may require minor boundary adjustments. The Parties agree to cooperate in effecting any required boundary adjustments consistent with *Section 21.2* (Technical Changes). Vertical Developer agrees that all conveyance agreements from Vertical Developers to any Transferees of the Property will include the obligation to cooperate with Port in boundary adjustments.

**12.13. Vertical Developer Outreach Requirement.** The Vertical Project is subject to the administrative design review process set forth in the Mission Rock SUD. Additionally, as a requirement of this Agreement, Vertical Developer will make an informational presentation regarding the consistency of its application with the Mission Rock SUD and Design Controls to the Port's Central Waterfront Advisory Group ("CWAG") within 30 days of its submittal to the Planning Director. Port will reasonably cooperate with Vertical Developer to schedule and notice this presentation by publication, posting, mailing or other means reasonably aimed at

providing stakeholders with an opportunity to attend the presentation. If a CWAG meeting cannot be scheduled within 30 days of the submittal, the Vertical Developer will have the option to present at the next scheduled CWAG meeting or to host a public presentation of its design and will provide a minimum of 2 weeks' notice by publication, posting, mailing or other means reasonably aimed at providing stakeholders with an opportunity to attend the presentation. The presentation is for informational purposes only. However, should the Vertical Developer desire to change its design review application to incorporate any feedback received from the presentation, any such changes submitted more than 30 days after the initial submission will reset the 60-day design review period established by the Mission Rock SUD.

**12.14. Master Marketing Fee.** Vertical Developer acknowledges that it is obligated to contribute to marketing efforts with respect to the Project Site undertaken by Horizontal Developer by payment of the Master Marketing Fee (as defined below). Prior to issuance of the first site permit for the Vertical Project (excluding the Deferred Infrastructure), Vertical Developer will deposit the Master Marketing Fee into the Master Marketing Fee Account (as defined in the Financing Plan) pursuant to written instructions to be provided by Port. As used herein, "Master Marketing Fee" means a private fee collected from each Vertical Developer prior to the issuance of the first site permit for the Vertical Project (excluding the Deferred Infrastructure) that will be equal to \$1.45 per square foot of Gross Floor Area (as such term is defined in the Code) in the Vertical Project, as adjusted on each anniversary of the Reference Date by the percentage of change between the CPI (for non-residential projects) or CPI (Residential) (for primarily residential projects), subject to a floor of no change and a maximum increase of 4.5%.

**12.15. Limited Third-Party Beneficiary of Master Marketing Fee.** Horizontal Developer is a third-party beneficiary of the Master Marketing Fee. If Vertical Developer has not paid the Master Marketing Fee applicable to the Vertical Project on or prior to the issuance of the first site permit for the Vertical Project (excluding the Deferred Infrastructure), Horizontal Developer may enforce Vertical Developer's obligation to pay the Master Marketing Fee

### **13. COMPLETION OF VERTICAL PROJECT.**

**13.1. Completion; Certificates of Completion.** The obligations of Vertical Developer set forth in this Agreement, if any, will be deemed satisfied upon the completion of the Vertical Project, as evidenced by Port's issuance of a Certificate of Completion in accordance with the following terms:

(a) **Submittals.** When Vertical Developer reasonably believes that it has Completed the Vertical Project (including the Deferred Infrastructure, if any), it may request that Port issue a Certificate of Completion. In order for Port to commence review of such request, Tenant must submit with its request for a Certificate of Completion, all of the following documents (the "Required CC Submittals"): (i) an Architect's Certificate in the form attached as *Exhibit P* as to the Vertical Project, and (ii) a SOP Compliance Request in accordance with the procedures set forth in *Section 14.6 of the Horizontal DDA* as to the Deferred Infrastructure component of the Vertical Project.

(b) **Deferred Items.** With respect to the Vertical Project, if there remain uncompleted (i) customary punch list items, (ii) landscaping, or (iii) exterior finishes (to the extent Vertical Developer can demonstrate to Port's reasonable satisfaction that such finishes would be damaged during the course of later construction of interior improvements) (collectively "Deferred Items"), Port may reasonably condition approval of the Certificate of Completion upon provision of security or other assurances in form, substance and amount satisfactory to Port that all the Deferred Items will be diligently pursued to completion.

(c) **Port Response.** Within thirty (30) days after its receipt of the Required CC Submittals, Port will notify Tenant of any issues with respect to the Architect's Certificate. Port will respond to the SOP Compliance Request in accordance with, and within the time period

set forth in, the applicable provisions of **Section 14.6 of the Horizontal DDA**. Port will issue the Certificate of Completion once (i) it has confirmed the Architect's Certificate and the Vertical Project has been completed in accordance with the Vertical Project Requirements, and (ii) in accordance with **Section 14.6 of the Horizontal DDA**, it has approved (or deemed to have approved) the SOP Compliance Request. If Port does not issue a Certificate of Completion for the Vertical Project substantially in the form of *Exhibit Q* as requested under **Subsection 13.1(a)** (Submittals), then Port will deliver to Vertical Developer a notice specifying the reasons it did not issue the requested Certificate of Completion and the reasonable acts or measures that Vertical Developer must take to obtain a Certificate of Completion. Vertical Developer may submit revised Architect's Certificates or SOP Compliance Request, as applicable, and a new request for a Certificate of Completion under **Section 13.1(a)** (Submittals) at any time after completing the specified acts or measures and Port will respond to same within the time period set forth in this **Section 13.1(c)** (Port Response)..

(d) **Effect of Certificate of Completion.** For purposes of this Agreement only, the Certificate of Completion will be the Port's conclusive determination that Vertical Developer has Completed the Vertical Project and effective upon such issuance, other than the terms and conditions of this Agreement that expressly survive termination, this Agreement will terminate. The Port's determination will not impair Vertical Developer's release as provided in **Article 4** (Release), Port's right to Indemnity under Vertical Developer's obligation to Indemnify the City Parties in **Section 12.9(b)(v)** and **Article 18** (Indemnification), or Port's right, to reimbursement of Port and City Costs as provided under **Section 14.4** (Survival), all of which expressly survive termination of this Agreement. The Port's issuance of a Certificate of Completion will not relieve Vertical Developer or any other person from the Vertical Development Requirements or compliance with applicable Laws, including applicable building, fire, or other code requirements, conditions to occupancy of any improvement, or other applicable Laws. This **Section 13.1(d)** will survive the expiration or earlier termination of this Agreement.

### **13.2. Record Drawings.**

(a) Vertical Developer will furnish to Port one set of design/permit drawings in their finalized form and Record Drawings with respect to the Vertical Project within ninety (90) days following issuance of a final certificate of occupancy for the Vertical Project. Record Drawings must be in the form of full-size, hard paper copies and converted into electronic format as (1) full-size scanned TIF files, and (2) AutoCad files of the completed and updated construction documents, as further described below, and in such format as is reasonably required by Port's building department at the time of submittal. As used in this Section "Record Drawings" means drawings, plans and surveys showing the construction as built on the Property and prepared during the course of construction (including all requests for information, responses, field orders, change orders and other corrections to the documents made during the course of construction). If Vertical Developer fails to provide such Record Drawings to Port within the time period specified herein, and such failure continues for an additional ninety (90) days following an additional written request from Port, Port will thereafter have the right to cause an architect or surveyor selected by Port to prepare Record Drawings showing such construction, and the actual, third-party cost of preparing such Record Drawings must be reimbursed by Vertical Developer to Port promptly after invoice of the same is delivered to Vertical Developer. Nothing in this Section will limit Vertical Developer's obligations, if any, to provide plans and specifications in connection with the construction under applicable regulations adopted by Port in its regulatory capacity. Vertical Developer will be permitted to disclaim any representations or warranties with respect to the design/permit drawings, Record Drawings or other plans and specifications provided hereunder, and, at Vertical Developer's request, Port will provide Vertical Developer with a release from liability for future use of the applicable materials, in a form acceptable to Vertical Developer and Port.

(b) **Record Drawing Requirements.** Record Drawings must be no less than (24" x 36"), with mark-ups neatly drafted to indicate modifications from the original design drawings, scanned at 400 dpi. Each drawing will have a Port-assigned number placed onto the title block prior to scanning. An index of drawings must be prepared correlating drawing titles to the numbers. A minimum of ten (10) drawings will be scanned as a test, prior to execution of this requirement in full.

(c) **AutoCad Requirements.** The AutoCad files must be contained in Release 2006 or a later version, and drawings must be transcribed onto a compact disc(s) or DVD(s), as requested by Port. All X-REF, block and other referenced files must be coherently addressed within the environment of the compact disc or DVD, at Port's election. Discs containing files that do not open automatically without searching or reassigning X-REF addresses will be returned for reformatting. A minimum of ten (10) complete drawing files, including all referenced files, is required to be transmitted to Port as a test, prior to execution of this requirement in full.

(d) **Changes in Technology.** Port reserves the right to revise the format of the required submittals set forth in this *Section 13.2* as technology changes and new engineering/architectural software is developed.

#### **14. PORT/CITY COSTS.**

**14.1. Port Costs.** Port and the City are entitled to reimbursement for, respectively, Port Costs and City Costs incurred in connection with performing its obligations under this Agreement and any changes to this Agreement requested by Vertical Developer. Upon the request of Vertical Developer, Port and Vertical Developer will meet and confer within a reasonable period of time regarding the Port Costs and City Costs likely to be incurred in connection with this Agreement. Except to the extent specifically set forth herein, Port will not be entitled to collect any other fee or reimbursement from Vertical Developer in connection with the performance of Port's obligations under this Agreement in its proprietary capacity.

**14.2. Reporting of Port Costs.** Within ninety (90) days following the end of each calendar quarter during the term of this Agreement and within ninety (90) days following the expiration or termination of this Agreement, Port will deliver to Vertical Developer a summary of Port Costs (together with City Costs invoiced as of such date) incurred during such quarter (the "Port Costs Report"). The summary will be in a reasonably detailed form and will include (i) a general description of the services performed and Port Costs incurred, (ii) cost for Port staff time and cost for the City Attorney's staff time spent on the Vertical Project, (iii) the transaction costs incurred by the City, (iv) the fees and costs incurred and paid by Port under the ICA, and (v) the fees and costs of non-City professionals and copies of invoices from such non-City professionals. Port will provide such supporting documentation as Vertical Developer may reasonably request to verify that the Port Costs were incurred in accordance with this Agreement. Port and Vertical Developer will cooperate with one another to develop a reporting format that satisfies the reasonable informational needs of Vertical Developer to justify expenditures of Port Costs in accordance with this Agreement without divulging any privileged or confidential information of Port, the City, or their respective contractors. The Port Costs Report will be binding on Vertical Developer in the absence of error demonstrated by Vertical Developer within six (6) months of Vertical Developer's receipt of the same.

**14.3. Payment of Port Costs.** Vertical Developer will reimburse Port for Port Costs and City Costs described in each Port Costs Report no later than thirty (30) days after its receipt of the Port Costs Report from Port. While the Parties currently anticipate the Port Cost Reports will be delivered quarterly, Port will have the right to submit monthly Port Cost Reports. The Parties will meet and confer within a reasonable period of time and in good faith to resolve any disputes regarding a Port Costs Report. Port will have the right to terminate or suspend any work for Vertical Developer under this Agreement upon Vertical Developer's failure to pay amounts due and owing hereunder, and continuing until Vertical Developer makes payment in full to Port.

**14.4. *Survival.*** Vertical Developer's obligation to reimburse Port for Port Costs and City Costs incurred during the term of the Agreement will survive the expiration or termination of this Agreement.

**15. DEFAULTS; REMEDIES.**

**15.1. *Default by Vertical Developer.*** The occurrence after the Closing Date of any one of the following events or circumstances will constitute a "Vertical Developer Default:"

(a) Vertical Developer causes or permits the occurrence of a Transfer not permitted under this Agreement;

(b) Vertical Developer fails to pay when due any amount required to be paid hereunder, or fails to pay any taxes or assessments on the Property when due (including CFD and IFD assessments), and such failure continues for a period of five (5) business days following Vertical Developer's receipt of notice thereof from the Port;

(c) Subject to the provisions of *Section 15.3(b)* and *Schedule 15.3* Vertical Developer fails to cause the Construction Commencement Date or the Construction Completion Date to occur on or before the required dates set forth in *Section 12.1(b)*, as may be extended in accordance with *Section 12.1(b)*;

(d) Vertical Developer is materially in default under the Restrictive Covenants (as reasonably determined by Port) and fails to cure the same in accordance with the terms of such documents within a reasonable period of time (or such shorter period of time as may be specified in the Restrictive Covenant, if applicable, or an Event of Default (*i.e.*, after expiration of all applicable notice and cure periods) occurs under the Parcel Lease;

(e) Vertical Developer files a petition for relief, or an order for relief is entered against Vertical Developer, in any case under applicable bankruptcy or insolvency law, or any comparable law that is now or hereafter may be in effect, whether for liquidation or reorganization, which proceedings if filed against Vertical Developer are not dismissed or stayed within one hundred twenty (120) days;

(f) A writ of execution is levied on this Agreement which is not released within one hundred twenty (120) days, or a receiver, trustee or custodian is appointed to take custody of all or any material part of the property of Vertical Developer, which appointment is not dismissed within one hundred twenty (120) days;

(g) Vertical Developer makes a general assignment for the benefit of its creditors;

(h) Vertical Developer fails to perform any other obligation required to be performed under this Agreement by Vertical Developer, and such failure continues beyond the period of time for cure thereof or the expiration of any grace period specified in this Agreement therefor, or if no such cure or grace period is specified, within thirty (30) days after Vertical Developer's receipt of notice thereof from the Port as appropriate, or in the case of a default that is curable but is not susceptible of cure within thirty (30) days, Vertical Developer fails promptly to commence to cure such default and thereafter diligently to prosecute such cure to completion within a reasonable time, but in no event to exceed one hundred and twenty (120) days;

(i) **[Note: Applicable only if Vertical Developer is performing Deferred Infrastructure and the Horizontal Developer's Adequate Security does not cover/extend to such work:]** Vertical Developer fails to provide Adequate Security to the extent required under this Agreement, or once it has provided Adequate Security fails to maintain the same as required under this Agreement, and such failure continues for thirty (30) days following receipt of notice from Port (provided, that Vertical Developer will immediately, upon receiving notice from Port to such effect, suspend all activities (other than those needed to preserve the condition of improvements or as necessary for health or safety reasons) on affected portions of the Property

during any period during which Adequate Security are not maintained as required by this Agreement); and

(j) **Note: Applicable only if Vertical Developer is performing Deferred Infrastructure and the Horizontal Developer's Adequate Security does not cover/extend to such work:** [ the obligor of any Adequate Security commits a default under the applicable security instrument or revokes or refuses to perform as required under the Adequate Security and Vertical Developer does not replace the Adequate Security within thirty (30) days following Vertical Developer's receipt of notice from Port; provided, that (i) Vertical Developer will immediately, upon receiving notice from Port to such effect, suspend all activities (other than those needed to preserve the condition of improvements or as necessary for health or safety reasons) on affected portions of the Property during any period during which the Adequate Security is maintained as required by this Agreement, (ii) any cure period for a default under the Adequate Security will run concurrently with the above thirty (30) day period, and (iii) upon receipt by Port of any replacement Adequate Security Port will return, if in its possession or control, the original Adequate Security.

**15.2. Default by Port.** It will constitute a "Port Default" under this Agreement, if after the Closing Date, Port fails to perform any of its agreements or obligations under this Agreement, and such failure continues beyond the period of time for cure thereof or the expiration of any grace period specified in this Agreement therefor, or if no such cure or grace period is specified, within thirty (30) days after Port's receipt of notice thereof from Vertical Developer, or, in the case of a default that is curable but is not susceptible of cure within thirty (30) days, if the Port fails promptly to commence to cure such default and thereafter diligently to prosecute such cure to completion, but in no event to exceed one hundred and twenty (120) days.

**15.3. Port Remedies for Vertical Developer Default.**

(a) **General.** During the continuance of a Vertical Developer Default, subject to *Article 16*, and the limitations set forth in *Article 25 of the Parcel Lease* (including, without limitation, *Section 25.4 of the Parcel Lease*) Port will have all rights and remedies described in *Article 25 of the Parcel Lease*; provided, however, notwithstanding anything to the contrary contained in this Agreement or the Parcel Lease, any right to cure and any remedy available to Port regarding any Vertical Developer Default under the Workforce Development Plan is limited to those rights and remedies set forth in the Workforce Development Plan.

(b) **Failure to Commence or Complete Construction of the Vertical Project.** If the Vertical Developer has not Commenced Construction as of the Construction Commencement Date or has not Completed the Vertical Project as of the Construction Completion Date (as such dates may have been extended pursuant to *Section 12.1(b)*), following the expiration of applicable notice and cure periods under this Agreement, then (i) Port will have the remedies set forth in *Schedule 15.3*, and (ii) subject to the provisions of *Schedule 15.3* including the limitations on Port's termination rights, Port will have the right to terminate the Parcel Lease and this Agreement, whereupon Vertical Developer will deliver possession of the Property to Port in the condition required under the Parcel Lease and, if Port so requests, Vertical Developer will execute, acknowledge and deliver a commercially reasonable form of quitclaim deed with respect to the Property.

**15.4. Vertical Developer's Remedies for Port Default.** In the event of a Port Default after the Closing Date, Vertical Developer will have the remedies set forth in *Section 28 of the Parcel Lease*.

**15.5. Limitation on Port Liability.** Except as expressly set forth in *Section 10.4(c)* and *Section 18.4*, Port will not have any liability whatsoever for monetary damages, and in no event, will Port be liable for any actual, consequential, incidental or punitive damages, including, but

not limited to, lost opportunities, lost profits or other damages of a consequential nature under this Agreement.

**15.6. No Implied Waivers.** No waiver made by a waiving Party with respect to the performance or manner or time thereof (including an extension of time for performance) of any obligations of another Party, or of any condition to the waiving Party's own obligations, will be considered a waiver of the waiving Party's rights with respect to any obligation of another Party or any condition to the waiving Party's own obligations beyond those expressly waived in writing.

**15.7. Limitation on Personal Liability.** No natural person, including any commissioner, member, supervisor, officer, director, employee, representative, or attorney of a Party, will be personally liable to another Party in the event of any default or for any amount that may become due to a Party under this Agreement, provided the foregoing will not limit any liabilities that exist under a security instrument or that exist under applicable law.

#### **16. FINANCING; RIGHTS OF MORTGAGEES.**

The rights and obligations of each Party related to any Mortgage (as defined in the Parcel Lease) are set forth in the Parcel Lease. Capitalized terms that are used but not defined in this *Article 16* will have the meanings given such terms in the Parcel Lease. Without limiting or expanding the rights afforded to Lenders pursuant to the Parcel Lease following a default by Vertical Developer to Commence Construction or Complete Construction pursuant to *Section 15.3* above and notice thereof by Port to Lender, Lender will have the right, but not the obligation, to notify Port that it intends to cure such default or pursue a Lender Acquisition or both. Upon receipt of such notice, Port will not pursue its remedies under this Agreement or the Parcel Lease, as applicable for so long (and only for so long) as Lender is diligently attempting to cure the default or pursuing such Lender Acquisition. No Lender that is in the process of a Lender Acquisition or that has completed a Lender Acquisition will be obligated to construct the Vertical Project; provided, however, that any Lender or Successor Owner that obtains title to the Encumbered Property and then properly completes construction of the Vertical Project is entitled to a Certificate of Completion on request to the Port. Nothing in this Agreement permits or authorizes any Lender or Successor Owner to construct any Improvements other than the Vertical Project authorized hereunder.

#### **17. LABOR MATTERS.**

**17.1. Compliance with Workforce Development Plan.** In connection with the construction of the Vertical Project, Vertical Developer agrees to comply with all applicable provisions of the Workforce Development Plan.

**17.2. Prevailing Wages.** Any construction, alteration, demolition, installation, maintenance, repair, or laying of carpet at, or hauling of refuse from, the Property comprise a public work if paid for in whole or part out of public funds. The terms "public work" and "paid for in whole or part out of public funds" as used in this Section are defined in California Labor Code Section 1720 et seq., as amended. Vertical Developer agrees that any person performing labor for Vertical Developer on any public work at the Property will be paid not less than the highest prevailing rate of wages consistent with the requirements of Section 6.22(E) of the San Francisco Administrative Code, and will be subject to the same hours and working conditions, and will receive the same benefits as in each case are provided for similar work performed in San Francisco County. Vertical Developer will include in any contract for such labor a requirement that all persons performing labor under such contract will be paid not less than the highest prevailing rate of wages for the labor so performed and a requirement that such contractor provide, and deliver to City upon request, certified payroll reports with respect to all persons performing such labor at the Property.

**18. INDEMNIFICATION.**

**18.1. *Indemnification by Vertical Developer.***

**(a) General Indemnity.**

**(i) *Prior to Closing.*** If Vertical Developer accesses the Property prior to the Closing Date, then Vertical Developer must Indemnify the City Parties against any and all Losses related to such access as provided in the License. Vertical Developer's Indemnification obligation also includes the obligations described in *Section 12.9(b)(v)* related to Regulatory Approvals.

**(ii) *Following Closing.*** Following the Closing Date, Vertical Developer's obligation to Indemnify the City Parties will be in accordance with the Parcel Lease.

**18.2. *Indemnification for Breach of Representations.*** Vertical Developer agrees to Indemnify, defend and hold harmless the City Parties from and against any and all Losses arising from any breach of express representation, warranty or covenant made by Vertical Developer in *Section 21.3* (Representations).

**18.3. *Defense of Claims.*** Subject to the express terms of any Indemnity obligation hereunder, Vertical Developer's Indemnification obligations under this Agreement are enforceable regardless of the active or passive negligence of the City Parties, and regardless of whether liability without fault is imposed or sought to be imposed on the City Parties. Vertical Developer specifically acknowledges that it has an immediate and independent obligation to defend the City Parties from any Loss that actually or potentially falls within the Indemnification obligations of Vertical Developer, even if such allegations are or may be groundless, false, or fraudulent, which arises at the time such claim is tendered to Vertical Developer and continues at all times thereafter until finally resolved. Vertical Developer's Indemnification obligations under this Agreement are in addition to, and in no way, will be construed to limit or replace, any other obligations or liabilities which Vertical Developer may have to Port in this Agreement, at common law or otherwise.

**18.4. *Limitations of Liability.*** It is understood and agreed that no commissioners, members, officers, agents, or employees of the City Parties will be personally liable to Vertical Developer, nor will any direct or indirect partners, members or shareholders of Vertical Developer or its or their respective officers, directors, agents or employees (or of their successors or assigns) be personally liable to the City Parties, in the event of any default or breach of this Agreement or for any amount that may become due under the terms of this Agreement; provided, that the foregoing will not release obligations of a Person that otherwise has liability for such obligations, such as (i) the general partner of a partnership that, itself, has liability for the obligation or (ii) the obligor under any guaranty, bond or similar instrument covering such obligation.

**18.5. *Survival of Indemnification Obligations.*** The terms and provisions of this *Article 18* will survive the expiration or termination of this Agreement.

**19. TRANSFER AND ASSIGNMENTS.**

**19.1. *Before Closing.*** Vertical Developer's right to lease the Leasehold Estate pursuant to this Agreement is personal to Vertical Developer. Accordingly, except as expressly set forth in this *Article 19*, Vertical Developer may not Transfer this Agreement before Closing without the prior written consent of Port, which may be granted, withheld, or conditioned in its sole discretion. Notwithstanding the foregoing, if Horizontal Developer is the initial Vertical Developer under this Agreement, then Horizontal Developer may Transfer to an Affiliate of Horizontal Developer after expiration of the Contingency Period upon the prior written consent of Port, which consent will not be unreasonably withheld. The form of Transfer agreement will be substantially in the form of the Assignment and Assumption Agreement attached hereto as *Exhibit R* ("Assignment and Assumption Agreement"). Vertical Developer may request that Port

execute the release set forth in the Assignment and Assumption Agreement. Vertical Developer will include with such request, the original Assignment and Assumption Agreement executed by Vertical Developer and the transferee ("Executed Assignment and Assumption Agreement"). If the proposed Transfer is approved by Port, Port will execute and deliver the release by Port set forth in the Assignment and Assumption Agreement within fifteen (15) days after Port's receipt of the Executed Assignment and Assumption Agreement to Vertical Developer. The Parties agree that if a Transfer occurs on or before Closing, then all Net Transfer Proceeds will be applied as follows:

- (a) First, to pay Port's attorneys' fees and costs associated with Port's review of the Transfer; and
- (b) Second, all remaining proceeds to Port to be deposited into the DRP Fund and thereafter distributed in accordance with the Financing Plan (*Exhibit C1* to the DDA).

#### **19.2. Additional Definitions.**

"Affiliate" means any Person directly or indirectly Controlling, Controlled by or under Common Control with the other Person in question.

"Assignment" means an assignment, conveyance, hypothecation, pledge (other than from and after Closing, a pledge in connection with any mezzanine financing which will not require prior Port approval), or other transfer of all or any of Vertical Developer's interest in this Agreement other than an Excluded Transfer.

"Cash Consideration" means (i) cash or (ii) cash equivalents.

"Control" means with respect to any Person (a) the possession, directly or indirectly, of the power to direct or cause the direction of the day to day management, policies or activities of such Person whether through ownership of voting securities, by contract or otherwise (excluding customary limited partner or non-managing member approval rights), or (b) the ownership (direct or indirect) of more than fifty percent (50%) of the profits or capital of another Person, or (c) the ownership (direct or indirect) of more than fifty percent (50%) of the ownership interest of such Person (whether shares, partnership interests, membership interest or other equity, and whether one or more classes thereof). "Controlled" and "Controlling" have correlative meanings.

"Excluded Transfer" means any of the following: (a) the exercise of customary remedies under mezzanine financing of Vertical Developer or any constituent owner thereof; (b) the exercise of customary limited partner or non-managing member remedies under a partnership or limited liability company operating agreement, as applicable; (c) a change resulting from death or legal incapacity of a natural person; (d) the sale, transfer or issuance of less than the Controlling interest of stock of Vertical Developer that is listed on a nationally or internationally recognized stock exchange in a single transaction or a related series of transactions; or (e) the granting of any Deed of Trust lien with respect to the Property or a personal property interest in Vertical Developer.

"Net Transfer Proceeds" means before Closing, the Transfer Proceeds, less the transferor Vertical Developer's reasonable attorneys' fees and costs incurred in connection with a Transfer.

"Non-Cash Consideration" means consideration received by assignor in connection with a Transfer that is not Cash Consideration.

"Qualified Transferee" is defined in *Section 22* below.

"Significant Change" means any change in the direct or indirect ownership of Vertical Developer that results in a change in Control of Vertical Developer provided, however, in no event will any Excluded Transfer be deemed a Significant Change.

"Transfer" means an Assignment or a Significant Change other than an Excluded Transfer.

**"Transfer Proceeds"** means all consideration received by or for the account of Vertical Developer in connection with a Transfer, including Cash Consideration, the principal amount of any loan made by Vertical Developer to a purchaser as part of the purchase price, or any other Non-Cash Consideration representing a portion of the purchase price.

**19.3. After Closing.** After the Closing, Vertical Developer will be permitted to Transfer all or any of its interest or rights in this Agreement in conjunction with a Transfer permitted by the Parcel Lease or approved by Port in accordance with the Parcel Lease, including, a Transfer to a Qualified Transferee as more particularly set forth in the Parcel Lease. In connection with such Transfer, Vertical Developer and the transferee will enter into an Assignment and Assumption Agreement substantially in the form of Exhibit R attached hereto. Vertical Developer may request that Port execute the release set forth in the Assignment and Assumption Agreement. Vertical Developer will include with such request, the Executed Assignment and Assumption Agreement. If the proposed Transfer is approved by Port, or deemed approved or does not require prior Port approval, as applicable, in accordance with the Parcel Lease, Port will (i) execute and deliver the release by Port set forth in the Assignment and Assumption Agreement within fifteen (15) days after Port's receipt of the Executed Assignment and Assumption Agreement to Vertical Developer, and (ii) promptly forward the Executed Assignment and Assumption Agreement to the City for execution of the release by the City set forth in such agreement. The form of Transfer agreement will be substantially in the form of the Assignment and Assumption Agreement attached hereto as **Exhibit R**.

**19.4. Limitation on Liability.** From and after an Assignment, the transferor will be released from all obligations and liability under this Agreement to the extent first arising after the date of such Transfer and the transferee has assumed all such obligations and liabilities. In no event will the transferor be liable for a new default first arising after the date of such Transfer so long as the transferee has assumed all obligations and liabilities arising as of the date of Transfer under this Agreement. The effectiveness of any Transfer hereunder is not in any way to be construed to relieve the transferor vertical developer of any liability arising out of or with regard to the performance of any covenants or obligations to be performed by the transferor vertical developer hereunder before the date of such Assignment. Notwithstanding the foregoing, with respect to a Transfer to an Affiliate for which Port's consent was not required under **Section 19.1**, the Transferor will be released as set forth in this **Section 19.4** only if (i) the Minimum Net Worth Requirement is satisfied, or (ii) if the proposed Vertical Developer Affiliate transferee does not meet the Net Worth Requirement prior to the proposed Transfer, written evidence satisfactory to the Port Executive Director that an Affiliate of the proposed Vertical Developer Affiliate transferee (that also meets the Net Worth Requirement) has a legally binding obligation to provide such proposed Vertical Developer Affiliate transferee with capital sufficient to cause such proposed Vertical Developer Affiliate transferee to meet the Net Worth Requirement as of the effective date of the Transfer.

**19.5. Restrictions on Port Transfer.** This Agreement will not restrict Port's right to transfer all or any portion of the Property to which it holds title. Unless otherwise prohibited by Law, Port agrees, however, not to transfer any portion of the Property or any interest therein acquired by it to any Person where such transfer would preclude Port's or Vertical Developer's performance under this Agreement or the uses, densities, rights or intensity of development contemplated under this Agreement or the Vertical Development Requirements.

## **20. PORT AND CITY SPECIAL PROVISIONS.**

Vertical Developer will comply with the Port and City Special Provisions attached hereto as **Exhibit S**.

## **21. GENERAL PROVISIONS.**

**21.1. Notices.** Any notices required or permitted to be given under this Agreement will be in writing and will be delivered (a) in person, (b) by certified mail, postage prepaid, return

receipt requested, or (c) by U.S. Express Mail or commercial overnight courier that guarantees next day delivery and provides a receipt, and such notices will be addressed as follows:

**Port:**

Port of San Francisco  
Pier I  
San Francisco, CA 94111  
Attn: Director of Real Estate and Development  
Re: Mission Rock ([Identify Parcel])

**with a copy to:**

Port of San Francisco  
Pier I  
San Francisco, CA 94111  
Attn: General Counsel  
Re: Mission Rock ([Identify Parcel])

**Vertical Developer:**

**with a copy to:**

or such other address as either party may from time to time specify in writing to the other party. Any notice will be deemed given when actually delivered (or when delivered is refused, if applicable) if such delivery is in person, two (2) days after deposit with the U.S. Postal Service if such delivery is by certified or registered mail, and the next business day after deposit with the U.S. Postal Service or with the commercial overnight courier service if such delivery is by overnight mail.

**21.2. Amendments/Technical Changes.** This Agreement may be amended or modified only by a written instrument signed by the Vertical Developer and Port. Without limiting the foregoing, Vertical Developer and the Port may correct any inadvertent error to this Agreement or any of its exhibits or implementing documents that is contrary to the Parties' intention in the identification or characterization of or any reference to any title exception, legal description, boundaries of any parcel, map or drawing, or the text, or otherwise agree to minor changes that do not materially and adversely affect the Vertical Project or Deferred Infrastructure (as reasonably determined by Vertical Developer). Any agreed change will be effected by a signed memorandum or replacement pages. A memorandum or replacement sheet will not be deemed an amendment of this Agreement or the relevant document as long as any adjustments are relatively minor and do not result in a material change as determined by the Port in consultation with counsel. Any memorandum will become a part of this Agreement or the affected document when fully executed.

**21.3. Representations and Warranties of Vertical Developer.** Vertical Developer represents and warrants to Port as of the Effective Date and as of the Closing Date as follows:

(a) That Vertical Developer is a duly organized [\_\_\_\_\_] validly existing, and in good standing under the laws of the State of [\_\_\_\_\_]. Vertical Developer has all requisite power and authority to conduct its business as presently conducted.

(b) That Vertical Developer has not been suspended, disciplined or disbarred by, or prohibited from contracting with, any federal, state or local governmental agency. In the event Vertical Developer has been so suspended, disbarred, disciplined or prohibited from contracting with any governmental agency, it will immediately notify Port of same and the

reasons therefore together with any relevant facts or information requested by Port. Any such suspension, debarment, discipline or prohibition may result in the termination or suspension of this Agreement.

(c) That this Agreement and all documents executed by Vertical Developer: (i) are, and at the time of Closing will be, duly authorized, executed and delivered by Vertical Developer; (ii) are, and at the time of Closing will be, legal, valid and binding obligations of Vertical Developer enforceable against Vertical Developer in accordance with their terms; and (iii) do not, and at the time of Closing will not, violate any provision of any agreement or judicial order to which Vertical Developer is a party or to which Vertical Developer is subject.

(d) That Vertical Developer has all requisite power and authority to execute and deliver the Transaction Documents and to carry out and perform all of the terms and covenants of the Transaction Documents.

(e) None of Vertical Developer's formation documents, nor any other agreement or Law in any way prohibits, limits or otherwise affects the right or power of Vertical Developer to enter into and perform all of the terms and covenants of the Transaction Documents. Vertical Developer is not party to or bound by any contract, agreement, indenture, trust agreement, note, obligation or other instrument that could prohibit, limit or otherwise affect the same. No consent, authorization or approval of, or other action by, and no notice to or filing with, any governmental authority, regulatory body or any other Person is required for the due execution, delivery and performance by Vertical Developer of the Transaction Documents or any of the terms and covenants contained therein. There are no pending or threatened lawsuits or proceedings or undischarged judgments affecting Vertical Developer before any court, governmental agency, or arbitrator that is reasonably expected to materially and adversely affect the enforceability of the Transaction Documents or the business, operations, assets or condition of Vertical Developer.

(f) The execution, delivery and performance of the Transaction Documents (i) do not and will not violate or result in a violation of, contravene or conflict with, or constitute a default under (A) any agreement, document or instrument to which Vertical Developer or by which Vertical Developer's assets may be bound or affected, (B) any Law, or (C) the articles of incorporation, the bylaws, partnership agreement or operating agreement of Vertical Developer, and (ii) do not and will not result in the creation or imposition of any lien or other encumbrance upon the assets of Vertical Developer (other than the lien of a Mortgage in accordance with this Agreement or the Parcel Lease).

(g) There is no material adverse change in Vertical Developer's financial condition and Vertical Developer is meeting its current liabilities as they mature; no federal or state tax liens have been filed against it; and Vertical Developer is not in default or claimed default under any agreement for borrowed money.

(h) Notwithstanding anything to the contrary in this Agreement, the foregoing representations and warranties will survive the Closing.

**21.4. Governing Law.** This Agreement will be governed by, subject to, and construed in accordance with the laws of the State of California and City's Charter and Administrative Code. All legal actions related to this Agreement will be instituted in the Superior Court of the City and County of San Francisco, State of California, in any other appropriate court in the City or, if appropriate, in the Federal District Court in San Francisco, California.

**21.5. Merger of Prior Agreements.** This Agreement, together with the exhibits hereto, contain any and all representations, warranties and covenants made by Vertical Developer and Port and constitutes the entire understanding between the parties hereto with respect to the subject matter hereof. Any prior correspondence, memoranda or agreements are replaced in total by this Agreement together with the exhibits hereto.

**21.6. Parties and Their Agents.** The term "Vertical Developer" as used herein will include the plural as well as the singular. If Vertical Developer consists of more than one (1) individual or entity, then the obligations under this Agreement imposed on Vertical Developer will be joint and several. As used herein, the term "Agents" when used with respect to either party will include the agents, employees, officers, contractors and representatives of such party.

**21.7. Interpretation of Agreement.**

(a) **Exhibits.** Whenever an "Exhibit" is referenced, it means an exhibit or attachment to this Agreement unless otherwise specifically identified. All such Exhibits are incorporated in this Agreement by reference.

(b) **Captions.** Whenever a section or paragraph is referenced, it refers to this Agreement unless otherwise specifically identified. The captions preceding the sections of this Agreement and in the table of contents have been inserted for convenience of reference only. Such captions will not define or limit the scope or intent of any provision of this Agreement.

(c) **Words of Inclusion.** The use of the term "including", "include", "such as" or words of similar import when following any general term, statement or matter will not be construed to limit such term, statement or matter to the specific items or matters, whether or not language of non-limitation is used with reference thereto. Rather, such terms will be deemed to refer to all other items or matters that could reasonably fall within the broadest possible scope of such statement, term or matter.

(d) **No Presumption Against Drafter.** This Agreement has been negotiated at arm's length and between Persons sophisticated and knowledgeable in the matters dealt with herein. In addition, experienced and knowledgeable legal counsel has represented each Party. Accordingly, this Agreement will be interpreted to achieve the intents and purposes of the Parties, without any presumption against the Party responsible for drafting any part of this Agreement (including California Civil Code Section 1654).

(e) **Costs and Expenses.** The Party on which any obligation is imposed in this Agreement will be solely responsible for paying all costs and expenses incurred in the performance of such obligation, unless the provision imposing such obligation specifically provides to the contrary.

(f) **Agreement References.** Wherever reference is made to any provision, term or matter "in this Agreement," "herein" or "hereof" or words of similar import, the reference will be deemed to refer to any and all provisions of this Agreement reasonably related thereto in the context of such reference, unless such reference refers solely to a specific numbered or lettered section or paragraph of this Agreement or any specific subdivision of this Agreement.

**21.8. Attorneys' Fees.** If either Party hereto fails to perform any of its respective obligations under this Agreement or if any dispute arises between the Parties hereto concerning the meaning or interpretation of any provision of this Agreement, then the defaulting Party or the Party not prevailing in such dispute, as the case may be, will pay any and all costs and expenses incurred by the other party on account of such default or in enforcing or establishing its rights hereunder, including, without limitation, court costs and reasonable attorneys' fees and disbursements. For purposes of this Agreement, the reasonable fees of attorneys of the Office of the City Attorney of the City and County of San Francisco will be based on the fees regularly charged by private attorneys with the equivalent number of years of experience in the subject matter area of the law for which the City Attorney's services were rendered who practice in the City of San Francisco in law firms with approximately the same number of attorneys as employed by the City Attorney's Office.

**21.9. Time of Essence.** Time is of the essence with respect to the performance of the parties' respective obligations contained herein.

**21.10. No Merger.** The obligations contained herein that expressly survive the Closing will not merge with the transfer of title to the Property but will remain in effect until fulfilled.

**21.11. Non-Liability of City Officials, Employees and Agents.** Notwithstanding anything to the contrary in this Agreement, no elective or appointive board, commission, member, officer, employee or agent of City will be personally liable to Vertical Developer, its successors and assigns, in the event of any default or breach by City or for any amount which may become due to Vertical Developer, its successors and assigns, or for any obligation of City under this Agreement.

**21.12. Conflicts of Interest.** Through its execution of this Agreement, Vertical Developer acknowledges that it is familiar with the provisions of Section 15.103 of City's Charter, Article III, Chapter 2 of City's Campaign and Governmental Conduct Code, and Section 87100 et seq. and Section 1090 et seq. of the Government Code of the State of California, and certifies that it does not know of any facts which constitute a violation of said provisions and agrees that if it becomes aware of any such fact during the term of this Agreement, Vertical Developer will immediately notify the City.

**21.13. Notification of Limitations on Contributions.** Through its execution of this Agreement, Vertical Developer acknowledges that it is familiar with Section 1.126 of the San Francisco Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City for the selling or leasing of any land or building to or from the City whenever such transaction would require the approval by a City elective officer, the board on which that City elective officer serves, or a board on which an appointee of that individual serves, from making any campaign contribution to (1) the City elective officer, (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual or candidate, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six months after the date the contract is approved. Vertical Developer acknowledges that the foregoing restriction applies only if the contract or a combination or series of contracts approved by the same individual or board in a fiscal year have a total anticipated or actual value of \$50,000 or more. Vertical Developer further acknowledges that the prohibition on contributions applies to each Vertical Developer; each member of Vertical Developer's board of directors, and Vertical Developer's chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than twenty percent (20%) in Vertical Developer; any subcontractor listed in the contract; and any committee that is sponsored or controlled by Vertical Developer. Additionally, Vertical Developer acknowledges that Vertical Developer must inform each of the persons described in the preceding sentence of the prohibitions contained in Section 1.126. Vertical Developer further agrees to provide to City the names of each person, entity or committee described above.

**21.14. Sunshine Ordinance.** Vertical Developer understands and agrees that under the City's Sunshine Ordinance (San Francisco Administrative Code, Chapter 67) and the State Public Records Law (Gov. Code Section 6250 et seq.), this Agreement and any and all records, information, and materials submitted to the City or Port hereunder are public records subject to public disclosure. Vertical Developer hereby acknowledges that the City or Port may disclose any records, information and materials submitted to the City or Port in connection with this Agreement.

**21.15. Tropical Hardwood and Virgin Redwood Ban.** The City and County of San Francisco urges companies not to import, purchase, obtain or use for any purpose, any tropical hardwood, tropical hardwood wood product, virgin redwood or virgin redwood wood product except as expressly permitted by the application of Sections 802(b) and 803(b) of the San Francisco Environment Code.

**21.16. MacBride Principles - Northern Ireland.** The City urges companies doing business in Northern Ireland to move toward resolving employment inequities and encourages them to abide by the MacBride Principles as expressed in San Francisco Administrative Code Section 12F.1 et seq. The City also urges companies to do business with corporations that abide by the MacBride Principles. Vertical Developer acknowledges that it has read and understands the above statement of the City concerning doing business in Northern Ireland.

**21.17. Severability.** If any provision of this Agreement or the application thereof to any person, entity or circumstance will be invalid or unenforceable, the remainder of this Agreement, or the application of such provision to persons, entities or circumstances other than those as to which it is invalid or unenforceable, will not be affected thereby, and each other provision of this Agreement will be valid and be enforceable to the fullest extent permitted by law, except to the extent that enforcement of this Agreement without the invalidated provision would be unreasonable or inequitable under all the circumstances or would frustrate a fundamental purpose of this Agreement.

**21.18. Counterparts.** This Agreement may be executed in two (2) or more counterparts, each of which will be deemed an original, but all of which taken together will constitute one and the same instrument.

**21.19. Further Assurances.** The parties agree to execute such instruments or to do such further acts as may be reasonably necessary to carry out the provisions of this Agreement; provided, however, that no party will be obligated to provide such instruments and to do such further acts that would materially increase such party's liabilities hereunder or materially decrease such party's rights hereunder. The provisions of this section will survive the Closing.

**21.20. [add if the Vertical Project will include inclusionary BMR units].**  
**Enforceability Waivers.** The Horizontal DDA (including the Affordable Housing Plan), together with this Agreement, implements the California Infrastructure Financing District Law, Cal. Government Code §§ 53395 et seq. and City of San Francisco policies and includes regulatory concessions and significant public investment in the Project. The regulatory concessions and public investment include, without limitation, a direct financial contribution of net tax increment, the conveyance of real property without payment, and other forms of public assistance specified in California Government Code section 65915 et seq. These public contributions result in identifiable, financially sufficient and actual cost reductions for the benefit of Horizontal Developer and Vertical Developers, as contemplated by California Government Code section 65915. In light of the Port's authority under Government Code Section 53395.3 and in consideration of the direct financial contribution and other forms of public assistance described above, the Parties understand and agree that the Costa-Hawkins Act does not and will not apply to the Inclusionary Units developed at the Vertical Project under this Agreement. The Port would not enter into this Agreement without the above provisions. **[Note: To Be Confirmed]**

**21.21. Plans on Record with Port.** The most recent versions of the Exhibits, as such Exhibits may be amended or supplemented from time to time in accordance with this Agreement or the terms of such Exhibits, will not be required to be recorded but will be kept on file with the Port. Full color copies of all recorded documents are also on file with the Port. All documents on file with the Port will be made available to members of the public at reasonable times in keeping with the Port's standard practices.

**21.22. Survival; Effect of Termination.** Any release, partial release, expiration or termination of this Agreement will not affect any provision of this Agreement that, by its express term, is intended to survive the expiration or termination of this Agreement. Upon any termination of this Agreement before issuance of the final Certificate of Completion by reason of a Vertical Developer Default, Vertical Developer will not have the right to proceed with the Vertical Project improvements or Deferred Infrastructure and any additional construction must proceed, if at all, under the terms of a new vertical disposition and development agreement with

the Port or, with the written agreement of the Port, a reinstatement of this Agreement with appropriate agreed upon revisions.

## **22. DEFINITIONS.**

For purposes of this Agreement, initially capitalized terms will have the meanings ascribed to them in this Article:

“Acceptance Delay” is defined in *Section 12.1(b)(v)*.

“Acceptance Notice” is defined in *Section 6.1(a)*.

“Acquisition Price” is defined in *Section 2*.

“Acquisition Event of Default” is defined in *Section 10.1*.

“Adequate Security” is defined in the Appendix.

“Administrative Delay” means a delay caused when: (i) a Regulatory Agency fails to act on Vertical Developer’s request or application within the time specified, or, if no such time is specified, within a reasonable time under its standard practices for the type of Regulatory Approval requested; or (ii) an appeal body or court determines that a Regulatory Agency’s act or failure to act on an application was improper following a challenge by Vertical Developer.

“Administrative Delay” excludes any delay caused by Vertical Developer’s failure to meet any specified deadline or to submit timely all required and requested information supporting a request or application.

“Administrative Fees” means a fee imposed by Port or the City in their respective regulatory capacities, that is in effect at the time and payable upon the submission of an application for any permit or approval (including, without limitation, development applications submitted in accordance with the SUD or building permit applications), which is intended to cover only the estimated actual costs to City or the Port of processing that application and inspecting work undertaken pursuant to that application and to reimburse the City or the Port for its administrative costs in processing applications for any permits or approvals required under the Vertical Development Requirements.

“Agents” is defined in *Section 21.6*.

“Agreement” means this Vertical Disposition and Development Agreement.

“Appendix” means that certain Appendix to Transaction Documents for the Mission Rock Project.

“Architect” means a design professional duly licensed by the State of California designated by Vertical Developer from time to time to issue the Architect’s Certificate.

“Architect’s Certificate” means a certificate from the Architect in the form attached hereto as *Exhibit P*, verifying Completion of the Vertical Project (excluding the Deferred Infrastructure).

“Assignment and Assumption Agreement” means an assignment of this Agreement in substantially the form of *Exhibit R* attached hereto.

“Associated Public Benefits” means [revise accordingly]

“As Is With All Faults” is defined in *Section 4.3*.

“BAAQMD” means the Bay Area Air Quality Management District.

“Board of Supervisors” means the San Francisco Board of Supervisors.

“Broker” is defined in *Section 9.2*.

“Cal OSHA” means the California Occupational Safety and Health Administration.

**"Certificate of Completion"** means a certificate executed by Port that Vertical Developer has Completed the construction of the Vertical Project in accordance with all the provisions of this Agreement.

**"CFD and Assessment Matters"** is defined in *Section 3.3(b)*.

**"City"** means the City and County of San Francisco, a municipal corporation.

**"City Agency"** means any public body or an individual authorized to act on behalf of the City in its municipal capacity, including the Board of Supervisors or any City commission, department, bureau, division, office, or other subdivision, and officials and staff to whom authority is delegated, on matters within the City Agency's jurisdiction.

**"City Costs"** means the actual and reasonable costs incurred by City (other than Port) in performing its obligations under this Agreement, as determined on a time and materials basis, including any defense costs as set forth in *Section 18.3*, but excluding work and fees covered by Administrative Fees.

**"City Fiscal Year"** means the period beginning on July 1 of any year and ending on the following June 30.

**"City Parties"** is defined in *Section 4.4*.

**"Claims"** means a demand made in an action or in anticipation of an action for money, mandamus, or any other relief available at law or in equity for a Loss arising directly or indirectly from acts or omissions occurring in relation to the Vertical Project or at the Property during the Term of this Agreement.

**"Closing"** is defined in *Section 2.2(b)*.

**"Closing Costs"** is defined in *Section 9.1*.

**"Closing Date"** is defined in *Section 7.2(a)*.

**"Commence Construction"**, **"Commencement of Construction"** and any variation thereof means the commencement of physical construction of the Vertical Project (excluding the Deferred Infrastructure), or a specified portion thereof, provided that the Commencement of Construction will not be deemed to have occurred until commencement of permanent foundations pursuant to a valid foundation permit (excluding the conducting of test borings or indicator piles or other excavation for pre-development testing). Vertical Developer's physical work on "site improvements", as that term is defined in California Civil Code Section 3102, without its commencement of the work described above, does not constitute Commencement of Construction.

**"Complete," "Completed," or "Completion"** means completion by Vertical Developer of all aspects of the Vertical Project in accordance with the approved Construction Documents, or provision of security satisfactory to Port for any Deferred Items, and issuance of applicable temporary certificates of occupancy for the Vertical Project (which, in the case of residential units, will mean that temporary certificates of occupancy have been issued for all units, except for any units that Vertical Developer may be using on a temporary basis as a rental office or for construction administration as to which Vertical Developer will obtain temporary certificates of occupancy promptly following cessation of such uses) but excluding the completion of any tenant improvements in any commercial project or any commercial portion of a mixed use project.

**"Construction Commencement Date"** is defined in *Section 12.1(b)*.

**"Construction Completion Date"** is defined in *Section 12.1(b)*.

**"Construction Documents"** means (i) schematic design documents approved by Planning or Port under the SUD, (ii) the plans, drawings, specifications, design criteria and other documents

necessary or appropriate to obtain the issuance of the applicable site permits and/or building permits issued by the Port for the Vertical Project, and (iii) Improvement Plans for Deferred Infrastructure approved by the Port in accordance with the ICA. As used in this Agreement "Construction Documents" does not mean any contracts between Vertical Developer and any contractor, subcontractor, architect, engineer or consultant.

"Contingency Period" is defined in *Section 6.1(a)*.

**[for residential rental inclusionary projects only]** "Costa Hawkins Act" means the Costa-Hawkins Rental Housing Act (Cal. Civ. Code §§1954.50-1954.535).

"CPI" is an acronym for the Consumer Price Index for All Urban Consumers in the San Francisco-Oakland-San Jose region (base period 1982-1984=100) that the United States Department of Labor, Bureau of Labor Statistics, publishes in February, April, June, August, October, and December of each year. If the index is changed after the Reference Date to use a different base year, CPI will be calculated using the published conversion factor. If publication is discontinued and not replaced, the Parties will confer to reach agreement on a substitute measure.

"Credit Bid" is defined in *Section 2.1*.

"DA Assignment and Assumption Agreement" is defined in *Section 6.5(a)(v)*.

"DA Ordinance" means Ordinance No. 033-18 approving the Development Agreement, incorporating by reference the General Plan Consistency Findings, authorizing the Planning Director and other City officials to execute the Development Agreement on behalf of the City, and waiving the application of certain Municipal Code provisions to aspects of the Project.

"DDA and Master Lease Partial Release" is defined in *Section 6.4(a)(xiii)* "Deferred Infrastructure" means those certain Horizontal Improvements identified in *Section 12.4-1* that Vertical Developer is or will be required to construct under this Agreement.

"Deferred Items" is defined in *Section 13.1(b)*.

"Deliver" or "Delivery" means delivery of the ground lease of the Property.

"Deposit" is defined in *Section 2.2(a)*.

"Design Controls" means the Mission Rock Design Controls dated [\_\_\_\_\_, 2018], as amended from time to time.

"Development Agreement" means that certain Development Agreement by and between the Port and Horizontal Developer, dated as of \_\_\_\_\_, 2018 and recorded in the Official Records as Document No. \_\_\_\_\_.

"Development Documents" means (i) the SUD and the Final Map for each Phase in the Project Site; (ii) the Design Controls; (iii) approved Construction Documents; (v) the Development Agreement, (vi) the Horizontal DDA, and (vii) the Appendix.

"Development Easements" is defined in *Section 3.4(a)*.

"Development Schedule" means the time period to develop the Vertical Project, as set forth in *Exhibit B-2* attached hereto.

"Effective Date" means the date on which both parties have executed this Agreement as set forth below.

"Environmental Covenants" means any recorded deed restrictions, as may be in effect from time to time, which impose conditions under which certain land uses will be permitted at designated portions of the Project Site.

"Environmental Laws" mean all present and future federal, State and local Laws, statutes, rules, regulations, ordinances, standards, directives, and conditions of approval, all

administrative or judicial orders or decrees and all permits, licenses, approvals or other entitlements, or rules of common law pertaining to Hazardous Materials (including the Handling, Release, or Remediation thereof), industrial hygiene or environmental conditions in the environment, including structures, soil, air, air quality, water, water quality and groundwater conditions, any environmental mitigation measure adopted under Environmental Laws affecting any portion of the Property, the protection of the environment, natural resources, wildlife, human health or safety, or employee safety or community right-to-know requirements related to the work being performed under this Lease. "Environmental Laws" include the City's Pesticide Ordinance (Chapter 39 of the San Francisco Administrative Code), Section 20 of the San Francisco Public Works Code (Analyzing Soils for Hazardous Waste), the FOG Ordinance, the Mission Rock Soil Management Plan and that certain Covenant and Environmental Restrictions on Property made as of August 11, 2016, by the City, acting by and through the Port, for the benefit of the California Regional Water Quality Control Board for the San Francisco Bay Region and recorded in the Official Records as document number 2016-K308328-00 and the Environmental Covenants.

"Escrow Agent" means the Title Company acting in its capacity as the escrow agent for the transaction.

"Executed Assignment and Assumption Agreement" is defined in *Section 19.1*.

"Exempt Parcel" means, depending on the context: (i) any assessor's parcel of a real property interest that is exempt from property taxation under California law; and (ii) any assessor's parcel of a real property interest that is exempt from Mellor-Ross Taxes under an RMA. "Exempt Parcel" excludes any parcel that: (1) the Port or any other Regulatory Agency acquires by gift, devise, negotiated transaction, or foreclosure; (2) the Port acquires under the Horizontal DDA; or (3) is in private use for taxable purposes.

"Extension Fee" is defined in *Section 12.1(b)*.

"Extension Option" is defined in *Section 12.1(b)*.

"Final Map" means a final Subdivision Map that includes the Property meeting the requirements of the Subdivision Code, Subdivision Regulations and the Map Act, subject to amendments made by the DA Ordinance, which map has been approved by the Board of Supervisors and recorded in the Official Records.

"Final Map Condition Precedent" is defined in *Section 7.2(b)(iii)*.

"FOG Ordinance" means Sections 140-140.7 of Article 4.1 of the San Francisco Public Works Code, or any subsequent amendment or replacement of the same that sets forth prohibitions, limitations and requirements for the discharge of fats, oils and grease into the City's sewer system by food service establishments.

"Force Majeure" means events which result in delays in a Party's performance of its obligations hereunder due to causes beyond such Party's control and not caused by the acts or omissions of such Party, including, but not restricted to, acts of nature or of the public enemy, fires, floods, earthquakes, tidal waves, strikes, freight embargoes, and unusually severe weather. Force Majeure does not include (i) failure to obtain financing or failure to have adequate funds, (ii) flooding from curbside streets and/or sidewalks; or (iii) any event that does not cause an actual delay. The delay caused by Force Majeure includes not only the period of time during which performance of an act is hindered, but also such additional time thereafter as may reasonably be required to make additional repairs or obtain additional Regulatory Approvals that would not have otherwise been required but for the Force Majeure Event.

"Handle" when used with reference to Hazardous Materials means to use, generate, move, handle, manufacture, process, produce, package, treat, transport, store, emit, discharge or dispose of any Hazardous Material. "Handling" has a correlative meaning.

**"Hazardous Material"** means any material, waste, chemical, compound, substance, mixture, or byproduct that is identified, defined, designated, listed, restricted or otherwise regulated under Environmental Laws as a "hazardous constituent", "hazardous substance", "hazardous waste constituent", "infectious waste", "medical waste", "biohazardous waste", "extremely hazardous waste", "pollutant", "toxic pollutant", or "contaminant", or any other designation intended to classify substances by reason of properties that are deleterious to the environment, natural resources, wildlife, or human health or safety, including, without limitation, ignitability, infectiousness, corrosiveness, radioactivity, carcinogenicity, toxicity, and reproductive toxicity. Hazardous Material includes, without limitation, any form of natural gas, petroleum products or any fraction thereof, asbestos, asbestos-containing materials, polychlorinated biphenyls ("PCBs"), PCB-containing materials, and any substance that, due to its characteristics or interaction with one or more other materials, wastes, chemicals, compounds, substances, mixtures or byproducts, damages or threatens to damage the environment, natural resources, wildlife or human health or safety. **"Hazardous Materials"** also includes the chemicals identified in the Mission Rock Soil Management Plan.

**"Horizontal DDA"** means that certain Disposition and Development Agreement between the City and County of San Francisco, a municipal corporation and charter city, acting by and through the San Francisco Port Commission, and SWL 337 Associates, LLC, a Delaware limited liability company, dated for reference purposes only as of [\_\_\_\_\_, 2018].

**"Horizontal Developer"** is defined in *Recital A*.

**"Horizontal Developer Estoppel"** means the estoppel certificate signed by Horizontal Developer substantially in the form attached hereto as *Exhibit K*.

**"Horizontal Documents"** is defined in *Section 3.1(c)*.

**"Horizontal Improvements"** is defined in the Horizontal DDA.

**"ICA"** means the Interagency Cooperation Agreement between various City agencies and departments and the Port, dated as of [\_\_\_\_\_, 2018], establishing procedures for City review of the Project.

**"Impact Fees and Exactions"** is defined in the Development Agreement.

**"Inclusionary Units"** has the meaning set forth in the Housing Plan attached to the Horizontal DDA.

**"Indemnify"** means indemnify, protect, defend and hold harmless. **"Indemnification"** and **"Indemnity"** have correlative meanings.

**"Independent Contract Consideration"** as described in *Section 2.2(d)*.

**"Land Use Plan"** means the map attached to the Horizontal DDA as *Exhibit A3*, which consists of a map showing Horizontal Developer's proposed land uses and intensity of vertical development at the Project Site as of the Effective Date of the Horizontal DDA.

**"Laws"** means any of the following validly in effect as of the Commencement Date and as later amended, supplemented, clarified, corrected, or replaced during the Term, whether or not within the present contemplation of the Parties: (i) federal, state, regional, or local constitution, charter, law, statute, ordinance, code, rule of common law, resolution, rule, regulation, standard, directive, requirement, proclamation, order, decree, and policy (including the Waterfront Plan and Port and City construction requirements); (ii) judicial order, injunction, writ, or other decision interpreting any law; (iii) requirement or condition of any Regulatory Approval of a Regulatory Agency affecting any portion of the Project Site; and (iv) recorded covenants, conditions, or restrictions affecting any portion of the Project Site. **"Laws"** include the Mitigation and Monitoring Program and the Soil Management Plan and Environmental Covenants.

"Lender" is defined in the Parcel Lease.

"License" is defined in *Section 5.1*.

"Losses" means, when used in reference to a Claim, any personal injury, property damage, or other loss, liability, actual damages, compensation, contribution, cost recovery, lien, obligation, interest, injury, penalty, fine, action, judgment, award, or costs (including reasonable attorneys' fees), or reasonable costs to satisfy a final judgment of any kind, known or unknown, contingent or otherwise, except to the extent specified in this Agreement.

"Map Act" means the Subdivision Map Act of California (Calif. Gov't Code §§ 66410-66499.37).

"Master Association" as described in *Section 3.4(b)*.

"Master Commercial Declaration" means XXX.

"Master Lease" is defined in *Recital A*.

"Master Marketing Fee" is defined in *Section 12.14*.

"Master Residential Declaration" means XXX.

"Mello Roos Taxes" means special taxes that the City levies in a City Fiscal Year on Taxable Parcels in the Mission Rock CFD in accordance with the RMA, including delinquent special taxes collected at any time by payment or through foreclosure.

"Memorandum of Lease" is defined in *Section 7.3(a)(i)*.

"Memorandum of VDDA" is defined in *Section 7.3(a)(iii)*.

"Minimum Net Worth Amount" means Twenty-Seven Million Five Hundred Thousand Dollars (\$27,500,000.00), which amount will increase by ten percent (10%) on the tenth (10th) anniversary of the Effective Date and every ten (10) years thereafter. **[NOTE: \$27.5 million to increase by 5% every 5 years after Horizontal DDA execution]**

"Mission Rock CFD" is a term used to refer to CFD No. XXXX, if and when formed.

"Mission Rock Master Association Documents" means XXXX.

"Mission Rock Soil Management Plan" means the Mission Rock Soil Management Plan, prepared for [ ] by [ ] and dated [ ], 20 [ ], and approved by the RWQCB on [ ], 20 [ ], including any amendments and revisions thereto that are approved by the RWQCB, and as interpreted by Regulatory Agencies with jurisdiction.

"Mitigation Monitoring and Reporting Program" means the Mitigation Monitoring and Reporting Program adopted by the Port for the Project on January 30, 2018, by Resolution No. 18-03.

"Net Worth Requirement" means, with respect to a proposed transferee, the proposed transferee has a net worth (inclusive of its equity in the Property) equal to at least the Minimum Net Worth Amount, less any debt to be secured by (i) the proposed transferee's interest in the Property, or (ii) a pledge of the proposed transferee's ownership interest.

"Notice of Special Tax" is defined in *Section 3.3(a)*.

"Objectionable Items" is defined in *Section 6.1(b)*.

"Objection Notice" is defined in *Section 6.1(b)*.

"Official Records" means the official records of the City and County of San Francisco.

"Other City Agency" means a City Agency other than the Port.

"Parcel Lease" is defined in *Article 1*.

"Party" means Port or Vertical Developer, as a party to this Agreement. "Parties" means both Port and Vertical Developer, as parties to this Agreement.

"Permitted Encumbrances" as described in *Section 3.1(a)*.

"Permitted Port Title Exceptions" as described in *Section 3.1(b)*.

"Person" means any individual, partnership, corporation (including, but not limited to, any business trust), limited liability company, joint stock company, trust, unincorporated association, joint venture or any other entity or association, the United States, or a federal, state or political subdivision thereof.

"Phase" means one of the integrated stages of horizontal and vertical development for the Project Site as shown in the Phasing Plan.

"Phase Area" means the Development Parcels and other land in the Project Site that are to be developed in a Phase.

"Phasing Plan" means Horizontal DDA Exh A4, which shows the order of development of the Phases and the Development Parcels in each Phase Area, subject to revision under Horizontal DDA art. 3 (Phase Approval).

"Phase Submittal" means a Phase Submittal approved by the Port in accordance with *Article 3* of the Horizontal DDA.

"Planning Code" means the Planning Code of the City and County of San Francisco (including the SUD) and any modifications to the code as set forth in the Development Agreement.

"Port" or "Port Commission" means the San Francisco Port Commission.

"Port Costs" means the actual and reasonable costs incurred by Port in performing its obligations under this Agreement, as determined on a time and materials basis, including any defense costs as set forth in *Section 18.3*, but excluding work and fees covered by Administrative Fees.

"Port Costs Report" is defined in *Section 14.2*.

"Port Default" is defined in *Section 15.2*.

"Port Director" means the Executive Director of the Port.

"Port Title Defect" is defined in *Section 6.3(a)*.

"Project" means the development of Horizontal Improvements and Vertical Project within the Mission Rock Site in accordance with the Horizontal DDA and Development Documents.

"Project Requirements" is defined in *Section 12.1(a)*.

"Project Site" is defined in *Recital A*.

"Property" is defined in *Recital A*.

"Property Conditions" is defined in *Section 4.1*.

"Public Space Parcels" means those parcels designated in the Land Use Plan for Public Space and shown as such in the Infrastructure Plan, as amended from time to time.

"Qualified Transferee" means any transferee that satisfies each of the following criterion: (1) has, or has engaged a property manager with at least ten (10) years' experience operating [use for commercial leases: major commercial projects] [use for residential parcels: residential projects]; (2) satisfies the Net Worth Requirement; and (3) is subject to jurisdiction of the courts of the State.

**"Reference Date"** is defined in the Appendix.

**"Regulatory Agency"** means a City Agency or federal, state, or regional body, administrative agency, commission, court, or other governmental or quasi-governmental organization with jurisdiction over any aspect of the Vertical Project or the Project Site.

**"Regulatory Approval"** means any motion, resolution, ordinance, permit, approval, license, registration, permit, utility services agreement, Final Map, or other action, agreement, or entitlement required or issued by any Regulatory Agency with jurisdiction over any portion of the 28-Acre Site, as finally approved.

**"Regulatory Force Majeure"** means events that are reasonably out of Vertical Developer's control and that result in actual delays in Vertical Developer's ability to Commence or Complete Construction, including, without limitation, the following:

- (i) litigation or the threat of litigation, except to the extent caused by the acts or omissions of Vertical Developer or its Agents;
- (ii) Administrative Delay;
- (iii) Port or the City is required to conduct additional environmental review or prepare additional environmental documents, including, without limitation, a regional agency's decision to revise the standards or methods by which impacts under CEQA are evaluated, and such review or preparation is not caused by a change in the entitlements for the Vertical Project obtained by Master Developer (or its transferee) as of Port's approval of the Phase Budget for Phase [XX—insert applicable Phase for this Vertical Development];
- (iv) the unanticipated need to investigate, remediate, or otherwise correct previously unknown environmental or geotechnical conditions on or affecting any portion of the Property, but only if the conditions (or the need to investigate, remediate, or otherwise correct) were not reasonably foreseeable based on due diligence that should have reasonably been performed by a prudent commercial developer for a project similar in size and scope to the Vertical Project on a location with similar environmental or geotechnical conditions as the Property ("Prudent Developer") before the expiration of the Contingency Period; or
- (v) the unanticipated need to comply with any Mitigation Measures adopted for the Project for conditions on or affecting the Property, but only if the conditions were not reasonably discoverable before the expiration of the Contingency Period by a Prudent Developer and by their nature require a delay or work stoppage for investigation, remediation, or related activities, as long as Vertical Developer is proceeding in good faith and in a diligent manner to resolve the unforeseen issues.

**"Release"** means when used with respect to Hazardous Materials, any accidental, actual, imminent, or intentional spilling, introduction, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the air, soil, gas, land, surface water, groundwater or environment (including the abandonment or discarding of barrels, containers, and other closed receptacles containing any Hazardous Material).

**"Remediate" or "Remediation"** when used with reference to Hazardous Materials means any activities undertaken to clean up, abate, remove, transport, dispose, contain, treat, stabilize, monitor, remediate, or otherwise control Hazardous Materials located in, on, under or about the Property or which have been, are being, or threaten to be Released into the environment or to restore the affected area to the standard required by the applicable Environmental Regulatory Agency in accordance with applicable Environmental Laws and any additional Port requirements. Remediation includes, without limitation, those actions included within the definition of "remedy" or "remedial action" in California Health and Safety Code Section 25322 and "remove" or "removal" in California Health and Safety Code Section 25323.

**"Required CC Submittals"** is defined in *Section 13.1(a)*.

**"Restrictive Covenants"** is defined in *Section 3.2* hereof.

**"RMA"** is an acronym for the Rate and Method of Apportionment.

**"Scope of Development"** is the general description of the Vertical Project, as set forth in *Exhibit B-1* attached hereto.

**"SFDPH"** means the San Francisco Department of Public Health.

**"SFPW"** means San Francisco Public Works.

**"SOP Compliance Determination"** means a recordable certificate that the Chief Harbor Engineer issues when granting Vertical Developer's SOP Compliance Request confirming that Vertical Developer has completed the Deferred Infrastructure.

**"SOP Compliance Request"** means a request made under Horizontal DDA § 14.6 (SOP Compliance) for an SOP Compliance Determination with respect to Deferred Infrastructure.

**"Special Provisions"** means the City and Port requirements set forth in *Article 20* hereof.

**"State Lands Indemnified Parties"** is defined in *Schedule 18.1*.

**"Subdivision Code"** means the San Francisco Subdivision Code, as amended by the DA Ordinance, and Subdivision Regulations.

**"Subdivision Map"** means any map that Horizontal Developer submits for Phase [XX] under the Map Act and the Subdivision Code.

**"Subdivision Regulations"** means subdivision regulations adopted by San Francisco Department of Public Works from time to time and any exceptions and design modifications from the standards set forth therein to the extent necessary to achieve consistency with the Infrastructure Plan and all matters previously approved in accordance with Section 4.1(a) of the ICA.

**"Successor Owner"** is defined in the Parcel Lease.

**"SUD"** means Planning Code Section 249.80 (the Mission Rock Special Use District), as amended from time to time.

**"Survey"** means a survey required by the Title Company to issue the title insurance policy described in the Title Commitment.

**"Taxable Parcel"** means an assessor's parcel of real property or other real estate interest created by each Phase Final Map that is not an Exempt Parcel, which may include leased space occupied for private use in an Exempt Parcel.

**"Taxes and Assessments"** is defined in *Section 6.6*.

**"Tentative Map"** means a tentative subdivision map or tentative parcel map submitted by an applicant and approved by the City in accordance with procedures under the Subdivision Code and Development Documents.

**"Termination Notice"** is defined in *Section 6.1(a)*.

**"Title Commitment"** means a commitment by the Title Company that it will issue to Vertical Developer, an A.L.T.A. extended coverage title insurance policy, with such coinsurance or reinsurance and direct access agreements as Vertical Developer may request reasonably, in an amount designated by Vertical Developer which is satisfactory to the Title Company, insuring that the leasehold estate in the Property is vested in Vertical Developer subject only to the Permitted Title Exceptions, and with such C.L.T.A. form endorsements as may be requested reasonably by Vertical Developer, all at the sole cost and expense of Vertical Developer.

**"Title Company"** is defined in *Section 2.2(c)*.

**"Transaction Documents"** means the documents executed and delivered by Vertical Developer pursuant to *Section 7.3(b)*.

**"Transfer"** is defined in *Section 19.2*.

**"Transferee"** means any Person to which Vertical Developer assigns its rights and obligations under this Agreement in accordance with *Article 19*.

**"Transferor"** means Vertical Developer, in its capacity as a transferor of its rights and obligations under this Agreement in accordance with *Article 19*.

**"Transportation Demand Management Plan"** means the Transportation Demand Management Plan that is included in the Horizontal DDA Exh B7 (Transportation Exhibit).

**"Unmatured Vertical Developer Event of Default"** means any default that, with the giving of notice or the passage of time, or both would constitute a Vertical Developer Acquisition Event of Default or Vertical Developer Default under this Agreement.

**"VCA"** means the Vertical Cooperation Agreement to be executed between Vertical Developer and Horizontal Developer, as the same may be amended, supplemented, modified and/or assigned from time to time). add as applicable: The VCA will include, among other items, a schedule of Horizontal Developer's Horizontal Improvements obligations, Vertical Developer's Deferred Infrastructure obligations, and the timing of delivery for each. The VCA may include provisions related to (i) assignment and assumption of liability for Deferred Infrastructure, including bonding and warranty, (ii) sequencing and coordination of infrastructure work as between Master Developer and Vertical Developer, (iii) each party's obligations related to liability for damage and restoration thereof, (iv) repaving obligations to the extent of any underground work performed after Master Developer's paving, (v) Master Developer reasonable approval over changes to horizontal permit obtained by Vertical Developer, (vi) Master Developer self-help right if Vertical Developer fails to complete Deferred Infrastructure pursuant to an agreed upon schedule of performance, (vii) soil disposal arrangement, and (viii) mechanism for Vertical Developer to submit Deferred Infrastructure costs to Master Developer for reimbursement through Financing Plan (exclusive of fines, penalties, corrective actions).

**"Vertical Developer"** is defined in *Section 21.6*.

**"Vertical Developer Default"** is defined in *Section 15.1*.

**"Vertical Development Requirements"** means those certain requirements for development of the Property that are contained in: (i) the Development Documents; (ii) the Parcel Lease; (iii) the VCA; (iv) approved Construction Documents; and (v) this Agreement.

**"Vertical Project"** is defined in *Recital G*.

**"Workforce Development Plan"** means the Workforce Development Plan, including the Local Business Enterprise (LBE) Utilization Plan, attached hereto as *Exhibit I*.

**LEASE NO. L-XXXX**

THIS LEASE NO. L-XXXX (this "Lease") is dated as of the Effective Date, by and between THE CITY AND COUNTY OF SAN FRANCISCO, operating by and through the SAN FRANCISCO PORT COMMISSION ("Port"), as landlord, and [ ] ("Tenant"). The Basic Lease Information that appears on the preceding pages and all Exhibits and Schedules attached hereto are hereby incorporated by reference into this Lease and will be construed as a single instrument and referred to herein as this "Lease." In the event of any conflict or inconsistency between the Basic Lease Information and the Lease provisions, the Basic Lease Information will control. All initially capitalized terms used herein are defined in *Article 47* or have the meanings given them when first defined.

THIS LEASE IS MADE WITH REFERENCE TO THE FOLLOWING FACTS AND CIRCUMSTANCES:

A. Port is an agency of the City, exercising its functions and powers over property under its jurisdiction and organized and existing under the Burton Act and the City's Charter. The Waterfront Plan is Port's adopted land use document for property within Port jurisdiction, which provides the policy foundation for waterfront development and improvement projects.

B. The Port owns about 7½ miles of tidelands and submerged lands along San Francisco Bay. The seawall lots are tidelands that were filled and cut off from the waterfront by the construction of the great seawall in the late 19th and early 20th centuries, and by the construction of the Embarcadero roadway which lies, in part, over a portion of the great seawall. Seawall Lot 337, the largest of the designated seawall lots, is located just south of China Basin and for years has been used as a surface parking lot.

C. The Port and Seawall Lot 337 Associates, LLC, a Delaware limited liability company ("Master Developer"), are parties to that certain Disposition and Development Agreement dated as of [ ], 201\_ (the "DDA") and that certain Lease No. L-XX dated as of [ ], 20\_\_ (the "Master Lease"). The DDA and Master Lease govern the mixed-use development of an approximately 28-acre site, known as "Mission Rock" as more particularly described in the DDA and Master Lease. The DDA and Master Lease set forth a parcel disposition process under which the Port will enter into ground leases for developable parcels within Mission Rock.

D. This Lease is a [fully] [partially] [prepaid] ground lease with a [Vertical Developer Affiliate] [Third Party]. The form of this Lease was authorized by the Port Commission by Resolution No. XXX and the Board of Supervisors by Resolution No. XXX, which resolutions authorized the Port's Executive Director to enter into this Lease without further approval by the Port Commission or the Board of Supervisors under Charter Section 9.118.

E. [Include additional Recitals that describe exercise of Option, if applicable, the parcel disposition process as provided under the DDA, the escrow instructions approved and submitted by the parties, close of escrow and any other relevant facts and circumstances leading up to execution of this Lease]

ACCORDINGLY, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Parties agree as follows:

**1. PREMISES; TERM.**

**1.1. Premises.**

(a) **Lease of Premises; Description.** For the Rent and subject to the terms and conditions of this Lease, Port hereby leases to Tenant, and Tenant hereby leases from Port, the Premises described in the Basic Lease Information as of the Commencement Date.

(b) **Permitted Title Exceptions.** The interests granted by Port to Tenant pursuant to *Section 1.1(a)* are subject to (i) the matters reflected in *Exhibit F* (the "Permitted Title Exceptions"); and (ii) such other matters as Tenant will cause or suffer to arise subject to the terms and conditions of this Lease, and (iii) the rights of Port and the public reserved under the terms of this Lease.

(c) **Accessibility Inspection Disclosure.** California law requires commercial landlords to disclose to tenants whether the property being leased has undergone inspection by a Certified Access Specialist ("CASp") to determine whether the property meets all applicable construction-related accessibility requirements. The law does not require landlords to have the inspections performed. Tenant is hereby advised that the Premises has not been inspected by a CASp and Port will have no liability or responsibility to make any repairs or modifications to the Premises in order to comply with accessibility standards. The following disclosure is required by law:

"A Certified Access Specialist (CASp) can inspect the subject premises and determine whether the subject premises comply with all of the applicable construction-related accessibility standards under state law. Although state law does not require a CASp inspection of the subject premises, the commercial property owner or lessor may not prohibit the lessee or tenant from obtaining a CASp inspection of the subject premises for the occupancy or potential occupancy of the lessee or tenant, if requested by the lessee or tenant. The parties will mutually agree on the arrangements for the time and manner of the CASp inspection, the payment of the fee for the CASp inspection, and the cost of making any repairs necessary to correct violations of construction-related accessibility standards within the premises."

(d) **San Francisco Disability Access Disclosures.** Tenant is hereby advised that the Premises may not currently meet all applicable construction-related accessibility standards, including standards for public restrooms and ground floor entrances and exits. Tenant understands and agrees that Tenant may be subject to legal and financial liabilities if the Premises does not comply with applicable federal and state disability access Laws. As further set forth in *Article 7* (Compliance with Laws), Tenant further understands and agrees that it is Tenant's obligation, at no cost to Port, to cause the Premises and Tenant's use thereof to be conducted in compliance with the Disabled Access Laws and any other federal or state disability access Laws. Tenant will notify Port if it is making any Alterations or Improvements to the Premises that might impact accessibility standards required under federal and state disability access Laws.

(e) **No Right to Encroach.**

(i) If Tenant (including, its Agents, Invitees, successors and assigns) uses or occupies space outside the Premises without the prior written consent of Port (the "Encroachment Area"), then upon written notice from Port ("Notice to Vacate"), Tenant will immediately vacate such Encroachment Area and if such Encroachment Area is controlled by Port, pay as Additional Rent for each day Tenant used, occupied, uses or occupies such Encroachment Area, an amount equal to the rentable square footage of the Encroachment Area, multiplied by the then current fair market rent for such Encroachment Area, as reasonably determined by Port (the "Encroachment Area Charge"). If Tenant uses or occupies such Encroachment Area for a fractional month, then the Encroachment Area Charge for such period will be prorated based on a thirty (30) day month. In no event will acceptance by Port of the Encroachment Area Charge be deemed a consent by Port to the use or occupancy of the

Encroachment Area by Tenant, its Agents, Invitees, successors or assigns, or a waiver (or be deemed as a waiver) by Port of any and all other rights and remedies of Port under this Lease.

(ii) In addition, Tenant will pay to Port, as Additional Rent, an amount equaling Three Hundred Dollars (\$300.00), which amount will be increased by One Hundred Dollars (\$100.00) on the tenth (10<sup>th</sup>) Anniversary Date and every ten (10) years thereafter, upon delivery of the initial Notice to Vacate plus the actual cost associated with a survey of the Encroachment Area. In the event Port determines during subsequent inspection(s) that Tenant has failed to vacate the Encroachment Area, then Tenant will pay to Port, as Additional Rent, an amount equaling Four Hundred Dollars (\$400.00), which amount will be increased by One Hundred Dollars (\$100.00) on the tenth (10<sup>th</sup>) Anniversary Date and every ten (10) years thereafter, for each additional Notice to Vacate, if applicable, delivered by Port to Tenant following each inspection. The Parties agree that the charges associated with each inspection of the Encroachment Area, delivery of each Notice to Vacate and survey of the Encroachment Area represent a fair and reasonable estimate of the administrative cost and expense which Port will incur by reason of Port's inspection of the Premises, issuance of each Notice to Vacate and survey of the Encroachment Area. Tenant's failure to comply with the applicable Notice to Vacate and Port's right to impose the foregoing charges will be in addition to and not in lieu of any and all other rights and remedies of Port under this Lease. **[Note: Amounts to increase by \$50 every 5 years from DDA execution.]**

(iii) In addition to Port's rights and remedies under this *Section 1.1(e)*, the terms and conditions of the Indemnity and waiver provision set forth in *Article 19* (Indemnification of Port) will also apply to Tenant's (including, its Agents, Invitees, successors and assigns) use and occupancy of the Encroachment Area as if the Premises originally included the Encroachment Area, and Tenant will additionally Indemnify Port from and against any and all Losses resulting from delay by Tenant in surrendering the Encroachment Area including, without limitation, any Losses resulting from any Claims against Port made by any tenant or prospective tenant founded on or resulting from such delay and Losses to Port due to lost opportunities to lease any portion of the Encroachment Area to any such tenant or prospective tenant.

(iv) All amounts set forth in this *Section 1.1(e)* will be due within three (3) business days following the applicable Notice to Vacate and/or separate invoice relating to the actual cost associated with a survey of the Encroachment Area. By signing this Lease, each Party specifically confirms the accuracy of the statements made in this *Section 1.1(e)* and the reasonableness of the amount of the charges described in this *Section 1.1(e)*.

(f) **Subsurface Mineral Rights.** Under the terms and conditions of Article 2 of the Burton Act, the State has reserved all subsurface mineral deposits, including oil and gas deposits, on or underlying the Premises. In accordance with the provisions of Sections 2 and 3.5(c) of the Burton Act, Tenant and Port hereby acknowledge that the State has reserved the right to explore, drill for and extract such subsurface minerals, including oil and gas deposits, solely from a single point of entry outside of the Premises as identified in the Basic Lease Information, provided that such right will not be exercised so as to disturb or otherwise interfere with the Leasehold Estate or the use of the Premises, including the ability of the Premises to support the Improvements, but provided further that, without limiting any remedies the Parties may have against the State or other parties, any such disturbance or interference that causes damage or destruction to the Premises will be governed by *Article 14* (Damage or Destruction). Port will have no liability under this Lease arising out of any exercise by the State of such mineral rights (unless the State has succeeded to Port's interest under this Lease, in which case such successor owner may have such liability).

(g) **"AS IS WITH ALL FAULTS".** TENANT AGREES THAT PORT IS LEASING THE PREMISES TO TENANT, AND THE PREMISES ARE HEREBY ACCEPTED BY TENANT, IN THEIR EXISTING STATE AND CONDITION, "AS IS, WITH

ALL FAULTS." TENANT ACKNOWLEDGES AND AGREES THAT NEITHER PORT NOR ANY OF THE OTHER INDEMNIFIED PARTIES HAS MADE, AND THERE IS HEREBY DISCLAIMED, ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, OF ANY KIND, WITH RESPECT TO THE CONDITION IN, ON, UNDER, ABOVE, OR ABOUT THE PREMISES, TITLE TO THE PREMISES, THE SUITABILITY OR FITNESS OF THE PREMISES OR ANY APPURTENANCES THERETO FOR THE DEVELOPMENT, USE, OR OPERATION OF THE IMPROVEMENTS, THE COMPLIANCE OF THE PREMISES WITH ANY LAWS, ANY MATTER AFFECTING THE USE, VALUE, OCCUPANCY OR ENJOYMENT OF THE PREMISES, OR ANY OTHER MATTER PERTAINING TO THE PREMISES, ANY APPURTENANCES THERETO OR THE IMPROVEMENTS, AND AS FURTHER DESCRIBED HEREIN.

Tenant further acknowledges and agrees that it has been afforded a full opportunity to inspect Port's records relating to conditions in, on, around, under, and pertaining to the Premises. Port makes no representation or warranty as to the accuracy or completeness of any matters contained in such records. Tenant is not relying on any such information. All information contained in such records is subject to the limitations set forth in this *Section 1.1(g)*. Tenant represents and warrants to Port that Tenant has performed a diligent and thorough inspection and investigation in, on, around, under, and pertaining to the Premises, either independently or through its own experts including (i) the quality, nature, adequacy and physical condition in, on, around, under, and pertaining to the Premises including the structural elements, foundation, and all other physical and functional aspects in, on, around, under, and pertaining to the Premises; (ii) the quality, nature, adequacy, and physical, geotechnical and environmental condition in, on, around, under, and pertaining to the Premises, including the soil and any groundwater (including Hazardous Materials Conditions (including the presence of asbestos or lead) with regard to the building, soils and any groundwater); (iii) the suitability in, on, around, under, and pertaining to the Premises for the Improvements and Tenant's planned use of the Premises; (iv) title matters, the zoning, land use regulations, and other Laws governing use of or construction in, on, around, under, and pertaining to on the Premises; and (v) all other matters of material significance affecting in, on, around, under, and pertaining to the Premises and its development and use under this Lease.

As part of its agreement to accept the Premises in its "As Is With All Faults" condition, Tenant, on behalf of itself and its successors and assigns, will be deemed to waive any right to recover from, and forever release, acquit and discharge, Port, the City, and their respective Agents of and from any and all Losses, whether direct or indirect, known or unknown, foreseen or unforeseen, that Tenant may now have or that may arise on account of or in any way be connected with (i) the physical, geotechnical or environmental condition in, on, under, above, or about the Premises, including any Hazardous Materials in, on, under, above or about the Premises (including soil and groundwater conditions), (ii) the suitability of the Premises for the development of the Improvements, the Permitted Uses, value, occupancy or enjoyment of the Premises, (iii) title matters, the zoning land use regulations, and other Laws applicable thereto, including Environmental Laws, or any similar matter applicable to the Premises, any appurtenances thereto or the Improvements; or (iv) all other matters of material significance presently existing in, on, around, under, and pertaining to the Premises and its development and use under this Lease.

In connection with the foregoing release, Tenant acknowledges that it is familiar with California Civil Code, Section 1542, which provides as follows:

A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR.

Tenant agrees that the release contemplated by this *Section 1.1(g)* includes unknown claims pertaining to the subject matter of this release. Accordingly, Tenant hereby waives the benefits of Civil Code Section 1542, or under any other statute or common law principle of similar effect, in connection with the release contained in this *Section 1.1(g)*.

Tenant Initials: \_\_\_\_\_

The provisions of this *Section 1.1(g)* will survive the expiration or earlier termination of this Lease.

(h) **Title Defect.** Port will have no liability to Tenant in the event any defect exists in Port's title to the Premises as of the Commencement Date and no such defect will be grounds for a termination of this Lease by Tenant. Tenant's sole remedy with respect to any such existing title defect will be to obtain compensation by pursuing its rights against any title insurance company or companies issuing title insurance policies to Tenant.

(i) **No Light, Air or View Easement.** This Lease does not include an air, light, or view easement. Any diminution or shutting off of light, air or view by any structure which may be erected on lands near or adjacent to the Premises or by any vessels berthed near the Premises will in no way affect this Lease or impose any liability on Port, entitle Tenant to any reduction of Rent, or affect this Lease in any way or Tenant's obligations hereunder.

(j) **Unique Nature of Premises.** Tenant acknowledges that: (i) Port's regular maintenance may involve activities, such as pile driving, that create noise and other effects not normally encountered in locations elsewhere in San Francisco due to the unique nature of the Premises; (ii) there is a risk that all or a portion of the Premises will be inundated with water due to floods or sea level rise; and (iii) there is a risk that sea level rise will increase the cost of operations, maintenance, and repair of the Premises.

(k) **Memorandum of Technical Corrections.** The Parties reserve the right, upon mutual agreement of Port's Executive Director and Tenant, to enter into memoranda of technical corrections hereto to reflect any non-material changes in the actual legal description and square footages of the Premises, and upon full execution thereof, such memoranda will be deemed to become a part of this Lease.

(l) **[Port's Reservation of Rights.] [Note: Placeholder in the event may be necessary for certain leases (i.e. Outfall or other infrastructures and buffer zones)]**<sup>1</sup>

**1.2. Term.** The effectiveness of this Lease will commence on the Commencement Date as shown in the Basic Lease Information. The Lease will expire at 11:59 p.m. on the Expiration Date set forth in the Basic Lease Information, unless earlier terminated or extended in accordance with the terms of this Lease. The period from the Commencement Date until the final expiration of the Lease is referred to as the "Term." In no event will the Term of this Lease, or of any Sublease created under any provision of this Lease, extend beyond December 31, 2105.

## **2. RENT.**

During the Term, Tenant will pay Rent for the Premises to Port at the times and in the manner provided in *Exhibit D* attached hereto and incorporated herein by this reference.

## **3. USES.**

**3.1. Permitted Uses.** Tenant will use and operate the Premises in accordance with this Lease and solely for the Permitted Uses described in the Basic Lease Information. Tenant will not seek any amendment to the Project Approvals, including, without limitation, the SUD or Design Controls that would be substantially inconsistent with the land use restrictions set forth in

<sup>1</sup> Note: it is anticipated that the Reservation of Rights will be included in parcel-specific circumstances, such as if a public access area or the existing Outfall Infrastructure is included within the Premises boundary.

the Scope of Development without the prior written consent of the Port Commission and, during the term of the DDA, Master Developer, each in its sole discretion. The Parties recognize that from time to time, Tenant may desire to obtain additional use, zoning, regulatory or land use approvals or conditional use authorization relating to the Premises. Port agrees, from time to time, to reasonably cooperate with Tenant, at no cost to Port, in pursuing such regulatory approvals or authorizations, including, but not limited to, executing documents, applications or petitions relating thereto, subject to the limitations of this *Section 3.1, Section 3.7, and Article 8*.

**3.2. Prohibited Uses.** Tenant will not conduct or permit on the Premises any of the following activities (in each instance, a "Prohibited Use" and collectively, "Prohibited Uses"):

- (a) any activity, or the maintaining of any object, which is not within the Permitted Use or not previously approved by Port in writing, in its sole discretion;
- (b) any activity or object which will materially overload or cause material damage to the Premises (other than which would be considered reasonable wear and tear or which is otherwise repaired by Tenant in accordance with the terms of this Lease);
- (c) any activity which constitutes waste or nuisance, including, but not limited to, the preparation, manufacture or mixing of anything that might emit any unusually objectionable odors, noises or lights onto adjacent properties, or the use of loudspeakers or sound or light apparatus which can be heard or seen outside the Premises other than in connection with typical retail uses that do not violate any applicable Law;
- (d) any activity which will in any way injure, obstruct or interfere with the rights of ingress and egress of other owners, tenants, or occupants of adjacent properties;
- (e) the placement of any Sign on or near the Premises related to any auction, distress, fire, bankruptcy or going out of business sale on the Premises without the prior written consent of Port, which consent may be granted, conditioned, or withheld in the sole and absolute discretion of Port;
- (f) any vehicle and equipment maintenance, including but not limited to, fueling, changing oil, transmission or other automotive fluids; provided, however, the foregoing prohibition does not apply to standard equipment maintenance for office equipment (such as printers, computer, and copiers) and residential equipment (such as washing machines, dryers, and kitchen appliances) or to charging stations for electric vehicles and equipment;
- (g) the storage of any and all excavated materials, including but not limited to, dirt, concrete, sand, asphalt, and pipes (unless such use is reasonably required on a temporary basis to allow for the construction of the Initial Improvements, Subsequent Construction, or the repair or maintenance of the Improvements);
- (h) the storage of any and all aggregate material, or bulk storage, such as wood or of other loose materials (unless such use is reasonably required on a temporary basis to allow for the construction of the Initial Improvements, Subsequent Construction, or the repair or maintenance of the Improvements); or
- (i) [the construction of any structures or fixtures within, over, or under the Outfall Infrastructure Area without Port's prior consent, which may be withheld in its sole discretion] **[NOTE: Applicable only where Outfall Infrastructure Area is located within a development parcel; may need to include additional restrictions/protocols in an attached exhibit to protect infrastructure.]**
- (j) the washing of any vehicles or equipment (unless such use is (i) reasonably required on a temporary basis to comply with the Soil Management Plan during construction of the Initial Improvements or (ii) is ancillary to the Permitted Use and in accordance with a Port approved Operations Plan.

**3.3. Liquidated Damages for Repeat Prohibited Uses:** In addition to the other remedies available to Port under this Lease for an Event of Default under **Section 24.1(f)**, if Tenant uses the Premises for the same type of Prohibited Use and Port has delivered a notice of such violations more than two (2) times within the prior six (6) month period, then Tenant will pay Port an amount equal to Two Thousand Five Hundred Dollars (\$2,500.00) (as adjusted periodically, the "Prohibited Use Charge") for such Prohibited Use as liquidated damages, which Two Thousand Five Hundred Dollars (\$2,500.00) will be increased by ten percent (10%) on the fifth (5th) anniversary of the Commencement Date and every five (5) years thereafter. **[Note: \$2,500 will increase annually by 3% from and after 2018 until execution of this Lease.]**

THE PARTIES HAVE AGREED THAT PORT'S ACTUAL DAMAGES, IN THE EVENT TENANT USES THE PREMISES FOR A PROHIBITED USE MORE THAN TWO (2) TIMES WITHIN A SIX (6) MONTH PERIOD, WOULD BE EXTREMELY DIFFICULT OR IMPRACTICABLE TO DETERMINE. AFTER NEGOTIATION, THE PARTIES HAVE AGREED THAT, CONSIDERING ALL THE CIRCUMSTANCES EXISTING ON THE DATE OF THIS LEASE, THE AMOUNT OF THE PROHIBITED USE CHARGE IS A REASONABLE ESTIMATE OF THE DAMAGES THAT PORT WOULD INCUR IN SUCH AN EVENT. BY PLACING THEIR RESPECTIVE INITIALS BELOW, EACH PARTY SPECIFICALLY CONFIRMS THE ACCURACY OF THE STATEMENTS MADE ABOVE AND THE FACT THAT EACH PARTY WAS REPRESENTED BY COUNSEL WHO EXPLAINED, AT THE TIME THIS LEASE WAS MADE, THE CONSEQUENCES OF THIS LIQUIDATED DAMAGES PROVISION.

Initials:

Port

\_\_\_\_\_  
Tenant

**3.4. Advertising and Signs:** Subject to the prohibition on tobacco and alcohol advertising provided in **Article 45** (Other City Requirements), Tenant will have the right to install signs and advertising inside the Premises and the Improvements in accordance with the applicable provisions of the SUD, as may be amended from time to time. Tenant will have the right to place, construct or maintain any sign, flag, advertisement, awning, banner or other decoration (collectively, "Sign") on, or visible from, the exterior of the Premises without the prior written consent of Port acting in its proprietary capacity, provided the Sign complies with the Design Controls and the applicable provisions of the SUD. Any Sign that Tenant is permitted to place, construct or maintain on the Premises will comply with all Laws relating thereto, including but not limited to the Design Controls and the applicable provisions of the SUD, building permit requirements, and Tenant will obtain all Regulatory Approvals required by such Laws. Port makes no representation with respect to Tenant's ability to obtain any such Regulatory Approval. Tenant, at its sole cost and expense, will remove all Signs placed by it on the Premises at the expiration or earlier termination of this Lease.

**3.5. Restrictions on Encumbering Port's Reversionary Interest.** Tenant may not enter into agreements granting licenses, easements or access rights over the Premises if the same would be binding on Port's reversionary interest in the Premises without Port's prior written consent, which consent may be withheld in Port's sole discretion, and subject to the provisions of **Article 6** (Contests).

**3.6. Required Public Access Areas.** **[Note: Placeholder for leases where Public Access is required or part of the project.]** Tenant must maintain throughout the Term, dedicated public access areas within the Premises as depicted on **Exhibit B** attached hereto. The [size and location of the] Public Access Areas may be amended from time to time between the Parties, provided, however, in no event will the Public Access Areas be reduced from the Public Access Areas depicted on **Exhibit B** as of the Commencement Date without Port's prior written consent, or increased from the Public Access Areas depicted on **Exhibit B** as of the

Commencement Date without Tenant's prior written consent, in each case which consent may be withheld in its sole discretion. Tenant must maintain the Public Access Areas in accordance with, and in compliance with, this Lease and must comply with the Rules and Regulations for Public Access Areas set forth in *Schedule 3.6* attached hereto.

**3.7. Required Public Benefits.** [Note: Applicable for certain leases.] Tenant may not use the Minimum Public Benefit Area for any use other than the Required Uses without the prior written consent of Port, which consent may be granted, withheld or conditioned in Port's sole discretion. Tenant must include with any request to use the Minimum Public Benefit Area for uses other than the Required Uses evidence of its efforts to lease the Premises for the Required Uses, including outreach and marketing efforts. Port's consent to any one request to reduce the Minimum Public Benefit Area for Required Uses or use of such area for other uses will not be construed as consent for any subsequent request.

#### **4. DEVELOPMENT PROJECTS.**

**4.1. Generally.** Tenant acknowledges that during the Term, other development projects will be developed or constructed in the immediate vicinity of the Premises, and other development projects on or near Port property [(such as the development projects at Pier 48, Mission Rock, Chase Center, Mission Bay, and [REDACTED]). Pier 70 and the proposed development of over 5 million square feet on the 29-acre Central Waterfront site at or around 1201 Illinois Street (bounded by Illinois, the Bay, 22nd and 23rd Streets) also may be constructed in the vicinity of the Premises (collectively, "Development Projects"). Tenant is aware that construction of the Development Projects and other construction projects of Port tenants, licensees or occupants or projects of third parties in the vicinity of the Premises and the activities associated with such construction may generate adverse impacts on construction of the Initial Improvements or any Subsequent Construction, use and/or operation of the Premises after construction, or may result in inconvenience to or disturbance of Tenant and its Agents and Invitees. Said impacts may include increased vehicle and truck traffic, closure of traffic lanes, re-routing of traffic, traffic delays, loss of street and public parking, dust, dirt, construction noise, and visual obstructions (collectively, "Construction Impacts").

Tenant hereby waives any and all Losses against the Indemnified Parties arising out of any inconvenience or disturbance to Tenant, its Agents or Invitees, from Construction Impacts. The Parties will each use reasonable efforts to coordinate its construction efforts with each other and with others engaged in construction on such other projects in a manner that will seek, to the extent reasonably possible, to reduce construction conflicts.

**4.2. Cooperation.** The Master Developer Agreements will, among other things, permit the construction during the Term, of new public open space, new commercial and residential buildings, a parking structure, and other improvements, within Mission Rock. Tenant acknowledges and agrees that it will reasonably cooperate with Port, the Master Developer and other developers and tenants of Mission Rock, at no material out-of-pocket cost to Tenant.

#### **5. TAXES AND ASSESSMENTS.**

##### **5.1. Payment of Taxes and Other Impositions.**

**(a) Payment of Taxes.** Tenant will pay or cause to be paid to the proper authority prior to delinquency, all Impositions assessed, levied, confirmed, or imposed on the Premises or any of the Improvements or Personal Property (excluding the personal property of any Subtenant whose interest is separately assessed) located on the Premises or on its Leasehold Estate (but excluding any such taxes separately assessed, levied or imposed on any Subtenant), or on any use or occupancy of the Premises hereunder, to the full extent of installments or amounts payable or arising during the Term, whether in effect at the Commencement Date or which become effective thereafter. Tenant further recognizes and agrees that the Leasehold Estate may be subject to the payment of special taxes, including without limitation a levy of special taxes to finance energy efficiency, water conservation, water pollution control and similar

improvements under the Special Tax Financing Law in Chapter 43 Article X of the Administrative Code and the Mello-Roos Taxes described in **Section 5.2**. Tenant will not permit any such Impositions to become a defaulted lien on the Premises or the Improvements thereon; provided that if applicable Law permits Tenant to pay such taxes in installments, Tenant may elect to do so. In addition, Tenant will pay any fine, penalty, interest or cost as may be charged or assessed for nonpayment or delinquent payment of such taxes. Tenant will have the right to contest the validity, applicability or amount of any such taxes in accordance with **Article 6** (Contests). In the event of any such dispute, Tenant will indemnify the Indemnified Parties and hold them harmless from and against all Losses resulting therefrom.

(i) **Acknowledgment of Possessory Interest.** Tenant specifically recognizes and agrees that this Lease creates a possessory interest which is subject to taxation, and that this Lease requires Tenant to pay any and all possessory interest taxes levied upon Tenant's Leasehold Estate pursuant to an assessment lawfully made by the County Assessor. Tenant further acknowledges that any Sublease, Transfer, or Assignment permitted under this Lease and any exercise of any option to renew or extend this Lease may constitute a change in ownership, within the meaning of the California Revenue and Taxation Code, and therefore may result in a reassessment of any possessory interest created hereunder in accordance with applicable Law.

(ii) **Reporting Requirements.** San Francisco Administrative Code Sections 23.38 and 23.39 (or any successive or replacement ordinance) requires that Port report certain information relating to this Lease, and the creation, renewal, extension, assignment, sublease, or other transfer of any interest granted hereunder, to the County Assessor within sixty (60) days after any such transaction. Within thirty (30) days following the date of any transaction that is subject to such reporting requirements, Tenant will provide such information as may reasonably be requested by Port to enable Port to comply with such requirements.

(b) **Other Impositions.** Without limiting the provisions of **Section 5.1(a)**, and except as otherwise provided in this **Section 5.1(b)** and **Article 6**, Tenant will pay or cause to be paid all Impositions, to the full extent of installments or amounts payable or arising during the Term which may be assessed, levied, confirmed or imposed on or in respect of or be a lien upon the Premises, any Improvements now or hereafter located thereon, any Personal Property now or hereafter located thereon (but excluding the personal property of any Subtenant whose interest is separately assessed), the Leasehold Estate, or any subleasehold estate permitted hereunder, including any taxable possessory interest which Tenant, any Subtenant or any other Person may have acquired pursuant to this Lease (but excluding any such Impositions separately assessed, levied or imposed on any Subtenant). Subject to the provisions of **Article 6**, Tenant will pay all Impositions directly to the taxing authority, prior to delinquency, provided that if any applicable Law permits Tenant to pay any such Imposition in installments, Tenant may elect to do so. In addition, Tenant will pay any fine, penalty, interest or cost as may be assessed for nonpayment or delinquent payment of any Imposition. As used herein, "Impositions" means all taxes (including possessory interest, real, personal, and special taxes), Mello-Roos Taxes, assessments, liens, levies, fees, charges or expenses of every description, levied, assessed, confirmed or imposed by a governmental or quasi-governmental entity on the Premises, any of the Improvements or Personal Property located on the Premises, the Leasehold Estate, any subleasehold estate, or any use or occupancy of the Premises hereunder. Impositions includes all such taxes, assessments, liens, levies, fees charged or expenses of every description, whether general or special, ordinary or extraordinary, foreseen or unforeseen, or hereinafter levied or assessed in lieu of or in substitution of any of the foregoing of every character including, without limitation, Mello-Roos Taxes under the Mission Rock CFD. The foregoing or subsequent provisions notwithstanding, Tenant will not be responsible for any Impositions arising from or related to, Port's fee ownership interest in the Property or Premises, Port's interest as landlord under this Lease, or any transfer thereof, including but not limited to, Impositions relating to the fee, transfer taxes

associated with the conveyance of the fee, or business or gross rental taxes attributable to Port's fee interest or transfer thereof.

(c) **Proof of Compliance.** Within a reasonable time following Port's written request which Port may give at any time and give from time to time, Tenant will deliver to Port copies of official receipts of the appropriate taxing authorities, or other proof reasonably satisfactory to Port, evidencing the timely payment of such Impositions.

**5.2. CFD Matters and Shortfall Provisions.**

(a) **Section 53341.5 Acknowledgment.** Prior to Tenant's execution and delivery of this Lease, Master Developer and Port delivered to Tenant, and Tenant executed and delivered to Master Developer and Port, a notice of special tax pursuant to California Government Code Section 53341.5 (the "Notice of Special Tax") confirming that Tenant has been advised of the terms and conditions of the Mission Rock CFD, including that the Premises are subject to the Mello-Roos Taxes. A copy of the executed Notice of Special Tax is attached hereto as *Exhibit G*.

(b) **Facilities and Maintenance CFD.** As material consideration for the Port entering into this Lease, Tenant will comply with all of the covenants and acknowledgements set forth in *Exhibit H* (CFD and Assessment Matters) attached hereto and the Master Developer is an explicit third-party beneficiary of the covenants and acknowledgements set forth in *Exhibit H* (CFD Matters) attached hereto.

(c) **Shortfall Provisions.**

(i) **Tenant Waiver and Covenant.** Tenant may initiate a Reassessment to reduce a Baseline Assessed Value of the Premises, but may not initiate and waives any right to initiate, a Reassessment of the Subsequent Assessed Value of the Premises until the IFD Termination Date. In addition, Tenant covenants that should Tenant initiate a Reassessment in violation of this *Section 5.2(c)*, Tenant and Port will take the following measures to avoid shortfalls:

(1) For each year during the period provided in *Section 5.2(c)(i)(2)* Tenant will pay Port the Assessment Shortfall within 20 days after Port delivers its payment demand. Amounts not paid when due will bear interest at the rate of 10%, compounded annually, until paid.

(2) The obligation to pay the Assessment Shortfall will begin in the City Fiscal Year following the Reassessment and continue until the earlier to occur of the following dates: (A) the IFD Termination Date; and (B) when the Assessment Shortfall is reduced to zero.

(3) Payment of the Assessment Shortfall will constitute a cure of any Event of Default with respect to any breach by Tenant of the covenant and waiver in *Section 5.2(c)(i)* (Tenant Waiver and Covenant).

(ii) **Tax Exemption.** Tenant and Port do not intend for this *Section 5.2(c)* to affect the tax-exempt status of any Bonds. Should the Tax Code change, or the Internal Revenue Service or a court of competent jurisdiction issue a ruling that might cause any tax-exempt Bonds to be deemed taxable due to the requirements under this *Section 5.2(c)*, Port will release the obligations under this *Section 5.2(c)* and it will be deemed severed from this Lease.

(iii) **Mutual Expectations as to Shortfall Measures.** Neither Tenant nor Port expects Port to make demand for payment under this *Section 5.2(c)*. In light of the Parties' mutual expectations, Tenant has agreed to the waiver in *Section 5.2(c)(i)* (Tenant Waiver and Covenant).

(iv) *No Negotiation.* Tenant understands that Port would not be willing to enter into this Lease without this *Section 5.2(c)*

**5.3. Port's Right to Pay.** Unless Tenant is exercising its right to contest in accordance with the provisions of *Article 6*, if Tenant fails to pay and discharge any Imposition (including fines, penalties and interest) prior to delinquency, Port, at its sole option, may (but is not obligated to) pay or discharge the same; provided that prior to paying any such delinquent Imposition, Port will give Tenant written notice specifying a date that is at least ten (10) days following the date such notice is given after which Port intends to pay such Impositions. If Tenant fails, on or before the date specified in such notice, either to pay the delinquent Imposition or to notify Port that it is contesting such Imposition pursuant to *Article 6*, then Port may thereafter pay such Imposition, and the amount so paid by Port (including any interest and penalties thereon paid by Port), together with interest at the Default Rate computed from the date Port makes such payment, will be payable by Tenant as Additional Rent.

**5.4. Information Required by the Assessor-Recorder.**

(a) The Assessor-Recorder has notified Port that pursuant to Revenue and Taxation Code Section 441(d) (or any successor or otherwise applicable Law), it requires certain information in order to facilitate completion of Assessor Block Maps, updates to ownership records, imposition of transfer tax, and assessment of in-progress construction, completed new construction, sales and other assessable transfers of property (each a "Potential Assessment"). *Exhibit I* lists the information that the Assessor-Recorder expects to need in order to perform the foregoing tasks (the "Assessor Information").
