These Districts are devoted to one-family and two-family 9 10 houses, with the latter commonly consisting of two large flats, one occupied by the owner and the other available for rental. Structures are finely scaled and usually do not exceed 25 feet in 11 width or 40 feet in height. Building styles are often more varied than in historically single-12 family areas, but certain streets and tracts are quite uniform. Considerable ground-level open 13 space is available, and it frequently is private for each unit. The Districts may have easy 14 access to shopping facilities and transit lines. In In some cases, Group Housing and 15 institutions are found in these areas, although nonresidential uses tend to be quite limited. 16 17

12	These Districts are intended to recognize, protect, conserve, and enhance areas					
13	characterized by a mixture of houses and apartment buildings, covering a range of densities					
14	and building forms. RTO and RTO-M (Residential Transit Oriented, Mission) Districts are					
15	composed of multi-family moderate-density areas, primarily areas formerly designated RM					
16	and RH-3, and are well served within short walking distance, generally less than one-quarter					
17	mile, of transit and neighborhood commercial areas. Transit available on nearby streets is					
18	frequent and/or provides multiple lines serving different parts of the City or region. Limited					
19	small-scale neighborhood-oriented retail and services is common and permitted throughout					
20	the neighborhood on Corner Lots only to provide goods and services to residents within					
21	walking distance, but the districts are otherwise residential. Only retail compatible with					
22	housing, generally those permitted	d in NC-1 Districts, is	s permitted and auto-oriented uses are			
23	not permitted. Hours of operation	are restricted and of	f-street parking is not permitted for			
24	these very locally-oriented uses.

11	The Broadway District controls are designed to encourage development that is
12	compatible with the existing moderate building scale and mixed-use character, and maintain
13	the district's balance of entertainment uses, restaurants, and small-scale retail stores. New
14	buildings exceeding 40 feet in height will be carefully reviewed and rear yards at residential
15	levels are protected. Most commercial uses in new buildings are permitted at the first two
16	stories. Neighborhood-serving businesses are strongly encouraged. In order to protect the
17	livability of the area, limitations apply to new fast-food restaurants and adult entertainment
18	uses at the first and second stories, as well as late-night activity. Financial services are
19	allowed on the ground story subject to certain limitations. Nonretail offices are

18 SEC. 716. INNER CLEMENT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

19 * * * *

The Inner Clement Street District controls are designed to promote development that is consistent with its existing land use patterns and to maintain a harmony of uses that supports the district's vitality. The building standards allow small-scale buildings and uses, protecting rear yards above the ground story and at residential levels. In new development, most commercial uses are permitted at the first two stories, although certain limitations apply to uses at the second story. Special controls are necessary to preserve the equilibrium of

1	neighborhood-serving	convenience and	comparison	shopping b	ousinesses and	protect

2 adjacent residential livability. These controls *limitprohibit* additional financial service *uses, and*

3 *limit* additional eating and drinking establishments, and late-night commercial uses. In order to

4 maintain the street's active retail frontage, controls also prohibit most new automobile and

5 drive-up uses.

The Haight Street District controls are designed to protect the existing building scale and promote new mixed-use development which is in character with adjacent buildings. 18 * * * *

19 Special controls on commercial uses are designed to protect the existing mix of ground-

story retail uses and prevent further intensification and congestion in the district. *No new*

21 *financial services are permitted*. Because the district and surrounding neighborhoods are well

- served by the existing number of eating and drinking establishments, new bars are
- discouraged: any proposed new establishment should be carefully reviewed to ensure that it
- is neighborhood-serving and family-oriented, and will not generate traffic, parking, or litter
- 25 problems. Medical, business or professional services are permitted at the first two stories, but

1 additional ground-story locations are to be closely monitored to ensure that the current 2 balance between retail and office uses is maintained. Existing service stations are 3 encouraged to continue operating, but changes in their size, operation, or location are subject 4 to review. Other automotive uses are prohibited. The neighborhood-oriented, retail character 5 of the district is further protected by prohibiting hotels and *limiting* nonretail uses. The daytime 6 orientation of the district is maintained by prohibition of late-night commercial operating hours. 7 * * *
